New Orleans, from its low situation, more than from its warm and moist climate, suffers periodically from the yellow fever. No summer, indeed, passes over without the visitation of this terrible malady, and it not unfrequently rages as an epidemic. In 1841, '43, '47, this distemper was very fatal, while in 1842, '44, '46, '48, and '49, the number of cases were comparatively small, and in 1845 only one case is reported. In 1847 the admissions into the Charity Hospital, on account of yellow fever, numbered no less than 2,511, and the admissions for intermittent and remittent fevers were commensurately great, having been nearly 4,000. These visitations have no doubt been the means of retarding the growth of the city, but that the salubrity of the climate is gradually being improved is certain, and when in a few years the swamps in the neighborhood are filled in, the location will be as healthy as that of any other southern port. During the winter and spring the climate is reputed healthy, and thousands flock to the city from all quarters of the world—some for health, others for pleasure, and still more in connection with the immense business of all kinds which is here transacted.

Perhaps no city of the Union is so diversified in its population. The sunny isles of the Antilles, Mexico, Central America, and South America, France and Spain, and the other States of Europe, and the sister States northward, have each representatives among the inhabitants. The colored races, however, preponderate, and slave or free make up one-half at least. Of the white races, the American, French, and Spanish constitute the larger portion, and in these classes are found what may be denominated the aristocracy. The Irish here, as in other quarters, though forming a large class, are but the "hewers of wood and drawers of water"—the laborers and levee-men, respectable only on election day and among themselves. The English and Scotch are few in proportion, and are chiefly connected with the foreign commerce as merchants or factors, seldom remaining longer in the city than is necessary for the transaction of their particular business; nor do the Germans form a large class. This admixture of races is in some degree embarrassing; so many languages, various customs and manners, and in habits so different, no thorough amalgamation can take place; and it is even necessary to support newspapers and periodicals of different languages, each of which in its opinions and ideas is at variance with the other. But this circumstance has also its advantages—it elicits much that is useful and cosmopolitan, tending to soften the asperity of nationalities, and to the fraternization of races. The vices and virtues of such a community stand in bold relief, and Sunday bull-baiting, gaming, and balls, contrast harshly with the divine exercises appropriate to that day of rest.

The railroads diverging from New Orleans are as yet few in number, designed chiefly to facilitate the transit of goods by short routes to and from the adjacent shipping places. These are the roads to Lake Pontchartrain, to Lake Borgne, and to Carrollton on the Mississippi. The commercial men

of the city, however, have determined upon the prosecution of several important lines, which will secure to it a commerce which was fast lapsing to the Atlantic ports. The principal of these are the New Orleans, Jackson, and Northern R. R.; the New Orleans, Opelousas, and Great Western R. R.; the New Orleans and Nashville R. R.; and a railroad from Mobile, connecting with the navigation of Lake Pontchartrain, which will supersede the tedious navigation of the passes along the southern shore of Mississippi. The canals of New Orleans have been opened with the same design as that fulfilled by the existing railroads.

Opposite to New Orleans, and connecting with it by a ferry, is the town of Algiers, the principal workshop of the city. Here are several extensive ship-yards, and numerous artisans engaged in building and repairing vessels. At Maedonough, above and adjoining it, is the United States Marine Hospital, a splendid building, used for the purpose its name designates. Belleville lies below and also adjoins Algiers, and has many fine residences. Many of the seats in the suburbs of the city are surrounded with spacious gardens, splendidly ornamented with orange, lemon, magnolia, and other trees.

The history of New Orleans in its early epochs is that of the whole French settlements in Lower Louisiana. This will be found under its appropriate caption. The city was founded in 1717, and named after the Duc d'Orleans, then regent of France, but the site was abandoned soon after, and not settled again until 1722. Soon after this it began to prosper, and constant accessions were made to the population by the arrival of immigrants. By the treaty of 1763, New Orleans, with all Louisiana west of the Mississippi, was transferred to Spain by treaty. The population now numbered 3,190. The transfer greatly provoked the French inhabitants, and some opposition was made, but in the end the Spanish laws were gradually introduced, and, by a beneficent administration, the city so flourished under the new government, that the population in 1785 had increased to 4,950—a great movement in those days. In 1792, the city was divided into four wards, and its police greatly improved, and two years later the first newspaper was published. The country was prosperous at the commencement of the French Revolution; but in 1801, Spain having fallen into the power of France, it was retroceded to that nation, and in 1808 was sold to the United States by the French. The population was now over 8,000. In 1804, New Orleans was made a port of entry, and in 1805 was incorporated. Early in 1812 the first steamboat arrived from the Ohio! The war of 1812-15 now broke out, and the British made a descent on the city, and on the 8th of Jan., 1815, the greatest battle of the war was fought—the result is known to every schoolboy. The modern progress of the city now commenced; the settlement of the valley of the Mississippi, and the consequent trade with the only port of its outlet, increased rapidly and proportionally. The increase is still going on, and will raise New Orleans to the first rank among commercial cities. It is now the great depot of the export trade of the valley; and when its railroads to the north are completed, much of the import trade now having its course from the northern Atlantic coast will certainly make New Orleans its entrepôt. The difficult up-navigation of the river, even by steamboats, has hitherto been the great drawback, but with this line of road, New Orleans will compete successfully with New York, Boston, and Philadelphia for the golden fleece of the great west.

Population in 1763, 3,190; in 1785, 4,950; in 1804, 8,000; in 1810, 17,242; in 1820, 27,178; in 1830, 49,826; in 1840, 102,193; and in 1850, 119,461. The population of Lafayette in 1840 was 3,207, and in 1850, 14,190.

NEW OXFORD, post village, Adams county, *Penn.*: on the east side of Conewago creek, 27 miles south by west Harrisburg.

NEW PALESTINE, p. v., Clermont co., *Ohio*: on the Ohio r., 92 m. S. W. Columbus; is a small village of considerable

business, particularly in the manufacture of brick, which is mainly taken to Cincinnati.

NEW PALTZ, t. and p. v., Ulster co., *N. Y.*: 70 m. S. by W. Albany, on the Walkill. Surface hilly; soil mostly loam and fertile. The v. contains a flourishing academy and 8 churches. Pop. of t. 2,729.

NEW PALTZ LANDING, p. o., Ulster co., *N. Y.*: on W. bank of Hudson r., opposite Poughkeepsie, 9 m. E. New Palz village.

NEW PARIS, p. v., Prekle county, *Ohio*: 80 m. W. by S. Columbus, on W. bank of Whitewater r., which affords good water-power.

NEW PETERSBURG, p. v., Highland co., *Ohio*: on S. side Paint cr., 54 m. S. S. W. Columbus.

NEW PHILADELPHIA, p. o., Pike co., *Ill.*: on Bay cr., 62 m. W. by S. Springfield.

NEW PHILADELPHIA, p. o., Washington co., *Ind.*: on N. side of Great Blue r., 80 m. S. by E. Indianapolis.

NEW PHILADELPHIA, p. v., and cap. Tuscarawas co., *Ohio*: 86 m. E. N. E. Columbus, on E. bank Tuscarawas r., opposite the mouth of Sugar cr. The v. is on a handsome plain, and has considerable business. It contains the court-house and jail. Two newspapers are published weekly, "Tuscarawas Advocate" (whig), and "Ohio Democrat" (dem.) Pop. 1,415.

NEW PRITTSBURG, p. v., Wayne co., *Ohio*: on E. side of Muddy fork of Walbonding r., 74 m. N. E. by N. Columbus.

NEW PLYMOUTH, p. o., Vinton co., *Ohio*: 57 m. S. E. by S. Columbus.

NEW POINT COMFORT, *Virg.*: the S. E. extremity of Matthews co., between Chesapeake and Mob Jack bays.

NEWPORT county, *R. I.* Consisting of several islands in Narragansett Bay, with a portion of the mainland, containing in the whole an area of 136 sq. m. Rhode Island, containing 37½ sq. m., forms the most important portion of the county. Surface uneven; soil fertile, and produces good crops of grain, etc., and affords fine pasturage for cattle. The other chief insular portions of the county are Providence, Canonicut, and Block islands. Chief productions wheat, Indian corn, and potatoes. The advantages connected with navigation are considerable, and fishing is much followed by the inhabitants. Fossil coal is found in this county. Farms 1,027; manuf. 65; dwell. 2,936, and pop. —wh. 19,341, fr. col. 666—total 20,007. Capital: Newport.

NEWPORT, p. v., New Castle county, *Del.*: on N. side of Christina cr., 35 m. N. Dover. The Philadelphia, Wilmington, and Baltimore R. R. passes through the v., 32 m. from Philadelphia, 66 m. from Baltimore.

NEWPORT, p. v., and cap. Wakulla county, *Flor.*: on St. Mark's r., 16 m. E. S. E. Tallahassee. The "Wakulla Times" is published weekly.

NEWPORT, p. v., and cap. Vermillion co., *Ind.*: on S. bank of Little Vermillion r., 2 m. above its junction with the Wabash r., 65 m. W. by N. Indianapolis. It contains a court-house, jail, several stores, and is surrounded by a very fertile country.

NEWPORT, p. v., and cap. Campbell co., *Ky.*: on Ohio r., above the junction of Licking r., 63 m. N. N. E. Frankfort. It is situated on an elevated plain commanding a fine view of Cincinnati directly opposite, with which city there is steam ferry connection. Here is a garrison of U. S. army, several factories and churches. The "Newport and Covington News" is published daily.

NEWPORT, t. and p. v., Penobscot county, *Me.*: 48 m. N. E. by N. Augusta. Pop. 1,212.

NEWPORT, p. v., Charles co., *Md.*: on stream of Allen's Fresh, 14 m. S. E. Port Tobacco, 43 m. S. by W. Annapolis.

NEWPORT, p. v., Franklin co., *Mo.*: S. side Missouri r., 54 m. E. Jefferson City.

NEWPORT, p. v., Monroe co., *Mich.*: on an estuary of Lake Erie, the mouth of Swan cr., 81 m. S. E. Lansing.

NEWPORT, p. v., St. Clair co., *Mich.*: on St. Clair r., at mouth of Belle r., 103 m. E. by S. Lansing; is well situated,

and has a very large business in sawing and exporting pine timber, which abounds in this section.

NEWPORT, t. p. v., and cap. Sullivan co., *N. Hamp.*: 34 m. W. N. W. Concord. Drained by Sugar r. and branches. Surface uneven; soil fertile on the streams. The E. and S. branches of Sugar r. unite near the v. and afford water-power to several mills. The "N. H. Argus and Spectator" (dem.) is published weekly. Pop. 2,020.

NEWPORT, t. and p. v., Herkimer county, *N. Y.*: 76 m. N. W. by W. Albany, on West Canada cr. Surface of t. hilly; soil sandy and calcareous loam. The v. has some manufactures, and is a thriving place. Pop. of t. 2,126.

NEWPORT, p. v., Cumberland co., *N. Jer.*: 65 m. S. S. W. Trenton, on Nautuxet cr., 5 m. above its mouth.

NEWPORT, t. and p. v., Washington co., *Ohio*: on Ohio r., 12 m. E. Marietta, 100 m. E. S. E. Columbus. Surface of t. level; soil alluvial. Pop. 1,427. The v. is finely situated, and is a thriving place. Pop. of t. 1,427.

NEWPORT, p. v. and sta., Perry co., *Penn.*: on W. side of Juniata r., above the confluence of Little Buffalo cr., 24 m. N. W. Harrisburg. The Pennsylvania R. R. and Pennsylvania Canal pass through this village. There is a blast furnace at Newport, 3 m. distant.

NEWPORT, p. v., and cap. Cocke co., *Tenn.*: on S. side French Broad r., 204 m. E. by S. Nashville.

NEWPORT, t. p. v., port of entry, and cap. Newport co., *R. I.*, and one of the capitals of the State: on S. W. side of Rhode Island, 5 m. from the ocean, 24 m. S. by E. Providence, 70 m. S. by W. Boston. Lat. 41° 29' N., long. 71° 19' 12" W. from Greenwich, and 5° 42' 45" E. from Washington. The t. is in form an irregular semi-circle, as also is the harbor upon which the v. is situated. Surface undulating, presenting variety of scenery; soil very fertile. The harbor is one of the best in the U. S.; and celebrated for its beauty. It is very accessible, spacious, safe, and deep enough for the largest vessels—defended by forts Adams and Wolcott, which are garrisoned by companies of U. S. artillery. The former is very large, of great strength, and was built at great expense. A U. S. naval officer is stationed here. The v. occupies a beautiful acclivity, which rises gradually from the harbor, presenting a beautiful appearance. It was settled in 1638, grew rapidly, and was very flourishing until the Revolutionary War, at which time its population was about 10,000. During the war it was chiefly held by the British, and at its close the population was about 5,500. It then somewhat revived for a time, until the embargo preceding 1812; but subsequently its trade was much diverted to Providence and other places. Many of the inhabitants are engaged in the coasting trade and fisheries. Some large cotton and woolen factories have been established. The principal public buildings consist of the State-house, market-house, custom-house, and Redwood Library and Athenaeum, containing 4,000 vols. Besides 12 churches there is a Jews' synagogue, now unused but kept in fine repair by avails of a legacy. There is also a savings' bank, 7 banks, with a capital of \$650,000. The total valuation of property in Newport in 1850, was \$4,720,450, tax assessed, \$15,577. By the Fall River line the steamboats it has daily communication with New York; a steambot also plies daily to Providence. Projects of connecting Newport by railroad with Fall River, Bristol, and Providence, are in agitation. Two newspapers are published daily, "News" (whig), and "Advertiser" (whig); 3 weekly, "Newport Mercury" (whig), established in 1758, "Herald and Rhode Islander" (whig), and "Advertiser" (whig). *Commerce*.—on the 30th June, 1850, the total tonnage of Newport district was 10,579 tons; registered 5,645, enrolled and licensed 4,934. Of registered tonnage 4,279 tons were permanent, 1,365 were temporary, and 1,517 tons were in the whale fishery. Of the enrolled and licensed tonnage, 4,560 tons were permanent, 4,112 in the coasting trade, 256 were propelled by steam, 320 in mackerel fishery, and 327 tons in cod fishery. During the year previous, the number of clearances for foreign countries was

17—2,752 tons; number of entrances do., 17—2,602 tons; 1 schooner built, 96 tons. During the calendar year 1849, 1,055 barrels of sperm oil were brought into this port. Newport has long been a very favorite fashionable summer resort. It is attractive because of its beautiful scenery, cool and salubrious sea breezes, fashionable company, large and well-kept hotels, opportunities for fishing, bathing, etc. In the vicinity of Newport is a curious monument of antiquity—the Old Tower, or Old Stone Mill, of which the age and origin are unknown, and have been the subject of much learned discussion. Pop. of t. in 1830, 8,010; in 1840, 8,333; in 1850, 9,563.

NEWPORT, t. and p. o., Orleans co., *Verm.*: 50 m. N. by E. Montpelier. Bounded on N. E. by Lake Memphremagog. Pop. 748.

NEWPORT, p. v., Giles co., *Virg.*: on S. bank of creek of New r., 170 m. W. by S. Richmond.

NEWPORT, p. o., Lake county, *Ill.*: about 2 m. E. of Des Plaines r., 208 m. N. N. E. Springfield.

NEWPORTAGE, p. v., Summit co., *Ohio*: 100 m. N. E. Columbus, on the line of Akron Branch R. R., and on E. bank of Wolf creek.

NEWPORT CENTRE, p. o., Luzerne county, *Penn.*: 73 m. N. E. by N. Harrisburg.

NEW PORTLAND, t. and p. o., Somerset co., *Me.*: 45 m. N. N. W. Augusta. Drained by Seven Mile brook and its branches. Soil fertile and adapted to grain. Population 1,460.

NEW PORTLAND, p. v., Ralls co., *Mo.*: on N. side of Salt river, 70 m. N. by E. Jefferson City.

NEW PORTLAND, Stewart co., *Tenn.*: 63 m. W. N. W. Nashville.

NEWPORTSVILLE, p. v., Bucks co., *Penn.*: on N. E. side of Neshaming creek, at the head of navigation, about 3 m. from its mouth, 103 m. E. Harrisburg.

NEW PRESTON, p. v., Litchfield co., *Conn.*: 37 m. W. by S. Hartford, 36 m. N. W. New Haven, on W. side of E. Aspetuck r., 1 m. S. Raumang lake.

NEW PRINCETON, p. v., Coshocton county, *Ohio*: 60 m. E. N. E. Columbus.

NEW PROSPECT, p. o., Orange county, *Ind.*: on S. side of Lick cr., 85 m. S. by W. Indianapolis.

NEW PROSPECT, p. v., Greene co., *Ala.*: 89 m. W. N. W. Montgomery.

NEW PROSPECT, p. o., Winston co., *Miss.*: 57 m. N. E. Jackson.

NEW PROSPECT, p. v., Bergen co., *N. Jer.*: on Hohokus creek, 63 m. N. E. by N. Trenton. The v. is finely situated on elevated ground. Considerable water-power is afforded by the creek, and is improved by several paper and grist mills, etc.

NEW PROSPECT, p. o., Wayne co., *Ohio*: on Chippewa r., 57 m. N. E. by N. Columbus.

NEW PROSPECT, p. v., Spartanburg dist., *S. Car.*: 98 m. N. W. by N. Columbia.

NEW PROVIDENCE, t. and p. v., Essex co., *N. Jer.*: on E. side of Passaic r., 37 m. N. E. by N. Trenton. Surface of t. hilly; soil sandy loam. Drained by Passaic r. Pop. of t. 1,216. The Morris and Essex R. R. passes through the N. part, at Summit sta.

NEW PROVIDENCE, p. o., Lancaster co., *Penn.*: 41 m. E. S. E. Harrisburg.

NEW PROVIDENCE, p. v. and sta., Clark co., *Ind.*: 87 m. S. by E. Indianapolis, 19 m. by railroad from New Albany, on the New Albany and Salem R. R. Drained by the Muddy Fork of Silver creek.

NEW PROVIDENCE, p. v., Montgomery co., *Tenn.*: 47 m. N. W. Nashville.

NEW RETREAT, p. o., Washington county, *Ind.*: 80 m. S. Indianapolis.

NEW RICHLAND, p. v. and sta., Logan co., *Ohio*: 52 m. N. W. by W. Columbus; station on Mad River and Lake Erie R. R.

NEW RICHMOND, p. v., Clermont co., *Ohio*: 95 m. S. W. Columbus, on Ohio r., near Muddy cr.; is very flourishing.

NEW RICHMOND, p. o., Crawford county, *Penn.*: 187 m. N. W. by W. Harrisburg.

NEW RICHMOND, p. v., Montgomery county, *Ind.*: 50 m. N. W. Indianapolis.

NEW RIVER, p. v., Columbia co., *Flor.*: on New river, a branch of Santa Fé r., 127 m. E. by S. Tallahassee.

NEW RIVER, p. o., Ascension par., *La.*: E. side Mississippi r., 18 m. S. S. E. Baton Rouge.

NEW RIVER, Ascension par., *La.*: rises near the Mississippi river, flows E., parallel to Amitté r., into Lake Maurepas.

NEW RIVER, Onslow co., *N. Car.*: rises in N. W. part of the co., flows through it centrally toward the coast, and empties into New river inlet.

NEW RIVER, Beaufort dist., *S. Car.*: rises near the centre of the dist., and flows S. S. W., parallel to Savannah river, emptying into Calibogue Sound.

NEW RIVER, *Virg.*: rises in N. part of *N. Car.*: its general course is N. N. W., through the S. W. portion of *Virg.*, until it receives Gauley river, after which it is called Great Kanawha river, and flows N. W. to its confluence with the Ohio river.

NEW RIVER INLET, Onslow co., *N. Car.*: 57 m. W. by S. Cape Lookout.

NEW ROAD, p. o., Delaware co., *N. Y.*: 81 m. W. S. W. Albany.

NEW ROCHELLE, t., p. v., and sta., Westchester co., *N. Y.*: 134 m. S. Albany. Surface of t. undulating; soil, clay loam, and well cultivated; watered on the S. side by Long Island Sound. The v. is a station of the New York and New Haven R. R., 20 m. from New York, with which it has also constant steamboat connection. It is handsomely situated, overlooking L. I. Sound, and is a fashionable resort in the summer months. It contains several churches, three good academies, and a few factories. Pop. of t. 2,458.

NEW ROCHESTER, p. v., Wood co., *Ohio*: 93 m. N. by W. Columbus, on Portage river.

NEW ROE, p. v., Allen county, *Ky.*: 120 m. S. S. W. Frankfort.

NEW ROSS, p. o., Montgomery co., *Ind.*: on S. bank of Sugar cr. of Rock r., 35 m. W. N. W. Indianapolis.

NEW RUMLEY, p. v., Harrison co., *Ohio*: 105 m. E. N. E. Columbus.

NEW RUSSIA, p. o., Essex county, *N. Y.*: 110 m. N. Albany.

NEWRY, p. o., Jackson co., *Ind.*: on E. side of Vernon Fork, 63 m. S. by E. Indianapolis.

NEWRY, t. and p. o., Oxford co., *Me.*: on N. side of Androscoggin r., 51 m. W. by N. Augusta. Drained also by Bear brook, and another cr., which afford water-power. Population 459.

NEWRY, p. v., Blair co., *Penn.*: 83 m. W. by N. Harrisburg. Poplar r., a tributary of the Frankfort branch of Juniata r., passes near the village.

NEWS, p. o., Calhoun co., *Ill.*: 73 m. S. W. Springfield.

NEW SALEM, p. o., Rush co., *Ind.*: 40 m. E. S. E. Indianapolis.

NEW SALEM, p. o., Rusk co., *Tex.*: 223 m. N. E. Austin City.

NEW SALEM, t. and p. v., Franklin county, *Mass.*: 67 m. W. by N. Boston. Drained by Miller's r. and an affluent of it, and a branch of Middle r.; surface elevated, and a part mountainous; soils fertile, and adapted to grazing. The t. contains 2 handsome villages, several stores, and a few factories. Pop. 1,253.

NEW SALEM, p. o., Albany county, *N. Y.*: 14 m. W. by S. Albany.

NEW SALEM, p. v., Randolph co., *N. Car.*: 68 m. W. Raleigh.

NEW SALEM, t. and p. v., Fairfield county, *Ohio*: 23 m. E. by S. Columbus. Pop. 210.

NEW SALEM, p. o., Pike county, *Ill.*: 73 m. W. by S. Springfield.

NEW SALEM, p. v., Fayette co., *Penn.*: 154 m. W. by S. Harrisburg.

NEW SALEM, p. o., Harrison co., *Virg.*: on the line of the North Western (Va.) R. R., 207 m. N. W. Richmond.

NEW SALISBURY, p. v., Harrison co., *Ind.*: on N. side of Indian cr., 100 m. S. Indianapolis.

NEW SCOTLAND, t. and p. o., Albany county, *N. Y.*: 6 m. W. by S. Albany. Surface hilly; drained by Normanskill. Pop. 3,459.

NEW SHARON, t. and p. o., Franklin co., *Me.*: on E. side of Sandy r., 23 m. N. N. W. Augusta. Pop. 1,732.

NEW SHARON, p. o., Monmouth co., *N. Jer.*: 24 m. E. Trenton.

NEW SHEFFIELD, p. v., Beaver co., *Penn.*: 173 m. W. by N. Harrisburg, on a tributary of the Ohio river.

NEW SHOREHAM, t. and p. o., Newport co., *R. I.*: 13 m. S. S. W. Point Judith; 15 m. N. N. E. Montauk Point, L. I. The t. comprises Block Island, 8 m. long, and 2 to 4 m. broad. Surface uneven; soil sandy and gravelly loam. The inhabitants are mostly fishermen. Peat is used as fuel. Pop. 1,262.

NEW SMYRNA, p. v., Orange co., *Flor.*: on Mosquito inlet, 229 m. E. S. E. by S. Tallahassee, is a U. S. military post. It has an improving commerce.

NEW SOMERSET, p. v., Jefferson co., *Ohio*: 123 m. E. N. E. Columbus.

NEWSOM, p. o., Bibb co., *Ga.*: 35 m. S. W. Milledgeville.

NEWSOM'S DEPOT, p. o. and sta., Southampton co., *Virg.*: 70 m. S. by E. Richmond, on the Sea-board and Roanoke R. R., 50 m. from Portsmouth, 30 m. from Weldon.

NEW SPRINGFIELD, p. v., Mahoning co., *Ohio*: 133 m. N. E. by E. Columbus.

NEW STANTON, p. v., Westmoreland co., *Penn.*: 141 m. W. Harrisburg.

NEWSTEAD, t. and p. o., Erie co., *N. Y.*: on S. side of Tonawanda cr., 255 m. W. by N. Albany. Pop. 2,899.

NEWSTEAD, p. o., Christian county, *Ky.*: 163 m. S. W. Frankfort.

NEW STONE, p. o., Buckingham co., *Virg.*: 65 m. W. by S. Richmond.

NEW SUFFOLK, port, Suffolk co., *N. Y.*: this small port, in Southold t., fronts on the N. E. portion of Great Peconic Bay. Its tonnage is chiefly employed in the fisheries. On January 1st, 1850, it had 227 tons in the whale fishery, and during 1849 it received 242 barrels of sperm oil, 314 barrels of whale oil, and 1,200 pounds of whalebone.

NEW SWEDEN, p. v., Clinton co., *N. Y.*: on N. side of Sable r., 123 m. N. Albany.

NEWTON county, *Ark.* Situate N. toward the W., and contains 733 sq. m. Drained by Buffalo fork of White r. and other streams. Surface varied; in the S. being hilly and broken, the residue generally level. Soil fertile, and well adapted to corn. Galena and other ores abound in this region. Farms 230; manuf. 0; dwell. 238, and pop.—wh. 1,704, fr. col. 7, sl. 47—total 1,763. *Capital*: Jasper.

NEWTON county, *Ga.* Situate N. centrally, and contains 414 sq. m. Drained by Acoyahatchee and Yellow rivers, tributaries of Ocmulgee r. Surface undulating, and soil fertile and very productive. Cotton is the staple, but wheat and corn are raised in considerable quantities. Agriculture is much attended to by a large portion of the population. Timber is abundant. Farms 812; manuf. 23; dwell. 1,374, and pop.—wh. 8,079, fr. col. 30, sl. 5,157—total 13,296. *Capital*: Covington. *Public Works*: Georgia R. R.

NEWTON county, *Miss.* Situate E. middle, and contains 576 sq. m. Drained by head branches of Chickasawha r., and branches of Tuscalameta cr. Surface even; soil fertile, and generally productive; it is well adapted to cotton, which is the staple. Farms 350; manuf. 0; dwell. 536, and pop.—wh. 3,432, fr. col. 1, sl. 1,032—total 4,465. *Capital*: Decatur. *Public Works*: Mobile and Ohio R. R.; Alabama and Mississippi R. R.

NEWTON county, *Mo.* Situate S. W., and contains 639

sq. m. Drained by Neh-hah r. and other streams, all tributaries of Neosho r. Surface level; soil fertile, and adapted to grain. There is much good timber on the land. Farms 293; manuf. 11; dwell. 653, and pop.—wh. 4,013, fr. col. 14, sl. 241—total 4,263. *Capital*: Neosho.

NEWTON county, *Tex.* Situate E., and contains 1,196 sq. m. Drained by branches of Sabine r., which forms its E. boundary. Surface varied, in the N. being hilly, but in the S. undulating; the land, in general, is thickly wooded. Soil a black mold, with sand intermixed, and generally fertile, producing good crops of cotton, sugar, corn, wheat, etc. It has some fine timber land, and contains many streams of pure water. Petrified trunks of trees are found in the northern part, which are so hard that they are used in many cases as flints. Farms 141; manuf. 5; dwell. 219, and pop.—wh. 1,255, fr. col. 8, sl. 426—total 1,639. *Capital*: Burkeville.

NEWTON, p. v., and cap. Dale co., *Ala.*: on S. side of Choctawhatchee r., 84 m. E. S. E. Montgomery; contains the court-house and several stores.

NEWTON, p. v., and cap. Baker co., *Ga.*: on W. side of Flint r., 143 m. S. S. W. Milledgeville; contains the court-house and several stores.

NEWTON, p. v., and cap. Jasper co., *Ill.*: on S. W. side of Embarras r., 94 m. S. E. Springfield. It contains the court-house and several stores, and is the central business v. of the county.

NEWTON, t. p. v., and sta., Middlesex co., *Mass.*: 9 m. W. Boston. Drained by Charles r. and affluents; surface varied; soil fertile and highly cultivated. Charles r. bounds the t. on the N. W. and S., having two falls, at each of which is a v. containing manufactories. At the Upper Falls the r. descends 35 feet in half a mile. At the Lower Falls the v. lies partly in the t. of Needham. The Boston and Worcester R. R. passes through it. The Newton Theological Seminary (Bapt.) was founded in 1825; the building—at Newton Centre—is a brick edifice, 55 feet long, 49 wide, and 3 stories high. Pop. 5,258.

NEWTON, t. and p. o., Calhoun co., *Mich.*: 45 m. S. W. Lansing. Drained by branch of St. Joseph's river. Population 569.

NEWTON, p. v., and cap. Jasper co., *Ia.*: 79 m. W. Iowa City, is a beautiful and flourishing town, on a prairie between the branches of Skunk river.

NEWTON, t. p. o., and sta., Rockingham co., *N. Hamp.*: 34 m. S. E. Concord. The Boston and Maine R. R. passes through the t. 41 m. from Boston. Pop. 5,279.

NEWTON, t. p. v., and cap. Sussex co., *N. Jer.*: 55 m. N. Trenton. Surface of t. diversified; drained by the Paulin's kill. The v. is well situated and laid out, and contains, besides the court-house and jail, several churches and schools. Two newspapers are published weekly: "Sussex Register" (whig), and "New Jersey Herald" (dem.). There is 1 bank, capital \$134,480. Pop. of t. 3,279.

NEWTON, p. v., and cap. Catawba co., *N. Car.*: near South Catawba r., 133 m. W. Raleigh.

NEWTON, t. and p. o., Muskingum county, *Ohio*: 43 m. E. by S. Columbus. Surface of t. undulating; soil good; well watered by numerous creeks of Muskingum river. Pop. 2,356.

NEWTON CENTRE, p. v., Middlesex co., *Mass.*: 7 m. W. Boston, on the Boston and Worcester R. R. This v. contains the Newton Theological Seminary, the manston-house for the students, and dwellings of the professors, besides many pleasant residences.

NEWTON CORNERS, p. o., Jefferson co., *Wis.*: 32 m. E. Madison.

NEWTON FACTORY, p. o., Newton co., *Ga.*: 59 m. N. W. Milledgeville.

NEWTON FALLS, p. o., Trumbull co., *Ohio*: 132 m. N. E. Columbus, on Pennsylvania and Ohio Canal, at junction of the two branches of Mahoning river, which afford extensive water-power to several mills and factories.

NEWTON GROVE, p. o., Sampson co., *N. Car.*: 54 m. S. S. E. Raleigh.

NEWTON LOWER FALLS, p. v. and sta., Middlesex county, *Mass.*: on Charles r., 11 m. W. Boston. A branch of the Boston and Worcester R. R. extends to the village.

NEWTON STEWART, p. o., Orange co., *Ind.*: on S. bank of Patoka cr., 95 m. S. by W. Indianapolis.

NEWTONSVILLE, p. o., Clermont county, *Ohio*: 85 m. S. W. Columbus.

NEWTONSVILLE, p. o., Attala county, *Miss.*: 63 m. N. N. E. Jackson.

NEWTON UPPER FALLS, p. v. and sta., Middlesex county, *Mass.*: on Charles r., 9 m. W. S. W. Boston. The fall of the river is 85 feet, used by extensive manufactories. The Charles River Branch R. R. extends to this v. from West Newton.

NEW TOPSAIL INLET, *N. Car.*: 18 m. N. E. Wilmington.

NEWTOWN, t., p. b., and sta., Fairfield co., *Conn.*: 41 m. S. W. Hartford, 23 m. W. N. W. New Haven, on the Housatonic R. R., 19 m. from Bridgeport. Surface of t. hilly; soil gravelly loam, fertile, adapted to grain and fruit. Drained by the Potatuck and other creeks of Housatonic r., and contains several factories, mills, and churches. The borough is beautifully situated on high ground. Pop. of t. 3,358.

NEWTOWN, p. v., Fountain co., *Ind.*: on Coal cr., 60 m. W. N. W. Indianapolis.

NEWTOWN, p. v., Scott co., *Ky.*: 24 m. E. by N. Frankfort.

NEWTOWN, p. v., Worcester co., *Md.*: on W. side of b. of Pocomoke r., 5 m. N. W. Snow Hill, 76 m. S. E. Annapolis.

NEWTOWN, p. v., Hinds co., *Miss.*: on W. side of Pearl r., 9 m. S. S. W. Jackson, on line of New Orleans, Jackson and Northern R. R.

NEWTOWN, t. and p. v., Queen's county, *N. Y.* The t. is bounded on N. side by East r., and is also drained by Newtown cr. Surface of t. various; soil sand and clay loam, fertile, and adapted to fruit. Horticulture and agriculture are the chief occupations of the inhabitants. Pop. of t. 7,208

NEWTOWN, p. v., Hamilton co., *Ohio*: on E. side Little Miami r., 90 m. S. W. Columbus.

NEWTOWN, t. and p. b., Bucks county, *Penn.*: 99 m. E. Harrisburg. Drained by Newtown cr., which affords hydraulic power. Surface even, soil fertile clay loam, well cultivated. The b. is on the cr., and contains several stores and factories, and is a considerable place.

NEWTOWN, p. v., King and Queen county, *Virg.*: 29 m. N. N. E. Richmond.

NEWTOWN creek, *N. Y.*: rises in Newtown, Queen's co., flows W. and enters East river, opposite New York.

NEWTOWN creek, Chemung co., *N. Y.*: a small stream, affording mill-sites, rising in t. of Erin, and entering Chemung r. near Elmira.

NEWTOWN HAMILTON, p. o., Mifflin county, *Penn.*: 47 m. N. W. Harrisburg.

NEWTOWN SQUARE, p. v., Delaware co., *Penn.*: 78 m. E. S. E. Harrisburg.

NEWTOWN STEPHENSBURG, p. v., Frederick co., *Virg.*: 112 m. N. N. W. Richmond. Pop. 400.

NEW TRENTON, p. v., Franklin co., *Ind.*: on Whitewater r. and canal, 20 m. N. Lawrenceburg, 70 m. E. S. E. Indianapolis.

NEW TRIER, p. o., Cook co., *Ill.*: 164 m. N. E. by N. Springfield.

NEW TRIPOLE, p. v., Lehigh co., *Penn.*: on a branch of Maiden cr., 64 m. N. E. by E. Harrisburg.

NEW UTRECHT, t. and p. o., King's county, *N. Y.*: 6 m. S. Brooklyn, 140 m. S. Albany; is a fashionable resort during the summer months. Pop. 2,129.

NEW VERNON, p. v., Morris co., *N. Jer.*: 40 m. N. N. E. Trenton.

NEW VERNON, p. o., Orange co., *N. Y.*: 92 m. S. S. W. Albany.

NEW VERNON, p. o., Mercer co., *Penn.*: 196 m. W. N. W. Harrisburg.

NEW VIENNA, p. o., Clinton county, *Ohio*: 50 m. S. W. Columbus.

NEW VIENNA, p. v., Dubuque co., *Ia.*: 62 m. N. N. E. Iowa City.

NEW VILLAGE, p. v., Warren county, *N. Jer.*: 41 m. N. W. by N. Trenton.

NEW VILLAGE, p. o., Suffolk co., *N. Y.*: 100 m. S. S. E. Albany.

NEWVILLE, p. v., De Kalb county, *Ind.*: 103 m. N. N. E. Indianapolis.

NEWVILLE, p. o., Herkimer co., *N. Y.*: 76 m. N. W. by W. Albany.

NEWVILLE, p. v., Richland co., *Ohio*: 54 m. N. E. by N. Columbus, on N. bank of Clear Fork r., which affords water-power to several mills and factories.

NEWVILLE, p. b. and sta., Cumberland co., *Penn.*: on S. side of Conodogwinit cr., 27 m. W. by S. Harrisburg. The Cumberland Valley R. R. passes through the b., 34 m. from Harrisburg.

NEWVILLE, p. v., Sussex county, *Virg.*: 40 m. S. S. E. Richmond.

NEW VINE, p. v., Dubuque co., *Ia.*: on E. side of Fall r., 63 m. N. N. E. Iowa City.

NEW VINEYARD, t. and p. o., Franklin co., *Me.*: 83 m. N. N. W. Augusta. Drained by a branch of Seven Mile brook. Pop. 635.

NEW WAKEFIELD, p. v., Washington co., *Ala.*: 124 m. S. W. Montgomery.

NEW WASHINGTON, p. v., Clark co., *Ind.*: on E. side of Fourteen Mile cr., 90 m. S. S. E. Indianapolis.

NEW WASHINGTON, p. o., Clearfield co., *Penn.*: on W. side of W. branch of Susquehanna river, at the junction of Cush r., 107 m. W. N. W. Harrisburg.

NEW WASHINGTON, p. o., Crawford co., *Ohio*: 56 m. N. Columbus.

NEW WESTVILLE, p. o., Preble co., *Ohio*: 90 m. W. by S. Columbus.

NEW WHITEHALL, Lehigh co., *Penn.*: the location of a blast furnace, 70 m. E. N. E. Harrisburg.

NEW WILMINGTON, t. and p. o., Lawrence co., *Penn.*: on a branch of Neshanock cr., 157 m. W. N. W. Harrisburg.

NEW WINCHESTER, p. v., Hendricks co., *Ind.*: 27 m. W. Indianapolis.

NEW WINCHESTER, p. v., Crawford co., *Ohio*: on E. side of W. branch of Whetstone r., 51 m. N. Columbus.

NEW WINDSOR, p. v., Carroll co., *Md.*: 6 m. S. W. Westminster, 50 m. N. W. Annapolis.

NEW WOODSTOCK, p. v., Madison county, *N. Y.*: 112 m. W. by N. Albany; has a few mills.

THE STATE OF NEW YORK.

NEW YORK, the most flourishing, wealthy, and populous State of the Union, is situated between 39° 45' and 45° latitudes N., and between 71° 56' and 79° 55' longitudes W. from Greenwich, or 50° 06' E., and 2° 53' W. from Washington. It is bounded on the north by Lake Ontario, the River St. Lawrence, and Lower Canada; on the east by Lake Champlain, Vermont, Massachusetts, and Connecticut; on the south by the Atlantic Ocean, New Jersey, and Pennsylvania; on the west by Pennsylvania, Lake Erie, and the Niagara River. Exclusive of Long Island, it is about 408 miles long, but including that island, about 450 miles, and its breadth from north to south is about 210 miles—the whole including a superficial area of 46,085 square miles.

The Hudson and Mohawk rivers naturally divide the State into three geographical sections of unequal size. The first,

NEW YORK.

or eastern section, comprises Long Island, Staten Island, and that portion of the State lying east of the Hudson River and Lake George; the *second*, or northern section, embraces all the country lying north of the Mohawk and Oswego rivers; and the *third*, or southern section, the vast fertile tract lying south and west of those rivers.

The State forms a portion of the elevated table-land of the United States, broken in some places by mountain ranges, and containing some remarkable depressions which form the basins of lakes and channels of rivers. The loftiest part of this table-land occurs in the western part of the State, where Lake Chautauque is from 1,800 to 2,000 feet above the level of the sea; and although it is but nine miles from Lake Erie, it discharges its waters by the Alleghany and Ohio into the Mississippi, and thus affords boat navigation to the Gulf of Mexico. Franklinville and Angelica, to the east, although situated in valleys, are respectively 1,580 and 1,430 feet above the sea.

In the eastern section the Taghkanuc or Taconic Mountains lie upon the border of the State from Lake Champlain southward to Putnam County, at which point their course, diverging to the south-west, crosses the Hudson at West Point, and is continued thence into New Jersey and Pennsylvania, under the name of the Kittating Mountains. This range forms the dividing line between the waters flowing into the Hudson and those which flow into the Housatonic.

The northern section has six several ranges of mountains. The Palmerstown Range (in some parts called the Black and Tongue Mountains) rises in the northern part of Saratoga County, runs north-east through the tongue of land which separates Lake George from Lake Champlain, and terminates in bold and precipitous cliffs at the shore of the latter, south of Ticonderoga. The Kayaderosserus, or Lucerne Mountains, are about six miles wide and seventy long, running from Montgomery County, through Saratoga and Warren counties, along the western side of Lake George to Ticonderoga. The Hudson River breaks through this range on the line of Saratoga and Warren counties. The Clinton Range extends from Montgomery County north-east through Fulton, Hamilton, Saratoga, Warren, and Essex counties, to Point Trembleau, on Lake Champlain. It is the largest range north of the Mohawk River, and at its most elevated portion there are numerous distinct peaks, forming a remarkable group, known as the Adirondack Group. The Mohawk forces a passage through its south-western extremity, and the range itself is the dividing shed between the tributaries of the St. Lawrence and those of the Mohawk. Au Sable, or Peru Range, commences in Montgomery County, and running parallel with the Clinton Range, terminates in the southern part of Clinton County; it is 160 miles long, and has a greater general elevation than the preceding ranges. The Chateaugay Range is the longest and highest chain of mountains in the State; it commences on the line of the Kaatsbergs, in Herkimer County, has a general height of 2,000 feet through the counties of Hamilton, Franklin, and Clinton, and crossing the Canada line, it terminates upon the Canada plains. The St. Lawrence Range, commencing ten or twelve miles north of the Chateaugay Range, and trending along the slope of the St. Lawrence Valley, has been little explored, and is of less extent than the last named. The St. Regis, Grasse, and other rivers descending into the St. Lawrence, divide it into several distinct portions. This section of the State has also two minor ranges, worthy of notice: the Highlands of Black River, extending from the sources of Black Creek, west and north-west, about sixty miles, cover much of the country between Black River on the one side, and the plains north of Oneida Lake on the other. Their altitude is from 1,200 to 1,600 feet, and in some parts their summits have a rolling surface several miles in width. The Hassencleaver Mountains, the second of these minor ranges, extend from Herkimer into Oneida County, and occupy the space between the Highlands and the Mohawk River; they are twenty miles long, and about nine miles broad at their base, with an altitude varying from 800 to 900 feet, with a rolling surface.

The Southern section may be divided into two portions—the Eastern and the Western. In the Eastern division there are three distinct ranges—1, the Highlands of Orange and Putnam counties; 2, the Shawangunk Mountains, skirting the valley of the Rondout; and—3, the Kaatsbergs, or Catskill Mountains, the direction of which is through the counties of Ulster, Albany, and Schoharie, to the valley of the Mohawk, the portions in Albany and Schoharie being also called the Helderbergs. The western division of this section rises gradually to successive terraces from the shores of Lake Ontario, till it attains its greatest elevation in the Southern tier of counties. The first of the terraces composing this ascent, extends from the Genesee, near Rochester, to the Falls of Niagara and Lewistown, a distance of 80 miles, and is from six to ten miles in width. It is called the "Ridge Road," and is supposed to have formed at one period the shore of Lake Ontario. The second terrace extends from this ridge to the falls of the Genesee at Nunda and Portageville, where there is another abrupt acclivity of nearly 300 feet. This surmounted, the ascent is gradual to the summit level, at the height of from 1,500 to 2,000 feet in the Southern portion of Chautauque, Cattaraugus, Alleghany, and Steuben counties. These terraces, though all quite fertile, are each characterized by a difference of soil and of forest trees.

The principal culminations of the several ranges, and the heights of each in feet, above the sea-level, are named in the following table:

Group.	County.	Feet.	Group.	County.	Feet.		
Mt. Marcy	Adirondack	Essex	5,467	New Beacon	Highlands	Duchess	1,685
" McIntyre	"	"	5,183	Button Hill	"	Orange	1,620
" McMartin	"	"	5,022	Old Beacon	"	Duchess	1,471
Dial Mountain	"	"	4,907	Breakneck	"	Westchester	1,187
Whiteface	Au Sable	"	4,855	Anthony's Nose	"	"	1,128
Mt. Seward	Adirondack	Franklin	3,988	Mt. Defiance	"	Essex	753
Round Top	Kaatsberg	Greene	3,804	Palisades	"	Rockland	550
High Peak	"	"	3,718	Fort Putnam	"	"	500
Pine Orchard	"	"	3,027	Harbor Hill	"	Long Island	319
Shawangunk	"	Orange	1,866	Richmond Hill	"	Staten Island	307

The most distinguishing feature of New York is, perhaps, its vast system of water-ways, which bound and intersect it in almost every direction.

Its lakes are the common highways of an extended commerce. Numbers of these lie wholly within the State, but the great lakes, properly so called, lie on its borders—Ontario and Erie on the North and West, and Champlain on the East.

Of these great exterior lakes, Erie is the most extensive; it is 268 miles in length and from 80 to 54 miles in breadth, with an area of 8,030 square miles. The elevation of its surface above tide water is 565 feet, and above Lake Ontario, with which it communicates by the Niagara River, 334 feet, having a maximum depth of 270 feet; but in general the depth is not more than 120 feet. Only 60 miles of its coast lies within this State, but the amount of business carried on from thence is immense, and constantly increasing with the progressive development of the States lying west. Ontario is the second in size, and the whole southern coast east of Niagara River is wholly within New York. Its form is

elliptical; it is 190 miles in length and 56 in extreme breadth, with a circumference of 488 miles and an area of 5,400 square miles. In some places its depth is 600 feet, but the average depth is only 490 feet, and everywhere deep enough for the largest ships. The surface is 231 feet higher than tide water. The ports of this lake are usually open earlier in the spring than those of Lake Erie, and it is not so subject to those desolating storms that frequently sweep over that lake. Lake Champlain is a long narrow sheet of water, of exceeding beauty, and containing a large number of islands. Of these, Valcour and Schuyler, with several others, belong to this State. In extreme length it is 184 miles, with a breadth varying from $\frac{1}{4}$ a mile to 10 miles, and its depth is from 50 to 280 feet. Its outlet is the Sorelle or Richelieu River, which is navigable, and forms the connecting link between the lake and the St. Lawrence River. The aboriginal name was *Caniad-eri-guarante*, or "lake that is the gate of the country." All these lakes abound with salmon, trout, sturgeon, pickerel, and other fish. Lake George, or Horicon, is wholly within the State; its surface is 243 feet above tide water, and it discharges itself into Lake Champlain by a descent of 150 feet. The lake is inclosed around by hills from 1,200 to 1,500 feet high, and the rich and varied scenery that surrounds it, the numerous outlets that stud its pellucid surface, and the fine atmosphere, all combine to render it one of the most delightful of summer resorts. The French call it *Lac Sacrament* on account of the purity of its waters; the Indian name was *Caniad-eri-oi*, *i. e.*, "the tale of the lake."

The northern portion of the State abounds with small lakes, and of these there are probably not less than 200 in number. Some of them among the Adirondack group of mountains are greatly elevated. Avalanche Lake, in Essex County, is 2,900 feet; Colden Lake, in the same county, 2,750 feet; and Racket Lake, in Hamilton County, 1,731 feet above tide. Many of these form the sources of rivers emptying into the St. Lawrence, Lake Champlain, the Hudson River, and Lake Ontario.

The western portion of the State contains several series of lakes of considerable size, many of which are of the highest importance to commercial navigation. They extend through the counties of Oneida, Oswego, Onondaga, Cayuga, Seneca, Yates, Ontario, and Livingston, and are scarcely surpassed any where in point of scenery. The principal of these are the Seneca, Cayuga, Oneida, Crooked, and Canandaigua lakes. The other lakes in this connection are Onondaga, Cross, Otisco, Cazenovia, Skaneateles, Owasco, Hemlock, Canadice, and Conesus. Otsego and Canadoga, in Otsego County, and Chautauque Lake, in the county of the same name, are also important waters. Extensive salt springs abound on the shores of Onondaga, the waters of which, notwithstanding, are as fresh and pure as those of any others of these lakes.

The rivers of New York, in connection with a splendid system of internal improvements, afford an immense stretch of inland navigation.

The Hudson is the largest, and one among the most magnificent water-courses of North America. It is 320 miles long, having its sources in the Adirondack group of mountains, and flowing in a generally southward direction to the Atlantic, which it meets at the Narrows below New York. It is navigable for the largest class of river steamers for the greater part of the year to Troy, 160 miles from its mouth, and the largest merchantmen may safely pass up as far as Hudson City. The principal branches of the Hudson are the Mohawk, on the west, and the Hoosic, on the east. The Mohawk rises in Oneida and Lewis counties, and at first pursues a southerly course, then changing east and south-east it forms the valley of the Mohawk, and after passing over the Little Falls and the falls at Cohoes, enters the Hudson by several mouths between Troy and Waterford. The scenery around the falls is beautiful, but these are destitute of that grandeur which inspires the mind on beholding the great falls of Niagara. The length of the river is about 135 miles, and in its course it passes through Rome, Utica, and Schenectady. The Hoosic River rises in Massachusetts, and, though a comparatively small stream, is very useful for local purposes. The Croton River, another tributary, is famous as the source of the great supply of water it furnishes to the City of New York. The other tributaries are—from the east, Schroon branch, the outlet of Schroon Lake, Battenkill, and Kinderhook, and—from the west, Walkkill, Rondout, Esopus, Kaaterskill, and Sacandaga, besides several smaller streams.

The river St. Lawrence forms, in part, the northern boundary of the State, and is the outlet of the great northern lakes. It conveys to the ocean a larger volume of water than any other river of the world, except the Amazon. It is navigable for sloops to Ogdensburg, 60 miles from Lake Ontario, but below this point its navigation is difficult and dangerous, on account of the frequent rapids by which it is interrupted. The Lake of the Thousand Islands, the name of which implies sufficiently its character, is an expansion of the St. Lawrence. The group of islands that studs its surface, however, is said to number about 1,500, some of which belong to this State. The next important river of New York is the Oswego, which is about 120 miles in length. Under the name of Mud Creek it has its rise in Ontario County, and flowing eastwardly, it receives through the Canandaigua outlet the waters of the lake of the same name; proceeding eastwardly under the name of Clyde, it receives the waters of Seneca and Cayuga lakes, through their common outlet, and thence assumes the name of Seneca; after a still further enlargement by the waters of Onondaga Lake, it takes the title of Oswego River, and suddenly curving toward the north-west, collects from the Oneida River its tribute of the waters of Lake Oneida. It has a fall of about 100 feet after assuming its proper name, and furnishes, by its constant supply of water, valuable mill privileges. Seven thousand square miles of territory are drained by its course, and by means of the Oswego Canal and locks, it is navigable through its whole length. The Alleghany, a constituent of the Ohio, rises in Alleghany County, and is navigated by small steamers to Olean. The Susquehanna and Delaware both have their sources in this State, and in their first courses afford an immense water-power. The other principal rivers are the Niagara, the Genesee, the Black, the Chenango, the Chemung, the Oswegatchie, etc. The Niagara, which is the connecting link between lakes Erie and Ontario, forms the celebrated falls of the same name. The Genesee, distinguished for its valuable mill-sites, is used as a feeder to the Genesee Valley Canal. It is navigable almost to Rochester, and is 140 miles long, emptying into Lake Ontario. The Black River, one of the largest of the State, also falls into that lake; it is 120 miles in length, and is navigable 40 miles from its mouth. The Chenango and Chemung are important tributaries of the Susquehanna, and the Oswegatchie is the principal tributary of the St. Lawrence. Other streams flowing into the St. Lawrence are Indian, Grasse, Racket, St. Regis, Salmon, etc. The Chazy and Saranac are the principal streams flowing into Lake Champlain.

The falls and cascades of the rivers of this State being among its most distinguishing features, may with propriety be enlarged upon in this connection. The great falls of Niagara are described in a former page. Those of the rivers wholly within New York are as follows: The Falls of the Genesee, at Rochester, which have a descent of 96 feet; those of Fall Creek, in the township of Ithaca, which descend 438 feet in the space of one mile, forming several cataracts, at one of which the whole sheet of water is poured over a rock 116 feet high, and the banks above have an elevation of 100 feet; the Falls of the Mohawk, at Cohoes, where the water is precipitated over a broken rock 62 feet high, the banks of the river forming precipitous walls 140 feet above the stream, and Little Falls, some miles above, where the river passes

NEW YORK.

through a fissure in the rocks, which rise on each side 500 feet above its surface. Trenton Falls, on West Canada Creek, a tributary of the Mohawk, are much admired for their picturesque scenery; for the distance of several miles there is a succession of rapids and cataracts, and the bed of the river is frequently narrowed by rocky precipices, and overhung with trees, while its banks in some places rise perpendicularly to the height of 140 feet. At Glenn's Falls, 18 miles from Saratoga, the Hudson flows over a ledge of rocks into a deep basin below, with a descent of 70 feet. Numerous minor falls exist in various rivers, especially in the northern part of the State, and furnish in many instances motive power of immense importance to the manufacturing interests of the State.

The sea-coast of New York is nearly all comprised in the shores of Long Island, which contain a few harbors and inlets, but none that are much frequented by shipping. The bay and harbor of New York is the great depot of the commerce of the State, and the most magnificent harbor-water on the Atlantic sea-board. Easily accessible, perfectly safe, capacious enough for the navies of the whole world, and never obstructed by ice, it has advantages possessed by no other port. Its boundaries toward the sea are Long Island and Staten Island, between which it connects with the Atlantic by the Narrows, an outlet formed by projections from each shore. It extends 9 miles below the city, and is from 2 to 5 miles broad, containing several islands, which are fortified in the strongest possible manner, as are also both sides of its entrance at the Narrows. The Hudson enters the Bay from the north; the East River, or channel between New York and Long Island, communicating with Long Island Sound on the east, and the Kills, a strait between Staten Island and the Jersey shore, on the west. At low water the entrance by the Narrows is somewhat difficult for large ships, and the entrance from the Sound is obstructed by a rocky strait, called Hell Gate, a name corrupted from "Horril Gatt," the Dutch for whirlpool. In 1852, however, a great portion of the dangerous rocks of this channel were blasted away, and vessels of large size may now pass without much danger.

There are several harbors on Lake Ontario, the most noted of which is Sackett's Harbor, toward the east end of the lake; it is deep and safe, and was an important naval station during the war of 1812. The harbors of Buffalo and Dunkirk on Lake Erie are also important commercial stations, being the terminus of the two great lines of railroad between the Hudson and the lakes. The harbors of Lake Champlain are much used by Canadian traders, and those of Burlington and Plattsburg are fast rising into importance.

Long Island is the largest appendage to this State. It projects into the Atlantic opposite the southern shore of Connecticut, a distance of 140 miles. Its average breadth is 10 miles, and its greatest breadth about twenty miles. The shape is that of a great whale, and a rocky ridge, called the Spine, extends lengthwise nearly through it, and at the western end forms the heights of Brooklyn. South of the ridge the land is level and sandy—on the north it is more uneven. The island abounds with wild fowl and game, and its waters with fish in great variety, which furnish the markets of the City of New York and other places plentifully. In the western section are some fine orchards and market gardens. Staten Island, at the mouth of New York harbor, is separated from Long Island by the Bay and Narrows. It is 15 miles long, and 8 miles broad. Manhattan, or New York Island, which is occupied by the city of the latter name, is 13 miles long, with an average breadth of one mile and a half. The small islands in the bay are Governor's Island, on which stand Fort Columbus, the principal strong-hold; Castle William overlooking the confluences of the Hudson and East rivers, and South Battery overlooking the entrance by the Narrows; Bedloe's Island, on which stands Fort Wood, and is now used as the chief recruiting depot of the United States army; and Ellis' Island, on which is a naval magazine and some fortifications. The defenses at the entrance of New York Bay are Fort Hamilton and Fort Diamond, on the north shore of the Narrows, the latter an insulated castle, and Fort Richmond on the south shore.

The climate of New York can not be described in general terms. Each locality has its own peculiarities. The mean average temperature of the whole State is 46° 49' Fahr. The mean maximum 92°, the mean minimum 12° below zero, and the mean annual range 104°. These data furnish a standard of comparison. The southern section of the valley of the Hudson, and the whole of Long Island, are the most equable portions of the State—the greatest heat is about 2° less, and the greatest cold from 10° to 18° less than the average—the spring is somewhat backward, but the harvest commences earlier than in the interior, and the first frosts happen at a much later period in the fall season. In the river counties, above the Highlands, the seasons are more extreme, both summer and winter being beyond the average, and the spring is from 10 to 15 days later at Albany than at New York. The Mohawk Valley has a climate which does not vary greatly from the mean average; north and east of the Mohawk the region is characterized by a low, average temperature, backward seasons, and early frosts. The mean temperature is at least 2° below the assumed standard. The region south of the Mohawk, extending to the smaller lakes, has a mean temperature 1° or 2° below the given average, yet the cold is not so intense, nor do the frosts occur so early as in the regions on the north side of the valley. The lake region assimilates the climate of Long Island, and the mean temperature does not vary much from the average, but the range is about 8° less, indicating greater uniformity. The average time throughout the State, from the blooming of the apple-tree to the first killing frost, is 174 days—on the west end of Long Island it is 12 or 13 days more, and in the St. Lawrence district 22 or 23 days less. The prevailing winds are from the south-west. On the sea-board, easterly winds almost invariably bring rain, while westerly winds are sure precursors of fine, dry weather, and in winter of continued frosts. The quantity of rain that falls during the year may average for the State 49 inches. From these data it will be perceived that the climate is everywhere one of great extremes, and although in the same latitudes which in Europe produce the fig and the olive, its severer character admits only of the culture of the hardier plants and grains. Though subject to sudden and severe changes, the State as a whole is extremely healthy, and if the mortality of the larger cities be omitted, the ratio of deaths is not greater than in the best climates of Europe. In the eastern counties consumption and other diseases of the respiratory organs are the prevailing maladies, while in the western counties bilious affections predominate. In the large cities, during summer and fall, cholera infantum is the most common and fatal disease; about one half of the deaths during the year occur in children under five years of age, a mortality which must be attributed to other causes than climate, and in chief to badly constructed dwellings and to badly regulated diet.

The geological structure of New York has been scientifically examined under the authority of the Legislature, as also its botany and animal kingdom. The secondary formations of geologists, as well as the upper formations of the transition system, have no existence in this State, and in most parts the tertiary system is wanting. The existence of small beds of oolite in Saratoga County, and a somewhat doubtful era of red sandstone in Rockland County can scarcely be considered as exceptions to this statement in regard to the transition system.

Coal is not noted in the subjoined table. All the formations of New York, except the alluvial and diluvial deposits, and the beds of tertiary on the St. Lawrence, are below the coal measures, the Kaatsbergs, which are the highest members of the transition system being the layer immediately beneath. It is true that there are layers of anthracite a few inches in

NEW YORK.

thickness, and extending over a small surface between the strata of rocks of an earlier date in various parts, but coal does not exist in quantities sufficient to be of any practical value. The prevalence of limestone in nearly all the formations is worthy of notice, affording, as it does, the basis rock best adapted to yield the materials for fertilizing the soil.

The following table exhibits the geological formations of the State, as arranged by the State geologists. Captions III., IV., and V. are comprised under the general head of the transition system of geologists:

TABULAR VIEW OF THE ROCKS OF NEW YORK, IN SYSTEMS, GROUPS, AND FORMATIONS.

Systems.	Groups.	Formations.
I. ALLUVIAL.....	<i>Alluvial</i>	
II. DILUVIAL.....	<i>Diluvial</i>	Boulders, etc.; clay and sands.
III. OLD RED SANDSTONE...	<i>Old red sandstone, or Kaatsberg</i>	Conglomerate; old red sandstone.
IV. NEW YORK TRANSITION.	<i>Erie</i>	Cheung sandstones and flagstones; Ludlowville shales.
“ “	<i>Helderberg</i>	Helderberg limestone; Schoharie grit; brown argillaceous sandstone; eneralin limestone; Oriskany limestone; green shaly limestone; pentamerus limestone.
“ “	<i>Ontario</i>	Onondaga salt and gypseous rocks; limestone and green shales; argillaceous iron ore; Medina sandstone, soft, green, and variegated.
“ “	<i>Champlain</i>	Grey sandstone and conglomerate; Lorraine shales and roofing-slate; Utica slate; Trenton limestone; bird's-eye limestone; Chazy limestone; calciferous sand-rock; Potsdam sandstone.
V. TAGHANUC, or Taconic.	Light green shales, sometimes brown and plumbaginous; grey and clouded limestone; brown sandstone.
VI. GNEISS, or primary.....	Gneiss, hornblende, and mica slate; talcose slate and steatite.
VII. SUPERINCUMBENT ROCKS	Greenstone, trap, and porphyry.
VIII. UNSTRATIFIED ROCKS..	Granite, hypersthene rocks; primary limestone; serpentine; magnetic iron ore.

There are two tracts of primary and unstratified rocks; the first is nearly circular in form, and occupies the counties of Essex, Warren, and Hamilton, and parts of the adjoining counties; and the second is in the south-east, of a somewhat triangular form, and comprises Putnam and Westchester, with the larger part of New York, and part of Rockland, Orange, and Dutchess counties. These two sections, together, occupy nearly one-third part of the State. They contain extensive iron mines, and mines of lead and plumbago. Their surface is generally broken and elevated—in the Adirondack group towering up to the height of a mile above tide-water, and attaining in the beetling cliffs which overlook the waters of the Hudson a considerable though less lofty altitude. The soil is less arable and fertile than in the lands of limestone formation, but is naturally covered with a gigantic growth of oak, pine, and hemlock. The gneiss of this system furnishes a fine building material, and under the name of granite is abundantly quarried. The serpentine, primitive limestone and steatite are also largely produced for the purposes of the arts. These rocks abound in minerals, as garnet, beryl, chrysoberyl, pyroxene, sphene, tourmaline, apatite, colophonite, scapolite, labradorite, epidote, etc.

The Taconic system is composed of brown sandstone, gray limestone, green shales, etc., and contains some minerals. It furnishes fine limestone for building, but has few or no fossils. The overlying soil is often highly fertile. Its range comprises the whole of Washington, Rensselaer, and Columbia, part of Dutchess, Ulster, Greene, Albany, and Saratoga, and trending westward occupies a narrow tract in Schenectady, Montgomery, Herkimer, and Oneida, and expands more widely in Oswego and Jefferson counties.

The New York system comprises four distinct groups. The constituents of the Champlain group are various kinds of sandstone and limestone, slate, conglomerate, and a peculiar stone, composed of lime and sand, and hence called calciferous (lime-bearing) sand-rock. Of these, the Potsdam sandstone furnishes a beautiful and durable building material; the Trenton and birds-eye limestone are used in the arts; Lorraine shales and Utica slate are employed for roofing; while the gray sandstones and conglomerates furnish stone suitable for grind-stones. The rocks of this group abound in fossils of the earlier periods—encriinites, trilobites, and numerous others, unlike any of the crustacea now in existence. The soil throughout the territory occupied by this group is generally good, and much of it highly fertile, being constantly enriched by the decomposing limestone, etc. The group occupies a very considerable but irregular territory; it appears occasionally in small beds, then dips, and again appears as a surface rock. In the form of Potsdam sandstone, etc., it bounds the great primary region of the north-east in every direction, varying in width from two to fifty miles, and also appears in narrow beds on both sides of the Hudson River.

The Ontario group consists of three distinct portions. The lowest, a marly sandstone, decomposing rapidly when exposed, is called Medina sandstone; next a series of soft, green, slaty rocks, also easily decomposed, and overlaid by clayey and flinty limestone, alternating with each other, and finally terminating on the limestone over which the Niagara pours its cataract; and, lastly, a group of limestones containing gypsum, hydraulic cement, water-lime, and salt, known as the Onondaga salt group. This group is the most valuable of the transition system. It includes the salt springs of Salina, etc., and furnishes in its gypsum one of the most potent of fertilizers, and in its water-lime an indispensable material in the construction of aqueducts, etc. The fossils of this group are numerous and interesting. Shells of bi-valve mollusca, corallines, and madrepores, together with traces of vegetable existence, mark this era. Minerals are not numerous here. The clayey limestone containing iron ore, fluor spar, and selenite, appear occasionally, and sulphur springs gush up in various sections. Its soil is of unsurpassed and permanent fertility, and its territorial limits compose the granary of the State. The oak, beech, maple, elm, butter-nut, hickory, and black walnut, are the principal forest trees. The Ontario group commences at the north-west extremity of Lake Ontario, and extends eastward, with a mean breadth of 20 miles, to its termination in Montgomery County.

The Helderberg series comprises four kinds of limestone, and three of sandstone (see table). Many of its constituents abound in fossils. The Helderberg limestone is cavernous, and many of the caves have been explored for a considerable distance, and have been found to contain stalactites and stalagmites of great variety and beauty. The principal minerals

of this group are bog-iron ore, fluor spar, jasper, stromatolite, satin spar, alum, bitumen, and small veins of anthracite. The soil overlying the rocks is either a fine clay, or sand lying upon clay. Marl is also of frequent occurrence. The growths are chiefly oak, chestnut, hickory, pine, etc. By suitable cultivation good crops of grain may be grown. This group occupies the narrow tract commencing in Orange, and passing through Ulster, to the Hudson, thence along the banks of that river to Albany, where it turns westwardly, and passes through the centre of the State, south of the Ontario group, forming the beds of most of the small lakes in Western New York, and terminates on the shores of Lake Erie.

The Erie group is composed of two portions. The lower, or Ludlowville shales, is composed of soft, slaty rocks, alternating with their beds of limestone, easily decomposed; and the upper, or Chemung series, consists of thin, even beds of gray sandstone, with intervening shales or beds of slate. Some of the fossils found in this group possess great beauty. Ferns, etc., frequently occur, indicating the approach to that period of vegetable luxuriance which marks the coal formation. The *Avicula delthyris* and other conchifera are found embedded in the rocks. Petroleum, called Seneca oil, occurs in several localities, and in a number of places carburetted hydrogen is evolved from the surface, and in such quantities as to be used for illumination. The soil where the Ludlowville shales form the surface rock is fertile, though rough and broken; in the higher regions occupied by the Chemung limestone, the character of the soil is different, and the white pine and hemlock take the place of the oak, maple, and beech of the lower lands, and attain a gigantic growth. These lands produce grasses abundantly, and as they become cleared will afford pasturage of the best character. The Erie series covers nearly the whole of Chautauque, Cattaraugus, Wyoming, Alleghany, Steuben, Yates, Tompkins, Chemung, and Tioga counties, together with portions of Broome, Chenango, Cortland, Ontario, Livingston, Genesee, and Erie, as well as a narrow tract in Sullivan, Ulster, Greene, Schoharie, and Otsego counties.

This completes what for convenience has been termed the New York transition system. The remaining group properly belongs to the transition system of the English geologists, and is by them denominated old red sandstone, that rock being its principal constituent. It is predominant in the Kaättsberg, and hence the State geologists have given it the name of that locality. It consists of old red sandstone, overlying the Chemung sandstone, and of conglomerate, which is immediately beneath the coal-bearing limestone of Pennsylvania. The sandstone imparts its red hue to the soil that covers it. It contains comparatively few fossils—the scales and bones of some lizard-like fish have been discovered in it. Bog-iron ore and calcareous spar are the only minerals of consequence found in this formation. The conglomerate affords fine grind-stones, and has been used to some extent for mill-stones. The overlying soil is good. Hemlock, beech, maple, elm, basswood, butternut, etc., are the principal trees—oak seldom occurs. This series is chiefly local, and occupies only the south-western counties in the neighborhood of the Kaättsbergs.

The diluvial regions are chiefly in the neighborhood of the St. Lawrence, Lake Champlain, and the Hudson, and compose the surface of the northern half of Long Island. They consist of a stiff, blue clay beneath, a yellowish-brown clay above this, and sand on the surface. The marine shells found in these clays, belong in some instances to extinct species. To this system belong also the boulders scattered so widely over the State.

The alluvial deposits, consisting of gravel, sand, loam, etc., thrown up by the waters, and deposited on the lake shores and river banks, and still in process of aggregation, constitute the last of the geological formations. To these belong portions of the valleys of the rivers and lakes, and the southern half of Long Island. The soil of both the diluvial and alluvial deposits is mainly fertile.

Trap and porphyry do not in this State constitute a separate formation. They occur either in columnar masses, like the Palisades, or in narrow dykes traversing rocks of an entirely different constitution, and their position is evidently the result of the action of subterranean fire. Porphyry is only found occupying a tract of a few miles in length on Lake Champlain.

In connection with the geology of the State, the "ridge road" is worthy of more extended notice. This road consists of a bank of sand, gravel, etc., varying in height from 100 to 150 feet, and extending along the whole southern coast of Lake Ontario at a distance of six or eight miles from it, forming a natural highway. It is said that a somewhat similar ridge exists along the northern shore of the lake. That this ridge once, and at no distant period, formed its shore, is proved by the existence of small sand hillocks, evidently heaped up by the action of the waves, by the absence of Indian mounds and fortifications on the north side of the ridge, and their frequent occurrence immediately south of it, and, above all, by the structure and composition of the ridge itself.

The deep channels cut in the rocks by many of the rivers are also subjects of geological interest. The Hudson, the St. Lawrence, Oswego, etc., either have banks sloping to the water's edge, or if they occasionally pass through narrow and precipitous defiles, have not worn themselves a passage by the action of their waters upon the rocky barrier which opposed them, but have availed themselves of a route opened by some convulsion of nature. Such is not the case with the Mohawk, the Chenango, the Genesee, and the Niagara. Descending from elevated table-lands, they have, by their ceaseless flow, hewn out a channel through the shales, slates, and marly sand and limestones, in some instances 400 or 500 feet below the level of the surrounding country. The constant action of the waters upon these decomposing rocks has also caused the Falls of Niagara to recede, as some geologists suppose, a distance of five or six miles, and this recession is still in progress.

Among the useful metals, iron is that most abundant in New York. It is found in five forms. The magnetic oxide is most abundant in Essex, Clinton, Franklin, Warren, Orange, and Putnam counties; the abundance is immense; a single vein (the Stafford vein, in Essex County) being estimated by Professor Emmons to contain ore sufficient to yield 8,000,000 tons of malleable iron. This ore is confined to primary rocks. The specular oxide is found chiefly in St. Lawrence, Jefferson, and Franklin counties imbedded in sandstone, and though less abundant than the former, is still found in large quantities. The argillaceous ore, called also bog ore, is found in various parts, evidently deposited by diluvial and alluvial action in the clay and gravel. The hematitic ore frequently occurs in crystals of fantastic and beautiful forms: it is found extensively in Richmond, Orange, Ulster, Putnam, Dutchess, Clinton, Warren, and Wayne counties; also in Westchester and Rockland, and usually makes its appearance in the lower limestones of the transition system. The carburet of iron, or graphite, occurs abundantly in Dutchess County, and in considerable quantities in Essex and Clinton counties.

Lead is found in immense quantities in St. Lawrence County, and less abundantly in the Shawangunk Mountains, in Sullivan and Ulster counties, etc. It does not seem to be confined to any geological era, but occurs in nearly all the formations. Zinc and copper occur in various parts, and arsenic has been discovered in Putnam County. Barytes and stromatolite are abundant in Schoharie and Jefferson, and alum is found in many districts. The existence of gypsum and hydraulic cement has already been noticed. Serpentine and its kindred minerals, soapstone, talc, carbonate, hydrate and sulphate of magnesia, together with asbestos, and amianthus, occur abundantly in Putnam, Orange, Westchester,

Jefferson, and St. Lawrence counties, and in considerable quantities in other parts. Numerous other minerals, of interest only to the professed geologist, are found everywhere.

Mineral springs, the waters of which are of great value, exist in various districts. The chalybeate springs of Saratoga, the sulphur springs of Avon, Rochester, and Chittenango, the brine springs in Genesee, Erie, and Orleans counties, the petrifying springs of Madison and Saratoga counties, etc., are well known and appreciated. The oil springs found in Cattaraugus and Alleghany counties, the nitrogen springs of New Lebanon and Hoosic, and the carburetted hydrogen springs in the neighborhood of Lake Erie and the Niagara River, are also well worthy of notice. The village of Fredonia, and the light-house at Barcelona, are illuminated by the latter. Springs of the same character are also found in Dutchess, Oneida, and Monroe counties.

The botany of this great State is exceedingly diverse in its characteristics. Holding a geographical position midway between the north and the south, the trees, shrubs, grasses, etc., of both extremes are found within its borders. Immense forests still occupy the uncultivated regions north and west, consisting mostly of oak, pine, beech, etc., while chestnut, hickory, and maple, with a number of others less numerous, but not less valuable trees are scattered over its territory. The mountain sides and woods are clothed in a shrubby undergrowth, and in the open plains flourish hundreds of more humble herbaceous plants, among which may be found many that are rare and curious. Flowery shrubs and plants cover the surface; the anemone, ranunculus, and violet put forth their flowers in every sheltered place; and the dock tribe flourish luxuriantly in the marshes. Among the lobelia tribe there is the cardinal flower, Indian tobacco (*inflata*), etc.; and in the deep recesses of the forests, the arum and orchis tribes, of strange forms and brilliant colors, are met with. In the fall season the asters and golden-rods are the pride of the plain. Medicinal plants are in abundance—the cicuta, conium, stramonium, are found on every side, and the mints are abundantly distributed. Among the shrubs also are many highly useful in medicine.

But the most important vegetation of the State is undoubtedly its forest trees. Of the coniferæ there are nine distinct families, viz.: the pitch pine, white pine, hemlock, spruce, balsam fir, black spruce, white spruce, tamarack, etc., also the red cedar, white cedar, arbor vite, and the yew. Oaks are more numerous in species, and among these are many of the most valuable kinds of timber; white, black, scarlet, black chestnut, willow, swamp, mossy, black-jack, etc., are the best known. Elm, ash, maple, walnut, beech, etc., in numerous species, are found in different parts. Of the maple species, the sugar maple is most valuable, on account of its furnishing domestic sugar, which is now used by the farmers of the interior almost to the exclusion of cane sugar.

No class of plants is so widely distributed as that of grasses. The Flora of this State contains many native species, but only a small number of these is of any value, and the meadow grasses, with few exceptions, are of foreign origin. The principal of these are, the timothy, sweet vernal, meadow, blue and rough grasses. Wheat, rye, and oats are cultivated extensively, and the zizania aquatica, a wild rice, which forms a principal article of the food of the Indian, grows abundantly in the northern counties. Wild oats and chess are common. Some grasses are confined to particular soils. Many in sandy soils have matted roots, and by forming a thick sod, prevent the loose soil from being carried away by the flood or winds, and others by their annual decay fertilize soils which otherwise would be arid and unproductive. Ferns and fern-like plants occupy a wide extent of territory, while mosses and rushes are equally abundant, and form in many instances most valuable adjuncts to the comforts of domestic life.

The whole number of flowering plants in this State is about 1,450, and of these 1,200 are herbaceous, and 150 may be regarded as ornamental. Of woody plants there are 250 species, including about 50 that attain to the stature of trees. Of plants that are reputed medicinal, there are, native and naturalized, about 160 species.

The animal kingdom is replete with objects of interest, and opens a wide field for the study of natural history. The carnivorous animals existing in this State are the black bear, the raccoon, wolverine, skunk, fisher, weasel, pine martin, ermine weasel, mink, otter, native dogs, the gray and black wolf, the panther, wild cat, bats, the mole, and the shrew. Of the marsupial, or pouched, animals the opossum is the only species. The order rodentia, or gnawers, are numerous, and comprises the beaver, muskrat, rabbit, prairie hare, squirrels, woodchucks or marmots, and rats and mice of numerous kinds. The American deer, the moose, stag, and reindeer, belonging to the ungulata, were formerly numerous; to this family belong also the horse, ass, ox, hog, goats, and sheep, but these are not indigenous. In the waters are many cetaceous animals—whales of several species, with the porpoise, grampus, etc. The mastodon has been found in a fossil state in all parts, and the teeth and other remains of elephants, etc., have been occasionally dug up.

Among the birds of prey natives of New York there are, of the vulture tribe, the turkey buzzard; of the falcon tribe, the golden and bald eagle, the goshawk, the fish hawk, the marsh harrier, with four other species of hawk, and six of buzzard, and of the owl tribe, ten species; of birds of passage, 20 different tribes and 149 species are enumerated; belonging to the gallinæ are the wild turkey, American quail, partridge, grouse, prairie hen, etc. The grallo, or waders, are very numerous, counting 62 species in seven families. Lobipedes, or lobe-footed birds, are represented in the coot, the horned, crested, and red-necked grebe, and the dipper; and among the natatores are puffing loons, petrels, pelicans, gulls, and the goose and duck, in all 6 families and 71 species. Among the later are the canvas-back duck, so famous with epicures, the American widgeon, and the American swan. Of the buzzard tribe the blue-tailed shink, or striped buzzard, and the brown swift-legged are the only species, the first in the southern counties, and the latter frequenting the woods in every district.

There are but three orders of reptiles in New York. Among the turtle tribe we find the green turtle, a gigantic, though a native of more southern latitudes, frequently appears in the waters of this State; the leather turtle, a gigantic species; the soft shell turtle, which inhabits the Mohawk and the lakes; the snapping turtle, terrapins, tortoises (the geographic and pseudo-geographic), etc. Serpents are numerous, but of these only two species, the copper-head and northern rattle-snake, are considered to be venomous. In all there are about 40 species known to naturalists.

The amphibious animals are comprised in four families; of the ranidæ, or frog tribe, there are 13 species; of salamanders, 12 species; of the triton tribe, 4 species; and of the proteus tribe, 2 species. The banded proteus is a very singular animal, having the body of a lizard and the gills of a fish.

The fishes indigenous to the waters of the State are very numerous. Bony fishes are comprised in six orders: among the pectinibranchi the best known are the perch, bass, bull head, sheep head, porgee, pilot fish, mullet, black fish, mackerel, etc.; of the abdominalis, the shad, herring, salmon trout, cat fish, carp, pike, pickerel, minnow, etc.; of the jugulares, the cod, haddock, hake, halibut, flounder, turbot, sole, etc.; of the apodales, the eel and the conger; of the lophobranchi, the pipe fish and the Hudson River sea-horse; and of the electrogathi, the balloon fish, the puffer, the globe fish, etc. The cartilaginous family comprises three orders, viz., the cleuthropomi, of which the sturgeon is the only example; the

NEW YORK.

plagiostomi, which embraces the shark and the ray; and the cyclostomi, of which the lamprey, or lamper eel, is the representative. Twenty-five or thirty species of fishes have been found in a fossil state, and of these several species belong to families now extinct.

The crustacea are embraced in 10 orders. There are but 27 species of the order decapoda, of which lobsters, crabs, shrimps, etc., are the best known species; of the stomapoda there are but three species, among which are the opossum-shrimp and squill; of the amphipoda four species exist, as the sand flea, etc.; of the lempipoda, the whale-louse and sea-measuring worm are the only specimens; of the isopoda there are 14 species, 7 of which are parasitical—barnacles are an example of this order; of the pœciliipoda 5 species, as the horse-shoe, etc.; of the phyllopoda, lophropyopoda, branchiopoda, and ostrapoda, but few specimens are found, and those few are known only to the curious zoologist.

Molluscous animals are very numerous. Among the cephalopoda are the cuttle fish, spirula, etc. The clio is a representative of the pteropoda. The gasteropoda include a vast variety of snails and animals inhabiting turbinated shells. Oysters, clams, etc., which are arrayed under eight sub-divisions, consist each of several species. Members of the orders cirrhopoda and tunicata are not very numerous. Geologists have discovered many specimens of fossil mollusca imbedded in the limestone and sandstone formations—the most remarkable of these are various species of the trilobite, the encrinite, the pentamerus, etc.

No full account of the insects of New York has yet been published, but these are very numerous, and many of them of rare and beautiful appearance. The coleoptera, or beetle tribe, alone numbers some 1,200 varieties, and many of these have brilliant colors, and are of great magnitude. The orthoptera, or roach tribe, includes the cockroach, cricket, grasshopper, etc., everywhere as plentiful as need be for comfort. The katydid, so well known by the peculiar shrill sound it produces, belongs to this order. The homoptera include a large variety of locusts, among which there is one remarkable for remaining 17 years in the grub state. The hemiptera comprise many bugs injurious to vegetation, particularly the May bug, the lady-bug, the apple-tree blight, etc. The order of lepidoptera probably numbers not less than 1,000 species, and includes butterflies and moths, the size and brilliant colors of many being astonishing. Spiders, which range under the order arachnide, number 200 species, some of which are very large, and possessed of great beauty. The long-legs, the clawed-spider, the tick, the mite, the louse, etc., also belong to this order. The vermes, or worm family, and the animalculæ of the State, have not been scientifically examined, but their species are as abundant and prolific as most persons could desire. One drop of "pure Croton," which is so extolled by the citizens of New York, is said to contain myriads of organized beings ranging under these heads.

Let us now take a view of man. The aboriginal inhabitants, formerly a great and numerous people, are now sleeping with their fathers, or pursuing their pleasures in the spirit-land of their creed. A small remnant, however, is still left in the Western counties of the State, but this seems to be a mere wreck of former days. The present inhabitants are of European origin, and vastly diversified in their races and tongues. The English in their descendants predominate, and perhaps the Irish, Dutch, and German, are next in numerical proportion. The early enumerations are not sufficiently exact to make them of any account. In 1701, the population is stated to have been about 30,000; in 1731, 50,000; and in 1750, 100,000. The census of 1771 exhibited the total population at 163,338. The enumerations since taken under the authority of the United States at decennial periods, commencing 1790, exhibit more accurate returns, and furnish the following results:

Census Years.	White Persons.	Colored Persons.			Total Population.	Decennial Increase.	
		Free.	Slave.	Total.		Numerical.	Per cent.
1790	314,142	4,654	21,324	25,978	840,120	—	—
1800	556,039	10,374	20,343	30,717	556,756	246,636	72.5
1810	915,699	25,333	15,017	40,350	959,049	372,293	63.4
1820	1,330,744	31,980	10,088	42,068	1,372,812	413,768	43.1
1830	1,868,661	44,870	75	44,945	1,913,006	540,194	32.0
1840	2,373,890	50,027	4	50,031	2,423,921	515,915	26.9
1850	3,049,181	47,914	—	47,914	3,097,394	668,473	27.5

New York is divided into 59 counties, the general statistics of which, and the capitals of each, in 1850, were as follows:

NORTHERN NEW YORK—45 counties.

Counties.	Dwell.	Pop.	Farms in cult.	Manuf. Estab.	Capitals.	Counties.	Dwell.	Pop.	Farms in cult.	Manuf. Estab.	Capitals.
Albany	12,747	93,279	2,903	393	Albany	Montgomery	5,353	31,992	1,353	267	Fonda

The whole number of dwellings in the State, at the above date, was 473,936, of families 566,869, and of inhabitants 3,097,394, viz., whites 3,049,457—males 1,545,052, and females 1,504,405; fr. col. 47,937—males 22,978, and females 24,959. Of the whole population there were *deaf and dumb*—wh. 1,297, fr. col. 10—total 1,307; *blind*—wh. 1,221, fr. col. 51—total 1,272; *insane*—wh. 2,544, fr. col. 36—total 2,580; and *idiotic*—wh. 1,731, fr. col. 18—total 1,739. The number of free persons born in the United States was 2,439,296; the number of foreign birth, 651,801; and of birth unknown, 6,261. The *native* population originated as follows: Maine 4,509, N. Hamp. 15,519, Verm. 52,599, Mass. 55,773, R. I. 13,129, Conn. 66,101, New York 2,151,196, N. Jer. 35,319, Penn. 26,252, Del. 899, Md. 39,533, Dist. of Col. 533, Virg. 3,347, N. Car. 673, S. Car. 935, Ga. 510, Flor. 135, Ala. 184, Miss. 164, La. 563, Tex. 46, Ark. 20, Tenn. 116, Ky. 369, Ohio 3,743, Mich. 1,921, Ind. 415, Ill. 605, Mo. 173, Ia. 70, Wisc. 860, Calif. 7, Territories 53. The *foreign* population was composed of persons from—England 84,820, Ireland 343,111, Scotland 23,418, Wales 7,582, Germany 118,398, France 12,515, Spain 461, Portugal 194, Belgium 401, Holland 2,917, Turkey 12, Italy 833, Austria 168, Switzerland 1,850, Russia 617, Denmark 429, Norway 392, Sweden 753, Prussia 2,211, Sardinia 0, Greece 0, China 34, Asia 66, Africa 80, British America 47,200, Mexico 83, Central America 29, S. America 179, West Indies 1,067, Sandwich Islands 40, and other countries 1,941.

The statistics of the industry and institutions of the State, according to the returns of 1850, are as follows: *Occupied Lands, &c.*—Improved farm lands, 12,408,963 acres, and unimproved lands attached, 6,710,120 acres—valued in cash at \$554,546,642. Total number of farms under cultivation 1st June, 1850, 170,621—in the northern district, 143,749, and in the southern district, 26,872. Value of farming implements and machinery, \$22,084,926.

Live-Stock.—The number of live-stock or domestic animals at the two periods 1840 and 1850, was as follows:

Description.	1840.	1850.	Decrease.
Horses	474,543 head	447,014 head	26,566 head, or 5.6 per cent.
Mules and Asses		963 "	
Milch Cows		931,324 "	33,605 " or 1.7 "
Working Oxen	1,911,244 "	178,909 "	
Other Cattle		767,406 "	1,665,536 " or 32.5 "
Sheep	5,118,777 "	3,459,241 "	
Swine	1,900,005 "	1,013,522 "	881,543 " or 46.4 "

—the live-stock of 1850 was valued in the aggregate at \$73,570,499. *Products of Animals.*—Wool, 10,071,301 pounds; butter, 79,766,094 pounds; cheese, 49,741,413 pounds; and the value of animals slaughtered in the year had been \$13,573,983. The wool crop, according to the returns of 1840, amounted to 9,845,295 pounds; and hence the increase exhibited in 1850 was 226,006 pounds, or 2.3 per cent. The product, per fleece, in 1840, was 1 lb. 14½ oz.; and in 1850, 2 lb. 14½ oz., or 52.1 per cent. increase. The butter produced is one-fourth of the production of the United States; and the cheese produced one-half the whole.

Grain Crops.—Wheat, 13,121,493 bushels; rye, 4,148,182 bushels; Indian corn, 17,585,400 bushels; oats, 26,552,814 bushels; barley, 3,585,059 bushels; buckwheat, 3,183,955 bushels. In proportion to the crop of the United States, that of wheat is approximately *one-eighth*, that of rye *one-fourth*, that of Indian corn *one thirty-second*, that of oats more than *one-sixth*, that of barley *two-thirds*, and that of buckwheat *one-third* of the aggregate. The comparison of the several crops in 1840 and 1850, as returned by the censuses of those years, was as follows:

Crop.	1840.	1850.	Increase.
Wheat	12,286,418 bush.	13,121,493 bush.	835,080 bush. or 6.8 per cent.
Rye	2,979,323 "	4,148,182 "	1,168,859 " or 39.2 "
Indian Corn	10,972,286 "	17,585,400 "	6,886,114 " or 62.7 "
Oats	20,675,847 "	26,552,814 "	5,876,967 " or 28.4 "
Barley	2,520,068 "	3,585,059 "	1,064,991 " or 42.2 "
Buckwheat	2,257,885 "	3,183,955 "	1,896,070 " or 82.4 "

Other Food Crops.—Peas and beans, 741,636 bushels; and potatoes—Irish, 15,398,362 bushels, and sweet, 5,623 bushels. The potato crop of 1839, as exhibited in the census of 1840, was 30,123,614 bushels, showing a decrease of 14,719,292 bushels, or 48.3 per cent. in the subsequent decade.

Miscellaneous Crops.—Tobacco, 83,189 pounds; hay, 3,723,797 tons; clover-seed, 83,222 bushels; other grass-seed, 96,493 bushels; hops, 2,536,299 pounds, being three-fourths of the aggregate crop of the Union; hemp—dew-rotted, 1 ton, and water-rotted, 3 tons; flax, 940,577 pounds; flax-seed, 57,963 bushels; silk cocoons, 1,774 pounds; maple sugar, 10,357,484 pounds; molasses, 56,529 gallons; beeswax and honey, 1,756,190 pounds; wine, 9,172 gallons, etc. Value of orchard products, \$1,761,950, or nearly one-fourth the value of these products in the United States; and of market-garden products, \$912,047, or more than an eighth the aggregate. On comparing the above with the returns of 1840, the following results are obtained:

Crops, etc.	1840.	1850.	Movement.
Tobacco	744 lbs.	83,189 lbs.	incr. 82,445 lbs., or 11,051.3 per cent.
Hay	3,127,041 tons	3,723,797 tons	incr. 601,756 tons, or 19.2 "
Hops	447,250 lbs.	2,536,299 lbs.	incr. 2,089,049 lbs., or 442.5 "
Hemp—dew-rotted		1 ton	decr. 1,538,063 lbs., or 62.5 "
" water-rotted	1,130½ tons	3 tons	
Flax		940,577 lbs.	
Maple Sugar	10,048,109 lbs.	10,357,484 lbs.	incr. 309,375 lbs., or 3.1 "
Wine	6,799 gals.	9,172 gals.	incr. 2,373 gals., or 32.9 "

NEW YORK.

Home-made manufactures were produced in the year ending 1st June, 1850, to the value of \$1,280,833. The same class of goods for the year antecedent to the census of 1840, were valued at \$4,636,547. Decrease, \$3,356,214, or 72.4 per cent.

Manufactures.—Capital invested, \$90,000,000; value of all raw material, fuel, etc., consumed, \$90,000,000; hands employed, 900,000—males 900,000, and females 00,000; monthly cost of labor, \$9,000,000—male \$9,000,000, and female \$000,000; value of products, \$90,000,000. Number of manufacturing establishments in operation 1st June, 1850, and producing to the value of \$500 and upward annually, 23,823—in northern district 16,877, and in southern district 6,946, and distributed to the counties as shown in the general table. Of this number 86 were cotton factories, 249 woolen factories, 942 tanneries, and 401 manufactories of iron—323 making cast iron, 18 pig iron, and 60 wrought iron. The total capital invested in 1840 amounted to \$55,252,779.

Capital invested in *cotton manufactures*, \$4,176,920; cotton used, 37,773 bales; coal consumed, 1,539 tons; value of all raw material, fuel, etc., \$1,935,973; hands employed, 6,320—males 2,632, and females 3,688; monthly cost of labor, \$8,943—male \$48,244, and female \$35,699; average monthly wages—to males \$18 33, and to females \$9 63; annual products, 44,901,475 yards sheeting, etc., and 2,150,600 pounds of yarn—in all valued at \$3,591,989. Capital in 1840, \$4,900,772; hands employed, 7,407; value of goods produced, \$3,640,237.

Capital invested in *woolen manufactures*, \$4,459,370; wool consumed, 12,538,786 pounds; value of all raw material, etc., used, \$3,583,292; hands employed, 6,674—males 4,262, and females 2,412; monthly cost of labor, \$113,524—male \$55,147, and female \$23,377; average monthly wages—to males \$21 46, and to females \$11 41; cloth manufactured, 7,924,252 yards, and yarn, 261,700 pounds—in all valued at \$7,030,604. Capital in 1840, \$3,469,349; hands, 4,636; value of goods produced, \$3,537,337.

Capital invested in *tanneries*, \$5,025,143; value of all raw material used, \$6,065,221; hands, 4,945—males 4,914, and females 31; monthly cost of labor, \$103,464—male \$41,245, and female \$363; tanned—skins, 871,894, and sides, 3,415,724—in all valued at \$9,804,000. Capital in 1840, \$3,907,948; hands employed, 5,379.

In the manufacture of *malt and spirituous liquors* the capital invested is \$2,585,900; quantities and kinds of grain, etc., consumed—barley 2,062,250 bushels, rye 909,067 bushels, oats 6,707 bushels, apples 60,940 bushels, molasses 24,500 hogsheads, and hops 581 tons; hands employed, 1,380; quantity of liquors produced—ale, etc., 644,700 barrels, whisky and high wines 9,231,700 gallons, and rum 2,488,800 gallons.

The statistics of the *iron manufactures* in operation within the State, at the date of the taking of the seventh census, were as exhibited in the annexed table:

Values, products, etc.	Pig Iron.	Cast Iron.	Wrought Iron.	Total.
Capital invested.....dollars...	605,000	4,622,432	1,131,300	6,358,732
Ore used.....tons.....	46,355	—	44,642	101,027
Pig iron used.....".....	—	108,945	8,530	117,475
Old metal used.....".....	—	3,212	—	3,212
Mineral coal consumed.....".....	20	22,755	13,908	36,683
Coke and charcoal consumed.....bushels...	3,000,074	151,190	5,554,150	8,735,414
Value of all raw material, etc.....dollars...	321,027	2,393,768	883,314	3,598,109
Hands employed.....number.....	505	5,925	1,037	7,467
Average monthly wages.....dollars.....	26.50	27.49	26.00	—
Products.....tons.....	13,420	104,588	13,636	251,644
Value of products.....dollars.....	415,600	5,921,980	1,423,968	7,761,548
—total capital in 1840, \$2,103,418; hands, 3,456.				

Foreign Commerce.—The imports from foreign countries in the year ending 30th June, 1850, were valued at \$111,123,524, and the exports at \$52,712,789. Of the exports, \$41,502,500 was the value of domestic produce, of which \$33,934,409 represented the value of merchandise carried in American bottoms, and \$7,568,091 that carried in foreign bottoms; and \$11,209,989 was the value of foreign goods reexported, of which \$7,086,637 in American bottoms, and \$4,123,302 in foreign bottoms. Of the imports, \$83,147,721 was the value of merchandise brought in American bottoms, and \$22,975,808, that brought in foreign bottoms. The statistics of the shipping employed in this branch of industry for the same year, exhibits the annexed aggregates:

SHIPPING EMPLOYED IN THE FOREIGN TRADE, 1849-50.

Nationality of Shipping.	Entered.			Cleared.			Total.		
	Vessels.	Tons.	Crews.	Vessels.	Tons.	Crews.	Vessels.	Tons.	Crews.
American.....	4,137	1,502,290	59,010	3,610	1,411,557	55,575	7,747	2,913,847	114,585
Foreign.....	3,332	775,430	40,750	3,693	737,539	39,439	7,525	1,512,969	89,219
Total.....	7,969	2,277,720	99,790	7,303	2,149,096	95,014	15,272	4,426,816	194,804
viz. Atlantic Ports.....	3,165	1,145,535	44,213	2,612	983,259	33,133	5,777	2,129,124	82,346
" Lake Ports.....	4,804	1,131,885	55,577	4,691	1,165,807	56,881	9,495	2,297,692	112,458

The *Lake ports* are included in the collection districts of New York, Cold Spring, Greenport, and Sag Harbor; and the lake and St. Lawrence ports, in the districts Oswego, Oswegatchie, Niagara, Cape Vincent, Sackett's Harbor, Buffalo Creek, Champlain, and Genesee. New York entered 3,163 vessels, 1,145,331 tons, and 44,166 men in crews, and cleared 2,609 vessels, 932,478 tons, and 38,060 men, thus monopolizing the great bulk of the Atlantic trade. The relative importance of the Lake Ports is exhibited in the order observed in the priority of their arrangement in the list above noted. The total amount of shipping owned within the State at the period referred to, was 944,349 tons; registered (all belonging to the Atlantic ports) 458,903 tons—375,955 tons of the class permanent register, and 82,948 tons temporary; enrolled and licensed 473,556 tons—384,790 tons in the Atlantic districts, and 88,766 tons in the lake districts; and licensed (under 20 tons) 11,890 tons of the registered shipping, 36,143 tons were navigated by steam-power, and 6,029 tons were employed in the whale fisheries. The proportion of the enrolled and licensed shipping employed in the coasting and river trade was 455,100—383,239 tons in the Atlantic districts, and 97,870 tons in the lake districts, and in the cod fisheries 337 tons. Of the coasting shipping there is employed in steam navigation, 94,809 tons—in the Atlantic districts, 64,191 tons, and in the lake districts, 30,618 tons. As a ship-building State, New York is only second to Maine. During the year 1849-50, there were built in

NEW YORK.

the Atlantic ports, chiefly at New York city, 205 vessels, of an aggregate burden of 55,944 tons, and of these 26 were ships, 8 brigs, 44 schooners, 104 sloops and canal boats, and 98 steamers. In the ports of the lakes and the St. Lawrence, the number of ships built was 22 (2,398 tons)—1 brig, 6 schooners, 8 sloops, etc., and 4 steamers. Of the lake ports, Oswego built *nine*, Buffalo *seven*, Niagara *two*, and Genesee *one*. The movement of exports and imports for a series of years commencing 1791 and ending 1850, was as follows:

Year.	Exports.	Imports.	Year.	Exports.	Imports.	Year.	Exports.	Imports.
1791.....	\$2,505,465	1811.....	\$12,266,215	1831.....	\$25,535,144
1792.....	2,535,790	1812.....	8,961,922	1832.....	26,000,945
1793.....	2,932,370	1813.....	8,185,494	1833.....	25,395,117
1794.....	5,442,183	1814.....	209,670	1834.....	13,849,469
1795.....	10,304,581	1815.....	10,675,373	1835.....	30,345,264
1796.....	12,208,207	1816.....	19,690,031	1836.....	25,920,638

Coasting, Lake, and Internal Trade.—No other State in the Union has such facilities for external and internal commerce as that enjoyed by the State of New York. Favorably located with regard to its seaward outlet, and its immense lakes and noble rivers, the first bounding it outwardly, and the latter penetrating to its very centre, it seems as if it had been designed by nature for the proud preëminence to which it has attained. Thousands of vessels are constantly traversing its waters, carrying freight valued at millions of dollars, and furnishing to every part, facilities for the interchange of commodities. It is also preëminent in its grand works of internal improvement—its canals, railroads, plank-roads, and turnpikes, while the magnetic telegraph extends in every direction, an instantaneous communicator of information between the several commercial centres. The canals of New York are features in its economy which distinguish it from other States—they extend from the waters of the Hudson to Lake Erie, a distance of 364 miles, and have branches in every direction: to Lake Champlain, to Lake Ontario, and several to the south, and others, more local in their utility, are formed in various parts. The traffic on the Erie Canal is immense, and this forms the great highway between the Western States and the sea-board. The Delaware and Hudson Canal is chiefly used for the transportation of coal from Pennsylvania. The railroads have a present length of nearly 2,500 miles, and others are constantly being opened; and with regard to plank-roads, which for many purposes are equal to the railroad, almost every trade centre is connected by them with the producing regions. The turnpikes and the county and town roads are everywhere well kept, and in excellent condition. (For the details of the canals and railroads, see APPENDIX.)

Banks.—On the 30th June, 1850, there were in the State, 192 banks and branch banks, and their financial condition at that date was as follows:

RESOURCES.		LIABILITIES.	
Loans and discounts.....	\$91,193,645	Capital.....	\$47,779,727
Loans and discounts to Directors.....	4,799,227	Profits.....	8,118,064

Government, etc.—The constitution of New York was adopted in convention October 9th, 1846, and ratified by the people on the 2d November following.

Every adult white male citizen who shall have been such for ten days, a resident of the State for one year, of the county for four months, and of the district for 30 days next preceding an election, may vote at all elections in his place of residence; but no man of color is eligible as an elector unless he shall have resided in the State for 3 years, be a freeholder to the value of \$250 above all encumbrances for one year, and have paid taxes thereon. Persons convicted of infamous crimes, and persons betting on the result of an election, are by law deprived of the franchise. The general election is held on the Tuesday succeeding the first Monday in November annually.

The Legislature is composed of a Senate and House of Assembly; the Senate consists of 32 members elected from single districts, and the Assembly of 123 members apportioned among the several counties—senators are elected for two years, and assemblymen for one year. Every white male voter is eligible for election. Members of both houses are paid \$3 a day during their session, and 10 cents for each mile of travel. No person holding office of profit under the State or United States can sit as a member. The Legislature meets at Albany on the first Tuesday in January annually.

NEW YORK.

Executive powers are vested in the governor, who holds office for two years. No person can be governor who has not attained to the age of 30 years, nor unless a citizen of the United States and resident for the last five years of the State. The governor has the right to *вето* any act of the legislature, but a two-thirds vote subsequently legalizes the act. The lieutenant-governor is elected in the same way as the governor, and is *ex-officio* president of the senate, in which, however, he has only a casting vote. On the demise or disability of the governor, he, and after him the president of the senate *pro tempore*, succeeds to the chair. The Secretary of State, comptroller, treasurer, attorney-general, etc., are elected for two years; the three canal commissioners and three inspectors of State prisons for three years, one of each set of officers annually; and county, town, city, and village officers, for one year.

The *Judiciary* of the State is composed of several courts provided for in the constitution: the court for the "trial of impeachments" is composed of the President of the Senate (who is president of the court), the members of the senate, and the judges of the courts of appeals. It is a court of record, and when summoned, meets at Albany, and has for its clerk and officers the clerk and officers of the senate; if the governor be impeached, the chief judge of appeals, and not the lieutenant-governor, presides. Two-thirds of the members present must concur before a conviction can be had, and the judgment of the court extends only to removal and disqualification, the party adjudged being still liable to indictment. The court of appeals is composed of eight justices, of whom four are *elected* (one every second year) by the people at large, and four *selected* each year from the justices of the Supreme Court having the shortest time to serve. The judge (of those elected) whose term first expires, presides as chief judge, and any six of these judges constitute a quorum. Four terms are held annually, and every two years there must be one term in each judicial district. This court has power to correct and reverse the decisions of the supreme court or of the old supreme court and court of chancery. The supreme court has general jurisdiction in law and equity and power to review judgments of county courts and old courts of common pleas. For the election of justices, the State is divided into eight districts, each of which elects four justices, to serve respectively eight years, one judge retiring every second year. The justice in each district whose term first expires, and who is not justice of the supreme court, is the presiding judge, and the clerks of the several counties serve as clerks. One general term must be held annually in every county having 40,000 inhabitants, and in all others one term biennially; and every county has at least two special terms and two circuit courts, except the county of New York, in which the circuit court has four sessions. Any three or more (including the presiding judge) hold the general terms, and any one or more the special terms, at which are heard all equity causes, and the circuit courts, which are held exclusively for the trial of issues of fact. The county or surrogate's courts have local jurisdiction only. Each county, except that of New York, elects one judge for four years, who acts also as surrogate; but counties having 40,000 inhabitants elect a separate surrogate. The powers of the court extend to all cases when the debt or damages are not above \$2,000; to actions for personal injury or trespass, where the claim is not over \$500, and to replevins, where the property claimed is not above \$1,000, etc. Surrogates' courts have the ordinary jurisdiction of courts of probate.

The criminal jurisdiction of the State is vested in courts of oyer and terminer and courts of sessions. The court of oyer and terminer in each county, except that of New York, is composed of a justice of the supreme court, who presides, the county judge, and two justices of the peace chosen members. In New York county this court is composed of a justice of the supreme court and any two of the following officers: judges of common pleas of the county, and the mayor, recorder and aldermen of the city. Courts of sessions are composed of the county judge and two justices of the peace, designated as members. All these courts are held at the same time and at the same place as circuit courts.

The civil courts of the city and county of New York are the superior court and the court of common pleas, the former of which has six justices, and the latter three justices. There is also the marine court, which has two judges.

Federal Representation.—In accordance with the law of 23d May, 1850, New York sends *thirty-two* representatives to the United States Congress.

The *militia force* of the State, in accordance with the United States Army Register for 1851, consisted of 265,293 men of all arms, of which 7,662 were commissioned officers, and 257,631 non-commissioned officers, musicians, artificers, and privates. Of the commissioned officers, 99 are general officers, 315 general staff officers, 1,543 field officers, etc., and 5,705 company officers. Every white male citizen, between 18 and 45 years of age, is liable to military duty, unless exempt by law or having paid the commutation fine. The volunteer and uniformed militia of the State, and especially of the city, is the best instructed body of soldiers in the Union.

New York has numerous *benevolent institutions*, many of which are partly supported from the public funds and partly from local sources. The principal of these are the Institution for the Deaf and Dumb, and the Institution for the Blind, both at New York City, the State Lunatic Asylums at Utica, the New York City Hospital, etc.; and besides these, almost every city has numerous similar institutions, which will compare well with those of the oldest European States. The number of pupils in the Institution for the Deaf and Dumb, on the 31st December, 1850, was 227—128 males and 99 females; receipts \$39,216 39, and expenditures \$39,452 98. The Institution for the Blind had 185 pupils; receipts \$30,117 85, and expenditure \$28,451 19. The State Lunatic Asylum had 449 inmates—226 males and 223 females.

Finances.—The general fund and railroad debt, at the close of the fiscal year ending 30th September, 1850, was \$6,859,693 32; and the canal debt at the same period was \$16,171,109 16—in the aggregate \$22,530,802 43, on which accrues annually nearly \$1,235,360 interest. There is also a contingent debt, consisting of State stock and controller's bonds of \$938,086, upon which the State does not pay interest. This will make the total State debt, absolute and contingent, \$23,468,888 64.

The property of the State, in addition to the educational funds mentioned hereafter, consists of the works of internal improvement, which at their cost valuation (*i. e.*, the amount expended upon them to date), are worth \$35,115,237 75. But the whole amount of tolls derived from them during the year was \$3,254,051 71—which gave, after deducting expenses, the net income of \$2,650,206 49, which is 6 per cent. interest upon \$44,170,103, a sum which in reality represents the value of the works. The average *net* annual income for the last five years is \$2,518,044 87, which is equal to a capital of \$41,967,414 50, at 6 per cent. interest. The amount of debt incurred for their construction, and yet unpaid, is as stated above \$16,171,109. The taxable property in New York in 1848, was \$727,494,583, being \$571,690,807 the assessed value of 27,912,076 acres of real estate, and \$153,183,486 of personal estate. The State and county taxes amounted to \$4,592,051, and the town taxes to \$1,420,736—total \$6,312,787; making the rate of State, county, and town taxes, 8.6 mills on a \$1 valuation. The highest rate was 25.7 mills on \$1 in Hamilton County, and the lowest 8.1 mills in Ontario and Putnam counties.

The revenue of the General Fund, on which are charged the ordinary expenses of government, for the year ending 30th September, 1850, was \$851,241 57, and the expenditures for the same period, \$826,720 20—excess of revenue, \$54,521 28.

NEW YORK.

The chief sources of *income* were—auction duties, \$55,909 69; salt duties, \$44,364 03; fees of secretary's office, \$2,110 71; peddlers' licenses, \$1,700; foreign insurance companies, \$502 79; interest on arrears of county taxes, \$4,273 19; surplus revenue of canals (annual appropriation), \$200,000; State tax, \$272,422 25; sales of lands, \$3,700 83; redemption of land sold for taxes, \$34,230 47; arrears of county taxes, \$25,043 46; Columbia County, for enforcing law, \$5,000; Duches County, for *ditto*, \$934 97; miscellaneous and temporary receipts, \$31,856 67; and the principal objects of expenditure were: Executive expenses, \$37,554 65; judiciary, \$100,911 58; legislature, \$96,007 99; commissary's department, \$14,487 68; commissioners of code, \$2,450; commissioners on practice and pleading, \$2,560 28; State printing, \$92,528 53; deaf and dumb, \$25,784 10; blind, \$11,918 85; agricultural societies, \$6,107; Onondaga Salt Springs, \$29,027; State prisons, \$52,376 97; State Library, \$6,987 52; postage, \$3,504 42; Hospital at New York, \$22,500; House of Refuge for Western New York, \$18,000; foreign poor, \$20,000; orphan asylums, \$5,500; New York Arsenal, \$920 08; Geological survey, \$16,918 82; Attorney-general's Library, \$1,499 49; miscellaneous and temporary expenditures, \$34,233 48.

The special funds held by the government in trust are the Bank Fund, the Free Bank Fund, and the School Fund: The *Bank Fund* is made up by annual contributions from the incorporated Safety Fund banks, of one half of one per cent. on their respective capitals, and is by law appropriated to the payment of the debts of such banks, liable to contribute the same as may become insolvent. The fund has been exhausted, and there are \$721,330 11 of 6 per cent. stock now outstanding to meet the wants of the fund—which stock, except \$50,450 54 now in the treasury or invested, is to be provided for out of the future contributions by the banks to the fund. The whole circulation redeemed for insolvent banks is \$1,508,740 64, and debts paid, \$1,028,684 43—total \$2,586,425 07. The aggregate amount of contributions up to January, 1866, when all the safety fund bank charters expire, will be \$994,225 60. The notes of every insolvent bank have been redeemed. There are now (1850) 73 of these banks in operation, and one branch, the aggregate capital of which amounts to \$27,664,860; circulation to which they are entitled, \$22,161,370; and actual circulation, \$20,669,173 50.

The *Free Bank Fund* consists of bonds, and mortgages, and stocks deposited with the Bank Commissioner, and moneys received on the same and held by him for the redemption of the circulating notes issued by banks and individual bankers under the general banking law. The whole number of associations is *seventy-one*, and of individual banks *sixty-five*—in all 136, the aggregate capital of which (1st December, 1850) was \$14,203,115; and the whole amount of deposits \$14,823,087 46.

Of the *funds devoted to education*, the capital and revenue of each description for the year ending 30th September, 1850, was as follows: "Common School Fund," capital \$2,290,673 23, and revenue \$123,090 78; the "United States Deposit Fund," capital \$4,014,520 71, and revenue \$255,323 85; and the "Literature Fund," capital \$272,880 12, and revenue \$37,948 12. Total—capital \$6,578,074 06, and revenue \$416,367 75. There has also been paid from the general fund for the instruction of the deaf and dumb, \$25,784 10, and to the Institution for the Blind, \$11,918 85, making the whole sum paid during the year for education, \$454,070 70. The Common School Fund also owns about 301,759 acres of land, and the Literature Fund, about 10,880 acres. Of the funds devoted to education, as above what is exclusively the Common School Fund, may be stated as follows: Productive capital of the School Fund, \$2,290,673 23; such an amount from the United States Deposit Fund as will produce \$165,000—the sum annually appropriated therefrom for the support of common schools, at six per cent. interest, \$2,750,000—and sum reserved by the constitution to be added annually to the capital of the School Fund, \$25,000, making a total of \$5,065,673 33. The annual interest on this sum, at six per cent., is \$303,340 39. The balance of the income of the United States Deposit Fund (\$90,328 85) is appropriated to the support of colleges, academies, the Normal School, Indian schools, teachers' institutes, etc. The income of the Literature Fund must, by the constitution, be applied to the support of academies. The whole amount of public money received from all sources by the commissioners of cities and town superintendents, during the year ending 1st July, 1850, was \$1,035,554 85, of which was apportioned to teachers' wages \$730,798 12, and for libraries \$91,363 90, leaving a balance apportioned for contingent expenses amounting to \$213,692 83. The amount paid on rate bills for teachers' wages besides public money, was \$508,724 56. Total cost of supporting common schools, \$1,544,579 41.

Education.—In the 878 towns and 51 wards of cities of the State, there were on 1st July, 1850, 8,894 common school districts, and 5,625 parts of districts; and returns were received from 8,336 whole, and 5,475 parts of districts. The average length of schools in all districts, 8 months. Volumes in district libraries, 1,449,950. Children taught during the year, 794,500, and the number of children between 5 and 16 years of age returned, 735,188; of these 200,125 pupils attended schools less than 2 months, 198,022 less than 4 months, 167,732 less than 6 months, 106,100 less than 8 months, 59,315 less than 10 months, 18,455 less than 12 months, and 9,079 12 months. In 52 schools for colored children there were 4,971 scholars, and for the support of these \$11,450 44 was appropriated. There were besides, schools for the instruction of Indian children in the several reservations; in 1849, 641 Indian children between 5 and 16 years of age, were reported, and about 500 attended school; about 250 attend the Normal School at Albany annually, and on the 1st January, 1851, there were 226 pupils in the institution—77 males, and 149 females. The whole number of graduates was 494—276 males, and 218 females; and during the year then ending 9 Indian youth—6 males, and 3 females—were taught, to prepare them for teachers among their own people. Teachers' institutes are held annually in the counties, but the reports say that of late a diminished interest in regard of them has been observed.

Most of the large centres of population have incorporated academies which are supervised by the Regents of the University; and there are a large number of unincorporated academies, seminaries, and private schools, self-supporting. About 75,000 children are annually taught at the private institutions.

The collegiate establishments within the State are also numerous and highly efficient as institutions of learning. The principal of these, including academic, law, medical, theological, etc., with their statistics in 1850, are as follows:

Names	Founded.	Location.	Professors.	Alumni.	Students.	Library.

There are numerous other local schools besides the above, as the ward schools of cities, various mechanics' schools, endowed schools, the Free Academy at New York and others, which are not included in the above returns, but which are nevertheless of essential utility in the field of education; and with regard to literary, scientific, and artistic institutions, no other State in the Union is so amply provided with them.

Public Libraries.—Three State libraries—34,099 volumes; 21 social—151,894 volumes; 8 college—43,376 volumes; 21 students—19,319 volumes; 171 academic and professional—143,465 volumes; 4 scientific and historical—25,253 volumes 8,070 public school—1,338,345 volumes. Total 8,298 libraries, and 1,756,254 volumes.

Periodical Press.—The whole number of periodicals published in the State, on the 1st June, 1850, was 458, and of these 141 were whig, 110 democratic, and 207 neutral in politics, in the latter class being also included all literary, religious, scientific, etc., periodicals, and all the character of which had not been ascertained. Of the aggregate number, 54 were published daily, 1 four times a week, 13 tri-weekly, 13 semi-weekly, 313 weekly, 13 semi-monthly, 25 monthly, and 3 quarterly; and the circulation at each issue of the dailies was 230,995, or 72,301,495 annually; of the one published 4 times a week 1,100, or 223,800 annually; of the tri-weeklies 36,975, or 5,763,150 annually; of the semi-weeklies 30,363, or 3,157,960 annually; of the weeklies 694,414, or 36,109,523 annually; of the semi-monthlies 73,500, or 1,834,000 annually; of the monthlies 493,750, or 5,205,000 annually; and of the quarterlies 6,150, or 24,600 annually; total copies at each issue 1,512,249, or 124,673,423 annually. In the city of New York the periodicals numbered, 14 dailies, 3 semi-weeklies, 58 weeklies, 8 Sunday papers, 5 semi-monthlies, 39 monthlies, and 2 quarterlies. In Albany County there are 5 d. and 9 w.; in Alleghany, 3 w.; in Broome, 1 d. and 3 w.; in Cattaraugus, 5 w.; in Cayuga, 1 d., 5 w., and 1 m.; in Chautauque, 9 w.; in Chemung, 9 w.; in Chenango, 4 w.; in Clinton, 3 w. and 1 m.; in Columbia, 1 d., 6 w., and 1 s.-m.; in Cortland, 5 w.; in Delaware, 3 w.; in Dutchess, 6 w.; in Erie, 6 d., 1 four times a week, 4 t.-w., 1 s.-w., 10 w., and 2 m.; in Essex, 3 w. and 1 m.; in Franklin, 2 w.; in Fulton, 2 w.; in Genesee, 4 w.; in Greene, 3 w.; in Herkimer, 4 w.; in Jefferson, 5 w.; in Kings, 8 d. and 3 w.; in Lewis, 3 w.; in Livingston, 6 w. and 1 s.-m.; in Madison, 5 w. and 1 s.-m.; in Monroe, 3 d., 9 t.-w., 10 w., 2 s.-m., and 2 m.; in Montgomery, 6 w.; in Niagara, 1 d. and 4 w.; in Oneida, 4 d., 13 w., 2 s.-m., and 1 m.; in Onondaga, 4 d., 1 s.-w., 12 w., 1 s.-m., and 3 m.; in Ontario, 5 w.; in Orange, 2 s.-w., 6 w., and 1 q.; in Orleans, 4 w.; in Oswego, 2 d. and 6 w.; in Otsego, 4 w.; in Putnam, 1 w.; in Queens, 5 w.; in Rensselaer, 3 d., 4 w., and 1 m.; in Richmond, 1 w.; in Rockland, 2 w.; in St. Lawrence, 7 w.; in Saratoga, 8 w.; in Schenectady, 2 w.; in Schoharie, 2 w.; in Seneca, 4 w.; in Steuben, 5 w.; in Suffolk, 1 s.-w. and 6 w.; in Sullivan, 3 w.; in Tioga, 2 w.; in Tompkins, 1 d. and 2 w.; in Ulster, 5 w.; in Washington, 7 w.; in Wayne, 7 w.; in Westchester, 5 w.; in Wyoming, 2 w.; and in Yates, 3 weeklies.

Religious Denominations.—The statistics of the several religious denominations, in 1850, were as follows:

—making a total of 4,034 churches, accommodating 1,896,229 persons, and valued as property at \$21,132,707. The State constitutes two dioceses of the Protestant Episcopal Church, viz, the diocese of New York, and the diocese of Western New York; and in the Roman Catholic Church, it constitutes the dioceses of Buffalo and Albany, and the arch-diocese of New York, in the latter of which, East New Jersey is included.

Pauperism and Crime.—The whole number of paupers that received assistance and support within the year ending 1st June, 1850, was 59,355, of whom 19,275 were native-born and 40,550 foreign-born; and the whole number receiving public charity at that date was 12,833, of whom 5,755 were native-born and 7,078 foreigners. Annual cost of support \$817,336. In the above, the foreign paupers under charge of the Commissioners of Emigration are not accounted for, as they are chargeable on a special fund raised by capitation tax on themselves. The number of convictions in courts of record in the year 1849, was 1,531—1,437 males, and 94 females: offenses against the person, 397—385 males and 12 females; offenses against property, with violence, 150—146 males and 4 females; offenses against property, without violence, 545—500 males and 45 females; offenses against the currency, 37 (all males); and other offenses, 404—371 males 33 females. The ratio of convictions of females to those of males is as 1 to 15.13. Upon convictions, 4 were sentenced to be hung, 545 to the State prison, 51 to House of Refuge, 299 to the local prison, 32 to be fined and imprisoned, 565 to fine, and the sentences of 33 were suspended. The State prisons are at Sing Sing, Auburn, and Clinton. The whole number of convicts in these on the 31st December, 1849, was 1,434; received during the year, 600, and discharged—by expiration of sentence, 352; by death by disease, 30; by accidental death, 3; by escape 9; by pardon, 45; by habeas corpus, 4; to House of Refuge, 2; to Lunatic Asylum, 10; to other prisons, 17—in all, 472. Remaining in prison 1st December, 1850, 1,611. Of the 600 admitted, 535 were first convictions, 56 second, 7 third, and 2 fourth convictions. The daily average of all these prisons was 1,356. The whole number of punishments in all the male prisons was 613—in Auburn 1 in 21, in Sing Sing 1 in 35, and in Clinton 1 in 28. Average cost of each ration—at Sing Sing 8.6 cents, at Auburn 6.7 cents, and at Clinton 8.3 cents. Of the 1,611 remaining in prison, 11 were committed for murder, 41 for

manslaughter, 69 for assault with intent to kill, 44 for rape, 24 for assault to commit rape, 353 for burglary, 537 for grand larceny, 83 for robbery, 104 for petit larceny, and 31 for counterfeiting and uttering. A common English education has been given to 472 of these convicts. The receipts from labor at the prisons amounted to \$216,680 86: from Sing Sing \$99,539 70, from Auburn \$79,573 11, and from Clinton \$37,567 55; and the expenditures to \$204,686 43: at Sing Sing \$95,828 64, at Auburn \$71,164 07, and at Clinton \$37,693 97.

Historical Sketch.—Verrazano, a Florentine, in the service of France, is said to have discovered New York Bay in 1524; but the history of the State commences with the arrival of Hudson, an Englishman in the Dutch service, in 1609, who ascended the river, bearing his name, as far as the present site of Albany. The country thus discovered was inhabited by the Mohawks, a formidable and warlike tribe, and the Manhattans, who inhabited the island on which New York city is built, were also a fierce and warlike nation. In 1610, a ship was sent from Amsterdam to trade with these Indians, and other voyages were made during the succeeding years. In 1613, small trading forts were erected on the river, and several houses were built on Manhattan Island. On the 29th March, 1614, the States' General of the United Netherlands passed an ordinance granting to all original discoverers of lands in North America the exclusive privilege of making four voyages to each, for the purposes of trade. Under this ordinance five ships were dispatched the same year by a company of merchants. They explored extensively the coast near New York. Blok, one of the commanders, discovered and named Block Island, south of Rhode Island, and also the East River, and Captain Mey, proceeding southward, discovered capes May and Henlopen; and on the return of these ships, a Captain Henrickson was left on the coast to prosecute discoveries. The country extending between the Connecticut and Delaware rivers received the name of New Netherlands, and the exclusive right to trade there for three years from that date (11th October, 1614), was granted to the discoverers, who, upon the passage of this grant, formed themselves into a company called the United New Netherlands Company. This company erected the same year a fort and trading house on an island just below the present city of Albany, and garrisoned it with ten or twelve men. Another fort was erected on the southern point of Manhattan Island. The grant expiring in 1618, the company petitioned for its renewal in vain. Private traders, however, continued to visit the country for the purposes of traffic.

In June, 1621, was passed the charter of the Dutch West India Company, an armed mercantile association. This company sent out a ship called the New Netherlands, on the 20th June, 1623, to their newly acquired possessions, under the direction of Mey, already noticed, and Tienpont. The former of these proceeded to the Delaware, and established a fort near the present town of Gloucester, which he named Fort Nassau, and the same year a fortified post, called Fort Orange, was erected on the site of Albany. In 1624, Peter Minuit having been appointed director, arrived out with several families of Walloons, inhabitants of the frontiers of Belgium and France. These settled on a bay of Long Island, and called from them Wahlebocht, or bay of foreigners, a name since corrupted into Wallabout. The government was vested in the Director and a Council of Five. The other important officer of the colony was the Schout Fiscal, who filled both the offices of sheriff and attorney-general. Under the superintendance of these authorities the trade of the colony prospered. In 1626, Staten Island was purchased of the Indians, and in the same year Manhattan Island was purchased for twenty-five dollars. The fort upon this latter island received the title of Fort Amsterdam, and the colony that of New Amsterdam. The exports this year amounted \$19,000. In 1627, the settlers of Plymouth Colony set up a claim to the region watered by the Connecticut, which the Dutch denied. Up to 1629, the settlements were simply trading posts. On the 7th June, 1629, a measure was adopted which is still felt in the State, and under this extensive seignories, with feudal rights, were granted to certain individuals. Active exertions were now made to colonize these vast estates. In 1632, Minuit was recalled, and the government of Wouter Van Twiller installed, and after a lapse of five years of mal-administration, Twiller was succeeded by William Kieft. During the administration of Twiller, difficulties arose between the English settlers, on the Connecticut, and the Dutch authorities. In 1638, the restrictions which had hitherto been placed by the company upon trade were taken off and free traffic encouraged. This measure gave a new impulse to immigration. Persecution, too, drove many from New England and Virginia to settle among the more tolerant Dutch. In the meantime the aggressive disposition of the English continued. They founded a colony at New Haven, occupied the Tunxis (Farmington) Valley, and even went so far as to plow and sow the company's land around Fort Good Hope, at Hartford. Remonstrances were vain. Not satisfied with these encroachments, the Plymouth Company granted the whole of Long Island to the Earl of Sterling, and a settlement was soon after effected by Lyon Gardiner, at Gardiner's Island. The Dutch, meanwhile, were active in establishing settlements at the western extremity of the island—in *Breuckelen*, at *Gouvannus*, and *Gravenzande*. In May, 1640, emigrants from Lynn, *Massachusetts*, settled on Cow Neck, but were driven off by the authorities. In the autumn of the same year, however, they returned, and founded the towns of Southampton and Southold. The Indians saw, with daily increasing envy and dislike, the heritage of their fathers thus falling from them. War was the consequence, which desolated the colony for five years. In 1645, Peter Stuyvesant became governor, and only terminated his administration by the capture of his colony by the English, on the 6th September, 1664.

The name of the colony and city was now changed to that of New York, and Colonel Nichols was appointed by the Duke of York, to whom the territory had been granted by the King, as governor. On the 12th June, 1666, the governor granted a charter to the city of New York. The colony was recaptured by the Dutch on the 7th August, 1673. The name of the city was now changed to New Orange, that of Albany to Williamstadt, and the fort previously called Fort James to William Hendrick. Captain Anthony Colve was appointed governor. The country, however, was not destined to be Dutch, for by the treaty of 9th February, 1674, it was restored to the English, and given up the following autumn.

Some doubts existing relative to the validity of the Duke of York's patent, both on account of the Dutch occupancy and the fact that it was wrested from that nation in time of peace, he deemed it advisable to obtain a new patent from his brother, the king, in 1764. In the autumn of that year Major Edmond Andros, afterward so well known as the tyrant of New England, arrived in New York and assumed the office of Governor. In February, 1685, the duke ascended the throne, under the title of James II., and among the first acts of this bigot were his instructions to allow no printing press to be established in the colony. But his reign was short, having been put an end to by the Revolution of 1688, and the proclamation of William and Mary as heritors of the throne. No important event occurred from this time for many years. In 1741 occurred the negro plot, so famous in the annals of New York. In 1744 war was declared between England and France, and the colonists prepared to carry it on with vigor. In 1745 New England and New York united in an attack upon the French fortress at Louisburg, and New York furnished ten pieces of cannon and £3,000 toward the expedition. It was surrendered in July of that year. The colonies were so severely molested during the year 1746 by the Indians in pay of the French, that it was determined to attack Crown Point and Niagara, and to capture Quebec. For this purpose New York raised £40,000. The enterprise proved unsuccessful, and the peace of Aix la Chapelle was concluded in 1748.

For a few years after this the colony prospered, and began to recover from its losses by the wars. In 1754 a convention from all the colonies north of Mason and Dixon's Line met at Albany, to devise some plan of common defense against the French, who had again commenced hostilities. At this convention, Dr. Franklin, afterward so eminent in the history of the Revolution, proposed a plan of political union. In the spring of the following year an expedition was sent against Fort Du Quesne, but entirely failed, Braddock, the leader of the expedition, having been killed. Nor was the campaign of 1756 more successful. In 1758 William Pitt was placed at the head of the English government, and a new impulse was given to the energies of the nation. Success soon followed. Forts Frontenac and Du Quesne were captured. Stimulated by these successes, New York, in 1759, raised \$625,000 and a force of 2,650 men. Ticonderoga was captured early in the season, and Crown Point surrendered a few days later. Fort Niagara was reduced, and on the 18th September the brave General Wolfe laid down his life, in the moment of victory, when the English banners floated over the towers of Quebec. The ensuing year the French made an unsuccessful effort to recapture Quebec, and on the 8th September all the French possessions east of the Mississippi were surrendered to the British, and the French power extinguished. Two small islands off the southern coast of Newfoundland alone were preserved to them of their former vast possessions. About this time the difficulties between New Hampshire and New York commenced, respecting their respective limits, which only ceased with the admission of Vermont into the Union after the Revolution. The imposition of the Stamp Act, in 1764, and the other atrocities of the British Government which followed it, and which led to the overthrow of the British power in the colonies, need not be enlarged upon in this connection, being a part of the general history of the Union. On the first Tuesday in October, 1765, a congress, composed of delegates from the New England and Middle States, assembled at New York, to take into consideration their grievances. South Carolina had also delegates. This congress made declaration of the privileges and rights of the colonies. Liberty-poles had, at this period, been frequently erected in New York city, and as often been destroyed by the British soldiery. On the 5th September, 1774, a congress from several colonies met at Philadelphia, in which, however, New York was not represented. In April, 1775, a provincial convention met at New York, and elected delegates to the second congress. The news of the battle of Lexington caused great excitement in the city, and the arms of the city were ordered to Boston, but seized by the authorities before their shipment. The war had now commenced. Ticonderoga, Crown Point, and Whitehall, in this State, were captured by the provincials, and the entire command of Lake Champlain was obtained. On the 9th July, 1771, the provincial congress met at White Plains, and took the title of Representatives of the State of New York. On the first day of their meeting they received the Declaration of Independence, and immediately passed a resolution approving it. The fortunes of the continental army from this time to the acknowledgment by England of the will of the sovereign people were various, and in New York were fought many of the famous battles of the period—those of Brooklyn Heights, Harlem Heights, Bemis' Heights, Stony Point, Ticonderoga, Fort Schuyler, Stillwater, and Saratoga, at the last of which Burgoyne surrendered to the Americans.

On the 12th March, 1777, a constitution for the State of New York was reported by a committee of the provincial congress, and on the 20th April ensuing was adopted as the basis of the government. Under the new constitution George Clinton was elected Governor. At this time there were fourteen counties in the State, viz., New York, Richmond, King's, Queen's, Suffolk, Westchester, Dutchess, Orange, Ulster, Albany, Tryon, Charlotte, Cumberland, and Gloucester. The last two, together with part of Albany and Charlotte counties, were within the limits of the present State of Vermont. In 1790 the difficulties which for so long a time had existed between New York and Vermont were amicably adjusted, and New York, in its present limits, entered upon her career of greatness, untrammelled by fraternal animosities. In 1791 the industry of the State received a new impulse from the organization of a society for the promotion of agriculture, arts, and manufactures. The next year companies were organized to improve the navigation of the Hudson and Mohawk Rivers, and open canals to Lake Champlain and Ontario. In 1807 Robert Fulton made his first trip with the Clermont, the first steamboat which ever plied successfully on the waters. In this enterprise he was aided by Robert R. Livingston, one of the most distinguished statesmen of the nation. The war of 1812-15 soon followed. On the 24th of December, 1814, the treaty of Ghent was signed, and peace again restored the land to its wonted prosperity. Of the events which have happened since the war there are many living witnesses, and a brief notice only is required. The canal project was revived, and in 1816 the subject was brought before the legislature, and in 1817 the Erie and Champlain canals were commenced. The first was completed in 1825, and the latter in 1823. In 1835 a law was passed, ordering the enlargement of the Erie Canal. Railroads had already been commenced in the State. Both have been since prosecuted with untiring energy, and these works have no doubt had a mighty influence on the prosperity of the country. In 1821, and also in 1846, the fundamental laws were revised, and many important additions made to them. As a State, New York stands at the head of the American Union.

ALBANY, on the right bank of the Hudson, 145 miles above New York city, is the political capital of the State.

NEW YORK, city and port of entry, New York co., N. Y. : Situated at the head of New York Bay, and at the confluence of the Hudson r. and the strait called East r., which connects the bay with Long Island Sound. The city and county have the same limits, comprising the whole of Manhattan, or New York Island, which has an extreme length of 13½ m., and an average width of 1 3-5 m. Its greatest breadth is on the line of Eighty-eighth Street, about 2½ m.; its area is about 14,000 acres. It is separated from the main land, in Westchester County, by Harlem r., a navigable water-course 8 m. long, connecting the Hudson and East rivers.

The latitude of the City Hall (¼ m. from the Battery) is 40° 42' 40" N.; its longitude is 74° 01' 08" W. from Greenwich, and 90° 00' 22" E. from Washington. Its distance by the most direct railroad from Albany is 145 m.; from Boston, 236 m.; from Philadelphia, 67 m.; from Baltimore, 155 m.; from Washington, 223 m.; from Cleveland 508 m.; from Cincinnati, 755 m.; from Chicago, 855 m.; and from Alton, *viz* Chicago (St. Louis from Alton 20 m. by steamboat), 1,118 miles.

New York has a greater population, commerce, and wealth than any other city in the United States, and is surpassed in importance by only two other cities in Europe, namely, London and Paris. For facility of examination and reference, its description and statistics will be given in the following order.

Surface.—The island was originally much diversified, and in its upper portion, where least populated, it still retains somewhat of its original character. With the increase of population, improvements have been made according to an uniform system, in laying out avenues and streets, grading them, providing sewerage, etc. The ground rises from each river with gentle ascent, thus forming a central ridge throughout nearly the entire length of the island. A considerable portion of the lower part of the city, particularly that near the rivers, is made ground. The Battery, a public park of 10 acres, at the S. extremity of the city, was built upon a low ledge of rocks, much beyond the original water line.

Formation.—The soil is a sandy alluvium, and less fertile

than in many other parts of the State. Its basis is principally gneiss, but the north part of the island is composed of granular and primitive limestone, which is much quarried. In many parts the limestone is at the surface, and occupies large patches. On the W. side of the city, not far from the Hindson r., between 50th and 60th streets, and in some other parts, a number of streets are cut through this limestone.

Erected of Houses, etc.—In April, 1853, the city was compactly built from the Battery to 42d street, 4 miles. The density of population is least in the upper portions of the city, but is increasing with astonishing rapidity. A very great impulse has lately been given to this increase by the sale of large tracts of ground, lately held by the city, and by the erection of the Crystal Palace, adjoining the Croton Reservoir, in Sixth Avenue, between 40th and 42d streets.

Plan.—The general plan of the city is regular. In the lower and business portion, the streets were laid out to suit the shape of the island, and though the plan is not uniform, its general divisions are regular, with wide streets, crossing at right angles. At Houston Street (1 mile from City Hall, and $\frac{1}{4}$ m. from the Battery) commences the uniform plan of avenues and streets. Above this point, the entire island is divided longitudinally by 14 parallel avenues, 100 feet wide, which are crossed at right angles by 156 streets, numerically designated, running direct from river to river, which are 80 feet wide, except 16, which are 100 feet wide, of which 14th street is the first that extends entirely across the island. The principal street is Broadway, particularly that portion of it which occupies the central ridge of the island, extending from the Battery northwardly in a direct line nearly $\frac{2}{3}$ m. to Tenth Street, Grace Church. This splendid street, one of the finest in the world, has an uniform width of 80 feet, is well paved, and contains many of the most splendid edifices of the city.

Public Parks.—The public grounds of New York are not commensurate with its extent and wealth. However, because of its peninsular situation, these are less necessary than in most large cities. Of late there has been some agitation of a project to provide a great public park in the upper part of the city, but as yet the city authorities have taken no definite action on the subject. The number of city parks is 13, which have an aggregate area of 170 acres. Of these the following are the principal grounds: the Battery, at the S. extremity of the city, of irregular form, containing $10\frac{1}{2}$ acres, is in summer a delightful and much frequented resort, fanned by the breezes from the bay, and well shaded with large trees. The Park, fronting on Broadway, in form nearly triangular, has $10\frac{1}{2}$ acres, adorned by shade-trees and a beautiful fountain. It contains the City Hall, the Hall of Records, the new City Hall, and other public buildings—(of which see subsequent description.) Washington Square, $\frac{2}{3}$ m. from the Battery, lies W. of Broadway, containing $9\frac{1}{2}$ acres, neatly laid out, and abounding with shade-trees, is a favorite promenade and resort for military parade, as is also Tompkin's Square, $10\frac{1}{2}$ acres, E. from Broadway. The other parks in the upper portions of the city, are Union Place, containing $3\frac{1}{2}$ acres; Stuyvesant Square, $3\frac{1}{2}$ acres; Madison Square, $6\frac{1}{2}$ acres; Bloomingdale Square, 18 acres; Hamilton Square, 24 acres; Observatory Place, $25\frac{1}{2}$ acres; Manhattan Square, 19 acres; and Mount Morris, 20 acres.

Business Locations.—The upper portion of the city is principally composed of residences, while the lower, or southern part, accommodates the great bulk of commerce and general trade. The principal business portion lies south of Fulton Street. Wall Street is the focus of the great monetary operations, and in this locality the principal speculations in stocks, bonds, houses, lands, and other merchandise, are carried on. It is occupied by bankers, brokers, insurance companies, etc., and contains also the Merchants' Exchange and Custom House. At its head stands Trinity Church, the noblest ecclesiastical edifice in the land. South Street is occupied by the principal shipping-houses, and the offices of several of the principal packet lines. West Street

also has the same characteristics, but not to so great an extent. The dry goods, jobbing, and importing business, formerly confined to Pearl Street, has extended to William, Broad, Pine, Cedar, Liberty, etc. On Water and Front streets, and vicinity, are the wholesale grocers, commission merchants, and mechanics, connected with the shipping business. Broadway is not less an avenue of business than the promenade of beauty and fashion. Its lower part is now almost all taken up by splendid stores and warehouses. It contains the chief book-stores, jewelry, upholstery, hat and cap, tailoring, millinery, retail dry goods, and other like establishments. In Cedar Street, just off Broadway, is the famous Map and Geographical Emporium of

No.	J. H. COLTON,	No.
86.		86.

the largest and most varied in the Union. Grand Street and Catherine are devoted to heavy dry goods and variety stores. Ferry, Jacob, Gold, and neighboring streets, constitute the great leather district. The hardware trade is chiefly in Platt, John, and Pearl streets. In Nassau are extensive newspaper establishments, book-binders, and publishing concerns, and in William Street are a great variety of hosiery and fancy goods stores. Maiden Lane and Cortland Street, and Broadway, near the junction of these, is the location of the principal wholesale jewelers.

Wharves.—The water edges of the city are fringed with seven miles of wharves and docks. On each side there are about 60 piers, averaging 200 to 300 feet in length, and from 50 to 60 feet wide. The shipping lies along these as safely as in a tide-water dock. Foreign shipping lies mostly at the wharves of the East River, as being a more secure position than on the other side. Usually these docks are crowded with vessels of all nations, and on an average 2,000 coasting vessels are in harbor at a time. Some loading, some unloading, and others waiting their turn for berths. With all these vast accommodations for shipping, however, there is scanty room for so large a commerce as centres at this port; and to furnish the additional facilities which the increasing commerce of the city demanded, the Legislature, in 1840, chartered the Atlantic Dock Company with a capital of \$1,000,000. Their docks at Brooklyn are spacious, and deep enough to float the largest vessel ever built. The British steamers dock at Jersey City.

Rivers and Harbor.—The width of the North River is one mile to Jersey City, at the ferry, and one mile and a half to Hoboken. The width of the East River is from one third to half a mile. At the South Ferry it is 1,300 yards, at Fulton Ferry 731 yards, and at Catherine Ferry 736 yards. The Bay of New York is from $\frac{1}{4}$ to $5\frac{1}{2}$ miles broad—average 3 miles, 8 miles long and about 25 miles in periphery, forming a basin of capacity sufficient to receive the navies of the world. The Bay of New York communicates with Newark Bay, through the Kills, in the west, between Staten Island and Bergen Neck, and with another bay, at the south, called the outer or lower harbor, through the Narrows a compressed strait between Staten and Long islands. This latter bay opens directly into the ocean. The inner harbor, as well as being one of the best, is also one of the most beautiful in the world. Besides all the natural beauty of the scene, there can hardly be a finer spectacle than is presented in the great city spread before it, with its piers crowded with a dense forest of masts, bearing the flags of all nations the shipping at anchor, and the countless steamboats and vessels coming and going perpetually.

The depth of Water and Tides.—The currents in the rivers and bay are very strong, keeping these waters open often when the rivers and bays much farther south are frozen up. The whole harbor was covered with a solid mass of ice in 1780, and again in 1820. Very rarely since has either river been frozen. In the month of January, 1852, the East River was obstructed for a short period, but the North River remained open. Thousands crossed over the ice from Brooklyn

to New York. The rise of the tide is nearly 7 feet. Going northward the rise increases, and in the Bay of Fundy is 90 feet, the maximum of the coast. Southwardly it decreases, and in the Gulf of Mexico is but 18 inches. The time of the tide at other places on the coast, or on waters connecting with the ocean, varies from that of New York as follows—*earlier*: Halifax, N. S., 2 h. 15 m.; New Bedford, 1 h. 40 m.; Providence, 0 h. 41 m.; Sandy Hook, 2 h. 45 m.; Norfolk, 0 h. 41 m.; and Richmond, 2 h. 25 m.; and *later*: Eastport, 2 h. 9 m.; Portland, 1 h. 39 m.; Boston, 2 h. 19 m.; Holmes' Hole, 1 h. 4 m.; Philadelphia, 5 h. 19 m.; Baltimore, 5 h. 07 m.; Charleston, 10 h. 19 m.; Mobile Point, 1 h. 54 m.; Albany, 6 h. 34 m.; Quebec, 8 h. 49 m. The depth of water at the wharves is 6 or 7 feet, and increases rapidly outward. It is sufficient in either river to float the largest ships. At the old channel, on the bar at Sandy Hook, the depth is 21 feet at low tide, and 27 at high tide. That of the New, or Gedney's Channel, is at low water 32 feet. The channel inside varies from 35 to 60 feet.

Defenses.—The harbor is well defended. The principal works are at the Narrows, which, at the point selected, is but one-third of a mile wide. Here are built, on the Long Island side, forts Hamilton and Lafayette, the latter on a reef of rocks 200 yards from the shore, with three tiers of guns. On the Staten Island side are Forts Tompkins and Rich-

mond, the former on the heights, and provided with a number of subterranean passages. These forts are in excellent condition. The entrance from the Sound to the East River is defended by Fort Schuyler, on Throg's Neck. Within the harbor are batteries on Bedloe's and Ellis' islands, on the west side of the bay, and on Governor's Island, 3,200 feet from the city, are Fort Columbus, in the form of a star, commanding the south side of the channel; and on the south-west point, Castle William, a round tower 600 feet in circuit and 60 feet high, with three tiers of guns, and South Battery, on the south-west side, commanding the entrance through Buttermilk Channel. In case of war, too, the whole surrounding heights could be readily fortified, and Castle Garden, and the Battery esplanade would furnish ready-made sites for an extensive armament. No port in the world, indeed, is better defended by permanent fortifications, or could be more easily placed in a condition of defense.

Manufactures.—Although New York employs the greater portion of its capital in foreign commerce and domestic trade, it is also distinguished as the greatest manufacturing city in the United States, having a greater capital therein invested, more hands employed, and deriving a greater profit therefrom, than any other city. The general returns of the census are exhibited in the following table:

PRODUCTIVE ESTABLISHMENTS OF NEW YORK CITY.

Wards.	No. of productive or manufacturing establishments.	Capital invested.	Hands employed.			Annual product, or value of articles manufactured.
			Male.	Female.	Total.	
1	137	\$1,013,500	3,620	6,087	9,707	\$3,906,837
2	551	12,672,995	19,648	16,056	35,704	81,810,642
3	9	607,000	633	27	660	1,801,700
4	189	1,688,800	1,952	943	2,895	4,585,211
5	83	1,227,562	1,788	353	2,146	4,473,214
6	156	9,125,880	2,963	1,072	4,040	8,822,191
7	422	3,493,275	4,098	1,849	5,947	9,641,083
8	233	861,590	2,230	555	2,785	4,080,484
9	189	793,300	2,095	359	2,454	2,883,180
10	96	809,700	809	226	1,035	1,678,422
11	149	2,051,850	4,197	237	4,434	20,056,409
12	19	341,550	350	70	420	520,500
13	172	299,110	998	288	1,281	2,073,428
14	72	965,700	1,029	531	1,560	1,546,627
15	93	1,045,550	1,036	140	1,176	1,376,818
16	129	3,280,380	2,207	556	2,763	4,363,175
17	145	892,400	1,216	119	1,335	2,579,812
18	109	1,227,780	2,266	852	2,618	2,920,760
19	44	334,600	568	102	670	1,293,860
Total.	3,387	\$34,232,822	53,708	29,917	83,620	\$105,218,308

By these statistics it appears that the operatives in the manufactories, etc., form nearly one-sixth of the whole population of the city; that the proportion of the annual products to the capital invested, is 307 per cent.; and that the average value of the product of each operative is \$1,258. The manufacturing interests have had as rapid increase as those of commerce. In 1840, the total capital in manufactories was \$11,228,894; and in 1850, as stated above, it amounted to \$34,232,822.

The branches of manufacturing industry which are here most extensively prosecuted are these directly developed by the great commerce of the city. Pre-eminent among these are the great iron foundries and machine-shops, of which the largest are the Novelty Works, Morgan Works, Allaire Works, and the Fulton and West Street foundries. The two former employ each about 900 men. These and other establishments are engaged in casting and molding the largest class of steamship engines, their bed plates, and other iron works, locomotives, mills, presses, gearing, boilers, etc. There are 10 sugar refineries, all of which are very large establishments, superior to any others in the United States, and having a greater annual product. The value of cabinet furniture annually made is above \$1,000,000. There are numerous breweries and distilleries,

which employ a large capital. The following summary statement of the number of establishments which in 1850 prosecuted the principal branches of manufacturing industry, is compiled from the "Business Directory" for that year: Boat-building, 27; boiler manuf., 16; brass and bell founders, 39; breweries, 42; bakeries, 475; black and whitesmithing, 185; britannia-ware manuf., 13; block and pumpmaking, 33; bookbinders, 55; boot and shoemaking, 1,377; brushes, etc., 40; building of houses, etc., 136; cabinetmaking, 255; carpentering, 260; chairmaking, 84; clockmaking, 29; clothing, 283; coaches and carriages, 53; confectionery, 265; cordage, etc., 6; dressmaking, 440; edge tools, 11; goldbeating, 21; gold pen manuf., 20; guns, etc., 20; ink manuf., 11; iron foundries, 38; lock manuf., 24; machinery, 79; millinery, 256; morocco manuf., 28; musical instruments, 41; nails, 15; organs, 5; patent medicines, 54; perfumery, 26; piano-fortes, 55; saddles and harness, 90; sails, 51; sash and blind manuf., 61; segars, 119; ships, 19; silver manuf., 39; silver plating, 27; soap and candle, 43; steam-engine manuf., 77; steel manuf., 10; tailoring, 561; trunk factories, 58; type foundries, 9; varnish manuf., 14; white lead manuf., 9.

Commerce.—Commercial interests originated the settlement of New York, developed its rapid growth, have always

directly influenced its changes of fortune, and are now the main support of its greatness. With the fluctuation of the course of events, with regard to general commerce, there has always been a corresponding change in the ratio of the increase of its population, and of its general prosperity. Its first period of great prosperity, subsequent to the Revolution, was from 1790 to 1800; during which decade its population increased at a ratio of 82.16 per cent.—viz., from 83,131 (1790), to 60,489 (1800). During this period the old world, involved in wars, was making constant demand upon the industry of the new; and the produce of the interior and of the neighboring States was pressing to the Atlantic, whence the shipping of New York carried it abroad, returning again with goods for distribution, both in its own and the neighboring markets. The business of the city consequently wonderfully increased, and its attendant advantages drew thither capital and also men to participate in the profits arising from the large investment then made. During the next decade (1800 to 1810) there was a falling off of the ratio of increase of population and wealth, and business enterprise was greatly depressed. Though the population increased in this period at a ratio of 59½ per cent. [from 60,489 (1800), to 96,373 (1810),] the increase in wealth was but 8 per cent.—viz., from \$24,496,370 to \$26,496,370. In the succeeding ten years, the war of 1812 with Great Britain entirely destroyed the foreign commerce of the city for 3 years; after which, from 1815 to 1820, it again revived and greatly advanced in wealth. The increase of its wealth during the entire decade (1810-20) was 163 per cent. (from \$26,496,370 to \$69,530,753). While the increase in population was only 28½ per cent. (96,373 to 123,706), which ratio is less than that of any other decade, and exhibits with extraordinary clearness the dependence of New York city upon commerce, since during this same period the increase of the population of the State was more rapid than ever.

In 1820 commerce again revived, and steadily increased until 1825, in which year it reached a climax that was not again attained until 1831. In 1826 the completion of the Erie Canal opened a new source of prosperity to commerce, and which assisted in the formation of the great speculations which soon characterized the financial career of the city. The revulsion which followed this unnatural expansion, and for a time prostrated all branches of business, most seriously affected the commercial interests of the city. Since its recovery from that reversion of fortune, its commercial prosperity has for the most part been steadily on the increase, though, of course, somewhat affected by the changes in the tariffs of the national government, and the changing relations of the nations with which it has intercourse.

The following table shows the amount of imports and exports of the port of New York, and the amount of duties collected on the importation in each year, from 1821 to 1851, inclusive:

Years.	Imports from Foreign countries.	Amount of duties on imports.	Exports to Foreign countries.
1821.....	\$36,020,012	\$7,243,542	\$12,124,645
1822.....	38,912,458	9,941,702	15,405,694

1850.....	103,250,508	24,457,610	33,661,517
1851.....	130,653,030	31,757,199	53,595,376
1852.....	117,739,457	28,678,910	44,187,329

Of the whole value of the imports into New York, very nearly one-half consists of dry goods. The following table exhibits the value of the importations of dry goods, of different kinds, compared with the whole importation of foreign merchandise in the last four fiscal years:

Manufactures,	1848-9.	1849-50.	1850-51.	1851-52.
Woolen.....	\$9,199,578.	\$14,637,060.	\$17,067,031.	\$14,388,565
Cotton.....	10,783,807.	10,660,857.	11,671,500.	9,982,547
Silk.....	14,301,316.	16,679,227.	24,858,850.	22,319,951

mer.	65,932,207.	108,250,508.	130,653,030.	117,739,457
Pro. d. g. w. i.	60.5 p. ct.	49.7 p. ct.	49.5 p. ct.	48.6 p. ct.

The following table gives a statement of the duties collected at the port of New York, compared with the total collections of the United States, in various years between 1789 and the present:

Years.	New York.	U. S.	Years.	New York.	U. S.
1789.....	\$145,320.	\$ —	1825.....	\$15,752,100.	\$20,095,714
1792.....	1,233,903.	3,443,071	1830.....	15,012,553.	21,922,391
1795.....	2,717,361.	5,558,461	1835.....	14,465,116.	19,391,311
1800.....	3,611,588.	9,080,933	1840.....	7,537,441.	13,499,502
1805.....	6,958,008.	12,936,457	1845.....	17,667,858.	27,523,118
1810.....	5,223,696.	8,583,309	1850.....	24,457,610.	39,668,636
1816.....	10,735,354.	36,306,875	1851.....	31,757,199.	49,017,597
1820.....	5,487,974.	15,005,612	1852.....	28,678,910.	47,320,316

The revenue collected at New York compared with that of the other principal ports of the United States in the year ending June 30, 1851, was as follows:

New York.....	\$31,757,199	New Orleans.....	\$2,296,636
Boston.....	6,577,540	Baltimore.....	1,047,273
Philadelphia....	3,667,838	Charleston, S. C..	600,712

According to the Business Directory of the city for 1850, the number of importers of different articles was as follows: of dry goods, 139; fancy goods, 100; hardware, 107; watches, 61; wines and liquors, 108; silks, 21; laces, 36; woolens, 11; drugs, 34; essential oils, 15; china-ware, 40; plate glass, 11; hides, 12; hosiery, 7; buttons, 7; baskets, 5; burr blocks, 3; general importers, 23, etc.

The imports and exports of specie and bullion are not included in the above table, but the following will exhibit their amounts for the last six years:

Years.	Imports.	Exports.	Years.	Imports.	Exports.
1847.....	\$8,307,380.	\$9,584	1850.....	\$10,502,115.	\$5,885,108
1848.....	1,173,406.	12,023,793	1851.....	10,390,501.	26,622,731
1849.....	2,813,380.	4,739,903	1852.....	2,528,391.	37,273,703

For the calendar year 1851, the import of gold and bullion from California, was \$43,671,432, and the export of gold and silver to all countries, was \$43,723,209.

Tonnage of New York City.—The following statement from the annual reports of the secretary of the treasury, exhibits the registered, the enrolled and licensed, and the total tonnage belonging to the district of New York from the year 1826 to the present time. The year ends with December 31, up to 1835, thence with September 30, to 1843, and from that time it ends with June 30:

Years.	Registered, Tons. 95ths.	Enrolled and Licensed, Tons. 95ths.	Total, Tons. 95ths.
1826	155,451 38	157,837 53	316,289 01
1827	165,014 87	181,341 90	346,356 82
1828	158,237 70	181,167 09	339,404 79
1829	110,993 21	150,711 12	261,704 33
1830	101,947 04	154,710 98	256,658 02
1831	122,467 92	163,980 62	286,448 50
1832	129,307 62	169,524 92	298,832 59
1833	151,915 33	171,818 53	323,733 86
1834	178,022 40	181,199 79	359,222 24
1835	191,626 43	185,071 29	376,697 72
1836	192,964 79	211,849 80	404,814 14
1837	191,322 11	219,549 64	410,871 75
1838	169,922 32	231,049 47	400,971 79
1839	183,566 55	246,734 83	430,300 88
1840	208,536 63	211,281 86	414,818 04
1841	225,174 36	212,840 02	438,014 38
1842	226,072 61	233,401 02	459,473 63
1843	237,240 29	259,725 27	496,965 56
1844	258,888 28	271,273 75	525,162 03
1845	248,917 00	301,642 48	550,559 43
1846	260,896 36	311,626 84	572,523 70
1847	297,516 04	348,527 26	646,043 30
1848	336,804 40	396,272 90	733,077 35
1849	378,976 89	417,504 85	796,481 79
1850	441,336 76	394,230 80	835,567 61
1851	504,309 27	436,884 47	931,193 74

Within this period of 25 years, it will be seen that the tonnage of this district has nearly trebled in amount.

Comparison of the tonnage of New York with that of Boston, and of the United States at different periods:

Years.	New York, Tons. 95ths.	Boston, Tons. 95ths.	United States, Tons. 95ths.
1826	316,289 01	171,976 12	1,534,189 83
1830	256,558 02	135,009 17	1,191,776 43
1835	376,697 72	226,041 74	1,824,940 40
1840	414,818 04	229,243 74	2,180,764 16
1845	550,359 43	225,103 21	2,417,002 06
1850	835,867 61	313,192 00	3,535,454 23
1851	931,193 74	342,936 09	3,772,440 43

The tonnage of several other of the leading ports was, in 1851, as follows:

	Tons. 95ths.	Tons. 95ths.
New Orleans.....	251,900 14	108,593 51
Philadelphia.....	222,428 90	97,571 70
Baltimore.....	160,511 64	72,997 44
New Bedford.....	131,409 46	58,063 54
Bath, Me.....	103,795 91	31,910 27

Employment of Tonnage.—The following table presents the proportions of the tonnage employed in coasting trade, in steam navigation, and in the whaling business since 1829.

The table of the coasting trade embraces only the "enrolled and licensed tonnage," and does not include the tonnage "licensed under 20 tons," of which a subsequent statement is given, for the years ending June 30th, 1849, and June 3rd, 1850.

The table of steam navigation includes both "registered" and "enrolled and licensed" tonnage. A separate comparative statement of these classes for the years ending June 30th, 1849, and June 30th, 1850, is also given subsequently under "steam marine."

Years.	Coast Trade, Tons. 95ths.	Steam Navig'n Tons. 95ths.	Whaling, Tons. 95ths.
1829	173,180 84	1,045 64	—
1830	142,829 38	12,103 30	—
1831	146,788 83	12,756 56	—
1832	156,409 45	13,488 52	—
1833	161,415 19	13,112 91	—
1834	163,477 80	14,678 94	—
1835	172,663 84	15,903 28	2,436 57
1836	202,677 65	19,681 57	931 63
1837	210,346 88	24,118 53	714 31
1838	221,601 89	25,419 36	863 91
1839	237,024 72	30,654 41	2,460 49
1840	201,559 67	34,754 36	—
1841	203,052 19	31,727 21	1,761 83
1842	223,456 87	35,260 81	1,451 77
1843	249,677 27	35,317 53	370 23
1844	261,174 75	36,305 30	473 27
1845	291,209 66	42,270 01	370 23
1846	309,894 23	46,557 93	379 57
1847	337,663 54	52,420 88	—
1848	385,020 49	64,229 19	—
1849	406,156 43	71,818 73	—
1850	382,886 71	95,115 56	465 00
1851	426,747 19	121,541 52	—

The following table exhibits the tonnage "licensed under 20 tons," for the two fiscal years specified:

Tonnage licensed under 20 tons.	Year ending June 30, 1849, Tons. 95ths.	Year ending June 30, 1850, Tons. 95ths.
Coasting trade	11,199 90	11,227 90
Cod fishery	148 42	116 14

Of enrolled and licensed tonnage, none was employed during these two years in the mackerel fishery.

Steam Tonnage.—The following table exhibits the amount and classification of the steam tonnage for the two fiscal years specified:

Steam tonnage.	Year ending June 30, 1849, Tons. 95ths.	Year ending June 30, 1850, Tons. 95ths.
Registered	10,642 76	85,143 47
Enrolled and licensed	61,175 92	58,967 09
Total	71,818 73	95,115 56

This table exhibits a part of the great increase of registered steam tonnage, which, beginning in 1847, has since been steadily increasing, and now pre-eminently characterizes New York. Further statistics of the steam tonnage will be found under the heads of "vessels built" and "ocean steamships." The total steam marine of New York is nearly equal to that of the empire of Great Britain with all its dependencies, which in 1851 was stated at 1,184 boats of 142,080 tons. According to the U. S. Treasury reports on the U. S. steam marine in 1851—the number of passengers carried on the Hudson river in the year ending July 1, 1851, was 965,100, between New York and Philadelphia by steamboats \$40,000, and on Long Island Sound 302,397.

The steam tonnage of New York compares as follows with that of several other cities—of the several coasts, in land divisions, etc.—and of the United States in 1851:

	Tons.	Tons.
New Orleans	156,654	14,285
New York	121,541	69,165
Pittsburg	47,911	67,601
St. Louis	29,568	67,957
Detroit	21,944	154,270
Philadelphia	20,717	28,244
Buffalo	19,938	37,986
Total U. S. steam marine	—	583,607

Arrivals and Departures.—Annexed is a tabular statement of the amount of tonnage entered and cleared the port of New York, from and for foreign ports, in each year from 1821 to 1851, a period of 31 years, distinguishing the American from the total tonnage. The years end with September to 1843, thence with June.

Amount of tonnage entered the port of New York from, and the amount cleared the port of New York for foreign ports:

Years.	ENTERED.		CLEARED.	
	American Tons.	Total Tons.	American Tons.	Total Tons.
1821	155,723	171,963	143,741	154,472
1822	203,082	226,790	158,970	180,223
1823	204,305	226,739	196,159	217,202
1824	200,080	353,769	218,480	238,931
1825	250,524	250,179	245,512	263,431
1826	246,174	274,997	218,284	232,466
1827	255,276	292,572	223,224	256,563
1828	236,303	275,677	207,124	248,267
1829	255,691	281,512	200,763	226,201
1830	250,915	314,715	209,599	243,285
1831	274,237	337,009	234,469	294,235
1832	295,293	401,713	232,687	316,120
1833	320,683	430,918	239,415	341,527
1834	352,225	444,904	235,768	325,876
1835	373,465	464,464	259,552	369,590
1836	407,095	536,730	271,746	404,957
1837	368,011	539,372	248,786	405,959
1838	377,563	468,390	268,887	356,634
1839	422,349	565,335	331,590	464,347
1840	409,458	527,594	275,393	392,597
1841	423,952	549,045	296,548	407,325
1842	406,623	555,315	300,738	451,889
1843	427,950	312,214	221,739	255,481
1844	434,690	576,450	371,965	498,254
1845	439,676	579,218	341,094	438,525
1846	493,995	655,377	396,498	553,716
1847	543,065	833,668	495,509	785,745
1848	639,305	932,493	491,219	788,395
1849	711,720	1,117,800	569,711	931,509
1850	734,431	1,145,331	596,812	982,478
1851	956,879	1,448,768	793,229	1,230,082

The entrances and clearances at New York, at different periods, compare as follows with those of the United States or the same years:

Years.	ENTRANCES.		CLEARANCES.	
	New York, Tons.	United States, Tons.	New York, Tons.	U. States, Tons.
1821	171,963	1,570,024	154,472	888,020
1825	250,179	973,651	263,431	1,055,446
1826	274,997	1,047,860	292,466	1,052,429
1830	314,715	1,099,027	243,285	1,105,196
1835	464,464	1,993,963	369,590	2,031,341
1840	527,594	2,259,369	392,597	2,353,495
1845	592,218	2,946,409	483,525	2,984,252
1850	1,145,331	4,348,639	982,478	4,361,002
1851	1,448,768	4,993,440	1,230,082	5,130,054

During the year ending 31st December, 1851, the nationality and character of vessels arriving at New York was as follows:

Nationality.	No.	Nationality.	No.
American	2,351	Italian	27
British	966	Spanish	12
French	30	Brazilian	7
Bremen	132	Oldenburg	9
Swedish	48	Sardinian	8
Austrian	9	Venezuelan	5
Norwegian	54	Uruguay	2
Sicilian	7	Lubeck	8
Hamburg	44	Mechlenburg	4
Danish	24	Hanoverian	4
Russian	12	Rostock	1
Dutch	25	Genoese	1
Belgian	18	Peruvian	1
Prussian	29	Central America,	
Columbian	2	(Guatamalan)	1
Neapolitan	4		
Portuguese	14	Total.	3,888

Of these 941 were ships, 833 barks, 1,303 brigs, 588 schooners, 166 steamships, 2 ketches, 1 sloop, and 4 gullboats.

Vessels Built in the District of New York.—Table showing the number of vessels of all kinds built in the district of New York, with their measurement, from 1834 to 1851, compiled from the Treasury reports, the years ending with December 31, to 1834, thence with September 30, to 1843, thence with June 30:

Years.	Ships.	Brigs.	Sch'rs.	Sloops and canal b'ts.	Steam'b'ts.	Total.	Tons.
1834	26	7	36	39	5	113	23,183
1835	16	2	33	51	7	109	17,368
1836	14	3	23	47	16	108	16,639
1837	10	5	25	62	16	118	20,308
1838	7	8	23	55	7	105	14,229
1839	10	7	17	44	16	94	16,688
1840	6	13	17	24	8	68	13,357
1841	13	5	8	21	5	52	16,121
1842	6	3	12	192	18	171	18,835
1843	5	2	8	102	5	122	18,179
1844	11	6	16	89	14	136	15,026
1845	18	2	25	130	17	192	26,621
1846	11	3	37	160	23	234	29,465
1847	16	2	43	117	15	193	37,591
1848	26	3	59	200	19	307	57,977
1849	15	7	44	145	17	223	87,933
1850	26	2	42	104	28	202	55,525
1851	23	1	56	81	47	208	71,214

Which compare in different years with the ship-building of the whole United States, as follows:

Years.	New York.		United States.		Proportion in N. Y.	
	Vessels.	Tons.	Vessels.	Tons.	Vessels.	Tonnage.
1834	113	23,183	1,188	161,026	9.6	14.3
1836	102	16,639	507	46,238	20.1	36.1
1841	52	16,121	872	118,309	5.9	13.6
1845	192	26,621	1,038	146,018	18.5	18.9
1851	208	71,214	1,357	293,203	15.3	23.8

The following exhibits a comparison of ship-building in New York, in 1851, with that of the other leading ship-building States and districts:

States.	Vessels.	Tons.	District.	Vessels.	Tons.
Maine	254	77,393	Bath	40	13,732
			Waldoboro	44	17,794
			Portland	27	12,309
Massachusetts	133	41,324	Boston	50	23,141
New York	229	76,805	New York	208	71,214
Pennsylvania	200	25,623	Philadelphia	118	20,066
Maryland	130	18,027	Baltimore	72	15,094

Commercial Review.—Summary view of the proportion of New York, in the whole imports, exports, custom-revenue, and tonnage of the United States at different periods:

Years.	Imports per cent.	Exports per cent.	Duties per cent.	Tonnage per cent.
1769	14.14	—	—	—
1792	—	9.71	35.83	—
1795	—	15.34	48.88	—
1800	—	14.55	39.77	—
1805	—	23.12	53.78	—
1810	—	23.12	60.96	—
1816	—	15.90	29.70	—
1820	—	16.90	36.57	—
1821	57.55	16.39	36.57	—
1825	51.92	44.80	78.37	20.62
1830	54.54	23.93	68.48	21.53
1835	59.53	23.56	74.61	20.64
1840	53.05	22.85	55.84	19.02
1845	58.78	29.38	64.18	22.77
1850	57.96	25.44	61.73	23.64
1851	—	—	64.78	24.68
1852	—	—	60.60	—

Ocean Steamships.—New York is distinguished for its great lines of ocean steamships, which have all been brought into existence since 1846. These vessels have all been built at New York shipyards, and received their machinery from New York foundries. The total number of steamships built at this port, and launched previous to 1853 is 59; of which the number launched in 1849, was 3; in 1850, 14; in 1851, 11; in 1852, 11. The present number (1853) of steamship companies is 16, having 76 steamers, with total tonnage of 129,010 tons. Of these, the following table will exhibit the different lines, the number of their vessels, with their aggregate tonnage, etc.:

Lines.	No. of Vessels.	Total Tonnage.	Lines.	No. of Vessels.	Total Tonnage.
Liverpool.....	5..	15,000	Richmond.....	2..	962
Havre.....	2..	4,400	Mobile, etc.....	1..	1,900
Bremen.....	2..	3,400	Savannah.....	3..	8,950
Charleston.....	4..	6,200	Norfolk.....	2..	2,100
New Orleans... 2..	2,000		New Orleans, etc. 3..	4,800	

California Lines.—Aspinwall, C. A., 10 vessels, 19,600 tons, which connects with Pacific Mail Co., consisting of 14 steamers, 15,536 tons. The New York and San Francisco Steamship Co. consists of 4 steamers (3 on each side), aggregate tonnage 7,400. The Empire City Line for San Francisco consists of 3 steamships, with aggregate tonnage of 6,000. Vanderbilt's line, *via* Nicaragua, consists of 10 vessels, with aggregate tonnage of 18,000 tons.

The British Royal Mail Line (Cunard) have 11 steamers, 16,000 tons. The Glasgow Line has 1 steamer, 2,000 tons; and a second in construction.

Domestic Trade.—The amount of trade carried on by New York with the coast cities and the interior of the United States, vastly surpasses in magnitude that of its foreign commerce. Of this internal trade full accounts are not made.

An approximate statement of particular divisions of this trade is exhibited by the following statistics.

The statistics of total tonnage arriving at Albany by way of the Erie Canal, which follows, exhibit approximately the receipts of New York, since by far the greater part of them are directly sent to New York, and whatever proportion is not sent is fully compensated by the trade furnished from the towns and counties on the Hudson River:

Total tonnage arriving at tide-water 1836-1852 by the Erie Canal:

Year.	From Western States. Tons.	From N. Y. State. Tons.	Total Tons.
1836.....	54,219.....	364,906.....	419,124
1837.....	56,255.....	331,251.....	387,506
1838.....	83,233.....	336,016.....	419,249
1839.....	121,671.....	264,556.....	386,227
1840.....	158,143.....	309,167.....	467,315
1841.....	224,176.....	308,314.....	532,520
1842.....	221,477.....	258,072.....	480,149
1843.....	256,376.....	375,969.....	633,345
1844.....	308,025.....	491,891.....	799,916
1845.....	304,551.....	655,039.....	959,590
1846.....	506,890.....	600,662.....	1,107,270
1847.....	812,840.....	618,412.....	1,431,252
1848.....	660,154.....	534,138.....	1,194,337
1849.....	768,659.....	495,065.....	1,266,724
1850.....	773,858.....	598,001.....	1,371,859
1851.....	966,998.....	541,654.....	1,508,377
1852.....	1,151,973.....	492,721.....	1,644,699

Of the above total amount, the whole quantity of wheat and flour which came to the Hudson River, from 1844 to 1852 inclusive, with the aggregate market value of the same:

Year.	Tons.	Value.	Year.	Tons.	Value.
1844.....	277,865.....	\$11,211,677	1849.....	434,444.....	\$19,308,595
1845.....	320,463.....	15,962,250	1850.....	461,781.....	20,218,188
1846.....	419,366.....	18,836,412	1851.....	457,624.....	16,457,653
1847.....	501,205.....	82,590,938	1852.....	576,772.....	22,564,256
1848.....	431,641.....	21,143,421			

The following is a statement of several of the leading articles arriving coastwise, in 1851:

Articles.	Amount.	Articles.	Amount.
Cotton, bales.....	456,637	Rice, trcs.....	42,433
Coffee, bags.....	62,331	Salt, bushels.....	10,180
Figs, drums.....	77,850	Sugar, hlds.....	21,443
Hemp, bales.....	19,476	“ trcs.....	53
Hides, No.....	203,628	“ bbls.....	36,263
Lead, pigs.....	176,538	“ boxes.....	3,599
Molasses, hlds.....	12,650	“ bags.....	18,733
“ trcs.....	1,247	Tobacco, hlds.....	14,827
“ bbls.....	39,797	“ bales, etc.....	428
Raisins, boxes.....	32,041	Wool, bales.....	10,692
“ casks.....	1,035		

The aggregate of the trade carried on by means of the various railroads which centre at New York is most immense. Of these railroads the principal one is the Erie Railroad, which bears a relation to the entire southern portion of New York, and northern of Pennsylvania, etc., very similar to that sustained by the Erie Canal to the northern part of New York State. On all the railroads diverging from this city toward Philadelphia, Boston, and Albany, the traffic is also immense, and ever increasing. The following are the several principal lines from this city:

Miles.	Miles.
Camden and Amboy... 90	Hudson River..... 150
Central (N. J.)..... 78	Harlem..... 133
Morris and Essex..... 44	New York and New Haven..... 76
Union..... 33	Housatonic..... 110
New Jersey, etc..... 87	Long Island..... 96
New York and Erie... 469	

By means of these railroads, New York is directly connected with every section of the country; and the various lines with which these are interwoven form a great network of several thousand miles of iron highway.

Of the total internal trade furnished from the city, dry goods form probably the greatest portion; but that of manufactures is well-nigh as extensive. Book-publishing is a principal business, and from the mercantile arrangements of the trade, by semi-annual trade sales, commission publishers, etc., has become a great feature of the internal trade of the city, and a branch it has acquired at the expense of other cities.

Of the general character of the internal trade of New York, it may summarily be said, that it surpasses that of all other cities in the Union, and differs from that of the entire nation only in degree.

Banks.—There are 40 banks, with an aggregate capital of \$35,834,950. In 1830, the bank capital of New York was \$15,280,000; in 1836, \$20,361,200. The following statement exhibits the capital and rate of dividends of the banks of the city in each year, from 1845:

Years.	Capital.	Div. per cent.	Years.	Capital.	Div. per cent.
1845.....	\$23,034,100	6.21	1849.....	\$24,457,590	8.23
1846.....	23,034,100	7.09	1850.....	27,440,270	8.69
1847.....	23,034,100	7.25	1851.....	23,057,450	8.93
1848.....	23,034,100	8.09	1852.....	35,834,950	—

Insurance Companies.—There are 37 fire and marine insurance companies, with an aggregate capital of \$6,654,010; and 6 life insurance and trust companies, with an aggregate capital of \$5,060,000.

Public Buildings.—The City Hall, standing near the centre of the Park, is a handsome edifice, built chiefly of white marble, and is 216 feet long, 105 feet wide, and 51 feet high. It is two stories high above the basement, with a third story in the centre, from which rises a cupola of very beautiful proportions, surmounted by a colossal figure of Justice; erected 1808-12, at a cost of \$538,731. It contains 28 rooms and public offices for the accommodation of the mayor, common council, etc., of which the Governor's Room

is the principal one, and contains many large portraits of great national characters. Other rooms contain valuable paintings, etc. The New City Hall is a large brick building in the rear of this edifice, which is occupied by the courts, public offices, etc. East of the City Hall is the Hall of Records, where are preserved all the records and public documents of the city. The Custom House is one of the most perfect buildings of its size in the world. Its site is at the corner of Wall and Nassau streets, and was formerly occupied by the Old City Hall, in which Washington was inaugurated first president of the United States, and the American Congress held their sessions in New York. It is built in imitation of the Parthenon, at Athens, in the Doric order, of white marble, and is 200 feet long, 90 feet wide, and 80 feet high. Each of the north and south fronts has a portico of 8 Doric columns, 5 feet 8 inches in diameter and 32 feet high. The entire exterior, including the roof, is constructed of white marble, excepting the steps, which are of granite. In the construction of the interior, marble, granite, and brick alone were used, thus rendering it perfectly fire-proof. Some of the largest blocks of marble used weigh 33 tons. It was commenced in May, 1834, and finished in May, 1841. Its cost, ground included, was \$1,195,000—building alone, \$950,000. The interior is divided into a grand rotunda and numerous spacious offices. The rotunda is a magnificent room, 60 feet in diameter and 80 feet in the recesses; its dome is supported by 16 columns 80 feet high, which are beautifully wrought, and have capitals of the most exquisite workmanship. The number of officers employed in the Custom House is about 350. The Merchants' Exchange, in Wall Street, is the most magnificent edifice in New York. It covers the entire block bounded by Wall Street, William Street, Hanover Street, and Exchange Place. Its front upon Wall Street is 198 feet, its height 77 feet—to the top of the dome 124 feet. It is constructed in the most substantial form, and perfectly fire-proof, of Quincy granite, and cost, including the ground, \$1,800,000. The front on Wall Street has a recessed portico, with 18 massive columns, 38 feet high and 4 feet 4 inches in diameter, each formed from a solid block of stone, and weighing 43 tons, which cost \$3,000 each, and are among the largest in the world. The building belongs to the "Merchants' Exchange Company," incorporated in 1823, with a capital of \$1,000,000. It contains a grand central rotunda and numerous spacious offices used by bankers, insurance companies, etc. The rotunda is a most magnificent room, 80 feet in diameter, with 4 recesses, and 51 feet high, and is surmounted by a dome which ascends 30 feet higher, terminating in a sky-light 37 feet in diameter. The dome is supported in part by 8 columns of Italian marble, 41 feet high, in the Corinthian order, and splendidly polished. In this spacious hall, at exchange hours, the chief merchants of the city daily assemble. The Board of Brokers also meet here daily, and the Chamber of Commerce here holds its monthly sessions.

The Halls of Justice occupy an entire block between Centre, Elm, Leonard, and Franklin streets, having their principal front upon Centre Street. The building is constructed of granite, in the most massive manner, in Egyptian architecture, and is 253 feet long and 200 feet wide. Its front has a recessed portico, supported by 14 massive granite columns. The edifice is occupied by the Court of Sessions, police courts, officers' rooms, prison cells, etc. The gloomy aspect of the building has won for it the general name of "The Tombs."

The City Penitentiary, with the buildings of the Lunatic Asylum, Almshouse, Workhouse, etc., are situated on Blackwell's Island, about 5 miles from the City Hall. These are very large stone buildings, and, though of simple architecture, present a very imposing appearance. They are seen to fine advantage from steamboats in passing through the East River. The penitentiary has an entire length of nearly 500 feet, and consists of a central building 4 stories high, surmounted by a square tower and two wings, each 4 stories

high and 200 feet long. The almshouse is 3 stories in height, 325 feet in length, and 55 feet wide, with two large wings at each end. The lunatic asylum consists of a central edifice, with four wings.

The new State Arsenal, situated on Fifth Avenue, between Sixty-second and Sixty-fourth streets ($\frac{1}{4}$ miles from the City Hall), a large and commodious edifice, containing arms and munitions belonging to the State, was erected in 1848, costing \$30,000. It is built in the Gothic castellated style, presenting a massive and appropriate appearance; its dimensions are 200 feet in front, by 50 feet deep, exclusive of the towers, of which there are 8—4 in front, and 1 at each angle—69 feet high. The first story is of brown stone, the remainder of brick, and the roof is of iron. It contains great numbers of cannon, small arms, etc., and some interesting trophies taken from the English during the Revolution and the last war.

The Post Office, formerly the Middle Dutch Church, in Nassau Street, between Liberty and Cedar streets, is noteworthy for its history. It was erected before the Revolution, and much of its interior woodwork and steeple was brought from Holland. During the Revolutionary War, this church, in common with others used by the British, was much injured from its occupation as a prison, hospital, etc. In 1790, it was repaired, and again used for public worship, in which service it continued until rented by the U. S. Government for the general post office of the city.

The descriptions of the large and commodious edifices used by the benevolent institutions of the city, also those of education, etc., will be found under their appropriate heads.

The Crystal Palace, for the exhibition of the industry of all nations, built in 1853, for the purposes of a World's Fair, is situated on Sixth Avenue, between Fortieth and Forty-second streets, on Reservoir Square, adjoining the Distributing Reservoir of the Croton Aqueduct, $\frac{3}{4}$ miles from the City Hall. The Association which has erected this magnificent structure, was incorporated for the purpose by the Legislature, March 11, 1852, having previously received the lease of the square from the Common Council of the city, on Jan. 3d, 1852. It was incorporated with a capital of \$200,000, with leave to increase it to \$300,000. The plan of the building was adopted 26th Aug., 1852, and its foundation formally laid Dec., 1852. The building is entirely constructed of iron and glass, with the exception of the floor. The general plan is that of a Greek cross, with a dome over the intersection. Its site is a nearly square piece of ground, having an extreme length from Fortieth to Forty-second Street, of 455 feet; and an extreme width, from the Sixth Avenue to the Reservoir, of 445 feet. The Crystal Palace occupies the greater part of this square, and consists of 2 principal stories, the second being of less extent than the first, a third chiefly ornamental, and a magnificent central dome. The area of the first floor is 111,000 square feet, of the galleries 62,000 square feet—total area, 173,000 square feet. By direction of the U. S. Treasury Department, the building will be made a bonded warehouse, during the exhibition, so as to receive all foreign goods free of duty, and encourage the cooperation of foreign nations in this fair of world-wide interest.

Hotels.—Among the public buildings of New York, its large hotels form a great feature. Of these the Astor House is the most distinguished. It is situated on Broadway, opposite the Park, and forms the block between Vesey and Barclay streets. It is built of Quincy granite, in the most substantial and splendid manner, is 5 stories high, and contains upward of 360 rooms. In its appointments and general style of accommodations, it is not surpassed by any hotel in the world. It was erected by J. J. Astor, at a cost of \$300,000, and was opened in May, 1836. The Irving House, on Broadway, occupying the block between Chambers and Reade streets, is built of granite, 5 stories high, contains about 300 rooms, and is a hotel of much resort.

The St. Nicholas Hotel, on Broadway, between Broome and Spring streets, is a new and very large hotel, built of white marble, 6 stories high, containing 270 rooms, and surpassing, in the splendor of its apartments and general magnificence, all other hotels in the city. The Metropolitan Hotel, on Broadway, corner of Prince Street, 6 stories high, built of brown freestone, is a very imposing edifice. It contains about 400 rooms, many of which are elegantly painted and furnished. The entire cost of the building, without furniture, was about \$500,000. The New York Hotel, on Broadway, occupying the block between Washington and Waverley places, is a very large and fashionable family hotel. It is built of brick, in plain style, but very spacious, and containing about 280 rooms. The Union Place Hotel, in Union Place, is a large and fashionable establishment. Many other public houses in the city are very large, well kept, etc.; but their great number precludes their particular description. The United States Hotel, on Fulton Street, occupying the block between Pearl and Water streets, is built of marble, 7 stories high, and was the first of the mammoth hotels. It contains 225 rooms, and cost \$350,000. Hotel-keeping, as practiced in New York by the best houses, is brought nearer perfection than in any other city in the world.

Churches.—Many of the churches of New York are very costly edifices, and are among the most splendid ornaments of the city. Of these, Trinity Church, on Broadway, opposite Wall Street, is the most distinguished. This edifice, which is the third built upon the same site, was erected 1841-45, at a cost of about \$400,000. It is of Gothic architecture, and constructed entirely of brown sandstone. Its dimensions are—length 159 feet, width 84 feet, height—to the eaves of the clerestory 64 feet, to the apex of the spire 264 feet. The interior presents a very impressive appearance. There are no galleries, and it accommodates only about 900 persons with seats. The church is generally regarded as the finest specimen of pure Gothic architecture in the United States. The edifices of the Protestant Episcopal Church are generally more elaborate and expensive structures than those of other denominations, which mainly results from the great wealth of the corporation of Trinity Church. Of these the most noted are—Grace Church, on Broadway, corner of Tenth Street, a most elaborate structure of white marble, of Gothic architecture, erected in 1845, at a cost of \$200,000; St. George's Church, near Stuyvesant Square, a very large edifice in the Roman style, of brown freestone; St. Paul's Chapel, on Broadway, between Fulton and Vesey streets, a large but plain edifice, of dark brown stone, having a spire of very graceful proportions, 208 feet high; St. John's Chapel, fronting on St. John's Park, an imposing edifice of brown sandstone, in the Corinthian order, erected in 1807, having a splendid portico of 4 very large Corinthian columns, and lofty spire 215 feet high; St. Thomas' Church, on Broadway, corner of Houston Street, of stone, rebuilt 1852, a handsome Gothic edifice; Church of the Holy Communion, on Sixth Avenue and Twentieth Street, erected in 1845, of well-dressed red granite, one of the most correctly built Gothic church edifices in the Union; Church of the Annunciation, in W. Fourteenth Street, an imposing stone edifice, of gray stone; Calvary Church, Fourth Avenue; Trinity Chapel, in Fifth Avenue, besides many others which are costly edifices and very fine specimens of architecture. Of Roman Catholic churches, the best edifices are—St. Patrick's, the cathedral, in Prince Street, a very spacious church, of stone, in Gothic architecture, erected in 1815, having an interior of imposing appearance, with arched nave, side aisles, etc.; St. Peter's, in Barclay Street, a very massive edifice of granite, with grand Ionic portico; Church of the Redeemer, in Third Street, a very large structure of brick, erected 1852, and used by a German congregation; St. Bridget's, near Tompkins Square, etc.

The First Presbyterian Church, in Fifth Avenue, presents a majestic appearance—it is of reddish hewn stone, in full

Gothic architecture, with large buttresses, pinnacles, and tower, and spire 160 feet high. The Church of the Puritans (Cong.), in Union Place, is a splendid edifice of white marble. The Dutch Reformed churches in Lafayette Place and University Place are noted for their elegance. Two Unitarian churches, both in Broadway, are fine structures. The First Baptist Church, in Broome Street, is a handsome Gothic edifice of blue limestone, erected in 1841.

The total number of churches in New York is 250, of which there are 45 Episcopal, 46 Presbyterian, 40 Methodist, 31 Baptist, 21 Roman Catholic, 20 Dutch Reformed, 10 Congregational, 5 Lutheran, 4 Universalist, 4 Friends', 4 Primitive Christians, 2 Unitarian, 2 New Jerusalem, 2 Second Advent, 1 Moravian, and 12 Jews' Synagogues. This table gives nearly the proportion of 1 church for every 2,100 of the population. The average number which can be accommodated is probably not more than 800, giving the aggregate of church accommodation 200,000 seats, or about $\frac{1}{4}$ of the present (1853) population.

Theatres, etc.—The places of amusement in New York are numerous and well patronized. Of the theatres, the Broadway is the largest and principal one, and chiefly devoted to the regular drama. Niblo's Theatre has a diversity of representations, and is one of the most popular resorts in the city. The Astor Place Opera House is but little used. Metropolitan Hall is a very spacious and magnificent hall, much used for concerts, public meetings, etc., and will accommodate 4,000 people. Burton's Theatre is a small but very popular resort, chiefly devoted to comedy, etc. Other theatres are, the Bowery and National; besides which the American Museum presents dramatic and comic representations, and contains a collection of figures, curiosities, etc. Among other permanent amusements are the different companies of "Ethiopian Minstrels," etc.; while the more changing attractions consist of an endless number of panoramas, dioramas, concerts, balls, etc.

Education.—The provisions of the city for general education are upon a liberal scale. It is believed that there is less attention given to education by the illiterate and poorer classes of the population than in most cities of the United States, but these are chiefly of foreign birth, and are compelled to use their children to gain a livelihood. According to the census of 1850, the total number of adult people unable to read and write in the city, was 18,807, being a percentage of 3.65 of the entire population, or 1 in 274 persons. Of this total, 16,449 were of foreign birth, 1,667 were native negroes, and 691 were born in America. According to the annual report of the Board of Education for the year 1850-51, the whole number of schools within its jurisdiction during the year ending 30th April, 1851, was 207, of which the number belonging to the "Public School Society" was 114, ward schools 72, corporate schools 21, and among which were 17 schools for colored children. The whole number of children taught during the year ending February 1, 1851, was 107,363; number during the year 1849-50 was 102,974; while the average attendance during 1850-51 was 40,055; and in 1849-50, 35,998. The following tabular statement exhibits the most important statistics for the schools during four years each ending on February 1st:

Year ending Feb. 1.	Schools.		Whole No. taught.	Average Attendance.	Ag. Cost of Instruction, etc.
	Class.	No.			
1848.	Public	114	54,732	13,646	.. \$201,176
	Ward	58	32,698	11,593	
	Corporate	18	2,169	1,578	
	Totals	182	89,599	32,122	
1849.	Public	115	50,320	13,587	.. \$224,490
	Ward	58	40,988	14,652	
	Corporate	21	3,742	2,125	
	Totals	194	95,045	35,364	

Year ending Feb. 1.	Schools.		Whole No. taught.	Average Attendance.	Ag. Cost of Instruction, etc.
	Class.	No.			
1850.	Public	115	53,546	18,153	
	Ward	65	45,872	15,805	
	Corporate	19	8,556	2,040	
	Totals	199	102,974	35,998	
1851.	Public	114	53,239	19,273	
	Ward	72	50,559	18,171	
	Corporate	21	8,565	2,046	
	Totals	207	107,363	40,055	

The cost per scholar for 240 days' instruction, etc., in the year ending Feb. 1, 1848, was \$6 26; ditto in 1849. \$6 84; ditto in 1850, \$6 87; ditto in 1851, \$6 86—the average cost for the four years per scholar, \$6 58. By an act of the Legislature in 1853, the Public School Society is discontinued, and the general district system of the State introduced.

The Free Academy is a public high school of the city, established "for the purpose of extending the benefits of education gratuitously to those who have been pupils in the common schools of the city and county of New York." The project was submitted to the popular vote of the citizens in 1846, and approved by a very large majority. The building erected for the purpose, and opened January 27, 1849, is situated at the corner of Lexington Avenue and Twenty-third Street. It is a spacious and elegant structure, built in the Gothic style, after the manner of the Town Halls of the Netherlands. Its dimensions are 125 feet long, 50 feet wide, and 5 stories high. The cost of the building was about \$50,000, of the lot \$20,000, and of its furniture and apparatus \$10,000. It will accommodate about 1,000 scholars. In its construction utility and ornament are admirably combined. The number of instructors in the academy are 11; the number of students admitted at the opening of the institution was 58; has since steadily increased with successive terms, and now amounts to several hundred. There are in the city a great number of private academies. Of female seminaries, two are very large, and of great reputation—the Rutgers Female Institute in Madison Street, and Spingler Institute in Union Place—each of which have fine stone edifices, are well furnished with apparatus, etc., and have over 500 pupils.

Colleges.—There are in the city 2 collegiate institutions, 3 medical colleges, and 2 theological seminaries. Columbia College was founded in 1754, by royal charter as King's College. In 1784 its name was changed by the legislature to Columbia College. In 1850 it had 7 instructors, 1,450 alumni, 111 students, and 17,000 volumes in its library. It is under the direction of the Protestant Episcopal Church. Its buildings are in a beautiful square, a little west from the City Hall, and consist of a large and handsome edifice, 200 feet long by 50 feet wide, with wings at each end etc. The University of the City of New York was founded in 1831. In 1850 it had 11 instructors, 320 alumni, 151 students, and 4,000 volumes in library. Its edifice, on the east side of Washington Square, occupying one block, is the most splendid collegiate building in the United States, and is one of the finest ornaments of the city. It is constructed of white marble, in the Gothic style of English collegiate architecture. Its dimensions are 150 feet long, 100 feet wide, and 4 stories high, flanked with square towers on its 4 corners, which rise one story above the side walls, and having a central building which, rising much higher than the sides, is 55 feet broad, and 55 feet deep, crowned with turrets, and in common with the side walls of the whole building, has an ornamented embattled parapet. This central building is an imitation of King's College Chapel, Cambridge, England, and is used as the principal chapel of the University. It is probably one of the finest rooms of the kind in America. Connected with the University is a very flourishing grammar school, and the University Medical College.

The College of Physicians and Surgeons is a very flourishing medical institution, founded in 1807. In 1850 it had 6 professors, 219 students, and 852 graduates. It is located at 67 Crosby Street, has a commodious edifice, which contains an extensive medical museum, and library of over 1,000 volumes. The University Medical College was founded in 1837, and is connected with the University of the City of New York. In 1850, it had 6 professors, 421 students, and 597 graduates. Its edifice is a very large, commodious, and elegant building, recently erected in East Fourteenth Street, near Union Square. The New York Medical College is an institution opened in 1851, and occupying a handsome structure, in East Thirteenth Street, near Fourth Avenue. These schools enjoy the advantages of clinical instruction at the various hospitals.

The General Theological Seminary of the Protestant Episcopal Church was founded in 1817. It occupies an entire square, between Ninth and Tenth avenues, and Twentieth and Twenty-first streets. Its edifices are two large, handsome buildings of stone, in Gothic architecture. In 1850, it had 5 professors, 64 students, 236 graduates, and 10,000 volumes in its library. It is well endowed, and in a flourishing condition.

The Union Theological Seminary, a Presbyterian institution, was founded in 1836. Its edifice, in University Place, near Washington Square, is a handsome structure of brick. In 1850, it had 5 professors, 106 students, 211 alumni, and 18,000 volumes in its library.

Libraries, etc.—The New York Society Library, established 1754, is the oldest literary association in the city. During the Revolutionary War, its volumes were scattered and lost. On the restoration of peace it was reestablished. In 1838 and '39, it erected its present edifice, on Broadway, corner of Leonard Street, at an expense, including the ground, of \$120,000, which is one of the finest library buildings in the Union. It contains about 45,000 volumes, which have been selected with much care. In 1853, it has disposed of its building, and will be removed to the upper part of the city. The Mercantile Library Association, formed in 1820, for merchants' clerks, occupies a large portion of Clinton Hall, on Beekman and Nassau streets, which was erected in 1830 for its accommodation, at a cost of \$53,000. Its library is particularly rich in periodical literature, and contains about 36,000 volumes.

The New York Historical Society, founded in 1804, has a very valuable library of American history, of 17,000 volumes, and some collections of historical interest. The Society have monthly meetings, and have published numerous volumes of their researches, etc. Their rooms are at the University, but a building for their accommodation is in contemplation. The Geographical and Statistical Society hold monthly meetings, and have commenced the formation of a library. The transactions of this society are published in a "Bulletin," the first number of which was issued in August, 1852. The Apprentices' Library, established in 1820, occupies a large building at 32 Crosby Street, and contains 14,000 volumes. The American Institute have 6,000 volumes; the Typographical Society, 3,000 volumes, free to printers, etc.; the New York Law Institute, in the City Hall, 5,000 volumes; the Mechanics' Institute, 3,000 volumes; besides which, the New York Lyceum and the Lyceum of Natural History have each valuable libraries and other collections.

The Astor Library was founded by John Jacob Astor, who, in his will, appropriated \$400,000 for "the establishment of a public library upon the most ample scale and liberal character, for general use, free of expense to persons resorting thereto." Of this amount, Mr. Astor directed that a sum, not exceeding \$75,000, should be expended in the erection of a building, on the E. side of Lafayette Place; that \$120,000 should be expended in the first outlay for books and other objects; and that the residue, over \$200,000, should be permanently invested as a fund for its maintenance and gradual increase. The library edifice, built of

brown freestone and brick, is a very handsome structure, both in exterior and interior. Its dimensions are—65 feet front, 120 feet in length, and 2 stories in height, 67 feet from the side-walk to the top of the parapet. The interior is most commodiously arranged, and will conveniently contain 100,000 volumes. Over 60,000 volumes have already been purchased, chiefly in Europe. The library will be opened for public use in 1858.

Periodical Press.—The whole number of periodicals published in the city in June, 1850, was 125, of which 14 were issued daily, 8 semi-weekly, 58 weekly, 8 on Sunday, 5 semi-monthly, 80 monthly, and 2 quarterly. Names of dailies: "Herald" (indep.), "Tribune" (whig), "Sun" (neutral), "Courier and Enquirer" (whig), "Journal of Commerce" (neutral), "Express" (whig), "Morning Star" (neutral), "Commercial Advertiser" (whig), "Evening Post" (free soil), "Evening Mirror" (whig), "Merchants' Day-Book" (whig), "Globe" (dem.), Deutsche Schnell Post" (German), and "New Yorker Demokrat" (German). Each of these issue other editions weekly or semi-weekly. The dailies, with many of the weeklies, surpass those of any other city in the Union in their intrinsic merits, size, capital involved, and circulation. The total circulation of the 8 dailies in 1850, at each issue, was 154,261 copies, being over one-sixth of all the dailies printed in the United States. The largest circulations attained by different issues, were: Of dailies, the "Sun," 55,000 copies; of weeklies, the "Tribune," 48,000; of monthlies, the "American Messenger" (relig.), 211,000.

City Government, Departments, Institutions, Public Works, etc.—The government is vested in the mayor, recorder, and Common Council, which body consists of the two boards of aldermen and assistant aldermen, each composed of 19 members, 1 from each ward. The mayor and aldermen are elected once in 2 years, the assistant aldermen annually. There are 9 executive departments, viz., police, finance, streets, repairs and supplies, streets and lamps, Croton Aqueduct, city inspectors, alms-house, and law. The number of civil courts is 4, besides 5 ward courts; of criminal courts, 3, besides 3 police courts.

Expenses of Government.—The total expenses of the city government in each year since 1800, is exhibited in the following statement of the amount raised each year for city purposes:

Years.	Amount.	Years.	Amount.	Years.	Amount.
1801	\$75,000	1819	\$250,140	1836	\$1,085,130
1802	75,000	1820	270,361	1837	1,260,000
1803	75,000	1821	259,490	1838	1,300,000
1804	75,000	1822	302,106	1839	1,200,000
1805	127,947	1823	351,814	1840	1,100,000
1806	127,815	1824	353,323	1841	1,265,000
1807	119,155	1825	336,864	1842	1,100,000
1808	138,985	1826	558,759	1843	990,000
1809	189,027	1827	437,692	1844	1,298,922
1810	129,727	1828	438,752	1845	1,389,487
1811	176,973	1829	507,107	1846	1,754,323
1812	174,920	1830	509,178	1847	1,746,361
1813	174,727	1831	562,104	1848	1,992,150
1814	214,225	1832	665,356	1849	2,302,564
1815	197,913	1833	971,866	1850	2,578,325
1816	180,654	1834	835,605	1851	2,924,493
1817	216,720	1835	965,603	1852	3,373,335
1818	255,741				

The debt of the city, on 1st January, 1845, was:

Permanent Debt	\$12,881,750 42
Temporary " "	1,147,914 80
Total	\$14,029,665 22

In 1852, according to the message of the mayor, it was:

Permanent debt redeemable from sink fund	\$14,573,908 00
Temporary debt redeemable from taxation	719,000 00
Total	\$15,292,908 00

The following table exhibits the amount of taxation in decades of years since 1800, and the comparative increase of taxation and population during the same periods:

Periods.	Amount.	Increase of	
		Tax. per cent.	Pop. per cent.
1801-10	\$1,082,656	—	59
1811-20	2,112,379	95	28
1821-30	4,127,080	95	64
1831-40	9,945,694	141	54
1841-50	16,367,132	65	65

Total tax in 50 years, \$38,634,891; in 1851 and '52, \$6,302,828. Total tax in 52 years, 39,937,719.

The rate of tax, per head, in different years was as follows:

Years.	Rate.	Years.	Rate.	Years.	Rate.	Years.	Rate.
1800	\$.124	1815	\$.232	1830	\$.251	1845	\$.361
1805	1.69	1820	2.18	1835	3.57	1850	5.00
1810	1.35	1825	2.03	1840	3.52		

The amount of corporation property owned by the city in 1851, consisting chiefly of real estate, piers, wharves, etc., as estimated under direction of the controller, was \$19,505,310 88. Of this property, a large portion lying in the upper part of the city was sold at auction in 1852. The same estimate gave as the total cost of the Croton Aqueduct, \$14,041,538 95; of the Receiving Reservoir, \$134,000 00; of the Distributing Reservoir, \$152,000 00.

The statistics of the various departments of the city are as follows:

Police Department.—The city is divided into 19 patrol districts, each ward constituting one, which are patrolled by a total force of 941 policemen, averaging 50 to each ward.

Criminal Statistics.—The statistics of the criminal courts of the city for the years 1851-52 are as follows:

Whole number of trials	1851.	1852.
In the Court of Oyer and Terminer	14	14
In the Court of General Sessions	447	417
In the Court of Special Sessions	2,405	2,079

Total
 2,866 | 2,510 |

The total number of convictions in these courts during the year 1851 was 2,494; of which 1,530 were for petit larceny; for assault and battery, 703; burglary, 47; grand larceny, 105; forgery 17, etc. During 1851, the number committed to the city prison was 16,522, making, with 221 remaining on January 1, 16,543. Of these, 12,955 were discharged, 3,390 sent to the penitentiary, 192 to the State prison, and 3 were executed. The statistics of the penitentiary on Blackwell's Island for the year 1852 were as follows:

Remaining in penitentiary Dec. 31, 1851	879
Received during the year 1852, males	2,017
“ “ “ females	2,348
Total	5,244
Discharged, males	1,913
“ “ females	2,290
Remaining in penitentiary Dec. 31, 1852	1,041

Alms-House Department.—This department has charge of all the city institutions for the relief of the poor, etc.; the penitentiary, prisons, work-house, asylums, hospitals, etc. The principal buildings on Blackwell's Island are very large, and contain several thousand inmates. The charge of these institutions is committed to a board of 10 governors. The real estate occupied by this department was valued in 1851 at \$1,200,000.

The combined statistics of the total expenses of the city hospitals, asylums, nurseries, and prisons for the year 1850, were as follows:

Institutions.	Total Expenses.
Alms-House	\$30,108 88
Bellevue Hospital.....	45,279 13
City Prison.....	13,502 81
Colored Home.....	7,664 58
Colored Orphan Asylum.....	2,607 13
Lunatic Asylum.....	81,044 11
Nursery.....	33,206 53
Nursery Hospital.....	14,040 93
Office.....	23,127 69
Out-Door Poor.....	60,507 04
Penitentiary.....	69,595 52
Penitentiary Hospital.....	3,917 62
Police, Office of the Chief of.....	55 01
Prison, 2d District.....	1,695 98
Prison, 3d District.....	1,369 44
Randall's Island.....	10,507 83
Small Pox Hospital.....	643 55
Storehouse, Blackwell's Island.....	29,445 68
Storehouse, Randall's Island.....	10,585 75
Work-House.....	11,430 35
New Work-House Building.....	2,455 40
Total monthly cost of supplies, \$406,652 60.	

Of 4 of these institutions, the following are some of their statistics for the year 1852.

NUMBER OF INMATES.

	Remaining Dec. 31, 1851.	Admitted in 1852.	Discharged and died.	Remaining Dec. 31, 1852.
Bellevue Hospital.	609	5,059	5,132	516
Alms-House	—	—	—	1,267
Lunatic Asylum..	517	495	485	527
Nursery.....	1,419	1,773	1,851	1,311

Of the Alms-House inmates—1,022 were born in foreign countries, and 245 in the United States; 653 were males, 614 females. There are three large dispensaries, whose free charitable ministrations have for many years been of very great assistance in relieving the medical wants of the poorer classes. According to recent police returns, 18,450 persons were found living in 3,742 underground basements. Nearly one-third of these persons were classified as dirty in person, and their basements of the same description.

Croton Aqueduct Department.—The Croton Aqueduct was commenced in 1837, and its completion celebrated Oct. 14th, 1842. It is 40½ m. long, commencing at the Croton r. in Westchester co., 5 m. from Hudson r. The dam, built of stone and cement, is 250 feet long, 40 feet high, 70 feet thick at its base, and 7 at its top. The pond thus created is 5 m. long, covering 400 acres, and estimated to contain 500,000,000 gallons of water. The aqueduct, built of stone, brick, and cement, and arched over and under, is 6 feet 9 inches wide at its bottom, 7 feet 5 inches wide at the top, and 8 feet 5 inches high, has a descent of 13¼ inches per m., and will discharge 60,000,000 gallons in 24 hours. It crosses Harlem r. on a magnificent bridge of stone, 1,450 feet long, supported by 14 stone piers, and which cost nearly \$1,000,000. The receiving reservoir is between Sixth and Seventh avenues, and Seventy-ninth and Eighty-sixth streets, covering 35 acres, containing 150,000,000 gallons of water, and cost \$134,000. The distributing reservoir, on Fifth Avenue and Forty-second Street, is a most massive structure, is 2,120 feet square, covering over 4 acres, containing 25,000,000 gallons, and cost \$152,000. Thence the water is distributed over the city in iron pipes, of which, in 1852, 215 m. length had been laid. The daily consumption is about 30,000,000 gallons. The supply is considered adequate for three or four times the present population of the city. In 1851 the total cost of the Croton Aqueduct and its connections was \$14,041,554. Its revenue now amounts to nearly \$500,000, and is steadily increasing.

Fire Department.—Engine companies in 1851, 49, with 34 engines, 49 hose companies, with carriages, and 58,500 feet of hose, 8 hook and ladder companies, 3 hydrant companies; whole number of firemen 2,172. The real estate used by

the Fire Department was valued, in 1851, at \$151,800. Statistics of fires in 1852—total number, 325; of false alarms, 193; loss of buildings by fire, \$223,428; loss on stock, \$1,359,603; number of persons who lost their lives by fires, 13.

Markets, etc.—There are 14 principal markets, the buildings of which occupy large areas of ground, but are utterly unworthy of the city, occupying real estate, valued in 1851 at \$1,109,000. Of these, the largest and most important is Washington Market, in Washington Street, fronting on the Hudson River. Its business is chiefly wholesale, and more extensive than any other in the United States. The following are approximate estimates of its aggregate yearly sales:

Meat trade	\$5,000,000	Poultry trade....	\$1,000,000
Fruit "	2,500,000	Vegetable "	17,500,000
Butter "	480,000	Egg "	1,000,000
Honey "	9,000	Nut "	15,000
Fish "	648,000		

Total yearly sales of all kinds of produce....\$23,452,000.

The other markets are more occupied with the retail trade.

The following statistics of the cattle trade, for the years 1851 and '52, give only an approximate statement of the consumption of meat in the city.

Sales of beeves, etc., in the New York cattle market, in 1851 and '52:

Total Sales.	Beeves.	Cows and Calves.	Sheep and Lambs.
1851.....	88,094	5,406	264,200
1852.....	105,225	5,688	323,900

Licenses.—Total number of licensed omnibuses, Feb. 1, 1850, 425, paying \$7,630; number of same in 1852, 30 lines, having a full number of 800 stages, of which 445 licenses pay \$12,380; total number of licensed hacks in 1850, 431, paying \$2,133. Of other principal licenses, the following is a summary for 1852: Cartmen, 4,233; dirt carts, 1,460; public porters, 245, etc.

Summary of tavern licenses during 1850-'52, the years ending Dec. 31; and of liquor licenses during 1850-'52, the years ending May 1; also the number of licenses granted in 1852, after May 1; and the total number of places where rum is sold, as reported by the police:

	1850.	1851.	1852.	After May 1, 1852.	Sold.
Tavern licenses	4,523	5,047	5,950	—	—
Liquor "	3,980	4,553	5,190	5,796	6,808

City Railroads.—The Fourth Avenue R. R., belonging to the Harlem R. R., has been in operation for several years. During 11 hours of the day, cars run every 7 minutes from the Astor House to Twenty-seventh Street—fare 6 cents. The Sixth Avenue R. R. went into operation on Aug. 11, 1852. Cars are run every 4 minutes for 12 hours of the day, from Vesey Street to Forty-fourth Street—fare 5 cents. An immense number of persons, averaging, in 1852, over 10,000 daily, use these cars, as also those of Eighth Avenue R. R. The receipts from its opening to Dec. 1, 1852, were \$40,451. The Eighth Avenue R. R. went into operation 31st Aug., 1852. The cars run every 4 minutes during the greater part of the day and evenings, from Vesey to Fifty-first streets—fare 5 cents. The daily number of passengers, in 1852, averaged over 11,000. The receipts of the road, from its opening, during the year 1852 (4 months 1 day) were \$59,500. In 1853, branches of the above roads are extended through Canal Street to Broadway. Other avenue railroads are in rapid construction, of which the principal are on the Second and Ninth avenues, extending to the lower part of the city.

Benevolent Institutions.—The charitable institutions, not under the charge of the city corporation, but established and sustained by the sympathetic liberality of associations and the citizens, are highly creditable to the character of New York. Of these, the New York Hospital, in Broadway, opposite Pearl Street, is among the principal. It was

founded in 1771. It consists of 3 large stone edifices, finely located in a beautiful, spacious yard, very commodious, and well fitted up, and will accommodate 400 patients. It has a large annual revenue, but which is annually expended. The total number of patients admitted from December 31, 1829, to December 31, 1852, was 54,076. The number remaining December 31, 1851, was 301; number of admissions during 1852, 3,443; number discharged in 1852, 3,407; number remaining December 31, 1852, 342. It is the only general hospital of any note in the city.

The Bloomingdale Asylum for the Insane, located at Bloomingdale, near the Hudson river, between Tenth and Eleventh avenues, One Hundred and Seventeenth and One Hundred and Twentieth streets, 7 miles from the City Hall, is a branch of the New York Hospital, which went into operation in June, 1821. There are three very large and commodious buildings of hewn stone, with 40 acres of ground beautifully laid out into pleasure-grounds, gardens, etc. The statistics of this institution for the year 1852 are as follows:

Number of patients in Asylum Jan. 1, 1852.....	122
Admitted during the year.....	102
Discharged " ".....	87
Died " ".....	15
Number of patients in Asylum Dec. 31, 1852.....	119
Receipts during the year.....	\$31,137 47
Expenditures.....	\$30,254 61

Balance in treasury.....	\$852 86
Value of products of the farm in 1852.....	\$5,261 00

The total number of patients treated since the opening of the Asylum approximates 5,000.

The New York Institution for the Instruction of the Deaf and Dumb is located between Fourth and Fifth avenues, and Forty-ninth and Fiftieth streets, 3½ miles from the City Hall. The principal edifice, occupied since 1829, is a very handsome structure, 5 stories high, 110 feet long, and 60 feet wide. The whole number of patients at the institution in 1852 was 308; number discharged during the year, 44; number remaining Dec. 31, 1852, 259; of whom 143 were males and 116 females. These were supported as follows: by the State of New York, 182; by the city of New York, 16; by the State of New Jersey, 13; by their friends, 31; by the Institution, 16; by the Commissioners of Emigration, 1. Expenses in 1852, \$43,000; receipts, \$41,000.

The Institution for the Blind, on Ninth Avenue, Thirty-third and Thirty-fourth streets, is a large and splendid edifice of granite, in Gothic style, and one of the finest ornaments of the city. The total number of inmates during 1852 was 150; number remaining Dec. 31, 1852, 103.

Orphan Asylums.—The New York Orphan Asylum, situated at Bloomingdale, near Hudson river, on Seventy-first Street, 4½ m. from City Hall, is a handsome building of stone, in Gothic style, 120 by 60 feet, connected with 9 acres of ground, and contains several hundred children. The Protestant Half-Orphan Asylum is in Sixth Avenue, between Tenth and Eleventh streets. The Colored Orphan Asylum, on Fifth Avenue, between Forty-second and Forty-third streets, is a large institution in flourishing condition. Number of children Jan. 1, 1852, 201; admitted in 1852, 57; remaining Dec. 31, 1852, 207—boys, 130; girls, 77; total number admitted since opening of the asylum, 631; receipts and expenses during 1852, each about \$16,000. The Roman Catholic Orphan Asylum, in Prince Street, near the Cathedral, is a very large institution, under charge of the Sisters of Charity. On Dec. 31, 1852, it contained about 700 children—300 girls and 400 boys. Expenses of the year, \$25,000.

Other asylums are, the Home for Aged Indigent Females, having, in 1852, 87 inmates; expenses and receipts in same year, about \$4,000. Asylum for Lying-in Women, which, in 1852, accommodated 141 women in confinement, etc; the Colored Home, Magdalen, Friendless Boys, and others.

There are five dispensaries, which annually afford medical aid to vast numbers of the population. Of these the

New York Dispensary was established in 1790, the Northern in 1827, the Eastern in 1830, the Demilt in 1851, the North-western in 1852. The aggregate applications to the first three, in 1852, for medical aid, was 79,379; number of vaccinations, 6,316.

Institutions for Seamen.—On Staten Island are three large and most excellent institutions for seamen; viz., the Marine Hospital at Tompkinsville, near the Quarantine ground, consisting of 3 buildings; the Seaman's Retreat; and the Sailor's Snug Harbor, on the N. side of the island, which provides a home for aged and decayed seamen, and possesses an estate, bequeathed by Capt. Randall, now valued at \$1,000,000.

Religious Societies.—New York contains many of the central offices and publication establishments of those great religious denominations and societies which embrace in their labors the whole nation. Some of their printing offices are among the largest in the city—viz., American Bible Society, which in 1852 erected a splendid edifice in Fourth Avenue, cor. Ninth Street, consisting of an entire block, six stories high; Methodist Book Concern in Mulberry Street; American Tract Society in Nassau Street, and many others. The anniversaries of these societies are celebrated during the second week in May, and are occasions of much interest.

Population.—The following statistics exhibit the amount of the population of New York at various intervals since its foundation, as furnished by the enumerations and estimates of the earlier period, and later by the official returns of the census, periodically taken under the authority of the State, and of the United States, together with the numerical increase between the consecutive periods with the actual ratio for such times, and the corresponding ratio for decennial periods, where the interval is more or less than ten years:

Years.	Population.	Numerical Increase.	Ratio of Increase.	
			Actual Per cent.	Decennial Per cent.
1656.....	1,000.....	—.....	—.....	—.....
1673.....	2,500.....	1,500.....	150.00.....	83.23

1786.....	23,614.....	{ 2,356 dec.76 1,788 inc.73.....	7.94.....	6.11
1790.....	33,131.....	9,517.....	40.30.....	100.75
1800.....	60,489.....	27,358.....	82.57.....	82.87
1805.....	75,770.....	15,281.....	25.26.....	50.52
1810.....	96,373.....	20,603.....	27.19.....	54.85
1814.....	92,443.....	3,925 dec.....	4.07 dec.....	—
1816.....	100,619.....	8,171.....	8.84.....	44.20
1820.....	123,706.....	23,087.....	22.94.....	57.35
1825.....	166,056.....	42,350.....	34.26.....	68.52
1830.....	202,559.....	36,503.....	21.97.....	43.94
1835.....	270,089.....	67,500.....	33.32.....	66.64
1840.....	312,719.....	42,621.....	15.78.....	31.56
1845.....	371,223.....	58,513.....	18.71.....	37.42
1850.....	515,507.....	144,284.....	38.83.....	77.76

The average decennial increase from 1656 to 1850, is about 40 per cent., which has been steadily ahead, except during the two periods of war with Great Britain. The ratio of increase in other periods has been materially checked by the following causes: French and Indian war of 1689-97; yellow fever in 1741-2; the "negro plot" of the same years; great fire of 1741; and the French wars of 1744-48, and 1754. There has been no period of ten years' length, since 1756, in which the population has not increased.

POPULATION BY PERIODS OF GOVERNMENT.

Periods.	Pop. at close.	Increase.	Ratio.	Dec. equiv.
Dutch.....	1613-1664.....	1,700.....	1,700.....	—
English.....	1664-1783.....	23,614.....	22,000.....	1,300.....
American.....	1783-1850.....	515,507.....	491,893.....	2,233.....
				3,411

BEFORE AND AFTER THE UNITED STATES CONSTITUTION.

Periods.	Pop. at close.	Increase.	Ratio.	Cent. equiv.
Before 1613-1790	83,131	83,131	—	—
After 1790-1850	515,507	432,376	1,456	2,427

The population of the city has doubled, since 1656, *nine* times, or in each average period of 21½ years; since 1790, *four* times, or in each 15 years; since 1800, *three* times, or in each average period of 16½ years.

Comparison of the growth of the cities of New York, Philadelphia, Boston, and Baltimore, since 1790:

Years.	N. York.	Philad.	Boston.	Balt.	Three N. Y.'s per Cities. ct. of the 3
1790	83,131	42,520	18,038	18,508	74,061
1800	60,459	81,005	24,297	26,514	131,816
1810	96,373	111,210	35,250	46,455	192,915
1820	123,706	137,097	43,298	62,783	243,133
1830	202,559	188,961	61,392	80,260	330,978
1840	312,710	258,087	93,883	102,518	453,933
1850	515,507	408,815	138,788	159,048	734,734

By the census of 1850, New York exceeds in population fourteen of the States of the Union.

Mortality.—The annual ratio of deaths to the population has for several years been 3 per cent., which large proportion is to be attributed in a very great degree to the foreign immigration, the alms-houses, etc., and not to the natural unhealthiness of the city.

Wealth.—The following statements exhibit the valuation of property in the city from 1800 to 1852 inclusive. The first statement exhibits the total valuation until 1825; the second table, from 1825-52 inclusive, distinguishes each class of estate:

Years.	Total Valuation.	Years.	Total Valuation.
1800	\$24,486,370	1815	\$81,636,042
1805	25,645,867	1816	82,074,201
1806	26,529,630	1817	78,895,725
1807	24,959,955	1818	80,245,091
1808	25,118,720	1819	70,113,061
1809	24,782,267	1820	69,530,753
1810	26,436,370	1821	68,282,070
1811	26,045,730	1822	71,289,144
1812	26,243,040	1823	70,940,820
1813	27,640,230	1824	83,075,676
1814	82,901,497		

Years.	Real Estate.	Personal Estate.	Total.
1825	\$58,435,895	\$42,734,131	\$101,169,046

1841	186,347,216	61,230,456	247,577,672
1842	176,512,342	63,494,559	239,806,901
1843	164,950,515	63,046,576	227,997,091
1844	171,936,591	64,023,456	235,960,047
1845	177,160,790	62,777,528	239,938,318
1846	189,480,934	61,471,571	244,952,505
1847	187,314,386	59,837,917	247,152,306
1848	193,627,576	61,164,451	254,792,027
1849	197,761,919	58,455,174	256,217,093
1850	207,146,173	79,939,240	286,085,416
1851	227,019,856	93,094,592	320,108,358
1852	252,186,753	93,520,043	351,706,796

The amount of wealth per head at the different periods named, has been as follows:

1800	\$404 80¼	1830	\$618 48¼
1810	274 31¼	1840	806 41
1820	562 06	1850	534 99¼

In 1850, 2 estates were assessed for over \$1,000,000. Exclusive of incorporated companies, 7 estates were assessed on \$500,000 and upward. The several properties above \$17,500 were:

Amounts.	No. of Estates.	Amounts.	No. of Estates.
\$500,000 to \$1,000,000	7	\$70,000 to \$80,000	99
400,000 "	2	60,000 "	109
300,000 "	24	50,000 "	195
200,000 "	58	40,000 "	271
100,000 "	222	30,000 "	445
90,000 "	43	20,000 "	957
80,000 "	64	17,500 "	773

The proportionate increase of population and wealth in New York, in each consecutive period of 10 years, since 1800, is as follows:

Years.	Increase.		Increase.	
	Pop.	Wealth.	Pop. per cent.	Wealth per cent.
1800-10	35,884	\$1,950,000	50	8
1810-20	27,333	43,094,383	2½	163
1820-30	78,893	55,757,765	64	80
1830-40	110,121	127,554,645	54	102
1840-50	202,885	33,242,253	65	13
1800-50	435,656	\$261,599,046	552	1,168

Historical Sketch.—The history of New York city is directly divided into three periods, during which it has belonged to the three governments, Holland, England, and the State of New York, viz., 1609-1664, 1664-1783, 1783-1838.

Dutch period: Sept. 3, 1609, Hendrik Hudson discovered the island; 1613, the settlement of "New Amsterdam" was commenced; 1621, the Dutch West India Company commenced operations; 1626, the island was purchased for \$24; 1652, New Amsterdam was incorporated, and the government passed from the West India Company into the hands of 2 burgomasters and 5 assistants called schepens, and 1 schout or sheriff; Sept., 1664, the English took the province.

English period: 1664, name changed to New York; July, 1673, retaken by the Dutch and called "New Orange," and held by them 1 year; 1686, James II. abolished the representative system, etc.; 1689, Leisler insurrection; 1690, a colonial congress assembled here; Nov., 1696, city lighted by ordinance; 1711, slave market established in Wall Street; 1720, 2 per cent. laid on European imports; 1725, "New York Gazette" appeared; 1730, enlarged charter granted by Gov. Montgomerie; 1732, stage routes established to Boston and Philadelphia, traversed once a month; Sept. 21, 1776, 493 houses consumed by fire, ¼ of whole city; 1741-2, "Negro plot" and yellow fever; 1765, a colonial congress assembled here; 1776-1783, Revolution; Nov. 25, 1783, evacuation of British army and end of English rule.

American period: April 30, 1789, Washington inaugurated first president at Federal Hall, on site of present custom-house; 1798, yellow fever, 2,086 deaths, which returned in 1803 and in 1805, and again in 1822; 1807, Fulton's steamboat on Hudson river; 1811, large fire; 1812-15, war with Great Britain, which suspended all commerce; 1826, Erie Canal completed and great celebration; 1832, Asiatic Cholera—4,360 deaths; Dec. 16, 1835, conflagration of 648 buildings, total loss \$25,000,000; 1837, commercial revulsion; Oct. 14, 1842, celebration of completion of Croton Aqueduct; 1845, conflagration of 546 buildings—loss \$6,000,000; 1849, cholera; 1850, Collins' Steamers to Liverpool; May, 1851, Erie R. R. completed to Dunkirk; 1852, avenue railroads; 1853, success of the Ericsson Caloric Steamship; city charter reformed.

The environs of the city, though physically separated, and of themselves large cities (separately described in their alphabetical order), are, to all intents and purposes, part of the metropolis, originating from, and dependent upon, its prosperity. See BROOKLYN, WILLIAMSBURG, etc.

Of the entire metropolitan district, now the first in the New World, it may summarily be said, that the past is indicative of its future, promising to increase with each succeeding year its permanent prosperity, until it surpasses all cities, ancient and modern.

NEW YORK, p. v., Sumter county, Ala.: 116 miles W. Montgomery.

NEW YORK (of the Pacific), p. v., Contra Costa county, Calif.: 26 m. E. by S. Vallejo, at junction of Sacramento and San Joaquin rivers, which here form the bay of Suisun. Vessels of large size can go up from the sea to this point.

NEW YORK, p. o., Montgomery co., Tenn.: 40 m. N. W. Nashville.

NEW YORK MILLS, p. v., Oneida county, N. Y.: 90 m. W. N. W. Albany, on Sadaquana cr., 2 m. S. Whitesboro', noted for its extensive cotton factories, etc.

NEY, p. o., Defiance co., Ohio: 120 m. N. W. Columbus.

NEY, p. o., De Kalb co., Ill.: 163 m. N. by E. Springfield.

NIAGARA county, N. Y. Situate W., and contains 484 sq. m. Drained by Tonawanda, Tuscarora, Johnson's, Howell's, and Cayuga creeks. Surface various, rising in gradual swells from the N. to the ridge in the interior of the county, and thence declining gently toward Tonawanda cr.—in general it may be said to be level; soil fertile and easy of tillage, but best suited for pasturage—in some portions it is productive in grain, fruits, etc. Chief productions wheat, Indian corn, and potatoes; it is also a fine dairy county. It contains many minerals and abounds in fossils; it also has some sulphur springs. This county, in connection with Niagara district of Canada, contains the celebrated cataract of Niagara. Farms 3,143; manuf. 336; dwell. 7,435, and pop.—wh. 41,973, fr. col. 301—total 42,274. Capital: Lockport. Public Works: Rochester, Lockport, and Niagara Falls R. R.; Buffalo and Niagara Falls R. R.; Buffalo and Lockport R. R.; Canandaigua and Niagara Falls R. R.; Erie Canal, etc.

NIAGARA, t., Niagara co., N. Y.: on E. side of Niagara r., 270 m. W. by N. Albany. This t. is situated on the Mountain Ridge, and declines toward the S. Surface undulating; soil calcareous gravelly loam, underlaid by lime and gypsum. Drained by a few small streams, and on its W. side by Niagara river. Attached to this t. are Goat Island, and other islands, and the American division of Niagara Falls. Pop. of t. 1,951.

NIAGARA river and falls, N. Y.: this river, connecting Lake Erie with Lake Ontario, is 36 m. long, and its general course N. N. W. Commencing at Buffalo, it is there $\frac{1}{2}$ m. wide, from 40 to 60 feet deep, and flows with a current of 4 m. per hour. Three miles below Buffalo, at Black Rock, it furnishes water to the Erie Canal, by the State pier built in the channel, upward of a mile in length, 50 feet wide at its base, 30 feet wide at its top, and cost \$300,000. From Black Rock is a steam ferry to Waterloo, Canada. The river now gradually widens in its descent toward Grand Island, which it meets 6 m. below Buffalo, and passes with its main channel on the W. side. Grand Island is 12 m. long, in its widest part 6 m. wide, contains 17,831 acres, belongs to New York, etc. (See GRAND ISLAND.) Below Grand Island, in the main channel, near the Canadian side, is Navy Island, containing 304 acres, which belongs to Canada, and was occupied by the insurgents in 1837-8, under Mackenzie. Having passed these islands, 3 m. above the falls, the divided branches of the river re-unite, flowing with rapid current, 2 m. broad, but narrowing as it approaches the falls. About $\frac{1}{4}$ m. above the falls commence the Great Rapids, which, before reaching the falls, have a descent of 52 feet, presenting a grand appearance. At the falls the river is $\frac{1}{2}$ m. wide, but is divided by Goat Island, which is

$\frac{1}{4}$ m. long, $\frac{1}{2}$ m. wide, contains 71 acres, and extends to the brow of the precipice, where it presents a mass of rocks, nearly perpendicular, extending from the brink to the bottom of the fall. Owing to the declivity of the bed of the river before reaching the fall, being greater upon the Canadian side than on the American, to a bend in the river, and to Goat Island being nearer to the American than the Canadian side, by far the greater body of water falls on the Canadian side of Goat Island, or, as it is generally called, Horseshoe Fall. The following table exhibits in comprehensive form the measurements of the

FALLS OF NIAGARA.

Extent of the Horseshoe Falls on the Canadian side.....	2,200 feet.
Breadth of Goat Island, between it and the American side.....	980 "
Breadth of falls on the American side.....	1,140 "
The whole extent, or more than $\frac{1}{2}$ mile.....	4,921 "
Height of the Horseshoe Falls.....	150 "
Height of the American Falls.....	160 "
Extent of the Cave beneath the Horseshoe Falls from the outside of the Termination Rock....	153 "
Height of the Cave is estimated by Capt. Hall at	100 "
The estimated quantity of water discharged over the falls is calculated at 48,524,000 cubic feet, or 113,510,000 gallons per minute.	
Depth of the river above the falls as near as can be approached, about.....	200 "
Breadth of the river at the ferry.....	1,170 "

In the rapids above the American Falls, about midway between the shore and Goat Island, is Bath Island, 24 rods in length, and containing about 2 acres. From the shore to this island is a bridge 23 rods long, crossing the rapids 64 rods above the falls. From Bath Island, another bridge, 16 rods long, extends to Goat Island. On Goat Island fine views are obtained of both falls. At the S. W. angle of this island, on some rocks near the verge of the precipice, and which are reached by a footway called Terrapin Bridge, extending from rock to rock, there has been erected a stone tower, 45 feet high; upon its top is an open wooden gallery, whence is afforded a direct view of the abyss below. From the front of Goat Island there is a descent (185 feet) to the bottom of the falls by a covered staircase (erected by the late Nicholas Biddle, Esq., of Philadelphia). From the foot of this staircase there are paths for some distance behind each of the falls. Behind the Central Fall is the celebrated Cave of the Winds, formed by a recess in the wall of the precipice, 153 feet long, 50 feet wide, and 100 feet high. The best and most comprehensive view of the entire falls is obtained on the Canada side at Table Rock. On the American side a descent is afforded by cars on an inclined plane to the shore below, whence a steam ferry boat named Maid of the Mist, plies over these foaming depths near the falls, to the Canada side, where a winding carriage road is constructed to the heights above. The width of the river is here $\frac{1}{2}$ mile, and its depth 250 feet. The banks of the river below the falls have a gradual ascent for 6 m., from which, and other facts, many suppose that the falls have, in the course of ages, receded from below to their present position. A mile and a half from the falls is the wire suspension bridge, 800 feet long, 40 feet wide, and 230 feet above the water. It is supported by 16 wire cables, 1,100 feet long, and upward of 12 inches in circumference, having a strength equal to 6,500 tons tension strain. The Whirlpool, 8 m. below the falls, is produced by the projection of a rocky promontory, and in it logs and trees are frequently whirled around for weeks in succession. One mile below this whirlpool is an excavation from the side of the bank, containing about 2 acres, and 150 feet deep, called the Devil's Hole. The river, in its descent to Lewiston, 7 m., falls 104 feet, and flows with great velocity. Near Lewiston the bank is 310 feet high, but below it diminishes to 25 or 30 feet, and

holds this height to Lake Ontario. The river falls 2 feet in its descent from Lewiston to Lake Ontario, a distance of 7 m., making a total descent of 334 feet in its course of 36 m. from Lake Erie to Lake Ontario. At its mouth it is defended on the American side by Fort Niagara, famous in history, and garrisoned by U. S. artillery, and on the Canadian side by Fort George. Here also is Fort Niagara Light-house. See LIGHT-HOUSES.

NIAGARA FALLS, p. v., Niagara co., *N. Y.*: on E. bank of Niagara r., at the falls, 270 m. W. by N. Albany. This beautiful and thriving v. derives its business and importance mainly from its proximity to the falls and its accessibility by railroads—from Buffalo, 22 m., and from Lockport, 21 m. A railroad to Lewiston is also in construction. Here are several very large hotels, accommodating in the best style thousands of visitors annually. In the v. are 3 churches, 2 academies, and a number of mills using water-power from Niagara river. Pop. about 1,000.

NIANTIC, sta., New London co., *Conn.*: on New Haven and New London R. R., 5 m. W. by S. from New London.

NICOTROO, p. v., Arkansas county, *Ark.*: on S. bank of Arkansas r., 60 m. S. S. E. Little Rock.

NICHOLAS county, *Ky.* Situate toward the N. E., and contains 281 sq. m. Drained by Licking r. and its branches. Surface rolling; soil fertile, and there is much fine pasture for cattle, etc. On the streams is some excellent land, well cultivated, and very productive. Staples, sugar, wheat, Indian corn, and tobacco. Farms 711; manuf. 33; dwell. 1,497, and pop.—wh. 8,683, fr. col. 165, sl. 1,513—total 10,361. *Capital*: Carlisle. *Public Works*: Lexington and Maysville R. R.

NICHOLAS county, *Virg.* Situate W. centrally, and contains 676 sq. m. Drained by Gauley and Elk rivers and their branches. Surface moderately uneven; soil fertile. It is bounded on the S. W. by the Great Kanawha river. Chief productions, wheat and Indian corn, and it is a fine grazing county. Farms 418; manuf. 1; dwell. 602, and pop.—wh. 3,889, fr. col. 1, slaves 3,890—total 7,789. *Capital*: Nicholas C. H. *Public Works*: Covington and Ohio Railroad.

NICHOLAS, p. o., Sutter co., *Oreg. Ter.*: on E. bank of Feather r., 84 m. N. E. by N. Vallejo.

NICHOLAS C. H., p. o., and cap. Nicholas county, *Virg.*: 192 m. W. N. W. Richmond.

NICHOLASVILLE, p. v., and cap. Jessamine co., *Ky.*: on a branch of Kentucky r., 27 m. S. S. E. Frankfort.

NICHOLS, t. and p. v., Tioga co., *N. Y.*: on S. side Susquehanna r., 145 m. W. S. W. Albany. Surface of t. hilly; soil gravelly loam. The v. is situated on the river upon a plain, very fertile and highly cultivated. Pop. of t. 1,905.

NICHOLSON, t. and p. v., Wyoming co., *Penn.*: drained by Tunkhannock cr. and tributaries, 103 m. N. N. E. Harrisburg. The Tunkhannock Mountain extends across its N. part.

NICHOLSON'S STORE, p. o., Choctaw county, *Ala.*: 134 m. W. by S. Montgomery, near Mississippi State line.

NICHOLSONVILLE, p. o., Putnam co., *Ind.*: 40 m. W. S. W. Indianapolis.

NICHOLSVILLE, p. o., Clermont co., *Ohio*: 84 m. S. W. Columbus.

NICHOLVILLE, p. o., St. Lawrence co., *N. Y.*: on E. branch of St. Regis r., 148 m. N. N. W. Albany.

NICKELL'S MILLS, p. o., Monroe co., *Virg.*: 290 m. W. S. W. Richmond.

NICKOJACK CAVE, Dade co., *Ga.* This remarkable cave is in the extreme N. W. corner of the State. It contains numerous passages, spacious rooms, with tall columns, arches, etc. From its mouth issues a large stream, called Nickojack cr., which, for more than a mile within the cave, is 20 feet wide and boatable. The mouth of the cave is 177 feet wide; the height from the water to the roof, 49 feet; thickness of the roof above, 82 feet.

NICOLAUS, p. v., and cap. Sutter co., *Calif.*: on left bank

of Feather r., 80 m. N. E. by N. Vallejo. It has a delightful location, and is supported by a fine back country. The main stage road between Sacramento and Marysville passes through it. Pop. about 1,000.

NICOLLET lake, Juab co., *Utah Ter.*: 80 m. S. S. E. from Great Salt Lake, 60 m. W. N. W. Fillmore City.

NICOLLET river, *Utah Ter.*: rises in the mountains in Iron county, 100 m. S. by W. Fillmore City. It first runs N. N. E., draining the eastern portions of Iron and Millard counties; in the latitude of Fillmore City it bends to the N. W., and on reaching the boundary of Juab co. it runs nearly due W. for 45 m., and empties into Nicollet lake.

NICONZA, p. o., Miami co., *Ind.*: 70 m. N. Indianapolis.

NIDJIKWE lake, La Pointe co., *Wisc.*: between Meminis and Namebin lakes, the head of Namekagon r.

NIGHT'S PRAIRIE, p. o., Hamilton co., *Ill.*: 138 m. E. S. E. Springfield.

NILE, p. o., Alleghany county, *N. Y.*: 230 m. W. by S. Albany.

NILES, t., p. v., and sta., Berrien co., *Mich.*: on E. bank of St. Joseph's river, near entrance of Dowagiacke r., 111 m. S. W. by W. Lansing. The Michigan Central R. R. passes through the v., 191 m. from Detroit, 91 m. from Chicago. The v. is pleasantly situated, contains numerous mills, and does a large business, connected with the fine farming country around it. Here is located a branch of the State University. Three newspapers are published weekly: the "Intelligencer" (whig), "Republican" (dem.), "Express" (dem.)

NILES, t. and p. o., Cayuga co., *N. Y.*: situate between Skaneateles and Owasco lakes, 141 m. W. by N. Albany. Surface rolling; soil exceedingly productive, especially of wheat. Pop. 2,053.

NILES, p. v., Cook co., *Ill.*: on W. side of the N. branch of Chicago r., 174 m. N. N. E. Springfield.

NILES, p. o., Trumbull co., *Ohio*: 144 m. N. E. Columbus.

NIMISLA, p. v., Summit co., *Ohio*: 96 m. N. E. Columbus.

NIMMON'S CROSS ROADS, p. o., Morrow co., *Ohio*: 35 m. N. Columbus.

NINE EAGLES, p. v., Decatur co., *Ia.*: 130 m. W. S. W. Iowa City. Drained by branch of Crooked Fork of Grand r.

NINE MILE, p. o., Bladese county, *Tenn.*: 93 m. E. S. E. Nashville.

NINE MILE creek, *N. Y.*: rises in S. part of Onondaga co., and flows N. on Onondaga lake.

NINE MILE PRAIRIE, p. o., Perry co., *Ill.*: 126 m. S. by E. Springfield.

NINE POINTS, p. o., Lancaster co., *Penn.*: 35 m. E. S. E. Harrisburg.

NINETY-SIX, p. o. and sta., Abbeville dist., *S. Car.*: 75 m. from Columbia, on Greenville and Columbia R. R.

NINEVEH, p. v., Broome co., *N. Y.*: on W. side of Susquehanna r., 102 m. W. S. W. Albany.

NINEVEH, p. o., Johnson co., *Ind.*: on Nineveh cr. of E. fork of White r., 27 m. S. by E. Indianapolis.

NINEVEH, p. o., Warren county, *Virg.*: 108 m. N. N. W. Richmond, on branch of Manassas Gap R. R.

NIPPENOSE, t. and p. o., Lyeomg county, *Penn.*: 67 m. N. by W. Harrisburg. Drained by Nippenose cr. on its W. side, and the W. branch of the Susquehanna on the N. border. Surface hilly; soil calcareous loam.

NISINABATONA river, *Ia.* and *Mo.*: rises in Audubon co., *Ia.*, flows S. W., and passing through N. W. corner of *Mo.*, empties into the Missouri river.

NISKAYUNA, t. and p. o., Schenectady co., *N. Y.*: 12 m. N. N. W. Albany, on S. side Mohawk r. Pop. 783.

NITTANY, p. o., Centre county, *Penn.*: 70 m. N. W. Harrisburg.

NIVEVILLE, p. v., Columbia co., *N. Y.*: 18 m. S. by E. Albany; has several mills and factories.

NIXBURG, p. o., Coosa county, *Ala.*: 32 m. E. N. E. Montgomery.

NOAU, p. o., Shelby co., *Ind.*: 30 m. S. E. Indianapolis.

NOANK, p. o., New London county, *Conn.*: 45 m. S. E. Hartford.

NOBLE county, *Ind.* Situate N. E., and contains 423 sq. m. Drained principally by Elkhart r. and its branches, which traverse its N. and central portions. Surface level and diversified, with lakes; soil fertile, and adapted to the growth of grain. Chief productions wheat, Indian corn, potatoes, pork, butter, and vegetables of all kinds. Timber is found on the land. Farms 772; manuf. 16; dwell. 1,395, and pop.—wh. 7,940, fr. col. 6—total 7,946. *Capital*: Albion.

NOBLE county, *Ohio*. Situate toward the S. E., and contains 396 sq. m. Drained by head branches of Wills cr., a tributary of Muskingum r., and by branches of Duck creek, a tributary of the Ohio. Surface uneven, and in parts hilly; soil fertile, and adapted to corn, wheat, and fruit. Pine and other timber is found on the land, and bituminous coal is extensively distributed. Noble was erected in 1851. *Capital*: Sarahsville.

NOBLE, p. v., Noble county, *Ind.*: 110 m. N. by E. Indianapolis.

NOBLEBOROUGH, t. and p. v., Lincoln co., *Me.*: on E. side of Damariscotta r., 23 m. S. E. Augusta. The lumber business and ship-building are carried on extensively. Population 1,408.

NOBLE CENTRE, p. o., Branch co., *Mich.*: on N. side of Fawc r., 71 m. S. W. Lansing.

NOBLE IRON WORKS, p. o., Noble county, *Ind.*: 112 m. N. by E. Indianapolis.

NOBLETOWN, p. v., Allegheny co., *Penn.*: on a branch of Chartier's creek, 170 m. W. Harrisburg, 10 m. S. W. Pittsburg.

NOBLESVILLE, p. v., sta., and cap. Hamilton co., *Ind.*: on E. bank of W. fork of White r., 20 m. E. N. E. Indianapolis, on the Peru and Indianapolis R. R. It contains the courthouse, a fine county seminary, several hotels, and numerous stores, four churches. "The Plaindealer" (neut.) is published weekly. Pop. 2,000.

NOBSCE POINT LIGHT, *Mass.* See LIGHT-HOUSES.

NOCHWAY, p. o., Randolph county, *Ga.*: 136 miles S. W. Milledgeville.

NODAWAY county, *Mo.* Situate N. W., and contains 720 sq. m. Drained by Little Platte r. and its branches, tributaries of the Missouri river. Surface generally even; soil a deep, dark loam, and fertile. It has some good timber. Farms 241; manuf. 3; dwell. 825, and pop.—wh. 2,048, fr. col. 0, sl. 70—total 2,118. *Capital*: Nodaway C. H.

NODAWAY, p. o., Page co., *Ia.*: 200 m. W. S. W. Iowa City.

NODAWAY, p. v., Andrew county, *Mo.*: 180 m. N. W. Jefferson City.

NODAWAY river, *Ia.* and *Mo.*: rises in Adair co., *Mo.*, flows S. through Adams and Page counties; then passing into N. W. corner of *Mo.*, falls into the Missouri r. between Holt and Andrew counties.

NOEL'S, sta., Hanover co., *Virg.*: on Virginia Central R. R., 83 m. from Richmond.

NOKAY river, Benton co., *Minn.*: rises in a chain of lakes, flows S. W., and empties into Mississippi r. at Fort Gaines.

NOLAND'S river, Navarro co., *Tex.*: rises in the Cross Timbers, flows mainly in S. direction, and enters Brazos r. above Fort Graham.

NOLAND'S FERRY, p. o., Loudon county, *Virg.*: 112 m. N. Richmond.

NOLANSVILLE, p. o., Bell co., *Tex.*: on Noland's cr. of Leon r., 62 m. N. by E. Austin City.

NOLANSVILLE, p. v., Williamson co., *Tenn.*: 13 m. S. E. Nashville.

NOLICHUCKY river, *N. Car.* and *Tenn.*: rises in Yancey co., *N. Car.*, flows W. through the Blue Ridge, and enters French Broad r., 8 m. N. W. Newport.

NOLIN, p. v., Hardin co., *Ky.*: 93 m. S. W. Frankfort.

NOLIN creek, *Ky.*: rises in Hardin and La Rue counties, flows S. W., forming the boundary between Grayson and Hart counties, and empties into Green r. near Brownsville, Edmondson county.

NO MAN'S LAND island, Dukes co., *Mass.*: lies off S. W. end of Martha's Vineyard, 4 m. S. Gay Head. It consists chiefly of a mass of rocks.

NOMINY GROVE, p. o., Westmoreland co., *Virg.*: 51 m. N. E. Richmond.

NON CONNER, p. o., Fayette co., *Tenn.*: 156 m. W. S. W. Nashville.

NONPAREIL, p. o., Knox county, *Ohio*: 86 miles N. E. Columbus.

NORFOLK county, *Mass.* Situate E., and contains 350 sq. m. Drained by the Charles and Neponset rivers and their affluents. Surface uneven, and in parts rocky; soil generally fertile and well cultivated. In Quincy a fine granite quarry is found, the products of which are carried down to the Neponset r. by a railroad 3 m. long, the first built in the United States. This co. has many important manufactures. Farms 2,637; manuf. 906; dwell. 12,545, and pop.—wh. 78,661, fr. col. 231—total 78,892. *Capital*: Dedham. *Public Works*: Norfolk County R. R.; Old Colony R. R.; Boston and Providence R. R.; Fall River R. R.; Boston and Worcester R. R.; South Shore R. R.; and numerous branches, also the New York, New Haven, and Boston (air line) R. R., now in progress.

NORFOLK county, *Virg.* Situate S. E., and contains 492 sq. m. Drained by Elizabeth and Pasquotank rivers. Surface level; soil moderately fertile. Indian corn is the chief agricultural product. It contains the greater portion of the Dismal Swamp. Commerce is by far the greatest interest of the county. Farms 648; manuf. 175; dwell. 3,906, and pop.—wh. 20,370, fr. col. 2,266, sl. 10,400—total 83,036. *Capital*: Norfolk City. *Public Works*: Sea-board and Roanoke R. R.; Petersburg and Norfolk R. R.; Dismal Swamp Canal, etc.

NORFOLK, t. and p. v., Litchfield county, *Conn.*: 36 m. W. N. W. Hartford. Surface of t. mountainous; soil gravelly loam, and stony. Drained by Blackberry river and branches. Contains several mills, tanneries, and factories. Pop. 1,641.

NORFOLK, t. and p. v., St. Lawrence co., *N. Y.*: on Racket r., 163 m. N. N. W. Albany. Surface of t. undulating; soil rich loam. The v. is situated at a fall in the river which affords great water-power, used by several mills, etc. Pop. of t. 1,753.

NORFOLK, p. b., port of entry, and cap. Norfolk county, *Virg.*: on the N. E. bank of Elizabeth r., at the confluence of its two branches, 8 m. above Hampton Roads, 82 m. from the ocean; 80 m. S. E. by E. Richmond. Lat. N. 36° 50' 50"; long. W. 76° 18' 47". This is the chief commercial port in Virginia, and is remarkable for its harbor, which is very accessible, spacious, and deep enough for the largest vessels. Its site is on low and marshy ground, and formerly unhealthy, but is now provided with sewers, and kept clean. The streets are generally irregular, though some are wide, straight, and neat. The houses are not remarkable for elegance, but many of them are substantial buildings. It contains a court-house, jail, fine market-house, custom-house, an atheneum, with a library, academy, orphan asylum, 3 banks—capital \$991,000, some good hotels, and 8 churches. The cemetery, ornamented with cypress trees, is very beautifully laid out and adorned. Norfolk is chiefly distinguished as being the principal naval station in the United States, having the finest navy yard, dry dock, and naval hospital in the nation. The navy yard is on the W. side of the r. at Gosport. The dry dock is constructed of hewn granite, and cost \$974,536. At this station is the ship Pennsylvania, built at Philadelphia, and launched in 1837, four-decker, the largest in the navy, mounting 120 guns, which is here used as a receiving ship. The hospital is on a point directly opposite Norfolk, very large, commodious, and

healthily situated. A naval officer is stationed at this port. The total tonnage of Norfolk district on 30th June, 1850, was 24,135 tons, of which 10,542 were registered, 13,593 were enrolled and licensed. Of registered tonnage 3,144 tons were permanent, and 7,399 tons temporary. Of the enrolled and licensed tonnage 12,351 were permanently employed in the coasting trade; 1,354 tons were propelled by steam; 1,242 tons were licensed under 20 tons. During the year ending June 30, 1850, the total number of clearances for foreign countries was 140, tons 26,765, men in crews 1,168; total number of entrances from foreign countries 74, tons 14,281, men in crews 684. Vessels built during the year 6, total tonnage, 603. Norfolk is connected by the sea-board and Roanoke R. R. (from Portsmouth to Weldon, N. C., 80 m.), with the great line of R. R. on the Atlantic coast. A railroad from Petersburg to Norfolk is in construction. A line of steamships plies semi-weekly to New York. Our daily newspapers are published at Norfolk: "Beam," (neut.), "Argus" (dem.), "Courier" (neut.), "N. and Herald" (whig). Each of these issue tri-weekly editions. Pop. in 1840, 10,920; in 1850, 14,320.

NORMANSKILL, N. Y.: rises in Schenectady co., flows E. through Albany co., and empties into Hudson r. at Bethlehem.

NORRIDGEWOCK, t, p. v., and cap. Somerset co., Me.: on Kennebec r., 23 m. N. Augusta. The v. on the N. bank of the r. in the bend is very pleasant, having broad streets lined with fine trees; contains the co. buildings, church, and academy. A bridge across the r. connects it with S. Norridgewock. This t. is noted in history as the seat of the Norridgewock Indians, and for a French Jesuit mission. Pop. 1,848.

NORRIS CREEK, p. o., Lincoln co., Tenn.: 66 m. S. by E. of Nashville.

NORRISTOWN, p. v., Pope co., Ark.: on N. bank of Arkansas r., 66 m. N. W. Little Rock.

NORRISTOWN, p. v., Carroll co., Ohio: 102 m. E. N. E. Columbus.

NORRISTOWN, t, p. b., and cap. Montgomery co., Penn.: on N. bank of Schuylkill r., 80 m. E. Harrisburg. Surface of t. level; soil red shale, and fertile. The Schuylkill has here been dammed so as to create an immense water-power, and is used by extensive manufacturing establishments. A fine bridge here spans the Schuylkill, which cost \$2,000. The Norristown and Philadelphia R. R. connects these places 17 m. distant. On the opposite side of the river crosses the Philadelphia and Reading R. R. Here also are the locks of the Schuylkill Navigation Co., around which is the railroad depot is a small village.

NORRITONVILLE, p. v., Montgomery co., Penn.: 84 m. E. Harrisburg.

NORTH RIVER, St. John's co., Flor.: a small stream running parallel with the Atlantic coast, emptying into St. Augustine harbor.

NORTH ACTON, p. o., York county, Me.: 63 m. S. W. Augusta.

NORTH ADAMS, p. v. and sta., Berkshire co., Mass.: on Hoosac r., 108 m. W. N. W. Boston. Here terminates the Adams and Pittsfield R. R., 20 m. from Pittsfield. It contains 3 churches; 1 bank, capital \$185,000; and numerous factories moved by water-power from Hoosac r. The principal manufactures are cotton goods and woollens. The Troy and Boston R. R. will pass through this place.

NORTH ADAMS, p. o., Jefferson county, N. Y.: 146 m. W. by W. Albany.

NORTH ADAMS, p. o., Hillsdale county, Mich.: 56 m. S. Lansing.

NORTH ADRIAN, p. v., Lenawee co., Mich.: 60 m. S. S. E. Lansing.

NORTH ALBANY, p. o., Oxford co., Me.: on Crooked r., 7 m. W. Augusta.

NORTH ALMOND, p. o., Alleghany co., N. Y.: 273 m. N. by S. Albany.

NORTH AMHERST, p. v., Hampshire co., Mass.: 76 m. W. Boston; contains several stores and manufactories.

NORTHAMPTON county, N. Car. Situate N. E., and contains 480 sq. m. Drained by branches of Meherrin r. in the N. E., and of Roanoke in S. W., which rivers form its boundaries in the directions indicated. Surface even and diversified; soil very fertile, and there is some good pasture land. Cotton, Indian corn, and tobacco are the chief productions. Farms 644; manuf. 7; dwell. 1,341, and pop.—wh. 5,994, fr. col. 890, sl. 6,511—total 13,335. *Capital:* Jackson. *Public Works:* Petersburg R. R.; Sea-board and Roanoke R. R.; Greenville and Roanoke R. R., etc.

NORTHAMPTON county, Penn. Situate E., and contains 418 sq. m. Drained by Lehigh river and other small streams, tributaries of the Delaware. Surface uneven and hilly, and is pleasantly diversified with fertile valleys; soil exceedingly fertile, and produces large crops of wheat, Indian corn, potatoes, etc. Pine and other timber is found on the land. Its manufactures are extensive, and great attention is paid to agriculture. Farms 2,102; manuf. 424; dwell. 6,886, and pop.—wh. 40,099, fr. col. 136—total 40,235. *Capital:* Easton. *Public Works:* several railroads from Easton westward are projected.

NORTHAMPTON county, Virg. Situate S. on the eastern shore, and contains 410 sq. m. Drained by numerous small creeks falling into Chesapeake Bay and the Atlantic Ocean. Surface low and level; soil generally fertile. Chief productions, Indian corn and potatoes. Farms 376; manuf. 11; dwell. 698, and pop.—wh. 3,105, fr. col. 745, sl. 3,648—total 7,493. *Capital:* Eastville

NORTHAMPTON, Peoria co., Ill.: 77 m. N. Springfield.

NORTHAMPTON, t, p. v., and cap. Hampshire co., Mass.: on W. bank of Connecticut r., 81 m. W. Boston. Lat. N. 42° 19' 9", long. W. 72° 38' 15". Surface of t. pleasantly diversified; soil very fertile and well cultivated. The scenery of this t. is celebrated as among the most beautiful in New England. The v. is irregularly but handsomely laid out, and contains many handsome dwellings and grounds. The public county buildings are handsome, substantial structures. There are 2 banks, with cap. of \$400,000. A fine stream, passing through the centre of the t., affords good water-power to several manufactories of cotton goods, sewing silk and ribbons, woolen goods, etc. On an elevation W. of the v., called Round Hill, is an extensive water-cure establishment. A fine bridge, 1,080 feet long, crosses the Connecticut r. to Hadley. Mount Tom, in this t., 1,214 feet high, and Mount Holyoke, on E. side of the r., 880 feet high, are much visited for the delightful prospects afforded of Connecticut valley. The "Hampshire Gazette" (whig) and "N. Courier" (fr. soil) are published weekly. Churches in t., 8. The Connecticut River R. R. passes through the v., 17 m. from Springfield. Pop. in 1830, 3,613; in 1840, 3,750; in 1850, 5,273.

NORTHAMPTON, t and p. o., Saginaw co., Mich.: on the Shiawassee r., 36 m. N. E. by N. Lansing. Pop. 122.

NORTHAMPTON, t and p. o., Fulton co., N. Y.: on Saenadaga r., 38 m. N. W. by N. Albany. Surface of t. mostly level; soil sandy loam, of good quality, and well watered. Pop. 1,701.

NORTH ANDOVER, p. v. and sta., Essex county, Mass.: on Great Pond, a small lake, emptying into Merrimac river, 26 m. N. by W. Boston. The Boston and Maine R. R. and the Essex R. R. pass through this v. Great Pond covers nearly 500 acres; its outlet affords water-power.

NORTH ANSON, t and p. o., Somerset co., Me.: on W. side of Kennebec r., and intersected by Seven Mile brook, 83 m. N. by W. Augusta. Pop. of t. 1,163.

NORTH APPLETON, p. o., Waldo county, Me.: 27 m. E. Augusta.

NORTH ARGYLE, p. o., Washington co., N. Y.: on Moses kill, 44 m. N. N. E. Albany.

NORTH ASHBURNHAM, sta., Worcester county, Mass.: on Cheshire R. R., 13 m. from Fitchburg.

NORTH ASHFORD, p. v., Windham county, *Conn.*; 23 m. E. by N. Hartford.

NORTH ATTLEBORO', p. v., Bristol county, *Mass.*: 30 m. S. E. W. Boston. Here are several manufactories.

NORTH AUBURN, p. o., Cumberland co., *Me.*: on W. side of Androscoggin r., 27 m. S. W. Augusta.

NORTH AUGUSTA, p. v., Des Moines co., *Ia.*: on N. bank of Skunk r., 63 m. S. by E. Iowa City.

NORTH BANGOR, p. o., Penobscot co., *Me.*: on W. side of Penobscot r., 66 m. N. E. by E. Augusta.

NORTH BANGOR, p. o., Franklin county, *N. Y.*: 154 m. N. by W. Albany.

NORTH BAENSTEAD, p. o., Belknap co., *N. Hamp.*: 18 m. N. E. Concord.

NORTH BARRINGTON, p. o., Strafford county, *N. Hamp.*: 23 m. E. Concord.

NORTH BAY, p. o., Oneida co., *N. Y.*: 112 m. W. N. W. Albany.

NORTH BECKETT, p. v. and sta., Berkshire county, *Mass.*: 105 miles W. Boston, on Western Railroad, 37 miles from Springfield.

NORTH BELGRADE, p. v. and sta., Kennebec co., *Me.*: on W. side of Snow's pond, 12 m. N. Augusta. The Androscoggin and Kennebec R. R. passes through the v., 10 m. from Waterville.

NORTH BELLEVILLE, p. v. and sta., Hendricks co., *Ind.*: 19 m. W. S. W. Indianapolis, on Terre Haute and Richmond R. E.

NORTH BELMONT, p. o., Waldo co., *Me.*: 32 m. E. by N. Augusta.

NORTH BELTINGHAM, p. v., Norfolk county, *Mass.*: 27 m. S. W. by S. Boston.

NORTH BEND, p. v., De Kalb co., *Ala.*: on E. side of Wills cr., 144 m. N. by E. Montgomery.

NORTH BEND, p. o., Stark co., *Ind.*: on Tippecanoe r., at its greatest bend, 98 m. N. by W. Indianapolis.

NORTH BEND, p. v., Piatt county, *Ill.*: 67 m. E. N. E. Springfield.

NORTH BENNINGTON, p. v. and sta., Bennington co., *Verm.*: 104 m. S. S. W. Montpelier. Here the Western Vermont R. E. connects with the Troy and Bennington R. E. The v. contains woolen, cotton, and hardware factories.

NORTH BENTON, p. o., Mahoning co., *Ohio*: 130 m. N. E. by E. Columbus.

NORTH BENTONSPORT, Des Moines co., *Ia.*: on N. bank of Des Moines r., 65 m. S. S. W. Iowa City.

NORTH BERGEN, p. o., Genesee co., *N. Y.*: 223 m. W. by N. Albany.

NORTH BERNARDSTOWN, p. v., Franklin co., *Mass.*: 81 m. W. by N. Boston. The Connecticut River R. R. passes through the t., 42 m. from Springfield.

NORTH BERWICK, t., p. v., and sta., York co., *Me.*: 88 m. S. W. by S. Augusta. Drained by a branch of Salmon r. The Portland, Saco, and Portsmouth R. E. passes through the v., 34 m. from Portland. Pop. of t., 1,593.

NORTH BETHEL, p. o., Oxford co., *Me.*: on S. bank of Androscoggin r., 41 m. W. by N. Augusta.

NORTH BLACKSTONE, p. o., Worcester co., *Mass.*: 35 m. S. W. Boston.

NORTH BLANFORD, p. v., Hampden co., *Mass.*: 99 m. W. Boston.

NORTH BLENHEIM, p. o., Schoharie co., *N. Y.*: on Schoharie r., 37 m. W. by S. Albany.

NORTH BLOOMFIELD, p. v., Ontario county, *N. Y.*: 201 m. W. by N. Albany.

NORTH BLOOMFIELD, p. o., Trumbull co., *Ohio*: on E. side of Grand r., 147 m. N. E. Columbus.

NORTH BLUE HILL, p. o., Hancock co., *Me.*: 63 m. E. by N. Augusta.

NORTH BOOTH BAY, p. v., Lincoln co., *Me.*: 83 m. S. S. W. Augusta.

NORTHBOROUGH, t. and p. v., Worcester co., *Mass.*: 31 m. W. Boston. Drained by Assabet river and small affluents. Surface moderately even; soil fertile and well cultivated. The t. has considerable manufactures. Pop. 1,535.

NORTH BOSTON, p. o., Erie county, *N. Y.*: 262 m. W. Albany.

NORTH BRANCH, p. o., Hillsboro' county, *N. Hamp.*: on North Branch r., 23 m. W. S. W. Concord.

NORTH BRANCH, p. o., Baltimore co., *MD.*: on N. branch of Patapsco r., 16 m. W. Baltimore, 36 m. N. W. Annapolis.

NORTH BRANCH, p. o., Somerset co., *N. Jer.*: on N. branch of Raritan r., 30 m. N. Trenton.

NORTH BRANCH, p. o., Sullivan co., *N. Y.*: 89 m. S. S. W. Albany.

NORTH BRANFORD, t. and p. v., New Haven co., *Conn.*: 9 m. N. E. New Haven. Surface of t. hilly and mountainous; soil in S. part fertile. Drained by Farm r. and other streams. Pop. 1,013.

NORTHBURIDGE, t., p. v., and sta., Worcester co., *Mass.*: 35 m. S. W. Boston. Drained by Blackstone and Mumford rivers and other tributaries, which afford extensive water-power. Surface uneven, and somewhat rocky; soil fertile and well cultivated, particularly in the intervals of the streams. The Providence and Worcester R. R. passes through the village, 124 m. from Worcester. There are several extensive manufactories in the t. Pop. 2,229.

NORTHBURIDGE CENTRE, p. v., Worcester co., *Mass.*: 36 m. S. W. Boston.

NORTH BRIDGETON, p. o., Cumberland co., *Me.*: at N. W. corner of Long Pond, 51 m. W. S. W. Augusta.

NORTH BRIDGEWATER, p. o., Oneida county, *N. Y.*: 80 m. W. by N. Albany.

NORTH BRIDGEWATER, t., p. v., and sta., Plymouth county, *Mass.*: 19 m. S. Boston. Drained by Salisbury r. Surface level; soil generally fertile, and well cultivated. The Fall River R. R. passes through the v. The commercial and manufacturing interests are large. Pop. 3,940.

NORTH BROADALBIN, p. o., Fulton county, *N. Y.*: 35 m. N. W. by N. Albany.

NORTH BROOKFIELD, t. and p. v., Worcester co., *Mass.*: 48 m. W. Boston. Drained by small streams, with an artificial pond covering nearly 800 acres, for hydraulic power. Surface undulating; soil fertile, and well cultivated. The manufactures are considerable. The Western R. R. passes through this t. at East Brookfield, 64 m. from Boston. Population 1,939.

NORTH BROOKFIELD, p. o., Madison co., *N. Y.*: 84 m. W. by N. Albany.

NORTH BROWNSVILLE, p. o., Piscataquis co., *Me.*: 84 m. N. E. by N. Augusta.

NORTH BUCKSPORT, p. v., Hancock co., *Me.*: on E. bank of Penobscot r., 55 m. E. N. E. Augusta.

NORTH CAMBRIDGE, p. o., Lamoille co., *Verm.*: on N. side of Lamoille r., 31 m. N. N. W. Montpelier.

NORTH CAMBRIDGE, p. o., Washington co., *N. Y.*: 39 m. N. E. by N. Albany.

NORTH CAMDEN, p. v., Lorain co., *Ohio*: 95 m. N. N. E. Columbus.

NORTH CAMERON, p. o., Steuben county, *N. Y.*: 192 m. W. by N. Albany.

NORTH CANTON, p. v., Hartford co., *Conn.*: near Cherry creek, 15 m. N. W. Hartford.

THE STATE OF NORTH CAROLINA.

NORTH CAROLINA is situated between the latitudes 33° 50' and 36° 30' north, and the longitudes 75° 25' and 84° 30' west from Greenwich, or 1° 37' east, and 7° 25' west from Washington. It is bounded on the north by Virginia; on the east by the Atlantic Ocean; on the south by South Carolina and Georgia; and on the west by Tennessee. Presenting a broad

NORTH CAROLINA.

front to the ocean, it gradually contracts in its breadth, and terminates westward in a narrow strip. Its length from east to west is about 450 miles, and its breadth in the eastern section from 120 to 150 miles, but in the west diminishing from 90 to 20 miles; and it has an area of 45,000 square miles.

The face of the country presents three distinctive physical conditions. The seaward section is a low plain, covered with swamps, and traversed by sluggish streams; to this succeeds a belt of undulating country, watered by fresh and rapid streams, and in many portions variegated by hills and knolls; and the western section is an elevated table-land.

The maritime section forms, as it were, a chaos of land and water. The entire coast is lined by low, narrow, sand islands, broken at intervals, and forming communications between the ocean and the lagoons which lie between the islands and the main land. South of Cape Lookout these inlets are numerous, and the lagoons narrower; north of that headland the converse obtains. Extensive shoals extend from the shore seaward, and render navigation dangerous and uncertain, and within the lagoons the bars and banks are constantly changing their position. Furious gales, too, are prevalent, so that it is difficult for a skillful pilot to avoid the dangers. Ocracoke Inlet is the only navigable pass north of Cape Lookout, and this at low tide, even in the main channel, contains only six feet water. Roanoke inlet, opposite the island of that name, is now obstructed, but the pass may again be opened. To the northward, between the mainland and Narrow Beach Island, stretching down from Cape Henry, lies Currituck Sound, 50 miles long, and from 2 to 10 miles broad. West of this, running inland, is Albemarle Sound, 60 miles long, and from 5 to 15 broad. Its waters are fresh, and not subject to rise and fall from tidal influences, but they are affected by particular winds. These two sounds communicate with Pamlico Sound, which lies south of Currituck, and is 86 miles long, and from 10 to 20 miles wide. Its depth is in general about 20 feet, but shoals abound within it. It opens to the ocean through Ocracoke inlet, and is somewhat influenced by the tides. The capes, formed by the sand islands, are the dread of mariners. Cape Lookout and Cape Fear indicate by their names the dangers that surround them. But the most formidable headland is Cape Hatteras, the elbow of a triangular island forming the seaward limit of Pamlico Sound. Its shoals extend a great distance from the land, and render it one of the most ugly projections of the American coast. The whole series of islands which beset this coast are barren and desolate, entirely useless to agriculture, and are inhabited only by a few hardy fishermen and pilots.

From the sea-coast, for a distance of 60 or 50 miles, the country is perfectly level, traversed by sluggish and muddy streams, and abounding in swamps and marshes. The soil, except along the banks of the streams, where it is sometimes fertile, is sandy and barren. The swamps, so numerous in this section, cover an area equal to one-tenth part of the whole State. The Great Dismal Swamp, partly in this State, and partly in Virginia, is 80 miles long, and from 10 to 12 miles broad, extending over a surface of 100,000 acres. In some places it is densely covered with cedars, pines, and cypress, and in others is impervious, on account of tall and rank grasses and undergrowths. In the centre is Drummond Lake, 20 miles in circuit. The soil is covered knee deep with water, and though firm in some parts, consists chiefly of a soft, yielding bog. Similar in its character, and nearly as large, is Alligator or Little Dismal Swamp, on the peninsula between Albemarle and Pamlico sounds. There are other swamps further south (Catfish, Green, etc.), usually overgrown like those spoken of, and equally impenetrable. Many of these have been drained by canaling, and the recovered lands have proved excellent for the cultivation of rice and cotton.

Advancing into the country, its physical aspect becomes more and more changed. Immediately beyond the level country, the land begins to rise into small hills, stones appear on the surface, and the streams ripple in their courses. A little further westward, the scene opens in all the variety of hill and dale that belongs to a fertile country. For 40 miles behind the flat region there extends, as far as the lower falls of the rivers, a belt of land, of a surface moderately uneven, with a sandy soil, of which pitch-pine is the natural growth. Above the falls the surface is undulated, and still further, beyond the Yadkin and Catawba, is an elevated region, forming a part of the great central plateau or table-land of the United States, and lying 1,000 to 2,000 feet above the sea-level. The peaks of the Blue Ridge of the Alleghanies, which have distinct local appellations, tower high above this. Black Mountain, the highest culmination east of the Rocky Mountains, and about 250 feet higher than the loftiest summit of the White Mountains of New Hampshire, has an elevation of 6,426 feet; Roan Mountain, the summit of which is a broad meadow, is 6,038 feet high; Grandfather Mountain is 5,556 feet high, and Table Mountain has an elevation of 3,420 feet above the sea. Mount Ararat or Pilot Mountain, in Surrey County, situated in a comparatively level region, exhibits a striking symmetry of structure; its form is very nearly that of a cylinder, and it is ascended by a path in some places nearly perpendicular. The view from its summit is grand and extensive, although its elevation is much inferior to the peaks above named. King's Mountain, another isolated hill, is a ridge extending from Lincoln and Cleveland counties into York district, in South Carolina, and is celebrated as the site of a battle, fought in 1780. Between the several mountains in the western part of the State, the soil is productive, and highly favorable to agricultural operations, and, being well grassed, forms extensive pastures, on which large herds and flocks find a plentiful subsistence.

The rivers of North Carolina, though of goodly dimensions, are not navigable for large vessels. They are, however, well adapted to boat navigation, and in their upper courses supply immense mechanical power, which at a future day will be extensively used. As a general thing they all have shallow bars, and are frequently interrupted. Many loose themselves in lagoons difficult of access. The principal river, the course of which lies wholly within the State, is Cape Fear River. It is, moreover, the only large stream that flows directly to the ocean. The primary constituents of this river are the Haw and the Deep, which rise near the northern boundary line, and form a junction at Haywood in Chatham County; it falls over the first ledge in the low country at Aversboro'; at Fayetteville it can be navigated by large boats, and above Wilmington it forms two branches, which reunite below that town, and hence flows on in a broad, sluggish stream obstructed by sand-bars, and difficult of navigation. These defects, however, have been somewhat remedied by diminishing the breadth of the river, and by stopping up the smaller outlets, so that the depth of the main channel, as far as Wilmington, has now from 12 to 13 feet of water. The direction of its flow is south-east, and the length of its course about 250 miles. The main entrance to the river, south of Smith's Island, has a depth of water varying from 10 to 14½ feet on the bar. The Chowan and Roanoke rivers flow into Albemarle Sound; the former, which is formed by the union of the Meherrin and Nottaway, admits of small vessels to Murfreesboro', and the latter is navigable for the Sound craft a distance of 30 miles. Both are navigable for boats to a greater distance—the Roanoke to Weldon, at the foot of the falls, 75 miles; and above the falls it affords, with the aid of side cuts, a boat navigation to Salem, 245 miles. The whole length of the Roanoke, from the valley of Virginia, is more than 400 miles. The Tar and the Neuse empty into Pamlico Sound. The Tar, which in the lower part of its course expands into a wide estuary called Pamlico River, is navigable for vessels drawing only 8 feet of water, to Washington, 80 miles; and for boats to Tarboro', 90 miles; and the Neuse, which has a longer course, is navigable for large boats to Kingston. The ocean entrances to both these rivers are channels in which

NORTH CAROLINA.

here is only 10 feet water at high tide. The Waccamaw passes into South Carolina, flowing for a considerable distance near and parallel with the coast. The Lumber and Yadkin also pass into that State, in which they are known as the Little and Great Pedee. The Yadkin is a long river traversing the State from near its northern boundary, and is navigable for boats almost to its source. The Catawba, which rises in the Blue Mountains, also flows into South Carolina, and there takes the name of the Wateree. From the western slope of the same mountains flow New Rivers, the Watauga, the French Broad, the Little Tennessee, and the Hiwassee, the waters of which, cutting through the Iron or Smoky Mountains, are ultimately carried off, and mingle with those of the Ohio and Mississippi, and join the ocean at a distance of 1,500 miles from the outlets of the waters rising from the opposite slope of the Blue Ridge, and emptying into the Atlantic.

The geological formation of the State has been scientifically examined by Professor Olmstead. Its mineral resources are extensive, and as valuable. The low country consists of deposits of sand and clay, similar, and belonging to the same age (*tertiary*) as those of Eastern Virginia and Maryland. These beds contain few minerals, but abound in shell deposits, marl, fossiliferous limestone, copperas, and bog-iron ore. A ledge of micaceous rocks, seen in the ravines and river cuttings, forms the line which divides the low from the upper country. West of this there is a belt of mica slate, chlorite slate, gneiss, and granite, and among the minerals of this section are hematitic iron ores (Nash and Johnson counties), plumbago (Wake County), and occasionally soapstone and serpentine. This strip is succeeded by a belt of sandstone running south-westerly from Granville across the State. Freestones and grindstones are abundant in some parts of the formation, which also contains argillaceous iron ore and some coal measures (Orange, Chatham, etc., counties). Next to this is situate the great slate formation, about 20 miles in breadth, and running in a direction north-east and south-west across the country. Within this district are also found numerous beds of porphyry, soapstone, serpentine, greenstone, and hone or whetstone slate. After the slate formation there succeeds next another belt of primary rocks reaching nearly to the Blue Ridge; and in this is comprised the gold region. Iron ore is also found abundantly (Rockingham, Stokes, Surry, and Lincoln counties) chiefly in the form of the magnetic oxide, and has been extensively wrought.

The gold region of the Atlantic States is broader and more productive in this State than in any other. The gold is found in superficial deposits or in rock veins. The system of metamorphic rocks, in which the gold-bearing veins occur, have undergone different degrees of change in different localities. While in some parts the original slaty structure is preserved, in others the lamination has been partly obliterated, and the texture altered by the evident effects of heat. In some points there is an intermingling of rocks of the gneissoid character, with such as still retain the slaty structure. In certain parts the granitic rocks prevail, and there the auriferous veins have various directions apparently wholly irrespective of the general trend of the gold formation. Thus, between the town of Charlotte and the Catawba River, and within a circuit of three or four miles in diameter, are found veins which have been more or less extensively worked, with directions running N. 64 E., N. 47 E., N. S $\frac{1}{2}$ W., N. 26 $\frac{1}{2}$ E., and N. 34 W., so that if these directions were prolonged, they would, in some cases, be found intersecting each other at right angles. In regard to the vein stone, in which the auriferous particles are found, they differ very widely—in some cases the material is an argillaceous slate of a silky lustre, much interspersed with minute cubes of pyrites of iron or of copper, or of both, as at the Russell mine on the Newberry in Montgomery County; in other cases it is partly in quartz, and partly in the slaty walls of the veins, and in others still, it is wholly in the quartz, being scarcely at all impregnated with the precious metal. The materials which exist in the veins are either such as have been acted on by meteoric influences, and partly decomposed, or, lying beyond the reach of such influences, have escaped decomposition, and may be regarded as the true exponents of the deeper vein-stone. These latter are in general less rich in gold than the former, chiefly on account of having lost a part of their solid material by decomposition. But the deep ores owe their inferior value, in no small degree, also to the difficulty of extracting the gold from its combination, with the sulphurets which near the surface have been reduced by the combined action of air, water, and other materials from the atmosphere. The axis of the gold formation passes in a north-east and south-west direction through the counties of Rockingham, Guilford, Davidson, Bowman, Cabarras, and Mecklenburg, embracing the section of both sides of the Blue Ridge, and extending eastward beyond the Yadkin.

That gold is an important product of this State, admits of no question; the region in which it is found is very extensive. The principal mines are Anson's, Read's, and Parker's. The first named is in Anson County, and has yielded richly, but on account of the ownership of the land on which it is situated being in dispute, operations have been retarded. Read's mine is in Cabarras County, and was the one first wrought; large masses of the virgin metal have at several periods been dug up, and pieces weighing 400, 500, and 600 pennyweights are met with. On one occasion, a mass weighing 23 pounds *avoirdupois* in its crude state was exhumed. Parker's mine is situated on a small stream four miles south of the Yadkin. The metal is here found chiefly in flakes and grains; but lumps of considerable size—one weighing 4 pounds 11 ounces *avoirdupois*—have been dug up. In the mining districts, gold contained in a goose-quill forms a currency, its value being fixed by weight. The larger portion of the products of the mines is bought up by dealers at from 90 to 21 cents per pennyweight, and much is carried to the mint at Charlotte for coinage; but the returns published by that institution by no means indicate the value of the mines, as a considerable quantity finds its way to the manufacturer, and the banks receive no small moiety of the whole in deposit.

The coal region of North Carolina, chiefly in Chatham and Moore counties, and along the Valley of Deep River, so far as examined, occupies a space fifteen miles in length, and from five to six in width, throughout which area the deposits of this mineral are immense and of every variety—bituminous, semi-bituminous, and anthracite, and Professor Johnson has pronounced them to be of the best qualities. The indications are, he adds, that the deposits are at least thirty miles in length, and comprise an area of one hundred and fifty square miles. The mean thickness of the beds is said to be seven and a half feet, a greater depth than any similar deposit in England. Coal is also found in other districts. Iron ore is found in juxtaposition with the coal measures of Deep River, overlying the coal. These discoveries have led to much speculation, and it is said that in a few years the result will be an inflow of capital and prosperity to the State equal to that now enjoyed by Pennsylvania.

The climate of North Carolina is much influenced by the diversified character of the surface; no single description would apply to the whole State. The western section, where the land is elevated and traversed by high ranges, is much cooler than the sea-board section, and the interior has a climate partaking of both extremes. The winters throughout the State, however, are much less rigorous than farther north. The atmosphere in the hills and in the lower middle region is pure and salubrious, and the heats of summer are in these tempered by the coolness of the nights; but in the low country, near the coasts, the summers are hot and sultry, and the air unhealthy and loaded with miasms. The annual

NORTH CAROLINA.

average range of the thermometer at the University at Chapel Hill is 86° Fahr., the greatest heat being 96°, and the lowest 10°, with a mean temperature of 59.07. Peaches blossom in February, and the first frost occurs generally in October. The average number of rainy days in the year is ninety-eight, of cloudy days three hundred and thirty-three, and of clear days only thirty-two.

The pine-forests of North Carolina cover nearly the whole eastern section. In the plain of the low country this tree is almost the exclusive natural growth, and attains here a much fuller development than in the States farther north; in the swamps it grows to an enormous bulk, and the moisture of the atmosphere loads the trees with a long spongy moss, which hangs in clusters from the limbs, and gives the forests a singular appearance. Cedars and cypresses are also abundant in the swamps. These forests contribute greatly to the general wealth, and furnish not only lumber for exportation, but also nearly all the resinous matter used in the United States. In the elevated parts of the State the timber growths are the oak, elm, walnut, cherry, lime, etc., and the maple, poplar, and some others, are indigenous in every section. The white-oak trees found here are well suited for making staves, being taller and more free from knots than the northern variety. Several valuable medicinal plants also grow spontaneously, as the ginseng, snake-root, etc., and the bottoms are overgrown with canes, the leaves of which continue green throughout the winter, and afford a grateful food for cattle. Grapes, plums, and blackberries are among the indigenous fruits.

North Carolina is divided into seventy-nine counties, the general statistics of which, and the capitals of each, in 1850, were as follows:

Counties.	Dwell.	Pop.	Farms in cult.	Manuf. Estab.	Capitals.
Alamance.....	1,516.	11,444.	923.	38.	Graham

The whole number of dwellings in the State, at the above date, was 105,542; of families, 106,023; and of inhabitants, 868,903; viz., whites 552,464—males 272,369, and females 280,095; Indians, 831—males 420, and females, 411; free colored, 27,196—males 13,226, and females 13,970; slaves, 288,412. Of the whole population there were, *deaf and dumb*—wh. 351, fr. col. 4, sl. 52—total 407; *blind*—wh. 387, fr. col. 23, sl. 117—total 527; *insane*—wh. 462, fr. col. 5, sl. 24—total 491; and *idiotic*—wh. 604, fr. col. 32, sl. 138—total 774. The number of free persons born in the United States was 577,750, the number of foreign birth 2,524, and of birth unknown 217. The *native* population originated as follows: Me. 65, N. Hamp. 26, Verm. 27, Mass. 251, R. I. 59, Conn. 272, N. York 463, N. Jer. 134, Penn. 665, Del. 96, Md. 635, Dist. of Col. 23, Virg. 10,888, *North Carolina* 556,243, S. Car. 4,430, Ga. 844, Flor. 54, Ala. 131, Miss. 57, La. 14, Tex. 6, Ark. 1, Tenn. 2,047, Ky. 141, Oh. 48, Mich. 2, Ind. 67, Ill. 23, Mo. 33, Ia. 3, Wis. 4, Calif. 0, Territories 0; and the *foreign* population was composed of persons from—England 394, Ireland 567, Scotland 1,012, Wales 7, Germany 844, France 43, Spain 4, Portugal 12, Belgium 1, Holland 4, Turkey 0, Italy 4, Austria 2, Switzerland 3, Russia 8, Denmark 6, Norway 0, Sweden 9, Prussia 19, Sardinia 0, Greece 0, China 2, Asia 0, Africa 2, British America 30, Mexico 2, Central America 4, South America 3, West Indies 37, and other countries 5.

NORTH CAROLINA.

The following table will show the decennial progress of the population since the first census of the State taken by the United States authorities:

Census Years.	White Persons.	Colored Persons.			Total Population.	Decennial Increase.	
		Free.	Slave.	Total.		Numerical.	Per cent.
1790	288,204	4,975	100,572	105,547	393,751	—	—
1800	387,764	7,043	183,296	140,344	473,103	84,352	21.3
1810	876,410	10,266	163,824	179,090	555,500	77,397	16.2
1820	419,200	14,612	205,017	219,629	638,829	83,329	15.0
1830	472,843	19,543	245,601	265,144	737,987	99,158	15.5
1840	484,870	22,732	245,817	268,549	753,419	15,432	2.1
1850	552,464	27,196	288,412	815,608	868,908	115,484	115.3

—the total of 1850, including 881 Indians, not otherwise accounted for.

The statistics of the products, industries, wealth, and institutions of the State, according to the census of 1850 and other official returns referring to the same period of time, are as follows:

Occupied Lands, etc.—Improved farm lands, 5,453,977 acres, and lands attached to farms unimproved, 15,543,010 acres—together valued in cash at \$67,591,766. Whole number of farms under cultivation on the 1st June, 1850, 56,916. Value of farming implements and machinery, \$3,931,532.

Live-Stock.—Horses 148,693, asses and mules 25,259, milch cows 221,799, working oxen 37,309, other cattle 434,402, sheep 595,249, swine 1,812,813—in the aggregate valued in cash at \$17,717,647. The census of 1840 returned the following numbers: horses, mules, etc. 166,608, neat cattle of all kinds 617,371, sheep 533,279, and swine 1,649,716.

Products of Animals.—Wool, 970,733 (in 1840, 625,044) pounds; butter, 4,146,290 pounds; cheese, 95,921 pounds; and the value of animals slaughtered during the year, \$5,767,566.

Grain Crops.—Wheat, 2,130,102 bushels; rye, 229,563 bushels; Indian corn, 27,941,051 bushels; oats, 4,052,073 bushels; barley, 2,735 bushels; and buckwheat, 16,704 bushels. The crops, according to the census of 1840, were: wheat, 1,960,853 bushels; rye, 213,971 bushels; Indian corn, 23,593,763 bushels; oats, 3,193,941 bushels; barley, 3,574 bushels; and buckwheat, 4,391 bushels. Thus, excepting the barley and buckwheat crops, the increase in the decade has been liberal.

Other Food Crops.—Rice, 5,465,868 (in 1840, 2,820,385) pounds; peas and beans, 1,584,252 bushels; potatoes—sweet, 5,095,709 bushels, and Irish, 2,735 bushels. The potato crop of 1839 amounted to 2,609,239 bushels.

Miscellaneous Crops.—Tobacco, 11,934,786 pounds; ginned cotton, 73,349 bales of 400 pounds; hay, 145,662 tons; cloverseed, 576 bushels; other grass-seed, 1,275 bushels; hops, 9,246 (in 1840, 1,063) pounds; hemp—dew-rotted, 0 tons, and water-rotted, 3 tons; flax 393,796 pounds; flax-seed, 33,196 bushels; silk cocoons, 229 (in 1840, 3,014) pounds; maple sugar, 27,932 pounds; molasses, 04 gallons; beeswax and honey, 512,250 pounds; wine, 11,053 gallons, etc. Value of orchard products, \$34,345, and of market-garden products, \$39,462.

The following table exhibits the actual and comparative quantities of the principal staples produced in the year preceding the censuses of 1840 and 1850:

Crops.	1840.	1850.	Decennial Movement.	
Rice	2,820,385 pounds	5,465,868 pounds	incr.	2,645,480 pounds, or 93.8 per cent.
Potatoes	2,609,239 bushels	5,098,444 bushels	incr.	2,489,239 bushels, or 95.4 "
Tobacco	16,772,359 pounds	11,934,786 pounds	decr.	4,787,573 pounds, or 28.5 "
Cotton	51,926,190 "	29,539,600 "	decr.	22,386,590 " or 43.1 "
Hay	101,369 tons	145,662 tons	incr.	44,293 tons, or 43.7 "
Hemp		3 "		
Flax	9,874 "	593,796 pounds	decr.	21,529,191 pounds, or 97.3 "
Wine	28,752 gallons	11,053 gallons	decr.	17,694 gallons, or 61.2 "

Home-made manufactures were produced to the value of \$2,086,522. The same quality of products, according to the census of 1840, were valued at \$1,413,242.

Manufactures.—Aggregate capital invested, \$0,000,000; value of all raw material, fuel, etc., used, \$0,000,000; average number of hands employed, 00,000—males 0,000, and females 0,000; average monthly cost of labor, \$000,000—male, \$000,000, and female, \$00,000; total value of products for the year ending 1st June, 1850, \$0,000,000. The whole number of manufactories producing to the value of \$500 and upward annually, 2,523; and of these 28 are cotton factories, 1 woolen factory, 151 tanneries, and 26 iron works, viz., 5 making castings, 2 pig iron, and 19 wrought iron. The total capital employed in manufactories in 1840 was \$3,833,900.

Cotton manufactures employ a capital of \$1,058,800; annual consumption of cotton, 13,617 bales; value of all raw material, \$531,903; average hands employed, 1,619—males, 442, and females, 1,177; entire wages per month, \$12,369—to males, \$5,153, and to females, \$7,216; annual products, 2,470,110 yards of sheeting, etc., and 2,267,000 pounds of yarn—in all valued at \$831,342. Capital invested in 1840, \$995,300, and hands employed, 1,219. Annual value of products, \$488,900.

Woolen manufactures employ a capital of \$18,000; annual consumption of wool, 30,000 pounds; value of all raw material, \$13,950; number of hands employed, 73—males 40, and females 33; entire wages per month, \$1,635—to males, \$1,099, and to females, \$536; annual products, 340,660 yards of cloth, valued at \$88,750. Capital in 1840, \$9,800; hands, 4.

Tanneries employ a capital of \$251,655; value of raw material, etc., consumed, \$191,237; hands employed, 373; monthly wages, \$5,295; tanned—24,085 skins, and 155,610 sides of leather, valued at \$352,535. Capital in 1840, \$271,797; hands, 645; tanneries, 353.

In the manufacture of *malt and spirituous liquors* the capital invested is \$21,930; quantities and kinds of grain, etc., consumed—corn, 64,650 bushels, and rye, 4,700 bushels; hands employed, 75; quantity of liquors produced—whisky and high wine, 153,080 gallons.

The *iron manufactures* are represented in the following tabular statistics:

Specifications.	Pig Iron.	Cast Iron.	Wrought Iron.	Total.
Capital invested.....dollars	25,000	11,500	103,000	139,500
Ore used.....dollars	900	—	4,650	5,550
Pig iron used....."	—	192	—	192
Coke and charcoal.....bushels	150,000	6,375	357,900	514,275

NORTH CAROLINA.

Specifications.	Pig Iron.	Cast Iron.	Wrought Iron.	Total.
Value of all raw material, etc. dollars	27,900	8,341	28,114	64,355
Hands employed number	81	15	187	283
Entire monthly wages dollars	280	352	1,568	2,450
Iron produced tons	400	172	850	1,422
Value of entire products dollars	12,500	12,867	66,980	92,847

—Capital in iron manufactures in 1840, \$94,961; hands, 463. There are also in the State several machine shops, hardware factories, soap and candle manufactories, potteries, carriage manufactories, etc., and numerous grist, saw, flour, and other mills, which, in the aggregate, make up a respectable manufacturing industry in a State so much devoted to agriculture as is North Carolina.

Commerce, Navigation, etc.—North Carolina, in the year ending 30th June, 1850, exported to foreign countries merchandise, etc., to the value of \$416,501, and imported goods to the value of \$823,692. Of the exports (all of which were of domestic origin), to the value of \$259,616 was carried in American, and to \$156,885 in foreign bottoms; and of the imports, to the value of \$179,249 was carried in American, and to \$144,443 in foreign bottoms. The entrances and clearances in the same year were as follows:

ENTRANCES.				CLEARANCES.			
Nationality	Vessels.	Tonnage.	Crews.	Nationality.	Vessels.	Tonnage.	Crews.

The total shipping owned in the State at the date specified was 45,218 tons, of which 14,932 tons were registered, 27,535 tons enrolled and licensed, and 2,751 tons licensed (under 20 tons.) All enrolled and licensed shipping was employed in coasting, and of this 3,226 tons were navigated by steam-power. The whole of the licensed tonnage was also employed in coasting. The tonnage of the several districts was—Wilmington 15,193 tons, Newbern 5,208 tons, Washington 5,703 tons, Edenton, 1,145 tons, Camden 11,945 tons, Beaufort 2,260 tons, Plymouth 2,325 tons, and Ocracoke 1,423 tons. The number of vessels built in the several districts was 33, viz., 1 ship, 2 brigs, 23 schooners, 2 sloops, and 5 steamers, and their tonnage 2,652. Of the whole number 4 (488 tons) were built at Wilmington, 8 (867 tons) at Newbern, 1 (34 tons) at Washington, 5 (256 tons) at Edenton, 9 (693 tons) at Camden, 3 (206 tons) at Beaufort, and 3 (114 tons) at Plymouth. The statistics of the foreign commerce of the State for a series of years—1791 to 1850—exhibit the following movements in the values of exports and imports.

Year.	Exports.	Imports.	Year.	Exports.	Imports.
1791	\$524,548	\$	1811	\$797,976	\$
1792	527,900	—	1812	459,219	—
1793	865,414	—	1813	797,353	—
1794	821,557	—	1814	812,446	—
1795	492,161	—	1815	1,013,942	—

1810	403,949	—	1830	309,333	221,992

Internal Improvements.—Great efforts are being made in this State to build up a system of railroads between the interior and the sea-board, and also to connect the railroads of North Carolina with those of the adjoining States. As yet, however, the only through line is the Weldon and Wilmington R. R. at Weldon, uniting with the Petersburg R. R., running north, and the Sea-board and Roanoke R. R. to Norfolk, and at Wilmington with the Wilmington and Manchester R. R., which forms a connection with the South Carolina railroads. The North Carolina Central R. R., running from a point above Goldsboro', on the Weldon and Wilmington R. R., through Raleigh, Hillsboro', Greensboro', Lexington, and Salisbury, forms a junction with the South Carolina system at Charlotte, and this road will probably be extended from its eastern terminus to Beaufort. A railroad has long been in operation from Gaston, on the Roanoke, to Raleigh, at which latter point it connects with the central and at Gaston with the Greenville and Roanoke R. R., which leaves the great Southern line at Hicksford. The total length of completed railroad in this State on the 1st Jan., 1853, was 249 miles, or in the proportion of one mile to every 13 square miles of territory. The only canals in use within the State are the Disraeli Swamp Canal and its north-west branch, which are used chiefly for lumbering purposes, and Harlow Canal, extend-

NORTH CAROLINA.

ing from the Neuse to Beaufort. Important improvements are also contemplated in Deep and Cape Fear rivers, so as to make them an outlet for the mineral wealth of their vicinities.

Banks.—According to the bank returns of November, 1850, there were in the State 5 banks and 15 branch banks, the aggregate condition of which, at that period, was as follows: *Liabilities*—capital, \$7,759,250; circulation, \$4,249,983; deposits, \$942,093; due other banks, \$60,682; all other liabilities, \$4,825; and *assets*—loans and discounts, \$6,056,783; stocks, \$150,000; real estate, \$127,806, other investments, \$18,785; due by other banks, \$1,074,794; notes of other banks, \$489,947; and specie, \$1,645,028. The Bank of Cape Fear, located at Wilmington, has branches at Asheville, Fayetteville, Greensboro, Raleigh, Salem, Salisbury, and Washington, and the Bank of the State of North Carolina, at Raleigh, has branches at Charlotte, Elizabeth City, Fayetteville, Milton, Morgantown, Newbern, Tarboro', and Wilmington. Banks besides these are also established at Fayetteville, Wadesboro', Washington, Wilmington, and Newbern.

Government, etc.—The government of the State is based on the constitution of 1786, as amended in 1835.

The right of *suffrage* is allowed to every free white man, 21 years old, an inhabitant of his district 12 months preceding an election, and owner of a freehold within the same for six months. Such may vote for senators, but in voting for representatives, the freehold qualification is not needed, if the voter has paid taxes. But no descendant of a negro, to the fourth generation, though one ancestor in each generation be white, is to be accounted a white man. The general elections are held biennially on the 1st Thursday in August.

The *Legislature* is composed of a House of Commons and a Senate. Members of the House of Commons (120 in number) must have resided in their respective counties one year, and have owned for six months next before their election 100 acres as freehold, and are chosen biennially, not less than one in each county. Senators (50 in number) are chosen biennially in districts set off on the basis of taxation, and must be possessed for the same time of 300 acres therein in fee. An apportionment of both houses was made in 1851, and apportionment will be made every twenty years thereafter. The General Assembly, thus constituted, convenes on the third Tuesday in November biennially. No special law shall be passed to alter the name of any person, to legitimize bastards, or to restore to citizenship persons convicted of infamous crimes; but general laws for these purposes may be passed.

The *Governor* is chosen by the persons qualified to elect members of the house for two years (but no such elected person shall serve more than four years out of any six years) by a plurality of votes, or in case of an even vote by the two houses of the General Assembly on joint ballot. An Executive Council of State, consisting of seven councilors, shall be chosen at every regular session, who shall keep a journal of their proceedings, open to the General Assembly. The governor may lay an embargo for thirty days, with the consent of the council. If the office of governor be vacant, it is to be filled by the Speaker of the Senate, and he failing, then by the Speaker of the House of Commons. No clergyman, while in the exercise of his duties as such, shall be a member of the council.

Among the *miscellaneous provisions* of the constitution, are the following: Every foreigner who comes to settle may take the oath of allegiance and hold real estate. Judges of the Supreme and Superior courts are appointed by joint ballot of both houses, and may be removed for mental or physical inability upon a resolution of two-thirds of the members thereof. Their salaries shall not be diminished during their term. *No person who shall deny the being of a God or the truth of the Christian religion, or the divine authority of the Old or New Testament, or who shall hold religious principles incompatible with the freedom or safety of the State, shall hold any civil office.*

To amend the constitution, a convention of the people may be called by a vote of two-thirds of the members of both houses. Amendments, if agreed to by three-fifths of the members of each house, shall be published six months before the next election; and if approved by two-thirds of both houses, shall be submitted to the people; and if approved by a majority of votes of the voters qualified to elect members of the House of Commons, shall be adopted.

The *judiciary* consists of a Supreme Court, Superior or Circuit courts, etc. The Supreme Court consists of a chief justice and two associate justices, the attorney-general, a reporter and two clerks, one at Raleigh, and one at Morgantown. This court holds three sessions in each year—two in the city of Raleigh, on the 2d Monday in June and the last Monday in December; and one at Morgantown, on the 1st Monday of August, for the western part of the State, and continues to sit at each term until all the business on the docket is determined or continued upon good cause shown. It has power to hear and determine all cases in law or equity brought before it by appeal or by the parties; and has original and exclusive jurisdiction in repealing letters patent, and has also power to issue all writs necessary and proper for the exercise of its jurisdiction. The Superior or Circuit courts are composed of one judge and solicitor in each circuit; these are courts of law and of equity, and are held twice a year in each county of the State. There are seven circuits, of about ten counties each, which the judges ride alternately, never visiting, however, the same circuit twice in succession. The judges of these courts have complete equity jurisdiction.

The *militia* of North Carolina is composed of 79,448 men of all grades, of which number 4,267 are commissioned officers, and 75,181 non-commissioned officers, musicians, artificers, and privates. Of the commissioned officers, 23 are general officers, 133 general staff officers, 657 field officers, etc., and 3,449 company officers. Every white male citizen, between the ages of 18 and 45 years, unless exempt by law, is liable to military duty.

The charitable and benevolent institutions supported by the State are the North Carolina Institution for the Instruction of the Deaf and Dumb, and the Asylum for the Insane. The foundation stone of the Institution for the Deaf and Dumb was laid on the 14th April, 1848. It is located at Raleigh on a plot of four acres, and near the State-House. The Lunatic Asylum is not yet commenced. The legislature of 1850 imposed a tax of one cent and three-quarters on every one hundred dollars-worth of land, and five and a quarter cents on every taxable poll per annum for four years to raise a fund for building an institution of this description—taxes which are expected to yield \$50,000 in the time specified. The legislature, also at the same session, passed a bill authorizing an agricultural, mineralogical, and botanical survey of the State. The surveyor, whose appointment rests with the governor, is required personally or by his assistants, "to visit every county of the State and examine every thing of interest or value in either of the above departments, to ascertain the nature and character of its products, and the nature and character of its soil, as well as to give an account of its minerals."

Public Debt, Finances, etc.—The receipts from all sources for the year ending 31st October, 1850, amounted to \$219,006 47, and the expenditures in the same year to \$223,173 24—being an excess of expenditures over receipts of \$9,166 77. The chief sources of income are the public taxes, bank taxes, interest on railroad bonds, income from interest in railroads, etc.; and the principal objects of expenditure are executive, legislative, and judicial expenses, public printing, interests on investments, repayments of loans, etc., election expenses, public library, etc. North Carolina, properly speaking, has no public debt; it has, however, a contingent liability, which arises from its endorsement by the State

NORTH CAROLINA.

of bonds of railroad companies to the amount of \$1,100,000, but from this must be deducted \$13,000 for bonds not used and \$10,000 for bonds paid, which reduces the amount for which the State may be liable, to \$977,000. Since the above date other liabilities have been assumed for the progressing railroads. The value of real and personal estate of the inhabitants of North Carolina, including the value of slave property in 1850, was assessed at \$212,071,213. True valuation, \$226,800,472.

Federal Representation.—North Carolina, in accordance with the law of 23d May, 1850, is entitled to *eight* representatives in the Congress of the United States.

Education.—Before the Revolution, literature was hardly known in this State, much less a subject of cultivation. There were in the province at the end of the royal government, only two schools in operation, one at Newbern and one at Edenton. The constitution of 1776, directed that "a school or schools shall be established by the legislature for the convenient instruction of youth, with such salaries to the masters, paid by the public, as may enable them to instruct at low prices; and all useful learning shall be duly encouraged and promoted in one or more universities." Till within late years, however, no system of free schools was introduced throughout the State. Liberal provision was made for the purpose in 1825, by the creation of a school fund. This fund now amounts to nearly half a million dollars, besides the income of stock held by the State in several railroads, the proceeds of the sale of swamp lands, and the tract acquired from the Cherokees in the south-west. In order to apply these funds, a Board of Literature was established in 1837, to devise a plan of common schools; but as yet nothing efficient for the increasing population has been brought to fruition. At the present time there are some 200 academies, and between 800 and 900 common schools in the State, at which from 18,000 to 20,000 youth are annually taught. The principal collegiate establishments in the State are the University, Davidson College, and Wake Forest College. The University of North Carolina is located at Chapel Hill, in Orange County, and in 1850 had a president, 10 professors, and 230 students. It was founded in 1759, and its alumni numbered 964, of which about 70 had entered the ministry. It has an excellent library of 13,500 volumes. In 1853 a school of science and art was attached to it. In the law department there were, in 1850, ten students. Davidson College, founded in 1833, is situate in Mechenburg County, and in 1850 had 4 professors, 60 students, and a library of about 5,000 volumes, and its alumni numbered 140, of which 24 were in the ministry. Wake Forest College (a Baptist institution) was founded in 1833, and in 1850 had 3 professors, and 24 students; its alumni numbered 11, of which 6 were in the ministry, and its library contained 4,700 volumes.

Public Libraries.—One State library—3,000 volumes; 3 college—9,401 volumes; 2 students'—8,346 volumes; 2 academic and professional—3,000 volumes; total, 8 libraries, and 24,247 volumes. This account, which is from the census of 1850, differs essentially from the returns of the colleges, and is probably under-rated.

Periodical Press.—The whole number of newspapers, etc., published in the State in 1850, was 52, of which 24 advocated whig principle, and 9 that of the democracy, and 19 were neutral in politics, or devoted to literature, religion, etc. Of the whole number, 1 was published tri-weekly, circulating 340 copies at each issue, or 53,040 copies annually; 3 semi-weekly, circulating 8,437 copies, or 399,088 annually; 41 weekly, circulating 28,427 copies, or 1,478,204 annually; 4 semi-monthly, circulating 3,775, or 90,000 annually; and one monthly, circulating 450, or 5,400 annually. The counties in which published are—Anson, 1 s.-w. and 1 w.; Buncombe, 2 w.; Beaufort, 1 w.; Caswell, 1 w.; Chowan, 1 w.; Cherokee, 1 w.; Craven, 2 w.; Cumberland, 3 w.; Chatham, 1 s.-m.; Edgecombe, 1 w.; Guilford, 1 w. and 1 m.; Granville, 1 w.; Halifax, 2 w.; Lincoln, 2 w.; Mechenburg, 2 w.; New Hanover, 1 t.-w., 2 s.-w., and 3 w.; Orange, 2 w.; Pasquotank, 2 w. and 1 s.-m.; Rutherford, Randolph, and Rowan, each 1 w.; Wake, 1 s.-w., 6 w., and 3 s.-m.; Wayne, 2 w.; and Washington and Warren, each 1 weekly.

Religious Denominations.—The statistics of the several religious denominations in the State, were as follows:

Denominations.	No. of Churches.	Church accom.	Value of Property.	Denominations.	No. of Churches.	Church accom.	Value of Property.	Denominations.	No. of Churches.	Church accom.	Value of Property.
Baptist.....	573	195,727	\$201,443	German Ref. 15	..	5,725	\$17,200	R. Catholic....	4	1,400	\$5,900
Christian.....	29	11,600	10,575	Jewish.....	Swedenb'n....

—making a total of 1,675 churches, having accommodation for 558,204 persons, and valued as property at \$889,393. The State forms the Protestant Episcopal diocese of North Carolina, and is a constituent portion of the Roman Catholic diocese of Charleston.

Pauperism.—The whole number of persons relieved or supported during the year ending 1st June, 1850, was 1,931, of which number 1,913 were native-born and 18 foreign-born; and the whole number receiving support at the date specified was 1,530; viz., 1,567 native-born and 13 foreigners. The cost to the public amounted to \$60,055.

Historical Sketch.—The first English settlement in North America was made in 1555 on Roanoke Island, in this State. The patron of the infant colony was Sir Walter Raleigh, to whom Queen Elizabeth granted, in 1584, a patent for such lands as he might discover in America, "not possessed by any Christian people." The same year he dispatched two small vessels to make discoveries, and these dropped their anchors early in July in Ocracoke inlet. The adventurers landed on an island near Roanoke, called by the natives Wococon, where they were received with every mark of hospitality. After visiting the neighborhood they returned to England and gave a highly favorable account of the climate and soil. The name of *Virginia* was bestowed upon the country, and Raleigh's patent was confirmed by act of Parliament. Sir Walter sent out at once, under Ralph Lane as governor, the colony above mentioned. Soon, however, Indian hostilities, provoked by the unbecoming behavior of the leaders of the colony, were commenced, and much suffering from this cause, as well as scarcity of provisions, was endured by the adventurers. They became discouraged, and finally returned home. A few days after their departure, a ship, under Grenville, arrived, and learning the destination of the colonists, left 15 men, with provisions for two years, to keep up the settlement.

Undeterred by his first failure, Raleigh sent out another colony in 1587, with orders to settle on Chesapeake Bay, where they were to build the projected "City of Raleigh." The new colonists, however, were put ashore at Roanoke. They found no trace of Grenville's men, who had probably fallen under the wrath of the Indians; and scarcely had they themselves landed than they were engaged in combat with the natives. Their governor, White, returned to England for supplies, but owing to the troubles consequent on the Spanish invasion of England, he was detained from revisiting the

NORTH CAROLINA.

colony until the autumn of 1590. On arriving, he found the site of the settlement inclosed by a strong palisade, but not a colonist remained, and to the present day their fate has been a subject of conjecture. Thus ended Raleigh's attempt to colonize Virginia.

Early in the reign of Charles I. (1630) a tract of land south of the Chesapeake, designated as Carolina, was granted to Sir Robert Heath, but as he planted no colony on it the grant was revoked. Out of the same territory Charles II. formed, in 1663, the province of Carolina, and conveyed it by charter to eight royalist noblemen of England. This charter, as amended in 1665, defines the limits of the province to be the 29th parallel of north latitude on the south, the Pacific on the west, the Atlantic on the east, and on the north the parallel of $36^{\circ} 30'$ —afterward and now better known as the Missouri Compromise Line. The grantees were made proprietors of the soil, and were intrusted with powers of jurisdiction over the colonists.

Already previous to this conveyance, settlers had located in the northern part of the province, and for some years refugees from Virginia had been coming, a few at a time, into the neighborhood of the Sound afterward called Albemarle, in honor of General Monk, whose ducal title was such. A little colony had also been planted by adventurers from New England near the mouth of Cape Fear River. The soil, however, proved sterile, and the colony dwindled slowly away, and would have totally disappeared, had not some planters from Barbadoes, under Sir John Yeamans, removed thither in 1665, and formed the settlement of Clarendon, by which the few remaining New Englanders were rapidly absorbed. These new settlers supported themselves with difficulty by shipments of boards, shingles, and staves. Gradually, by numerous migrations southward, the colony again became reduced, until at length, before 1690, it was entirely exhausted. The proprietaries in 1670 sent out emigrants under the command of William Sayle to form a new settlement, to be called the County of Carteret. The colonists located themselves first at Port Royal, South Carolina, but they soon removed, and formed a settlement between Cooper and Ashley rivers, which they called Charleston. Sayle dying next year, Sir John Yeamans was appointed governor of Carteret, the southern province. Thus there were in 1671 two permanent settlements in Carolina, *Albemarle* and *Carteret*, and these two constituted the nuclei of North and South Carolina as now existing.

At the request of one of the proprietors, the celebrated John Locke framed a scheme of government for the whole province of Carolina. "The Grand Model," as it was called, though complete of its kind, was too complicated, if not too monarchical for an infant colony, yet the proprietaries adopted it as the fundamental law of the province, and such for 20 years it nominally remained. As a matter of fact, however, it was never brought into operation, though the governor of each district of the province strove hard to comply with its requisitions, in spite of the continued and ultimately successful opposition of the colonists.

The settlement at Albemarle was augmented by accessions from Virginia, New England, and the Bermuda islands; William Drummond was appointed first governor. He was succeeded by Samuel Stevens, under whom were enacted the first laws of the colony, by an assembly composed of the governor, the council, and twelve delegates. Every encouragement was given by these laws to whomsoever proposed settling in the colony; bounty-lands were granted at a moderate quit-rent (3d. per acre); taxes could be imposed only by consent of the assembly; and religious liberty was promised to members of every Christian denomination. Intestine commotion, proceeding partly from discontent with the "Model System," and partly owing to a general feeling of restlessness prevalent sometimes in new colonies, soon disturbed the peace and welfare of Albemarle. The Culpepper and other rebellions distinguish this period. This discontent and turbulence were not removed until the arrival (1695) of John Archdale, one of the proprietors, as governor, invested with unusually extensive powers. Sagacious, and possessed of rare prudence, the Quaker Archdale succeeded in reducing both provinces to comparative order. During the preceding period, North Carolina had received a decided check to her prosperity. Many fled the country. At the beginning of the troubles, the province contained 1,400 taxable inhabitants—in 1694, 757 were all that could be found within its limits. Under Archdale, the colony began again to flourish. Settlements were made (1698) on the Pamlico River, upon the Tar and the Neuse, and Bath County was set off to the southward. Rice and tar, two of the staples of North Carolina, began now to be exported; churches were for the first time erected, and religion began to receive the support of the authorities, given, however, in an illiberal and sectarian spirit, inconsistent with the promise to the first colonists. The Episcopalians had a majority in the legislature, and failed not to use their power to the repression of all dissenters. The Carey rebellion now disturbed the prosperity of the colony, which was not quelled till several engagements had been fought and much blood spilt. Meanwhile the province was involved in a general war with the Indians. Since the settlement of Albemarle, until this time, uninterrupted peace had existed between the whites and Indians. As the settlement increased, however, the Indian began, not without reason, to fear for his future safety.

In 1707 a colony of Huguenots had removed from Virginia and settled on the Trent, and in 1709 a colony of Germans from Heidelberg and vicinity founded the settlement of New Berne (Newbern) at the confluence of the Trent and the Neuse; they received a liberal grant from the proprietaries, and it was the surveying of these lands that led to the Indian outbreak. Regarding these surveys as encroachments on their independence, the Tuscaroras seized the surveyor-general and put him to death, and an immediate attack was also made on the white settlements south of Albemarle Sound. Other tribes joining the Tuscaroras, the war became general. All Carolina did not at that time contain 2,000 men capable of bearing arms; yet when assistance was sought from the southern province, it was at once obtained. The Indians were worsted in several actions, and finally compelled to take refuge in a fort near the Neuse. Here they would have been forced to surrender at discretion, but the commander of the colonists concluded with them a hasty and disadvantageous peace, and shortly afterward hostilities were renewed. The situation of the colony now became truly critical; aid was again sought of the neighboring provinces, which was granted. The war was prosecuted with vigor, and in 1713 the power of the Tuscaroras was completely broken; and having emigrated to the North, the tribe confederated with the Senecas and other tribes, which afterward became the "Six Nations." The other hostile tribes soon after submitted to the rule of the victors, and in 1717 peace was finally concluded. The sufferings of the colony during the Carey rebellion and the Indian war were extreme. Not a few settlers abandoned their homes altogether; and notwithstanding the new accessions and the natural increase of the population, the number of taxable inhabitants in 1717 did not exceed 2,000.

For some time after this period the country was demoralized by the imposition of a worthless succession of governors. In July, 1729, the king purchased for £17,500 seven-eighths of the whole province; the remaining eighth was retained by Lord Carteret, and was laid off for him (not, however, till 1743) adjoining the Virginia line. Previous to this the boundary between the two had been settled upon its existing basis. The spirit of anarchy and resistance to legal authority,

NORTH CAROLINA.

hitherto prevalent, was now brought more under control; still justice and obedience to the laws were by no means universal.

During the Indian troubles paper money had been issued by the Assembly, but although gradually sunk by taxes, it depreciated. In 1729, £40,000 were issued, and in 1734 £10,000 additional. Depreciation went on, until in 1739 the rate was seven and a half for one of sterling. This depreciated currency the Assembly attempted in 1738 to circulate, by making it a legal tender for quit rents. In the disputes that ensued, the governor, who was opposed to paper money, dissolved two successive assemblies. Other acts, equally unjust and impolitic, were passed at various times, nor was the governor wholly free from the imputation of irregular and partial administration. These, and other adverse circumstances, as McCulloch's speculation in crown lands, the breaking out of hostilities between England and Spain, by which the Carolinas were involved in war with the Spanish settlements of Florida, retarded in no small measure the progress of the colony. In spite of all, however, the increase in inhabitants was decidedly rapid. During Johnstone's administration, three distinct and extensive settlements were made: one chiefly by Presbyterians from the north of Ireland, who settled in Carteret's lands in the north-west; another by Moravians, who obtained from Carteret a grant of 100,000 acres between the Yadkin and Dan; and the third by a large body of Highlanders, chiefly from Argyshire, for whom land had been purchased by their leader, Neal McNeal, near the present Fayetteville. All these colonies were successfully established, and their numerous descendants inhabit the State at this day.

Notwithstanding every effort at conciliation, unfriendly Indian tribes, especially after Braddock's defeat (1755), harassed the western frontiers. Among these tribes the Cherokees were foremost in committing depredations; they, as well as the upper Creeks, by whom they had been joined, were finally forced to sue for peace. Differences between the governor and legislature also at this time existed, and the dissatisfaction was constantly increasing. To allay it, William Tryon, a military officer, was sent out, who subsequently himself became governor. Tryon (1765) found the colony restless and unquiet. Many were ripe for open rebellion. But the new incumbent ruled with a steady hand, and maintained the laws. Early in his administration the dispute between England and the colonies began. He managed for a time to avoid a collision with the Assembly, but at length, when that body declared (4th November, 1769) against the right of England to tax North Carolina, he dissolved it. Previous to this, however, the country was distracted by a formidable insurrection of the so-called "Regulators;" neither property nor life was safe from their violence. Tryon at length (1771) raised a body of troops and marched against these disturbers, who were chiefly poor and uneducated men, but led on by wily, political anarchists. Encountering them near Great Allamance, 3,000 strong, he attacked them with his 1,000 militia, and gained a decisive victory. After their defeat the insurgents in general took the oath of allegiance. In the following August Tryon, who, on the whole, had been a popular ruler, was succeeded by Josiah Martin. One of his first acts was the settlement of the boundary line between North and South Carolina. Disputes soon arose between him and the General Assembly, and the trouble was increased by the persistence of England in her policy of taxing the colonies. The governor sided with the crown, as also did the Regulators, whom he had the meanness to conciliate by the detraction of Tryon, but the remaining inhabitants generally adopted the cause of the colonists.

North Carolina, in spite of the Governor's opposition, was represented in the first Continental Congress (Sept. 1774), and its delegates joined in adopting the Declaration of Colonial Rights. The Provincial Congress approved of their proceedings, and appointed delegates to the next. An association for the defense of colonial rights was also formed, and the citizens of Mechenburg County even went so far (May 21, 1775) as formally to declare their independence of the British connection. Alarmed at the progress of the disaffection, the Governor retired (July) on board a ship of war in Cape Fear River. The revolution in North Carolina was now complete. A State Convention was formed (20th August), and the raising of three (afterward five) regiments of troops authorized, and all were taken by Congress into Continental pay. The Tory influence, however, was strong, especially among the Regulators, and attempts, which failed, however, were made to form a junction with General Clinton, who was on the coast, waiting for reinforcements from England preparatory to making a descent upon the country—550 of them were captured and made prisoners. Four more regiments were now ordered to be raised. Clinton, though reinforced, despairing of local assistance, sailed away to the attack of Charleston. In April succeeding (1776), the Convention taking the lead, authorized their delegates in Congress to join with other colonies in declaring independence. On the 4th July that independence was solemnly declared. Meanwhile the Cherokees, in league with the British, ravaged the western frontiers. Promptly met by a strong force from the Carolinas and Virginia, they were subdued, and forced to surrender to their conquerors a large tract of country, including the yet infant settlements on the Tennessee. The territory apportioned to North Carolina was erected into the *District of Washington*, the original province being now (since December 13th, 1776) a State, having a regular government. Settlers were encouraged to locate in the District, lands being granted at the rate of £2 10s. per 100 acres.

In 1779 the Southern States were the chief scene of the Revolutionary War. In May, 1780, Charleston surrendered to the British, and within a month all South Carolina was in possession of the victors. The loyalists at once flew to arms; of two parties assembled to aid the British one succeeded in reaching the outposts, but the other was dispersed by the militia. After the defeat of Gates at Camden (6th August) there was left no organized force in either of the Carolinas. Cornwallis prepared to make an eruption into the North State—the battles of King's Mountain, of the Broad River, of the Tyger River, and of the Cowpens followed in quick succession. The mutual animosities of the Whigs and Tories now exhibited itself in savage ferocity. Fort Watson, Hobkirk's Hill, and Ninety-Six were also the scenes of warfare. The fortunes of war had hitherto vacillated; at one time the State was, to all appearances, subdued, and at another, elated by success. On the 8th September, 1781, the British were totally defeated by General Greene. Soon after the capture of Cornwallis (11th October) Wilmington was evacuated (January, 1782), and toward the end of the year peace was declared, and the British dominion within the State ended.

The history of North Carolina, since the Revolution, exhibits few changes and few events of more than ordinary importance. During that period she acted with fortitude, and by her great sacrifices in men and money contributed much to the successful result of the struggle. The Legislature acceded to the federal constitution on the 27th November, 1789, by a vote of 193 yeas to 75 nays, and since then the people of no other State have adhered more firmly to the Union.

RALEIGH is the political capital of the State.

NORTH NEW SALEM, p. v., Franklin co., *Mass.*: 66 m. W. by N. Boston.

NORTH NORWAY, p. o., Oxford co., *Me.*: 43 m. W. by S. Augusta.

NORTH NORWICH, t. and p. o., Chenango co., *N. Y.*: 95 m. W. Albany. Drained by Chenango r. The v. is on the W. bank of the r. in the N. W. part of the town, and on the Chenango Canal. Pop. of t. 1,172.

NORTH NORWICH, p. o., Huron county, *Ohio*: 73 m. N. Columbus.

NORTH ORANGE, p. v., Franklin co., *Mass.*: 65 m. W. by N. Boston.

NORTH ORWELL, p. o., Bradford co., *Penn.*: 114 m. N. by E. Harrisburg.

NORTH OXFORD, p. v., Worcester co., *Mass.*: 44 m. W. by S. Boston.

NORTH PALERMO, p. o., Waldo co., *Me.*: 20 m. E. N. E. Augusta.

NORTH PARIS, p. v. and sta., Oxford co., *Me.*: on N. bank of Little Androscoggin r., 40 m. W. Augusta. The Atlantic and St. Lawrence R. R. passes through the v. 55 m. from Portland.

NORTH PARMA, p. o., Monroe co., *N. Y.*: 281 m. W. by N. Albany.

NORTH PARSONSFIELD, p. v., York co., *Me.*: 73 m. S. W. Augusta. Drained by cr. of Ossipee river.

NORTH PENOBSCOT, p. o., Hancock co., *Me.*: 59 m. E. by N. Augusta.

NORTH PERRY, p. o., Lake co., *Ohio*: 150 m. N. E. by N. Columbus. The t. is on the line of the Cleveland and Erie R. R. 36 m. from Cleveland.

NORTH PERRYSBURG, p. o., Cattaraugus co., *N. Y.*: on S. side Cattaraugus cr., 276 m. W. Albany.

NORTH PITTSBURG, p. v., Kennebec co., *Me.*: on E. side of Kennebec r., 7 m. S. Augusta.

NORTH PLAINS, t. and p. o., Ionia county, *Mich.*: N. side Maple r., 26 m. N. W. by N. Lansing. Soil of t. is rich

sandy loam, very fertile on the numerous creeks which flow through it. Pop. 292.

NORTH PLYMPTON, p. v., Plymouth county, *Mass.*: 29 m. S. S. E. Boston.

NORTH POINT, sta., Baltimore co., *Md.*: near Baltimore, on Philadelphia and Baltimore R. R.

NORTH POINT LIGHT-HOUSE, Baltimore county, *Md.*: on North Point Cape. Lat. $39^{\circ} 11' 45''$; long. $76^{\circ} 27' 17''$; 15 m. E. of N. Annapolis, is one of the most important lighthouse stations on the Atlantic sea-board. Here the British debarked in the war of 1812.

NORTHPORT, p. o., Tuscaloosa co., *Ala.*: on N. W. side of Black Warrior r. opposite Tuscaloosa, 92 m. N. W. by W. Montgomery.

NORTHPORT, p. v. Noble co., *Ind.*: on N. side of North Fork of Elkhart r., 125 m. E. N. E. Indianapolis.

NORTHPORT, t. and p. o., Waldo county, *Me.*: 43 m. E. Augusta, on W. side of Penobscot bay. Some ship-building is carried on here. Pop. 1,260.

NORTHPORT, p. o., Suffolk county, *N. Y.*: 124 m. S. by E. Albany.

NORTH POTSDAM, p. o., St. Lawrence co., *N. Y.*: 158 m. N. N. E. Albany.

NORTH POWNAL, p. o., Cumberland county, *Me.*: 36 m. S. S. W. Augusta.

NORTH POWNAL, p. o., Bennington county, *Verm.*: 108 m. S. S. W. Montpelier.

NORTH PRAIRIE, p. o., Knox co., *Ill.*: 97 m. N. W. by N. Springfield.

NORTH PRESCOTT, p. v., Hampshire co., *Mass.*: 66 m. W. by N. Boston.

NORTH PROSPECT, p. v., Waldo county, *Me.*: 47 m. E. N. E. Augusta. Drained by a creek of Penobscot r.

NORTH RAISINVILLE, p. o., Monroe county, *Mich.*: 74 m. S. S. E. by E. Lansing.

NORTH RAYMOND, p. o., Cumberland county, *Me.*: 45 m. S. W. Augusta.

NORTH READING, p. v., Middlesex co., *Mass.*: on N. side of Ipswich r., 16 m. N. Boston, on the line of Salem and Lowell R. R., 10 m. from Salem.

NORTH READING, p. o., Steuben co., *N. Y.*: on W. side of Seneca lake, 169 m. W. by S. Albany.

NORTH REHOBOTH, p. v., Bristol co., *Mass.*: 35 m. S. by W. Boston.

NORTH RIDGEVILLE, p. v., Lorain co., *Ohio*: 108 m. N. N. E. by N. Columbus. Drained by N. br. of Black r.

NORTH RIDGEWAY, p. o., Orleans county, *N. Y.*: 244 m. W. by N. Albany.

NORTH RIVER, p. v., Tuscaloosa co., *Ala.*: on W. side of North r., 98 m. N. W. Montgomery.

NORTH RIVER MEETING-HOUSE, p. o., Hampshire county, *Virg.*: on branch of Great Cacapon r., 127 m. N. W. Richmond.

NORTH RIVER MILLS, p. o., Hampshire county, *Virg.*: on branch of Great Cacapon river, 138 miles N. N. W. Richmond.

NORTH ROCHESTER, p. v., Plymouth county, *Mass.*: 42 m. S. by E. Boston.

NORTH ROME, p. o., Bradford co., *Penn.*: 110 m. N. by E. Harrisburg.

NORTH ROYALTON, p. o., Cuyahoga co., *Ohio*: 111 m. N. E. by N. Columbus.

NORTH RUSSELL, p. o., St. Lawrence co., *N. Y.*: 143 m. N. W. by N. Albany.

NORTH SALEM, p. v., Hendricks co., *Ind.*: on branch of Walnut fork of Eel r., W. N. W. Indianapolis.

NORTH SALEM, p. o., Rockingham co., *N. Hamp.*: 34 m. S. W. by S. Concord.

NORTH SALEM, t. and p. v., Westchester co., *N. Y.*: 98 m. S. by E. Albany. Surface of t. hilly; soil well adapted to grass and summer crops. The v. contains a few mills and stores. The Harlem R. R. passes through the W. part of the town. Pop. 1,835.

NORTH SALUDA, Greenville dist., *S. Car.*: on North Saluda river, 115 m. N. W. Columbia.

NORTH SANBORNTON, p. o., Belknap co., *N. Hamp.*: 23 m. N. by W. Concord.

NORTH SANDWICH, p. v. and sta., Barnstable co., *Mass.*: 49 m. S. E. by S. Boston, on Cape Cod Branch R. R.

NORTH SANDWICH, p. o., Carroll co., *N. Hamp.*: 45 m. N. Concord.

NORTH SCITUATE, p. v., Plymouth county, *Mass.*: 17 m. S. E. by E. Boston.

NORTH SCITUATE, p. v., Providence co., *R. I.*: 9 m. W. Providence.

NORTH SEABSMOUNT, p. o., Waldo co., *Me.*: 27 m. E. Augusta.

NORTH SEARSPORT, p. o., Waldo co., *Me.*: 45 m. E. N. E. Augusta.

NORTH SEDGEWICK, p. o., Hancock co., *Me.*: 60 m. E. Augusta.

NORTH SEWICKLY, t. and p. o., Beaver co., *Penn.*: on W. side of Beaver r. and S. side of Connequessing cr., 180 m. W. by N. Harrisburg. Surface rolling; soil calcareous loam. The t. contains several saw and grist mills, tanneries, and stores. The Beaver and Erie Canal passes through the t. on bank of Beaver river.

NORTH SHAPLEIGH, p. o., York co., *Me.*: 79 m. S. W. Augusta.

NORTH SHEFFIELD, p. o., Ashtabula county, *Ohio*: 174 m. N. E. Columbus.

NORTH SHELTON, p. o., Wyoming co., *N. Y.*: 244 m. W. Albany.

NORTH SHREBURN, p. o., Rutland county, *Verm.*: 44 m. S. by W. Montpelier.

NORTH SHORE, p. o., Richmond county, *N. Y.*: 140 m. S. by W. Albany.

NORTH SKUNK river: runs parallel to Skunk r. on its N. side for 70 m. when it joins it in Keokuk county.

NORTH SMITHFIELD, p. o., Bradford co., *Penn.*: 109 m. N. Harrisburg.

NORTH SOMERS, p. o., Tolland co., *Conn.*: 22 m. N. N. E. Hartford, near State line.

NORTH SPARTA, p. o., Livingston co., *N. Y.*: 210 m. W. Albany.

NORTH SPENCER, p. v., Worcester county, *Mass.*: 48 m. W. by S. Boston.

NORTH SPRING, p. o., Jackson co., *Tenn.*: 62 m. E. N. E. Nashville.

NORTH SPRINGFIELD, p. v., Windsor co., *Verm.*: on E. bank of Black r., 68 m. S. by E. Montpelier.

NORTH SPRINGFIELD, p. o., Summit co., *Ohio*: 107 m. N. E. Columbus.

NORTH STAMFORD, p. v., Fairfield co., *Conn.*: on W. side of Mill r., 87 m. W. S. W. New Haven.

NORTH STAR, p. o., Washington co., *Penn.*: 173 m. W. Harrisburg.

NORTH STAR, p. o., Darke co., *Ohio*: 84 m. W. Columbus.

NORTH STEPHENTOWN, p. o., Rensselaer co., *N. Y.*: on Kinderhook cr., 16 m. E. S. E. Albany.

NORTH STERLING, p. o., Cayuga co., *N. Y.*: on W. side of Little Sodus Bay, 158 m. W. by N. Albany.

NORTH STOCKHOLM, p. o., St. Lawrence co., *N. Y.*: 159 m. N. N. W. Albany.

NORTH STONINGTON, t. and p. o., New London county, *Conn.*: 47 m. E. S. E. Hartford, 56 m. E. by N. New Haven. Surface uneven and hilly; soil gravelly loam, good for grazing. Watered by Pawcatuck r. and its branches, which afford water-power to a number of tanneries, saw, and grist mills. Pop. 1,937.

NORTH STRAFFORD, p. o., Strafford co., *N. Hamp.*: 20 m. E. N. E. Concord.

NORTH SUDBURY, p. v., Middlesex co., *Mass.*: on S. side of Concord r., 21 m. W. by N. Boston.

NORTH SWANSEA, p. v., Bristol co., *Mass.*: 42 m. S. by W. Boston.

NORTH TEWKSBURY, p. v., Middlesex co., *Mass.*: 23 m. N. N. W. Boston.

NORTH THETFORD, p. v. and sta., Orange co., *Verm.*: on W. bank of Connecticut r., 36 m. S. E. by E. Montpelier. The Connecticut and Passumpsic Rivers R.R. passes through the v., 17 m. from White River Junction, and 43 m. from St. Johnsbury.

NORTH TROY, p. o., Orleans county, *Verm.*: on E. side of Missisquoi r., 52 m. N. by E. Montpelier.

NORTH TRUEB, p. v., Barnstable co., *Mass.*: 53 m. E. S. E. Boston.

NORTH TURNER, p. v., Oxford co., *Me.*: on W. side of Androscoggin r., 25 m. W. by S. Augusta.

NORTH TURNER BRIDGE, p. o., Oxford co., *Me.*: on Androscoggin r., 22 m. W. by S. Augusta.

NORTHUMBELAND county, *Penn.* Situate E. centrally, and contains 431 sq. m. The Susquehanna r. passes through it centrally from E. to W., and forms its S. W. boundary. It is drained by this r. and its affluents. Surface varied; in most parts it is mountainous and much broken, but along the r. there are some level bottoms; soil in general poor; the land on the river, however, is fertile, and produces good crops of wheat, Indian corn, and potatoes; tobacco is also grown. It is extensively engaged in manufactures and mining. It contains iron ore and coal, and has some good timber land. Farms 1,748; manuf. 153; dwell. 4,062, and pop.—wh. 23,150, fr. col. 92—total 23,272. *Capital*: Sunbury. *Public Works*: Sunbury and Erie R. R., and several railroads to the mines from Sunbury, etc.

NORTHUMBELAND county, *Virg.* Situate E. on Chesapeake bay, and contains 143 sq. m. Drained by small streams which flow into the Potomac and the Chesapeake. Surface generally level; soil of average fertility. Chief productions, cotton and Indian corn. Farms 492; manuf. 3; dwell. 639, and pop.—wh. 3,072, fr. col. 509, sl. 3,755—total 7,346. *Capital*: Heathsville.

NORTHUMBELAND, t. p. v., and sta., Coos co., *N. Hamp.*: on Connecticut r. and both sides of Upper Ammonoosuc r., 93 m. N. Concord. The soil along the Connecticut is very fertile. Here are falls in the r., and a dam across its whole width affords great water-power on each side to mills of various kinds. The Atlantic and St. Lawrence R. R. passes through the v., 122 m. from Portland. Pop. of t. 429.

NORTHUMBELAND, t. and p. o., Saratoga co., *N. Y.*: on W. side Hudson r., 36 m. N. by E. Albany. Surface level; soil sandy loam, well drained. The Saratoga and Washington R. R. passes through the N. W. part. Pop. 1,775.

NORTHUMBELAND, p. b., Northumberland co., *Penn.*: at the confluence of the E. and W. branches of the Susquehanna r., 54 m. N. Harrisburg. A bridge spans each branch of the r. The Shamoken dam, 2,753 feet long, crosses the river, having a chute 650 feet long and 64 feet wide. The Susquehanna N. and W. branch canals meet here, but do not afford as much business to the place as formerly. A railroad is contemplated to pass through to connect with the

Catawissa branches E., N., N. E., N. W., and S. routes. The streets are regularly and well laid out, and the village affords a quiet and pleasant place of residence.

NORTH UNION, p. o., Washington co., *Ohio*: 82 m. E. S. E. Columbus.

NORTH UNION, p. o., Lincoln county, *Me.*: on E. side of Muscongus r., 27 m. E. S. E. Augusta.

NORTH UNIONTOWNS, p. o., Highland co., *Ohio*: 63 m. S. W. by S. Columbus.

NORTH URBANA, p. o., Steuben co., *N. Y.*: on W. side of Crooked lake, 156 m. W. by S. Albany.

NORTH VASSALBOROUGH, p. o., Kennebec co., *Me.*: on E. side of Kennebec r., 14 m. N. N. E. Augusta.

NORTH VERNON, p. o., Shiawassee county, *Mich.*: 32 m. E. N. E. by E. Lansing.

NORTHVILLE, p. v., Litchfield co., *Conn.*: on E. Aspetuck river, 83 m. W. by S. Hartford.

NORTHVILLE, p. v., La Salle county, *Ill.*: 97 m. N. N. E. Springfield.

NORTHVILLE, sta., Plymouth co., *Mass.*: on Bridgewater Branch R. R., 22 m. from Boston.

NORTHVILLE, p. v., Wayne county, *Mich.*: 57 m. E. S. E. Lansing, on the W. branch of the Rouge r., at the confluence of the outlet of the Walled lake. Here are great natural advantages for manufacturing, there being 37 feet of water-power. Considerable capital is already employed.

NORTHVILLE, p. o., Fulton co., *N. Y.*: on E. bank of Sacandaga r., 44 m. N. W. by N. Albany.

NORTHVILLE, p. v., Erie co., *Penn.*: 208 m. N. W. by W. Harrisburg.

NORTH WALDOBOROUGH, p. o., Lincoln co., *Me.*: 23 m. S. E. by E. Augusta.

NORTH WARDSBOROUGH, p. o., Windham co., *Verm.*: 84 m. S. Montpelier.

NORTH WASHINGTON, p. v., Westmoreland co., *Penn.*: 141 m. W. by N. Harrisburg.

NORTH WATERFORD, p. o., Oxford co., *Me.*: 43 m. W. by S. Augusta.

NORTH WAYNE, p. o., Kennebec co., *Me.*: 17 m. W. Augusta.

NORTH WEST, t. and p. o., Williams co., *Ohio*: 144 m. N. W. Columbus. Soil fertile. Drained by branches of St. Joseph's r. Pop. 343.

NORTH WEST bay, *N. Y.*: on W. side of Lake Champlain.

NORTH WEST BRIDGEWATER, p. o., Plymouth co., *Mass.*: 22 m. S. Boston.

NORTH WESTERN, p. o., Oneida county, *N. Y.*: 101 m. W. N. W. Albany.

NORTH WEST FORK, hund., Sussex co., *Del.*: on W. side of Nanticoke r., 30 m. S. by W. Dover. Area, 76,430 acres.

NORTH WEST MINE, p. o., Houghton co., *Mich.*: 300 m. N. N. W. Lansing. One of the most productive mines of the State.

NORTH WEST RIVER BRIDGE, p. o., Norfolk co., *Virg.*: on North West r., 95 m. S. E. Richmond.

THE NORTH WEST TERRITORY.

THE NORTH WEST TERRITORY is situate between the parallels of 43° and 49° latitudes north, and extends east and west between 99° 11' 20" longitudes west from Greenwich, or 21° 55' and 34° 53' from Washington. It is bounded on the north by the British possessions, on the east by White Earth and Missouri rivers, which separate it from Minnesota Territory, on the south by Nebraska Territory, and on the west by the crest of the Rocky Mountains, which divides it from Oregon and Washington territories. On the east and west its outline is irregular, conforming to the course of the Missouri on one side, and to that of the Rocky Mountains on the other side. The average length of the country, east and west, is about 530 miles, and the average breadth, north and south, about 420 miles, with an area of 223,000 square miles. (The extent of the region, according to the census of 1850, is stated at 557,564 square miles, a statement evidently incorrect).

The general surface of this region is highly diversified by mountains, valleys, and plains. The greater portion of the country is inclosed between the Rocky and Wind River mountains and the Black Hills, a continuation of the latter northward. The immense basin formed by these mountains is drained by the Missouri and its great tributary, the Yellow Stone, which, with their numerous affluents, reach to its farthest boundaries west, south, and east. On the north of the basin is also a watershed dividing the streams flowing northward through the British possessions from those tributary to the great rivers just noticed. It is thus hemmed in on every side, and forms a distinct geographical section. The Missouri rises in numerous head streams from the Rocky Mountains in the vicinity of the sources of the southern branch of

the Columbia of Oregon. Its course is first north, then east to the Black Hills, near the edge of which it receives the Yellow Stone, a river having its principal sources in the Wind River Mountains, and after turning the Black Hills in about latitude 43° north, it has a course south-east and south, forming in its meanderings the eastern border of the Territory. From the east side of the Black Hills it also receives numerous tributaries, but none of large size. The slopes of the country are indicated by the direction of its streams: within the basin the inclination is to the north and north-east up to the Missouri, and from thence the country rises to the north, and outside, east of the Black Hills, it slopes to the east. Both the Missouri and Yellow Stone are navigable for light draft steamers, and hence, whenever this country becomes the residence of civilized man, the capacity of these streams will open to him a highway to the markets of the South and East, while their tributary streams, rapid and broken as they are, will afford every facility for milling and the manufactures. On the whole, it is an eligible country for settlement, having timber of various kinds of magnificent growth, a fine soil, and a climate, if not congenial to the tender plant, on account of its northern inland situation, yet one in which most of the usual farming operations may be profitably carried on. For salubrity it is unsurpassed. It is a second Utah, as regards its topography, without its deserts and sandy plains.

This Territory formed a part of the Louisiana purchase. It is not yet organized, but retains the name of the North West Territory, from its being the only unorganized remnant of that once large district so named, and to which it was attached soon after its acquisition by the United States. The hunter and trapper, or the red man of the forests, are its sole occupants at the present time, but the day is not far distant on which the pioneer of civilization will cross the great river to make his home in its rich valleys, and drive his flocks and herds to the hills for range and pasture.

NORTH WETHERSFIELD, p. o., Wyoming co., *N. Y.*: 234 m. W. Albany.

NORTH WEYMOUTH, p. v. and sta., Norfolk co., *Mass.*: 11 m. S. S. E. Boston, 13½ m. from Boston by South Shore railroad.

NORTH WHARTON, p. o., Potter county, *Penn.*: 103 m. N. W. by N. Harrisburg.

NORTH WHITE CREEK, p. v., Washington co., *N. Y.*: 32 m. N. E. Albany. The "Washington Co. Post" (whig) is published weekly.

NORTH WHITEFIELD, p. v., Lincoln co., *Me.*: on E. side of Sheepscot r., 14 m. S. E. Augusta.

NORTH WHITEHALL, t. and p. v., Lehigh co., *Penn.*: 70 m. E. N. E. Harrisburg. Drained by Copley and Jordan creeks, and other tributaries of Lehigh r., by which it is bounded on the N. E. Surface even; soil calcareous loam, fertile and well cultivated. There are numerous saw and grist mills, tanneries, and distilleries.

NORTH WILNA, p. o., Jefferson co., *N. Y.*: 137 m. N. W. Albany.

NORTH WILTON, p. o., Franklin co., *Me.*: 31 m. N. W. Augusta.

NORTH WILTON, p. o., Fairfield co., *Conn.*: 27 m. W. by S. New Haven, near Danbury and Norwalk R. R.

NORTH WINDHAM, p. v., Windham co., *Conn.*: 27 m. E. by S. Hartford.

NORTH WINDHAM, p. v., Cumberland county, *Me.*: 41 m. S. W. Augusta, near S. end of Little Sebago Pond.

NORTH WOLFBOROUGH, p. o., Carroll co., *N. Hamp.*: 33 m. N. N. E. Concord.

NORTH WOODSTOCK, p. v., Windham co., *Conn.*: on a branch of Quinnebaug r., 36 m. E. N. E. Hartford.

NORTH WOODSTOCK, p. o., Oxford county, *Me.*: 40 m. W. Augusta. The Atlantic and St. Lawrence R. R. passes through t. of W., having sta. at Bryant's Pond, 62 m. from Portland.

NORTH WRENTHAM, p. v. and sta., Norfolk co., *Mass.*: 22 m. S. W. Boston, on the Norfolk County R. R., 22½ m. from Boston.

NORTH YAM HILL, p. o., Yam Hill co., *Oreg.*: 30 m. N. W. Salem.

NORTH YARMOUTH, t. p. o., and sta., Cumberland co., *Me.*: 40 m. S. W. by S. Augusta. The Atlantic and St. Lawrence R. R. passes through the t. 15 m. from Portland. Pop. 1,221.

NORTON, t. p. v., and sta., Bristol co., *Mass.*: 27 m. S. by W. Boston. Drained by Rumford, Cocasset, and Canoe rivers and other small streams. Surface diversified; soil moderately fertile. The v. is on Taunton Branch R. R., 4 m. from Mansfield. Pop. of t. 1,967.

NORTON, p. v., Delaware co., *Ohio*: on W. side of W. branch of Whetstone r., 41 m. N. by W. Columbus.

NORTON CENTRE, p. o., Summit co., *Ohio*: 99 m. N. E. Columbus.

NORTON'S MILLS, p. o., Ontario co., *N. Y.*: 193 m. W. by N. Albany.

NORTONSVILLE, p. o., Albemarle co., *Virg.*: 69 m. W. N. W. Richmond.

NORTONSVILLE, p. o., Ottawa co., *Mich.*: 80 m. W. N. W. Lansing.

NORVELL, p. o., Jackson co., *Mich.*: 32 m. S. Lansing.

NORWALK, t. p. b., and sta., Fairfield co., *Conn.*: on both sides of Norwalk r., bounded S. by Long Island Sound, 30 m. W. S. W. New Haven, 63 m. S. W. Hartford. Surface of t. uneven; soil very fertile. The b. is on both sides of the r., which is navigable to this point for vessels drawing 6 feet of water. Here are 3 churches, and 1 bank—capital \$175,330. The t. contains 2 extensive factories of felt beaver cloth, besides other manufactories. Two newspapers are published weekly, "N. Gazette" and "Fairfield Co. Republican." The New York and New Haven R. R. passes through the b., 44 m. from New York, 32 m. from New Haven, connecting here with Danbury and Norwalk R. R. Two m. S. is the p. v. of South Norwalk, the terminus of D. and N. R. R., and the landing of the New York steamboats. Pop. of t. in 1840, 3,563; in 1850, 4,651.

NORWALK, t. p. v., and cap. Huron co., *Ohio*: on E. side of Huron r., 87 m. N. by E. Columbus. Soil of t. is very fertile, and finely adapted for grain and grass. Drained by Huron r. and br. The v. is well situated, and is the main station on the Toledo, Norwalk, and Cleveland, R. R. Contains 5 churches, several mills, and other factories. Two newspapers are published weekly, "Huron Reflector" (whig); and "Norwalk Experiment" (dem.) Pop. of v. 1,441; of t. 3,159.

NORWALK river, Fairfield co., *Conn.*: flows through a beautiful and fertile valley in S. direction, about 20 m., into Long Island Sound. Along its banks runs the Danbury and Norwalk R. R. It is navigable to Norwalk borough.

NORWAY, t. and p. v., Oxford co., *Me.*: 42 m. W. by S. Augusta. Soil fertile, and well watered by Norway Pond, Little Androsoggin and Crooked rivers. The v. is at the outlet of Norway Pond. Two newspapers, the "Pine State News" and "Norway Advertiser," are published weekly. Pop. 1,962.

NORWAY, p. o., La Salle county, *Ill.*: 121 m. N. N. E. Springfield.

NORWAY, t. and p. o., Racine co., *Wis.*: 63 m. E. S. E. Madison. Drained by branches of Fox r. Surface undulating. Contains several large ponds, and has a good soil. Pop. 870.

NORWAY, t. and p. v., Herkimer co., *N. Y.*: 76 m. N. W. Albany. Surface of t. hilly; soil sandy loam, and adapted to grass. Drained by branches of West Canada cr. The v. contains churches and stores. Pop. of t. 1,052.

NORWEGIAN, t., Schuykill county, *Penn.*: 46 miles N. E. Harrisburg. Drained by Schuykill r. and its branches. Surface hilly and mountainous. It is an important centre of

the Schuylkill coal mining region, and the present terminus of the Philadelphia and Reading R. R., 98 m. from the former, and several railroads diverge from Pottsville to the neighboring mines in East Norwegian, Frailo, Pine Grove, Tremont, North Castle, Schuylkill, etc., townships, and to Sunbury and Danville on the Susquehanna. The capital invested in the coal mines in 1850 was \$641,147, and the value of the annual products of the mines was estimated at \$150,285. The Delaware Coal Company's capital is \$500,000. In East Norwegian township the capital invested in mines was \$156,000, and the value of the annual products \$80,350. There are several furnaces and numerous saw-mills in the town, and stores of every description. Population of Norwegian 10,002.

NORWICH, t., p. city, and semi-cap. New London co., *Conn.*: on Thames r., at head of navigation; 86 m. E. S. E. Hartford, 47 m. E. N. E. New Haven. Lat. N. 41° 33', long. W. 72° 7'. The surface of t. is uneven and hilly; soil fertile, well watered. The t. contains, besides the city, three v., Norwich Town, Norwich Falls, and Greenville. The city is situated at the junction of Quinnebaug and Yantic rivers, on a steep declivity, and presents a very beautiful and romantic appearance. It contains a court-house, jail, town hall, 8 churches, etc. There are 4 banks, with cap. of \$1,957,725, and 3 large insurance companies. Two newspapers are published, "N. Courier" (whig), tri-weekly and weekly; and "N. Aurora" (dem.), weekly. Three railroads pass through the city; from New London, 13 m.; from Worcester, 59 m.; from Willimantic, 57 m. A line of steamboats plies daily from Allyn's point to New York. Both Quinnebaug and Yantic rivers afford very great water-power, which is improved by numerous manufactories of paper, cotton, and woolen goods, hardware, pottery, etc. The Yantic Falls are a picturesque cataract, and invested with historical interest. Pop. in 1830, of city, 3,144; t. inc. city, 5,179; in 1840, city, 4,200; of t. inc. city, 7,239; in 1850, t. inc. city 10,265.

NORWICH, t. and p. o., Hampshire co., *Mass.*: 91 m. W. by S. Boston. Surface mountainous. Drained by Westfield r., which affords water-power. The Western R. R. touches the S. W. cor. at Chester Village, 119 miles from Boston, 81 m. from Albany. Pop. 756.

NORWICH, t., p. v., and cap. Chenango co., *N. Y.*: on Chenango r., 95 m. W. by S. Albany. Surface of t. diversified; soil is generally good for grazing. The flats on the sides of the r. are very fertile, and highly cultivated. The v. is handsomely situated on the W. bank of the r., contains the court-house and jail, several churches, mills, and factories, and 1 bank, cap. \$120,000. The Chenango Canal passes through the v. Two newspapers are issued weekly, "Chenango Telegraph" (whig), "Chenango Union" (dem.) Pop. of t. 3,615.

NORWICH, p. v., Muskingum county, *Ohio*: 63 m. E. Columbus, on the National Road. Pop. 324.

NORWICH, t. and p. v., M'Kean county, *Penn.*: 124 m. N. W. Harrisburg. Drained by Potato cr., on the E. side of which is the v., containing several stores.

NORWICH, t., p. v., and sta., Windsor co., *Verm.*: on W. side Connecticut r., 43 m. S. S. E. Montpelier. The Connecticut and Passumpsic Rivers R. R. passes through the v. 4½ m. above White River Junction. The Norwich University, established here in 1834, has 6 instructors, 60 students, 100 alumni, and a library of 1,700 vols. Pop. of t. 1,973.

NORWICH FALLS, sta., New London co., *Conn.*: on New London, Will. and Palmer R. R., 1 m. from Norwich.

NORWICH TOWN, p. v. and sta., New London co., *Conn.*: 14 m. N. city of Norwich. Has several large factories and 2 churches. The New London, Willimantic, and Palmer R. R. passes through the place.

NORWOOD, p. v., Stanley co., *N. Car.*: 96 m. W. S. W. Raleigh.

NORWOOD, p. o., Bedford co., *Virg.*: 116 m. W. by S. Richmond.

NOTASULGA, p. v. and sta., Macon county, *Ala.*: 41 m.

E. N. E. Montgomery. The Montgomery and West Point R. R. passes through this village.

NOTICEAGO river, Mich.: the sources of this large stream unite in Lake co., and flowing in W. direction through Mason co., it empties into Marquette lake.

NOTRE DAME, p. v., St. Joseph co., *Ind.*: 2 m. N. South Bend 130 m. N. by W. Indianapolis. Here is located the University of Notre Dame du Lac, established in 1843. With it, associated on an extensive farm, a novitiate for the priests, and a manual labor school for boys.

NOTTAWAY, t. and p. v., St. Joseph's co., *Mich.*: 63 m. S. W. Lansing. Surface of t. undulating; soil very fertile. Drained by St. Joseph and Prairie rivers. Pop. 1,163.

NOTTINGHAM, p. v., Prince George's co., *Md.*: on W. side of Patuxent r., 20 m. S. W. Annapolis.

NOTTINGHAM, p. o., Wells co., *Ind.*: on S. side of Wabash r., 80 m. N. E. Indianapolis.

NOTTINGHAM, t. and p. o., Harrison county, *Ohio*: 95 m. E. by N. Columbus. Drained by branch of Tuscarawas r. Pop. 1,236.

NOTTINGHAM, t. and p. o., Rockingham co., *N. Hamp.*: 21 m. E. S. E. Concord. Pop. 1,263.

NOTTINGHAM, p. o., Davis co., *Ia.*: 77 m. S. W. by S. Iowa City.

NOTTINGHAM TURNPIKE, p. o., Rockingham co., *N. Hamp.*: 21 m. E. by S. Concord.

NOTTLA, p. o., Cherokee co., *N. Car.*: 320 m. W. S. W. Raleigh.

NOTTOWAY county, Virg. Situate S. E. centrally, and contains 264 sq. m. Drained by Nottoway river and its branches, and tributaries of the Appomattox river. Surface an extended plain; soil fertile, and very productive. Chief articles of production, Indian corn, tobacco, and cotton. Farms 342; manuf. 17; dwell. 492, and pop. wh.—2,251, fr. col. 136, sl. 6,050—total 5,437. *Capital:* Nottoway C. H. *Public Works:* Richmond and Danville R. R.; South Side R. R.

NOTTOWAY, p. v., and cap. Nottoway county, *Virg.*: on Nottoway r., 44 m. S. W. Richmond.

NOTTOWAY river, Virg. and N. Car.: rises in Prince Edward co., flows mainly in S. E. direction, through S. W. portion of Virg., and passing into N. Car., unites with Meherrin r., in Gates co., forming Chowan river.

NOVI, t. and p. v., Oakland co., *Mich.*: 57 m. E. S. E. Lansing. Surface of t. is rolling, and is well timbered; soil good. Drained by the W. branch of the Rouge r. and its creeks. The v. is on the E. side of r., 2 m. S. of Walled lake. Pop. of t. 1,423.

NOXAPATER, p. o., Winston county, *Miss.*: 84 m. N. E. Jackson.

NOXUBEE county, Miss. Situate E., and contains 678 sq. m. Drained by tributaries of W. fork of Tombigbee river. Surface moderately even; soil fertile. Chief productions, cotton, and Indian corn. Farms 676; manuf. 31; dwell. 957, and pop.—wh. 4,976, fr. col. 0, sl. 11,323—total 16,299. *Capital:* Macon. *Public Works:* Mobile and Ohio R. R.

NOYESVILLE, p. v., Cook co., *Ill.*: on the Des Plaines r., 167 m. N. E. by N. Springfield. Galena and Chicago Union R. R. passes through the village, 10 m. W. Chicago.

NUBBIN RIDGE, p. o., Hardeman county, *Tenn.*: 140 m. S. W. Nashville.

NUCCES county, Tex. Situate S., and contains about 6,200 sq. m. Drained by branches of the Rio-Nueces, which forms its N. and N. W. boundaries, and by the rivers Agua Dulce, San Fernandes, and Trinidad, which fall into the bays in the S. E. portion of the county. Surface undulating, some parts slightly elevated; soil on the streams very fertile, consisting of a deep mold, intermixed with sand, and favorable to cotton and corn, but in general is best adapted for pasturage. A portion of the county is prairie, and a small part is thickly wooded. Salt Lagoon is situate S. E., and Laguna del Madre forms the eastern boundary. The Nueces is the principal river, and is navigable for small boats for about 100 miles from its mouth. Farms 8; manuf.

1; dwell. 151, and pop.—wh. 650, fr. col. 1, sl. 47—total 693. *Capital*: Corpus Christi.

NUECES RIVER, *Tex.* Its remotest source is in the mountains of Bexar co., and with its tributaries drains an extensive surface of country. Its general course is S. E., being about 300 m. long in its windings, and 226 m. from its source to its mouth, where it empties into Nueces bay. Its principal tributary is the Rio Frio. The Nueces r. is navigable for 100 m., but is much encumbered by sand-bars in its upper portions.

NULHEGAN RIVER, Essex co., *Verm.*: formed from two branches, uniting in Bloomfield, forming a rapid stream, and enters Connecticut r. above Brunswick.

NULLIS MILLS, p. o., Fayette co., *Ind.*: 73 m. E. by S. Indianapolis.

NUMA, p. o., Parke co., *Ind.*: on E. side of Wabash r., on the canal, 62 m. W. by S. Indianapolis.

NUMBER 1, p. o., Wayne co., *Ohio*: 55 m. N. E. Columbus.

NUMBER 2, p. o., Marion county, *Flor.*: 176 m. S. E. Tallahassee.

NUMBER 3, p. o., Aroostook county, *Me.*: 131 m. N. N. E. Augusta.

NUNDA, t. p. v., and sta., Livingston co., *N. Y.*: 221 m. W. Albany. Drained by branches of Genesee r. Surface undulating; soil good for wheat. The v. is on Cashagua cr., and is a station of the Buffalo and New York City R. R., 62 m. from Buffalo. Besides several churches, and a flourishing academy, it has some factories. The "Nunda Telegraph" (whig) is published weekly. Pop. of t. 3,123.

NUTBUSH, p. o., Warren co., *N. Car.*: on Nutbush cr., 60 m. N. Raleigh.

NYACK, p. v., Rockland co., *N. Y.*: on W. bank of Hudson r., 113 m. S. Albany. A flourishing v., containing several churches, etc., and having regular communication with New York. Two newspapers are issued weekly—"Rockland County Journal," and "Rockland Messenger." Pop. about 1,000.

NYACK TURNPIKE, p. o., Rockland co., *N. Y.*: 102 m. S. by W. Albany.

O.

OAK, p. o., Williams co., *Ohio*: 132 m. N. W. Columbus. **OAK CREEK**, Otsego co., *N. Y.*: the outlet of Schuyler's lake, which flows S. through the town of Otsego, and empties into the Susquehanna r.

OAKKACHIKAMA, p. o., Yallahusha county, *Miss.*: 108 m. N. N. E. Jackson.

OAK BLUFFS, p. o., Greene co., *Ark.*: near a branch of St. Francis r., 144 m. N. E. Little Rock.

OAK BOWERY, p. o., Chambers co., *Ala.*: 51 m. N. E. by E. Montgomery.

OAK CREEK, p. v., Milwaukie co., *Wisc.*: on a cr. of Lake Michigan, 73 m. E. by S. Madison.

OAKDALE, p. v., and cap. Shelby co., *Mo.*: 83 m. N. by E. Jefferson City. The court-house is situate here.

OAKDALE, p. v., Worcester co., *Mass.*: on the Nashua r. and Worcester and Nashua R. R., 25 m. Worcester, and 39 m. W. Boston.

OAKFIELD, p. o., Genesee co., *N. Y.*: 232 m. W. Albany. **OAKFIELD**, p. v., Fond du Lac co., *Wisc.*: 62 m. N. E. Madison.

OAKFIELD, p. o., Perry county, *Ohio*: 42 m. E. S. E. Columbus.

OAKFIELD, t. and p. o., Kent county, *Mich.*: 61 m. N. W. Lansing, and 39 m. E. Grand Haven. Drained by Flat r. and its tributaries. Surface rolling; soil deep vegetable loam. It abounds in forests of heavy pine timber. Pop. 404.

OAKFIELD, p. v., Franklin co., *Mo.*: 119 m. E. Jefferson City.

OAK FLAT, p. v., Pendleton co., *Virg.*: on a branch of the Potomac r., and at the foot of the Shenandoah Mountain, 123 m. N. W. Richmond.

OAK FOREST, p. o., Wayne co., *Ky.*: 85 m. S. Frankfort. **OAK FOREST**, p. o., Iredell county, *N. Car.*: 121 m. W. Raleigh.

OAK FOREST, p. v., Franklin co., *Ind.*: near Oak creek, 59 m. E. S. E. Indianapolis.

OAK FOREST, p. o., Cumberland county, *Virg.*: 85 m. W. Richmond.

OAKFUSKY, p. v., Randolph co., *Ala.*: on the E. side of the Tallapoosa r., 75 m. N. by E. Montgomery.

OAK GROVE, p. o., Montgomery county, *Ala.*: 15 m. S. Montgomery.

OAK GROVE, p. o., Hempstead co., *Ark.*: 101 m. S. S. W. Little Rock.

OAK GROVE, p. o., Christian county, *Ky.*: 172 m. S. W. Frankfort. The Nashville and Henderson R. R. passes near the location.

OAK GROVE, p. v., Washington par., *La.*: situate between Mc'Gee and Big Silver creeks, in N. part of par., 63 m. N. E. Baton Rouge.

OAK GROVE, p. o., Livingston county, *Mich.*: 33 m. S. E. Lansing.

OAK GROVE, p. o., Chickasaw co., *Miss.*: 123 m. N. E. Jackson.

OAK GROVE, p. o., Titus co., *Tex.*: 257 m. N. E. Austin City.

OAK GROVE, p. v., Jackson co., *Mo.*: 112 m. W. by N. Jefferson City.

OAK GROVE, p. o., Jefferson county, *Tenn.*: 193 m. E. Nashville.

OAK GROVE, p. o., Westmoreland co., *Virg.*: 49 m. N. E. Richmond.

OAK GROVE, p. o., Linn co., *Ia.*: 23 m. N. Iowa City.

OAK GROVE, p. o., Dodge co., *Wisc.*: 52 m. N. Madison.

OAK GROVE FURNACE, p. o., Perry co., *Penn.*: in the village of Landisburg, 23 m. W. by N. Harrisburg. A coal blast furnace, with an annual capacity of 1,100 tons, is situate here.

OAKHAM, t. and p. v., Worcester co., *Mass.*: 53 m. W. Boston. Drained chiefly by Ware r., which bounds it on the N., and also by several small rivulets passing through it. Surface rolling; soil good, affording excellent pasturage for cattle. Pop. 1,137.

OAKHILL, p. v., Newton co., *Ga.*: near one of the forks of Ocmulgee r., 59 m. N. W. Milledgeville.

OAK HILL, p. o., Franklin county, *Ala.*: 185 m. S. S. E. Montgomery.

OAK HILL, p. o., Hardin county, *Ky.*: about 67 m. S. W. Frankfort.

OAK HILL, p. o. and sta., Cumberland co., *Me.*: on the line of the Kennebec and Portland R. R., 23 m. from Portland and 30 m. S. $\frac{1}{2}$ W. Augusta.

OAK HILL, p. v., Lake co., *Ill.*: near Lake Michigan, 195 m. N. E. Springfield.

OAK HILL, p. v., Jefferson co., *Wisc.*: 40 m. W. by S. Madison.

OAK HILL, p. o., Greene co., *N. Y.*: on the line of the Hudson River R. R., 110 m. from New York City, 32 m. S. W. Albany.

OAK HILL, p. o., Granville co., *N. Car.*: about 43 m. N. Raleigh.

OAK HILL, p. v., Jackson co., *Ohio*: on the line of the Scioto and Hocking Valley R. R., 77 m. S. S. E. Columbus. There are several furnaces within a short distance of the village.

OAK HILL, p. v., Lancaster co., *Penn.*: 53 m. W. by S. Philadelphia and 53 m. S. E. Harrisburg. There are situate here 2 charcoal forges, yielding annually 400 tons bloom iron and 230 tons bars, and a rolling-mill producing 400 tons annually.

OAK HILL, p. o., Overton county, *Tenn.*: 85 m. E. by N. Nashville.

OAK HILL, p. v., Fauquier co., *Virg.*: on the Manassas Gap R. R., 93 m. N. by W. Richmond.

OAK HILL, p. o., Panola county, *Miss.*: 133 m. N. Jackson.

OAKLAND county, *Mich.* Situate S. E. of the S. peninsula, and contains 896 sq. m. Drained by Clinton r. and its affluents, and branches of Flint, Rouge, Shiawassee and Huron rivers. Surface undulating and diversified with numerous small lakes; soil fertile, and yields good crops of wheat, Indian corn, and potatoes. Farms 3,446; manuf. 146; dwell. 5,699, and pop.—wh. 31,207, fr. col. 63—total 31,270. *Capital*: Pontiac. *Public Works*: Detroit and Pontiac R. R.

OAKLAND, p. o., St. Francis co., *Ark.*: 70 m. W. N. W. Little Rock.

OAKLAND, p. v., Coles county, *Ill.*: on a branch of the Embarras r., 85 m. E. Springfield.

OAKLAND, p. v., Christian co., *Ky.*: 175 m. S. W. Frankfort. Situate directly on the boundary line between Christian and Caldwell counties.

OAKLAND, t. and p. o., Oakland co., *Mich.*: 51 m. E. Lansing and 25 m. N. Detroit. Drained by Paint cr. and a branch of Stony cr. Surface hilly; soil of great variety—in some parts marshy. Pop. of t. 978.

OAKLAND, p. o., Yallabusha co., *Miss.*: 131 m. N. by E. Jackson.

OAKLAND, p. v., LaClede co., *Mo.*: on the Osage Fork of the Gasconade r., 64 m. S. by W. Jefferson City.

OAKLAND, p. o., Chatham county, *N. Car.*: 36 m. W. Raleigh.

OAKLAND, sta., Alleghany co., *Md.*: on the Baltimore and Ohio R. R., 233 m. W. Baltimore.

OAKLAND, p. o., Spencer county, *Ind.*: 119 m. S. S. W. Indianapolis.

OAKLAND, sta., Marion county, *Ind.*: on the Indianapolis and Bellefontaine R. R., 14 m. N. E. Indianapolis.

OAKLAND, p. o., Lavaca county, *Tex.*: 77 m. S. E. Austin City.

OAKLAND, p. o., Livingston co., *N. Y.*: 208 m. W. by S. Albany.

OAKLAND, p. o., Clinton county, *Ohio*: 57 m. S. W. Columbus.

OAKLAND, v., Fairfield co., *Ohio*: 31 m. S. E. Columbus. Pop. 133.

OAKLAND, p. o., Armstrong co., *Penn.*: 145 m. W. N. W. Harrisburg.

OAKLAND, sta., Chester co., *Penn.*: on the Columbia and Philadelphia R. R., 30 m. from Philadelphia.

OAKLAND, p. o., Edgefield dist., *S. Car.*: 49 m. W. S. W. Columbia.

OAKLAND, p. o., Fayette county, *Tenn.*: 155 m. S. W. Nashville.

OAKLAND, p. v., Morgan co., *Virg.*: 143 m. N. by W. Richmond.

OAKLAND, p. v., Jefferson county, *Wisc.*: 23 m. S. W. Madison.

OAKLAND, p. o., Lauderdale county, *Ala.*: 175 m. N. W. Montgomery.

OAKLAND, p. v., Tuolumne co., *Calif.*: on the N. side of the river De los Merced, branch of San Joaquin r., 115 m. S. E. Vallejo.

OAKLAND COLLEGE, p. v., Claiborne county, *Miss.*: 60 m. W. S. W. Jackson. The college was founded in 1830, and in 1850 had 6 professors, 114 alumni, 84 students, and a library of 9,000 volumes.

OAKLAND GROVE, p. v., Prairie co., *Ark.*: on a fork of Cypress Bayou of White r., 24 m. N. E. Little Rock.

OAKLAND MILLS, p. o., Juniata co., *Penn.*: 35 m. W. N. W. Harrisburg.

OAK LAWN, p. o., Baker county, *Ga.*: 135 m. S. S. W. Milledgeville.

OAK LAWN, p. o., Cabarras co., *N. Car.*: 97 m. S. S. W. Raleigh.

OAK LEVEL, p. o., Benton county, *Ala.*: 103 m. N. by E. Montgomery.

OAK LEVEL, p. o., Henry county, *Virg.*: 131 m. S. W. Richmond.

OAKLEY, p. o., Overton county, *Tenn.*: 85 m. E. by N. Nashville.

OAKLEY, p. o., Macon co., *Ill.*: 35 m. E. Springfield.

OAKLEY, p. v., Meechlenburg co., *Virg.*: on a branch of Dan r., 59 m. S. W. Richmond.

OAKLEY, p. o., Lewis co., *Mo.*: 106 m. N. by E. Jefferson City.

OAKLEY, p. o., Franklin parish, *La.*: 119 m. N. by W. Baton Rouge.

OAKMULGEE, p. o., Bedford county, *Virg.*: on line of the Virginia and Tennessee R. R., 29 m. W. of Lynchburg, 97 m. W. by S. Richmond.

OAKOHAY, p. o., Covington co., *Miss.*: 52 m. S. E. Jackson.

OAK ORCHARD, p. v., Orleans co., *N. Y.*: 243 m. W. by N. Albany.

OAK PLAINS, p. o., Livingston co., *Mich.*: 32 m. S. E. Lansing.

OAK POINT, p. o., St. Lawrence county, *N. Y.*: 157 m. N. by W. Albany.

OAK POINT, p. o., Clatsop co., *Oreg. Ter.*: on the S. side of Columbia r., 80 m. N. Salem. It occupies a site immediately opposite the E. end of Gull Island.

OAK POINT, p. o., Van Buren co., *Ia.*: 63 m. S. by W. Iowa City.

OAK RIDGE, p. o., Hancock co., *Ohio*: 72 m. N. N. W. Columbus.

OAK RIDGE, p. o., Greene co., *Ark.*: on a branch of Eel river, 114 m. N. E. Little Rock.

OAK RIDGE, p. o., Graves county, *Ky.*: 227 m. S. W. Frankfort.

OAK RIDGE, p. o., Meriwether county, *Ga.*: 85 m. W. Milledgeville.

OAK RIDGE, p. o., Guilford co., *N. Car.*: 75 m. W. N. W. Raleigh.

OAK'S CORNERS, p. v., Ontario co., *N. Y.*: 173 m. W. by N. Albany.

OAK SHADE, p. o., Culpepper co., *Virg.*: 63 m. N. by W. Richmond.

OAK SPRING, p. o., Ballard county, *Ky.*: 241 m. S. W. Frankfort.

OAK SPRING, p. v., Davis co., *Ia.*: on S. side of Soap cr., 75 m. S. W. Iowa City.

OAK'S SHOP, p. o., Pittsylvania co., *Virg.*: 115 m. S. W. Richmond.

OAKSVILLE, p. v., Otsego co., *N. Y.*: on a branch of the Susquehanna r., 67 m. W. Albany.

OAKTIBBEHA, p. o., Kemper co., *Miss.*: 95 m. E. N. E. Jackson.

OAKVILLE, p. o., Union co., *Ark.*: 107 m. S. by W. Little Rock.

OAKVILLE, p. v., Lawrence county, *Ala.*: 145 m. N. W. Montgomery.

OAKVILLE, p. o., Madison county, *Tenn.*: 121 m. S. W. Nashville.

OAKVILLE, p. o., St. Mary's co., *Md.*: 41 m. S. Annapolis.

OAKVILLE, p. v., Monroe co., *Mich.*: 70 m. S. E. Lansing.

OAKVILLE, p. v., St. Louis co., *Mo.*: near the W. side of the Mississippi, 157 m. E. Jefferson City, and 13 m. S. by W. St. Louis City.

OAKVILLE, p. o., Union county, *N. Car.*: 313 m. S. W. Raleigh.

OAKVILLE, p. o., Cumberland county, *Penn.*: W. from Harrison.

OAKVILLE, p. v., Lexington dist., *S. Car.*: 13 m. N. W. Columbia.

OAKVILLE, p. o., Appomattox co., *Virg.*: about 65 m. W. Richmond.

OAKWOODS, p. o., Fleming county, *Ky.*: 71 m. E. by N. Frankfort.

OAK WOODS, p. o., Grant county, *Ind.*: 57 m. N. E. Indianapolis.

OASIS, p. o., Marquette co., *Wis.*: 52 m. N. Madison.

OATLANDS, p. o., Loudon co., *Virg.*: 103 m. N. Richmond.

O'BANNONS, sta., Jefferson county, *Ky.*: on the Louisville and Frankfort R. R., 15 m. E. Louisville, and 14 m. W. Frankfort.

OBERLIN, p. v., Lorain co., *Ohio*: on the E. side of W. branch of Black r., where it is crossed by the Toledo, Norwalk, and Cleveland R. R., 99 m. N. N. E. Columbus. It is the seat of Oberlin College, to the benefits of which both male and female students are admitted—manual labor forming part of the instruction. It is under Congregational influence; was founded in 1834, and in 1850, had a president, 12 instructors, 199 alumni (of whom 130 are in the ministry), and 66 students. There is a library attached to the college containing 4,200 volumes. Its theological department has 3 professors, 20 students, and 124 alumni, with a library containing 250 volumes. The "Oberlin Evangelist" (relig.), a semi-monthly paper, is published here.

OBION county, *Tenn.* Situate N. W., and contains 1,012 sq. m. Drained by Redfoot and Obion rivers, tributaries of the Mississippi r., which forms its western boundary. Surface level, and on the Mississippi low and subject to submersion; soil fertile and adapted to cotton and tobacco. It has some timber land and good pasturage for cattle. Farms 653; manuf. 6; dwell. 1,131, and pop.—wh. 6,572, fr. col. 4, sl. 1,057—total 7,633. *Capital*: Troy. *Public Works*: Mobile and Ohio R. R.; Nashville and Mississippi R. R.

OBION, p. o., Hickman co., *Ky.*: 253 m. S. W. Frankfort.

OBION river, *Tenn.*: the principal head branches rise in Henry and Carroll counties, and pursuing a W. and S. W. course flow into the Mississippi at Hales Point. Obion, Weakly, Henry, Carroll, Gibson, and Dyer counties are well drained by this river and its tributaries.

O'BRIEN county, *Ga.* Situate N. W., and contains 576 sq. m. Drained by branches of Little Sioux r. Surface rolling, a large portion being prairie; soil fertile, and is well adapted to wheat, corn, fruit, etc.; valuable timbers line the streams. *Capital*: Ainsley.

OCCOQUAM, p. v., Prince William co., *Virg.*: on W. side of the Occoquan r., 75 m. N. Richmond.

OCCOQUAM river, *Virg.*: the most important tributary of the Potomac, rises in Fauquier and Prince William counties, flows S. E., separating Fairfax and Prince William counties, and empties into the Potomac. The tide flows up 7 m. to the town of the same name, above which the river descends 72 feet in the distance of a mile and a half, and to which small sea vessels ascend.

OCCUPACIA, p. o., Essex county, *Virg.*: 87 miles N. E. Richmond.

OCEAN county, *N. Jer.* Situate E. toward the S., and contains 435 sq. m. Drained by Tom's r. and Cedar, Manahocking, and Westecneck creeks. Surface level; soil in parts fertile, and consisting chiefly of sand with clay intermixed. There is good pasturage for cattle. Farms 379; manuf. 52; dwell. 1,758, and pop.—wh. 9,583, fr. col. 149—total 10,082. *Capital*: Tom's River Village.

OCEAN, t. and p. o., Monmouth co., *N. Jer.*: running parallel with the Atlantic Ocean, 36 m. E. Trenton. Drained by Whale Pond cr., Corlies or Great Pond cr., and other small streams emptying into the ocean. Surface in the W. hilly, otherwise level; soil loam, sand, and clay. In the N. E., on a promontory extending several miles, is Sandy Hook, on which is a revolving light and two beacons. The t. is well supplied with water privileges, and contains several mills and manufactories. Set off from Shrewsbury in 1849. Pop. 3,767.

OCEANA county, *Mich.* Situate N. W. of the S. peninsula, and contains 763 sq. m. Drained by White and Maskagon rivers, the former of which traverses its central part. Surface slightly undulating; soil fertile and productive. Farms —; manuf. 2; dwell. 58, and pop.—wh. 232, fr. col. 19—total 301. *Capital*: —

OCEAN PORT, p. o., Monmouth co., *N. Jer.*: 39 m. E. Trenton.

OCEOLA county, *Ja.* Situate N. W., and contains 432 sq. m. Drained by head branches of Little Sioux r. Surface undulating, and diversified with lakes. Much of the land is prairie, and a portion of it is well wooded. Laid off since 1850.

OCEOLA, p. o., Cherokee county, *Ala.*: 133 m. N. by E. Montgomery.

OCEOLA, p. v., and cap. Mississippi co., *Ark.*: on the Mississippi r., 87 m. above Memphis, *Tenn.*, 157 m. E. N. E. Little Rock, at the head of *Plumb Point Bars*, the most difficult and dangerous part of the Mississippi r. Many steamboats have been sunk here, and portions of them may be seen at low water. It contains the court-house, etc.

OCEOLA, p. v., Crawford co., *Ohio*: on Broken Sword cr of Sandusky r., 61 m. N. by W. Columbus.

OCEOLA CENTRE, p. o., Livingston county, *Mich.*: 35 m. E. by S. Lansing.

OCHESSE, p. v., Calhoun co., *Flor.*: on W. bank of Apalachicola r., and on the Apalachicola post-road, 33 m. W. by N. Tallahassee.

OCKLOCKONY, p. o., Thomas co., *Ga.*: 181 m. S. by W. Milledgeville.

OCMULGEE, p. o., Perry county, *Ala.*: 43 m. W. by N. Montgomery.

OCMULGEE river, *Ga.*: rises in the hilly region S. of the Chattahoochee in De Kalb and Gwinnett counties, flowing 250 m. in a S. and E. direction, is joined by the Oconee r. on the S. border of Montgomery co., where they form the Altamaha, which empties into the sound so called of the Atlantic Ocean. The river is navigable for small steamboats as far up as Macon, Bibb co. It has several branches, which afford excellent water-power to several counties in its course.

OCMULGEEVILLE, p. o., Telfair co., *Ga.*: 79 m. S. by E. Milledgeville.

OCOA, p. o., Polk co., *Tenn.*: 137 m. S. E. Nashville.

OCOLA, p. v., and cap. Marion county, *Flor.*: on the St. Augustin and Tallahassee post-road, 157 m. S. E. Tallahassee. Situate about 5 m. N. from Fort King. It is the seat of the county court-house. The "Ocola Argus" (whig) is published weekly.

OCOA LUTY, p. o., Haywood co., *N. Car.*: situate in the W. part of the county, 263 m. W. S. W. Raleigh.

OCONEE, p. v., Washington co., *Ga.*: on the E. side of Oconee r., and on the line of the Central (Georgia) R. R., 147 m. N. W. Savannah, and 23 m. S. E. Milledgeville.

OCONEE river, *Ga.*: rises in the hilly region near the Chattahoochee r. in Hall co., running a S. by E. course 200 m.; connects with the Ocmulgee, and forms the Altamaha r., which flows into the Atlantic Ocean. Apalachie river and Indian creek are its principal branches.

OCONEE STATION, p. v., Pickens district, *S. Car.*: 131 m. N. W. Columbia.

OCONOMOWOCK, t. and p. v., Waukesha co., *Wis.*: 45 m. E. Madison. Drained by branches of Rock r., which pass through the N. and S. of it, affording excellent water-power. Three lakes form the S. boundary. There is some good timber land in the town. The v., which is small, is in the S. part, on a branch of Rock river. Pop. of t. 1,218.

OCRAOKE, p. v., Hyde co., *N. Car.*: on the island near Ocracoke inlet, and about 25 m. S. by W. Cape Hatteras, 153 m. E. by S. Raleigh.

OCTAARA, p. o., Lancaster co., *Penn.*: near a creek by same name, 53 m. E. S. E. Harrisburg.

OENCA, p. o., Jefferson co., *Wis.*: 29 m. W. Madison.

OGALLA, p. o., Chippewa co., *Wis.*: 162 m. N. W. Madison.

OGDEN, p. v., Henry co., *Ind.*: on the Indiana Central R. E. 31 m. E. by N. Indianapolis.

OGDEN, t. and p. o., Monroe co., *N. Y.*: 221 m. W. by N. Albany, and 13 m. Rochester. Surface level; soil gravelly loam. Drained by Salmon cr. The Rochester, Lockport,

and Niagara Falls E. R., and Erie Canal pass through, on the latter of which Adam's Basin is situated. There are in the several stores and mills, a furnace, and a number of other industrial establishments. Pop. 2,598.

OGDEN, p. v., New Madrid co., *Mo.*: between Lake St. John's and St. Mary, 188 m. S. E. Jefferson City.

OGDEN CITY, p. v., Weber co., *Utah Ter.*: on N. side of Weber r., 157 m. N. Fillmore City.

OGDENSBURG, p. v. and port of entry, St. Lawrence co., *N. Y.*: on the right bank of St. Lawrence r., at the mouth of Oswegatchie r., 161 m. N. W. Albany. The Northern E. R. has its western terminus at this place, and steamers ply hence daily for the river and lake ports, making it a *dépôt* of great importance. Prescott, a large town, lies on the opposite side of the river, here $\frac{1}{4}$ m. broad, and is connected by a steam ferry. The v. contains immense *dépôts*, and other warehouses, stores of every description, 3 banks, foundries, machine shops, and other industrial establishments, schools, and churches, and, on the whole, is one of the most progressive villages of the State. The manufactures of this place find an immense water-power on the Oswegatchie, on which there are falls. It is at the lower termination of sloop navigation, but steamboats go to the rapids, 40 m. below, and thence pass by Ogdensburg to the various places on Lake Ontario. Pop. about 6,000. The v. is connected with Boston and New York by railroad—distance to Boston 408 m., and to New York City 482 miles. Ogdensburg has 4 newspapers, the *St. Lawrence Republican* (dem.), the "O. Sentinel" (whig), the "O. Forum" (whig), and the "Northern New Yorker" (neut.), all published weekly. The shipping owned here in 1850 amounted to 1,985 tons, all navigated by steam. The foreign arrivals, in the district of which Ogdensburg is the port of entry, in 1850, were 380 vessels, and 196,915 tons, and the departures 375 vessels, and 189,705 tons. This is exclusive of the vast amount of shipping engaged in the domestic coasting trade, and is indicative of the extent of its connection with the British provinces. The coastwise trade is valued at \$7,000,000 annually.

OGEECHEE RIVER, *Ga.*: rises in the E. part of Greene co., and flowing in a S. E. direction 200 m., empties into Ossa-

baw sound of the Atlantic Ocean. Its principal branches are Lambert creek, in Jefferson co., Little Ogeechee r., in Scriven co., on the E., Williamson's S. W. cr. and Connouchee r. on the W., forming in all extensive water-power. It is navigable for vessels of 80 tons as far up as Louisville, in Jefferson co., and for sloops 40 m. from its mouth.

OGEECHEE, p. v., Scriven co., *Ga.*: on N. side of Ogeechee r., 60 m. from Savannah, near the Central (Georgia) R. R., 97 m. S. E. Milledgeville.

OGEMAW COUNTY, *Mich.* Situate N. E., and contains 576 sq. m. Drained by Rifle r. and a branch of the Aux Rais. Surface generally level; soil a deep, black, vegetable mold. Set off since 1850.

OGLE COUNTY, *Ill.* Situate N., and contains 576 sq. m. Drained by Rock r. and its tributaries. Surface undulating; in parts it is low and marshy, and unfit for cultivation; soil in general fertile, and produces wheat and Indian corn. The marshes, when drained, make good grazing land. Some portions of the co. are thickly covered with valuable timber. Farms 1,058; manuf. 30; dwell. 1,678, and pop.—wh. 9,990, fr. col. 30—total 10,020. *Capital*: Oregon City. *Public Works*: Central Illinois R. R.; Rockford and Rock Island R. R., etc.

OGLE, p. o., Butler county, *Penn.*: 165 m. W. N. W. Harrisburg.

OGLE, p. v., Ogle co., *Ill.*: at the head of Washington cr., 153 m. N. by E. Springfield.

OGLETHORPE COUNTY, *Ga.* Situate toward the N. E., and contains 515 sq. m. Drained by branches of Broad river, which runs on the N. E., and of Oconee r., which bounds it on the S. W. Surface level; soil varied; in general very fertile. Cotton is the chief production, but fine crops of wheat, Indian corn, and potatoes are raised. There is some good timber on the land. Farms 555; manuf. 13; dwell. 819, and pop.—wh. 4,382, fr. col. 3, sl. 7,874—total 12,259. *Capital*: Lexington. *Public Works*: Athens Branch E. R.

OGLETHORPE, p. v., Macon co., *Ga.*: on Flint river, 71 m. S. W. Milledgeville. The South-western R. R. passes through the v., 50 m. from Macon.

OGUNQUIT, p. v., York co., *Me.*: on N. side of Ogunquit r. 1 m. from the Atlantic coast, 86 m. S. W. Augusta.

THE STATE OF OHIO.

OHIO, the most wealthy and prosperous of the new States, north-west of the Ohio River, is situated between $35^{\circ} 24'$ and 42° latitudes north, and between $80^{\circ} 34'$ and $84^{\circ} 42'$ longitudes west. It is a compact mass of land, lying between Pennsylvania and Virginia on the east; Kentucky on the south, from which it is separated by the Ohio River; Indiana on the west, and Michigan and Lake Erie on the north, along which its coast-line extends 257 miles. Its general length is 200 miles, and its breadth, north and south, about 140 miles, with an area of 39,964 square miles.

Though the surface is much and delightfully varied, it nowhere presents any considerable elevations above the general level; but the country is a lofty table-land, which, in its middle zone, is about 1,000, and on the northern and southern borders from 600 to 800 feet above the sea level. A slightly elevated ridge of highlands divides the waters flowing north into Lake Erie from those flowing south into the Ohio. From this there is a rather rapid descent to the level. The lake, and the courses of the rivers on the Erie slope, are rapid, and considerably broken by falls. The general slope toward the Ohio on the south is interrupted by a subordinate ridge, which crosses the State in the latitude of Zanesville and Columbus, between which and the river the surface is very much diversified with hills and valleys. The central belt consists of extensive flat tracts, with numerous broad swells rising gently from the plains; and swamps and morasses occasionally occur. The northern or Erie slope also contains extensive morasses. The extent of swamp lands in the State, however, is only 303,329 acres, or one-eighth part of the whole. Nine-tenths of the surface of the State is susceptible of cultivation, and nearly three-fourths of the soil is eminently productive; even the hills are generally cultivable to their summits, and covered with a fertile soil. The river bottoms are extensive and exuberantly fertile. In the centre and north-west, prairies or natural meadows are numerous and extensive, but the greater part of the country was originally covered with magnificent forests of gigantic trees, and even at the present day timber is abundant.

The rivers of Ohio debouch either into the Ohio or into Lake Erie. The Ohio runs along the southern border for nearly 500 miles, and the principal rivers falling into it are the Muskingum, the Hockhocking, the Scioto, the Little Miami, the Miami, etc. The *Muskingum*, which enters the Ohio at Marietta, rises in the northern watershed, near the head waters of the Cuyahoga, and drains a beautiful and fertile district. It is about 120 miles in length, and is navigable during a greater part of the year by small steamboats to Zanesville, 75 miles, and by batteau to Coshocton, 110 miles, and above this small boats ascend to within a mile of the Cuyahoga. Sandy River and Wills Creek, on the east, and Walhonding or White-woman's River, and the Licking, from the west, are its principal tributaries, and are useful mill streams. The *Hockhocking* rises on the southern ridge, and reaches the Ohio at Hocking Port, after a course of 80 miles through a hilly and picturesque country, abounding in yellow pine. It is narrow and deep, and navigable for small boats to Athens. The

Hoeking Canal follows the course of this river. The *Scioto* is a fine navigable stream, entering the Ohio at Portsmouth. It flows through a wide and fertile valley, and in the upper part of its course is surrounded by rich and beautiful prairies. Boats have ascended almost to its source, near Bucyrus, and passed by a portage of 4 miles into the Sandusky and Lake Erie. Delaware, Columbus, Circleville, Chillicothe, and Piketon are the principal places on its banks. The *Little Miami* has its rise in the southern ridge, and although too much broken by falls to be useful as a navigable channel, it is a fine mill stream, furnishing an abundant supply of water for manufacturing purposes. It enters the Ohio about 12 miles above Cincinnati. The head waters of the *Miami*, or Big Miami, approach very near to those of the *Scioto*, the *Auglaize*, and the *St. Mary's*; its current is rapid, but it is navigable for some 70 or 80 miles. At several points—at Sidney, Troy, Dayton, and Hamilton—it furnishes excellent water-power, especially at Dayton, where it has been greatly improved for manufacturing purposes. It is 200 yards wide at its mouth, and enters the Ohio in the south-western corner of the State, after a course of 100 miles. Among the northern rivers are the *Maumee*, *Sandusky*, *Cuyahoga*, etc. The *Maumee*, or *Miami* of the Lake, which has its source in Indiana, is the principal; it is formed by the junction of *Little St. Joseph's*, *St. Mary's*, and *Great and Little Auglaize* rivers. Its length is about 100 miles, and 50 miles from its mouth it is 70 rods wide. The navigation is open to schooners and steamboats 18 miles to Perrysburg, and in spring and fall it is boatable to *Port Wayne*, and at all times furnishes extensive water-power. The river bottoms are extensive and fertile, and the banks are high and heavily timbered. It enters *Lake Erie* through *Maumee Bay*. The *Sandusky* is a rapid stream, but navigable during high stages of the water. To *Fremont City* the navigation is always open. It enters the lake through *Sandusky Bay*, an immense basin, destined to be the scene of a mighty commerce. *Sandusky City*, on its south-east shore, is one of the principal ports of the lake, and the terminus of several lines of railroad, connecting with the interior and the shore district. The *Cuyahoga* rises near *Lake Erie*, but taking a south-westerly course, it approaches the head of the *Muskingum*, and thence flows northward into the lake at *Cleveland*. It is one of the most important rivers of Northern Ohio. It is more than 60 miles long, and has numerous falls and is an excellent mill stream. Along its banks several flourishing manufacturing villages have sprung up. The mouth of the river, which has been improved and extended by piers, forms the harbor of *Cleveland*. Besides these there are other important streams flowing into the lake, as *Portage River*, navigable for 12 miles from *Port Clinton*; *Huron River*, navigable to *Milan*, 14 miles, and entering the lake at *Port Huron*; *Vermillion River*, *Black River*, *Rocky River*, etc., all of which are navigable to a greater or less extent, and which, at their mouths, furnish harbors.

Ohio is one of the richest mineral States of the Union. Iron, coal, and lime—the most useful of minerals—abound in all the eastern portion of the State, and are deposited in beds of vast thickness. Salt springs are numerous in the same region. The coal of Ohio is bituminous, and lies very accessible, requiring comparatively little capital to handle it, but as yet there is, except in some of the principal cities—*Cincinnati*, *Dayton*, *Cleveland*, etc.—but little manufacturing, and in a large portion of the State the people are not sufficiently near the mines or public works to use coal in competition with wood. Time and the axe, however, are rapidly destroying the forest, and wood is fast rising in price; and the period is not distant when the whole people of the Central West will use coal. The progress of the railroad will hasten this revolution in the industrial and domestic economy of the State. The marketable production of coal in Ohio may be determined approximately by the report of the Board of Public Works. The principal points of coal mining are at *Talmadge*, *Summit County*; *Pomeroy*, *Meigs County*; *Nelsonville*, *Athens County*; and some points in *Stark* and *Coshocton* counties. The amount brought to market from these several points in 1850-51 was as follows: from *Akron*, 3,052,850 bushels; from *Massillon*, 186,893 bushels; from *Dover*, 59,150 bushels; from *Roscoe*, 260,256 bushels; from *Nelsonville*, 930,150 bushels; and from *Pomeroy*, about 2,000,000 bushels—in all, 6,489,299 bushels. This is but a sixteenth part of the coal brought to market from *Easton*, *Pennsylvania*, yet it is a large amount, and a large increase on the production a few years since. It is about the production of *Pennsylvania* 15 years ago. May not the increase of the coal trade in Ohio be as rapid as that of *Pennsylvania*? If so, what an important effect it will have on the industry and internal commerce of the State. The consumption of coal in the interior towns is gradually increasing. In 1850, *Columbus* took 285,521, and in 1851, 499,951 bushels; *Circleville*, in 1850, 66,109, and in 1851, 93,829; *Chillicothe*, in 1850, 183,189, and in 1851, 205,867; *McConnellsville*, in 1850, 46,285, and in 1851, 68,444; *Middletown*, in 1850, 19,025, and in 1851, 16,805; *Dayton*, in 1850, 89,958, and in 1851, 63,840; and *Piqua*, in 1850, 8,868, and in 1851, 9,677 bushels; total in these places—in 1850, 689,900 bushels, and in 1851, 957,893 bushels. These are nominally small quantities, but the increase (50 per cent.) in one year is quite remarkable, and proves that as wood rises in price, as manufactures increase and railroads extend, that the consumption of coal will increase more than proportionately. The coal carried to market annually by *Pennsylvania* brings back to her \$20,000,000. An income like this, dug out of the earth, in a single article, is alone enough to stimulate other States, possessing it to foster its production, and become prosperous and independent through the same means.

That the iron business of the same region is destined at no distant day to become of equal magnitude and importance, must be apparent to the most casual observer. Extending through the counties of *Lawrence*, *Gallia*, *Jackson*, *Meigs*, *Vinton*, *Athens*, and *Hoeking*, is a belt of iron ore, averaging some twelve miles in width, and extending a distance of one hundred or more in length, each square mile of which can be made susceptible of keeping up a furnace employing one hundred hands, and yielding eight tons of iron per day, for any desirable period of time. Coal of the very best quality, from three to twenty, and even thirty feet in thickness, also underlies, as before remarked, the counties named, together with others, sufficient to last for ages as a means of fuel for manufacturing in their midst as well as supplying the market demand north, west, and south of the mineral region. *England*, with an available coal region occupying an area less than the counties of *Meigs* and *Athens* united, produces annually \$50,000,000 worth of iron, and yet at this day the mineral region of Ohio alone is susceptible of being rendered four-fold more valuable than the entire mineral region of *England*. If a patch containing but a few square miles has done so much for central *England*, what may not the fields containing many hundred square miles do for Ohio?

That the salines of Ohio are immensely valuable, although not in the same proportion as its collieries and iron deposits, can not admit of a doubt. There are salt wells on *Yellow Creek*, above *Steubenville*; on *Will's Creek*; on the *Muskingum River*, from the *Coshocton* to near its mouth; on the *Hoekhooking*; on *Leading Creek*, and in numerous other places. At the lower wells on the *Muskingum*, the salt rock is reached at 900 feet from the surface, and in some of the localities farther up the river at 650 to 700 feet. Of brine from the former, 100 gallons yield as many pounds of salt of an excellent quality; the upper springs are not so strong. On the *Hoekhooking* the salt is reached near *Athens* at a depth of 800 feet, and higher up the river it is much nearer the surface.

Marble and freestone, well adapted for building purposes, and gypsum, also occur. The *Yellow Springs*, in *Greene County*, sixty-four miles north of *Cincinnati*, are situated in a delightful region, and have been resorted to with advan-

OHIO.

age in some cases of chronic diseases. The White Sulphur Springs, in Delaware County, have also been found efficacious in some complaints.

The agricultural productions of Ohio are such as are common to the Eastern and Middle States. Indian corn is the staple grain, and of this crop Ohio produces a larger quantity than any other State, and exactly one-tenth of the whole crop of the United States; its wheat crop is one-seventh of the aggregate of the Union, and only surpassed by that of Pennsylvania; Pennsylvania and New York alone produce larger crops of oats and buckwheat, and New York alone a larger crop of barley. It ranks seventh as a tobacco-producing State, second in relation to wines, and fifth for silk culture. New York alone exceeds it in the value of its live-stock. It owns one-tenth the number of horses in the Union, and more than any other State; only one State (New York) has a larger number of milch cows and other cattle. It has more sheep than any other State, and in only four States are there a larger number of hogs. Cincinnati, its largest city, is renowned as the greatest hog-packing centre of the West. One-ninth of the butter produced in the United States is made in Ohio, and one-fifth of the cheese—in the production of the first Pennsylvania and New York exceed it, and of the latter New York alone. In the production of wool it has no competitor, and of this article one-fifth of the whole product of the country is clipped in Ohio. No markets in the United States are more profusely or cheaply supplied with meats and vegetables than those of the large cities of Ohio. Fruits of all kinds are raised in great plenty, especially apples, which grow to a large size, and are finely flavored. Its potato crop is only exceeded by the crops of two other States.

The rapid growth of Ohio has never been paralleled; in the sixty years from 1790 to 1850, its population rose from 3,000 to 1,950,408. Its fertile lands attracted immigrants from all parts to settle in its smiling valleys and rich plains. The Germans, among the foreign population, are in the largest number; next the Irish, English, French, British American, Welch, Scotch and Swiss, most numerical in the priority of position here assigned them.

Ohio is divided into 87 counties, the general statistics of which, and the capitals of each, in 1850, were as follows:

Counties.	Dwell.	Pop.	Farms in cult.	Manuf. Estab.	Capitals.	Counties.	Dwell.	Pop.	Farms in cult.	Manuf. Estab.	Capitals.

The whole number of dwellings in the State, was at the above date 336,098, of families 348,523, and of inhabitants 1,950,408, viz., whites 1,956,103—males 1,004,111, and females 951,997; fr. col. 24,300—males 12,239, and females 12,061. Of the whole population there were deaf and dumb—wh. 939, fr. col. 8—total 947; blind—wh. 653, fr. col. 19—total 672; insane—wh. 1,365, fr. col. 17—total 1,382; and idiotic—wh. 1,380, fr. col. 19—total 1,399. The number of free persons born in the United States was 1,757,556; the number of foreign birth, 218,512; and of birth unknown, 4,393. The natives

OHIO.

population originated as follows: Maine 3,314, N. Hamp. 4,821, Verm. 14,920, Mass. 13,763, R. I. 1,959, Conn. 22,855, New York 83,979, N. Jer. 23,532, Penn. 200,634, Del. 4,715, Md. 36,698, Dist. of Col. 593, Virg. 85,762, N. Car. 4,807, S. Car. 1,468, Ga. 447, Flor. 17, Ala. 219, Miss. 422, La. 648, Tex. 29, Ark. 141, Tenn. 1,573, Ky. 13,829, *Ohio* 1,219,432, Mich. 2,233, Ind. 7,377, Ill. 1,415, Mo. 656, Ia. 378, Wisc. 196, Calif. 0, Territories 24. And the *foreign* population was composed of persons from—England 25,660, Ireland 51,562, Scotland 5,222, Wales 5,549, Germany 111,257, France 7,375, Spain 18, Portugal 7, Belgium 103, Holland 348, Turkey 1, Italy 174, Austria 29, Switzerland 3,291, Russia 84, Denmark 53, Norway 13, Sweden 55, Prussia 765, Sardinia 15, Greece 0, China 3, Asia 6, Africa 7, British America 5,880, Mexico 26, Central America 12, S. America 41, West Indies 86, Sandwich Islands 1, and other countries 544.

The following table will show the decennial increase of the population, since the first census of the State taken by the United States authorities:

Census Years.	White Persons.	Colored Persons.			Total Population.	Decennial Increase.	
		Free.	Slave.	Total.		Numerical.	Per cent.
1800.....	45,028.....	337.....	337.....	45,365.....
1810.....	228,861.....	1,889.....	1,899.....	230,760.....	189,395.....	408.7
1820.....	576,572.....	4,862.....	4,862.....	581,434.....	350,674.....	151.9
1830.....	928,729.....	9,568.....	6.....	9,563.....	937,903.....	356,469.....	61.3
1840.....	1,502,122.....	17,342.....	3.....	17,345.....	1,519,467.....	581,564.....	62.0
1850.....	1,956,108.....	24,300.....	24,300.....	1,980,408.....	460,941.....	30.3

The definite statistics of its wealth, productions, industry, and institutions, according to the census of 1850 and other official returns, are as follows:

Live-Stock.—The number of animals of the several descriptions in 1840 and 1850 are shown in the following table, also the ratio of increase and decrease from the first to the latter period:

Description.	1840.	1850.	Movement.
Horses.....	463,397 head.....	} <i>incr.</i> 36,293 head, or 8.4 per cent.
Asses and Mules.....	430,527 head.....	3,423 ".....	
Milch Cows.....	544,499 ".....	} <i>incr.</i> 141,073 " or 11.6 "
Working Oxen.....	1,217,874 ".....	65,381 ".....	
Other Cattle.....	749,067 ".....	} <i>incr.</i> 1,914,523 " or 94.3 "
Sheep.....	2,028,401 ".....	3,942,929 ".....	
Swine.....	2,099,746 ".....	1,964,770 ".....	<i>decr.</i> 134,976 " or 6.4 "

—in 1850, the whole was valued at \$44,121,741.

Grain Crops.—Wheat, 14,457,351 bushels; rye, 425,713 bushels; Indian corn, 59,078,695 bushels; oats, 13,472,742 bushels; barley, 354,358 bushels; and buckwheat, 638,064 bushels. On comparing these with the returns of 1840, the following results are attained:

Crops.	1840.	1850.	Movement.
Wheat.....	16,571,661 bushels.....	14,457,351 bushels.....	<i>decr.</i> 2,084,310 bushels, or 12.5 per cent.
Rye.....	514,205 ".....	425,713 ".....	<i>decr.</i> 388,487 " or 47.7 "
Indian corn.....	83,668,144 ".....	59,078,695 ".....	<i>decr.</i> 25,410,551 " or 75.5 "
Oats.....	14,393,103 ".....	13,472,742 ".....	<i>decr.</i> 920,361 " or 7.1 "
Barley.....	212,440 ".....	354,358 ".....	<i>incr.</i> 141,918 " or 60.7 "
Buckwheat.....	638,139 ".....	638,064 ".....	<i>incr.</i> 4,925 " or 0.8 "

("In some of the largest wheat-growing States, the crops of 1849 fell far below the average. In the State of Ohio, especially, was there great deficiency, and was made apparent by the returns of the wheat crop for the ensuing year—made in pursuance of an act of the legislature of that State. From the almost universal returns of "short crop" by the marshal in that State in 1849, which fell below that of 1839 two millions of bushels and the ascertained crop of 1850, we are fully satisfied that the average wheat crop of Ohio would appear thirty per cent. greater than shown by the census returns. The same causes which operated to diminish the wheat crop of Ohio were not without their effects upon that of other States bordering on the upper portion of the valley of the Mississippi.")—*Rep. of Supt. of Census Bureau, 1st December, 1852.*

Other Food Crops.—Peas and beans, 60,168 bushels; potatoes—Irish, 5,057,769 bushels, and sweet, 187,994 bushels. The potato crop of 1839, as shown by the census of 1840, amounted to 5,805,021 bushels; and hence there has been a decrease in the crop of 599,253 bushels, or 9.7 per centum.

Miscellaneous Crops.—Tobacco, 10,454,449 pounds; hay, 443,142 tons; clover-seed, 102,197 bushels; other grass seed, 7,310 bushels; hops, 63,731 pounds; hemp—dew-rotted, 140 tons, and water-rotted, 50 tons; flax, 446,937 pounds; faxed, 188,880 bushels; silk cocoons, 1,552 pounds; sugar—maple, 4,583,209 pounds, and cane, 197,000 pounds; molasses, 05,308 gallons; bees-wax and honey, 804,275 pounds; wine, 48,207 gallons, etc. Value of orchard products, \$695,921; and of market-garden products, \$214,204. The principal of these, compared with the crops of the similar staples produced in 1839, exhibit the following movement:

Staple.	1840.	1850.	Movement.
Tobacco.....	5,942,275 lbs.	10,454,449 lbs.	<i>incr.</i> 4,512,174 lbs., or 75.9 per cent.
Hay.....	1,022,037 tons.....	443,142 tons.....	<i>decr.</i> 578,895 tons, or 56.6 "
Hops.....	62,195 lbs.	63,731 lbs.	<i>incr.</i> 1,546 lbs., or 2.4 "
Hemp—dew-rotted.....	140 tons.....	} <i>decr.</i> 19,563,023 lbs., or 96.2 "
" water-rotted.....	9,080½ tons.....	5 tons.....	
Flax.....	446,937 lbs.*.....	} <i>decr.</i> 1,573,177 lbs., or 24.9 "
Sugar—maple.....	6,363,336 lbs.	4,583,209 lbs.	
" cane.....	197,000 lbs.	} <i>incr.</i> 36,683 gals., or 318.3 "
Wine.....	11,524 gals.	48,207 gals.	

* The correctness of the returns as to hemp in the seventh census has not yet been perfectly verified, in a few instances there being some doubt whether the marshals have not written tons where they meant pounds.—*Report of Supt. of Census Bureau, 1st Dec., 1852.* (If they had written tons in the case of Ohio, it could not have been much further from the truth than the "pounds" set down under this head.—*Ed. G.A.*)

OHIO.

Products of Animals.—Wool, 10,196,371 pounds; butter, 34,449,379 pounds; cheese, 20,519,542 pounds; and the value of animals slaughtered during the year 1849-50, was \$7,439,243. The wool crop, according to the census of 1840, amounted to 3,655,515 pounds, and hence the increase of that of 1850 was in the ratio of 176.6 per centum. In 1840, the average clip per fleece was 1.32 pounds, and in 1850, 2.59 pounds, making an increase equal to 12.3 oz. nearly, or 42.3 per centum, and exhibiting an improvement in the breeds in a like ratio.

Occupied Lands, etc.—Improved farm lands, 9,851,493 acres, and unimproved lands belonging to farms, 8,146,000 acres, together valued at \$353,763,603. The whole number of farms under cultivation on the 1st June, 1850, was 143,587. Value of farming implements and machinery, \$12,750,585.

Home-made Manufactures were produced in the year ending 1st June, 1850, to the value of \$1,712,196. The same class of goods for the year represented in the census of 1840 was valued at \$1,553,937.

Manufactures.—Aggregate capital invested, \$90,000,000; value of all raw material, fuel, etc., consumed, \$90,000,000; average number of hands employed, 900,000—males, 600,000, and females, 300,000; wages paid per month, \$900,000; to males, \$900,000, and to females, \$900,000; value of manufactures produced in the year, \$90,000,000. The whole number of industrial establishments in the State, producing to the value of \$500 and upward annually, on the 1st June, 1850, was 10,550, and distributed as shown in the general table of counties—of the whole number 8 were cotton factories, 130 woolen factories, and iron-works 219—35 for the manufacture of pig iron, 183 for castings, and 11 for wrought iron—and 706 tanneries. Ohio has also a large number of machine shops, hardware and cutlery manufactories, distilleries, breweries, harness manufactories, railroad car and carriage factories, tobacco factories, soap, candle, and oil factories, potteries, paper-mills, flouring, grist, saw, and other mills, and other manufacturing establishments, large and small, which in the aggregate make up the summary above presented. The total capital invested in 1840 was \$16,905,257.

In *cotton* manufactures capital invested amounted, at the date specified, to \$297,000; the value of all raw material, fuel, etc., consumed to \$287,060; number of hands employed, 401—132 males and 269 females; entire wages per month, \$4,725—to males, \$2,191, and to females, \$2,534; products of the year, 280,000 yards sheeting and 433,000 pounds of yarn, valued together at \$394,700. Cotton consumed, 4,270 bales, and coal, 2,152 tons. In 1840, the cotton manufactures had a capital of \$113,500, and employed 246 hands; and the value of products was \$139,378.

The *woolen* manufactures have a capital of \$570,220; wool consumed in the year, 1,657,726 pounds; coal consumed, 2,110 tons; value of all raw material, fuel, etc., \$578,423; average hands employed, 1,201—males, 903, and females, 293; entire wages per month, \$21,441—to males, \$18,191, and to females, \$3,250; cloth manufactured in the year, 1,374,087 yards, and yarn, 65,000 pounds, valued together at \$1,111,027. The capital in woolen factories in 1840, was \$537,935; hands employed, 935, and value of products, \$655,757.

The statistics of the *iron* manufacture were as follows:

Specifications.	Pig Iron.	Cast Iron.	Wrought Iron.	Total.
Capital invested.....dollars.....	1,503,000	2,063,650	620,800	4,187,450
Iron ore used.....tons.....	140,610	2,000	—	142,610
Pig iron used.....“.....	—	37,555	13,675	51,230
Old metal used.....“.....	—	1,843	—	1,843
Blooms used.....“.....	—	—	2,900	2,900
Mineral coal consumed.....“.....	21,730	80,006	22,755	74,491
Coke and charcoal consumed.....bushels.....	5,423,800	355,120	466,900	6,250,820
Value of raw material, etc.....dollars.....	630,037	1,199,790	604,433	2,434,320
Hands employed—males.....number.....	2,415	2,758	703	5,881
Monthly wages—males.....dollars.....	59,129	75,348	23,796	158,233
Iron manufactured.....tons.....	52,653	37,399	14,416	104,478
Value of products.....dollars.....	1,255,850	3,069,350	1,076,192	5,391,392

In 1840, there were in the State 72 furnaces, producing 35,236 tons, and 19 bloomeries, forges, and rolling-mills, producing 7,466 tons; capital invested in iron manufactures, \$1,161,900, and hands employed, 2,268.

The *tanneries* employed a capital of \$1,340,359; value of hides and skins used, \$1,118,030; hands employed, 1,326; monthly wages, \$35,830; sides of leather tanned, 688,560, and skins tanned, 225,493; value of products for the year, \$1,964,591. In 1840, there were 812 tanneries in the State, with an aggregate capital of \$957,833, and employing 1,790 hands; products of the year, 161,630 sides of sole leather and 234,037 sides of upper leather.

The capital invested in the manufacture of *malt and spirituous liquors* was \$1,262,974; quantities and kinds of grain, etc., consumed—barley, 330,950 bushels; corn, 3,553,140 bushels; rye, 231,750 bushels; oats, 19,500 bushels; hops, 173 tons; hands employed, 1,033; quantities of liquor produced—ale, 96,943 barrels; whisky and high wines, 11,855,150 gallons. In the manufacture of spirits, Ohio has a much larger interest than any other State, and in reference to the aggregate produced in the United States, the quantity produced in this State amounts to upward of one-fourth; and one-twelfth of the ale, etc., brewed is the product of Ohio. In 1840, the capital invested in these interests amounted to \$593,119; hands employed, 793; 390 distilleries produced 6,329,467 gallons, and 59 breweries, 1,422,534 gallons.

Foreign Commerce.—The direct intercourse between Ohio and foreign states is of very limited amount, and is chiefly confined to a trade between the lake ports and Canada, the great bulk of its merchantable material being carried either to the sea-board at Philadelphia, New York, Boston, or to New Orleans. The latter port is the natural depot of Southern Ohio. The direct imports from foreign countries in the year ending 30th June, 1850, were valued at \$582,504, and the exports at \$217,632. Of the imports, the value carried in American bottoms was \$398,999, and in foreign bottoms, \$183,505; and of the exports the value of domestic products was \$217,532—in American bottoms, \$117,989, and in foreign bottoms, \$99,543, and of foreign products, \$100 carried in foreign bottoms. The statistics of the shipping employed in this branch of industry for the year quoted are embraced in the annexed aggregates:

Nationality of Shipping.	Entered.			Cleared.			Total.		
	Vessels.	Tons.	Crews.	Vessels.	Tons.	Crews.	Vessels.	Tons.	Crews.
American.....	173	21,628	1,065	137	15,485	761	315	37,113	1,826
Foreign.....	136	18,243	899	131	18,322	854	267	36,565	1,738
Total.....	314	39,871	1,964	268	33,807	1,645	582	73,678	3,609

OHIO.

The statistics of the value of exports and imports for a series of years are thus stated in the Treasury Reports:

Year.	Exports.	Imports.	Year.	Exports.	Imports.	Year.	Exports.	Imports.
1829	\$2,004	\$293	1837	\$132,844	\$17,747	1844	\$—	\$—
1830	—	162	1838	139,827	12,595	1845	821,114	78,196
1831	—	—	1839	—	—	1846	852,630	102,714
1832	58,394	12,392	1840	991,954	4,915	1847	778,944	90,681
1833	225,544	5	1841	793,114	11,318	1848	147,699	156,726
1834	241,451	19,767	1842	899,736	13,051	1849	149,724	149,839
1835	97,201	9,808	1843	120,108	10,774	1850	217,632	582,504
1836	8,718	10,960						

The total shipping owned in the State amounted to 62,462 tons, of which 36,894 was owned in the district of Cuyahoga, of which Cleveland is the port of entry, 7,325 in that of Sandusky, 17,159 in that of Cincinnati, and 2,629 in that of Miami. The two first are lake districts, and the two latter districts on the Ohio River. All this shipping, except 72 tons of the class "licensed under 20 tons," was "enrolled and licensed," and employed in the coasting and river trade; and of the whole, 23,653 tons were navigated by steam-power, viz., in Cuyahoga district, 9,994 tons; in that of Sandusky, 1,214 tons; that of Cincinnati, 16,906 tons; and in that of Miami, 539 tons. During the year there had been built in the several districts 81 vessels—4 schooners, 11 sloops, and 16 steamers, of the aggregate burden of 5,215 tons—in Cuyahoga district, schooners and sloops (657 tons); in Sandusky, 5 schooners and sloops (421 tons); and in Cincinnati, 16 steamers and 1 sloop (4,107 tons).

Domestic Commerce.—As before remarked, Ohio sends the great bulk of its productions to the sea-board by the lake, river, canal, and railroad routes, and by the same routes its imports are carried. The value of this commerce is immense, it can not well be stated in figures, except in isolated cases, which serve more as indices of its vastness by all the routes, than as a definite reply to the question. The exports and imports of the lake ports, and of those of the principal points on the Ohio River, are ascertained, and partially so the tonnage and value of goods carried on the railroads; but these, so, in some measure, are not sufficient data from which to ascertain the exact commerce of the State, as they include a large amount of the products of, and goods destined to, the States farther west. If the annual commerce be set down at \$60,000,000, it will not be far from its actual value. The exports from the lake ports alone amounted, in 1850, to \$7,627,885, and the imports to \$25,025,955. The exports of Sandusky increased from \$3,099,939 in 1850, to \$20,027,681 in 1852, and the imports from \$7,010,304 to \$45,072,406; and those of the other lake ports in like proportion. The exports of Cincinnati average \$24,000,000 a year, and the imports \$40,000,000. These are at the principal outlets of the State, and serve to illustrate its general commerce, but there are numerous other points at which the commercial movement is also on an extensive scale. This vast commerce is yearly increasing, but to what amount it may ultimately attain can only be determined by the progress of settlement and production. Its immense mineral wealth, its fertile soils, and the facilities it enjoys for manufactures generally, are such as to invite the attention of both capitalist and producer, and within the State there is as much habitable space as is required for a population equal to that of the British Islands, and hence its progress in wealth, population, and industry, can only be impeded by the attainment of a like status with that nation.

Internal Improvements.—Ohio has completed and is prosecuting numerous enterprises in the way of internal improvement. Its canals and railroads are on a most magnificent scale, crossing and recrossing in every direction, bringing the interior to the borders, and uniting there with the like improvements in the adjoining States. The map of Ohio presents its several lines a complete network of avenues, the principal running from the lake to the river—from Cleveland and Sandusky to Cincinnati, and from the States eastward to those on the west—from Pittsburg, Wheeling, and Parkersburg, toward the Mississippi. The chief railroad centres are Cleveland and Sandusky on the lake coast; Mansfield, Mount Vernon, Newark, Zanesville, Columbus, Xenia, Bellefontaine, Sidney, Springfield, Greenville, Dayton, and Hamilton, in the interior; and Cincinnati on the river. From all these points lines radiate in every direction. Its great valleys are traversed by canals. With respect to Macadamized roads, turnpikes, and common roads, few other States are so amply provided; and in every direction connecting the commercial centres with each other, and with the adjoining States, lines of magnetic telegraph have been in existence for several years. The total length of canal in the State is 930 miles, and the total length of railroad on the 1st January, 1853, was 1,468 miles, and 1,400 miles of the latter was then in progress of construction. The latest statistics respecting canals and railroads will be found in the APPENDIX.

Government.—The present constitution of Ohio was done in convention 10th March, 1851, ratified by the people 17th June, and went into operation 1st September of the same year. It provides:

The right of suffrage is enjoyed by every white male citizen of the United States, twenty-one years old, resident in the State one year next preceding the election, and in the county, town, or ward in which he lives such time as may be provided by law; but no idiot or insane person is allowed to vote, and the General Assembly may disfranchise and make ineligible to hold office any person convicted of bribery, perjury, or other infamous crime. All votes are given by ballot, and the general elections are held on the second Tuesday of October biennially.

The General Assembly consists of a House of Representatives and Senate, the House consisting of one hundred members and the Senate of thirty-five members, elected in districts for two years, their terms commencing on the 1st January after the election. The apportionment of representatives and senators is based on the results of the federal decennial census. Members must be residents of their respective districts one year next preceding their election, unless absent on public business of the State or of the United States. No person convicted of embezzling public funds, or who shall in any way connected with a duel, can hold office, nor any person holding public monies have a seat in the Assembly. No member during his term, and for one year after its expiration, shall be eligible to any office that may have been vacated, or the pay of which may have been increased, during his term. No money shall be paid by special act or any other law unless by a two-thirds vote of the members elected. In all elections by the Assembly the vote shall be *viâ voce*. The executive functions are vested in a Governor, who is elected biennially by a plurality of votes. The Lieutenant-governor, Secretary of State, Treasurer, and Attorney-general are elected in the same way and for the same term, to commence on the second Monday of January. The Auditor is elected for four years. These officers continue in office until their successors are elected and qualified. The Governor has power to pardon, except in cases of treason and impeachment, but must report each case, with his reasons, to the Assembly. In case of the death of the Governor, the Lieutenant-governor succeeds; after him the President of the Senate; and he failing, then the Speaker of the House. The Lieutenant-governor is *ex-officio* President of the Senate. The Auditor, Treasurer, Secretary, or Attorney-general

OHIO.

dying, being disabled, or removed, the Governor may fill the vacant office *pro tempore*, but the vacancy shall be filled at the first general election that occurs more than thirty days after it happens; and the person then elected shall hold office for the full term.

The *Judiciary* consists of a Supreme Court, Courts of Common Pleas, Probate Courts, etc. The Supreme Court consists of five judges chosen by the people at large, a majority of whom form a quorum and pronounce a decision. One judge is elected annually for five years. The court has original jurisdiction in *quo warranto*, *mandamus*, *habeas corpus*, and *procedendo*, and such appellate jurisdiction as may be provided by law, and holds at least one term in each year at the seat of government. For the purpose of electing judges to and holding Courts of Common Pleas, the State is divided into nine districts (of which Hamilton County forms one), and each district is subdivided into three parts, from each of which one judge—to reside while in office in his district—is chosen by the electors of each subdivision for five years. Courts of Common Pleas are held by one or more of the judges in every county as often as the law may provide, and more than one court may be held at the same time in each district. District courts, composed of the judges of the Court of Common Pleas of the respective districts, and one of the judges of the Supreme Court, any three of whom forms a quorum, are held in each county of the several districts at least once in each year. The district courts have original jurisdiction in the same classes of cases as the Supreme Court, and such appellate jurisdiction as may be provided by law. In each county there is a Probate Court, open at all times, holden by one judge chosen by the voters of each county for three years. Justices of the peace are elected in the several townships also for three years. All other judges are chosen by the voters of their respective judicial districts for not more than five years. Vacated judgeships are filled *pro tempore* by the Governor, but a successor to the vacating judge is elected at the next general election, if occurring more than thirty days after the vacancy happens. A Clerk of the Common Pleas is chosen in each county for three years, and such clerk is clerk of all the courts of record in his county, unless otherwise provided by law. Courts of Conciliation may be established. The Legislature, at its first session, provided for the appointment of three commissioners to revise and simplify the practice, etc., of the courts, and, as far as practical and expedient, to abolish distinct forms of action, and the difference between law and equity. In Cleveland and Cincinnati there is also a Superior Court, and in Cincinnati a Commercial Court, the jurisdiction of all which is local.

A *Board of Public Works*, consisting of three members, one elected annually for three years, has charge of the canals, railroads, and other works belonging to the State.

Among the other principal provisions of the constitution are the following: no new county shall be made, or county line or county seat changed but by a vote of the county; lotteries, and the sale of lottery tickets, shall be prohibited; a bureau of statistics may be established; imprisonment for debt, except in cases of fraud, shall be abolished; compensation, assessed by a jury, shall be paid for all property taken for the public use without deduction for benefits to any adjacent property of the owner; all white male citizens, resident in the State, between the ages of eighteen and forty-five years, shall be enrolled in the militia; the principal of all funds arising from the sale of lands or other property granted or entrusted to the State for educational and religious purposes, shall be forever inviolable, and the income therefrom faithfully applied to the specific objects of the original grants; a thorough and efficient system of common schools shall be secured throughout the State; institutions for the benefit of the insane, blind, deaf and dumb, shall always be fostered and supported by the State; the State shall never contract any debt for the purposes of internal improvement, but it may contract debts to meet casual defects in the revenue, or expenses not otherwise provided for—the aggregate never to exceed \$750,000; it may further contract debts to repel invasions, etc., or to redeem the present outstanding debt; the credit of the State shall never be lent to any individual or corporation, nor shall the State become a stockholder in any association, or assume any debt except in the cases above provided for; the Secretary of State, Auditor, and Attorney-general shall be the commissioners of the Sinking Fund, which consists of the net annual income of the public works and stocks, and of such funds raised by taxation or otherwise as may be provided by law, which shall be made sufficient to pay the accruing interest on the public debt, and annually not less than \$100,000.

To amend the constitution, it is necessary that three-fifths of the members elected to each house shall vote in favor of the proposed amendments, which shall be entered upon the journals, with the yeas and nays, and shall be published in at least one newspaper in each county for six months preceding the next general election, and at such election the amendments shall be separately submitted to the people; and if a majority vote therefor, they shall become a part of the constitution. At the general election, in 1871, and every twentieth year thereafter, the question, "Shall there be a convention to revise, alter, or amend the constitution?" shall be submitted to the people; and at any time, if considered necessary by two-thirds of the Assembly, and a subsequent majority of the people, a convention may be called for the same purpose.

The *militia force* of the State consists of 176,455 men of all arms, of which 2,051 are commissioned officers, and 174,404 non-commissioned officers, musicians, artificers, and privates. Of the commissioned officers 91 are general officers, 217 general staff officers, 462 field officers, etc., and 2,205 company officers.

The principal *benevolent institutions* of the State are the Ohio Lunatic Asylum, the Deaf and Dumb Asylum, and the Institution for the Blind. All these are located at Columbus. The number of patients in the Lunatic Asylum, on the 15th November, 1849, was 323—169 males, and 154 females; the number received during the subsequent year, 193—112 males and 81 females, and the number discharged during the year, 198—108 males and 90 females. Of those discharged, 99—49 males, and 50 females, were recovered; 9—5 males and 4 females, much improved; 15 improved; 53 unimproved; (43 chronic cases) and 22 died. The Asylum for the Deaf and Dumb has been in actual operation 21 years, and during that period there have been 462 pupils. The number in the Institution for the Blind, including graduates and pupils, on the 25th December, 1850, was 73—40 males and 33 females; 13 pupils were received during the year, and 10 discharged. Applicants for admission must be between the ages of 6 and 21 years. If able to pay, the two last institutions charge \$100 for the 10 months' session, from 1st October to 1st August.

Finances, etc.—The total amount of receipts, for the year ending November 15th, 1850, was \$2,536,559 40; total resources of the treasury (including balance for former year), \$3,091,993 80. Disbursements for the same period, \$2,960,927 18. Excess of resources, \$131,066 12. The "chief sources of income" were—taxes on real and personal property, including arrears, \$1,213,564 83; taxes on professions, peddlers and foreign insurance companies, and auction duties, etc., \$30,297 52; taxes on banks and State insurance companies, \$56,428 95; canal tolls, water rents, etc., \$723,085 73; dividends, turnpike, and canal, \$29,383 20; principal of surplus revenue, \$177,213 85; interest on surplus revenue, \$58,741 83; canal lands sold, \$42,691 43; road tolls, \$49,103 04; taxes paid through Auditor of State, \$87,380 47; school and ministerial lands sold, \$68,371 03; claims collected, \$4,271 52; and miscellaneous, \$7,467 54; and the principal

OHIO.

objects of expenditure" were—bills drawn for appropriations, \$391,186 48; common school fund, \$200,000; interest on foreign debt, \$1,022,358 95; interest on special school and trust fund, \$97,272 81; interest on domestic bonds, \$23,694 06; repairs on canals and public works, \$329,595; repairs on national road, \$47,242 06; State debt paid, \$657,886 84.

The State debt, on the 15th November, 1850, amounted to \$18,744,594 82, the annual interest on which was \$1,124,536 18. The constituents of this debt were—domestic bonds outstanding, \$493,824, drawing annually \$26,940 10 interest; irreducible stock, school and trust funds, \$1,638,996 63—annual interest, \$101,039 80; and foreign debt, \$16,566,773 69—annual interest, \$96,556 28. During the year ending as above, \$35,768 38 of the domestic bonds had been redeemed. The irreducible stock, on which the State pays 6 per cent. interest to the townships and districts from which the funds were received, forms part of the State debt which is not to be repaid. The United States surplus revenue, amounting to \$2,067,260 84, had loaned to the fund commissioners of the counties, was due to the State January 1st, 1850, except certain balances not due until 1852: \$1,016,226 53 has already been repaid. After due, if not paid, the counties must pay 6 per cent. on what remains in their hands. The State owes \$3,011,558 71 of turnpike, railway, and canal stock. The gross income of public works for the year 1850, was \$728,085 72. Total value of taxable property, real and personal, was \$439,876,340, upon which the State tax was \$1,413,830 42. The total valuation of property, in 1844, was \$136,142,666, and the taxes levied \$5,996 13, showing an immense septennial increase, as compared with the valuation and taxation of 1850. The number and value of domestic animals in the State by the assessors for 1850, were as follows: horses 513,652, valued at \$19,142,759; oxen 2,180, valued at \$56,828; cattle 1,103,811, valued at \$11,815,560; sheep 3,812,707, valued at \$1,984,983; hogs, 1,672,178, valued at \$1,902,029. Total valuation of domestic animals, \$34,432,189. The whole value of personal property, exclusive of the above, upon the duplicates, was \$98,487,502. These numbers and values, it will be perceived, differ essentially from those given in the census of the same year by the United States authorities.

Banks.—According to returns made to the office of the Auditor of the State, on the 1st August, 1851, the condition of the banks was as follows:

RESOURCES.	12 Independent Banks.	41 Branches of State Banks.	5 Old Banks.
Notes and bills discounted	\$2,670,372 84	\$11,218,205 54	\$3,653,595 09
Specie	313,300 44	2,008,059 75	438,854 25
Notes of other banks, etc.	241,643 55	710,199 06	239,688 00
Loans from other banks and bankers	242,873 56	555,473 58	256,895 21
Western deposits	394,840 59	1,541,900 39	470,392 13
Checks and other cash items	29,092 82	45,591 58	53,371 68
Deposits deposited with State Treasurer	1,465,480 88	922,323 40	—
Real estate and personal property	113,695 92	199,074 76	149,002 04
Other resources	65,149 54	270,941 50	132,573 25
Total resources	\$5,536,459 10	\$17,502,274 56	\$5,443,731 70
LIABILITIES.			
Capital stock paid in	\$364,630 00	\$4,896,240 00	\$1,923,926 00
Circulation	1,375,295 00	8,623,702 50	1,636,734 00
Refuge Fund	1,262,310 88	58,246 94	—
Loans to banks and bankers	269,474 84	844,973 98	502,676 33
Loans to individual depositors	1,510,963 14	3,005,006 55	1,000,193 89
Deposits and undivided profits	25,144 10	225,681 39	337,130 04
Bills payable and time drafts	112,071 38	135,840 81	15,975 00
Accruals, interest, etc.	71,726 31	238,149 06	12,396 19
Dividends unpaid	12,985 93	22,821 80	6,764 50
Other liabilities	31,856 97	1,611 50	7,855 75
Total liabilities	\$5,536,459 10	\$17,502,274 56	\$5,443,731 70

Thus it appears that the aggregate capital of the Ohio banks is \$7,614,756; specie, \$2,759,743; circulation, \$13,635,781; and discounts, \$17,542,112.

Federal Representation.—In accordance with the act passed on the 23d May, 1850, apportioning representatives to Congress, Ohio is entitled to *twenty-one* members.

Education.—The whole number of "common school" districts in the State, in 1850, was 9,590, and of fractional districts 342. The number of common schools was 12,279, taught by 7,924 male and 5,168 female teachers. Enrolled scholars, 4,739—males, 236,827 and females, 184,906; average daily attendance of scholars, 397,875—males 190,891, and females, 3,984. Wages paid to teachers from public funds, \$506,469 16—males, \$303,642 09 and females, \$112,827 07; and paid from other sources, \$125,652 57—males, \$100,049 44 and females, \$25,603 13; total \$632,121 73—males, \$493,691 53 and females, \$138,430 20. School-houses built during the year, 248—expense, \$64,823 22. Amount of building funds raised, \$6,345 47; amount of tax on duplicates, \$309,408 65; and received by reporting counties from State fund, \$148,048 63; total from all sources, \$560,764 99.

The principal "collegiate establishments" in Ohio are—Ohio University, at Athens, founded 1804; Miami (*Assoc. Ref.*) University, at Oxford, founded 1809; Franklin College, at New Athens, founded 1825; Western Reserve (*Presbyterian*) College, at Hudson, founded 1826; Kenyon (*Episcopal*) College, at Gambier, founded 1827; Granville (*Baptist*) College, at Granville, founded 1831; Marietta College, at Marietta, founded 1835; Oberlin (*Congregational*) College, at Oberlin, founded 1834; Cincinnati College, at Cincinnati, founded 1819, which in 1850 had 8 professors and 84 students, and in law department 3 professors and 25 students; St. Xavier (*Rom. Cath.*) College, at Cincinnati, founded 1810; Woodward College, at Cincinnati, founded 1831; Ohio Wesleyan University, at Delaware, founded 1842; and Wittenberg (*Christian*) College, at Springfield, founded 1845. The statistics of these several institutions, in 1850, were as follows:

Colleges.	Prof.	Stu.	Lib.	Colleges.	Prof.	Stu.	Lib.	Colleges.	Prof.	Stu.	Lib.
Ohio Univ.	5	20	5,000	Kenyon	5	50	7,000	St. Xavier	18	70	6,300
Miami Univ.	6	66	8,000	Granville	4	35	5,000	Woodward	5	19	1,400
Franklin	4	80	2,200	Marietta	6	55	6,400	O. Wesl. Univ.	9	40	3,700
Western Reserve	8	57	8,000	Oberlin	12	66	4,200	Wittenberg	7	37	4,500

Theological departments are attached to Kenyon, Western Reserve, Granville, Oberlin, and Wittenberg, and there are

OHIO.

Lane Seminary, at Cincinnati, and the Theological Seminary of the Associate Reformed Church, at Oxford. The statistics of these are as follows:

Names.	Founded.	Prof.	Stu.	Library.	Names.	Founded.	Prof.	Stu.	Library.
Lane Seminary.....	1829	3	36	10,500	Granville	1832	2	8	500
Kenyon.....	1828	4	4	4,500	Oberlin	1834	3	20	250
Western Reserve.....	1830	3	14	790	Associate Reformed..	1839	1	12	1,000

The medical schools within the State, and their statistics for 1851, are—the Western Reserve Medical College, at Cleveland, founded in 1844 (6 professors, 202 students, and 411 graduates); the Medical School of Ohio, at Cincinnati, founded 1819 (8 professors, 130 students, and 331 graduates); Western College of Homeopathic Medicine, at Cleveland, founded 1850 (8 professors, 62 students, and 17 graduates); Starling Medical College, at Columbus, founded 1847 (8 professors, 124 students, and 53 graduates).

Besides the above, there are in all the large towns numerous academic and denominational schools, etc., supported partly by endowment and partly by charges for education. Among these the Roman Catholic convents, nunneries, schools, etc., are conspicuous, and as a general fact these are better conducted, more extended in their curricula, and aside from their religious bearing, everywhere unexceptionable and worthy of imitation by all sectaries.

Public Libraries.—One State library—12,500 volumes; 8 social—21,295 volumes; 13 college—35,510 volumes; 19 student—20,205 volumes; 3 academic and professional—12,529 volumes; 1 scientific and historical—10,000 volumes; 3 public school—1,595 volumes. Total libraries 48, and volumes 104,634.—*Report of Librarian of Smithsonian Institute.*

Periodical Press.—The whole number of periodicals published in the State, on the 1st June, 1850, was 302, of which 108 advocated whig and 93 democratic principles, and 106 were neutral in politics, or devoted to science, religion, literature, etc. Of the whole number 28 were published daily, circulating at each issue 90,656 copies, or 29,214,328 copies annually; 6 tri-weekly, 1,961 copies, or 305,915 annually; 4 semi-weekly, 2,500 copies, or 291,200 annually; 222 weekly, 211,562 copies, or 11,016,824 annually; 7 semi-monthly, 32,920 copies, or 790,080 annually; and 20 monthly, 65,500, or 786,000 annually. Total copies issued annually 42,404,343. The counties and number of periodicals issued in each was—Adams, 1 w.; Allen, 1 w.; Ashland, 2 w.; Ashtabula, 3 w.; Athens, 1 w.; Auglaize, 2 w.; Belmont, 2 w. and 1 m.; Brown and Butler, each 3 w.; Carroll and Champaign, each 2 w.; Clark, 1 t.-w. and 4 w.; Clermont and Clinton, each 2 w.; Columbiana, 6 w.; Coshocton, 2 w. and 1 s.-m.; Crawford, 1 w.; Cuyahoga, 3 d. and 5 w.; Darke, Defiance, and Delaware, each 2 w.; Erie, 2 d., 3 w., and 1 m.; Fairfield, 2 d. and 3 w.; Fayette, 1 w.; Franklin, 2 d., 2 t.-w., 6 w., 2 m., and 1 occasionally; Gallia and Geauga, each 2 w.; Greene, 1 w.; Guernsey, 2 w.; Hamilton (Cincinnati) 8 d., 1 t.-w., 32 w., 1 s.-m., and 14 m.; Hancock, 3 w.; Harrison, Hardin, Highland, and Hocking, each 2 w.; Holmes, 3 w.; Huron and Jackson, each 2 w.; Jefferson, 6 w.; Knox, 6 w.; Lake and Lawrence, each 1 w.; Licking, 2 s.-w. and 4 w.; Logan, 2 w.; Lorain, 2 w. and 1 s.-m.; Lucas, 2 d., 2 t.-w., and 3 w.; Madison, 1 w.; Mahoning, Marion, and Medina, each 2 w.; Meigs and Mercer, each 1 w.; Miami, 1 s.-w., 5 w., and 1 m.; Monroe, 1 w.; Montgomery, 4 d. and 6 w.; Morgan and Morrow, each 2 w.; Muskingum, 1 d., 1 t.-w., 6 w., and 1 annually; Perry, 2 w.; Pickaway, 1 s.-w. and 3 w.; Pike, 1 w.; Portage, 3 w.; Preble, 2 w.; Putnam, 1 w.; Richland, 5 w.; Ross, 2 d. and 4 w.; Sandusky, 3 w.; Scioto, 2 d. and 2 w.; Seneca 4 w.; Shelby, 2 w.; Stark, 6 w.; Summit, 3 w. and 1 s.-m.; Trumbull and Tuscarawas, each 3 w.; Union, 1 w.; Van Wert, 2 w.; Vinton, 1 w.; Warren, 2 w. and 1 m.; Washington, Wayne, and Williams, each 2 w., and Wood, 1 weekly.

Religious Denominations.—The statistics of the several religious denominations, according to the census returns of 1850, are exhibited in the annexed form:

Denomina- tions.	No. of Churches.	Church accon.	Value of Property.	Denomina- tions.	No. of Churches.	Church accon.	Value of Property.	Denomina- tions.	No. of Churches.	Church accon.	Value of Property.
Baptist.....	545	184,098	\$598,730	Germ'n Ref.	71	26,315	\$71,860	R. Catholic.	130	76,215	\$768,967
Christian.....	90	30,190	56,155	Jewish.....	3	1,300	29,000	Swedenb'g	2	700	15,900
Congregat'l.	100	41,920	207,880	Lutheran	259	90,348	259,975	Tunker.....	10	4,550	9,975
Dutch Ref.	5	1,150	2,600	Mennonite	9	1,730	1,925	Union.....	43	13,646	37,900
Episcopal.	79	31,975	367,425	Methodist.	1,520	539,340	1,542,151	Unitarian.	1	650	15,000
Free.....	13	5,100	9,550	Moravian.	153	49,545	98,072	Universalist.	53	20,765	100,590

—making a total of 3,890 churches, having accommodation for 1,447,652 persons, and owning property to the value of \$5,765,149. The State forms a diocese of the Protestant Episcopal Church, and comprises the Roman Catholic archdiocese of Cincinnati, and the suffragan diocese of Cleveland. The towns of Covington and Newport, in Kentucky, and the adjacent territory for three miles, belong also to the province of Cincinnati.

Pauperism and Crime.—The whole number of paupers that received assistance and support within the year ending 1st June, 1850, was 2,513, of which 1,904 were native-born, and 609 foreigners; and the whole number on the rolls on the 1st June as aforesaid, was 1,673, of which 1,254 were native-born, and 419 foreigners. Annual cost of support, \$95,250. From the report of the attorney-general it appears that during the year 1850 there were 2,003 prosecutions, 1,273 convictions, and 295 acquittals. The punishments were—penitentiary for life, 3; for ten years and over, 6; and for under ten years 118; and 221 were sent to the county jails. The amount of fines was \$14,224 53, of costs \$19,290 60, and of collectable costs \$9,076 08. The Ohio penitentiary, on the 30th November, 1849, contained 336 convicts; admitted during the year 193, and discharged 105, leaving 424 in confinement at the end of the official year 1850. Of those discharged, 42 was by expiration of sentence, 32 by pardon, 21 by death, 5 by writ of error, 2 by pardon of President of the United States, and 3 escaped; and of the 193 committed 145 were convicted of offenses against property, 7 of arson, 13 of forgery, and 32 of offenses against the person. Receipts from convict labor \$35,740 74, and expenses of maintaining prison \$26,877 56—balance in favor of prison \$8,863 18. There is a library of nearly 8,000 volumes connected with the prison, for the use of the convicts.

Historical Sketch.—As a district territory, Ohio dates from the first year of the present century. Previous to this time it constituted a portion of the "Territory North-west of the Ohio," over which Congress had exercised jurisdiction since 1787.

The French were the first to explore the waters of the Ohio. In 1680, La Salle traversed the tract between the lakes and the Mississippi, and for upward of half a century Frenchmen seem to have been the only visitors of this region. Their object was the fur trade; nor did they, like their English neighbors, manifest any disposition to appropriate the country by settlements. Within the actual limits of Ohio, indeed, no settlements appear to have been ever made by the French. About the middle

OHIO.

of the eighteenth century, a controversy, between the Canadian traders and the English, respecting this country, sprung up and finally involved both nations in war, and ended only with the overthrow of French power in America. The charters of many of the British provinces extended their claims to the Pacific, and their settlements had proceeded gradually westward. The French claims, on the other hand, proceeded from north to south, and consequently intersected those of the English, or, as respects actual occupation, their possessions formed a cordon round those of the English. In 1750, an association, chiefly residing in Virginia and England, obtained from the crown a grant of 600,000 acres lying in the country claimed by both nations. Trading houses were immediately established, and surveys commenced, of which measures the governor of Canada soon became acquainted. France and England being then at peace, remonstrances were made on the subject, but expostulation and threats having had no effect, the French seized two British subjects, who were found trading with the Indians, and sent them to Presque Isle, on Lake Erie, where a strong fort had been erected. His and other acts of violence determined the governor of Virginia to send an officer to the French posts. The illustrious Washington, then a major of militia, was commissioned for the purpose, who, after great difficulties, delivered a letter to the commandant, at a fort on the river La Boeuf, requiring him to withdraw from the British territory on the Ohio. The answer was of such a nature that, on the return of Washington, the Virginia legislature caused a regiment to be raised, which he received the second command. In April, 1754, his chief having died, the command devolved upon himself, and he, with two companies, advanced into the disputed country; but, on his route to the head of the Alleghany and Monongahela, was attacked by a superior force, and compelled to surrender. Soon after this event, open war was declared, and the British government sent out a powerful force under General Braddock. The object of the campaign of 1755 was the capture of Fort Du Quesne, and the secure possession of the country on the Ohio. The expedition was unsuccessful, and the French maintained possession of the country until the surrender of Canada in 1763, which included also the whole country westward to the Mississippi.

From whatever cause, though now thrown open to the American trade, the beautiful valley of the Ohio was left in undisturbed occupancy of its original inhabitants. The government, indeed, seems to have had no disposition to encourage settlement. The Indians were still numerous and powerful, and, on the breaking out of the Revolution, were incited by a British against the frontier settlers, and committed many barbarous excesses. During all this period occupancy was possible. The treaty of peace, although it transferred the sovereignty of the country, yet left it subject to Indian depredation, and it was not until 1787 that any settlement was begun within the limits of the present State. Previous to that year, the right of soil, subject to the Indian title, was claimed by several of the States, as having passed to them by their charters, and soon after the peace of 1783 jealousies had arisen in consequence of the vast extent of these possessions, which were only allayed by the cession of the whole to the United States. Virginia, however, reserved a portion of land (709,848 acres) near the rapids of the Ohio for her State troops, and Connecticut a tract near Lake Erie (3,666,921 acres). These were subsequently confirmed to the several claimants. In 1800, jurisdiction over these reservations was relinquished by the States owning them, reserving to themselves claim to the soil. Other tracts, known as Symmes' reserve (284,698 acres), and the Ohio Company's purchase (1,144,509 acres), were subsequently recognized, as were also several individual claims. It now remained for the United States to purchase from the Indians the soil and right of possession, which, owing to the hostility of these people, was not completely effected for many years, nor until much blood had been shed on both sides. In 1787, Congress began to exercise jurisdiction over the territory. A territorial government was instituted consisting of a governor, secretary, and three judges, who, in addition to their ordinary functions, had also a partial legislative power. The officers appointed under these provisions administered the government of the whole territory until 1799. During a greater part of the period of the temporary government, a harassing warfare was kept up with the Indians, instigated, if not assisted, by the British. In 1791, General St. Clair, who had been sent against the amis, was surprised and totally routed. This disaster operated as a serious check upon the progress of settlement. In 1804, however, a decided victory was obtained by General Wayne, and in the succeeding year hostilities were suspended, and the treaty of Greenville terminated the war. Ohio was now free from savage incursion, and began to prosper; settlements which had been suspended recommenced with increased vigor. Up to the year 1787, only 118,582 acres of land had been sold by the general government—none was disposed of between that period and 1799, in which year 649 acres were sold. In 1800, 70,948 acres were disposed of; in 1801, 486,787 acres, and up to 1810, 2,883,662 acres had been sold. To 1820, the total dispositions amounted to 6,705,361 acres; to 1830, to 8,224,495 acres; to 1840, to 13,180,577 acres, and to 1849, there only remained in the hands of the government 509,230 acres. The aggregate disposed of to the latter period was 25,067,730 acres, viz., sold, 12,490,215 acres; donated—to schools, 675,094; to colleges, 24,320; to internal improvements, 1,260,051, and to individuals, 32,141; military bounties—old war, 1,301,326; war of 1812, 63,842, and Mexican war, 49,429; reservations—salaries, 24,216; Indians, 16,331, and companies, 8,805,976 (including Virginia and Connecticut reserves, etc.); private claims, 26,460; swamp lands (granted to State), 303,329 acres. Thus it will be seen that, in fifty years from the institution of a regular representative government, the whole land has been virtually taken up, and generally settled upon.

In 1799 the North-western Territory, having a sufficient population, was admitted to a second grade of territorial government, which entitled it to a representative body, composed of delegates chosen by the people, and a council appointed by Congress from nominations made by the House of Representatives. Shortly after, the country composing the State of Ohio was detached from the general territory, and formed into a distinct government. On the 30th April, 1802, on the petition of the people, Congress passed a law enabling them to form a constitution and State government, and the conditions prescribed by that act having been complied with, Ohio became a sovereign State and member of the Union in 1803. Thus admitted to the privileges of self-government, the growth of Ohio has been uninterrupted. No other State of the Union has surpassed it in rapidity of progress. The disposition of its lands, and the population at decennial periods (before given), show an augmentation unparalleled in history. Its position with respect to the old States may in some measure account for this, but it has had many disadvantages to contend with. The first pioneers had no steam horses to drag them to their desert home, no steamboats to skim their rivers, nor telegraphs whereby to communicate with their friends in the east. Their journeyings were toilsome and their fare hard, nor was there rest for them when their travels ended; the Indian met them with menace, and the thick forests had to be hewn through before a crop could be planted. How different the things of to-day, when the immigrant has little more to do than throw himself in a well padded car, and is set down at his future residence without trouble of any sort, the wide prairie ready to receive the seed of his first harvest, and a thriving country around him. These matters ought to be considered when the settlement and progress of Ohio is compared with those of other States. It was not until the year 1825 that any road was built from the sea-board States to Ohio. On the 4th July of that year the ceremony of breaking ground on the National Road west of the Ohio was

celebrated. On the same day ground was broken at Licking Summit for the construction of the Ohio Canal. To-day canals, railroads, turnpikes, and every means and mode of transportation and travel are open to all parts, and enjoyed by the people in a greater degree than in most other States of the Union, and certainly than in any European country, with the exception of Great Britain.

COLUMBUS, on the east side of the Scioto River, is the political capital of the State.

OHIO county, *Ind.* Situate S. E., and contains 93 sq. m. Drained by Laughery cr. and other small streams of the Ohio r., which runs on its eastern border. Surface in general hilly; soil of average fertility. The county is well timbered. Chief productions, wheat and Indian corn. Farms 886; manuf. 34; dwell. 946, and pop.—wh. 5,299, fr. col. 11—total 5,310. *Capital*: Rising Sun.

OHIO county, *Ky.* Situate toward the N. W., and contains 725 sq. m. Drained by Rough cr., a branch of Green r., and its branches. Surface level; soil generally fertile, and highly productive. Staples, tobacco, Indian corn, pork, etc. Farms 1,122; manuf. 24; dwell. 1,425, and pop.—wh. 8,568, fr. col. 49, sl. 1,132—total 9,749. *Capital*: Hartford.

OHIO county, *Virg.* Situate N. W., and contains 112 sq. m. Drained by Wheeling cr. and other small streams, which enter the Ohio r. on its W. border. Surface in general broken and hilly; soil fertile, and on the banks of the Ohio are some fine tracts of land. Chief productions, wheat and Indian corn. It contains a large quantity of bituminous coal, and some iron. Farms 376; manuf. 143; dwell. 3,097, and pop.—wh. 17,607, fr. col. 235, sl. 114—total 18,006. *Capital*: Wheeling. *Public Works*: Baltimore and Ohio R. R., etc.; Hempfield R. R.

OHIO, t. and p. v., Herkimer co., *N. Y.*: 60 m. N. W. Albany. Drained by West Canada cr. and its branches. Surface very hilly; soil good. There are several mills in the town. The v. is small, and centrally situated. Population of t. 1,051.

OHIO, p. v., Andrew co., *Mo.*: 276 m. N. W. Jefferson City.

OHIO river: a large river of the United States which separates the states of Virginia and Kentucky from Ohio, Indiana, and Illinois, second in importance only to the Mississippi, is formed by the confluence of Alleghany river from the N., and Monongahela from the S., at Pittsburg, in the western part of Pennsylvania. The Alleghany r. rises in Potter co., Pa., on the W. side of the Alleghany mountains, flows into the State of New York, and returns into Pennsylvania, and is the most important tributary of the Ohio. It is navigable for boats of a hundred tons, and of a light draft to Olean, Cattaraugus co., N. Y., 270 m. from its mouth in the Ohio, 600 feet above the level of the river at Pittsburg, 1,280 feet above the level of the ocean, and 2,500 miles from the Gulf of Mexico. The Monongahela rises in Virginia, and where it unites with the Alleghany is more than 400 yards wide. It is navigable at a good stage of the water for large boats, 100 m. from its mouth. The Alleghany, though not larger than the Monongahela at the junction, is the more important stream. Immediately below the junction, the Ohio is over 600 yards wide, and is a placid and beautiful stream. At Pittsburg it is 680 feet above tide-water; at the mouth of the Muskingum, 541 feet; at the mouth of the Scioto, 464 feet; at Cincinnati, 414 feet; at its mouth in the Mississippi, 300 feet. Its length from Pittsburg to its mouth, is generally stated at 359 m.; but the distance in a direct course is about 614 m. Its average descent is not quite five inches in a mile. The French called it *la belle riviere*, or the beautiful river; but its name, according to Hoekewelder, is derived from the Indian word Ohiopekanne, meaning a very white stream, alluding to the white caps with which its gentle surface is covered in a high wind, omitting all but its first part for ease of pronunciation. The Ohio, for some distance below Pittsburg, is rapid, and the navigation interrupted at low water by chains of rocks extending across the bed of the river. The scenery is exceedingly beautiful, though deficient in grandeur, exhibiting great sameness. The hills, two or three hundred

feet high, approach the river, and confine it on either side. Their tops have usually a rounded and graceful form, and are covered with the verdure of an almost unbroken forest. Approaching Cincinnati, the scenery becomes still more monotonous. The hills recede from the river, and are less elevated. Heavy forests cover the banks, and limit the prospect, but exhibiting a beautiful verdure, and often exuberant with blossoms. The river exhibits the same scenery, as we continue to descend it, except that the hills become less bold and rocky. Cities, villages and farm-houses are passed through the whole course of the river; but as the bottom-lands on its immediate margin are liable to be overflowed, the inhabitants prefer to settle a little back from the river, so that the dwellings in view do not correctly exhibit the population in the vicinity. Between Pittsburg and the mouth of the Ohio, there are as many as 100 considerable islands, besides a great number of sand-bars and tow-heads. These last are low sandy islands, incapable of cultivation, and covered with willows. Some of the islands are of exquisite beauty, and furnish desirable situations for a retired residence. The principal tributaries of the Ohio are the Muskingum, Great Kanawha, Big Sandy, Scioto, Great Miami, Kentucky, Green, Wabash, Cumberland, and Tennessee. The last three are the most important, of which the last is the largest. One remarkable circumstance respecting the Ohio, as well as other western rivers, is its great elevations and depressions. In the summer and autumnal months, it often dwindles to a small stream, affording limited facilities for navigation. Among the hills of Pennsylvania and Virginia, it is seen rippling over chains of rocks, through which a passage is barely afforded to boats of the lightest burden. Farther down, sand-bars either extend across the stream, or project into the bed of the river. Steamboats are sometimes grounded on the bars, where they are obliged to wait in peril for the periodical rise of the river. The lowest water is generally in the months of July, August, and September. The melting of the snows in the spring and heavy rains in autumn or winter, fill the river to overflowing, and many of its islands and the bottoms on its margin are covered with water. These rises are generally gradual, and attended with no danger. As the waters rise, trade and navigation are quickened into activity; the largest steamboats, often of large tonnage, now float in security. The average rise of the water from low water mark is 50 feet, but in the year 1832 an extraordinary flood was experienced. The river began to rise early in February, and on the 18th of that month it was 63 feet above low water mark, and the lower parts of Cincinnati and Covington were flooded. The river here is 1,006 feet wide, and the velocity of the stream at its height 6 1-5 miles per hour. The water discharged by the rise of the river above low water mark alone, would fill a lake of one square mile in surface, 107 feet deep, in one hour. The surface drained by the Ohio and its numerous tributaries is about 77,000 sq. m.; and water four inches in depth on this surface would be sufficient to maintain the river at the above height and velocity for fourteen days. Such a flood as this has scarcely been known since the first settlement of the country. There are no considerable falls in the river, excepting at Louisville, Ky., where it descends 24 feet in the course of two miles. Even over these boats pass in high water. But they have been obviated by a canal around them, which admits of the passage of the largest steamboats. The current of the Ohio is very gentle; at the mean height of the river the current is about 3 miles an hour, at high water it is more, but at low water not more than two miles. During five or six weeks in winter, the navigation is ob-

structed by floating ice. The Ohio and its tributaries have not less than 5,000 miles of navigable waters. The following distances have been derived from good authority, and are doubtless correct. From Pittsburg to Steubenville, O., is 70 miles; to Wheeling, Va., 92 miles; to Marietta, O., 174 miles; to Gallipolis, O., 264½ miles; to Portsmouth, O., 349 miles; to Maysville, Ky., 397 miles; to Cincinnati, O., 455¼ miles; to Lawrenceburg, Ia., 479¼ miles; to Louisville, Ky., 587 miles; to New Albany, Ia., 591 miles; to the mouth of Cumberland river, Ky., 990 miles; mouth of Tennessee river, Ky., 911¼ miles; mouth of Ohio 959 miles. Distances navigable by steam on the principal branches of the Ohio river: Tennessee, 720 miles; Cumberland, 400 miles; Wabash, 400 miles; Green, 150 miles; Salt, 35 miles; Kentucky, 62 miles; Scioto, 50 miles; Big Sandy, 50 miles; Kanawha, 65 miles; Muskingum, 70 miles; Monongahela, 60 miles; Alleghany, 200 miles.

OHIO CITY, p. v. and cap. Mississippi co., Mo.: 195 m. S. E. Jefferson City, on an elevated bank on W. side of the Mississippi r., 23 m. below and opposite Cairo, in Illinois, and contains the court-house and usual number of public buildings. It is in a flourishing condition, and bids fair to become a considerable place.

OHIO CITY, p. v., Cuyahoga co., Ohio: at the mouth of Cuyahoga r., opposite Cleveland, and on Lake Erie, 126 m. N. E. Columbus. It may be considered as a suburb of Cleveland, with which it is connected by bridges, over one of which the Cleveland, Columbus, and Cincinnati R. R. passes. The ground on which it stands is uneven, and presents many fine building sites. It contains several foundries, furnaces, mechanic shops, etc., and is a well built and regularly planned place. Its commerce on the lakes is large, but is so blended with that of Cleveland as to admit of no separate statistical exhibit. Population, which includes also that of Brooklyn town, 6,375.

OHIO FARM, p. v., Kendall co., Ill.: in the S. part of co., 193 m. N. N. E. Springfield.

OHIO GROVE, p. o., De Kalb co., Ill.: 161 m. N. N. E. of Springfield.

OHIOVILLE, p. v., Beaver co., Penn.: 2 m. N. of the Ohio r., 137 m. Harrisburg. It contains about 200 inhabitants.

OHIO'S TOWN, p. o., Trumbull county, Ohio: 149 m. N. E. Columbus.

OHIOPEE river, Ga.: rises in Washington co., flows S. E., forming the division between Emanuel and Montgomery counties, and passing through Tatnall, empties into the Altamaha. This is the only considerable tributary of the Altamaha, and is navigable 40 miles.

OIL CREEK, t. and p. o., Crawford county, Penn.: 171 m. N. W. Harrisburg. Drained by Oil cr. and its branches. Surface undulating, with good wood; soil average fertility. Oil cr. affords bituminous oil, which is valuable in pharmacy. Iron ore is found in the vicinity. The v. of Titusville is in S. of t., near the creek. Pop. of t. about 775.

OIL creek, Penn.: enters the Alleghany river, 8 m. E. Franklin. It derives its name from a spring on its bank, on the surface of which floats an oil valuable for its medicinal qualities.

OIL MILLS, p. o., Clark co., Ky.: 37 m. S. E. Frankfort.

OIL MILL VILLAGE, p. v. and sta., Hillsboro' county, N. Hamp.: on a branch of the Merrimac r., on the line of the New Hampshire Central R. R., 11 m. from Manchester, and 17 m. S. Concord.

OIL SPRING RESERVATION, N. Y. An Indian reservation about 1 m. square. It contains a pool of water, the surface covered with an oily substance much used for its cure of different diseases in man and beast. Situate in the town of Cuba and Hinsdale.

OIL TROUGH, p. o., Independence co., Ark.: on the S. bank of Arkansas r., 75 m. N. N. E. Little Rock.

OKAHUMKA, p. o., Marion county, Flor.: 165 m. S. E. Tallahassee.

OKANOXEBEE river, Ala.: is formed in Miss. by the junc-

tion of the Noxubee, Dancing Rabbit, Horse Hunter, and other creeks, flows S. E. into Sumter co., Ala., and enters the Tombigbee at Gainesville.

OKAPILCO, p. v., Lowndes co., Ga.: on Okapilco r., 157 m. S. by W. Milledgeville.

OKAW, p. o., Washington co., Ill.: near Elkhorn cr., 97 m. S. Springfield.

OKAUCHEE, p. o., Waukesha county, Wis.: 53 m. E. Madison.

OKOLONA, p. o., Chickasaw county, Miss.: 119 m. N. E. Jackson.

OKONAGON river, Oreg. Ter.: rises in the British possessions, flows S., and enters Clark's fork of Columbia, at Fort Okonagan.

OKTIBBEHA county, Miss. Situate toward the N. E., and contains 613 sq. m. Drained by Oktibbeha r. and its tributaries. Surface even; soil deep calcareous, and adapted to cotton and grain. Farms 560; manuf. 13; dwell. 744, and pop.—wh. 4,309, fr. col. 13, sl. 4,344—total 9,171. Capital: Starksville.

OLAMON, p. v., Penobscot co., Me.: on the left bank of the Penobscot r., 2 m. N. of the mouth of Olamon r., and 84 m. N. E. Augusta.

OLCOTT p. v., Niagara co., N. Y.: close on the S. shore of Lake Ontario, 259 m. W. by N. Albany.

OLD BRIDGE, p. v., Middlesex co., N. J.: on South r., and near the Camden and Amboy R. R., 24 m. N. E. Trenton.

OLD CEDAR SPRINGS, p. o., Spartanburg dist., S. Car.: 79 m. N. W. Columbia.

OLD CHURCH, p. v., Hanover county, Virg.: 13 m. N. E. Richmond.

OLD COURT HOUSE, p. o., Bryan co., Ga.: 127 m. S. E. Milledgeville.

OLDENBURG, p. v., Franklin co., Ind.: on a branch of Salter, 55 m. S. E. Indianapolis.

OLDENBURG, p. o., Smith county, Tex.: 209 m. N. E. Austin.

OLDFIELD FORK OF ELK, p. o., Pocahontas co., Virg.: 153 m. W. N. W. Richmond.

OLD FORGE, p. o., Luzerne county, Penn.: 179 m. N. E. Harrisburg.

OLD FORT, p. o., McDowell county, N. Car.: 192 m. W. Harrisburg.

OLD FORT, p. v., Centre co., Penn.: on the Belle Fonte post-road, 37 m. N. W. Harrisburg.

OLD FURNACE, p. o., Gaston co., N. Car.: 133 m. W. S. W. Raleigh.

OLDHAM county, Ky. Situate N., and contains 173 sq. m. Drained by head branches of Floyd's fork of Salt r., Harrod's, and other small creeks. Surface level, excepting on the Ohio, where it is rising and presents high bluffs to the river. Soil in general fertile, and the land well adapted to grain, etc. Tobacco is also a valuable staple, and pork is exported to some extent. Farms 414; manuf. 8; dwell. 853, and pop.—wh. 5,156, fr. col. 49, sl. 2,424—total 7,629. Capital: Westport. Public Works: Louisville and Frankfort R. R.; Louisville and Covington R. R., etc.

OLDHAM, p. v., Crittenden co., Ark.: W. side of the Mississippi r., 122 m. E. N. E. Little Rock.

OLDHAM'S CROSS ROADS, p. o., Westmoreland co., Virg.: 49 m. N. E. Richmond.

OLD HICKORY, p. o., Wayne county, Ohio: 84 m. N. E. Columbus.

OLD HICKORY, p. o., Simpson co., Miss.: 29 m. S. by E. Jackson.

OLD HICKORY, p. o., Botetourt co., Virg.: about 131 m. W. Richmond.

OLD HICKORY, p. o., Weakly county, Tenn.: 107 m. W. Nashville.

OLD HICKORY, p. o., Bradford county, Penn.: 101 m. N. Harrisburg.

OLD MINES, p. v., Washington co., Mo.: 82 m. S. E. Jefferson City.

OLD MISSION, p. o., Winnishelk co., *Ia.*: 113 m. N. $\frac{1}{4}$ W. Iowa City.

OLD POINT COMFORT, p. o., Elizabeth City, *Virg.*: the N. point at entrance of James r., 69 m. S. E. Richmond, and 21 m. W. by N. Cape Henry. Fortress Monroe, on the extreme point, is used both as an arsenal and military post, and in connection with Fort Calhoun, on the Rip Raps, commands the entrance to the river. The Point is much resorted to in the summer, and has commodious hotels.

OLD RIPLEY, p. o., Bond county, *Ill.*: 63 m. S. by E. Springfield.

OLD TOWN, p. v., Philip's co., *Ark.*: on the W. side of the Mississippi r., 95 m. E. by S. Little Rock. In the vicinity are to be found many aboriginal relics.

OLD TOWN, p. v., Greenup co., *Ky.*: on old Old Town cr., at its entrance into Little Sandy r., 115 m. E. N. E. Frankfort.

OLD TOWN, t. and p. v., Penobscot co., *Me.*: on the W. side of Penobscot river, 69 m. N. E. Augusta. Drained by Birch stream and Pushaw r. There is a large pond on the W. border of the town; soil fertile, adapted to grain. Indian Old Town, on an island in the river, is within this town, and contains an Indian settlement, having a church and several small dwellings. The Orono and Old Town R. R. extends from here to Bangor. The river at this point is much higher than at Bangor. The town contains a large number of mills, and a vast amount of lumber is manufactured for the Bangor market. Pop. of t. 8,057.

OLD TOWN, p. v., Alleghany co., *Pa.*: on N. side of the Potomac r., 115 m. W. N. W. Annapolis. The Baltimore and Ohio R. E. passes the village 2 m. distant.

OLD TOWN, p. o., Forsyth co., *N. Car.*: 97 m. W. N. W. Raleigh.

OLD TOWN, p. o., Claiborne co., *Tenn.*: 167 m. E. by N. Nashville.

OLD TOWN, p. o., Coffee county, *Ala.*: 71 m. S. by E. Montgomery.

OLD WASHINGTON COURT-HOUSE, p. o., Washington co., *Ala.*: 130 m. S. by E. Montgomery.

OLEAN, p. o., Ripley co., *Ind.*: 65 m. S. E. Indianapolis.

OLEAN, t. and p. v., Cattaraugus county, *N. Y.*: 255 m. W. by S. Albany. Drained by the Alleghany r. and its tributaries. Surface very uneven, and in parts much broken; soil sandy, abounding in pine forests. A great quantity of lumber is exported annually down the Alleghany r. to the Ohio, much of which, as also scantling, in many cases reach the levee of New Orleans. The t. contains several stores and mills. The v. is situate at the mouth of Oil cr., on the Alleghany r., at the point where the Genesee Valley Canal and the Erie R. R. intersect each other and meet the river. It contains several churches, stores, dwellings, and a number of mills. A steamboat of light draft has ascended the Alleghany to Olean, but there is much obstruction in the navigation. Below it is an Indian village, inhabited by several hundred Senecas and Onondagas. Pop. of t. 599.

OLEANDER, p. o., Marshall county, *Ala.*: 131 m. N. Montgomery.

OLENA, p. v., Henderson county, *Ill.*: 81 m. N. W. Springfield.

OLENA, p. o., Huron co., *Ohio*: 72 m. N. by E. Columbus.

OLENTANGY, p. o., Crawford county, *Ohio*: 53 m. N. Columbus.

OLENTANGY, or WHETSONE river, *Ohio*: one of the principal tributaries of the Scioto, rises in W. part of Richland co., flows W. into Crawford, and then S. through Marion and Delaware into Franklin, where it joins the Scioto at Columbus.

OLEY, t. and p. o., Berks co., *Penn.*: 59 m. E. Harrisburg. Drained by Manatawny and Manookis creeks. Surface even; soil very fertile and highly productive. The "Oley Forge," constructed in 1750, having an annual production of 200 tons blooms, is situate here. There are in the t. a number of dwellings, stores, and mills, and some workshops. Pop. 2,809.

OLINDA, p. o., Pike co., *Ill.*: 71 m. W. by S. Springfield.

OLIO, p. o., Sheboygan co., *Wis.*: 81 m. N. E. Madison.

OLIO, p. v., Stoddard co., *Mo.*: 180 m. S. E. Jefferson City.

OLIVE, t. and p. o., Ulster co., *N. Y.*: 56 m. S. S. W. Albany. Drained by Esopus cr. Surface, central and E., rolling, and in the W. mountainous; soil, sandy and clay loam. It has two stores, a factory, and a number of mills. Olive and Caseville are the names of the post-offices. Pop. of t. 2,710.

OLIVE, t. and p. o., Clinton co., *Mich.*: 7 m. N. Lansing. Drained by Muskrat lake and Stony cr. Surface generally level; soil good, and heavily timbered. Pop. of t. 223.

OLIVE, t. and p. v., Morgan co., *Ohio*: 75 m. E. S. E. Columbus. Drained by a branch of Duck cr. Surface varied, and soil generally fertile, well adapted to grain and grass. The village is situate on E. side of a branch of Duck creek. There are in the t. several mills and workshops. Pop. of t. 2,015

OLIVE, p. o., Marion co., *Ind.*: a few miles distant from Indianapolis.

OLIVE BRANCH, p. o., De Soto county, *Miss.*: 157 m. N. Jackson.

OLIVE BRANCH, p. o., Clermont co., *Ohio*: 73 m. S. W. Columbus.

OLIVE BRANCH, p. v., Holt county, *Mo.*: 196 m. N. W. Jefferson City.

OLIVE BRIDGE, p. o., Ulster co., *N. Y.*: 59 m. S. by W. Albany.

OLIVE GROVE, p. v., Decatur co., *Ga.*: on the E. side of Chattahoochee r., 175 m. S. W. Milledgeville.

OLIVE HILL, p. o., Carter co., *Ky.*: near Tygert's cr., and 97 m. E. by N. Frankfort.

OLIVE HILL, p. o., Person co., *N. Car.*: 49 m. N. by W. Raleigh.

OLIVES, p. o., Anderson county, *Tenn.*: near Poplar cr., 137 m. E. Nashville.

OLIVER'S PRAIRIE, p. v., Newton co., *Mo.*: 157 m. S. W. Jefferson City.

OLIVESBURG, p. v., Richland co., *Ohio*: on Black Fork of Walhonding r., 66 m. N. by E. Columbus.

OLIVET, p. o., Eaton co., *Mich.*: 15 m. S. W. Lansing.

OLIVET, p. o., Armstrong co., *Penn.*: 132 m. W. by N. Harrisburg.

OLIVET, p. o., Russell co., *Ala.*: 59 m. E. Montgomery.

OLMSTEAD, t. and p. v., Cuyahoga county, *Ohio*: 112 m. N. N. E. Columbus. Drained chiefly by rocky r. and its branches—in the W. by the head branches of Black r. of Lake Erie. Surface diversified; soil rich and fertile. The principal v. is situate centrally, and there is also a station of the same name on the Cleveland, Columbus, and Cincinnati R. R., 15 m. from Cleveland. The t. contains several manufacturing and mills. Pop. of t. 1,216.

OLNEY, p. o., Pickens county, *Ala.*: 107 m. W. N. W. Montgomery.

OLNEY, p. o., Philadelphia county, *Penn.*: 96 m. S. S. E. Harrisburg.

OLNEY, p. v., and cap. Richland co., *Ill.*: on W. side Fox r., 113 m. S. E. Springfield. It contains the county court-house. The "Olney Republican" (a weekly issue) is published here.

OLNEYVILLE, p. o., Providence co., *R. I.*

OLUSTEE, p. v., Columbia co., *Flor.*: near the source of Swift cr., 117 m. E. by S. Tallahassee.

OLUSTEE CREEK, p. o., Pike county, *Ala.*: 35 m. S. E. Montgomery.

OLYMPIA, p. v. and port of entry, Lewis co., *Oreg. Terr.*: on the E. side of the estuary of Tenalquit or Shutes r., on Puget's sound, 147 m. N. Salem. The first log cabin of this settlement was built in 1847, by Wm. E. Sylvester, who now (1852) keeps an elegantly furnished hotel in the place. The v. contains 400 or 500 inhabitants, and has well-filled stores and various mechanic shops, with two saw-mills and a grist-mill in the vicinity. A newspaper, the "Columbian," is pub-

lished here weekly. The first American settlers north of the Columbia river located themselves on the prairies, near Olympia, in October, 1845. They were 15 days in making a journey of 60 miles, from Cowlitz Landing to the Sound, having been compelled to cut a road through the heavily timbered part of the country. In 1846, other settlements were made, and the first grist-mill of the neighborhood erected, previous to which event the inhabitants had been obliged to subsist on boiled wheat, or grind it by hand. The U. States Revenue collection district of Puget's sound, of which Olympia is the port of entry, was organized in 1851.

OLYMPIAN SPRINGS, p. v., Bath county, Ky.: 65 m. E. Frankfort.

OLYMPUS, p. v., Overton co., Tenn.: on the E. fork of Obeyes r., 87 m. E. by N. Nashville.

OMAR, p. o., Jefferson co., N. Y.: 149 m. N. W. Albany.

OMEENA county, Mich. Situate N. W., and contains 504 sq. m. Drained by Grand Traverse river and its tributaries. Surface even; soil generally rich and fertile. Organized since 1850.

OMEGA, p. o., Pike co., Ohio: 61 m. S. Columbus.

OMRO, p. v., Winnebago co., Wisc.: on S. side of Nenah or Fox r., 75 m. N. E. Madison.

ONANCOCK, p. v., Accomac co., Virg.: on Onancock inlet of Chesapeake bay, 77 m. E. by N. Richmond.

O'NEAL'S MILLS, p. o., Troup county, Ga.: 65 m. W. Milledgeville.

ONEHO, p. o., Montgomery co., Tenn.: 43 m. N. W. Nashville.

ONECO, p. v., Stephenson co., Ill.: situate on Richmond cr., 159 m. N. Springfield.

ONEIDA county, N. Y. Situate N. centrally, and contains 1,161 sq. m. Drained by Black and Mohawk rivers and their affluents, and Fish, Wood, Oneida, and Oriskany creeks, all of which furnish valuable water-power. Surface various, being pleasantly diversified by low hills and well-cultivated valleys. In the N. and N. E. it is more hilly. It contains beds of iron ore, gypsum, marl, peat, water limestone, and other minerals. This county may be said to embrace a greater variety of geological formations than any other in the State. Farms 6,292; manuf. 952; dwell. 16,751, and pop.—wh. 98,913, fr. col. 653—total 99,566. *Capitals*: Rome, Whitesboro', and Utica. *Public Works*: Utica and Syracuse R. R.; Watertown and Rome R. R.; Black River and French Creek R. R.; Black River Canal; Erie Canal; Chenango Canal, etc.

ONEIDA, t. and p. o., Eaton co., Mich.: 13 m. W. Lansing. Grand r. forms its N. E. boundary, by the tributaries of which the t. is drained. Surface gently undulating; soil calcareous and sandy loam, with thick vegetable mold. It has good timber lands. There is a valuable sand-stone quarry on Grand r., in the N. E. part of t., which is wrought to a considerable extent. Pop. of t. 492.

ONEIDA, p. o., Brown co., Wisc.: 119 m. N. E. Madison.

ONEIDA creek, N. Y.: rises in Eaton, Madison county, flowing N. by W., in part divides the counties of Madison and Oneida, and empties into the lake so called. Its tributaries afford good mill-seats. The cr. is used as a feeder to the Erie Canal, and is navigable as far as Oneida Castle.

ONEIDA lake, N. Y.: bordering on the counties of Oswego, Oneida, Madison, and Onondaga. Is 22 m. long, and from 4 to 6 in width. It receives Wood, Oneida, and Chittenango creeks and other small streams. Its shores are low and swampy. Its waters abound with excellent fish. Limestone is found on the borders of Madison co. Its outlet flows into Oswego river.

ONEIDA, river, N. Y.: outlet of the lake so called. Runs W. in a circuitous course, and uniting with Seneca, forms Oswego river.

ONEIDA CASTLE, p. v., Oneida co., N. Y.: on Oneida cr., which divides it, 97 m. W. by N. Albany. Incorporated in 1841. Contains 2 churches, a few stores, several dwellings, and between 300 and 400 inhabitants.

ONEIDA DEPOT, p. v., Madison co., N. Y.: on Verona cr. and on line of the Syracuse and Utica R. R., 27 m. Utica, 99 m. W. N. W. Albany.

ONEIDA MILLS, p. o., Carroll co., Ohio: 108 m. E. N. E. Columbus.

ONEIDA VALLEY, p. o., Madison co., N. Y.: 90 m. W. by N. Albany.

ONEONTA, t. and p. v., Otsego co., N. Y.: 69 m. W. by S. Albany. Drained by Charlotte r. and Otsego cr., branches of the Susquehanna. Surface rugged, except along the streams, where it becomes flat and fertile. The v. is on the N. side of the Susquehanna r., and contains 3 churches, a distillery, and several dwellings. There are in the t. 2 furnaces and several mills. Pop. of t. 1,908.

ONEONTA, p. o., Sauk co., Wisc.: 28 m. N. W. Madison.

ONION RIVER, p. v., Sheboygan co., Wisc.: on W. bank of the river of same name, 91 m. N. E. Madison.

ONION river, Va.: one of the most important rivers in the State. About 70 m. in length, in its course improving a large tract of land, and furnishing great hydraulic power. It rises in Cabot and Peacham, runs S. and W. to Montpelier, and thence N. W., passing through the centre of the counties of Washington and Crittenden, empties into Lake Champlain, 5 m. N. Burlington village. In its passage through the mountains, there are places where there is barely sufficient room for the road, which is the only easy access across the narrow valleys, subject it at times, to great and sudden rises. In many places, natural bridges, caverns, and waterfalls are to be found. It has many tributaries, the principal of which are North branch in the N., and Mad Dog, and Stevens rivers on the S.

ONONDAGA county, N. Y. Situate N. centrally, and contains 711 sq. m. Drained by Seneca and Oneida rivers, which, uniting, form Oswego river, and Batternut, Onondaga, and Nine-Mile creeks. Surface in the N. even, in the S. hilly, and fitted for grazing. Soil a rich loam, of a calcareous nature, intermixed with vegetable mold, fertile and productive. It contains many minerals, and fine salt springs, which yield a large revenue to the State, as does good marble quarries. Otisco, Onondaga, and Skaneateles lakes, are within the limits of this county. Chief agricultural productions, wheat and Indian corn. Farms 4,595; manuf. 1,410; dwell. 15,335, and pop.—wh. 55,285, fr. col. 605—total 55,890. *Capital*: Syracuse. *Public Works*: Utica and Syracuse R. R.; Rochester and Syracuse R. R.; Oswego and Syracuse R. R.; Rochester and Syracuse (direct) R. R.; Syracuse and Binghamton R. R.; Erie Canal; Oswego Canal, etc.

ONONDAGA, p. o., Marshall county, Ind.: 105 m. N. Indianapolis.

ONONDAGA, t. and p. o., Ingham county, Mich.: 19 m. S. Lansing. Watered by Red Cedar r., crossing its S. W. part. Surface uneven; soil rich, sandy loam, with excellent timber lands. Pop. of t. 819.

ONONDAGA, t. and p. v., Onondaga co., N. Y.: 131 m. W. by N. Albany, and 6 m. S. Syracuse. Drained by Onondaga cr. Surface uneven, in parts hilly; soil, clay loam, fertile, and well cultivated. The v., formerly the co. capital, has an elevated site on Onondaga Hill, 1½ m. from the r., and commands a fine prospect; it contains several stores, and about 300 inhabitants. There is an Indian reservation in the S. part of the t. on both sides of the cr., and through which the Syracuse and Binghamton R. R. will pass. Population of t. 5,694.

ONONDAGA CASTLE, p. o., Onondaga co., N. Y.: 129 m. W. by N. Albany.

ONONDAGA lake, N. Y.: toward the centre or N. of county so called, 8 m. long, and from 2 to 4 in width. It abounds in fish, and is noted for the salt springs which are found on its borders, though its own waters are fresh.

ONOVILLE, p. o., Cattaraugus co., N. Y.: 63 m. W. by S. Albany.

ONSLow county, N. Car. Situate S. E., and contains 523

sq. m. Drained by New river and its branches. Surface level, and in general the land lying low. Soil moderately fertile. Chief productions, cotton and Indian corn. On the Atlantic shore, bounding it on the E., are a number of small islands, with occasional inlets. Farms 849; manuf. 27; dwell. 963, and pop.—wh. 5,065, fr. col. 170, sl. 3,108—total 8,288. *Capital*: Onslow.

ONSLow, p. v., and cap. Onslow co., *N. Car.*: on E. side New r., 97 m. S. E. Raleigh; it contains the court-house and other public buildings, and several dwellings.

ONSLow bay, *N. Car.*: a portion of the Atlantic Ocean between Cape Fear and Cape Look-out, where the shore has a considerable curve inward, along which, at a distance of 1 or 2 miles, stretches a chain of narrow, long, and low islands, with shallow inlets between them.

ONTARIO county, *N. Y.* Situate W. centrally, and contains 612 sq. m. Drained by Honeoye, Flint, and Mud creeks, and Canandaigua outlet. Surface various, the eastern portion being spread into beautiful, swelling plains, the W. interspersed with fertile vales and hills, and in the S. W. the land rising considerably, in some places having an altitude of 1,200 or 1,400 feet; soil generally productive, being a rich, fertile loam. This county contains beds of iron ore, gypsum, and marl, with other minerals, and some sulphur springs. It contains Canandaigua, Canadice, and other lakes. It has fine water-power and valuable manufactures. Farms 3,055; manuf. 205; dwell. 7,568, and pop.—wh. 43,430, fr. col. 499—total 43,929. *Capital*: Canandaigua. *Public Works*: Rochester and Syracuse R. R.; Canandaigua and Niagara Falls R. R.; Canandaigua and Elmira R. R., etc.

ONTARIO, p. v., La Grange co., *Ind.*: on the N. bank of Pigeon r., 137 m. N. by E. Indianapolis.

ONTARIO, t. and p. v., Wayne co., *N. Y.*: 250 m. W. N. W. Albany, and 18 m. N. E. Rochester. Drained by several small streams flowing into Lake Ontario, which bounds it on the N. Surface very level; soil gravelly. The v. is about 4 m. from the lake. It contains a furnace, forge, and several mills. Pop. of t. 2,246.

ONTARIO, p. o., Richland county, *Ohio*: 53 m. N. by E. Columbus.

ONTARIO, p. v., Knox co., *Ill.*: 103 m. N. W. Springfield.

ONTARIO lake, *N. Y.*: the easternmost and smallest of the great northern lakes. It lies between 43° 10' and 44° latitudes N., and between 76° and 80° longitudes W. It receives the Niagara river, the great outlet of the upper lakes, in its S. W. part, and has its outlet, by the St. Lawrence river, in its N. E. part, in which, immediately below the lake, is the cluster denominated "The Thousand Islands." Its shape approaches to a long and narrow ellipse, being 190 miles long, and 55 miles in its widest part, and about 450 miles in circumference. It is very deep, being in some places 600 feet, so that its bottom is considerably below the level of the Atlantic. It is 334 feet below the level of Lake Erie, and 231 feet above tide-water, and in every part has a sufficient depth for the largest ships. Its harbors are numerous and good, and except in shallow places near the shore, its waters are seldom frozen. The principal streams that enter it on the south side are the Genesee, Oswego, and Black rivers, and a large number of creeks. The Bay of Quinté is a long and irregular body of water in its eastern part, which receives a considerable river, the outlet of several small lakes; and Burlington Bay is in its western part. Both of these bays are in Canada. It has several important places on its shores, the principal of which are Kingston, Toronto, and Coburg, in Canada; and Oswego, Sackett's Harbor, and Port Genesee, or Charlotte Harbor, in New York. It is subject to violent storms and heavy swells; but the numerous steamboats which navigate it pass quietly through it, having a great depth of water. It is connected with the Erie Canal and Hudson r. by the Genesee r. navigation and the Oswego Canal, which connect with the Erie Canal at Rochester and Syracuse, and also by several railroads with the great central road of New York.

Several lines of railroad are also being built along its shores in Canada, and others into the interior of that country. Much of the trade of the Western States passes through these avenues to the sea-board. The Welland Canal connects it with Lake Erie; it is 26 miles long, with 34 locks, and admits the passage of the largest vessels which navigate the lakes. This canal commences at Sherbrooke, near the mouth of Grand r., and terminates at Port Dalhousie, 9 miles west of Niagara village. Its entrance being a considerable distance west of the outlet of Lake Erie, it is open earlier than the Erie Canal at Buffalo, where the ice often accumulates in the spring. The commerce on this lake is very valuable. In 1846 it amounted to \$14,025,507, and in 1848 to \$28,141,000. This is exclusive of the passenger trade. The following table exhibits the number of vessels which entered the several districts of the lake during the year ending 30th June, 1850:

Districts.	American.		Foreign.		Tonnage owned.
	Vessels.	Tons.	Vessels.	Tons.	
Oswegatchie ...	192	144,549	183	52,366	1,935
Sackett's Harbor ...	254	152,060	25	1,109	8,123
Oswego ...	651	122,311	976	73,482	22,404
Niagara ...	213	71,971	368	101,307	732
Genesee ...	70	20,548	145	19,529	1,037
Cape Vincent ...	238	149,647	43	6,704	2,497
Total ...	1,648	661,086	1,745	254,497	36,773

The business on the Welland Canal is rapidly increasing, and serves as an index to the future of the commerce on this lake. The number of vessels passing up and down for two seasons, was as follows:

	Down.	Up.	Total.
1851 ...	1,752	1,748	3,500
1850 ...	1,250	1,295	2,545
Increase ...	502	453	955

Of the vessels passing down in 1851, there were 924 American bound to American ports, and 163 bound to British ports; and 359 British bound to British ports, and 306 to American ports. Of the vessels down, 1,230 were bound to American, and 522 to British ports. Of the vessels passing up, 1,176 were bound to American, and 572 to British ports. This shows that a large portion of the business in the Welland Canal is American.

The increasing commerce on this lake is now demanding greater facilities of outlet on the American coast, and to afford this, several projects have been proposed, two of which, the Sodus Canal, and Sodus Point and Southern R. R., are now in process of construction.

The trade between the United States and Canada is principally through Lake Ontario, and this trade is increasing with wonderful rapidity. The exports to Canada, in 1849-50, were valued at \$5,930,821, and the imports, exclusive of specie, at \$3,859,101. The exports of manufactured goods to Canada, were \$3,964,222. The total of this class of goods exported from the United States, in 1849-50, exceeded those of 1848-9 by \$3,098,157, and of this excess \$2,457,915 went to Canada; so the increase to Canada exceeded five-fold all the increase to other countries trading with the United States.

ONTONAGON county, *Mich.* Situate W. of the N. peninsula, and contains 2,325 sq. m. Drained by Ontonagon, Montreal, and Presque Isle rivers. Surface for the most part even. In the N. W. are the Porcupine Hills, a low range of mountains, having acquired their name from the jagged appearance of the surface. Immense deposits of iron and copper ore are found in this region. Farms 0; manuf. 0; dwell. 46, and pop.—wh. 353, fr. col. 6—total 359. *Capital*: Ontonagon.

ONTONAGON, p. v., Ontonagon co., *Mich.*: at the mouth of the ONTONAGON r., 359 m. N. W. Lansing. Copper of a superior quality is to be found here and in the vicinity in abundance. The Ontonagon Copper Company are working

a vein in which they encounter boulders of pure copper, weighing from 25 to 50 pounds, containing considerable silver. There are a number of mines along the river course, worked by different companies, yielding abundantly. For certain purposes in the arts the copper in this region stands unrivaled, and surpasses all the ores of copper in density and tenacity.

ONTONAGON river, Mich.: rises by three branches—the E. one in Marquette co., the middle in small lakes near the border of *Wisc.*, and its W. branch in Agogebic lake. The main stream flows N. W., between bold and picturesque banks, much broken by falls, and empties into Lake Superior. On its border is found a celebrated mass of native copper, about 20 cubic feet in bulk, and weighing from four to five tons.

ONWARD, p. o., Stewart co., Tenn.: near the Cumberland river, 61 m. W. by N. Nashville.

OSOOOLA, p. o., Somerset co., Me.: N. Augusta.

OOTICALOGA, p. o., Cass county, Ga.: 103 miles N. W. Milledgeville.

OPALIKA, p. o., Walker county, Ga.: 169 m. N. W. Milledgeville.

OPELIKA, p. v., Russell county, Ala.: on the E. side of Ufawpee cr., and on the line of the Montgomery and West Point R. R., 21 m. from West Point, and 54 m. E. by N. Montgomery.

OPELOUSAS, p. v., and cap. St. Landry par., *La.:* at the head of Vermillion r., 55 m. W. Baton Rouge. The country round about is pleasant and very fertile. The Franklin College, situate here, founded in 1839, has a president, 4 professors, and 70 students. There is also a United States land office here. The v. contains the court-house, 2 banks, 4 churches, and several stores. The "St. Landry Whig" (whig), daily, and "Opelousas Gazette" (neut.), semi-weekly, are published here. The New Orleans, Opelousas, and Great Western R. R. will pass through it.

OPEN POND, p. o., Henry county, Ala.: 83 m. S. E. Montgomery.

OPEQUAN river, Virg.: rises in the S. E. part of Frederick co., flows N. E., separating Clark and a part of Jefferson from Frederick and Berkeley counties, and empties into the Potomac river.

OPHIR, p. o., La Salle county, Ill.: 103 m. N. by E. Springfield.

OPHIR, p. v., and cap. Butte co., *Calif.:* on the E. side of Feather r., 123 m. N. N. E. Vallejo. Pop. 3,000.

OPORTO, p. o., St. Joseph county, Mich.: 69 m. S. W. Lansing.

OPPENHEIM, t. and p. v., Fulton co., N. Y.: 61 m. N. W. Albany. Drained by small streams which flow into the Mohawk r. Bounded on the W. by East Canada cr. The v. is in the centre of t. The t. contains several stores and a number of mills. Pop. of t. 2,315.

OQTAWKA, p. v., and cap. Henderson co., *Ill.:* on the E. bank of the Mississippi r., a few miles above the mouth of Henderson r., 105 m. N. W. Springfield. Situate on a sand ridge that extends from Henderson r. to the Mississippi. It is the landing for this and the adjoining counties, and principal depot for freights between the Des Moines and Rock River Rapids. A railroad is in progress to connect this v. with Peoria. It contains the county court-house and usual number of public buildings. The "O. Spectator" (lit.) is published weekly. Pop. 1,200.

ORAN, p. v., Onondaga co., N. Y.: on a branch of Canaseraga cr., 121 m. W. Albany.

ORAN, p. v., Kosciusko co., Ind.: on La Porte post-road, 106 m. N. Indianapolis.

ORANGE county, Flor. Situate E. of the peninsula, and contains 5,253 sq. m. Drained by St. John's r., which in its course from S. to N. (where it enters the Atlantic in Duval co.), passes through the different lakes by which the face of the country is diversified. The land is in general low and part of it marshy; soil fertile. Chief productions cotton,

rice, Indian corn, wheat, fruits of all kinds, vegetables, etc. On the Atlantic side are large lagoons, the land on the eastern shore stretching out and forming Cape Canaveral. Farms 19; manuf. 0; dwell. 55, and pop.—wh. 233, fr. col. 2, sl. 226—total 466. *Capital:* Mellonville.

ORANGE county, Ind. Situate S. toward the W., and contains 395 sq. m. Drained by Lick cr. and branches, tributaries of the E. fork of White r. Surface varied—in the N. being rolling or undulating, and in the S. hilly; soil fertile and very productive. Staples, wheat and Indian corn. Timber is abundant. It has fine water privileges. Farms 1,118; manuf. 8; dwell. 1,841, and pop.—wh. 10,559, fr. col. 250—total 10,809. *Capital:* Paoli. *Public Works:* New Albany and Salem R. R.

ORANGE county, N. Y. Situate S., and contains 760 sq. m. Drained by Walkkill, Nevisink, and Shawangunk rivers in the central portion, and branches of Delaware r. in the W. Surface various—in parts being rather mountainous, in the W. are the Shawangunk range, and in the S. E. the Highlands, the remaining portion is pleasantly diversified with hills and valleys; the soil is fertile and well adapted to grazing. This county is celebrated for its fine milk and butter, which, with wheat, Indian corn, and potatoes, form its chief productions. It abounds in minerals, and has large beds of magnetic iron ore. Farms 3,426; manuf. 357; dwell. 9,656, and pop.—wh. 54,783, fr. col. 2,362—total 57,145. *Capital:* Goshen. *Public Works:* New York and Erie Railroad.

ORANGE county, N. Car. Situate N. centrally, and contains 676 sq. m. Drained by branches of Haw and Neuse rivers. Surface level; soil fertile, and adapted to the growth of tobacco, etc.: some cotton is also raised. Farms 1,082; manuf. 17; dwell. 2,186, and pop.—wh. 19,330, fr. col. 481, sl. 5,244—total 17,053. *Capital:* Hillsboro'. *Public Works:* North Carolina Central R. R.

ORANGE county, Verm. Situate E., and contains 740 sq. m. Drained by Waits and Ompompanoosuc rivers and branches of White r. Surface in the N. and N. W. rocky and mountainous, but in the eastern portion, along the banks of the Connecticut r., are some fine tracts of land; soil various, generally suited for grazing, but producing good crops of grain and vegetables. Chief productions wheat, Indian corn, and potatoes. This county contains iron and lead ores, slate and granite quarries, and has immense deposits of ochres. Farms 2,677; manuf. 86; dwell. 5,192, and pop.—wh. 27,277, fr. col. 19—total 27,296. *Capital:* Chelsea. *Public Works:* Connecticut and Passumpsic Rivers R. R.

ORANGE county, Virg. Situate centrally toward the E., and contains 376 sq. m. Drained by branches of North Anna and Rivanna rivers. Surface hilly; soil fertile. Chief productions Indian corn and tobacco. Rapid Anna river runs along its N. W. border. Farms 335; manuf. 45; dwell. 756, and pop.—wh. 3,962, fr. col. 154, sl. 5,921—total 10,067. *Capital:* Orange. *Public Works:* Orange and Alexandria R. R.; Virginia Central R. R., etc.

ORANGE, p. v., Cherokee co., Ga.: situate on a branch of the Etowah r., 111 m. N. W. Milledgeville.

ORANGE, p. o., Fayette county, Ind.: 31 m. E. by S. Indianapolis.

ORANGE, t. and p. v., Franklin co., Mass.: 67 m. W. by N. Boston. Drained by Miller's r. Surface uneven; soil better adapted to pasturage than culture. There are several manufactories of different kinds. The v. is situated on the line of the Vermont and Massachusetts R. R., 37 m. from Fitchburg. The t. contains several stores and mills. Pop. of t. 1,700.

ORANGE, p. o., Branch county, Mich.: 57 m. W. by S. Lansing.

ORANGE, t. and p. v., Essex co., N. Jer.: 45 m. N. E. Trenton. Drained by head waters of Rahway and Second rivers, and Peckman's branch of Passaic r., affording excellent water-power. Surface mountainous; soil red shale, fertile, and in a good state of cultivation. There are several

mills and manufactories in the t. The v. is on the line of the Morris and Essex R. R., 13 m. New York City, and contains 4 churches, a number of stores, and about 200 dwellings. A chalybeate spring is situate near the village. Shoemaking forms a great business in this neighborhood. Pop. of t. 4,855.

ORANGE, t. and p. o., Steuben co., *N. Y.*: 175 m. W. by S. Albany. Drained by several small creeks, which flow into the Coshocton r., and bounded on the N. by an outlet of Seneca lake. Surface rolling; soil very fertile. Population of t. 2,055.

ORANGE, p. v., Mahoning county, *Ohio*: 138 m. N. E. Columbus.

ORANGE, p. o., Luzerne county, *Penn.*: 85 m. N. N. E. Harrisburg.

ORANGE, t. and p. v., Orange co., *Verm.*: 11 m. E. by S. Montpelier. Drained by Wait's branch of White r., and Stevens' branch of Onion r., producing very valuable water-power. Surface mountainous; soil along the banks of the rivers rich and productive, the remainder inferior. Granite is found in large quantities, principally on Knox Mountain in N. E. part of the t. White mica of excellent quality is also found here several inches square. The timber is mostly hard wood. Products of the t. consist chiefly in cattle and wool. The v. is on the Bradford post-road, in centre of town. Pop. of t. 1,007.

ORANGE, p. v., and cap. Orange co., *Virg.*: at the junction of the Orange and Alexander R. R. with the Virginia Central R. R., 57 m. N. W. Richmond. It contains a court-house, jail, 2 churches, a number of stores, about 80 dwellings, and 450 inhabitants.

ORANGEBURG district, *S. Car.* Situate S. centrally, and contains 1,453 sq. m. Drained by North Edisto r. and its branches, and branches of South Edisto, which bounds it on the S. Surface level; soil moderately fertile. Chief productions cotton, rice, and Indian corn. Farms 1,082; manuf. 17; dwell. 2,186, and pop.—wh. 19,330, fr. col. 451, sl. 5,244—total 17,055. *Capital*: Hillsboro'. *Public Works*: South Carolina R. R.; Columbia Branch R. R., etc.

ORANGEBURG, p. v., and cap. Orangeburg dist., *S. Car.*:

on North Edisto r., and on the line of the Columbia Branch of the South Carolina R. R., 50 m. from Columbia. It contains the court-house, jail, and other public buildings. Several thousand pounds of Indigo are made here annually and carried to Augusta, Columbia, and Charleston; there are two kinds—the tame and the wild—the latter of which is the most valuable. Pop. 800.

ORANGEBURG, p. o., Mason county, *Ky.*: 71 m. N. E. Frankfort.

ORANGE HILL, p. o., Washington co., *Flor.*: 87 m. W. Tallahassee.

ORANGE LAKE, p. o., Marion co., *Flor.*: 125 m. S. W. Tallahassee.

ORANGE PORT, p. o., Niagara co., *N. Y.*: on the Rochester, Lockport, and Niagara Falls R. R., 51 m. Rochester, 257 m. W. by N. Albany.

ORANGE SPRINGS, p. v., Marion co., *Flor.*: on W. side of Oetawaha r., and on the N. boundary of county, 157 m. S. E. Tallahassee.

ORANGE SPRINGS, p. v., Orange co., *Virg.*: on a branch of North Anna r., 49 m. N. W. Richmond.

ORANGEVILLE, t. and p. v., Wyoming co., *N. Y.*: 239 m. W. Albany. Drained by Tonawanda cr. Surface hilly; soil alluvial. The v. is in the centre. There are in the t. several stores and mills, etc. Pop. 1,433.

ORANGEVILLE, p. o., Trumbull co., *Ohio*: 152 m. N. E. Columbus.

ORANGEVILLE, p. v., Columbia co., *Penn.*: 55 m. N. by E. Harrisburg.

OREBONIA, p. v., Huntingdon county, *Penn.*: 65 m. W. Harrisburg. There are situate here 3 hot-blast furnaces, with an aggregate annual capacity of 1,500 tons each, 1 cold-blast furnace, 800 tons annual capacity, and 1 forge, producing 250 tons blooms and 75 tons bars annually.

ORCUTT, sta., Tolland co., *Conn.*: on line of the New London, Willimantic, and Palmer R. R., 53 m. New London.

ORCUTT CREEK, p. o., Bradford county, *Penn.*: 99 m. N. Harrisburg.

ORFIELD, p. o., Lehigh county, *Penn.*: 73 m. N. N. E. Harrisburg.

THE TERRITORY OF OREGON.

OREGON, as relinquished by Great Britain to the United States in 1846, extends from 42° to 49° latitude north, and from the crest of the Rocky Mountains to the Pacific Ocean. As at present constituted, it is limited north by the Columbia river, to latitude 46°, and by that line to the mountains aforesaid, the upper portion of the original territory having lately been erected into a territorial government, under the title of the "Territory of Washington." For the convenience of exhibiting the statistics of the country, however, it will be necessary to describe it as it existed before the separation. It contains altogether an area of 341,463 square miles.

Oregon is naturally divided into three principal parallel sections, determined by the course of the mountains traversing it. The western section is bounded by the Cascade Mountains, and extends from them to the Pacific Ocean; the middle section lies between the Cascade Mountains and the Blue Mountains, and the eastern section between the latter and the crest of the Rocky Mountains. These several divisions have each distinct climatic characteristics, and differ in soil and productions. The mountain ranges extend in general in lines parallel with the coast, and often attain a height far above the summer snow line.

The Cascade, or coast range, sometimes called the President's Range, runs through the Territory north and south, at a distance from the sea-coast varying from 100 to 150 miles, and in many places rises in regular cones to the elevation of 12,000 to 14,000 feet above the level of the sea. Except when the Columbia breaks through it, the communication between the east and west is almost interrupted, and where there exists any mountain pass, the difficulties besetting it are such as to render it of little use to the traveler. The climate of the section west of this range is mild and genial the year round, and the winters remarkably short. Snow seldom lies on the ground a week together. The soil on the northern parts varies from a light brown loam to a thin vegetable earth, with gravel and sand as a subsoil. In the middle parts a rich, heavy loam prevails, but in many localities clay and a black loam, based on trap-rock, are found. The soils of the Willamette valley and southern part generally are good, varying from a black vegetable loam to decomposed basalt, with clay, and portions of loose gravel soil. The hills are generally basalt, stone, and slate. Between the Umpqua and the southern boundary, the rocks are primitive, consisting of slate, hornblende, and granite, which produces a poor and gritty soil. There are in the latter region, however, some rich lands, covered with oak. Gold has been found extensively in the rivers of the south. For the most part, the whole country west of the Cascades is well timbered. It is intersected by spurs from the main range, which render the surface much broken, and these are covered with dense forests of pines, firs, spruce, oaks, ash, arbor vitae, etc., with a dense undergrowth for hazels, rubus, roses, etc. The prairies and river bottoms are excellent farming lands, and the uplands abound in rich pasturage.

The Blue Mountains have an irregular course, and are frequently interrupted, but generally run north and south, commencing in the Klamath range, near the California line. They are broken through by the Saptin, or Snake River, at the

OREGON.

Junction of the Kooskooskee, and branch off in hills of moderate elevation, until they again appear on the north side of the Columbia River, above the Okonagon, and finally connect with the Rocky Mountains, in the British territory. The climate of the middle section is much more extreme than in the west of the Cascade range, and its range more frequent and greater. It is, however, extremely salubrious, and the air bracing. No dew falls in this section. The soil in the hills is barren, but in the valleys a rich alluvium, varied indeed, but generally fertile. The general elevation of this section is about 1,000 feet above the sea level. In the north, the surface is broken by mountains and rivers, and quite unfit for agricultural purposes. The parts south of this, including the vicinities of the Columbia and Saptin rivers, the surface is rolling, and in every way a fine grazing country. Further south there is little good land, the whole being broken and desert, with scarcely a tree or useful vegetable, the artemisia alone seeming to flourish in the solitudes.

The Rocky Mountains, forming the eastern border of the Territory, commence on the Arctic coast, and continue with little interruption until their subsidence at the central isthmus of the continent. Along all the line bounding Oregon, only one eligible pass has yet been discovered, and that—the Great South Pass—lies on its extreme south-east corner, forming the gate of the country. Through this pass the emigration from the east comes in, and it is also the great thoroughfare of travel to Utah and California. The section immediately west of this can never be made available for settlement. Its climate is variable, and in a single day the temperature may pass from winter to summer heat. Rain seldom falls, and but little snow. The surface is rocky, and presents an almost unbroken waste, while stupendous mountain spurs traverse it in all directions. This country is partially timbered.

The Columbia is the great river of the country, and the recipient of all the other rivers of the Territory, having their origin eastward of the coast range of mountains. Its N. branch rises in the Rocky Mountains in about 50° N. lat. and 116° W. long., and thence pursues a N. route to near McGillivray's Pass. Here the river is 3,600 feet above the sea-level, and, receiving Canoe River, it then turns S., and in its course to Fort Colville it successively takes up the waters of numerous tributaries, the chief of which are the Kootanie, or Flat Bow, and Flat Head or Clark's rivers. The Columbia is thus far surrounded by high mountains, and often expands into a chain of lakes. At Colville its elevation is 2,049 feet above the sea, having fallen 556 feet in 220 miles. To the S. of this point it tends to the W., receiving Spokane River from the E.; thence it pursues a W. course for 60 miles, and bending to the S., receives Okonagon River, which has its source in a line of lakes extensively susceptible of canoe navigation. The Columbia thence passes S. until it reaches Walla Walla, in 45° N. lat., and receives the Saptin or Lewis River; here the elevation of the Columbia is 1,286 feet, and its width about 3,500 feet. It now takes its last turn to the W., receiving the Umatilla, Quinsief's, John Day's, and Chute rivers from the S., and Cathlamet from the N., and pursuing a rapid course for 80 miles, it passes the gorge of the Cascade Mountains in a series of falls and rapids, that form an insurmountable barrier to the passage of boats, even in time of flood, and are overcome by portages. From this point there is still-water navigation for 40 miles, when rapids again interrupt free sailing, but hence to the ocean, 120 miles, the river, though frequently obstructed by bars, is open to vessels of less than 12 feet draft. In this part of its course it receives the Willamette River from the S., and the Cowlitz from the N. The Willamette is navigable for small vessels to within 3 miles of its falls. Within a distance of 20 miles from the ocean, the Columbia is greatly increased in width, and at its mouth, between Cape Disappointment and Cape Adams, its width is 7 miles, but from each of these capes a sand-bar extends which renders the actual navigable channel contracted and narrow. The mouth of the Columbia was discovered by Capt. Gray, of Boston, commander of ship Columbia, of 220 tons, on the 11th May, 1792; and on the strength of this discovery the United States based their right to the territory watered by its tributaries.

The Chehalis, to the north of the Columbia, is a considerable river, and perhaps next to it in importance. It rises from several sources in the Cascade Mountains, and after a very tortuous course, receiving some small streams issuing from the lakes in the high ground, near the head waters of Hood's Canal and Puget's Sound, discharges in Gray's Harbor. Its current is rapid and much obstructed, nor is it navigable except by canoes. Emptying into Puget's Sound are the rivers Nesqually and Tenalquit, or Shute's River, both affording excellent water-power and some navigation. On both these rivers there are flourishing settlements, and Olympia, a port of entry, lies at the mouth of the latter.

The rivers south of the Columbia are Clatsop, Killamook, Yaquina, Alsea, Umpqua, Sequatchie, and Rogue rivers, all falling into the Pacific Ocean. But two of these are worthy of notice, the majority of them being small and insignificant streams. The Umpqua meets the sea in about 43° 54' N. lat.; it is a large river, rising in the Cascade Mountains by two main branches, which meet in about lat. 43° 20', and thence, after a due north course of about 20 miles, the river turns suddenly to the west, expanding to a considerable width in its lower course. Its principal tributaries are the Elk and Smith's rivers. Settlements have been made along the course of this stream by gold hunters, brought here by the reported richness of its washings. Rogue's River rises in the same range, but farther south, and flows directly W. from its source. It has also become famous for its golden sands, and has attracted to its banks many adventurers. None of these rivers form harbors capable of receiving vessels of more than 8 feet draft, and their bars are dangerous on account of the surf that sets up to the coast.

The character of the great rivers of Oregon is peculiar; exceedingly rapid and sunk much below the general level, with perpendicular banks, they are, as it were, in trenches, it being difficult to get at the water in many places, owing to the steep basaltic walls; and during their rise, which takes place in February and November, they are in many places confined by narrows, which back the water some distance, submerging lands and tracts of low prairie, giving the appearance of extensive lakes to the overflow country. The bars of these rivers are constantly changing, and it may be said that there is not a river on the Oregon coast, entrance to which is safe. Gray's Harbor will not admit vessels of more than 10 feet draft. This, however, is not the case within the harbors formed within the straits of Juan de Fuca, of which there are many, and no part of the world forms finer inland sounds, or a greater number of harbors, than can be found here, capable of receiving the largest class of vessels, and without a danger in them that is not visible. From the rise and fall of the tides (15 feet) all facilities are afforded for the erection of works for a great maritime nation.

The fisheries on the coast and in the rivers of Oregon are most extensive. The rivers abound in salmon of the finest flavor, and these form a great part of the subsistence of the Indians. The Columbia produces the largest, and probably affords the greatest numbers. The great fishery at the Columbia is at the Dalles, but all the rivers are well supplied. In the rivers and sounds are found several kinds of salmon, salmon trout, sturgeon, eel, carp, sole, flounders, ray, perch, herring, lampreys, and a kind of smelt, called "shrow," in great abundance; also large quantities of shell fish, viz., crabs, clams, oysters, mussels, etc., which are all used by the natives. Whales are found along the coast, and frequently in and at the mouth of the Straits of Juan de Fuca.

To the hunter Oregon is a paradise. Game, such as the elk, deer, antelope, bears, wolves, foxes, muskrats, martins, beavers, etc., exist in great abundance. In the middle section no game is found. In the eastern section the buffalo is

OREGON.

met with. The fur-bearing animals are decreasing in numbers yearly, and even already are so scarce as scantily to repay the expense of hunting them. The Hudson's Bay Company have almost the exclusive monopoly in this business. In the spring and fall the rivers are literally covered with ducks, geese, and other water fowl.

Oregon, in 1850, was divided into 10 counties,* the general statistics of which, and the capitals of each, in 1850, were as follows:

Counties.	Dwell.	Pop.	Farms in cult.	Manuf. Estab.	Capitals.	Counties.	Dwell.	Pop.	Farms in cult.	Manuf. Estab.	Capitals.
Benton.....	149...	814...	110...	1...	Marysville	Lewis.....	146...	558...	55...	3...	Pacific City
Clackamas.....	365...	1,859...	150...	18...	Oregon City	Marion.....	502...	2,749...	293...	11...	Salem.
Clark.....	95...	648...	7...	4...	Columbia City	Polk.....	190...	1,051...	129...	2...	Cynthian
Clatsop.....	91...	402...	24...	2...	Astoria	Washington.....	418...	2,651...	116...	5...	Portland
Linn.....	172...	994...	138...	6...	New Albany	Yam Hill.....	248...	1,512...	142...	4...	Willamette

The whole number of dwellings in the State was, at the above date, 2,374, of families 2,374, and of inhabitants 18,293, viz.: whites 13,057—males 8,142, and females 4,945, fr. col. 206—males 119, and females 57. Of the whole population, there were deaf and dumb, 0; blind, 0; insane—wh. 4, fr. col. 0—total 4; and idiotic—wh. 4, fr. col. 0—total 4. The number of free persons born in the United States was 11,992, the number of foreign birth 1,159, and of birth unknown 143; the native population originated as follows: Maine 129, N. Hamp. 44, Verm. 111, Mass. 187, R. I. 20, Conn. 72, N. Y. 618, N. Jer. 69, Penn. 337, Del. 18, Md. 73, Dist. of Col. 15, Virg. 469, N. Car. 201, S. Car. 34, Ga. 22, Flor. 4, Ala. 20, Miss. 8, La. 6, Tex. 15, Ark. 61, Tenn. 402, Ky. 730, Ohio 653, Mich. 37, Ind. 736, Ill. 1,023, Mo. 2,206, Ia. 52, Wis. 10, Calif. 25, Oregon 3,178, Territories 7. And the foreign population was composed of persons from—England 207, Ireland 196, Scotland 106, Wales 9, Germany 125, France 45, Spain 0, Portugal 0, Belgium 11, Holland 1, Italy 5, Austria 0, Switzerland 8, Russia 1, Denmark 2, Norway 1, Sweden 2, Prussia 1, China 2, Asia 0, British America 293, Mexico 1, South America 6, West Indies 0, Sandwich Islands 50, and other countries 57.

The general statistics of the products, industries, institutions, etc., of the territory, according to the census of 1850 and other official documents referring to the same period, are as follows:

Occupied Lands, etc.—Improved farm lands 132,857 acres, and farm lands unimproved 299,951 acres—valued together at \$2,849,170. Whole number of farms under cultivation on the 1st June, 1850, 1,164. Value of farming implements and machinery, \$158,423.

Live-Stock.—Horses, 8,046; asses and mules, 420; milch cows, 9,427; working oxen, 8,114; other cattle, 24,188; sheep, 15,382; and hogs, 30,235. Value of live-stock, \$1,876,159.

Products of Animals.—Wool, 29,686 pounds; butter, 211,461 pounds; and cheese, 36,980. Value of animals slaughtered during the year, \$164,530. The average clip of wool per sheep was thus 1lb. 14½ oz.

Grain Crops.—Wheat, 211,943 bushels; rye, 106 bushels; Indian corn, 2,918 bushels; oats, 65,146 bushels; barley 0 bushels, and buckwheat, 0 bushels.

Other Food Crops.—Peas and beans, 6,566 bushels; potatoes—Irish, 91,926 bushels, and sweet, 0 bushels.

Miscellaneous Crops.—Tobacco, 325 pounds; hay, 373 tons; clover-seed, 4 bushels; other grass-seed, 22 bushels; hops, 8 pounds; flax, 640 pounds; molasses, 24 gallons, etc. Value of orchard products \$1,271; market-garden products \$90,241.

Home-made Manufactures were produced in the year to the value of \$

Manufactures.—Capital invested, \$00,000; value of all raw material, fuel, etc., consumed, \$00,000; hands employed, 000—males 000, and females 00; monthly cost of labor \$00,000—male \$0,000, and female \$000; total value of annual products \$000,000. Number of manufacturing establishments producing to the value of \$500 and upward annually, 51.

Commerce.—Oregon has a considerable coasting trade with California in lumber, boards, and agricultural produce, and it has also some trade with the Atlantic ports, especially New York and Boston. With foreign countries its trade is limited. The amount of this can only be guessed at, as no general returns appear in the Treasury books. A report of the commerce of Astoria was made by the collector at that port for the year ending 1st April, 1850, but of the other ports no accounts have been received. According to the document referred to, there had entered that port 6 ships, 30 barks, 23 brigs, and 5 schooners—total 69 vessels, and 16,437 tons; from foreign ports 1,639 tons foreign, and 669 tons American shipping, and coastwise 14,129 tons American shipping. The duties collected for the year amounted to \$26,408.

The exports for the year were—sawed lumber, 4,537,317 feet; square timber, 812,097 feet; round logs, 355; house frames, 40; shingles, 599,033; leather, 124 sides; flour, 3,766 barrels; beef, 13 barrels; pork, 6 barrels; salmon, 838 barrels; bread 37 barrels; oats, 497 bags; apples, 15 barrels; cranberries, 6 barrels; bacon, 600 pounds; fire-wood, 8 cords; sauer kraut, 10 barrels; onions, 20 sacks, 12 hampers, and 42 bushels; butter, 23 barrels, 62 kegs, 2 firkins, and 8,000 lbs.; cheese, 5,200 pounds, and 4 boxes; eggs, 6 boxes, and 42 dozen; potatoes, 64 bushels, 40 barrels, and 750 sacks. An account of the imports, says the collector, would furnish no satisfactory results, as the cargoes of vessels entering the Columbia are mostly of small assorted lots, and although in the aggregate of considerable value, still they can not be ascertained in detail. The navigation of the Columbia River is free to the Hudson's Bay Company, but goods introduced into the country through the mouth of the river, and landed for any other purpose than for portage, in aid of their being carried up the river and out of the territory, are subject to the duty.

Government.—The constitution of Oregon was promulgated in the law of Congress of the 14th August, 1848:

Every white male inhabitant of the Territory at the time of the passage of that law, 21 years old, who was a citizen of the United States, or who had on oath declared his intention to become such, or who should take the requisite oaths, was allowed to vote or be chosen to office at the first election; but the legislature may prescribe further limitations.

The *Legislature* is styled the General Assembly, and consists of a council of 9 members, and of a House of Representatives, of not less than 15, nor more than 30 members. Members of both houses must have the qualifications of voters. Councilors are chosen for three years, and representatives for one year. All laws passed by this legislature must be submitted to Congress for approval or rejection. No session must continue more than 60 days. No bank, or any thing like a bank, shall be chartered or permitted to exist in the Territory, as a branch of an institution chartered elsewhere or otherwise, and the Territory shall issue no scrip, neither pledge its faith, nor in any way borrow money. Salmon must not be prevented from passing up and down the streams.

The *governor*, appointed by the President, holds office for four years, and until his successor is appointed and qualified.

* Pacific, Linn, Umpqua, and Lane, are new counties. Lewis, Clark, and Pacific counties are now comprised in the Territory of Washington, and together, in 1850, contained 1,201 inhabitants

OREGON.

He is removable by the appointing power. The governor is *ex-officio* Superintendent of Indian Affairs; may grant pardons and respites for offenses against territorial laws, and reprieve until the President's will be known, for those against the laws of the United States. The secretary, justices, attorney, and marshal, are also appointed by the President. The secretary holds office for five years, is removable by the President, and in default of the governor fills his place.

The *Judiciary* consists of a Supreme and District courts. There are three judicial districts, in each of which a judge appointed for four years and until a successor be appointed and qualified, holds a district court, with law and equity jurisdiction as may be regulated by statute, and the same three judges hold the supreme court, to which, cases not to be tried by a jury may be removed by appeal from the district courts. Writs of error and appeal from the decisions of the supreme court, lie to the Supreme Court of the United States where the matter in dispute exceeds \$2,000, or where the constitution, or a treaty of the United States, or acts of Congress, are in question. In cases arising out of the Constitution of the United States, or of territorial laws, the district courts have the same jurisdiction as the United States district and circuit courts.

Other prominent provisions of the fundamental law, are: The Secretary of the Treasury of the United States shall regulate all disbursements of money intrusted to the governor or secretary; the inhabitants shall enjoy the benefits of the Ordinance of 1787; existing laws, compatible with the constitution of the United States, and with this act, unless repealed by the legislature shall remain in force, except those affecting the title to land, which are void; a delegate to Congress, who shall be a citizen of the United States, shall be chosen by a plurality of votes; \$5,000 is appropriated to the purchase of a territorial library; sections 16 and 36 in every township are set apart for the benefit of schools; all the ports of the mainland form the collection district of Oregon, and Astoria is made a port of entry; a port of delivery may be established on Puget's Sound, and one other elsewhere; \$15,000 is appropriated for light-houses and buoys, etc.

On the 27th September, 1850, an act was passed, providing for a Surveyor-General of the Territory, and to provide for the survey, and to make donations to settlers of the public lands. Its principal provisions are as follows:

There is granted to every settler or occupant of the public lands, American half-breed Indians included, above the age of 18, a citizen of the United States, or having made a declaration of his intention to become a citizen, or who shall make such declaration on or before Dec. 1, 1851, now residing in said Territory, or who shall become a resident on or before Dec. 1, 1850, and who shall have resided upon and cultivated the same for four consecutive years, and shall give satisfactory proof of settlement and cultivation within 12 months after the surveys have been made, one half-section or 320 acres of land, if a single man, and if married, or if he shall be married within one year from Dec. 1, 1850, one section or 640 acres, one half to himself and the other half to his wife, to be held by her in her own right; and the surveyor-general shall designate the part enuring to the husband and that to the wife, and enter the same on the records of his office, and when married persons become entitled to a grant, and either shall die before the patent issues, the survivor and children shall be entitled to equal portions of the estate, unless it is disposed of by will, under the laws of Oregon. When an alien has declared his intention to become a citizen, and shall die before naturalization, his possessory right shall go to his heirs or devisees. Donations shall embrace the land actually occupied by the settler, shall be in a compact form, and shall be taken as nearly as practicable by legal subdivisions, and shall be claimed within three months from the completion of the survey. Contracts for the sale of the land before the patent is issued are void. If any settler shall die before the expiration of said four years, his right shall descend to his heirs in equal parts.

To all white male citizens of the United States, or persons who shall have made a declaration of intention to become such, above the age of 21, emigrating to and settling in said Territory between Dec. 1, 1850, and Dec. 1, 1853, and to all white male American citizens, not hereinbefore provided for, becoming 21 years of age in said Territory and settling there between the times last aforesaid, who shall comply with the foregoing provisions, there is granted one-quarter section or 160 acres of land, if a single man; or if married, or if he shall be married within one year from his arrival in said Territory, or within one year after becoming 21 years of age, then one half-section or 320 acres, one half to the husband and the other half to the wife in her own right, to be designated by the Surveyor-General. No person shall ever receive a patent for more than one donation of land in said Territory, in his or her own right.

No claims upon sections 16 and 36 for residence and cultivation of the same, after the survey, shall be valid. Certain lands are given for the endowment of a university. No mineral lands, nor lands reserved for salines, can be claimed under this act.

All persons claiming land under this act, by virtue of settlement and cultivation commenced subsequent to Dec. 1, 1850, must first make oath that the land claimed by them is for their own use and cultivation; that they are not acting as agents for others in making such claims; and that they have made no sale or transfer, or any agreement for any sale or transfer, or by which the said land shall enure to the benefit of any other person, and persons making false or fraudulent oaths or affirmations shall be subject to all the pains and penalties of perjury.

Religious Denominations.—The statistics of the several religious denominations in the State in 1850, according to the census of that year, were as follows:

Denominations.	No. of Churches.	Church accom.	Value of Property.	Denominations.	No. of Churches.	Church accom.	Value of Property.	Denominations.	No. of Churches.	Church accom.	Value of Property.

Oregon Territory forms a part of the Roman Catholic Ecclesiastical province, of which Oregon City is the metropolitan see, and comprises the diocese of Oregon City, Wallawalla, Fort Hall, and Colville. The Episcopal Church has not yet been established in the Territory.

Educational Statistics.—It is not expected that education in so sparsely populated a Territory as Oregon can have made much progress. No statistics are yet published on which dependence can be placed, but it is well known that in all the cities there are not only common schools, but respectable academies, and provision has already been made for a college or university. The grant of the 16th and 36th section in each township of land for educational purposes is double the amount allowed to the western and other new States, and in course of time will become an ample fund.

Oregon, as a field of labor for the farmer, mechanic, and scholar, or the Christian, has become conspicuous, and will continue to attract more and more the attention of the virtuous and industrious who shall emigrate from the Atlantic States. While California, poor in soil and most of the conditions for steady industry, holds out her peculiar attractions to those who, by a temporary sojourn, would make haste to be rich, Oregon offers a home to all who would become permanent members of a community relying upon the pursuits of agriculture and the arts for prosperity. What the first has been in the eyes of men of commerce, the last has come to be in the view of those who cultivate the soil or follow the mechanic arts. These two countries, though adjoining, differ no less widely in their physical capabilities than in the examples they are furnishing of the law of civilization. In the one case wealth precedes educational and religious establishments and the reign of law and order; native gold dug from the earth or gathered from its surface, or separated from the pulverized rock, furnishes the means of support for churches, school-houses, and colleges, long before a community appears that recognizes them as indispensable elements in the machinery of the State. In the other, while wealth is anticipated as the reward of long-continued effort, and as incidental to the sure and steady growth of a different class of interests, the members of the new community can not dispense with institutions which should accompany the colonizers as their household gods. This mode of settlement is one that commends itself to those who hope well for the ultimate character of those portions of our country yet to be occupied. It is the only way in which a great State can ever be built up. The deep foundations of prosperity rest upon the labors of a colony actuated by such views of life and effort.

The sovereignty over this Territory was long claimed both by the United States and Great Britain, and after 1818 was held in joint occupancy, being, however, subject to neither. The coasts of this country were discovered by the Spaniards in the 16th century, but in 1792 the discovery of the Columbia River, by Captain Gray, gave to the United States a claim to sovereignty. The British derived their claim from discovery and occupation. In 1804-5-6 Captains Lewis and Clarke explored the country from the mouth of the Missouri to the mouth of the Columbia, and spent the winter of 1805-6 on the Pacific. In 1808 the first trading-house established on the waters of the Columbia was erected by the Missouri Fur Company on Lewis River. In 1810 the Pacific Fur Company, at the head of which was the late John Jacob Astor, of New York, was founded, and in the following year Fort Astoria was built at the mouth of the Columbia. This fort was taken during the last war by the English, but peace returning, it was again delivered by the British Government to its original owners. The disputes respecting the sovereignty were renewed in 1845, and in 1846 a treaty between England and the United States defined the line of 49° as the division between the territories of the two nations. The people of Oregon hitherto had existed under a government of their own, and made their own laws. A bill to establish a territorial government passed the House of Representatives 16th January, 1847, but was not acted on by the Senate. In 1848 a bill passed both houses of Congress, and was approved by the President, 14th August. The government was soon after organized according to the provisions of the new law, and the independent government ceased. The emigration to Oregon is continually increasing in numbers.

SALEM, on the east side of the Willamette River, is the political capital of the State.

OREGON county, *Mo.* Situate S., and contains 1,756 sq. m. Drained by Eleven Point and branches of Spring rivers. Surface generally even; soil moderately fertile, and yields average crops of corn, wheat, etc. This is a fine mineral county, containing excellent beds of iron, copper, and lead ores, with others of importance. King's Mount is situate in the N. Much of the land is covered with pine and other timber. Farms 180; manuf. 3; dwell. 252, and pop.—wh. 1,392, fr. col. 22, sl. 18—total 1,432. *Capital:* Thomasville.

OREGON, p. o., Jefferson county, *Ala.*: 84 miles N. W. Montgomery.

OREGON, p. o., Lancaster county, *Penn.*: 81 m. E. by S. Harrisburg.

OREGON, p. o., Clarke county, *Ind.*: 87 miles S. by E. Indianapolis.

OREGON, p. v., and cap. Holt co., *Mo.*: 195 m. N. W. Jefferson City, and near the left bank of the Missouri r. It contains the court-house and several dwellings.

OREGON, p. o., Chautauque co., *N. Y.*: 295 m. W. S. W. Albany.

OREGON, p. o., Warren co., *Ohio*: 71 m. S. W. Columbus.

OREGON, sta., Seneca co., *Ohio*: on the line of the Mad River and Lake Erie R. R., 46 m. Sandusky City.

OREGON, t. and p. v., Dane co., *Wis.*: in the S. part of the county. Drained by a branch of Sugar r. Surface rolling. The lands are very good, and the soil well adapted to agricultural purposes. Pop. of t. 638.

OREGON, p. o., Lincoln county, *Tenn.*: 67 m. S. $\frac{1}{2}$ E. Nashville.

OREGON CITY, p. v., and cap. Ogle co., *Ill.*: on the right bank of Rock r., 159 m. N. $\frac{1}{2}$ E. Springfield. Pop. 540.

OREGON CITY, p. v., and cap. Clackamas co., *Oreg. Ter.*: on the right bank of the Willamette r., 84 m. N. E. Salem and 12 m. above Portland. The falls at this place afford it an immense water-power, which has been improved to some extent. It was formerly the territorial capital, and contains the co. buildings. The "Statesman" and "Spectator" are newspapers published here. The v. has thriving trade, and may be considered as the commercial depôt of

the upper Willamette country. The office of the U. S. surveyor-general is stationed here. Pop. 697.

OREGONIA, p. o., Tuscaloosa co., *Ala.*: 87 m. W. N. W. Montgomery.

ORE HILL, p. o., Litchfield co., *Conn.*: 87 m. W. Hartford.

ORFORD, t. and p. o., Grafton co., *N. Hamp.*: on the Connecticut r., 51 m. N. W. Concord. Drained by several small streams flowing into the Connecticut r. Soil in general fertile. Near the centre of the t. are situate mounts Cuba and Sunday. At the foot of a high mountain, near the river, limestone is found in abundance—grey granite and a fine quality of soap-stone are found in many places. Galena, or lead ore, of fine texture, has been discovered in considerable quantities. There are some flourishing farms along the banks of the river. The v. is connected with Fairlee by a bridge, at which point there is a station on the Connecticut and Passumpsic R. R., 22 m. N. White River Junction, *Verm.* The t. contains several mills. Pop. of t. 1,406.

ORFORDVILLE, p. v., Grafton county, *N. Hamp.*: on the Wentworth post-road, 54 m. N. W. Concord.

ORIENT, t. and p. o., Aroostook co., *Me.*: 143 m. N. E. Augusta. Chapatnetecook, or Grand, and North lake, form its E. boundary. Drained by a stream flowing into North lake. It is a fine agricultural town. Pop. 207.

ORIENT, p. v., Suffolk county, *N. Y.*: until recently called "Oyster Pond," 193 m. S. E. Albany. Is very pleasantly situated, commanding a view of Long Island Sound on the N., and Gardiner's bay on the S. and E.

ORION, p. o., Pike co., *Ala.*: 38 m. S. E. Montgomery.

ORION, p. v., Henry co., *Ill.*: 113 m. N. N. W. Springfield.

ORION, p. o., Richland county, *Wis.*: 63 miles N. by N. Madison.

ORISKANY, p. v., Oneida co., *N. Y.*: on Oriskany cr. and on the Syracuse and Utica R. R. and Erie Canal, 7 m. from Utica, and 59 m. N. W. Albany. The "Oriskany Manufacturing Company" have large manufactories here, and are extensively engaged in the manufacture of woolen goods.

ORISKANY creek, *N. Y.*: rises in Madison co., and flowing N. E. enters the Mohawk r. at Oriskany village, Oneida co.

It is a valuable mill stream. On it are situate extensive cotton and woolen factories.

ORISKANY FALLS, p. v., Oneida co., *N. Y.*: 95 m. W. by N. Albany, on the Oriskany cr. and Chenango Canal, where the fall is from 30 to 35 feet, affording excellent water-power. There are a number of mills at this point.

ORIZABA, p. o., Tippah county, *Miss.*: 167 m. N. by E. Jackson.

ORLAND, p. v., Steuben county, *Ind.*: on Fawn r., 141 m. N. E. Indianapolis.

ORLAND, p. o., Cook co., *Ill.*: 175 m. N. E. Springfield.

ORLAND, t. and p. v., Hancock co., *Me.*: on the E. side of Penobscot r., 53 m. E. by N. Augusta. There are a number of ponds in the town, by the outlets of which it is drained. Soil is good. It has fine facilities for trade by water, but none of importance is carried on. Orphan island is directly opposite, and but a short distance from the t. Population of t. 1,580.

ORLEAN, p. o., Fauquier county, *Virg.*: 79 m. N. by W. Richmond.

ORLEANS parish, *La.* Situate S. E., and contains 153 sq. m. It is almost insulated by the adjacent lakes and rivers. On the N. is Lake Pontchartrain and the Rigolets, on the S. E. Lake Borgne, and on the S. the Mississippi r. and Bayou Bienvenu, which latter connects the r. with Lake Borgne. Between the Rigolets and Lake Borgne are several swamp islands, on one of which is Fort Pike, commanding the entrance to Lake Pontchartrain. The main-land is also a continuous swamp, but in parts is capable of being used for sugar, rice, cotton, etc., and here also are produced large supplies of garden vegetables and fine delicious fruits, which are so abundant in the New Orleans markets. The production is very small, however, in relation to the extent of the parish; but perhaps no other part of the world receives a greater share of commercial material from tributary districts, New Orleans, its capital, being the depôt of the great Mississippi valley. Farms 51; manuf. 521; dwell. 15,621, and pop.—wh. 91,355, fr. col. 10,033, sl. 18,063—total 109,461. *Capital*: New Orleans. *Public Works*: New Orleans, Jackson, and Northern R. R.; Mexican Gulf R. R.; New Orleans and Carrollton R. R.; New Orleans, Milneburg, and Lake Pontchartrain R. R., etc.

ORLEANS county, *N. Y.* Situate N. W., and contains 372 sq. m. Drained by Johnson's, Oak Orchard, and Sandy creeks, which fall into Lake Ontario. Surface is divided into three distinct terraces, rising successively one above the other, the highest elevation being about 400 feet above the level of the lake; soil fertile, a deep loam, with sand and clay intermixed. It contains some beds of bog-iron ore, and some brine and sulphur springs. Agriculture is the leading pursuit. Farms 2,271; manuf. 232; dwell. 5,273, and pop.—wh. 28,399, fr. col. 102—total 28,501. *Capital*: Albion. *Public Works*: Rochester, Lockport, and Niagara Falls R. R.; Erie Canal.

ORLEANS county, *Verm.* Situate N., and contains 641 sq. m. Drained by Black, Barton, and Clyde rivers, which flow into Memphremagog lake in the N., and by chief branches of Onion and Nussisque rivers. Surface undulating and diversified with small lakes; soil fertile and easy of cultivation, suited for grain. It has considerable commerce with Canada by way of Lake Memphremagog. Farms 2,055; manuf. 68; dwell. 2,780, and pop.—wh. 15,693, fr. col. 14—total 15,707. *Capital*: Irasburg. *Public Works*: Atlantic and St. Lawrence R. R., and a projected railroad from this toward Rouse's Point.

ORLEANS, p. v., Orange co., *Ind.*: on the New Albany and Salem R. R., 57 m. from New Albany, and 75 m. S. by W. Indianapolis.

ORLEANS, p. o., Alleghany co., *Md.*: 137 m. W. N. W. of Annapolis.

ORLEANS, t. and p. v., Barnstable co., *Mass.*: 68 m. S. E. Boston. It extends across Cape Cod, with Nauset harbor on the N. E. and washed by Pleasant bay on the S. A very

pleasant v. is situated in the centre of the t., about 20 miles from the court-house. Surface rolling; soil barren. Chief occupation of inhabitants, fishing and manufacture of salt. There are several islands in the bay belonging to this town. Pop. of t. 1,848.

ORLEANS, p. v., Polk county, *Mo.*: on the E. fork Sac r. 100 m. S. W. Jefferson City.

ORLEANS, p. o., Ontario county, *N. Y.*: 173 m. W. by N. Albany.

ORLEANS FOUR CORNERS, p. o., Jefferson county, *N. Y.*: 153 m. N. N. W. Albany.

ORME'S STORE, p. o., Bladsoe county, *Tenn.*: 91 m. S. E. Nashville.

ORNEVILLE, t. and p. v., Piscataquis co., *Me.*: 67 m. N. E. Augusta. Drained by the head waters of Pushaw (a branch of Penobscot r.), which has its source in a pond in the centre of the t. Surface rolling; soil fertile; adapted to grain. The Bangor post-road passes through the v. Pop. of t. 424.

ORO, p. v., and cap. Placer co., *Calif.*: on E. side of Feather r., 29 m. N. E. Vallejo. Pop. about 3,000.

ORONO, t. and p. v., Penobscot co., *Me.*: on the right bank of the Penobscot r., 67 m. N. E. Augusta. Drained by two small streams flowing into Pushaw lake on its N. W. border. The soil is well adapted to the production of wheat, which is raised in large quantities. March's island, in the Penobscot r., in fact belongs to the town. Extensive trade in lumber is carried on between here and Bangor. The Bangor and Piscataquis R. R. passes through the t., on which is a station called Upper Stillwater, 9 m. from Bangor. The t. contains several lumber-yards and workshops, numerous mills, and a number of stores and dwellings. Pop. 2,755.

ORONOCO, p. o., Amherst co., *Virg.*: 79 m. W. Richmond.

ORPHAN'S island, Penobscot county, *Me.*: its N. part lies directly opposite the t. of Bucksport, to which it is attached; it divides the Penobscot r. into two branches; on the W. or main branch, called the "Narrows," is a fort constructed by the United States government. Its E. branch is called East River. The island derived its name from an orphan who inhabited it at one time, it being her part of the Waldo estate. It is 4 m. in length, and contains 5,000 acres of land.

ORRINGTON, t. and p. v., Penobscot co., *Me.*: on E. side of Penobscot r., 59 m. N. E. Augusta. A pond and a small stream flowing into the Penobscot r., affords good water-power and fine mill-seats. Soil of good quality, well adapted to wheat, which is raised in large quantities. The facilities for navigation are excellent. The village is pleasantly situated on the banks of the Penobscot, and is a place of considerable manufacturing industry. Population of town 1,582.

ORRESTOWN, p. v., Franklin co., *Penn.*: on a fork of Conedogwinit cr., 40 m. W. S. W. Harrisburg.

ORRSVILLE, p. v., Gwinnett co., *Ga.*: on E. side of Chat-tahoochie r., 93 m. N. N. W. Milledgeville.

ORRSVILLE, p. v., Armstrong co., *Penn.*: on E. bank of the Allegheny r., at mouth of Mahoning cr., 141 m. W. N. W. Harrisburg.

ORRVILLE, sta., Wayne co., *Ohio*: on the line of the Ohio and Pennsylvania R. R., 11 m. E. from Wooster, and 84 m. N. E. Columbus.

ORRVILLE, p. o., Mecklenburg co., *N. Car.*: 115 m. W. S. W. Raleigh.

ORRVILLE, p. o., Dallas co., *Ala.*: 47 m. W. Montgomery.

ORWELL, t. and p. v., Oswego co., *N. Y.*: 133 m. W. N. W. Albany. Drained by Salmon r. and its branches. Surface rolling; soil fertile in parts; generally sandy, with good woodlands. The v. is situated in the centre of the town. Pop. of t. 1,106.

ORWELL, t. and p. v., Ashtabula co., *Ohio*: 152 m. N. E. Columbus. Drained by Grand r. and its branches. Surface elevated and well wooded; soil good. Pop. of t. 825.

ORWELL, t. and p. o., Bradford co., *Penn.*: 109 m. N. E. Harrison. Drained by two creeks flowing into the Susquehanna r. Surface uneven, in parts hilly; soil fertile. The

manufactures consist principally of woolen goods. Population of t. 1,327.

ORWELL, t. and p. v., Rutland co., *Verm.*: on E. side of Lake Champlain, opposite Ticonderoga, *N. Y.*, 45 m. S. W. Montpelier. Drained by a branch of Onion r. and a stream flowing into the lake. Surface varied, in parts rugged, the remaining even and very fertile, producing grain in great abundance. The streams afford excellent mill privileges. Epsom salts are procured from a spring in the t., near the lake shore. Mount Independence is in the W. part of the t., near the lake—celebrated in the Revolutionary War. First settled in 1783. The v. is situate centrally. Population of t. 1,470.

ORWIGSBURG, p. b., and cap. Schuylkill county, *Penn.*: 49 m. N. E. Harrisburg and 8 m. N. of the line of the Philadelphia and Reading R. R., on which is a station of same name, 7 m. from Pottsville. The b. contains the court-house, jail, and other public buildings. The "Skenna des Folks" (dem.), is a weekly issue. Pop. 903.

OSAGE county, *Mo.* Situate E. centrally, and contains 855 sq. m. Drained by Gasconade r. and other streams of the Missouri, which bounds it on the N. Surface hilly; soil fertile. Timber is found on the land. Farms 711; manuf. 9; dwell. 1,082, and pop.—wh. 6,434, fr. col. 0, sl. 270—total 6,704. *Capital*: Linn.

OSAGE, p. v., Crawford co., *Mo.*: on Osage fork of Maramee r., 67 m. S. E. Jefferson City.

OSAGE, p. o., Carroll co., *Ark.*: on Osage fork of King r., 116 m. N. W. Little Rock.

OSAGE, p. o., Fremont co., *Ia.*: 223 m. S. W. Iowa City.

OSAGE river, *Mo.*: rises in the Indian Territory, flows into the State of Missouri, and after a winding course through the counties of Bates, St. Clair, Benton, Camden, and Miller, forms the division between Cole and Osage, and enters the Missouri r. at Formosa village, 9 m. E. Jefferson City. It is 375 yards wide at its mouth, and navigable for steamboats 275 m. Length about 400 m. The land along its borders is in general very fertile. It has numerous tributaries which afford extensive hydraulic-power to several counties in its course.

OSAGE POINT, p. o., Benton co., *Ark.*: on Prairie creek, 152 m. N. W. Little Rock.

OSANTIPPA, p. o., Chambers county, *Ala.*: 67 m. N. by E. Montgomery.

OSBOEN, p. v., Rock co., *Wis.*: 25 m. S. by E. Madison.

OSBORN, sta., Greene co., *Ohio*: on Mad River and Lake Erie R. R., 148 m. Sandusky and 70 m. Cincinnati.

OSBORNE HOLLOW, p. o., Broome county, *N. Y.*: 115 m. W. by S. Albany.

OSBORN'S BRIDGE, p. o., Fulton co., *N. Y.*: 39 m. N. W. Albany.

OSBORN'S FORD, p. v., Scott county, *Virg.*: on Clinch r., 175 m. S. W. by S. Richmond.

OSCEO, sta., Hillsdale co., *Mich.*: on the Michigan Southern R. R., 64 m. W. Monroe and 58 m. S. Lansing.

OSCEOLA county, *Mich.* Situate W. centrally of the South Peninsula, and contains 576 sq. m. Drained by the Maskogon r. and its affluents, and branch of the Manistee r. Surface elevated, but level; soil generally deep and rich mold. Organized since 1850.

OSCEOLA, t. and p. o., Lewis co., *N. Y.*: 119 m. N. W. Albany. Drained by Salmon r. and its tributaries. Population of t. 412.

OSCODA county, *Mich.* Situate N. E. of the South Peninsula, and contains 576 sq. m. Drained by Au Sable r., which traverses its central part. Surface level; soil in most parts fertile. Set off since 1850.

OSCELICHA, p. o., Chambers county, *Ala.*: 71 m. N. E. Montgomery.

OSOLA, p. v., and cap. St. Clair co., *Mo.*: on the S. side of Osage r., 93 m. W. S. W. Jefferson City. The county court-house is situate here. The "Osceola Independent" (whig) is issued weekly. Pop. 600.

OSHAUKUTA, p. o., Columbia co., *Wis.*: 31 m. N. Madison. OSKOSH, p. v., and cap. Winnebago co., *Wis.*: on W. side of Lake Winnebago, and 78 m. N. E. Madison. There are two papers, the Oskosh Democrat and "Telegraph," issued here. Pop. about 600.

OSKALOOSA, p. v., and cap. Mahaska county, *Ia.*: on the Iowa City post-road, near a branch of the Des Moines r., 61 m. S. W. Iowa City. It contains the county court-house. The "O. Herald" (whig) is issued weekly. Pop. 625.

OSNABURG, t. and p. v., Stark county, *Ohio*: 104 miles N. E. by E. Columbus. Drained by the tributaries of Sandy river. Surface hilly; soil good, with forest of good oak timber. The v. is a thriving place, and has several stores and mechanic shops. Pop. of t. 2,227.

OSSABAW island and sound, Bryan co., *Ga.*: at the mouth of Ogeechee r. The island is flat and sandy, the sound is an inlet between this island and Warren island. The island is 10 m. long.

OSSAWA, p. o., Clinton county, *Mich.*: 37 m. W. by N. Lansing.

OSSIAN, t. and p. v., Alleghany county, *N. Y.*: 178 m. W. Albany. Drained by Causseraga cr. and a few small streams which flow into the Genesee r. The Buffalo and New York City R. R. passes through the S. W. part of t. Surface rolling; soil very fertile. There are in the t. several mills and dwellings, and places of instruction. The v. is situated on a tributary of Causseraga cr. Pop. of t. 1,233.

OSSIAN, p. v., Wills co., *Ind.*: on a branch of Bee cr., 91 m. N. E. Indianapolis.

OSSIPEE, t. p. v., and cap. Carroll co., *N. Hamp.*: 84 m. N. N. E. Concord. Drained by Ossipee r., outlet of a lake so called, lying on its N. E. border. There are several small streams and ponds in the t.; soil fertile. Ossipee Mountain lies in the N. W. part and extends into the adjoining towns, it is 6 or 8 miles in length, and is so elevated that in easterly seasons the wind breaking over the summit frequently causes much injury to the farms and buildings at its base. There is a mound near the W. shore of Ossipee lake 45 or 50 feet in diameter and 10 feet high, from which have been taken several entire skeletons, and also tomahawks, etc., giving cause to the supposition, that the tribe of Indians once so powerful in this vicinity had their principal residence here. Incorporated in 1755. The v. is on the W. side of Ossipee lake, and contains the court-house and other public buildings, a number of stores, and some mills. Pop. of t. 2,123.

OSSIPEE mountains, Carroll co., *N. Hamp.*: a little N. of the N. part of Winnipiseogee lake, extending E. 8 m., to within about 4 m. of Ossipee lake. Ossipee forms in part what is termed the Eastern Range.

OSTEND, p. o., McHenry county, *Ill.*: 169 m. N. N. E. Springfield.

OSTERVILLE, p. o., Washington county, *Ohio*: 83 m. S. E. Columbus.

OSTERVILLE, p. v., Barnstable co., *Mass.*: opposite Grand island, 54 m. S. E. Boston.

OSWATOGUE, p. o., Potter co., *Penn.*: 115 m. N. W. Harrisburg.

OSWEGATCHIE river, *N. Y.*: rises by two branches in N. part of Herkimer co., pursues a circuitous course of 125 m. through St. Lawrence co., in a N. W. direction, and flows into the St. Lawrence river at Ogdensburg.

OSWEGO county, *N. Y.* Situate in the N., to the E. of Lake Ontario, and contains 923 sq. m. Drained by Oswego and Salmon rivers, and Salmon, Catfish, Scott, Scriba, and Black creeks, by which good water-power is supplied. Surface in general rolling, but in the N. rising to hills; soil fertile, producing fine crops of grain. This county contains some minerals, the principal being bog-iron ore. It has some fine ponds or lakes by which the face of the country is diversified. Farms 4,497; manuf. 640; dwell. 11,064, and pop.—wh. 61,930, fr. col. 213—total 62,193. *Capitals*: Oswego and Pulaski. *Public Works*: Oswego and Syracuse R. R.; Watertown and Rome R. R.; Oswego Canal, etc.

Oswego, t. and p. v., Kendall co., *Ill.*: on the left bank of

Fox r., a constituent of the Illinois r., 143 m. N. E. Springfield. The Aurora Extension Railroad runs on the opposite side of the r., about 2 m. distant. Pop. 1,599.

Oswego, p. city, port of entry, and alternately with Pulaskee, cap. Oswego co., N. Y.: on both sides of Oswego r., at its entrance into Lake Ontario, 149 m. W. N. W. Albany. The mouth of the river forms the harbor, which has been much improved by artificial works, and it has falls just above which, though preventing its being navigated, furnish immense hydraulic power. Next to Sackett's Harbor, that of Oswego is the best on the south side of the lake. The harbor improvements consists of piers jutting into the lake, forming a "gut," in which the water has a depth of from 12 to 20 feet. It is connected with the Erie by the Oswego Canal at Syracuse, and with the Central Railroad by the Syracuse and Oswego line. These afford it facile communication with tide-water, and are the channels of an immense commerce coastwise, and from Canada. At present it is the chief American depot for the trade passing through the Welland Canal, and from Toronto and other British ports on the lake.

The collection district of which Oswego is the port of entry, commences at Stony Point, and extends to the W. shore of Sodus Bay, 80 miles. The shipping places are Texas, Port Ontario, Sandy creek, Oswego, Little Sodus, and Sodus Point. The tonnage of vessels enrolled and licensed within the district in 1850 was 22,404 tons, of which 4,079 tons were navigated by steam. Nine vessels (500 tons) were built during the year. The clearances in the foreign trade in 1850 were 1,598 (251,799 tons), of which 660 were American (182,739 tons), and 938 foreign (69,010 tons); and the entrances were 1,657 (195,793 tons), of which 681 were American (122,311 tons), and 976 foreign (73,482 tons).

The commerce of the port of Oswego for the year 1848, according to the report of T. D. Andrews to Congress, in December, 1850, is exhibited in the annexed tables:

ARRIVALS.

Vessels.	No.	Tons.	Men.
American.....	292	91,218	4,101
Foreign.....	537	42,104	2,560
Coastwise.....	1,563	342,408	16,459
Total.....	2,392	475,925	23,150

CLEARANCES.

Vessels.	No.	Tons.	Men.
American.....	313	101,774	4,219
Foreign.....	522	38,478	2,417
Coastwise.....	1,448	386,949	15,532
Total.....	2,283	477,201	22,165

The total value of imports from foreign countries was \$524,045, of which \$108,360 was the value of merchandise brought in foreign vessels, and \$415,685 of that brought in American vessels; and the total value of goods exported to foreign countries was \$1,391,471, of which \$835,514 was the value of foreign, and \$452,927 of domestic goods. Of the foreign goods exported, the value carried in American vessels was \$242,609, and in foreign vessels, \$695,965. Among the imports are enumerated the following articles:

Articles.	Paying Duty.	Free of Duty.	Warehoused.
Lumber.....	26,640,000 feet	—	—
Wheat.....	98,048 bush.	—	58,708 bush.
Flour.....	19 bbls.	—	49,252 bbls.
Wool.....	31,279 lbs.	—	2,000 lbs.
Val. of all imports	\$216,011	\$7,751	\$300,273

Among the exports of foreign goods, the following are enumerated:

Articles.	Ent'd to Drawback.	Not Entitled.	From Warehouse.
Sugar.....	3,972,049 lbs.	—	216,642 lbs.
Ten.....	—	647,854	—
Spirits.....	3,200 gls.	—	2,700 gls.
Wines.....	2,401	—	2,932
Val. of all for exp.	\$293,955	\$547,998	\$918,544

Among the exports of domestic goods are the following:

Articles.	In American Vessels.		In Foreign Vessels.	
	Quantity.	Value.	Quantity.	Value.
Salt, bbls.....	15,529..	\$17,020.	62,141..	\$66,450
Flour ".....	1,172..	5,860..	471..	2,836
Rice, tierces.....	55..	1,650..	1,927..	5,460
Leather, rolls.....	155..	8,600..	290..	4,470
Merchandise, pkgs.....	—	99,250..	—	176,000
Tobacco, boxes.....	1,538..	38,500..	3,499..	6,797
Tallow, bbls.....	346..	6,230..	—	6,515
Groceries.....	—	18,200..	—	45,000
Cotton & wool manufactures, and boots and shoes	—	50,396..	—	—
Total (including sundries).....		\$252,650..		\$452,927

The following is an abstract from the canal office-books of property landed at Oswego, in the year 1848, with the estimated value and its original destination:

Articles.	Western States.	Canada.	New York.
Forest Products.....	\$ —	\$ —	\$16,753
Animal ".....	737	20,510	27,308
Vegetable Food.....	99	48	354,089
Manufactures.....	476,374	100,114	192,028
Merchandise.....	3,796,592	2,126,087	3,754,469
Other articles.....	15,473	8,969	59,272
Total.....	\$4,289,575	\$2,255,678	\$4,343,944

The above are the latest uniform series of statistics on the commerce of the port accessible. Had we the returns for 1852 complete, they would show at least 100 per cent. increase in its amount and value—a fact indicated by isolated returns on different articles. The canal tolls, for instance, which in 1848 were only \$71,564, had risen in 1852 to \$104,366, in spite of great reduction in the rates; and the following table exhibits a few leading articles carried on the canal in 1851:

From Oswego.	To Oswego.		
Flour.....	888,181 bbls.	R. R. iron.....	98,831,007 lbs.
Wheat.....	1,676,212 bush.	Iron.....	6,432,867
Corn.....	1,192,217	Nails & Spks.....	3,693,267
Barley.....	179,971 "	Steel.....	491,352 "
Pork.....	23,545 bbls.	Merchandise.....	25,517,535 "
Beef.....	15,554	Sugar.....	14,244,321 "
Sawed lmb. r.....	52,925,676 feet.	Salt.....	131,904,646 "

The tonnage of all property reaching Oswego in 1850, was 129,252 tons, and in 1851, 150,715 tons—increase in one year, 51,463 tons.

A few of the leading articles from Canada in 1849 and 1850, comparatively show the rapid increase of business in that direction:

Articles.	1849.	1850.
Flour, barrels.....	198,623	260,874
Wheat, bushels.....	632,930	1,094,414
Oats, bushels.....	55,700	90,156
Potatoes, bushels.....	6,648	10,372
Lumber, feet.....	44,137,257	50,665,652
Butter, lbs.....	115,759	225,087
Peas and beans, bushels.....	16,322	22,380

The annexed table copied from the books of the custom-house, exhibits the total value of foreign and domestic imports and exports for six years:

Years.	Imports.	Exports.	Total.
1845.....	\$2,973,698	\$4,979,711	\$7,951,409
— 1846.....	5,988,100	4,464,872	9,502,972
1847.....	8,990,576	9,977,249	18,647,819
1848.....	7,921,358	10,566,541	17,587,894
1849.....	8,100,279	10,458,968	18,559,247
1850.....	8,325,789	15,687,842	24,013,191

A large proportion of the commerce of Lake Ontario and Oswego comes from Lake Erie through the Welland Canal, the increase of business on which, from 1850 to 1851, was

nearly 40 per cent. The same increase is also apparent in the subsequent year, 1852. The revenue from the canal (36 miles long), for 1851, amounted to \$200,000. Many articles, the product of the Mississippi valley, are also preferring the lake to the southern route, and of course seeking the port nearest to the point of destination. Oswego as such port has many advantages, but will perhaps have a competitor when the Sodus Canal and railroad are completed. That the rapid progress of Oswego, however, is not temporary, is too apparent to allow of a doubt. The past is but a prelude to the future, which will pour upon Oswego an amount of commerce unprecedented and astonishing. When the proposed system of railroads in Canada is completed, the commerce of Lake Ontario will become even greater than that of Lake Erie as being nearer to tide-water, and more accessible at a less cost from the sea-board cities.

As before remarked, Oswego is built on both sides of the river. The two parts are united by a bridge 700 feet long, and the ground rising on both sides from the river, affords excellent drainage, and many beautiful sites for building. The place is laid out with streets running at right angles, and public squares on which are the principal buildings. The streets are 100 feet wide. Many of the residences are costly and handsome structures; the court-house is located on the east side of the river, and on an elevation to the west of the river are the Presbyterian and Episcopal churches, two of the best edifices of the place. There are also Baptist, Methodist, Roman Catholic, and other churches. Other buildings of much architectural beauty are found in various directions, and much taste is everywhere developed in both the public and private edifices.

Oswego has great advantages as a manufacturing city. The water-power afforded by the river and canal is immense, and is used in a variety of manufactures, but chiefly by several extensive flouring-mills. On both sides of the river large manufacturing establishments are located, among which is a large starch manufactory, which supplies an extensive market with that article. The water-power of the place has been greatly improved by the construction of a leader dam $7\frac{1}{2}$ feet high, about a mile above.

In the place there are a number of commission houses in the foreign trade; numerous warehouses and retail stores, several fine hotels, an extensive railroad depot, the canal warehouses, a custom-house, three banks, several insurance offices, printing-offices, lumber yards, etc.

The periodicals printed here are—the "Commercial Times" (whig), daily and weekly; the "Daily News," the "O. Paladium" (dem.), weekly; and the "People's Journal," weekly. Besides the common schools, which are numerous, there are also located here an incorporated academy, and a first-rate female seminary, both in a very flourishing condition. There are also numerous private schools.

The city is defended by Fort Oswego, a strong fortification built on the site of the old fort of the same name, celebrated in the French and colonial wars. It is built on the E. side of the river, near the lake, on a tract of land ceded to the United States for such purpose. It commands the harbor, and is a sufficient defence against an enemy.

Daily lines of steamboats, for the conveyance of passengers, run between this port and the lake ports of the United States, and Canada generally.

Oswego was incorporated in 1823. In 1830, it had 2,703 inhabitants; in 1840, 4,665, and in 1850, 12,205—the increase between 1830 and 1840 was 72.53 per cent., and in the last decade the increase was 161.62 per cent.

Oswego, t., Oswego co., N. Y.: 148 m. W. N. W. Albany. It occupies a triangle of land formed on two sides by the Oswego r. and Lake Ontario. Near its N. point is located the port of Oswego. The town is drained by several small streams flowing into the lake. Surface generally level, but varied; soil sandy loam of good quality, and very fertile. The interests of this town are much the same as those of the

city. Manufactures are numerous and extensive, and along the river are several flour and saw mills. Pop. 2,445.

Oswego, p. v., Kosciusko co., Ind.: on the S. W. bank of Lake Tippecanoe, 69 m. N. by E. Indianapolis.

Oswego river, N. Y.: formed by the junction of Seneca and Onondaga rivers. The Seneca is the common outlet of Seneca, Cayuga, Crooked, Canandagua, Owaseo, Skaneateles, and Cross lakes. The Onondaga is the outlet of Onondaga lake. After the junction, Oswego river pursues a N. W. course 24 miles until it enters Lake Ontario. For some distance it forms the Oswego Canal, the falls being overcome by a succession of locks, and along its banks is a tow-path. The water-power afforded by this river is immense, and has been greatly improved. Manufacturing establishments line its banks below the falls, and the manufacturing establishments, mills, etc., of Oswego derive their motive power from this source. The harbor at its mouth is commodious, but will require considerable enlargement to accommodate its future commerce. It is made by extending piers into the lake on each side, thus forming an open canal, in which vessels of all the capacities sailing on the lake may enter and moor in safety. The falls prevent navigation above the port.

OSWEGO FALLS, p. o., Oswego co., N. Y.: at the falls of Oswego r., 147 m. W. N. W. Albany.

OSWEGO VILLAGE, p. o., Dutchess co., N. Y.: 47 m. S. Albany.

OSWICHEE, p. o., Russell county, Ala.: 71 m. E. by S. Montgomery.

OTEGO, t. and p. v., Otsego co., N. Y.: 63 m. W. by S. Albany, and 24 m. S. W. Cooperstown. Drained by the Susquehanna r. and tributary. Surface uneven, except upon the banks of the Susquehanna, where it becomes quite level; soil fertile. The v. is pleasantly situated on the Otsego cr. in the S. part of t. There are in the t. several stores and mills, and a few manufactories. Pop. of t. 1,792.

Otis, t. and p. v., Berkshire co., Mass.: 107 m. W. by S. Boston. This t. was once comprised of the t. of Loudon and district of Bethlehem, but was incorporated under its present name in 1810 (after the Hon. Harrison Gray Otis, of Boston, then Speaker in the House of Representatives). Drained by a number of ponds, which, with a small stream, forms the source of Farmington r. Surface very uneven; soil fertile and productive. There are fine forests of hard wood, and also granite in the t. The manufactures consist chiefly of leather, boots, shoes, cabinet-ware, and lumber. The v. is in the S. of t. Pop. of t. 1,224.

Otisco, t. and p. o., Ionia co., Mich.: 39 m. N. W. Lausing. Drained by Flat r., which divides it, affording good water-power. Pop. of t. 1,018.

Otisco, t. and p. v., Onondaga co., N. Y.: 97 m. W. by N. Albany. Otisco lake forms its W. boundary, by the outlet of which the t. is drained. Surface rolling; soil good, and in fine state of cultivation. The v. is on the E. side of the lake, and contains 2 churches and a number of dwellings. There are in the t. several stores, workshops, and a number of mills. Pop. 1,804.

OTISCO LAKE, Onondaga county, N. Y.: in the towns of Spafford and Otis, is 5 m. long and 2 m. wide; its outlet flows N. into Onondaga lake.

OTISFIELD, t. and p. v., Cumberland county, Me.: 42 m. W. S. W. Augusta. Drained by Crooked r. flowing into Sebago pond. There is a large pond on the E. border of t. Soil is of good quality, producing wheat plentifully. The v. is situated centrally, and on the post-road. Pop. of t. 1,171.

OTISVILLE, p. o., Orange co., N. Y.: on the line of the Erie R. R., 72 m. S. by W. Albany.

OTSDAWA, p. v., Otsego county, N. Y.: on a small cr., a tributary of the Susquehanna r., 76 m. W. by S. Albany.

OTSEGO COUNTY, Mich. Situate N. of the S. Peninsula, and contains 576 sq. m. Drained by Sheboygan river and branch of the Au Sable river. Surface level, and diversified with small lakes. Set off since 1850.

OTSEGO COUNTY, N. Y. Situate E. centrally, and contains

892 sq. m. Drained by Susquehanna r., Butternut, Otego, Otsdawa, and Cherry Valley creeks, all which are tributaries of Susquehanna r. Surface elevated; in some parts it is mountainous, and in others diversified with low hills and valleys; soil though various, in most parts is fertile. A large quantity of lumber is exported. It contains some minerals and good marble quarries, also sulphur springs, which are remarkable for their medicinal qualities. In Burlington, considerable quantities of stone, consisting principally of marine petrifications, are found. Farms 4,764; manuf. 330; dwell. 9,087, and pop.—wh. 43,481, fr. col. 157—total 43,638. *Capital*: Cooperstown.

OTSEGO, p. v., Lake co., *Ill.*: 5 m. W. from Lake Michigan, 204 m. N. N. E. Springfield.

OTSEGO, t. and p. v., Columbia co., *Wis.*: 24 m. N. by E. Madison. Drained by Rock cr. Surface level; soil fertile. The v. is on Rock cr., in the centre of t. Pop. of t. 420.

OTSEGO, t. and p. v., Allegan co., *Mich.*: 91 m. W. S. W. Lansing. Drained by the Kalamazoo r. and a number of small creeks. Surface undulating—in some parts hilly; soil varied, but along the banks of the Kalamazoo, black alluvion; it has fine wood-lands. The v. is pleasantly situated on the Kalamazoo river, at an elevation of 30 feet. Population of t. 818.

OTSEGO, p. o., Muskingum county, *Ohio*: 55 miles E. Columbus.

OTSEGO, t. Otsego co., *N. Y.*: 62 m. W. Albany. It lies between Otego and Canaderaga lakes, the outlet of the latter, Oak cr., affording good water-power. Surface somewhat hilly; soil clay and gravelly sand and loam. It has considerable manufactures and numerous mills. Pop. in 1840, 1,421, and 1850, 1,792.

OTSEGO, p. o., Ray county, *Mo.*: 113 m. W. N. W. Jefferson City.

OTSEGO lake, Otsego county, *N. Y.*: in the towns of Springfield, Middlefield, and Otsego, is 9 m. in length and 2 in width, and has for its outlet the source of the Susquehanna r. This lake is remarkable for the beauty of its scenery. At its outlet is the flourishing village of Cooperstown.

OTSELIC, t. and p. v., Chenango co., *N. Y.*: 104 m. W. Albany. Drained by the Otselic r., which passes through it. Surface uneven and much broken; soil clay loam. There is some very fine wood-land here. The v. is situate in the N. of the t., at which there is a p. o. The t. contains several mills. Pop. of t. 1,800.

OTSELIC river, *N. Y.*: rises in Eaton, Madison co., flows in a S. W. direction through N. W. part of Chenango and S. E. part of Cortland co., and enters the Tioughnioga r. in Broome county.

OTTA QUEECHEE river, *Verm.*: rises in Sherburne, Rutland co., flows S. E. through Bridgewater, N. E. through Woodstock into the S. part of Hartford, thence S. E. through the N. E. part of Hartland, and empties into the Connecticut, 2 m. above Quechee Falls, and 3 m. below the v. so called. In its course it receives a number of considerable mill streams and several other tributaries. It is 35 m. in length, and waters over 200 sq. m. Also called Water Quechee and Quechee river.

OTTAWA county, *Mich.* Situate W. of the S. Peninsula, and contains 823 sq. m. Drained by Grand r. and its tributaries, Black and Maskegon rivers. Surface rolling, and presenting to the lake shore high sand-bluffs. Soil generally fertile, producing wheat, Indian corn, and potatoes. Farms 278; manuf. 36; dwell. 1,129, and pop.—wh. 5,532, fr. col. 55—total 5,587. *Capital*: Grand Haven.

OTTAWA county, *Ohio*. Situate N., and bounded on the N. E. by Lake Erie, the eastern portion stretching considerably into the lake, and forming Sandusky bay. It contains about 320 sq. m. Drained by Portage and Toussaint rivers. Surface level, and in many parts very low; soil in general fertile. Pine timber is found on the land. Sandusky bay forms its S. E. boundary. Farms 227; manuf. 11; dwell. 613, and pop.—wh. 3,307, fr. col. 1—total 3,303. *Cap-*

ital: Port Clinton. *Public Works*: Cleveland, Norwalk, and Toledo R. R.; Junction R. R., etc.

OTTAWA, p. v., and cap. La Salle co., *Ill.*: at the junction of Fox r., with the Illinois (which divides it into three parts), 119 m. N. N. E. Springfield. It is laid off on both sides of the Illinois r., and is accessible by steamboats at high water, for which there is a very good landing. Below for the distance of 8 or 9 m., are rapids and shoals formed by barriers of sand and limestone rock. The Illinois and Michigan Canal passes through the village 85 m. from Chicago, and 15 m. Peru, thereby opening communication by water to the lake and the Mississippi r. The Chicago and Rock Island R. R. passes through the village 68 m. from Chicago. Founded in 1830, and contains the court-house and other buildings. It is one of the most important sites for commercial business in the State. The water-power derived from the canal and river is immense. The Ottawa Hydraulic Company have a valuable water-power on the Illinois r., one-fourth of a mile above Ottawa. The surface of the country around is undulating, and well adapted to farming, with some groves of timber; soil rich. Lime and coarse freestone in great abundance. The "Constitutionalist" (whig), and "O. Free Trader" (dem.), are published weekly.

OTTAWA, p. o., Ottawa county, *Ohio*: 121 m. N. by W. Columbus.

OTTAWA, t. and p. v., Waukesha co., *Wis.*: 49 m. E. by S. Madison. Drained by forks of Rock r. on the N. and S. Surface rolling; soil good. There are a number of small ponds in the t. Like the rest of the co., this t. has excellent timber.

OTTAWA LAKE, p. o., Monroe co., *Mich.*: near Ottawa r., 93 m. S. E. Lansing.

OTTER creek, *Verm.*: rises in Peru t., Bennington co., and flows in a N. by W. direction, through Rutland and Addison, and enters Lake Champlain at Ferrisburg. It is navigable for lake vessels as far up as Vergennes, dist. 6 m., and for boats from Middlebury to Pittsford, 25 m. The falls at Middlebury, Weybridge, and Vergennes, afford extensive water-power. Large-sized vessels have been built at Vergennes, and the flotilla of Commodore M'Donough fitted out there in 1814.

OTTER BRIDGE, p. o., Bedford co., *Virg.*: on a branch of Staunton r., 103 m. W. by S. Richmond. The Virginia and Tennessee R. R. passes near this location.

OTTER CREEK, p. o., Jersey co., *Ill.*: on a fork of creek by same name, 63 m. S. W. Springfield.

OTTER CREEK, p. o., Addison co., *Verm.*: on a cr. of same name, 37 m. W. by S. Montpelier.

OTTER CREEK, p. o., Jackson co., *Mich.*: 29 m. S. by E. Lansing.

OTTER DALE, p. o., Chesterfield county, *Virg.*: 13 m. S. Richmond.

OTTER, PEAKS OF, *Virg.*: a portion of the Blue Ridge (Alleghany Mountains), situated between Bedford and Botetourt counties, 116 m. W. Richmond. These peaks shoot up in projecting summits to the height of 4,260 feet, and are the highest land in the State.

OTTER VILLAGE, p. v., Ripley county, *Ind.*: 61 m. S. E. Indianapolis.

OTTERVILLE, p. v., Cooper co., *Mo.*: on the W. side of the river à la Mine, and 50 m. W. by N. Jefferson City.

OTTO, t. and p. v., Cattaraugus co., *N. Y.*: 265 m. W. by S. Albany. Drained by Cattaraugus cr. and branches. The cr. bounds it on the N., and the N. Y. and Erie R. R. crosses its S. W. part. Surface hilly; soil adapted to grain. Lumber and grain are the chief products. The v. is in the S. W. part of the t. Pop. of t. 2,267.

OTTO, p. v., Fulton co., *Ill.*: on S. side of Otter cr., 45 m. N. W. Springfield.

OTTOBINE, p. o., Rockingham co., *Virg.*: 101 m. N. W. Richmond.

OTTSVILLE, p. v., Bucks county, *Penn.*: 90 m. E. by N. Harrisburg.

OTTUMWA, p. v., and cap. Wapello co., *Ill.*: on the Des Moines r., centrally in co., 63 m. S. W. Iowa City. It contains the county court-house, and several dwellings.

OUACHITA CITY, p. v., Union par., *La.*: 159 m. N. W. Baton Rouge. A United States land office is situated here. The "Ouachita Gazette" (dem.) is issued weekly.

OLEANT, p. o., Delaware co., *N. Y.*: 64 m. S. W. Albany.

OLRY, p. o., Hamilton co., *Ohio*: 97 m. S. W. Columbus.

OUTAGAMIE county, *Wisc.* Situate toward the E., and contains 648 sq. m. Wolf river enters it in the W., and passes through it in a northerly direction, by which and its branches it is drained. Surface varied, in most parts being hilly and broken, but there is much level land; soil fertile. Pine and other timber abounds, and there is fine pasturage for cattle. Erected since 1850.

OUTLET, p. o., Lake co., *Ind.*: on Cedar cr., 119 m. N. W. Indianapolis.

OVERALLS, p. o., Warren co., *Verg.*: 108 m. N. by W. Richmond.

OVERFIELD, p. o., Harbour county, *Verg.*: 175 m. N. W. Richmond.

OVERMAN'S FERRY, p. o., Muscatine co., *Ia.*: 29 m. S. E. Iowa City.

OVESLAUGH, *N. Y.*: a shoal in the Hudson r., a few miles below Albany, consisting of a succession of bars or flats, through which there were narrow channels, with a small depth of water at low tide. The obstruction has been partially removed by the government.

OVERTON county, *Tenn.* Situate N., and contains 526 sq. m. Drained by Roaring river in the S. W., and by Obey's river and its branches in the N., and central portions. Surface undulating; soil a fine deep mold, and very fertile, the land on the streams being rich and productive. Staples, cotton, tobacco, and Indian corn. It has good pasturage for cattle, and some excellent timber land. Farms 929; manuf. 9; dwell. 1,673, and pop.—wh. 10,056, fr. col. 60, sl. 1,065—total 11,211. *Capital*: Livingston.

OVID, p. v., Lee co., *Ill.*: on a branch of the Illinois r., 133 m. N. $\frac{1}{2}$ E. Springfield.

OVID, p. o., Madison co., *Ind.*: 29 m. N. E. Indianapolis.

OVID, t. and p. o., Branch county, *Mich.*: 63 m. S. S. W. Lansing. Drained by two small creeks. Surface rolling; soil of a dark, rich loam; abounds in fine timber lands and excellent grazing. Pop. of t. 710.

OVID, t. and p. v., Seneca co., *N. Y.*: 60 m. W. Albany. Bounded on the E. by Cayuga, and on the W. by Seneca lake. Drained by a number of small streams flowing into the lakes. Surface hilly; soil fertile. The v. is on an elevation, and has a good landing on the lake. The "O. Bee" is a weekly issue. Pop. 2,258.

OVID, p. v., Franklin co., *Ohio*: on the W. side of Big Lick creek, 12 m. N. E. Columbus.

OWASCO, t. and p. v., Cayuga co., *N. Y.*: 144 m. W. by N. Albany. Bounded on the W. by Owasco lake, by which and the cr. it is drained. Surface rolling; soil rich sand and loam, and well cultivated. The v. is in the S. E. part of t., and contains two churches and several stores and dwellings. There are in the t. a number of mills. Pop. 1,254.

OWASCO LAKE, p. o., Cayuga co., *N. Y.*: 133 m. W. $\frac{1}{2}$ N. Albany.

OWASCO lake, Cayuga co., *N. Y.*: 12 m. in length, and 1 mile wide, running N. and S., 145 m. W. from Albany, in the t. of Owasco, Fleming, Niles, and Scipio. The banks of the lake are very hilly and picturesque. It abounds in fine fish. Its outlet, so called, flows into Seneca river, and affords excellent water-power.

OWASCO river, *N. Y.*: outlet of Owasco lake, flows N. into Seneca river, in the t. of Metz. It affords extensive water-power, and has some fine mill-sites already occupied.

OWASCUS, p. o., Fond du Lac co., *Wisc.*: 63 m. N. E. Madison.

OWASSO, t. and p. v., Shiawassee co., *Mich.*: 21 m. N. E. Lansing. Drained by Shiawassee and Maple r. Surface

generally level; in parts swampy, and well adapted to the raising of cattle. There are fine mill-sites on the Shiawassee and Maple rivers. The v. is situated on the Shiawassee river. Pop. of t. 392.

OWEGO, t., p. v., and cap. Tioga co., *N. Y.*: 132 m. W. S. W. Albany, and 160 m. Dunkirk. The Susquehanna r. divides the t., by which and its tributaries it is drained. Surface various; in parts hilly, while along the river there are extensive flats; soil fertile, and well cultivated. The v. is on the N. bank of the Susquehanna r., at the mouth of Owego creek; was incorporated in 1827, and now contains the court-house, jail, and other public buildings, a bank, several hotels, and an academy. Water-power is derived by means of an hydraulic canal, supplied from Owego creek, which is an important and never-failing mill stream. The Erie R. R. passes through the v., and the Cayuga and Susquehanna R. R. extends from here to Cayuga, distant 70 miles. The manufactures consist of wool and wooden-ware. Lumber, plaster, and salt, are the chief commodities of trade. The "O. Advertiser" (whig) and "O. Gazette" (dem.) are issued weekly. Pop. of the t. 7,159.

Owego creek, *N. Y.*: rises in the S. part of Cortlandt and Tompkins counties, and flowing S., affording good water privileges to several villages, empties into the Susquehanna river, at Owego village, Tioga county.

OWEN county, *Ind.* Situate S. W. centrally, and contains 449 sq. m. Drained by branches of Eel river, and W. fork of White river. The falls of the former furnish excellent water privileges. Surface undulating in the larger portion of the county; the land in the E. is hilly, and on the rivers level; soil fertile, being a deep vegetable mold, and is very productive. Timber is abundant on the streams. Coal is found, and there are some fine beds of iron ore. Farms 1,442, manuf. 26; dwell. 2,000, and pop.—wh. 11,950, fr. col. 156—total 12,106. *Capital*: Spencer.

OWEN county, *Ky.* Situate N., and contains 259 sq. m. Drained by Eagle and Cedar creeks, and other small streams. Surface level; soil generally fertile, and making fine pasture land. Chief productions, tobacco and Indian corn, wheat, sugar, etc. Farms 917; manuf. 6; dwell. 1,623, and pop.—wh. 8,900, fr. col. 30, sl. 1,514—total 10,444. *Capital*: Owenton. *Public Works*: Vincennes and Indianapolis R. R.; Wabash and Erie Canal.

OWEN, p. o., Wabash county, *Ind.*: 69 m. N. by E. Indianapolis.

OWEN river, *Calif.*: rises in the Snowy Mountains, 174 m. E. by S. $\frac{1}{2}$ S. Vallejo, flows through a mountainous district, E. by S. about 27 m., and S. about 53 m., emptying into a lake so called.

OWENSBOROUGH, p. v., and cap. Daviess co., *Ky.*: on the banks of the Ohio r., 9 m. below Rockport, and 123 m. W. S. W. Frankfort. Situate in a very fertile region, abounding in mineral resources. It contains the court-house, several churches, an academy, and a number of stores and dwellings. The "American," a weekly (Indep.), is published here. Pop. 1,214.

OWENSBURG, p. o., Green county, *Ind.*: 59 miles S. W. Indianapolis.

OWENSVILLE, p. v., Saline county, *Ark.*: on middle fork Saline r., 25 m. W. S. W. Little Rock.

OWENSVILLE, p. v., Gibson co., *Ind.*: near Polk's mill stream, 125 m. S. W. Indianapolis.

OWENSVILLE, p. v., Clermont county, *Ohio*: 75 m. S. W. Columbus.

OWENTON, p. v., and cap. Owen co., *Ky.*: situate in S. W. part of co., 19 m. N. Frankfort, and contains the court-house and several dwellings.

OWENVILLE, p. o., Sampson co., *N. Car.*: 49 m. E. S. E. Raleigh.

OWING'S LANE, station, Baltimore co., *Md.*: on the Westminster Branch of Baltimore and Susquehanna R. R., 13 m. from Baltimore.

OWING'S MILLS, p. v. and sta., Baltimore co., *Md.*: on line

of the Westminster Branch of Baltimore and Susquehanna R. R., 17 m. N. Baltimore, 41 m. N. Annapolis.

OWINGVILLE, p. v., and cap. Bath co., *Ky.*: 3 m. N. Slate cr., in centre of co., and 61 m. E. Frankfort. It contains the court-house, etc., and 265 inhabitants.

OWL PRAIRIE, p. v., Daviess co., *Ind.*: on the W. side of Wabash and Erie Canal, and near the W. fork of White r., 75 m. S. W. Indianapolis.

OWSLEY county, *Ky.* Situate E. centrally, and contains 389 sq. m. Drained by Kentucky river and its branches, South fork, and Sturgeon creek. Surface even; soil a fine deep loam, very fertile, and well adapted to grain. Chief productions, wheat, Indian corn, and tobacco. Farms 481; manuf. 25; dwell. 588, and pop. wh.—3,616, fr. col. 22, sl. 136—total 3,774. *Capital*: Booneville.

OWYHEE river, *Oreg. Ter.*: tributary of Lewis, a fork of Columbia r., rises in Weber co., *Utah Ter.*, makes a circuitous course W. and N. W. into Oregon, flowing N. and N. E. enters Lewis r. 15 m. S. Fort Boisse.

OXBOW, p. o., Wyoming co., *Penn.*: 95 m. N. N. E. Harrisburg.

OXBOW, p. v., Jefferson co., *N. Y.*: on the Oswegatchie river, 117 m. N. by W. Albany, and 81 m. N. E. Sackett's Harbor.

OXBOW, p. o., Putnam county, *Ill.*: 101 m. N. by E. Springfield.

OXFORD county, *Me.* Situate W. toward the S., and contains 1,876 sq. m. Drained by Androscoggin river and its branches, and by Saco river. Surface in general broken and hilly, and is pleasantly diversified with numerous lakes; soil in many parts is very fertile. Chief productions, wheat, Indian corn, and potatoes. It has some good timber land. Farms 4,288; manuf. 150; dwell. 6,712, and pop.—wh. 39,658, fr. col. 5—total 39,663. *Capital*: Paris.

OXFORD, p. v., Talbot co., *Md.*: on an inlet of Chesapeake bay, 27 m. S. E. Annapolis.

OXFORD, t. and p. v., New Haven co., *Conn.*: 32 m. S. W. Hartford. Drained by Housatonic and Naugatuck rivers and branches, affording extensive water-power and fine mill-seats. Surface generally uneven, in parts hilly, with a fertile and productive soil. Among the manufacturing establishments, those of satinnet and hat are the most important. In the S. part there is a mineral spring called "The Pool," much used in the cure of salt rheum and other complaints. The v. is on the line of the Norwich and Worcester R. R., 11 m. Worcester. It contains 2 churches and several dwellings. Pop. of t. 1,562.

OXFORD, p. v., Newton co., *Ga.*: 55 m. N. W. Milledgeville. The Emory College (founded in 1837) is situate here, having (in 1850) a president, 5 professors, and 138 alumni, of whom 16 are in the ministry, and 115 students. The library contains 1,700 volumes. Pop. about 600.

OXFORD, p. v., Henry co., *Ill.*: on the Monmouth and Prophetstown post-road, 105 m. N. by W. Springfield.

OXFORD, p. o., Benton co., *Ind.*: situate $\frac{3}{4}$ m. dist. Big Pine creek, 75 m. N. W. Indianapolis.

OXFORD, p. o., Scott co., *Ky.*: 15 m. N. E. Frankfort.

OXFORD, t. p. v., and sta., Oxford county, *Me.*: 83 miles W. S. W. Augusta. Drained by Little Androscoggin r. and a number of ponds. The soil is fertile, producing excellent grain. There are several mills on the banks of the river. The v. is in S. part of t. The Atlantic and St. Lawrence R. R. passes through it, on which is the sta., 40 m. from Portland. Pop. of t. 1,233.

OXFORD, p. o., Grafton co., *N. Hamp.*: 45 m. N. by W. Concord.

OXFORD, t. and p. v., Worcester co., *Mass.*: 47 m. S. W. Boston, and 10 m. S. Worcester. Important for its manufactures, consisting chiefly of woolen and cotton goods, boots and shoes. It is a very pleasant t., well watered by French river, a branch of the Quinebaug. Surface rugged; soil gravelly. There are in the town several stores, manufactories, grist and saw mills, and a machine and other me-

chanic shops. The village is on a street running N. and S. Pop. of t. 2,380.

OXFORD, t. and p. o., Oakland county, *Mich.*: 63 m. E. Lansing. Watered by Stony and several other smaller lakes and streams. Surface hilly, interspersed with marshes; soil varied, in parts sandy. The p. o. is in the N. of the town. Pop. of t. 1,019.

OXFORD, p. v., and cap. Lafayette co., *Miss.*: at the source of a branch of the Yocanapatapha river, 143 m. N. N. E. Jackson. It has a college (the University of Miss.), founded in 1844, having (in 1850) a president, 6 professors, and 134 students, with a library containing 2,450 volumes. Contains the court-house, and usual number of public buildings. There are two newspapers published here, the "Organizer" (S. L.), and the "Star of the Union" (union), both weekly issues. The High Court of Errors sits here once every year. Pop. about 1,600.

OXFORD, t. and p. v., Chenango co., *N. Y.*: 97 m. W. by S. Albany. Surface rolling; soil very fertile, and well cultivated. The Chenango r. and canal pass through it. There is a factory and several mills in the town. The v. is on the Chenango r., which divides it. It has a foundry, tannery, and several carriage manufactories. The canal passes through the v., which affords easy communication with the city of Utica. Oxford abounds in rich grazing land, fine horses and cattle. The "C. County Whig," and "Free Democrat," are published here. Pop. of village 1,350—of town 3,227.

OXFORD, sta., Orange co., *N. Y.*: on the Erie R. R., 62 m. New York, 57 m. S. by W. Albany.

OXFORD, p. v., and cap. Granville county, *N. Car.*: 89 m. N. Raleigh, and near Fishing creek. It contains the court-house, jail, market-house, hospital, and 2 academies, 360 dwellings, and 1,978 inhabitants.

OXFORD, t. and p. v., Butler co., *Ohio*: 96 m. W. S. W. Columbus. Drained by affluents of Great Miami r. Surface moderately uneven; soil of extraordinary fertility. The village lies on the W. side of Four Mile cr., and near the union of the Four Mile Valley and Junction R. R. from Indiana. The Miami University is situated in the town: founded in 1809, and had in 1850 a president, 6 professors, and 843 alumni (of which 102 are in the ministry), 66 students, and a library containing 8,000 volumes. The Theological Seminary commenced in 1834, had (in 1850) 3 instructors, 20 students, and a library of 1,500 volumes. Pop. of v. 1,084, and of t. 2,007.

OXFORD, p. o., Benton county, *Ala.*: 97 miles N. by E. Montgomery.

OXFORD, p. v., Chester county, *Penn.*: 57 miles S. E. Harrisburg.

OXFORD, p. o., McMin county, *Tenn.*: 113 miles S. E. Nashville.

OXFORD DEPÔT, p. v., Orange co., *N. Y.*: on the line of the New York and Erie R. R., 62 m. N. N. W. New York city, 57 m. S. by W. Albany.

OXFORD FURNACE, p. v., Warren county, *N. Jer.*: on a branch of Pequest river, 41 m. N. W. Trenton. There is a furnace situate in the village, and iron ore of a rich quality is found in abundance in the vicinity, and easily smelted.

OXFORD VALLEY, p. o., Bucks county, *Penn.*: 103 m. E. Harrisburg.

OYAUKEE, p. v., and cap. Washington co., *Vt.*: on the bank of Lake Michigan, 83 m. W. by N. Madison. The county court-house is at Washington.

OYSTER BAY, t. and p. v., Queens co., *N. Y.*: 125 m. S. Albany, and 23 m. New York city. Extends across Long Island, being washed on the N. by the bay so called, and on the S. by Great South bay. Surface varied—on the N. quite hilly; soil loam and rocky, on the S. it is very sandy and even. The v. is situate at the head of the bay so called, and is a favorite resort in the summer season. It contains several churches and dwellings. Numerous sloops and steamboats ply between here and New York city. There are in the

town several stores, lumber yards, factories, and mills, and a number of schools and academies. Population of town 6,900.

OYSTER bay, *N. Y.*: sets up from Long Island Sound, and is connected with the harbor so called, and Coldspring harbor. It abounds with wild fowl and excellent scale fish.

OYSTER creek, *Tex.*: rises in Fort Bend co., 8 m. N. Richmond, flows S. E. and S., parallel with Brazos r., and empties into the Gulf of Mexico, 2 m. N. of its mouth.

OYSTER river, *N. Hamp.*: one of the principal branches of the Piscataqua r., rises in Lee, and flows through Durham t. Upon both sides of the r. a deep agillaceous loam prevails, which is favorable to the production of grasses. Abundance of oysters are found in its waters, from which it derives its name. Large quantities of superior granite are found on the borders.

OZARK county, *Mo.* Situate S., and contains 1,598 sq. m. Drained by branches of White r. Surface hilly and broken; soil generally fertile and adapted to grazing. Farms 253; manuf. 5; dwell. 361, and pop.—wh. 2,273, fr. col. 0, sl. 15—total 2,294. *Capital*: Rockbridge.

OZARK, p. v., and cap. Franklin co., *Ark.*: on the N. side of the Arkansas r., 100 m. N. W. Little Rock. It contains the county court-house and 84 inhabitants.

OZARK, p. v., Greene co., *Mo.*: on S. side of Finley cr., 123 m. S. S. W. Jefferson City.

P.

PABLO bay, *Calif.* See SAN PABLO bay.

PACE'S, p. o., Barren county, *Ky.*: 103 m. S. W. by S. Frankfort.

PACHITTA, p. v., Early county, *Ga.*: 143 m. S. W. Milledgeville.

PACIFIC, p. o., Franklin county, *N. Car.*: 32 m. N. E. Raleigh.

PACIFIC CITY, p. v., port, and cap. Pacific co., *Oreg. Ter.*: on the N. bank of Columbia r., at its entrance into Pacific ocean, 100 m. N. W. by N. Salem.

PACKARD'S, sta., Berkshire county, *Mass.*: 3 m. N. of Pittsfield, on the Pittsfield and North Adams R. R.

PACK'S FERRY, p. o., Monroe county, *Virg.*: 132 m. W. Richmond.

PACKSVILLE, p. v., Sumter dist., *S. Car.*: 37 m. E. S. E. Columbia.

PACOLET MILLS, p. o., Union dist., *S. Car.*: 72 m. N. N. W. Columbia.

PACTOLUS, p. v., Pitt county, *N. Car.*: on the N. side of Tar r., about 12 m. above its mouth, 51 m. E. Raleigh.

PADDLEFORD'S, sta., Ontario co., *N. Y.*: 9 m. W. of Canandaigua on the Rochester and Syracuse R. R.

PADDOCK'S GROVE, p. v., Madison co., *Ill.*: about 3 m. W. of Cahokia cr., 64 m. S. S. W. Springfield.

PADDY MILLS, p. o., Shenandoah county, *Virg.*: 104 m. N. W. Richmond.

PADDY'S RUN, p. o., Butler co., *Ohio*: 102 m. W. S. W. Columbus.

PADUCAH, p. v., and cap. McCracken co., *Ky.*: on the Ohio r., just below the mouth of the Tennessee, 214 m. W. S. W. Frankfort. It is the depôt for the products of the valley of the Tennessee, and in a great measure commands the trade of that river, which gives it great importance as a shipping port, and has rapidly increased its population. It contains a court-house, jail, 2 banks, about 50 large stores and warehouses, and 2,428 inhabitants. The "P. Journal" (whig), is published weekly.

PAGE county, *Ida.* Situate S. W., and contains 576 sq. m. Drained by Elkhorn r., and branches. Surface generally level. Set off since 1850.

PAGE county, *Virg.* Situate toward the N. E., and contains 155 sq. m. Drained by the S. fork of Shenandoah r. Surface hilly and broken; soil generally fertile. Chief products wheat and Indian corn. On the E. is the Blue

Ridge. Farms 526; manuf. 28; dwell. 1,089, and pop.—wh. 6,832, fr. col. 811, sl. 957—total 7,600. *Capital*: Luray.

PAGE'S CORNERS, p. v., Herkimer county, *N. Y.*: 64 m. W. by N. Albany.

PAGESVILLE, p. v., Newberry dist., *S. Car.*: 51 m. N. W. by W. Columbia. The Laurens R. R. passes through it.

PAGEVILLE, p. v., Barren co., *Ky.*: 109 m. S. W. by S. Frankfort.

PAINCOURTVILLE, p. v., Assumption parish, *La.*: 34 m. S. by E. Baton Rouge.

PAINE'S HOLLOW, p. v., Herkimer county, *N. Y.*: 63 m. W. N. W. Albany.

PAINE'S POINT, p. o., Ogle co., *Ill.*: 6 m. E. of Rock r., 159 m. N. by E. Springfield.

PAINESVILLE, t. p. v., and cap. Lake co., *Ohio*: on Lake Erie, 147 m. N. E. by N. Columbus. Drained by Grand r., which affords water-power. Surface level, and soil of average fertility. The v. is on the r., about 3 m. S. of the lake, and contains a court-house, jail, bank, academy, a large furnace and stove manufactory, several flouring and other mills, and about 1,000 inhabitants. It is on the Cleveland and Erie R. R., 29 m. E. of Cleveland, and a branch railroad diverges to Fairport v., at the mouth of Grand r. The "P. Telegraph" (fr. soil) is published weekly. Population of town 3,123.

PAINESVILLE, p. v., Amelia co., *Virg.*: on Flat cr. of Appomattox r., 29 m. W. S. W. Richmond. In the vicinity are a cotton factory and several mills.

PAINESVILLE, p. v., Chittenden co., *Verm.*

PAINT BRANCH, sta., Prince George co., *Md.*: 8 m. E. of Washington, on the Washington Branch R. R.

PAINT CREEK, p. o., Washtenaw co., *Mich.*: on a branch of Stoney cr., so called, 68 m. S. E. Lansing.

PAINT CREEK, p. o., Kanawha co., *Virg.*: on a S. branch of Great Kanawha r., 221 m. W. by N. Richmond.

PAINTED POST, t., Steuben co., *N. Y.*: on both sides of Chemung r., 165 m. W. by S. Albany. Surface hilly; soil gravelly loam, and highly productive on the streams and flats. Drained by Chemung r. and its creeks. The business is very extensive, particularly in lumber and coal, and is mainly transacted at the large and flourishing v. of Corning (see CORNING), where three railroads connect, and the navigable feeder of Chemung Canal commences. Population 4,372.

PAINTED POST, p. v. and sta., Erwin t., Steuben co., *N. Y.*: at junction of Conhocton and Tioga rivers, which here form the Chemung r., 166 m. W. by S. Albany. The Erie R. R. passes through it, 302 m. from New York, and 167 m. from Dunkirk, also the Buffalo, Corning, and New York R. R. Two falls in the r. afford great water-power. This v. is a very old settlement, and derives its name from its location near an Indian burying ground, in which a painted post was erected over the grave of a chief. At this spot in the v. the inhabitants have placed a high painted post, surmounted by a metal figure of an Indian chief. The village contains several mills and stores, a church, etc. Pop. about 700.

PAINTESVILLE, p. v., Greene co., *Ohio*: 53 m. W. S. W. Columbus.

PAINT LICK, p. o., Garrard co., *Ky.*: on a S. branch of Kentucky r., so called, 46 m. S. E. Frankfort.

PAINTSVILLE, p. v., and cap. Johnson co., *Ky.*: on Big Paint cr., an affluent of the W. fork of Big Sandy r., 118 m. E. by S. Frankfort. It contains a court-house, jail, several stores, and 250 inhabitants.

PAKWAUKEE, p. v., Marquette co., *Wisc.*: on the W. side of Buffalo lake, a large expansion of Neenah river, 49 m. N. by W. Madison.

PALATINE, t. and p. v., Montgomery co., *N. Y.*: on the N. side of Mohawk r., 49 m. W. N. W. Albany. Drained by Garoga cr. Surface broken; on the river is the hill called Anthony's Nose; soil of great fertility. The Utica and Schenectady R. R. passes along the r. The v., on the cr. contains several mills and factories. Pop. of t. 2,554.

PALATINE, p. v., Marion co., *Virg.*: about 3 m. E. of Monongahela r., 191 m. N. W. Richmond.

PALATINE, p. v., Cook county, *Ill.*: 196 m. N. E. by N. Springfield.

PALATINE BRIDGE, p. v., Montgomery co., *N. Y.*: on the Mohawk, 47 m. W. N. W. Albany. A bridge connects it with Canajoharie, on the S. side of the r. It is on the Utica and Schenectady R. R., 40 m. E. of Utica, and has a quarry of fine building stone.

PALENYVILLE, p. v., Greene county, *N. Y.*: 28 m. S. S. W. Albany.

PALESMO, t. and p. v., Waldo co., *Me.*: 17 m. E. N. E. Augusta. It contains several ponds, the sources of Sheepscot r. Surface undulating; soil very productive. A superior farming and grazing t. Pop. of t. 1,659.

PALESMO, t. and p. o., Oswego co., *N. Y.*: 106 m. W. N. W. Albany. Drained by Catfish cr. Surface undulating; soil sandy loam. A farming t., with good water-power. Population 2,053.

PALESTINE, p. v., Crawford co., *Ill.*: about 3 m. W. of the Wabash, 122 m. E. S. E. Springfield. It lies on the E. border of the Lamotte prairie, and was formerly the co. seat. It contains a U. S. land office, a dozen stores, and 800 inhabitants. The surrounding country produces heavy crops of corn, and the v. has a large trade in grain and livestock.

PALESTINE, p. v., Washington par., *La.*: 57 m. E. N. E. Baton Rouge.

PALESTINE, p. v., Kosciusko co., *Ind.*: on a S. affluent of Tippecanoe r., 96 m. N. by E. Indianapolis.

PALESTINE, p. o., Adams county, *Miss.*: 87 miles S. W. Jackson.

PALESTINE, p. v., Pickaway county, *Ohio*: 18 m. S. S. W. Columbus.

PALESTINE, p. v., and cap. Anderson co., *Tex.*: 162 m. N. E. by E. Austin City. It lies about midway between the Trinity and the Neches, and contains the county buildings, several stores, and 500 inhabitants. "The Wonder" is published weekly.

PALESTINE, p. o., Hickman co., *Tenn.*: 46 m. W. S. W. Nashville.

PALESTINE, p. v., Greenbrier co., *Virg.*: 163 m. W. by N. Richmond.

PALESTINE, sta., Columbiana co., *Ohio*: on the Ohio and Pennsylvania R. R., 33 m. E. of Alliance.

PALISADES, *N. J.*: this mountainous range extends 20 m. along the W. bank of the Hudson r., commencing near Fort Lee, opposite the extreme upper part of New York, and terminating at Piermont. They are for the most part 300 to 500 feet high, with perpendicular rocky front on the bank of the r., presenting most impressive scenery.

PALL MALL, p. o., Fentress co., *Tenn.*: 97 m. E. by N. Nashville.

PALMER, t. and p. o., Hampden co., *Mass.*: 66 miles W. by S. Boston. Drained by Chicopee, Ware, and Swift rivers, which furnish abundant water-power. Surface hilly; soil fertile. A good farming town, containing several manufacturing villages. Cotton and woolen goods, canvas, etc., are largely made. The Amherst and Belchertown R. R., and the Western R. R. pass through it. Pop. 3,974.

PALMER DEPÔT, p. v. and sta., Hampden co., *Mass.*: on Chicopee river, and the Western R. R., 83 miles (by route) W. by S. Boston. The Amherst and Belchertown R. R., and New London, Willimantic, and Palmer R. R. here connect with the Western R. R., making it an important centre of business and travel. It contains 3 large hotels, and a dozen stores, mostly of brick. Opposite the v. on the S. side of the river, is one of the 3 State Almshouses, with a farm of 175 acres attached to it. The "Palmer Journal" (neut.) is published weekly.

PALMER'S, p. o., Polk county, *Tex.*: 153 miles E. by N. Austin City.

PALMER'S SPRINGS, p. o., Mecklenburg co., *Virg.*: on the

S. side of Roanoke river, near the S. line of the State 76 m. S. W. by W. Richmond.

PALMER'S STORE, p. o., Weakley county, *Tenn.*: 114 m. W. by N. Nashville.

PALMER'S TAVERN, p. o., Prince George's co., *Md.*: on Potomac r., 23 m. W. S. W. Annapolis.

PALMETTO, p. o., Pontotoc co., *Miss.*: 139 m. N. N. E. Jackson.

PALMETTO, p. o. and sta., Coweta co., *Ga.*: on the La Grange R. R., 25 miles S. Atlanta, 118 m. W. N. W. Milledgeville.

PALMYRA, p. v., Lee county, *Ga.*: on a W. branch of Flint river, about 5 m. from its mouth, 119 m. S. W. by W. Milledgeville.

PALMYRA, p. v., Harrison county, *Ind.*: 91 miles S. Indianapolis. A plank-road passes through it to New Albany.

PALMYRA, t. and p. v., Somerset co., *Me.*: 43 m. N. N. E. Augusta. Drained by Sebasticook r., which affords water-power. Surface rolling; soil very productive of grass and grain, to which attention is mostly directed. Population of t. 1,625.

PALMYRA, t., p. v., and sta., Lenawee co., *Mich.*: 72 m. S. S. E. Lansing. Drained by Raisin river and Bear creek, which supply fine water-power. Surface level or undulating; soil sandy loam and deep bottoms, producing all the grains in abundance. The village is on the r., and contains several stores and mills. The Michigan Southern R. R., and the Erie and Kalamazoo R. R. cross the t., and the station is 4 m. E. of Adrian on the latter. Pop. of t. 1,093.

PALMYRA, p. v., and cap. Marion co., *Mo.*: 8 m. W. of Jefferson City, its port on the Mississippi, 89 m. N. N. E. Jefferson City. It contains a court-house, jail, academy, bank, U. S. land office, several handsome churches, 25 stores, 963 inhabitants. The "Missouri Whig" is published weekly. In the vicinity is Masonic College, which was founded in 1831, and in 1850 had 5 instructors and 75 students. A railroad to connect the v. with the r. has been chartered.

PALMYRA, t. and p. v., Wayne co., *N. Y.*: 132 m. W. by N. Albany. Drained by Mud cr. Surface somewhat uneven; soil calcareous loam, and very productive of grain. Mormonism had its origin here in 1829. The Buffalo and Syracuse (direct) R. R. passes through it, and the Erie Canal, on which is the v., 29 m. E. of Rochester. It has a large trade in lumber and grain. The chief street, 1 m. long, rests at each end on the canal, and is beautifully shaded. It contains an incorporated academy, a bank, several manufacturing factories of flour, iron castings, mechanics' tools, etc., 40 stores, and 2,200 inhabitants. The "P. Courier" (whig), and "W. Sentinel" (dem.) are published weekly. Pop. of t. 3,593.

PALMYRA, p. v., Halifax co., *N. Car.*: on the right bank of Roanoke river, 76 m. E. N. E. Raleigh. Here is a good landing, from which large quantities of corn, cotton, and lumber are shipped.

PALMYRA, sta., Camden co., *N. Jer.*: 6 m. N. of Camden, on the Camden and Amboy R. R.

PALMYRA, t. and p. o., Portage co., *Ohio*: 124 m. N. E. Columbus. Drained by branches of Mahoning r. Surface rolling; soil fertile. Large dairies are kept. Pop. 1,093.

PALMYRA, p. v., Lebanon co., *Penn.*: 14 m. E. by N. Harrisburg.

PALMYRA, p. v., Montgomery co., *Tenn.*: on Cumberland river, 44 m. W. N. W. Nashville. It contains several stores and mills, and 300 inhabitants.

PALMYRA, p. v., and cap. Fluvanna county, *Virg.*: on Rivanna r., about 12 m. N. of its entrance into James river, 46 m. W. N. W. Richmond. A bridge here spans the river, on which in the vicinity are several flouring-mills and factories. The v. contains the co. buildings, an academy, and about 300 inhabitants.

PALMYRA, p. v., Warren co., *Miss.*: on the Mississippi,

PAL

49 m. W. by S. Jackson. It is 25 m. by the r. S. of Vicksburg, and has a steamboat landing and some trade.

PALMYRA, t. and p. o., Jefferson co., *Wisc.*: 43 m. E. S. E. Madison. Drained by E. affluents of Rock r., affording good mill-seats. Surface varied; soil generally very fertile. The Milwaukee and Mississippi R. R. crosses the t., and the sta. is 42 m. W. from Milwaukee. Pop. 997.

PALMYRA, p. o., Simpson county, *Ky.*: 131 m. S. W. Frankfort.

PALO, p. o., Linn co., *Ia.*: on the W. side of Cedar river, 31 m. N. N. W. Iowa City.

PALO, p. o., Fayette co., *Ala.*: 127 m. N. W. Montgomery.

PALO ALTO county, *Ia.* Situate N. toward the W., and contains 576 sq. m. Drained by the Moingonan r., a tributary of the Des Moines. Surface undulating and diversified. Set off since 1850.

PALO ALTO, p. v., Jasper co., *Ga.*: 33 m. N. W. by W. Milledgeville.

PALO ALTO, p. o., Highland co., *Virg.*: 127 m. W. N. W. Richmond.

PALO ALTO, p. o., Lawrence co., *Tenn.*: 62 m. S. S. W. Nashville.

PALO ALTO, p. v., Louisa co., *Ia.*: about 4 m. W. of the Mississippi, 45 m. S. E. by S. Iowa City.

PALO ALTO, p. o., Hamilton county, *Ill.*: 131 m. S. S. E. Springfield.

PALO ALTO, p. o., Onslow county, *N. Car.*: 92 m. S. E. Raleigh.

PALO ALTO, p. o., Chickasaw co., *Miss.*: 118 m. N. E. by N. Jackson.

PALONA, p. o., Greenville district, *S. Car.*: 105 m. N. W. Columbia.

PALOS, p. o., Miami co., *Ind.*: 74 m. N. Indianapolis.

PALOS, p. o., Cook co., *Ill.*: 162 m. N. E. Springfield.

PAMELIA FOUR CORNERS, p. v., Jefferson co., *N. Y.*: 4 m. N. of Watertown, 148 m. N. W. Albany.

PAMLICO river, *N. Car.*: is a broad estuary leading from Tar river into Pamlico sound, 40 m. long, 1 to 8 m. broad, and deep enough for all vessels which navigate Pamlico Sound.

PAMLICO sound, *N. Car.*: is separated from the Atlantic Ocean by long sandy islands about 1 m. wide, is 80 m. long, 8 to 30 m. wide, receives Tar and Neuse rivers, is entered by Ocracoke inlet, and connects on the N. with Albemarle sound. The land around it is low, and in some places marshy.

PAMUNKY river, *Virg.*: formed by the junction of N. and S. Anna rivers, between Hanover and Caroline counties, thence flows in a S. E. course, until it unites with Mallowpond r., which then form York r.

PANAMA, p. o., Chautauque co., *N. Y.*: 305 m. W. by S. Albany.

PANAMA, p. o., Defiance county, *Ohio*: 127 m. N. W. Columbus.

PANCOASTBURG, p. v., Fayette co., *Ohio*: 34 m. S. S. W. Columbus.

PANDORA, p. o., Johnson county, *Tenn.*: 263 m. E. by N. Nashville.

PANOLA county, *Miss.* Situate N. W., and contains 753 sq. m. Drained by Tallahatchie r. and branches of Cold Water r. Surface generally level; soil fertile, and making fine pasture. Chief productions, cotton and Indian corn. Farms 615; manuf. 0; dwell. 891, and pop.—wh. 5,021, fr. col. 3, sl. 6,420—total 11,444. *Capital*: Panola.

PANOLA county, *Tex.* Situate E. toward the N., and contains 893 sq. m. Drained by Sabine r. and its branches. Surface diversified by low hills and fertile valleys; soil fertile. Pine and other timber abounds. Farms 209; manuf. 0; dwell. 456, and pop.—wh. 2,676, fr. col. 2, sl. 1,193—total 3,871. *Capital*: Carthage.

PANOLA, p. v., and cap. Panola county, *Miss.*: on Tallahatchie r., 134 m. N. by E. Jackson. It contains a court-house, jail, an academy, several stores, and 500 inhabitants.

PAR

The "Panolean" (dem.), and "P. Picayune" are published weekly.

PANTEGO, p. o., Beaufort co., *N. Car.*: on a small affluent of Pungo r., 106 m. E. Raleigh.

PANTHER, p. v., and cap. Polk co., *Ark.*: 110 m. W. by S. Little Rock. It is a small settlement, in which the county business is transacted, containing a hotel and 3 or 4 stores.

PANTHER CREEK, p. o., Cass co., *Ill.*: about 2 m. S. of Sangamon r., 33 m. W. N. W. Springfield.

PANTHER CREEK, p. o., Surry co., *N. Car.*: 127 m. W. N. W. Raleigh.

PANTHER FORK, p. o., Greenville district, *S. Car.*: 112 m. N. W. Columbia.

PANTHER'S GAP, p. o., Rockbridge co., *Virg.*: on the E. base of Mill mt., 102 m. W. by N. Richmond.

PANTHER SPRINGS, p. o., Jefferson co., *Tenn.*: 185 m. E. Nashville.

PANTHERSVILLE, p. v., De Kalb co., *Ga.*: on a head of Ocmulgee r., 59 m. N. W. by W. Milledgeville.

PANTON, t. and p. o., Addison county, *Verm.*: on Lake Champlain, 37 m. W. S. W. Montpelier. Bounded E. by Otter cr., and drained by a S. branch. Surface very level; soil of average fertility. Pop. 559.

PAN YAN, p. o., Racine county, *Wisc.*: 68 miles E. S. E. Madison.

PAOLI, p. v., and cap. Orange co., *Ind.*: on the N. side of Lick cr., 53 m. S. by W. Indianapolis. It contains a court-house, jail, academy, a dozen stores, several flouring and other mills, and 461 inhabitants. A plank-road leads hence 40 m. to New Albany.

PAOLI, p. v., Chester co., *Penn.*: 73 m. E. by S. Harrisburg. Two miles S. W. of the v. is a monument on the spot where, on the 20th of September, 1777, Gen. Wayne was defeated by the British under Gen. Grey. The v. is 21 m. from Philadelphia, on the Columbia and Philadelphia R. R., beyond which a branch road to Westchester diverges here.

PAPACTON river, *N. Y.*: the E. branch of Delaware r., rises in E. part of Delaware co., and flows S. W. 65 m. to its junction with W. branch of the Delaware r.

PAPAKUNK, p. o., Delaware co., *N. Y.*: on Papacton r., 52 m. S. W. Albany; now called Halcottsville.

PAPER-MILL VILLAGE, p. v., Cheshire co., *N. Hamp.*: on Cold r., 5 m. E. of the Connecticut, 39 m. W. by S. Concord.

PAPER-TOWN, p. o., Cumberland co., *Penn.*: W. Harrisburg. A furnace of 1,400 tons annual capacity, using water-power, is located here.

PAPERVILLE, p. v., Sullivan co., *Tenn.*: on a N. branch of Holston r., near the *Virg.* line, 253 m. E. by N. Nashville.

PAPINSVILLE, p. v., Bates co., *Mo.*: on Osage r., 103 m. W. S. W. Jefferson City.

PARACLIPTA, p. v., and cap. Sevier co., *Ark.*: on Cossatot cr. of Little r., 121 m. S. W. by W. Little Rock. It contains a court-house, hotel, and several stores.

PARADISE, p. o., Coles co., *Ill.*: 69 m. E. S. E. Springfield.

PARADISE, sta., Wayne co., *Ohio*: 8 m. E. of Wooster, on the Ohio and Pennsylvania R. R.

PARADISE, p. v., Lancaster county, *Penn.*: 47 m. E. S. E. Harrisburg.

PARADISE, p. o., Rockingham co., *Virg.*: 103 m. N. W. Richmond.

PARADISE FURNACE, p. o., Huntingdon co., *Penn.*: 62 m. W. Harrisburg. The furnace uses water-power, and has annual capacity of 1,000 tons. A forge, capable of producing 500 tons blooms per annum, is also located here.

PARADISE VALLEY, p. v., Monroe county, *Penn.*: 97 m. N. E. by E. Harrisburg.

PARCIEE'S CORNERS, p. o., Fulton county, *Ohio*: 129 m. N. N. W. Columbus.

PARDEEVILLE, p. v., Columbia co., *Wisc.*: on the Neenab, near the E. end of Swan lake, 34 m. N. Madison. It contains several mills and stores, and a population of 200.

PARHAM'S LANDING, p. o., Catahoula par., *La.*: 101 m. N. N. W. Baton Rouge.

PARHAM'S STORE, p. o., Sussex co., *Virg.*: 37 m. S. S. E. Richmond.

PARIS, p. v., and cap. Edgar co., *Ill.*: 106 m. E. by S. Springfield. It lies on the E. border of a large prairie, and contains a court-house, jail, academy, a dozen stores, and 600 inhabitants. The proposed railroad from Terre Haute to Springfield passes through it. The "Prairie Beacon" (whig) is published weekly.

PARIS, p. v., Jennings co., *Ind.*: on the E. side of Graham's fork of Muscatatuk r., 68 m. S. S. E. Indianapolis. It contains several stores and about 500 inhabitants.

PARIS, p. v., and cap. Bourbon co., *Ky.*: on the S. branch of Licking r., 31 m. E. Frankfort. It contains a court-house and jail, a bank, two academies, several large commercial houses, and 1,334 inhabitants. The Maysville and Lexington R. R. passes through it, and the proposed road from Louisville to Knoxville, *Tenn.* The "Western Citizen" (whig) is published weekly.

PARIS, t., p. v., and cap. Oxford co., *Me.*: 37 m. W. by S. Augusta. Drained by Little Androscoggin r. and branches, supplying much water-power. Surface uneven; in parts rough; soil very productive of grass and grain. A superior farming town, with several large factories and mills. The Atlantic and St. Lawrence R. R. crosses the W. part along the r. The v., on an E. branch of the r., has a brisk trade, and contains a court-house, jail, and academy. The "Oxford Democrat" and "Second Advent Review" are issued weekly. Pop. of t. 2,838.

PARIS, t. and p. o., Kent county, *Mich.*: 58 m. W. by N. Lansing. Drained by Gypsum (or Plaster) cr., a S. affluent of Grand r. Surface rolling and well timbered; soil vegetable loam and very fertile. Gypsum is abundant on the cr., and salt springs are found. Pop. 521.

PARIS, p. v., and cap. Monroe co., *Mo.*: on the S. fork of Salt r., 62 m. N. by E. Jefferson City. It contains a court-house, jail, academy, and about 500 inhabitants.

PARIS, t. and p. o., Oneida county, *N. Y.*: 51 m. W. by N. Albany. Drained by Sahada or Sauquoit cr., which supplies fine water-power. Surface high and rolling; soil sandy and calcareous loam of excellent quality, and highly cultivated. It is well timbered, and has several manufactories of cotton and woolen goods, paper, etc. Pop. of t. 4,253.

PARIS, p. o., Coweta county, *Ga.*: 92 miles W. by N. Milledgeville.

PARIS, p. v., Lafayette co., *Miss.*: 151 m. N. by E. Jackson.

PARIS, t. and p. v., Stark county, *Ohio*: 107 m. N. E. by E. Columbus. Drained by Sandy cr. and branches, affording water-power. Surface rolling or hilly; soil fertile. The v. contains several factories and 500 inhabitants. Population of t. 2,740.

PARIS, p. o., Washington county, *Penn.*: 173 m. W. Harrisburg.

PARIS, p. v., and cap. Henry co., *Tenn.*: on a branch of Big Sandy river, a W. tributary of the Tennessee, 86 miles W. by N. Nashville. It contains a court-house, jail, academy, and several stores, and 400 inhabitants. "The Republic" (whig) is published here weekly.

PARIS, p. v., and cap. Lamar co., *Tex.*: 267 m. N. N. E. Austin City. It contains a court-house, jail, academy, and several stores. The "Western Star," a weekly issue, is published.

PARIS, p. v., Fauquier county, *Virg.*: 103 m. N. N. W. Richmond. It lies at the E. base of the Blue Ridge, and contains several stores and 250 inhabitants.

PARIS, t. and p. o., Kenosha co., *Wis.*: 79 m. E. S. E. Madison. Drained by Des Plaines r., on which are numerous mill-sites. Surface mostly even, and soil very productive of the grains. A fine limestone is quarried. Pop. 947.

PARISBURG, Giles co., *Virg.* See GILES C. H.

PARISH, t. and p. o., Oswego co., *N. Y.*: 133 m. W. N. W. Albany. Drained by Salmon cr. Surface undulating; soil fertile loam. A farming t. with superior dairies. Population 1,799.

PARISVILLE, t. and p. v., St. Lawrence co., *N. Y.*: 147 m. N. N. E. Albany. Drained by Racket and St. Regis rivers. Surface rolling; soil adapted to grass, corn, and rye. It is heavily timbered and well supplied with mill-seats. The v. is on St. Regis r., and contains several mills and about 500 inhabitants. Pop. of t. 2,132.

PARISVILLE, p. v., Portage co., *Ohio*: on the W. branch of Mahoning r., 128 m. N. E. Columbus.

PARK, t. and p. o., St. Joseph's co., *Mich.*: 76 m. S. W. Lansing. Drained by Portage r. of the St. Joseph's, which furnishes good mill-sites. Surface undulating; soil very productive. Pop. 523.

PARKER COUNTY, *Ind.* Situate W., and contains 428 sq. m. Drained by Sugar and Big and Little Racoon creeks, tributaries of the Wabash, which runs on its western border, and by these good water-power is gained. Surface slightly undulating, and partly diversified with low hills; soil a deep black loam, with sand intermixed, and very fertile. Chief productions wheat, Indian corn, and tobacco. There is some rich prairie-land and much fine timber. It contains coal, and has some excellent beds of iron ore. Farms 1,890; manuf. 63; dwell. 2,468, and pop.—wh. 14,741, fr. col. 227—total 14,963. *Capital*: Rockville. *Public Works*: Wabash and Erie Canal.

PARKER'S, sta., Hillsboro' co., *N. Hamp.*: 10 m. N. W. of Manchester, on the New Hampshire Central R. R.

PARKERSBURG (formerly SCHOOLEY'S MOUNT), p. v., Morris co., *N. Jer.*: 33 m. N. by W. Trenton. A mineral spring here, with the beauty of its location on the E. side of Schooley's Mountain, has made it a popular place of summer resort, with ample accommodation for visitors.

PARKERSBURG, p. v., Richland county, *Ill.*: 119 m. S. E. Springfield.

PARKERSBURG, p. v., Jasper co., *Ia.*: 82 m. W. Iowa City.

PARKERSBURG, p. v., Montgomery county, *Ind.*: 19 m. W. by N. Indianapolis.

PARKERSBURG, p. o., Yell co., *Ark.*: on Petite Jean r., 70 m. W. by N. Little Rock.

PARKERSBURG, p. v., and cap. Wood co., *Virg.*: on the Ohio, immediately above the entrance of Little Kanawha r., 252 m. W. N. W. Richmond. It has an extensive river and inland trade, and valuable manufactures, which must be greatly increased by the completion of the Cincinnati, Hillsboro', and Parkersburg R. R. and the North Western R. R., the latter to connect the Baltimore and Ohio R. R. with the Ohio r. at this place. It contains a court-house and jail, a bank, 2 academies, a dozen stores, 2 steam saw-mills, 2 steam flouring-mills, numerous smaller manufacturing establishments, and a population of 1,213 souls. The "P. Gazette" (whig) and "P. News" are published weekly.

PARKER'S HEAD, p. o., Lincoln co., *Me.*: on the Atlantic, 37 m. S. S. E. Augusta.

PARKER'S STORE, p. o., Franklin co., *Ga.*: about 3 m. W. of Savannah r., 106 m. N. by E. Milledgeville.

PARKERSVILLE, p. v., Chester co., *Penn.*: 62 m. E. S. E. Harrisburg.

PARKERSVILLE, p. o., St. Tammany par., *La.*: 63 m. E. Baton Rouge.

PARKERSBURG, p. v. and sta., Chester co., *Penn.*: on the Columbia and Philadelphia R. R., 45 m. W. of Philadelphia, 61 m. E. S. E. Harrisburg. It contains the State machine shops, several depots and warehouses, 3 stores, a hotel, and between 50 and 60 dwellings.

PARKEVILLE, p. v., Noxubee county, *Miss.*: 112 miles N. E. by E. Jackson.

PARK HALL, p. o., St. Mary's county, *Md.*: 46 miles S. Annapolis.

PARK HEAD, p. o., Washington county, *Md.*: 89 miles N. W. by W. Annapolis.

PARKISON, p. o., Beaver co., *Penn.*: 184 m. W. by N. Harrisburg.

PARKMAN, t. and p. o., Piscataquis county, *Me.*: 59 m. N. N. E. Augusta. Drained by branches of Piscataquis r.

Surface moderately uneven; soil fertile and well wooded. A superior dairy town. Pop. 1,243.

PARKMAN, t. and p. o., Geauga co., *Ohio*: 186 m. N. E. Columbus. Drained by branches of Cuyahoga and Grand rivers, which furnish good mill-seats. Pop. 1,333.

PARK'S, p. o., Scott co., *Ark.*: on La Fave r., 94 m. W. Little Rock.

PARK'S, p. o., Edgefield dist., *S. Car.*: about 4 m. E. of Savannah r., 73 m. W. by S. Columbia.

PARK'S CORNEES, p. v., Boone co., *Ill.*: 186 m. N. by E. Springfield.

PARK'S STORE, p. o., Cabarras co., *N. Car.*: 101 m. W. by S. Raleigh.

PARK'S STORE, p. o., Jackson co., *Ala.*: 164 m. N. by E. Montgomery.

PARKSVILLE, p. v., Sullivan county, *N. Y.*: 63 m. S. W. Albany.

PARKTON, p. v. and sta., Baltimore co., *Md.*: on the N. side of Great Gunpowder Falls, where it is crossed by the Baltimore and Susquehanna R. R., 23 m. N. of Baltimore.

PARKVILLE, p. o., Platte co., *Mo.*: on the left bank of the Missouri, 139 m. W. N. W. Jefferson City. Pop. 309.

PARMA, t. and p. o., Monroe co., *N. Y.*: on the S. shore of Lake Ontario, 217 m. W. by N. Albany. Drained by Salmon cr., flowing into Braddock's bay. Surface generally even; soil sandy or gravelly loam, and very productive. It is chiefly a farming town, but has several manufactories. Pop. 2,946.

PARMA, t. and p. o., Cuyahoga county, *Ohio*: 115 m. N. E. by N. Columbus. Drained by branches of Cuyahoga r. Surface level, and soil adapted to wheat. Pop. 1,329.

PARMA, sta., Jackson co., *Mich.*: on the Michigan Central R. R., 10 m. W. of Jackson.

PARMA CENTRE, p. o., Monroe co., *N. Y.*: 215 m. W. by N. Albany.

PARNASSUS, p. o., Wilcox co., *Ala.*: about 4 m. W. of Alabama r., 76 m. W. by S. Montgomery.

PARNASSUS, p. o., Augusta co., *Virg.*: 106 m. W. N. W. Richmond.

PAROWAN CITY, p. v., Iron county, *Utah Ter.*: near S. extremity of Little Salt Lake, 105 m. S. S. W. Fillmore City.

PARRISH, p. v., Des Moines co., *Ia.*: about 3 m. N. of Skunk r., 59 m. S. by E. Iowa City.

PARTOTSVILLE, p. v., Cocke co., *Tenn.*: on a branch of French broad r., 209 m. E. by N. Nashville.

PARTYSVILLE, p. v., Carbon co., *Penn.*: on the E. side of Lehigh r., at the mouth of Big creek, 72 m. N. E. by E. Harrisburg.

PARSIPPANY, p. v., Morris co., *N. Jer.*: on Parsippany r., 47 m. N. N. E. Trenton. It contains an academy and several stores and mills.

PARSONAGE, p. o., Williamsburg dist., *S. Car.*: 79 m. E. S. E. Columbus.

PARSONSFIELD, t. and p. v., York co., *Me.*: 74 m. S. W. Augusta. Bounded N. by Ossipee r., and W. by *N. Hamp.* Surface broken and rough; soil productive. Several ponds feed fine mill streams. Iron ore and zinc are found. Farming and various manufactures are extensively carried on. The v. contains an incorporated seminary for both sexes. Pop. of t. 2,322.

PARTLOW'S, p. o., Spottsylvania co., *Virg.*: 46 m. N. by W. Richmond.

PARTNERSHIP, p. o., Charles county, *Md.*: 44 m. S. W. Annapolis.

PARTHIDGE ISLAND, p. o., Delaware county, *N. Y.*: 92 m. S. W. by W. Albany.

PASCAGOULA, p. v., Jackson co., *Miss.*: at the mouth of Pascagoula r., 155 m. S. E. by S. Jackson.

PASCAGOULA river, *Miss.*: formed by the junction of Chickasawha and Leaf rivers, and flows S. by E. about 60 m. into Pascagoula Sound of Gulf of Mexico. It is navigable for vessels drawing 6 feet water.

PASCAGOULA sound, *Miss.*: off the mouth of Pascagoula

r., separated from the Gulf of Mexico by several long, narrow islands, 55 m. long, and 8 m. in average breadth.

PASCO, p. o., Dallas co., *Mo.*: 79 m. S. W. Jefferson City. PASCOAG, p. v., Providence co., *R. I.*: on Pascoag r., a S. affluent of Branch r., 19 m. N. W. by W. Providence. It contains a bank, and several factories and mills.

PASHAWN, p. o., La Grange co., *Ind.*: on the E. side of Little Elkhart r., 131 m. N. by E. Indianapolis.

PASKACK, p. o., Bergen co., *N. Jer.*: on the W. side of Paskack r., a W. branch of the Hackensack, 65 miles N. E. by N. Trenton.

PASQUOTANK county, *N. Car.* Situate N. E., and contains 241 sq. m. Drained by small streams of Pasquotank r. Surface level, a portion of it being low and marshy, and unfit for cultivation; soil various, owing to the diversity of the surface; where fit for cultivation, it is fertile and adapted to grain. Chief products, wheat and Indian corn. Farms 530; manuf. 11; dwell. 1,150, and pop.—wh. 4,611, fr. col. 1,234, sl. 3,105—total 8,950. *Capital*: Elizabeth City.

PASQUOTANK river, *N. Car.*: rises in the Dismal Swamp, flows S. E., and with broad estuary enters Albemarle Sound. It is connected with Elizabeth r., *Virg.*, by the DISMAL SWAMP CANAL, which see.

PASSADUMKEAG, t. and p. o., Penobscot co., *Me.*: on the E. side of Penobscot r., 85 m. N. E. Augusta. Drained by Passadumkeag r. Surface varied; soil fertile. Lumber getting engrosses attention. Pop. 294.

PASSADUMKEAG river, *Me.*: an E. branch of Penobscot r., which it enters at Passadumkeag v., affording in its course fine mill sites.

PASSAIC county, *N. Jer.* Situate toward the N. E., and contains 193 sq. m. Drained by Passaic river and its branches. Surface broken, and in parts hilly; soil various, but for the most part is fertile, and produces good crops of wheat, Indian corn, and potatoes. It has some good timber land. Farms 610; manuf. 247; dwell. 3,369, and pop.—wh. 21,922, fr. col. 630, sl. 23—total 22,575. *Capital*: Paterson. *Public Works*: Union R. R.; Morris and Essex Canal.

PASSAIC river, *N. Jer.*: rises in Mendham, Morris co., and flows with very irregular course 70 m. to its entrance into Newark bay. At Paterson it has a perpendicular fall of 50 feet, and a total descent of 70 feet, affording an immense water-power. It is navigable for sloops to Acquackanonk, 12 miles.

PASSAIC BRIDGE, sta., Passaic co., *N. Jer.*: on the Union R. R., 12 m. from New York.

PASSAMAQUODDY bay, *Me.*: lies partly in Maine, and partly in the British province of New Brunswick, 12 m. long, and averaging 7 m. wide. It is separated from the ocean by Deer and Campobello islands, and many smaller islands. It has everywhere a sufficient depth of water for the largest vessels, and is never closed by ice. Its waters abound with mackerel, herring, cod, and other fish. The tide varies from 25 to 33 feet. The statistics of Passamaquoddy collection district are given under EASTPORT, which is its port of entry.

PASS CHRISTIAN, p. v., Harrison co., *Miss.*: on the E. side of the pass into St. Louis bay, opposite Shieldsboro', 141 m. S. S. E. Jackson.

PASSUMPSIC, p. v. and sta., Caledonia co., *Verm.*: on Passumpsic r., and the Connecticut and Passumpsic Rivers Railroad, 4 m. south of St. Johnsbury, 29 m. E. N. E. Montpelier.

PASSUMPSIC river, *Verm.*: rises from a pond in Westmore t., flows by S. course 34 m., and enters Connecticut r. It has several falls, particularly in Lyndon, where it descends 65 feet in 30 rods, producing great water-power. The Connecticut and Passumpsic R. R. runs along the river, and is now completed to St. Johnsbury.

PASSYUNK, t. and v., Philadelphia county, *Penn.*: 93 m. S. by W. Harrisburg. Bounded S. by Schuylkill and Delaware, and drained by Hollander's cr. Surface level; soil alluvium and loam. League island, on the Delaware, be-

longs to it, and is covered with gardens and meadows. The bank of the Schuylkill is high and steep. Pop. 1,607.

PATAPSCO river, *Md.*: rises in Baltimore co., and enters Chesapeake bay, by a broad estuary. It is navigable to Fell's Point, in Baltimore, 14 m., for vessels drawing 18 feet water. In its course it affords extensive water-power, which has been improved by the establishment of numerous mills on its banks, some of which are large and profitable concerns.

PATASKALA, sta., Licking co., *Ohio*: on the Central Ohio R. R., 26 m. W. of Newark.

PATCHIN, p. o., Erie co., *N. Y.*: 257 m. W. Albany.

PATCHOGUE, p. v., Suffolk co., *N. Y.*: on the S. side of Long Island, near Great South bay, 183 m. S. S. E. Albany. A stream passes through it, supplying ample water-power. It contains several factories and mills, and about 500 inhabitants. In summer it is much frequented by sportsmen for the excellent fishing and fowling the neighborhood affords. There are many fine prospects from this locality.

PATERSON, sta., Putnam co., *N. Y.*: 63 m. N. of New York, on the Harlem R. R.

PATERSON, p. city, and cap. Passaic co., *N. Jer.*: on the Passaic, immediately below the falls of that river, 4 m. from tide water and 26 m. above its confluence with Newark bay, in lat. 40° 55' N., and long. 74° 19' W., 57 m. N. E. by N. Trenton, and 17 m. N. N. W. New York city. It is situate midway on the lines of the Union (formerly the Paterson and Hudson) R. R., which, extending to Jersey City, gives it easy access to New York, and to Suffern's, where the road connects with the great New York and Erie R. R., from the Hudson, at Piermont, to Dunkirk, on Lake Erie, by which it has also connection with the whole interior of Western New York and Lake Ontario. The Morris Canal, extending from Jersey City to Easton, *Penn.*, 102 m., also accommodates its large and valuable commerce, and is the channel through which, as a manufacturing city, it receives its fuel.

The fall has a perpendicular descent of 50 feet. The advantages derivable from the great fall in the river have been improved with much judgment. A dam 4½ feet high, strongly framed and bolted to the rock in the bed of the river above the falls, turns the stream through a canal excavated in the trap rock of the bank, into a basin, whence through strong guard gates it supplies in succession three canals on separate planes, each below the other, giving to the mills on each a head and fall of about 22 feet. The falls and the improvements afford a constant and abundant supply of water for the vast number of manufacturing establishments in operation in the city, which is now one of the most important manufacturing places in the United States, and in New Jersey second only to Newark. The falls of the Passaic is a beautiful sheet of water, and in its passage, through the lapse of ages, the waters have worn a deep chasm into the solid rock, which is obviously retreating, as the abraded banks below testify. No spectacle can be more imposing than is presented by the falling water, as it glides gently over the brow of the precipice, and in flood the scene is magnificent.

Paterson contains the county court-house, the jail, and other public offices, 16 or 17 churches of various denominations, some of which are elegant and substantial structures, many large hotels, numerous school-houses, and its buildings devoted to manufacturing purposes are generally constructed of stone. On the whole, it is more than usually substantial in its buildings. The streets are generally laid out with regularity, although in some parts they conform more to the peculiar topography of the ground than to mathematical design. The city is lighted with gas, and its streets are well paved and the sidewalks flagged. The manufactures of the city are on an extensive scale, consisting of cotton goods, of which there about 20 factories; woolen goods, dyeing and printing establishments, fulling-mills, gun and pistol factories, machine shops, car and carriage

factories, which turn out large numbers of railroad and other carriages, founderies of brass and iron, paper-mills and a variety of mills and factories of less note. Two banks are established here, also a savings' bank, and several insurance agencies. For mental culture there is ample provision; a philosophical society for young men, which has a respectable library, and a mechanics' society, for the advancement of science and the mechanic arts, with a library, philosophical apparatus, etc., have been established for many years. There are also night-schools, at which the mechanics whose daily occupations debar them the ordinary advantages of education, are instructed in the usual branches. The public press of the city consists of the "P. Guardian" (dem.) and the "P. Intelligencer" (whig), each of which circulates from 800 to 1,000 copies weekly.

Paterson was founded by an association, incorporated in 1791, for the purpose of fostering manufactures, and is said to have been projected by Alexander Hamilton, at that time U. S. Secretary of State. The year preceding this date saw machine cotton spinning first established in New England—the factory of Samuel Slater having been established at Pawtucket, *R. I.*, in 1790. The plans of this company, which had a capital of \$1,000,000, failed of success, and the enterprise, for which the times were not sufficiently advanced, was abandoned. In after years, however, the project was revived, and the design of the original association carried out by others. The city of Paterson is the great monument of the success that crowned and rewarded their persistent labors.

The population in 1810 was 292; in 1820, 1,578, and in 1830, 7,731. In 1840 it was only 7,596, but in 1850 it had increased to 11,338—the increase in the decade having been at the rate of 49.26 per centum.

In the vicinity of Paterson, and on the opposite side of the Passaic, is New Manchester, which, though under a separate organization, is to all intents and purposes a part of the city, having the same interests and being connected with it by two bridges. It contains numerous factories and mills, and is a highly flourishing place. The population of the town of Manchester in 1850 was 2,781. Goffle, Oldham, and Totowa, are villages in the same town.

PATOKA, p. v. and sta., Gibson co., *Ind.*: on the N. side of Patoka cr., 117 m. S. W. by S. Indianapolis. It is on the Evansville and Illinois R. R., 30 m. N. of Evansville, and contains several stores and mills.

PATOKA river, *Ind.*: rises in S. part of Orange co., flows W., and empties into the Wabash just below the mouth of White r. It is about 100 m. long, 150 feet wide, and navigable in high water over 60 miles.

PATON, p. o., Cape Girardeau co., *Mo.*: on Whitewater cr., 142 m. S. E. by E. Jefferson City.

PATRICK county, *Virg.* Situate S., and contains 506 sq. m. Drained by branches of Smith's, S. Mayo, and Little Dan rivers. Surface hilly and broken; soil moderately fertile. Chief products, Indian corn and tobacco. On the N. W. runs the Blue Ridge. Farms 743; manuf. 27; dwell. 1,243, and pop.—wh. 7,197, fr. col. 88, sl. 2,324—total 9,609. *Capital*: Patrick C. H.

PATRICK C. H., p. v., and cap. Patrick county, *Virg.*: on South Mayo r., a branch of the Dan, 163 m. W. S. W. Richmond. It contains a court-house and jail, a flouring-mill, several tobacco factories, and about 500 inhabitants. The v. is also called Taylorsville.

PATRICKTOWN, t. and p. o., Lincoln county, *Me.*: 15 m. E. Augusta. The W. is occupied by a large pond, the source of Sheepscot r. Surface varied; soil very productive, and well wooded. Pop. 552.

PATRIOT, p. v., Switzerland co., *Ind.*: on the Ohio, 92 m. S. E. Indianapolis. It is 49 m. below Cincinnati, has a convenient landing, and contains about 600 inhabitants.

PATRIOT, p. v., Gallia county, *Ohio*: on the E. side of Symmes cr., 86 m. S. S. E. Columbus. It contains several stores and about 400 inhabitants.

PATTEK, t. and p. o., Penobscot co., *Me.*: 135 m. N. N. E. Augusta. Pop. 470.

PATTEN'S HOME, p. o., Rutherford co., *N. Car.*: 191 m. W. by S. Raleigh.

PATTEN'S MILLS, p. o., Washington county, *N. Y.*: 47 m. N. by E. Albany.

PATTERSON, t. and p. v., Putnam co., *N. Y.*: 83 m. S. by E. Albany. Drained by Croton r. Surface broken; soil fertile in the valleys, and under high cultivation. The Harlem R. R. crosses it, and P. sta. is 80 m. N. of New York. The v. is on Croton r., and contains an academy and several stores. Pop. of t. 1,371.

PATTERSON, p. o., Wayne county, *Mo.*: 137 m. S. E. Jefferson City.

PATTERSON, p. v., Delaware co., *Ohio*: on the W. side of Scioto r., 23 m. N. by W. Columbus.

PATTERSON, sta., Wyandot co., *Ohio*: 34 m. N. of Bella-fontaine, on the Mad River and Lake Erie R. R.

PATTERSON'S BLUFF, p. o., Johnson co., *Ark.*: on the right bank of Arkansas r., at the mouth of Mountain cr., 56 m. N. W. by W. Little Rock.

PATTERSON'S DERBY, p. v. and sta., Hampshire co., *Virg.*: on the S. side of Potomac r., 8 m. E. of Cumberland by the Baltimore and Ohio R. R., 152 m. N. W. by N. Richmond.

PATTERSON'S MILLS, p. o., Washington co., *Penn.*: 163 m. W. Harrisburg.

PATTERSON'S STORE, p. o., Allamance co., *N. Car.*: 49 m. W. N. W. Raleigh.

PATERSONVILLE, p. v., St. Mary's par., *La.*: on Bayou Teché, 49 m. S. by W. Baton Rouge. Great quantities of cotton and sugar are produced in the vicinity, and sent down the r. from this point.

PATILLOS, p. o., Jefferson co., *Tex.*: near Cow bayou of the Sabine, 229 m. E. by S. Austin City.

PATONSBURG, p. v., Davies co., *Mo.*: on Big cr., about 5 m. N. of Grand r., 143 m. N. W. Jefferson City.

PATTONSBURG, p. v., Botetourt co., *Virg.*: on the N. side of James r., 122 m. W. Richmond. A bridge connects it with the v. of Buchanan on the S. side, and the two contain a dozen stores, several mills and tobacco factories, and about 500 inhabitants.

PATTONSVILLE, p. v., Scott co., *Virg.*: 257 m. W. by S. Richmond.

PATTONSVILLE, p. v., Hocking co., *Ohio*: on the Hocking Canal, E. side of Hocking r., 48 m. S. E. Columbus. It is 22 m. by canal N. W. Athens.

PATTONSVILLE, p. v., Bedford co., *Penn.*: 82 m. W. by S. Harrisburg.

PATUXENT, p. v., Anne Arundel co., *Md.*: on the E. side of Patuxent r., 19 m. N. W. Annapolis.

PATUXENT river, *Md.*: the longest r. in the State, rises in the N. part of Montgomery and Howard counties; flows S. E. 40 m., then, bending to the S., flows 50 m. in that direction, nearly parallel with Chesapeake bay, which it enters by a large estuary. It is navigable to Nottingham, 50 m., for vessels of 250 tons, and further for smaller vessels.

PAULDING county, *Ga.* Situate W. toward the N., and contains 663 sq. m. Drained by head branches of Tallapoosa r. and branches of Etowah r. Surface varied—in the N. being hilly, the remainder level land; soil fertile. Chief productions, cotton, Indian corn, and fruit. It has some fine timber land. Farms 422; manuf. 10; dwell. 1,059, and pop.—wh. 5,560, fr. col. 2, sl. 1,477—total 7,039. *Capital*: Van Wert.

PAULDING county, *Ohio*. Situate W. toward the N., and contains 436 sq. m. Drained by Maumee r. and Auglaize r. and its branches Crooked and Blue creeks. Surface level; soil very productive, and is well adapted to grain. Farms 77; manuf. 4; dwell. 307, and pop.—wh. 1,765, fr. col. 1—total 1,766. *Capital*: Paulding C. H. *Public Works*: Sandusky and Fort Wayne and St. Louis R. R.; Wabash and Erie Canal; Miami Canal, etc.

PAULDING, p. v., and cap. Jasper county, *Miss.*: 67 m. E. by S. Jackson. It contains a court-house, jail, academy,

several stores, and 400 inhabitants. The "Eastern Clarion" (dem.) is published weekly.

PAULDING, p. v., and cap. Paulding co., *Ohio*: on Crooked cr., a W. branch of the Auglaize, 114 m. N. W. Columbus. It contains the co. buildings and several stores and mills.

PAULINA, p. v., Warren co., *N. Jer.*: on the S. side of Paulin's Kill, 52 m. N. by W. Trenton.

PAULNSKILL, r., *N. Jer.*: rises in Sussex co., and flows in S. W. course about 40 m., entering Delaware r. in N. W. corner of Warren co., near Columbia.

PAVILION, p. v., Kendall co., *Ill.*: about 1 m. S. of Fox r., 142 m. N. N. E. Springfield.

PAVILION, t. and p. o., Kalamazoo county, *Mich.*: 63 m. S. W. Lausing. Drained by Portage r. of the St. Joseph's, into which flow several large ponds. Surface level; soil adapted to grass and grain. Pop. 495.

PAVILION, t. and p. o., Genesee county, *N. Y.*: 223 m. W. by N. Albany. Drained by Allen's cr. Surface rolling; soil clayey loam. A superior t. for wheat growing. Pop. 1,640.

PAVILION CENTRE, p. v., Genesee county, *N. Y.*: 221 m. W. by N. Albany.

PAWCATUCK, river, *R. I.* and *Conn.*: formed in Washington co., by the junction of Wood and Charles rivers, which afford extensive water-power; flows in S. W. course to the State line, thence S., forming the dividing line between the States, to its entrance into Nautigansick bay.

PAWLET, t. p. v., and sta., Rutland co., *Verm.*: on the W. line of the State, 71 m. S. S. W. Montpelier. Drained by Pawlet r. Surface broken; soil very productive of corn and grass. Grazing is much attended to, and various manufactures carried on. The Rutland and Washington R. R. crosses the W. part, on which is the sta., 13 m. S. of Castleton. The v. contains an academy. Pop. of t. 1,843.

PAWLET river, *Verm.* and *N. Y.*: rises in Dorset, Vt., flows N. W. into Lake Champlain, and affords good water-power.

PAWLINGS, t. and p. v., Dutchess county, *N. Y.*: 77 m. S. by E. Albany. Drained by branches of Fishkill and Croton rivers. Surface a large valley with hills on the E. and W. sides; soil moderately fertile. It contains several ponds and has good iron ore. The v. is 67 m. from New York by the Harlem R. R., and contains a bank and several stores. Pop. of t. 1,720.

PAW PAW, p. v., Miami county, *Ind.*: on the E. side of Eel r., at the mouth of Paw Paw cr., 76 m. N. by E. Indianapolis. It is on the proposed railroad from Peru to Goschen.

PAW PAW, p. v., and cap. Van Buren co., *Mich.*: on the S. branch of Paw Paw r., 81 m. S. W. by W. Lansing. It contains the co. buildings, several mills, 8 or 10 stores, and 500 inhabitants. The "P. Free Press" (dem.), is published weekly. Paw Paw sta. is 4 m. S. E. of the v. on the Michigan Central R. R.

PAW PAW, p. v. and sta., Morgan co., *Virg.*: 146 m. N. N. W. Richmond. It is 15 m. E. of Cumberland on the Baltimore and Ohio R. R.

PAW PAW GROVE, p. o., Lee co., *Ill.*: 138 m. N. by E. Springfield.

PAWTUCKET, t. and sta., Bristol co., *Mass.*: on Pawtucket r., 37 m. S. S. W. Boston, and 4 m. N. by E. Providence, on Boston and Providence R. R. This small t. embraces part of the v. of Pawtucket, and is noted for its factories of cotton and woollen goods. Pop. of t. in 1830, 1,459; in 1840, 2,184; in 1850, 3,753.

PAWTUCKET, p. v. and sta., Providence county, *R. I.*: on Pawtucket r., 4 m. N. Providence, on Worcester and Providence R. R. This large and flourishing v. is located on both sides of the r., which here furnishes great water-power. The first manufacture of cotton goods in this country by water-power machinery was commenced here in 1790, by Mr. Samuel Slater, an Englishman. The present factories are for the most part engaged in making cotton goods. There are 7 churches, 8 banks, 12 cotton factories, etc. The

"Gazette and Chronicle" (miscel.) is issued weekly. Pop. 7,000.

PAWTUCKET, river, *R. I.*: This important river above Pawtucket v., in Mass., is called Blackstone r. (which see), and below the falls takes the name of Seehonk r. At the v. it has a descent of 50 feet, affording great water-power. Below the falls it is navigable 4 m. to its entrance into Providence r. below Providence.

PAWTUXET, p. v., Kent co., *R. I.*: on Pawtuxet r., near its mouth, 3 m. S. Providence. The harbor is spacious, safe, and convenient. The v. is upon both sides of the r. and crossed by a bridge. The great water-power here afforded is improved by extensive factories of cotton and woollen goods, grist-mills, etc. Pop. about 1,500.

PAWTUXET, p. o., Wakulla co., *Flor.*: 23 m. S. by W. Tallahassee.

PAWTUXET, river, *R. I.*: rises in W. part of Providence co., flows E. S. E. until it receives its principal branch in Warwick t.; thence E. N. E., and enters Providence bay 8 m. below Providence. It affords great water-power, used by numerous factories, particularly those of cotton goods.

PAXINOS, t. and p. o., Northumberland co., *Penn.* Here are a furnace of 1,100 tons capacity, and a forge producing 250 tons of blooms per annum, both using water-power. Soil fertile. It contains good farms and pastures, and is well wooded. Pop. 890.

PAXTON, t. and p. v., Worcester county, *Mass.*: 47 m. W. Boston. Surface very high, dividing the streams of the Connecticut and the Merrimac, and much broken.

PAY DOWN, p. o., Osage co., *Mo.*

PAYNESVILLE, p. v., Pike co., *Mo.*: about 6 m. W. of the Mississippi, 79 m. N. E. by E. Jefferson City.

PAYNEVILLE, p. v., Sumter co., *Ala.*: 113 m. W. by N. Montgomery.

PAYSON, p. v., Adams county, *Ill.*: about 6 m. E. of the Mississippi, 84 m. W. Springfield.

PEACE DALE, p. v., Washington co., *R. I.*: 26 m. S. by W. Providence.

PEACHAM, t. and p. v., Caledonia county, *Verm.*: 21 m. E. by N. Montpelier. Onion r. rises in a pond in the W., and small streams afford water-power. Surface slightly uneven; soil fertile. Limestone is found, and in the E. great quantities of marl. A superior farming t. The v. contains a large academy. Pop. 1,377.

PEACH BOTTOM, t. and p. v., York co., *Penn.*: on the S. line of the State, and W. side of Susquehanna r., 44 m. S. E. Harrisburg. Bounded N. by Muddy cr., by branches of which it is drained. Surface level; soil gravelly and generally fertile. The Susquehanna or Tide-Water Canal passes along the r., on which is the v. containing a factory and several stores and mills.

PEACH BOTTOM, p. o., Grayson co., *Virg.*: on a W. branch of New r., 211 m. W. S. W. Richmond.

PEACH CREEK, p. o., Panola co., *Miss.*: 129 m. N. by E. Jackson.

PEACH GROVE, p. o., Fairfax county, *Virg.*: 93 m. N. Richmond.

PEACH ORCHARD, p. o., Lawrence co., *Ky.*: 117 m. E. Frankfort.

PEACH TREE, p. o., Cherokee co., *N. Car.*: on the N. side of Hiwassee r., 304 m. W. by S. Raleigh.

PEACH TREE GROVE, p. o., Nash county, *N. Car.*: 37 m. E. by N. Raleigh.

PEAKE'S, sta., Hanover co., *Virg.*: 15 m. N. of Richmond, on the Virginia Central R. R.

PEAKSVILLE, p. v., Bedford co., *Virg.*: 93 m. W. by S. Richmond.

PEALEE'S, p. o., Columbia county, *Penn.*: 65 m. N. N. E. Harrisburg.

PEAPACK, p. v., Somerset co., *N. Jer.*: on Peapack river, 85 m. N. by E. Trenton.

PEA RIDGE, p. o., Union district, *S. Car.*: 65 m. N. W. Columbia.

PEA RIDGE, p. o., Montgomery county, *Tenn.*: 34 m. W. N. W. Nashville.

PEA RIDGE, p. o., Benton co., *Ark.*: 153 m. N. W. Little Rock.

PEA RIDGE, p. o., Pike co., *Ala.*: on the E. side of the r. so called, 59 m. S. E. Montgomery.

PEARL river, *Miss.*: is formed from several branches near the centre of *Miss.*, runs S. W., until below Jackson it bends, and thence flows S. by E. to the Gulf of Mexico. From lat. 31° N. it forms the dividing line between *Ala.* and *La.* The navigation is obstructed by sand-bars, shallows, etc., but admits small vessels to Jackson. For statistics of Pearl river collection district, see SHIELDSBORO', its port of entry.

PEARLINGTON, p. o., Hancock co., *Miss.*: on Pearl river, about 10 m. above its mouth, 141 m. S. by E. Jackson.

PEARL VALLEY, p. o., Neshoba co., *Miss.*: about 3 m. N. of Pearl r., 69 m. N. E. by E. Jackson.

PEA YINE, p. o., Walker county, *Ga.*: 151 m. N. W. Milledgeville.

PECAN GROVE, p. o., Carroll par., *La.*: 145 m. N. Baton Rouge.

PECAN POINT, p. o., Mississippi co., *Ark.*: on the Mississippi, 141 m. E. N. E. Little Rock.

PECK'S RUN, p. o., Barbour co., *Virg.*: 109 m. N. W. by W. Richmond.

PECKSVILLE, p. v., Duchess co., *N. Y.*: 79 m. S. Albany.

PECONIC bays, *N. Y.*: lie at the E. end of Long Island, dividing it into two peninsulas. Great Peconic bay is separated from Gardiner's bay on its E. by Shelter island, and is a large body of water, 14 m. long by 4 to 5 m. wide. It is separated from Southold harbor by Little Hog Neck, and contains Robbins' island, E. of its centre. Little Peconic bay is its more western portion, extending inland 4 or 5 m., and receives from that Peconic r., which is navigable for sloops to Riverhead.

PECOS river, *N. Mex.*: the main N. tributary of the Rio Grande; rises in the table-lands E. of Santa Fé, and flows in a S. S. E. course through the valley between the Guadalupe Mountains and Sierra Blanca 500 m., to its confluence with the Rio Grande.

PEDEE, p. v., Cedar co., *Ia.*: 17 m. E. Iowa City.

PEDEE rivers, Great and Little, *S. Car.*: Great Pedee r. rises in the N. W. part of *N. Car.*, and is called Yadkin r. until it enters *S. Car.*, through which it flows, in a S. S. E. course, into Winyaw bay, an inlet from the Atlantic. It is navigable 200 m. for boats of 60 or 70 tons. Little Pedee r. rises in S. E. part of *N. Car.*, and flows in a southerly course to its confluence with the Great Pedee r., 32 m. above its mouth.

PEDLAR'S HILL, p. o., Chatham co., *N. Car.*: 36 m. W. Raleigh.

PEDLAR'S MILL, p. o., Amherst co., *Virg.*: on a N. branch of James r., 94 m. W. Richmond.

PEDRICKTOWN, p. v., Salem co., *N. Jer.*: on Oldman's cr., 2 m. E. of the Delaware, 46 m. S. W. Trenton.

PEEDEE, p. o., Anson co., *N. Car.*: 83 m. S. W. Raleigh.

PEEKSKILL, p. v. and sta., Westchester co., *N. Y.*: on the E. side of Hudson r., 43 m. N. of New York, and 101 m. S. of Albany by the Hudson River R. R. It is pleasantly situated, contains 8 churches, an incorporated academy, 6 large iron foundries, casting chiefly stoves and agricultural implements, several tanneries, etc., and one bank, capital \$200,000. A large business is done by barges, sloops, etc., in conveying to the New York markets live-stock and vegetable produce here collected from the fertile agricultural district surrounding it. A steam ferry-boat plies across the Hudson to Caldwell's Landing. The "P. Republican" (whig) is issued weekly. This place is invested with interest from its connection with the Revolution. Pop. about 8,000.

PEELED OAK, p. o., Bath co., *Ky.*: 61 m. E. Frankfort.

PEEL TREE, p. o., Harrison co., *Virg.*: 201 m. N. W. by W. Richmond.

PEERY'S STORE, p. o., Tazewell co., *Virg.*: 241 m. W. by S. Richmond.

PERCEVILLE, p. v., Dane county, *Wis.*: 13 m. E. N. E. Madison.

PEKATONICA river, *Wis.* and *Ill.*: rises in Iowa co., *Wis.*, and flows S. and E. into Rock r., in *Ill.*, 6 m. below its N. boundary. Near its mouth it receives from the N. Sugar cr., a considerable branch. It is navigable for flat boats to Mineral Point, *Wis.*

PEKIN, p. v., Tazewell co., *Ill.*: on the left bank of the Illinois, 54 m. N. Springfield. It is 152 m. from the mouth of the r., and largely engaged in shipping the agricultural products of an extensive and fertile district for the E. and S. markets. Though commerce is the leading interest, its manufactures are rapidly increasing, and must soon be of great importance. It contains an academy, several steam flouring and saw mills, about 40 stores and warehouses, and 2,500 inhabitants. Two weekly newspapers, the "Tazewell Mirror" (whig), and "Illinois Reveille" (dem.), are published here.

PEKIN, p. v. and sta., Niagara co., *N. Y.*: on the Rochester, Lockport, and Niagara Falls R. R., 10 m. W. of Lockport, 259 m. W. by N. Albany.

PEKIN, p. o., Jessamine co., *Ky.*: 26 m. S. E. Frankfort.

PEKIN, p. v., Carroll co., *Ohio*: on Sandy cr. and the Sandusky and Beaver Canal, 107 m. E. N. E. Columbus.

PEKIN, p. o., Jackson co., *Tenn.*: 57 m. E. Nashville.

PEKIN, p. v. and sta., Washington co., *Ind.*: on Lick cr. of Great Blue r., 51 m. S. Indianapolis. It is 24 m. N. of New Albany, on the New Albany and Salem R. R.

PELHAM, t. and p. o., Westchester co., *N. Y.*: on Long Island Sound, 121 m. S. Albany. Drained by Eastchester cr., flowing into Eastchester bay. Surface mostly level; soil sandy, but well tilled. The New York and New Haven R. E. crosses the N. part. Pop. 577.

PELHAM, t. and p. v., Hampshire co., *Mass.*: 73 m. W. of Boston. Drained by Swift and Fort rivers, which furnish mill-sites. Surface high and uneven; soil of average quality. Asbestos is found, and springs containing iron and sulphur. Building stone is abundant. Pop. of t. 953.

PELHAM, t. and p. o., Hillsboro' county, *N. Hamp.*: 38 m. S. S. E. Concord. Drained by Beaver r., an affluent of the Merrimac. Surface broken; soil fertile on the streams. Farming and grazing are the chief occupations. Population of t. 1,671.

PELHAM, p. o., Grundy co., *Tenn.*: 76 m. S. E. Nashville.

PELLA, p. v., Marion co., *Ind.*: on a fine upland, equi-distant from the Des Moines and Skunk rivers, 72 m. W. by S. Iowa City. A colony of Hollanders, under President Schauler, has settled here.

PELTONVILLE, p. v., Steuben co., *N. Y.*: about 2 m. W. of Crooked lake, 151 m. W. Albany.

PEMADUMCOOK lake, *Me.*: lying in the E. part of Piscataquis co., is a large body of water, of irregular shape, surrounded by some of the best timber-land in the State, and affords excellent transportation for the lumber, etc.

PEMAQUID, p. o., Lincoln co., *Me.*: near the Atlantic coast, 36 m. S. S. E. Augusta.

PEMBERTON, t. and p. v., Burlington co., *N. Jer.*: 17 m. S. S. E. Trenton. Drained by branches of Rancocus cr., which furnish water-power. Surface mostly level; soil sandy loam of good quality. The v. is on the N. branch of the cr., and contains a furnace, cotton factory, several mills and stores, and about 800 inhabitants. Pop. of t. 2,566.

PEMBERTON, p. v., Goochland co., *Virg.*: 27 m. W. N. W. Richmond.

PENBINA county, *Minn. Ter.* Situate N., and contains 45,000 sq. m. This large county lies between lat. 47° and 49°, and extends from the Missouri and White Earth rivers on the W. to the Mississippi, which in part forms its E. boundary. The sources of the Mississippi occupy the E. section of the county, and consist of a series of lakes, large and small, which are spread over thousands of square miles. Westward of this is the height of land dividing the waters

of the Mississippi flowing S. from those of the Red r. of the N., the latter of which passes through the county from the S., and falls into Lake Winnipeg above the national boundary. The extreme W. is drained by numerous affluents of the Missouri. Little is known of this far northern region, except of the immediate banks of the Red River, where, at Pembina, are located the followers of Lord Selkirk. The county is well wooded, and the soils, where settlement has been made, are found to be very fertile, but the short summers and long winters must ever prevent the dense population of the country, so long as there is room to spare in the milder climates and fine lands of the more general South. Farms 17; manuf. 0; dwell. 188, and pop.—wh. 1,134, fr. col. 0—total 1,134. *Capital*: Pembina.

PENBINA, p. v., and cap. Pembina co., *Minn. Ter.*: on E. bank of Red r. of the N., at the N. boundary line of the State, 334 m. N. N. W. St. Paul. This settlement contains upward of 1,000 population, principally persons of mixed Indian and white blood, who subsist chiefly by agriculture and hunting. There is a Catholic church in which to accommodate the varied population; sermons are preached in English, French, and Chippeway.

PENBROKE, t. and p. o., Christian co., *Ky.*: 166 m. S. W. by W. Frankfort.

PENBROKE, t. and p. v., Washington co., *Me.*: on the N. side Cobscook bay, 136 miles E. by N. Augusta. Surface varied; soil fertile and well tilled. The coasting-trade and fisheries are leading interests. Pop. of t. 1,712.

PENBROKE, t. and p. v., Plymouth county, *Mass.*: 24 m. S. S. E. Boston. Drained by branches of North r., which afford good power. The r. is deep, and navigable into the t., and ship-building is carried on extensively along its course. In the S. are several ponds. Cotton goods, iron castings, cabinet-ware, etc., are manufactured. The v. contains an academy. Pop. of t. 1,358.

PENBROKE, t. and p. v., Merrimac co., *N. Hamp.*: 7 m. S. E. Concord. Bounded W. by the Merrimac, and S. by the Suncook, which supply water-power. Surface pleasantly diversified; soils various, mostly fertile, and on the rivers very rich. The Portsmouth and Concord R. R. passes along the Merrimac. The v. extends about 3 m. parallel to that r., and contains a large and flourishing academy. Pop. of t. 1,732.

PENBROKE, t. and p. v., Genesee county, *N. Y.*: 228 m. W. by N. Albany. Drained by Tonawanda cr., which has several falls. Surface even or undulating; soil clayey loam, and very productive of wheat. The Canandaigua and Niagara Falls R. R. and Buffalo and Rochester R. R. cross the t.; on the latter is P. sta., 11 m. W. of Batavia. The v. on the creek contains a furnace and several mills. Population of t. 2,279.

PENBROKE, p. o., Giles county, *Virg.*: 168 m. W. by S. Richmond.

PENGEVASSSETT river, *N. Hamp.*: the principal constituent stream of Merrimac r., rises in the White Mountains, E. of Franconia, and flows in general S. course to its junction in Franklin t. with Winnipiseogee r., there forming the Merrimac river.

PENISCOOT county, *Mo.* Situate S. E., and contains about 300 sq. m. Drained by White Water r. and its branches in the N. W. portion. Surface low and level; a large portion is swampy, and unfit for cultivation; soil is fertile where cultivated, and adapted to grain. It produces abundantly wheat, corn, fruits, etc., and has some good timber land. It contains some minerals and good coal-beds. In the S. W. is Lake Pemisicot, occupying a large portion of the co. The Mississippi bounds it on the E. A new county since 1850. *Capital*: Little Prairie.

PENATAQUIT, p. o., Suffolk co., *N. Y.*

PENCADER, hund., New Castle co., *Del.*: on the W. line of the State, and contains 29,250 acres. Surface elevated and uneven; soil clayey, in parts marshy, and moderately productive. The Philadelphia, Wilmington, and Baltimore

R. R., the New Castle and Frenchtown R. R., and the Chesapeake and Delaware Canal pass through it.

PENDARVIS' STORE, p. o., Wayne co., *Ga.*: 145 m. S. E. by S. Milledgeville.

PENDLETON county, *Ky.* Situate N., and contains 286 sq. m. Drained by Licking r. and its branches, Grassy, Kincaid's, and Fort Lick creeks. Surface generally level, but in the N. E. rather hilly, and presenting high bluffs to the r. shore; soil fertile and productive, and there is some good grazing land. Staples, Indian corn and tobacco. Farms 606; manuf. 7; dwell. 1,057, and pop.—wh. 6,230, fr. col. 35, sl. 509—total 6,774. *Capital*: Falmouth. *Public Works*: Covington and Lexington R. R.; Covington and Maysville R. R.

PENDLETON county, *Virg.* Situate N. centrally, and contains 612 sq. m. Drained by S. branch of Potomac r., which traverses its central portion. Surface mountainous and rough, the co. being an elevated table-land lying between two ridges of the Alleghany Mountains; soil barren in general. Chief production, Indian corn. Farms 693; manuf. 56; dwell. 891, and pop.—wh. 5,443, fr. col. 30, sl. 322—total 5,775. *Capital*: Franklin.

PENDLETON, p. v. and sta., Madison co., *Ind.*: on Fall cr., 25 m. N. E. by E. Indianapolis. It is 28 m. from Indianapolis by the Indianapolis and Bellefontaine R. R., and has good water-power on the cr. It contains several stores and mills, and 600 or 800 inhabitants. There are quarries of limestone and marble near it.

PENDLETON, t. and p. v., Niagara county, *N. Y.*: 252 m. W. by N. Albany. Drained by affluents of Tonawanda cr., its S. boundary. Surface undulating; soil fertile calcareous loam. It contains a noted sulphur spring. The Canandaigua and Niagara Falls R. R. crosses the S. part. The Erie Canal also passes through it, on which is the v., 7 m. S. W. of Lockport, 24 m. N. E. of Buffalo. Pop. of t. 2,166.

PENDLETON, p. o., Putnam county, *Ohio*: 95 m. N. W. Columbus.

PENDLETON, p. v., Anderson dist., *S. Car.*: on Eighteen Mile cr., an affluent of Savannah r., 121 m. W. N. W. Columbia. It contains 2 academies, a dozen stores, and about 700 inhabitants. The "P. Messenger," a weekly issue, is published. The proposed route of the Rabun Gap R. R. passes through it.

PENDLETON river, *Ga.*: rises in Lawrence county and flows S. E. into Tatnall county, there joining the Great Ohoopce r.

PENDLETON CENTRE, p. v., Niagara co., *N. Y.*: 254 m. W. by N. Albany.

PENDLETON HILL, p. o., New London co., *Conn.*: 26 m. S. E. Hartford.

PENFIELD, p. v., Greene co., *Ga.*: 41 m. N. Milledgeville. It has a pleasant location, is well laid out and neatly built, and the seat of a college and theological seminary under the direction of the Baptists. Mercer University was founded in 1838, and in 1850 had 7 instructors, 32 alumni (of whom 10 were ministers), 71 students, and a library of 3,400 volumes. Mercer Theological Seminary, founded in 1844,

had in 1850, 2 professors, 6 students, 3 graduates, and 2,200 volumes in its library. Pop. about 800.

PENFIELD, p. v., Kane co., *Ill.*: on the right bank of Fox r., at the entrance of Big Rock cr., 142 m. N. N. E. Springfield.

PENFIELD, t. and p. v., Monroe county, *N. Y.*: 157 m. W. by N. Albany. Drained by Irondequoit cr., emptying into Irondequoit bay, its W. boundary. Surface undulating; soil loam, mixed with sand, gravel, or clay. Limestone is plenty, and wheat the chief product. The v. is on the creek, and contains an academy, several factories, and flouring and other mills, and a population of 800. Population of t. 3,155.

PENFIELD, t. and p. o., Lorain co., *Ohio*: 94 m. N. N. E. Columbus. Drained by E. branch of Black r. Pop. 672.

PENINSULA, p. v., Summit co., *Ohio*: on Cuyahoga r. and the Ohio Canal, 24 m. S. Cleveland, 113 m. N. E. Columbus.

PENN DISTRICT, t., Philadelphia co., *Penn.* See PHILADELPHIA.

PENNEY'S, p. o., Randolph co., *Mo.*: 65 m. N. by W. Jefferson City.

PENNFIELD, p. o., Davidson co., *N. Car.*: 93 m. W. Raleigh.

PENNFIELD, t. and p. o., Calhoun co., *Mich.*: 41 m. S. W. Lansing. Drained by Battle cr., a N. branch of the Kalamazoo, on which are numerous water privileges. Surface rolling; soil very productive of grain. Pop. 598.

PENNINGTON, p. v., Mercer co., *N. Jer.*: 8 m. N. by W. Trenton. It contains an academy and 8 or 10 stores.

PENNINGTONVILLE, p. v. and sta., Chester co., *Penn.*: on the Columbia and Philadelphia R. R., 43 m. W. of Philadelphia, 52 m. E. S. E. Harrisburg. Near the v. is a furnace of 1,200 tons annual capacity, and a forge producing 350 tons of blooms per annum. It contains several stores about 40 dwellings.

PENN LINE, p. o., Crawford co., *Penn.*: near the W. line of the State, 208 m. N. W. by W. Harrisburg.

PENN RUN, p. o., Indiana co., *Penn.*: 113 m. W. N. W. Harrisburg.

PENNSBOROUGH, p. v., Ritchie county, *Virg.*: 232 miles N. W. by N. Richmond.

PENNSBOROUGH, p. o., Irwin co., *Ga.*: 112 m. S. by W. Milledgeville.

PENNSBURG, p. o., Montgomery county, *Penn.*: 75 m. E. Harrisburg.

PENN'S SQUARE, p. o., Montgomery co., *Penn.*

PENN'S STORE, p. o., Patrick co., *Virg.*: on North Mayo r., 152 m. W. S. W. Richmond.

PENNSVILLE, p. v., Morgan co., *Ohio*: about 3 m. W. of Muskingum r., 64 m. E. S. E. Columbus.

PENNSVILLE, p. v., Fayette co., *Penn.*: 137 m. W. by S. Harrisburg.

THE STATE OF PENNSYLVANIA.

PENNSYLVANIA, from her central position, her natural resources, and her grand system of transit lines, one of the most important States of the Union, lies in the form of a parallelogram, between 39° 43' (Mason and Dixon's line) and 42° latitudes N., and extends from 74° 40' to 80° 36' longitudes W. from Greenwich, or 2° 22' E. and 3° 35' W. from Washington. It is bounded on the north by Lake Erie and the State of New York; on the east by New Jersey, from which the Delaware River separates it; on the south by Delaware, Maryland, and Virginia; and on the west by Virginia and Ohio. With a length from east to west of 315 miles, and a breadth, exclusive of the strip of land jutting toward Lake Erie, of 160 miles, its area covers a surface of 46,000 square miles.

Pennsylvania, with the exception of Virginia, is the only State which stretches quite across the great Appalachian system of mountains, and is thus naturally divided into three strikingly distinct regions—the eastern or Atlantic slope, the central or mountain region, and the western, or Ohio and Erie table-land.

The principal mountain chains definitely traceable in this State are as follows:

1. The South Mountain enters it from New Jersey, between Northampton and Bucks counties, and after being inter-

PENNSYLVANIA.

rupted by the Schuylkill above Pottstown, and by the Susquehanna near the southern border of the State, it passes into Maryland.

2. The Blue Ridge enters Pennsylvania below Easton, where it is pierced by the Delaware; pursuing a south-westerly direction, it is interrupted by the Schuylkill at Reading, by the Susquehanna below Harrisburg, and passes out of the State between Adams and Franklin counties. The elevation of the former ridge nowhere exceeds 1,000 feet, and that of the latter is somewhat more elevated.

3. The Blue Mountain, or Kittatinny, also enters this State from New Jersey, and is broken by the Delaware at Water Gap, further west by a pass called the Wind Gap, by the Lehigh, by the Schuylkill above Harrisburg, and by the Susquehanna five miles above Harrisburg. It then passes between Franklin and Bedford counties into Maryland. Its elevation in Pennsylvania varies from 800 to 1,500 feet above the sea level. Between the Kittatinny Mountain and the north branch of the Susquehanna River, a distance of about 85 miles, is the great anthracite coal region.

4. The Broad Mountain, which lies in the intervening space between the Kittatinny Mountain and Susquehanna, forms a less continuous but more elevated chain than the last mentioned. It is continued south-west of the Susquehanna by the Tuscarora Mountains, which are pierced by the Juniata between Mifflin and Perry counties, and passes into Maryland a little west of the Kittatinny chain.

5. Sideling Hill forms a well-defined ridge from the Maryland line to the Juniata, on the south-west corner of Mifflin County.

6. The next well-defined chain is the Alleghany Mountain, which forms the dividing ridge between the Atlantic basin and the Valley of the Ohio. It is therefore the height of land between those two basins, although its summits do not rise to so great an elevation above its base as do those of Broad Mountain above the base of that chain. The Alleghany rises in Bradford County, is pierced by the north branch of the Susquehanna below Towanda, traverses Lycoming County, where it crosses the west branch of the Susquehanna, and pursuing a southerly course, separates Huntingdon and Bedford from Cambria and Somerset counties.

Westward of the Alleghany chain, and on the Ohio table-land, two well-defined chains cross the State from north to south, in a direction nearly parallel to that of the first-mentioned, under the names of (7) the Laurel Ridge, about twenty-five miles west of the Alleghanies; and (8) Chesnut Ridge, ten miles farther west. Neither of these chains is very elevated.

Though in some places rude and rocky, many of these mountain ranges consist of gradually rising swells, cultivated to the summits, and the whole mountain region is interspersed with highly beautiful and productive valleys, some of which are of considerable extent and under an excellent system of cultivation. The eastern and western parts of the State are generally level, or agreeably diversified with hills and vales.

Every part of Pennsylvania is well watered, and abounds in rivers, streams, rivulets, and brooks; but some of the rivers are so much obstructed that they serve rather as canal feeders than as navigable channels.

The Delaware, that rises in the Kaatskill Mountains in New York, and bathes the eastern border, may yet be considered as belonging to Pennsylvania, from which it receives its principal tributaries. Pursuing a southerly course, and piercing the Kittatinny and Blue Ridge, the Delaware meets the tide 130 miles from the sea at Trenton, to which place it is accessible for sloops; and above that point the navigation is impeded by a fall and shoals. Large ships ascend to Philadelphia, about 40 miles below which it expands into a broad bay. Its whole course is about 320 miles in length. The numerous canals connected with various points of the coal region, and uniting its waters with those of the Hudson, the Raritan, and Chesapeake, have greatly increased its importance as a channel of trade. Its principal tributaries in Pennsylvania are the Lackawaxen, the Lehigh, and the Schuylkill, which rise in the anthracite region. The Schuylkill has a course of about 130 miles, and is navigable for vessels of above 300 tons to Philadelphia, six miles below which it falls into the Delaware.

The Susquehanna is the principal river of Pennsylvania in point of size, but it is so much broken in its course by rapids and bars as to afford little advantage to navigation without artificial aid. It rises in Otsego Lake, in the State of New York, and flowing in a circuitous but general southerly direction, nearly parallel with the Delaware, it reaches the Chesapeake 400 miles from its source. Its principal tributaries are all from the right—they are the Unadilla and Chenango, in New York; and the Tioga or Chemung, the West Branch, and the Juniata, in Pennsylvania. The most considerable from the west are the Lackawannock, Swatara, and Conestoga. The channels of the Susquehanna are so winding and broken that even the descending navigation is extremely difficult and dangerous, and practicable only at certain seasons in particular stages of the waters, and its tributaries partake of the same character. The Juniata rises in the Alleghany ridge, but the West Branch rises in numerous streams from the Laurel Hill, and pierces the Alleghany above Dunstown.

The great rivers of Western Pennsylvania are tributaries, or, rather, constituents of the Ohio. The Alleghany, rising in the north-western slope of the same range, with some of the remote sources of the West Branch, flows first north into New York, and then south to its junction with the Monongahela. It is navigable to Olean, in New York, 240 miles from its mouth, and to Waterford, on French Creek, its principal tributary, 14 miles from Lake Erie. The Kiskimintas, or Conemaugh, the principal tributary to the east, rises in the western declivity of the Alleghany Mountains, near the head waters of the Juniata, and pierces the Laurel and Chestnut ridges. The other constituent branch of the Ohio is the Monongahela, which descends from the Alleghany range in Virginia, and before its junction with the Alleghany receives the Youghiogeny, a large stream from Maryland. Both of these rivers afford boat navigation for a considerable distance. The Big Beaver is the only large tributary of the Ohio within this State, and is navigable for some distance above the falls near its mouth. After the junction of the Alleghany and Monongahela, the Ohio has a short part of its course on the borders of Pennsylvania.

Pennsylvania, skirting on Lake Erie, has a coast of about 80 miles in length. Seaward, the State has no coast, but its noble river, the Delaware, is easily accessible, and furnishes harbors of the greatest importance. Westward of the mountains, its rivers open a highway toward the Great West, and ultimately to the Gulf of Mexico. And both systems of rivers and outlets are so connected by vast internal improvements as to create continuous lines of communication, which not only permit of a free passage through the State, but bring to a focus all its most distant parts.

The numerous geological formations which are observable throughout Pennsylvania, are generally composed of successive strata or layers of rock, based one upon another, from the lowest primary in the series up to the highest rocks containing the anthracite and bituminous coal. The rocks which contain these stratifications are the highest in the regular ascending order found in the State. If rocks of a more recent formation than the coal are found anywhere in the State,

PENNSYLVANIA.

their area is of a very limited character, and they must, in all probability, have been deposited since the formation of that vast system of lower secondary strata which occupies so large a portion of the territory. In traveling through this State, the attention of the most casual observer can not fail to be attracted by the course or range of the various groups and beds of rocks, which run in nearly a north-east and south-west direction, in many places forming a curvature of considerable magnitude, and at the same time corresponding with the mountain ridges which traverse the State. The position of these strata is not in all places the same, their inclination or dip verging in every degree of slope, from horizontal to perpendicular.

The rocks of the secondary series, being sedimentary, present a beautiful stratified appearance, and, as a matter of course, are composed of a succession of water deposits, indicating to us that they must have originally lain in a horizontal position. The different rock belonging to the primary stratified class chiefly consist of gneiss, mica, slate, tale-slate, and their subordinate varieties. These occupy the south-eastern portion of Pennsylvania, including a part of Chester, Lancaster, York, Montgomery, Bucks, and Delaware, and the whole of Philadelphia County. There are, however, unstratified rocks of a crystalline structure, comprising granite, sienite, etc., discovered in small local and irregular veins, generally in the southernmost portion of the primary range. This range of rocks extends from Trenton, on the Delaware, downward to the very southern boundary of the State. It also runs westwardly to the south-eastern part of Adams county. The crystalline limestone of Chester and Montgomery counties, which sometimes forms good marble, is found above this triangular belt as we proceed north; and in some places north of this limestone, gneiss, with talc and mica-slate, have been discovered.

Continuing northward, we come to the red sandstone formation, which stretches across the State from the Delaware above Trenton to the Maryland line. This formation extends through Bucks, Dauphin, Chester, Montgomery, Berks, Lancaster, York, and Adams counties. Some geologists have classed this group with the middle secondary period. Be this, however, as it may, one thing is certain—it presents a remarkable uniformity with respect to its material and appearance throughout its whole range. It is composed of dark, reddish brown, argillaceous sandstone, soft, crumbling, red and brown shales, with now and then bands of conglomerate. The dip of the strata is almost invariably to the northward, descending at an angle of from 12 to 25 degrees. The conglomerates which this group contains are principally discovered in the under strata, near the southern formation of the margin, or along its northern border in the highest. In both cases, where the red sandstone overlies the older limestone in the vicinity, it is frequently that a large portion, if not the whole, of the imbedded pebbles, consists of rounded fragments of variously colored limestone. The paste which cements them together is so highly calcareous that the whole mass can be easily burned and converted into tolerably good lime. Portions of this conglomerate, were they to undergo a polishing process, would make a beautiful variegated marble of the breccia species. The marble from which the representative chamber of the Capitol, at Washington, is made, and which was quarried on the Potomac, is of this character, and belongs to this formation. It is observable at several points in the northern border of the red sandstone, in the upper part of Bucks and the southern parts of Berks, but more especially near the Schuylkill, two or three miles below Reading. It is also found in several other places, but in less quantity. Numerous hills and dykes of trap rock, or greenstone, which sometimes form hills of considerable height, traverse the red sandstone formation in the same direction as the other ranges of the State. Generally this rock assumes a dark-gray color, with some shade of green crystalline in its structure, being chiefly composed of hornblende and feldspar, quite closely mixed. Although this rock is exceedingly tough and very difficult to break, yet it is frequently used as a material for buildings; but in consequence of its being scattered over the surface in irregular masses of all sizes, it is seldom quarried for that purpose. It is very evident that this rock is of an igneous origin; and having been brought to the surface in a state of fusion, by an upheaval through the dislocated beds of red sandstone, in a highly heated state, it has transformed the texture and color of the shale and sandstone in the neighborhood, turning them into a baked, hard, blue rock, entirely different from their original character. In a number of the ridges which cross the upper parts of Bucks and Montgomery counties, this rock only is visible, the trap having never reached the surface; but the heat, however, from beneath has been so intense as to change the color and texture of the shales and sandstone above. The soil where this rock is generally found is of a cold, clayey character, and but little esteemed for agricultural purposes, while the unaltered soil of the shale and sandstone is exceedingly productive.

Another belt of primary rocks, which forms a chain of hills stretching south-west across Northampton, Lehigh, Bucks, Lancaster, York, Cumberland, Adams, and Franklin counties to the Maryland line, is found on the Delaware, below Easton, north of the middle secondary sandstone. This irregular range is generally called the South Mountain, and though frequently interrupted, is nearly continuous across the State. Continuing south-west along this ridge, the primary rocks disappear as we approach the Schuylkill, and although they are seen occasionally west of that even, they are invariably covered throughout the remainder of the range by overlying rocks of the secondary series.

The mineral wealth of Pennsylvania consists chiefly in its vast deposits of coal and iron. The coal is of two distinct varieties, viz., anthracite, anasphaltic or non-bituminous, and bituminous.

The anthracite of Pennsylvania is found in the Wyoming and Lackawanna valleys, situated between the Blue Ridge and the Susquehanna. The coal district is chiefly occupied by mountains which run parallel to the Blue Ridge, and are 1,500 feet high. But little of this surface, with the exception of a few narrow valleys, invites cultivation. These mountains are chiefly in a wild state, and offer a secure retreat to cougars, wolves, bears, and other animals.

The rocks of the above described region are of a transition class, and present little diversity. Graywacke slate occurs in abundance, loose on the surface and in ledges. It is sometimes based on old red sandstone, and surmounted by unstratified rocks, an aggregate of quartz, pebbles of various dimensions, with a cement usually silicious. In the Blue Ridge, in addition, a silicious graywacke, resembling fine-grained granular quartz, is common. It appears in some places massive, but is often slaty. Its cement is chiefly silicious; some alumine, however, is indicated in its composition. The beds and veins of anthracite range from north-east to south-west, and may often be traced for a considerable distance by the compass. The veins have the inclination of the adjacent strata of graywacke, with which they are often alternate, usually between 20° to 45°. In a few places they are horizontal and vertical. The beds and veins of anthracite have narrow strata of dark colored, fine grained, argillaceous schist for the roof and floor. This slate generally contains sulphuretted iron, and disintegrates on exposure to the atmosphere. The sulphates of iron and alumine are often observed in the schist, and it frequently presents impressions of plants, and sometimes of maritime shells. Impure pulverulent coal is usually connected with this slate, and is said to be a good material for printers ink.

Anthracite has been found in the greatest quantity in sections of coal regions most accessible by water. Extensive beds and veins range from the Lehigh to the Susquehanna, crossing the head waters of the Schuylkill and Swatara about 10

PENNSYLVANIA.

miles north-west of the Blue Ridge, and it abounds contiguous to the Susquehanna and Lackawanna. But in no part of the district does anthracite occur in such apparently inexhaustible beds, or is so abundantly raised, as in the vicinity of Mauch Chunk, a village situated on the Lehigh, 35 miles from Easton, and 108 miles by water from Philadelphia. The coal is there excavated on the flat summit of a mountain that rises nearly 1,500 feet above the ocean. It is of good quality, and presents beds of unparallelled extent, is disclosed for several miles on the summit, and is indicated in many places by a coal slate in a pulverulent state on the surface. The mountain rises with a steep acclivity, particularly on the north-west side, and when penetrated at various altitudes, discloses coal at about the same distance from the surface. Strata of graywacke slate, containing mica, sometimes rest on the coal, parallel with the mountain side. In the deep excavations made on the summit no termination of the coal bed has been found, and it is not improbable that the anthracite forms the nucleus of the mountain for a considerable distance.

This coal mountain range is described as extending in a south-west direction to the Susquehanna. To the north-east, beyond the Lehigh, it is connected with the Broad Mountain, the first considerable elevation west of the Blue Ridge. The Lehigh, from Mauch Chunk to the Water Gap, 11 miles, winds between rocky mountains, with a brisk current, but presents no falls. In its passage through the Kittatinny the river has a tranquil but slightly inclined course. On the adjacent elevation yellow pine, hemlock, and spruce are interspersed with deciduous trees. From the Water Gap to the Delaware the river pursues its course in a deep ravine, seldom with alluvial borders of much extent. In this district of country the soil generally rests on limestone sinks, indicating caves, and fissures in the rocks are often observed that must in some places render canaling difficult. From the confluence of the Lehigh with the Delaware to tidewater the descent is 150 feet.

Next to Mauch Chunk, Mount Carbon, or Pottsville, as it is now called, situated at the head of the Schuylkill Canal, has worked the principal anthracite coal fields. Many large veins are worked within three miles of the landing, and some have been opened seven miles to the north-east, in the direction of the Lehigh beds. On almost every eminence adjacent to Pottsville indications of coal are disclosed. The veins generally run in a north-east direction, with an inclination of about 45°, and are from 3 to 9 feet in thickness; commencing at or near the surface they penetrate to an unknown depth, and can often be traced on hills to a considerable distance by sounding in a north-east or south-west direction. Some veins have been wrought to the depth of 200 feet without the necessity of draining, the inclined slate roof shielding them from water. The coal and slate are raised by horse-power, in wagons, by a railway that has the inclination of the vein.

Table showing the quantity of anthracite coal sent to market annually, from its commencement in 1820:

Years.	Total Lehigh.	Schuylkill.	Little Schuylkill.	Total Schuylkill.	Lackawanna.	Pine Grove.	Lykens Valley.	Shamokin.	Wyoming.	Total Supply
1820	865	—	—	—	—	—	—	—	—	865

* Including 20,000 tons from the Dauphin mine.

PENNSYLVANIA.

The western part of Pennsylvania is abundantly supplied with bituminous coal, as the eastern is with anthracite. It is found in the rivers Conemaugh, Alleghany, and Monongahela, and in numerous places on the west of the Alleghany ridge, which is generally its eastern boundary. It occurs on this mountain at a considerable elevation, and elsewhere in nearly a horizontal position, alternating with gray sandstone that is often micaceous, and bordered by argillaceous schist. The veins are generally narrow, rarely over six feet in width. This mineral is abundant, and of good quality, near Pittsburg, where it is valuable for the extensive manufactures carried on in that place. Beds of bituminous coal are reported as occurring in Bedford County, in the North-west part of Luzerne, and in Bradford County. In the last-named county, nine miles from the Susquehanna, there is an extensive bed of coal regarded as bituminous. It has been penetrated 30 feet without fathoming the depth of the strata. Bituminous coal occurs on the Tioga, and on the Chemung, a branch of that river. It exists also on the numerous streams that descend the Western side of the extensive peninsula situated between the north and west branches of the Susquehanna. The coal of Tioga is nothing inferior to the best Liverpool or Newcastle coal.

According to the statistical tables of C. G. Childs, Pennsylvania contains an area of 46,000 square miles, of which upward of 15,000 square miles, or about one-third part of the State, is coal lands, principally lying above or near the water level. England, Scotland, Wales, and Ireland combined, according to the best authority, contain only 11,000 square miles of coal in an area of 120,000 square miles of territory. This coal, in many cases, lies from 900 to 1,800 feet below the surface of the ground, and is raised by machinery. In relation to the quantity of iron ore, nearly the same relative proportions exist between Great Britain and Pennsylvania. It will thus be seen that in these articles of the first necessity, and indispensable to a state of civilization, Pennsylvania possesses three times as much as all Great Britain. If to the anthracite coal trade of the State the bituminous coal mines in its western part be added (believed to exceed 1,300,000 tons in 1851), the total quantity would be about 6,300,000 tons, worth at tide water \$8 40 per ton, and we have a total of TWENTY MILLIONS OF DOLLARS as the value of the coal trade of the State for the year 1851.

The annexed analysis of the different kinds of coal, analyzed under direction of the Navy Department, will be of value as determining their relative quality:

Descriptions.	Fixed Carbon.	Bituminous or volatile matter.	Cubic feet evaporated per hour.	lbs steam per cubic ft. of coal.
<i>Bituminous:</i>				
Pittsburg	54.98	36.16	10.56	.884
Liverpool	54.90	39.96	13.43	.875
Pictou	60.74	25.97	16.45	.417
Cannelton, Ind.	58.44	33.99	15.05	.813
<i>Semi-bituminous:</i>				
Blossburg	73.11	14.78	13.69	.515
Dauphin	74.24	13.84	13.35	.472
<i>Anthracite or non-bituminous:</i>				
Peach Orchard	89.02	2.96	14.04	.545
Lackawanna	87.74	3.91	11.91	.477
Lehigh	89.15	5.28	11.63	.432

Almost every county in the State contains deposits of iron in one or other of its multifarious forms. It exists in the greatest measure, and in its most valuable ore, in the bituminous coal region, especially in the neighborhood of Pittsburg, where it has been wrought to an immense extent for a number of years past. Pennsylvania, indeed, is said to produce nearly one half of the whole iron manufactured in the United States. The State is also rich in many of the other useful metals. Extensive copper and lead formations have lately been discovered near the Schuylkill, some of the veins of which have already been profitably worked. The copper ore is said to bear a striking resemblance to that of Cornwall and Cuba. The average yield of 20,000 tons has been 20 per cent. of fine copper. The argentiferous lead ore, which is also abounding, has been analyzed, and carries about 75 per cent. of lead, and will yield of silver about \$35 per ton. The Perkiomer mine, which is near the newly discovered veins, has been worked to the depth of 300 feet, and more than a quarter of a mile in length. Already (1851) \$64,000 have been received for ore, and about 400 tons more have been mined. This, with the new veins, gives evidence of a field of mineral wealth which promises to add to the fame of Pennsylvania as the greatest mineral region in the world. Zinc is also a product of the State. Limestone, marbles, granites, etc., with a vast variety of other valuable building materials, alum, and other useful earths, etc., are distributed over the State in an unexampled profusion. Salt is chiefly derived from the springs of the Kiskiminetas, Alleghany, and Beaver rivers. There are also in this State many mineral and saline springs, which have become the centres of summer recreation.

Pennsylvania has a climate intermediate between the extremes of the northern and southern sections of the country. The south-eastern part, in which Philadelphia is situated, has a changeable atmosphere, and the annual extremes are great. Among the mountains and in the northern counties, it is more settled, but much colder, particularly in the winter season. To the west of the Alleghanies the weather is generally milder than to the eastward, owing principally to the prevalence of south-east winds. The annual mean temperatures of Philadelphia and Pittsburg are almost similar, although varied in distribution through the year, from local causes. The temperature of Philadelphia during the year varies from 98° to 60° Fahr., and at Pittsburg the extremes are 94° and 10°. The winters and summers are decidedly marked, but the spring is short, variable, and uncertain. The fall, however, is the pleasantest part of the year, and the weather in that season, though sometimes interrupted by excessive heat, is serene and delightful. The State, on the whole, is considered one of the most salubrious on the continent, and life is of more than average duration. It is also highly favorable for agricultural pursuits.

The great extent of limestone formation in Pennsylvania assures to the soil fertility and productive strength, and though extending over so large a surface, it is, in the main, of excellent quality. The anthracite region, however, which is composed chiefly of a rugged surface, is forbidding and sterile. Many of the mountains admit of cultivation to their summits, and the valleys between them are often of a rich soil, suited to the various kinds of grass and grain. West of the mountains the soil is a deep mold, equal in fertility to the best lands of America. To the east the soil is also excellent, and everywhere is the State abundantly watered by fine streams and rills of living water. The natural growths vary with locality and elevation, but do not differ in their character from those of other portions of the middle Atlantic region. The trees most common in the forests are beech, hemlock, and sugar maple, the oak, hickory, and elm, chestnut, mulberry and locust. The wild plum and crab apple grow in abundance, and grape-vines are common. Every description of

PENNSYLVANIA.

fruit and garden vegetable is cultivated. Wild animals, as the cougar, wolf, etc., still haunt the uncultivated parts, but most of these have been extirpated by the onward march of civilization.

Pennsylvania is divided into 63 counties, the general statistics of which, and the capitals of each, in 1850, were as follows:

EASTERN PENNSYLVANIA—21 counties.

The whole number of dwellings in the State was, at the above date, 386,216, of families 408,497, and of inhabitants 2,311,756, viz., whites 1,180,056—males 589,294, and females 590,762; fr. col. 40,907—males 18,852, and females 21,665. Of the whole population there were deaf and dumb—wh. 956, fr. col. 18—total 1,004; blind—wh. 798, fr. col. 31—total 829; insane—wh. 1,842, fr. col. 49—total 1,891; and idiotic—wh. 1,386, fr. col. 62—total 1,448. The number of free persons born in the United States was 2,014,619; the number of foreign birth, 294,871; and of birth unknown, 2,296. The native population originated as follows: Maine 1,157, N. Hamp. 1,175, Verm. 4,532, Mass. 9,330, R. I. 1,946, Conn. 9,266, N. York 53,835, N. Jer. 29,117, Pennsylvania 1,844,672, Del. 12,552, Ind. 21,013, Dist. of Col. 767, Virg. 10,410, N. Car. 409, S. Car. 559, Ga. 176, Flor. 21, Ala. 87, Miss. 101, La. 187, Tex. 17, Ark. 10, Tenn. 158, Ky. 497, Ohio 7,729, Mich. 224, Ind. 899, Ill. 323, Mo. 220, Ia. 70, Wisc. 45, Calif. 3, Territories 2; and the foreign population was composed of persons from—England 38,048, Ireland 151,723, Scotland 7,292, Wales 8,920, Germany 78,592, France 4,058, Spain 101, Portugal 34, Belgium 126, Holland 257, Turkey 2, Italy 172, Austria 49, Switzerland 914, Russia 139, Denmark 97, Norway 27, Sweden 138, Prussia 413, Greece 7, China 1, Asia 42, Africa 40, British America 2,500, Mexico 42, Central America 4, S. America 83, West Indies 666, Sandwich Islands 3, and other countries 361.

The following table will show the decennial progress of the population since the first census of the State taken by the United States authorities:

Census Years.	White Persons.	Colored Persons.			Total Population.	Decennial Increase.	
		Free.	Slave.	Total.		Numerical.	Per cent.
1790.....	424,099.....	6,587.....	3,737.....	10,574.....	494,373.....	—.....	—.....
1800.....	586,098.....	14,561.....	1,706.....	16,267.....	602,365.....	167,992.....	38.7
1810.....	786,804.....	22,492.....	795.....	23,287.....	810,091.....	207,726.....	34.4

1850.....	2,258,463.....	53,223.....	—.....	53,223.....	2,311,756.....	587,753.....	34.1

The statistics of the productions, manufactures, general industry, and institutions of the State, according to the census of 1850 and other official returns referring to the same period, are as follows:

Occupied Lands, etc.—Improved farm lands, 8,628,619 acres, and attached lands unimproved, 6,294,728 acres—together valued at \$407,876,099. Total number of farms in cultivation on the 1st June 1850, 127,577—in Eastern Pennsylvania 50,178, and in Western Pennsylvania, 77,399. Value of farming implements and machinery, \$14,722,541.

Live-Stock, etc.—Horses, 350,398; asses and mules, 2,259; milch cows, 532,224; working oxen, 61,527; other cattle,

PENNSYLVANIA.

562,195; sheep, 1,822,357, and swine, 1,040,366. Aggregate value of live-stock, \$41,500,053. Compared with the stock owned in the State according to the census of 1840, the following results are obtained:

Stock.	1840.	1850.	Movement.
Horses	365,129 head	350,398 head	decr. 12,472 head, or 3.4 per cent.
Asses and Mules.....		2,259 "	
Milch Cows.....	1,172,665 "	532,224 "	decr. 16,719 " or 1.4 "
Working Oxen.....		61,527 "	
Other Cattle.....		562,195 "	
Sheep.....	1,767,620 "	1,822,357 "	incr. 54,737 " or 3.1 "
Swine.....	1,508,964 "	1,040,366 "	decr. 468,598 " or 30.8 "

Products of Animals.—Wool, 4,481,570 pounds; butter, 39,878,418 pounds; and cheese, 2,505,034 pounds. Value of animals slaughtered during the year, \$8,219,848. The quantity of wool reported in the census of 1840 was 3,048,564 pounds, and hence the increase of production has been 31.9 per cent.; and the clip per sheep has advanced from 1.72 in 1840 to 2.46 pounds in 1850, or at the rate of 43 per centum in the decade.

Grain Crops.—The crops, according to the returns of 1840 and 1850 comparatively, are as follows:

Crops.	1840.	1850.	Movement.
Wheat.....	12,213,077 bushels	15,367,691 bushels	incr. 2,154,614 bushels, or 16.3 per cent.
Rye.....	6,613,873 "	4,851,160 "	decr. 1,808,713 " or 27.3 "
Indian corn.....	14,240,022 "	19,885,214 "	incr. 5,595,192 " or 39.3 "
Oats.....	20,641,819 "	21,538,156 "	incr. 1,193,395 " or 5.8 "
Barley.....	209,893 "	165,584 "	decr. 44,309 " or 21.1 "
Buckwheat.....	2,113,742 "	2,193,692 "	incr. 79,950 " or 3.7 "

Other Food Crops.—Peas and beans, 55,231 bushels; potatoes—Irish, 5,980,732 bushels, and sweet, 52,172 bushels. The potato crop returned in the census of 1840 amounted to 9,535,663 bushels; and hence the decrease of production in the decade has been 3,502,759 bushels, or in the ratio of 36.7 per centum.

Miscellaneous Crops.—Tobacco, 912,651 pounds; hay, 1,842,970 tons; clover-seed, 125,030 bushels; other grass-seed, 53,913 bushels; hops, 22,088 pounds; hemp—dew-rotted, 282 tons, and water-rotted, 2,006 tons; flax, 528,079 pounds; flax-seed, 41,650 bushels; silk cocoons, 285 (in 1840, 7,2624) pounds; maple sugar, 2,326,525 pounds; molasses, 50,662 gallons; bees-wax and honey, 838,509 pounds; wine, 25,590 gallons, etc. Value of orchard products, \$723,389; and of market-garden products, \$688,714. The more important of these several crops, compared with the like crops returned by the census of 1840, exhibit the following results:

Crops.	1840.	1850.	Movement.
Tobacco.....	325,018 lbs.	912,651 lbs.	incr. 587,633 lbs., or 180.8 per cent.
Hay.....	1,311,643 tons	1,842,970 tons	incr. 531,327 tons, or 40.5 "
Hops.....	49,481 lbs.	22,088 lbs.	decr. 27,393 lbs., or 55.3 "
Hemp—dew-rotted.....	2,649½ tons	282 tons	decr. 2,922,641 lbs., or 4.9 "
“ water-rotted.....		2,006 tons	
Flax.....	2,265,755 lbs.	528,079 lbs.	incr. 60,770 lbs., or 2.7 "
Maple sugar.....		2,326,525 lbs.	
Wine.....	14,328 gals.	25,590 gals.	incr. 11,262 gals., or 78.6 "

Home-made Manufactures were produced in the year to the value of \$749,132. The same manufactures, according to the census of 1840, were valued at \$1,303,093. Decrease in value, \$553,961, or 42.5 per centum.

Manufactures.—Aggregate capital invested, \$60,000,000; cost of all raw material, fuel, etc., consumed, \$60,000,000; average number of hands employed, 600,000—males 60,000, and females 60,000; monthly wages paid, \$600,000—to males \$600,000, and to females \$60,000; value of products for the year, \$60,000,000. Total number of manufacturing establishments producing to the annual value of \$500 and upward, on the 1st June, 1850, 22,036—in the eastern district 13,882, and in the western district 8,154. Of the total number of establishments 208 were cotton factories, 380 woolen factories, and 631 iron-works, viz., 320 manufacturing castings, 180 pig iron, and 131 cast iron. The number of tanneries was 1,039.

In the manufacture of *cotton* the capital invested amounts to \$4,528,925; material and fuel consumed \$3,152,530; products of the year, 45,746,790 yards of sheeting, etc., and 5,308,561 pounds of yarn; total value of products, \$5,322,262. Cotton used, 44,162 bales; coal consumed, 24,189 tons; hands employed, 7,663—males 3,564, and females 4,099; entire wages per month, \$104,298—to males \$63,642, and to females \$40,656. The capital employed in 106 cotton factories in 1840 was \$3,325,400; hands employed, 5,522; value of articles manufactured, \$5,013,007.

In the *woolen* manufactures the capital invested amounts to \$3,005,064; wool used, 7,560,379 pounds; coal consumed, 10,777 tons; value of all raw material, fuel, etc., \$3,282,718; hands employed, 5,726—males 3,490, and females 2,236; entire wages per month, \$90,417—to males \$67,138, and to females \$23,279; products of the year, 10,699,284 yards of cloth, and 1,941,621 pounds of yarn; value of entire products, \$5,321,866. Capital in 1840, \$1,510,546; hands employed, 2,930; value of products, \$2,319,061.

The capital invested in *tanneries* amounts to \$3,540,318; value of all raw material, etc., used, \$3,169,309; hands employed, 2,980; monthly cost of labor, \$54,801; skins tanned, 293,798, and sides tanned, 1,852,900; value of products for the year, \$5,275,492. In 1840 there were in the State 1,170 tanneries; hands, 3,445; and capital, \$2,783,636; sides of sole leather tanned, 115,655, and of upper leather, 405,933.

In the manufacture of *malt and spirituous liquors*, the investment amounts to \$1,719,960; quantities and kinds of grain, etc., consumed—barley 550,105 bushels, corn 1,483,555 bushels, rye 517,180 bushels, oats 24,990 bushels, apples 51,200 bushels, molasses 10 hogsheads, and hops 263 tons; hands employed, 911; quantities of liquor produced—ale, etc., 189,581 barrels, whisky and high wines 6,548,810 gallons, and rum 1,500 gallons. The census of 1840 returned 1,010 distilleries, producing 6,240,193 gallons of spirits; and 87 breweries, producing 12,765,974 gallons of ale, etc.; hands employed, 1,607; capital invested, \$1,589,471. New York and Ohio produce more spirits, and New York alone more ale, etc., than Pennsylvania.

PENNSYLVANIA.

The statistics of the iron manufacture are exhibited in the annexed table:*

Specifications.	Pig Iron.	Castings.	Wrought Iron.	Total.
Capital invested.....dollars	8,570,425	3,422,924	7,620,066	19,613,415

Value of entire products.....“	6,071,513	5,834,881	8,902,907	20,329,301

—about two-thirds of the aggregate capital is employed in Eastern Pennsylvania, and one-third in Western Pennsylvania. In 1850 there were in the State 213 establishments, manufacturing annually 98,395 tons of cast-iron, and 169 bloomeries, forges, and rolling mills, manufacturing 87,244 tons of bar iron; total fuel consumed, 355,903 tons; hands employed, 11,522, and capital invested in the manufacture, \$7,781,471. The counties having the largest interest in the iron trade in 1850 were Alleghany, Armstrong, Lancaster, Chester, Berks, Clarion, Columbia, Blair, Huntingdon, and Luzerne—in these ten counties more than one-half the invested capital is employed. Of the sixty-two counties of the State, forty-five contain iron-works, and of the remaining seventeen, nine abound in iron and coal, so that only eight can be regarded as not suited to the manufacture of iron. The following will exhibit the relation the iron manufacture of Pennsylvania holds to that of the whole Union:

	Pig Iron.	Cast Iron.	Wrought Iron.	Total.
Capital in Pennsylvania.....	\$8,570,425	\$3,422,924	\$7,620,066	\$19,613,415

Proportion in Pennsylvania.....	47.6 p. c.	21.3 p. c.	53.2 p. c.	37.4 p. c.

Besides the above manufactures, Pennsylvania has many others, which, though neither so extensive nor valuable, are very important in their bearing on the interests of the commonwealth. It is conspicuous for its manufacture of railroad machinery and carriages, its extensive cabinet-ware manufactures, and numerous other crafts, which in the aggregate employ the vast capital indicated by the late census returns. As a manufacturing State, indeed, it is only less important than New York and Massachusetts. Its great manufacturing centres are Philadelphia in the east and Pittsburg in the west, and there are also extensive manufactures carried on in the towns on the Delaware and Susquehanna rivers, and others in the interior. If Pennsylvania is mentioned as the great producer of coal and iron, it is only because those interests are paramount, and eclipse minor interests which in the aggregate are really as valuable and important.

* The table given above is from the census of 1850. A fuller and more elaborate series of tabular statistics on the iron manufacture of Pennsylvania is published in "Hunt's Merchants' Magazine" for November, 1851, to which those interested in the subject are directed. The following is a compend of the article referred to, which, though differing somewhat in its results from the census ascertainment, is nevertheless of great value:

Descript'n of Wks.	Condit'n.		Annual Capacity. Tons.	FURNACES.		Power Employed.					Capital Invested.

PENNSYLVANIA.

Foreign Commerce.—Pennsylvania, in regard to its foreign commerce, holds a fourth rank among the States of the Union. The official returns exhibit the value of this branch of industry to have been for the year ending 30th June, 1850, as follows: exports, \$4,501,606 and imports, \$12,066,154. Of the exports, \$4,049,464 was the value of domestic products, and of this \$3,428,150 was that of merchandise carried in American and \$621,314 of merchandise shipped in foreign vessels, and \$452,142 the value of foreign produce and manufacturers, of which to the value of \$363,225 was carried in American and \$88,917 was carried in foreign vessels. Of the imports, \$10,795,462 was the value of those brought in American and \$1,270,692 those brought in foreign vessels. The shipping employed in the carrying trade consisted of

Nationality of Shipping.	Entered.			Cleared.			Total.		
	Vessels.	Tons.	Men.	Vessels.	Tons.	Men.	Vessels.	Tons.	Men.
American	352	100,009	4,006	309	81,276	3,322	661	181,285	7,328
Foreign	155	32,361	1,696	170	30,342	1,516	355	62,703	3,212
Total	507	132,370	5,702	479	111,618	4,838	1,016	243,988	10,540

Philadelphia is the only district in which foreign commerce is carried on. In 1850 there were owned in that district 46,385 tons of permanent registered shipping and 17,820 tons of temporary registered shipping, of which latter class 66 tons were navigated by steam. The distribution of the enrolled and licensed tonnage was as follows:

Collection Districts.	Enrolled and Licensed.		Licensed under 20 tons.	Enr'd. and lic. ton. Navigated by steam.
	Permanent.	Temporary.		
Philadelphia on Delaware	136,577	2,551	3,134	15,476
Presque Isle on Lake Erie	7,570	—	—	5,351
Pittsburg on Ohio River	43,476	—	1,095	39,934

—total tonnage in Philadelphia district 206,495 tons; in that of Presque Isle 7,570 tons, and in that of Pittsburg 44,571 tons—making for the State 257,939 tons. During the year ending as above there were built in the State 185 vessels (21,410 tons): 166 (7 ships, 1 brig, 34 schooners, 107 sloops and canal boats, and 17 steamers), of the burden of 18,150 tons at Philadelphia; 1 schooner (22 tons), at Presque Isle, and 18 vessels (4 schooners and 14 steamers—3,235 tons), at Pittsburg.

The statistics of the foreign commerce of the State from 1791 to the year 1850, exhibit the following movements:

Year.	Exports.	Imports.	Year.	Exports.	Imports.	Year.	Exports.	Imports.
1791	\$3,430,093	\$	1811	\$9,560,117	\$	1831	\$5,513,718	\$12,124,063
1792	3,820,662	—	1812	5,973,750	—	1832	3,516,066	10,673,853
1793	6,955,836	—	1813	3,577,117	—	1833	4,078,951	10,451,250

1809	9,049,241	—	1829	4,059,935	10,100,152	1849	5,343,421	10,645,500
1810	10,993,393	—	1830	4,291,793	8,702,122	1850	4,501,606	12,066,154

Interior Communication.—Pennsylvania has numerous magnificent works of internal improvement, on which an immense commerce is conducted. The great line of railroad from Philadelphia to Pittsburg is one of the longest and most expensive lines in the Union, forming a road 357 miles long; and another through line from Philadelphia *via* Sunbury to Erie, on the lake of the same name, is in progress of construction, and, when finished, will no doubt form one

PENNSYLVANIA.

of the most profitable lines connecting the lakes with the sea-board. Other railroads connect Philadelphia with Baltimore, and in the north-eastern portion of the State there are numerous short railroads connecting the coal mines with navigation, or passing into the State of New York, furnishing an outlet for its mineral wealth in that direction. Many other railroads are in progress or contemplated, all of which will connect with or intersect the trunk lines already built or provided for. The canals of this State are also magnificent works, and in their construction a great portion of the heavy debt of the State has been contracted. They follow generally the great valleys of the interior, and in their courses accommodate an immense area of fertile and productive country. These are still incomplete, but every year is adding to their length and consequent value, nor can it be any long period before they will yield a revenue commensurate to the outlay that their construction has demanded. [See statistics of railroads and canals in Appendix.]

Banks, etc.—The number of banks in the State, in November, 1850, was 46, and 5 branch banks. The financial condition of these, at that period, was as follows: *Liabilities*—capital, \$17,701,206; circulation, \$11,798,906; deposits, \$17,689,212; due other banks, \$5,811,157, and other liabilities, \$93,015; and *assets*—loans and discounts, \$38,423,274; real estate, \$1,114,738; stocks, \$1,417,073; due by other banks, \$4,244,174; notes of other banks, \$2,570,139; specie funds, \$2,737,665, and specie, \$4,337,594.

Government, etc.—The first constitution of Pennsylvania was adopted in 1776, the second in 1790, and the present, which was amended in 1850, in 1838.

The *right of suffrage* is given to every white free man, 21 years old, resident in the State for one year, and in his election district for ten days before the election, and who has paid within two years a State or county tax, assessed at least ten days before the election, but white free men, between 21 and 22 years old, being citizens of the United States, need not have paid a tax; and qualified voters, who are citizens of the United States, and who have removed from the State and returned, may vote after six months' residence. The general election is held on the second Tuesday of October annually.

The *legislature* is composed of a House of Representatives and a Senate. Representatives, not less than 60, nor more than 100 in number (now 100), must have attained the age of 21 years, must have been citizens and inhabitants of the State for the last three years, and for the last year of the districts they represent, and are elected annually. Senators in number not less than one-fourth, nor more than one-third (now one-third) the number of representatives, are chosen for three years, one-third of their number annually. They must be at least 25 years of age, must have been citizens and inhabitants of the State for the four years preceding the election, and for the last year of their districts. The General Assembly meets on the first Tuesday of January annually. The constitution provides that there shall be an enumeration of taxable inhabitants every seven years, to fix the number of Senators and Representatives, and every county shall have at least one representative, but counties erected after 1833 shall have none until entitled thereto by their population. No representative shall be appointed to any civil office created or increased in pay during his term.

The *governor* must have attained his 30th year of age, have been a citizen and inhabitant of the State for the last seven years, and holds office for three years, his term commencing on the third Tuesday in January ensuing his election. He receives a fixed compensation, and is not eligible for more than six years out of every nine years. He may remit fines, and grant pardons, except in cases of impeachment, and may *veto* a bill of the legislature, but it may be passed into law by a two-thirds vote of both houses, notwithstanding his objections.

The *administrative* officers of the State are—the Secretary of State, who is *ex-officio* Commissioner of Common Schools; the Deputy Secretary of State, the State Treasurer, the Auditor-general, the Surveyor-general, the Deputy Surveyor-general, the Adjutant-general, and the three Canal Commissioners.

The *judiciary* is vested in a Supreme Court, Courts of Common Pleas, District Courts of the city and county of Philadelphia, and of the county of Alleghany, County or Probate Courts, and other local courts. By the amended constitution all judges are now elected by the people. The judges of the supreme court are chosen at large, and for a term of fifteen years. The judge having the shortest term to serve is chief justice. The resident judges of the several courts of common pleas and other courts of record, and all other judges required to be learned in the law, are elected by the electors of the districts over which they are to preside, and for a term of ten years. The associate judges of the common pleas hold their offices for five years. All judges hold office for their respective terms during good behavior, but for reasonable cause, though not sufficient grounds for impeachment, the governor may remove them upon the address of two-thirds of each branch of the Legislature. Any vacancy is filled by appointment of the governor, the incumbent holding office until the first Monday in December succeeding the next subsequent general election. During the continuance in office, the judges of the supreme court must reside within the commonwealth, and the other judges in the district or county for which they were elected. The supreme court is composed of a chief and four associate justices, and the attorney-general, and has a reporter of supreme court decisions, and a prothonotary for each of the four districts into which the State is divided. The district court of the city and county of Philadelphia consists of a president and two associate judges, and that of Alleghany County of a president and one associate. For the sessions of the courts of common pleas, the State was formerly divided into 21 districts, but in 1850 the number was increased to 24 districts, each of which (except the first, comprising the county of Philadelphia, which has also two associate judges) has a president judge. The district courts are invested with the civil jurisdiction of the common pleas in their respective districts in all cases exceeding a certain sum.

Federal Representation.—In accordance with the law of 23d May, 1850, Pennsylvania is entitled to *twenty-five* representatives in the Congress of the United States.

The *militia* force of the State consists of 276,070 men of all arms, of which 7,518 are commissioned officers, and 263,552 non-commissioned officers, musicians, artificers, and privates. Of the commissioned officers, 55 are general officers, 164 general staff officers, 1,245 field, etc., officers, and 6,054 company officers. The governor is *ex-officio* commander-in-chief of the military force of the State; and every white male citizen between the ages of 18 and 45 is liable to military duty.

Public Finances.—The debt of the State, funded and unfunded, on the 1st December, 1850, amounted to \$40,775,455 42, composed as follows: *funded debt*—6 per cent. stocks, \$2,312,022 51; 5 per cent. stocks, \$37,350,592; and 4½ per cent. stocks, \$290,000; making a total funded debt of \$39,062,614 78; and *unfunded debt*—relief notes in circulation, \$652,164; interest certificates outstanding, \$162,135 90, and unclaimed, \$4,448 38; interest on unclaimed and outstanding certificates, to be added to them when funded, \$10,504 57; domestic creditors, \$53,317 79—make the total unfunded debt, \$912,570 64. The commissioners of the sinking fund, at the date specified, held \$459,122 98, which, to ascertain the exact liabilities of the State, must be deducted from the aggregate, which would leave it \$40,316,362 44. The regular annual interest on loans amounts to \$2,004,714 51, and the interest guaranteed on internal improvement companies' assumed debts to \$32,500, making the total annual interest paid by the State amount to \$2,037,214 51.

PENNSYLVANIA.

The *assets* of the State consist of its canals and railroads, which had cost \$29,204,787 85; stocks of incorporated companies amounting to \$1,907,948 52—total \$31,112,735 85, and deposits (unavailable) in the Bank of the United States, \$283,000. The financial condition of the railroads and canals owned by the State for the year ending on the 30th Novem-ber, 1850, is exhibited in the following details:

Works.	Gross Revenue.	Expenses.	Works.	Gross Revenue.	Expenses.
Railroads—Columbia	\$683,447 56	\$310,334 80	Canals—Susquehanna Division	\$193,150 19	\$76,304 64
“ Allegheny Portage	241,817 45	247,844 17	“ North Branch		
Canals—Main Line	479,446 39	161,900 77	“ West Branch		
“ Delaware Division.....	215,347 87	60,834 22	Expenses of Canal Commissioners		53,000 00

—making a gross revenue of \$1,768,209 46, and an expenditure amounting to \$862,528 00. Net revenue, \$905,681 46. The value of real and personal property liable to taxation under the triennial assessment of 1848, was \$403,031,458; and the tax assessed in 1850, \$1,545,956 44. The true value of real and personal property in 1850, according to the census of that year, was \$722,486,120.

The revenue and disbursements of the Treasury for the fiscal year were as follows: *revenue*—receipts during the year, \$4,498,131 51; balance from 1849, \$926,207 24—making a total means of \$5,364,338 75; and disbursements—payments during the year, \$4,567,053 94; depreciated funds in treasury (unavailable), \$41,632 00; surplus available funds, \$754,252 81. The principal sources of revenue, and the chief objects of expenditure, were as follows: *sources of revenue*—lands, \$16,378 58; auction commissions, \$13,673 75; auction duties, \$44,593 22; tax on bank dividends, \$153,877 14; tax on corporation stocks, \$136,510 14; tax on real and personal estate, \$1,317,821 55; tavern licenses, \$107,427 49; retailers' licenses, \$171,062 26; peddlers' licenses, \$2,525 05; brokers' licenses, \$10,228 73; theatre, circus, and menagerie licenses, \$2,384 50; distillery and brewery licenses, \$4,208 91; billiard room, bowling saloon, and ten-pin alley licenses, \$3,045 51; eating-house, beer-house, and restaurant licenses, \$6,590 97; patent medicine licenses, \$2,633 04; pamphlet laws, \$345 58; militia fines, \$12,953 73; foreign insurance agencies, \$2,760 88; tax on writs, wills, deeds, etc., \$45,409 47; tax on certain offices, \$14,047 21; collateral inheritance tax, \$102,295 07; canal and railroad tolls, \$1,718,848 16; canal fines, sales of old materials, etc., \$6,953 64; tax on enrollment of laws, \$10,270 00; premiums on charters, \$89,262 21; tax on loans, \$119,356 30; loans, \$270,000 00; interest on loans, \$18,721 27; dividends on turnpike and bridge stocks, \$2,460 00; sales of turnpike stocks, \$13,685 44; accrued interest, \$3,673 32; refunded cash, \$13,278 61; fees of the public offices, \$3,687 20; Pennsylvania State Lunatic Hospital, \$177 00; miscellaneous, \$1,740 33; and—*objects of expenditure*: public improvements, \$1,488,799 74; expenses of government, \$262,599 71; militia expenses, \$16,282 25; pensions and gratuities, \$17,277 91; charitable institutions, \$62,267 85; common schools, \$213,728 49; commissioners of the sinking fund, \$318,864 03; loans, \$8,150 19; interest on loans, \$2,004,714 51; guaranteed interest, \$32,500 00; domestic creditors, \$6,387 41; damages on the public works, \$28,068 34; special commissioners, \$2,554 03; State Library, \$1,000 00; public buildings and grounds, \$2,002 78; eastern reservoir of the Pennsylvania Canal, \$1,947 00; weigh-lock at Beach Haven, \$163 00; use of patent rights, \$3,000 00; penitentiaries, \$19,283 79; House of Refuge, \$6,000 00; conveying fugitives, \$100 00; Nicholson lands, \$192 75; amendments to the Constitution, \$2,500 00; escheats, \$1,740 53; abatement of State tax, \$43,525 04; re-issuing relief notes, \$10,940 00; counsel fees and commissions, \$5,984 15; miscellaneous, \$8,150 44.

The following exhibits the condition of the treasury at the end of each of the named fiscal years:

Years.	INCOME.			Years.	DISBURSEMENTS.		
	Bal from last year.	Annual Receipts.	Total Revenue.		Interest on Loans.	Pub. Improvements.	Total Expend.
1845	\$608 551 88	\$3,010,062 34	\$3,678,314 22	1845	\$1,784,182 65	\$661,340 66	\$3,289,028 13

Education.—“Wisdom and virtue are qualities which, because they descend not with worldly inheritances, must be carefully propagated by a virtuous education of youth.” Such was the sentiment of the illustrious founder of this State; but although the principle of universal education was thus authoritatively recognized at the earliest period of her history, no system of popular instruction in the commonwealth was attempted, nor common school fund established, until the 2d April, 1831. By a legislative act of that date, certain moneys, arising from the sale of lands and other sources, were set apart as a common school fund, at an interest of 5 per cent., and this interest was directed to be added to the principal, until the proceeds should amount to \$100,000 annually. By a subsequent act (1st April, 1834), the State was divided into districts, and \$75,000 was ordered to be paid out of the school fund, for the year 1835, and annually thereafter, to be distributed among the several counties that should comply with the provisions of the said act, until the year when the fund should yield an interest of \$100,000. Provision was also made by this law for levying a tax on the districts *not less than double* the amount of the appropriation. On the 13th June, 1836, an act was passed, appropriating \$200,000 for the year 1837, and annually thereafter, to be apportioned among the several school districts and the city and county of Philadelphia, and authorizing the levying of a tax *not less than equal to nor more than treble* the amount of each district's portion of the State appropriation. By resolution of 3d April, 1837, \$500,000 was appropriated to the common school fund for the year 1838, “to be applied by the several districts either for building, repairing, or purchasing school houses, or for education, as they might deem best.” On the 12th April, 1838, the appropriation was increased to a sum *equal to one dollar* for every taxable inhabitant in the State, to be increased triennially, with the increase of such inhabitants, but without any increase of taxation above that authorized by the act of 1836. Various acts, resolutions, and supplements were subsequently passed, not, however, materially changing any important features of the law regulating the system, until, by the act of 11th April, 1848, it was made to embrace every county in the commonwealth. Provision was also made by this act for the payment to those districts from which the undrawn appropriations were taken by the act of 29th April, 1844, of the *one-fourth* of the State tax levied in such districts, to be applied exclusively to the erection of school houses thereon. On the 7th April, 1849, an act was passed, revising and consolidating all former acts relating to common schools, and effecting many valuable improvements in the system, and greatly simplifying the law. Since, and including the year 1844, the annual appropriation by the State, for the support of schools, has been \$200,000. Such is the history of the

PENNSYLVANIA.

enactments of the legislature, creating and providing a fund as the basis of the whole system of common schools. The following exhibit affords a condensed view of the operations of the system for the year ending 1st June, 1850:

Whole number of districts.....	1,887	Number learning German.....	11,041
Number paid during the year.....	1,278	Average number of scholars in each school.....	40
Whole number of schools.....	8,510	Cost of teaching each scholar, per month.....	\$ 1 44
Number yet required.....	674	Amount of tax levied.....	\$768,422
Average number of months taught.....	5.1	State appropriations distributed.....	\$153,367
Number of male teachers.....	6,972	Total funds raised.....	\$927,739
Number of female teachers.....	8,935	Cost of instruction.....	\$609,877
Average monthly salaries—males.....	\$17 20	Fuel and contingencies.....	\$63,229
Average monthly salaries—females.....	\$10 15	Cost of school-houses, purchasing, renting, building, and repairing.....	\$253,741
Number of male scholars.....	233,892	Total funds expended.....	\$926,447
Number of female scholars.....	190,952		

The following table exhibits the progress of the system in its main features, since its establishment in 1834:

Year.	Whole No. of Dist's.	Districts accept'g.	Dist's. paid.	Districts report'd.	Whole No. of Schools.	Whole No. of Teachers.	Whole No. of Scholars.	Apportion't to accept'g Districts.	Tax levied on accept'g Districts.	Exp'd for School-houses.	Exp'd for instruction, fuel, etc.

The number of the schools in the several counties, in 1850, was as follows: Adams 127, Alleghany 280, Armstrong 123, Beaver 111, Bedford 195, Berks 214, Blair 101, Bradford 312, Bucks 189, Butler 162, Cambria 102, Carbon 45, Centre 126, Chester 265, Clarion 119, Clearfield 83, Clinton 50, Columbia 171, Crawford 298, Cumberland 152, Dauphin 151, Delaware 69, Elk 25, Erie 271, Fayette 164, Franklin 172, Greene 118, Huntingdon 108, Indiana 164, Jefferson 82, Juniata 63, Lancaster 345, Lawrence —, Lebanon 128, Lehigh 128, Luzerne 252, Lycoming 146, McKean 51, Mercer 197, Mifflin 64, Monroe 76, Montgomery 147, Northampton 143, Northumberland 91, Perry 115, Pike 37, Potter 65, Schuylkill 133, Somerset 144, Susquehanna 216, Sullivan 31, Tioga 178, Union 141, Venango 144, Warren 120, Washington 220, Wayne 130, Westmoreland 202, Wyoming 56, York 193.

The city and county of Philadelphia constitutes the first school district, but is not subject to the general school law. The direction of the schools is committed by law to 223 directors and 24 controllers, one each of the eleven sections into which the district is divided being governed by a separate board of directors, all being under the supervision of the Board of Controllers. Public schools were first established in the city in 1818. The whole number of scholars in 1851 was 270, namely, the Central High School, the Normal School, 53 grammar schools, 34 secondary schools, 142 primary schools, and 39 unclassified; number of teachers, 751—52 males, and 699 females; number of scholars, 48,056—males 24,508, and females 23,548. Besides these, there were 141 teachers in the evening schools. The sum expended during the year had been \$366,362, of which only \$33,306 was distributed from the State appropriation, the balance having been raised by taxation.

The principal universities and colleges, medical schools, theological seminaries, law schools, etc., in the State, and the statistics of each in 1850, were as follows:

Name.	Location.	Founded.	Professors.	Students.	Alumni.	Vols. in Lib'y.

Besides the schools and colleges above enumerated, there are numerous academies, public and private, in every part of the State, scientific institutions, and societies founded for the encouragement of literature and the arts. Girard College, in Philadelphia, is a school for the education of orphans, and in its several departments highly efficient. Church schools are also numerous, and many of them in a highly prosperous condition. Pennsylvania, within the past ten or twelve years, indeed, has made great and wonderful progress in its educational facilities, and now stands deservedly in the foremost rank among States which make education a primary necessity in their economy.

Public Libraries.—According to the Report of the Librarian of the Smithsonian Institute, there were in the State, in 1851, the following libraries: one State library, 10,000 volumes; 16 social, 125,385 volumes; 10 college, 37,875 volumes; 12 students', 29,350 volumes; 7 academic and professional, 33,300 volumes; 5 scientific and historical, 33,473 volumes; 29 public school, 8,131 volumes; total—80 libraries, and 257,519 volumes.

Periodical Press.—The whole number of periodicals published in the State of Pennsylvania on the 1st June, 1850, was 223, and of these 96 were whig, 110 democratic, and 207 neutral in politics; the latter class embraces those devoted to literature, religion, science, etc., and those the character of which was not ascertained. Of the aggregate number, 25 were published daily, circulating at each issue 152,076 copies, or 49,120,543 annually; 3 tri-weekly, 500, or 78,000 annually; 1 semi-weekly, 600, or 62,400 annually; 275 weekly, 526,642, or 27,337,384 annually; 8 semi-monthly, 130,800 or 3,139,200 annually; 12 monthly, 159,700, or 1,916,400 annually; and 2 quarterly, 1,900, or 7,600 annually; total copies at each issue, 972,218, or 79,792,532 copies annually. The counties in which published are as follows: in Adams, 3 w. and 1 q.; Alleghany (Pittsburg, etc.), 13 d., 2 l-w., 20 w., 1 s-m., and 2 m.; Armstrong and Beaver, each 2 w.; Bedford, 3 w.; Berks, 9 w.; Blair, 4 w.; Bradford, 3 w.; Bucks, 7 w.; Butler, Cambria, and Centre, each 3 w.; Carbon, 2 w.; Chester, 5 w.; Clarion and Clinton, each 2 w.; Clearfield, 1 w.; Columbia, 3 w.; Crawford and Cumberland, each 5 w.; Dauphin, 1 d., 7 w.; Delaware, 3 w.; Elk, 1 w.; Erie, 1 l-w., 4 w.; Fayette, 10 w.; Franklin, 7 w.; Fulton, 1 w.; Greene, 2 w.; Huntingdon, 2 w.; Indiana, 3 w.; Jefferson and Juniata, each 2 w.; Lancaster, 10 w., 1 m.; Lawrence, 2 w.; Lebanon, 5 w.; Lehigh, 5 w., 1 s-m.; Luzerne, 2 w.; Lycoming, 4 w.; McKean, 1 w.; Mercer, 4 w.; Mifflin and Monroe, each 2 w.; Montgomery, 6 w.; Montour, 2 w.; Northampton, 8 w.; Northumberland, 4 w.; Perry, 2 w.; Philadelphia, 11 d., 1 s-w., 38 w., 5 s-m., 8 m., 1 q., 1 an.; Pike, 1 w.; Potter, 2 w.; Schuylkill, 9 w., 1 m.; Somerset, 2 w.; Susquehanna, 2 w.; Tioga, 4 w.; Union, 7 w., 1 m.; Venango, 2 w.; Warren, 3 w.; Washington, 4 w.; Wayne, 2 w.; Wyoming, 2 w.; Westmoreland, 4 w.; York, 7 weekly.

Religious Denominations.—The statistics of the several religious denominations in the State in 1850, were as stated in the table annexed:

Denomina- tions.	No. of Churches.	Church accom.	Value of Property.	Denomina- tions.	No. of Churches.	Church accom.	Value of Property.	Denomina- tions.	No. of Churches.	Church accom.	Value of Property.
Baptist	317	127,303	\$806,395	German Ref.	203	104,262	\$639,210	R. Catholic.	139	89,251	\$1,084,204
Christian	19	6,400	24,400	Jewish	7	3,175	45,700	Swedenb'g	3	1,475	11,000
Congregat'l	9	3,100	17,250	Lutheran	495	259,502	1,633,356	Tunker	14	6,100	11,700
Dutch Ref.	7	6,640	79,500	Mennonite	86	23,870	82,400	Unitarian	50	28,300	78,325
Episcopal	135	67,324	1,483,700	Methodist	878	339,026	1,715,653	Unitarian	4	1,630	28,000
Free	22	6,400	15,050	Moravian	84	32,715	221,350	Universalist	19	8,920	82,800
Friends	141	60,974	661,737	Presbyter'n	755	357,481	2,574,700	Minor Sects.	92	32,560	254,700

—making a total of 3,599 churches, having accommodation for 1,566,413 persons, and valued at \$11,551,885. This State comprises the Protestant Episcopal diocese of Pennsylvania, and the Roman Catholic dioceses of Pittsburg and Philadelphia, in the latter of which are also included West New Jersey and the State of Delaware.

Pauperism.—The whole number of paupers that received assistance or support during the year ending 1st June, 1850, was 11,551, of which number 5,898 were native-born, 5,653 foreigners; and the whole number of paupers on the lists at the date specified was 3,811, of which 2,654 were native-born, and 1,157 foreigners. Annual cost of support, \$232,138.

Historical Sketch.—Pennsylvania is the only State of the Union which bears and transmits to future ages the name of a private individual. William Penn, the illustrious founder of Pennsylvania, a name given to the infant colony by Charles II., was the son of Admiral Penn, who in the year 1655 acquired distinction as a commander in the conquest of Jamaica, and in the war with the Dutch. At an early period of life, Penn had joined the Quakers, who began about that period to attract public attention, and it seems to have been the intolerance manifested toward the sect that first turned his mind toward America. He and some others purchased a large quantity of land in New Jersey, but becoming dissatisfied, he formed the design of acquiring a separate estate. The crown was indebted to his father's executors in the sum of about £16,000, and as an acquittance for this, a large tract was granted to him in severalty. His charter conveyed to him all that tract of country bounded on the east by the river Delaware, extending westward five degrees, and north and south between the 40th and 42d parallels, except an area around New Castle, circumscribed by a radius of 12 miles. From want of sufficient attention to former charters, this grant interfered both with that of Maryland on the south, and with the claims of Connecticut on the east, and hence arose contentions which disturbed the repose of the colonies for a century a fewward.

In May, 1681, the proprietary sent over Markham, with a few others, to take possession of the territory, and in July he sold 20,000 acres to a company of merchants, at the rate of £20 the thousand acres, entering into articles of agreement with them, entitled "Conditions and Concessions." In the following year, Penn published his "Frame of Government," by which the supreme power was to be vested in a governor and general assembly, consisting at first in the whole body of the people, and afterward in a House of Representatives. A provincial council was established, consisting of 72 persons, to be chosen by the freemen. The governor, possessed of three votes, presided in this council, which prepared and digested all laws, leaving to the people the entire right of rejecting or affirming. This constitution was after a while laid aside, and another, resembling those established in the other provinces, was adopted. In October, 1682, Penn, accompa-

PENNSYLVANIA.

nied by about 2,000 settlers, arrived at New Castle, on the Delaware. He had previously acquired from the Duke of York a conveyance of the land at present included in the State of Delaware. His first step on landing was to convoke an assembly, which was held at Upland (now called Chester), in December, 1682. In a short session of three days, a constitution modifying that drawn up by Penn in England was adopted, and several important laws passed. Among other provisions, that great principle, to an adherence to which the province owed much of its prosperity, was adopted, that "none acknowledging one God, and living peaceably in society, should be molested for his opinions or practice, or compelled to frequent or maintain any ministry whatsoever." Another principle of Penn's system, equally novel and praiseworthy, regarded the treatment of the Indians. Soon after his arrival, he summoned them to a council, and treating with them on an amicable and equal footing, as men and brethren; obtained from them, in return for valuable presents, a cession of as much land as his exigencies required. The same course was pursued in his subsequent intercourse with them, and it was seen with surprise by mankind that kindness and good faith were as useful assistants as the sword in the affairs of a colony. No one of the colonies made such rapid advances in prosperity as Pennsylvania. The salubrity of the climate, and the general fruitfulness of the soil, had some influence, but the moral attractions predominated. The persecutions at home drove thousands to a place where religious worship was free, and the prospect of enjoying equal rights in civil matters, attracted from the continent of Europe a vast number of industrious and moral emigrants.

The city of Philadelphia was founded at an early period after the arrival of the first settlers, and the second assembly of the colony was held at this place, in April, 1683. Among other important laws adopted by this assembly was one abrogating the common law of England respecting descents, and distributing the estates of persons dying intestate among the children, giving to the eldest son, however, a double share. The Revolution in England produced some change in the government of Pennsylvania. Penn, being suspected of being disaffected toward the House of Orange, was suspended from the privilege of appointing a deputy for his province; and in 1692 Pennsylvania was annexed to New York and subjected to the administration of the governor of that province. Two years after, however, the proprietary was reinstated, and appointed a new governor. Notwithstanding the pacific disposition of the governor and people, and the general concordance of their opinions, Pennsylvania proved to be no Utopia for the worthy proprietary. Bickerings about the constitution or the laws, or the manner of disposing of the lands, almost constantly existed. The charter had twice been altered, but the colonists were still discontented. A third charter was given them in 1701, which provided that the assembly should consist of deputies from each county, and that it should have the right to originate, amend, or reject all bills; that the governor should nominate his own council, exercise the whole executive power, and have a negative on the proceedings of the assembly. The delegates from Pennsylvania assented to this constitution, but those from "the Three Lower Counties on the Delaware," as they were called, refused to adopt it, and seceded from the assembly. From this period the Three Counties had a distinct assembly, though they were subject to the same governor as Pennsylvania. The constitution thus adopted continued in force until the Revolution. Penn died in 1718, at the age of 74 years. Since his founding the State that immortalizes his name, his life had been a uniform scene of vexation and disquiet. His private fortune had materially suffered by his advances to promote the infant colony, and at one time he was compelled to submit to a temporary deprivation of liberty. He left, however, to his descendants an inheritance of great value, which they enjoyed until the overthrow of the British power, when the Commonwealth became the possessor, and, as an indemnification, granted them an ample sum of money. From the death of Penn the history of the colony is little more than a narrative of petty quarrels between the proprietary governors and the assembly. The chief subject of dispute arose from the lands of the proprietary, which it was wished to exempt from taxation, to which other lands were liable. The assembly resisted the exemption, and this disagreement frequently prevented the passage of necessary laws. In 1749, an important treaty was made with the Indians of the Six Nations at Philadelphia, in which, for goods of considerable value, they granted to the proprietary all the lands on the Susquehanna, south as far as the boundary of Pennsylvania, and north to the Kittatinny Hills, or Blue Mountain. The whole Indian title to lands within the State was subsequently merged. A large portion of the inhabitants of Pennsylvania were Quakers, but notwithstanding their peaceful inclinations, the colony opposed with as much zeal as her sister colonies, the arbitrary measures of the British government which led to the Revolution. The first congress of deputies from the States, and most of the subsequent sessions of the same assembly, were held in Philadelphia, and it was at the same place that the Declaration of Independence was adopted and proclaimed. During a considerable part of the war the State was the theatre of hostilities. On the Declaration of Independence the proprietary government was abrogated, and the people, by their representatives, formed a new constitution. The form of government adopted at this period was found, after the peace, to be liable to serious objections. Two parties then arose, the republicans and the constitutionalists—the former, desiring a constitution in which the legislative power should be exercised by two branches and the executive invested in a single person, finally triumphed, and in 1790, a constitution, similar to that of the United States, was adopted. In 1794, an insurrection broke out in four of the western counties, in opposition to the law of the United States imposing a tax on spirits. From this, called the "Whisky Insurrection," serious consequences were at first threatened, but by a happy union of firmness and lenity on the part of President Washington, the revolt was quelled. In Northampton County, in 1797, some deluded persons attempted to resist the process of the marshal, but the power of the laws again triumphed. In 1799, the public offices and the sittings of the legislature, which, from the settlement of the colony, had been held at Philadelphia, were removed to Lancaster, and in 1812, they were transferred from Lancaster to Harrisburg, the present capital. From this period no conspicuous event of history has transpired. The State, indeed, has gone through many financial difficulties, and for a time even her condition was considered as a blot on the honor of the nation. The fair name of the State, however, has been redeemed, and the debt, which circumstances forced her to suspend, is now liquidated, interest having been regularly paid for many years, and the principal is being reduced by the operation of a sinking fund. The day of her degradation indeed is passed, and she now looms up among that glorious galaxy of states which circumscribes her boundaries, as one of the most glorious and honored.

HARRISBURG, on the left bank of the Susquehanna, is the political capital of the State.

PENNVILLE, p. v., Jay co., *Ind.*: 68 m. N. E. Indianapolis.
PENN YAN, p. v., and cap. Yates co., *N. Y.*: on the outlet, 1 m. from the foot of Crooked lake, 161 m. W. Albany. It contains a court-house, jail, clerk's office, an academy, 2 banks, several large warehouses and flouring-mills, numerous manufactories of castings, mechanical and agricultural

implements, furniture, etc., and 2,500 inhabitants. The "Penn Yan Democrat" and "Yates County Whig" are published weekly. The outlet descends 270 feet before reaching Seneca lake, and furnishes immense water-power. Crooked Lake Canal, 8 m. long, follows the outlet, and connects the v., through Seneca lake, with the Erie Canal.

Steamers ply S. to the head of Crooked lake, and the Canandaigua and Elmira R. R. passes through the v., 24 m. S. E. of Canandaigua, 43 m. N. W. of Elmira.

PENNY'S FERRY, p. o., Henry co., *Ill.*: on Rock r., 123 m. N. N. W. Springfield.

PENOBSCOT county, *Me.* Situate E. centrally, and contains 2,760 sq. m. In the northern part it is drained by head branches of Aroostook r. and E. branch of Penobscot r., and in the S. by Penobscot and its affluents, Mattawamkeag, Sebec, and Kenduskeag rivers. Surface undulating, and in the N. mountainous; soil in general fertile, and produces good crops of wheat, corn, and potatoes. It is well wooded, and has good pasturage for cattle. Agriculture is the leading pursuit. Farms 3,953; manuf. 407; dwell. 10,374, and pop.—wh. 63,026, fr. col. 63—total 63,089. *Capital*: Bangor. *Public Works*: Bangor and Oldtown R. R.; Kennebec and Penobscot R. R.; European and North American R. R.

PENOBSCOT, t. and p. v., Hancock co., *Me.*: at the head of Penobscot bay, on the E. side, 56 m. E. by N. Augusta. A large pond lies in the N. E. part. It has a fertile soil, good water-power, facilities for navigation, and abundance of timber. Pop. of t. 1,556.

PENOBSCOT bay, *Me.*: near the middle of the coast boundary, setting up N. from the Atlantic Ocean about 27 m., receiving Penobscot r. at its N. extremity, called Bellast bay. The breadth of its mouth, from Owl's Head on the W. to Burnt Coat Island on the E., is about 30 m. It contains a number of large islands, the principal of which are Deer, Haut, Long, and Fox islands, besides many smaller. It has many good harbors, and its waters contain many varieties of excellent fish. Its scenery is exceedingly beautiful, and on its borders are large and flourishing towns.

PENOBSCOT river, *Me.*: this important river is the largest in the State. It is formed from two main branches, of which the largest rises in the W. part of the State near the Canada line, and flows by irregular course E. and S., and through the large lakes, Chesuncook and Pemadumcook, to its junction with the E. branch. After the junction it flows in a S. E. course until it receives Mattawamkeag r. from the N. E., which is its principal tributary on the E. side; then S. S. W. until it receives the Piscataquis, its chief W. tributary; then S. by W. to its entrance into Penobscot bay. From its source to the ocean is about 275 m. It is navigable for vessels of large size to Bangor, 50 m. from the ocean, and for boats to a considerable distance above that. Its upper portions have many falls and rapids furnishing excellent mill-sites. The tide rises high at Bangor, caused by the return of the Gulf stream and the wedge-like form of the bay. Above Bangor are numerous islands owned by the Penobscot Indians, who occupy the principal one—Oldtown.

PENOBSCOT, U. S. collection district, *Me.* Castine is the port of entry. Total tonnage on 30th June, 1850, 36,950 tons; of which 5,713 tons were registered, and 31,237 enrolled and licensed. Of registered tonnage, 5,122 tons were permanent, and 591 tons temporary. The enrolled and licensed tonnage consisted of 30,531 tons permanently enrolled; of which 15,059 tons were in the coasting trade, 11,462 tons in cod fishery, and 4,010 in the mackerel fishery, besides 706 tons "licensed under 20 tons" employed in the cod fishery. During the year ending June 30, 1850, the number of clearances for foreign countries was 19—3,441 tons; total of entrances, 14—4,140 tons. Vessels built during the year, 2 ships, 3 brigs, 14 schooners; total 19—2,835 tons.

PENOLA, p. o., Sumter county, *Ala.*: 122 m. W. by N. Montgomery.

PENSACOLA, p. city, port of entry, and cap. Escambia co., *Flor.*: on Pensacola bay, 10 m. from the Gulf of Mexico, 176 m. W. Tallahassee. Lat. 30° 24' N., long. 87° 10' 12" W. The harbor is deep and affords good anchorage, but near the city is shallow, and hence a long wharf has been extended into the bay. The city is built on a sandy plain, 40 or 50

feet above the level of the water, and is regularly laid out with wide streets crossing at right angles, having also two large public squares. It contains a court-house, custom-house, market, and 2 churches. Two newspapers are issued, "P. Gazette" (whig), weekly, and "Florida Democrat," semi-weekly. This is the principal port and city in Florida, and has considerable trade. On 30th June, 1850, the total tonnage of its district was 1,794 tons, of which 1,221 tons were registered and permanent, and 573 tons enrolled and licensed; 496 tons permanently, and 77 tons licensed under 20 tons. The latter was entirely employed in the coasting trade. During the year previous the total of clearances for foreign ports was 7—1,233 tons; total of entrances, do., 2,337 tons—all of which (9) were American vessels. Vessels built during the year, 2 schooners—50 tons. The project of a railroad to Montgomery, *Ala.*, has long been agitated. Pop. about 2,104.

About 6 m. below the city, and 5 m. from the entrance of the harbor, is the U. S. Navy Yard, covering nearly 80 acres of ground, inclosed by a high brick wall. It contains houses for the officers, store-houses, boat-houses, etc., all of which are built of brick and tastefully arranged. Here is also a dry dock capable of receiving the largest vessels. Outside of the yard are about 25 cottages and a Catholic church. A mile and a half below the navy yard are Barrancas Barracks and the Naval Hospital. At the entrance of the harbor are forts Pickens and M'Lee, on Foster's and St. Rosa's islands, and on the latter island is a light-house. See LIGHT-HOUSES.

PENSACOLA, p. v., Leake co., *Miss.*: 41 m. N. E. Jackson.

PENSACOLA bay, *Flor.*: sets up from the Gulf of Mexico in the N. W. part of Florida. It is of irregular form, consisting of three parts. The W. arm, called Escambia bay, is about 11 m. long and 4 m. broad, and receives Escambia r. from the N. The N. E. arm is called Yellow Water bay, is about the size of Escambia bay, and receives Yellow Water r.; its more N. part is called Black Water bay, and receives Black Water r. and other creeks. The S. part of the bay, extending E. 7 m., is called East bay; it is entirely sheltered from the winds and admits the largest frigates. Its entrance is about three quarters of a mile wide, and is well defended. There is a depth of 22 feet of water on the bar at low tide.

PENTRESS, p. o., Monongalia co., *Virg.*: 209 m. N. W. Richmond.

PEOLA MILLS, p. o., Madison county, *Virg.*: 76 m. N. W. Richmond.

PEOLI, p. o., Tuscarawas county, *Ohio*: 81 m. E. N. E. Columbus.

PEORIA county, *Ill.* Situate N. W. centrally, and contains 643 sq. m. Drained by Spoon r. and Copperas and Kickapoo creeks, tributaries of Illinois r., which forms its eastern boundary. Surface rolling; soil fertile, consisting principally of a deep mold, with clay intermixed. Chief productions wheat and Indian corn. A large quantity of pork is exported, and it has some good timber-land. Farms 1,191; manuf. 134; dwell. 3,036, and pop.—wh. 17,461, fr. col. 86—total 17,547. *Capital*: Peoria. *Public Works*: Peoria and Oquawka R. R.

PEORIA, p. v., and cap. Peoria co., *Ill.*: on the right bank of Illinois r., at the foot of Peoria lake, 61 m. N. Springfield. It is 193 m. above the mouth of the Illinois, and occupies two terraces—the first a quarter of a mile broad and from 6 to 12 feet above high water; the second 6 or 8 feet higher, and extending back to the bluffs, which are about 80 feet high. It is the shipping port for a large amount of grain and other products of the fertile region on every side of it, with which it has an extensive trade. It has also valuable manufactures, which are receiving increased attention. It contains a court-house, jail, an incorporated academy, a bank, about 50 stores and warehouses, several steam-mills and factories, and 5,562 inhabitants. Two weekly papers are published, the "P. Democratic Press" and the "P. Re-

publican" (whig). The "P. Motto," a religious and statistical journal, is issued semi-quarterly. A railroad will pass through it from Bloomington, on the Illinois Central R. R., to some point on the Mississippi.

PEORIA, p. o., Wyoming co., *N. Y.*: 229 m. W. Albany.

PEORIA, p. v., Franklin county, *Ind.*: 58 m. E. S. E. Indianapolis.

PEORIA lake, *Ill.*: is an expansion of Illinois r. between Peoria and Woodford counties, commencing at Chillicothe, and extending 20 m. to Peoria. In some parts it is 4 m. wide, but at the "Narrows," 5 m. above Peoria, it is contracted to the usual width of the river, and then again widens. The water is clear, with gravelly bottom, has a slow current, and abounds with various kinds of fish. Most of the E. shore is low and swampy, but on the W. side are high bluffs.

PEORIAVILLE, p. v., Peoria co., *Ill.*: 65 m. N. Springfield.

PEPACTON, p. v., Delaware co., *N. Y.*: on Pepacton r., 69 m. S. W. by W. Albany.

PEPIN lake: is an expansion of the Mississippi r., between Wisconsin and Minnesota, about 24 m. long, terminating at mouth of Chippewa r., from 2 to 4 m. wide. Its shores are for the most part high precipitous rocks, of which the "Maiden's Rock" is 500 feet high.

PEPPERELL, t., p. v., and sta., Middlesex co., *Mass.*: on the N. line of the State and W. side of Nashua r., 35 m. N. W. by W. Boston. Drained by a branch of the Nashua, which supplies mill-sites. Surface uneven, except on the streams; soil fertile. Manufacturing of various kinds are carried on. The Peterboro' and Shirley R. R. passes on the S. and the Worcester and Nashua R. R. on the E. border. The sta. is 9 m. S. W. of Nashua on the latter. The v. contains an academy. Pop. of t. 1,754.

PEPPER'S FERRY, p. o., Pulaski co., *Virg.*: on New r., 172 m. W. by S. Richmond.

PEQUANNOCK creek, *N. Jer.*: rises in Waywanda and Walkkill mountains, Sussex county, flows S. E. and S., and enters Passaic r. Below Pompton v. it is called Pompton r. Its current is rapid, affording good water-power.

PEQUOT, p. v., Calumet co., *Wisc.*: on the E. side of Winnebago lake, 84 m. N. E. Madison.

PERCH RIVER, p. o., Jefferson county, *N. Y.*: 142 m. N. W. by W. Albany.

PERCY'S CREEK, p. o., Wilkinson co., *Miss.*: 95 m. S. W. Jackson.

PERDIDO river and bay, *Ala. and Flor.*: the boundary line between these States, about 40 m. long. The bay is shallow and its entrance obstructed by sandbars.

PERIS'S MILLS, p. v., Clermont co., *Ohio*: on the E. branch of Little Miami r., 53 m. S. W. Columbus.

PERKINS' GROVE, p. o., Bureau co., *Ill.*: 124 m. N. by E. Springfield.

PERKINSVILLE, p. v., Madison co., *Ind.*: on the W. fork of White r., 28 m. N. N. E. Indianapolis.

PERKINSVILLE, p. v., Burke co., *N. Car.*: on Wilson's cr., a N. tributary of Catawba r., 166 m. W. by N. Raleigh.

PERKINSVILLE, p. v., Goochland county, *Virg.*: 33 m. W. N. W. Richmond.

PERKINSVILLE, p. v., Windsor co., *Verm.*: on Black r., 64 m. S. by E. Montpelier. It contains an academy and several manufactories.

PERKINSON RIVER, *Penn.*: rises in S. E. corner of Lehigh county, flows S. through Montgomery county, and enters Schuylkill r., 6 m. W. Norristown. It affords good water-power, as also its tributaries.

PERKINSON BRIDGE, p. o., Montgomery co., *Penn.*: 74 m. E. Harrisburg.

PEROTE, p. o., Ashland county, *Ohio*: 63 m. N. N. E. Columbus.

PERQUIMANS county, *N. Car.* Situate N. E., and contains 172 sq. m. Drained by Perquimans and Little rivers, both of which discharge their waters into Albemarle Sound in the S. Surface low and level; soil fertile where capable

of cultivation, and very productive. Staples, cotton, wheat, and Indian corn. Farms 505; manuf. 21; dwell. 818, and pop.—wh. 3,629, fr. col. 450, sl. 3,252—total 7,331. *Capital*: Hertford.

PERRINE, p. o., Mercer county, *Penn.*: 185 m. W. N. W. Harrisburg.

PERRINEVILLE, p. v., Monmouth co., *N. Jer.*: 17 m. E. Trenton.

PERRINTON, t. and p. o., Monroe county, *N. Y.*: 182 m. W. by N. Albany. Drained by Irondequoit cr. Surface slightly uneven; soil fertile, and very productive of wheat, the growing of which is the leading business. The Rochester and Syracuse (direct) R. R. and the Erie Canal cross the town; on the latter is the village of Fairport, 17 m. E. Rochester. Pop. 2,591.

PERRY county, *Ala.* Situate W. centrally, and contains 934 sq. m. Catawba r., a tributary of Alabama r., passes through it centrally, by which and its branches it is drained, and also by branches of Black Warrior r. Surface varied; soil fertile and well adapted to cotton, which it produces in large quantities, and which forms the chief article of commerce; it also produces good crops of wheat and Indian corn. It has some good timber-land, and fine pasturage for cattle. Farms 1,066; manuf. 21; dwell. 1,332, and pop.—wh. 8,342, fr. col. 26, sl. 13,917—total 22,255. *Capital*: Marion. *Public Works*: Selma and Tennessee River Railroad.

PERRY county, *Ark.* Situate centrally, and contains 534 sq. m. Drained by La Fave r., tributary of Arkansas r., which forms its N. E. and N. boundary. Surface undulating; soil fertile, and well adapted to grain. Timber is found on the land, and it contains fine coal beds. Farms 75; manuf. 2; dwell. 154, and pop.—wh. 957, fr. col. 6, sl. 15—total 978. *Capital*: Perryville.

PERRY county, *Ill.* Situate toward the S., and contains 492 sq. m. Drained by St. Mary's r. and by Big Beaucoup and Little Muddy creeks. Surface even; soil fertile, and adapted to corn. About one-third of the land is prairie. Farms 633; manuf. 7; dwell. 967, and pop.—wh. 5,267, fr. col. 11—total 5,273. *Capital*: Pickneyville. *Public Works*: Illinois Central R. R.

PERRY county, *Ind.* Situate S., and contains 387 sq. m. Drained by Deer, Oil, and Anderson's creeks, which flow into the Ohio r., the boundary of the county on the South. Surface in general hilly and broken, but along the Ohio and Anderson are some level tracts; soil moderately fertile. Chief productions wheat, Indian corn, and tobacco. Timber is found on the land of excellent quality. Farms 540; manuf. 14; dwell. 1,231, and pop.—wh. 7,259, fr. col. 9—total 7,268. *Capital*: Troy.

PERRY county, *Ky.* Situate S. E., and contains 815 sq. m. Drained by North and Middle forks of Kentucky r. Surface uneven, and diversified with fertile hills and valleys; soil productive, and there is much fine grazing land in the county. Wheat and Indian corn are produced. It is bounded on the N. by Laurel Mountain. Farms 396; manuf. 0; dwell. 471, and pop.—wh. 2,972, fr. col. 3, sl. 117—total 3,092. *Capital*: Perry.

PERRY county, *Miss.* Situate S. toward the E., and contains 1,050 sq. m. Drained by Black and Leaf creeks and their branches, all tributaries of Pascagoula r. Surface slightly broken; soil indifferent, and is thickly covered with pine timber. There is fine pasture for cattle, etc. Chief productions rice and cotton. Farms 191; manuf. 0; dwell. 265, and pop.—wh. 1,679, fr. col. 10, sl. 749—total 2,438. *Capital*: Augusta.

PERRY county, *Penn.* Situate S. centrally, and contains 574 sq. m. Susquehanna r. forms its E. boundary, and by its principal tributary, Juniata r. and other streams, it is drained. Surface much broken and mountainous; soil a fine deep vegetable mold, and very fertile. Chief productions wheat, Indian corn, and potatoes. It has some good coal beds, and contains a medicinal spring which discharges

warm water and is useful in many disorders. Farms 1,456; manuf. 232; dwell. 3,412, and pop.—wh. 19,953, fr. col. 135—total 20,088. *Capital*: New Bloomfield. *Public Works*: Pennsylvania R. R. and Pennsylvania Canal.

PERRY county, Mo. Situate toward the S. E., and contains 452 sq. m. Drained by several small streams, affluents of the Mississippi, and which in their course supply good water-power. Surface varied, rising toward the E., and terminating in high land on the Mississippi; soil fertile and very productive. Minerals abound, and there are some good coal beds. It contains some fine timber-land. Farms 743; manuf. 35; dwell. 1,111, and pop.—wh. 6,395, fr. col. 26, sl. 794—total 7,215. *Capital*: Perryville.

PERRY county, Ohio. Situate toward the S. E., and contains 414 sq. m. Drained by affluents of Muskingum and Hocking rivers. Surface hilly and broken; soil fertile. Chief productions wheat, Indian corn, and tobacco. Pine and other timber is found on the land. Farms 1,314; manuf. 25; dwell. 3,587, and pop.—wh. 20,746, fr. col. 29—total 20,775. *Capital*: Somerset. *Public Works*: Scioto and Hocking Valley R. R.; Cincinnati, Wilmington and Zanesville R. R.

PERRY county, Tenn. Situate S. W. centrally, and contains 570 sq. m. Drained by Tennessee r. and its branches, the principal being Buffalo r. Surface level; soil fertile. Chief productions wheat, Indian corn, and tobacco. Farms 453; manuf. 4; dwell. 927, and pop.—wh. 5,504, fr. col. 4, sl. 814—total 6,522. *Capital*: Linden.

PERRY, p. v., and cap. Houston co., Ga.: on Mossy cr., a W. branch of the Ocmulgee, 53 m. S. W. by S. Milledgeville. It contains a court-house, jail, 2 academies, a dozen stores, and about 700 inhabitants.

PERRY, p. v., Pike co., Ill.: about 8 m. W. of the Illinois, 59 m. W. Springfield.

PERRY, p. v., Allen co., Ind.: on a W. branch of Cedar cr., 112 m. N. N. E. Indianapolis. A plank-road leads S. to Fort Wayne.

PERRY, p. v., and cap. Perry co., Ky.: on Kentucky r., 115 m. S. E. by E. Frankfort. It contains a court-house, several stores, and 200 inhabitants.

PERRY, t. and p. v., Washington co., Me.: on Passamaquoddy bay, 142 m. E. by N. Augusta. On the S. is Cobscook bay. A bridge connects it with Eastport, 5 m. S. E. It has great facilities for the coasting trade and fisheries, which, with boat-building and the lumber business, are extensively carried on. Pop. of t. 1,324.

PERRY, t. and p. v., Wyoming co., N. Y.: 211 m. W. by N. Albany. Drained by the outlet of Silver lake, which affords excellent water-power. Surface undulating; soil loam, mixed with sand and clay, and highly productive of grass and grain. The v. is on the outlet, and extensively engaged in manufactures. It contains an academy, several furnaces, flouring and other mills and factories, and about 1,200 inhabitants. Pop. of t. 2,382.

PERRY, t. p. o., and sta., Lake co., Ohio: on Lake Erie, 153 m. N. E. by N. Columbus. The Cleveland and Erie R. R. crosses it, and has a station 6 m. E. of Painesville. Pop. 1,131.

PERRY, p. o., Venango co., Penn.: 173 m. N. W. by W. Harrisburg.

PERRY, t. and p. o., Shiawassee co., Mich.: 19 m. E. by N. Lansing. Drained by Looking-glass r. and its branches. Surface mostly level; soil fertile prairie. Pop. 313.

PERRY CENTRE, p. v., Wyoming county, N. Y.: 214 m. W. by N. Albany. A literary institution, called the Perry Centre Institute, is established here.

PERRYMANVILLE, p. v. and sta., Harford co., Md.: on the W. side of Bush r., 34 m. N. N. E. Annapolis. The sta. is 27 m. E. of Baltimore, on the Philadelphia, Wilmington, and Baltimore R. R.

PERRYPOOLS, p. v., Fayette co., Penn.: on the W. side of Youghiogony r., 147 m. W. by S. Harrisburg. The river affords power for several factories and mills. The v. con-

tains several stores and about 600 inhabitants. The "P Clarion" (dem.) is published weekly.

PERRY'S BRIDGE, p. o., Vermilion par., La.: on Vermilion river, about 20 m. N. of Vermilion bay, 65 m. S. W. by W. Baton Rouge.

PERRYSBURG, p. v., Miami co., Ind.: 76 m. N. Indianapolis. A plank-road leads 12 m. S. to Peru.

PERRYSBURG, t. and p. o., Cattaraugus co., N. Y.: 262 m. W. by S. Albany. Drained by affluents of Cattaraugus cr., its N. boundary. Surface broken and well timbered; soil gravelly or clayey, and best adapted to grazing. Population 1,862.

PERRYSBURG, t. p. v., and cap. Wood co., Ohio: on the right bank of Maumee r., 111 m. N. N. W. Columbus. Surface mostly level; soil sandy, and of average fertility. The village, occupying a commanding eminence at the head of steamboat navigation, 18 m. above the mouth of the river, has a commodious wharf and harbor, and a good share of lake trade. It contains a court-house, jail, several steam mills and large warehouses, 30 stores, and 1,199 inhabitants. The "Fort Meig's Reveille" (whig) is published weekly. The proposed railroad from Fort Wayne to Sandusky City will pass through it. Pop. of v. 1,199, and of town, 1,750.

PERRY'S CORNER, p. o., Duchess county, N. Y.: 53 m. S. Albany.

PERRY'S CROSS ROADS, p. o., Edgefield district, S. Car.: about 2 m. S. of Saluda r., 41 m. W. by N. Columbia.

PERRY'S MILLS, p. v., Tatnall co., Ga.: on the N. side of Alamaha r., near the mouth of Cobb's cr., 93 m. S. E. by S. Milledgeville. It contains a grist and saw mill, a store, and several dwellings, and was for a time the county seat.

PERRY'S MILLS, p. v., Clinton co., N. Y.: on Chazy river, 1 m. S. of the Canada line, 7 m. W. of Lake Champlain, 153 m. N. Albany. It contains several mills and about 400 inhabitants.

PERRYSVILLE, p. v., Vermilion county, Ind.: on the W. bank of the Wabash, 67 m. W. N. W. Indianapolis. It has several mill-sites, and a good trade in the staples of the co., which are shipped here by the Wabash and Erie Canal, a side-cut of which crosses the river. It contains a dozen stores and 742 inhabitants. The "P. Eagle" is published weekly.

PERRYSVILLE, p. v., Alleghany co., Penn.: 4 m. N. of Ohio r., 163 m. W. by N. Harrisburg.

PERRYSVILLE, sta., Juniata co., Penn.: on the E. division of the Pennsylvania R. R., 15 m. E. Lewistown.

PERRYSVILLE, p. v., Washington co., R. I.: 31 m. S. S. W. Providence.

PERRYTON, p. v., Licking county, Ohio: 42 m. E. N. E. Columbus.

PERRYTON, p. v., Mercer county, Ill.: about 2 m. N. of Edward's r., 115 m. N. W. by N. Springfield.

PERRYVILLE, p. v., Perry county, Ala.: about 7 m. E. of Cahawba r., 52 m. W. N. W. Montgomery.

PERRYVILLE, p. v., and cap. Perry co., Ark.: on La Fave river, a W. branch of Arkansas r., 34 m. W. N. W. Little Rock. It contains a few stores and the co. buildings.

PERRYVILLE, p. v., Boyle county, Ky.: 38 m. S. by W. Frankfort. It contains an academy, several stores, and about 500 inhabitants.

PERRYVILLE, p. v. and sta., Cecil co., Md.: on the E. side of Susquehanna r., and on the Philadelphia, Wilmington and Baltimore R. R., 35 m. E. of Baltimore, 43 m. N. E. by N. Annapolis.

PERRYVILLE, p. v., and cap. Perry co., Mo.: 9 m. W. of the Mississippi, 135 m. E. S. E. Jefferson City. It contains the co. buildings, several stores, and 300 inhabitants.

PERRYVILLE, p. v., Hunterdon co., N. Jer.: at the E. base of Muscongeoch Mountain, 29 m. N. N. W. Trenton.

PERRYVILLE, p. v., Madison co., N. Y.: on a S. affluent of Oneida lake, 105 m. W. by N. Albany. It contains several mills and about 400 inhabitants.

PERRYVILLE, p. v., Ashland co., Ohio: on Black fork of Mohican cr., 58 m. N. N. E. Columbus.

PERRYVILLE, p. v., Mifflin county, Penn.: 47 m. N. W. Harrisburg. A furnace of 1,800 tons capacity is located here.

PERRYVILLE, p. v., Decatur co., Tenn.: on the left bank of Tennessee r., 76 m. S. W. by W. Nashville. Previous to the erection of Decatur co. from Perry, it was the capital of the latter. It has an extensive trade in the exports of the surrounding district, which here find a convenient shipping place, and contains several stores and a population of about 400.

PERSIFER, p. o., Knox co., Ill.: 8 m. W. of Spoon r., 82 m. N. N. W. Springfield.

PERSIMMON CREEK, p. o., Cherokee co., N. Car.: 323 m. W. by S. Raleigh.

PERSON county, N. Car. Situate N., and contains 400 sq. m. Drained by branches of Dan and Neuse rivers. Surface level; soil moderately fertile, and adapted to grain and grazing. Chief productions, wheat, cotton, and tobacco. Farms 684; manuf. 17; dwell. 1,070, and pop.—wh. 5,590, fr. col. 295, sl. 4,893—total 10,778. Capital: Roxborough.

PERTH, t. and p. o., Fulton county, N. Y.: 83 m. N. W. Albany. Surface rolling; soil clayey loam. Farming and grazing are the leading pursuits. Pop. 1,140.

PERTH AMBOY, p. city, and port of entry, Middlesex co., N. Jer.: at the head of Raritan bay, and confluence of Raritan r. with Arthur kill, or Staten Island Sound, 32 m. N. E. by E. Trenton. It has a spacious harbor, with 24 feet of water in the main channel, and easily accessible. It was laid out in 1698, and chartered as a city in 1784. The compact portion is chiefly on the bank of the kill, over which a ferry plies to Staten Island. It contains an academy, a manufactory of locks, mechanical implements, etc., 12 or 15 stores, and 1,865 inhabitants. Tonnage of the district in 1850 (which includes the E. coast of the State from Elizabethtown to Little Egg Harbor), 22,085 tons; all except 13 tons engaged in the coasting trade.

PERTU, p. v., and cap. Miami co., Ind.: on the N. bank of the Wabash, 67 m. N. Indianapolis. It contains a court-house, jail, academy, bank, 20 or 25 stores and warehouses, several mills, and 1,266 inhabitants. The "Miami County Sentinel" is issued weekly. It lies on the Wabash and Erie Canal, 60 m. W. of Fort Wayne, and the same distance E. of Lafayette, and is the shipping place of a rich district, with which it has a brisk and increasing trade. It is the northern terminus of the Peru and Indianapolis R. R., which will be extended to connect with the Northern Indiana R. R., and is intersected here by the proposed Wabash Valley R. R., which, passing through Fort Wayne and Lafayette, forms a link in the connection of Toledo with St. Louis.

PERTU, t. and p. v., Oxford county, Me.: on the S. side of Androscoggin r., 84 m. W. by N. Augusta. Drained by affluents of the r., fed by several ponds. Surface uneven; soil fertile. Pop. of t. 1,109.

PERU, p. v., La Salle county, Ill.: on the N. bank of the Illinois, at the head of navigation, 269 m. above its mouth, 105 m. N. by E. Springfield. It is 1 m. below La Salle, the terminus of the Illinois and Michigan Canal, and forms with it one continuous v. along the r., on which are the commercial houses, the residences occupying the high bluffs immediately back of it. The chief business is shipping the great staples by river and canal, but a large trade is kept up with the back country, with all parts of which it has, or soon will have, easy communication. A rich and highly cultivated alluvial island lies in front of it, with a channel between that floats the largest steamers, and from which a lateral branch leads to the canal. Its favorable position for commerce has given it its chief importance, and must eventually make it one of the first cities in the State. It has a daily communication with St. Louis and the immediate ports by packets and steamers, and with Chicago by canal and the Chicago and Rock Island R. R., which also connects it with the Upper Mississippi; and the Central Illinois R. R., which

here crosses the r., will bring to it the trade and products of rich districts N. and S. of it. The "La S. Co. Democrat" and the "P. Telegraph" are published weekly. Distance to Chicago 100 m., the same by railroad and canal. Population about 3,000.

PERU, t. and p. v., Berkshire county, Mass.: 103 m. W. Boston. Surface elevated and mountainous. It occupies the highest land between the Connecticut and Hudson. Soil adapted chiefly for grazing, which is the leading interest. Pop. 519.

PERU, t. and p. v., Clinton co., N. Y.: on Lake Champlain, 124 m. N. Albany. Drained by Little Au Sable and Salmon rivers, which supply numerous mill-sites. Surface in the E. gently inclining to the lake; in the W. is the Au Sable range of hills; soil chiefly sandy or clayey loam, and very fertile. It is heavily timbered, and has good landings on the lake at the mouth of Little Au Sable r. and at Port Jackson, 2 m. further N. The v. is on the Little Au Sable, 4 m. W. of the lake, and contains several factories and mills and about 1,000 inhabitants. Pop. of t. 3,640.

PERU, t. and p. v., Huron county, Ohio: 83 m. N. by E. Columbus. Drained by Huron r. and branches, which supply good mill-sites. Surface varied; soil very fertile and highly cultivated. The v., on the E. branch of the r., contains several flouring and saw mills and about 500 inhabitants. The Sandusky, Mansfield, and Newark R. R. passes on the W. border of the t. Pop. of t. 1,632.

PERU, t. and p. o., Bennington co., Verm.: 74 m. S. by W. Montpelier. The Green Mountains pass through it, and give rise to streams flowing in all directions. It is well wooded, and grazing is the leading pursuit. Pop. 567.

PERU MILLS, p. o., Juniata co., Penn.: 37 m. W. N. W. Harrisburg.

PERUVILLE, p. v., Tompkins county, N. Y.: 131 m. W. Albany. It contains several mills and 300 inhabitants.

PESHTEGO river, Wisc.: in N. E. part of Oconto county, flows mainly in S. E. corner, receiving numerous tributaries, and enters Green bay below the mouth of Menomonee river.

PETAULA, p. o., Randolph co., Ga.: on Petanla cr., a branch of Chattahoochee r., 142 m. S. W. by W. Milledgeville.

PETERBORO', p. v., Madison co., N. Y.: 98 m. W. Albany. It contains a half-dozen stores and 400 inhabitants.

PETERBORO', t. and p. v., Hillsboro' county, N. Hamp.: 32 m. S. W. Concord. Drained by Contoocook r. and branches, which afford superior water-power. Surface broken; soil very fertile. On the streams are excellent meadows, and several cotton and woolen factories and mills of various kinds. Iron ore is found and wrought with success. The v. is on the r., and contains an academy and several stores and mills. The "Contoocook Transcript" (neut.) is published weekly. Pop. of t. 2,222.

PETERSBURG, p. v., Elbert co., Ga.: at the confluence of Savannah and Broad rivers, 79 m. N. E. by N. Milledgeville. A thriving v. with a valuable trade, growing manufactures and a population of 400.

PETERSBURG, p. v., and cap. Menard county, Ill.: on the Sangamon, 18 m. N. W. Springfield. It contains a court-house, jail, several stores and mills, and a population of about 600.

PETERSBURG, p. v., and cap. Pike co., Ind.: 1 m. S. of White r., 5 m. below the junction of its E. and W. forks, 108 m. W. by S. Indianapolis. It occupies an elevated plain on the E. side of Pride's cr., and the heart of a fertile district, through which the Wabash and Erie Canal passes, 2 m. W. of it. It contains a court-house, jail, a dozen stores, and about 700 inhabitants.

PETERSBURG, p. v., Boone co., Ky.: on the Ohio, 56 m. N. Frankfort. It occupies the site of an Indian burying ground. Many remains of the aborigines have been found here, and near the v. are extensive fortifications in good preservation.

PETERSBURG, sta., Huntingdon co., Penn.: on the N. side

of Juniata r., 8 m. by Pennsylvania R. R., and 7 m. by canal N. W. of Huntingdon.

PETERSBURG, sta., Monroe co., *Mich.*: on the S. side of Raisin r., 20 m. W. of Monroe by the Michigan Southern R. R.

PETERSBURG, p. v., and cap. Lavacca county, *Tex.*: on Lavacca r., 77 m. S. E. Austin City. It contains the county buildings and several stores and dwellings.

PETERSBURG, t. and p. v., Rensselaer co., *N. Y.*: 21 m. E. N. E. Albany. Drained by Little Hoosic cr., on which is a fertile valley running N. and S.; elsewhere the surface is much broken, and soil fitted for grazing. The v. is on the cr., and contains several mills. Pop. of t. 1,908.

PETERSBURG, p. o., Cape May county, *N. Jer.*: 66 m. S. Trenton.

PETERSBURG, p. v., Mahoning co., *Ohio*: near the E. line of the State, 141 m. E. N. E. Columbus.

PETERSBURG, p. v., Lincoln co., *Tenn.*: 56 m. S. by E. Nashville.

PETERSBURG, p. b. and port of entry, Dinwiddie county, *Virg.*: on S. branch of Appomattox r., 12 m. above its confluence with James r., 22 m. S. by E. Richmond. Lat. N. 37° 18' 54", long. W. 77° 20'. The r. is navigable to this place for vessels of 100 tons, and the falls immediately above it afford extensive water-power. A canal is cut round these falls, thus affording boat navigation upon the river above for 80 m. This is a very handsome and important commercial town, and exports largely flour and tobacco. It suffered most severely in July, 1815, by a conflagration, which destroyed 400 buildings, and property estimated at \$2,000,000. The buildings and houses are now built principally of brick. It contains a court-house, jail, 5 churches, 8 banks with aggregate capital of \$1,170,000, insurance office, etc. There are several cotton and woolen factories, flouring and saw mills, ropewalks, and some other manufactories. Two newspapers are published daily, "P. Intelligencer" (whig), "Daily News" (neut.); 1 tri-weekly, "South Side Democrat." Four railroads now centre at P., giving it great business advantages, viz., Richmond and Petersburg R. R., Petersburg R. R. (to Weldon), South Side R. R., Appomattox R. R. (to City Point.) The Petersburg and Norfolk R. R. is in construction. The steamships plying semi-weekly between New York and Richmond, and others, connect with Petersburg by Appomattox R. R. from City Point. On 30th June, 1850, the total tonnage of P. district was 2,708 tons, of which 949 tons were registered (and permanent), and 1,759 tons enrolled and licensed. Of the latter, 1,651 tons were permanently employed in the coasting trade, 80 tons in steam navigation; licensed under 20 tons in coasting trade, 79 tons. During the year preceding, the total of clearances for foreign countries was 5—1,946 tons; total of entrances, do., 9—3,517 tons. Pop. in 1830, \$,822; in 1840, 11,186; in 1850, 14,010.

PETERSBURG FOUR CORNERS, p. v., Rensselaer co., *N. Y.*: 23 m. E. N. E. Albany.

PETERS CREEK, p. o., Barren co., *Ky.*: on an E. branch of Big Barren r., 106 m. S. W. by S. Frankfort.

PETERS CREEK, p. o., Stokes county, *N. Car.*: 102 m. N. W. by W. Raleigh.

PETERSHAM, t. and p. v., Worcester co., *Mass.*: 59 m. W. by N. Worcester. Drained by branches of Swift r., affording numerous mill-seats. Surface high and somewhat broken; soil good, especially for grass. A farming and grazing l., containing numerous small manufactories. Population 1,527.

PETERSTOWN, p. v., Monroe co., *Virg.*: on Rich cr., 2 m. N. of New r., 182 m. W. by S. Richmond. On the cr., in the vicinity, are several mills and small factories.

PETERSVILLE, p. v., Frederick co., *Md.*: 3 m. N. of the Potomac, 62 m. W. N. W. Annapolis. Petersburg and district contains 2,351 inhabitants.

PETERSVILLE, p. v., Northampton co., *Penn.*: on Hoekendocque creek, an E. affluent of Lehigh river, 79 m. E. N. E. Harrisburg.

PETITE JEAN, p. o., Yell co., *Ark.*: 3 m. S. of Petite Jean r., 52 m. W. N. W. Little Rock.

PETRA, p. o., Saline co., *Mo.*: 66 m. N. W. Jefferson City.

PETTS county, *Mo.* Situate W. centrally, and contains 655 sq. m. Drained by S. fork of La Mine r., and other branches. Surface varied; in general it is level, and there is some fine prairie land; soil a fine deep loam, and very productive. It has some good grazing land, and along the streams timber is abundant. Farms 500; manuf. 16; dwell. 714, and pop.—wh. 4,261, fr. col. 5, sl. 88—total 5,150. *Capital*: Georgetown. *Public Works*: Pacific R. R.

PETTY'S, p. o., Lawrence co., *Ill.*: 127 m. S. E. Springfield.

PEWAUKEE, t. and p. o., Waukesha co., *Wisc.*: 59 m. E. Madison. Drained by Pishitaka r. (called Fox r. in Illinois), into which flow the waters of a large lake lying in the W. part. Surface even, and soil excellent grass and grain land. The Milwaukee and Mississippi R. R. crosses it, and plank roads lead E. and W. Pop. 1,093.

PETTONA, p. o., Boone county, *Virg.*: 234 m. W. by N. Richmond.

PETTONSBURG, p. o., Pittsylvania county, *Virg.*: 105 m. S. W. by W. Richmond.

PETTON'S CREEK, p. o., Smith co., *Tenn.*: 48 m. E. by N. Nashville.

PETTONSVILLE, p. v., Williamson county, *Tenn.*: 22 m. S. Nashville.

PHARISBURG, p. v., Union county, *Ohio*: 35 miles N. W. Columbus.

PHARE'S MILLS, p. o., Moore co., *N. Car.*: 46 m. W. S. W. Raleigh.

PHARSAIA, t. and p. o., Chenango co., *N. Y.*: 101 m. W. Albany. Drained by Otselec cr. and branches of Chango r. Surface broken; soil fertile loam. Farming and grazing are the chief pursuits. Pop. 1,155.

PHEASANT BRANCH, p. o., Dane co., *Wisc.*

PHELPS, t. and p. o., Ontario co., *N. Y.*: 166 m. W. by N. Albany. Drained by Canandaigua outlet and Flint creek, which supply fine water-power. Surface undulating; soil loam, overlying limestone, and very fertile. It contains an abundance of gypsum and water lime, and large manufactories of flour, plaster, mechanics' implements, etc. The Rochester and Syracuse R. R. passes through it, and has a sta. 7 m. N. W. Geneva. The p. o. is in the v. of Vienna. Pop. of t. 5,542.

PHELPS, t. and p. o., Ashtabula co., *Ohio*: 154 m. N. E. Columbus. Drained by Musquito and Rock creeks, branches respectively of Mahoning and Grand rivers, which furnish water-power. Surface elevated; soil fertile and well tilled. A superior farming town.

PHIELSTOWN, t. and p. o., Ingham co., *Mich.*: 12 m. E. Lansing. Drained by Red Cedar r. Surface rolling and well timbered. Soil easily tilled, and generally fertile. Population 393.

PHIENIX, p. v., Kent county, *R. I.*: 18 miles S. by W. Providence.

PHILADELPHIA county, *Penn.* Situate S. E., and contains 120 sq. m. Drained by Schuylkill r., Wis-shicken, Pennepack, and Tacony creeks. On the N. E. is Pequanning, and on the S. W. Darby creek. The Delaware, the common recipient of the above, forms its S. E. boundary. Surface generally level, but much varied; soil fertile. Farms 1,580; manuf. 4,559; dwell. 61,278, and pop.—wh. 389,324, fr. col. 19,438—total 408,762. *Capital*: Philadelphia. *Public Works*: Philadelphia and Columbia R. R.; Reading and Pottsville R. R.; Philadelphia, Norristown, and Germantown R. R.; Philadelphia, Wilmington, and Baltimore R. R.; Philadelphia and Westchester R. R.; New York and Philadelphia R. R., etc.

PHILADELPHIA, p. city, port of entry, and cap. Philadelphia co., *Penn.*: is situated between the Delaware and Schuylkill rivers, 5 m. above their junction, 93 m. E. by S. Harrisburg. From New York by most direct railroad, 87 m.; from Boston, 323 m.; from Baltimore, 95 m.; from

Washington, 136 m.; from Harrisburg, 106 m.; from Pittsburg, 357 miles.

Latitude (Independence Hall), $39^{\circ} 56' 59''$; long. from Greenwich, $75^{\circ} 9' 54''$ W., from Washington, $1^{\circ} 51' 36''$ E.

Philadelphia city proper is surrounded by several incorporated districts, having their own municipal authorities; viz., Spring Garden, Penn, Northern Liberties, Kensington, and Richmond in the N., and Southwark and Moyamensing in the S., West Philadelphia, etc., which together form a densely populated area, and are always embraced in the descriptions of the city.

The city proper is situated on a plain, the highest point of which is elevated 64 feet above the ordinary high water mark in the river. This gentle elevation affords excellent drainage. The soil consists principally of clay, beneath which, at different depths, from 5 to 20 feet, is found coarse gravel. In form it is a parallelogram, 2 m. long by 1 m. wide. The streets are all straight, cross each other at right angles, are well paved, and kept remarkably clean. The principal streets are, Market Street, 100 feet wide, running E. and W. from river to river, nearly through the centre of the city; Broad Street, 118 feet wide, running N. and S., a little W. of the middle of the city; Arch Street, N. of Market Street, 66 feet wide; Front Street, 60 feet, and the rest 50 feet wide. The adjoining districts are for the most part laid out with regularity.

The buildings are chiefly of brick, built in plain and uniform style. Some of the public edifices, of white marble and freestone, are distinguished for beauty and grandeur. The houses are generally on a uniform plan, 3 stories high, of brick, with marble steps and basements. Some of the more costly private residences are noted for their elegance. The public squares are laid out with much taste, ornamented with fine shade-trees, shrubbery, etc., provided with seats, and are favorite promenades. The business portion of the city was originally on the Delaware side, but since the opening of the coal trade, and with the increase of population, the Schuylkill side has acquired a large share of business, particularly that of the coal trade, country produce, etc. The Schuylkill affords a convenient harbor for small vessels, and numerous wharves are built for their accommodation. The foreign commerce centres upon the Delaware, which is nearly 1 m. wide, admitting the largest vessels to the wharves. Its navigation from the ocean is somewhat intricate from banks, shoals, etc., and in mid-winter is sometimes closed by ice.

Public Buildings.—Independence Hall, within which the Colonial Congress on July 4th, 1776, declared the independence of the United States, read from its steps on that day to the assembled people, now presents the same appearance as at that time. This building, formerly the State House, fronts upon Chestnut Street, having Independence Square in the rear. It was commenced in 1729, completed in 1734, cost £5,600, and received the addition of its two wings in 1740. The present steeple, erected in 1828, is a fac-simile of the former, which was removed on account of its decay. The room in which the Declaration was signed is carefully preserved, nearly in the same style of decoration with which it was originally finished. The "old bell," imported in 1752, is also carefully preserved as a most interesting relic. It bears the following inscription: "Proclaim Liberty throughout this land to all the inhabitants thereof."—*Leviticus* xxv. 10. Within this venerable edifice was held the Convention which formed the Constitution of the United States, some of the first sessions of Congress, and here Washington delivered his "Farewell Address," on his retirement from public life. The building is used by the U. S. courts and city and county offices.

The Custom House, formerly the U. S. Bank, on Chestnut Street, above Fourth, is a splendid marble edifice, in imitation of the Parthenon at Athens, and one of the finest specimens of Doric architecture erected in modern times. It was commenced in 1819, completed in 1824, and cost \$500,000.

It is built upon a raised platform, 87 feet front, 161 feet deep, and has fronts, each of 8 fluted Doric columns, 27 feet high, $4\frac{1}{2}$ feet in diameter, supporting a heavy entablature. It has a very splendid interior, of which the principal apartment, 81 feet long by 48 wide, is ornamented by fluted Ionic columns and sculptured embellishments.

The Merchants' Exchange, fronting on Walnut, Dock, and Third streets, is a magnificent marble building, with semi-circular portico of Corinthian columns. It is 95 feet wide, 114 feet long, and 3 stories high. The basement is occupied by the post-office and two insurance companies, and most of the building by commercial offices, etc. The Merchants' Reading Room is handsomely ornamented.

The United States Mint, in Chestnut, near Broad Street, is a handsome edifice of brick, faced with marble, in imitation of a Grecian temple of the Ionic order, having a portico 62 feet long, supported by 6 beautiful pillars, 25 feet high, 3 feet in diameter.

Many of the banking houses are distinguished as beautiful specimens of architecture. The Bank of Pennsylvania is a fine marble structure, 125 by 51 feet, erected 1799-1801, designed from the Temple of the Muses at Athens, having 2 porticos of 6 Ionic columns each, with dome and roof entirely of marble. The Philadelphia Bank is an imposing marble building, with an elegant elevated portico of the Corinthian order. The Girard Bank has a stately front of white marble, with portico of 6 Corinthian columns. The Bank of North America is an elegant structure of brown stone in Florentine style.

Hotels.—The Girard House, erected 1851, is the largest and finest hotel in the city, and one of the most extensive in the Union. It has a very handsome front on Chestnut Street, 5 stories in height, besides basement and attic. There are other large and well-kept houses, but not noted for architectural beauty, etc.

Places of Amusement.—The Chestnut Street Theatre, erected 1822, is 90 by 150 feet, has a richly decorated interior, and will accommodate over 2,000 persons. Walnut Street Theatre, formerly the Olympic, is now a very fashionable resort. The Arch Street Theatre is a very handsome edifice. The Musical Fund Hall, erected 1824, is an elegant building. Its interior, 123 feet long by 60 feet wide, unsupported by columns, is one of the best halls for musical effect in the United States, seats 2,000 persons, and is in constant use for concerts, lectures, balls, etc. The Philadelphia Museum building is an immense structure, 288 feet long and 70 feet wide.

United States Military and Naval Establishments.—Fort Mifflin, on a small island in the Delaware, $\frac{1}{4}$ m. below the entrance of the Schuylkill, defends the city. The U. S. arsenal, near Frankford, is an immense establishment, used for the storage and manufacture of munitions of war, and has one of the largest powder magazines in the United States. The U. S. arsenal in Moyamensing near Schuylkill r., is used as the dépôt for the clothing of the army, camp equipment, etc. The buildings consist of 4 large brick store-houses, 3 stories high, forming a hollow square.

The U. S. navy yard is situated on the bank of Delaware r. in the district of Southwark. The grounds, inclosed on 3 sides by a high brick wall, embrace about 12 acres, purchased in 1801, for \$37,500; now assessed at \$250,000. The various buildings are residences for officers, quarters for marines, workshops and storehouses, 2 ship-houses, molding lofts, etc. The ship-houses are among the largest in the Union; the first is 270 feet long, 108 feet high, 84 feet wide; the second is 210 feet long, 80 feet high, 74 feet wide.

Here are the U. S. dry docks, capable of raising the largest steam-vessels and ships of the line. These works, constructed in 1849-51, at a total cost of \$313,742, consist of a sectional floating dry-dock in 9 sections; a basin, 350 feet long by 226 feet wide inclosed by granite walls, having a granite floor, upon a foundation of piles, timbers, etc.; and 2 railways, with hydraulic cylinder, etc.

The U. S. Naval Asylum, established in 1835, occupies an elevated and most beautiful site, near the Schuylkill r., in Moyamensing district, and consists of 3 structures. The principal edifice, built of marble, is 3 stories high, has a front of 380 feet, including a central building 142 by 175 feet, which has a handsome portico with 8 Ionic columns. The grounds embrace 25 acres, beautifully adorned with trees, shrubbery, etc. The pensioners are about 140 in number, who are provided with every comfort. A naval officer is stationed at this port.

Education.—The public schools are well organized upon a most efficient system, established in 1818, which constituted the city and county of Philadelphia, one entire school district, in 11 sections, with arrangements for uniform and harmonious grades of free instruction. The schools are under the direction of 23 controllers and 210 directors, distributed throughout the 11 sections. In 1852, there were 254 schools, classified as follows: 1 high, 1 normal, 53 grammar, 29 secondary, 130 primary, and 40 unclassified; which employed 727 teachers, and had about 50,000 scholars. The school-houses generally are substantial brick edifices, 3 stories high, accommodating 500 to 1,000 pupils.

The Normal School, for the instruction of female teachers, was established in 1843; its course of instruction embracing two years, is of the very best order. The central high school, established October, 1833, is one of the best institutions in the Union. The building, in Juniper Street, below Market, has a handsome marble front with Ionic portico. It has 11 instructors, and about 500 students. The number of private schools and academies, with parish and charity schools, female seminaries, etc., is very large, indicating the popular interest in good education.

Colleges.—The University of Pennsylvania was established as a college in 1755, and as an university in 1779. It comprises 4 departments, academical, collegiate, medical, and law, of which the medical department is by far the most flourishing. In 1850, the collegiate department had 7 instructors, 5,142 alumni, 88 students, and 5,000 volumes in its library. The university buildings, in Ninth Street below Market, are large and handsome structures, each 85 feet front by 112 deep.

Philadelphia is preëminently distinguished as the medical metropolis of the Union. Of medical colleges, it contains the first established in the United States, which, with the other numerous institutions, are by far the most flourishing and important in the nation. The number of medical works and journals here published is probably equal to the combined number in all other cities in the Union. The libraries of the medical colleges, etc., are large and very valuable; as also their anatomical museums, cabinets, etc. Very great advantages for clinical instruction are afforded by the various hospitals, dispensaries, etc.

The statistics of the principal institutions, in 1850, were as follows:

Names.	Founded.	Prof.	Stu.	Graduates.
Med. Dep. Univ. Penn.	1765	7	450	5,316
Jefferson Med. Col.	1824	7	514	2,036
Med. Dep. Penn. Col.	1833	7	376	73
Phil. Col. of Med.	1847	7	75	250

Other medical institutions are—Medical Institute of Philadelphia, established in 1817, which gives medical instruction in the summer, but does not confer degrees; Philadelphia Association for Medical Instruction, on the same plan; Homœopathic Medical College of Pennsylvania, instituted 1846; Female Medical College of Pennsylvania, founded 1849, the first of the kind in the world, which in 1852 had 40 students; Eclectic Medical College of Pennsylvania, chartered in 1850; and Philadelphia College of Pharmacy, established 1822, for the instruction of druggists, etc., which has a good cabinet, library, etc., and annual course of lectures. Nearly all of these institutions have large and commodious edifices.

The Theological Seminary of St. Charles Borromeo,

(Roman Catholic), incorporated 1843, contained in 1852, 36 students, preparing for the priesthood, and 7,000 vols. in its library.

Girard College.—This magnificent institution, founded by Stephen Girard, with a bequest of \$2,000,000 for the gratuitous instruction and support of destitute orphans, is situated on the Ridge Road, in the district of Penn, 1 m. N. of the N. boundary of the city proper. The corner-stone of the college was laid July 4, 1833, the buildings were completed in 1847, and the institution went into operation, Jan. 1st, 1848. The grounds contain about 41 acres, inclosed by a wall 10 feet high. The college edifices present a very imposing appearance. The central edifice, most substantially built of marble, is one of the most magnificent structures of its size in the world. It is in the form of a Greek temple, in the Corinthian style, resting on a basement of 11 steps, which extend around the entire edifice, imparting to it a pyramidal appearance of great solidity. It is surrounded by colonnades of the most magnificent marble pillars, 6 feet in diameter, and 55 feet in height—8 columns on each end, and 11 on each side, including the corner columns both ways. Its dimensions, including the colonnades, are 160 feet wide, 213 feet long, 90 feet high; the body of the building alone is 111 feet wide, 169 feet long, and 56 feet 8 inches high. It is three stories high, each divided into 4 rooms, with vestibules. The roof, composed of most massive marble tiles, has an entire weight of 969 tons, exclusive of its supports. In the lower vestibule rest the remains of Mr. Girard, beneath a marble statue of himself. Four other buildings, faced with marble, are each 52 feet wide, 125 feet long, and three stories high. The entire cost of the college buildings, with improvements of grounds, etc, was \$1,933,821 78. The officers and teachers consist of president, secretary, 2 professors, 2 physicians, matron and assistant matron, 5 male teachers, 12 female teachers, and steward. The current expenses in 1851, were \$62,900, of which \$30,500 were for the clothing and subsistence of the pupils. Pupils in 1852, 305.

Literary and Scientific Institutions, Libraries, and Fine Arts.—The American Philosophical Society, originated by Franklin, in 1743, is the oldest scientific association in the United States. In 1769, another similar society was united with it. It was incorporated March 15, 1780. Its building, erected in 1789, contains a very valuable library of 20,000 volumes, an extensive cabinet of medals, and a large collection of maps, engravings, etc. Its published transactions, in numerous volumes, have greatly contributed to the advancement of science. The Academy of Natural Sciences, founded 1812, incorporated 1817, has a very handsome edifice, containing a library of 13,000 volumes, and the most valuable museum in the United States, containing, besides other collections, 25,000 specimens in ornithology, unrivaled in the world, 30,000 in the herbarium, 7,000 in geological department, and the late Dr. Morton's celebrated cabinet of crania. The academy has contributed much to natural science. The Historical Society of Pennsylvania, founded 1825, has issued various historical publications, and has a library of 2,000 volumes, with collections, etc. The Franklin Institute, incorporated March 30, 1824, mainly devoted to the promotion of mechanical science, etc., has about 3,000 members, and library of 6,000 volumes, principally mechanical and scientific works; publishes monthly its journal, the oldest and one of the best mechanical periodicals in the Union; and holds annually an extensive exhibition of American manufactures. The College of Physicians, chartered March 26, 1789, publishes its transactions quarterly, and is one of the most valuable periodicals of medical science.

The Philadelphia Library Company, instituted 1731, principally by Dr. Franklin, has one of the most extensive libraries in this country. Its edifice, erected 1789-90, a plain structure, presents a venerable appearance. Its entrance is surmounted by an excellent marble statue of Franklin. In 1792, it received the valuable library of Hon. James Logan, now amounting to 10,000 volumes. These united libraries

now embrace about 60,000 volumes, and are constantly increasing. The Athenæum, organized February 9, 1814, now occupies a very elegant edifice, built in the Italian style, corner of Sixth and Adelphi streets, erected 1845-47, containing a library of 12,000 volumes, reading-room, etc. The Mercantile Library, established 1821, has a handsome library building, corner of Fifth and Library streets, erected 1844-45, at a cost of \$23,200, which contains 10,500 volumes; its real estate is valued at \$60,000. The Library of the Law Association is a good collection of professional works. The Apprentices' Library, founded 1819, is an excellent institution, having 12,000 volumes, resorted to by 1,200 boys and 600 girls. The German Society have 8,000 volumes; the Pennsylvania Hospital 10,000 volumes of medical works; besides which, are the Friends' Free Library, Spring Garden Institute, the colleges previously mentioned, and some library companies of the incorporated districts.

The Pennsylvania Academy of the Fine Arts, organized 1807, contains rare sculptures, with splendid paintings by the old masters, West, Allston, and Sully, and holds annual exhibitions, commencing in May. The Art Union of Philadelphia has a free gallery of pictures constantly open, which are changed monthly, and holds a distribution of prizes in December annually. There are two associations of artists—Graphic Association and Artists' Fund Society.

Newspapers and Periodicals.—According to the census of 1850, the periodical press then consisted of 64 publications, viz., 11 dailies, 1 semi-weekly, 37 weeklies, 5 semi-monthlies, 8 monthlies, 1 quarterly, 1 annual.

Names of dailies—"North American" (whig), "Pennsylvania Inquirer" (whig), "Pennsylvanian" (dem.), "Daily News" (whig), "The Sun" (nat. Am.), "Spirit of the Times" (dem.), "Public Ledger" (indep.), "Evening Bulletin" (indep.), "Daily Register" (neut.) The largest circulations were—of the dailies, "Public Ledger," 43,980; of the weeklies, "Dollar Newspaper" (indep.), 40,000; "Scott's Weekly Paper" (lit.), 40,000; "Saturday Evening Post" (lit.), 42,000; "American Courier" (lit.), 35,000; of semi-monthlies, "Youth's Penny Gazette" (relig.), 100,000; of monthlies, "Godey's Lady's Book," 60,000.

The press is generally characterized by propriety, originality, enterprise, and large circulations. The medical journals are of high repute. The first papers were—"American Weekly Mercury" established 1719, by Andrew Bradford; "Pennsylvania Gazette," in 1723, subsequently conducted by Dr. Franklin; "Pennsylvania Packet," 1771, which, in 1754, was issued daily, the first daily in the United States.

Churches, Religious Institutions, etc.—Religious societies of all denominations are very numerous. The total number of churches in 1852, in the city and closely adjoining districts, was about 175, viz.: Episcopal 31, Presbyterian (of all kinds) 45, Friends' 9, Roman Catholic 17, Baptist 20, Methodist 27, Lutheran 8, German and Dutch Reformed 4, Moravian 1, Universalist 4, Unitarian 1, besides 3 Jews' Synagogues and some independent churches. Compared with other cities, the church edifices of this city are not distinguished for architectural beauty, though characterized by neatness and comfortable convenience. The principal edifices are—of Episcopal, Christ Church, completed 1753; St. Andrew's, in the Ionic order, a very classic structure; St. Stephen's and St. Mark's, in Gothic style. The First and Seventh Presbyterian churches; Sansom Street Baptist Church. The Roman Catholic, St. Peter's Church, in classic Roman style, and the Cathedral, a magnificent structure, not yet completed, which will surpass in architectural splendor all others in the city.

The American Sunday School Union, formed 1824, has a large edifice in Chestnut Street, 5 stories high, used as depository and publication of their books, tracts, etc. The General Assembly of the Presbyterian Church have located here three of their four principal boards, viz.: Publication, Domestic Missions, and Education, which occupy in Chestnut Street a handsome edifice of brown stone, 4 stories high,

chiefly used as publication rooms. During the year 1850-51, the board of publication printed 430,300 books and tracts. The American Baptist Publication Society, formed 1839, occupy in Arch Street an ornamental edifice of brown sandstone, 4 stories high. Other religious associations are—Philadelphia Tract, Education, Home Missionary, and several Bible societies, all of which, with the foregoing, celebrate their anniversaries in May.

Benevolent Institutions.—These are numerous, and of superior excellence. The Pennsylvania Hospital, incorporated 1751, is a very extensive establishment, occupying an entire square between Spruce, Pine, Eighth, and Ninth streets, fronting on Pine Street. The main edifice has an entire length of 251 feet, consisting of central building with wings. From 1841 to 1852 it received 13,529 patients, of whom 9,800 were poor; in 1852 it contained 168 inmates, of whom 120 were poor. Its funds arise from legacies and private subscriptions. In front of the building is a fine statue of William Penn, in bronzed lead. A branch of this institution is the Pennsylvania Hospital for the Insane, which, previous to 1841, was a conjoined portion of the hospital, but has since been located on a fine farm of 111 acres, in West Philadelphia, about 2 m. W. Schuylkill r. The principal building and main wings present an E. front of 436 feet, 3 stories high, and are surrounded with 41 acres of beautiful pleasure grounds. The Friends' Asylum for the Insane, near Frankford, founded 1815, has good buildings, etc. The Pennsylvania Institution for the Deaf and Dumb, founded 1820, has occupied, since 1825, its present spacious edifice, corner of Broad and Pine streets, built of granite, with Doric portico, at a cost of \$80,000. In 1852 it had contained 184 pupils, of whom the State of Pennsylvania supported 92, Maryland 13, New Jersey 13, Delaware 8, and the institution 13. The Pennsylvania Institution for the Blind, founded 1833, located in Race, between Schuylkill, Second, and Third streets, has a large edifice, 4 stories high, with beautifully decorated grounds, and contained in 1852, 93 pupils, of whom the State of Pennsylvania supported 45, New Jersey 6, Maryland 5, Delaware 1, the institution 15, with 15 by their own industry, and 6 by their friends. The Wills' Hospital for Diseases of the Eye and Limbs, in Race Street, opposite Logan Square, was founded by the late James Wills, of Philadelphia, with a legacy of \$108,396, bequeathed to the city for that purpose. The building, erected 1832-34, is a neat stone structure, 80 feet long, 50 feet deep, which cost, including lot, \$57,203, and is surrounded by ample and beautiful grounds. From its foundation to 1852, upward of 2,000 persons had been relieved as inmates, and about 5,000 had been treated at their homes. Other hospitals are—St. Joseph's, near Girard College; Christ Church, for indigent females of the Episcopal Church; and the City Hospital, Spring Garden, established in 1815 by the State as a pest hospital, is a brick structure of central building with wings. The U. S. Naval Asylum is previously described.

Orphan and other Asylums, etc.—The principal institution for orphans, that of the Orphans' Society of Philadelphia, founded 1814, is on Race Street and Schuylkill Fifth; a large brick structure, 110 by 153 feet, built fire-proof and in the most substantial manner; erected 1823. The first edifice was destroyed by fire Jan., 1822, when 23 inmates perished. St. John's Male Orphan Asylum (Roman Catholic), is on W. side of the Schuylkill, 2½ m. from Market Street bridge, on the Lancaster turnpike. The building, in Elizabethan Gothic style, is of brown stone; in extreme length 220 feet, consisting of central edifice 4 stories high, and wings 3 stories high, and can accommodate 250 orphans. St. Joseph's Female Orphan Asylum, corner of Spruce and Seventh streets, has an average number of 100 orphans. The Colored Orphans' Asylum, in Thirteenth Street, in 1852 had 67 children. Other asylums are—the Widows' Asylum, instituted 1819, with 60 inmates; St. Ann's Widows' Asylum; Philadelphia Lying-in Asylum; House of Industry, in

Moyamensing, organized 1846, with commodious buildings; Preston Retreat, used by the Foster Home Association, which provided in 1852 for 74 children; and 3 Magdalen asylums. There are 4 dispensaries, of which the principal is the Philadelphia, founded in 1786, which in 1851 treated 7,362 patients. Other charitable institutions are numerous.

The City Alms-house, fronting on W. side of the Schuylkill, comprises 4 buildings, inclosing a rectangular area, each 500 feet long and 3 stories high, besides basement, surrounded by a farm of 10 acres, with out-buildings, etc. The main front facing the city is ornamented by an elegant portico in the Tuscan order, having 6 columns, 5 feet diameter at base and 30 feet high. The average number of paupers in 1851 was 1,513, maintained at an expense of \$97,926, or \$1 04 per week each. Attached is the Children's Asylum, which in 1851 contained about 1,550 children—362 boys and 1,488 girls—sustained at an annual expense of \$70,000. The insane department contained in 1852, 390 inmates; the hospital 349 patients. The total cost of supporting the poor at the alms-house and in the city and districts during 1851, was \$223,977. The Moyamensing Alms-house is the public charity for that district. The Friends' Alms-house is a private institution and has but few inmates.

Municipal Governments. Departments.—The county of Philadelphia is divided into different local governments. The incorporated districts directly adjoining the city proper, viz., Southwark, Moyamensing, Spring Garden, Northern Liberties, Kensington, and Richmond, have similar organizations, each governed by boards of commissioners. The consolidation of these districts with the city proper into one municipal corporation, has for some time been agitated. The government of the city proper, under the general superintendence of the mayor, is composed of police department, select and common councils, board of city commissioners, and board of city and county commissioners.

The police department, exclusive of officers, embraces 200 watchmen. The consolidated police force, established 1850, has 180 policemen, distributed as follows: city 55, Spring Garden 26, Kensington 24, Northern Liberties 21, Southwark 15, Moyamensing 12, Penn 4, Richmond 4, West Philadelphia 3, under 12 lieutenants and the marshal. The number of arrests by this force, from Nov. 21, 1850, to Nov. 1, 1851, exceeded 12,000.

Fire Department.—In 1852 there were 70 companies—engine 35, hose 33, hook and ladder 2—each having about 30 members. The Association for the Relief of Disabled Firemen, established 1835, in 1852 possessed \$17,500 permanently invested; and had previously distributed \$9,000.

The Board of Health, consisting of 13 members, has charge of the sanitary condition of the city, the city hospital, and the lazaretto at quarantine ground, 14 m. below the city. The statistics of the alms-house, county prison, etc., are previously given.

Markets.—These are noted for their excellence, abundant supplies, cleanliness, etc. The principal ranges of stalls are in Market Street, extending from the Delaware to Eighth Street, and from Schuylkill Sixth to Eighth streets, erected in 1836; there are 10 others. The wholesale provision trade is principally carried on in Water Street, and near the wharves, chiefly by extensive firms. The following table shows the number of cattle offered at the Philadelphia cattle market during each of the six years, from 1845 to 1850 inclusive:

Years.	Beesves.	Calves.	Sheep.	Swine.
1845.....	49,290	8,630	25,700	79,000
1846.....	65,940	11,980	29,160	77,900
1847.....	51,500	12,295	36,410	57,159
1848.....	66,370	13,365	46,680	75,270
1849.....	67,410	15,100	48,700	75,500
1850.....	70,520	15,265	33,340	95,450

Fairmount Water-Works.—These water-works which supply the city with water, are situated on E. bank of Schuylkill r., a little N. of the city proper, and have been in

operation since July 1, 1822. A dam extends across the river, 1,243 feet long, erected in 1819. The water backed up by the dam passes into an artificial forebay, 419 feet long, 90 feet wide, and 60 feet deep. The mill-building is of stone, 238 feet long, 56 feet wide, containing 8 double-acting forcing pumps, each of which will lift about 1,250,000 gallons into the reservoirs in 24 hours. The water is elevated 92 feet. The reservoirs, 4 in number, cover 6 acres, are 12½ feet deep, constructed in very substantial manner, together contain 22,031,976 ale gallons, and cost \$138,522. They are for the most part upon artificial ground, raised in some parts 40 feet above the original of the hill. When full, the water is 102 feet above low tide in the Schuylkill, and 56 feet above the highest ground in the city. One of them is divided into 3 sections for the purpose of filtration. The water passes from the reservoirs to the city, through 3 main iron pipes, in diameter 20, 22, and 30 inches respectively; and is then distributed through the city in pipes from 3 to 10 inches diameter, chiefly 3 and 6 inches, of which the total length in January, 1852, was: in city proper 81 m., in districts of Southwark and Moyamensing 26½ m. The average daily consumption of water in the city and districts in 1850, throughout the whole year was 4,785,388 ale gallons; in 1851, 5,690,744 gallons. Water rents in 1851, \$138,874. The entire cost of these works to Dec. 31, 1850, was \$1,615,170; additional expenses in 1851, \$92,380—total cost to 1852, \$1,707,550.

Spring Garden and Northern Liberties Water-Works.—Situated on E. side of the Schuylkill, about 1 m. above Fairmount. The engine-house is of granite, in Egyptian style. The reservoir, 15 feet deep, 115 feet above low-water mark, contains 9,500,000 gallons, and has 2 distributing mains, 16 inches diameter. This work was completed in 1845, at a cost of \$159,075.

Manufactures.—In the amount, and value, and variety of its manufactures, Philadelphia is one of the most important cities in the United States. Many of these are brought to more than an ordinary degree of perfection.

The following statement of the manufactures in the city and county of Philadelphia, is from the census returns of 1850:

	Capital invested.	Raw material incl. fuel.	Annual products.
Phil. City proper.....	\$13,207,695	\$12,665,211	\$26,309,265
North'n Liberties.....	3,922,251	3,764,341	7,073,023
Spring Garden.....	2,913,445	3,046,216	5,376,781
Kensington.....	3,755,711	6,166,071	10,083,904
Southwark.....	2,171,065	2,197,347	3,734,780
Moyamensing.....	530,364	575,237	1,299,201
Townships, etc.....	7,237,380	6,090,733	10,237,308
	\$33,737,911	\$34,505,156	\$64,114,212

The following statements of the number of hands, and their wages, are from the same source:

	Average number of hands employed,		Average monthly cost of labor,	
	Males.	Females.	Males.	Females.
Phila. City proper.....	17,020	9,046	\$445,675	\$97,955
Northern Liberties.....	4,403	1,181	115,657	12,200
Spring Garden.....	4,826	854	93,903	9,538
Kensington.....	6,723	1,890	163,010	13,279
Southwark.....	2,089	167	60,021	1,344
Moyamensing.....	1,970	258	46,568	2,872
Townships, etc.....	6,705	2,377	138,265	71,396
	43,296	15,503	\$1,062,309	\$208,584
Total employees.....	59,099		Month. cost of lab.	\$1,271,393

Among the principal manufactures, are those of machinery, hardware, cutlery, precious metals, cordage, furniture, musical instruments, upholstery, ornamental and other iron furniture, with large sugar refineries and marble works, etc.

Banks and Insurance Companies.—There were in 1852

in the city and districts 13 banks, with aggregate working capital of \$10,650,000, paying fair dividends, with 4 savings banks. Number of fire insurance companies, 10; of fire and marine do., 4; of marine do., 5; of life, annuity, and trust do., 9—total 23.

Railroads, etc.—The following is the list of railroads diverging from Philadelphia, with their lengths: Philadelphia and Trenton R. R., and thence by New Jersey R. R. to New York, 87 m.; Camden and Amboy R. R. to New York, 90 m.; Philadelphia, Germantown, and Norristown R. R., 17 m.; Germantown Branch R. R., 6 m.; Philadelphia, Reading, and Pottsville R. R., 93 m.; with short branch from Schuylkill falls to Port Richmond coal depot. Columbia and Philadelphia R. R., 82 m., which connects at Lancaster by Harrisburg and Lancaster R. R., with the Pennsylvania R. R. to Pittsburg, 857 m.; Philadelphia and Westchester R. R., 80 m., which branches from Columbia and Philadelphia R. R. at Paoli; Philadelphia, Wilmington, and Baltimore R. R., 98 m.

The city derives great advantages from the Schuylkill Navigation Canal, hence to Port Carbon, 108 m.; the Chesapeake and Delaware Canal, and others which contribute to its prosperous trade.

Domestic Trade.—The following statement exhibits the number of coastwise arrivals of vessels, from 1835 to 1851 inclusive:

Years.	Vessels.	Years.	Vessels.	Years.	Vessels.
1835.....	3,573	1841.....	9,246	1847.....	13,069
1836.....	3,764	1842.....	7,973	1848.....	23,921
1837.....	7,476	1843.....	7,659	1849.....	24,594
1838.....	10,860	1844.....	7,717	1850.....	27,035
1839.....	11,188	1845.....	8,029	1851.....	26,484
1840.....	9,706	1846.....	6,018		

The coal trade is by far the most prominent part of the domestic trade of the city. During the calendar year 1851, the arrivals at Port Richmond, the terminus of the Reading R. R., were as follows: 3 ships, 92 barks, 467 brigs, 5,379 schooners, 202 sloops, 1,988 barges—total 8,126.

The following statements of the annual inspections of flour and meal, and of the measurement of the principal grains, from 1846 to 1850 inclusive, are derived from the Report of the Philadelphia Board of Trade of January, 1851:

Years.	Wheat Flour, bbls.	Corn Meal, bbls.	Rye Flour, bbls.
1846.....	674,649.	170,143.	33,520
1847.....	705,951.	300,609.	27,906
1848.....	511,279.	162,988.	24,747
1849.....	633,533.	100,514.	39,109
1850.....	653,823.	103,210.	34,776

Years.	Wheat—bushels.	Corn—bushels.	Oats—bushels.
1846.....	938,923.	665,178.	359,942
1847.....	947,598.	1,093,264.	369,171
1848.....	723,694.	1,302,318.	327,734
1849.....	945,465.	1,233,692.	424,816
1850.....	1,103,206.	1,163,666.	401,396

Annual inspections of tobacco, all American, from 1839 to 1850 inclusive:

Years	Hhds.	Years.	Hhds.	Years.	Hhds.
1839.....	2,552	1843.....	6,733	1847.....	5,934
1840.....	5,298	1844.....	4,418	1848.....	3,218
1841.....	6,210	1845.....	4,132	1849.....	4,451
1842.....	3,540	1846.....	2,527	1850.....	3,745

The imports of cotton, 1847-50, were—in 1847, 41,835 bales; in 1848, 41,516; in 1849, 45,393; in 1850, 50,944 bales.

Foreign Commerce.—In foreign commerce Philadelphia is now the third city in the Union.

The following statement, prepared from official documents, exhibits the value of the imports annually into the port of Philadelphia, and the duties accruing to the United States from 1830 to 1851 inclusive:

Years.	Value of Imports.	Duties.	Years.	Value of Imports.	Duties.
1830..	\$9,525,893.	\$3,537,516	1841..	\$9,945,593.	\$1,933,682
1831..	11,673,755.	4,372,526	1842..	6,201,177.	1,312,843
1832..	10,048,195.	3,500,293	1843..	4,916,535.	1,437,533
1833..	11,153,757.	2,985,096	1844..	8,310,565.	2,951,573
1834..	10,686,073.	2,110,477	1845..	7,491,497.	2,370,516
1835..	11,968,529.	2,501,621	1846..	8,908,615.	2,605,068
1836..	16,116,625.	3,146,458	1847..	12,153,937.	2,904,749
1837..	10,130,838.	1,820,993	1848..	10,700,865.	2,767,459
1838..	10,417,815.	2,109,955	1849..	10,160,479.	2,694,245
1839..	14,753,539.	2,834,984	1850..	13,381,759.	3,412,240
1840..	8,624,484.	1,517,207	1851..	12,795,440.	3,673,124

Foreign Arrivals.—The following table exhibits the total number of arrivals from foreign countries in each year from 1836 to 1851 inclusive:

Years.	Arr.	Years.	Arr.	Years.	Arr.	Years.	Arr.
1836.....	421	1840.....	456	1844.....	472	1848.....	542
1837.....	409	1841.....	504	1845.....	387	1849.....	555
1838.....	464	1842.....	454	1846.....	459	1850.....	513
1839.....	521	1843.....	372	1847.....	657	1851.....	576

Exports.—The number of clearances for foreign countries during the two fiscal years, 1848-49, and 1849-50, each ending June 30, were as follows:

1848-49.		1849-50.					
Vess.	Tons.	Men.	Boys.	Vess.	Tons.	Men.	Boys.
American.	360.	93,322.	3,806.	309.	81,276.	3,189.	138
Foreign	179.	27,005.	1,417.	170.	30,342.	1,430.	86
Total.	539.	120,327.	5,222.	479.	111,618.	4,669.	169

Exports of Breadstuffs.—These, with meat provisions, and manufactures of iron and wool, constitute the greater portion of the exports. The following is a statement of the exports of wheat flour, corn meal, wheat, and corn, from 1831 to 1851 inclusive:

Years.	Wheat flour, bbls.	Corn meal, bbls.	Wheat, bush.	Corn, bush.
1831.....	259,755.	45,532.	61,252.	42,293
1832.....	151,917.	50,323.	2,258.	48,559
1833.....	132,622.	51,908.	—	66,708
1834.....	87,905.	50,018.	—	31,526
1835.....	96,093.	50,869.	2,903.	25,457
1836.....	67,113.	42,798.	—	13,117
1837.....	33,650.	63,303.	—	21,486
1838.....	69,622.	64,002.	—	17,057
1839.....	191,330.	73,500.	37,331.	17,117
1840.....	294,774.	89,456.	280,047.	76,749
1841.....	195,555.	108,522.	56,571.	80,266
1842.....	161,866.	97,834.	87,953.	83,722
1843.....	128,517.	106,434.	82,235.	74,613
1844.....	196,433.	101,356.	23,375.	110,063
1845.....	201,956.	115,101.	86,659.	129,256
1846.....	366,610.	144,537.	245,136.	279,320
1847.....	420,634.	300,531.	523,533.	1,102,210
1848.....	179,507.	140,014.	207,092.	317,150
1849.....	220,736.	91,319.	177,312.	906,823
1850.....	33,024.	94,334.	205,670.	602,630
1851.....	299,466.	65,385.	225,201.	554,545

The exports of rye flour in the same years were as follows:

Years.	R. flour bbls.	Years.	R. flour bbls.	Years.	R. flour bbls.
1831.....	8,493	1838.....	14,211	1845.....	17,093
1832.....	13,040	1839.....	24,527	1846.....	19,739
1833.....	27,939	1840.....	36,471	1847.....	20,407
1834.....	23,795	1841.....	26,366	1848.....	15,537
1835.....	21,038	1842.....	22,530	1849.....	26,536
1836.....	27,429	1843.....	22,303	1850.....	25,054
1837.....	17,276	1844.....	21,904	1851.....	10,505

Tonnage for the two fiscal years 1848-9 and 1849-50, also in 1851, which, though not from any official documents, is doubtless correct:

TONNAGE OF PHILADELPHIA.

	Registered Tons, 95ths.	Enrolled and Licensed Tons, 95ths.	Total Tons, 95ths.
On June 30, 1849	53,521 91	184,265 25	188,087 21
" 1850	64,205 10	142,292 72	206,497 82
" 1851	—	—	222,428 90

Classification and employment of tonnage on June 30, 1849, and June 30, 1850:

REGISTERED TONNAGE.

	Permanent Tons, 95ths.	Temporary Tons, 95ths.	Total Tons, 95ths.
June 30, 1849	40,343 26	13,473 65	53,821 91
" 1850	46,384 91	17,320 14	64,205 10

Of the above, in 1850, 66 tons were propelled by steam; in 1849 none.

ENROLLED AND LICENSED TONNAGE.

	Permanent Tons, 95ths.	Temporary Tons, 95ths.	Coast Trade Tons, 95ths.	St'm Nav'n Tons, 95ths.	Total Tons, 95ths.
June 30, 1849	121,722 85	9,530 93	131,253 83	13,631 22	144,886 83
" 1850	136,577 23	2,581 87	139,159 15	15,475 56	157,293 81

The amount "licensed under 20 tons" in 1849 was 3,011 tons; in 1850, 3,134—all in the coasting trade.

Vessels built in the district of Philadelphia in the two fiscal years, 1848-49, and 1849-50, each ending June 30:

Years.	Ships.	Brigs.	Sch'rs.	Sloops and Steam canal b'as.	Boats, Vessels.	Total Tons.
1848-49	8	2	26	102	9	142
1849-50	7	1	84	107	17	166

Summary of Navigation.—The following table exhibits the total arrivals of vessels at Philadelphia in each year, from 1835 to 1851 inclusive. Their separate divisions into foreign and coastwise vessels are previously given under their proper heads of domestic trade and foreign commerce:

Years.	Years.	Years.
1835	1841	1847
4,002	9,750	18,726
1836	1842	1848
4,185	8,427	24,468
1837	1843	1849
8,185	8,031	25,169
1838	1844	1850
11,344	8,159	27,558
1839	1845	1851
11,709	8,416	27,060
1840	1846	
10,162	6,477	

Population.—In 1749, the city proper had 7,301 inhabitants, and 1,864 dwellings; Southwark 595 population, 150 dwellings; Northern Liberties 244, 62 dwellings. In 1750, city 7,685. In 1777, the British (then in possession of the city, which had decreased in population by the war) took the census of the city, Southwark, and the Northern Liberties, and found their united population 23,734, dwellings 5,985. In 1790, by U. S. census, the city, 23,522; Southwark, 5,661; unincorporated Northern Liberties, 8,337—total 42,520.

Population of Philadelphia, city and county, from 1800 to 1850 inclusive:

	1800.	1810.	1820.	1830.	1840.	1850.
City of Philadelphia	41,220	53,722	63,802	80,458	93,665	121,417

Historical Sketch.—1627. The colony of Swedes which had previously been settled on the Delaware Bay, arrived here and took possession. 1677. First Swede's Church built. 1681. The State was granted to William Penn by James II. king of England, and in same year the first settlers arrived from London. 1682. William Penn arrived. 1683. City laid out, and first post established to Newcastle. 1684. Pop. 2,500. 1685. First two Friends' Meeting-houses erected. 1686. Additional colonists arrived (Baptists). 1695. Christ Church Society (Episcopal) organized, also first Presbyterian. 1698. First Baptist Church erected. 1700. Second Swede Church (now standing) built, and post-office established. 1701. Philadelphia incorporated into a city. 1710. First Market (High St.) built. 1719. "American Weekly Mercury," published by Andrew Bradford. 1723. "Pennsylvania Gazette," published by S. Keiner, subsequently by Dr. Franklin. 1727. Christ Church (now standing) commenced, finished in 1753. 1729. Independence Hall commenced, completed in 1734. 1731. Philadelphia Library Co. organized, opened in 1732, with books brought from London. 1738. First Fire Co. originated. 1743. American Philosophical Society organized. 1751. Pennsylvania Hospital incorporated. 1753. Daily delivery of letters by carriers introduced. 1754. Tri-weekly post established to New York City. 1755. University of Pennsylvania (from 1750 an academy) erected into a college, in 1779 into an university. 1765. Medical Department of University established. 1771. "Pennsylvania Packet" issued weekly, in 1784 daily, first in U. S. 1774, Sept. 4th. First Colonial Congress assembled. 1776. July 4th, 2 p. m. Declaration of Independence read from the steps of the Hall. Autumn of same year, Congress retired to Baltimore. 1777, Sept. 26th. City taken by the British. 1780, March 15th. American Philosophical Society fully established. 1781. Bank of North America chartered by Congress. 1787, 17th May. Convention met. 17th Sept. following, agreed upon a Constitution for U. S. In 1793 and '93. Yellow fever prevailed. 1789. College of Physicians chartered. 1789. Present City Hall erected. 1791. Lancaster Turnpike Co. chartered, finished in four years. 1794. Southwark incorporated. 1801. Navy yard located. 1803. First Hose Co. 1804. Germantown Perkiomen Turnpike Co chartered, completed in two years. 1817. Medical Institute founded. 1809. Masonic Hall erected. 1820. Musical Hall finished. 1822. Fairmount Water-works completed. 1826. House of Refuge incorporated. 1829. U. S. Mint building commenced. 1833. Girard College corner-stone laid, commenced 1st Jan., 1843. 1835. Gas works erected.

PHILADELPHIA, p. v., Hancock co., Ind.: on Sugar cr. and the Indiana Central R. R., 14 m. E. Indianapolis.

PHILADELPHIA, p. v., Marion co., Mo.: 85 m. N. by E. Jefferson City.

PHILADELPHIA, p. v., and cap. Neshoba co., Miss.: about 4 m. S. of Pearl r., 67 m. E. N. E. Jackson. It contains a court-house and jail, and 200 inhabitants.

PHILADELPHIA, t. and p. v., Jefferson co. N. Y.: 138 m.

N. W. Albany. Drained by Indian r. and branches. Surface rolling and well timbered; soil clayey or sandy loam, and mostly fertile. The Watertown and Potsdam R. R. crosses it. The v. is on Indian r., where are several mills. Pop. of t. 1,915.

PHILADELPHIA, p. v., Van Buren county, *Ia.*: on the Des Moines, at the mouth of Lick creek, 61 m. S. S. W. Iowa City.

PHILADELPHIA, p. v. and sta., Monroe co., *Tenn.*: on the East Tennessee and Georgia R. R., 6 m. S. of Loudoun, 133 m. E. by S. Nashville.

PHILADELPHUS, p. o., Robeson co., *N. Car.*: 6S m. S. S. W. Raleigh.

PHILANTHROPY, p. o., Butler co., *Ohio*: 9S m. W. S. W. Columbus.

PHILIPS county, *Ark.* Situate E., and contains 755 sq. m. Drained by St. Francis r. and its chief tributary, Lanquille r., and by branch of White r. Surface varied, but in general is level, in the S. the land is low and subject to inundation; soil, where capable of cultivation, is fertile, and very productive, a dry sandy loam prevailing in the N. It is bounded on the E. by the Mississippi. Farms 409; manuf. 13; dwell. 809, and pop.—wh. 4,341, fr. col. 3, sl. 2,591—total 6,935. *Capital*: Helena. *Public Works*: Southern Pacific R. R. (proposed.)

PHILIPS, t. and p. v., Franklin co., *Me.*: 46 m. N. W. Augusta. Drained by Sandy r., a W. branch of the Kennebec, affording water-power. Surface somewhat broken; soil very productive and well wooded. Pop. of t. 1,673.

PHILIPSBURG, v., Warren co., *N. Jer.*: on the E. side of Delaware r., opposite Easton. It is the terminus of the New Jersey Central R. R., and 7S m. W. by that line from New York. The Belvidere-Delaware R. R. will also have its N. terminus at this point. Considerable business centres here, and the place has a fine prospect of becoming a station of some consequence.

PHILIPSBURG, p. v., Jefferson county, *Ohio*: on the Ohio, opposite Wellsburg, *Virg.*, 122 m. E. by N. Columbus.

PHILIPSBURG, p. v., Centre co., *Penn.*: on Mushanon cr., 20 m. S. of its entrance into the W. branch of Susquehanna r., 82 m. N. W. by W. Harrisburg. The cr. is navigable to the v., which contains several stores, mills, and manufactories of various kinds of iron-ware.

PHILIPSPORT, p. v., Sullivan co., *N. Y.*: on the Delaware and Hudson Canal, 26 m. N. E. Port Jervis, 77 m. S. S. W. Albany.

PHILIPSTOWN, p. v., White co., *Ill.*: about 5 m. W. of Wabash r., 14S m. S. E. by S. Springfield.

PHILIPSVILLE, p. v., Alleghany co., *N. Y.*: on Genesee r., 212 m. W. by S. Albany. It contains several mills, and is 3S m. S. W. of Hornellsville, on the Erie R. R.

PHILIPPA, p. v., and cap. Barbour co., *Virg.*: on the E. fork of Monongahela r., 174 m. N. W. Richmond. It contains an academy, the county buildings, several stores and mills, and 850 inhabitants.

PHILLIPS CREEK, p. o., Alleghany co., *N. Y.*: 21S m. W. by S. Albany.

PHILLIPSTON, t. and p. v., Worcester co., *Mass.*: 5S m. W. by N. Boston. Drained by heads of Ware and Swift rivers, which move several mills and factories. Surface hilly; soil adapted chiefly to grazing. Pop. of t. 809.

PHILLIPSVILLE, p. v., Erie co., *Penn.*: 9 m. S. of Lake Erie, 19S m. N. W. Harrisburg.

PHILL'S CREEK, p. o., Jersey co., *Ill.*: on a S. branch of Macopin cr., 5S m. S. W. by S. Springfield. Name changed to Fidelity.

PHILMOUNT, sta., Columbia co., *N. Y.*: on the Harlem R. R., 31 m. S. of East Albany.

PHILO, p. o., Muskingum co., *Ohio*: 3S m. E. Columbus.

PHILOMATH, p. o., Oglethorpe co., *Ga.*: 5S m. N. by E. Milledgeville.

PHILOMATH, p. v., Union county, *Ind.*: 57 m. E. by S. Indianapolis.

PHILOMONT, p. o., Loudon co., *Virg.*: 94 m. N. by W. Richmond.

PHILOPOLS, p. v., Baltimore co., *Md.*: on the W. side of Great Gunpowder Falls, 84 m. N. by W. Annapolis. The v. is built of stone, and contains a flourishing school. The Baltimore and Susquehanna R. R. passes $\frac{1}{2}$ m. W. of it. Pop. 200. The adjacent district abounds in limestone, is highly cultivated, and inhabited by Friends mostly.

PHIPP'S MILLS, p. o., Venango county, *Penn.*: 164 m. N. W. by W. Harrisburg. Here is a furnace of 1,200 tons annual capacity.

PHIPSBURG, t. and p. v., Lincoln co., *Me.*: on the Atlantic, at the mouth of Kennebec r., W. side, 37 m. S. Augusta. It consists of a long, narrow peninsula, with New Meadow bay on the W., and several islands; has superior facilities for navigation, and is largely engaged in ship-building, the coasting trade, and fisheries. The v. is on the Kennebec, and has a good harbor. Pop. of t. 1,805.

PHENIX, p. v., Oswego co., *N. Y.*: on the E. side of Oswego r., and on the Oswego Canal, 17 m. N. W. of Syracuse, 136 m. W. N. W. Albany. It contains a half dozen stores, as many mills, and 450 inhabitants.

PHENIX, p. o., Armstrong co., *Penn.*: 13S m. W. by N. Harrisburg.

PHENIX, p. o., Edgefield district, *S. Car.*: 5S m. W. Columbia.

PHENIXVILLE, p. v., Chester co., *Penn.*: on the W. side of Schuylkill r., and S. side of French cr., at their confluence, 72 m. E. S. E. Harrisburg. It is supplied with good water-power, and extensively engaged in the manufacture of iron and iron-ware. It has three furnaces of 13,000 tons annual capacity, which use steam, and in 1849 made 8,025 tons of iron; a nail factory, using water-power, which made 1,800 tons of nails; a rail-mill, using steam, which made 5,768 tons of railroad iron, and a rolling-mill, using steam and water, and capable of making 5,300 tons of bar and sheet iron per annum. In these were employed 378 men and boys. It has also several factories and mills, and a population of 2,667. It is 27 m. N. W. of Philadelphia, on the Philadelphia and Reading Railroad, and Schuylkill Navigation Canal.

PHENIXVILLE, p. v., Windham county, *Conn.*: 31 m. E. Hartford.

PIASA, p. o., Macoupin co., *Ill.*: at the head of Big Piasa cr., 54 m. S. S. W. Springfield.

PIATT county, *Ill.* Situate E. centrally, and contains 427 sq. m. Drained by Sangamon river. Surface undulating; soil fertile, producing wheat and Indian corn. It has some prairies, and good timber land. Farms 163; manuf. 2; dwell. 157, and pop.—wh. 1,606, fr. col. 0—total 1,606. *Capital*: Monticello. *Public Works*: Great Western Central Railroad.

PICAYUNE, p. o., Henderson co., *Ill.*: 10 m. E. of the Mississippi, 69 m. N. W. Springfield.

PICKAWAY county, *Ohio*. Situate S. centrally, and contains 542 sq. m. Scioto river passes through it centrally, by which and its branches it is drained. Surface even; soil a fine, deep, vegetable mold, and very fertile. Chief productions, wheat and Indian corn. It has fine pasturage, and large numbers of cattle, sheep, and hogs are fattened and sent to the eastern markets. Farms 1,261; manuf. 71; dwell. 3,600, and pop.—wh. 20,595, fr. col. 413—total 21,008. *Capital*: Circleville. *Public Works*: Cincinnati, Wilmington, and Zanesville R. R.; Ohio Canal, etc.

PICKAWAY PLAINS, p. o., Monroe co., *Virg.*: 131 m. W. Richmond.

PICKENS county, *Ala.* Situate W. toward the N., and contains 985 sq. m. Tombigbee river passes through the S. W. portion, by which and its branches it is drained. Surface undulating; soil fertile, and adapted to cotton, which is the staple. Good crops of wheat and corn are produced, and a quantity of live-stock fattened. Part of the land is wooded. Farms 1,438; manuf. 34; dwell. 1,896, and pop.—

wh. 10,972, fr. col. 6, sl. 10,534—total 21,512. *Capital*: Carrollton.

PICKENS district, *S. Car.* Situate N. W., and contains 997 sq. m. Drained by Seneca river and its branches, it being a tributary of Tugaloo river. Surface hilly and mountainous; soil fertile, making fine grazing land, and adapted to the culture of grain. Chief productions, cotton, tobacco, wheat, and Indian corn. Farms 1,231; manuf. 23; dwell 2,232, and pop.—wh. 13,105, fr. col. 120, sl. 3,679—total 16,904. *Capital*: Pickens. *Public Works*: Rabun Gap R. R. (proposed.)

PICKENS C. H., p. v., and cap. Pickens dist., *S. Car.*: on the W. side of Keowee r., an affluent of the Savannah, 125 m. N. W. by W. Columbia. It contains a court-house, jail, academy, a half dozen stores, and 300 inhabitants. The "Keowee Courier" (dem.) is published weekly.

PICKENSVILLE, p. v., Pickens county, *Ala.*: on the E. side of Tombigbee river, 126 miles W. N. W. of Montgomery. It contains an academy, a dozen stores, and 276 inhabitants.

PICKENSVILLE, p. v., Pickens dist., *S. Car.*: 116 m. N. W. Columbia.

PICKERING, p. o., Chester co., *Penn.*: 63 m. E. by S. Harrisburg.

PICKERINGTON, p. v., Fairfield co., *Ohio*: 14 m. E. S. E. Columbus. Pop. 180.

PICOLATA, p. v., St. John's co., *Flor.*: on the E. bank of St. John's r., 171 m. E. by S. Tallahassee.

PIEDMONT, p. v., Harris co., *Ga.*: about 6 m. E. of Chatahoochee r., 109 m. W. by S. Milledgeville.

PIEDMONT, sta., Allegheny co., *Md.*: 23 m. W. of Cumberland, on the Baltimore and Ohio R. R.

PIERCE county, *Wis.* Situate W., and contains 640 sq. m. Drained by Trimble, Rush, and Isabella rivers; the two latter flowing into Lake Pepin, which forms part of its S. boundary, and the former into the Mississippi on its S. E. border. Surface varied; soil in parts fertile, but particularly so on the river bottoms, which are very productive. It is well timbered with pine and other forest trees. This county has recently been erected from the S. portion of St. Croix.

PIERCE, p. o., Armstrong co., *Penn.*: 133 m. W. N. W. Harrisburg.

PIERMONT, p. v. and sta., Rockland co., *N. Y.*: on W. bank of Hudson r., 115 m. S. by W. Albany, 24 m. N. by E. New York. It is of recent growth, consequent upon its selection as the E. terminus of the Erie R. R. within the State of *N. Y.* It derives its name from the R. R. pier, 1 m. long, and the abrupt hill (the N. termination of the Palisades), upon which it is situated. It contains 2 churches, some stores, and hotels. Its business is for the most part directly connected with the Erie R. R., which has here large depôts, car-houses, machine shops, etc. Pop. about 1,000.

PIERMONT, sta., Orange co., *Vern.*: on Connecticut river, about 2 m. below the mouth of Wait's r., opposite the village of Piermont, *N. Hamp.*, 26 m. N. of White River Junction, on the Connecticut and Passumpsic Rivers R. R.

PIERMONT, t. and p. o., Grafton co., *N. Hamp.*: on the Connecticut, 53 m. N. W. by N. Concord. Several ponds in the E. feed a fine mill-stream flowing into the river. Surface elevated in the E., and soil superior pasture. On the r. are broad rich meadows. Farming is the leading business. Pop. 948.

PIERPONT, t. and p. o., St. Lawrence co., *N. Y.*: 139 m. N. W. by N. Albany. Drained by Racket and Grasse r. Surface broken and heavily timbered; soil clayey loam. Grazing is a leading interest. Pop. 1,459.

PIERPONT, t. and p. o., Ashtabula co., *Ohio*: on the State line, 172 m. N. E. Columbus. Drained by heads of Ashtabula r. Surface slightly broken; soil excellent grass land. Pop. 909.

PIERREPONT, sta., Jefferson co., *N. Y.*: on the Watertown and Rome R. R., 15 m. S. of Watertown.

PIERREPONT MANOR, p. o., Jefferson co., *N. Y.*: 133 m. N. W. by W. Albany.

PIFFARD, p. o., Livingston co., *N. Y.*: 193 m. W. by N. Albany.

PIGEON river, Big, *N. Car.* and *Tenn.*: rises in Haywood co., *N. Car.*, and flows in N. N. W. course, to its confluence with French Broad river, near Newport, *Tennessee*.

PIGEON CREEK, p. o., Ralls co., *Mo.*: on a N. branch of Salt r., 79 m. N. N. E. Jefferson City.

PIGEON FORGE, p. v., Sevier co., *Tenn.*: on a S. branch of Nolichucky r., 181 m. E. by S. Nashville.

PIGEON GROVE, p. o., Columbia co., *Wis.*

PIGEON RIVER, p. o., Haywood county, *N. Car.*: on a S. branch of the Nolichucky so called, 247 m. W. Raleigh.

PIGEON ROOST, p. o., Choctaw co., *Miss.*: 95 m. N. N. E. Jackson.

PIGEON RUN, p. o., Campbell co., *Virg.*: 93 m. W. S. W. Richmond.

PIKE county, *Ala.* Situate toward the S. E., and contains 996 sq. m. Conecuh r. passes centrally through it, by which and its branches it is drained. Surface undulating; soil fertile, and well adapted to cotton, the principal production of the co. Agriculture is the leading pursuit. Farms 1,533; manuf. 5; dwell 1,973, and pop.—wh. 12,102, fr. col. 24, sla. 3,794—total 15,920. *Capital*: Troy. *Public Works*: Girard and Mobile R. R.

PIKE county, *Ark.* Situate toward the S. W., and contains 545 sq. m. Drained by branches of Little Missouri r. Surface uneven; soil fertile, and adapted to grazing. Some cotton is produced. Farms 207; manuf. 2; dwell 306, and pop.—wh. 1,751, fr. col. 0, sla. 110—total 1,861. *Capital*: Zebulon.

PIKE county, *Ga.* Situate W. centrally, and contains 333 sq. m. Flint r. runs on its W. border, by branches of which it is drained. Surface hilly; soil fertile, and well adapted to cotton, which is the chief production. Wheat, corn, and potatoes are raised in large quantities. Apples, pears, and other fruits are also produced in the co. Pine and other timber is grown in the land. It contains some minerals. Farms 507; manuf. 21; dwell 1,474, and pop.—wh. 8,658, fr. col. 61, sla. 5,558—total 14,305. *Capital*: Zebulon. *Public Works*: Macon and Western R. R.

PIKE county, *Ill.* Situate W., and contains 735 sq. m. Drained by affluents of Illinois r., which bounds it on the E., and of the Mississippi, which forms its W. boundary, and which supply good water-power. Surface level, and in the W. low; soil fertile. Chief productions wheat and Indian corn. Pork and beef are exported. Pine and other timber abound. Farms 1,382; manuf. 37; dwell 3,152, and pop.—wh. 13,755, fr. col. 34—total 13,819. *Capital*: Pittsfield.

PIKE county, *Ind.* Situate S. W., and contains 323 sq. m. Drained by Patoka cr. and its S. branch. Surface rolling; soil generally fertile, being a deep and rich loam, and very productive; in the eastern portion it is indifferent, and covered with timber. Chief productions wheat, Indian corn, and tobacco. Pork and beef are exported. It contains fine beds of coal. Farms 909; manuf. 2; dwell 1,261, and pop.—wh. 7,710, fr. col. 10—total 7,720. *Capital*: Petersburg. *Public Works*: Wabash and Erie Canal.

PIKE county, *Ky.* Situate E., and contains 568 sq. m. Drained by W. fork of Big Sandy river and its branches. Surface hilly and in parts mountainous, the Cumberland Range bounding it on the S. E.; soil in general fertile. Chief productions cotton, tobacco, and Indian corn. Farms 445; manuf. 5; dwell 905, and pop.—wh. 5,250, fr. col. 17, sl. 93—total 5,365. *Capital*: Picketon.

PIKE county, *Miss.* Situate S. toward the W., and contains 346 sq. m. Drained by Bogue Chitto river and its branches, and Tangipahoa r., which enters Lake Pontchartrain in *La.*, the adjoining State. Surface even; soil fertile, and adapted to the growth of rice and cotton, which are the chief productions of the co. Farms 553; manuf. 19; dwell 698, and pop.—wh. 4,225, fr. col. 83, sla. 3,102—total 7,300

Capital: Holmesville. *Public Works*: New Orleans, Jackson, and Northern R. R.

PIKE county, *Mo.* Situate E. toward the N., and contains 555 sq. m. Drained by branches of Cuivre river in the S., and by Salt river, which runs through its N. E. portion and falls into the Mississippi, the E. boundary of the co. Surface undulating; soil fertile, favorable to the growth of tobacco, which is a principal production. Sugar and Indian corn are produced largely. Farms 959; manuf. 47; dwell. 1,671, and pop.—wh. 10,229, fr. col. 35, sl. 3,275—total 13,609. *Capital*: Bowling Green.

PIKE county, *Ohio*. Situate S., and contains 502 sq. m. Drained by Scioto r. and its branches. Surface varied, in some parts being hilly, but in general level; soil rich and productive. Staples wheat and Indian corn. Timber is abundant. Farms 781; manuf. 28; dwell. 1,935, and pop.—wh. 10,334, fr. col. 619—total 10,953. *Capital*: Picketon. *Public Works*: Cincinnati, Hillsboro' and Parkersburg R. R.; Bainbridge Branch R. R.; Ohio Canal, etc.

PIKE county, *Penn.* Situate E. toward the N., and contains 569 sq. m. Drained by branches of Delaware river, which bounds it on the E. and N., and by Lackawaxen river. Surface varied, for the most part it is mountainous and rough, but on the Delaware are some level bottoms: soil fertile on the streams, but in general poor. It has some extensive manufactures, and much benefit is derived from the water-power supplied by the streams. Farms 370; manuf. 40; dwell. 964, and pop.—wh. 5,692, fr. col. 159—total 5,581. *Capital*: Milford. *Public Works*: New York and Erie R. R.; Delaware and Hudson Canal.

PIKE, t. and p. v., Wyoming co., *N. Y.*: 216 m. W. Albany. Drained by W. affluents of Genesee r. Surface rolling; soil rich mold and alluvium. Wheat is a good crop, and the pastures are excellent. The v. is on West Key cr., and contains a furnace, several mills, 8 or 10 stores, and about 800 inhabitants. Pop. of t. 2,068.

PIKE, p. o., Washington county, *Mo.*: 112 miles E. by N. Augusta.

PIKE, t. and p. o., Perry county, *Ohio*: 45 m. E. S. E. Columbus. Occupying the water-shed between the Hocking and Muskingum, it is drained by small affluents of both, on which are good mill-sites. Surface varied; soil generally very fertile. Pop. 2,146.

PIKE, t. and p. o., Bradford co., *Penn.*: 109 m. N. N. E. Harrisburg. Drained by Wyalusing creek, which supplies numerous water privileges. Surface broken; soil gravelly. Lumber is a large export.

PIKE CREEK, p. o., Ripley co., *Mo.*: 139 m. S. E. by S. Jefferson City.

PIKE MILLS, p. o., Potter co., *Penn.*: on Pine cr., 108 m. N. N. W. Harrisburg.

PIKE POND, p. o., Sullivan county, *N. Y.*: 83 miles S. W. Albany.

PIKE RUN, t. and p. o., Washington co., *Penn.*: 157 m. W. Harrisburg. Drained by Pike Run, an affluent of the Monongahela, which forms its E. boundary. Surface diversified; soil productive and well tilled. The National Road crosses it.

PIKESVILLE, p. v., Baltimore county, *Md.*: 7 m. N. W. Baltimore, 81 m. N. N. W. Annapolis. It contains an academy, and 250 inhabitants. A little S. of it is a U. S. Arsenal.

PIKETON, p. v., Marion county, *Ind.*: 8 miles N. W. Indianapolis.

PIKETON, p. v. and cap., Pike co., *Ky.*: on the W. fork of Big Sandy r., 139 m. E. by S. Frankfort. It contains a court-house, jail, academy, several stores and mills, and 600 inhabitants.

PIKETON, p. v., and cap. Pike co., *Ohio*: on the left bank of Scioto r., 61 m. S. by E. Columbus. It is 24 m. above the mouth of the r., on the opposite side of which is the Ohio Canal, and contains a court-house, jail, a dozen stores, and 600 inhabitants. The Cincinnati, Hillsboro', and Parkers-

burg R. R. passes through it, 96 m. E. of Cincinnati. The "P. Journal" (whig) is published weekly.

PIKE TOWNSHIP, p. o., Berks co., *Penn.*: on Manatawny creek, 61 m. E. by N. Harrisburg. Here are 2 forges, which in 1849 made 240 tons of blooms.

PIKE VALLEY, p. o., Potter co., *Penn.*: 112 m. N. N. W. Harrisburg.

PIKEVILLE, p. v., and cap. Marion co., *Ala.*: about 3 m. E. of Butahatchie r., 143 m. N. W. Montgomery. It contains the co. buildings, several stores, and 250 inhabitants.

PIKEVILLE, p. v., Chickasaw county, *Miss.*: 118 m. N. E. Jackson.

PIKEVILLE, p. v., and cap. Bledsoe co., *Tenn.*: on the W. side of Sequatchy r., 92 m. E. S. E. Nashville. It contains the county buildings and 300 inhabitants.

PIKATKA, p. v., and cap. Putnam co., *Flor.*: on the W. side of St. John's river, 173 m. E. S. E. Tallahassee. Lat. 29° 38'. It is the place of re-shipment of the exports of the Upper St. John's and Ocklawaka rivers, and has regular steamboat connection with Savannah and Charleston. The exports are sugar, cotton, rice, etc., for the production of which the cane-brake marshes of the St. John's are so famous. It has recently been made a port of delivery.

PILCHER, p. o., Belmont co., *Ohio*: 106 m. E. Columbus.

PILLAR POINT, p. o., Jefferson co., *N. Y.*: on a peninsula on the N. side of the mouth of Black r., 146 m. N. W. by W. Albany.

PILLOW, p. o., Dauphin co., *Penn.*

PILLOWVILLE, p. o., Weakly county, *Tenn.*: 104 m. W. Nashville.

PILOT, p. v., Vermillion co., *Ill.*: 4 m. N. of Vermillion river, 95 m. E. by N. Springfield.

PILOT GROVE, p. o., Lee co., *Ia.*: 68 m. S. Iowa City.

PILOT GROVE, p. o., Hancock co., *Ill.*: 92 m. W. N. W. Springfield.

PILOT GROVE, p. o., Cooper co., *Mo.*: 44 m. W. N. W. Jefferson City.

PILOT GROVE, p. o., Grayson co., *Tex.*: on a small head stream of East Trinity r., 233 m. N. by E. Austin City.

PILOT HILL, p. v., and cap. Fulton county, *Ark.*: 110 m. N. by E. Little Rock. It contains the county buildings and several stores.

PILOT HILL, p. o., Mason co., *Ill.*: 42 m. N. W. Springfield.

PILOT KNOB, St. Francois co., *Mo.*: 21 m. S. S. E. Potosi; a mountain of iron, 1,500 feet high. See Missouri, p. 493.

PILOT KNOB, p. o., Todd co., *Ky.*: 153 m. S. W. by W. Frankfort.

PILOT KNOB, p. o., Crawford co., *Ill.*: 119 m. E. S. E. Springfield.

PILOT PEAK, *Utah Ter.*: a lofty peak in the range of mountains between Great Salt Lake and the Humboldt River Mountains.

PINCKNEY, p. v., Livingston co., *Mich.*: 39 m. S. E. by E. Lansing.

PINCKNEY, p. v., Warren co., *Mo.*: on the N. side of the Missouri, 51 m. E. by N. Jefferson City.

PINCKNEY, p. o., Williamson co., *Tenn.*: 24 m. S. by W. Nashville.

PINCKNEYVILLE, p. v., Tallapoosa co., *Ala.*: on the Hilla-bie Hatchie, a W. affluent of Tallapoosa r., 92 m. N. N. E. Montgomery.

PINCKNEYVILLE, p. v., Gwinnett co., *Ga.*: on the S. side of Chattahoochee r., 91 m. N. W. Milledgeville.

PINCKNEYVILLE, p. v., and cap. Perry co., *Ill.*: on Big Beaucoup cr., a N. branch of Big Muddy r., 124 m. S. by E. Springfield. It contains a court-house, jail, high-school, several stores, and 500 inhabitants.

PINCKNEYVILLE, p. v., Union dist., *S. Car.*: on the W. side of Broad r., near the mouth of Paocelet r., 66 m. N. N. W. Columbia.

PINE BLUFF, p. v., and cap. Jefferson co., *Ark.*: on the right bank of Arkansas r., 36 m. S. S. E. Little Rock. It contains a court-house, jail, academy, and 460 inhabit-

ants. Corn and live-stock are sent down the r. from this pt. to a large amount. The "Arkansas Republican" (dem.) is published weekly.

PINE BLUFF, p. o., Callaway co., *Ky.*: 206 m. W. S. W. Frankfort.

PINE BLUFF, p. o., Dane co., *Wisc.*

PINE BLUFF, p. o., Copiah co., *Miss.*: on a S. branch of Bayou Pierre, 32 m. S. W. Jackson.

PINE BLUFF, p. v., Pulaski co., *Mo.*: near the confluence of Big Piney fork and Gasconade r., 46 m. S. Jefferson City.

PINE BLUFFS, p. o., Red River co., *Tex.*: on Red river, 296 m. N. N. E. Austin City.

PINEBORO', p. o., Marion co., *Flor.*: near the source of Oclawaha r., 187 m. S. E. Tallahassee.

PINE BROOK, p. v., Morris co., *N. Jer.*: on the N. side of Passaic r., 48 m. N. E. by N. Trenton.

PINE CREEK, p. o., Calhoun co., *Mich.*: on an affluent of the St. Joseph's, 53 m. S. W. Lansing.

PINE CREEK, p. o., Tioga co., *Penn.*: 93 m. N. by W. Harrisburg.

PINE CREEK, p. o., Ogle co., *Ill.*: on a W. affluent of Rock r., 153 m. N. Springfield.

PINE FLAT, p. o., Bossier parish, *La.*: 195 m. N. W. Baton Rouge.

PINE GROVE, p. o., St. Tammany par., *La.*: on the E. side of Tangipahoa r., 47 m. E. Baton Rouge.

PINE GROVE, p. o., Steuben co., *N. Y.*: 153 m. W. by S. Albany.

PINE GROVE, p. o., Gallia co., *Ohio*: 82 m. S. E. by S. Columbus.

PINE GROVE, t. and p. v., Schuylkill co., *Penn.*: 31 m. N. W. Harrisburg. Drained by Swatara cr. and branches, which supply abundant water-power. Surface mountainous, and heavily timbered; soil best fitted for grazing. The v. is on the cr., along which a navigable feeder of the Union Canal extends S. W. to its junction, and a branch railroad N. to the Mine Hill R. R. and the coal region. It contains a spacious basin for canal boats, 8 or 10 stores, and 612 inhabitants. A furnace of 1,200 tons capacity is 2 m. distant, and another of 1,900 tons 6 m. distant. In 1849, 78,299 tons, and in 1850, 62,809 tons of anthracite coal were shipped from this point. The capital invested in the coal mines in this t. is \$27,000; monthly wages paid, \$2,024; annual product, \$37,000.

PINE GROVE, p. o., Clark co., *Ky.*: 43 m. E. S. E. Frankfort.

PINE GROVE, p. o., Wetzel county, *Virg.*: 219 m. N. W. Richmond.

PINE GROVE MILLS, p. o., Centre co., *Penn.*: on a branch of Bald Eagle cr., 61 m. N. W. by W. Harrisburg. Near the mills, in Huntingdon county, is a furnace of 1,800 tons capacity.

PINE HILL, p. o., Wilcox county, *Ala.*: 53 m. W. S. W. Montgomery.

PINE HILL, p. o., York co., *Penn.*

PINE HILL, p. v., Talbot co., *Ga.*: on Upatoi cr., and near the Muscogee R. R., 92 m. W. S. W. Milledgeville.

PINE HILL, p. o., Washita par., *La.*: 149 m. N. N. W. Baton Rouge.

PINEVILLE, p. v., Charleston dist., *S. Car.*: about 6 m. S. of Santee r., 71 m. S. E. by E. Columbia.

PINE WOODS, p. o., Madison co., *Ill.*: 73 m. S. by W. Springfield.

PINEY, p. o., Johnson co., *Ark.*: on a N. affluent of the Arkansas r., 76 m. N. W. Little Rock.

PINEY CREEK, p. o., Carroll co., *Md.*: on an affluent of Monocacy r. so called, 58 m. N. W. Annapolis.

PINEY GROVE, p. o., Sampson co., *N. Car.*: 54 m. S. S. E. Raleigh.

PINEREE GROVE, p. o., Kane co., *Ill.*: 169 m. N. N. E. Springfield.

PINK HILL, p. o., Marshall co., *Miss.*: 169 m. N. by E. Jackson.

PINK HILL, p. o., Lenoir co., *N. Car.*: 62 m. E. S. E. Raleigh.

PINKNEY, t. and p. o., Lewis co., *N. Y.*: 129 m. N. W. by W. Albany. Drained by Deer and Sandy creeks. Surface mostly even; soil a fertile, sandy, or clayey loam. A fine grazing t., well timbered. Pop. 1,208.

PINNELLVILLE, p. v., Jones co., *Miss.*: 77 m. S. E. by E. Jackson.

PIN OAK, p. o., Dubuque county, *Ia.*: 67 m. N. N. E. Iowa City.

PINTLALA, p. o., Montgomery co., *Ala.*: on Pintlala cr., a S. tributary of Alabama r., 12 m. S. by W. Montgomery.

PINTLER'S CORNERS, p. o., Ottawa county, *Mich.*: 73 m. W. by N. Lansing.

PINY, p. o., Clarion county, *Penn.*: 142 m. W. N. W. Harrisburg.

PINY GREEN, p. o., Onslow co., *N. Car.*: 89 m. S. E. Raleigh.

PIONEER, p. o., Greene county, *Ill.*: 49 miles S. W. Springfield.

PIONEER, p. o., Williams county, *Ohio*: 139 m. N. W. Columbus.

PIONEER GROVE, p. v., Cedar co., *Ia.*: 22 m. N. E. by N. Iowa City.

PIONEER MILLS, p. o., Cabarras county, *N. Car.*: 106 m. W. by S. Raleigh.

PIPE CREEK, p. o., Madison co., *Ind.*: on a N. affluent of W. fork of White r., 36 m. N. N. E. Indianapolis.

PIPESVILLE, p. o., Bucks co., *Penn.*: on the S. side of Tohickon cr., 4 m. W. of Delaware river, 92 m. E. by N. Harrisburg.

PIPE STONE, t. and p. o., Berrien county, *Mich.*: 107 m. S. W. by W. Lansing. Drained by Pipestone cr. of the St. Joseph's. Surface rolling; soil sandy loam of great fertility. An excellent farming t., with superior grazing lands.

PIQUA, p. v., Miami co., *Ohio*: on the right bank of Miami river, and on the line of the Miami Canal, 66 m. W. by N. Columbus. The Columbus, Piqua, and Indiana R. R., and the Dayton and Michigan R. R. also intersect this point, the first running E. and W., and the latter N. and S. A considerable commerce necessarily centres here, and its prospective advance in manufactures and trade is very encouraging. The waste water of the canal affords it good water-power, and steam-power is also used to a considerable extent. The consumption of coal in the v. in 1850 was less than 4,000 bushels, but in 1851 at least 10,000 bushels were consumed, and the quantity must rapidly increase when the railroads connecting here are completed. This increase may be taken as an index to the increase of its manufactures. Piqua has also a large wholesale and retail trade with the adjacent country. It contains 10 or 12 churches of various denominations, about 600 dwellings, many of brick, and substantially built, and the streets are spacious and regularly laid out. The periodicals published here are the "P. Register" (whig), semi-weekly and weekly; the "Enquirer" (dem.), weekly, and the "Miami Commercial" (neutral). A branch of the State Bank is located here, capital \$100,000, and circulation in Nov., 1851, \$172,908. Pop. in 1840, 1,481, and in 1850, 3,277.

PIQUEA, p. o., Lancaster county, *Penn.*: 41 m. S. E. Harrisburg.

PISCATAQUA river, *N. Hamp.*: rises in Wakefield t., flows S. S. E., and forms the boundary line between *N. Hamp.* and *Me.* Its entrance into the Atlantic is by a broad estuary forming one of the best harbors in the United States. Its upper portions, with its tributaries, are navigable for sloops.

PISCATAQUIS county, *Me.* Situate N. centrally, and contains 3,750 sq. m., comprising a large extent of country stretching to the Canada line. Drained by Piscataquis, Penobscot, Sebec, and Pleasant rivers, by which good water-power is supplied. Surface diversified with numerous lakes and ponds, the largest of which are Moose Head, Pemadumcook, and Chesuncook. Soil fertile on the Piscataquis, and is generally productive on the streams. It has some mountains, among which is Katahdin. Farms 1,779; manuf. 61; dwell. 2,589, and pop.—wh. 14,732, fr. col. 8—total 14,735. *Capital*: Dover.

PISCATAQUIS river, *Me.*: a large W. branch of Penobscot river, rising in S. W. part of Piscataquis co., and flows E. by N. 65 m. to its junction with the Penobscot at Howland; it affords good water-power.

PISCATAQUOG river, *N. Hamp.*: a W. branch of Merrimack

river, flowing through N. part of Hillsboro' county, is a good mill stream.

PISCATAWAY, p. v., Prince George's co., *Md.*: on the S. side of Piscataway river, 7 m. above its mouth, 33 m. S. W. Annapolis.

PISCOLA, p. o., Lowndes co., *Ga.*: near Withlacoochee river, 172 m. S. by W. Milledgeville.

PISCOO lake, *N. Y.*: in Arietta t., Hamilton co., 6 m. long, 2 m. wide, abounding with superior trout and other fish—a noted resort for anglers. The surrounding region also abounds with game.

PISGAH, p. v., Cooper co., *Mo.*: 29 m. W. N. W. Jefferson City.

PISGAH, p. o., Butler co., *Ohio*: 94 m. W. S. W. Columbus.

PISHON'S FERRY, p. o., Kennebec co., *Me.*

PITCAIRN, t. and p. o., St. Lawrence co., *N. Y.*: 127 m. N. W. Albany. Drained by W. Branch of Oswegatchie r. Surface moderately uneven; soil clayey, and adapted to grass growing. Pop. 503.

PITCHER, t. and p. v., Chenango co., *N. Y.*: 107 m. W. Albany. Drained by Otselec r. and branches, on which are good mill-sites. Surface uneven, and somewhat broken; soil fertile loam. The v. is on the r., and contains several stores and mills, and 300 inhabitants. Pop. of t. 1,403.

PITCHER SPRINGS, p. v., Chenango co., *N. Y.*: 103 m. W. Albany. Here are the sulphur springs, known as "Sylvan Springs," an academy, and about 40 houses.

PITCH LANDING, p. o., Hertford co., *N. Car.*: on Wickason cr., a S. affluent of Chowan r., 101 m. E. N. E. Raleigh.

PITMAN, p. o., Schuylkill county, *Penn.*: 43 m. N. E. Harrisburg.

PITT county, *N. Car.* Situate toward the E., and contains 583 sq. m. Drained by Tar river, Tranter's creek, and Grindle's cr., its branches, and Swift's creek. Surface level; soil fertile, and with cultivation highly productive. Staple articles of commerce, cotton and Indian corn. Farms 634; manuf. 41; dwell. 1,315, and pop.—wh. 6,664, fr. col. 100, sl. 6,633—total 13,397. *Capital*: Greenville.

PITTSBORO', p. v., and cap. Chatham co., *N. Car.*: on Robinson's creek, a W. branch of Haw r., 32 m. W. by S. Raleigh. It contains a court-house, jail, academy, and 300 inhabitants.

PITTSBORO', p. v., Hendrick's co., *Ind.*: 18 m. W. N. W. Indianapolis. Named from the preceding v., from which its founder emigrated.

PITTSBURG, p. v., Johnson co., *Ark.*: on the N. side of the Arkansas, 77 m. N. W. by W. Little Rock.

PITTSBURG, p. v., Carroll co., *Ind.*: on the W. bank of the Wabash, 62 m. N. N. W. Indianapolis. A dam for a feeder of the canal furnishes excellent water-power, which is used for a foundry, woolen factory, and several mills.

PITTSBURG, p. v., Van Buren co., *Ia.*: on the right bank of the Des Moines, at the mouth of Chequest cr., 67 m. S. S. W. Iowa City.

PITTSBURG, p. v., Hickory co., *Mo.*: on Pomme de Terre river, a S. branch of the Osage, 76 m. S. W. Jefferson City.

PITTSBURG, p. city, port of entry, and cap. Allegheny co., *Penn.*: at the point formed by the confluence of the Allegheny and Monongahela, the great constituents of the Ohio r., and by railroad 252 m. W. by N. Harrisburg. Lat. 40° 32' N., and long. 80° 02' W. Its suburb, Allegheny City, also occupying a point of land, is located to the north-west and on the opposite side of the Allegheny, and to all intents and purposes, having the same interests, is a part of Pittsburg. South Pittsburg and Birmingham are manufacturing villages on the opposite side of the Monongahela r.; and there are in the vicinity, in every direction within the suburban district, numerous other villages of considerable population and industrial character.

Pittsburg is built on a triangular plain, hemmed in on the rear by several hills. It is a compactly built and large city, but has the dingy appearance which so well indicates the industrial occupations of the inhabitants. The city was

originally laid out on the N. E. bank of the Monongahela, and planned after the model of Philadelphia, with streets running parallel with the rivers, and others crossing them at right angles. The streets on the Alleghany are laid out on a similar plan, and hence a short distance from the Alleghany the old and new streets meet in oblique directions, assimilating its appearance to that of the lower section of New York City. Both rivers are spanned by bridges, which with several steam ferries, connect the city with the suburbs. The Pennsylvania Canal crosses the river by an aqueduct.

The site of Pittsburg is a natural amphitheatre; the rivers flow in channels from 450 to 465 feet below the highest peaks of the neighboring hills. These hills, inclosing the city, are full of bituminous coal, which is easily mined, and affords to the place the vast manufacturing facilities for which it is famed. The coal strata lie 300 feet above the alluvial plain, and the coal formation, as general in the Ohio valley, is horizontal. Along the base of these hills and some distance up their declivity, the city expands itself, and on every side the eye rests upon a scene of rich and varied landscape.

Old Fort Du Quesne, so celebrated in the French and colonial wars, formerly occupied the site on which the city now stands. At the close of the Revolutionary War it was still but an insignificant village. In 1784, the ground, which belonged to the heirs of Penn., was laid out into town lots, and two years later the village contained about 100 dwellings. It was constituted the capital of Alleghany county in 1791. In 1796, its population amounted to 1,395.

Among the public buildings of Pittsburg, the Court-house is conspicuous. It is a handsome building of Græco-Doric architecture, 165 feet long and 100 feet deep, and the height of the dome 148 feet from the ground. About \$200,000 were expended on its construction. The Roman Catholic Cathedral, on Grant's Hill, is also a noble edifice, and many of the other churches, between 70 and 80 in number, are in the best style of ecclesiastical building. It contains, besides, 4 large banking houses, several insurance offices, 3 market-houses, a well furnished museum, numerous large and splendid hotels, railroad depôts, etc. The Western University of Pennsylvania is located here, and numerous associations, which afford great conveniences to the inhabitants in literary and scientific pursuits.

As a manufacturing city, Pittsburg is second in the State only to Philadelphia, and has, perhaps, no competitor in the branches of industry which are carried on in its workshops. It is the Birmingham of America. In 1850 it had 13 rolling-mills, with a capital of \$5,000,000, employing 2,500 hands, consuming 60,000 tons of pig metal, and producing annually bar iron and nails to the value of \$4,000,000; 80 large foundries, with several smaller ones, with an aggregate capital of \$2,000,000 and 2,500 hands, using 20,000 tons of pig iron, and yielding articles valued at \$2,000,000 annually; 2 establishments for manufacturing locks, latches, coffee-mills, scales, and other iron casting, employing 500 hands and a capital of \$250,000, using 1,200 tons metal, and producing annually to the value of \$3,000,000; 5 large cotton factories, and several smaller ones—capital \$1,500,000, hands 1,500, cotton consumed 15,000 bales, and products valued at upward of \$1,500,000 annually; 8 flint-glass manufactories—capital \$300,000, hands 500, and producing various articles of glass, in the manufacture of which 150 tons lead and 200 tons pearl ash are used, to the value of \$400,000 annually; 7 phial furnaces and 11 window-glass factories—capital \$250,000, hands 600, and annual products \$600,000; 1 soda-ash factory, employing 75 hands, and producing annually 1,500 tons; 1 copper smelting house, producing 600 tons refined copper annually, valued at \$850 per ton; 1 copper rolling-mill, producing annually 300 tons sheathing and brazier's copper; 5 white lead factories—capital \$150,000, hands 60, and producing 150,000 kegs annually, worth \$200,000. There are also a number of manufactories of the smaller sizes

of iron, several extensive manufactories of axes, hatchets, etc., and spring-steel, steel springs, axles, anvils, vices, mills, cross-cut and other saws, gun barrels, shovels, spades, forks, hoes, cut tacks, brads, etc. The products of the manufactories in the aggregate are valued at between \$50,000,000 and \$60,000,000 annually. There are consumed about 12,000,000 bushels of coal annually, worth \$600,000, and an equal quantity is exported from the city, giving employment constantly to 4,000 hands.

As a trading mart, Pittsburg has many advantages. At the junction of two great rivers and at the head of the noble Ohio, it has access by water to the whole valley drained by the tributaries of the Mississippi. With the Atlantic sea-board it has connection by means of the Pennsylvania Canal and Railroad, over which an immense transit and internal commerce is carried on, and its connection with Lake Erie is provided for. Westward long lines of railroad bring it into juxtaposition with all the great cities in that direction, and open to it highways to and beyond the Mississippi. Its harbor is well suited for the river commerce. The "Orleans," the first steamer that plied on the western waters, was built here in 1811, since which period the commerce of the city has steadily increased. In 1850 there were owned in Pittsburg 43,476 tons of shipping, of which 44,571 tons were navigated by steam. In 1851 its steam marine amounted to 47,311 tons. This is employed on the rivers in transporting passengers and goods to the various ports. Eighteen steamers and 4 schooners (3,238 tons) were built in 1850. These are floating palaces, the admiration of every one, and at any one time 30 or 40 of such may be seen at the wharves destined to various ports on the Ohio, Mississippi, and Missouri.

The retail trade of the city is also on a vast scale, the stores filled with the most splendid manufactures, articles of apparel, and all the luxuries of the table and household, are not surpassed by those of even the palaces of New York and Philadelphia. The amount of business transacted is immense and ever increasing. Pittsburg has also a large wholesale trade, and many western merchants make up their stocks at this point, instead of traveling to the great cities of the sea-board. There are four banks in the city—capital \$2,418,000.

Pittsburg is governed by a mayor, aldermen, and common council; its police is excellent, and crime and destitution less frequent than in most other large places. Perhaps this freedom from social evils may be attributed chiefly to the prosperity of the manufactures and trades. It has a well organized fire department, and numerous military companies, many of which are uniformed and well drilled. The streets, stores, and dwellings are lighted with gas, which is manufactured from bituminous coal, and water is supplied from the Alleghany river by means of machinery, and distributed through iron pipes. For civil purposes the city is divided into nine wards. The value of taxable property in the city in 1851 amounted to \$65,000,000.

The means of education provided in the city are ample. In 1850 there were 36 public schools, and 10 others were being built: teachers, 71—males 19, and females 52; scholars, 5,144—males 2,583, and females 2,561; cost of instruction, \$17,506, of which \$2,804 was from the State school fund, and the remainder raised by taxation. These schools are conducted under the general law. There are also other academies, seminaries, grammar schools, etc., chiefly private establishments, at which large numbers of children are educated.

The periodical press of Pittsburg consists of 11 daily newspapers, 2 tri-weeklies, 17 weeklies, 1 semi-monthly, and 2 monthlies. The dailies are, the "P. Gazette" (whig), the "Morning Post" (dem.), the "Staats Zeitung" (whig), the "P. Courier," the "Tribune and Express" (indep.), the "Chronicle," the "Commercial Journal" (whig), the "Dispatch" (indep.), the "Transcript and Commercial Advertiser," the "P. American" (whig), and the "Daily News,"

The tri-weeklies are, the "P. Gazette" and "Commercial Journal," editions of the dailies of the same title; the weeklies are, the "P. Gazette," the "Saturday Post," the "Staats Zeitung," the "Commercial Journal," the "Dispatch," and the "P. American," editions of dailies, "Der Freiheits Freund," the "P. Mercury," the "Iron City" (lit.), the "American Protestant" (relig.), the "Ledger," the "Christian Herald" (Meth.), the "Saturday Visitor" (lit.), the "Presbyterian Advocate," the "Preacher," the "P. Christian Advocate" (Meth.); the semi-monthly is the "Friend of Missions," and the monthlies are "Sibbet's Western Review" and the "Missionary."

The population of Pittsburg in 1810 was 4,763; in 1820, 7,243; in 1830, 12,563; in 1840, 21,115; and in 1850, 46,601. In these sums the population of the city proper is only stated. The city, including its metropolitan district, in 1850 contained 85,771, and in January, 1853, 110,241 inhabitants.

Alleghany City, the principal suburb, of which a brief mention has been made in its alphabetical order, is in itself a considerable place. It enjoys the same facilities for manufactures, commerce, and internal trade as Pittsburg, but perhaps not in so advantageous a degree, and is occupied chiefly in the same pursuits. Here is assembled a population of 21,261 souls; in 1830 the city contained only 2,801, and in 1840, 10,059 inhabitants, being an increase of 260.2 per cent., and the increase in the decade ending 1850, was 110.7 per cent. Alleghany, indeed, has at the latter date the same population as Pittsburg had in 1840. The Western Penitentiary of Pennsylvania is located in Alleghany, and is a very expensive edifice. The Western Theological Seminary (Presb.) is also established here. It occupies a commanding eminence, overlooking the surrounding country. The building is 150 feet long, the centre being 4 stories and the wings 3 stories high. There are about 30 churches in the city, several of them large and elegant structures. The city has a considerable commercial and manufacturing interest. Hardware and cutlery, iron work of all kinds, machinery, cotton goods, and numerous other valuable manufactures are produced. The whole manufacturing capital of the place is nearly \$4,000,000, and goods to a great value are annually produced. It is divided into 4 wards, and is governed by a mayor and common council. In 1850 it had 27 common schools, with 42 teachers and 3,270 scholars—1,730 males, and 1,540 females.

Birmingham borough is another important suburb. It is on the S. side of the Monongahela, about 1 m. distant from the centre of Pittsburg. It has considerable manufactures of iron, glass, pottery, etc., and a population of 3,742. A bridge and a ferry connect it with the city. *South Pittsburg*, adjoining it on the W., has 1,883 inhabitants, and *East Birmingham* has 1,694 inhabitants. *Manchester*, on the W. of Alleghany City, has 1,775. *Laurenceville*, on the Alleghany, above Pittsburg, 1,746, and *Sharpburg*, higher up on the opposite side the river, 1,229 inhabitants.

PITTSBURG, t. and p. o., Coos co., *N. Hamp.*: in the extreme N. of the State, 192 m. N. by E. Concord. It comprises a large territory of rugged surface, densely wooded, and contains Connecticut lake, and several head streams of the Connecticut. Pop. 425.

PITTSFIELD, p. v., and cap. Pike co., *Ill.*: 64 m. W. by S. Springfield. It lies on the high land between the Mississippi and the Illinois, about 11 m. W. of the latter, and has a healthy location and a growing trade. It contains a court-house, jail, academy, and 15 or 20 stores. The "Pike County Free Press" (whig), and "The Union" (dem.), are issued weekly.

PITTSFIELD, t. and p. v., Berkshire co., *Mass.*: 114 m. W. Boston. Lat. N. 42° 26' 55", long. W. 73° 15' 36". Surface of t. is elevated, and moderately uneven; soil fertile loam. Drained by Housatonic r. and the Pontoosuc, which unite near the v., and afford water-power. The v. is pleasantly situated near the centre of the t., and is surrounded with

beautiful scenery. It is regularly laid out and handsomely built. At its centre is a handsome square, containing 4 acres, upon the sides of which are some of the principal buildings. There are four churches, 1 bank, capital \$200,000, and numerous factories. The Berkshire Medical Institution, located here, was founded in 1823. In 1850 it had 5 professors, 103 students, and 473 alumni. The Young Ladies' Institute is a very flourishing and popular seminary, it occupies 3 handsome buildings, and is surrounded with beautiful grounds. The Western R. R. passes through the v., 151 m. from Boston, and 49 m. from Albany. Here terminates the Housatonic R. R., from Bridgeport, 110 m.; and here commences the Pittsfield and North Adams R. R., 20 m. long. Three newspapers are issued weekly—"Mass. Eagle" (whig), "P. Sun" (dem.), "Culturist and Gazette" (agric.) Pop. in 1840, 3,747; in 1850, 5,872.

PITTSFIELD, t. and p. v., Somerset county, *Me.*: 37 m. N. N. E. Augusta. Drained by Sebasticook r. and branches. Surface moderately uneven; soil fertile and well tilled. Pop. of t. 1,166.

PITTSFIELD, t. and p. o., Washtenaw co., *Mich.*: 59 m. S. E. Lansing. Drained by Mullett's cr. of Huron r. Surface undulating; soil deep loam, and very productive. A plank-road passes through to Ypsilanti, and the Michigan Central R. R. passes along the N. border. Pop. 1,232.

PITTSFIELD, t. and p. v., Merrimac co., *N. Hamp.*: 11 m. E. N. E. Concord. Drained by Suncook r., which supplies water-power. Surface diversified. Catamount Mountain occupies the S. E. part; soil fertile. The v. contains a bank, an academy, and several manufactories. Population of t. 1,928.

PITTSFIELD, t. and p. o., Otsego co., *N. Y.*: on the E. side of Unadilla r., 82 m. W. Albany. Drained by Wharton's creek, which with the river affords good water-power. Surface hilly; soil sandy loam, and in the valleys very fertile. An excellent farming and grazing t., with growing manufactories. Pop. 1,591.

PITTSFIELD, t. and p. o., Lorain county, *Ohio*: 95 m. N. N. E. Columbus. Drained by the W. branch of Black river, which supplies water-power. The Toledo, Norwalk, and Cleveland R. R. passes on its N., and the Cleveland, Columbus, and Cincinnati R. R. on its S. border. Pop. 1,063.

PITTSFIELD, p. v., Warren co., *Penn.*: on Broken Star creek, a W. affluent of Alleghany r., 169 m. N. W. Harrisburg. It is on the proposed route of the Sunbury and Erie Railroad.

PITTSFIELD, t. and p. o., Rutland county, *Verm.*: 34 m. S. by W. Montpelier. Drained by branches of White river. Surface mountainous; soil fit only for grazing, which is the chief pursuit. Pop. 512.

PITTSFORD, t. p. o., and sta., Hillsdale co., *Mich.*: 66 m. S. by E. Lansing. Drained by Tiffin's cr. and St. Joseph's, of the Maumee, which furnish water-power. Surface somewhat hilly; soil admirably adapted to grain. The sta. is 23 miles W. of Adrian, on the Michigan Southern R. R. Population 1,223.

PITTSFORD, t. and p. v., Monroe co., *N. Y.*: 232 m. W. by N. Albany. Drained by branches of Irondequoit cr. Surface undulating; soil calcareous loam, and very productive of wheat. The Rochester and Syracuse R. R. and the Erie Canal cross the t., on both of which is the v. 10 m. E. of Rochester. It contains 3 churches, 2 academies, several stores and warehouses, and about 800 inhabitants. Population of t. 2,061.

PITTSFORD, t. and p. v., Rutland co., *Verm.*: 44 m. S. W. Montpelier. Drained by branches of Otter cr., which flows through and furnishes much water-power. Surface uneven, but not rugged; soil sandy or clayey loam, and very fertile. Wool-growing is a leading interest. Marble and iron ore are abundant. The v. contains several stores, and is 11 m. N. of Rutland, on the Rutland and Burlington R. R. Pop. of t. 2,026.

PITTS GROVE, t. and p. o., Salem co., *N. Jer.*: 47 m.

S. S. W. Trenton. Drained by Maurice r. and its branches, which move several mills. Surface level or undulating; soil sandy or gravelly loam, of ordinary fertility. It has some excellent timber land. Pop. 1,151. Upper Pit's Grove was taken from it in 1846.

PITTS POINT, p. o., Bullitt co., *Ky.*: 52 m. W. S. W. Frankfort.

PITTSBORO, t. and p. v., Kennebec county, *Me.*: on the E. side of Kennebec r., 7 m. S. by E. Augusta. Surface pleasantly diversified; soil very productive. A superior farming and grazing t., with a sufficiency of water-power, abundance of timber, and a brisk river trade. The v. is in the N. W., on the r. Pop. of t. 2,823.

PITTSBORO FERRY, p. o., Luzerne county, *Penn.*: on the Susquehanna, at the mouth of Lackawannoc creek, 91 m. N. E. by N. Harrisburg.

PITTSBORO, p. v., Hunterdon co., *N. Jer.*: 26 m. N. W. by N. Trenton. It is on a W. affluent of the S. branch of Raritan river, which moves several mills in the vicinity.

PITTSBORO, t. and p. v., Rensselaer co., *N. Y.*: 21 m. N. E. Albany. Drained by Tomhenick cr., and in the N. by Hoosic river, which furnish fine water-power. Surface uneven, and in parts broken; soil loam, mixed with sand or gravel, and productive under good cultivation. It has numerous manufactories of cotton and woolen goods, lumber, etc. The Troy and Ruland R. R., and Troy and Boston R. R. cross the N. part; on the latter is P. sta., 14 m. from Troy. Pop. of t. 3,732.

PITTSYLVANIA county, *Virg.* Situate S., and contains 866 sq. m. Drained by Dan and Banister rivers, and branches of Staunton r. Surface rolling; soil fertile, and generally productive. Chief products, wheat, Indian corn, and tobacco. Farms 1,524; manuf. 109; dwell. 2,504, and pop.—wh. 15,263, fr. col. 735, sl. 12,798—total 28,796. *Capital*: Competition.

PITTSYLVANIA COURT-HOUSE, p. v., and cap. Pittsylvania co., *Virg.*: on a N. branch of Banister r., 112 m. W. S. W. Richmond. It contains a court-house and jail, an academy, several stores and workshops, and 350 inhabitants. The village is called also Competition.

PLACER county, *Calif.* Situate E. middle, and contains 1,600 sq. m. Drained by American r. and its forks. Surface mountainous, with considerable valleys. Fremont's lake lies on its E. border. Mining is the chief business. Numerous races, flumes, and canals have been constructed, costing nearly \$2,000,000. Capital in mines, \$1,427,567, and in other industries and trade about \$600,000. Pop. in 1852—wh. 6,945, negroes 80, mulattoes 9, Indians 730, Chinamen 8,019—total 10,733; Europeans 634. *Capital*: Auburn.

PLACERVILLE, p. v., and cap. El Dorado co., *Calif.*: 113 m. N. E. by E. San Francisco, 91 m. E. N. E. Vallejo. Its site is uneven, and is chiefly a mining settlement. It is one of the oldest mining towns in the State, and in 1853 is pretty well worked out, and consequently there is not as much doing as formerly. Pop. varies from 2 to 4,000. The houses are generally of clapboards. Supplies are obtained from Sacramento. The "El Dorado News" was published weekly in 1852.

PLAIN, t. and p. o., Wayne county, *Ohio*: 71 m. N. N. E. Columbus. Drained by Muddy fork and Killbuck cr. of Walhonding r., which furnish numerous mill privileges. Surface varied; soil fertile and well tilled. A superior farming t., containing several manufacturing villages. The Ohio and Pennsylvania R. R. passes through it. Pop. 2,375.

PLAIN, p. o., Greenville district, *S. Car.*: 97 m. N. W. Columbia.

PLAINFIELD, p. o., Bates county, *Mo.*: 124 m. W. S. W. Jefferson City.

PLAINFIELD, t., p. v., and sta., Windham co., *Conn.*: on E. side of Quinnebaug r., 39 m. E. by S. Hartford. Drained by Moosup r., which affords good water-power. Surface mostly even; soil rich sandy loam. A superior farming t., containing various manufactories. The Norwich and Wor-

cester R. R. crosses the W. part, on which is the sta., 16 m. N. of Norwich. The Hartford, Providence, and Fishkill R. R. also crosses it. The v. occupies high ground, and contains a flourishing academy, founded in 1738. Population of t. 2,730.

PLAINFIELD, p. v., Will co., *Ill.*: on a W. affluent of Des Plaines r., 148 m. N. E. by N. Springfield. The creek affords good water-power, which is used to turn several flouring and saw mills. The v. contains a high school, several stores, and about 600 inhabitants.

PLAINFIELD, p. v. and sta., Hendricks co., *Ind.*: on White Lick cr. and the Terre Haute and Richmond R. R., 14 m. W. by S. Indianapolis. A plank-road also leads to Indianapolis.

PLAINFIELD, t. and p. v., Hampshire co., *Mass.*: 97 m. W. by N. Boston. Drained by heads of Westfield r., which afford water-power. Surface elevated and mountainous; soil fertile in the valleys and generally good pasturage. Many small manufactories are operated. Pop. of t. 814.

PLAINFIELD, p. v., Livingston co., *Mich.*: 34 m. E. S. E. Lansing.

PLAINFIELD, t. and p. v., Sullivan co., *N. Hamp.*: on the Connecticut, 45 m. N. W. Concord. Surface moderately uneven; soil fertile. Large tracts of meadow border the river and its affluents. A bridge crosses the river. The Queechee Falls are opposite this town. At Meriden village, in the E., is Kimball Union Academy, a large and highly popular institution, incorporated in 1813. Pop. of t. 1,392.

PLAINFIELD, t. and p. v., Essex county, *N. Jer.*: 32 m. N. E. by N. Trenton. Drained by Green Brook, which forms its W. boundary, and E. by Robinson's branch of Rahway r. Surface mostly even; soil clayey and fertile. The New Jersey Central R. R. passes through the W. part, on which and Green Brook is the v., 23 m. S. W. New York. It contains an academy, several mills and factories, and about 1,000 inhabitants. The "P. Gazette" and "P. Union" (whig) are published here weekly. Pop. of t. 2,446. Set off from Westfield in 1847.

PLAINFIELD, t. and p. v., Otsego co., *N. Y.*: on the E. side of Unadilla r., 73 m. W. by N. Albany. Surface undulating, and in parts broken; soil sandy and calcareous loam, and very fertile. Farming and grazing engross attention. Population 1,449.

PLAINFIELD, p. v., Cumberland co., *Penn.*: on the S. side of Conedogwinit cr., 21 m. W. by S. Harrisburg.

PLAINFIELD, p. v., Coshocton co., *Ohio*: on Wills cr., an E. branch of the Muskingum, 65 m. E. by N. Columbus.

PLAINFIELD, t. and p. v., Washington co., *Verm.*: 9 m. E. Montpelier. Drained by Onion r., which affords water-power. Surface rough; soil good. It contains a noted mineral spring. The village is on the river, where are several mills. Pop. of t. 808.

PLAIN GROVE, p. o., Laurence county, *Penn.*: 179 m. W. N. W. Harrisburg.

PLAINSBORO', p. v., Middlesex county, *N. Jer.*: 12 miles N. E. by N. Trenton.

PLAINS OF DURA, p. o., Sumter co., *Ga.*: 102 m. S. W. Milledgeville.

PLAINSVILLE, p. v., Luzerne co., *Penn.*: on Susquehanna r., 91 m. N. E. by N. Harrisburg.

PLAIN VIEW, p. o., Macoupin co., *Ill.*: 46 m. S. S. W. Springfield.

PLAIN VIEW, p. o., King and Queen co., *Virg.*: 23 m. N. E. Richmond.

PLAINVILLE, p. v., Hartford co., *Conn.*: 14 m. W. S. W. Hartford. It has a brisk trade, and contains several furnaces and factories. The Hartford, Providence, and Fishkill R. R. here intersects the New Haven and Northampton (or Canal) R. R., 27 m. N. of New Haven.

PLAINVILLE, p. v., Onondaga co., *N. Y.*: about 1 m. W. of Seneca r. and 2 m. E. of Cross lake, 183 m. W. by N. Albany.

PLAINVILLE, p. v. and sta., Hamilton co., *Ohio*: on the

Little Miami R. R., 10 m. from Cincinnati, 92 m. S. W. Columbus.

PLAINWELL, p. o., Allegan co., *Mich.*: 61 m. W. S. W. Lansing.

PLAINSTOW, t. p. o., and sta., Rockingham co., *N. Hamp.*: 87 m. S. E. Concord. Surface uneven; soil very fertile, a black loam mixed with clay and gravel. The Boston and Maine R. R. crosses the t., on which is the sta., 12 m. S. W. Exeter. Pop. 748.

PLANK ROAD, p. o., Onondaga co., *N. Y.*: 127 m. W. by N. Albany.

PLANK ROAD, p. o., Wayne co., *Mich.*: 62 m. E. S. E. Lansing. Formerly LIVONIA.

PLANTER'S, p. o., Attala co., *Miss.*: 72 m. N. E. by N. Jackson.

PLANTER'S, p. o., Phillips co., *Ark.*: 9 m. W. of the Mississippi, 56 m. E. by S. Little Rock.

PLANTER'S HALL, p. o., Breckenridge county, *Ky.*: on Rough cr., 97 m. W. S. W. Frankfort.

PLANTER'S STAND, p. o., Madison county, *Ga.*: 76 m. N. Milledgeville.

PLANTERSVILLE, p. v., Perry co., *Ala.*: on Mulberry cr., a N. affluent of the Alabama, 43 m. W. N. W. Montgomery.

PLANTSVILLE, sta., New Haven co., *Conn.*: 6 m. E. of New Haven, on the New Haven and New London R. R.

PLAQUEMINE parish, *La.* Situate S. E., and contains 967 sq. m. It is well watered by the Mississippi r., which flows through it from N. to S., forming the delta in its S. portion. Surface in general is low, particularly in the S., where it is subject to inundation from the Gulf of Mexico; the land in most parts being not more than 10 or 12 feet above the Gulf level; soil indifferent, but on the banks of the river are some fertile tracts, producing large quantities of Indian corn, rice, and sugar, which form the chief articles of commerce. The coast is indented with numerous bays, the principal of which are West, East, Ronde, Garden Island, and Black bays. It also contains some lakes. Farms 205; manuf. 0; dwell. 615, and pop.—wh. 2,221, fr. col. 390, sl. 4,779—total 7,390. *Capital*: Fort Jackson.

PLAQUEMINE, p. v., Iberville par., *La.*: on the right bank of the Mississippi, 23 m., by the river, below Baton Rouge. It has a fine situation, is neatly built, and carries on a large trade with the rich plantations that lie back of it, and ships great quantities of cotton here. It was the former capital of the parish, and contains about 500 inhabitants.

PLAQUEMINE bayou, *La.*: an outlet of the Mississippi r., 117 m. above New Orleans. The waters of the Mississippi river only flow through it when that river is at its extreme height.

PLAQUEMINE BRULEE, p. o., St. Landry par., *La.*: 67 m. W. Baton Rouge.

PLATEA, p. o., Erie county, *Penn.*: 208 miles N. W. Harrisburg.

PLATO, p. v., Cattaraugus co., *N. Y.*: 246 m. W. by S. Albany.

PLATO, p. o., Lorain county, *Ohio*: 102 m. N. by E. Columbus.

PLATO, p. v., Iroquois co., *Ill.*: on the W. side of Iroquois r., 121 m. N. E. by E. Springfield.

PLATTE county, *Mo.* Situate W. toward the N., and contains 393 sq. m. Drained by Platte r. and other tributaries of the Missouri, which forms its S. and W. boundary. Surface level in general, in the W. it rises, and terminates in high bluffs on the Mississippi; soil fertile, well adapted to grain and grazing. It has some good timber land. Farms 1,651; manuf. 64; dwell. 2,490, and pop.—wh. 13,997, fr. col. 50, sl. 2,793—total 16,345. *Capital*: Platte City. *Public Works*: Platte County R. R.

PLATTE river, *Nebr. Ter.* See description of Nebraska r. in NEBRASKA, p. 526.

PLATTE CITY, p. v., and cap. Platte co., *Mo.*: on Platte river, 18 m. above its entrance into the Missouri, 148 m. W. N. W. Jefferson City. It contains a court-house, jail,

academy, several stores and manufactories, and 500 inhabitants.

PLATTEKILL, t. and p. v., Ulster co., *N. Y.*: 69 m. S. by W. Albany. Drained E. by Old Man's kill, and W. by branches of Walkkill. Surface uneven; soil loam, mixed with gravel and clay. A grazing t., well wooded. The v. is 5 m. W. of the Hudson, and contains several stores. Pop. of t. 1,993.

PLATTE RIVER, p. o., Buchanan co., *Mo.*: on the r. of that name, at the mouth of Castile creek, 147 m. W. N. W. Jefferson City.

PLATTEVILLE, t. and p. v., Grant co., *Wis.*: 62 m. W. S. W. Madison. Drained by Little Platte r. Surface uneven, and soil of moderate fertility. It is rich in veins of lead and copper ores, which are extensively and profitably wrought. The v., on a branch of Little Platte, was incorporated in 1841, and contains an academy, printing-office, a number of large stores, and 800 inhabitants.

PLATTSBURG, p. v., and cap. Clinton county, *Mo.*: on Smith's fork of Platte river, 187 m. N. W. by W. Jefferson City. It contains a court-house, jail, U. S. land office, and 450 inhabitants.

PLATTSBURG, t. p. v., port, and cap. Clinton co., *N. Y.*: on W. shore of Lake Champlain, at the head of Cumberland bay, and on both sides of Saranac river, 147 m. N. Albany. Lat. N. 44° 42'; long. W. 73° 26'. The surface of the town slopes toward the lake; soil clay loam, and very productive. Drained by Saranac river and Salmon creek. Black marble of excellent quality is quarried in the t. At the v. the Saranac descends by a succession of falls about 40 feet, thus affording very great water-power, which is used by numerous factories of cotton and woolen goods, tanneries, and by saw, grist, fulling, marble, and flouring mills, etc. The v. contains the co. buildings, 4 churches, an incorporated yeoman and academy. Two newspapers are published weekly, "P. Republican" (dem.), "Clinton County Whig"—the "Northern Lancet" (med.), is issued monthly. Here commences the Plattsburg and Montreal R. R., 62 m. in length, which is an important avenue of trade. The Plattsburg and Whitehall R. R. is in construction. Plattsburg is renowned as the scene of a most severe battle during the late war with Great Britain, on Sept. 11, 1814, in which the Americans, under Gen. Macomb, achieved a signal victory. At the same time, in the bay, before the v., a great naval victory was won under Com. M'Donough. A little S. of the village is P. Barracks, an U. S. Military Post. Pop. of t. 5,618.

PLATTVILLE, p. v., Kendall co., *Ill.*: 143 m. N. N. E. Springfield.

PLEASANT, p. o., Switzerland co., *Ind.*: 78 m. S. E. by S. Indianapolis.

PLEASANT, p. o., Kent county, *Mich.*: 53 m. W. N. W. Lansing.

PLEASANT, t. and p. o., Putnam co., *Ohio*: 86 m. N. W. Columbus. Pop. 714.

PLEASANT BROOK, p. o., Otsego county, *N. Y.*: 58 m. W. Albany.

PLEASANT CREEK, p. o., Taylor co., *Virg.*: 189 m. N. W. Richmond.

PLEASANT DALE, p. o., Hampshire co., *Virg.*: 147 m. N. N. W. Richmond.

PLEASANT EXCHANGE, p. o., Henderson co., *Tenn.*: 84 m. W. by S. Nashville.

PLEASANT FLAT, p. o., Mason co., *Virg.*: 258 m. W. N. W. Richmond.

PLEASANT GAP, p. o., Vernon co., *Mo.*: 111 m. W. by S. Jefferson City.

PLEASANT GAP, p. o., Centre co., *Penn.*: 66 m. N. W. Harrisburg.

PLEASANT GAP, p. o. Cherokee co., *Ala.*: 133 m. N. by E. Montgomery.

PLEASANT GREEN, p. o., Cooper co., *Mo.*: about 3 m. E. of La Mine r., 45 m. W. N. W. Jefferson City.

PLEASANT GROVE, p. o., Des Moines co., *Ia.*: 49 m. S. S. E. Iowa City.

PLEASANT GROVE, p. o., Pickens co., *Ala.*: about 3 m. W. Sipsey r., 106 m. W. N. W. Montgomery.

PLEASANT PLAINS, p. o., Lincoln county, *Tenn.*: 71 m. S. by E. Nashville.

PLEASANT PLAINS, p. o., Scott co., *Mo.*: on the N. point of the tongue of land separating lakes St. Mary and St. John, 172 m. S. E. by E. Jefferson City.

PLEASANT PLAINS, p. o., Duchess co., *N. Y.*: 55 m. S. Albany.

PLEASANT PLAINS, p. o., Cumberland co., *N. Car.*: 51 m. S. S. W. Raleigh.

PLEASANT PRAIRIE, p. o., Greene county, *Mo.*: 95 m. S. S. W. Jefferson City.

PLEASANT RETREAT, p. o., Lumpkin co., *Ga.*: 121 m. N. N. W. Milledgeville.

PLEASANT RETREAT, p. o., Scotland co., *Mo.*: 131 m. N. Jefferson City.

PLEASANT RIDGE, p. o., Greene co., *Ala.*: about 3 m. S. of Sipsey r., 112 m. W. N. W. Montgomery.

PLEASANT RIDGE, p. o., Tippah co., *Miss.*: 183 m. N. N. E. Jackson.

PLEASANT RIDGE, p. o., Greene county, *Ind.*: 68 m. S. W. Indianapolis.

PLEASANT RIDGE, p. o., Hot Springs co., *Ark.*: 46 m. S. W. by S. Little Rock.

PLEASANT RIDGE, p. o., Hamilton county, *Ohio*: 97 m. S. W. by W. Columbus.

PLEASANT RUN, p. o., Hamilton county, *Ohio*: 98 m. S. W. by W. Columbus.

PLEASANT RUN, p. o., Dallas co., *Tex.*: on a W. branch of Trinity r. so called, 173 m. N. N. E. Austin City.

PLEASANT SHADE, p. o., Smith co., *Tenn.*: 47 m. E. by N. Nashville.

PLEASANT SHADE, p. v., Perry co., *Ill.*: on the W. side of Little Muddy cr., a N. branch of Big Muddy r., 124 m. S. by E. Springfield.

PLEASANT SITE, p. o., Franklin county, *Ala.*: 162 m. N. W. by N. Montgomery.

PLEASANT SPRING, p. o., Howard county, *Ind.*: 47 m. N. Indianapolis.

PLEASANT UNITY, p. v., Westmoreland co., *Penn.*: on the W. side of Chestnut Ridge, 131 m. W. Harrisburg.

PLEASANT VALE, p. v., Pike co., *Ill.*: on the bluffs, about 5 m. E. of the Mississippi, 73 m. W. by S. Springfield. On Key's cr., near the v., is a salt spring, 20 feet in diameter, forming a pond from which salt is made, but not to a very large amount.

PLEASANT VALLEY, p. o., Chittenden co., *Verm.*: 87 m. N. W. Montpelier.

PLEASANT VALLEY, p. o., Washington co., *Ala.*: about 3 m. W. of Tombigbee r., 118 m. W. S. W. Montgomery.

PLEASANT VALLEY, p. v., Litchfield county, *Conn.*: 19 m. W. N. W. Hartford.

PLEASANT VALLEY, p. o., Yell co., *Ark.*: on the S. side of Magazine Mountain, 69 m. W. N. W. Little Rock.

PLEASANT VALLEY, p. o., Scott co., *Ind.*: about 2 m. W. of the Mississippi, 56 m. E. by S. Iowa City.

PLEASANT VALLEY, p. v., Jo Daviess co., *Ill.*: on the W. side of Plum r., 114 m. N. by W. Springfield. The Galena and Chicago Union R. R. passes a few miles N. of it.

PLEASANT VALLEY, p. o., Sussex co., *N. Jer.*: 51 m. N. Trenton.

PLEASANT VALLEY, p. o., Morgan county, *Ohio*: 62 m. E. S. E. Columbus.

PLEASANT VALLEY, sta., Muskingum co., *Ohio*: 7 m. W. of Zanesville, on the Central Ohio R. R.

PLEASANT VALLEY, t. and p. v., Dutchess co., *N. Y.*: 62 m. S. Albany. Drained by Wappinger's creek and branches, which furnish many water privileges. Surface various, in parts much broken; soil sandy or gravelly loam, and mostly fertile under cultivation. A grazing t., with valuable manufactures of flour, cotton goods, etc. The v. is on the cr., and contains a cotton factory and other mills, and about 700 inhabitants. Pop. of t. 2,226.

PLEASANT VALLEY, p. o., Bucks co., *Penn.*: on Durham creek, 86 m. E. by N. Harrisburg.

PLEASANT VALLEY, p. o., Lancaster dist., *S. Car.*: on an E. branch of Catawba r., 74 m. N. Columbia.

PLEASANT VALLEY, p. o., Wayne co., *Tenn.*: 57 m. S. W. Nashville.

PLEASANT VALLEY, p. o., Wright co., *Mo.*: 83 m. S. by W. Jefferson City.

PLEASANT VALLEY, p. o., Fairfax county, *Virg.*: 92 m. N. Richmond.

PLEASANT VALLEY MILLS, p. o., Nicholas co., *Ky.*: 55 m. E. N. E. Frankfort.

PLEASANT VIEW, p. o., Juniata county, *Penn.*: 34 m. W. N. W. Harrisburg.

PLEASANT VIEW, p. v., Shelby co., *Ind.*: on the W. side of Sugar cr., 14 m. S. E. Indianapolis. A plank-road passes through to Indianapolis.

PLEASANT VIEW, p. o., Jackson county, *Virg.*: 243 m. W. N. W. Richmond.

PLEASANT VIEW, p. o., Schuyler co., *Ill.*: 53 m. W. N. W. Springfield.

PLEASANT VIEW, p. o., Darlington dist., *S. Car.*: 59 m. E. by N. Columbia.

PLEASANTVILLE, p. v. and sta., Westchester co., *N. Y.*: on the E. side of Saw Mill r., 97 m. S. Albany. The sta. is 34 m. N. of New York, on the Harlem R. R.

PLEASANTVILLE, p. v., Rockingham co., *N. Car.*: 91 m. N. W. by W. Raleigh.

PLEASANTVILLE, p. v., Fairfield co., *Ohio*: 27 m. E. S. E. Columbus.

PLEASANTVILLE, p. v., Marion co., *Ind.*: about 5 m. S. of the Des Moines, 90 m. W. by S. Iowa City.

PLEASANTVILLE, p. v., Bucks county, *Penn.*: 89 m. E. Harrisburg.

PLEASANTVILLE, p. v., Harford co., *Md.*: on the E. side of Little Gunpowder Falls, 37 m. N. by E. Annapolis. It contains several mills.

PLEASANTVILLE, p. v., Hickman co., *Tenn.*: on Cane cr., an E. branch of Buffalo r., 57 m. S. W. by W. Nashville.

PLEASANT WOODS, p. o., Delaware county, *Ind.*: 47 m. E. N. E. Indianapolis.

PLEASUREVILLE, p. v. and sta., Henry county, *Ky.*: 18 m. N. W. by W. Frankfort. On the Louisville and Frankfort R. R., 45 m. E. of Louisville.

PLENTITUDE, p. o., Anderson co., *Tex.*: 173 m. N. E. by E. Austin City.

PLESIS, p. v., Jefferson co., *N. Y.*: about 5 m. S. of St. Lawrence r., 148 m. N. W. Albany.

PLINY, p. o., Greenville dist., *S. Car.*: 93 m. N. W. by W. Columbia.

PLINY, p. o., Putnam county, *Virg.*: 248 m. W. N. W. Richmond.

PLOVER, t., p. v., and cap. Portage county, *Wis.*: 101 m. N. by W. Madison. Drained by Wisconsin r., and several branches, Big Plover r., an E. branch, being the chief. It has a productive soil, and excellent water-power. The v. is near the confluence of the Big Plover and Wisconsin, and is the co. seat. Pop. of t. 462.

PLOWDEN'S MILLS, p. o., Sumter district, *S. Car.*: on a W. branch of Black r., 49 m. E. S. E. Columbia.

PLUCKEMIN, p. v., Somerset co., *N. Jer.*: 29 m. N. by E. Trenton.

PLUM, p. o., Cook co., *Ill.*: 131 m. N. N. W. Springfield.

PLUM island, *N. Y.*: off Oyster Pond Point, a narrow gut separating it from Long Island. It is 3 m. long and a mile wide, and on its W. end is a lighthouse. The surface is stony and bare of trees. It belongs to the t. of Southold, Suffolk co.

PLUM BAYOU, p. o., Jefferson co., *Ark.*: 23 m. S. S. E. Little Rock.

PLUM BROOK, p. o., Macomb co., *Mich.*: 89 m. E. by S. Lansing.

PLUMB CREEK, p. o., Caldwell county, *Tex.*: on a branch of the San Marcos, so called, 26 m. S. S. E. Austin City.

PLUM CREEK, p. o., Clinton county, *Mo.*: on a branch of Crooked r., 126 m. N. W. by W. Jefferson City.

PLUMBER, p. o., Venango co., *Penn.*: 165 m. N. W. by W. Harrisburg.

PLUM GROVE, p. o., Blount co., *Tenn.*: 161 m. E. S. E. Nashville.

PLUM HILL, p. o., Washington county, *Ill.*: 95 m. S. Springfield.

PLUMMER'S MILL, p. o., Fleming co., *Ky.*: 69 m. E. of Frankfort.

PLUM RIVER, p. o., Jo Daviess co., *Ill.*: on W. Plum r., 119 m. N. by W. Springfield.

PLUMSTEADVILLE, p. v., Bucks co., *Penn.*: 94 m. E. by N. Harrisburg. The t. of Plumstead is drained by Toluokon and Neshaming creeks, and has a hilly surface with a soil of sandy loam. There are several mills on these creeks. Pop. of t. 2,157.

PLYMOUTH county, *Ind.* Situate toward the N. W., and contains about 900 sq. m. Drained by Floyd's r., a tributary of Sioux, which forms its S. W. boundary. Surface undulating, the larger portion is prairie; soil fertile. Set off since 1850.

PLYMOUTH county, *Mass.* Situate S. E., and contains 640 sq. m. Drained by North r., and branches of Taunton r. Surface generally level; soil productive, and in some parts very fertile, and the cultivation of the land is much attended to. Iron ore abounds in some regions, and there are some extensive factories connected therewith. Chief products, wheat, Indian corn, and potatoes. A large quantity of salt is produced in this co. Fishing is much followed by the inhabitants. Farms 2,447; manuf. 511; dwell. 9,506, and pop.—wh. 55,220, free col. 477—total 55,697. *Capital*: Plymouth. *Public Works*: Old Colony R. R.; Fall River R. R.; Cape Cod Branch R. R.; Bridgewater Branch R. R., etc.

PLYMOUTH, t., p. v., and sta., Litchfield co., *Conn.*: on the E. side of Naugatuck r., 21 m. W. by S. Hartford. Drained by affluents of the r., which afford good water-power. Surface hilly; soil gravelly loam, well fitted for grazing. It manufactures cotton and woolen goods, iron ware and clocks, the last to a great amount. A copper mine has been opened in the E. The Naugatuck R. R. follows the r., on which is the sta., 10 m. N. of Waterbury. The Hartford, Providence, and Fishkill R. R. crosses it. Pop. of t. 2,568.

PLYMOUTH, p. v., Hancock co., *Ill.*: 5 m. W. of Crooked cr., 79 m. W. N. W. Springfield.

PLYMOUTH, p. v., and cap. Marshall co., *Ind.*: on the N.

bank of yellow r., 24 m. E. of its junction with the Kankakee, 107 m. N. by W. Indianapolis. Plank-roads connect it with the Northern Indiana R. E., and diverge in various directions, bringing to it a large trade. It contains a court-house, jail, bank, 15 or 20 stores, and 800 inhabitants.

PLYMOUTH, t. and p. v., Penobscot co., *Me.*: 42 m. N. E. Augusta. Drained by Sebasticook r. and branches, affording water-power. Soil productive and heavily timbered. The Kennebec and Penobscot R. R. crosses it. Pop. of t. 925.

PLYMOUTH, t. p. v., port of entry, and cap. Plymouth co., *Mass.*: on Plymouth bay, 35 m. S. E. by S. Boston. Lat. N. 41° 57' 26", long. W. 70° 40' 19". This t. is memorable as the landing place of the pilgrims, Dec. 22d, 1620, who founded this the first settlement in New England. See MASSACHUSETTS, *Historical Sketch*. The bay is spacious, but shallow; the harbor is secure, though difficult of access. The t. is of large size, is for the most part a sandy and hilly tract covered with forests of pine, with some oak, and contains numerous ponds. The soil near the coast is generally good. The v. in the N. part of the t. is pleasantly situated, is compactly built, chiefly of wood, and has many handsome buildings. It contains a court-house, jail, and 6 churches. The interesting relics of the Pilgrim Colony are carefully preserved in Pilgrim Hall, a handsome granite building, erected in 1824, for this purpose, within which the Pilgrim Society annually commemorate the landing of their forefathers. A portion of the rock on which they landed is placed in front of the hall. Plymouth is largely engaged in the fisheries, and has also some manufactures. There are two banks, cap. \$200,000; 1 insurance co., cap. \$50,000. Two newspapers are published weekly, viz., "Plymouth Rock" (dem.), and "Old Colony Memorial" (whig). The Old Colony R. R. extends hence to Boston, 87 m. On 30th June, 1850, the total tonnage of P. district was 10,722 tons, of which 8,967 ts. were registered, and 6,755 ts. enrolled and licensed. Of registered t., 3,905 ts. were permanent, and 59 ts. temporary. The enrolled and licensed tonnage consisted of 6,631 ts. permanent (in cod-fishery 4,879 ts., in mackerel fishery 1,752 ts.); and 124 ts. licensed under 20 tons (in coasting trade 91 ts., in cod-fishery 33ts.). During the year previous, the total of clearances for foreign countries was 10—544 tons; total of entrances, do. the same statistics, all of which were foreign vessels. Vessels built during the year, 5—579 tons. Pop. in 1840, 5,281, and in 1850, 6,925.

PLYMOUTH, t. and p. v., Wayne co., *Mich.*: 62 m. E. S. E. Lansing. Drained by W. branch of Rouge r., which supplies excellent mill-sites. Surface undulating; soil clayey, and productive of all the grains. Salt springs are found, and flour largely manufactured. The v. is on the W. side of the river, and contains 8 or 10 stores and 500 inhabitants. Pop. of t. 2,431.

PLYMOUTH, p. v., Lowndes co., *Miss.*: on the W. side of Tombigbee r., 126 m. N. E. Jackson.

PLYMOUTH, t. p. v., and one of the caps. Grafton county, *N. Hamp.*: 38 m. N. by W. Concord. Drained E. by Pemigewasset r. and N. by Baker's r. Surface rugged and broken; soil of average fertility. The Boston, Concord, and Montreal R. R. follows both streams and passes the v., situate near their confluence, 51 m. (by route) from Concord. The v. contains a court-house, academy, and several stores. Population of t. 1,290.

PLYMOUTH, t. and p. o., Chenango co., *N. Y.*: 94 m. W. Albany. Drained by W. branches of Chenango r. Surface undulating; soil fertile loam, yielding excellent grain and vegetables. The Chenango r. and Canal are near the E. border. Pop. 1,551.

PLYMOUTH, p. v., port of entry, and cap. Washington co., *N. Car.*: on the S. side of Roanoke r., about 8 m. from its entrance into Albemarle Sound, 104 m. E. by N. Raleigh. A large trade in lumber is carried on, and a number of coasting vessels are built and owned here. The v. contains a court-house and jail, an academy, several warehouses and

lumber yards, a dozen stores, and 951 inhabitants. The "P. News" (whig) is published weekly.

PLYMOUTH, t. p. o., and sta., Richland co., *Ohio*: 63 m. N. by E. Columbus. Surface elevated, being the watershed between the Ohio and Lake Erie, and drained by heads of Huron and Walonding rivers, which work several mills. The Cleveland, Columbus, and Cincinnati R. R. and the Sandusky, Mansfield, and Newark R. R. cross the t. and intersect its S. border. Plymouth sta. is in the N. part and 86 m. S. of Sandusky, on the latter road. Pop. 1,664.

PLYMOUTH, t. and p. o., Luzerne co., *Penn.*: on the W. side of Susquehanna r., 75 m. N. E. Harrisburg. Drained by Harvey's and Tobeys' creeks, which afford good mill-seats. Surface mountainous in part, and in part rich valleys. It is well timbered, and contains an abundance of coal. The N. branch of the Pennsylvania Canal passes along the r.

PLYMOUTH, t. and p. o., Windsor co., *Verm.*: 52 m. S. Montpelier. Surface mountainous, giving rise to numerous streams, which furnish fine mill-sites; soil well timbered, and chiefly grazing land. Limestone and soapstone are abundant. In the limestone rocks are several curious caves. Pop. 1,226.

PLYMOUTH, t. and p. o., Sheboygan co., *Wis.*: 65 m. N. E. Madison. Drained by Sheboygan r., which here makes a large bend and lies on its W., N., and E. borders. Surface level, in parts marshy and mostly well timbered; soil clayey or sandy loam, of good fertility.

PLYMOUTH HOLLOW, p. v., Litchfield co., *Conn.*: 23 m. W. S. W. Hartford. It contains several factories and stores.

PLYMOUTH MEETING, p. v., Montgomery co., *Penn.*: about 2 m. E. of Schuylkill r., 53 m. E. by S. Harrisburg. Inhabited by Friends, who have a church here. Limestone and marble are abundant in the vicinity.

PLYMPTON, t. p. v., and sta., Plymouth co., *Mass.*: 81 m. S. S. E. Boston. Drained by an E. branch of Taunton r. Surface varied; soil very productive under good cultivation. Cotton and woolen goods, cabinet-ware, mechanical and agricultural implements, etc., are made. The sta. is 7 m. N. W. of Plymouth on the Old Colony R. R.

POAST TOWN, p. v., Butler co., *Ohio*: 73 m. W. S. W. Columbus.

POCAHONTAS county, *Va.* Situate toward the N. W., and contains 576 sq. m. Lizard r. passes through it from S. E. to N. W., by which it is drained. Surface level; soil fertile. Set off since 1850.

POCAHONTAS county, *Virg.* Situate N. W. centrally, and contains 726 sq. m. Drained by Greenbrier r. Surface hilly and much broken; soil barren in general. Chief productions, Indian corn and oats. Farms 353; manuf. 4; dwell. 553, and pop.—wh. 3,303, fr. col. 23, sl. 267—total 3,598. Capital: Huntersville.

POCAHONTAS, p. v., and cap. Randolph co., *Ark.*: 124 m. N. E. by N. Little Rock. It lies on Big Black r., at the head of navigation, about 60 m. above its mouth, and has a considerable business in the shipping of wheat, corn, and live-stock. It contains the county buildings and 400 inhabitants.

POCAHONTAS, p. v., Bond co., *Ill.*: on the E. border of Looking-glass prairie, 2 m. W. of Shoal cr., 63 m. S. Springfield. It is on the Mississippi and Atlantic R. R., 124 m. W. by S. Terre Haute.

POCASSET, p. v., Barnstable co., *Mass.*: on the E. side of Buzzard's bay, 63 m. S. S. E. Boston.

POCKET, p. o., Moore co., *N. Car.*: on a S. branch of Deep r., 41 m. W. S. W. Raleigh.

POCOMOKE river and bay, *MD.*: the river rises in Cypress Swamp, on the line between Delaware and Maryland, and runs in a S. W. direction 70 m. to Pocomoke bay, an arm of Chesapeake bay. It is navigable for small vessels to Snowhill.

POCOTALIGA, p. o., Beaufort dist., *S. Car.*: on a small stream of that name flowing into Broad r., 75 m. S. Columbia.

POCOTALIGO, p. o., Kanawha co., *Virg.*: on the river of that name, 236 m. W. N. W. Richmond.

POCOTALIGO river, *S. Car.*: a tributary of the Black r. from the north-west.

POCOTALIGO river, Kanawha co., *Virg.*: rises in Gilmer county, and after a S. W. course of 60 m., through a district abounding in bituminous coal and iron ore, for one-third of which it is boatable, empties into the Great Kanawha, about 40 m. from its mouth.

POESTENKILL, t. and p. v., Rensselaer co., *N. Y.*: 9 m. E. N. E. Albany. Drained by branches of the Poestenkil, which supply good mill-sites. Surface hilly and broken; soil mostly grazing land. It has valuable deposits of marl and several manufacturing establishments. The v. contains several mills and factories. Pop. of t. 2,092.

POESTENKILL river, *N. Y.*: rises in Rensselaer county and flows S. W. into the Hudson at Troy, affording many good mill-sites. It has falls on the side of Mount Ida, around which a small manufacturing village has sprung up.

POINDEXTER, p. v., Marion co., *Ga.*: 83 m. S. W. by W. Milledgeville.

POINDEXTER'S, sta., Bedford co., *Virg.*: 13 m. W. of Lynchburg, on the Virginia and Tennessee R. R.

POINDEXTER'S STORE, p. o., Louisa county, *Virg.*: 47 m. N. W. Richmond.

POINSETT county, *Ark.* Situate toward the N. E., and contains 1,444 sq. m. Drained by Lanquille r. and St. Francis bayou, tributaries of St. Francis r. Surface generally level; soil fertile, and adapted to corn. Farms 264; manuf. 0; dwell. 350, and pop.—wh. 2,026, fr. col. 3, sl. 279—total 2,305. *Capital*: Bolivar.

POINSETT lake, *Flor.*: an expansion of the St. John's r., or a lake through which that river flows, in lat. 25° 23'.

POINSETT lake, *Minn. Ter.*: a small lake emptying into Sioux river.

POINT CEDAR, p. o., Clark co., *Ark.*: 64 m. W. S. W. Little Rock.

POINT COMMERCE, p. v., Greene co., *Ind.*: on the W. side of White r., at the junction of Eel r., 58 m. S. W. Indianapolis. It is 42 m. S. E. of Terre Haute by the Wabash and Erie Canal, and has several mills and stores.

POINT CONCEPTION, *Calif.*: the most W. point of Santa Barbara co. Lat. 34° 26' 56"N., and long. 120° 25' 40' W.

POINT COUPEE parish, *La.* Situate S. E. centrally, and contains 429 sq. m. Drained by Bayou Fardoche and branches of Atchafalaya river; this latter forms its W. boundary, and along its banks are some fertile tracts of land. Surface level, and in general lying low, which makes it liable to inundation; a great portion of the county is consequently unfit for cultivation; soil where fit for tillage is fertile, and yields a rich harvest. Chief productions Indian corn, cotton, and sugar. In the S. E. is Fausse river, which probably at one time was a bed of the Mississippi. Farms 243; manuf. 0; dwell. 760, and pop.—wh. 2,967, fr. col. 561, sl. 7,511—total 11,339. *Capital*: Point Coupee.

POINT COUPEE, p. v., and cap. Point Coupee, par. *La.*: on the right bank of the Mississippi, nearly opposite St. Francisville, 36 miles by the river above Baton Rouge. Here are a court-house, jail, and a printing-office, from which the "P. C. Echo" (dem.) is issued weekly. The levee extends from this point to New Orleans. The inhabitants of the village are mostly wealthy, and of French descent, and their plantations stretch for miles along the river.

POINT DOUGLASS, p. v., Washington co., *Minn.*: at the confluence of St. Croix r. with the Mississippi, 14 m. S. E. St. Paul.

POINT ISABEL, p. v., Clermont co., *Ohio*: 92 m. S. W. Columbus.

POINT ISABEL, p. v. and port of entry, Cameron county, *Tex.*: 289 m. S. by E. Austin City. It lies near the S. end of the Laguna Del Madre, a few miles W. of Brazos Santiago, and about 15 N. of the mouth of the Rio Grande. It is a depot for military and naval stores, and a landing

place for steamers destined up the Rio Grande, and for many of the Gulf ports. The tonnage of the district in 1850 was 401 tons engaged in steam navigation, and 274 tons in the coasting trade.

POINT JEFFERSON, p. o., Morehouse parish, *La.*: 169 miles N. N. W. Baton Rouge.

POINT MEERS, p. o., Johnson co., *Ark.*: on Little Piney creek, 85 m. N. W. Little Rock.

POINT OF ROCKS, p. v. and sta., Frederick co., *Md.*: on Potomac river, and the Chesapeake and Ohio Canal, 57 m. W. N. W. Annapolis. The station is 12 m. E. of Harper's Ferry, on the Baltimore and Ohio R. R. The scenery along the river is magnificent.

POINT PENINSULA, p. o., Jefferson county, *N. Y.*: on a peninsula between Chamont bay and Lake Ontario, 149 m. N. W. by W. Albany.

POINT PETER, p. o., Searcy co., *Ark.*: on Blechland cr., 86 m. N. Little Rock.

POINT PETER, p. o., Oglethorpe co., *Ga.*: 63 m. N. by E. Milledgeville.

POINT PLEASANT, p. v., New Madrid co., *Mo.*: on the Mississippi, 59 m. below the mouth of the Ohio, 202 m. S. E. Jefferson City. It contains several stores and warehouses, and has a good landing, from which great quantities of corn are sent down the river.

POINT PLEASANT, p. o., Ocean co., *N. Jer.*: on the N. end of Squam Beach, 83 m. E. by S. Trenton.

POINT PLEASANT, p. v., Clermont co., *Ohio*: on the Ohio, at the mouth of Indian cr., 23 m. above Cincinnati, 90 m. S. W. by S. Columbus. A large quantity of pork is packed here.

POINT PLEASANT, p. v., Bucks co., *Penn.*: on Delaware river and canal, at the mouth of Tohickon cr., 32 m. S. of Easton, 95 m. E. by N. Harrisburg. It contains several mills and about 200 inhabitants.

POINT PLEASANT, p. v., and cap. Mason co., *Virg.*: on the Ohio, immediately above the mouth of the Great Kanawha, 263 m. W. N. W. Richmond. It contains an academy, court-house, steam flouring-mill, steam saw-mill, several stores and tanneries, and about 500 inhabitants. Here, on the 10th of October, 1774, was fought the "Battle of Point Pleasant," the bloodiest ever fought with the red men in the State. A large body of warriors of several tribes, under the famous chief Cornstalk, attacked Colonel Lewis, commanding 1,100 Virginians; but after fighting all day, were forced back across the Ohio. The Covington and Ohio R. R. will have its W. terminus here.

POINT PRAIRIE, p. o., Franklin co., *Ark.*: on the W. side of Six Mile cr., 97 m. W. N. W. Little Rock.

POINT REPUBLIC, p. v., La Salle co., *Ill.*: 124 m. N. N. E. Springfield.

POINT SMITH, v., Franklin county, *Ala.*: on the S. side of Tennessee river, at the entrance of Big Bear creek, 193 m. N. W. by N. Montgomery. Here is a landing for steamboats and a number of stores and warehouses. The staples of the district adjacent are shipped here for the Southern markets. The p. o. is CHICKASAW.

POINT WORTHINGTON, p. v., Washington co., *Miss.*: on the Mississippi, 79 m. N. W. by N. Jackson.

POKAGON, sta., Cass co., *Mich.*: on the Michigan Central R. R., 43 m. W. of Kalamazoo.

POKE BAYOU, p. o., Independence co., *Ark.*: near a N. affluent of White r. so called, 86 m. N. N. E. Little Rock.

POKE RUN, p. o., Westmoreland co., *Penn.*: 183 m. W. Harrisburg.

POLAND, p. v., Clay county, *Ind.*: 2 m. E. of Eel r., 46 m. S. W. by W. Indianapolis.

POLAND, t. and p. v., Cumberland co., *Me.*: 84 m. W. S. W. Augusta. Drained by branches of Little Androscoggin r., its N. boundary, which supply water-power. Surface uneven; soil very fertile. A superior farming t., with abundance of timber and various manufactures. The Atlantic and St. Lawrence R. R. crosses the N. part. Pop. of t. 2,660.

POLAND, p. v., Herkimer co., *N. Y.*: on West Canada creek, 74 m. W. N. W. Albany. It contains several cotton factories and a cutlery establishment.

POLAND, t. and p. o., Mahoning co., *Ohio*: on the E. line of the State, 143 m. N. E. by E. Columbus. Drained by Mahoning r. and branches, which supply fine water privileges. The Pennsylvania and Ohio Canal, and the Cleveland and Mahoning R. R. pass through it. Pop. 2,126.

POLAND CENTRE, p. v., Chautauque co., *N. Y.*: 268 m. W. by S. Albany. Pop. of Poland t., 1,174.

POLK county, *Ark.* Situate W., and contains 1,114 sq. m. Drained by head branches of Wachita r. and branches of Red r. Surface undulating; soil productive; it is generally well adapted to grain. Timber is found of good quality. Farms 155; manuf. 1; dwell. 189, and pop.—wh. 1,196, fr. col. 00, sl. 67—total 1,268. *Capital*: Panther.

POLK county, *Ia.* Situate S. centrally, and contains 720 sq. m. Des Moines r. passes through it from S. E. to N. W., by which and its branches it is drained. Surface undulating; soil fertile. Set off since 1850.

POLK county, *Mo.* Situate S. W. centrally, and contains 576 sq. m. Drained by Pomme de Terre r. and Lindley's creek, branches of Osage r. and E. fork of Sac r., by which good water-power is supplied. Surface diversified—in some parts hilly; soil fertile, and adapted to grazing. Fruit is produced in large quantities, and there is some good timber land in the co. Farms 543; manuf. 6; dwell. 907, and pop.—wh. 5,804, fr. col. 13, sl. 369—total 6,156. *Capital*: Bolivar.

POLK county, *Oreg. Ter.* Situate W. middle, between the Willamette r. and the Pacific Ocean, into both of which there is drainage. Area 2,400 sq. m. Surface varied, and the soil very fertile. Cape Foulweather lies at its S. W. corner, the parallel of which forms its S. boundary. The Willamette here affords extensive water-power, which is used for various mills. Farms 129; manuf. 2; dwell. 190, and pop.—wh. 1,046, fr. col. 5—total 1,051. *Capital*: Cincinnati.

POLK county, *Tenn.* Situate S. E., and contains 282 sq. m. Drained by Hiwassee r. and its principal tributary, Tocco r. Surface mountainous in general, but there is much level land; soil fertile. Chief productions, cotton and Indian corn. Farms 561; manuf. 11; dwell. 1,012, and pop.—wh. 5,886, fr. col. 52, sl. 400—total 6,383. *Capital*: Benton.

POLK county, *Tex.* Situate toward the S. E., and contains 1,273 sq. m. Drained by Trinity river, which flows through it centrally. Surface undulating; soil on the r. productive, and adapted to cotton. It is thickly covered with oak, pine, cedar, and other timber, by far the greater portion of the co. being wooded. Farms 172; manuf. 0; dwell. 292, and pop.—wh. 1,544, fr. col. 0, sl. 805—total 2,349. *Capital*: Livingston.

POLK county, *Wisc.* Situate W., and contains 2,595 sq. m. Drained by Kayesikang or Shell r., and other branches of St. Croix r., which forms its W. boundary. Surface varied, part of it being hilly and broken, and part level; the soil on the latter is in general good, and with cultivation produces well; the hilly portion of the co. makes fine pasturage, and is well fitted for the raising of live-stock. It is thickly wooded. This co. has been lately set off, being formerly the northern half of St. Croix county.

POLK, p. o., Lucas co., *Ia.*: 102 m. W. S. W. Iowa City.

POLK, p. o., Ashland co., *Ohio*: 71 m. N. N. E. Columbus.

POLK, p. o., Venango county, *Penn.*: 173 m. W. N. W. Harrisburg.

POLK BAYOU, p. o., Independence county, *Ark.* See **POKE BAYOU**.

POLK RUN, p. o., Clark county, *Ind.*: 89 m. S. by E. Indianapolis.

POLKTON, t. and p. o., Ottawa co., *Mich.*: on Grand r., 79 m. W. N. W. Lansing. Surface rolling, and heavily timbered with Norway and white pine, and hemlock. Population 265.

POLKTOWN, sta., Hamilton county, *Ohio*: 23 m. N. E. of Cincinnati, on the Little Miami R. R.

POLKVILLE, p. o., Benton county, *Ala.*: 94 m. N. N. E. Montgomery.

POLKVILLE, p. v., Cleveland county, *N. Car.*: 161 m. W. by S. Raleigh.

POLKVILLE, p. v., Columbia county, *Penn.*: 59 m. N. by E. Harrisburg.

POLKVILLE, p. v., Smith county, *Miss.*: 39 m. E. S. E. Jackson.

POLKVILLE, p. v., Warren county, *N. Jer.*: on the E. side of Paulin's kill, 2 m. E. of Delaware river, 49 m. N. N. W. Trenton.

POLLARD'S MILLS, p. o., Greenup county, *Ky.*: 117 m. E. by N. Frankfort.

POLLOCK'S, p. o., Randolph co., *Ill.*: on Nine Mile cr., an E. affluent of the Kaskaskia, 121 m. S. Springfield.

POLLOCKSVILLE, p. v., Jones co., *N. Car.*: on the S. side of Trent r., 92 m. E. S. E. Raleigh.

POMARIA, p. o. and sta., Newberry district, *S. Car.*: on Cannon's cr. and the Greenville and Columbia R. R., 32 m. (by route) N. W. Columbia.

POMEROY, p. v., and cap. Meigs co., *Ohio*: on the Ohio, 57 m. below Marietta, 81 m. S. E. Columbus. It occupies a narrow strip of land between the river and a steep hill, and is engaged principally in the coal business, large deposits of which are in the immediate vicinity. About 300 men, mostly Welch, are employed in the mines, which were opened in 1832, and yield about 2,000,000 bushels per annum. It was settled in 1816, made the county seat in 1841, and contains a court-house, 15 stores, 2 foundries, 3 machine-shops, a rolling mill, rope-walk, and 2 large tanneries. The "M. County Telegraph" (whig) is published weekly. A branch R. R., 10 m. long, connects it with the Cincinnati, Hillsboro', and Parkersburg Railroad. Pop. 1,637.

POMFRET, t., p. v., and sta., Windham co., *Conn.*: on the W. side of Quinnebaug r., 39 m. E. by N. Hartford. Drained by branches of the river, which supply numerous mill-sites. Surface uneven, and beautifully varied by hills and meadows; soil deep and strong. Many of the farms are very superior, and the grazing is excellent. Various manufactures are prosecuted. The sta. is 26 m. S. of Worcester, on the Norwich and Worcester R. R. The Boston and New York (Air Line) R. R. crosses the t. The v. occupies a hill commanding a wide view, and contains an academy. Pop. of t. 1,849.

POMFRET, t. and p. v., Windsor co., *Verm.*: 39 m. S. by E. Montpelier. Drained by Queechy r. and a branch of White river, which supply good water-power. Surface broken; soil productive; coal is found; grazing is the chief occupation; limited manufactures are carried on. Pop. of t. 1,546.

POMFRET, L., Chautauque co., *N. Y.*: on Lake Erie. Surface hilly; soil, a fertile, argillaceous, gravelly, and sandy loam. Drained by Cassadaga cr., an affluent of Alleghany r., and several small streams flowing into this lake. The villages of Dunkirk and Van Buren Harbor are in this t., and the Erie R. R. has its W. terminus here. Pop. in 1850, 4,493.

POMFRET LANDING, p. v., Windham co., *Conn.*: 37 m. E. by N. Hartford.

POMONKEY, p. o., Charles co., *Md.*: on Pomonco cr. of the Potomac, 43 m. S. W. Annapolis.

POMME DE TERRE river, *Mo.*: a tributary of Osage river.

POMPANOSUC, p. o. and sta., Windsor county, *Verm.*: on Connecticut r., and the Connecticut and Passumpsic Rivers R. R., 10 miles N. of White river junction, 39 m. S. E. Montpelier.

POMPEY, t. and p. o., Onondaga county, *N. Y.*: 109 m. W. by N. Albany. Drained by Limestone and Butternut creeks. Surface hilly; soil loam, mixed with sand or clay, very productive, and under high cultivation. Agriculture is the principal occupation. Pompey Hill v., in the W. part, occupies the highest land in the co., commanding an ex-

tensive view, and contains an academy, a half dozen stores, and 500 inhabitants. Pop. of t. 4,066.

POMPEY CENTRE, p. o., Onondaga county, *N. Y.*: 118 m. W. by N. Albany.

POMPTON, t. and p. v., Passaic co., *N. Jer.*: 59 m. N. N. E. Trenton. Drained by Pequannock, Ringwood, and Ramapo rivers, which furnish fine water-power, and unite in the S. corner, to form Pompton r. Surface hilly and mountainous; soil clayey loam of good fertility. Iron ore is abundant, and largely dug and wrought. The v., on Ramapo r., contains an academy, a furnace, and 250 inhabitants. Pop. of t. 1,720.

POMPTON RIVER, *N. Jer.*: is formed by the confluence of the Pequannock, Ringwood, and Ramapo rivers, and dividing Passaic and Morris counties, it flows 8 m. into the Passaic river. The Morris Canal crosses it 2 m. above its mouth.

POMPTON PLAINS, p. v., Morris co., *N. Jer.*: on the W. side of Pompton r., 57 m. N. N. E. Trenton.

POND CREEK, p. o., Greene co., *Mo.*: 115 m. S. W. by S. Jefferson City.

POND EDDY, p. o., Sullivan co., *N. Y.*

POND FORK, p. o., Jackson county, *Ga.*: 84 m. N. by E. Milledgeville.

POND HILL, p. o., Gibson co., *Tenn.*: 123 m. W. by S. Nashville.

POND SETTLEMENT, p. v., Steuben county, *N. Y.*: 194 m. W. by S. Albany.

POND SPRING, p. o., Walker co., *Ga.*: 173 m. N. W. Milledgeville.

PONDWOWN, p. v., Sumter county, *Ga.*: 92 m. S. W. Milledgeville.

PONCHARTRAIN LAKE, *La.*: is 40 m. long, and 25 m. broad. It communicates with Lake Maurepas on the W., Lake Borgne through the Rigoles on the E., and on the S. with New Orleans, through St. John's bayou and a canal. It has 16 or 18 feet water in its deepest part, but near the shore not more than 9 feet. The Tangiapaha and Tchefuncti rivers, and other small streams, empty into it.

PONTIAC, p. v., and cap. Livingston co., *Ill.*: on Vermillion r., 93 m. N. E. by N. Springfield. It contains the county buildings and several stores.

PONTIAC, p. o. and sta., Huron co., *Ohio*: on the Sandusky, Mansfield, and Newark R. R., 20 m. S. of Sandusky City, 83 m. N. by E. Columbus.

PONTIAC, t., p. v., and cap. Oakland co., *Mich.*: 67 m. E. by S. Lansing. Drained by Clinton r. and branches, which, fed by numerous ponds, furnish superior water-power. Surface somewhat hilly. Soil sandy in parts, but mostly productive. The v. is on the r., and contains a court-house, jail, academy, iron foundry, and machine-shop, several flouring-mills and factories, and 1,500 inhabitants. The "Oakland Gazette" (whig), and "Pontiac Jacksonian" (dem.), are published weekly. The Detroit and Pontiac R. R. terminates here, 25 m. N. N. W. Detroit. Pop. of t. 2,519.

PONTIAC, p. o., Erie co., *N. Y.*: 253 m. W. Albany.

PONTOOSAC, p. v., Hancock co., *Ill.*: on the Mississippi, 85 m. N. W. by W. Springfield.

PONTOTOC COUNTY, *Miss.* Situate toward the N. E., and contains 902 sq. m. Drained by Tallahatchie river and its branches in the N., and branches of W. fork of Tombigbee river in the E. and centre. Surface level; soil fertile. Chief productions, cotton and Indian corn. Farms 1,243; manuf. 32; dwell. 2,001, and pop.—wh. 12,156, fr. col. 8, sl. 4,965—total 17,112. *Capital*: Pontotoc.

PONTOTOC, p. v., and cap. Pontotoc co., *Miss.*: 143 m. N. E. by N. Jackson. It contains a court-house, jail, academy, United States land office, a dozen stores, and about 800 inhabitants. Two newspapers, the "American Sovereign" (dem.), and the "Political Safeguard" (whig), are issued weekly.

PONTOTOC, p. o., Fulton county, *Ky.*: 253 m. W. S. W. Frankfort.

POOLESVILLE, p. v., Montgomery co., *Md.*: 4 m. E. of the Potomac, 43 m. W. N. W. Annapolis.

POOL'S MILLS, p. o., Jones county, *Miss.*: 79 m. S. E. Jackson.

POOLSVILLE, p. v., Warren co., *Ind.*: 69 m. N. W. by W. Indianapolis.

POOLSVILLE, p. v., Spartanburg dist., *S. Car.*: 88 m. N. W. Columbia.

POOLVILLE, p. v., Madison co., *N. Y.*: on an E. branch of Chenango r., 83 m. W. by N. Albany. Here are several mills.

POOR FORK, p. o., Harlan co., *Ky.*: on a head of Cumberland r. so called, 126 m. S. E. by E. Frankfort.

POOR HILL, p. o., Sullivan co., *Tenn.*: 236 m. E. by N. Nashville.

POPE COUNTY, *Ark.* Situate toward the N. W., and contains 825 sq. m. Drained by Great Pine r. and Illinois cr. and branches, tributaries of Arkansas r., which runs on the S. border, and passes through the S. W. corner of the co. Surface varied; in the N. mountainous, but level in the interior and S.; soil fertile, producing cotton, tobacco, Indian corn, etc. Some good timber is found on the land, and it has extensive coal beds. Farms 534; manuf. 16; dwell. 695, and pop.—wh. 4,231, fr. col. 0, sl. 479—total 4,710. *Capital*: Morristown.

POPE COUNTY, *Ill.* Situate S., and contains 425 sq. m. Drained by Rock, Great Pierre, Big Bay, and Lusk creeks, all of the Ohio r., which forms its S. E. boundary. Surface even, excepting the bluffs on the Ohio; soil a deep loam, with sand intermixed, and productive, adapted to grain, and also raising good tobacco. It is well timbered, and in the E. is a hilly range, which makes good pasturage. Farms 504; manuf. 12; dwell. 747, and pop.—wh. 3,871, fr. col. 104—total 3,975. *Capital*: Golconda.

POPE CREEK, p. o., Mercer co., *Ill.*: on the S. side of the cr. so called, 105 m. N. W. by N. Springfield.

POPE'S CORNERS, p. v., Saratoga co., *N. Y.*: 1 m. W. of Hudson r., 34 m. N. by E. Albany.

POPE'S MILLS, p. o., St. Lawrence county, *N. Y.*: 138 m. N. W. Albany.

POPE'S MILLS, p. o., Mercer co., *Ill.*: on Pope's cr., about 8 m. E. of the Mississippi, 109 m. N. W. by N. Springfield. Formerly called Bluff.

POPE'S STORE, p. o., Southampton co., *Virg.*: 63 m. S. S. E. Richmond.

POPLAR, p. o., Crawford co., *Ohio*: 62 m. N. Columbus.

POPLAR, p. o., Orangeburg dist., *S. Car.*: about 4 m. W. of Santee r., 41 m. S. E. by S. Columbia.

POPLAR ISLAND, in Chesapeake bay. Lat. 43° 22' N., and long. 70° 23' W. Its periphery measures about 10 miles.

POPLAR BLUFF, p. o., Butler co., *Mo.*: 153 m. S. E. by S. Jefferson City.

POPLAR BRANCH, p. o., Currituck co., *N. Car.*: 143 m. E. N. E. Raleigh.

POPLAR CORNER, p. o., Madison county, *Tenn.*: 117 m. W. S. W. Nashville.

POPLAR CREEK, p. o., Choctaw county, *Miss.*: 126 m. N. E. by N. Jackson.

POPLAR FLAT, p. o., Lewis county, *Ky.*: 85 m. E. N. E. Frankfort.

POPLAR GROVE, p. o., Owen county, *Ky.*: 84 m. N. Frankfort.

POPLAR GROVE, p. o., Boone co., *Ill.*: 153 m. N. by E. Springfield.

POPLAR GROVE, p. o., Iredell co., *N. Car.*: 122 m. W. Raleigh.

POPLAR GROVE, p. o., Gibson co., *Tenn.*: 112 m. W. by S. Nashville.

POPLAR HILL, p. o., Vigo county, *Ind.*: on the S. side of Honey cr., a small affluent of the Wabash, 63 m. W. S. W. Indianapolis.

POPLAR HILL, p. o., Anson county, *N. Car.*: 93 m. S. W. Raleigh.

- POPLAR HILL, p. o., Giles co., *Virg.*: on Walker's cr., a W. affluent of New r., 181 m. W. by S. Richmond.
- POPLAR MOUNT, p. o., Greenville county, *Virg.*: 47 m. S. Richmond.
- POPLAR PLAINS, p. o., Fleming co., *Ky.*: 71 m. E. by N. Frankfort.
- POPLAR RIDGE, p. o., Cayuga co., *N. Y.*: 137 m. W. by N. Albany.
- POPLAR RIDGE, p. o., Darke co., *Ohio*: 88 m. W. by N. Columbus.
- POPLAR RIDGE, p. o., Maury co., *Tenn.*: 42 m. S. S. W. Nashville.
- POPLAR SPRING, p. o., Fairfield dist., *S. Car.*: about 3 m. W. of Wateree r., 31 m. N. by E. Columbia.
- POPLAR SPRING, p. o., Marshall co., *Virg.*: 235 m. N. W. Richmond.
- POPLAR SPRING, p. o., Pontotoc co., *Miss.*: 146 m. N. N. E. Jackson.
- POPLAR SPRINGS, p. v., Howard co., *Md.*: 38 m. N. W. Annapolis.
- POPLAR SPRINGS, p. v., Hall county, *Ga.*: 98 m. N. N. W. Milledgeville.
- POPLIN, t. and p. o., Rockingham co., *N. Hamp.*: 28 m. S. E. Concord. Drained by Squamscot r. Surface uneven, but not rough; soil fertile. A farming l. Pop. 509.
- POQUANOC BRIDGE, p. o., New London co., *Conn.*
- POQUETONUCK, p. v., New London co., *Conn.*: 2 m. E. of the Thames, on an affluent so called, 38 m. S. E. by E. Hartford. Sloops come up near the v. at high water. The inhabitants are chiefly sea-faring men, or interested in the coasting-trade.
- POQUONOCK, p. v., Hartford co., *Conn.*: on Farmington r., 9 m. N. Hartford. It contains several factories and mills.
- PORPOISE CAPE, *Me.*: the N. E. boundary of Kennebec harbor, in lat. 43° 22' N. and long. 70° 28' W.
- PORTAGE COUNTY, *Ohio*. Situate toward the N. E., and contains 648 sq. m. Drained by head branches of Mahoning r. and branches of Cuyahoga r., which supply good water-power. Surface undulating, in some parts broken; soil fertile, consisting of a fine deep mold, and adapted to wheat and Indian corn. Pine, maple, poplar, and other timber is found on the land. Agriculture is the leading pursuit. Farms 2,264; manuf. 127; dwell. 4,512, and pop.—wh. 24,337, fr. col. 82—total 24,419. *Capital*: Ravenna. *Public Works*: Cleveland and Pittsburg R. R.; Cleveland and Mahoning R. R.; Pennsylvania and Ohio Canal, etc.
- PORTAGE COUNTY, *Wis.* Situate centrally, and contains 1,543 sq. m. Wisconsin r. passes through it centrally, by which and its numerous branches it is drained. Surface hilly and broken, excepting on the rivers, where the land is level; soil fertile. A portion of the co. is prairie. It is well timbered, and has good pasturage. Farms 5; manuf. 15; dwell. 204, and pop.—wh. 1,249, fr. col. 1—total 1,250. *Capital*: Plover.
- PORTAGE, t. and p. o., Kalamazoo co., *Mich.*: 68 m. S. W. Lansing. Drained by Portage r. of the Kalamazoo. The Sandy lakes are in the S. E. part. Pop. 726.
- PORTAGE, t. and p. o., Livingston co., *N. Y.*: on the E. side of Genesee r., 212 m. W. Albany. Drained E. by Cashaqua cr. Surface rolling; soil very fertile of wheat and most grains. On the W. line are the Genesee Falls, which supply immense water-power. The Genesee Valley Canal and Buffalo and New York City R. R. pass through it. It was divided in 1846, and the portion W. of the river made a new t., and called Genesee Falls. The p. o. was formerly Williams' Place. Pop. 2,478.
- PORTAGE, t. and p. o., Wood co., *Ohio*: 83 m. N. N. W. Columbus. Drained by Portage r. and branches, on which are several mills. The v. on the N. side of the r. was laid out in 1836, and contains various mechanic shops, etc. Pop. of t. 405.
- PORTAGE, t., Ottawa co., *Ohio*: a narrow neck of land between Sandusky bay and Lake Erie, on which is Port Clinton. The Sandusky and Fort Wayne R. R. passes through it. Pop. 377.
- PORTAGE, p. o., Cambria co., *Penn.*: 104 m. W. Harrisburg.
- PORTAGE, t., Hancock county, *Ohio*: drained by the head waters of Portage r. Pop. 614.
- PORTAGE, t., Summit co., *Ohio*: at the portage between the Cuyahoga and Tuscarawas rivers. The Ohio Canal and the Cleveland, Zanesville, and Cincinnati R. R. pass through it. Akron, the county seat, is located in the S. E. part, Pop. of t. 4,886.
- PORTAGE, t., Livingston co., *N. Y.*: on the Genesee r., at the Great Falls, at which the descent in 2 m. is about 300 feet, affording great water-power. The scenery is magnificent. Surface elevated and rolling; soil fertile. The Genesee Valley Canal passes through the t., and also the Buffalo and New York City R. R. Pop. 2,478.
- PORTAGE, t. and v., Kalamazoo co., *Mich.*: drained by Portage r. and the Sandy lakes. Surface level prairie; soil fertile. Pop. 726.
- PORTAGE LAKE, Houghton co., *Mich.*: this lake lies on the Keweenaw peninsula, and empties into Keweenaw bay, an arm of Lake Superior. It is very irregular in its shape, and has extensions N. and N. W., which bear the local names of Houghton's lake and Torch lake—the first extending N. W. almost to the opposite side of the peninsula. A navigation might be formed through this lake, and a canal across the portage.
- PORTAGE RIVER, *Ohio*: an affluent of Lake Erie, into which it falls at Port Clinton. It affords good water-power, and drains the Black Swamp, an unhealthy, but which, if suitably drained, would make a very fertile country. The harbor is the outlet of a considerable region.
- PORTAGE CITY, p. v., Columbia county, *Wis.*: 83 m. N. Madison.
- PORTAGE LAKE, p. o., Jackson co., *Mich.*: 34 m. S. S. E. Lansing.
- PORTAGEVILLE, p. v., Wyoming co., *N. Y.*: on the W. side of Genesee r., 214 m. W. Albany. The river here falls about 300 feet in 2 miles, principally in three perpendicular descents, which furnish immense hydraulic power, and being surrounded by high steep banks, attract many visitors by the grandeur of the scenery through which the r. passes. The Genesee Valley Canal crosses the r. here in an aqueduct, and soon after enters a tunnel 4 m. long. The v. contains several factories and mills, a dozen stores, and about 1,000 inhabitants.
- PORT ALLEGHANY, p. v., M'Kean co., *Penn.*: on the left bank of Alleghany r., 134 m. N. N. W. Harrisburg.
- PORT ALLEN, p. v., Louisa co., *Ia.*: on the left bank of Iowa r., 26 m. S. S. E. Iowa City.
- PORT BLANCHARD, p. v., Luzerne county, *Penn.*: 74 m. N. E. by N. Harrisburg.
- PORT BODEGA, v. and p. o., Sonoma co., *Calif.*: on a fine bay, opening to the Pacific, 63 m. N. W. Vallejo. It was formerly a Russian station.
- PORT BYRON, p. v., Rock Island co., *Ill.*: on the Mississippi, 181 m. N. by W. Springfield.
- PORT BYRON, p. v., Cayuga co., *N. Y.*: on the Erie Canal, 23 m. W. of Syracuse, 146 m. W. Albany. It contains a large flouring establishment, several mills, 20 stores, and 1,200 inhabitants.
- PORT CADDO, p. v., Harrison co., *Tex.*: near the W. end of Lake Caddo, 272 m. N. E. Austin City. Steamers ply from this point to Shreveport, freighted with the staples of the co., principally cotton and corn, of which a large amount is shipped hence down Red river.
- PORT CARBON, p. b., Schuylkill co., *Penn.*: on Schuylkill river, at the junction of Mill creek and head of Schuylkill Navigation Canal, 108 m. N. W. Philadelphia, 46 m. N. E. Harrisburg. In 1829 there was but one house here. The v. is the creation of the coal trade, which forms the almost exclusive employment. Pop. 2,142.
- PORT CHESTER, p. v. and sta., Westchester co., *N. Y.*: on

the W. side of Byram r., here the E. line of the State, 108 m. S. Albany. It is 1 m. from the sound, where is a steamboat landing, from which boats ply to New York, and 29 m. N. E. of New York, on the New York and New Haven R. R. It contains several manufactories, 20 stores, and about 1,000 inhabitants.

PORT CLINTON, p. v., port, and cap. Ottawa co., Ohio: on the S. side of Portage river, at its entrance into Lake Erie, 115 m. N. Columbus. It has a good harbor, with a light-house at its entrance, and contains a court-house, jail, several stores and mills, and 249 inhabitants. The railroad from Sandusky City to Fort Wayne passes through it. Imports in 1850, \$88,978, and exports, \$24,755.

PORT CLINTON, p. v., Lake county, Ill.: 193 m. N. N. E. Springfield.

PORT CLINTON, p. v., Schuylkill co., Penn.: at the confluence of the Little Schuylkill and the Schuylkill, and above the Water Gap in Blue Mountain, 51 m. E. N. E. Harrisburg. It is one of the great coal depôts of the anthracite region, and being on the line of the Schuylkill Canal and Reading R. R., it enjoys a large share of the trade connected with the mines. The Little Schuylkill R. R. also diverges from this point, and a number of other railways connecting with the mines are indirectly connected with the port. There are large iron works in the vicinity, and in the v. a rolling mill of 1,500 tons annual capacity, also various mechanic shops, stores, etc.

PORT CONWAY, p. v., King George co., Virg.: on the left bank of Rappahannock r., 43 m. N. by E. Richmond. Wheat and corn are shipped here in large quantities.

PORT CRANE, p. v., Broome co., N. Y.: on Chenango r. and canal, 8 m. N. of Binghamton, 107 m. W. by S. Albany.

PORT DEPOSITE, p. v., Cecil co., Md.: on the E. side of Susquehanna river, 7 m. from its mouth, 51 m. N. E. by N. Annapolis. It lies at the lower falls, and contains a bank and 800 inhabitants.

PORT DOUGLASS, Essex county, N. Y.: on the W. side of Champlain lake, and the landing for Keeseville, which is 7 or 8 m. W. of it.

PORT ELIZABETH, p. v., Cumberland county, N. Jer.: on Manamuskin creek, near its entrance into Maurice r., 61 m. S. by W. Trenton. It is 15 m. from Delaware bay, and vessels of 100 tons come to the landing. Wood and lumber are exported in large amounts. It contains an academy, several stores and mills, and about 600 inhabitants.

PORTER county, Ind. Situate N. W., and contains 396 sq. m. Drained by Calumie r. and branches, and branch of Kankakee r., which runs on its S. border. Surface varied, on the lake being elevated, while in the interior and toward the S. the land is generally level; soil fertile, with the exception of some portion in the N., and the swamp on the Kankakee in the S. Chief productions, wheat and Indian corn. There is some prairie land, and a large portion of the co. is covered with oak and other timber. It contains several small lakes. Farms 467; manuf. 13; dwell. 855, and pop.—wh. 5,229, fr. col. 5—total 5,234. Capital: Valparaiso. Public Works: Michigan Central Extension R. R.; Indiana Northern R. R.; Michigan City Branch R. R.; Fort Wayne and Chicago R. R.; Logansport and Chicago R. R.

PORTER, sta., Porter co., Ind.: 2 m. W. of Michigan City, on the Michigan Central R. R.

PORTER, l. and p. o., Van Buren co., Mich.: 82 m. S. W. Lansing. It contains several ponds, but has no considerable streams. Surface mostly level, and soil of good quality. Pop. 444.

PORTER, l. and p. o., Delaware co., Ohio: 25 m. N. N. E. Columbus. Drained by Walnut cr., which moves several mills. Surface somewhat uneven; soil very productive of grass and grain. The Springfield, Mount Vernon, and Pittsburg R. R. crosses it. Pop. 1,037.

PORTER, l., Niagara co., N. Y.: facing on Lake Ontario and Niagara r., and drained by several creeks falling into the lake. Surface level; soil argillaceous and sandy loam.

In the N. W. part of the town stands old Fort Niagara, and directly opposite, on the Canada shore, Fort George. Fort Niagara was taken by the British in Dec., 1813, and delivered up again in March, 1815. Youngstown is a village on the Niagara river. Pop. of t. 2,455.

PORTER, t. and p. v., Oxford co., Me.: on the W. line of the State, and N. side of Ossipee river, 71 m. S. W. by W. Augusta. Surface slightly uneven; soil fertile and well wooded. A farming and grazing t. Pop. of t. 1,203.

PORTERFIELD, p. o., Venango county, Penn.: 173 m. N. W. by W. Harrisburg.

PORTER RIDGE, p. o., Susquehanna co., Penn.: 117 m. N. N. E. Harrisburg.

PORTER'S p. o., Carroll co., Md.: 46 m. N. W. Annapolis.

PORTER'S, sta., Middlesex co., Mass.: 84 m. from Boston, on the Fitchburg R. R. The Cambridge cattle market is held weekly at this station.

PORTER'S CORNERS, p. o., Saratoga co., N. Y.: 84 m. N. by W. Albany.

PORTER'S CROSS ROADS, p. o., Porter co., Ind.: 121 m. N. N. W. Indianapolis.

PORTER'S FALLS, p. o., Wetzel co., Virg.: 223 m. N. W. Richmond.

PORTERSVILLE, p. v., Butler co., Penn.: 174 m. W. by N. Harrisburg.

PORTERSVILLE, p. v., Tipton co., Tenn.: 171 m. W. S. W. Nashville.

PORTERSVILLE, p. v., Perry co., Ohio: 45 m. E. by S. Columbus.

PORT GIBSON, p. v., and cap. Claiborne co., Miss.: on Bayou Pierre, 23 m. from its entrance into the Mississippi, 52 m. W. S. W. Jackson. The v. has a large trade in cotton, which is sent down the bayou in keel boats most of the year, or by land to Grand Gulf, its port. It contains a court-house, jail, academy, and 500 inhabitants. The "Herald and Correspondent" (whig) is published weekly.

PORT GIBSON, p. v., Ontario co., N. Y.: on the Erie Canal 84 m. E. of Rochester, 107 m. W. by N. Albany.

PORT GLASGOW, p. v., Wayne co., N. Y.: on the S. side of Lake Ontario, 151 m. W. N. W. Albany.

PORT HENRY, p. v., Essex co., N. Y.: on the W. shore of Lake Champlain, opposite Crown Point, 91 m. N. by E. Albany. It has a convenient steamboat landing, and contains extensive iron works, for which excellent ore is obtained in the immediate vicinity, and about 500 inhabitants.

PORT HOMER, p. v., Jefferson co., Ohio: 122 m. E. by N. Columbus.

PORT HOPE, t. and p. o., Columbia co., Wisc.: 53 m. N. Madison. Drained by Neenah river, on both sides of which it lies. Surface even, and soil rich. It has good mill privileges, and some timber. Pop. 608.

PORT HUDSON, p. v., East Feliciana par., La.: on the Mississippi at the mouth of Thompson's cr., 25 m. by the r., above Baton Rouge. It has a fine landing for steamboats, and does a large business in the shipping of cotton, sent here by the Clinton and Port Hudson R. R., of which it is the river terminus.

PORT HURON, t. and p. v., St. Clair county, Mich.: 113 m. E. by N. Lansing. Drained by Black r., emptying into the St. Clair, its E. boundary. Surface even, and well timbered; soil highly productive. The v. lies at the confluence of Black and St. Clair rivers, 2 m. S. of Lake Huron, has a good harbor, and superior facilities for ship-building, and is largely engaged in the lumber business. Great amounts of excellent pine timber are sent down Black river, and manufactured or shipped here. It contains several flouring and saw mills, large lumber yards and commercial houses, and 1,584 inhabitants. Fort Gratiot is about 1 m. N. of the v. The "P. H. Observer" (dem.) is published weekly. Pop. of t. 2,302.

PORT JACKSON, p. v., Montgomery co., N. Y.: on the Erie Canal, and S. side of Mohawk r., 17 m. W. N. W. Schenectady, 23 m. N. W. Albany.

PORT JEFFERSON, p. v., Suffolk co., N. Y.: on the N. side of Long Island, at the head of Drowned Meadow Harbor, 118 m. S. S. E. Albany. It contains several ship-yards, and 350 inhabitants engaged in ship-building and navigation.

PORT JERVIS, p. v., Orange co., N. Y.: on the left bank of Delaware r., at the confluence of Neversink river, 94 m. S. S. W. Albany. This place is on the Delaware and Hudson Canal, and owes its origin and growth to that work. The Erie R. R. also passes through it, and at Delaware sta. are extensive depôts, engine-houses, offices, etc., belonging to the company. The business done here is chiefly in coal and timber. The scenery around the village is magnificent. The Neversink is crossed by a bridge 55 feet high, with a span of 150 feet. The v. contains 4 or 5 churches, a female seminary, several schools, a large grist-mill, hotels and stores, and about 600 inhabitants.

PORT KENDALL, p. v., Essex co., N. Y.: on the W. shore of Lake Champlain, and N. side of Peron bay, 116 miles N. by E. Albany.

PORT KENDALL, p. v., Orleans county, N. Y.: on Lake Ontario, 32 m. W. N. W. Rochester.

PORT KENNEDY, p. v., Montgomery co., Penn.: on the right bank of Schuylkill r., 4 m. above Norristown, 77 m. E. by S. Harrisburg. It is 21 m. N. W. Philadelphia, on the Philadelphia and Reading R. R.

PORT KENT, p. v., Essex co., N. Y.: on Lake Champlain, 12 m. S. of Plattsburg, 122 m. N. by E. Albany. It occupies a commanding eminence, nearly opposite to Burlington, with which a steam ferry connects it, and contains several stores, and 300 inhabitants.

PORTLAND, p. v., Dallas co., Ala.: on the left bank of Alabama river, 53 W. by S. Montgomery.

PORTLAND, t. and p. v., Middlesex co., Conn.: on the E. side of the Connecticut, 13 m. S. by E. Hartford. Surface level meadow on the river, back of it broken and adapted to grazing. Stretching along the river for about a mile, and nearly opposite Middletown, are the celebrated quarries of building stone, known as the "Portland stone." About 600 men are employed, and the stone, which is used in the most elegant public and private edifices, is sent to all parts of the Union. The University in London is also built of it. The v. is on the river, and connected by a steam ferry with Middletown. It contains a flourishing academy, and several stores. At the lower end of the street, which is about 2 m. long, are the quarries, and at the upper end a ship-yard, where vessels are built for the river and coasting trade. Pop. of t. 2,905. Taken from Chatham in 1841.

PORTLAND, p. v., Whitesides co., Ill.: on the S. side of Rock r., 131 m. N. by W. Springfield.

PORTLAND, p. v., Fountain co., Ind.: on the E. side of Wabash river, and on the Wabash and Erie Canal, 66 miles W. N. W. Indianapolis. It contains 8 or 10 stores and 500 inhabitants.

PORTLAND, p. v., Van Buren co., Ia.: on the S. side of the Des Moines, 61 m. S. W. by S. Iowa City.

PORTLAND, p. v., Jefferson co., Ky.: on the Ohio, 3 m. below Louisville, 52 m. W. by N. Frankfort. It is well built along the bank of the r., and contains several commercial houses, and about 1,000 inhabitants. Omnibuses ply hourly to Louisville, and a ferry connects it with New Albany on the N. side of the Ohio.

PORTLAND, p. v., port of entry, and cap. Washington co., Oreg.: on the left bank of Willamette r., above its entrance into the Columbia, 47 m. N. by E. Salem. It is a place of considerable commerce, and has excellent prospects of becoming a large city. Pop. 822. The territorial penitentiary is located here.

PORTLAND, l. p. city, port of entry, and cap. Cumberland co., Me.: is situated on an elevated peninsula, at W. extremity of Casco bay, 54 m. S. S. W. Augusta, lat. (Mount Joy) 43° 39' 52" N.; and long. 70° 13' 34" W. The peninsula projects eastwardly into the bay, about 8 m. in length, and has an average width of three-fourths of a mile. Its

surface rises from each shore, forming throughout its entire length an elevated ridge, which, at its extremities, again rises into considerable hills, presenting a marked outline, and very beautiful appearance. The city is regularly laid out, and handsomely built, particularly its more modern portions, which are noted for their elegant buildings, and is lighted with gas. The main street occupies the ridge of the peninsula, extending from hill to hill. Many of the streets are lined with elms and other shade trees. The principal public buildings consist of the Exchange, which is an elegant structure, with handsome colonnade and dome, containing the post-office, custom-house, and United States court rooms; the City Hall, built of brick; the old Custom-house, of granite, 18 churches, jail, etc. There are 6 banks, with an aggregate capital of \$1,125,000. The capital of the city is chiefly employed in commerce, coasting trade, the fisheries, and inland trade; hence its manufactures are, for the most part, those incident to a mercantile city. The Portland Company, with a capital of \$100,000, have a large manufactory of locomotives, railroad cars, etc. Much attention is given to education in the public schools. These consist of a classical school for boys, a high school for girls, 4 grammar schools (2 for boys and 2 for girls), and the primary schools. There are also numerous private schools and an academy. The Athenæum, incorporated in 1827, has a library of over 6,000 volumes. The Natural History Society has a valuable collection of minerals, specimens, etc. Two daily newspapers are published, "Advertiser" (whig), and "Eastern Argus" (dem.), which also issue tri-weekly and weekly editions. Besides these are seven weeklies, viz., "Transcript" (lit.), "Christian Mirror" (Pres.), "Zion's Advocate" (Bapt.), "Inquirer" (F. soil), "Pleasure Boat" (miscel.), "Cold Water Fountain" (Temp.), and "National Democrat." The "Scholar's Leaf" (educat.), is issued semi-monthly. The natural advantages of this city for trade and commerce have been well improved by its enterprising citizens. The harbor is capacious and safe, and among the best in the United States. It is protected by islands from the violence of storms, is seldom obstructed by ice, has a good entrance, and is defended by forts Preble and Scammel, the former garrisoned by U. S. artillery. At the E. extremity of the city is a tower, 70 feet high, erected for the purpose of observing vessels at sea, and furnished with signals. The harbor is connected by the Cumberland and Oxford Canal, 204 m. long, with Sebago pond, and thence with Long pond, etc. Four important railroads now centre at Portland, and contribute greatly to its prosperity. The Portland, Saco, and Portsmouth R. R., 51 m. long, was opened in 1842, completing the line of railroads from Boston to this city, 105 m. The extension of this route, called Portland and Kennebec R. R., is completed to Augusta, 60 m. The York and Cumberland R. R. (now open to Gorham, 10 m.) is in construction, to connect at South Berwick with the Boston and Maine R. R. The construction of the Atlantic and St. Lawrence R. R., commenced in 1844, has been actively prosecuted from each terminus, Portland and Montreal, and will soon be completed. By contract it is to be finished in 1853. Through this important avenue will pass a large proportion of the products of the north and west for shipment to Europe and elsewhere. The foreign commerce of the city is chiefly with the West Indies and Europe. Its chief exports are lumber, ice, fish, provisions, etc. The coasting trade is principally with Boston, and during the summer a steamboat plies daily to that city. On 30th June, 1850, the total tonnage of district was 56,502 tons, of which 60,304 tons were registered, and 26,198 tons enrolled and licensed. The registered tonnage consisted of 46,621 tons permanent, and 13,683 tons temporary, of which 100 tons were propelled by steam. The enrolled and licensed tonnage consisted of 25,665 tons "permanent," which were employed as follows: in coasting trade, 19,427 tons; in cod fishery, 3,288 tons; in mackerel fishery, 3,000 tons; and 533 tons "licensed under 20 tons," which were in

the cod fishery. During the fiscal year preceding the total of clearances for foreign countries was 523—77,645 tons; the total of entrances do. was 447—64,195 tons. Vessels built during the year preceding, 29 (20 ships, 5 brigs, 3 schooners, 1 steamer)—11,477 tons. Pop. in 1830, 12,598; in 1840, 15,218; in 1850, 20,815.

PORTLAND, I. and p. v., Ionia co., *Mich.*: 22 m. W. N. W. Lansing. Intersected by Grand r., which here receives Looking-Glass r. from the E. Surface level; soil alluvial bottom of great fertility. The v. is on Grand r., and contains several mills. Pop. 763.

PORTLAND, p. v., Callaway co., *Mo.*: on the N. bank of the Missouri, 27 m. E. N. E. Jefferson City.

PORTLAND, I. and p. o., Chautauque co., *N. Y.*: on Lake Erie, 233 m. W. by S. Albany. Drained by small affluents of the lake, some of which afford water-power. Surface hilly, and inclining to the lake; soil sandy loam, and generally fertile. It has a good harbor, and is crossed by the Buffalo and State Line R. R., on which is Centreville sta., 10 m. S. W. of Dunkirk. Pop. 1,905. The light-house is lighted with natural gas, which issues from the ground.

PORTLAND, p. v., and cap. Jay co., *Ind.* See Jay C. H. Pop. 756.

PORTLAND MILLS, p. v., Parke co., *Ind.*: on Big Raccoon creek, 44 m. W. Indianapolis.

PORTLANDVILLE, p. v., Otsego co., *N. Y.*: on the Susquehanna, 62 m. W. by S. Albany. It contains several mills and 300 inhabitants.

PORT LAVACCA, p. v., and cap. Calhoun co., *Tex.*: on the W. side of Lavacca bay, 134 m. S. E. by S. Austin City. It has a good harbor, which has been much improved of late, is extensively engaged in the coasting trade, and is the shipping port for the products of the rich district bordering the Lavacca and its tributaries. It is also the proposed terminus of the San Antonio and Gulf R. R.

PORT LEYDEN, p. v., Lewis co., *N. Y.*: 98 N. W. by W. Albany.

PORT LOUISA, p. v., Louisa co., *Ia.*: on the Mississippi, 36 m. S. E. Iowa City.

PORT MERCER, p. v., Mercer co., *N. Jer.*: on the Delaware and Raritan Canal, 7 m. N. E. by N. Trenton.

PORT ONTARIO, p. v., and port, Oswego co., *N. Y.*: on the E. shore of Lake Ontario, at the mouth of Salmon r., 136 m. W. N. W. Albany. It has a good harbor, improved by a pier constructed by the general government, and contains about 300 inhabitants.

PORT OXFORD, p. v., and port, Umpqua co., *Oreg. Ter.*: on the coast of the Pacific, 160 m. S. S. W. Salem. A U. S. military post is kept up here, garrisoned by dragoons.

PORT PENN. p. v., Newcastle co., *Del.*: on Delaware r., opposite Reedy Island, 24 m. N. by W. Dover.

PORT PERRY, p. v., Alleghany county, *Penn.*: 154 m. W. Harrisburg.

PORT PERRY, p. v., Perry co., *Mo.*: on the Mississippi, 129 m. E. by S. Jefferson City.

PORT PRESTON, v., Refugio co., *Tex.*: at the entrance of Mission r. into Aransas bay, about 20 m. below Refugio—the county seat.

PORT PROVIDENCE, p. v., Montgomery co., *Penn.*: 71 m. E. by S. Harrisburg.

PORT REPUBLIC, p. v., Calvert co., *Md.*: 35 m. S. Annapolis.

PORT REPUBLIC, p. o., Atlantic co., *N. Jer.*: 47 m. S. by E. Trenton.

PORT REPUBLIC, p. v., Rockingham county, *Virg.*: on Sheandoah r., at the confluence of South r., 88 m. N. W. by W. Richmond. It contains several mills and 300 inhabitants.

PORT RICHMOND, p. v., Philadelphia co., *Penn.*: on the Delaware, opposite Petty's Island, about 2 m. above Philadelphia, 94 m. E. by S. Harrisburg. Here is the depôt and shipping place of the Philadelphia and Reading R. R. In the last 9 months of 1852, 8 ships, 94 barks, 571 brigs, 5,482 schooners, 384 sloops, and 2,759 barges were loaded with coal at this place.

PORT RICHMOND, p. v., Richmond co., *N. Y.*: on the N. side of Staten Island, 9 m. S. W. New York, 131 m. S by W. Albany. It contains a valuable granite quarry, and about 500 inhabitants. A steam ferry connects it with New York.

PORT ROYAL, p. o., Henry co., *Ky.*: 22 m. N. N. W. Frankfort.

PORT ROYAL, p. v., Juniata co., *Penn.*: on the S. side of W. branch of Susquehanna r., 81 m. W. N. W. Harrisburg.

PORT ROYAL, p. v., Montgomery co., *Tenn.*: on Red r., 33 m. N. W. Nashville. It contains several mills and stores and 250 inhabitants.

PORT ROYAL, p. v., Caroline co., *Virg.*: on the right bank of Rappahannock r., 44 m. N. N. E. Richmond. Large quantities of wheat, corn, and tobacco are shipped here, and a considerable trade with the interior is kept up. A ferry crosses the r. It has a good wharf and steambot landing, and contains 2 academies, a dozen stores, and 470 inhabitants.

PORTSMOUTH, p. v., Dauphin co., *Penn.*: on the Susquehanna r., 8 m. below Harrisburg.

PORTSMOUTH, I., p. city, port of entry, and one of the caps. Rockingham co., *N. Hamp.*: on the S. side of Piscataqua r., 3 m. from the ocean, 41 m. E. by S. Concord. Lat. (Unitarian church) 43° 4' 35" N.; long. 70° 45' 50" W. This is the largest town and only seaport in the State. Its site rises gradually from the harbor, is pleasant and healthy. The city is not regularly laid out, but its streets, though narrow, are neatly built, and contain many handsome buildings. This t. was settled in 1623, and incorporated in 1633. It has several times suffered severely by fires, but has been rebuilt with improved appearance. It has long been noted for its commercial enterprise, and its capital is mainly employed in navigation. Many vessels, though owned at this port, are employed elsewhere. Ship-building is largely carried on. The principal manufactures are: Portsmouth steam factory, erected 1846-47, 290 feet long, 6 stories high, making fine cotton fabrics, a very superior establishment; an extensive manufactory of hosiery—also one of twist; machine shop and car factory; iron foundry, etc. There are 3 banks, aggregate cap. \$491,000. The t. is supplied with good water from a fountain, 3 m. distant, by a company formed in 1799. Among the public buildings are 5 or 6 handsome churches, an atheneum, academy, the State Lunatic hospital, 2 market-houses, alms-house, etc. The Atheneum, incorporated 1817, has a handsome brick edifice, 3 stories high, with a library of 7,300 volumes, besides cabinets of minerals and of natural history. Portsmouth is connected with Boston by the Eastern R. R., 54 m.; from Portland, 51 m.; and with Concord, by the Portsmouth and Concord R. R., 47 m. The Piscataqua, in passing the t., is from $\frac{1}{2}$ to $\frac{3}{4}$ m. wide, and though it flows with such rapidity as prevents its freezing in winter, it forms one of the most secure and commodious harbors in the U. S. The harbor has 40 feet of water in the channel at low tide, and is protected from storms by headlands and its islands. It is defended by Fort Constitution, on Great Island, and other forts. The U. S. Navy Yard, located on Continental or Badger's Island, on the E. side of the river, contains a dry dock of costly construction, and 3 immense ship houses, the largest of which, 240 feet long, 131 feet wide, has its roof covered with 180 tons of slate. A naval officer is stationed at this port. The total tonnage of Portsmouth district on 30th June, 1850, was 23,096 tons. The registered tonnage was 14,979 tons, of which 12,069 were permanent, and 2,910 temporary. The enrolled and licensed tonnage consisted of 8,117 tons, of which 7,511 were permanent, 383 temporary, and 213 tons "licensed under 20 tons" in the cod fishery. The coasting trade employed 4,025 tons, cod fishery 2,664 tons, mackerel fishery 1,204 tons. During the year ending 30th June, 1850, the number of clearances for foreign countries was 107—8,213 tons; number of entrances do., 110—11,044 tons. Vessels built during the year, 10—8 ships, 2 schooners—6,914 tons. Newspapers—"P. Dispatch," daily; "Rockingham Messenger" (indep.)

"N. H. Gazette" (dem.), "P. Journal" (whig), weekly. Pop. in 1810, 6,984; in 1820, 7,927; in 1830, 8,082; in 1840, 7,887; in 1850, 9,739.

PORTSMOUTH, p. v., Carteret co., *N. Car.* : 148 m. E. by S. Raleigh. It is on the S. side of Ocracoke Inlet to Pamlico Sound, and principally inhabited by fishermen and pilots.

PORTSMOUTH, p. v., and cap. Scioto co., *Ohio* : on the Ohio river, at the mouth of Scioto r., 83 m. S. Columbus. The t. presents a handsome appearance from the r., is well built, and is surrounded by the most fertile district of the Ohio valley. The v. contains a fine court-house, several churches, an excellent academy, bank, market-house, jail, etc. Iron manufactures are extensively prosecuted, from the abundance of iron ore in the vicinity. Mineral coal and fine building-stone are also abundant; the latter is much used in Cincinnati. The building and repairing of steamboats is carried on upon the opposite side of the Scioto. Newspapers—"Tribune and Clipper" (whig), daily and weekly; "P. Dispatch" (dem.), daily; "P. Enquirer" (whig), weekly, The Scioto and Hocking Valley R. R. runs hence through the mineral district, connecting at Newark with the several E. and W. lines, and those to Sandusky, Cleveland, etc. Here also terminates the Ohio Canal from Cleveland, 309 m. in aggregate length. Pop. in 1850, 4,011.

PORTSMOUTH, p. v. and port, Norfolk co., *Virg.* : on the W. side of Elizabeth r., opposite Norfolk, 80 m. S. E. Richmond. Its harbor is one of the best in the U. S., permitting vessels of the largest class to come up to the wharves. The village is regularly laid out, with streets crossing at right angles, and contains a court-house, jail, 5 churches, bank, etc. The Sea-board and Roanoke R. R. extends W. from Portsmouth to Weldon, 80 miles, connecting with the main line of coast railroad, and a line is now being constructed from Portsmouth to Petersburg. Adjoining Portsmouth is Gosport, containing the navy yard, dry dock, etc. Population, 6,871.

PORTSMOUTH, t. and p. v., Newport county, *R. I.* : 19 m. S. by E. Providence. It comprises the N. part of *R. I.* and several adjacent islands in Narragansett bay. Soil everywhere fertile, and under high cultivation. Large flocks and dairies are kept, and much grain and fruit raised. Coal and plumbago are found. Many of the inhabitants are engaged in the coasting trade and fisheries. A bridge on the E. side connects it with Tiverton, and on the N. a ferry plies to Bristol. Pop. 1,833.

PORT TOBACCO, p. v., and cap. Charles co., *Md.* : at the head of Tobacco r., 8 m. from the Potomac, 42 m. S. W. Annapolis. It has an extensive trade in tobacco, the staple of the co., and contains a court-house, jail, and about 500 inhabitants. The "P. T. Times" (neut.) is issued weekly.

PORT UNION, p. v., Butler county, *Ohio* : 82 m. W. S. W. Columbus.

PORTVILLE, t. and p. v., Cattaraugus co., *N. Y.* : on the S. line of the State, 282 m. W. by S. Albany. Drained by Alleghany r. and branches, on which are numerous saw-mills. Surface broken; soil sandy loam, and heavily timbered with pine. Pop. 747.

PORT WALTHALL, v. and port, Chesterfield county, *Virg.* : on the Appomattox r., 19 m. S. S. E. Richmond. A short branch from the Richmond and Petersburg R. R. comes up to this place, connecting with the James river steamers plying to Norfolk, etc.

PORT WALTHALL JUNCTION, sta., Chesterfield co., *Virg.* : 6 m. N. of Petersburg, on the Richmond and Petersburg R. R. A branch R. R. diverges hence to connect with steamers at Port Walthall.

PORT WASHINGTON, p. v., and port Tuscarawas co., *Ohio* : on the Ohio Canal and the right bank of Tuscarawas r. 78 m. E. by N. Columbus. It contains several stores and warehouses, and 269 inhabitants. Imports in 1850, \$278,811, and exports, \$45,277.

PORT WILLIAM, p. v., Franklin co., *Mo.* : 4 m. S. of the Missouri, 67 m. E. Jefferson City.

PORT WILLIAM, p. v., Clinton co., *Ohio* : on Anderson's fork of Little Miami r., 49 m. S. W. Columbus.

POSEY county, *Ind.* Situate S. W., and contains 408 sq. m. Drained by Big and Flat creeks, tributaries of the Wabash r., which forms its western boundary. Surface varied; in general it is rolling, but there are some hilly portions, and on the Ohio and Wabash the land in many places terminates in high bluffs; soil moderately fertile and best adapted to corn and grazing. Chief productions, wheat and Indian corn. Pork is exported largely. It contains some good beds of coal, and has a quantity of fine timber, some of which is exported. Farms 1,270; manuf. 26; dwell. 2,260, and pop.—wh. 12,451, fr. col. 98—total 12,549. *Capital*: Mount Vernon.

POSEY, p. o., Madison co., *Ky.* : 58 m. S. E. Frankfort.

POSEYVILLE, p. v., Posey co., *Ind.* : 135 m. S. W. by S. Indianapolis.

POST CREEK, p. o., Chemung co., *N. Y.* : 158 m. W. S. W. Albany.

POST MILL VILLAGE, p. v., Orange county, *Verm.* : on Ompompanoosuc r., 31 m. S. E. by S. Montpelier.

POST OAK, p. o., Yallabusha co., *Miss.* : 119 m. N. by E. Jackson.

POST OAK, p. o., Johnson co., *Mo.* : 85 m. W. Jefferson City.

POST OAK, p. o., Iredell co., *N. Car.* : 123 m. W. by N. Raleigh.

POST OAK SPRINGS, p. o., Roane co., *Tenn.* : 110 m. E. by S. Nashville.

POST TOWN, sta., Butler co., *Ohio* : 20 m. S. of Dayton, on the Cincinnati, Hamilton, and Dayton R. R.

POSTVILLE, p. v., and cap. Logan co., *Ill.* : on Salt cr., 28 m. N. E. by N. Springfield. It contains a court-house, jail, several stores and mills, and about 500 inhabitants.

POSTVILLE, p. v., Allemaque co., *Pa.* : 95 m. N. Iowa City.

POSTVILLE, p. v., Herkimer co., *N. Y.* : 78 m. W. N. W. Albany.

POTATO CREEK, p. o., Ashe co., *N. Car.* : 173 m. W. by N. Raleigh.

POTEAU river, *Ind. Ter.* : a small tributary of the Arkansas river, which it enters at Fort Smith.

POTECASI, p. o., Northampton co., *N. Car.* : 87 m. E. N. E. Raleigh.

POTOMAC river, *Md.* and *Virg.* : rises in two branches, the N. and the S., which unite in Hampshire co., near the Alleghany Mountains, and thence forms, through nearly its whole course, the boundary between Virginia and Maryland. At Alexandria, 290 m. from the ocean, it is 1½ m. wide; it is 550 m. long, and enters Chesapeake bay, between Point Lookout and Smith's Point, by a mouth 10 m. wide. It is navigable for ships of the line to the navy yard in Washington, 300 m. from the ocean, and 3 m. below the head of tide-water. Above this it is obstructed by numerous falls and rapids. Little Falls are 3 m. above Washington, with a descent of 87 feet, around which is a canal 2½ m. long, with 3 locks. Great Falls are 8½ m. above, descend perpendicularly 76 feet, around which is a canal of 5 locks. Seneca Falls, 5 m. above, descend 10 feet; Shenandoah Falls, 60 m. above, are, at the passage of the river, through the Blue Ridge; Houris Falls are 5 m. above. Around all these falls canals have been constructed. The fall of the Potomac, from the mouth of Savage r., which enters the Potomac at Westport, to Cumberland, 81 m., is 445 feet; from Cumberland to the Shenandoah Falls, 180 m., 490 feet; at the Shenandoah, in 5½ m., 43 feet; from the Shenandoah to Great Falls, 40 m., 39 feet; and thence to tide-water, 12 m., 143 feet—the whole descent from the mouth of Savage river to tide-water, 219 m., is 1,160 feet. Its principal tributary is the Shenandoah, 200 m. long, and navigable 100 m., which enters it on the S. side from Virginia, immediately before its passage through the Blue Ridge. This passage is a great curiosity, and its surrounding scenery very grand. The Potomac is 42 feet deep at its mouth,

80 at St. George's island, 18 at Swan's Point, and thence to Alexandria.

POTOSI, p. v., and cap. Washington co., *Mo.*: 83 m. S. E. by E. Jefferson City. It lies in the heart of a rich mining region, abounding in lead and iron ores. The lead ore, in the form of sulphuret or carbonate, yields from 70 to 80 per cent. of pure metal. Zinc blende and calamine are also found in great quantities here. The v. contains a courthouse, jail, academy, and about 1,000 inhabitants. In its vicinity are several iron furnaces.

POTOSI, t. and p. v., Grant co., *Wise.*: on the Mississippi, 74 m. W. S. W. Madison. Drained by Grant and Big Platte rivers, which flow on its W. and E. borders. Surface uneven; soil moderately fertile. The v. is largely engaged in shipping the lead, which is mined in immense quantities in the vicinity, down the river, and has a population of about 1,000. The "P. Republican" is issued weekly.

POTSDAM, t., p. v., and sta., St. Lawrence co., *N. Y.*: on Racket river, 156 m. N. N. W. Albany. Surface undulating; soil sandy loam, and very productive, underlaid by limestone and red sandstone, very fine building materials. The v. receives abundant water-power from falls in Racket river, improved by various mills and factories. The St. Lawrence Academy, here located, is a flourishing chartered institution, having 2 large stone edifices, 4 stories high. The "St. Lawrence Mercury" (neut.), and the "Courier" are published weekly. The Northern R. R. passes through the town, N. of the village, 25 m. from Ogdensburg, 93 m. from Rouse's Point, and the Watertown and Northern Junction R. R. is now being constructed. Pop. of t. 5,349.

POTTER county, *Penn.* Situate N., and contains 1,064 sq. m. Drained by affluents of W. branch of Susquehanna river, head branches of Genesee, Tioga, and Alleghany rivers, and Pine, SimreMahonng, and Kettle creeks. Surface somewhat elevated; soil a rich loam, and productive. It contains fine beds of coal, and iron ore of a good quality, and is well timbered. Farms 688; manuf. 55; dwell. 1,135, and pop.—wh. 6,042, fr. col. 6—total 6,048. *Capital*: Condersport.

POTTER, t. and p. o., Yates co., *N. Y.*: 169 m. W. by N. Albany. Drained by Flint cr. Surface hilly; soil fertile, gravelly loam; a superior farming and grazing t. Population 2,194.

POTTER PLACE, sta., Merrimac county, *N. Hamp.*: 30 m. N. W. of Concord, on the Northern R. R.

POTTER'S CREEK, p. o., Ocean co., *N. Jer.*: 27 m. E. S. E. Trenton.

POTTER'S HILL, p. v., Washington co., *R. I.*: 29 m. S. S. W. Providence.

POTTER'S HILL, p. o., Rensselaer co., *N. Y.*

POTTER'S HOLLOW, p. v., Albany county, *N. Y.*: 29 m. S. W. by W. Albany; a farming settlement, near the head of the Catskill.

POTTER'S MILLS, p. o., Centre county, *Penn.*: 55 m. N. W. Harrisburg.

POTTESVILLE, p. v., Hunterdon county, *N. Jer.*: 29 m. N. Trenton.

POTTESVILLE, p. v., Warren co., *N. Y.*: on Schroon r., 71 m. N. Albany.

POTTESVILLE, p. v., Mahoning co., *Ohio*: 129 m. E. N. E. Columbus.

POTTESVILLE, p. v., Cheshire county, *N. Hamp.*: 38 m. S. W. by W. Concord.

POTOWATOMIE county, *Ja.* Situate W. toward the S., and contains about 950 sq. m. Drained by Nishnabotona r., and Keg, Mosquito, and Gophen creeks, all branches of Missouri r., which runs on its western border. Surface undulating; soil fertile. Set off since 1850.

POTT'S CREEK, p. o., Alleghany co., *Virg.*: 146 m. W. by N. Richmond.

POTT'S GROVE, p. v., Northumberland co., *Penn.*: 49 m. N. Harrisburg.

POTT'S GROVE, t., Montgomery county, *Penn.*: 66 m. E.

Harrisburg. Drained by Manatawny and Spregel's Run, and the Schuylkill r. bounds it on the south. Surface hilly; soil red shale. The p. o. is at Pottstown. There are several furnaces, rolling-mills, etc. in the town, and also other manufactures. Pop. 2,711.

POTT'S MILLS, p. o., Jessamine county, *Ky.*: 32 m. S. E. Frankfort.

POTTSTOWN, p. b., Montgomery co., *Penn.*: on the left bank of Schuylkill r., at the mouth of Manatawny cr., 65 m. E. Harrisburg. It has good water-power, and contains an academy, a forge, a rolling-mill, using steam, several factories and mills, and 1,647 inhabitants. Near it is a furnace of 1,400 tons capacity. The Schuylkill canal passes along the r., and the Philadelphia and Reading R. R., by which it is 40 m. from Philadelphia. Two weeklies are published, the "M. Ledger" (dem.), and the "Neutralist." Pop. 647.

POTTSVILLE, p. o., Washington co., *Ja.*

POTTSVILLE, p. v., Schuylkill county, *Penn.*: near the Schuylkill, above the gorge where that river breaks through Sharp Mountain, 46 m. N. E. by E. Harrisburg. Pottsville, as incorporated in 1828, embraces also the once separate villages of Mount Carbon, Morrisville, Greenwood, Salem, Bath, and Allenville. Mount Carbon comprises the southern part of Pottsville lying in the valley between Sharp and Second mountains. The scenery of the surrounding country is wild and picturesque, and in its mountainous topography presents many romantic localities.

Pottsville is noted as a great mining depot for the anthracite and iron regions of the Upper Schuylkill. The Schuylkill Canal has its terminus at this point, and also the Philadelphia, Reading, and Pottsville R. R., which here connect with several railroads leading to the neighboring mines, and with the Sunbury and Erie R. R. now in course of construction between the two places. This latter road when completed will furnish one of the nearest routes from the Atlantic coast and the lakes, and insure to Philadelphia its just share of the commerce of those inland waters. The canal and the Reading R. R. are the avenues over which most of the coal from the Schuylkill region is carried. The quantity of anthracite sent to market in 1851, was 2,173,584 tons.

The borough contains numerous iron works, machine and engine shops, extensive warehouses, stores of various kinds, mechanic shops, breweries, tanneries, and numerous mercantile houses. It has a bank—cap. \$200,000, several spacious hotels, 6 or 7 churches, generally of respectable appearance, several public buildings—the town hall, an academy, and 13 public schools with 642 scholars, and there are published here four weekly newspapers, viz., the "Mining Register" (dem.), the "P. Emporium" (dem.), the "Miner's Journal" (whig), the "Free Press" (whig), each circulating from 1,000 to 1,500 copies at each issue.

The place was originated and has been sustained by the coal and iron interest. It is the largest and most important town in the county. In 1840 it contained 4,345 inhabitants, and in 1850 it had 7,946 inhabitants, being an increase in the decade of 82.9 per centum. The distance to Philadelphia by railroad is 93 miles.

POTCH CREEK, p. o., Campbell co., *Tenn.*: 131 m. E. by N. Nashville.

POUGHKEEPSIE, p. v., Allen co., *Ind.*: 108 m. N. E. by N. Indianapolis.

POUGHKEEPSIE, t., p. v., and cap. Dutchess county, *N. Y.*: 66 m. S. Albany. Drained by Wappinger's and Fall creeks, which supply water-power. Surface undulating, and in some parts rough and broken; soil sand, clay, and loam, underlaid by limestone, and very fertile. The v. lies on the E. bank of Hudson r., and is an important manufacturing and commercial point. Lat. 41° 41' N.; long. 73° 55' W. The ground on which built is elevated about 200 feet above the river, and extends into it by two bold promontories on the north and south, forming a large open basin

in front of the landing. The streets are regularly laid out, and are spacious, with many handsome and substantial buildings. Main Street, leading back from the landing, is the principal street. Many of the churches, of which there are 16 or 17, are expensive edifices, and tasteful and elegant in their architectural embellishments. The v. contains the county court-house, jail, 4 banks—cap. \$600,000, a savings' institution, the county poor-house, a collegiate school, an academy, and female seminaries, numerous public schools, a lyceum, two market-houses, and a variety of other public buildings and institutions. The newspapers published here are the "P. Journal and Eagle" (whig), the "P. Telegraph" (dem.), and the "P. American" (F. S.), all issued weekly, and having extensive circulation. The Collegiate School has a fine location on a hill, about a mile from the river, and the building, modeled after the Parthenon, is 137 feet long, erected at a cost of \$40,000. The Duchess County Academy has a building in the S. E. part of the village, which cost \$14,000. The State and National Law School has recently been removed from Balston to Poughkeepsie. A large business with the back country is transacted at Poughkeepsie. The principal manufactures, brass and iron ware, carpets, cotton goods, pins, guns, leather, sperm oil, candles, agricultural implements, carriages, plaster, machinery, crockery, etc. Falkill, which, winding through the village, falls through a ravine 170 feet into the Hudson, furnishes immense water-power. The largest manufacturing establishments are company concerns. One company manufactures locomotives, railroad machinery, etc., another is incorporated for the growth and manufacture of silk, and another invests its capital in the whale fishery, and in the manufacture of oil and candles. The largest brewery in the State, located here, makes 36,000 barrels of ale annually. The several foundries, machine shops, etc., are among the largest in the Union.

Poughkeepsie has a connection with the principal river towns, Albany and New York city, by steamboats which are constantly plying. The Hudson river R. R. also passes through the village equi-distant between New York and Albany—the route to either being 75 m. in length.

Poughkeepsie was incorporated in 1801. Its name is said to have originated from the Indian name of the place, *Apokeepsing* "safe harbor." Its population, in 1830, was 7,222; in 1840, 10,006; and in 1850, 13,944; the decennial increase having been from 1830 to 1840, 38.54 per cent, and from 1840 to 1850, 39.35 per cent. In 1788 the State convention met here to deliberate on the adoption of the United States Constitution, and on other occasions it has been the "half-way house" between the political and commercial capitals of the State.

POUGHKEEPSIE, *Duchess co., N. Y.*: 68 m. S. Albany.

POULTNEY, sta., Rutland co., *Verm.*: 7 m. S. of Castleton, on the Rutland and Washington E. R. The t. of Poultney, drained by the river of the same name, has a diversified surface, and a warm, fertile soil. The v., near the centre, contains some 70 dwellings, and there is also a pleasant v. in the west. In the t. are several furnaces, mills, etc., and 2,329 inhabitants.

POULTNEY RIVER, *Verm.*: rises in Tinmouth, and flows W. into E. bay of Champlain lake. It is about 25 m. long, in its course affording good water-power, and for a little distance is the dividing line between Vermont and New York.

POUND, p. o., Russell co., *Virg.*: at the E. base of Cumberland mts., and on a S. fork of the W. branch of Big Sandy r., 274 m. W. by S. Richmond.

POUNDRIDGE, t. and p. v., Westchester co., *N. Y.*: 103 m. S. by E. Albany. Surface hilly and stony; soil gravelly loam. A farming and grazing t., with several small manufactures. The village contains two churches, and about 40 dwellings. Pop. 1,486.

POVERTY HILL, p. o., Edgefield dist., *S. Car.*: about 3 m. E. of Savannah r., 71 m. S. W. by W. Columbia.

POWDER SPRING GAP, p. o., Grainger co., *Tenn.*: 186 m. E. Nashville.

POWDER SPRINGS, p. o., Cobb co., *Ga.*: near Sweet Water cr., a W. branch of Chattahoochee r., 105 m. N. W. by W. Milledgeville.

POWELL'S RIVER, *Virg.*: rises from Powell's Mountain, and passing into Tennessee, unites with Clinch r., about 4 m. above Knoxville. It is boatable for nearly 100 miles.

POWELL'S MOUNTAIN, p. o., Lee co., *Virg.*: about 2 m. E. of Powell's r., 298 m. W. by S. Richmond.

POWELL'S POINT, p. o., Currituck co., *N. Car.*: 153 m. E. by N. Raleigh.

POWELL'S TAVERN, p. o., Goochland co., *Virg.*: 12 m. W. N. W. Richmond.

POWELTON, p. v., Harrison county, *Tex.*: 258 m. N. E. Austin City.

POWELTON, p. o., Brunswick co., *Virg.*: 61 m. S. by W. Richmond.

POWELTON, p. o., Richmond co., *N. Car.*: 68 m. S. W. by W. Raleigh.

POWELLTON, p. v., Hancock co., *Ga.*: on Ogeechee r., 35 m. N. E. Milledgeville. It contains an academy, several stores and mills, and 800 inhabitants.

POWERS'S MILL, sta., Waukesha co., *Wis.*: 15 m. W. of Milwaukee, on the Milwaukee and Mississippi R. R.

POWERSVILLE, p. v., Bracken co., *Ky.*: 62 m. N. E. by E. Frankfort.

POWESHIEK COUNTY, *Ia.* Situate S. E. centrally, and contains 576 sq. m. Drained by N. fork of Iowa r., N. fork of Skunk r., and Beaver and Prairie creeks. Surface undulating; soil fertile. Set off since 1850.

POWHATAN COUNTY, *Virg.* Situate S. E. centrally, and contains 220 sq. m. Drained by branches of James' and Appomattox rivers. Surface level; soil fertile. Chief products, Indian corn and tobacco. Farms 312; manuf. 0; dwell. 517, and pop.—wh. 2,532, fr. col. 364, sl. 5,282—total 8,178. *Capital*: Scottsville.

POWHATAN, p. o., Lawrence co., *Ark.*: on Big Black r., 109 m. N. E. by N. Little Rock.

POWHATAN, C. H., p. v., and cap. Powhatan co., *Virg.*: 28 m. W. Richmond. It contains a court-house, jail, academy, and about 200 inhabitants. The v. is called Scottsville.

POWHATAN POINT, p. v., Belmont co., *Ohio*: on the Ohio, 115 m. E. Columbus.

POWHATAN, sta., Powhatan co., *Virg.*: 22 m. from Richmond, on the Richmond and Danville R. R.

POWELL'S VALLEY, p. o., Dauphin co., *Penn.*

POWAL, t. and p. o., Cumberland co., *Me.*: 35 m. S. W. Augusta. Soil fertile. Farming is the chief occupation. The Atlantic and St. Lawrence R. R. passes the W. border. Pop. of t. 1,074.

POWAL, t. and p. v., Bennington county, *Verm.*: in the S. W. corner of the State, 112 miles S. S. W. Montpelier. Drained by Hoosic r., which affords water-power. Surface broken; soil fertile, supporting large flocks and dairies. It has several factories. The v. is located on the right side of Hoosic r. The Troy and Boston R. R. will pass through the west part of the t. Pop. 1,742.

POW-WOW RIVER, *N. Hamp.*: an affluent of Merrimac r. It rises in Kingston, and falls into the Merrimac between Salisbury and Amesbury, Mass., where a fall of 100 feet in 50 rods affords an extensive water-power.

POYNETT, p. o., Columbia county, *Wis.*: 22 miles N. Madison.

POY SIEFF, p. o., Marquette co., *Wis.*: 57 m. N. N. E. of Madison.

PRAIRIE COUNTY, *Ark.* Situate E. centrally, and contains 945 sq. m. Drained by branches of Arkansas r., the principal one being Bayou Meter, which passes through it centrally. Surface generally even; soil fertile. It has some good timber land. Farms 155; manuf. 0; dwell. 823, and pop.—wh. 1,512, fr. col. 12, sl. 273—total 2,097. *Capital*: Brownville.

PRAIRIE, p. o., Lewis county, *Mo.*: about 6 m. W. of the Mississippi, 107 m. N. by E. Jefferson City.

PRAIRIE, t., Franklin co., *Ohio*: 9 m. W. S. W. Columbus. Drained by Darby cr. and its tributaries. Surface generally level prairie. The National Road and the Columbus and Xenia R. R. pass through it. Pop. 1,043.

PRAIRIE river, *Mich.*: a tributary of St. Joseph's r., about 40 m. long. It has its source in several small lakes, and discharges itself about 2 m. below the v. of Three Rivers.

PRAIRIE BIRD, p. o., Shelby co., *Ill.*: 47 m. E. S. E. of Springfield.

PRAIRIE BLUFF, p. o., Wilcox co., *Ala.*: on the right bank of Alabama r., 67 m. W. by S. Montgomery.

PRAIRIE CREEK, p. o., Logan county, *Ill.*: 34 m. N. E. Springfield.

PRAIRIE CREEK, p. o., Vigo county, *Ind.*: 6 m. E. of the Wabash, 76 m. W. S. W. Indianapolis.

PRAIRIE DU CHIEN, p. v., and cap. Crawford co., *Wis.*: on the Mississippi, 3 m. above the mouth of the Wisconsin, 89 m. W. by S. Madison. Lat. 43° 03' 06", N., and long. 91° 09' 19" W. The prairie from which it takes its name is 10 m. long and 3 wide, and is one of the most fertile regions of the West. The v. contains the county buildings, half a dozen churches, several school-houses, and numerous mechanic shops and places of business. Its trade is large and rapidly increasing. There are rich mines of copper and galena in the neighborhood; and numerous mounds occur in all directions, indicating it to have been a place of some consequence with the races long since defunct. Fort Crawford, a U. S. military post, is situate immediately south of the village. Pop. 2,498.

PRAIRIE DU LONG, p. o., St. Clair co., *Ill.*: on a W. affluent of the Kaskaskia, 110 m. S. by W. Springfield.

PRAIRIE DU ROCHER, p. v., Randolph county, *Ill.*: on the bluffs, about 4 m. E. of the Mississippi, 123 m. S. by W. Springfield. The village contains a Roman Catholic church and about 400 inhabitants, descendants of the French, who made an early settlement here, and whose manners and customs are still retained.

PRAIRIE DU SAUK, p. v., Sauk co., *Wis.*: on the right bank of the Wisconsin, 22 m. N. W. by W. Madison. It is a v. of rapid growth, with a large trade, containing several mills and 600 inhabitants.

PRAIRIE MER ROUGE, p. o., Morehouse par., *La.*: 162 m. N. by W. Baton Rouge.

PRAIRIE MOUNT, p. o., Chickasaw county, *Miss.*: 129 m. N. E. by N. Jackson.

PRAIRIE PLAINS, p. o., Grimes county, *Tex.*: 106 m. E. Austin City.

PRAIRIE POINT, p. o., Nokubee co., *Miss.*: about 5 m. W. of Tombigbee r., 119 m. N. E. by E. Jackson.

PRAIRIE RIVER, p. o., Branch co., *Mich.*: on a S. branch of St. Joseph's r., 74 m. S. S. W. Lansing.

PRAIRIE RONDE, t. and p. o., Kalamazoo co., *Mich.*: 77 m. S. W. Lansing. Drained by the head of Rocky r. Surface undulating, and mostly rich prairie, with groves of maple and hickory. An excellent t. for grain growing. Population 690.

PRAIRIETON, p. v., Vigo county, *Ind.*: on the S. side of Honey creek, 3 m. E. of the Wabash, 72 m. W. S. W. Indianapolis.

PRAIRIEVILLE, t. and p. o., Barry county, *Mich.*: 54 m. W. S. W. Lansing. Surface slightly broken, and dotted with numerous ponds tributary to the Kalamazoo. Population 558.

PRAIRIEVILLE, p. v., Clinton co., *Ind.*: about 2 m. E. of the Lafayette and Indianapolis E. R., 42 m. N. W. Indianapolis.

PRAIRIEVILLE, p. v., Pike co., *Mo.*: 74 m. N. E. by E. Jefferson City.

PRAIRIESVILLE, p. v., Hunterdon co., *N. Jer.*: on Delaware r., at the mouth of Wickecheoke cr., 17 m. N. W. Trenton. The Belvidere Delaware R. R. passes through it.

PRATT, p. o., Shelby county, *Ohio*: 62 m. W. N. W. Columbus.

PRATT'S, sta., Worcester co., *Mass.*: 13 m. N. of Worcester, on the Fitchburg and Worcester R. R.

PRATTSBURG, p. v., Talbot co., *Ga.*: about 3 m. W. of Flint r., 76 m. W. by S. Milledgeville.

PRATTSBURG, p. v., Ripley co., *Ind.*: on an E. branch of Laughey's cr., 63 m. S. E. Indianapolis.

PRATTSBURG, t. and p. v., Steuben co., *N. Y.*: 173 m. W. Albany. Drained by branches of Conhocton r., which furnish numerous mill-sites. Surface somewhat hilly; soil productive of wheat, but better adapted to grass. Timber is abundant. The v. contains an incorporated academy, several mills, 6 or 8 stores, and about 600 inhabitants. Population of t. 2,786.

PRATTSBURG, p. o., Orange co., *N. Car.*: 27 m. N. W. Raleigh.

PRATT'S HOLLOW, p. o., Madison county, *N. Y.*: 94 m. W. by N. Albany.

PRATTSVILLE, t. and p. v., Greene co., *N. Y.*: 43 m. S. W. Albany, 32 m. W. by N. Catskill, and 37 m. N. W. Kingston. Drained by Schoharie cr., which runs through it from south to north, and affords considerable mill-power. Surface generally broken and mountainous; but the soil of the flats on the creek is very fertile, and the uplands are good for grazing. This t. was set off from Windham in 1532, and named after the Hon. Zadock Pratt, who here built the largest tannery in the United States. The village is handsomely situate on a flat on the N. E. side of Schoharie creek, and on the turnpike, which is lined with beautiful rows of elm and maple-trees on each side, planted 20 years ago, by the founder of the settlement. It contains 2 furnaces, 1 machine shop, 1 cotton-mill, 2 woolen factories, 2 grist-mills, 3 hat factories, 1 carriage factory, 2 glove and mitten factories, 4 hotels, 1 brewery, 1 oil-cloth factory, 1 match factory, 3 cabinet-ware manufactories, 3 blacksmith shops, 2 watch and jewelry stores, 3 tin-ware shops, 1 turning-machine shop, 4 tailors' shops, 11 stores, 1 bank, capital \$100,000 (now winding up), 1 Dutch Reformed church, 1 Methodist church, and 1 Episcopal church, 1 incorporated academy, 9 school-houses, and a printing-office, from which is issued the "P. Advocate" (dem.), which circulates from 500 to 600 copies weekly. There are about 150 dwelling-houses in the village, and 1,800 inhabitants. This is the westernmost bounds of Greene co., and here corner three counties—Greene, Delaware, and Schoharie. The Gilboa, Prattsville, and Shandaken turnpike passes through the v., and also the Schoharie-kill bridge turnpike. A railroad is also being surveyed from Newburg to Syracuse, which will probably pass through Prattsville. The immense tannery buildings of the Hon. Zadock Pratt, at which, in 20 years, no less an amount than 1,000,000 sides of sole leather had been tanned, and around which the v. had grown up, are now occupied by the cotton and woolen factories above mentioned, their original purpose having been foregone on account of the exhaustion of material (hemlock bark) for carrying on the tanning business. Of the founder of the v., it may truly be said that he is a "self-made man." Born in Kearsulaer co. in 1790, then almost a wilderness, and trained up to labor, he has raised himself from a humble position by the powers of his own unaided energies to the enjoyment of a fortune of which a prince might be proud. In his time and generation he has made for himself a name, and for the future youth of our country a pattern worthy of imitation. But the most glorious trait in his character has been his honesty and integrity—he can count 30,000 employees among whom he has distributed hundreds of thousands of dollars, and throughout his long course he has never had a disagreement with one of them, nor been the defendant in any suit against him for wages or claims of any kind. As the ancients were used to record the lives of benefactors by sculptured stories, so at Prattsville are recorded on the native rocks the memoirs of its patron, and from the village road may be seen, in *alto relievo*, a fac-simile of the Pratt tan-

neries, the bust of Mr. Pratt himself, and an emblematic conception of a great act of his life in the institution of a Bureau of Statistics, which he effected during his term as representative in Congress from the 11th district of the State. These will long tell the story of a life well spent, and when his earthly career is run, the youth will read the lesson they convey, and strive to emulate the subject of the legends in his many virtues. Population of t. in 1840, 1,618, and in 1850, 1,989.

PRATTSVILLE, p. v., Vinton county, *Ohio*: 61 m. S. E. Columbus.

PRATTVILLE, p. v., Autauga co., *Ala.*: on Autauga cr., a small N. affluent of Alabama r., 12 m. W. N. W. Montgomery.

PREBLE county, *Ohio*. Situate W. toward the S., and contains 460 sq. m. Drained by Four Mile, St. Clair, and Franklin creeks. Surface varied, in general it is level or rolling, and a large portion is thickly wooded; soil a fine deep mold, and very productive. Staples, wheat and Indian corn. It has some fine grazing land, and a large number of cattle and hogs are fattened and sent to Eastern markets. Farms 1,799; manuf. 109; dwell. 3,749, and pop.—wh. 21,655, fr. col. 78—total 21,736. *Capital*: Eaton. *Public Works*: Dayton and Western R. R.; Dayton and Greenville R. R.; Hamilton and Eaton R. R.; Four Mile Valley R. R.; Junction R. R.

PREBLE, t. and p. v., Cortlandt co., *N. Y.*: 119 m. W. by N. Albany. Drained by Cold cr. Surface hilly; soil gravelly loam, very productive of grass and grain. A superior farming and dairy town. The v. contains several shops and stores, and about 300 inhabitants. Pop. of t. 1,312.

PRECINCT, p. v., Boone county, *Ill.*: on the W. side of Beaver cr., 185 m. N. by E. Springfield.

PRE-EMPTION, p. o., Mercer co., *Ill.*: 114 m. N. N. W. Springfield.

PRENTISS VALE, p. o., McKean co., *Penn.*: 129 m. N. W. Harrisburg.

PRESCOTT, t. and p. v., Hampshire county, *Mass.*: 65 m. W. by N. Boston. Drained by branches of Swift r. Surface rough and broken; soil chiefly adapted to grazing, which is the leading interest. Pop. 737.

PRESIDENT FURNACE, p. o., Venango co., *Penn.*: 173 m. N. W. by W. Harrisburg. Here is a furnace of 1,100 tons capacity.

PRESQUE ISLE county, *Mich.* Situate N. of the S. Peninsula, and contains 725 sq. m. Drained by the N. branch of Thunder Bay r. and other streams. Organized since 1850.

PRESQUE ISLE, p. o., Aroostook county, *Me.*: about 182 m. N. E. Augusta.

PRESTON county, *Virg.* Situate N. W., and contains 545 sq. m. Drained by Cheat r., main branch of Monongahela river. Surface mountainous and rough; soil various—in some parts it is very fertile. Chief product, Indian corn. It contains good grazing land. Farms 1,019; manuf. 5; dwell. 1,664, and pop.—wh. 11,574, fr. col. 47, sl. 87—total 11,703. *Capital*: Kingwood. *Public Works*: Baltimore and Ohio Railroad.

PRESTON, t. and p. v., New London co., *Conn.*: on the E. side of Quinebang and Thames rivers, 39 m. E. S. E. Hartford. Drained by Broad and Poquetanock rivers. Surface rough and stony; soil better for grazing than grain-growing. The Norwich and Worcester R. R. passes on the W. border along the rivers. The v. is near Amoss's pond, a favorite summer resort. Pop. of t. 1,804.

PRESTON, p. o., Yallabusha co., *Miss.*: 116 m. N. N. E. Jackson.

PRESTON, t. and p. o., Chenango co., *N. Y.*: on the W. side of Chenango r., 94 m. W. by S. Albany. Drained by small affluents of the river; surface uneven; soil fertile, adapted to grass or grain, and mostly well timbered. There is a small v. in the N. part of the t. The Chenango Canal lies on the S. E. corner. Pop. 1,082.

PRESTON, p. o., Hamilton county, *Ohio*: on a branch of Whitewater r., 102 m. W. S. W. Columbus.

PRESTON, t. and p. o., Wayne county, *Penn.*: 128 m. N. E. by N. Harrisburg. Drained by affluents of Delaware river. Surface broken; soil gravelly loam, heavily timbered with pine, hemlock, and chestnut.

PRESTON, p. v., Grayson county, *Tex.*: on Red r., 238 m. N. N. E. Austin City. Large amounts of cotton are shipped here.

PRESTONBURG, p. v., and cap. Floyd co., *Ky.*: on the W. fork of Big Sandy r., 129 m. E. by S. Frankfort. It contains a court-house, jail, several mills and stores, and 200 inhabitants.

PRESTON HOLLOW, p. v., Albany county, *N. Y.*: 27 m. S. W. by W. Albany. It contains several mills, half a dozen stores, and 300 inhabitants.

PRESTONVILLE, v., Rhea county, *Tenn.*: on the N. side of Tennessee r., 117 m. E. by S. Nashville.

PRESTONVILLE, p. v., Carroll co., *Ky.*: on the Ohio, just below the mouth of the Kentucky, 34 m. N. N. W. Frankfort. It has a convenient landing, and contains about 300 inhabitants.

PREVITT'S KNOB, p. o., Barren co., *Ky.*: 104 m. S. S. W. Frankfort.

PRICE, p. o., Huntington county, *Ind.*: 76 m. N. N. E. Indianapolis.

PRICEBURG, p. v., Monroe co., *Penn.*: 101 m. N. E. by E. Harrisburg.

PRICETOWN, p. v., Berks county, *Penn.*: 56 m. E. by N. Harrisburg. Here is a furnace of 1,400 tons capacity, built prior to 1770.

PRICETOWN, p. o., Highland co., *Ohio*: 62 m. S. by W. Columbus.

PRICEVILLE, p. v., Wayne county, *Penn.*: 119 m. N. E. Harrisburg.

PRILLAMAN'S, p. o., Franklin co., *Virg.*: on the N. side of Smith's r., 151 m. W. S. W. Richmond.

PRIMEROSE, p. v., Lee co., *Io.*: 63 m. S. by W. Iowa City.

PRIMEROSE, t. and p. o., Dane co., *Wisc.*: 19 m. S. W. Madison. Drained by Sugar r. Surface rolling; soil very fertile, a large part being vegetable mold and meadow. Farming products of all kinds are grown in profusion. Pop. 348.

PRINCE EDWARD county, *Virg.* Situate S. centrally, and contains 255 sq. m. Drained by branches of Appomattox r. Surface rolling; soil fertile, and generally well cultivated. Chief products, Indian corn and tobacco. It contains Hampden Sidney College, founded in 1733, also a preparatory academy. Farms 421; manuf. 86; dwell. 805, and pop.—wh. 4,177, fr. col. 458, sl. 7,192—total 11,857. *Capital*: Prince Edward. *Public Works*: Richmond and Danville R. R.; South Side R. R., etc.

PRINCE EDWARD, p. o., Gilmer co., *Ga.*: near the source of Coosawattee r., 134 m. N. W. by N. Milledgeville.

PRINCE EDWARD COURT-HOUSE, p. v., and cap. Prince Edward co., *Virg.*: 53 m. W. S. W. Richmond. A large trade in tobacco is carried on here. The v. contains a court-house, jail, academy, and about 300 inhabitants.

PRINCE FREDERICKTOWN, p. v., and cap. Calvert co., *Md.*: on Parker's cr., 4 m. W. of Chesapeake bay, 81 m. S. by W. Annapolis. It contains a court-house, jail, academy, and 450 inhabitants.

PRINCE GEORGE county, *Virg.* Situate toward the S. E., and contains 275 sq. m. Drained by Blackwater river. Surface an extended plain; soil fertile. Chief products, Indian corn and tobacco. Cotton is also grown in the co. Farms 336; manuf. 23; dwell. 661, and pop.—wh. 2,670, fr. col. 513, sl. 4,408—total 7,596. *Capital*: Prince George C. H. *Public Works*: Appomattox R. R.; Petersburg R. R.; Petersburg and Norfolk R. R., etc.

PRINCE GEORGE'S county, *Md.* Situate W., and contains 492 sq. m. Drained by branches of Patuxent river, which forms its E. boundary, and of Potomac river, which bounds it on the S. W. Surface uneven; soil fertile, and well adapted to tobacco, which it produces in large quanti-

ties, and which is the staple. It raises good crops of wheat and Indian corn, and has some fine timber land. Farms 885; manuf. 23; dwell. 1,875, and pop.—wh. 8,901, fr. col. 1,189, sl. 11,510—total 21,550. *Capital of the county*: Upper Marlboro'.

PRINCE GEORGE C. H., p. v., and cap. Prince George co., *Virg.*: 52 m. N. N. E. Richmond. It contains the co. buildings and several stores.

PRINCE'S bay, *N. Y.*: on the S. E. side of Staten Island. It furnishes safe anchorage in a N. E. storm; and is noted for the fine flavored oysters it produces.

PRINCESS ANNE county, *Virg.* Situate S. E., and contains 851 sq. m. Drained by North r. and E. branch of Elizabeth r. Surface level and somewhat elevated, presenting the appearance of table-land; soil fertile. Chief production, Indian corn. Farms 712, manuf. 8, dwell. 898, and pop.—wh. 4,290, fr. col. 259, sla. 3,130—total 7,669. *Capital*: Princess Anne C. H.

PRINCESS ANNE, p. v., and cap. Somerset co., *Md.*: near the head of Manokin r., 16 m. E. of Chesapeake bay, 68 m. S. E. Annapolis. It is regularly laid out, and substantially built with brick, has a brisk trade, and contains a court-house, jail, academy, and 700 inhabitants. The "S. Herald" (whig) is published weekly.

PRINCESS ANNE C. H., p. v., and cap. Princess Anne co., *Virg.*: 93 m. S. E. by E. Richmond. It contains a court-house, an academy, and 200 inhabitants.

PRINCETON, p. v., and cap. Dallas co., *Ark.*: about midway between Wachita and Saline rivers, 56 miles S. by W. Little Rock. It contains the co. buildings, several stores, and 300 inhabitants.

PRINCETON, p. v., and cap. Bureau co., *Ill.*: 8 m. W. of the Illinois, 112 m. N. by E. Springfield. It lies on the border of a large prairie, surrounded by a rich farming region, with which it carries on an extensive trade, and contains a court-house, jail, academy, and about 20 stores. The "Bureau Advocate" (free soil) is published weekly.

PRINCETON, p. v., and cap. Gibson co., *Ind.*: 3 m. S. of Patoka creek, 119 m. S. W. by S. Indianapolis. It is surrounded by a rich farming region, with which it has a brisk trade, and contains a court-house, jail, 2 academies, 20 stores, and 806 inhabitants. It is 27 miles N. of Evansville, and the same distance S. of Vincennes on the Evansville and Illinois R. R. Two weekly papers are published, the "G. Review" (whig) and the "Democratic Clarion."

PRINCETON, p. v., Scott co., *Ja.*: on the Mississippi, 24 m. above Davenport, 60 m. E. Iowa City.

PRINCETON, p. v., Jackson co., *Ala.*: on an E. branch of Paint Rock r., 161 m. N. by E. Montgomery.

PRINCETON, p. v., Caldwell co., *Ky.*: 179 miles W. S. W. Frankfort. It is a thriving, busy v., the former cap. of the co., with a large trade in grain and other staples, and contains about 500 inhabitants.

PRINCETON, t. and p. o., Washington co., *Me.*: on the S. side of Schoodic Lake outlet, a W. affluent of the St. Croix, 123 m. E. N. E. Augusta. Pop. 280.

PRINCETON, t. and p. v., Worcester county, *Mass.*: 44 m. W. by N. Boston. Drained by branches of Nashua and Ware rivers, which furnish mill privileges. Surface rough and hilly. Wachusett Mt. rises in the N. 3,000 feet above the ocean, and about 2,000 above the surrounding country, commanding a wide view, and attracting many visitors in the summer months; soil fertile and well tilled. A good grazing t., with large dairies and numerous small manufactories. Pop. 1,318.

PRINCETON, p. v., an' cap. Washington co., *Miss.*: on the Mississippi, 74 m. N. W. Jackson. It is the landing place and shipping port for the plantations on Lake Washington, 5 m. E., and contains a court-house, several warehouses and stores, and 300 inhabitants.

PRINCETON, p. v., and cap. Mercer co., *Mo.*: on Weldon r., a N. affluent of Grand r., 146 m. N. W. by N. Jefferson City. It contains the co. buildings and several mills and stores.

PRINCETON, t. and p. b., Mercer co., *N. Jer.*: 10 m. N. E. Trenton. The t. is situate in a bend of Stony Brook, which bounds it on three sides, and to the N. is the Rocky Hill Drained chiefly by creeks falling into the brook. Surface beautifully diversified with hill and valley, and soil of average fertility. The b. is situate in the S. part of the t., on an elevated ridge, commanding an extensive prospect eastward, and is built chiefly on one long street, the houses being remarkably neat and substantial. Lat. 40° 20' 41" N., and long. 74° 39' 30" W. It is chiefly noted as the location of the College of New Jersey, one of the oldest collegiate establishments in the Union, having been founded in 1746, at Elizabethtown; removed to Newark 1747, and to this borough in 1757. In 1850 it had 12 professors and 243 students; and its library contained 16,000 volumes; its alumni at that date numbered 8,031, of whom 557 had entered the ministry. In the Law Department there are 3 professors, and in 1850, 8 law students. The college edifice is called Nassau Hall; it is 175 feet long, by 50 deep, and 4 stories high; and besides a chapel, which is 40 feet square, there are other large buildings attached to the college, which contain philosophical apparatus, the museum, etc. The buildings are of stone. The Theological Seminary of the Presbyterian Church is also located here. It was founded in 1812, and in 1850 had 5 professors and 153 students. Up to that date, 1,626 persons had received their education at the institution; and its library contained 11,000 volumes. The buildings of this institution are also neat, spacious, and convenient. Besides these, there are in borough four churches—2 Presbyterian, 1 Episcopal, and 1 African; and including several mechanic shops, stores, a bank, academies and public schools, about 250 houses. The periodicals published at Princeton are, the "P. Whig," issued weekly, the "P. Magazine" (liter.), monthly, and the "Nassau Hall" a students' literary monthly. The Delaware and Raritan Canal and the Trenton and New Brunswick R. R. run along the valley of Stony Brook, about a mile S. of the borough, 47 m. from New York and 39 m. from Philadelphia. In the t. are several mills, a tannery, and other industrial establishments, but farming is the general occupation. Cedar Grove is a small settlement in the N. W. part of the t., and contains a Methodist church, etc. Pop. of t. in 1840, 3,055, and in 1850, 3,021. Princeton was the scene of one of the great battles of the Revolution, fought 3d January, 1777, and which resulted disastrously to the American arms.

PRINCETON, p. v., Butler county, *Ohio*: 85 m. W. S. W. Columbus.

PRINCETON, p. o., Lawrence co., *Penn.*: 187 m. W. N. W. Harrisburg.

PRINCETON, p. v., and cap. Mercer county, *Virg.*: on Brush cr., a branch of Blue Stone r., 194 m. W. Richmond. It contains the co. buildings, and has several mills in its vicinity.

PRINCETON, p. v., Marquette county, *Wisc.*: on Neenah or Fox r., 56 m. N. by E. Madison.

PRINCEVILLE, p. v., Peoria county, *Ill.*: 78 m. N. by W. Springfield.

PRINCE WILLIAM county, *Virg.*: situate N. E., and contains 806 sq. m. Drained by Occoquan r. Surface hilly; soil diversified, in general fertile. Chief product Indian corn. Farms 579; manuf. 28; dwell. 998, and pop.—wh. 5,031, fr. col. 550, sl. 2,498—total 8,129. *Capital*: Brentsville. *Public Works*: Alexandria and Orange R. E.; Manassas Gap R. R.

PRINCE WILLIAM, p. o., Carroll county, *Ind.*: 2 m. S. of Wild Cat cr., 49 m. N. N. W. Indianapolis.

PRINCIPIO FURNACE, p. v., Cecil county, *Md.*: on Principio cr., 53 m. N. E. by N. Annapolis.

PRIVATEER, p. o., Sumter district, *S. Car.*: 38 m. E. by S. Columbia.

PROCTOR, p. v., Owsley co., *Ky.*: on Kentucky r., near the confluence of its N. and S. forks, 74 m. S. E. by E. Frankfort.

PROCTOR, p. o., Allegan county, *Mich.*: 74 m. W. by S. Lansing.

PROCTOR, p. o., Wetzel county, *Virg.*: 224 m. N. W. Richmond.

PROCTOR'S CREEK, p. o., Chesterfield co., *Virg.*

PROCTOR'S CROSSING, sta., Essex co., *Mass.*: 4 m. from Salem, on the Salem and Lowell R. R.

PROCTORSVILLE, v. and sta., St. Bernard par., *La.*: 27 m. E. of New Orleans, on the Mexican Gulf R. R., which terminates here on the shore of Lake Borgne, and connects with steamers for various Gulf ports.

PROCTORSVILLE, p. v. and sta., Windsor co., *Verm.*: on Black r., and the Rutland and Burlington R. R., 25 m. N. W. Bellow's Falls, 61 m. S. Montpelier. It contains a bank, extensive iron works, and several woolen factories.

PROMPTON, p. o., Wayne co., *Penn.*: on a N. branch of Lackawaxen r., 118 m. N. E. Harrisburg. It contains several mills, and 800 inhabitants.

PROPHETSTOWN, p. v., Whitesides co., *Ill.*: on the left bank of Rock r., 133 m. N. by W. Springfield.

PROSPECT, t. and p. o., New Haven co., *Conn.*: 24 m. S. W. Hartford. Surface elevated, rough, and mountainous; soil adapted to grazing, which is the chief interest. Pop. 674.

PROSPECT, t. and p. v., Waldo co., *Me.*: on the W. side of Penobscot r., at the head of the bay, 52 m. E. by N. Augusta. Surface generally even; soil very productive. A superior farming l., with great commercial advantages, and extensively engaged in the lumber and coasting trade. The v. on the r. has a brisk trade and a convenient landing. Pop. of t. 2,467.

PROSPECT, p. o., Oneida co., *N. Y.*: 48 m. N. W. by W. Albany.

PROSPECT, t. and p. o., Marion co., *Ohio*: 85 m. N. N. W. Columbus. Drained by Scioto r., which affords water-power. Surface pleasantly varied. Soil very fertile, and under high cultivation. Pop. 548.

PROSPECT, p. o., Butler county, *Penn.*: 169 m. W. N. W. Harrisburg.

PROSPECT, p. o., Giles co., *Tenn.*: on Elk r., near the Ala. line, 74 m. S. by W. Nashville.

PROSPECT, p. o., Burleson co., *Tex.*: 68 m. E. Austin City.

PROSPECT, p. o., Prince Edward co., *Virg.*: 59 m. W. S. W. Richmond.

PROSPECT FERRY, p. o., Waldo co., *Me.*: 53 m. E. by N. Augusta.

PROSPECT GROVE, p. o., Scotland co., *Mo.*: 122 m. N. Jefferson City.

PROSPECT HALL, p. o., Bladen co., *N. Car.*: 69 m. S. Raleigh.

PROSPECT HARBOR, p. v., Hancock co., *Me.*: 51 m. E. by N. Augusta.

PROSPECT HILL, p. o., Ray co., *Mo.*: 121 m. N. W. by W. Jefferson City.

PROSPECT HILL, p. o., Caswell county, *N. Car.*: 55 m. N. W. by W. Raleigh.

PROSPECT HILL, p. o., Fairfax co., *Virg.*: 97 m. N. by E. Richmond.

PROSPECT HILL, p. o., Waukesha co., *Wis.*: 54 m. E. Madison.

PROSPECT MILLS, p. o., Lycoming county, *Penn.*: 78 m. N. by W. Harrisburg.

PROSPECT PLAINS, sta., Mercer co., *N. Jer.*: 44 m. S. of New York, on the Camden and Amboy R. R.

PROSPERITY, p. o. and sta., Newberry dist., *S. Car.*: on the Greenville and Columbia R. R., 7 m. E. of the C. H., and 40 m. (by route) N. W. Columbia.

PROSPERITY, p. o., Moore co., *N. Car.*: on the S. side of Deep r., 56 m. W. by S. Raleigh.

PROSPERITY, p. o., Washington co., *Penn.*: 173 m. W. Harrisburg.

PROVIDENCE county, *R. I.* Situate N., and contains 850 sq. m. Drained by Pawtucket, Providence or Narragansett,

Mashasuck, Wanasquatucket, and Pawtuxet rivers and their tributaries, by which good water privileges are secured to the county. Surface uneven and rough; soil generally a dark gravelly loam. Its commercial advantages are great, and it has many extensive manufactures. Farms 2,162; manuf. 804; dwell. 12,760, and pop.—wh. 56,737, fr. col. 1,789—total 97,525. *Capital*: Providence. *Public Works*: Providence and Worcester R. R.; Boston and Providence R. R.; Providence and Stonington R. R.; Hartford, Providence, and Fishkill R. R.; New York, New Haven, and Boston R. R., etc.; Blackstone Canal.

PROVIDENCE, p. v., Pickens co., *Ala.*: 129 m. N. W. by W. Montgomery.

PROVIDENCE, p. o., Sumter dist., *S. Car.*: 43 m. E. by N. Columbia.

PROVIDENCE, p. o., Sumter co., *Ga.*: 93 m. S. W. by S. Milledgeville.

PROVIDENCE, p. o., Carroll co., *Miss.*: 91 m. N. by E. Jackson.

PROVIDENCE, p. v., Bureau co., *Ill.*: 104 m. N. Springfield.

PROVIDENCE, p. v., Hopkins co., *Ky.*: on Tide-water r., 169 m. W. S. W. Frankfort.

PROVIDENCE, t. and p. v., Saratoga county, *N. Y.*: 32 m. N. N. W. Albany. Drained by branches of Sacandaga r., which supply numerous mill privileges. Surface mountainous and heavily timbered; soil clayey loam, adapted to grass. There is a small v. in the S. part of the town. Pop. 1,458.

PROVIDENCE, p. o., Mecklenburg co., *N. Car.*: 116 m. W. S. W. Raleigh.

PROVIDENCE, t. and p. v., Lucas co., *Ohio*: on the W. side of Maumee r., along which the Wabash and Erie Canal passes, 109 m. N. N. W. Columbus. Surface level; soil sandy, and in parts marshy. The v. is on the canal, 26 m. S. W. Toledo. Pop. of t. 467.

PROVIDENCE, t. and p. o., Luzerne co., *Penn.*: 93 m. N. E. by N. Harrisburg. Drained by Lackawannock river and branches, which supply fine water-power. Surface even, being mostly a valley; soil fertile and well timbered. Anthracite coal abounds. The Lackawanna and Western R. R. crosses it. It contains several flouring and saw mills.

PROVIDENCE, p. e., port of entry, and cap. Providence co., and principal capital of the State of *R. I.*: at the head of navigation of Providence r., 35 m. from the ocean, in lat. 41° 49' 22" N., and long. 71° 24' 48" W. by railroad, 43 m. S. S. W. Boston, and 186 m. E. N. E. New York. The area of the city is about 9 sq. m., the compact part being divided into two nearly equal parts by the river. The surface east of the r. is hilly, and in its highest part 204 feet above tide-water; on the west it is more level, the greatest height being only 73 feet. The harbor is safe and commodious, but its approach is somewhat intricate.

The city is divided into 6 wards and governed by a mayor, 6 aldermen, and 24 common councilmen. These officers are chosen annually by the people. All other officers are appointed by the city council, consisting of the aldermen and councilors, the mayor presiding. There is a municipal court, which is also a court of probate, within the city, and the city clerk is also register of deeds. Its police is excellent, and the city one of the cleanest in the Union. It is lighted with gas. The fire department is efficient, and consists of 12 engine companies, 2 hook and ladder companies, 15 stationary forcing engines, 22 rotary engines, 8,000 feet of hose, and is maintained at a cost of \$20,000 annually. The material used in building required this efficient force, and it was not until several extensive conflagrations had occurred that the department was placed on its present footing. Including a balance of old accounts, the resources of the city treasury for the year ending 3d March, 1851, amounted to \$150,505, and the expenditures to \$165,057; on account of interest \$14,985, for schools \$40,553, and for streets \$28,999. The debt of the city at the date specified was \$185,553. The population of the several wards of the city in 1840 and 1850 comparatively were as follows:

Wards,	1840.	1850.	Increase.
First Ward.....	3,919.....	7,204.....	81.3 per cent.
Second ".....	3,383.....	4,583.....	35.5 "
Third ".....	3,919.....	6,706.....	71.1 "
Fourth ".....	3,883.....	5,859.....	83.0 "
Fifth ".....	4,106.....	7,299.....	77.7 "
Sixth ".....	3,962.....	10,362.....	161.5 "
Total.....	23,172	41,513	79.1

Population in 1810, 10,071, and in 1820, 11,767—increase 16.8 per cent.; in 1830, 16,583—increase 43.1 per cent.; in 1840, 23,172—increase 37.6 per cent.; and in 1850, 41,513—increase 79.1 per cent.

The more ancient portion of the city lies on the east side of the river, and though conforming in the outline of its streets with the topography of the site, and by no means distinguished for regularity, it contains many fine stores, warehouses, public buildings, and handsome residences. Back from the river the streets become more regular, and many of the dwellings in this part are costly and elegant, delightfully situated as regards the view of the harbor and vicinity. The buildings of Brown University crown the ascent. The west part of the city is laid out with more regularity, and is more modern in appearance. The Providence Arcade, in this part, is one of the largest and most important buildings in the city; it extends from Broad to Westminster streets, and is 226 feet long, 80 feet deep, and 72 feet high. The building is of granite, and adorned with Græco-Doric porticoes and columns, the columnar shafts being single blocks 22 feet long. The lower floor is occupied chiefly by dry goods stores, and the upper stories by offices and dealers in light fancy goods. The Museum buildings and Howard Hall, on Westminster Street, are also fine buildings, and "What Cheer" building, at the junction of North and South Main streets, is a handsome freestone edifice, occupied by offices, etc.

Among the public buildings are, the State House, various charities, the State Prison, the Athenæum, the Reform School, 25 or 30 churches and meeting-houses, and the public schools. Most of these are substantial, and many of them costly edifices, distinguishing alike the taste displayed by the architect and the magnificence of the citizens in their support.

Brown University, founded at Warren, in 1764, and removed to Providence, 1770, is situated on the highest part of the city, and consists of several halls, etc., furnishing elegant and ample accommodations. University Hall and Hope College are large edifices for the lodging of students; Manning Hall contains the libraries, now counting 32,000 volumes, and Rhode Island Hall, the cabinet, chemical and philosophical apparatus, and lecture rooms. To the usual collegiate department has been added an English and scientific school for the benefit of such as do not intend entering the learned professions. The faculty of the university consists of a president and 10 professors, and in 1850 there were 195 students, and to that date the alumni numbered 1,765, of whom 460 had entered the ministry.

The Athenæum is located on the corner of College and Benefit streets, and has a library of 12,000 volumes. It is a spacious and elegant stone structure, erected in 1837, built on a lot given by the late Hon. N. Brown, and the heirs of Mr. P. Ives, who also gave large sums toward the building and library. The annual subscription is \$5, which admits members to the library and reading room.

The New England Yearly Meeting Boarding School, the object of which is to afford a "guarded" education to children, occupies a lot of 43 acres, given for the purpose by the late Moses Brown. The main buildings consist of a centre 54 feet square and 3 stories high, and two wings 84 by 42 feet, and 2 stories high; and there is another 2 story building, 50 by 40 feet, which together accommodate about 80 scholars. Board and tuition, \$60 a year. The late Obadiah Brown bequeathed \$100,000 toward the endowment of this institution.

The public schools supported by the city are 46 in number, of which 22 are primary, 16 intermediate, 7 grammar, and the High School. In these there were, in 1850, 105 teachers and 6,000 scholars; and the cost to the city, \$40,553. Besides these, there are upward of 30 Sunday schools, with 500 teachers, and between 5,000 and 6,000 scholars.

The newspapers published in Providence are 9 in number—3 daily, 2 semi-weekly, and 4 weekly. The "P. Journal" (whig), issued daily, semi-weekly, and weekly editions; the "P. Post" (dem.) daily and weekly; the "Morning Mirror" (misc.), a daily; the "Republican Herald" (dem.), semi-weekly and weekly, and the "Diadem," a weekly edition.

The most splendid and costly of the church edifices are, the First Congregational church, of granite; St. John's, a stone building; Grace, a Gothic structure; Westminster Congregational, the Beneficent Congregational, St. Peter's, and St. Patrick's. The First Baptist church, the oldest society in the city, is a clean wooden building. The other churches are in general neat, but not so costly. The colored inhabitants have five churches. In the whole city there are upward of 30 congregations, including all the principal denominations.

Dexter Asylum, on a ridge east of the river, is an institution erected on land given to the city by the late Eb. K. Dexter, for the accommodation of the poor. The premises cover 40 acres, and are surrounded by a stone wall 10 feet high and 3 feet thick at the base, which cost \$22,000. The Asylum is a plain and substantial brick building, 170 feet long, consisting of a centre building 3 stories high, and two wings, each 2 stories high.

The Butler Hospital for the Insane is located on Seekonk river. It was founded on a legacy of the late M. Brown, amounting to \$30,000, and received its present name from the late C. Butler, who gave \$40,000 toward its endowment. It was incorporated in 1844, and, until recently, was known as the Rhode Island Hospital for the Insane. On the 31st Dec., 1850, there were 113 patients in the hospital; the admissions during the next year were 68, and the discharges 54, of which 26 were recovered, and 8 improved, and 16 died. Receipts \$24,252, and expenses \$21,017. The minimum price of board is \$2 25 a week. The State appropriates \$1,000 annually to enable the governors to aid the poor insane, and also pays a portion of the expenses of such poor insane persons as the towns may choose to send to the hospital. The aggregate endowment of the hospital amounts to \$138,000. The grounds belonging to the institution consist of 115 acres, of which 55 are woodland and 60 under cultivation. The building stands on the W. bank of the river, which here expands to a mile in width, and admits of an extensive and delightful prospect. Patients were first admitted on the 1st December, 1847.

The State Prison is located here. On the 1st October, 1850, there were in confinement 37 convicts, and 24 had been committed, and 14 had been discharged during the ensuing year. The number of persons in Providence jail, at the suit of the State, on the 1st October, 1851, was 57; at the suit of the city, 11, and 4 debtors. During the year past, 508 had been committed, of whom 452 were males and 51 females; whites 473, and colored 30; natives 298, and foreigners 210; and besides these, 177 persons had been committed to the house of correction. The convicts in the State Prison are principally employed in shoe-making, and those in the Providence county jail at cabinet-work. The Reform School was established in 1850. The buildings were formerly known as the Toekwotton House, a hotel, pleasantly situated on high ground, in the S. E. part of the city, overlooking the bay, and large enough to accommodate 180 to 200 inmates. It was founded for the instruction and reformation of juvenile offenders between the ages of 8 and 18 years. The first year of its occupancy, ending 31st October, 1851, it received 52 convicts—49 boys and 3 girls, and there remained in the institution at that date 45, of whom 24 had been committed

for theft, 6 for assault, 4 for vagrancy, and 11 for truancy; 42 were born in the United States, and of these 31 in Rhode Island. Of each day, except Sunday, $7\frac{1}{2}$ hours are devoted to labor, 5 to school exercises, $2\frac{1}{2}$ to meals and recreation, 1 to religious exercises, and 8 to sleep. The labor has been employed in making such articles as are needed in the institution and in housework. An arrangement has been made by the State, by which all juvenile delinquents may be sent to this school.

The manufactures of Providence are valuable, and constantly increasing. Its water-power is fully occupied, and steam-power, averaging 50 or 60 engines of 200 to 300 horse-power, is also employed. On the Pawtucket, and other streams, are extensive factories of cotton and woolen goods, machine-shops, dyeing and print works, and within the city are various establishments of similar character. The sawing and polishing marble, sawing and planing timber, and grinding grain, form extensive occupations; and a large capital is invested in the manufacture of iron of all kinds, machinery, screws, nails, furniture, small wares, shoes and boots, carriages, jewelry, and an extensive variety of other and no less valuable commodities. The total capital employed in this branch of industry is not much under \$6,000,000. In 1840 the capital was only \$3,012,588.

Providence, however, is more a commercial than a manufacturing city, and commerce has been the main pursuit from the earliest periods. Before the last war with England, it was successfully engaged in the East India trade, but since this period this and foreign commerce has gradually declined. In the year ending 30th June, 1850, only 50 vessels (8,457 tons) cleared for foreign ports, and the arrivals were only 69 (11,736 tons). The coasting trade is still carried on to a considerable, and perhaps an increasing extent. The aggregate tonnage owned in the district in 1850 was 16,712 tons, of which 9,177 tons were registered, 7,298 enrolled and licensed, and 237 tons licensed (under 20 tons). Of the registered shipping, 499 tons were employed in whaling, and the proportion of the licensed and enrolled shipping was—in the coasting trade 7,202 tons, in the cod fishery 26 tons, and in the mackerel fishery 69 tons; and 53 tons were navigated by steam. Of the licensed shipping 96 tons were employed in the coasting trade, and 141 tons in the cod fishery. The shipping built during the year consisted of 1 ship, 1 schooner, 3 sloops, and 1 steamer—total 6 ships, of an aggregate burden of 1,299 tons. The products of the whale fishery brought into port in 1849, was—sperm oil 2,317 barrels, whale oil 4,542 barrels, and whalebone 30,200 pounds.

Providence, according to the Report of the Secretary of State, on the 5th September, 1850, had 26 banks and one savings institution. The condition of the banks at that date was as follows—*Liabilities*, capital stock, \$9,518,810; bills in circulation, \$1,831,339; deposits on interest, \$159,497; deposits not on interest, \$1,133,590; debts due other banks, \$831,795; dividends unpaid, \$21,409; and net profits on hand, \$592,709; and *assets*: debts due from directors, \$261,914; from stockholders, \$303,348; and others, \$12,031,937; specie actually in bank, \$177,078; bills of other banks, \$525,464; deposits in other banks, \$423,464; stock of bank, \$1,484; and of other banks, etc., \$36,356; real estate, \$184,867; and other property, \$6,309—total \$14,000,193. The average semi-annual dividend amounts to 3 11-16.

The retail trade of the city is extensive, and one of the main features in its economy. Stores of every description, exhibiting goods of the richest descriptions, are numerous, and in the provision trade, both wholesale and retail, a large business is done. Many of the stores are equal to those of New York, Philadelphia, and Boston, in the splendor of their assortments and the costly style in which they are furnished. The great bulk of the foreign goods sold here are brought from Boston and New York, with which places there is ample means of rapid communication by railroad and steamboat; and the communication with the interior,

both for passengers and freight, is varied and commodious. Steamboats run regularly to Warren, Bristol, Portsmouth, Newport, Fall River, and New York. The railroads diverging from Providence are the Boston and Providence R. R., the Stonington R. R., and the Providence and Worcester R. R., and others have been chartered to Bristol and Hartford to connect with the through lines. These railroads connect so as not to require change of cars in passing from one to the other. The station buildings are extensive, and near the centre of the business portion of the city. They are situated on three sides of a beautiful sheet of water of elliptical form, which constitutes the head of Providence r.; and between this and the railroad buildings is a beautiful promenade, 80 feet wide, which is well laid out in gravel walks and grassed plots, and ornamented with shade trees. The water is inclosed by a substantial stone wall and iron railing, with bridges to cross the small rivers flowing into it, and also its outlet. Telegraph wires are extended from this city, and afford immediate communication with the whole Union.

Providence was founded by Roger Williams in 1637. The first landing-place, on crossing the Seekonk, he called "What Cheer," because the patriarch of the settlement was saluted by the Indians with "what cheer," on his approach. The origin of the name of the city, Mr. Williams explains in a deed executed by him: "having a sense of God's merciful providence unto me in my duties, I called the place *Providence*." The first house was built on what is now North Main Street; and near this spot it is supposed that Mr. Williams was buried, although the site of his grave is not ascertained. In 1640 a town government was established, and in 1649 it was incorporated. In 1832 it was chartered as a city.

PROVIDENCE, p. o., Halifax co., *Virg.*: 92 m. S. W. by W. Richmond.

PROVIDENCE RIVER, *R. I.*: an arm of Narragansett bay, extending from the city of Providence to Field's Point, about 3 m., or to Bullock's Point, 5 m. On the N., below Providence, it receives Seekonk or Pawtucket (Blackstone in Massachusetts) river; and above the city another stream or expanse of water into which fall Wanasquatucket and Moshasick rivers. It is navigable for large ships to Providence, and forms a safe harbor.

PROVIDENCE HILL, p. o., Tyler co., *Tex.*: 219 m. E. by N. Austin City.

PROVINCETOWN, t. and p. v., Barnstable co., *Mass.*: on the extreme N. W. point of Cape Cod, 43 m. E. S. E. Boston. The surface consists of beaches and sandy hills, with swamps and shallow ponds interspersed. Cape Cod harbor, within the curve of the cape, is easy of access, spacious and safe, with a sufficient depth of water for the largest ships. The v. lies along the beach for 2 m., and is inhabited chiefly by fishermen. Salt is extensively manufactured, and the water is raised into vats for evaporation by windmills. Pop. 3,153.

PROVISO, p. o., Cook co., *Ill.*: 173 m. N. E. by N. Springfield.

PROVO CITY, v., Utah co., *Utah Ter.*: on the E. side of Utah lake, about 96 m. N. by E. Fillmore City. It is a new Mormon city, laid out in 1852.

PRUDENCE ISLAND, *R. I.*: a small island in Narragansett bay, and belonging to the co. of Newport.

PRUNE HILL, p. o., Montgomery co., *Ala.*

PRUNTY'S, p. o., Patrick county, *Virg.*: 162 m. W. S. W. Richmond.

PRUNTYTOWN, p. v., and cap. Taylor co., *Virg.*: on the E. branch of Monongahela r., 184 m. N. W. Richmond. It contains the county buildings, several stores, and 300 inhabitants. The Baltimore and Ohio R. R. passes about 4 m. N. of it, from which the North Western R. R. will diverge and pass through it.

PRYOR'S VALE, p. o., Amherst co., *Virg.*: at the E. base of the Blue Ridge, 98 m. W. Richmond.

PUBLIC SQUARE, p. v., Greene co., *Ga.*: 43 m. N. N. E. Milledgeville.

PUCKETAS, p. o., Westmoreland co., *Penn.*: 124 m. W. Harrisburg.

PUEBLA, p. o., Westmoreland co., *Penn.*

PUEBLA, p. o., Brown co., *Ohio*: 79 m. S. S. W. Columbus.

PUEBRO river, *N. Mex.*: rises in the Sierra Madre, in lat. 36° N., and flows S. by E. nearly parallel with the Del Norte, into which it falls opposite the village of Ciboletta, and 12 m. N. of Socorro, after a course of 120 m. Its main tributary is the San José, a stream rising near the Zuni Pass of the Sierra.

PUGET'S sound, *Washington Ter.*: a large sound in the N. W. part of the old Oregon Territory, being the S. part of Admiralty Inlet, and communicating with the Pacific Ocean by the straits of De Fuca. It receives several small rivers, and is full of islands. Olympia is the principal port on its waters, and there are numerous new settlements along its shores.

PUGH'S HILL, p. o., Franklin co., *N. Car.*: 87 m. N. N. E. Raleigh.

PUGHTOWN, p. v., Chester co., *Penn.*: on a branch of French cr., 63 m. E. by S. Harrisburg.

PUGSLEY'S DEPÔT, p. o. and sta., Tompkins co., *N. Y.*: on the Cayuga and Susquehanna R. R., 19 m. N. of Owego, 181 m. W. by S. Albany.

PULASKI county, *Ark.* Situate centrally, and contains 1,151 sq. m. Drained by Arkansas r., which runs centrally through it, and by its several branches. Surface diversified; soil in general fertile, and is well adapted to grain and grass. There is a quantity of good timber on the land. Farms 306; manuf. 14; dwell. 808, and pop.—wh. 4,526, fr. col. 13, sl. 1,119—total 5,658. *Capital*: Little Rock. *Public Works*: several proposed railroads from the Mississippi.

PULASKI county, *Ga.* Situate S. centrally, and contains 758 sq. m. Oenulgee r. runs through it in a nearly central direction, by which and its tributaries it is drained. Surface hilly; soil fertile, and is best adapted to cotton—wheat and Indian corn are produced, and the hilly portions make good pasture for cattle, sheep, hogs, etc., which are annually exported. Pine timber abounds. Farms 371; manuf. 2; dwell. 701, and pop.—wh. 3,784, fr. col. 39, sl. 2,804—total 6,627. *Capital*: Hawkinsville.

PULASKI county, *Ill.* Situate S., and contains 162 sq. m. Drained by a tributary of the Ohio, which forms its S. E. boundary. Surface generally level, excepting the bluffs on the Ohio shore; soil fertile. Pine timber is found on the land. Farms 266; manuf. 18; dwell. 418, and pop.—wh. 2,257, fr. col. 8—total 2,265. *Capital*: North Caledonia. *Public Works*: Illinois Central R. R.

PULASKI county, *Ind.* Situate toward the N. W., and contains 432 sq. m. Drained by Tippecanoe r. and its branches. Surface varied—for the most part it is level, but through the county there are occasional ridges of low hills—a large portion is prairie and thickly covered with timber; soil moderately fertile—the wet prairies when drained make good pasture. Chief productions, Indian corn, wheat, and potatoes. Fruit of different kinds is produced. Farms 286; manuf. 0; dwell. 454, and pop.—wh. 2,593, fr. col. 0—total 2,593. *Capital*: Winamac.

PULASKI county, *Ky.* Situate S. E., and contains 1,120 sq. m. Drained by numerous branches of Cumberland r., which passes through its centre. Surface in some parts hilly, but generally even; soil fertile and adapted to grazing. It produces wheat, oats, and Indian corn, which form the staples of the county. Farms 1,528; manuf. 14; dwell. 2,263, and pop.—wh. 12,861, fr. col. 27, sl. 1,307—total 14,195. *Capital*: Somerset.

PULASKI county, *Mo.* Situate S. centrally, and contains 1,061 sq. m. Drained by Gasconade r. and its branches, and tributaries of Osage r. Surface broken and hilly; soil in general fertile, and adapted to corn and tobacco. Fruits of all kinds are grown extensively. Numbers of cattle, sheep, and swine are fed on the hills, where they find good grazing. It abounds in minerals, principally iron and lead.

Farms 471; manuf. 3; dwell. 630, and pop.—wh. 3,885, fr. col. 0, sl. 118—total 3,998. *Capital*: Haynesville.

PULASKI county, *Virg.* Situate toward the S. W., and contains 368 sq. m. Drained by New r., which passes through the S. portion of the county. Surface hilly and broken, in some parts mountainous; soil fertile. Chief product, Indian corn. It has some fine grazing land. Farms 301; manuf. 19; dwell. 588, and pop.—wh. 3,613, fr. col. 84, sl. 1,471—total 5,118. *Capital*: Newbern. *Public Works*: Virginia and Tennessee R. R., and Junction Branch to Covington and Ohio R. R.

PULASKI, p. v., Hancock county, *Ill.*: 73 m. W. N. W. Springfield.

PULASKI, t. and p. o., Jackson co., *Mich.*: 46 m. S. by W. Lansing. Drained by S. branch of the Kalamazoo, into which flow several small ponds. Surface generally undulating, and fine wheat land. Pop. 760.

PULASKI, p. v., Panola co., *Tex.*: on the Sabine, 252 m. N. E. by E. Austin City.

PULASKI, p. o., Scott co., *Miss.*: 37 m. E. Jackson.

PULASKI, t. and p. o., Williams co., *Ohio*: 128 m. N. W. Columbus. Drained by Lick cr. and other W. branches of the Tiffins r., which afford good mill-sites. Surface diversified; soil of moderate fertility. Pop. 760.

PULASKI, p. v., Lawrence co., *Penn.*: on Shenango cr. and the Beaver and Erie Canal, 192 m. W. N. W. Harrisburg.

PULASKI, p. v., and alternate cap. Oswego co., *N. Y.*: on Salmon r., 4 m. from Lake Ontario, and 108 m. W. by N. Albany. It has considerable water-power, and contains a court-house, jail, numerous manufactures, and about 1,000 inhabitants. The Watertown and Rome R. R. passes within 4 m. E. of the village. The river, which has a good harbor at its mouth, is navigable for small craft 14 m. to Orwell. The "Richland Courier" and the "Northern Democrat" are published here weekly.

PULASKI, p. v., and cap. Giles co., *Tenn.*: on Richland cr., a N. branch of Elk r., 64 m. S. by W. Nashville. It has a heavy trade in corn, cotton, and tobacco, the staples of the rich district around it, and contains a court-house, academy, bank, 20 stores, and 1,200 inhabitants. The "Western Star" (whig) is published weekly.

PULASKIVILLE, p. v., Morrow co., *Ohio*: 7 m. E. S. E. Mount Gilead, and 46 m. N. N. E. Columbus.

PULTNEY, t. and p. o., Steuben co., *N. Y.*: on the W. side of Crooked lake, 173 m. W. Albany. Surface level, with an inclination to the lake; soil clay and calcareous loam, adapted to grain and grass. A farming town. Pop. 1,815.

PULTNEYVILLE, p. v., Wayne co., *N. Y.*: on the S. shore of Lake Ontario, 173 m. W. N. W. Albany. It has some lake trade, and contains a steamboat landing, several warehouses and stores, and 500 inhabitants.

PULVER'S CORNERS, p. o., Dutchess county, *N. Y.*: 49 m. S. by E. Albany.

PUMPKIN, p. o., Southampton co., *Virg.*: 64 m. S. S. E. Richmond.

PUMPKIN PILE, p. o., Paulding co., *Ga.*: 123 m. W. N. W. Milledgeville.

PUMPKINTOWN, p. v., Pickens district, *S. Car.*: 122 m. N. W. by W. Columbia.

PUMPKINTOWN, p. v., Randolph co., *Ga.*: 132 m. S. W. Milledgeville.

PUMPKIN VINE, p. o., Paulding co., *Ga.*: on a S. branch of Elowah r. so called, 119 m. N. W. by W. Milledgeville.

PUNCHEON, p. o., Allen county, *Ky.*: 118 m. S. S. W. Frankfort.

PUNGO CREEK, p. o., Beaufort county, *N. Car.*: 104 m. E. by S. Raleigh.

PUNGOTEAQUE, p. v., Accomac co., *Virg.*: on the Eastern Shore, 92 m. E. by N. Richmond. It contains 2 churches, a store, mill, and 200 inhabitants.

PUNTA LOMA, *Calif.*: at the mouth of San Diego bay, in lat. 32° 29' 51" N., and long. 117° 15' 07" W. The initial point of the line between Mexico and the United States

commences 8 m. S. of this on the Pacific Ocean. A monument marks the point.

PUNXTAWNEY, p. v., Jefferson co., *Penn.*: on Mahoning creek, 118 m. W. N. W. Harrisburg.

PURCELLSVILLE, p. o., Loudon co., *Virg.*: 106 m. N. by W. Richmond.

PURDY, p. v., and cap. McNairy co., *Tenn.*: at the head of a branch of Hatchee r., 114 m. S. W. by W. Nashville. It contains the county buildings, an academy, and several stores.

PURDY CREEK, p. o., Steuben co., *N. Y.*: 196 m. W. by S. Albany.

PURDY'S STATION, p. o., Westchester co., *N. Y.*: on the E. side of Croton r., and on the line of the Harlem R. R., 106 m. from Albany.

PURVIS, p. v., Sullivan co., *N. Y.*: 63 m. S. W. Albany.

PUSEYVILLE, p. v., Lancaster co., *Penn.*

PUSHAW lake, Penobscot co., *Me.*: a small lake, 8 m. long and a mile wide, connecting in the N. with the Dead stream, and having its outlet through Pushaw r., which falls into the Penobscot, opposite Old Town.

PUSHMATAHA, p. o., Choctaw co., *Ala.*: 118 m. W. by S. Montgomery.

PUTNAM county, *Flor.* Situate toward the N. E., and contains 487 sq. m. Drained by branches of St. John's r., which bounds it on the E., and of Oclawaha river, which bounds it on the S. Surface rising, or slightly undulating; soil fertile and highly productive. Staples, rice, cotton, fruits, vegetables, Indian corn, wheat, etc. Farms 20; manuf. —; dwell. 108, and pop.—wh. 473, fr. col. 10, sl. 204—total 657. *Capital*: Piletaka.

PUTNAM county, *Ga.* Situate N. centrally, and contains 278 sq. m. Drained by branches of Oconee r., which forms its W. boundary. Surface even; soil a fine deep mold, and very fertile, and produces abundantly corn, wheat, and cotton, which last is the chief production. Timber is found of good quality. Farms 351; manuf. 32; dwell. 609, and pop.—wh. 3,800, fr. col. 26, sl. 7,463—total 10,794. *Capital*: Eatonton. *Public Works*: Eatonton R. R.

PUTNAM county, *Ill.* Situate N. centrally, and contains 268 sq. m. Illinois river passes through its W. portion, and forms its N. boundary, by which and its branches it is drained. Surface uneven and diversified; a large portion is prairie; soil fertile and very productive. It is well timbered, and has much fine grazing land. Farms 317; manuf. 26; dwell. 636, and pop.—wh. 3,920, fr. col. 4—total 3,924. *Capital*: Hennepin.

PUTNAM county, *Ind.* Situate W. centrally, and contains 488 sq. m. Drained by Deer and Big Raceon creeks, and Walnut fork of Eel river. Surface varied—in general undulating or rolling, but along the streams the land is hilly and broken; soil fertile, and adapted to wheat, grain, etc., the hilly portions making fine pasture for cattle. Chief productions, wheat, Indian corn, tobacco, and sugar. It has some good timber and fine quarries of limestone. Farms 1,696; manuf. 42; dwell. 3,088, and pop.—wh. 18,581, fr. col. 84—total 18,615. *Capital*: Greencastle.

PUTNAM county, *Mo.* Situate N., on the border of the State, and contains 317 sq. m. Drained by head branches of Chariton r. Surface rolling; soil fertile, and easy of cultivation, and produces corn, fruits, tobacco, etc., in large quantities. It has some fine timber land, and may in general be said to be productive. It contains some good beds of coal. Farms 202; manuf. 0; dwell. 265, and pop.—wh. 1,688, fr. col. 0, sl. 19—total 1,657. *Capital*: Putnamville.

PUTNAM county, *N. Y.* Situate S. E., and contains 216 sq. m. Drained by head branches of Croton r., Peekskill, and other small streams. Surface mountainous, making good grazing land. The Highland range extends across the N. W. portion, and the Taghkanic, in the E., from N. to S.; soil various—in the E. part, with cultivation, it is productive, and yields good crops of wheat, grain, etc., which are its chief products. It has some extensive beds of iron ore and plumbago, with many other minerals, and granite

and limestone are found. The West Point Foundry, the largest in the States, is in this county. Farms 989; manuf. 89; dwell. 2,425, and pop.—wh. 14,008, fr. col. 180—total 14,188. *Capital*: Carmel. *Public Works*: Hudson River R. R.; Harlem R. R.

PUTNAM county, *Ohio*. Situate toward the N. W., and contains 486 sq. m. Drained by Auglaize r. and its affluents. Surface uneven, and in parts somewhat elevated; soil a deep mold, with clay intermixed, and productive. Staples, wheat and Indian corn. Pine and other timber abounds. Farms 608; manuf. 11; dwell. 1,246, and pop.—wh. 7,210, fr. col. 11—total 7,221. *Capital*: Kalida. *Public Works*: Miami Canal.

PUTNAM county, *Virg.* Erected in 1848 out of Kanawha, Cabell, and Mason. Situate W., and contains 313 sq. m. Drained by Great Kanawha river and its tributaries. Surface hilly and broken; soil various, but in general fertile. Chief products, wheat and Indian corn, with pork, etc. It contains bituminous coal. Farms 455; manuf. 21; dwell. 788, and pop.—wh. 4,693, fr. col. 10, sl. 632—total 5,325. *Capital*: Putnam. *Public Works*: Maysville and Big Sandy R. R.; Covington and Ohio R. R.; James River and Kanawha Canal, etc.

PUTNAM, t., and p. o., Washington co., *N. Y.*: on the neck of land between lakes George and Champlain, 69 m. N. Albany. Surface traversed by the Palmerstown range of mountains, some peaks of which are 1,500 feet high. There is little land fit for cultivation. Pop. 753. Old Fort Ticonderoga occupies the N. extremity of the peninsula.

PUTNAM, p. v., Muskingum co., *Ohio*: on the W. bank of Scioto r., at the mouth of Licking r., 50 m. E. Columbus. Zanesville is on the opposite side of the river, with which a handsome bridge connects it. It has great facilities for manufactures, various branches of which are extensively prosecuted, and contains a bank, an academy, a female seminary, and 1,674 inhabitants. The Cincinnati, Wilmington, and Zanesville R. R. passes through it.

PUTNAM VALLEY, t., Putnam co., *N. Y.*: 67 m. S. by E. Albany. Drained by Peekskill and several other streams, and studded with many small lakes. Surface traversed by the Highlands, and a broad and fertile valley lying between their ridges. Iron ore is abundant, and there are several furnaces, etc., with grist, saw, and other mills. Population 1,626.

PUTNAMVILLE, p. v., Putnam co., *Ind.*: on Deep cr., and the New Albany and Salem R. R., 38 m. W. by S. Indianapolis. It contains several mills and a population of about 500.

PUTNAMVILLE, p. v., and cap. Putnam co., *Mo.*: 136 m. N. by W. Jefferson City.

PUTNEY, t. and p. v., Windham co., *Verm.*: on Connecticut river, 92 m. S. by E. Montpelier. Surface varied; on the streams are extensive meadows—back of them it is rugged and broken; soil fertile; on the hills good pasturage. Sackett's brook falls 75 feet in quarter of a mile, affording superior power, and moving several woolen, paper, woodenware, and other factories. Serpentine is abundant. The Vermont Valley R. R. crosses the E. part. P. station is 9 m. N. of Brattleboro'. Pop. of t. 1,425.

PUTNEYVILLE, p. v., Armstrong co., *Penn.*: 143 m. W. by N. Harrisburg.

PYLESVILLE, p. v., Harford county, *Md.*: 7 m. W. of the Susquehanna, 49 m. N. by E. Annapolis. It is built of stone, and contains a flouring-mill and several stores. In the vicinity are quarries of asbestos and slate.

PYRAMID lake, *Utah Terr.*: on the Sierra Nevada, 4,890 feet elevation above the sea level. It was discovered by Fremont in 1844, and is 35 m. long. The pyramid, a little E. of its middle, more like the work of man than a natural elevation, measures 600 feet above the surface of the water. Lat. 40° N., and long. 119° 50' W. It receives the waters of Mud lake from the N., and of Salmon-trout r. from the S., but has no outlet.

PYRAMID CIRCLE, *Oreg. Terr.*: on the overland route to

California, at the junction of the Great Salt Lake and California roads, 1,208 m. from Council Bluffs. It is 5 m. long, and about 3 m. wide, level within the walls around, and studded throughout with numerous tall white and green stones, from 60 to 150 feet high, and from 10 to 20 feet in diameter at the foot, some of them running almost to a point at the top. It is surrounded by mountains which are covered with pine and cedar trees, and is altogether a beautiful and picturesque scene. Upon these stones are written, painted, and engraved, the names of many visitors, with the dates. This circle is entirely surrounded by mountains, except an inlet at the east end of about 50 yards, and an outlet at the west end of about 20 yards wide.

PYRMONT, p. o., Montgomery co., Ohio: 63 m. W. by S. Columbus.

Q.

QUAKER BOTTOM, p. o., Lawrence co., Ohio: 97 m. S. by E. Columbus.

QUAKER HILL, p. o., Duchess co., N. Y.: 76 m. S. by E. Albany.

QUAKER SPRINGS, p. v., Saratoga co., N. Y.: about 1 m. W. of Hudson r. and 27 m. N. by E. Albany.

QUAKER SPRINGS, v., Columbia co., Ga.: 71 m. E. N. E. Milledgeville. This settlement was formed in 1750 by a party of Friends, who, alarmed at the murders by the Cherokees, fled here for refuge.

QUAKER STREET, p. o., Schenectady county, N. Y.: 25 m. W. by N. Albany.

QUAKERTOWN, p. v., Hunterdon county, N. Jer.: 47 m. N. by W. Trenton. It contains a Friends' meeting-house, 3 stores, and 20 or 25 dwellings. Sometimes called FAIRVIEW.

QUAKERTOWN, p. v., Bucks co., Penn.: 79 m. E. by N. Harrisburg. It is neatly built on a single street, and contains a Friends' meeting-house, and about 300 inhabitants.

QUALLATOWN, p. v., Haywood county, N. Car.: 283 m. W. by S. Raleigh.

QUANTICO, p. o., Somerset co., Md.: on a cr. so called, 58 m. S. E. Annapolis.

QUANTUCK bay, Suffolk co., N. Y.: at the E. extremity of Great South bay, and separated from Shinnecock bay by Quogue neck.

QUARRYVILLE, p. v., Lancaster co., Penn.

QUARRYVILLE, p. v., Tolland co., Conn.

QUASQUETON, p. v., Buchanan co., Ia.: on E. side of Wapsipinicon r., 49 m. N. by W. Iowa City.

QUAY, p. o., Claiborne parish, La.: 189 miles N. W. Baton Rouge.

QUECHEE river, Verm.: an affluent of the Connecticut. It rises in Sherburne, and after a course of 35 m. falls into that r. in Hartland, 2 m. above Quechee Falls. It receives a number of tributaries, and affords extensive water-power.

QUECHEE VILLAGE, p. v., Windsor co., Verm.: around the Falls of Quechee r., 5 m. from its mouth, 51 m. S. by E. Montpelier. There is an immense water-power here, and considerable manufactures are carried on; and both up and down the river are mills of various descriptions.

QUEEN ANNE county, Md. Situate E., toward the N., and contains 403 sq. m. Drained by branches of Chester river, which flows on the N. W., and of Tuckahoe cr., which forms its W. boundary. Kent island, lying to the S. W., is within the limits of the county. Surface undulating, and in parts elevated; soil fertile. Staples, wheat and Indian corn. Farms 936; manuf. 29; dwell. 1,864, and pop.—wh. 7,040, fr. col. 3,174, sl. 4,270—total 14,484. Capital: Centerville.

QUEEN ANNE, p. o., Prince George's co., Md.: on W. side of Patuxent r., 13 m. W. S. W. Annapolis.

QUEEN'S county, N. Y. Situate toward the W. part of Long Island, and contains 396 sq. m. Drained by several small streams which enter the sound on the N., and the Atlantic Ocean on the S. Surface moderately even; soil in

the N. a deep loam, and in the S. sandy; when cultivated it is productive, and well adapted to grain and grazing. Chief products, wheat and Indian corn. This co. contains some minerals, but none of any great importance. It has numerous bays and harbors, which abound with fish, oysters, etc. Farms 3,803; manuf. 89; dwell. 6,230, and pop.—wh. 33,359, fr. col. 8,444—total 36,833. Capital: North Hempstead. Public Works: Long Island R. R.; Hempstead Branch R. R.

QUEENSBOROUGH, p. v., Anderson dist., S. Car.: on the W. side of Saluda r., 81 m. N. W. by W. Columbia.

QUEENSBURY, t. and p. v., Warren co., N. Y.: 46 m. N. Albany. Drained by Wood cr. on the N., and bounded on the S. by Hudson r. Surface undulating, and in the W. hilly; soil sand and loam, fertile. It contains the village of Glen's Falls, and has considerable manufactures and trade. Pop. of t. 5,313.

QUEENSDALE, p. v., Robeson co., N. Car.: 85 m. S. S. W. Raleigh.

QUEENSTOWN, Queen Anne county, Md.: on S. E. side of Chester bay, 19 m. E. by N. Annapolis.

QUEENSVILLE, p. v., Jennings co., Ind.: on the line of the Madison and Indianapolis E. R., 53 m. S. E. Indianapolis, and 28 m. from Madison.

QUEMAHONING, t., Somerset county, Penn.: 11 m. N. E. Somerset. Drained by McConaughey r. and Quemahoning, Higgins', and Wills' creeks. Surface hilly; soil gravelly and light, but productive. Stony creek bounds it on the E. It contains several mills, for which it has fine water-power. Pop. 1,302.

QUENAUDENVILLE, v., Lewis co., Oreg. Ter.: at the confluence of Clehalis r. with Gray's Harbor, 142 m. N. by W. Salem.

QUERCUS GROVE, p. v., Switzerland co., Ind.: 89 m. S. E. Indianapolis. It is situate about 12 m. N. E. from Vevay, and is sometimes called "Bark Works," on account of its having been founded for the purpose of grinding and packing oak bark for the English market.

QUIET DELL, p. o., Harrison co., Virg.: 205 m. W. N. W. Richmond.

QUILLINSVILLE, p. v., Scott co., Virg.: 291 m. W. S. W. Richmond.

QUINCY, p. v., and cap. Gadsden co., Flor.: on the W. side of Attapulgus creek, 19 m. W. N. W. Tallahassee. It contains a court-house, jail, etc., and about 600 inhabitants.

QUINCY, p. v., and cap. Adams co., Ill.: mostly on a high bluff, on the E. side of the Mississippi, 88 m. W. Springfield. It is a flourishing v., and contains a court-house, jail, etc., a U. S. land office, numerous warehouses, stores, and workshops, and other establishments, indicative of its commercial importance. Several steamboats arrive and depart daily during the season. It is also noted for its hog-packing for exportation. The newspapers published here are the "People's Journal" (indep.), daily and weekly; the "Q. Whig" (whig), the "Q. Wochenblatt" (dem.), and the "Q. Herald and Argus" (dem.), all weekly, and the "Western Legal Observer" and the "Western Temperance Magazine," both monthly. This v. will be the W. terminus of the Northern Cross R. R., which will bring it into connection with Chicago, Springfield, and the whole North and East. The neighborhood is thickly settled and highly cultivated. Pop. in 1850, 6,911.

QUINCY, t. and p. v., Norfolk co., Mass.: on Braintree bay, an arm of Boston Harbor, 8 m. S. by E. Boston. Surface pleasantly diversified and somewhat hilly; soil of excellent quality and well cultivated. It contains large tracts of salt meadow. The v. is centrally situate and has several neat and some costly buildings. The town-house is a noble building of granite, 85 by 55 feet. A newspaper, the "Q. Patriot," is issued weekly. Quincy Point and Germantown are well known places on the shore, and are eligibly situated for ship-building and the shore fisheries. Squantum is noted as having been the residence of the Indian sachem.

Chichataubut, and is also a pleasant resort for fishing and bathing. Considerable manufactures are carried on in the town, but Quincy is more celebrated for its granite quarries. About 2 m. back from the bay is a range of elevated land, in some parts more than 600 feet above the sea, containing an inexhaustible supply of that invaluable building material. This granite range extends into the neighboring towns. More than 1,000 hands are employed in these quarries, which supply a large amount of stone for building in all the great cities. The columns of the new Custom House and Exchange at Boston are of this material, and much of it is used in New York city. Quincy has been the birth-place of several noted patriots—John Hancock, Josiah Quincy, John Adams, and John Quincy Adams were born here, and have left to posterity names of imperishable renown. Pop. of t. 5,017.

QUINCY, t. and p. v., Branch co., *Mich.*: 61 m. S. S. W. Lansing. Drained by Hog creek and other affluents of St. Joseph's river. Surface varied; soil fertile and adapted to grain. The v. is situate on the line of the Southern Michigan R. R., 86 m. from Monroe and 167 m. from Chicago. The t. is eminently agricultural, and produces fine crops. Pop. 1,111.

QUINCY, p. v., Monroe co., *Miss.*: 143 m. N. E. Jackson.

QUINCY, p. v., Hickory co., *Mo.*: 66 m. S. W. Jefferson City.

QUINCY, p. v., Logan county, *Ohio*: on the E. branch of Great Miami r., 57 m. W. N. W. Columbus. The Bellefontaine and Indiana R. R. passes through it about 12 m. from Bellefontaine.

QUINCY, p. v., Gibson co., *Tenn.*: on the S. side of Forked Deer cr., 133 m. W. S. W. Nashville.

QUINCY, p. v., Franklin co., *Penn.*: 48 m. S. W. Harrisburg. It is situate at the foot of South Mountain, in a rich iron region, and there are several manufacturing establishments in the vicinity.

QUINCY, p. o., Washita co., *Ark.*: 78 m. S. S. W. Little Rock.

QUINEBAUG, p. v., Windham co., *Conn.*: on Quinebaug r., 43 m. E. N. E. Hartford.

QUINEBAUG river, *Conn.*: a tributary of Shetucket r. It rises in Mashapaug pond and passes into Mass., where, in the t. of Brimfield, it receives a considerable branch, and thence returning in a S. E. direction into Conn., it takes a S. course for 30 m. until it unites with the Shetucket, 3 m. above Norwich City. It has falls that afford extensive and valuable water-power.

QUINNIPIAC river, *Conn.*: rises in Farmington, and after a S. course 30 m., enters New Haven Harbor, where it is crossed by a long bridge.

QUINN'S MILLS, p. o., Clinton county, *Ohio*: 102 m. S. W. Columbus.

QUITMAN, p. v., and cap. Clark co., *Miss.*: on the E. side of Chickasawha r., 92 m. E. by S. Jackson. It contains a court-house and the county offices, several stores, and about 150 inhabitants. The Mobile and Ohio R. R. passes through it.

QUITMAN, p. v., Benton county, *Ala.*: 108 m. N. N. E. Montgomery.

QUITMAN, p. o., Van Buren county, *Ark.*: on N. fork of Cadron cr., 47 m. N. Little Rock.

QUITO, p. v., Talbot co., *Ga.*: on the W. line of the co., 92 m. W. S. W. Milledgeville.

QUIVER, p. o., Mason county, *Ill.*: 27 m. N. by W. Springfield.

QUODDY (or WEST QUODDY) HEAD, *Me.*: at the S. side of entrance into West Quoddy bay, in lat. 44° 49' 18" N., and long. 66° 59' W. West Quoddy Head Light-house is located on this headland.

QUOGUE, p. v., Suffolk co., *N. Y.*: on the S. side of Long Island, on a neck between Shinnecock and East bays, 145 m. E. S. E. Albany. It is a small, scattered, but pleasant place, and is much resorted to as a summer retreat.

QUONOCONTAUG, p. v., Washington county, *R. I.*: 29 m. S. by W. Providence.

R.

RABBIT river, Allegan co., *Mich.*: rises in the N. E. part of the co., flows S. S. W., and empties into the Kalamazoo r., 7 m. from its mouth.

RABBITSVILLE, p. o., Logan county, *Ky.*: 149 m. S. W. Frankfort.

RABBIT TOWN, p. o., Benton co., *Ala.*: 108 m. N. N. E. Montgomery.

RABUN COUNTY, *Ga.*: Situate N. E., and contains 818 sq. m. Chatooga river runs on the E. and Terrors through the S. and W., by which and their branches it is drained. Surface elevated, and forms, for the most part, table-land. In the E. and W. it is hilly, the Blue Ridge forming its eastern boundary; soil fertile. Agriculture is the leading pursuit with a large portion of the inhabitants. Pine and other timber is found of excellent quality. Farms 282; manuf. 0; dwell. 385, and pop.—wh. 2,338, fr. col. 0, sl. 110—total 2,448. *Capital*: Clayton. *Public Works*: Rabun Gap R. R. (proposed).

RACINE COUNTY, *Wis.*: Situate S. E., on Lake Michigan, and contains 339 sq. m. Drained by Fox, Pike, Root, and Des Plaines rivers and their affluents, which supply good water-power. Surface uneven, and diversified with lakes; soil a rich loam, and very productive. Agriculture is the leading pursuit. Farms 971; manuf. 104; dwell. 2,578, and pop.—wh. 14,907, fr. col. 66—total 14,973. *Capital*: Racine. *Public Works*: Chicago, Milwaukee, and Green Bay, R. R.

RACINE, t., p. c., and cap. Racine co., *Wis.*: bordering on Lake Michigan, 73 m. E. S. E. Madison. Drained by Root r., which, passing through in a S. E. direction, flows into the lake. Surface undulating; soil of good quality. The v. is at the mouth of Root r., in lat. 42° 49' 33" N., and long. 87° 40' 22" W. It contains the court-house, jail, and other public buildings; store-houses and other places of business, of various descriptions, printing-offices, etc., and an Episcopal college has been established here—Roswell Parks, D.D., President. The imports for 1851 amounted to \$1,452,750, and the exports \$650,950. The exports consist chiefly in wheat, of which a large quantity is raised in the t. and vicinity. Racine is a flourishing place, and bids fair soon to become an important commercial point for the State. The public press consists of 5 papers—the "Commercial Advertiser" (dem.), "Old Oaken Bucket" (Temp.), "Racine Advocate" (dem.), and the "Democrat" (dem.), all weekly issues; and the "Wisconsin Farmer" (agri.), a monthly issue. The Green Bay, Milwaukee and Chicago R. R. passes through it. Pop. of the city 5,103, and of the t. 5,880.

RACKET lake and river, *N. Y.*: the lake is in N. part of Hamilton co., an irregular body of water, 14 m. long, 2 to 5 m. wide, abounding with large trout, etc. It connects with Long lake, from which flows Racket river, 145 m. long, which enters the St. Lawrence, near St. Regis.

RACKET RIVER, p. o., St. Lawrence co., *N. Y.*

RACCOON, p. o., Marion co., *Ill.*: 95 m. S. S. E. Springfield.

RACCOON, t., Gallia co., *Ohio*: 88 m. S. S. E. Columbus. Drained by Racoon cr. Surface diversified; soil generally fertile. Centreville is a small settlement on a branch of the stream. Pop. of t. 1,474.

RACCOON, p. o., Preston county, *Virg.*: 177 m. N. W. Richmond.

RACCOON river, Bad Ax co., *Wis.*: flows through N. W. part of the co., into Mississippi r.

RACCOON FORD, p. o., Culpepper co., *Virg.*: on bank of Rapid Ann r., 15 m. above its entrance into Rappahannock r., 68 m. N. W. by N. Richmond.

RACCOON ISLAND, p. o., Gallia co., *Ohio*: 90 m. S. S. E. Columbus. Racoon island is in the Ohio r., below Gallipolis, and near the mouth of Racoon creek.

RACON VALLEY, p. o., Knox county, *Tenn.*: 159 m. E. Nashville.

RADFORDSVILLE, p. o., Perry co., *Ala.*: 64 m. W. N. W. Montgomery.

RADNOR, t. and p. v., Delaware co., *Ohio*: on E. side of Scioto r., 30 m. N. N. W. Columbus. Surface rolling, and well timbered; soil fertile. This town is principally inhabited by Welsh, and received its name from a place in Wales. The v. is located about 1 m. E. of the Scioto river. Pop. of t. 1,204.

RADNOR, t. and p. o., Delaware co., *Penn.*: 51 m. E. by S. Harrisburg. Drained by Darby cr. and other streams. Surface level; soil rich and fertile. It has several manufactures. The Philadelphia and Columbia R. R. passes through it. Pop. 1,372.

RAGGED MOUNTAINS, *N. Hamp.*: 25 m. N. N. W. Concord. Are a bleak precipitous range, about 10 m. long, between Andover and Hill, in some parts nearly 2,000 feet high.

RAGLESTOWN, p. o., Daviess co., *Ind.*: 79 m. S. W. by S. Indianapolis.

RAHWAY, t. p. v., and sta., Essex county, *N. Jer.*: on Rahway r., 35 m. N. E. Trenton; by New Jersey R. R., 20 m. from New York, and 67 m. from Philadelphia. The v., chiefly in Woodbridge t. Middlesex co., is partly in Rahway t. Essex co., on both sides of Rahway r. at the head of tide, 5 m. from its mouth. It contains 7 churches, an academy, female institute, 1 bank—cap. \$130,000, and has some manufactures. Two newspapers are published weekly, "Advocate and Register" (whig), and "R. Republican" (dem.). The t. has a level surface, and the soil is red shale, and wellcultivated. It is intersected by the New Jersey R. R. and two turnpikes. Pop. of t. 3,306, Rahway Port or Bucktown is situate 3 or 4 m. further down the river.

RAIBORN'S CREEK, p. o., Laurens district, *S. Car.*: on W. side of cr. of same name, 65 m. W. N. W. Columbia.

RAINBOW, p. o., Hartford county, *Conn.*: on N. side of Farmington r., 10 m. N. Hartford.

RAINES' TAVERN, p. o., Cumberland county, *Virg.*: 50 m. W. by S. Richmond.

RAINESVILLE, p. v., Warren co., *Ind.*: on Big Pine cr., 72 m. N. W. by W. Indianapolis.

RAINSBORO' p. v., Highland county, *Ohio*: 57 m. S. S. W. Columbus.

RAINSBURG, p. v., Bedford county, *Penn.*: on W. side of small affluent of Raystown br. of Juniata r., 84 m. W. by S. Harrisburg.

RAISIN, t. and p. o., Lenawee co., *Mich.*: 63 m. S. S. E. Lansing, on both sides of Raisin r., which affords water-power. Surface undulating; soil black sandy loam, very productive of grain. The Tecumseh Branch R. R. passes through the t. Pop. 1,267.

RAISIN RIVER, *Mich.* Rises in Wheatland t., Hillsdale co., flows by a very circuitous course through Jackson, Washtenaw, Lenawee, and Monroe counties, 140 m.; and empties into Lake Erie, 2½ m. below Monroe. Its banks are generally high and beautiful; its current is very rapid, affording great water-power, which is extensively used. Its name is derived from the wild grape vines which formerly lined its banks.

RAISINVILLE, t., Monroe co., *Mich.* Drained by Raisin r., on which is much fertile land. Pop. 967.

RALEIGH COUNTY, *Virg.* Erected in 1850, out of Fayette. Situate W. centrally, and contains 531 sq. m. Drained by tributaries of New r., or Upper Kanawha. Surface rough and mountainous; soil in some parts fertile. Chief products, wheat, Indian corn, pork, etc. Farms 216; manuf.—; dwell. 296, and pop.—wh. 1,735, fr. col. 7, sl. 23—total 1,765. *Capital*: Beckley.

RALEIGH, p. v., and cap. Smith co., *Miss.*: 44 m. E. S. E. Jackson. Drained by a creek of Leaf r., and contains the county buildings, etc.

RALEIGH, p. city, and cap. Wake county, *N. Car.*: and capital of the State of North Carolina, about 6 m. W. of

Neuse r., in lat. 35° 47' N., and long. 78° 45' W.—286 m. from Washington. Smithfield, 97 m. S. E., is the ordinary point of navigation, but in high stages of the water, vessels come up within 8 m. of Raleigh. It has an elevated and pleasant situation in a healthy country, and is laid out with great regularity. In the centre is Union Square, containing 10 acres, from which extend four streets, 99 feet wide, dividing it into quarters. In the centres of these quarters are other squares, each of 4 acres, intersected as the principal square by streets 66 feet wide. The public buildings are the State-house, court-house, the North Carolina Institution for the instruction of the deaf and dumb, county jail, a market-house, the Governor's house, office of the Secretary of State, and 7 churches. The State-house, next to that of Ohio at Columbus, surpasses in architectural beauty, those of all other States. It is built after the model of the Parthenon at Athens, and is located on Union Square. The building is 166 feet long by 90 feet wide, and is surrounded by massive columns of granite, 5½ feet in diameter, and 30 feet high. A beautiful dome surmounts the building. The chambers occupied by the Legislature are spacious and commodious. The cost of erecting this noble structure, was about \$500,000. The former State-house, containing a fine statue of Washington, by Canova, was destroyed by fire in 1831. The Institution for the Deaf and Dumb is located near the State-house on a four acre lot, and provision is also made for the erection of a State Lunatic Asylum. Raleigh is a place of considerable business, and has numerous workshops, stores, etc., 2 banks—cap. \$450,000, and supports 10 newspapers, 3 issued semi-weekly, the "Primitive Baptist" (relig.), the "Southern Advocate" (relig.), and the "R. Register" (whig); 6 weekly, the "Recorder" (relig.), the "Spirit of the Age" (temp.), the "R. Times" (whig), the "N. Car. Standard" (dem.), the "N. Car. Star" (whig), and the "R. Register," the last an edition of the semi-weekly of the same name; and 1 semi-monthly, the "Deaf Mute" (liter.). There are four good academies in the city, and several common schools. Raleigh is intersected by the North Carolina Central R. R., which connects it E. with the sea-board at Newbern, and W. with the S. Carolina railroads at Charlotte; and passing through fertile and populous counties, this road will have the effect of stimulating the trade of the city itself. The Gaston and Raleigh P. R. also terminates here, giving it access to the north. Pop. in 1840, 2,244, and in 1850, 4,513.

RALEIGH, p. v., and cap. Saline co., *Ill.*: on a branch of Saline creek, on a pleasant elevation, 149 m. S. S. E. Springfield.

RALEIGH, p. v., and cap. Shelby co., *Tenn.*: on N. side of Wolf cr., 181 m. W. S. W. Nashville. It contains a court-house, jail, etc., and about 600 inhabitants.

RALEIGH, p. o., Rush co., *Ind.*: on E. bank of Flat Rock cr., 39 m. E. Indianapolis.

RALEIGH, p. v., Union co., *Ky.*: on E. side of Ohio r., 6 m. below the mouth of the Wabash r., 172 m. W. by S. Frankfort. It is a small but pleasantly situated village.

RALL'S COUNTY, *Mo.* Situate toward the N. E., and contains 475 sq. m. Drained by Salt r., which passes through it from E. to W., and by its different affluents. Surface rolling or nearly a plain; soil fertile, and very productive. Timber is found in abundance, and good coal beds. Farms 541; manuf. 13; dwell. 777, and pop.—wh. 4,777, fr. col. 6, sl. 1,368—total 6,151. *Capital*: New London. *Public Works*: St. Louis and Northern R. R.

RALLY HILL, p. o., Maury co., *Tenn.*: 39 m. S. by W. Nashville.

RALPHTON, p. o., Fulton county, *Ky.*: 249 m. W. S. W. Frankfort.

RASTON, p. v., Lycoming co., *Penn.*: on E. side of Lycoming cr., 83 m. N. Harrisburg. The Lycoming Valley Iron Company have a hot-blast charcoal furnace here of the annual capacity of 2,000 tons. The Williamsport and Elmira R. R. passes through the village.

RAMAPO, t., Rockland co., *N. Y.*: 108 m. S. by W. Albany. Drained by Ramapo and Saddle rivers, affluents of the Passaic. Surface hilly and mountainous; in the valleys soil very productive. There are considerable iron and other manufactures in the t., and at Suffern's, the Union R. R. from New Jersey and Paterson unites with the New York and Erie R. R., which latter crosses the town. Population 3,197.

RAMAPO river, *N. Y.*: rises in Orange county, flows S. through W. part of Rockland county into New Jersey, and empties through Pompton r. into the Passaic.

RAMAPO WORKS, p. v. and sta., Rockland co., *N. Y.*: on Ramapo r., 104 m. W. by S. Albany, and on Erie R. R., 35 m. from New York. The Ramapo r. here furnishes a large water-power to several iron manufactories.

RAMEE, p. o., Montgomery co., *Ala.*

RAMSAYSBURG, p. v., Warren co., *N. Jer.*: on E. bank of Delaware r., 46 m. N. N. W. Trenton. It contains an Episcopal church, a store, and a score of dwellings.

RAMSBORO', p. v., Guilford co., *N. Car.*: 103 m. W. N. W. Raleigh.

RAMSEY county, *Minn.* Situate E. middle, and contains 2,150 sq. m. It is a country full of lakes and ponds and running streams. On the S. the Mississippi forms its boundary, and receives the drainage of more than half the county, through Rum, Ottonwey, and Peterah rivers. The Mississippi also forms a portion of the N. boundary. The county is about 100 m. long and 20 broad, and about one-fourth part of its surface is water. The largest lake is Minsi-Sagaigoning, or Mille Laes, which covers 300 sq. m. Farms 19; manuf. 0; dwell. 334, and pop.—wh. 2,197, fr. col. 30—total 2,227. *Capital*: St. Paul.

RAMSEY'S, sta., Bergen county, *N. Jer.*: on Union R. R., 28 m. from New York, 5 m. from Suffern's.

RANALEBURG, p. v., Mecklenburg co., *N. Car.*: 120 m. W. S. W. Raleigh.

RANCOCUS, p. o., Burlington co., *N. Jer.*: 15 m. S. S. W. Trenton.

RANCOCUS creek, *N. Jer.*: an affluent of the Delaware. It rises in Monmouth county, and flowing W. through Burlington county, falls into the Delaware opposite the mouth of Pequasin cr., the N. line of Philadelphia county.

RANDALLSTOWN, v., Baltimore county, *Md.*: 40 miles N. Annapolis.

RANDALLSVILLE, p. v., Robeson co., *N. Car.*: on a branch of Lumber r., 63 m. S. S. W. Raleigh.

RANDOLPH county, *Ala.* Situate E., and contains 917 sq. m. Tallapoosa r. flows through it centrally, by which and by its tributaries, Little Tallapoosa r. and other streams, it is drained. Surface generally level; soil productive, and adapted to the growth of cotton, the staple article of commerce. Farms 969; manuf. 23; dwell. 1,904, and pop.—wh. 10,616, fr. col. 29, sl. 936—total 11,551. *Capital*: Weedowee.

RANDOLPH county, *Ark.* Situate N. toward the E., and contains 830 sq. m. Drained by Big Black r. and its branches. Surface varied, but in general is even; soil fertile, and produces wheat, corn, etc. Timber of a good quality is found on the land. Farms 896; manuf. 2; dwell. 538, and pop.—wh. 3,029, fr. col. 3, sl. 243—total 3,275. *Capital*: Pocahontas.

RANDOLPH county, *Ga.* Situate S. W., and contains 713 sq. m. Drained by branches of Chatahochee r., which forms its western boundary, and by branches of Flint r. Surface undulating, in parts hilly; soil fertile, and adapted to cotton, which is the principal production of the county. Pine timber abounds, and some minerals are to be found here. Farms 930; manuf. 38; dwell. 1,408, and pop.—wh. 7,857, fr. col. 3, sl. 5,008—total 12,865. *Capital*: Cuthbert. *Public Works*: South Western R. R.

RANDOLPH county, *Ill.* Situate S. W., and contains 514 sq. m. Kaskaskia r., a tributary of the Mississippi, passes through the western portion of the county, by which and

by St. Mary's and Horse creeks, it is drained. Surface undulating, and in the S. W., on the shore of the Mississippi, terminates in high bluffs; soil fertile, producing wheat, Indian corn, and tobacco. Agriculture is the leading pursuit. Farms 1,100; manuf. 36; dwell. 2,046, and pop.—wh. 10,697, fr. col. 283—total 10,980. *Capital*: Chester.

RANDOLPH county, *Ind.* Situate E., and contains 423 sq. m. Drained by W. fork of White and Mississinewa rivers and their branches, by which good water-power is supplied. Surface rolling, in some parts it is low and marshy; soil fertile, and adapted to grain and grazing. Chief productions, wheat, sugar, and Indian corn. It has some prairies, and good timber is found on the land. Farms 1,477; manuf. 12; dwell. 2,513, and pop.—wh. 14,064, fr. col. 661—total 14,725. *Capital*: Winchester. *Public Works*: Indianapolis and Bellefontaine R. R.; Union and Fort Wayne, Dayton and Greenville Extension R. R., etc.

RANDOLPH county, *Mo.* Situate centrally toward the N., and contains 457 sq. m. Drained by East Chariton r. and branches, and small streams of Salt r. Surface even; soil fertile and very productive—it is well adapted to tobacco, a large quantity of which is grown. Corn and fruits of different kinds are also produced abundantly, and there is some timber on the land. Bituminous coal of good quality is found in large quantity. Farms 993; manuf. 47; dwell. 1,157, and pop.—wh. 7,265, fr. col. 13, sl. 2,156—total 9,439. *Capital*: Huntsville.

RANDOLPH county, *N. Car.* Situate centrally, and contains 724 sq. m. Drained by Deep r. and its branches, and branches of Yadkin r. Surface various; soil a deep loam and very fertile, much of it being adapted to grazing. Chief productions, tobacco, cotton, wheat, and Indian corn. Farms 1,173; manuf. 41; dwell. 2,512, and pop.—wh. 18,795, fr. col. 397, sl. 1,640—total 15,832. *Capital*: Ashboro'. *Public Works*: North Carolina Central R. R.

RANDOLPH county, *Virg.* Situate toward the N. W., and contains 1,484 sq. m. Drained by Cheat r. and its branches on the E. side of the mountains, and branches of East fork on the W. side, all constituting head branches of Monongahela r. Surface mountainous; soil in some parts fertile, well adapted to grazing. Chief products, wheat and Indian corn. Laurel and Cheat mountains run through the county. Farms 379; manuf. 0; dwell. 844, and pop.—wh. 5,903, fr. col. 39, sl. 201—total 5,243. *Capital*: Beverly.

RANDOLPH, p. o., Bibb county, *Ala.*: 53 miles N. W. Montgomery.

RANDOLPH t. and p. o., Crawford county, *Penn.*: 193 m. N. W. Harrisburg. Drained by creeks of Venango river. Pop. about 1,500.

RANDOLPH, v., Randolph county, *Ind.*: 63 m. E. by N. Indianapolis.

RANDOLPH, p. o., Barren county, *Ky.*: 99 m. S. W. by S. Frankfort.

RANDOLPH, t. p. v., and sta., Norfolk co., *Mass.*: on Fall River R. R., 15 m. S. Boston. Surface of t. undulating; soil productive. Drained by Manticuoc r. The manufacture of shoes, etc., is extensively carried on. There is 1 bank—capital \$150,000—an academy, and 6 churches. There are several villages in the town. Pop. of t. 4,741.

RANDOLPH, v., Clay county, *Mo.*: 123 miles W. N. W. Jefferson City.

RANDOLPH, t. and p. o., Columbia county, *Wis.*: 42 m. N. N. W. Madison. Drained by tributaries of Fox and Wisconsin rivers. Surface elevated, but mostly level, and affording excellent farm lands. Pop. 613.

RANDOLPH, t. and p. o., Coos county, *N. Hamp.*: 81 m. N. by E. Concord. Drained by head branches of Israel's r. Surface mountainous, the White Mountains lying immediately S. of it. Pop. 113.

RANDOLPH, t. and p. v., Cattaraugus co., *N. Y.*: 272 m. W. by S. Albany. Surface of t. hilly; soil well adapted to grazing. Drained by Conewango cr. The v., on Little Conewango cr., contains about 300 inhabitants. It has a

considerable manufacturing capital and some retail trade. Pop. of L. 1,606.

RANDOLPH, t. and p. o., Portage co., Ohio: 114 m. N. E. Columbus. Drained by branch of Cuyahoga r. Surface gently uneven; soil fertile—much grain is raised. Population 1,730.

RANDOLPH, p. v., Tipton co., Tenn.: on E. side of Mississippi r., at the mouth of Big Hatchie r., 23 m. below Ashport, 173 m. W. by S. Nashville. Large quantities of cotton are shipped from this place to New Orleans. It is a dilapidated town at the head of second Chickasaw bluffs. Immediately opposite is seen the first cotton plantation on descending the river.

RANDOLPH, t., p. v., and sta., Orange co., Verm.: 23 m. S. Montpelier. Drained by branches of White r. Surface of t. elevated and not much broken; soil fertile, and well cultivated. The v. is handsomely situated, and contains a flourishing academy, a church, stores, etc. In the t. are several tanneries, saw and grist mills. The Vermont Central R. R. passes through its W. part, 46 m. from Windsor. Pop. of t. 2,666.

RANDOLPH MAON COLLEGE, p. o. and coll., Mecklenburg co., Virg.: 1 m. W. Boydton and 74 m. S. W. Richmond. The college was founded in 1832, and is under the direction of the Methodist denomination. In 1850 it had 7 professors, 50 students, and 8,000 volumes in its libraries, and its alumni numbered 147, of whom 31 were in the ministry.

RANDOLPH'S GROVE, p. o., McLean co., Ill.: 49 m. N. E. Springfield.

RANESBURG, p. o., Washington county, Ill.: 99 m. S. Springfield.

RANGE, t., Madison co., Ohio: 27 m. W. S. W. Columbus. Drained by head waters of Paint and Deer creeks. Surface elevated and level; soil rich and productive. It is a fine farming country. Pop. 988.

RANGELY, t. and p. o., Franklin co., Me.: 63 m. N. W. Augusta. Drained by Androscoggin r. and other streams, which fall into Aqueusuck lake on its S. boundary. Pop. 43.

RANKIN county, Miss. Situate W. centrally, and contains 795 sq. m. Pearl r. forms its W. and N. W. boundary, by branches of which it is drained. Surface generally level, and is thickly wooded, a large portion of the land being pine forest; soil fertile. Cotton is the staple. Farms 420; manuf. 5; dwell 698, and pop.—wh. 8,945, fr. col. 6, sl. 3,276—total 7,227. Capital: Brandon. Public Works: Vicksburg, Jackson, and Brandon R. R.; New Orleans, Jackson, and Northern R. R., etc.

RANSOM, p. v., Hillsdale co., Mich.: 62 m. S. Lansing. Pop. 549.

RANSOM, p. o., Luzerne county, Penn.: 73 miles N. E. Harrisburg.

RANSOM'S BRIDGE, p. o., Nash co., N. Car.: 42 m. E. N. E. Raleigh.

RANSOMVILLE, p. o., Niagara co., N. Y.: 274 m. W. by N. Albany.

RANTOWLE'S, p. o., Colleton dist., S. Car.: 52 m. S. by E. Columbia.

RAPHOE, t. and p. o., Lancaster co., Penn.: 23 m. E. S. E. Harrisburg. Surface of town rolling; soil calcareous loam. Drained by the Chiques creeks, which form its E. and W. boundaries. It contains numerous saw, grist, flouring, and tanning mills, tanneries, distilleries, etc. Pop. about 4,000. Mount Joy and Elizabethown, on the Lancaster and Harrisburg R. R., and Manheim are in this town.

RAPID ANN, p. o., Madison county, Virg.: 71 m. N. W. Richmond.

RAPID ANN river, Virg.: rises in the Blue Ridge, in Madison county, and joins the Rappahannock, 10 miles above Fredericksburg.

RAPIDES parish, La. Situate W. centrally, and contains 1,998 sq. m. Drained by Red r. and its branches, Calcaesien river, and Bouff, Hagon, Cypress, Rapide, and Crocodile bayous. Surface level, and in some parts very low, subject-

ing it to inundation when the rivers are high; soil various, along the streams being fertile, and generally productive. Staple articles of commerce cotton and Indian corn. Timber is found on the land, pine prevailing. It contains some small lakes. Farms 187; manuf. 11; dwell. 1,082, and pop.—wh. 5,037, fr. col. 184, sl. 11,340—total 16,551. Capital: Alexandria. Public Works: New Orleans, Opelousas, and Great Western R. R.

RAPIDS, p. o., Portage co., Ohio: 120 m. N. E. Columbus.

RAPIDS, p. o., Whitesides co., Ill.: on S. side of Rock r., 137 m. N. Springfield.

RAPIDS, p. o., Boone co., Ia.: 136 m. W. by N. Iowa City.

RAPIDS, p. o., Niagara county, N. Y.: 260 m. W. by N. Albany.

RAPPAHANNOCK county, Virg. Situate toward the N. E., and contains 268 sq. m. Drained by head branches of Rappahannock r. Surface level; soil fertile, adapted to grain and grazing. Chief products wheat and Indian corn. Farms 472; manuf. 34; dwell. 990, and pop.—wh. 5,642, fr. col. 296, sl. 3,544—total 9,782. Capital: Washington.

RAPPAHANNOCK river, Virg.: rises in the Blue Ridge, and flowing in a S. E. course 130 m., enters Chesapeake bay by a large estuary, 25 m. S. of the mouth of the Potomac. It has four fathoms water at Hobbs' Hole, and is navigable for vessels requiring 10 feet of water to Fredericksburg, 40 m. from its mouth.

RAPPAHANNOCK ACADEMY, p. o., Caroline co., Virg.: 36 m. N. by E. Richmond.

RAPP'S BARRENS, p. o., Fulton co., Ark.: 105 m. N. Little Rock.

RARITAN, t., Hunterdon co., N. Jer.: 20 m. N. Trenton. Drained by Nahanic cr. and several streams, affluents of S. branch of Raritan r., which forms the N. E. boundary, and also by Wickheekoke and other streams of Delaware r. It is a fine farming t., and has numerous mills and manufactures. Flemington, to which a branch of the Belvidere Delaware R. R. will be built, is in Raritan. Pop. 8,066.

RARITAN, p. v. and sta. Somerset co., N. Jer.: on Raritan r., 1 m. W. Somerville, by New Jersey Central R. R., 40 m. from New York.

RARITAN bay, N. Jer.: lies between Staten Island on the N., Monmouth co., N. J., on the S., and Sandy Hook on the S. E. It terminates on the W. at Amboy, to which it has 24 fathoms of water.

RARITAN river, N. Jer.: is formed by two branches which unite in Somerset co., and empty into Raritan bay at Amboy. Sloops of 80 tons ascend the r. with 8 feet of water to New Brunswick, whence also steamboats ply daily to New York.

RATCLIFFSBURG, p. o., Vinton county, Ohio: 57 m. S. E. Columbus.

RATHBONEVILLE, p. v. and sta., Steuben co. N. Y.: on N. E. side of Canisteo cr., 136 m. W. by S. Albany, and on Erie R. R., 317 m. from New York, 152 m. from Dunkirk; a handsome village. Pop. about 500.

RATHEUN, p. o., Sheboygan co., Wisc.: 90 m. N. E. by E. Madison.

RAVEN CREEK, p. o., Harrison county, Ky.: 36 m. N. E. Frankfort.

RAYVENA, t., p. v., and cap. Portage co., Ohio: 121 m. N. E. Columbus. Surface undulating, drained by a branch of Cuyahoga r., and by W. branch of Maoning r. The v. is pleasantly situated on a plain, is regularly laid out, and contains an elegant court-house of stone, a jail, female seminary, and four churches. The Pennsylvania and Ohio Canal passes through the S. part of the v., and affords water-power. The Cleveland and Pittsburg R. R. passes through the v., 88 m. from Cleveland, and 62 m. from Wellsville. Three newspapers are published weekly, "Portage Sentinel" (dem.), "Portage County Whig," and "Ohio Star" (free soil). Pop. of t. 2,239.

RAYVENA, t. and p. o., Ottawa co., Mich.: 77 m. W. N. W. Lansing. Drained by Crockery cr. Pop. 77.

RAVEN'S NEST, p. o., Washington co., *Virg.*: 254 m. W. by S. Richmond.

RAVENSWOOD, p. o., Jackson co., *Virg.*: at junction of Little Sandy cr. with the Ohio, 253 m. W. N. W. Richmond. Population 276.

RAVENSWOOD, v., Queen's co., *N. Y.*: on the East river, opposite Blackwell's Island, and about a mile S. of Astoria. Stages from Williamsburg pass through it several times a day, and steamboats from New York stop at the landing. Pop. about 300.

RAWLINGSBURG, p. v., Rockingham co., *N. Car.*: 84 m. N. W. Raleigh.

RAWLINGSVILLE, p. v., De Kalb co., *Ala.*: on E. bank of Wills cr. of Coosa r., 149 m. N. by E. Montgomery.

RAWLIN'S STATION, sta., Hampshire co., *Virg.*: on the line of the Baltimore and Ohio R. R., 13 m. S. W. Cumberland, and 192 m. from Baltimore.

RAWLINSVILLE, p. v., Lancaster co., *Penn.*: 41 m. S. E. Harrisburg.

RAWSONVILLE, v., Fulton co., *N. Y.*: on Fonda's Bush cr., 36 m. N. W. Albany. It contains several factories, and about 500 inhabitants.

RAWSONVILLE, p. v., Wayne co., *Mich.*: 61 m. E. S. E. Lansing.

RAY county, *Mo.* Situate toward the N. W., and contains 568 sq. m. Drained by Crooked r. and its E. and W. forks, and by other small streams, all flowing into the Missouri, which forms its S. boundary. Surface undulating; soil very fertile, and produces in abundance corn, wheat, fruits, etc. Tobacco is grown, and there is some fine timber land. Limestone abounds. Farms 833; manuf. 30; dwell. 1,457, and pop.—wh. 8,834, fr. col. 25, sl. 1,514—total 10,873. *Capital*: Richmond.

RAY, t. and p. o., Macomb co., *Mich.*: 83 m. E. Lansing. Drained by N. branch of Clinton river, which affords water-power. Pop. 1,232.

RAY CENTRE, p. o., Macomb county, *Mich.*: 83 m. E. Lansing.

RAYMERTOWN, p. o., Rensselaer co., *N. Y.*: 20 m. N. E. Albany.

RAYMOND, t. and p. o., Cumberland county, *Me.*: 44 miles S. W. Augusta. Sebago pond forms its S. W. boundary. Chiefly devoted to agricultural pursuits. Pop. 1,142.

RAYMOND, p. v., and cap. Hinds co., *Miss.*: on a small branch of Pearl r., 14 m. W. by S. Jackson. It contains a court-house, several stores, and is a centre of some trade. A branch of the Vicksburg, Jackson, and Brandon R. R. comes up to the village. Pop. about 500.

RAYMOND, t., p. o., and sta., Rockingham co., *N. Hamp.*: 23 m. S. E. Concord. Drained by Lamprey river and its branches, on which the soil is productive. The Portsmouth and Concord R. R. passes through the t., 23 m. from Portsmouth, 24 from Concord. Pop. 1,256.

RAYMOND, t. and p. o., Racine co., *Wis.*: 75 m. E. by S. Madison. Drained by branch of Root r. Pop. 820.

RAYMOND'S, p. o., Union co., *Ohio*: 31 m. N. W. Columbus.

RAYMONDVILLE, p. o., St. Lawrence county, *N. Y.*: on W. side of Racket r., 160 m. N. N. W. Albany.

RAYNHAM, t., Bristol county, *Mass.*: 29 miles S. Boston. Drained by Taunton river, which forms its S. border, and affords water-power. Surface level; soil light. The first forge in the United States was erected in this town in 1652, and iron to a considerable amount is still manufactured. There are also in the town several grist and saw mills. Pop. 1,541.

RAYNORTOWN, v., Queen's co., *N. Y.*: on the S. post-road of Long Island, W. of Lot's cr., 23 m. from New York. It contains a Presbyterian church, 3 mills, and about 100 inhabitants. There is a fine view of the ocean from the village.

RAY'S FORK, p. o., Scott, co., *Ky.*: 18 m. N. E. Frankfort.

RAY'S HILL, p. o., Bedford county, *Penn.*: 77 m. W. Harrisburg.

RAYSVILLE, p. v., Henry co., *Ind.*: on W. side of Blue river, 32 m. E. Indianapolis, on line of Indiana Central R. R. In the vicinity is fine and well improved water-power.

RAYSVILLE, p. v., Columbia co., *Ga.*: on S. side of Little r., 62 m. N. E. Milledgeville.

RAYTOWN, p. v., Taliaferro co., *Ga.*: 46 m. N. E. by N. Milledgeville.

RAYVILLE, p. v., Lawrence co., *Miss.*: 44 m. S. Jackson. Drained by a creek of Pearl river.

RAYWICK, p. v., Marion co., *Ky.*: on N. side of Rolling fork of Salt r., 51 m. S. W. by S. Frankfort.

READFIELD, t. and p. o., Kennebec co., *Me.*: 9 m. W. by N. Augusta. This is a fine farming t., with fertile soil. It has a large pond in its S. part (lying partly in Winthrop), and another in its W. part. The Maine Wesleyan Seminary, incorporated in 1822, is here located. Pop. 1,955.

REDFIELD DEPOT, p. o., Kennebec county, *Me.*: 11 m. W. by N. Augusta, and by Androscoggin and Kennebec Railroad, 59 m. from Portland.

READING, t., p. v., and sta., Middlesex co., *Mass.*: 12 m. N. Boston. Drained by Ipswich river. Surface diversified; soil generally good, and in some parts excellent. The manufacture of iron, shoes, chairs, and cabinet-ware is extensively prosecuted. The Boston and Maine R. R. passes through the v., which is located in the S. part, and the Salem and Lowell R. R. crosses it in the N. Pop. 3,108.

READING, t. and p. o., Hillsdale co., *Mich.*: 66 m. S. by W. Lansing. Surface diversified; soil rich sandy loam. In its W. part is a long pond, from which flows Hog r. in N. N. E. course. Pop. 956.

READING, t. and p. o., Stenben co., *N. Y.*: 164 m. W. by S. Albany. Drained by small streams running into Seneca lake, which on the E. forms its boundary. Surface elevated and rolling; soil clay and calcareous loam. The Canandaigua and Elmira R. R. runs along the lake shore. Population 1,434.

READING, p. v., Hamilton co., *Ohio*: on E. side of Mill creek of the Ohio r., 1 m. E. of the Reading Locks of the Miami Canal, 10 m. N. by E. Cincinnati, 89 m. S. W. by W. Columbus.

READING, p. b., and cap. Berks county, *Penn.*: on the E. bank of Schuylkill river, 50 m. E. Harrisburg. Laid out in 1748 by Thomas and Richard Penn, proprietaries and governors of the province, and settled chiefly by Germans, whose descendants constitute a large portion of its present population. The streets are spacious and straight, crossing at right angles. In a central square stands a splendid court-house, 200 feet long by 220 deep, having an imposing portico with 6 columns of red sandstone—cost \$59,000. Besides public offices, are a jail, 3 banks—capital \$300,000, an academy, female seminary, 3 public libraries, and 13 churches. The Lutheran and the German Reformed churches are large and handsome structures, with lofty spires, the former 201 feet high. The natural position of Reading, its facilities of communication with the interior coal region, and the sea-coast, and its highly industrious population, have made it the centre of an active trade and of extensive manufactures. The Schuylkill Navigation Canal, extending from Port Carbon in the anthracite coal region above Pottsville to Philadelphia, passes through Reading, and the Union Canal extends hence to Middletown, on the Susquehanna. The Philadelphia and Reading R. R. (now extended to Pottsville) passes through the place, 53 m. from Philadelphia. A line of railroad is projected to Harrisburg. There are various large manufactories. One anthracite blast furnace has an annual capacity of 3,500 tons, and produced in 1849 3,250 tons, employing steam-power and 50 men. One hot-blast charcoal furnace has an annual capacity of 1,550 tons, using water-power, employing 40 men, and produced in 1849 450 tons. One cold-blast charcoal furnace has an annual capacity of 1,100 tons, employing 100 men, using water-power, and made in 1849

597 tons. One forge, employing steam-power and 14 men, has an annual capacity of 600 tons. There are 3 charcoal forges, employing 52 men; and 2 rolling-mills, employing steam-power and 215 men, which made in 1849 2,600 tons. The manufacture of hats for the southern and western markets is a large business. A cotton factory, making fine muslins, produces about 8,000 yards daily. There are also large flouring-mills, a nail factory, breweries, tanneries, a pottery, lumber yards, etc. White wines of excellent quality are manufactured. Reading is supplied with water by an aqueduct from a spring on Penn's Mount, conducted into a reservoir, and thence distributed through the streets in iron pipes. Two fine covered bridges cross the Schuylkill, here 600 feet wide, one of which cost \$60,000. Iron ore and limestone are found in the vicinity. Water-power is furnished by the Schuylkill and Talpehochea creek. In 1850 9 newspapers were published weekly, of which 4 were in German, viz., "E. Eagle" (dem.), "Berks and Schuylkill Journal" (whig), "Berks Co. Press" (dem.), "People's Advocate" (neut.), "Gazette and Democrat" (dem.), "Hamburger Schnell Post" (neut.), "Liberale Beobachter" (whig), "Der Geist der Zeit" (dem.), and "Readinger Adler" (neut.) The contents of Reading are noted for their general intelligence and refinement, as well as for industrial enterprise. Pop. in 1810, 3,463; in 1820, 4,332; in 1830, 5,850; in 1840, 5,410; in 1850, 15,748.

READING, L., Adams county, Penn.: 12 m. N. Gettysburg. Drained by Conewago creek and Muddy Run, a branch of Bermudian creek. Surface level; soil red shale and slate. The v. of Berlin is on Conewago creek. The t. has several potteries, etc., and 1,201 inhabitants.

READING, I. and p. o., Fairfield co., Conn.: 47 m. S. W. Hartford. Drained by Saugatuck and Norwalk rivers. Surface diversified: soil of average fertility. The v. is near the centre, and contains 2 churches and several dwellings. Pop. of t. 1,754.

READING, T. and p. o., Windsor co., Verm.: 56 m. S. by E. Montpelier. Drained by branches of Black and Queechee rivers, and by Mill creek. Surface elevated and uneven; soil well adapted to grazing. Considerable manufactures carried on, but the chief occupation of the people is farming. Pop. 1,171.

READING, p. v., Livingston county, Ill.: 97 m. N. E. Springfield.

READING CENTRE, p. v., Steuben county, N. Y.: 167 m. W. by S. Albany.

READING RIDGE, p. v., Fairfield county, Conn.: in the E. part of t. of Reading, 46½ m. S. W. Hartford.

READINGTON, T. and p. o., Hunterdon co., N. Jer.: 22 m. N. Trenton. Drained by S. branch of Raritan r., and by Rockaway r. and branches. Surface, except in the S. W., hilly; soil red shale, clay, and loam. It is crossed by the New Jersey Central R. E. 28 m. from Easton, and 34 m. from Elizabethtown. The villages of White House, Mechanicsville, etc., are in Readington. Pop. 2,836.

READSBORO', T. and p. o., Bennington co., Verm.: 106 m. S. by W. Montpelier. Drained by Deerfield river and branches. Surface mountainous, and much of the land unfit for cultivation. Pop. 857.

READYVILLE, sta., Norfolk co., Mass.: on the Boston and Providence R. R., 8 m. S. Boston.

READYVILLE, p. v., Rutherford co., Tenn.: on Stone's r., a tributary of Cumberland r., 39 m. S. E. by E. Nashville.

REAMSTOWN, p. v., Lancaster co., Penn.: on E. side of branch of Conestoga cr., 39 m. E. by S. Harrisburg.

REAVILLE, p. o., Hunterdon co., N. Jer.: 25 m. N. N. W. Trenton.

REBECCA FURNACE, v., Bottetourt co., Virg.: on a branch of JAMES R., navigable for boats of 5 or 7 tons, 34 m. to the works. There is a white sulphur spring in the vicinity.

REBERSBURG, p. v., Centre co., Penn.: on a branch of Penn's creek, and N. of Brush Mountain, 55 m. N. N. W. Harrisburg. It contains about 200 inhabitants.

RECKLESSTOWN, p. v., Burlington co., N. Jer.: on N. side of Horner's cr., 10 m. S. by E. Trenton.

RECTOR'S CROSS ROADS, v., Fauquier county, Virg.: 95 m. N. by W. Richmond.

RECTORSTOWN, p. v., Fauquier co., Virg.: 1 m. S. Goose creek, and 96 m. N. by W. Richmond. It contains several flouring-mills and stores, and a church.

RED BANK, p. o., Lawrence county, Ark.: 1 m. N. from Spring r., 114 m. N. N. E. Little Rock.

RED BANK, p. v., Monmouth co., N. Jer.: on S. bank of Nevisink r., 36 m. E. by N. Trenton. This place is much resorted to in the summer, and a steamboat runs between it and New York several times a day during the season. Sea air, fishing, and rural sports are the attractions. The North American Phalanx have a settlement near this village, respecting which, and other societies of a like nature, the following letter from Charles Sears, secretary to the association, will prove of great interest and value to inquirers:

THE NORTH AMERICAN PHALANX,
New Jersey, April 13, 1858. }

DEAR SIR—I received your letter of 9th inst., and, in accordance with your suggestion, inclose herewith a summary statement of our aims, organization, and statistics. It is brief as I could well make it. Ours, I believe, is the only association in this country or in the world that adopts Fourier's formula of organization. A good many similar attempts have been made, but hitherto without success. There are other forms of association in this country, and those within my knowledge are:

Hopedale Community, in Milford, Mass., Rev. Adin Ballo, leader. This is a non-resistant Christian fraternity, having many interests in common, and some separate interests.

Raritan Bay Union, near Perth Amboy, New Jersey, is about organizing this spring. This body proposes to associate capital, and when expedient or desirable, they will cooperate industrially. George B. Arnold, resident director, Perth Amboy.

Modern Times, Long Island, 40 miles from Brooklyn, Josiah Warren, leader. This is an attempt to organize, or, rather, to institute justice upon a scientific basis, viz., "Individual Sovereignty," recognizing competition, and repudiating institutions, government, etc.

The German societies, such as the *Ebenezer Society*, near Buffalo, New York; *The Society at Zoar*, Ohio, under J. Bimere; *Rapp's Society*, at Economy, on the Ohio, near Beaver, Penn. I believe these societies differ from each other, but I am not familiar with their distinctive principles.

The Icarians, at Nauvoo, Illinois, under Cabet.

The Perfectionists, at Oneida, New York, J. H. Noyes, leader. There are a number of these Christian communities, claiming a scientific as well as a religious basis of organization, and of all of which I believe that Mr. J. H. Noyes of Brooklyn, New York, is the acknowledged head.

Finally, *The Shakers*, who also are now in the field as propagandist reformers.

I had forgotten to mention a society of *Spiritualists*, that went out last year under the direction of Rev. T. L. Harris, late of New York City. This place is called Mountain Cove, somewhere in Western Virginia.

I am very respectfully yours,

CHARLES SEARS, Secretary.

R. S. FISHER, Esq., Brooklyn.

THE NORTH AMERICAN PHALANX ASSOCIATION,
Monmouth County, near Red Bank, N. Jer.

This Association was organized, not for the purpose of correcting any special form of evil, but to INSTITUTE POSITIVE RIGHTS; which, being accomplished, WRONGS, CONSEQUENTLY CEASE.

Those who have been active in establishing this Institution, believe with the associative school, that existing civil-

zation, as well as the forms of society that preceded it, are phases in the growth of the Human Race; and that the present antagonism of interests and other disorders are, in turn, to be superseded by ORGANIC FORMS OF SOCIETY, in which Men, Women, and Children shall, by the force of Society, be established in possession of the Right of Labor and the fruits thereof—a Home; Social Culture; and a Practical Education in the Affairs of Life. The general purpose of the Association is expressed in the formula of Fourier as follows: UNITY OF MAN WITH GOD, WITH NATURE, AND WITH MAN.

Of practical Institutes, the following formula is adopted:

Joint Stock Property; } Equitable Distribution of Profits; }	Coöperative Labor; }	Association of Families; }
Mutual Guarantees; }	Honors according to Usefulness; }	
Integral Education; }	Unity of Interests.	

The Association organized in 1843. Its domain consists of 673 acres of rolling land, upon the Greensand Belt in Monmouth County (near Red Bank), New Jersey, about 40 miles south of New York. The present population is about 180 persons. Agriculture in its various branches is a leading industry. Milling, and some mechanical branches, are also carried on.

In organization, the serial form is adopted, and the following are the principal departments, viz.:

The Agricultural Serie	The Domestic Serie
“ Stock “	“ Manufacturing Serie
“ Mechanical “	“ Festal “

And within the past year the Educational Serie has been organized, in which it is proposed to Educate the young INTEGRALLY, that is, to develop the bodily powers, the affections, and the intellect; and not to limit our Educational efforts mainly to the culture of the intellect, as in the current method of Education.

April, 1853.

RED BANK, t, Clarion co., *Penn.*: 149 m. N. W. by W. Harrisburg. Drained by Red Bank, Mahoning, and Beaver creeks. Surface rolling; soil fertile loam. Alum is found in the t., and several manufactories are carried on. Population 3,276.

RED BANK FURNACE, p. o., Armstrong co., *Penn.*: 134 m. W. N. W. Harrisburg. Here is a charcoal cold-blast furnace, which produces annually about 2,000 tons metal, and gives employment to 100 men.

RED BANKS, p. v., Marshall co., *Miss.*: 174 m. N. by E. Jackson.

RED BEACH, p. o., Washington co., *Me.*: 114 m. E. N. E. Augusta.

RED BLUFF, p. o., Marion district, *S. Car.*: 85 m. E. Columbia.

RED BLUFF, p. o., Wythe co., *Virg.*: 203 m. W. by S. Richmond.

RED BOILING SPRINGS, p. o., Macon co., *Tenn.*: 43 m. E. by N. Nashville.

RED BRIDGE, p. o., Ulster co., *N. Y.*: 56 m. S. S. W. Albany.

RED BUD, p. o., Randolph county, *Ill.*: 115 m. S. by W. Springfield.

RED BUD, p. o., Ozark county, *Mo.*: on Bryant's fork of White r., 94 m. S. Jefferson City.

RED CEDAR creek, *Minn. Ter.*: in Washington co., flows S. E. into St. Croix r., in lat. N. 45° 45'.

RED CEDAR lake, *Minn. Ter.*: in N. E. corner of Benton county, connected by an outlet with Mississippi river.

RED CEDAR lake and river, *Wisc.*: the lake in N. W. part of the county is the most S. of a chain of lakes, forming the source of the river, which flows S. by W. about 70 m., and empties into Chippewa river.

RED CEDAR river, *Mich.*: rises in Livingston co., flows

W. by N. through N. part of Ingham co., and empties into Grand river, near Lansing.

RED CLAY, p. o. and sta., Murray county, *Ga.*: near Tennessee State line, on East Tennessee and Georgia R. R., 15 m. N. Dalton. 176 m. N. W. by N. Milledgeville.

RED CREEK, p. o., Wayne co., *N. Y.*

REDDINGTON, p. v., Jackson co., *Ind.*: 1 m. E. of E. fork of White r., 52 m. S. S. E. Indianapolis.

RED FALLS, p. o., Greene county, *N. Y.*: 23 m. S. S. W. Albany.

REDFIELD, t. and p. o., Oswego county, *N. Y.*: 124 miles W. N. W. Albany. Drained by Salmon r. and its branches. Surface undulating; soil a moist loam, and adapted to grass. Some small manufactures are carried on. Population 752.

REDFOOT river, *Tenn.*: rises in N. E. part of Obion co., flows in S. S. W. course through W. part of this and Dyer counties, and empties into Obion r., near its entrance into Mississippi river.

REDFORD, t. and p. v., Wayne co., *Mich.*: 71 m. E. S. E. Lansing. Drained by N. branch of Rouge river and its branches. The v. is on W. bank of the river, which affords water-power used by saw-mills, etc. Pop. of t. 1,645.

REDFORD, p. v., Clinton co., *N. Y.*: on N. side of Saranac r., 136 m. N. Albany. Iron ore is abundant in the vicinity, and in the v. are glass-works, and about 500 inhabitants.

RED HILL, p. o., Marshall county, *Ala.*: 135 miles N. Montgomery.

RED HILL, p. o. and sta., Murray county, *Ga.*: on East Tennessee and Georgia R. R., 9 miles N. Dalton, 169 miles N. W. by N. Milledgeville.

RED HILL, p. v., Grainger county, *Tenn.*: 174 miles E. Nashville.

RED HILL, p. o., Hardin county, *Ky.*: 70 miles S. W. Frankfort.

RED HILL, p. o., Kershaw dist., *S. Car.*: on E. side of Catawba r., 29 m. N. E. by N. Columbia.

RED HILL, *N. Hamp.*: a summit a little N. of Winnipisseege lake, and commanding an extensive and fine view of the romantic scenery of the region.

RED HOOK, t. and p. v., Dutchess co., *N. Y.*: 44 m. S. Albany. Drained by small streams flowing into Hudson r., which bounds it on the W. Surface rolling; soil clay and loam. There are two landings from the river, called Upper and Lower. The v. of Upper Red Hook is about 4 m. back from the landing, and contains a church, an academy, several stores, and 300 inhabitants; and that of Lower Red Hook about 3 m. from the lower landing, and is a somewhat large settlement. There are other villages in the town, of which Tivoli and Barrytown on the river and railroad are the largest. Factories of various descriptions are established in the villages. Pop. of t. 3,263.

RED HOUSE, p. o., Charlotte co., *Virg.*: 74 m. W. S. W. Richmond.

RED HOUSE SHOALS, p. o., Putnam co., *Virg.*: on Kanawha r., 255 m. W. N. W. Richmond.

RED JACKET, p. o., Erie co., *N. Y.*: 256 m. W. Albany.

RED LAND, p. v., Pontotoc co., *Miss.*: on Loohton cr., 9 m. S. Pontotoc, and 141 m. N. E. by N. Jackson.

RED LAND, p. o., Bossier parish, *La.*: 214 miles N. W. Baton Rouge.

RED LION, hund. and p. o., New Castle co., *Del.*: 32 m. N. by W. Dover. The hund. contains an area of 13,900 acres. Drained by Red Lion creek, on the N. side of which and on the New Castle and Frenchtown R. R. is situate the v. of Red Lion, which derives its name from the principal tavern. The hund. is strictly a farming country, and contains about 1,600 inhabitants.

RED LION, p. v., Warren county, *Ohio*: 73 m. W. S. W. Columbus. It contains several mechanic shops, and about 200 inhabitants.

RED LION, v., Burlington co., *N. Jer.*: 4 m. S. of Rancocas cr., and 22 m. S. Trenton.

REDMAN, p. o., Jackson county, Ala.: 167 miles N. Montgomery.

RED MILLS, p. o., Putnam co., N. Y.: on a branch of Croton r., 88 m. S. Albany.

RED MOUND, p. o., Henderson co., Tenn.: 97 m. W. S. W. Nashville.

RED MOUNTAIN, p. o., Orange co., N. Car.: 83 m. N. W. Raleigh.

RED OAK, p. o., Fayette county, Ga.: 85 m. W. N. W. Milledgeville.

RED OAK, p. o., Ellis co., Tex.: 165 m. N. N. E. Austin City.

RED OAK GROVE, Burlington co., N. Jer.

RED OAK GROVE, p. o., Charlotte co., Virg.: 73 m. S. W. Richmond.

RED PLAINS, p. o., Yadkin co., N. Car.: 115 m. W. by N. Raleigh.

RED RIVER county, Tex. Situate N. E., and contains 1,312 sq. m. Red river forms its northern boundary, by branches of which and of Sulphur fork of Red river it is drained. Surface undulating and diversified; soil fertile and adapted to cotton and corn. It is well timbered. Farms 166; manuf. 7; dwell. 420, and pop.—wh. 2,493, fr. col. 7, sl. 1,406—total 3,906. Capital: Clarksville.

RED RIVER, p. o., Robertson county, Tenn.: 80 m. N. Nashville.

Red river, La., Ark., etc.: is the first large r. which enters the Mississippi above its mouth. It rises at the base of the range of Rocky Mountains, near Santa Fé, in Mexico, and is formed by several main branches. It receives several large tributaries, the principal being Blue r. and False Washita. The S. bank forms for a great distance the boundary between the U. S. territories and Texas. A greater part of its course is through rich prairies of a red soil, which colors the water of the r., and has been the origin of its name. Its shores are covered with grass, and abound with grapevines, which produce an excellent fruit. About 100 m. above Nachitoches commences what is denominated the Raft, which consists of a swampy expansion of the r., to the width of 20 or 30 m., and length of 60 or 70 m. The r. divides into a great number of channels, many of which are shallow, and have been obstructed by fallen trees, brought down by floods from its upper parts. In some places the raft covered the whole r., and had grass and willows growing on the alluvial soil collected on it, and could even be crossed on horseback, though not without danger, but more generally the r. appeared between the masses of timber. At a great expense this raft has been so far removed by the United States government that steamboats pass through it. Boats sometimes pass the raft by leaving the r. above it, in a channel which flows out of it into some neighboring lake, and following the outlet of this lake until it joins the r., below the raft. This raft has been a serious obstruction, as the r. would otherwise be navigable for steamboats 400 miles, and the lands on its borders are highly fertile, and desirable for cultivation for a great distance above the raft. Below the raft, and 4 m. above Nachitoches, the whole volume of the r. is again united, but very soon divides into many channels, and fills an immense number of bayous and lakes that lie parallel to it. In its lower part the main channel of the r. is narrower than above the raft.

RED RIVER IRON WORKS, p. v., Estill co., Ky.: on S. side of Red r., 55 m. E. S. E. Frankfort. Iron in abundance here and in vicinity, and worked successfully.

RED RIVER LANDING, p. o., Point Coupee par., La.: on S. bank of Red r., 43 m. N. W. Baton Rouge.

RED ROCK, p. o., Marion co., Ia.: on N. bank of Des Moines r., 94 m. W. by S. Iowa City.

RED ROCK, p. o., Upshur co., Tex.: 247 m. N. E. Austin City.

RED ROCK, p. o., Ramsey co., Minn. Ter.

RED SHOALS, p. o., Stokes co., N. Car.: 102 m. W. N. W. Raleigh.

RED SPRING, p. o., Polk county, Tenn.: 183 m. S. E. by E. Nashville.

RED STONE, t. and p. o., Fayette county, Penn.: 155 m. W. by S. Harrisburg. Drained by creeks of Monongahela r., which bounds it on the W., and affords good water-power Mills of various descriptions are in operation. On the r. is Brownsville, a flourishing v., 12 m. N. W. Uniontown. Pop. of t. about 1,400.

RED SULPHUR SPRINGS, p. o., Hardin co., Tenn.: 97 m. S. W. Nashville.

RED SULPHUR SPRINGS, p. v., Monroe co., Virg.: on Indian cr., 181 m. W. Richmond. The waters of these and other neighboring springs are highly recommended for certain curative effects. "The approach to the village," says a visitor, "is beautifully romantic and picturesque. Wending his way around a high mountain, the traveler is for a moment charmed out of his fatigue by the sudden view of his resting-place, some hundreds of feet immediately beneath him. Continuing the circuitous descent, he at length reaches a ravine, which conducts him, after a few ragged steps, to the entrance of a verdant glen, surrounded on all sides by lofty mountains. The S. end of this enchanting vale, which is the widest portion of it, is about 200 feet in width. Its course is nearly N. for 150 yards, when it begins gradually to contract and change its direction to the N. W. and W., until it terminates in a narrow point. This beautifully secluded Tempe is the chosen site of the village. The S. portion, just at the base of the east and west mountains, is that upon which stand the various edifices for the accommodation of visitors. These buildings are spacious and conveniently arranged; the servants are prompt and obedient; and the table de hote is abundantly supplied with every thing that can tempt the appetite. The promenades are beautifully embellished, and shaded from the mid-day sun by large sugar maples, the natives of the forest."

RED WING, p. o., Wabashaw co., Minn. Ter.

REDWOOD, p. v., Jefferson co., N. Y.: on W. side of Indian r., 152 m. N. W. Albany. It contains several manufacturing establishments and about 200 inhabitants.

REDWOOD, p. o., Grainger co., Tenn.: 180 m. E. Nashville.

RED ISLAND, Pulaski county, Virg.: on New r., 135 m. W. by S. Richmond.

REED, t., Seneca co., Ohio: 8 m. N. Columbus. Drained by creeks of Sandusky and Huron rivers. Surface elevated and rolling; soil fertile. Farming is the sole occupation pursued. Pop. 1,484.

REED CREEK, p. o., Randolph county, N. Car.: 72 m. W. Raleigh.

REEDSBURG, p. o., Sauk co., Wisc.: on E. bank of Baraboo r., 45 m. N. W. Madison.

REEDSBURG, p. v., Wayne co., Ohio: on E. side of Muddy fork of Walhonding r., 72 m. N. E. by N. Columbus.

REED'S CORNERS, p. o., Ontario county, N. Y.: 186 m. W. Albany.

REED'S CREEK, p. o., Lawrence co., Ark.: on Reed's cr. of Strawberry r., 95 m. N. N. E. Little Rock.

REED'S FERRY, p. o., Hillsboro' co., N. Hamp.: on E. side of Merrimac r., 25 m. S. by E. Concord. The Concord R. R. passes this place 9 m. N. Nashua. A normal school for the education of teachers, was erected here in 1849, at an expense of \$5,500.

REED'S GROVE, p. o., Will county, Ill.: 183 m. N. E. Springfield.

REED'S LANDING, p. o., Wabashaw co., Minn. Ter.

REED'S MILLS, p. o., Vinton county, Ohio: 54 m. S. S. E. Columbus.

REED'S SETTLEMENT, p. o., Panola county, Tex.: 247 m. N. E. by E. Austin City.

REEDSVILLE, Mifflin co., Penn.: on W. side of branch of Kishishioquit cr. of Juniata r., 46 m. N. W. Harrisburg.

REEDYVILLE, p. o., Wirt county, *Virg.*: 232 m. W. N. W. Richmond.

REELFOOT, p. o., Obion co., *Tenn.*: 145 m. W. Nashville.

REEL'S MILL, sta., Putnam co., *Ind.*: on the Terre Haute and Richmond R. R., 48 m. W. by S. Indianapolis.

REEN'S CREEK, p. o., Buncombe co., *N. Car.*: 216 m. W. Raleigh.

REES'S MILL, p. o., Boone co., *Ind.*: 80 m. N. N. W. Indianapolis.

REFORM, p. o., Pickens co., *Ala.*: on a small branch of Little Tombigbee r., 123 m. N. W. by W. Montgomery.

REFORM, sta., Effingham co., *Ga.*: on the left side of Ogeechee r. and on the line of the Central Railroad, 30 m. from Savannah and 157 m. from Milledgeville.

REFUGIO county, *Tex.* Situate S. E., and contains 1,645 sq. m. Drained by San Antonio and Mission rivers and other streams, all flowing into the Gulf on the E. The Gaudalope forms its northern boundary. Surface level, and pleasantly diversified; soil a deep black mold, fertile and well adapted to cotton and sugar. It has excellent timber land. In the winter the prairies are the resort of game of different kinds, and the inhabitants derive much profit as well as pleasure from hunting. Farms 21; manuf. 0; dwell. 56, and pop.—wh. 269, fr. col. 0, sl. 19—total 288. *Capital*: Refugio C. II.

REFUGIO, p. v., and cap. Refugio co., *Tex.*: on E. bank of Mission r., 141 m. S. by E. Austin City.

REGNIER'S MILLS, p. o., Washington county, *Ohio*: on a branch of Duck creek of the Ohio river, 85 m. E. by S. Columbus.

РЕГОВОТН, p. v., Wilkes co., *Ga.*: at the cross roads between Lincolnton and Washington, 62 m. N. E. by N. Milledgeville.

РЕГОВОТН, t. and p. o., Bristol co., *Mass.*: 83 m. S. by W. Boston. Drained by Palmer's r., which affords water-power. It is a good farming region, and contains also several manufactures. Pop. 2,103.

РЕГОВОТН, p. v., Perry county, *Ohio*: 44 m. E. S. E. Columbus.

РЕГОВОТН, p. v., Edgefield dist., *S. Car.*: 63 m. W. S. W. Columbia.

РЕГОВОТН, p. v., Lunenburg co., *Virg.*: 63 m. S. W. Richmond.

REHRESBURG, p. v., Berks co., *Penn.*: 85 m. E. N. E. Harrisburg. It contains 2 churches, several stores, and 300 inhabitants.

REIDSBURG, p. v., Clarion county, *Penn.*: on a creek of Clarion r., 146 m. W. N. W. Harrisburg. A small v. of some 200 inhabitants. Iron abounds in the vicinity.

REIDSVILLE, p. v., and cap. Tatnall co., *Ga.*: on W. side of Great Oohoopee r., 101 m. S. E. Milledgeville. It contains the county buildings, and is on the line of the projected Savannah and Albany R. R.

REIDSVILLE, p. v., Albany co., *N. Y.*: 14 m. W. S. W. Albany.

REIDSVILLE, p. v., Roekingham county, *N. Car.*: 76 m. N. W. by W. Raleigh.

REILY, t. and p. o., Butler co., *Ohio*: 99 m. W. S. W. Columbus. Drained by branches of Miami r. Surface uneven; soil fertile, producing an excellent quality of wheat. Timber abundant in the t. and vicinity. Pop. 1,716.

REINDEER, p. o., Nodaway county, *Mo.*: 189 m. N. W. Jefferson City.

REINERSBURG, v., Clarion co., *Penn.*: on an affluent of Red Bank cr., 146 m. W. N. W. Harrisburg. The Franklin Iron-Works are located here, and formerly employed about 80 hands and produced 1,100 tons No. 3 metal.

REINHOLDSVILLE, p. v., Lancaster county, *Penn.*: 86 m. E. S. E. Harrisburg.

REISTERTOWN, p. v., Baltimore co., *Md.*: about 3 $\frac{1}{2}$ m. E. Patapsco r., 87 m. N. N. W. Columbia. The Westminster Turnpike passes through the village.

RELAY HOUSE, sta., Baltimore co., *Md.*: on the Baltimore and Susquehanna R. R., at the divergence of the Westminster Branch R. R., 7 m. N. Baltimore.

RELAY HOUSE, sta., Baltimore co., *Md.*: on the N. side of Patapsco r., and on the line of the Baltimore and Ohio R. R., at the divergence of the Washington Branch R. E., 9 m. S. W. Baltimore.

RELFE, p. o., Pulaski co., *Mo.*: 45 m. S. Jefferson City.

RELF'S BLUFF, p. o., Drew county, *Ark.*: 69 m. S. S. W. Little Rock.

REMINGTON, p. v., Allegheny co., *Penn.*: 141 m. W. by N. Harrisburg.

REMSEN, t. and p. o., Oneida co., *N. Y.*: 89 m. N. W. by W. Albany. Drained by Black r. and branches. Surface hilly; soil of average fertility. The v. contains 2 churches, several stores and mills, 70 dwellings, and 400 inhabitants. Population of t. 2,407.

RENICK MILLS, p. o., La Fayette co., *Mo.*: 93 m. W. N. W. Jefferson City.

RENROCK, p. o., Morgan county, *Ohio*: 68 m. E. S. E. Columbus.

RENSELAER county, *N. Y.* Situate E., and contains 626 sq. m. Drained by Hoosic r., and Wynantskill, and Poestenkill flowing into Hudson r. on the W., and affording in their course good water privileges. Surface pleasantly diversified with hills and valleys; soil fertile. Chief products, wheat, Indian corn, and potatoes. It contains some minerals, and extensive slate quarries; the products of the latter are used principally for roofing. Farms 2,980; manuf. 639; dwell. 10,972, and pop.—wh. 72,337, fr. col. 1,026—total 73,363. *Capital*: Troy. *Public Works*: Hudson River R. R.; Albany and W. Stockbridge R. R.; Troy and Greenbush R. R.; Troy and Boston R. R.; Troy and Rutland R. R., etc.

RENSELAER, p. v., and cap. Jasper county, *Ind.*: on Iroquois r., 92 m. N. W. by N. Indianapolis.

RENSELAER, v., Rensselaer co., *N. Y.*: 12 m. S. E. Troy. It contains 3 churches, several stores and mechanic shops, and 500 inhabitants. In the vicinity there are also numerous saw and grist mills.

RENSELAERVILLE, t. and p. v., Albany co., *N. Y.*: 24 m. S. W. by W. Albany. Drained by Catskill and Foxes creeks. Surface hilly; soil sandy loam, and generally fertile. The v. on Foxes cr. contains 4 churches, an academy, a dozen stores, iron works and machine shops, and other industrial establishments, and about 1,000 inhabitants. In the t. are tanneries, and numerous saw-mills, etc. Pop. 3,630.

REPTON, p. o., Clark county, *Ind.*: 89 m. S. by E. Indianapolis.

REPUBLIC, p. o., Surry co., *N. Car.*: 120 m. W. N. W. Raleigh.

REPUBLIC, p. v., Seneca co., *Ohio*: 78 m. N. Columbus. The Mad River and Lake Erie R. R. passes through this place, 30 m. from Sandusky, and 123 from Dayton.

REPUBLICAN, p. o., Darke co., *Ohio*: 93 m. W. Columbus.

REPUBLICAN GROVE, p. o., Halifax county, *Virg.*: 93 m. W. S. W. Richmond.

REPUBLICAN MILLS, p. o., Fairfax co., *Virg.*: 91 m. N. Richmond.

RESACA, p. v. and sta., Murray county, *Ga.*: 164 m. N. W. by N. Milledgeville. The Western and Atlantic R. R. passes the place, 85 m. from Atlanta, and 55 from Chatanooga.

RESERVATION, v., Erie county, *N. Y.*: 241 m. W. by N. Albany.

RESERVE, p. o., Miami co., *Ind.*: 70 m. N. Indianapolis.

RESERVE, p. o., St. Joseph's county, *Mich.*: 64 m. S. W. Lansing.

RESERVE, t., Alleghany county, *Penn.*: occupies the land at the confluence of Alleghany r., with the Ohlo lying N. of Alleghany City. It has considerable manufactures.

RETREAT, p. o., Franklin co., *Virg.*: 143 m. W. S. W. Richmond.

REVELPE, p. o., Scott county, *Ark.*: 89 m. W. N. W. Little Rock.

REXBURG, v., Essex co., *Virg.*: 46. m. N. E. Richmond.

REXFORD FLATS, p. o., Saratoga co., *N. Y.*: on N. side of the Mohawk r., 15 m. N. N. W. Albany.

REYNALD'S BASIN, p. o., Niagara county, *N. Y.*: on the Erie Canal, 264 m. W. Albany.

REYNOLDS county, *Mo.* Situate toward the S. E., and contains 705 sq. m. Drained by Big Black Water r. and its branches. Surface rolling; soil fertile, and produces in abundance grain, wheat, fruits, tobacco, Indian corn, and potatoes. This is a splendid mining country, and contains many valuable minerals. It contains also fine timber land. Farms 145; manuf. —; dwell. 293, and pop.—wh. 1,824, fr. col. 0, sl. 25—total 1,849. *Capital*: Lesterville.

REYNOLDSBURG, p. v., Franklin co., *Ohio*: on E. side of Big Lick cr., 11 m. E. Columbus. It contains several stores, mechanic-shops, etc. The creek affords excellent mill-power. Pop. 564.

REYNOLDSVILLE, p. v., Tompkins county, *N. Y.*: 160 m. W. by S. Albany.

REYNOLDSVILLE, p. v. Jefferson county, *Penn.*: 191 m. W. N. W. Harrisburg.

RHEA county, *Tenn.* Situate toward the S. E., and contains 349 sq. m. Tennessee r. forms its western boundary, by branches of which it is drained. Surface undulating, in parts hilly; soil fertile. Farms 805; manuf. 2; dwell. 631, and pop.—wh. 3,951, fr. col. 28, sl. 436—total 4,415. *Capital*: Washington.

RHEATOWN, p. v., Greene co., *Tenn.*: about 3 m. N. of Nolichuky r., 227 m. E. Nashville.

RHINEBECK, t. and p. o., Duchess county, *N. Y.*: 50 m. S. Albany. Drained by Landtman's cr., a small stream of Hudson r., which runs along its W. border. Surface on the W. level, and on the E. rolling; soil very productive. The v., about 2 m. from the landing on Landtman's cr., has 3 churches, an academy, numerous work-shops, stores, etc., and about 1,200 inhabitants. Pop. of t. 2,816. The Hudson River R. R. runs on the W. edge of the town.

RHINEBECK LANDING, v., Duchess county, *N. Y.*: on E. bank of Hudson r., and on the line of the Hudson River R. R., 53 m. from Albany, and 91 m. from New York city. The Albany steamboats stop here up and down. The v. contains about 50 dwellings.

THE STATE OF RHODE ISLAND.

RHODE ISLAND (or more properly Rhode Island and Providence Plantations), although the smallest State of the Union, is considerably larger than many of the sovereignties of Europe, and in point of intelligence and productive powers, far in advance of any American community of the same population. It is situated between 41° 22' and 42° 03' latitudes north, and between 71° 06' and 71° 38' longitudes west from Greenwich, or 5° 24' and 5° 56' east from Washington. Massachusetts bounds it on the north and the east, the Atlantic Ocean on the south, and Connecticut on the west. About 42 miles long, and in its greatest width 35 miles, it contains a land area of 1,360 square miles.

The surface of the State is generally hilly and broken, but nowhere does it present any elevation deserving of the name of mountain. Mount Hope, in Bristol, the highest land in the State, is only 900 feet above the sea level. In the neighborhood of Narragansett Bay, and on the islands within it, the land is more level, and at most exhibits but slight undulations. The rivers are little more than mill streams, with courses of not more than 50 or 60 miles in length, and discharging an inconsiderable amount of water; but as they descend from 200 to 450 feet, and are steady in their supply of water, they furnish valuable power, which is extensively applied to manufacturing purposes. The Pawtucket, the principal river, rises in Massachusetts, where it has the name of Blackstone River, and running south-east into this State, falls into Providence River, one mile below the city of Providence. There are falls of about 50 feet descent four miles from its mouth—below the falls it bears the name of the Seekonk River. Providence River is formed by the Wanasquatucket and Moshassuck, two small streams which unite a short distance above the city of the same name. It falls into the northern arm of Narragansett Bay, and is navigable to Providence for ships of 900 tons. Pawtucket River, rising by several branches, and flowing east, enters Providence River, five miles below the city. It abounds with falls, which furnish fine locations for mills and manufacturing establishments. Pawcatuck River, formed by Wood and Charles rivers, waters the south-western part of the State, and falls into Stonington harbor—in the latter part of its course it is the boundary between this State and the State of Connecticut.

Narragansett Bay, a fine body of water, divides the State into two unequal proportions. It extends more than 30 miles inland, and is about 15 miles wide at its southern part, but a considerable portion of this space is occupied by islands. It communicates with the ocean between Point Judith on the west, and Saconet Point on the east. The north-eastern arm of the bay is called Mount Hope Bay; the north-western arm Greenwich Bay, and the northern arm Providence Bay. The principal rivers falling into it are the Providence and the Taunton, the latter from Massachusetts. It affords great advantages to ship navigation, having many excellent harbors, and being accessible at all seasons. Newport harbor, in the channel, between Canonicut and Rhode Island, is one of the finest in the world; the entrance is protected by Fort Waleott, on Goat's Island, and Fort Adams, on Rhode Island—the latter a large stone castle of great strength.

Rhode Island, lying in Narragansett Bay, gives name to the State. It is 15 miles long, and on an average 3½ miles wide, containing an area of about 50 square miles. Its climate is delightful, and the soil very fertile. Travelers have called at the "Eden of America," and southerners have chosen it as a summer residence. Canonicut is a beautiful island to the west of Rhode Island. It is about seven miles long and one mile broad. Prudence Island lies to the north-east of Canonicut, and Block Island about ten miles south-west of Point Judith. The latter is about seven miles long, and about four miles broad. The islanders derive their support chiefly from fishing, but they have also large numbers of cattle and sheep, and produce cheese and butter of the finest quality.

The climate of the whole State, influenced by the vapors from the Atlantic, is mild, though changeable, and in its general characteristics is said to assimilate that of Great Britain. The seasons are more uniform than in the more northern parts of New England—the winters are sensibly milder, and the heats of summer are much modified. Spring commences in March, and summer reigns from June to September. The latter month, and also October, have delightful weather. Winter sets in with November, and continues to the middle of March. The air is at all times pure, and the longevity of the inhabitants, as indicated by the census, is a true indication of its salubrious qualities.

The mineral productions of Rhode Island are of little importance. Some iron ore is found in different parts. Anthracite occurs, but although it has been pronounced to be of a good quality, little has been done to bring it into use. It is found chiefly in the same graywacke formation with the Massachusetts coal. Limestone abounds in the north-eastern section

RHODE ISLAND.

of the State, and in these calcareous shale. There are some excellent quarries of marble. Serpentine is also abundant, and there are in various places extensive quarries of freestone. On the continental portion of the State the soil is generally a gravelly loam, which is tolerably fertile, but difficult of cultivation. The soil of the islands is silty, yet they are the most productive and valuable lands in the State. There is very little alluvial land. Pine plains are found in several low regions, but there are no extensive forests. Oak, walnut, and chestnut, are the prevailing growths. Fruits and culinary vegetables are produced in great perfection, and in abundance. Grain is grown in considerable quantities, in reference to the area of the State, but, on the whole, the lands are better adapted for grazing than for cereal agriculture.

Rhode Island is divided into five counties, the general statistics of which and the capitals of each in 1850 were as follows:

Counties.	Dwell.	Pop.	Farms in cult.	Manuf. Estab.	Capitals,	Counties.	Dwell.	Pop.	Farms in cult.	Manuf. Estab.	Capitals.
Bristol.....	1,167 ..	8,514 ..	200 ..	87 ..	Bristol	Providence.	12,760 ..	87,525 ..	2,162 ..	804 ..	PROVIDENCE
Kent.....	2,625 ..	15,068 ..	688 ..	90 ..	E. Greenwich	Washington	2,891 ..	16,430 ..	1,308 ..	95 ..	Kingston
Newport....	2,986 ..	20,007 ..	1,027 ..	68 ..	Newport						

The whole number of dwellings in the State was, at the above date, 22,379; of families, 28,216, and of inhabitants, 147,544; viz., whites 144,000—males 70,417, and females 73,583; fr. col. 3,544—males 1,660, and females 1,884. Of the whole population there were, *deaf and dumb*—wh. 61, fr. col. 3—total 64; *blind*—wh. 61, fr. col. 3—total 64; *insane*—wh. 248, fr. col. 4—total 252; and *idiotic*—wh. 104, fr. col. 3—total 107. The number of free persons born in the United States was 124,299, the number of foreign birth 23,111, and of birth unknown 185. The *native* population originated as follows: Me. 768, N. Hamp. 716, Verm. 459, Mass. 11,888, *Rhode Island* 102,641, Conn. 3,976, N. Y. 2,055, N. Jer. 198, Penn. 447, Del. 50, Md. 365, Dist. of Col. 64, Virg. 191, N. Car. 76, S. Car. 57, Ga. 68, Flor. 23, Ala. 13, Miss. 83, La. 21, Tex. 4, Ark. 0, Tenn. 4, Ky. 19, Oh. 93, Mich. 22, Ind. 11, Ill. 15, Mo. 13, Ia. 9, Wisc. 6, Calif. 0, Territories 40; and the *foreign* population was composed of persons from—England 4,490, Ireland 15,944, Scotland 988, Wales 12, Germany 230, France 80, Spain 14, Portugal 58, Belgium 2, Holland 12, Turkey 1, Italy 25, Austria 1, Switzerland 8, Russia 1, Denmark 15, Norway 25, Sweden 17, Prussia 5, Asia 1, Africa 9, British America 1,024, Mexico 7, Central America 4, South America 4, West Indies 57, Sandwich Islands 8, and other countries 52.

The following table will show the decennial progress of the population since the first census of the State, taken by the United States authority:

Census Years.	White Persons.	Colored Persons.			Total Pop.	Decennial Increase.	
		Free.	Slave.	Total.		Numerical.	Per cent.
1790.....	64,689 ..	3,469 ..	952 ..	4,421 ..	69,110 ..	— ..	— ..
1800	65,437 ..	3,304 ..	881 ..	3,685 ..	69,122 ..	12 ..	0.0 ..
1810	73,314 ..	3,609 ..	108 ..	3,717 ..	77,031 ..	7,909 ..	11.4 ..
1820	79,418 ..	3,598 ..	48 ..	3,646 ..	83,059 ..	6,023 ..	7.9 ..
1830	93,621 ..	3,561 ..	17 ..	3,578 ..	97,199 ..	14,140 ..	17.0 ..
1840	105,587 ..	3,288 ..	5 ..	3,243 ..	108,830 ..	11,631 ..	11.9 ..
1850	144,100 ..	3,554 ..	— ..	3,554 ..	147,654 ..	38,824 ..	35.6 ..

The general statistics of the wealth, productions, manufactures, etc., of the State, according to the census of 1850 and other documents referring to the same period, are as follows:

Occupied Lands, etc.—Improved lands, 356,487 acres, and unimproved lands, 197,451 acres—valued in the aggregate at \$17,070,802. The whole number of farms in operation on the 1st June, 1850, was 5,835. Value of farming implements and machinery, \$497,201.

Live-Stock.—Horses, 6,168; asses and mules, 1; milch cows, 28,698; working oxen, 8,189; other cattle, 9,375; sheep, 44,296, and swine, 19,509; in all valued at \$1,592,637. In 1840 the stock consisted of 3,024 horses and mules, 36,891 neat cattle of all kinds, 90,146 sheep, and 80,659 swine.

Products of Animals.—Wool, 129,692 pounds; butter, 995,670 pounds; cheese, 316,508 pounds; and the value of animals slaughtered during the year had been \$667,486. The wool returned in 1840 was 183,830 pounds.

Grain Crops.—Wheat, 49 bushels; rye, 26,409 bushels; Indian corn, 539,202 bushels; oats, 215,232 bushels; barley, 18,875 bushels; and buckwheat, 1,245 bushels. Compared with the crops exhibited in the census of 1840, the following results are obtained:

Crops.	1840.	1850.	Movement.
Wheat.....	3,093 bushels.....	49 bushels.....	decr. 3,049 bushels, or 98.4 per cent.
Eye.....	34,521 ..	26,409 ..	decr. 8,112 .. " or 23.5 ..
Indian corn.....	450,493 ..	539,202 ..	incr. 88,704 .. " or 19.7 ..
Oats.....	171,517 ..	215,232 ..	incr. 43,715 .. " or 25.5 ..
Barley.....	16,490 ..	18,875 ..	decr. 47,615 .. " or 71.6 ..
Buckwheat.....	2,979 ..	1,245 ..	decr. 1,734 .. " or 41.7 ..

Other Food Crops.—Peas and beans, 6,346 bushels; potatoes—Irish, 651,029 bushels, and sweet, 0 bushels. The potato crop of 1839 amounted to 911,973 bushels.

Miscellaneous Crops.—Hay, 74,818 (in 1840, 63,449) tons; clover-seed, 1,323 bushels; other grass seed, 3,708 bushels; hops, 277 pounds; flax, 85 pounds; maple sugar, 28 pounds; molasses, 4 gallons; beeswax and honey, 6,347 pounds; wine, 1,013 gallons, etc. Value of orchard products, \$68,994, and of market-garden products, \$93,293.

Home-made Manufactures were produced in the year to the value of \$26,495. The same class of goods returned in the census of 1840 were valued at \$51,180.

Manufactures.—Total capital invested in manufactures, \$300,000,000; value of all raw material, fuel, etc., consumed in the year, \$300,000,000; monthly cost of labor, \$300,000,000—male \$300,000,000, and female \$300,000,000; value of products for the year, \$300,000,000. The number of manufacturing establishments in operation within the State on the 1st June, 1850, was 1,144, distributed among the counties as shown in the general table. Of this number 153 were cotton factories, 45 woolen factories, 10 tanneries, and 21 engaged in the manufacture of iron, namely, 20 in the manufacture of castings and 1 in that of wrought iron. The aggregate capital invested in manufactures in 1840 amounted to \$10,696,136.

RHODE ISLAND.

In the *cotton* manufacture the capital employed was \$6,675,000; and the value of raw material, fuel, etc., consumed, \$3,484,579; and the products for the year, 96,925,612 yards of sheeting, and 1,902,980 pounds of thread and yarn, valued at \$6,447,120. Cotton consumed, 50,718 bales, and coal, 13,116 tons; hands employed, 10,875—males 4,959 and females 5,916; entire wages paid per month, \$168,938—to males \$92,282 and to females \$76,656. The census of 1840 returned 209 factories and 17 dyeing establishments; capital, \$7,326,000; hands, 12,086; and value of annual products, \$7,116,792.

In the *woolen* manufacture the capital invested was \$1,013,000; and value of raw material, fuel, etc., \$1,463,900; products of the year, 8,612,400 yards of cloth, 46,000 pounds of yarn, etc., valued at \$2,331,525. Wool consumed, 4,103,370 pounds, and coal, 2,032 tons; hands employed, 1,758—males 987, and females 771; monthly wages paid, \$32,139—to males \$20,431, and females \$11,708. In 1840 there were in the State 45 fulling-mills and 41 woolen factories; capital, \$685,350; hands, 961; and value of products for the year, \$342,172.

In *tanneries* the capital invested amounted to \$42,900; value of hides and skins used, \$40,615; hands employed, 33—at a monthly cost of \$529; skins tanned, 14,861, and sides of leather tanned, 21,142, together valued at \$75,040. In 1840 there were in the State 27 tanneries; capital \$72,000; hands employed, 89; products—1,534 sides of sole leather and 50,860 sides of upper leather.

The *iron* manufacture is comparatively a small interest on Rhode Island. No manufactures of pig iron are returned in the census of 1850. In the manufacture of *castings* the capital invested amounted to \$428,800; value of all raw material, fuel, etc., used, \$258,267; hands employed, 800—at average wages \$29 63 per month; pig iron used, 3,918 tons, and mineral coal, 4,670 tons; castings made, 8,558 tons, and other products to the value of \$119,500; total value of products for the year, \$728,705. The capital invested in the manufacture of *wrought iron* was \$208,000; pig metal used, 3,000 tons, and mineral coal consumed, 6,000 tons; value of all raw material, fuel, etc., \$111,750; hands employed, 220, at wages averaging \$26 per month; wrought iron made, 2,650 tons; value of entire annual products, \$222,400. In 1840 there were 5 furnaces in the State, producing 4,126 tons of cast iron, consuming 227 tons fuel, and employing 29 men. The capital invested in the manufacture of iron in that year was \$22,250.

In the manufacture of *malt and spirituous liquors*, the capital invested amounted to \$17,000; the number of hands employed was 9; and the consumption of barley, 12,500 bushels, and of hops, 6 tons; ale, etc., produced, 3,900 barrels. In 1840, 4 distilleries produced 555,000 gallons of spirits, and 3 breweries 819,600 gallons ale, etc.; hands, 42; and capital invested, \$139,006.

Among the manufactures of the State others than those specified above, the most important are those of hardware, machinery, cutlery, etc. There are also considerable investments in the manufacture of jewelry, hats and caps, saddlery, paper, and in the various descriptions of mills.

Internal Improvements.—Rhode Island has several excellent railroads and other improvements. The principal railroads are those connecting it with Boston and Worcester on the one hand, and with the ports of Long Island Sound and New York on the other. The first comprise the Boston and Providence R. R. and the Providence and Worcester E. R., and the latter the Stonington R. R., the Providence, Hartford, and Fishkill R. R., and the New York and Boston E. R., the two latter yet incomplete. The Blackstone Canal also extends from Providence to Worcester. The condition of these several works is shown in the "Appendix."

Banks.—In September, 1850, there were in the State 63 banking institutions, the assets and liabilities of which at that date were as follows: *assets*—loans and discounts, \$15,492,547; stocks, \$151,277; real estate, \$283,344; other investments, \$13,461; due by other banks, \$411,164; notes of other banks, \$537,761; and specie, \$297,661; and *liabilities*—capital, \$11,645,492; circulation, \$2,553,865; deposits, \$1,488,596; due other banks, \$650,560; and other liabilities, \$133,733. There are also savings' institutions, and life, fire, and marine insurance companies in all the large cities.

Foreign Commerce.—The direct foreign commerce of Rhode Island, once considerable, is now comparatively of small amount, and relatively to its population and manufacturing importance, very small indeed. Indirectly, its connection with foreign countries is commensurate with its rank as a manufacturing State. It imports and exports chiefly through the ports of Massachusetts and New York, to which it has easy access by railroads and other means. The value of the exports and imports for the year ending 30th June, 1850, was, according to the treasury report, as follows—*exports*: domestic products, in American vessels, \$205,969, and in foreign vessels, \$330—total value of domestic exports, \$206,299; and foreign products, \$9,966, all in American vessels—total value of all exports, \$216,265—and *imports*: in American vessels, \$251,708, and in foreign vessels, \$6,595—total value of imports, \$258,303. The statistics of navigation exhibit the entrances and clearances thus:

Nationality of Shipping	Entered.			Cleared.			Total.		
	Vessels.	Tons.	Crews.	Vessels.	Tons.	Crews.	Vessels.	Tons.	Crews.
American	100	17,347	821	94	16,770	833	194	34,617	1,654
Foreign	19	2,075	118	16	1,705	99	35	3,790	217
Total	119	19,922	939	110	18,475	932	229	38,397	1,871
Providence	69	11,786	540	50	8,457	408	119	20,243	948
Bristol	33	5,534	273	43	7,266	402	76	12,800	675
Newport	17	2,602	126	17	2,752	127	34	5,354	253

—of this aggregate. Providence entered 69 vessels (11,786 tons), Bristol 33 vessels (5,534 tons), and Newport 17 vessels (2,602 tons); and Providence cleared 50 vessels (8,457 tons), Bristol 43 vessels (7,266 tons), and Newport 17 vessels (2,752 tons). The total shipping owned in the State at the above date was 40,459 tons. The amount of registered shipping amounted to 26,068 tons, of which 21,497 tons were of permanent register, and 4,571 of temporary register, and of this 5,829 tons were employed in the whale fisheries, and the remainder in the foreign trade. The enrolled and licensed shipping amounted to 13,722 tons, of which 13,173 tons were employed in coasting, 155 tons in the cod fisheries, and 389 tons in the mackerel fisheries, and 432 tons were navigated by steam. The licensed shipping (under 20 tons) amounted to 699 tons, of which 360 tons were employed in coasting, and 339 tons in the cod fishery. Total registered, 26,063 tons; enrolled and licensed, 13,721 tons; and licensed, 699—aggregate tonnage, 40,488 tons. Owned in Providence district, 16,712 tons; in Bristol, 13,193 tons; and in Newport, 10,573 tons. Fourteen vessels, viz., 5 ships, 5 schooners, 3 sloops, and 1 steamer were built in the State during the year, and of these the burden was 3,857 tons—built at Bristol, 2,191 tons; at Providence 1,299 tons; and at Newport, 95 tons.

RHODE ISLAND.

The statistics of the imports and exports of Rhode Island from 1791-1810 exhibit the following movements:

Year.	Exports.	Imports.	Year.	Exports.	Imports.	Year.	Exports.	Imports.
1791	\$470,131	—	1811	\$1,571,424	—	1831	\$367,465	\$562,161
1792	698,109	—	1812	753,137	—	1832	534,459	657,969

Government.—Until the year 1844 the form of government was that ordained by the ancient royal charter, which was originally one of the most liberal granted to the American colonies. In that year a new constitution was formed and ratified by the people.

Every male citizen of the United States, resident in the State for the last past year, and in the town or city in which he claims to vote, for the six months next preceding an election, and owning real estate in such town or city worth \$134 above all incumbrances, or of the clear yearly value of \$7, may vote for all civil officers, and on all questions in all legal town or ward meetings, or if the estate lie without such town or city, but within the State, he may vote for all general officers and members of the General Assembly in the town or city of which he is a resident, etc. No Narragansett Indian can vote, etc. The general election is held on the first Wednesday in April annually. In all elections for State officers, a majority of votes is necessary to a choice.

All legislative power is vested in the General Assembly, which consists of a Senate and House of Representatives—the former consists of senators, one from each town or city, and the lieutenant-governor. The governor presides therein (and in his absence the lieutenant-governor), and has a casting vote only. The house consists of members not to exceed 72 in number, elected in ratio of population, but every town is entitled to at least one representative, and not to more than twelve. The convention of the two houses is styled the Grand Committee, and is presided over by the president of the Senate. There are two sessions of the General Assembly every year, one at Newport, on the first Tuesday of May, and the other at South Kingstown, on the last Monday in October, every two years, and the intermediate years alternately at Bristol and East Greenwich, and this session adjourns every year to Providence.

The executive authority is vested in a governor. If no governor be chosen by the people, the Grand Committee elects one of the two popular candidates having the highest number of votes, and so in respect of the election of the lieutenant-governor. The governor has not the usual veto on the acts of the legislature, nor may he grant pardons, but except in cases of impeachment he has power to grant reprieves. If the office of governor be vacant, the lieutenant-governor, and after him the president of the Senate *pro tempore*, acts as governor.

Every elector is qualified to hold the office for which he may be qualified to vote.

Judicial powers reside in a Supreme Court and Courts of Common Pleas. The Supreme Court consists of a chief and three associate judges, who are appointed by the Grand Committee, and hold office until they are removed by a resolution of two-thirds of both houses. On this court alone may chancery powers be conferred. The Courts of Common Pleas, formerly held by a judge of the Supreme Court and two associate justices, elected for each county, are now held by a Supreme Court judge sitting alone—the associate justices of that court dividing the duty among themselves.

The financial statement of the treasurer, for the year 1849-50, exhibits the receipts into the public treasury at \$161,649, and the expenditures at \$161,414—excess of receipts, \$235. The chief sources of income are, the bank tax \$33,669, the State tax \$17,084, public deposits \$34,326, etc. The principal expenditures are those for executive, legislative, and judicial support, and several amounts paid for the support of schools, etc. Properly speaking, Rhode Island has no public debt.

The State militia, in 1850, consisted of an aggregate of 15,037 men of all arms, of which 71 were commissioned officers, and 14,966 non-commissioned officers, musicians, artificers, and privates. Of the commissioned officers 6 were general officers, 16 general staff officers, 80 field officers, etc., and 19 company officers. The governor is *ex officio* commander-in-chief, and all persons between 18 and 45 years of age, except those excused from military duty by law, are subject to enrollment.

The State, within its own borders, has no institutions for the support and education of the deaf and dumb, and blind; but an annual appropriation is made for these purposes, amounting to \$2,500, which is expended in furnishing facilities for such afflicted persons in the institutions of the adjoining States. The insane are provided for in the Butler Hospital for the Insane, at Providence, and the 1st Jan., 1851, there were in the establishment 113 patients—50 males and 63 females.

Federal representation.—In accordance with the law of the 23d May, 1850, apportioning representation, Rhode Island sends two members to the National Congress.

Education.—The school fund proper, which is invested in bank stock, amounts to \$51,300: and besides the interest on this sum, the following are appropriated to the support of common schools: the interest of the State's part of the U. S. deposit fund, and the proceeds of the militia commutation tax collected in the towns. The whole number of school districts in the State, in 1850, was 332, of which 231 owned school-houses. There had been expended on school-houses in the last past six years, \$145,254. Number of persons under 15 years of age, 47,537; number attending school, 24,442, and average attendance, 13,132. Number of teachers, 509—male 239, and female 270. Moneys received from public funds in

RHODE ISLAND.

1850, \$34,348 71; and raised by towns, \$50,332 70—total, \$84,681 41. Expended for schools, \$95,291 16, and for school-houses, \$19,070 81. In June, 1851, the school laws were revised and consolidated, and in many respects much improved. Academies, grammar, and other private schools, are numerous. The chief collegiate institution of the State is Brown University (Baptist), at Providence, founded 1764. It is one of the most respectable and flourishing institutions of the State. In 1850 it had 10 professors, 195 students, and 1,765 alumni, of which number 460 were in the ministry. It has valuable libraries of 81,000 volumes, a museum, cabinet, philosophical apparatus, etc. It was originally located in Warren, but in 1770 was removed to Providence. The number of adults in the State who can not read and write is 3,744.

Public Libraries.—5 social libraries—25,104 volumes; 1 college—24,000 volumes; 2 students—7,600 volumes; 2 scientific and historical—3,000 volumes; 35 public school—19,637 volumes. Total—45 libraries, and 79,341 volumes.—*Report of Libr. Smithsonian Institute, 1851.*

Periodical Press.—The whole number of periodicals published in the State, in 1850, was 19, of which 8 advocated "whig" principles, and 4 those of the democratic party. Seven were neutral in politics, or devoted to literature, religion, etc., including those the character of which has not been ascertained. Of the whole number, 5 were issued daily, circulating at each issue 9,750 copies, or 3,032,250 copies annually; 2 semi-weekly, circulating 2,000 copies, or 208,000 annually; 12 weekly, circulating 14,225 copies, or 739,700 annually. Total copies at each issue, 25,975, or 3,979,950 copies annually. The papers as published in the counties are—Bristol, 2 weekly; Kent, 1 weekly; Newport, 2 daily and 3 weekly; and Providence, 3 daily, 2 semi-weekly, and 6 weekly. The dailies are published in the cities of Newport and Providence.

Religious Denominations.—The statistics of the several religious denominations in the State were, for the year 1850, as follows:

Denomina- tions.	No. of Churches.	Church accon.	Value of Property.	Denomina- tions.	No. of Churches.	Church accon.	Value of Property.	Denomina- tions.	No. of Churches.	Church accon.	Value of Property.
Baptist.....	100..	40,131..	\$866,300	Germ'n Ref.	— ..	— ..	\$ —	R. Catholic..	7 ..	7,800 ..	\$72,500
Christian...	7..	2,500..	24,300	Jewish	1 ..	300 ..	1,000	Swedenb'g..	2 ..	325 ..	4,400
Congregat'l.	21..	11,708..	178,550	Lutheran...	— ..	— ..	—	Tunker.....	— ..	— ..	—
Dutch Ref. — ..	— ..	— ..	—	Mennonite.	— ..	— ..	—	Union.....	4 ..	2,450 ..	5,000
Episcopal..	26..	11,606..	245,500	Methodist..	23 ..	9,910 ..	102,900	Unitarian..	4 ..	2,950 ..	127,000
Free.....	2..	611..	5,000	Moravian..	— ..	— ..	—	Universalist.	4 ..	2,230 ..	55,000
Friends....	13..	6,370..	57,500	Presbyter'n.	— ..	— ..	—	Minor Sects.	2 ..	950 ..	4,650

—in all 221 churches, accommodating 93,736 persons, and valued at \$1,252,000. The State forms the Protestant Episcopal diocese of Rhode Island, and constitutes a portion of the Roman Catholic diocese of Hartford.

Pauperism and Crime.—The whole number of paupers relieved or supported from the public funds for the year ending 30th June, 1850, was 2,560, of which 1,115 were native and 1,445 foreign born; and the whole number on the rolls at the date specified was 696—492 natives and 204 foreigners. Total cost of support, \$45,537. The State Prison is located at Providence. The whole number of convicts in confinement on the 30th September, 1849, was 23—27 males and 1 female; committed during the next year, 23; discharged—by expiration of sentence 8, and by the General Assembly 11—leaving in prison, at the end of the official year, 1850, 37 prisoners, all males. The convicts are chiefly employed in shoemaking. Income of prison, \$3,964 56, and expenditure, \$9,427 43. The number of persons in Providence jail, confined at the suit of the State, was 66, and are employed principally in the manufacture of cabinet-ware.

Historical Sketch.—Roger Williams was the first white settler within the present limits of Rhode Island. Expelled from Massachusetts for maintaining opinions for which the minds of men were not yet prepared, he sought refuge in the wilderness, and after habitating with the Indians for many weeks, he descended the Pawtucket River, and turning round Fox Point, slaked his thirst at a spring on the bank, and afterward erected his habitation near by. In grateful acknowledgment of "God's merciful providence to him in his distress," he called the place Providence.

He found the land on which he had seated himself within the territory of the Narragansett Indians, and in 1636 he purchased it of their chiefs. Many soon settled around him. It was one of the charges against him in Massachusetts that he had avowed the doctrine that "to punish a man for matter of conscience is persecution." In his exile he adhered to that doctrine; he welcomed all that came, and the patriarch of the settlement would allow no interference with religious opinions. The charter of Maryland was the first to secure liberty of conscience to all Christian sects—the charity of Roger Williams embraced Jews, Mohammedans, and all the heathen. His benevolence was not confined to his civilized brethren; he labored to enlighten, improve, and conciliate the savages. He learned their language, traveled among them, and gained the entire confidence of the chiefs. He had often the happiness, by his influence over them, of saving from injury the colony that had proclaimed him an outlaw and driven him into the wilderness.

In 1633, two years after the expulsion of Williams, William Coddington and seventeen others, being persecuted for religious heresies in Massachusetts, followed him to Providence. By his advice they purchased from the Indians the island of Aquetnet, now called Rhode Island, and removed thither. Coddington was chosen their chief magistrate. Pursuing the same liberal policy which distinguished the settlers at Providence, numerous emigrants from the neighboring colonies were attracted to the settlement.

When the New England colonies, in 1643, formed their memorable confederacy, Rhode Island applied to be admitted a member. Plymouth asserting that the settlement was within her limits, it was decided by the commissioners that by submitting to the jurisdiction of that colony she would be entitled to all the advantages of the Union. These conditions were rejected, and Rhode Island continued in separate independence. In this year Williams was sent to England as agent for the two settlements, and the next year obtained a patent from the Parliament, by which the towns of Providence, Newport, and Portsmouth were incorporated, with the power of governing themselves. In 1647 all the freemen met at Portsmouth, enacted a code of laws, and established a civil government. An Assembly was constituted, to consist of six representatives from each town; and the executive and chief judicial power was vested in a president and four assistants. Town courts were established for small causes, with an appeal to the president and assistants.

The Executive Committee of Parliament had given Coddington a commission to govern the islands in the bay. This interfered with the patent which had been granted to Williams, and threatened the dismemberment of the colony. In 1651 he and John Clarke were appointed agents, and sent to England to persuade the committee to revoke the commission. In this they succeeded, through the influence of Sir Harry Vane, who had been of great assistance to Williams in 1643 in procuring the charter. Williams returned to Rhode Island, but Clarke remained in London, and long acted as the faithful agent of the colony.

RHODE ISLAND.

Upon the application of the inhabitants, the King in 1663 granted a charter, incorporating the colony of "Rhode Island and Providence Plantations." It declared that no person should be molested or called to account for any difference in matters of religion. For the government of the colony it vested the supreme power in an Assembly, to consist of a governor or deputy governor, ten assistants, and representatives from the several towns, all to be chosen by the freemen.

The benevolent policy of Williams secured to the colony an almost total exemption from Indian hostilities; he continued to reside at Providence, ever active in the service of the people, sometimes their president, and at others as assistant or representative, until the period of his death, in 1683. In his lifetime he was beloved of his people, and in his death his memory is held sacred as the founder of a prosperous State.

When Sir Edmund Andros was made governor of New England in 1685, he dissolved the charter government of the colony, and appointed a council to do his bidding; after he was deposed and sent to England, the freemen met at Newport and re-established the ancient order of things. All the officers who three years before had been displaced, were reinstated, and all accepted but Walter Clarke, who had been re-elected president. In his stead the Assembly appointed Henry Bull, a Quaker, the only one living who came with Coddington in 1638.

From this period to the commencement of the American Revolution, the history of Rhode Island is barren of events. Fortunate in living under a well-regulated government, and possessing great advantages in commerce, the inhabitants, if they played no distinguished part in the drama of life, were prosperous and happy. We find it recorded that in 1730 the population was about 18,000, and that in 1740 it was 35,000. In the last-mentioned year three hundred men were voted for an expedition into Canada, projected by the British government.

When the Stamp Act was attempted to be imposed, Rhode Island was as hostile to the purpose as any other colony; delegates were sent to the Continental Congress in 1765, and a general association was entered into against the use of stamps. The subsequent proceedings of the British were resisted with equal constancy. In 1774, when the British prevented the exportation of military stores from England, Rhode Island seized the cannon in the public batteries, and the Assembly passed resolutions for arming the people. Every action on the part of this province was on the popular side, and from her exposed situation she was made to feel the hate of the common enemy. In December, 1776, Clinton and Parker, with strong forces, sailed from New York for the purpose of occupying Rhode Island. The American forces, unable to resist, withdrew on the approach of the fleet, and the squadron of Commodore Hopkins, and a number of privateers, found themselves blockaded in the harbor of Providence. General Sullivan, aided by the French ships of war, made several unsuccessful attempts to dislodge the British, and in 1778 laid siege to Newport, but was obliged to abandon the attempt. During the retreat an engagement took place at Quaker Hill, the result of which was indecisive. In October, 1779, the British troops were withdrawn; and in 1780 a body of French, under Rochambeau, arrived at Newport in a squadron under De Ternay. Clinton, on hearing of their arrival, embarked 6,000 men with the hope of surprising them, but the project was ultimately abandoned. From this period Rhode Island was unmolested, and the inhabitants again resumed their commercial pursuits.

¶ Rhode Island was not represented in the convention that formed the Constitution in 1787, and this State evinced for the time a determined hostility to the new frame of government. She was the last of the original States to ratify this instrument; and it was not until the May, 1790, that her acquiescence was secured.

Little is recorded of its history from this period until 1812. During the ensuing contest with Great Britain, the majority of the people were hostile to the policy of the General Government, and adopted the system of action of the neighboring States, lending no aid to the national arms. Delegates were sent to the memorable Convention at Hartford, and united in the report made by that body. With the exception of the occupation of Block Island by the enemy in 1813, this State remained unmolested during the war.

Up to the year 1844, the Charter granted by Charles II. was the only constitution of the State, though for more than twenty years before that date efforts had been made to obtain from the General Assembly permission to form a new and more perfect frame of government, but without effect. In the spring of 1840 an association was formed, the object of which was to secure the right of suffrage to every adult white male citizen of the United States resident in the State; and in 1841 this association took the responsibility of calling a convention to form a State constitution in accordance with their peculiar views. Such convention was held, and such constitution formed and submitted to the people, but on account of the informality under which it was prepared, only a portion of the people recognized or voted on the question. Those who did vote being in its favor, a majority was declared, and the instrument acknowledged by its partisans as the supreme law of the land. The legal government, however, refused to recognize it, and in the mean time had taken measures for the calling of a convention for a similar purpose; and by this convention another constitution was prepared and adopted by two-thirds of the inhabitants. Two separate forms of government were now recognized by two different portions of the people. The Suffrage Party—as the illegal party called themselves—proceeded to elect their governor and public officers, and claiming them as legitimate officers, their government was organized at Providence, under the protection of an armed force, on the 3d May, 1841. Owing to the public excitement, the government under the legitimate constitution had not been able to organize, and consequently the old charter government met as usual at Newport, on the 4th May, 1842. On the 15th of the same month Thomas N. Dorr, the governor elected by the "Suffrage Party," attempted to capture the State arsenal at Providence, but failed in the attempt. Desirous of meeting the views of all parties, the General Assembly provided for another convention to form another constitution; and about the same time another attempt was made to overthrow by force of arms the charter government. The insurgents, led by their *soci-désant* governor, took up a position at Chepachet, from which, however, they were easily dislodged by the State troops, and completely dispersed. The convention last provided for by the charter government, met in September, and on their constitution being submitted to the popular vote, it was almost unanimously adopted, the "Suffrage Party" protesting against it, yet subsequently voting under it.

The attempt on the State made by the Suffrage Party, is one of the most audacious violations of the sanctity of popular institutions on record; and well did the abettors of such treason deserve the severest penalties. Dorr was imprisoned for several years, but was finally released, he having become a broken-down and deserted man, and the shunned of all good citizens. His name will go down to posterity on the same page as those of Burr and Arnold—a warning to all traitors.

PROVIDENCE, NEWPORT, SOUTH KINGSTON, BRISTOL, and EAST GREENWICH, are the political capitals of the State. There are two sessions of the General Assembly every year: one at Newport on the first Tuesday of May, and the other on the last Monday of October once in two years at South Kingston, and the intermediate years alternately at Bristol and East Greenwich; and this second session adjourns every year to Providence.

RIBLET'S, p. o., Richland county, *Ohio*: 59 m. N. N. E. Columbus.

RICE, t. and p. o., Cattaraugus county, *N. Y.*: 240 m. W. by S. Albany. Drained by affluents of Alleghany r., the principal of which furnishes good water-power. Surface elevated and rolling; soil excellent for farming. Population 906.

RICEBOBO', p. v., Liberty county, *Ga.*: 146 miles S. E. Milledgeville, on S. bank of North Newport r., which is navigable for sloops to this place. It contains about 160 inhabitants.

RICHARDSVILLE, p. v., Jefferson county, *Penn.*: 112 m. W. N. W. Harrisburg.

RICHBOROUGH, p. v., Bucks county, *Penn.*: 91 miles E. Harrisburg.

RICHBURG, p. o., Alleghany co., *N. Y.*: on E. side of branch of Oswaye r., 225 m. W. by S. Albany.

RICH CREEK, p. o., Logan county, *Virg.*: 251 miles W. Richmond.

RICHFIELD, t. and p. o., Genesee co., *Mich.*: 53 m. E. N. E. Lansing. Surface rolling; soil dry sandy loam. Drained by Flint r., which furnishes mill-sites. Pop. 432.

RICHFIELD, t. and p. o., Otsego co., *N. Y.*: 70 m. W. by N. Albany. Drained by small branches of Unadilla r. and outlets of Canaderaga lake, which lies on its E. border. Surface elevated and uneven; soil sandy and calcareous loam. The industry of the t. is generally devoted to agriculture, and there are some small manufactures. Population 1,502.

RICHFIELD, t. and p. v., Summit co., *Ohio*: 110 m. N. E. Columbus. Surface elevated, and moderately uneven; soil fertile, and well cultivated. Drained by creeks of Cuyahoga r. The v. contains various mechanic shops and about 200 inhabitants. There are other small settlements in the town. Pop. of t. 1,262.

RICHFIELD, t., Henry co., *Ohio*: drained by Beaver cr. of the Maumee. Pop. 136.

RICHFIELD, p. o., Juniata county, *Penn.*: 82 m. N. W. Harrisburg.

RICHFIELD SPRINGS, v. and p. o., Otsego co., *N. Y.*: at head of Canaderaga lake, 68 m. W. by N. Albany. The v. contains about 800 inhabitants, and here is a celebrated sulphur spring.

RICHFORD, t. and p. v., Tioga co., *N. Y.*: 123 m. W. by S. Albany. Drained by East and West Oswego creeks. Sur-

face uneven, with fertile valleys. The v. on East Oswego cr. contains about 300 inhabitants. Pop. of t. 1,208.

RICHFORD, t. and p. o., Franklin co., *Verm.*: on the Canada line, 474 m. N. Montpelier. Drained by Missisque r. and its branches. Surface mountainous; soil adapted best to grazing—along the streams is some good land. Population 1,074.

RICH FORK, p. o., Davidson co., *N. Car.*: 90 m. W. by N. Raleigh.

RICH HILL, t. and p. o., Muskingum co., *Ohio*: 63 m. E. Columbus. Drained by branches of the Muskingum r. Surface various; soil fertile. Bituminous coal and numerous salt springs are found in the vicinity. Pop. of t. 1,495.

RICH HILL, p. o., Maury co., *Tenn.*: 89 m. S. S. W. Nashville.

RICHLAND county, *Ill.* Situate toward the S. E., and contains 812 sq. m. Drained by affluents of the Wabash, a tributary of the Ohio r. Surface generally level; soil fertile. It has some prairies and some fine timber land. Farms 204; manuf. 3; dwell. 704, and pop.—wh. 4,002, fr. col. 10—total 4,012. *Capital*: Olney. *Public Works*: Ohio and Mississippi R. R.

RICHLAND county, *Ohio*. Situate N. centrally, and contains 468 sq. m. Drained by Olentangy r. and branches of Mohican cr. Surface level; soil fertile, and well adapted to wheat, corn, etc. Agriculture is the leading pursuit. Good timber is found on the land. Farms 2,522; manuf. 118; dwell. 5,205, and pop.—wh. 30,534, fr. col. 45—total 30,579. *Capital*: Mansfield. *Public Works*: Cincinnati, Cleveland, and Columbus R. R.; Sandusky, Mansfield, and Newark R. R.; Pennsylvania and Ohio R. R., etc.

RICHLAND district, *S. Car.* Situate centrally, and contains 458 sq. m. Drained by branches of Congaree and Wateree rivers, the former running along the S. W. border and the latter on the eastern. Surface generally level; soil fertile, and in some parts the land very rich. Chief productions, cotton and Indian corn. Farms 543; manuf. 87; dwell. 1,558, and pop.—wh. 6,764, fr. col. 501, sl. 12,973—total 20,243. *Capital*: Columbia. *Public Works*: Columbia Branch R. I.; Charlotte and South Carolina, Greenville and Columbia R. R.; Camden Branch R. R., etc.

RICHLAND county, *Wisc.* Situate toward the S. W., and contains 756 sq. m. Drained by head branches of Baraboo and Pine rivers, Pacific and Mill creeks, all affluents of Wisconsin r., which forms its southern border. Surface generally level; soil fertile and adapted to grain. It is well wooded, and contains some minerals. Farms 53; manuf. 4; dwell. 175, and pop.—wh. 902, fr. col. 1—total 903. *Capital*: Richland City.

RICHLAND, p. o., Jefferson co., *Ark.*: on S. bank of Arkansas r., 46 m. S. E. by S. Little Rock.

RICHLAND, p. v., Stewart county, *Ga.*: 114 miles S. W. Milledgeville.

RICHLAND, p. v., Sangamon co., *Ill.*: on the N. side of Prairie cr., 10 m. W. N. W. Springfield.

RICHLAND, p. v., Rush county, *Ind.*: 43 m. S. E. by S. Indianapolis.

RICHLAND, p. v., Keokuk co., *Ia.*: 40 m. S. W. by S. Iowa City. Pop. 239.

RICHLAND, p. v., Holmes county, *Miss.*: 49 m. N. by E. Jackson. Drained by a creek of Big Black river.

RICHLAND, t. and p. o., Kalamazoo county, *Mich.*: 50 m. S. W. by W. Lansing. Drained by creeks of Kalamazoo r. and Gull lake, on the N. E. corner. Surface level prairie. Pop. 795.

RICHLAND, p. v., Greene co., *Mo.*: 104 m. S. W. by S. Jefferson City.

RICHLAND, t. p. v., and cap. Oswego co., *N. Y.*: 140 m. W. N. W. Albany. Drained by Salmon r. and other small streams, flowing into Lake Erie. Surface diversified; soil moist clay loam. The county buildings are in the v. of Pulaski. The manufactures of the t. are considerable, and its trade flourishing. Pop. 4,079. The Watertown and Rome R. R. passes through it, 42 m. from Rome.

RICHLAND, sta., Logan co., Ohio: on Mad River and Lake Erie R. R., 51 m. N. W. Columbus, 92 m. from Sandusky, 66 m. from Dayton.

RICHLAND, t., Allen co., Ohio: 73 m. N. W. Columbus. Drained by creeks of Blanchard's Fork. Surface elevated and rolling; soil rich and fertile. It occupies the N. E. corner of the co. Pop. 990.

RICHLAND, t., Belmont co., Ohio: 12 m. W. Wheeling, 103 m. E. Columbus. Drained by M'Mahon's and other creeks. It is a fine farming t., and contains St. Clairsville, the county seat of justice. It is crossed by the railroad from Wheeling westward. Pop. 4,366.

RICHLAND, t., Clinton co., Ohio: 43 m. S. W. Columbus. Drained by Rattlesnake, Todd's, and other creeks. Surface undulating, and soil rich and fertile. The Cincinnati and Zanesville R. R. crosses its S. part. Salem and Claysville are villages on the Washington and Wilmington turnpike. Pop. 1,975.

RICHLAND, t., Darke co., Ohio: 84 m. W. Columbus. Drained by Stillwater creek and its tributaries. Surface undulating; soil rich and fertile. The Bellefontaine and Indiana R. R. crosses it east and west. Pop. 798.

RICHLAND, t., Defiance co., Ohio: 149 m. N. W. Columbus. Drained by Maumee r., which runs through it. Surface low and level; soil fertile. Pop. 702. The Wabash and Erie Canal, and the Sandusky and Fort Wayne R. R. pass through the town.

RICHLAND, t., Fairfield co., Ohio: 33 m. E. S. E. Columbus. Drained by Rush cr. Surface elevated and undulating, and soil very productive. The Cincinnati, Zanesville, and Wheeling R. R. crosses it in a N. E. and S. W. direction. Pop. 1,777.

RICHLAND, t., Holmes co., Ohio: 58 m. N. E. Columbus. Drained by a branch of Killbuck cr. and Wallhoning r. Surface undulating; soil rich and productive. Pop. 1,349.

RICHLAND, t., Vinton co., Ohio: 54 m. S. S. E. Columbus. Drained by a branch of Raccoon cr., and also a creek of the Scioto. The land is undulating and fertile. Pop. 1,193.

RICHLAND, t., Wyandott co., Ohio: 66 m. N. W. Columbus. Drained by creeks of Blanchard's fork of the Maumee. Surface undulating; soil rich and fertile. The Mad River and Lake Erie R. R. passes through it in a N. E. and S. W. direction. Pop. 599.

RICHLAND, p. v., Richland county, Ohio: 58 m. N. N. E. Columbus.

RICHLAND, p. v., Giles co., Tenn.: on branch of Elk r., a tributary of the Tennessee, 55 m. S. Nashville.

RICHLAND, p. o., Tazewell co., Virg.: 240 m. W. by S. Richmond.

RICHLAND creek, Ark.: rises in the interior of Madison co., flows W., and enters White r. in Washington county.

RICHLAND CITY, p. v., and cap. Richland co., Wisc.: on Pine r., 53 m. W. N. W. Madison.

RICHLAND CROSSINGS, p. o., Navarro co., Tex.: 134 m. N. N. E. Austin City.

RICHLAND GROVE, p. o., Mercer co., Ill.: 113 m. N. N. W. Springfield.

RICHLANDS, p. o., Onslow county, N. Car.: 84 m. S. E. Raleigh.

RICHLANDTOWN, p. v., Bucks co., Penn.: 75 m. E. by N. Harrisburg.

RICHLAND county, Ga. Situate E., and contains 313 sq. m. Drained by branches of Savannah river, which runs on its N. E. border, and of Brier creek, which forms its S. W. boundary. Surface hilly; soil fertile, and is in general a fine deep mold, well adapted to the growth of cotton, wheat, and corn. Of fruit-trees, apple, pear, peach, plum, etc., grow well, and produce largely. Pine and other timber is found on the land. Farms 272; manuf. 56; dwell. 1,556, and pop.—wh. 8,152, fr. col. 282, sl. 7,512—total 16,246. *Capital:* Augusta. *Public Works:* Georgia R. R.; Augusta and Waynesboro' R. R., etc.

RICHLAND county, N. Y. Situate S., and includes Staten

Island. It contains 63 sq. m., and is divided into 4 townships. Surface hilly and broken; soil in general sterile, but there is much good land. Chief products wheat and Indian corn. On the coast are some valuable fisheries. It contains some beds of iron ore, and other minerals. In the alluvial portions marine fossils have been found. Constant communication is kept up with New York by steamboats, which run many times daily. Fishing is much pursued by the inhabitants. Farms 212; manuf. 37; dwell. 2,334, and pop.—wh. 14,474, fr. col. 557—total 15,061. *Capital:* Richmond. *Public Works:* Staten Island R. R., etc.

RICHLAND county, N. Car. Situate S., and contains 643 sq. m. Drained by branches of Little Pedee river, and other small streams. Surface even; soil generally fertile, and well adapted to the growth of cotton, which is much attended to. Staples, cotton, Indian corn, and tobacco. Farms 496; manuf. 1; dwell. 949, and pop.—wh. 4,890, fr. col. 224, sl. 4,704—total 9,518. *Capital:* Rockingham.

RICHLAND county, Virg. Situate N. E., and contains 196 sq. m. Drained by tributaries of Rappahannock river. Surface level; soil fertile. Chief products, wheat and Indian corn. Farms 336; manuf. 4; dwell. 805, and pop.—wh. 3,462, fr. col. 709, sl. 2,277—total 6,448. *Capital:* Warsaw.

RICHLAND, p. o., Dallas county, Ala.: 55 miles W. Montgomery.

RICHLAND, p. v., Wayne co., Ind.: on E. bank of East Fork of Whitewater r., 69 m. E. Indianapolis, 4 m. from Ohio State line. This very flourishing v. contains a large number of mills and factories, a branch of the State bank of Indiana, and does a large business with the fertile agricultural district surrounding it. Two newspapers are published weekly, "Palladium" (whig), and "Jeffersonian" (dem.). The Indiana Central R.R., and the Richmond and Newcastle R. R. here connect with several railroads from Ohio. Pop. about 3,000.

RICHLAND, p. o., Washington county, Ia.: 28 m. S. S. W. Iowa City.

RICHLAND, p. v., and cap. Madison co., Ky.: on a small branch of Kentucky r., 45 m. S. E. Frankfort. Contains a court-house and jail, and about 1,000 inhabitants. The "Whig Chronicle" is published weekly.

RICHLAND, p. v., and cap. Madison parish, La.: 129 m. N. Baton Rouge, on W. side of Roundway bayou, at its junction with Brushy bayou. It contains the court-house and a few dwellings. The "Madison Journal" (neut.) is published weekly.

RICHLAND, p. o., McHenry county, Ill.: 201 m. N. N. E. Springfield, 1 m. from Wisconsin State line.

RICHLAND, t. and p. v., Lincoln co., Me.: 16 m. S. by W. Augusta. Drained by a mill-stream which falls into Kennebec r. at Merrymeeting bay. It has some navigation, and vessels are built here. The v. is situate in the S. W. part of the town, and on the E. line the Portland and Kennebec R. R. passes along the river. Pop. of t. 2,056.

RICHLAND, t. and p. o., Berkshire co., Mass.: 117 m. W. Boston. Drained by branch of Housatonic r. It lies in a fertile valley between two hills, and is well cultivated. The Western R. R. passes through the town. Pop. 1,649.

RICHLAND, t. and p. o., Macomb county, Mich.: 89 m. E. Lansing. Surface of t. rolling, and heavily timbered; soil fertile. Drained by Belle r., by E. Fork of Clinton br. of Red r., and by head branches of South r., the two latter flowing into Lake St. Clair. Pop. about 1,000.

RICHLAND, p. v., Itawamba co., Miss.: on a creek of Tombigbee river, 158 m. N. W. by N. Jackson.

RICHLAND, p. v., and cap. Ray co., Mo.: on the S. side of Elkhorn cr., 111 m. W. N. W. Jefferson City. It contains a court-house, jail, and about 500 inhabitants.

RICHLAND, t. and p. o., Cheshire co., N. Hamp.: 49 m. S. W. Concord. Drained by branches of Ashuelot river. Surface generally level; soil of average fertility. Pop. 7,123.

RICHLAND, p. v., and cap. Richmond county, N. Y.: near the centre of Staten Island, 13 m. S. W. New York city

This is a pleasant village and contains the court-house, jail, 2 churches, and several stores, and about 40 dwellings.

RICHMOND, p. v., Jefferson co., *Ohio*: 2 m. W. Ohio r., 117 m. E. N. E. Columbus. The "R. Clipper" (f. soil) is published weekly. Pop. about 600.

RICHMOND, p. v., Northampton co., *Penn.*: on a small stream, 2 m. W. of the Delaware, about 3 m. above Belvidere, 97 m. E. N. E. Harrisburg.

RICHMOND, p. v., Bedford county, *Tenn.*: 49 m. S. by E. Nashville.

RICHMOND, p. v., and cap. Fort Bend county, *Tex.*: on S. bank of Brazos r., 130 m. E. S. E. Austin City.

RICHMOND, t. and p. o., Chittenden co., *Verm.*: 20 m. W. N. W. Montpelier. Drained by Onion r., which makes its N. border, and Huntingdon r., which passes through it, both affording water-power. Surface generally uneven, with fertile flats on the streams. At the centre is a church having 16 sides, with a neat steeple rising from the middle, and occupied by several denominations. The v. is on the S. side of Onion r., and on the N. side the Vermont Central R. R. traverses the valley. Pop. of t. 1,453.

RICHMOND, p. city, port of entry, and cap. Henrico county, *Virg.*: and capital of the State of Virginia; is situated on the N. E. bank of James r., at the lower falls at the head of tide water. Lat. (Capitol) 37° 32' 17" N.; long. from Greenwich 77° 27' 25" W., and from Washington 00° 25' 58" W. Distance by the most direct R. R. from Washington, 130 m.; from Baltimore, 168 m.; from Philadelphia, 266 m.; from New York, 344 m.; from Boston, 580 m.; from Raleigh, 174 m.; from Wilmington, 248 m.

The situation of Richmond is highly picturesque. The city is divided into two unequal parts by a valley, through which passes the Shockoe creek to enter James r. It is chiefly built upon the hills and more elevated grounds on either side of this depression, which have a beautiful variety of surface, and afford in many parts highly picturesque situations for dwellings and for public edifices. Splendid views of the city and surrounding country are presented from different points, each varying the scene. The soil is red clay. The river flows over a bed of granite, of which there are inexhaustible quarries on its banks, extensively used for building and other purposes. The city is regularly laid out with streets crossing at right angles. Its entire area embraces about 3½ sq. m., of which the built portion is about 3 m. long, and ¼ m. wide. The dwelling houses are generally neat and convenient, of brick and wood. Many private residences are very elegant and costly. The capitol occupies a very commanding situation on an elevated plain called Shockoe hill, in the W. division of the city. It stands in Capitol Square, a beautiful public ground containing about 8 acres, ornamented with trees, grass plats, walks, etc. It is a spacious and elegant building, surrounded on 3 sides by a lofty and imposing portico, in the Ionic order. It contains a statue of Washington, the only one ever taken from life, executed by Houdon, a celebrated French artist, and erected in 1783; a bust of Lafayette, etc. The City Hall, on Broad Street, fronting Capitol Square, is an elegant edifice of Grecian architecture, with a portico at each end of 4 Doric columns. The Governor's House is at the E. end of the square. The County Court-house is about 1 m. from the capitol. The State Penitentiary, in the W. suburbs, is 300 feet long, and 110 broad, in the form of a hollow square, surrounded by extensive grounds. The Alms-house, a spacious building, is in the N. suburbs. The Armory is a large edifice 320 feet long by 230 feet wide. The Female Orphan Asylum is supported partly by the corporation, and partly by private munificence. There are about 25 churches, many of which are very handsome edifices. The Monumental Episcopal church stands upon the site of the Richmond Theatre, which was destroyed by fire, Dec. 26th, 1811, and whereby 66 white and 6 colored persons lost their lives. The congregation of the African church is one of the largest in the Union.

The Medical Department of Hampden Sidney College, founded 1833, in 1850 had 7 professors, 90 students, and 40 graduates. The Virginia Historical and Philosophical Society was founded in 1831. St. Vincent's and Richmond colleges, near the city, are flourishing academies. In 1850 there were 15 newspapers and periodicals, viz., dailies, "R. Enquirer," "R. Whig," "Dispatch," "Times and Compiler," "Herald," "Future Age," and "Republican;" weeklies, "Religious Herald," "Watchman and Observer;" monthlies, "Missionary Journal," "The Commission," "Baptist Preacher," "Southern Planter," "Literary Messenger;" quarterly, "Historical Register."

The city government is vested in the mayor, recorder, aldermen, and city council. The city is lighted with gas, and generally well paved; the markets are well supplied. The public water-works were commenced in 1830, and cost about \$120,000. By two forcing pumps, worked by water-power, 800,000 gallons of water in 24 hours are lifted from James r. into 3 reservoirs, containing each 1,000,000 gallons, thence distributed over the city in pipes.

The principal manufactures are of tobacco, flour, iron, cotton and woollens. Water-power of unlimited extent is furnished by James r., which within a few miles above the city descends 80 feet. Of tobacco there are 35 to 40 factories, and 10 or 12 stemmeries, together employing about 2,500 blacks, and manufacturing 12 to 15,000 hhds. annually. Besides smaller mills, here are two of the most extensive flouring-mills in the world, "Gallego" and "Haxall," each running 20 or more pairs of stones, and capable of producing 800 to 900 bbls. of flour daily. There are 3 iron rolling-mills, foundries of cannon, etc., and an extensive nail factory on Belle Isle, producing 75,000 lbs. of nails weekly. Four cotton mills work up nearly 3,000,000 lbs. of cotton per annum, and a woollen-mill 600,000 lbs. of wool annually. Besides these, are large machine-shops, a paper-mill, etc.

There are three banks, with aggregate capital of \$2,114,000, 3 insurance companies, and 3 savings banks.

Four lines of railroad here connect, viz., Richmond, Frederick, and Potomac R. R., commencing at Aquia creek on the Potomac, 75 m. long; Richmond and Petersburg R. R., 22 m. long; the Central R. R. to Covington, and Danville R. R. completed to Keeseville, 73 m. The James River Canal, completed in 1835 to Lynchburg, 146 m., and in 1852 to Balcony Falls, is the principal channel of trade with the interior.

The following statement exhibits the amount of tonnage, and its estimated value, imported into Richmond on the James River and Kanawha Canal, during each of the 5 years 1848-52, with its freight and tolls:

Year ending Oct. 31.	No. of Tons.	Estimated value.	Freights and tolls.
1848...	125,054...	\$4,230,532 18...	\$192,750 38
1849...	140,696...	5,435,046 66...	247,861 03
1850...	137,589...	6,123,865 49...	213,741 47
1851...	140,924...	5,133,553 62...	184,839 83
1852...	153,377...	7,145,837 43...	220,947 84

Total (1848-52) 697,640 \$28,069,135 38 \$1,060,140 65

The following table exhibits the amount of tonnage, with its value and freightage, imported into Richmond, on the Richmond and Petersburg R. R., during each of the 5 years 1848-52.

Year ending Sept. 30.	Tonnage.	Estimated value.	Freight.
1848...	20,301...	\$632,537 99...	\$18,361 62
1849...	19,539...	695,742 40...	18,159 71
1850...	22,861...	1,377,665 45...	21,560 83
1851...	19,533...	886,412 40...	18,314 12
1852...	27,932...	1,262,248 85...	24,752 89

Total (1848-52) 110,166 \$4,554,627 09 \$101,149 18

The following table exhibits the amount of tonnage, with its estimated value, and the freights and tolls on the same,

imported into Richmond during 1852, by the various works of internal improvement leading into the city:

Names of Companies.	No. of Tons.	Estimated value.	Freights and tolls.
James River, and Kanawha co.	153,377	\$7,145,837 43.	\$220,947 84
R., Fredericksburg, and Potomac R.R.	4,507	255,000 00.	19,252 08
Richmond and Petersburg R. R.	27,932	1,262,248 55.	24,752 89
Richmond and Danville R. R.	53,421	967,336 00.	37,919 45
Virginia Central R. R.	17,450	1,000,000 00.	55,989 20
Total	256,957	\$10,660,422 28	\$358,561 41

The foreign export trade is chiefly in tobacco to all parts of Europe, flour and grain occasionally, and in flour to Brazil. The import trade direct from Europe, or other countries, is now inconsiderable, having gradually diminished with the increased facilities of New York, by her regular packets and steamers to Europe. The channel of the r. is winding, which, with the distance from the ocean, is a considerable impediment to navigation. Vessels drawing more than 10 or 11 feet water are prevented from coming up to the city by the bar, 7 m. below it, and such load at City Point, Bermuda Hundred, or Port Walthall. On June 30, 1850, the total tonnage of R. district was 8,455 tons. The registered tonnage was 3,161 tons, of which 1,588 tons were permanent, and 1,573 tons temporary. The enrolled and licensed tonnage was 5,297 tons, consisting of 4,276 tons permanent, and 1,021 tons temporary, all of which were employed in the coasting trade. During the year previous, the number of clearances for foreign countries was 69—24,321 tons; no. of entrances do., 8—1,811 tons. Vessels built during the year, 8 (1 ship, 7 schooners)—1,479 tons.

The inspections of tobacco for several years are as follows:

Years.	Hhds.	Years.	Hhds.	Years.	Hhds.
1841...18,267	1844...19,147	1847...19,993	1850...17,986		
1842...23,129	1845...21,902	1848...15,738	1851...15,678		
1843...22,829	1846...19,672	1849...18,808	1852...24,119		

In addition to which, from 10 to 16,000 hogsheds are here received from other inspections in the interior.

The following exhibits the inspections of flour of late years:

Years.	Bbls.	Years.	Bbls.	Years.	Bbls.
1846.....	289,000	1848.....	180,000	1850.....	336,420
1847.....	159,100	1849.....	276,900	1851.....	—

To which should be added 20 to 25 per cent. of inspections at Scottsville and Lynchburg, and brought to the Richmond market. The quantity of flour exported to Brazil for the year ending September 30, 1848, was 74,425 barrels; 1849, 128,880 bbls.; 1850, 65,280 bbls.; 1851, 98,245 bbls.; 1852, 58,950 bbls. A considerable quantity of flour, destined for South America, is sent coastwise for re-shipment from New York, Baltimore, etc. The amount of other foreign shipments of flour in 1851, was 15,646 bbls., and increased in 1852 to 18,122 barrels.

The coal trade is considerable, and steadily increasing. The best bituminous coal is mined from 8 to 20 m. above the city, and iron ore abounds in the country beyond. Regular lines of steam packets run to Norfolk, Baltimore, and New York.

The population has increased within the last 10 or 15 years more rapidly than at any previous period. Of the present population, about two-fifths are blacks. Pop. in 1800, 5,537; in 1810, 9,785; in 1820, 12,067; in 1830, 16,060; in 1840, 20,153; in 1850, 27,483. The exceedingly healthy location of the city gives it a very low annual rate of mortality. The cemeteries are noted for their beauty and their monuments.

The site of Richmond was first visited by white men in 1609; the town was founded in 1742, and made the capital

of the State in 1780. In 1787 it contained about 300 houses. In 1794 the canal around the falls was completed, which has added so much to its commercial advantages. In 1811, December 26th, occurred the sad fire by which 72 persons lost their lives in the destruction of the Richmond Theatre, among whom was the then governor of the State.

Directly opposite to Richmond are its suburbs of Manchester and Spring Hill, which are connected with the city by three bridges.

RIDGE, p. o., Coshocton county, *Ohio*: 60 m. E. N. E. Columbus.

RIDGE, p. o., Livingston co., *N. Y.*: 218 m. W. Albany.

RIDGE, p. o., Edgefield district, *S. Car.*: 36 m. W. S. W. Columbia.

RIDGEBURY, p. v., Fairfield co., *Conn.*: 52 m. S. W. by W. Hartford. It contains a church, several mechanic shops, and about 200 inhabitants.

RIDGEBURY, p. v., Orange county, *N. Y.*: 96 m. S. S. W. Albany. It contains an academy, several stores, and 200 inhabitants.

RIDGEBURY, t. and p. o., Bradford co., *Penn.*: 111 m. N. Harrisburg. Drained by Bentley and South creeks, which flow into Tioga river. Surface hilly; soil gravelly loam. Pop. 1,400.

RIDGE FARM, p. o., Vermillion county, *Ill.*: 110 m. E. Springfield.

RIDGEFIELD, t., Huron co., *Ohio*: 86 m. N. by E. Columbus. Drained by branches of Huron r. Surface elevated

and rolling; soil of average fertility. Monroeville, in this t., is intersected E. and W. by the Cleveland, Norwalk, and Toledo R. R., and N. and S. by the Mansfield and Sandusky R. R. Pop. 1,944.

RIDGEFIELD, t. and p. o., Fairfield county, *Conn.*: 54 m. S. W. by W. Hartford. Drained by Saugatuck and Norwalk rivers, which afford water-power, and an E. branch of Croton r. Surface elevated; soil a fertile gravelly loam. The v., in the S., is situate on one long street, and contains several churches, an academy, several factories, workshops, stores, etc., and about 80 dwellings. The view from this t. is extensive and beautiful—Long Island Sound, 14 m. distant, being seen to advantage. Pop. of t. 2,237.

RIDGE GROVE, p. o., Macon county, *Ala.*: 40 miles E. Montgomery.

RIDGE HALL, p. o., Baltimore county, *Md.*: 33 m. N. Annapolis.

RIDGELAND, p. o., Henry county, *Ohio*: 107 m. N. W. Columbus.

RIDGELEY, p. o., Madison county, *Ill.*: 61 m. S. by W. Springfield.

RIDGELEY, p. o., Platte co., *Mo.*: on E. side of Platte r., 150 m. W. N. W. Jefferson City.

RIDGELEY, Macon co., *Ala.*: 40 m. E. Montgomery.

RIENZL, p. v., Tishomingo co., *Miss.*: 194 m. N. E. by N. Jackson.

RIFLE river, *Mich.*: rises in S. part of Oscoda co., flows S. through Ogemaw co., and S. E. through Arenac co., into Saginaw bay.

RIFLE POINT, p. o., Concordia par., *La.*: 72 m. N. N. W. Baton Rouge.

RIGA, t., Monroe co., *N. Y.*: 212 m. W. by N. Albany. Drained by Black creek. Surface undulating; soil fertile. The Buffalo and Rochester R. R. passes through it, on which is Churchville. Pop. of t. 2,159.

RIGA, t. and p. o., Lenawee co., *Mich.*: 73 m. S. E. by S. Lansing. Bounded on the S. by Ohio State line. The Erie and Kalamazoo R. R. passes through the t., having a station at Knight's, 12 m. from Adrian, 20 m. from Toledo. Population of t. 203.

RIGA, p. o., Lucas county, *Ohio*: on E. side of Ottawa r., 123 m. N. N. W. Columbus.

RIGG'S CROSS ROADS, p. o., Williamson co., *Tenn.*: 24 m. S. Nashville.

RILEY, p. o., Vigo co., *Ind.*: 64 m. W. S. W. Indianapolis.

RILEY, p. o., McHenry county, *Ill.*: 139 m. N. N. E. Springfield.

RILEYVILLE, p. v., Wayne county, *Penn.*: 122 m. N. E. Harrisburg.

RIMESBURG, p. o., Clarion co., *Penn.*: 146 m. W. N. W. Harrisburg.

RINDGE, t. and p. v., Cheshire county, *N. Hamp.*: 44 m. S. W. by S. Concord. Drained by the outlets of a number of ponds which flow into Miller's r. of the Connecticut, and into the Merrimac r., affording extensive water-power. The principal ponds are called Manomonack, Emerson, Pesley, Long, Grassy, and Bullet. These ponds abound in excellent fish, and they were formerly much frequented by the Indians for procuring fur, etc. The soil is fertile, the land for the most part inclining to the S. Iron ore is found here, as also a species of paint resembling Spanish brown, and nearly equal to it in quality. Rindge, formerly called ROWLEY CANADA, or MONADNOCK No. 1, was incorporated in 1763, when it received its present name. It has some light manufactures. The v. is located in S. part of the town. Pop. of t. 1,274.

RINGGOLD county, *Ia.* Situate S. toward the W., and contains 520 sq. m. Drained by head branches of One Hundred and Two r., and branch of Elkhorn r. Surface generally level; soil fertile. Set off since 1850.

RINGGOLD, p. o., Cook county, *Ill.*: 170 m. N. N. E. Springfield.

RINGGOLD, p. o., Jefferson co., *Penn.*: 128 m. W. N. W. Harrisburg.

RINGGOLD, p. o., Morgan county, *Ohio*: 63 m. E. by S. Columbus.

RINGGOLD, p. v. and sta., Walker co., *Ga.*: on Western and Atlantic R. R., 116 m. from Atlanta, and 24 m. from Chattanooga, and 179 m. N. W. Milledgeville.

RINGGOLD, p. o., Cherokee co., *Ala.*: 133 m. N. N. E. Montgomery.

RINGGOLD, p. o., Washington co., *Md.*: 75 m. N. W. by W. Annapolis.

RINGGOLD, p. o., Bienville parish, *La.*: 174 m. N. W. Baton Rouge.

RINGGOLD, p. o., Platte county, *Mo.*: 157 m. W. N. W. Jefferson City.

RINGGOLD, p. o., Montgomery county, *Tenn.*: 43 m. N. W. Nashville.

RINGGOLD, p. o., Pittsylvania co., *Virg.*: 120 m. W. S. W. Richmond.

RINGGOLD, p. o., La Grange county, *Ind.*: 126 m. N. by E. Indianapolis.

RINGOES, p. v., Hunterdon co., *N. Jer.*: at foot of Rock Mountain, 15 m. N. N. W. Trenton. It is a small manufacturing village, containing an academy, several stores, etc., and about 250 inhabitants.

RINGWOOD, p. o., McHenry co., *Ill.*: 189 m. N. by E. Springfield.

RINGWOOD, p. o., Halifax county, *N. Car.*: 66 m. N. E. Raleigh.

RINOSA, p. o., Iroquois co., *Ill.*: 136 m. N. E. Springfield.
RTO, p. v., Coweta county, *Ga.*: 104 m. W. by N. Milledgeville.

RIO ARIBA county, *N. Mex.* Situate generally between lat. 35° 30' and 37° N., and extending from the California State line to Taos and Santa Fé counties on the Rio Grande, and contains an area of 56,000 sq. m. The only part inhabited by civilized man is that bordering on the Rio Grande, where are several pueblos. The western part is overrun by the Navajos, Pah-Utah, and other Indian tribes, and drained by the Colorado and its tributaries. Farms 164; manuf. —; dwell. 1,684, and pop.—wh. 7,749, fr. col. 2—total 7,751. *Capital*: Cuchillo.

RIO GRANDE, p. o., Gallia county, *Ohio*: 90 m. S. S. E. Columbus.

RIO GRANDE RIVER. See NEW MEXICO.

RIO GRANDE CITY, p. v., and cap. Starr county, *Tex.*: on E. bank of Rio Grande, opposite the confluence of Rio San Juan, 94 m. W. N. W. Matamoras, and 276 m. S. W. by S. Austin City. Ringgold Barracks, located here, is a United States military post. The city is surrounded by a good agricultural country, and is a flourishing place. Steamboats ply here regularly from Matamoras and other places on the river.

RIPLEY county, *Ind.* Situate S. E., and contains 439 sq. m. Drained by Graham's and Laughery's creeks, tributaries of the Ohio r. Surface in general level, but on the streams part of the land is hilly; soil fertile. Chief productions, wheat, Indian corn, and sugar. It contains some factories, which have taken advantage of the extensive water-power supplied by the streams. The under stratum in the uplands consists chiefly of blue limestone. Farms 14,495; manuf. 49; dwell. 2,667, and pop.—wh. 14,724, fr. col. 96—total 14,820. *Capital*: Versailles. *Public Works*: Ohio and Mississippi R. R.; Lawrenceburg and Upper Mississippi R. R.

RIPLEY county, *Mo.* Situate S. toward the E., and contains 1,089 sq. m. Drained by Current r. and its branches, and by branches of Big Blackwater r. Surface hilly; soil varied. Along the streams the land is fertile and productive in corn and tobacco; in the uplands it is well adapted to grazing. Timber is found in abundance. Farms 258; manuf. 7; dwell. 445, and pop.—wh. 2,731, fr. col. 13, sl. 86—total 2,830. *Capital*: Doniphan.

RIPLEY, t. and p. v., Somerset co., *Me.*: 49 m. N. N. E. Augusta. Drained by Maine stream, emptying into Moose pond, which passes through it. It is an excellent farming town, raising wheat and other grains in abundance. Pop. of t. 641.

RIPLEY, p. v., and cap. Tippah co., *Miss.*: 178 m. N. N. E. Jackson. It contains the court-house, jail, etc. The "R. Adventurer" (dem.) is published weekly.

RIPLEY p. v., Brown co., *Ill.*: about 2 m. S. of Crooked creek, a branch of Illinois r., 53 m. W. by N. Springfield.

RIPLEY, t. and p. o., Chautauque county, *N. Y.*: 312 m. W. by S. Albany. Drained by Twenty Mile creek, flowing into Lake Erie. Surface hilly; soil clay loam, mixed with sand, and fertile. Its principal settlement is Quincey village, through which the Buffalo and State Line R. R. passes, 65 m. from Buffalo. Pop. 1,732.

RIPLEY, p. v., Brown co., *Ohio*: on Ohio r., at junction of Red Oak creek, about 56 m. above Cincinnati, 90 m. S. by W. Columbus. This is a very flourishing v., has a number of mills and factories, and 4 churches. The "Ripley Bee" (whig) is issued weekly. Pop. 1,780.

RIPLEY, p. v., and cap. Lauderdale co., *Tenn.*: S. of Cane cr., a branch of Big Hatchie r., 156 m. W. by S. Nashville. It contains the county buildings, an academy, and about 400 inhabitants.

RIPLEY, v., and cap. Jackson co., *Virg.*: on a creek of Ohio r., about 30 m. E. Mount Pleasant, and 240 m. W. N. W. Richmond. Pop. 223.

RIPLEY'S, p. o., Tyler co., *Virg.*: on Middle Island cr., 219 m. N. W. by W. Richmond.

RIPLEYVILLE, p. o., Huron county, *Ohio*: 75 m. N. by E. Columbus.

RIPTON, t. and p. v., Addison co., *Verm.*: 27 m. S. W. Montpelier. Drained by Middleburg river, which affords water-power, and along which is some good land. Surface mountainous, and much broken. The village is situated on the Royalton and Vergennes turnpike. Pop. of t. 567.

RISDON, p. v., St. Clair co., *Ill.*: 119 m. S. Springfield, 2 m. E. Kaskaskia river, on a small creek of same, affording good water-power.

RISDON, p. o., Seneca county, *Ohio*: 84 miles N. N. W. Columbus.

RISING FAWN, p. v., Dade co., *Ga.*: near Georgia State line, 191 m. N. W. Milledgeville.

RISING SUN, p. v., and cap. Ohio co., *Ind.*: on Ohio r., 9 m. below Aurora, and 87 m. S. E. Indianapolis. It is pleasantly located on an elevated bank, surrounded by a fertile country, and is a flourishing business place. There are cotton and woolen factories doing an extensive business. Since its establishment as the county seat it has improved rapidly. It now contains the county buildings, 6 churches, an academy, printing offices, a tannery, etc., and a few factories. Two newspapers are published weekly, "True Whig," and "Rising Sun Mirror" (lit.)

RISING SUN, p. o., Cecil co., *Md.*: a few m. E. Ocatara r., 53 m. N. N. E. Annapolis.

RISING SUN, p. v., Philadelphia co., *Penn.*: on the Germantown road, 3 m. from Philadelphia, and 93 m. E. by S. Harrisburg.

RISLEY county, *Io.* Situate N. centrally, and contains 576 sq. m. Drained by Boone river, a tributary of Des Moines r., and by Skunk r. and branches. Surface undulating; soil fertile. Set off since 1850.

RITCHIE county, *Virg.* Erected in 1843 out of Lewis, Harrison, and Wood. Situate N. W., and contains 263 sq. m. Drained by the two forks of Hugh's river, a tributary of the Little Kanawha. Surface hilly and broken; soil moderately fertile. Farms 855; manuf. 3; dwell. 649, and pop.—wh. 3,856, fr. col. 0, sl. 16—total 3,902. *Capital*: Ritchie C. H. *Public Works*: North Western R. R.

RITCHIE, p. v., and cap. Ritchie county, *Virg.*: 225 miles N. W. by W. Richmond. It contains a court-house, jail, etc.

RITCHIEVILLE, p. v., Dinwiddie county, *Virg.*: 37 m. S. Richmond.

RITTSVILLE, p. o., Lehigh co., *Penn.*: on N. side of Lehigh r., 79 m. E. N. E. Harrisburg.

RIVER, p. o., Clarion county, *Penn.*: 151 m. W. N. W. Harrisburg.

RIVERHEAD, t. v., and sta., Suffolk co., *N. Y.*: bordering on Long Island Sound, 67 miles by railroad E. from New York, and 133 S. W. (direct) from Albany. Bounded on the S. by Great and Little Peconic bays and Peconic river, by the latter of which it is drained. Surface in general level, but about a mile from the Sound, and extending E. and W., is a range of low hills; soil sandy loam. The v. is located at the head of navigation on Peconic bay, and contains the county hall and surrogate's office. It was first settled in 1690, and the first grist-mill erected in 1695; but it was for more than 100 years ere it contained over half a dozen dwellings. The courts have sat here for more than a century. It now contains numerous substantial and neat dwellings, stores, grist and saw mills, a female academy, etc. This place is a considerable depôt for wood from the adjacent country. Lighters are employed carrying it to Jamesport, 5 m. below, from which point it is transferred to larger vessels, and carried to different ports. Suffolk C. H. and p. o. is located in this v. The station is on the Long Island R. 21 m. W. Greenport, and 74 E. from New

York. The "Suffolk Gazette" is a weekly (whig) issue. Pop. of t. 2,540.

RIVER HILL, p. o., White co., Tenn.: 79 m. E. by S. Nashville.

RIVER ROAD FORKS, p. o., Livingston co., N. Y.: 216 m. W. Albany.

RIVER SIDE, p. o., Ulster county, N. Y.: 54 m. S. by W. Albany.

RIVER SIDE, p. o., Cumberland co., N. Car.: 48 m. S. Raleigh.

RIVER STYX, p. o., Medina co., Ohio: on E. side of branch of Chippewa river, 95 m. N. E. by N. Columbus.

RIVERTOWN, p. v., Campbell county, Ga.: on E. side of Chattahoochee r., 96 m. W. N. W. Milledgeville.

RIVES, p. v., Richland county, Ohio: 60 miles N. N. E. Columbus.

RIVESVILLE, p. v., Marion county, Virg.: 205 m. N. W. Richmond.

RIX, p. o., Ionia co., Mich.: 83 m. N. W. Lansing.

RIXEYVILLE, p. v., Culpepper co., Virg.: on branch of Rappahannock river, 73 m. N. N. W. Richmond.

RIX'S MILLS, p. o., Muskingum county, Ohio: 49 m. E. Columbus.

ROAD HALL, p. o., Lycoming county, Penn.: 74 m. N. Harrisburg.

ROADSTOWN, p. v., Cumberland county, N. Jer.: 60 miles S. S. W. Trenton.

ROADVILLE, p. v., Charleston dist., S. Car.: 95 m. S. E. Columbia.

ROANE county, Tenn. Situate toward the E., and contains 468 sq. m. Tennessee r. passes centrally through it, by which and by Clinch r. and their branches it is drained. Surface level; soil a fine, deep loam, and very fertile, and produces wheat, Indian corn, cotton, etc. Farms 842; manuf. 21; dwell. 1,812, and pop.—wh. 10,526, fr. col. 115, sl. 1,544—total 12,185. *Capital*: Kingston. *Public Works*: Georgia and East Tennessee R. R.

ROAN MOUNTAIN, p. o., Carter county, Tenn.: 268 m. E. Nashville.

ROANOKE county, Virg. Situate toward S. W., and contains 322 sq. m. Drained by head branches of Staunton river. Surface uneven and mountainous; soil fertile, and adapted to grazing. Chief products wheat, Indian corn, and tobacco. Farms 405; manuf. 5; dwell. 925, and pop.—wh. 5,813, fr. col. 154, sl. 2,510—total 8,477. *Capital*: Salem. *Public Works*: Virginia and Tennessee R. R.

ROANOKE, p. v., Randolph county, Ala.: 73 m. N. E. Montgomery, 7 m. W. Georgia State line.

ROANOKE, p. v., Genesee co., N. Y.: on Allen's cr., 225 m. W. by N. Albany. It contains a furnace and several mills.

ROANOKE, p. o., Huntingdon co., Ind.: on W. bank of Little r., on the Wabash and Erie Canal, 59 miles N. N. E. Indianapolis.

ROANOKE, p. o., Randolph co., Mo.: 60 m. N. N. W. Jefferson City.

ROANOKE river, Virg. and N. Car.: is formed by the junction of Staunton and Dan rivers, near the S. boundary of Virginia, and flows into the head of Albemarle Sound. It is navigable to the great falls at Halifax, 75 m., for vessels of 45 tons. A canal round the falls opens the navigation for bateaux, to the junction of Staunton and Dan rivers, both of which are navigable some distance for boats of 5 tons.

ROANOKE BRIDGE, p. o., Charlotte co., Virg.: 68 m. S. W. by W. Richmond.

ROAN'S CREEK, p. o., Carroll co., Tenn.: 96 m. W. by S. Nashville.

ROARING CREEK, p. o., Montour co., Penn.: 46 m. N. E. Harrisburg.

ROARING SPRING, p. o., Trigg co., Ky.: 192 m. S. W. by W. Frankfort.

ROBINSON, t. and p. v., Washington co., Me.: 137 m. E. N. E. Augusta. It is located on the Schoodic or St. Croix r., opposite St. Andrew's, in New Brunswick. There are

several ponds in the t., by the outlets of which it is drained. This place has great navigable privileges, and it is the site of considerable ship-building. The manufacture of lumber is carried on to a great extent, and forms the chief commodity of trade. The manufacture of woolen goods and flour is also carried on. The v. is on the bank of St. Croix r., and near its mouth. Pop. of t. 1,028.

ROBERSON'S CROSS ROADS, p. o., Bledsoe co., Tenn.: 96 m. E. S. E. Nashville.

ROBERT'S CORNERS, p. o., Jefferson co., N. Y.: 145 m. N. W. Albany.

ROBERTSON county, Tenn. Situate N. toward the W., and contains 484 sq. m. Drained by affluents of Sycamore creek and Red river. Surface undulating; soil fertile, and very productive. Tobacco is the staple. Cotton is grown, and good crops of wheat and corn are raised. Farms 1,063; manuf. 63; dwell. 1,995, and pop.—wh. 11,504, fr. col. 25, sl. 4,616—total 16,145. *Capital*: Springfield.

ROBERTSON county, Tex. Situate E. centrally, and contains 946 sq. m. Drained by Little Brazos river and branches, and tributaries of Navasota river, which forms its eastern boundary. Surface undulating; soil in general fertile, and on the streams very rich and highly productive. It yields excellent crops of cotton, corn, and potatoes. It has much prairie land covered with weeds, the soil of which, when the weeds are burnt off, is, on account of its lightness, very valuable, it being so easy of cultivation and very fertile. It has extensive beds of coal and iron ore. Farms 15; manuf. 0; dwell. 182, and pop.—wh. 670, fr. col. 0, sl. 264—total 934. *Capital*: Franklin.

ROBERTSON'S STORE, p. o., Pittsylvania co., Virg.: 118 m. W. S. W. Richmond.

ROBERTSONVILLE, p. o., Sullivan co., N. Y.: 85 m. W. by S. Albany.

ROBERTSVILLE, p. v., Beaufort dist., S. Car.: on a branch of Savannah r., 96 m. S. by W. Columbia.

ROBERTSVILLE, p. v., Anderson co., Tenn.: 156 m. E. Nashville.

ROBESON county, N. Car. Situate S. toward the W., and contains 590 sq. m. Drained by Lumber river, and head branches of Little Pedee river. Surface moderately level; soil fertile, and favors the growth of cotton. Much of the land is well adapted to grain and grazing. Chief productions cotton and Indian corn. Farms 1,112; manuf. 10; dwell. 1,513, and pop.—wh. 7,290, fr. col. 1,171, sl. 4,365—total 12,826. *Capital*: Lumberton.

ROBESON, p. o., Brunswick co., N. Car.: 109 m. S. by E. Raleigh.

ROBESON, t. and p. o., Berks county, Penn.: 51 m. E. Harrisburg. The Schuylkill river bounds it on the N. E. Drained by Alleghany and Hay creeks of the Schuylkill. Surface uneven, in parts hilly; soil gravelly and sterile. Iron deposits are in the vicinity, and a forge which, in 1850, produced 600 tons blooms. The t. contains several flouring, grist, and saw mills, stores, etc.

ROBINA, p. v., Panola co., Miss.: 132 m. N. Jackson. Drained by a creek of Toeanapatafa river.

ROBIN'S FERRY, v. and sta., Merrimac co., N. Hamp.: on the right bank of the Merrimac r., and on the Concord and Nashua Railroad, 30 m. N. Nashua, and 5 m. S. Concord.

ROBIN'S NEST, p. o., Peoria co., Ill.: on small branch of Kickapoo cr., 69 m. N. Springfield. Jubilee College, located here, is an Episcopal seminary.

ROBINSON CREEK, p. o., Pike co., Ky.: 149 m. E. S. E. Frankfort.

ROBINSON C. H., p. v. and cap. Crawford co., Ill.: 121 m. E. S. E. Springfield. It is located 8 miles W. of the Wabash, and contains the county buildings, etc.

ROBINSONS, p. o., Darke co., Ohio: on N. side of Greenville cr., 79 m. W. by N. Columbus.

ROBINSON'S CROSS ROADS, p. o., Benton co., Ark.: 144 m. N. W. Little Rock.

ROBINSON'S MILLS, p. o., Menard co., *Ill.*: 27 m. N. W. Springfield.

ROBINSON'S SPRING, p. o., Autauga co., *Ala.*

ROBINSON'S STORE, p. o., Lincoln co., *Tenn.*: 66 m. S. by E. Nashville.

ROBIO'S, sta., Chesterfield co., *Virg.*: on the Richmond and Danville R. R., 10 m. S. W. Richmond.

ROBINSONVILLE, p. o., Bedford co., *Penn.*: 79 m. W. by S. Harrisburg.

ROB ROY, p. v., Fountain co., *Ind.*: on Big Shawnee cr., 63 m. N. W. by W. Indianapolis. Pleasantly situated, and has valuable water-power.

ROB ROY, p. o., Jefferson co., *Ark.*: on N. bank of Arkansas r., at mouth of Plum bayou, 36 m. S. E. by S. Little Rock.

ROBY'S CORNER, v. and sta., Merrimac co., *N. Hamp.*: on the Concord and Claremont R. R., 4 m. E. Bradford and 22 m. W. Concord.

ROCHEPORT, p. v., Boone co., *Mo.*: on N. bank of Mis-souri r., 36 m. N. W. by N. Jefferson City.

ROCHE PORT river, *Mo.*: rises in S. E. part of Randolph co., and flows S. through Boone co. into Missouri river.

ROCHESTER, p. v., Sangamon co., *Ill.*: on W. bank of Sangamon r., on line of the Great Western Central R. R., near the junction of the N. and S. forks, 8 m. E. N. E. Springfield.

ROCHESTER, p. v., and cap. Fulton co., *Ind.*: on S. bank of Mill cr., a tributary of Tippecanoe r., 89 m. N. Indian-apolis. Contains the co. buildings, which are neat structures. Mill cr. affords valuable water-power. Pop. 1,401.

ROCHESTER, p. o., Butler county, *Ky.*: 117 m. S. W. Frankfort.

ROCHESTER, t. and p. v., Plymouth county, *Mass.*: on the N. W. side of Buzzard's bay, 44 miles S. E. of Boston. Drained by Mattapoisset, Siplean, and Weweantic rivers, the two former rising in ponds in the t., empty into the bay, and form excellent harbors. Surface varied; some parts are rocky and unfit for cultivation, while other parts are clear, with excellent soil. The streams afford extensive water-power. The manufactures consist in ship-building, salt, bar iron, leather, etc. A number of vessels are owned here and employed in the coasting and fishing trade. The whale fishery is carried on to a considerable extent, and the largest sized ships are engaged in the trade, bringing large quantities of oil annually. The principal village in the t. is called Mattapoisset, at the head of the harbor so called. Rochester v. is located centrally, equidistant between We-wentic and Mattapoisset rivers. Pop. of t. 3,503.

ROCHESTER, p. v., Oakland county, *Mich.*: on N. bank of Clinton r., at junction of Paint cr., 50 m. E. by $\frac{1}{2}$ S. Lansing. Water-power is afforded by both streams, and improved by a few mills, etc.

ROCHESTER, p. v., Andrew co., *Mo.*: on E. bank of Platte river, 165 m. N. W. by W. Jefferson City.

ROCHESTER, t. p. v., and one of the caps. Strafford county, *N. Hamp.*: on Salmon r., which bounds it on the E., 26 m. E. Concord. Drained by Cocheeo r., running through, and Isinglass river crossing its S. part, affording excellent mill privileges. Surface uneven, with many swells, the principal of which is Squamanauganich hill; soil deep, rich, and well cultivated. It contains a number of valuable farms, chiefly located on the hill. In the W. part of the t. oak of a hard and stony character is found in abundance. Several villages are in the town, the most noted for its trade being *Norway Plains*, the principal thoroughfare from the upper towns in the counties of Dover and Plymouth. About 2 m. S. W. is another v., called *Squamanauganich*, on the Cocheeo r. named after the falls at that place, and is also a point of considerable trade. This town was incorporated in 1772, and the first permanent settlement made in 1728. Until 1760 it was a frontier town, and is a place of historical note. The manufactures of Rochester consist in woolen goods, leather, flour, lumber, oil, etc. The v. is connected with Dover and Alton bay by the Cocheeo R. R., 10 m. from

the former and 18 m. from the latter place, and also with Wilton and Great Falls by the Great Falls and Conway R. R., 6 m. N. Great Falls, and 5 m. S. from Wilton. In both an agricultural and manufacturing point this is a flourishing place. It contains a number of manufactories, a bank, etc. Pop. of t. 3,006.

ROCHESTER, p. o., Jackson par., *La.*: 148 m. N. W. by N. Baton Rouge.

ROCHESTER, p. city, port of entry, and cap. Monroe county, *N. Y.*: is situated on both sides of Genesee r., 7 m. S. from its entrance into Lake Ontario; by railroad 252 m. W. of Albany, and 68 m. E. by N. from Buffalo. Lat. (Rochester House) 43° 08' 17" N.; long. 77° 51' W. from Greenwich. The city is laid out with general regularity, having wide and handsome streets, many of which are lined with shade trees. Its site is somewhat uneven in surface. It rests upon a bed of limestone, but a few feet below the surface, and greatly used for building and other purposes. In summer, at low water in the r., its bed of this limestone is exposed, exhibiting for a long distance a solid base of rock. The area occupied by dwellings is very large for the population, the houses for the most part being separate dwellings. The E. and W. parts of the city are connected by 5 bridges. The principal street, called Main Street, on the E. side, and Buffalo Street, on the W. side, is a very long, broad, and handsome avenue, passing over the central bridge, and lined with the principal stores, hotels, etc. The blocks of stores, and houses generally, are noted for their neat appearance. Brick and stone are the principal building materials within the limits of the fire districts. Several large parks are reserved as public grounds, of which the principal is Washington Square. The Court-house, on Buf-falo Street, is a large and elegant structure, with hand-some granite portico, containing the county and city offices. The Arcade is a handsome marble building, containing the post-office, and is a hall of great resort, with numerous business offices, etc. The Western House of Refuge for juvenile delinquents, a State institution, is a very extensive establishment, about $\frac{1}{2}$ m. N. of the centre of the city, con-taining from 200 to 300 lads, confined for reformation. The building is a very large edifice of brick, presenting an im-posing appearance, and is surrounded by work grounds and farm of several acres. The hotels of the city are generally very large and handsome buildings. The public schools have fine buildings and are well conducted. Private schools are numerous, and there are several female academies. The University of Rochester, established in 1850, has 8 pro-fessors, 109 students, and 3,000 volumes in library. The Rochester Theological Seminary (Baptist), also established here in 1850, had, in 1851-52, 2 professors, 29 students, and 3,000 volumes in library. The Athenaeum, a popular insti-tution, has a good library of 5,000 volumes, and annual courses of lectures. The periodical press, in 1850, consisted of 19 regular issues, viz., 3 dailies, "R. Democrat" (whig), "Advertiser" (dem.), "American" (whig), each of which also published tri-weekly and weekly editions; weeklies, "Rural New Yorker" (agric.), "Star of Temperance," "North Star" (anti-sla.), "Genesee Evangelist" (Presb.), "Christian Guardian" (Univers.), "Advent Harbinger" (Sec. Adv.); semi-monthlies, "Christian Sentinel" (Uni-vers.), "Flag of Freedom;" monthlies, "Genesee Farmer" (agric.) and "Eclectic Journal" (med.) There are about 30 churches, some of which are fine structures, and 2 large orphan asylums. The city government is vested in a mayor, recorder, and common council, all of whom are elected annually. The common schools are governed by a board of education, composed of two members from each ward. The city is divided into 9 wards, is generally well paved and provided with sewerage, and is lighted by gas. Water is abundant from wells. The principal city market is a commodious structure, on the W. bank of the r. The city almshouse is in the S. suburbs.

The rapid growth and prosperity of the city have resulted

from the natural advantages of great water-power here afforded by the Genesee river. Within the city limits the r. has a total descent of 263 feet, in which are 3 successive perpendicular falls of 96, 20, and 105 feet, and 2 rapids. The first great falls of 96 feet are a little N. of the centre of the city, and before they were disfigured by the construction of walls in the centre of the stream above for mechanical purposes, they afforded at high water a very grand appearance. From a projecting point in its centre the notorious Sam Patch made his last and fatal leap. Below the first cataract the r. flows broad and deep for 1½ m. to the second, where it has a perpendicular fall of 20 feet, and thence pursues a noisy and rapid course for about 25 rods to the third and last fall, by which it descends 105 feet. Through the entire distance from the upper to the lower fall it flows through a narrow ravine, over 100 feet deep. The depression of the stream commences considerably above the first falls, and in ¼ m. has a fall of 12 feet, easily used for manufacturing purposes. On each side of the r. canals have been extensively constructed for the mills. Another power of considerable amount is created by the feeder for the Erie Canal, which comes from the r. nearly 2 m. above.

The immense water-power thus afforded is used by various mills and factories, but chiefly by flouring-mills, which are the principal business establishments of the city. In 1850 there were 22 mills, with 100 runs of stone, nearly all of which were employed on flour. An approximate estimate of the amount of flour manufactured annually is 600,000 barrels, or 3,000,000 bushels. Of this amount, about 1,640,454 bushels are left here by canal and railroad, leaving 1,359,546 bushels to be made up by receipts from wagons, and this is about equal to the product of the county. The following table exhibits the amount left here by the Erie and Genesee Valley Canals for a series of years:

Years.	Bushels.	Years.	Bushels.	Years.	Bushels.
1844	884,141	1847	1,778,116	1850	1,215,759
1845	1,169,281	1848	1,449,193	1851	1,465,454
1846	1,508,546	1849	1,426,436	1852	1,493,801

The quantities of flour shipped for the same series of years are as follows:

Years.	Bbls.	Years.	Bbls.	Years.	Bbls.
1844	400,388	1847	681,574	1850	552,729
1845	518,318	1848	584,420	1851	500,330
1846	540,292	1849	570,757	1852	588,080

To the amount shipped should be added the amount consumed by 40,000 inhabitants, and the large population of the suburbs and vicinity.

Other manufactures are extensively prosecuted. There are several iron furnaces, casting principally stoves, agricultural implements, etc.; and numerous large machinery works. The edge tool factory of Barton & Co. employs about two hundred men; and the scale factory of Duryee & Co. is also very large. A large stone cotton factory, 6 stories high, when in full operation, employs two hundred persons. There are several woolen factories, fulling-mills, large boat-yards, breweries, tanneries, last factories, large factories of cabinet furniture, etc. There are 5 banks, with aggregate capital of \$980,000, 2 savings banks, and several insurance companies.

Rochester enjoys good facilities for transportation of its imports and exports. The Erie Canal, giving it connection with the E. and W., here crosses the Genesee r. by a splendid aqueduct, 894 feet long, resting upon 11 arches, completed at a cost of \$80,000. The Genesee Valley Canal, completed to Dansville, 52 m., affords access to the interior. Though the r. is boatable above the city to Mount Morris, 45 m., it is little used for that purpose. The total value of property left at R. by both canals, during 1852, was \$5,236,994; value of amount cleared, do., \$4,304,762. The lines of railroads here centering are, Rochester and Syracuse R. R., 104 m.; Rochester and Syracuse *direct* R. R., along the line of the canal; Buffalo and Rochester R. R., 68 m.; and Rochester,

Lockport, and Niagara Falls R. R., 76 m. The Genesee Valley R. R. is in construction.

Rochester is the port of entry for Genesee collection district. The river is navigable for steamboats, etc., from Lake Ontario to the landing, 2½ miles below the center of the city. A line of steamboats from Oswego to Lewiston arrive and depart daily, and a line from Canada tri-weekly. The total tonnage of Genesee district, on June 30th, 1850, was 1,087 tons, all of which was "enrolled and licensed," permanent, and employed in the coasting trade. During the year preceding, the number of clearances for foreign countries was 215—40,077 tons; number of entrances, do., the same statistics. Vessels built during the year, 1 schooner—58 tons.

Population—in 1812, 15; in 1815, 331; in 1820, 1,500; in 1825, 4,274; in 1830, 10,863; in 1835, 17,160; in 1840, 20,191; in 1845, 25,265; in 1850, 36,561. The E. side of the river has of late increased its population in greater ratio than the W. side. R. was laid out in 1812, incorporated as a v. in 1817, and as a city in 1834. In 1812 it contained only 2 wooden frame buildings. It has frequently suffered heavy losses by fire, but has overcome these reverses. The agricultural district surrounding it is among the most fertile in the Union, and has contributed greatly to its prosperity. The health of the city is affected by the proximity of the lake, and sudden changes of the weather, high westerly winds, etc.; but is generally good. Mt. Hope Cemetery, in the S. suburbs, is an extensive inclosure of the most beautiful grounds, improved by art, splendid monuments, etc.

ROCHESTER, t. and sta., Lorain county, Ohio: 84 m. N. E. Columbus. Drained by W. branch of Black river. The Cleveland, Columbus, and Cincinnati R. R. passes through the t., 41 m. S. W. from Cleveland, and 214 m. N. E. from Cincinnati. Pop. 896.

ROCHESTER, p. v., Warren co., Ohio: on E. side of Little Miami r., 69 m. S. W. Columbus.

ROCHESTER, t. and p. v., Windsor county, Verm.: 80 m. S. by W. Montpelier. Drained by White r. and branches, from which is derived excellent mill-power. Surface mountainous, and in parts much broken; soil good for grazing, and some excellent tracts of meadow land. The v. has a pleasant location on the left bank of White r., and commands considerable trade. The manufactures consist of leather, flour, lumber, etc. Pop. of t. 1,493.

ROCHESTER, p. v., Racine co., Wisc.: on N. side of branch of Fox r., 61 m. E. S. E. Madison. Pop. 1,672.

ROCHESTER, p. v., Beaver county, Penn.: on E. bank of Beaver r., at its junction with the Ohio r. and on the line of the Ohio and Pennsylvania R. R., 25 m. N. W. Pittsburg, 156 m. W. by N. Harrisburg. Coal and iron are abundant in the vicinity.

ROCHESTER MILLS, p. v., Wabash co., Ill.: on right bank of Wabash r., about 2 m. above Coffee Island Rapids, and 137 m. S. E. Springfield.

ROCK county, Wisc. Situate S., and contains 720 sq. m. Rock r. passes centrally through it, by which and its branches it is drained. Surface level; soil fertile. Agriculture is the leading pursuit. Farms 1,965; manuf. 125; dwell. 8,615, and pop.—wh. 20,686, fr. col. 22—total 20,708. *Capital*: Janesville. *Public Works*: Milwaukee and Mississippi Railroad, Beloit and Madison R. R., etc.

ROCK, p. o. and sta., Plymouth co., Mass.: on Cape Cod Branch of Fall River R. R., 5 m. S. Middleboro' and 37¼ m. S. by E. Boston.

ROCK, p. o., Lancaster county, Penn.: 30 m. E. by S. Harrisburg.

ROCK river, Wisc. and Ill. This river has its principal source in a region of lakes and swamps in the vicinity of Fox r. of Green bay; flowing south for some distance, it takes a south-westerly direction till it enters the Mississippi about 3 m. below Rock Island. After traversing some distance in Wisconsin it is joined by the Catfish, a small stream rising in Dane county, and connecting together the "Four Lakes," the head waters of which have their com-

mencement in a swamp a few miles south of Fort Winnebago. It then continues its course S., entering Illinois, where it receives several tributaries, the principal of which are the Green, Turtle, Pecatonica, Sycamore, and Kyte rivers. The navigation is seriously obstructed by what are denominated the Upper and Lower Rapids. The latter at Vandruiff's Island, about 3 m. above its mouth, are caused by a formation of calcareous rock three-fourths of a mile in extent, and completely crossing the stream, which is here divided by the island into two channels. Between this point and Prophetstown, a distance of about 52 m., is free from any obstruction, having a good channel, varying in width from 800 to 1,000 feet, in which there is never less than 4 feet water. The total fall for this distance is 28 8-10 feet, and the velocity of the current about 3 m. per hour. Opposite Prophetstown are shoals varying from 3 to 4 feet of low water. The Upper Rapids, at Harrisburg, extend 1½ m., the total fall in that distance being 8½ feet. From this point to Rockford, a distance of 63 m., the obstructions are slight, being only 2 or 3 movable sandbars. The bed opposite Rockford is a smooth, solid rock for 260 yards, and the water at its lowest stage from 2 to 2½ feet. Toward the head the land is marshy, with ridges of sand and tracts of rich undulating soil interspersed. In this region is the Terre Tremblant, or trembling land, which takes its name from the shaking of the surface while passing over it. In general, till it reaches the State line, the country is beautifully undulating and the soil rich and productive; but in Illinois a large portion through which it passes is prairie. Along its banks are numerous tracts of richly timbered land. Coal of a bituminous nature is found in the bordering regions, and also some stone quarries, which supply a good building material. The water privileges it affords, and also its tributaries, are many and excellent. The Rockford and Rock Island R. R. runs along the valley of this river. Canalizing and other improvements are contemplated so as to render the navigation certain at all seasons.

Rock creek, *D. C.*: separates Georgetown from Washington city, and enters the Potomac r. Two bridges cross it near its mouth.

ROCKAWAY, p. v. and sta., Morris co., *N. Jer.*: on Rockaway r., on the Morris and Essex R. R., 31 m. N. W. Newark, 47 m. N. by E. Trenton.

ROCKAWAY, p. v., Queen's co., *N. Y.*: on Rockaway bay, near the Atlantic shore, 143 m. S. by E. Albany.

ROCKAWAY beach, Queen's co., *N. Y.*: a peninsula situated between Jamaica bay and the Atlantic Ocean, 16 m. S. E. from New York and 143 m. S. from Albany. Far Rockaway and Near Rockaway are names of villages. The latter is located on Rockaway bay, near the ocean, and contains several stores, a ship-yard, lumber-yard, etc., and a number of coasting sloops and schooners are owned here. At this place is a monument erected to the memory of those who perished by shipwreck from on board the ships Bristol and Mexico, in 1836-7.

ROCK BOTTOM, p. o., Middlesex co., *Mass.*: 23 m. N. W. Boston.

ROCKBRIDGE county, *Virg.* Situate centrally, and contains 652 sq. m. Drained by affluents of North r., a main branch of James r., which it joins a little above its passage through the Blue Ridge. Surface, though in general mountainous, is diversified with fertile valleys; soil various. Chief products, wheat and Indian corn, with tobacco. This county contains the celebrated Natural Bridge over Cedar cr., from which it takes its name. Farms 666; manuf. 57; dwell. 1,908, and pop.—wh. 11,484, fr. col. 364, sl. 4,197—total 16,045. *Capital*: Lexington.

ROCK BRIDGE, p. v., Gwinnett co., *Ga.*: on E. bank of Yellow r., 71 m. N. W. Milledgeville.

ROCKBRIDGE, p. o., Greene county, *Ill.*: 47 m. S. W. Springfield.

ROCKBRIDGE, p. v., and cap. Ozark co., *Mo.*: 127 m. S. Jefferson City. It contains the court-house, jail, etc.

ROCK CASTLE county, *Ky.* Situate S. E. centrally, and contains 312 sq. m. Drained by branches of Dicks' and Rock Castle rivers. Surface elevated, and forms a ridge separating the waters of the Cumberland r. from those of Kentucky r.—the land is well adapted to grazing; soil fertile, and generally productive. Staples, wheat and Indian corn. Farms 441; manuf. 3; dwell. 746, and pop.—wh. 4,259, fr. col. 33, sl. 875—total 4,697. *Capital*: Mount Vernon. *Public Works*: Knoxville and Lexington R. R.

ROCK CASTLE, p. v., Patrick co., *Virg.*: 147 m. W. S. W. Richmond.

ROCK CITY, p. v., Duchess co., *N. Y.*: on small branch of Hudson r., 49 m. S. Albany.

ROCK CITY, Cattaraugus co., *N. Y.*: 7 m. from Elliotteville and near the line between Great and Little Valley—is a remarkable natural curiosity. The rock is here conglomerate, large masses, from 15 to 35 feet high, have been left standing isolated, and are separated by alleys and passages of various widths. The whole area covered by these blocks is near 100 acres. The scene is in the highest degree imposing, and impresses upon the beholder the conviction, that the name has not been improperly chosen.

ROCK CITY MILLS, p. o., Saratoga county, *N. Y.*: 29 m. N. by W. Albany.

ROCK CREEK, p. o. and sta., Bartholomew co., *Ind.*: on the Madison and Indianapolis R. R., 34 m. from Madison, and 51 m. S. S. E. Indianapolis.

ROCK CREEK, p. o., Carroll co., *Ill.*: 153 m. N. Springfield.

ROCK CREEK, p. o., Cedar county, *Ia.*: on E. side of Cedar r., 19 m. E. Iowa City.

ROCK CREEK, p. o., Somerset county, *Md.*: 63 m. S. E. Annapolis.

ROCK CREEK, p. o., Lewis county, *Ky.*: 93 m. E. N. E. Frankfort.

ROCK CREEK, p. o., Franklin co., *Ala.*: 185 m. N. N. W. Montgomery.

ROCK CREEK, p. o., Orange co., *N. Car.*: 56 m. W. N. W. Raleigh.

ROCK CREEK, p. o., Yell county, *Ark.*: 77 m. W. N. W. Little Rock.

ROCKDALE, t. and p. o., Crawford county, *Penn.*: 192 m. N. W. Harrisburg. Drained by French cr. and tributary of Alleghany r. It has limited manufactures.

ROCKDALE, sta., Licking co., *Ohio*: on the Central Ohio R. R., 18 m. W. by N. Zanesville, and 40 m. E. by N. Columbus.

ROCKDALE, p. o., Chenango co., *N. Y.*: 93 m. W. by S. Albany.

ROCKDALE, p. o., Randolph co., *Ala.*: 86 m. N. E. by N. Montgomery.

ROCKFORD, p. v., and cap. Winnebago co., *Ill.*: at the rapids on Rock r., 170 m. N. by E. Springfield, and on the Galena and Chicago Union R. R., 92 m. N. W. by N. Chicago. It is located on a high and fertile prairie on the W. side of the river, and contains the court-house, jail, etc. Immense water-power is derived from the rapids, and there are some good mill-seats. Steamboats come up to this place. The "Rockford Forum" (whig) is a weekly issue. Pop. 2,093.

ROCKFORD, p. v. and sta., Jackson co., *Ind.*: on E. side of East fork of White r., and on the Jeffersonville R. R., 52 m. N. Jeffersonville, and 55 m. S. by E. Indianapolis.

ROCKFORD, p. v., and cap. Surry co., *N. Car.*: on N. side of Yadkin r., 123 m. W. N. W. Raleigh.

ROCKFORD COURT-HOUSE, Coosa co., *Ala.*: on a branch of Hatcher cr. of Coosa r., 34 m. N. Montgomery.

ROCK GROVE, p. o., Stephenson county, *Ill.*: on a branch of Rock r., 131 m. N. Springfield.

ROCK HALL, p. v., Kent county, *Md.*: 18 m. N. E. Annapolis.

ROCK HAVEN, p. o., Mead county, *Ky.*: 75 m. W. by S. Frankfort.

ROCK HILL, p. o., St. Louis county, *Mo.*: 99 m. E. Jefferson City.

ROCK HILL, p. o., Marquette co., *Wisc.*: 44 m. N. by E. Madison.

ROCKHOLD'S, p. o., Whitley county, *Ky.*: 101 m. S. S. E. Frankfort.

ROCKHOLD'S, p. o., Sullivan co., *Tenn.*: 244 m. E. by N. Nashville.

ROCK HOUSE, p. o., Sumner co., *Tenn.*: 81 m. N. E. Nashville.

ROCK HOUSE, p. o., Hoeking co., *Ohio*: 42 m. S. E. Columbus.

ROCKHOUSE PRAIRIE, p. o., Buchanan co., *Mo.*: 154 m. W. N. W. Jefferson City.

ROCKINGHAM county, *N. Hamp.* Situate S. E., and contains 512 sq. m. Drained by Lamprey and Squamec^t rivers and their affluents. Surface generally uneven; soil fertile, and generally well cultivated. The face of the country is diversified with numerous lakes or ponds, the principal of which are Great Bay, in the N. E., and Massabesic pond in the W. It has many important manufactures. Farms 3,311; manuf. 984; dwell. 9,113, and pop.—wh. 50,569, fr. col. 117—total 50,956. *Capital*: Exeter. *Public Works*: Eastern R. R.; Boston and Maine R. R.; Manchester and Lawrence R. R.; Portsmouth and Concord R. R.; Newburyport Branch R. R., etc.

ROCKINGHAM county, *N. Car.* Situate N., and contains 412 sq. m. Drained by Dan r. and its branches, and head branches of Haw r. Surface elevated, and in some parts hilly, and well adapted to grazing; soil very fertile, and tobacco is grown considerably, forming one of its staples. Farms 717; manuf. 43; dwell. 1,693, and pop.—wh. 8,647, fr. col. 419, sl. 5,329—total 14,935. *Capital*: Wentworth.

ROCKINGHAM county, *Virg.* Situate centrally, and contains 760 sq. m. Drained by Shenandoah r. and its branches. Surface broken, and in parts mountainous; soil various, adapted to grazing in the uplands—along the streams very fertile. Chief products, wheat and Indian corn. Some tobacco is also grown. Farms 1,213; manuf. 167; dwell. 3,947, and pop.—wh. 17,498, fr. col. 465, sl. 2,331—total 20,294. *Capital*: Harrisonburg.

ROCKINGHAM, p. v., and cap. Richmond co., *N. Car.*: on Hitchcock's cr., 51 m. S. W. Raleigh. It contains a court-house, jail, etc.

ROCKINGHAM, t. and p. v., Windham county, *Verm.*: is delightfully located on W. side of Connecticut river, 73 m. S. by E. Montpelier. Drained by William and Sextas rivers, tributaries of the Connecticut r. Surface uneven; soil fertile. Its agricultural products are large, and it has extensive manufactures. The location of the t. renders it a mart of much interior trade, and has caused the erection of a number of neat and pleasant villages. In the Connecticut r., near the S. E. corner of the t., is "Bellows Falls," around which is an interesting locality of minerals. The rocks are principally gneiss. The river here is compressed into a narrow strait, between steep rocks, and for nearly a quarter of a mile has a rapid flow. A canal, with 9 locks, passes round these falls. A bridge (erected in 1785) spans the river at this point. Immense water-power is derived from the streams and falls, and used for manufacturing purposes. The manufactures consist of woollen goods, paper, leather, flour, lumber, etc. The station is on William's river, and on the Rutland and Burlington R. R., 114 m. S. E. Burlington; and the Vermont Valley R. R. passes through the t. The "Republic" (whig) is a weekly issue. Pop. of t. 2,557.

ROCK ISLAND county, *Ill.* Situate N. W., and contains 425 sq. m. Drained by Rock r. and other affluents of the Mississippi, which forms its W. boundary. Surface undulating; soil fertile, particularly along the Mississippi. Farms 555; manuf. 11; dwell. 1,246, and pop.—wh. 6,935, fr. col. 2—total 6,937. *Capital*: Rock Island. *Public Works*: Chicago and Rock Island R. R., etc.

Rock island, Rock Island co., *Ill.*: a large island in the Mississippi r., 93 m. below Savannah, and 131 m. N. N. W. Springfield. It is 3 m. long and about 1½ m. wide, with

limestone rock for its base. On it stands Fort Armstrong, a strong and neat fortification of the U. States. On two sides the rock is 20 feet perpendicular in height above the river, and forms the foundation of the fort. The S. point of the island is elevated about 40 feet above the level of the river.

ROCK ISLAND, p. o., Austin county, *Tex.*: 95 m. E. by S. Austin City.

ROCK ISLAND, p. o., Warren county, *Tenn.*: on S. side of Caney fork of Cumberland r., 71 m. S. S. E. Nashville.

ROCK ISLAND CITY, p. v., and cap. Rock Island county, *Ill.*: at the junction of Rock river with the Mississippi river, 50 miles below Van Buren, and 131 miles N. N. W. Springfield. It has been laid out on an extensive plan, is rapidly increasing, and promises to become a place of considerable importance. It contains a court-house, jail, etc. The position of the city is one of the best on the Upper Mississippi, and the country surrounding it affords fine agricultural facilities, timber, limestone, and coal in abundance, large quantities of which are transported to other points. The "Rock Island Advertiser" (whig) is a weekly issue. The Chicago and Rock Island R. R. has its terminus at this point.

ROCK ISLAND RAPIDS commence at Rock Island, just above the mouth of Rock r., and extend 15 m. up the Mississippi, with a descent of 21 feet 10 inches. The navigation at this point at low water is much obstructed by ledges of rock, which extend across in various places. The United States government has done something for their improvement.

ROCKLAND county, *N. Y.* Situate S. E., and contains 172 sq. m. Drained by Hackensack r., Ramapo and Saddle rivers, branches of the Passaic, and small streams of Hudson r., which bounds it on the E. Surface hilly, and in some parts mountainous and much broken; soil generally fertile. It has some valuable minerals, and contains some fine beds of magnetic iron ore, and quarries of variegated marble. Large quantities of ice are exported to New York from this county. Chief products, wheat and Indian corn. Farms 652; manuf. 144; dwell. 3,011, and pop.—wh. 16,363, fr. col. 594—total 16,962. *Capital*: Clarkstown. *Public Works*: New York and Erie R. R.

ROCKLAND, t. and p. o., Sullivan co., *N. Y.*: 72 m. S. W. Albany. Drained by Beaver Kill and branches, tributary of the Delaware. Surface hilly and mountainous; soil various, fertile in the valleys. It has good water-power, and there are several mill-seats. Pop. of t. 1,174.

ROCKLAND, t. and p. o., Venango county, *Penn.*: 164 m. W. N. W. Harrisburg. Bounded on the W. by the Alleghany r. Drained by Red river. Iron ore abounds in the vicinity, and there are two furnaces, one moved by steam, of 1,600 tons, and one moved by water and steam-power, of 1,350 tons annual capacity.

ROCKLAND, s. a., Baltimore co., *Md.*: on the Westminster branch of Baltimore and Susquehanna R. R., 9 m. N. by W. Baltimore.

ROCKLAND, t. and p. o., Lincoln co., *Me.*: on the W. coast of Penobscot bay, and includes Owl's Head, 40 m. S. W. by W. Augusta. Formerly called East Thomaston, and taken from Thomaston in 1848. Drained by a branch of the St. George r. It has a fine harbor, and is famous for the manufacture of lime, obtained from the inexhaustible limestone ledges in the vicinity, and shipped in large quantities to different parts annually, and an excellent quality of granite (quarried by the convicts in Thomaston) is shipped from this point. Ship-building is carried on here, and it is a place of considerable maritime commerce. It has steam communication with Boston and Bangor, from which latter place it is distant about 55 miles. A large number of vessels pass here daily. It contains a bank; and the "Rock Gazette" (neut.) is a weekly issue. Pop. of t. 5,052.

ROCKLAND LAKE, p. o., Rockland co., *N. Y.*: 103 m. S. Albany. Rockland lake is a body of very pure water, 5 m. in circumference, 200 feet above the level of Hudson river, chiefly valuable for its ice, which is used in supplying the New York market.

ROCKLAND MILLS, p. o., Augusta county, *Virg.*: 101 m. W. N. W. Richmond.

ROCK MILLS, p. o., Hancock county, *Ga.*: on W. side of Ogeechee r., 35 m. E. N. E. Milledgeville.

ROCK MILLS, p. o., Anderson dist., *S. Car.*: on W. side of branch of Savannah r., 103 m. W. N. W. Columbia.

ROCK MILLS, p. o., Randolph county, *Ala.*: 37 m. N. E. Montgomery.

ROCK MOUNTAIN, De Kalb co., *Ga.*: a high, solitary peak, 2,226 feet above the stream which winds around its base. It is about 7 m. in circumference.

ROCK POINT, p. o., Independence co., *Ark.*: on S. side of Saline cr., 69 m. N. E. by N. Little Rock.

ROCKPORT, p. o., Hot Springs co., *Ark.*: on E. side of Ouachita r., 40 m. S. W. by W. Little Rock.

ROCKPORT, p. o., Pike co., *Ill.*: on the Snycartee Slough, 74 m. W. by S. Springfield.

ROCKPORT, p. v., and cap. Spencer co., *Ind.*: on N. bank of Ohio r., 15 m. below Maxville, 184 m. S. S. W. Indianapolis. It is located on Rock Lady Washington, a formation of sandstone, which rises in a circular form to the height of 80 feet above the first bank of the river, presenting a bold front. The position is very commanding, and the surrounding country is exceedingly rich and fertile, producing large crops of corn, etc. It contains the county buildings, a tannery, ship-yard, etc.

ROCKPORT, t. and p. v., Essex co., *Mass.*: comprises all the seaward portion of the extremity of Cape Ann, 31 m. N. E. Boston. There are two pleasant villages in the t., Sandy Bay and Pigeon Cove, about 1 m. apart, at both of which are artificial harbors for small vessels. Although the t. derives its name from the character of its shores and surface, it contains many large tracts of clear land. At Pigeon Cove are extensive quarries of granite. This t. is of much resort in the summer months. There are some stores and a bank, capital \$100,000. Pop. of t. 3,255.

ROCKPORT, t., p. o., and sta. Cuyahoga co., *Ohio*: on W. side of Rocky r., near its entrance into Lake Erie, the N. boundary of the t., 116 m. N. N. E. Columbus. The Cleveland, Columbus, and Cincinnati R. R. passes through its S. part, 7 m. from Cleveland. Pop. 1,441.

ROCKPORT, p. o., Carbon county, *Penn.*: 76 miles N. E. Harrisburg.

ROCK PRAIRIE, p. o., Rock county, *Wis.*: 35 m. S. S. E. Madison.

ROCK PRAIRIE, p. v., Dade county, *Mo.*: 116 m. S. W. Jefferson City.

ROCK QUARRY, p. o., Pope co., *Ill.*: on N. side of Ohio r., 174 m. S. S. E. Springfield.

ROCK RIFT, p. o., Delaware co., *N. Y.*

ROCK RIVER, p. o., Fond du Lac co., *Wis.*: 62 m. N. E. Madison.

ROCK RUN, p. o., Stephenson county, *Ill.*: 173 miles N. Springfield.

ROCK RUN, p. o., Harford co., *Md.*: 49 m. N. Annapolis.

ROCKSBURG, Warren county, *N. Jer.*: 40 m. N. W. by N. Trenton.

ROCKSFORD, p. o., Tuscarawas co., *Ohio*: 83 m. E. N. E. Columbus.

ROCK SPRING, Walker co., *Ga.*: on W. side of branch of Chickamauga r., a tributary of Tennessee r., 174 m. N. W. Milledgeville.

ROCK SPRING, Orange co., *N. Car.*: 47 m. N. W. Raleigh.

ROCK SPRINGS, p. o., Cecil county, *Md.*: 52 m. N. E. Annapolis.

ROCK STATION, sta., Plymouth co., *Mass.*: on Cape Cod Branch R. R., 5 m. from Middleboro', 24 m. from Boston.

ROCK STREAM, p. o. and sta., Yates county, *N. Y.*: on W. bank of Seneca lake, 164 m. W. Albany. The Canandaigua and Elmira R. R. passes through, 40 m. from Canandaigua, and 27 m. from Elmira.

ROCKTON, t. and p. v., Winnebago co., *Ill.*: on Rock river, 183 m. N. Springfield. The t. lies chiefly on the W. side of

Rock r., and is also well watered by Pekatonica r. flowing E. through its centre, and by N. Sugar cr., which drains its N. portion and enters the Pekatonica 6 m. above its mouth. Surface undulating; soil rich prairie land, with some timber. The v. is on E. side of Rock river.

ROCKTON, p. v. and sta., Herkimer county, *N. Y.*: 91 m. W. N. W. Albany. Formerly called Little Falls. Surface of t. hilly and mountainous; soil sanly and argillaceous loam, watered by Mohawk r., on the S. side of which runs the Erie Canal, and on the N. side the Utica and Schenectady R. R. The v. is beautifully situated on both sides of the Mohawk r., and is of some resort for its romantic scenery. The gap through which the r. passes is comparatively narrow, and on both sides the wooded hills rise from 350 to 400 feet. Their bases are of sandstone, above which are extensive beds of blue limestone, much used for building purposes. The canal here ascends in the space of a mile, by 4 locks, about 40 feet. It is supplied with water by a feeder carried across the r. by a handsome aqueduct of 3 arches, one of 70 feet, and two of 50 feet span. At one point the brow of a hill projects into the river, by which the canal was constructed, with expensive diggings and embankments, and by occupying a part of the river bed for the canal. The river has here a fall of 42 feet in half a mile, affording great water-power. Its bed is of granite gneiss, very hard, but easily quarried for building stones, and abounding with quartz crystals. The v. is principally on the N. side of the river, and contains several flooring, plaster, and paper mills, woolen factory, machine shop, several furnaces, and other manufactories; 1 bank, capital \$200,000, academy, and 5 churches. Two newspapers are issued weekly, "Mohawk Courier" (dem.), and "Herkimer Journal" (whig). The v. is supplied with water from a spring in the hills, 300 feet above the tops of the houses. Pop. of t. in 1840, 3,831; in 1850, 4,855.

ROCK VALLEY, p. o., Marshall co., *Virg.*: 233 m. N. W. Richmond.

ROCK VALLEY, p. o., Hampden co., *Mass.*: 78 m. W. by S. Boston.

ROCKVILLE, p. v., Washington county, *R. I.*: 18 m. W. Newport.

ROCKVILLE, p. v., Tolland county, *Conn.*: 14 miles N. E. Hartford. A flourishing manufacturing v., having several cotton and woolen mills.

ROCKVILLE, p. v., Putnam county, *Ga.*: 15 miles N. Milledgeville.

ROCKVILLE, p. v., Will co., *Ill.*: 1 m. E. of Iroquois river, 127 m. N. E. Springfield.

ROCKVILLE, p. v., and cap. Parke co., *Ind.*: on W. side of branch of Little Raceoon cr., 54 m. W. Indianapolis. It is on elevated ground, and surrounded by an extensive tract of rich and beautifully rolling land, comprising some of the best farms of the State. It was first settled in 1823, and now contains the usual county buildings, a flourishing county seminary, female academy, and 6 churches. The "Parke County Whig" is published weekly. Pop. about 1,200.

ROCKVILLE, p. v., Delaware co., *Ia.*: on E. bank of branch of Makoqueta r., 51 m. E. N. E. Iowa City.

ROCKVILLE, p. o., Waldo co., *Me.*

ROCKVILLE, p. v., and cap. Montgomery co., *Md.*: 33 m. W. by N. Annapolis, on W. side of Rock creek of Potomac river. It contains the usual county buildings. The "Maryland Journal" (whig) is issued weekly. Pop. 810.

ROCKVILLE, p. v., Norfolk county, *Mass.*: on W. side of Charles r., 22 m. S. W. Boston. Has some manufactures.

ROCKVILLE, p. o., Allegany co., *N. Y.*: 218 m. W. by S. Albany.

ROCKVILLE, p. v., Rowan co., *N. Car.*: 111 m. W. by N. Raleigh.

ROCKVILLE, p. v., Adams co., *Ohio*: on the Ohio r., 83 m. S. by W. Columbus.

ROCKVILLE, p. v., Chester county, *Penn.*: 61 miles E. S. E. Harrisburg. Here is a cold blast charcoal furnace of 1,000 tons

annual capacity, which amount it made in 1849, employing 75 men, using water-power.

ROCKVILLE, sta., Perry county, *Penn.*: on Pennsylvania R. R., 7 m. W. by N. from Harrisburg.

ROCKVILLE, p. v., Monroe co., *Tenn.*: 151 m. E. S. E. Nashville.

ROCKVILLE, p. o., Hanover co., *Virg.*

ROCKVILLE, p. o., Lexington district, *S. Car.*: 15 m. W. Columbia.

ROCKVILLE CENTRE, p. o., Queen's co., *N. Y.*: 182 m. S. Albany.

ROCKWELL, p. v., Bond co., *Ill.*: on E. side of W. fork of Shoal creek, 64 m. S. Springfield. Surrounded by first-rate prairie land. The "Western Evangelist" is issued monthly, and the "Primitive Preacher" quarterly, both Baptist publications.

ROCKWELL, p. o., Pickens district, *S. Car.*: 125 miles N. W. by W. Columbia.

ROCKY RIVER, *N. Car.*: rises by numerous branches, which drain the whole of Cabarras co., flows E., and empties into the Yadkin river.

ROCKY RIVER, *S. Car.*: rises in Anderson dist., flows S. through W. part of Abbeville dist., and empties into Savannah river.

ROCKY BAYOU, p. o., Izard co., *Ark.*: on E. side of Rock cr., 85 m. N. by E. Little Rock.

ROCKY BEACH, p. o., Greenup co., *Ky.*: 118 m. E. by N. Frankfort.

ROCKY COMFORT, p. o., Sevier co., *Ark.*: 124 m. W. S. W. Little Rock.

ROCKY CREEK, p. o., Iredell co., *N. Car.*: on Rocky cr., 128 m. W. by N. Raleigh.

ROCKY FORD, p. o., Pontotoc co., *Miss.*: 146 m. N. N. E. Jackson.

ROCKY GAP, p. o., Tazewell co., *Virg.*: 231 m. W. by S. Richmond.

ROCKY HILL, p. v., Hartford co., *Conn.*: on W. side of Connecticut r., 74 m. S. Hartford. It is a pleasant little v., containing a Congregational church, etc. Some vessels are built here.

ROCKY HILL, p. o., Barren co., *Ky.*: 97 m. S. S. W. Frankfort.

ROCKY HILL, p. v., Somerset co., *N. Jer.*: on W. side of Millstone r., 124 m. N. N. E. Trenton, containing a few mills, a woolen factory, and stores.

ROCKY HILL, p. o., Jackson co., *Ohio*: 63 m. S. by E. Columbus.

ROCKY MILLS, p. o., Lavacca co., *Tex.*: 76 m. S. E. Austin City.

ROCKY MOUNT, p. v., Meriwether co., *Ga.*: 90 m. W. Milledgeville.

ROCKY MOUNT, p. o., Kemper co., *Miss.*: 108 m. E. N. E. Jackson.

ROCKY MOUNT, p. o., Miller co., *Mo.*: 29 m. W. S. W. Jefferson City.

ROCKY MOUNT, p. v. and sta., Edgecombe co., *N. Car.*: on N. bank of Tar r., 49 m. N. E. by E. Raleigh. The Wilmington and Weldon R. R. passes through the v., 37 m. from Weldon, and 125 m. from Wilmington.

ROCKY MOUNT, p. o., Fairfield dist., *S. Car.*: on W. side of Catawba r., 33 m. N. by E. Columbia.

ROCKY MOUNT, p. v., and cap. Franklin co., *Virg.*: on N. side of Pig r., a tributary of Roanoke r., 134 m. W. S. W. Richmond. It contains a court-house, jail, stores, tannery, and an iron furnace, which employs 100 laborers. Pop. about 450.

ROCKY NARROWS, p. o., Monroe county, *Ohio*: 99 m. E. Columbus.

ROCKY PLAINS, p. o., Newton co., *Ga.*: 53 m. N. W. Milledgeville.

ROCKY POINT, p. o., Scott co., *Virg.*: 281 m. W. by S. Richmond.

ROCKY POINT, p. o., Attala co., *Miss.*: 53 m. N. N. E. Jackson.

ROCKY POINT, sta., New Hanover county, *N. Car.*: on Wilmington and Weldon Railroad, 14 m. N. by E. Wilmington.

ROCKY RIVER, p. o., Warren co., *Tenn.*: 70 m. E. S. E. Nashville.

ROCKY RUN, p. o., Columbia co., *Wisc.*: 28 m. N. Madison.

ROCKY SPRING, p. o., Jackson co., *Ala.*: 154 m. N. by E. Montgomery.

ROCKY SPRING, p. o., Claiborne co., *Miss.*: 87 m. W. N. W. Jackson.

ROCKY SPRING, p. o., Grainger co., *Tenn.*: 179 m. E. Nashville.

ROCKY WELL, p. v., Lexington dist., *S. Car.*: on the S. side of Saluda r., 20 m. W. Columbia.

RODGER'S ROAD, sta., Erie co., *N. Y.*: on the Buffalo and State Line R. R., 10 m. S. Buffalo, and 269 m. W. Albany.

RODMAN, t. and p. v., Jefferson co., *N. Y.*: on Sandy cr., 142 m. N. W. Albany. Surface of t. undulating; soil sandy and clay loam of good quality. The v. on Sandy creek contains 3 churches, saw, grist, carding, and fulling mills, several stores, etc. Pop. of t., in 1840, 1,702; in 1850, 1,734.

RODNEY, p. v., Jefferson co., *Miss.*: on E. side of Mississippi r., 68 m. S. W. by W. Jackson. It contains several stores, and a fine steam saw-mill. Pop. 510.

RODNEY, p. o., Gallia co., *Ohio*: 83 m. S. S. E. Columbus.

ROESFIELD, p. o., Catahoula par., *La.*: 103 m. N. W. by N. Baton Rouge.

ROGERS' BRIDGE, p. o., Spartanburg dist., *S. Car.*: 83 m. N. W. Columbia.

ROGERS' FARM, p. o., McLean co., *Ill.*: on W. side of head branch of Kickapoo cr., 57 m. N. E. Springfield.

ROGERS' STORE, p. o., Wake co., *N. Car.*: on E. side of Neuse r., 12 m. N. by E. Raleigh.

ROGERSVILLE, p. v., Lauderdale co., *Ala.*: about 4 m. N. of Tennessee r., 178 m. N. by W. Montgomery.

ROGERSVILLE, p. o., Tuscarawas co., *Ohio*: 77 m. E. N. E. Columbus.

ROGERSVILLE, p. o., Halifax county, *Virg.*: 93 m. S. W. Richmond.

ROGERSVILLE, p. o., Madison county, *Ky.*: 49 m. S. E. Frankfort.

ROGERSVILLE, p. o., Henry co., *Ind.*: on N. side of head branch of Blue r., 46 m. E. N. E. Indianapolis.

ROGERSVILLE, p. o., Greene co., *Penn.*: 174 m. W. by S. Harrisburg.

ROGERSVILLE, p. v., and cap. Hawkins co., *Tenn.*: about 2 m. N. of Holston r., 209 m. E. by N. Nashville. It contains a court-house, jail, several stores, etc. The "R. Times" (whig) is published weekly.

ROHRESTOWN, sta., Lancaster co., *Penn.*: on Columbia Branch R. R., 6 m. W. from Lancaster.

ROHRESVILLE, p. v., Washington co., *Md.*: 76 m. N. W. Annapolis.

ROHRSBURG, p. v., Columbia co., *Penn.*: on N. side of branch of Fishing cr., 61 m. N. by E. Harrisburg.

ROKEYE p. o., Morgan county, *Ohio*: 63 m. E. by S. Columbus.

ROLESVILLE, p. v., Wake co., *N. Car.*: 44 m. N. E. of Neuse r., 15 m. N. E. by N. Raleigh. Pop. about 200.

ROLLERSVILLE, p. v., Sandusky county, *Ohio*: 97 m. N. Columbus.

ROLLIN, t. and p. o., Lenawee co., *Mich.*: 65 m. S. by E. Lansing. Michemanette or Devil's lake is in its N. part, whence flows Tiffin's cr. through its W. portion, affording excellent water-power. The soil is very fertile, well adapted to grain. The v. on the creek contains flouring and saw mills. Pop. of t. in 1840, 531; in 1850, 1,080.

ROLLING FORD, p. o., Nelson county, *Ky.*: 85 m. S. W. Frankfort.

ROLLING PRAIRIE, p. o., Marion co., *Ark.*: 119 m. N. W. Little Rock.

ROLLINSFORD, t. and sta., Strafford co., *N. Hamp.*: on W. side of Salmon r., 34 m. E. Concord. This is a new t. re-

cently taken from Somersworth, containing the flourishing v. of Salmon Falls. Three railroads pass through the t.: Boston and Maine R. R., 71 m. from Boston; Branch R. R. to Great Falls, etc.; and the York and Cumberland R. R., now in construction. This t. contains numerous factories, fulling-mills, etc. Pop. 1,862.

ROLLIN'S STORE, p. o., Moore county, *N. Car.*: 82 m. S. W. by W. Raleigh.

ROLLINSVILLE, p. o., Darlington district, *S. Car.*: 63 m. E. N. E. Columbia.

ROMA, p. o., Starr county, *Tex.*: on the Rio Grande, 280 m. S. by W. Austin City.

ROME, p. v., and cap. Floyd co., *Ga.*: at junction of Etowah and Oostanaula rivers, 164 m. N. W. Milledgeville. The Rome R. R. extends hence to Kingston on Western and Atlantic R. R., and will be continued S. W. to Jacksonville, Ala., there uniting with the Alabama and Tennessee River R. R. The v. contains 2 churches, an academy, and stores. Two newspapers are published weekly, "Rome Bulletin" (whig) and "Southerner" (dem.) Pop. about 800.

ROME, p. v., and cap. Perry co., *Ind.*: on N. bank of Ohio r., 124 m. S. by W. Indianapolis. It was first settled in 1811. It contains a fine brick court-house, stone jail, county seminary, and 2 churches. Pop. about 300.

ROME, p. v., Henry co., *La.*: on W. side of Skunk r., 47 m. S. by W. Iowa City.

ROME, t. and p. v., Kennebec co., *Me.*: 17 m. N. by W. Augusta. It has a large pond on its N. border, another on the E., and a third on its S. border, all of which have their outlet into the Kennebec, at Waterville. Incorporated in 1804. The v. is pleasant and flourishing. Pop. of t. 830.

ROME, t. and p. o., Lenawee co., *Mich.*: 56 m. S. by E. Lansing. Drained by head branches of Beaver cr. The soil is fertile, adapted to grain. Pop. in 1840, 1,123; in 1850, 1,523.

ROME, t. p. v., sta., and one of the caps. Oneida co., *N. Y.*: on the Mohawk r., 91 m. W. N. W. Albany; by R. R. from Albany 109 m. Surface of t. chiefly level, or gently undulating; soil a fertile clay and sandy loam. Drained E. by Mohawk r., on which is excellent land, and Wood cr., which flows W. into Oneida lake. These streams almost interlock, being only 1 m. separate, and were connected by a small canal before the construction of the Erie Canal, which was bought out when the latter was made. The v. on Mohawk r. is built upon the site of old Fort Stanwix, built in 1758, and rebuilt in the Revolutionary War, and called Fort Schuyler. The Syracuse and Utica R. R. passes through it, 14 m. from Utica, 38 m. from Syracuse. Here commences the Watertown and Rome R. R., completed to Cape Vincent, 97 m. The Erie Canal here receives the connection of the Black River Canal, affording communication by water with Lake Ontario, etc. The v., incorporated in 1819, is, with Whitesboro', a half shire-town for Oneida co., and contains a court-house and jail, a flourishing female seminary, 2 banks, with aggregate capital of \$287,200, 6 churches, a cotton factory, blast furnace, flouring and saw mills, etc. Here is a United States arsenal, to which are attached a magazine and a number of workshops. Two newspapers are issued weekly, "R. Sentinel" (whig) and "Roman Citizen" (whig.) Pop. of t. in 1840, 5,680; in 1850, 7,918.

ROME, t. and p. o., Ashtabula county, *Ohio*: 153 m. N. E. Columbus. Drained by Grand r. and a branch. This town was formerly called Richfield. Pop. 744.

ROME, sta., Franklin co., *Ohio*: on Columbus and Xenia E. R., 3 m. W. from Columbus.

ROME, t. and p. o., Bradford co., *Penn.*: on small branch of Susquehanna r., 110 m. N. by E. Harrisburg. Contains a number of saw and grist mills, and has some manufactures. Pop. about 1,000.

ROME, p. v., Smith co., *Tenn.*: on S. side of Tennessee r., 47 m. E. Nashville.

ROME, p. o., Jefferson co., *Wisc.*: 43 m. E. by S. Madison.

ROME, p. v., Macomb co., *Mich.*: on S. side of N. branch

of Clinton r., 78 m. E. Lansing. It is pleasantly situated, and is surrounded by an excellent farming country. It contains a very flourishing academy, an iron foundry, and tannery. The "R. Investigator" (temp.) is issued weekly.

ROME, p. v., Greene co., *Tenn.*: 213 m. E. Nashville.

ROME, p. o., McHenry county, *Ill.*: 177 miles N. N. E. Springfield.

ROMINCE'S MILLS, p. o., Harrison county, *Virg.*: 199 m. N. W. Richmond.

ROMNEY, p. o., Tippecanoe co., *Ind.*: on E. side of Wea cr., a tributary of Wabash r., 51 m. N. W. Indianapolis. It contains a court-house, and about 500 inhabitants.

ROMNEY, p. v., and cap. Hampshire co., *Virg.*: on E. side of S. branch of Potomac r., 142 m. N. by W. Richmond.

ROMULUS, p. o., Tuscaloosa co., *Ala.*: on W. side of Black Warrior r., 99 m. N. W. Montgomery.

ROMULUS, t. and p. o., Wayne county, *Mich.*: 64 m. S. E. Lansing. Pop., with Taylor and Van Buren, 2,838.

ROMULUS, t. and p. v., Seneca co., *N. Y.*: lies between Cayuga and Seneca lakes, 159 m. W. Albany. The surface is high in the centre, declining E. and W. toward the lakes; soil of good quality, well adapted to wheat. The village is a small settlement, containing a church, tavern, a few stores, etc. Pop. 2,040.

RONALD, t. and p. o., Ionia co., *Mich.*: 31 m. N. W. Lansing. Drained by Prairie cr. of Grand r. and its branches. Pop. 452.

ROOK'S CREEK, Livingston county, *Ill.*: 64 miles N. E. of Springfield.

ROUNDT, p. v., Ulster co., *N. Y.*: on N. side of Rondout cr., 1 m. above its entrance into the Hudson r., 52 m. S. by W. Albany. It derives its business importance principally from the Delaware and Hudson Canal, which terminates at Eddyville, 2 m. above, whence the canal-boats are towed by steamboats. In the vicinity are found large quantities of hydraulic cement and quicklime, employing a number of men and vessels. A considerable amount of lumber and produce is here collected, and transported to New York. There are four boat-yards for building and repairing canal-boats, two dry docks for the repairing of sloops and coasting vessels, a grist-mill, tobacco factory, etc., a female seminary, and two churches. The "R. Courier" (neutral) is issued weekly. Steam ferry-boats ply to Eddyville and Rhinebeck. Pop. about 1,700.

ROUNDT HILL or creek, *N. Y.*: rises in Sullivan co., and flows into the Hudson r. in Ulster co., near Rondout v., at which point is a light-house. It receives the Walkkill and other tributaries, and affords water-power. The Delaware and Hudson Canal passes along the valley of this creek.

RONKONKOMA lake, *N. Y.*: situated near the centre of Long Island, about 1 m. in diameter, deep and transparent, abounding with fish, and surrounded by pine and other timber, presenting a romantic and pleasant appearance.

ROOF, p. v., Allen co., *Ind.*: on E. side of St. Mary's r., 97 m. N. E. Indianapolis.

ROOF, t. and p. o., Montgomery co., *N. Y.*: 39 m. W. by N. Albany. Surface in parts hilly; soil fertile loam, or slate and lime. Drained by small streams, flowing into Mohawk r., which bounds it on the N. On one of these, the Plattekill, is a water-fall, with a perpendicular descent of 50 feet. About 1 m. above this fall, a vein of lead ore, found at the bottom of the creek, has been wrought to some extent by a company incorporated for the purpose. In the rocky cliffs near the river is a remarkable cave, containing numerous apartments, of which fourteen have been visited; some of these are 500 feet beneath the surface, and profusely adorned with stalactites, stalagmites, and various incrustations. Population of t. 2,736.

ROOT CREEK, p. o., Milwaukie co., *Wisc.*: 73 m. E. by S. Madison.

ROOT RIVER, *Minn. Ter.*: a large stream in S. E. part of the State, flows E. into Mississippi river.

ROOTSTOWN, t., p. o., and sta., Portage co., *Ohio*: 116 m.

N. E. Columbus, lying directly S. of Ravenna, 43 m. from Cleveland, on Cleveland and Pittsburg R. R. It is a fine farming t., watered by Cuyahoga r. Pop. in 1840, 1,112; in 1850, 1,808.

ROSCOE, t. and p. v., Winnebago co., *Ill.*: on E. side of Rock r., 181 m. N. by E. Springfield. This is a fine farming town, on the line of the Rockford and Rock Island R. R., now in construction.

ROSCOE, p. v., Henry county, *Mo.*: 93 miles W. by S. Jefferson City.

ROSCOE, p. o., Todd co., *Ky.*: 157 m. S. W. Frankfort.

ROSCOE, p. v., Coshocton co., *Ohio*: on W. side of Muskingum r., and on the Ohio Canal, 59 m. E. N. E. Columbus. The Muskingum is here formed by the confluence of the Walhonding and Tuscarawas rivers, which are crossed by a fine bridge, just above their confluence. Roscoe has good water-power, an iron foundry, boat-yard, mills, and several stores. The Walhonding Canal, which extends to Rochester, 25 m., here unites with the Ohio Canal. By these canals Roscoe has become a great dépôt for wheat and other merchandise. In times of high water, steamboats occasionally run up to this point on the Muskingum. This town was first laid out in 1816, and named Caldersburg. It is a healthful and beautiful place, and surrounded by fine scenery. Pop. about 500.

ROSCOMMON county, *Mich.* Situate N. centrally, and contains 576 sq. m. Drained by the branches of the Maskogon and South rivers, and streams of Higgins' and Houghton's lakes. Surface even; soil various, but for the most part fertile. Organized since 1850.

ROSE, t. and p. o., Oakland co., *Mich.*: 47 m. E. Lansing. Watered by the E. branch of Shiawassee r. Pop. in 1840, 415; in 1850, 886.

ROSE, t. and p. o., Wayne co., *N. Y.*: 7 m. N. E. Lyons, 164 m. W. by N. Albany. Surface undulating; soil, gravelly loam; drained by small streams flowing into Lake Ontario. It contains several saw-mills, a fulling-mill, and tannery. Pop. in 1840, 2,093; in 1850, 2,264.

ROSE, t. and p. o., Carroll co., *Ohio*: 97 m. E. N. E. Columbus. The Beaver Canal passes through its N. W. corner. Pop. 1,537.

ROSEBORN, p. o., Otsego co., *N. Y.*: 51 m. W. Albany.

ROSEBURG, p. v., Perry co., *Penn.*: 29 m. W. Harrisburg. ROSE CREEK, p. o., McNairy county, *Tenn.*: 120 m. S. W. Nashville.

ROSEDALE, p. v., Madison county, *Ohio*: 25 m. W. N. W. Columbus.

ROSE GROVE, p. o., Appomattox co., *Virg.*: 73 m. W. by S. Richmond.

ROSE HILL, p. o., Seneca county, *N. Y.*: 153 m. W. Albany.

ROSE HILL, p. v., Jasper co., *Ill.*: on E. side of Embarras r., 88 m. E. S. E. Springfield.

ROSE HILL, p. o., Amité co., *Miss.*: on W. side of branch of Amité r., 100 m. S. S. E. Jackson.

ROSE HILL, p. o., Lee co., *Virg.*: about 17 m. E. Cumberland Gap, 319 m. W. by S. Richmond.

ROSE HILL, p. o., Mahaska co., *Ia.*: on N. side of Skunk r., 50 m. S. W. by W. Iowa City.

ROSELAND, p. o., Nelson county, *Virg.*: 73 m. W. by N. Richmond.

ROSE MILLS, p. o., Amherst co., *Virg.*: on S. side of Tye r., a branch of James r., 87 m. W. by N. Richmond.

ROSENDALE, t. and p. v., Ulster co., *N. Y.*: on N. side of Rondout Kill, 63 m. S. by W. Albany. Here is found in great abundance the best of hydraulic cement, which is manufactured in large quantities by two cement mills. The unoccupied water-power at this place is very extensive. About 2 m. below the v., near the high falls of the Rondout, is a mineral spring, possessing valuable properties. Pop. of t. 2,418.

ROSENDALE, t. and p. o., Fond du Lac co., *Wisc.*: 65 m. N. E. by N. Madison. Pop. 714.

ROSE TREE, p. o., Delaware co., *Penn.*: 81 m. E. by S. Harrisburg.

ROSEVILLE, p. v., Parke co., *Ind.*: on S. side of Big Raccoon cr., 58 m. W. by S. Indianapolis.

ROSEVILLE, p. o., Franklin co., *Ark.*: on S. side of Arkansas r., 95 m. W. N. W. Little Rock.

ROSEVILLE, p. o., Macomb co., *Mich.*: 84 m. E. Lansing.

ROSEVILLE, p. v., Muskingum co., *Ohio*: on S. fork of Jonathan's cr., 49 m. E. by S. Columbus; contains a few mills and stores, and about 200 inhabitants.

ROSECLARE, p. o., Hardin co., *Ill.*: 1 1/4 m. N. of Ohio r., 125 m. S. S. E. Springfield.

ROSLIN, p. o., Marquette co., *Wisc.*: 57 m. N. Madison.

ROSLYN, p. o., Queen's co., *N. Y.*: at southern extremity of Hempstead Harbor, 133 m. S. Albany.

ROSS county, *Ohio*. Situate toward the S., and contains 644 sq. m. Scioto river flows through it from N. to S., by which and its branches it is drained. Surface varied, in the N. being level, and in the S. hilly and broken; soil generally fertile; in the level portions the land is rich and very productive. There is some good timber land, and it has excellent pasturage for cattle, large numbers of which are exported. It has good water privileges. Farms 1,435; manuf. 141, dwell. 5,575, and pop.—wh. 30,207, fr. col. 1,867—total 32,074. *Capital*: Chillicothe. *Public Works*: Ohio Canal, and etc.

ROSS, t. and p. o., Butler co., *Ohio*: on W. side of Miami river, 94 m. W. S. W. Columbus. Drained by Miami r. and its branches. Pop. in 1840, 1,526; in 1850, 1,645.

ROSS, p. o., Anderson co., *Tenn.*: 147 m. E. Nashville.

ROSSBURG, p. v., Decatur co., *Ind.*: on S. side of branch of Salt creek, a tributary of Whitewater river, 49 m. S. E. Indianapolis.

ROSS' CORNER, p. o., York county, *Me.*: 79 m. S. S. W. Augusta.

ROSSEAU, p. v., Morgan county, *Ohio*: 59 m. E. S. E. Columbus.

ROSS' FERRY, p. o., Livingston county, *Ky.*: 199 miles S. W. by W. Frankfort.

ROSS' GROVE, p. o., De Kalb co., *Ill.*: on W. side of Little Indian cr., 134 m. N. by E. Springfield.

ROSSIE, t. and p. v., St. Lawrence county, *N. Y.*: 150 m. N. W. Albany. Surface of t. undulating and somewhat broken; soil fertile loam, resting on lime, granite, and sandstone. Drained by Oswegatchie and Indian rivers. Iron and lead ore are found in great abundance. The lead ore are of the finest quality, and apparently inexhaustible.

These have been extensively worked since 1837 by three companies, which have produced and sent to market large amounts of lead. The veins have been traced 15 m., varying in width from 6 inches to 2 feet, lying in a fissure of rock in a solid mass; and from its location, its depth is evidently very great. The mine on Cole Hill is the principal, the surface of which has been laid bare for a considerable distance, bounded on either side by granite rock. The mine is regarded by geologists as an anomaly in the mineral kingdom, and great natural curiosity, as well as a source of inexhaustible wealth. The v., on Indian r., is the principal locality of these mines, and is a scattered manufacturing settlement, containing an extensive furnace and forge, iron foundry and machine shop, 1 grist-mill, 1 saw-mill, 2 taverns, several stores, and about 900 inhabitants. Pop. of t. in 1840, 1,559; in 1850, 1,471.

ROSTOWN, p. o., Shelby co., *Tenn.*: 179 m. W. S. W. Nashville.

ROSSVILLE, p. v., Walker co., *Ga.*: a short distance from the Tennessee boundary, 183 m. N. W. Milledgeville. Formerly a missionary station in the Cherokee Nation.

ROSSVILLE, p. v., Clinton co., *Ind.*: on S. side of Middle fork of Ponceanichious r. or Wild Cat cr., 49 m. N. N. W. Indianapolis.

ROSSVILLE, p. v., Baltimore co., *Md.*: 35 m. N. Annapolis.

ROSSVILLE, p. v., Richmond co., *N. Y.*: on Staten Island

Sound, 145 m. S. by W. Albany. It contains 2 carriage manufactories, a few stores and dwellings, has a steamboat landing, and a ferry to the Jersey shore, formerly known as the Old Blazing Star Ferry.

ROSSVILLE, p. o., Chester district, *S. Car.*: 45 m. N. Columbia.

ROSSVILLE, p. v., Butler co., *Ohio*: on W. side of Miami r., 89 m. W. S. W. Columbus. A flourishing and wealthy v. The "Miami Democrat" is issued weekly. Pop. 1,452.

ROSSVILLE, p. v., York county, *Penn.*: 14 m. S. by W. Harrisburg.

ROSTRAYER, t. and p. o., Westmoreland co., *Penn.*: on E. side of Monongahela r., 132 m. W. Harrisburg.

ROSSELL, p. o., Cobb co., *Ga.*: on N. side of Chattahoochee r., 95 m. N. W. Milledgeville.

ROTHERWOOD, p. o., Carroll co., *Ga.*: 109 m. W. by N. Milledgeville.

ROTTERDAM, t. and p. o., Schenectady co., *N. Y.*: 19 m. N. W. Albany. Surface rolling; soil sandy loam and alluvion, very productive along the Mohawk r., which bounds it on the N.; also watered by some small creeks flowing into the Mohawk. The Erie Canal passes through its N. part. Pop. of t. in 1840, 2,284; in 1850, 2,446.

ROUBIDOUX, p. o., Texas co., *Mo.*: on E. side of Roubidoux fork of Gasconade r., 79 m. S. Jefferson City.

ROUGE river (of the Detroit), *Mich.*: is formed from three principal tributaries which rise in Oakland and Washtenaw counties, and unite in the E. part of Wayne co. The Rouge river empties into the Detroit r., 5 m. below Detroit, and is navigable for small vessels to Dearbornville. Toward its mouth it is deep and sluggish, but the greater portion of it is very rapid, having great descent, and with its numerous branches furnishing very great water-power.

ROUGH AND READY, p. o. and sta., Chambers co., *Ala.*: on Montgomery and West Point R. R., 63 m. from Montgomery, 20 m. from West Point.

ROUGH AND READY, p. o., Anderson county, *Ky.*: 18 m. S. S. W. Frankfort.

ROUGH AND READY, p. o., Hancock county, *Ill.*: 83 m. W. N. W. Springfield.

ROUGH AND READY, p. o. and sta., Fayette co., *Ga.*: on Macon and Western R. R., 11 m. from Atlanta and 90 m. from Macon, 79 m. N. W. by N. Milledgeville.

ROUGH AND READY, p. o., Steuben county, *N. Y.*: 190 m. W. by S. Albany.

ROUGH AND READY, p. o., Warren co., *Tenn.*: 67 m. S. E. Nashville.

ROUGH AND READY MILLS, p. o., Henry co., *Virg.*: 143 m. S. W. Richmond.

ROUGH CREEK, p. o., Charlotte co., *Virg.*: 71 m. W. S. W. Richmond.

ROUGH CREEK, p. o., Grayson co., *Ky.*: 101 m. W. S. W. Frankfort.

ROULETTE, t. and p. o., Potter co., *Penn.*: 122 m. N. N. W. Harrisburg.

ROUND island, *Mich.*: a small island on the N. part of Lake Huron, between Bois Blanc and Mackinaw islands.

ROUND lake, *N. Y.*: a handsome sheet of water, lying in the t. of Lake Pleasant, Hamilton co., connected by an outlet $\frac{1}{2}$ m. long, with Lake Pleasant. It is surrounded by a fine region of country, abounds with trout and other fish, and much resorted to by sportsmen.

ROUND lake, *N. Y.*: in the t. of Malta, Saratoga co., is a small lake, abounding in perch, pickerel, and other fish.

ROUND GROVE, p. o., Carroll co., *Mo.*: 95 m. W. N. W. Jefferson City.

ROUND HEAD, t. and p. v., Hardin co., *Ohio*: 53 m. N. N. W. Columbus. Drained by the head branches of Scioto and Miami rivers. The v., situated on the former, contains 135 inhabitants. Pop. of t. in 1840, 569; in 1850 (including pop. of v.), 655.

ROUND HILL, p. v., Fairfield county, *Conn.*: 72 m. S. W. Hartford. Contains a church and several dwellings.

ROUND HILL, p. o., Cooper county, *Mo.*: 32 m. W. by N. Jefferson City.

ROUND HILL, p. o., Orange co., *N. Car.*: 81 m. N. W. Raleigh.

ROUND POND, p. o., Lincoln county, *Me.*: 26 m. S. E. Augusta.

ROUND PRAIRIE, p. o., Dallas county, *Mo.*: 75 m. S. W. Jefferson City.

ROUND TOP, p. o., Fayette co., *Tex.*: on Cummin's cr. of Colorado r., on the post-road from Lagrange to Washington, 64 m. E. by S. Austin City.

ROUSE'S POINT, p. v. and sta., Clinton co., *N. Y.*: on the W. side of Lake Champlain, 166 m. N. by E. Albany. It is about $\frac{1}{2}$ m. S. of the Canada line. Soon after the war of 1812, the United States commenced the construction of a strong fortification, a short distance N. of the v., to guard the entrance of the lake. It was subsequently found that this site was within the Canada line, and the further construction of the work, upon which some \$400,000 had been expended, was abandoned. However, this spot has since been ceded to the United States, and this fine fortification, now in dilapidation, may at some period be completed. At this point, the great railroad route between Ogdensburg and Boston, here crosses the lake. Previous to the construction of the railroad, this place was of no importance. It is now a great depot for merchandise and produce, and important landing-place for the boats on Lake Champlain. The railroad crosses the lake by a permanent bridge, 5,000 feet long, and a draw-bridge on pontoons, 300 feet by 30, which is swung round when not in use, so as to give free navigation. The dock is 800 by 164 feet, and the depot 550 by 104 feet. The improvements are all of the most permanent character. The Champlain and St. Lawrence R. R. extends hence to Montreal, 47 m. Rouse's Point is distant from Ogdensburg, by the Northern R. R., 113 m.; from Boston, by both routes, 288 m. The v. is generally flourishing, and increasing in population.

ROVER, p. o., Bedford county, *Tenn.*: 47 m. S. S. E. Nashville.

ROWAN county, *N. Car.* Situate W. centrally, and contains 332 sq. m. Drained by Yadkin r. and its branches. Surface undulating; soil a fine deep mold and very fertile, and well adapted to grain and grazing, fruits, etc. Chief productions, cotton, tobacco, wheat, and Indian corn. Farms 1,070; manuf. 108; dwell. 1,542, and pop.—wh. 9,901, fr. col. 115, sl. 3,854—total 13,870. *Capital*: Salisbury.

ROWE, t. and p. v., Franklin co., *Mass.*: 98 m. W. by N. Boston. Surface elevated and in some parts mountainous; soil best adapted to grazing. Drained by Deerfield r., which forms its W. boundary, and by Pelham brook, passing through the centre of the t., on which are the ruins of old Fort Pelham, erected in 1744. The v. in the centre of t. is a neat settlement, has some manufactures, and contains 3 churches. Pop. of t. 659.

ROWENA, p. o., Russell co., *Ky.*: 79 m. S. Frankfort.

ROWE'S, sta., Orangeburg district, *S. Car.*: on Columbia Branch R. R., 53 m. from Columbia, 71 m. from Charleston.

ROWE'S CORNER, sta., Merrimac county, *N. Hamp.*: on Portsmouth and Concord R. R., 13 m. S. S. E. Concord, and 34 m. from Portsmouth.

ROWESVILLE, p. v., Bedford co., *Tenn.*: 55 m. S. S. E. Nashville.

ROW'S, p. o., Ashland co., *Ohio*: on W. side of Muddy fork of Walhonding r., 73 m. N. N. W. Columbus.

ROWLANDSVILLE, p. v., Cecil co., *Md.*: 52 m. N. E. by N. Annapolis.

ROWLANDSVILLE, p. o., Stanly county, *N. Car.*: 103 m. W. S. W. Raleigh.

ROWLEY, t. p. v., and sta., Essex county, *Mass.*: 27 m. N. by E. Boston. Soil of t. diversified by a large portion is salt meadow, the arable soil is fertile. Watered by Rowley river, which, before its junction with Plum Island Sound, affords harborage for small vessels. Plum island belongs to

this t. The v. at the centre contains 2 churches. The Eastern R. R. passes through the t., 29 m. from Boston. This t. was first settled in 1639, by an industrious and pious company from Yorkshire, England, who erected the first fulling-mill in New England, and manufactured the first cloth in North America. The ancient township of R. was divided in 1838, and its W. part incorporated by the name of Georgetown. Pop. of t., 1,075.

ROXANA, t. and p. o., Eaton county, *Mich.*: 17 m. W. Lansing. Pop. 383.

ROXBOROUGH, p. v., and cap. Person co., *N. Car.*: 55 m. N. N. W. Raleigh. It contains a court-house, jail, a few stores, and about 150 inhabitants.

ROXBURY, t. and p. o., Oxford co., *Me.*: 45 m. N. W. by W. Augusta. Surface elevated and well timbered, with some good soil. Watered by Swift brook, a branch of Androscoggin r., flowing S. through its centre. Incorporated in 1835. Pop. 246.

ROXBURY, t. and p. v., Litchfield co., *Conn.*: 86 m. W. S. W. Hartford. Surface of t. diversified; soil chiefly gravelly loam. Watered by Shepang r., a branch of the Housatonic, flowing through its W. part. The t. was taken from Woodbury, and incorporated in 1801. The v. in the centre of the t. contains 2 churches, a few stores, etc. Pop. of t. in 1840, 971; in 1850, 1,114.

ROXBURY, L. p. city, and sta., Norfolk co., *Mass.*: 2 m. S. by W. Boston, with which it is closely connected by a narrow neck of land—"Boston Neck"—over which there are 4 broad and pleasant avenues. The natural surface of the city was very uneven and rocky, which gave to it its name, from the abundance of rocks; and though much changed by building improvements, is still much diversified. The soil is generally fertile and highly cultivated. The dwellings are noted for their elegance, and are generally surrounded by ornamental gardens. The entire appearance of the city is most delightful, and it is one of the most pleasant suburbs of Boston, with which its business and wealth are most intimately connected, and can hardly be considered as separate from the metropolis. It has, however, considerable trade of its own, and its manufactures are various and extensive. These consist of carpeting, cordage (the New England Company has a capital of \$75,000, employing 180 men), India-rubber goods, railroad iron, iron castings, fire-engines, steam-engines, and boilers; sheet lead, white lead, chemical preparations, turpentine, etc.; worsted and silk fringes and lining; patent leather, hats, shoes, cabinet-ware, etc. Steam-power is employed by about 30 establishments. There is 1 bank, capital \$150,000; one institution for savings, 2 insurance companies, and 6 churches, several of which are located on elevated positions, and make a beautiful appearance. The Boston and Providence R. R. passes through the city, and is much used by the citizens in passing to and from Boston. Several lines of omnibuses afford constant communication with the city. The "Norfolk County Journal" (whig), and "Roxbury Advertiser" (neut.), are issued weekly.

Roxbury was incorporated as a town Sept. 23, 1630 (in the same year with Boston); and as a city, March 12, 1846. The territory of the city is $7\frac{1}{2}$ m. long, $2\frac{1}{2}$ m. broad, and comprises an area of 10,656 acres. It is governed by a Mayor, Board of Aldermen, and Common Council, elected annually. Excellent provisions are made for public schools, etc. The following table exhibits the valuation of estates in Roxbury, from 1837 to 1845 inclusive:

Year.	Valuation.	Year.	Valuation.	Year.	Valuation.
1837....	\$5,575,000	1841....	\$6,941,600	1845....	\$9,569,800
1838....	5,979,900	1842....	7,341,600	1846....	12,531,100
1839....	6,493,600	1843....	7,710,000	1847....	12,628,300
1840....	6,721,000	1844....	8,573,600	1848....	13,192,600

In the W. part of the t. is an extensive level, on which is situated the beautiful p. v. of Jamaica Plains, near Jamaica Pond, from which Boston was, to a considerable extent,

supplied with water, until the opening of the Cochituate Aqueduct, in 1848. The Forest Hills Cemetery is situated a short distance from the city, on the Dedham turnpike. This beautiful city of the dead has an area of about 70 acres. The grounds are picturesquely diversified, and abounding with trees, shrubbery, and flowers. Here are monuments of General Joseph Warren, who fell at the battle of Bunker Hill, June 17, 1776; and of Rev. John Eliot, the "Apostle of the Indians," who was pastor of the first church in Roxbury for 58 years—from 1632 until his death, in 1690. The entrance is an ornamental structure, in the Egyptian style. On one of the highlands in the city still remains, in a very perfect state of preservation, the breastwork and trenchments of a large military fortress constructed at that period. The population of Roxbury at different periods is as follows:

Year.	Pop.	Year.	Pop.	Year.	Pop.
1765.....	1,487	1810.....	3,669	1840.....	9,089
1790.....	2,226	1820.....	4,135	1850.....	13,373
1800.....	2,765	1830.....	5,247		

ROXBURY, t. and p. o., Cheshire co., *N. Hamp.*: 89 m. N. W. by W. Concord. Surface rough and uneven, but has excellent grazing land. Drained by N. branch of Ashuelot r., which forms its W. boundary, and in its S. part by Roaring brook. On its E. side is Roaring Brook pond, at the outlet of which are mills. Incorporated in 1812. Pop. in 1840, 286; in 1850, 260.

ROXBURY, t. and p. o., Delaware co., *N. Y.*: 48 m. S. W. Albany. Surface hilly and mountainous, the Catskill Mountains passing through its E. portion; soil sandy loam, very productive in the valleys. Drained S. by the Papacot branch of Delaware r. The inhabitants are chiefly engaged in agricultural pursuits. Pop. in 1840, 8,013; in 1850, 2,858.

ROXBURY, p. v., Franklin co., *Penn.*: on N. side of Conodogwinnet cr., and E. side of Blue Mountain, 42 m. W. by S. Harrisburg. It contains a charcoal forge, constructed 1790, which, in 1849, made 90 tons of bars, employing 10 men.

ROXBURY, t. p. v., and sta., Washington co., *Verm.*: 15 m. S. by W. Montpelier. Surface elevated and uneven; soil fertile. Drained by head branches of Dog and White rivers, the former affords water-power. Iron ore is found in the S. E. part. First settled in 1759. The Vermont Central R. R. passes through the t., 60 m. from Windsor, and 97 m. from Rouse's Point. Pop. of t. 967.

ROXO, p. o., Marquette county, *Wis.*: 52 m. N. N. E. Madison.

ROXBEL, p. o., Bertie county, *N. Car.*: 97 m. E. by N. Raleigh.

ROYAL CENTRE, p. o., Cass county, *Ind.*: 65 m. N. Indianapolis.

ROYAL OAK, p. o., Talbot county, *Md.*: 24 m. E. S. E. Annapolis.

ROYAL OAK, t. p. v., and sta., Oakland co., *Mich.*: 73 m. E. S. E. Lansing. Drained in N. part by Red r., and in S. part by Bloody Run. The Detroit and Pontiac R. R. passes through the v., 12 from Detroit, and 13 m. from Pontiac. It contains a steam saw-mill, a few stores, and has some manufactures. Pop. of t. in 1840, 860; in 1850, 1,092.

ROYAL OAKS, p. o., Cumberland co., *Virg.*: 73 m. W. by B. Richmond.

ROYALSTON, t. p. v., and sta., Worcester co., *Mass.*: 61 m. W. N. W. Boston. Surface diversified; soil generally productive, and upon the streams consists of excellent meadow land. Drained by Miller's r. and its tributaries. Several small streams, one of which has a perpendicular fall of 20 feet, and descends 100 feet in 40 rods, unite and form Tully r., which pours into Miller's r. a great quantity of water. These various streams afford good mill-sites. There are 2 ponds within $\frac{1}{2}$ m. of each other, which vary in height 150 feet, and abound with fish. The t. was first settled in 1754, and incorporated in 1765. The v. near the centre of the t. is a handsome settlement. The Vermont and Massachusetts R. R. passes through the S. part of the t., at South Royal-

ston, 27 m. from Fitchburg. Pop. of t. in 1840, 1,667; in 1850, 1,546.

ROYALTON, p. v., Boone co., *Ind.*: on E. side of branch of Eagle cr., a tributary of W. fork of White r., 14 m. N. W. Indianapolis.

ROYALTON, t. and p. o., Niagara county, *N. Y.*: 252 m. W. by N. Albany. Surface undulating; soil fertile calcareous loam. Watered by Tonawanda cr., which bounds it on the S. The t. contains the villages of Middleport and Gasport, which latter derives its name from a spring of inflammable natural gas, used to some extent. The Erie Canal, and the Rochester, Lockport, and Niagara Falls R. R. pass through the town. Pop. in 1840, 3,549; in 1850, 4,024.

ROYALTON, p. v., Fairfield co., *Ohio*: on S. side of branch of Little Walnut cr., 21 m. S. E. by S. Columbus. Contains a church and some stores. Pop. 252.

ROYALTON, t., p. v., and sta., Windsor co., *Verm.*: 31 m. S. Montpelier. Surface broken and mountainous; soil fertile, particularly along White r., by which and its branches it is watered. The agricultural products are of considerable amount. The v. is pleasantly situated on the bank of White r., and contains a handsome church, academy, stores, etc. It was first settled in 1771, and suffered much from Indian hostilities. The Vermont Central R. R. passes through it, 123 m. from Rouse's Point, 43 m. from Montpelier, and 34 m. from Windsor. Pop. of t. in 1840, 1,917; in 1850, 1,850.

ROYER'S FORD, p. o. and sta., Montgomery co., *Penn.*: 51 m. E. Harrisburg, on the N. bank of Schuylkill r., and on Philadelphia and Reading R. R., 32 m. from Philadelphia.

ROYTON, p. o., Delaware county, *Ind.*: 49 miles N. E. Indianapolis.

RUAEK, p. o., Lawrence co., *Ill.*: on a small branch of Wabash r., 124 m. S. E. Springfield.

RUCKERSVILLE, p. v., Elbert co., *Ga.*: on N. side of Van's cr., 80 m. N. N. E. Milldegeville. Contains a Baptist church, academy, several stores and dwellings.

RUCKERSVILLE, p. o., Tippah co., *Miss.*: 176 m. N. N. E. Jackson.

RUCKERSVILLE, p. v., Greene co., *Virg.*: 63 m. N. W. Richmond.

RUCKERVILLE, p. o., Clark county, *Ky.*: 45 m. E. by S. Frankfort.

RUCKMANVILLE, p. o., Highland county, *Virg.*: 127 m. W. N. W. Richmond.

RUDDE'S MILLS, p. o., Bourbon co., *Ky.*: 37 m. E. by N. Frankfort.

RUDE'S MILLS, p. o., Lewis co., *Virg.*: 185 m. N. W. Richmond.

RUGGLES, t. and p. o., Ashland co., *Ohio*: 77 m. N. by E. Columbus. Drained by head branches of Vermillion river. Pop. 1,085.

RUMA, p. v., Randolph county, *Ill.*: 114 miles S. by W. Springfield.

RUMFORD, t. and p. o., Oxford co., *Me.*: on N. W. side of Androscoggin r., 43 m. W. N. W. Augusta. The surface is somewhat diversified. White Cap Mountain rise 600 feet and Glass-face about 400 feet above the level of the surrounding country, and present beautiful views from their summits. The soil is fertile, adapted to grain. Drained by the Androscoggin and its branches, Ellis and Swift brooks, which together furnish a great water-power. Incorporated in 1800. Pop. in 1840, 1,444; in 1850, 1,375.

RUMFORD CENTRE, p. o., Oxford co., *Me.*: 45 m. W. N. W. Augusta.

RUMFORD POINT, p. o., Oxford co., *Me.*: 46 m. W. N. W. Augusta.

RUMMERFIELD CREEK, p. o., Bradford co., *Penn.*: 116 m. N. by E. Harrisburg.

RUMNEY, t., p. o., and sta., Grafton co., *N. Hamp.*: 45 m. N. N. W. Concord. Surface is uneven, and abounds with beautiful scenery; soil moderately fertile. Drained by Baker's r. and its branches. First settled in 1765. It con-

tains several tanneries, saw-mills, and stores. The Boston, Concord, and Montreal R. R. passes its S. part, 59 m. from Concord. Pop. in 1830, 993; in 1840, 1,116; in 1850, 1,109.

RUMNEY, p. v., Mecklenburg co., *Ky.*: 141 m. W. S. W. Frankfort.

RUNDELL'S, p. o., Crawford co., *Penn.*: 186 m. N. W. Harrisburg.

RUPERT, t., p. v., and sta., Bennington co., *Verm.*: 79 m. S. W. Montpelier. Surface mountainous; soil good for grazing. Watered by Pawlet r. and White cr. of Battenkill, which afford water-power, improved by mills of various kinds. Some fine cattle are raised and large numbers of sheep. First settled in 1767. The Rutland and Washington R. R. passes through the t., 36 m. from Rutland, 49 m. from Troy. Pop. of t. in 1840, 1,086; in 1850, 1,101.

RURAL, p. o., Clermont co., *Ohio*: 86 m. S. W. Columbus.

RURAL, p. o., Jasper co., *Mo.*: 92 m. S. W. Jefferson City.

RURAL HILL, p. o., Wilson co., *Tenn.*: 15 m. E. Nashville.

RURAL HILL, p. o., Jefferson co., *N. Y.*: 142 miles N. W. Albany.

RURAL RETREAT, p. o., Wythe co., *Virg.*: 208 m. W. by S. Richmond.

RURAL VALE, p. o., Lapeer co., *Mich.*: 88 m. E. N. E. Lansing.

RURAL VALLEY, p. o., Armstrong county, *Penn.*: 182 m. W. N. W. Harrisburg.

RUSK county, *Ind.* Situate toward the S. E., and contains 442 sq. m. Drained by Big and Little Blue rivers, and Big and Little Flat Rock creeks, by which fine water-power is gained. Surface undulating or rolling, with occasional ridges of low hills; soil a rich vegetable mold, and very fertile. Chief productions wheat, Indian corn, potatoes, and tobacco. There is much fine grazing land in the co., and large numbers of cattle, sheep, and hogs are fattened and exported. Fine timber is found on the land. Farms 1,809; manuf. 59; dwell. 2,824, and pop.—wh. 16,226, fr. col. 219—total 16,445. *Capital*: Rushville. *Public Works*: Junction R. R.; Shelbyville and Rushville R. R.; Shelbyville and Knightstown R. R.; Central R. R.; Lawrenceburg and Upper Mississippi R. R.

RUSK, t. and p. v., Monroe co., *N. Y.*: on E. side Genesee r., 201 m. W. by N. Albany. Surface undulating; soil very fertile, producing large crops of wheat and other grain. Drained by Honeoye cr., flowing W. through its centre into Genesee r. The v. on Honeoye cr. contains 2 taverns, 2 churches, 4 stores, a flouring and saw mill, ashery, carding machine, and about 200 inhabitants. Pop. of town in 1840; 1,929; in 1850, 2,015.

RUSK, t. and p. o., Susquehanna co., *Penn.*: on Wyalusing creek, 108 m. N. N. E. Harrisburg. Surface hilly; soil gravelly loam. It contains several tanneries, grist and saw mills, and has some manufactures. Pop. about 1,200.

RUSK, t. and p. o., Tuscarawas co., *Ohio*: 86 m. E. N. E. Columbus. Watered by branches of Tuscarawas river, and contains several grist, saw, and flouring mills. Pop. in 1840, 1,293; in 1850, 1,332.

RUSK, t. and p. o., Shiawassee co., *Mich.*: on W. side of Shiawassee r., 25 m. N. E. Lansing. Pop. about 100.

RUSK, p. o., Jo Daviess co., *Ill.*: 175 m. N. by W. Springfield.

RUSK BOTTOM, p. o., Holt county, *Mo.*: 194 miles N. W. Jefferson City.

RUSK CREEK, p. o., Union county, *Ohio*: 41 miles N. W. Columbus.

RUSINFORD, t. and p. v., Allegany county, *N. Y.*: 230 m. W. by S. Albany. Surface undulating; soil clay loam and gravelly mold, well adapted to grass. Drained E. by Cold cr. of Genesee r. The v. is a thriving business place, containing 2 churches, 3 taverns, several mills and stores, and about 800 inhabitants. Population of t. in 1840, 1,512; in 1850, 1,506.

RUSH LAKE, p. o., Fond du Lac co., *Wis.*: 65 m. N. N. E. Madison.

RUSH TOWER, p. o., Jefferson co., *Mo.*: on W. bank of Mississippi r., 107 m. E. by S. Jefferson City.

RUSHROPP, p. o., Northumberland county, *Penn.*: 45 m. N. by E. Harrisburg.

RUSHVILLE, t. p. v., and cap. Schuyler co., *Ill.*: 52 m. W. N. W. Springfield. Is a handsome and flourishing v. pleasantly located at the S. end of a beautiful fertile prairie, skirted by fine timber at the head of a small stream. It contains a brick court-house 2 stories high, a jail, and 4 churches. The "Prairie Telegraph" (neut.) is issued weekly. Pop. about 1,000.

RUSHVILLE, p. v., sta., and cap. Rush co., *Ind.*: on N. bank of Big Flat Rock cr., 83 m. E. by S. Indianapolis. It was first settled in 1821, and contains a court-house, jail, 3 churches, several mills and stores. Two newspapers are published weekly, "Republican" (whig), and "Jacksonian" (dem.) The Rushville and Shelbyville R. R. extends hence to Shelbyville 20 m., and is part of an extensive line of railroad now constructing across the State. Pop. in 1850, 2,108.

RUSHVILLE, p. v., Yates co., *N. Y.*: 177 m. W. Albany. Is a thriving v., containing 2 churches, academy, 2 taverns, 2 furnaces, mills, stores, etc., and about 600 inhabitants.

RUSHVILLE, p. v., Fairfield co., *Ohio*: on W. side of Rush cr., 83 m. E. S. E. Columbus. It contains 60 dwellings, and 300 inhabitants, and several mills in the vicinity.

RUSHVILLE, p. v., Susquehanna county, *Penn.*: 106 m. N. N. E. Harrisburg.

RUSHYLVANIA, p. o., Logan county, *Ohio*: 49 miles N. W. Columbus.

RUSK county, *Tex.* Situate W. toward the N., and contains 1,184 sq. m. Drained by branches of Angelina and Attoyac rivers. Surface undulating; soil very fertile, and adapted to the growth of cotton, corn, fruits, etc. Pine timber is abundant. Farms 567; manuf. 15; dwell. 1,045, and pop.—wh. 6,012, fr. col. 0, sl. 2,186—total 8,148. *Capital*: Henderson.

RUSK, p. o., Haywood county, *Tenn.*: 141 m. W. S. W. Nashville.

RUSK, p. v., and cap. Cherokee county, *Tex.*: 190 miles N. E. by E. Austin City. Pop. 832.

RUSK, p. o., Surry county, *N. Car.*: 120 m. W. N. W. Raleigh.

RUSSELL county, *Ala.* Situate toward the S., and contains 858 sq. m. Drained by branches of Chattahoochee r., which forms its E. boundary. Surface undulating; soil fertile, and is well adapted to cotton, a large quantity of which is produced in the county. The land is rich and productive, and fine crops of wheat and corn are raised. It has some good timber land. Farms 1,049; manuf. 4; dwell. 1,411, and pop.—wh. 8,405, fr. col. 32, sl. 11,111—total 19,548. *Capital*: Crawford. *Public Works*: Girard and Mobile R. R.; Montgomery and West Point R. R.

RUSSELL county, *Ky.* Situate S. toward the E., and contains 316 sq. m. Drained by Cumberland river and its branches. Surface undulating; soil fertile, and adapted to grain; a portion of the land is devoted to pasturage. Chief productions, rice, cotton, and tobacco. Farms 663; manuf. 13; dwell. 840, and pop.—wh. 4,901, fr. col. 13, sl. 435—total 5,349. *Capital*: Jamestown. *Public Works*: Lexington and McMinnville R. R.

RUSSELL county, *Virg.* Situate S. W., and contains 1,312 sq. m. Drained by Clinch r. and head branches of W. fork of Sandy river. Surface much broken and rocky, consisting principally of mountain ranges and valleys; soil fertile. Chief products wheat and Indian corn. Farms 942; manuf. 14; dwell. 1,756, and pop.—wh. 10,867, fr. col. 70, sl. 982—total 11,919. *Capital*: Lebanon.

RUSSELL, t. p. v., and sta., Hampden county, *Mass.*: on Westfield r., 94 m. W. by S. Boston. Surface elevated and mountainous, abounding with wild and romantic scenery. Some of the high lands afford good grazing, and in the valleys are tracts of fertile meadow. Westfield river and its main branch, which flow rapidly through it, afford an im-

mense water-power, improved by a few factories. Stone wood, and other building materials are abundant. The Western R. R. passes through the t., 13 m. from Springfield, 116 miles from Boston. Incorporated in 1792. Population of t. 521.

RUSSELL, t. and p. o., St. Lawrence co., *N. Y.*: 151 m. N. N. W. Albany. Surface somewhat uneven; soil sandy and clay loam, well adapted for grazing. Drained N. by Grass river flowing through its centre. The v. is a small settlement containing a State arsenal, several saw-mills, a tannery, etc. Pop. of t. in 1840, 1,373; in 1850, 1,308.

RUSSELL, t. and p. o., Geauga co., *Ohio*: 130 m. N. E. Columbus. Watered by the N. head branch of Chagrine river, and contains several saw and grist mills, etc. Pop. in 1840, 742; in 1850, 1,038.

RUSSELL, p. o., Atcheson county, *Mo.*: 213 miles N. W. Jefferson City.

RUSSELL HILL, p. o., Wyoming co., *Penn.*: 92 m. N. N. E. Harrisburg.

RUSSELL PLACE, p. o., Kershaw district, *S. Car.*: 40 m. N. E. Columbia.

RUSSELL'S CORNERS, p. o., Sank co., *Wis.*: 83 m. N. W. Madison.

RUSSELL'S MILLS, p. o., Tyler co., *Virg.*: 231 m. N. W. Richmond.

RUSSELL'S MILLS, p. o., Parke county, *Ind.*: 52 m. W. Indianapolis.

RUSSELL'S PLACE, p. o., Lawrence county, *Ohio*: 90 m. S. by E. Columbus.

RUSSELL'S STORE, p. o., Boone co., *Ill.*: 174 m. N. by E. Springfield.

RUSSELLVILLE, p. v., and cap. Franklin county, *Ala.*: on Cedar cr., a branch of Bear cr., which flows into the Tennessee river, 167 m. N. N. W. Montgomery. It contains a court-house, jail, and some 80 dwellings.

RUSSELLVILLE, p. o., Monroe co., *Ga.*: 49 m. W. by S. Milledgeville.

RUSSELLVILLE, p. v., Lawrence co., *Ill.*: on Wabash r., 174 m. E. S. E. Springfield.

RUSSELLVILLE, p. v., Putnam co., *Ind.*: between small branches of Little Raccoon creek, 44 miles W. by N. Indianapolis.

RUSSELLVILLE, p. v., and cap. Logan co., *Ky.*: 144 m. S. W. Frankfort. It contains a court-house, jail, seminary, and two churches. The "R. Herald" (whig) is published weekly. Pop. 1,272.

RUSSELLVILLE, p. v., Brown co., *Ohio*: 73 m. S. S. W. Columbus. Pop. 386.

RUSSELLVILLE, p. v., Cole county, *Mo.*: 15 m. W. by S. Jefferson City.

RUSSELLVILLE, p. v., Chester co., *Penn.*: 56 m. E. S. E. Harrisburg.

RUSSELLVILLE, p. o., Jefferson county, *Tenn.*: 201 m. E. Nashville.

RUSSELLSBURG, p. v., Warren co., *Penn.*: on W. side of Conewango cr., 164 m. N. W. Harrisburg.

RUSSIA, t. and p. v., Herkimer co., *N. Y.*: 91 m. N. W. by W. Albany. Surface high and hilly; soil sandy loam and clay, well adapted to grass. Drained S. by West Canada creek. The v. contains a church, a few stores and mills, and about 250 inhabitants. Pop. of t. in 1840, 2,293; in 1850, 2,349.

RUSSELLVILLE, p. v., Clinton co., *Ind.*: 83 m. N. by W. Indianapolis.

RUTESVILLE, p. v., Fayette county, *Tex.*: on the main post-road from Lagrange to Washington, and Rocky creek of Colorado r., 60 m. E. S. E. Austin City.

RUTHERFORD county, *N. Car.* Situate toward the S. W., and contains 859 sq. m. Drained by head branches of Broad r. Surface varied, some portions being rather hilly, but most generally level; soil in some places very fertile, while in others it is poor and unfit for cultivation. It is generally well adapted to grazing. Chief productions, cotton, tobacco, wheat, and Indian corn. Farms 959; manuf

28; dwell. 1,533, and pop.—wh. 10,425, fr. col. 220, sl. 2,905—total 13,650. *Capital*: Rutherfordton.

RUTHERFORD county, Tenn. Situate centrally, and contains 431 sq. m. Stone r. passes through the N. E. portion, by which and its branches and small affluents of Cumberland r. it is drained. Surface hilly; soil very fertile, and produces abundantly cotton, tobacco, wheat, grain, fruits, etc. Agriculture is the leading pursuit with a large number of the population. A portion of the land is well timbered, and some minerals are to be found. Farms 1,507; manuf. 41; dwell. 2,895, and pop.—wh. 16,914, fr. col. 230, sl. 11,973—total 29,122. *Capital*: Murfreesboro'. *Public Works*: Nashville and Chattanooga R. R.

RUTHERFORDTON, p. v., and cap. Rutherford co., N. Car.: 193 m. W. by S. Raleigh. Situated on a branch of Broad river, and contains a court-house, jail, academy, hotels, and flouring-mills. The "Mountain Banner" (State rights) is published weekly. Pop. 393.

RUTHER GLENN, p. o., Caroline county, Virg.: 33 m. N. Richmond.

RUTLAND county, Verm. Situate E. toward the S., and contains 948 sq. m. Drained by Otter cr., and Black, White, Pawlet, and Quechee rivers. Surface elevated, and in parts mountainous; but on Otter cr. are some portions of fertile land; soil various—in most parts well suited for pasture. Iron ore of a good quality is found here, and some quarries of excellent marble, much of which is exported. Chief products, wheat and Indian corn. This county has good water privileges. Farms 2,663; manuf. 275; dwell. 5,661, and pop.—wh. 32,933, fr. col. 120—total 33,059. *Capital*: Rutland. *Public Works*: Rutland and Burlington R. R.; Western Vermont R. R.; Rutland and Washington R. R.

RUTLAND, t. and p. v., Worcester co., Mass.: 47 m. W. Boston. Situated on the height of land between the sea and Connecticut r. Surface uneven and hilly; soil best adapted to grazing; watered by a branch of Ware river, which affords power for several mills. This t., formerly 12 miles square, was bought of the Indians for £23 in 1636, and incorporated in 1714. The v., in the central part of the t., contains a town-house, academy, handsome Congregational church, several neat dwellings, and has some manufactures. Pop. 1,223.

RUTLAND, t. and p. o., Jefferson co., N. Y.: 140 m. N. W. Albany. Surface undulating; soil fertile loam, underlaid by limestone. Drained S. W. by Sandy cr. and by Black r., which forms its N. boundary. In this t. and vicinity are found remains of Indian fortifications. It has some manufactures, several tanneries, saw, grist, and fulling mills. Pop. in 1840, 2,090; in 1850, 2,265.

RUTLAND, t. and p. v., Meigs county, Ohio: on N. side of Leading creek, a tributary of the Ohio, 77 m. S. E. by S. Columbus, containing several tanneries, grist, and saw mills, and has some manufactures. Pop. of t. in 1840, 1,410; in 1850, 1,745.

RUTLAND, t. and p. o., Tioga county, Penn.: 104 m. N. Harrisburg. Surface hilly; soil gravelly loam; contains a few mills. Pop. about 750.

RUTLAND, t. p. v., sta., and cap. Rutland co., Verm.: on Otter cr., 50 m. S. S. W. Montpelier. Surface of t. uneven; soil various, from a strong loam to a light sand, but generally fertile. Drained by Otter cr. and its branches, which afford water-power, and by a branch of Castleton r. Iron ore of good quality is found; also, lime, and a great abundance of white and beautifully variegated marble, of which several quarries are extensively worked. The t. was chartered in 1761, and settled about 1770. During the Revolutionary War it was a frontier town, through which was the only military road from Charlestown, N. Hamp., to Ticonderoga and Crown Point, on Lake Champlain. The t. is divided into two parishes, East and West; the former contains Rutland village, the most important place; in the latter are two small villages, West Rutland, and Hookkin's Falls. Rutland village has an elevated situation, is well

built, containing many handsome dwellings, and was incorporated in 1847. Three important railroads pass through it: Rutland and Burlington R. R., 53 m. from Bellows Falls, and 67 m. from Burlington; Rutland and Washington R. E. from Troy 55 m.; and Western Vermont R. R. from Troy, *via* N. Bennington, 83 m., the opening of which has given a powerful impetus to the prosperity of the village and town. It contains a court-house, jail, 1 bank, cap. \$150,000, and 8 churches. Here are located the machine-shops and engine-houses of the Western Vermont R. R., and some large manufactories of marble, iron, slate, leather, cabinet furniture, etc. The "R. Herald" (whig), and "Vermont Union Whig," are issued weekly. The town of Rutland ranks as the second in agricultural and the first in mineral productions in the State. Population of t. in 1840, 2,703; in 1850, 3,715.

RUTLAND, t. and p. o., Dane co., Wisc.: 24 m. S. S. E. Madison. Soil excellent, watered by branch of Catfish cr. of Rock r. Pop. 792.

RUTLAND CENTRE, sta., Rutland county, Verm.: 2 m. N. Rutland, on Rutland and Burlington R. R.

RUTLEDGE, p. v., and cap. Grainger co., Tenn.: 181 m. E. Nashville. It contains a court-house, jail, and about 100 inhabitants.

RUTLEDGE, p. v., and cap. McDonald co., Mo.: on S. side of Elk r., 183 m. S. W. Jefferson City.

RYE, t. and p. o., Rockingham co., N. Hamp.: on the Atlantic shore, 41 m. E. S. E. Concord. The surface has considerable sandy beach and salt meadow, which yields large quantities of grass. It has a harbor near Goss Mill, admitting, at high water, vessels of 75 or 80 tons, and from which the fisheries are carried on. Chartered in 1719. Pop. in 1840, 1,205; in 1850, 1,296.

RYE, t. p. v., and sta., Westchester co., N. Y.: 114 m. S. Albany. Surface, uneven and stony; soil, clay loam; drained on the E. by Byram r., and on the W. by Blind brook, both flowing into Long Island Sound, which bounds it on the S. The v., situated 1 m. N. of the sound, contains 3 churches, an academy, 2 taverns, a few stores, and about 250 inhabitants. The New York and New Haven R. R. passes through it, 27 m. from New York, and 49 m. from New Haven. Pop. of t. in 1840, 1,303; in 1850, 2,354.

RYE COVE, p. o., Scott county, Virg.: 281 m. W. by S. Richmond.

RYEGATE, t. p. v., and sta., Caledonia co., Verm.: on W. bank of Connecticut r., 25 m. E. by S. Montpelier. There is not much interval land on the r., but the soil is generally productive; it is best adapted to grazing, and large numbers of sheep are kept. Watered by Wells r., which affords water-power, some smaller streams, and several ponds. At Canoe Falls, in Connecticut r., against the middle of the t., is a dam across the r., which affords extensive water-power. Chartered in 1763, and first settled in 1774, by emigrants from Scotland, from whom a large part of the present inhabitants have descended. They are chiefly devoted to agricultural pursuits, are industrious and frugal. The t. contains 2 churches—Presbyterian and Associate Reformed—2 tanneries, and several saw-mills. The Connecticut and Passumpsic Rivers R. R. passes through the t., 44 m. from White River Junction, and 16 m. from St. Johnsbury. Pop. in 1830, 1,119; in 1840, 1,223; in 1850, 1,606.

RYERSON'S STATION, p. o., Greene county, Penn.: 153 m. W. by S. Harrisburg.

RYE VALLEY, p. o., Smyth co., Virg.: 231 m. W. by S. Richmond.

RYLAND'S DEPOT, p. o. and sta., Greenville co., Virg.: on Greenville, Gaston, and Raleigh R. R., 10 m. from Hicksford, 76 m. from Richmond.

S.

SABATUS, p. o., Lincoln co., Me.: on branch of Androscoggin r., in t. of Webster, 24 m. S. W. by S. Augusta.

SABBATH DAY POINT, N. Y.: on W. side of Lake George, in t. of Hager; derives its name from the landing of some English troops on the Sabbath day, during the old French War, and their destruction by Indians.

SABILLSVILLE, p. v., Frederick co., *Md.*: on a branch of the Monocacy r., 95 m. N. W. Annapolis.

SABINA, p. v., Clinton co., *Ohio*: on a branch of Rattlesnake cr., 116 m. S. W. Columbus. The Cincinnati, Wilmington, and Zanesville R. R. will pass through it.

SABINE parish, La. Situate W., and contains 1,287 sq. m. Drained by Haspoon, Negret, and Lannacoco bayous. Surface generally level; soil fertile, and along the banks of Sabine r., which bounds it on the W., are large tracts of land which prove productive with cultivation. Chief products, Indian corn, cotton, etc. Farms 522, manuf. 5, dwell. 632, and pop.—wh. 8,347, fr. col. 0, sl. 1,163—total 4,515. *Capital:* Manny.

SABINE county, Tex. Situate E., and contains 809 sq. m. Drained by affluents of Sabine r., which forms its eastern boundary, and by Bear cr. in the S. W. Surface undulating; soil varied; in the W. and S. W., the land being generally rich and productive, and adapted to the growth of cotton, wheat, corn, and fruit, and a large portion is covered with timber. Farms 171, manuf. 12, dwell. 258, and pop.—wh. 1,556, fr. col. 0, sl. 942—total 2,493. *Capital:* Milan.

SABINE river, Tex. and La.: is formed at the S. boundary of Hunt co., Tex., in lat. 32° 50' N., by the confluence of 3 principal head branches, viz., Cow Leech, Caddo, and West fork—the two former rising by several creeks in the N. part of Hunt co. From its source it flows E. S. E. 120 m. in very direct course toward the E. boundary of the State, until, at the middle of the N. boundary of Panola co., when 19 m. from the E. boundary line, it takes a more S. E. course through Panola co., and reaches the boundary at the S. E. corner of the co., in lat. 32° N., and thereafter forms, in its southerly course to the Gulf of Mexico, the boundary line between this State and Louisiana. Before it reaches the Gulf, it expands into Sabine Lake, 30 m. long, and averaging 5 m. wide; but on leaving the lake, 7 m. above the Gulf, it contracts to its usual width, which it retains until it enters the Gulf of Mexico, in lat. 29° 40' 45" N., long. 81° 35' W. In low stages of water it has 4 feet of water on the bar at its mouth. Its entire length is about 360 m. It is navigable 150 m., and farther up for keel boats. Its upper portions water the most hilly parts of the State, and have a rapid current. Along Sabine co. it is generally 100 yards wide, and from 6 to 8 feet deep. In its lower course it passes through a sandy tract of land.

SABINE CITY, p. v., Jefferson co., *Tex.*: at the outlet of the lake so called, about 10 m. from the Gulf, 239 m. E. by S. Austin City. The harbor is excellent, admitting vessels drawing 9 feet of water. The trade of the settlements on the Sabine, Neches, and tributaries will no doubt centre here, and in a few years it will rank with importance among the cities of the republic.

SABINESVILLE, p. o., Tioga co., *Penn.*: 101 m. N. by W. Harrisburg.

SABINE TOWN, p. v., Sabine co., *Tex.*: on the right bank of the river so called, below the confluence of Palo Gacho bayou, 257 m. E. N. E. Austin City.

SABACOGUPLY, p. v., Yallabusha co., *Miss.*: near a fork of the Yallabusha r., 109 m. N. by E. Jackson.

SABLE cape, Flor.: the most southerly point of the mainland of the peninsula, in lat. 24° 50' N., and long. 81° 15' W. On it is situated Fort Pointsett.

SABLE river, N. Y. See *AU SABLE river.*

SABULA, p. v., Jackson co., *Ia.*: near the Mississippi r., 74 m. E. N. E. Iowa City.

SAC county, Ia. Situate toward the N. W., and contains 576 sq. m. Drained by Soldier and Boyer rivers, tributaries of Missouri r. Surface generally level; soil fertile. Set off since 1850.

SAC river, Mo.: rises in Lawrence and Greene counties, flows N., and enters Osage r. in St. Clair county.

SACANDAGA river, N. Y.: rises in several small lakes in Hamilton county, and after a winding E. course, enters Hudson r. opposite Luzerne village, Warren county.

SACCAEAPPA, p. v. and sta., Cumberland co., *Me.*: on the Presumpscoot r. and York and Cumberland R. R., 7 m. from Portland, 54 m. S. by E. Augusta. Great water-power is here afforded, and improved by numerous saw-mills, etc., and a large brick cotton-mill, containing 104 looms and 2,900 spindles.

SACKET'S, p. o., Macomb county, *Mich.*: 84 m. E. by S. Lansing.

SACKETT'S HARBOR, p. v. and port of entry, Jefferson co., *N. Y.*: on Black River bay, at E. end of Lake Ontario, 154 m. N. W. Albany. Lat. 43° 55' N., long. 75° 57' W. This harbor is one of the best and most secure on the lake, and was an important naval station during the last war with Great Britain. On 25th May, 1813, a sharp contest here took place between the American and British forces, resulting in the defeat of the British; and subsequently another, on 30th May, 1814, with the same success. During the war the v. increased with great rapidity, and at its close experienced a decline, from which it has now fully recovered. In 1814 the United States government here commenced the erection of the Madison Barracks, which consist of three extensive stone barracks, hospital, commissary's store-house, guard-house, and other buildings, affording accommodation for 2,000 troops, occupying a lot of about 40 acres, fronting on the bay. In the military burying grounds attached to the barracks is a monument to the brave General Pike, who fell on the N. frontier during the last war. The government has also a ship-yard and ship-houses, in one of which the New Orleans, a 110 gun ship, commenced during the war, remains upon the stocks.

The v., incorporated in 1814, has considerable manufactures, and trade by the lake and the river St. Lawrence. A good water-power has been obtained by the construction of a canal from the Black r., a distance of 12 m., executed by the citizens at a cost of \$25,000, and affording a fall of 30 feet, improved by various mills, machine shops, etc. There are 3 churches, 1 bank—cap. \$200,000, 4 hotels, 2 furnaces, etc. The "S. H. Observer" (whig) is issued weekly. A railroad is in construction, to connect at Pierrepont with the Watertown and Rome R. R. On 30th June, 1850, the tonnage of Sackett's Harbor district was 8,124 tons, all of which was enrolled and licensed, permanent, and employed in the coasting trade. During the year preceding the number of clearances for foreign ports was 259—142,799 tons; No. of entrances do., 279—153,169 tons; of all which tonnage about ten-elevenths was American. Vessels built during the year, none. During the year 1849 the value of the amount of trade of this port with Canada alone was—imports, \$26,564; exports, \$26,446—total, \$53,010.

SACO, l. p. v., and port of entry, York co., *Me.*: on N. side of Saco r., 67 m. S. S. W. Augusta. Lat. 43° 31' N., long. 70° 26' W. By Portland, Saco, and Portsmouth R. R., 13 m. from Portland, 83 miles from Portsmouth; and thence by Eastern R. R., 92 m. from Boston. The surface of the t. is somewhat uneven, and abounds with romantic and beautiful scenery. It has fine interval land on the r., by which it is well drained, and is also watered by several small streams flowing from an immense bog, called the Heath, on one of which is a fine waterfall of 60 feet, surrounded by wild scenery. From the mouth of the r. a fine beach extends along the shore about 5 miles to the E., called Old Orchard Beach, which is of considerable resort in summer. Another fine beach, of less extent, connects Fletcher's Neck with the main land, on which is a tavern. Saco v. is situated about 8 m. from the mouth of the r., at the falls, where is a descent of 42 feet, presenting a beautiful appearance and affording great water-power, and which has been extensively improved. Just below the falls is a fine basin,

where vessels take in their cargoes. The factories consist of 9 large cotton-mills, 1 woolen-mill, numerous saw-mills, and various mechanical establishments. The York Manufacturing Co. have a capital of \$1,000,000, manufacturing colored and white cotton goods, running 25,000 spindles, 550 looms, and annually consume 7,000 bales of cotton. The Saco Water-Power Co. have a capital of \$2,000,000. The lumber business is very extensive, was commenced at a very early period, and for a long time was by far the chief business on Saco r. The v. contains 2 banks, with aggregate capital of \$175,000, savings' institution, insurance company, an academy, some handsome churches, etc. The "Maine Democrat" and "The Union" (which are issued weekly. The total tonnage of Saco district on 30th June, 1850, was 2,723 tons. The registered tonnage was 1,570 tons, consisting of 330 tons permanent, and 1,240 tons temporary. The enrolled and licensed tonnage was 1,153 tons, all permanent, employed as follows: coasting trade, 602 tons; cod fishery, 303 tons; mackerel fishery, 248 tons. During the fiscal year preceding, the number of clearances for foreign countries was 4—496 tons; No. of entrances do., 2—213 tons. Vessels built during the year—1 ship, 1,018 tons. Pop. of town in 1830, 3,219; in 1840, 4,408; in 1850, 5,794. The v. of Biddeford, on the S. side of the r., in Biddeford t., is connected with Saco by bridges, and closely united with it in business relations, and at a little distance the two villages appear as one settlement.

Saco river, *N. Hamp. and Me.*: is formed in the White Mountains, N. Hamp., from three small head branches, the most N. of which rises within a few rods of the source of Ammonoosuc r., which flows W. to Connecticut river. The Saco, in its general course, flows S. S. E., and empties into Saco bay of the Atlantic. It enters Me. in Fryeburg t., and in Cornish t. receives Ossipee r., the outlet of Ossipee lake. Its entire length is about 160 m. It is much broken in its course by falls, preventing navigation, but affording great water-power. The principal falls are in Me., 4 in number, viz., Great Falls, at Hiram, 72 feet; Steep Falls, at Limington, 20 feet; Salmon Falls, at Hollis and Buxton, 30 feet; and Saco Falls, at Saco, 42 feet. Pine timber abounds upon its banks, furnishing supplies for numerous saw-mills. The ordinary rise of the water, in the spring, is from 10 to 15 feet, but is much higher in freshets, when the r. and its falls present a very grand appearance.

SACRAMENTO county, *Calif.*: Situate centrally, and contains 1,000 sq. m. Drained by American r. on the N., and Cosumnes and Mokelumne rivers on the S., all affluents of the Sacramento, which on the W. forms its boundary. Surface varied—in the E. somewhat mountainous. In 1852 there were invested in quartz mining \$124,165, in placer mining \$89,308, and in other mining operations \$169,550; in live-stock \$1,335,693, in farming, etc., \$1,773,325, and otherwise \$5,358,394. It is one of the richest counties in the State. Pop.—wh. 11,196, negroes 240, mulattoes 98, Indians 80, Chinese 804, etc.—total 12,589. *Capital*: Sacramento City.

SACRAMENTO, p. o. Marquette county, *Wis.*: 57 m. N. Madison.

SACRAMENTO river, *Calif.*: rises in the mountainous range in the N. part of the State, in N. E. part of Shasta county. Its general course is S.; it receives numerous small streams, and the larger ones, of Feather and American rivers, Puta cr., and near its mouth is joined by the San Joaquin. Its entire length is about 300 m., its width varies from 200 to 300 yards; its banks are adorned with trees, and it is navigable at all seasons to Sacramento. In the rainy season it wonderfully increases in volume, overflows its banks, and floods Sacramento City and some other border settlements. The valley of the Sacramento (as also that of the San Joaquin) is but a vast basin, of which the Coast Range and the Sierra Nevada Mountains form the exterior rim, and an unusual rain, together with the melting of the snow upon the mountains, is sure to flood the lower lands with water

in depth proportioned to the duration of the rain or melting of the snows. It is generally well adapted to agricultural purposes.

SACRAMENTO CITY, p. v., and cap. Sacramento co., *Calif.*: on the Sacramento r., at the mouth of American r., in lat. 38° 30' 12" N., and long. 121° 20' 08" W., about 150 m. N. E. San Francisco and 75 m. N. E. Vallejo. Its site is a low, level plain and is naturally overflowed in the rainy season. To prevent as far as possible this inundation, a levee has been constructed on the river banks. It was formerly called "New Helvetia," and is laid out in right angles, on the site of, and embraces the celebrated "*Sutter's Fort*." The streets running E. and W. are designated by the letters of the alphabet, and those running N. and S. by the numerals. The original forest trees still stand in the town, and give it a picturesque appearance, and many of the streets are lined with oaks and sycamores 6 feet in diameter. It is a level and pleasantly situated place, embracing a square of about a mile and a half to the side, and derives its name from the river so called. From a fort and its outbuildings, which a few years since constituted the whole inhabited tenements, it has suddenly become a flourishing city, and is the grand depot for the supply of all the northern mines. In April, 1849, there were 4 houses in the place. The original price of embarcadero, or river lots, was \$500, they now command as many thousands. Every thing indicates that this place has received an impetus which other localities will find it difficult, if not impossible, to retard. According to the census of 1850, Sacramento City contained 323 stores of various kinds, 65 blacksmith shops, 6 steam-mills, 5 soda and syrup manufactories, 2 breweries, 80 clothing stores, 8 cabinet shops, 8 livery stables, about 150 eating saloons and hotels—some of the latter of the most costly description; also 90 physicians, 70 lawyers, 6 churches—1 Episcopal, 1 Presbyterian, 3 Methodist (1 colored), and 1 Baptist. A Roman Catholic church is in course of erection. The number of inhabitants in the city proper, or within the city limits, was 6,000; but had the resident population all been in the city, the number would not have fallen much short of 12,000, while in the country there are about 3,000 citizens. Out of the whole number there are but 1,460 females of all kinds, grades, and complexions. The banks of the river in the vicinity furnish one of the best farming regions in the State, though the crops on the low lands are exposed to great ravages from the periodical floods. The gold diggings commence about 30 m. E. of the city, at the entrance of the hills, which rise rapidly to the eastward till they terminate in the high ridge of the Sierra Nevada. The gold was first discovered on the S. fork of the American r., 50 m. from Sacramento, and all that neighborhood is still much resorted to by miners. Steamboats ply daily between this city and San Francisco, and considerable trade is carried on by sailing vessels. The river is navigable up to the town at all seasons of the year, and the trade is rapidly increasing. Like San Francisco, this city has suffered considerably by fire, which, although causing immense losses, has tended to beautify it, in the form of neater and more substantial buildings. In 1850, the public press consisted of the "Transcript," a daily and weekly; the "Placer Times," daily and weekly (neut.); "Daily Index," daily; and the "Tribune," a daily and weekly issue. The census of 1852 gives a pop. of 10,000.

SADAQUADA, or SAQUOTT creek, Oneida co., *N. Y.*: rises in Paris t., flows N. in general course, and empties into Mohawk r. 1 m. from Whitesboro'. This is one of the most important mill streams of its size in the State, affording an immense water-power to numerous factories, flouring-mills, and other manufacturing establishments in the various villages and settlements on its banks.

SADDLE mountain, *Mass.*: In Adams town, Berkshire co., 3,505 feet high, the highest of Massachusetts' mountains, and of comparatively easy ascent. Its summit is generally known as Gray Lock.

SADDLEBACK mountains, Franklin co., *Me.*: E. of Acques-suck lake, a few miles N. W. of Phillipstown, 3,700 ft. high.

SADDLE RIVER, *N. Jer.*: rises in Rockland co., New York, a few m. above its S. boundary, and flows S. 18 m. to its entrance into Passaic r., about 1 m. above Acquackonck. It has a rapid course, and affords extensive water-power.

SADDLE PEAK MOUNTAIN, Sierra co., *Calif.*: 7,200 feet high.

SADDLE RIVER, t. and p. o., Bergen co., *N. Jer.*: 58 m. N. E. by N. Trenton; bounded by Saddle r. on the E. and Passaic r. on the S. Surface in some parts mountainous, but level on the E. between Passaic and Saddle rivers; soil red shale and loam, fertile in the valleys and well cultivated; watered by the aforesaid rivers and several brooks. It contains a few mills and stores. The inhabitants are chiefly devoted to agriculture. Pop. 816.

SADSBURYVILLE, p. v., Chester co., *Penn.*: 57 m. S. E. Harrisburg.

SAEGESTOWN, p. v., Crawford co., *Penn.*: on the E. side of French cr., and on the proposed line of the Pittsburg and Erie R. R., 194 m. N. W. Harrisburg.

SAEGERSVILLE, p. v., Lehigh co., *Penn.*: 75 m. E. N. E. Harrisburg.

SAFE HARBOR, p. v., Lancaster co., *Penn.*: on the left side of Susquehanna r., near the mouth of Conestoga cr., 84 m. S. E. Harrisburg. There is a furnace here, having an annual capacity of 5,000 tons, and a rolling-mill, which in 1850 made 5,567 tons rails, both moved by steam.

SAGADAHOCK, *Me.*: the ancient name of a section of country at, and E. of the mouth of, Kennebec r., deriving its name from the settlement of a colony, in a locality called Sagadahock, at the mouth of the Kennebec, in 1607. This name is still much used to designate the Kennebec, or more particularly that portion of it below the confluence of the Androscoggin.

SAGE HILL, p. o., Graves county, *Ky.*: 229 m. S. W. Frankfort.

SAGEVILLE, p. o., Hamilton co., *N. Y.*: 79 m. N. N. W. Albany.

SAGEVILLE, p. v., Lauderdale co., *Miss.*: on W. side of Chickasawha r., 85 m. E. Jackson.

SAG HARBOR, p. v. and port of entry, Suffolk co., *N. Y.*: on an excellent harbor so called, between Gardiner's and Great Peconic bays, 92 m. E. by N. New York city, 141 m. S. E. Albany. First settled in 1730, and incorporated in 1808. The site is sandy and sterile. It suffered severely by a fire in 1845, but was soon rebuilt in a better manner than before. It contains 4 churches, an extensive clock factory, several mills, 1 bank, cap. \$20,000, a dry-dock for repairing vessels, and numerous stores. The "Corrector" is published semi-weekly and weekly. Considerable quantities of salt are manufactured in this vicinity by evaporation of sea-water in the open air. This place is extensively engaged in the whale and other fisheries. The return cargoes are chiefly taken to New York and other ports. In 1849, the imports here received, were 1,791 gallons sperm, and 37,379 gallons whale oil; and 156,400 lbs. whalebone. The total tonnage of this district on 30th June, 1850, was 15,166 tons; consisting of 10,954 tons in registered tonnage, and 4,212 tons in enrolled and licensed tonnage. The registered tonnage was all permanent, of which there was in the whale fishery 2,575 tons. The enrolled and licensed tonnage consisted of 3,776 tons permanently employed in the coasting trade, and 62 tons in the cod fishery; besides 374 tons licensed under 20 tons* (319 tons in coasting trade, 55 tons in cod fishery); of all which, 125 tons were propelled by steam. During the year preceding, it had no foreign commerce. Vessels built during the year, 3 (1 brig, 2 schooners)—419 tons. Pop. 3,650.

SAGINAW county, *Mich.* Situate E. centrally, in the peninsula, and contains 1,048 sq. m. Drained by the Saginaw, Shiawassee, Flint, Tittabawassee, and Cass rivers. Surface level; soil a rich loam, of a sandy nature, on a

substratum of clay. In the E. and S. E., pine timber covers the land to a great extent, about one-third of the co. being forest. Limestone and Gypsum are found on the bay, in the N. W. part. The chief products are wheat, Indian corn, and potatoes. Farms 72; manuf. 14; dwell. 473, and pop. —wh. 2,609, fr. col. 0—total 2,609. Capital: Saginaw City.

SAGINAW, t., p. v., and cap. Saginaw co., *Mich.*: 57 m. N. E. Lansing. Drained by the Saginaw and Tittabawassee rivers. The v. is located on the W. bank of the Saginaw r., on an elevation of 80 feet above the water. It is built on the site formerly occupied as a trading post, and during the late war as a military post. It contains a court-house, jail, a printing-office, stores and warehouses of different kinds, saw-mills (moved by steam), and workshops of various descriptions. Steamboats and sailing vessels are owned here, and employed on the river and bay. It is at the termination of the Saginaw and Detroit turnpike, and as far as natural and artificial advantages are concerned, the location is favorable to become a place of importance. The "Spirit of the Times" is a weekly issue. Pop. of t. in 1840, 837; in 1850, 917.

SAGINAW bay, *Mich.*: a branch of Lake Huron, on its W. side, near the middle, setting into the mainland in S. W. direction from the lake. It is about 60 m. long, and 30 m. wide, and contains a number of islands. It is navigable for vessels of any burden, and its numerous coves afford some of the best harbors on the lake. It receives Saginaw river.

SAGINAW river, *Mich.*: is formed in Saginaw co., by the confluence of several large tributaries, of which the principal are, Cass r. from the E., Flint and Shiawassee r. from the S., and Tittabawassee r. from the N. W. The length of the Saginaw, from Flint r., where it commences, to its mouth, is about 30 m. Its general course is N. E., emptying into the head of Saginaw bay. It varies in depth from 25 to 30 feet, and has a somewhat sluggish current. Below Saginaw city is a sand bar which has ordinarily 5 or 6 feet depth of water, but a N. E. wind frequently cumulates water to 8 feet in depth.

SAGO, p. o., Lewis co., *Virg.*: 189 m. N. W. Richmond.

SAIL CREEK, p. o., Hamilton county, *Tenn.*: 108 m. S. E. Nashville.

SAILOR'S REST, p. v., Montgomery co., *Tenn.*: on W. side of Yellow cr., 47 m. W. by N. Nashville.

SAINT ALBANS, p. v., Hancock co., *Ill.*: on the border of a swamp, 57 m. W. N. W. Springfield.

SAINT ALBANS, t. and p. v., Somerset co., *Me.*: 47 m. N. by E. Augusta. This is a good township, having fertile soil adapted to grain. It contains a large and beautiful pond, the outlet of which, Indian stream, affords water-power, and is a branch of Sebasticook river. Incorporated in 1818. It contains two pleasant villages. In the t. are several mills and stores, an academy, and some manufactories. Pop. of t. in 1830, 911; in 1840, 1,564; in 1850, 1,792.

SAINT ALBANS, t., p. v., sta., and cap. Franklin co., *Verm.*: on Lake Champlain, 45 m. N. W. by N. Montpelier; by Vermont Central R. R. 57 m. from Montpelier, 134 m. from Windsor, 23 m. from Rouse's Point. Surface moderately uneven; soil fertile loam, and well cultivated. Drained by a small creek. First settled about 1785. The v. is 3 m. E. of the lake, on elevated ground, commanding a fine prospect. It is surrounded by a fertile back country, has considerable manufactures, and a large business from its water communications with New York and Canada. It contains many handsome buildings, court-house, jail, on a handsome public square, 30 by 25 rods, an academy, 3 churches, and 1 bank, capital \$50,000. The "St. Albans Messenger" (whig) is issued weekly, and the "Northern Advertiser" (advert.) monthly. The port of the v. and t. is at St. Alban's bay. Pop. of t. in 1830, 2,395; in 1840, 2,702; in 1850, 3,567.

ST. ALBAN'S BAY, p. o., Franklin co., *Verm.*: on Lake Champlain, 46 m. N. W. by N. Montpelier. Here is a good landing-place, with a wharf and several store-houses, also a bank, with capital of \$100,000.

SAINT ANDREWS, p. o., Orange co., N. Y.: 51 m. S. by W. Albany.

SAINT ANDREW'S bay and sound, Flor.: on S. coast, in W. part of the State, chiefly in Washington co. Its main body sets up N. 12 m., with an average width of from 2 to 5 m.; an E. arm extends parallel with the coast 30 m., from 1 to 10 m. wide; while another similarly extends W. 20 m., separated from the gulf by a beach 1 m. wide. The bay is easy of access, has 13 feet of water on the bar, and good anchorage within, sheltered from all winds. On its borders are some fertile settlements.

SAINT ANDREW'S BAY, p. o., Washington co., Flor.: at the head of St. Andrew's bay, 86 m. W. by S. Tallahassee.

SAINT ANDREW'S sound, Ga.: receives the waters of Santillo r. and some small streams, and contains Dover and other islands.

SAINT ANTHONY'S falls, Minn. Ter.: in the Mississippi r., a little above the mouth of Minnesota r. Their dimensions, as surveyed by the officers at Fort Snelling, are—from W. bank to the island, 634 feet; across the island, 276 feet; the E. fall, 300 feet; total width of river, 1,210 feet. The perpendicular fall varies from 25 to 30 feet. The fall in about 260 rods in 55 feet; and from the foot of the rapids, a distance of several miles, about 100 feet. Father Hennepin named these falls.

SAINT ANTHONY'S FALLS, p. v., Ramsey co., Minn. Ter.: on the E. side of the Mississippi, 15 m. by water and 8 by land above St. Paul. It is laid out opposite and above the falls, and is a beautiful town site. A handsome elevated prairie, with a gentle inclination to the r. bank, and of sufficient width for several parallel streets, extends indefinitely up and down the river. In the rear of this another table-land swells up some 30 feet high, forming a beautiful and elevated plateau. The houses are mostly frame built, and among them is numbered a large and well-furnished hotel for summer travelers. This place has good prospects. The supplies for Fort Gaines, etc., create considerable traffic and travel both by land and water, and the return traffic consists of furs and peltries, with other Indian contributions. Pop. in 1850, 538.

SAINT ARMAND, t. and p. o., Essex county, N. Y.: 119 m. N. by W. Albany. Drained by Saranac r., and Placid lake lies partly in the town. Surface in the N. mountainous, and in the S. hilly; soil red shale. Iron ore and copper is found in the vicinity. Pop. 200.

SAINT AUBERT, p. o., Callaway co., Mo.: 22 m. N. by E. Jefferson City.

SAINT AUGUSTINE, p. city, port of entry, and cap. St. John's co., Flor.: 170 m. E. by S. Tallahassee. Lat. 29° 43' 30" N., long. 81° 35' 00" W. The city is situated 2 m. back from the Atlantic on an inlet, in the rear of a small island, which protects it from the swell of the ocean, but which is low and does not obstruct the sea breezes or a view of the ocean. The inlet upon which it fronts, called Matanzas Sound, is an excellent harbor, $\frac{1}{2}$ m. broad, capacious and secure. The bar at its mouth at low tide has about 9 feet of water, and within, 13 or 20 feet. The site of the city is somewhat peninsular, since the sound and a river extends in its rear up into the mainland, and is low, being not over 12 feet above the level of the ocean. Its form is a parallelogram, 1 m. long and $\frac{1}{2}$ m. wide. The houses are not compactly built, and many of them have a very antiquated appearance; they are generally two stories high, with the second story projecting over the first, the first story of stone, stuccoed, the second story of wood. The streets are narrow, and many of them very crooked. The climate is celebrated for its mildness, and has made the city a favorite resort for invalids from the Northern States. The winter season sometimes passes without a single frost, and there are but one or two months in the year in which they ever occur. In summer, the heat of the day is tempered by the sea breezes, and the evenings are rendered cool and pleasant by the land breeze. An abundance of trees give the place a very rural appear-

ance. There is a fine large public square in the E. part of the city, fronting on the sound; on its W. side is the courthouse; on the N. side a splendid Catholic church, and on the S. side Trinity church, Episcopal, a neat Gothic edifice. There are two other churches and a neat market-place in front of the harbor. Here is a United States land office and the station of a surveyor-general. In the S. part of the city, fronting the Matanzas, are extensive barracks. At the N. end of the city, and commanding the harbor, stands Fort Marion, formerly the old Spanish castle of St. Mark, which was completed about a century ago. It contains a number of Spanish guns, etc., which came into possession of the United States with the fort, one of which bears the date of 1735. One newspaper, "The Ancient City," is issued weekly. The foreign commerce of St. Augustine, during the year ending June 30, 1850, consisted in the entrance and clearance of one foreign vessel of 68 tons, having a crew of four men. During the year no vessels were built, and it has no tonnage whatever of its own. This is the oldest settlement in the Union, having been founded in 1564 by Spaniards. The present population is about one-half composed of Spanish, French, and citizens descendants of other foreign countries. Since the incorporation of the State with the Union, this portion of the population has been rapidly Americanizing. Pop. in 1850, 1,934.

SAINT AUGUSTINE, p. v., Fulton co., Ill.: on the E. side of a branch of W. fork Spoon r., 73 m. N. W. Springfield.

SAINT AUGUSTINE, v., Cecil co., Md.: about the middle of the neck of land lying between Bohemia r. and Black cr., 10 m. S. of Elkton, 49 m. N. N. E. Annapolis.

SAINT BERNARD parish, La.: Situate S. E., and contains 562 sq. m. Drained by Bayou Cheronese and its branches. Surface level and swampy; soil various, owing to the diversity of the surface; in those portions where it is not too wet for cultivation, and the tillage attended to, it is very fertile. Chief products, sugar, rice, cotton, and Indian corn. It is bounded on the E. by the Gulf of Mexico, and for some distance below New Orleans includes both banks of the Mississippi. Farms 34; manuf. 0; dwell. 283, and pop.—wh. 1,406, fr. col. 73, sl. 2,323—total 3,802. *Capital:* Terre aux Oeufs.

SAINT BLAS cape, Flor.: a narrow beach, bounding St. Joseph's bay on the W., 25 m. W. Apalachicola.

SAINT CATHARINE'S island, Ga.: lies off Newport river, between St. Catharine's sound on the N., and Sapel's sound on the S., is 10 m. long, 5 m. broad, and belongs to Liberty county.

SAINT CHARLES county, Mo.: Situate E., and contains 495 sq. m. Drained by branches of Missouri r., which forms the S. E. boundary; and of Mississippi r., which flows on the N. E. Surface varied; soil fertile, and in the level portions very productive, and raising large quantities of tobacco, which is the chief production. It has fine prairie land, and some excellent timber. Iron ore of good quality is found, and there are some beds of coal. Farms 1,085; manuf. 33; dwell. 1,633, and pop.—wh. 9,492, fr. 13, sl. 1,949 total 11,454. *Capital:* St. Charles. *Public Works:* St. Louis and Northern R. R.

SAINT CHARLES parish, La.: Situate S. E., and contains 259 sq. m. Drained by Mississippi r., which passes through its N. central portion. Surface generally level; soil fertile, particularly along the banks of the Mississippi. Chief products, sugar, rice, and Indian corn. It is bounded on the N. E. by Lake Pontchartrain, W. by Lake Allemands, and S. by Lake Washa. Farms 70; manuf. 3; dwell. 191, and pop.—wh. 867, fr. col. 121, sl. 4,132—total 5,120. *Capital:* St. Charles.

SAINT CHARLES, p. v. and sta., Kane co., Ill.: on the W. bank of Fox r., and on a branch of Galena and Chicago R. R., 37 m. W. Chicago, and 160 m. N. E. Springfield. This is a thriving village, with some good mills and other manufactories. The "Kane County Democrat" is issued weekly.

SAINT CHARLES, p. o., Butler co., *Ohio*: 99 m. W. S. W. Columbus.

SAINT CHARLES, p. o., Johnson co., *N. Car.*: 25 m. E. S. E. Raleigh.

SAINT CHARLES, p. o., Arkansas county, *Ark.*: 60 m. S. E. Little Rock.

SAINT CHARLES, t., p. v., and cap. St. Charles co., *Mo.*: on N. bank of Missouri r., 87 m. N. by E. Jefferson City. Its site is handsome, and upon the first elevated land on the river above its mouth. The village is about 1½ m. long, has 5 streets parallel with the river, and contains a court-house, stone jail, brick market-house, 3 churches, a Catholic convent, and female academy, several steam-mills, stores, etc. St. Charles College is here located, a Methodist institution, founded in 1837, which in 1850 had 4 professors, 20 students, 17 alumni, and 900 volumes in library. Here is a ferry across Missouri r., which is the great crossing-place between St. Louis and the N. and W. parts of the State. The "St. Charles Chronotype" (neut.) is issued weekly. Pop. of v. about 2,000; of t. about 3,300.

SAINT CLAIR county, *Ala.* Situate toward the N. E., and contains 732 sq. m. Drained by branches of Coosa river, which forms its E. boundary, the principal being Canoe and Shoal creeks. Surface undulating; soil fertile, and produces fine crops of wheat and Indian corn. Cotton is the staple. Farms 573; manuf. 0; dwell. 944, and pop.—wh. 5,501, fr. col. 7, sl. 1,321—total 6,829. *Capital*: Ashville.

SAINT CLAIR county, *Ill.* Situate toward the S. W., and contains 656 sq. m. Drained by Kaskaskia r. and its affluents, and by Prairie du Pont and Cahokia creeks, all tributaries of the Mississippi, which flows on its N. W. border. Surface undulating; in parts it is hilly and broken, and makes good pasture land; soil fertile, and produces fine crops of wheat and Indian corn. It is well timbered. Farms 1,961; manuf. 62; dwell. 3,727, and pop.—wh. 19,606, fr. col. 575—total 20,181. *Capital*: Belleville.

SAINT CLAIR county, *Mich.* Situate E. of the S. Peninsula, and contains 948 sq. m. Drained by Belle, Black, and Pine rivers, and Mill cr., and bounded on the E. by St. Clair strait. Surface undulating; soil in general fertile and productive. The chief crops raised are wheat, Indian corn, and potatoes. Farms 492; manuf. 63; dwell. 1,516, and pop.—wh. 10,396, fr. col. 24—total 10,420. *Capital*: St. Clair.

SAINT CLAIR county, *Mo.* Situate toward the S. W., and contains 656 sq. m. Drained by Osage river, which passes through it centrally, and by its branches, Sac r. and Clear creek. Surface rolling and diversified; soil very fertile, and adapted to the growth of tobacco, wheat, and Indian corn. Farms 327; manuf. 5; dwell. 531, and pop.—wh. 3,107, fr. col. 1, sl. 448—total 3,556. *Capital*: Osceola.

SAINT CLAIR, t., p. v., and cap. St. Clair co., *Mich.*: on St. Clair r., 105 m. E. Lansing. This is a thriving t., with fertile soil, watered by Pine r., on the S. side of which, at its mouth, is the v., on the site of old Fort St. Clair. It contains a court-house, jail, churches, a branch of the State University, some steam-mills and stores. The "St. Clair Observer" (dem.) is issued weekly. It has a good harbor, and does considerable business. During the year 1845 its export amounted to \$71,525; imports, do., \$51,044—total value of exports and imports in 1848, \$122,569. The lumber business is extensive; its annual production in year ending June 1, 1850, amounted in value to \$90,000. Pop. of t. in 1840, 413; in 1850, 1,728.

SAINT CLAIR, p. v., Schuylkill co., *Penn.*: 44 m. N. E. Harrisburg. In the vicinity is a furnace moved by steam, with an annual capacity of 3,500 tons. It is an extensive mining region, and the village contains a number of dwellings, and 2,019 inhabitants, the majority of whom are engaged in mining.

SAINT CLAIR, p. o., Hawkins co., *Tenn.*: 210 m. E. by N. Nashville.

St. CLAIR, t. and p. o., Columbiana county, *Ohio*: 129 m. E. N. E. Columbus. Drained by Little Beaver r. and its

branches. Surface varied; in parts level, and in general productive. The Sandy and Beaver Canal passes through the E. part of the town. Pop. 1,115.

SAINT CLAIR lake, *Mich.* See LAKE ST. CLAIR, p. 361.

SAINT CLAIR river of strait, *Mich.*: connects Lake Huron with Lake St. Clair. It flows nearly direct S., with a broad and deep current, for two-thirds of its course, and then divides into six channels, by which it enters Lake St. Clair. The N. channel, bounding the main land of the State, is the only one navigated in ascending and descending the strait. The river is 40 m. long, with 35 m. of ship channel, has an average width of half a mile, depth of 50 feet, currents of 3 m. per hour, and an entire descent of 13 feet. It is an exceedingly beautiful stream of very clear water, is easily navigated, and is surrounded by varied and beautiful scenery. It has few islands besides those formed by its outlets. It receives several rivers from Michigan, the principal of which are Black, Pine, and Belle rivers, but none from Canada. On its banks are several flourishing villages.

SAINT CLAIREVILLE, p. v., and cap. Belmont co., *Ohio*: on the National Road, 108 m. E. by N. Columbus. It contains a court-house, jail, and other public edifices, 6 churches, a market-house, stores, etc. The "Belmont Chronicle" (whig), and the "Gazette and Citizen" (dem.), are issued weekly. Pop. about 1,500.

SAINT CLAIREVILLE, p. v., Bedford co., *Penn.*: 84 m. W. Harrisburg.

SAINT CLEMENT'S BAY, p. o., St. Mary's co., *Md.*: at the head of an inlet so called of the Potomac r., 47 m. S. by W. Annapolis.

SAINT CLOUD, p. o., East Feliciana par., *La.*: 27 m. N. Baton Rouge.

SAINT CROIX county, *Wis.* Situate W., and contains 792 sq. m. Drained by branches of St. Croix r., which runs on its N. W. border, and by other streams falling into Lake St. Croix in the W. Surface hilly and broken, and diversified with small lakes; soil fertile. The greater portion of the county is unsettled, and as yet little has been done toward its cultivation. Farms 4; manuf. 2; dwell. 181, and pop.—wh. 619, fr. col. 5—total 624. *Capital*: Willow River.

SAINT CROIX river, *Me.*: constitutes the S. portion of the boundary between the United States and the British province of New Brunswick. It is also sometimes called Passamaquoddy, Cheputnetcook, and Schoodic; but the latter name is now generally given to the W. branch of the St. Croix, flowing from the Schoodic lakes. The St. Croix rises in Grand lake, which is connected with Cheputnetcook lake. It leaves the latter lake 54½ m. from its mouth, at an elevation of 382½ feet above tide-water. It has several sets of falls of considerable height, which afford great water-power. At the confluence of Schoodic r., 20½ m. from its mouth, it has an elevation of 166 feet above tide-water. Its total descent, in reaching sea level, is 444 feet. It is navigable for large vessels to Calais, 12 m., where it is crossed by a bridge.

SAINT CROIX lake and river, *Wis.*: rises in Upper St. Croix lake, in La Pointe county, and there receives several large head branches, of which the principal is the Namekagon r. It flows S. W. until it receives Kinebek or Snake r., and thence its general course is southerly until it empties into the Mississippi at Prescott v. About 30 m. above its mouth it widens into an expanse called St. Croix lake, which is 1½ to 3 m. wide until near its mouth. The river is navigable for steamboats about 50 m., and for boats about 200 miles.

SAINTFIELD, p. o., Muskingum county, *Ohio*: 52 m. E. Columbus.

SAINT FRANCIS county, *Mo.* Situate toward the S. E., and contains 469 sq. m. Drained by head branches of St. Francis and Big rivers. Surface hilly, and in the W. mountainous; soil generally fertile. This is a splendid mineral region, and the county contains the celebrated Iron Mountain, and Pilot Knob; these consist of micaceous ox-

ide of iron, the whole top being one solid sheet. The ore yields 60 per cent. of pig metal, and the quantity altogether is estimated at about 600,000,000 of tons, enough to supply the world for a century. Other minerals are found. Farms 437; manuf. 11; dwell. 704, and pop.—wh. 4,233, fr. col. 51, sl. 680—total 4,964. *Capital*: Farmington. *Public Works*: Iron Mountain R. R.

SAINT FRANCIS county, Ark. Situate toward the E., and contains 1,011 sq. m. Drained by Cachelé r., and branches of St. Francis r., which runs on its E. border. Surface in general level; soil fertile, and adapted to grain. There is some fine timber on the land. Farms 348; manuf. —; dwell. 643, and pop.—wh. 3,770, fr. col. 2, sl. 707—total 4,479. *Capital*: Mount Vernon.

SAINT FRANCIS, p. v., St. Francis co., Ark.: on the W. side of the river so called, 90 m. E. N. E. Little Rock.

SAINT FRANCIS river, Mo. and Ark.: rises in St. Francis county, Missouri, flows S., and enters Arkansas, where it receives Whitewater river, a large branch which rises in Missouri, and for a long distance flows nearly parallel to it. It enters the Mississippi in Philip's co., and is navigable in high water nearly 200 m. It passes through many lakes and swamps, but its waters are very clear, and abound with fine fish.

SAINT FRANCISVILLE, p. v., Lawrence co., Ill.: on the right bank of the Wabash r., 133 m. S. E. of Springfield. It is surrounded by a fertile and well timbered country.

SAINT FRANCISVILLE, p. v., and cap. West Feliciana par., La.: on the left bank of the Mississippi river, 36 m. above Baton Rouge. A great portion of the town is built on the plain, along the river, but the greater part is on a beautiful hill, immediately back, communicating with the Mississippi by the bayou Sara, and contains many fine buildings. It is a considerable place of trade, and has a number of extensive warehouses. The descending boats make this a stopping-place, and here also the depot of a railroad running to Woodville (Mississippi), by which large quantities of cotton are brought from the plantations in the interior. It contains a court-house, jail, several stores, and about 1,000 inhabitants.

SAINT FRANCISVILLE, p. v., Clark county, Mo.: on the W. side of Des Moines r., 132 m. N. by E. Jefferson City.

SAINT GENEVIEVE county, Mo. Situate E. toward the S., and contains 433 sq. m. Drained by Au Vase and Establishment rivers, affluents of Mississippi river, which forms its N. E. boundary. Surface undulating; in some parts it is hilly and broken; soil generally fertile, the river bottoms being excellent land and very productive, while the uplands are more fit for pasture. It contains minerals, among which are iron and lead ores. Farms 425; manuf. 16; dwell. 814, and pop.—wh. 4,636, fr. col. 61, sl. 616—total 5,313. *Capital*: St. Genevieve.

SAINT GENEVIEVE, p. v., and cap. St. Genevieve co., Mo.: on the right bank of the Mississippi r., opposite the island so called, 62½ m. below St. Louis, 117 m. E. S. E. Jefferson City. It is pleasantly located on a healthy spot, and is a considerable place of business, particularly in the article of lead, considerable quantities of which, as well as iron and copper, exist in the neighborhood. The v. is built on Gabourie cr., a small stream, which is sometimes boatable. It contains a court-house, jail, academy, Catholic church, convent, and female academy. The "St. Genevieve Democrat" and the "Pioneer" (dem.) are both weekly issues. The inhabitants are chiefly of French origin. Below here is a prairie of great fertility, 6,000 acres in extent, fenced and well cultivated. Pop. 718.

SAINT GEORGE, t. and p. o., Chittenden co., Verm.: 8 m. S. E. Burlington, 23 m. W. N. W. Montpelier. Pop. 147.

SAINT GEORGE, t. and p. o., Lincoln co., Me.: 33 m. S. E. Augusta, on a peninsula formed by the Atlantic Ocean on the E. and S., and Muscongus bay on the W. Incorporated in 1803. It has excellent facilities for navigation, and employs considerable shipping in the lumber and coasting

trade, and in the fisheries. Ship-building is carried on: in 1849 4 vessels—657 tons, were built. Pop. in 1840, 2,094; in 1850, 2,217.

SAINT GEORGE river, Me.: rises in several ponds in Waldo county, and flows S. 40 m. into Muscongus bay. The tide extends to Warren, 15 m. from the sea, to which place it is navigable.

SAINT GEORGE'S, hund. and p. v., New Castle co., Del.: 23 m. N. by W. Dover. Its chief trade is lumber. It has also several grist and saw mills. Area, 42,650 acres. Pop. about 3,500.

SAINT GEORGE'S, p. o. and sta., Colleton district, S. Car.: on the W. side of a branch of Edisto r., and on the South Carolina R. R., 13 m. N. W. Charleston, and 63 m. N. by W. Columbia.

SAINT HELEN, p. v., Cedar co., Mo.: on the right bank of Sac r., 105 m. S. W. Jefferson City.

SAINT HELEN, p. o., Washington county, Oreg. Ter.: on W. bank of Columbia r., 61 m. N. by E. Salem.

SAINT HELENA parish, La. Situate N. in the E. part of the State, and contains 520 sq. m. Drained by Tickfau r. and its branches in the central portion, and tributaries of Amitéié r. in the W. Surface uneven and broken; soil in general barren, and much of the co. is covered with pine timber; along the banks of the streams there are, however, some fertile portions, producing rice, cotton, and Indian corn. Farms 273; manuf. 9; dwell. 390, and pop.—wh. 2,354, fr. col. 11, sl. 2,196—total 4,561. *Capital*: Greensburg.

SAINT HELENA, p. v., St. Helena par., La.: on the W. side of Tickfau r., 35 m. E. N. E. Baton Rouge.

SAINT HELENA island, Beaufort dist., S. Car.: lies between St. Helena sound on the N. E. and Broad r. on the S. W.

SAINT HELENA sound, S. Car.: lies between Colleton and Beaufort districts, receives Combahee, Coosa, Ashepoo, and other rivers, and contains several islands.

SAINT HENRY'S, p. o., Mercer co., Ohio: 96 m. N. N. W. Columbus.

SAINT ILLA, p. o., Ware county, Ga.: on St. Illa, or Santilla r., 132 m. S. S. E. Milledgeville.

SAINT INGOES, p. v. and port of entry, St. Mary's co., Md.: near a creek so called, an arm of St. Mary's river, 56 m. S. Annapolis. This is the port of entry of St. Mary's district, of which the total tonnage on 30th June, 1850, was 2,155 tons, enrolled and licensed, all of which was employed in the coasting trade. During the preceding year the district had neither foreign commerce nor ship-building.

SAINT JACOB, p. o., Madison county, Ill.: 71 m. S. by W. Springfield.

SAINT JAMES parish, La. Situate centrally in the E. district, and contains 329 sq. m. Drained by Mississippi river, which flows through its S. portion. Surface even; soil fertile. Chief products, cotton and sugar. It contains Jefferson College. Farms 145; manuf. 6; dwell. 591, and pop.—wh. 3,255, fr. col. 62, sl. 7,751—total 11,098. *Capital*: Bringers.

SAINT JOHN, p. v., Lake co., Ind.: on Thorn cr., 132 m. N. W. Indianapolis. It is situated in the centre of a German Catholic settlement, 6 m. N. W. of Crown Point, where they have erected a chapel.

SAINT JOHN, p. o., Dodge county, Mo.: 133 m. N. N. W. Jefferson City.

SAINT JOHN, p. v., Hertford co., N. Car.: on a branch of Pottoensy cr., 96 m. E. N. E. Raleigh.

SAINT JOHN BAPTIST parish, La. Situate centrally in the E. district, and contains 238 sq. m. Drained by Mississippi river, which passes through its S. W. portion. Surface diversified; soil generally unfit for cultivation, that portion lying along the streams only being fertile; this, with cultivation, proves productive, and yields large quantities of rice, sugar, and cotton, which form the leading articles of commerce. It is bounded on the N. E. by Lake Pontchartrain. Farms 162; manuf. 14; dwell. 530, and pop.—wh. 2,586, fr.

col. 191, sl. 4,540—total 7,317. *Capital*: Bonnet Carré.

Public Works: New Orleans, Opelousas, and Texas R. R.

SAINT JOHN'S county, *Flor.*: Situate N. E., and contains 569 sq. m. Drained by St. John's r. and its branches, and North r. Surface generally level; soil very fertile in many parts, and in others being too low for cultivation. Chief productions, cotton, sugar, Indian corn, oranges, citrous, lemons, and vegetables of different kinds. On the St. John's river large quantities of live-oak are found. Farms 34; manuf. 7; dwell. 821, and pop.—wh. 1,417, fr. col. 115, sl. 993—total 2,525. *Capital*: St. Augustine.

SAINT JOHN'S, p. o., Auglaize county, *Ohio*: 75 m. N. W. Columbus.

SAINT JOHN'S, U. S. collection district, *Flor.*: embracing St. John's r. and vicinity, had, on 30th June, 1850, a tonnage of 310 tons enrolled and licensed, permanent, and employed in the coasting trade, of which 50 tons were propelled by steam, with no foreign commerce or ship-building.

SAINT JOHN'S river, *Flor.*: this large river rises in an immense marsh in Orange co. Its general course is N. and parallel with the coast until, in Duval co., it turns suddenly to the E. and empties into the Atlantic. Its entire length is about 250 m. Its width varies greatly, from 4 m. to 3, and even 5 m. In the first part of its course, 150 m. from its mouth, it flows through Lake George, 20 m. long and 6 m. wide; and on leaving that lake receives a very large stream, its main tributary, the Ocklawaha r. At its mouth it is 1 m. wide, and has 12 feet of water on the bar. A light-house is there erected. Vessels drawing 8 feet water can navigate it as far as Lake George and Dunn's lake, as also those lakes.

SAINT JOHN'S river, *Me.*: rises by several branches in the N. part of Somerset co., one of which (the N. W.) extends into Canada. It flows N. and E. until it reaches the N. boundary of the State, and thence constitutes the boundary line until it reaches the E. boundary line, in about lat. 47° N., when it passes into the province of New Brunswick, and flows with broad stream, in irregular course, S. and E. into the Bay of Fundy. Its entire length is about 350 m. The tide flows up about 80 m., through which distance it is navigable for sloops of 50 tons. It is navigable for boats, with the exception of two short portages, nearly to its source. By the late treaty with Great Britain its navigation is free to both nations.

SAINT JOHNSBURY, l. p. v., and sta., Caledonia co., *Verm.*: 32 m. E. N. E. Montpelier. Surface uneven; soil fertile. Watered by Passumpsic r. and its tributaries, which afford great water-power. Chartered in 1756; first settled in 1758. There are in the t. 3 handsome villages. On Sleeper's r. of the Passumpsic is the noted Fairbanks' scale manufactory. Here commences the Connecticut and Passumpsic Rivers Railroad, extending to White River Junction, 61 m. One newspaper, the "Caledonian" (dem.), is issued weekly, and the v. contains a bank—capital \$100,000. Pop. of t. in 1830, 1,592; in 1840, 1,887; in 1850, 2,758.

SAINT JOHNSBURY CENTRE, p. o., Caledonia co., *Verm.*: on Passumpsic r., 33 m. E. N. E. Montpelier. Contains a Congregational church, academy, etc.

SAINT JOHNSBURY EAST, p. o., Caledonia county, *Verm.*: 34 m. E. N. E. Montpelier.

SAINT JOHNSVILLE, l. p. v., and sta., Montgomery county, *N. Y.*: 55 m. W. N. W. Albany. Drained by East Canada and Zimmerman creeks, tributaries of the Mohawk r., which bounds it on the S. Surface varied, in parts hilly; soil fertile, and much grain is raised. Organized in 1837, and has limited manufactories, several mills, etc., a forge and furnace. The v. is on the N. bank of the Mohawk r., and on the Schenectady and Utica R. R., 47 m. from Schenectady. The Erie Canal passes along the opposite side of the r. An extensive stone quarry is located near the village. Population of t. 1,627.

SAINT JOSEPH, p. v., and cap. Calhoun co., *Flor.*: on the bay so called, 76 m. S. W. Tallahassee. It contains a court-house, jail, etc.

SAINT JOSEPH, l. and p. v., Berrien co., *Mich.*: on Lake Michigan, 109 m. S. W. Lansing. Drained by St. Joseph and Pawpaw rivers, which unite in the t. Surface various, and heavy timber, consisting of oak, whitewood, linden, beach, elm, etc., in abundance; soil, along the banks of the streams, rich and highly cultivated. The village has a commanding site, on an elevation of some 50 or 60 feet above the harbor, at the confluence of St. Joseph river with Lake Michigan, and being eligibly located for commerce, is one of the most important places on the W. side of the peninsula. The r., at the v., is 900 feet in width, and the harbor admits vessels drawing 6½ feet water. A pier and other improvements have been constructed, and 2,000 feet of wharf is built. A bridge here spans the r., and it is contemplated to connect it with Cassopolis, New Buffalo, Niles, etc., by railroad. It contains a court-house, jail, several large forwarding and commission houses, mills, etc. The imports for the year 1848 amounted to \$672,892, and the exports \$543,895, making a total of \$1,216,787. It is a thriving place, and contains about 2,000 inhabitants, and the t. 8,000.

SAINT JOSEPH, p. v., Buchanan co., *Mo.*: about 1 m. E. of the Missouri r., 156 m. N. W. Jefferson City.

SAINT JOSEPH, p. v., Allen county, *Ind.*: 109 m. N. E. Indianapolis. It is a pleasant v., with 525 inhabitants.

SAINT JOSEPH, p. v., and cap. Tensas par., *La.*: on the Mississippi river, 189 m. (by water) N. Baton Rouge, and 102 m. direct. It contains a court-house, jail, etc.

SAINT JOSEPH'S county, *Ind.*: Situate N., and contains 487 sq. m. Drained by the St. Joseph's r. in the N. and E., and by Kankakee r. in the W. Surface level; soil a fine deep loam, well adapted to grazing. Chief productions, wheat, Indian corn, and potatoes. In the S. is some fine prairie land, and a quantity of good timber. It has good water privileges. Farms 847; manuf. 45; dwell. 1,885, and pop.—wh. 10,925, fr. col. 29—total 10,954. *Capital*: South Bend. *Public Works*: Indiana Northern R. R.

SAINT JOSEPH'S county, *Mich.*: Situate S. in the S. Peninsula, and contains 530 sq. m. Drained by the St. Joseph's r. and its branches, also by Portage, Prairie, Rocky, and Pigeon rivers. Surface slightly undulating; soil exceedingly fertile. The principal products are wheat, Indian corn, oats, and potatoes. The industry of the co. is chiefly applied to agricultural pursuits, but the manufactures are considerable. The branches of the St. Joseph's river supply good water-power. Farms 1,379; manuf. 52; dwell. 2,301, and pop.—wh. 12,699, fr. col. 26—total 12,725. *Capital*: Centreville. *Public Works*: Michigan Southern R. R.

SAINT JOSEPH'S, p. o., Champaign co., *Ill.*: 73 m. E. by N. Springfield.

SAINT JOSEPH'S, p. o., Susquehanna county, *Penn.*: 120 m. N. by E. Harrisburg. In its vicinity is St. Joseph's College, a Catholic institution, established in 1852.

SAINT JOSEPH'S bay, *Flor.*: 22 m. W. Appalachicola, lying within Cape St. Blas, a long and narrow sandy beach, its W. inclosure. It is 20 m. long, about 8 m. wide, with a broad entrance from the N. W., having 17 feet of water on the bar, and another deep channel near the peninsula.

SAINT JOSEPH'S island, in the Straits of St. Mary, 36 miles N. E. Mackinaw, 20 m. long, 8 m. broad, dividing the passage into 2 channels nearly equal in extent, etc., through the S. one of which the U. S. boundary passes.

SAINT JOSEPH'S river, *Mich.*: rises in the N. E. part of Hillsdale co., flows E., and after a broad S. bend, in which it enters Indiana, it proceeds N. W. until it enters Lake Michigan at St. Joseph. In length and volume of water it is the second river in Michigan, being about 250 miles long in its entire course, but not more than 150 m. in direct line. It is navigable for keel boats to Lockport, 180 m. At its mouth is a sandbar with 6 feet of water, but within is a good harbor, which, with a pier, easily accommodates all vessels in the lake navigation. It receives many tributaries, and affords considerable water-power. Its intervals are very fertile, and in some places heavily timbered.

SAINT JOSEPH'S river of the Maumee, *Mich.*: rises by several branches in Hillsdale co., and flows in S. W. course across the N. W. corner of Ohio, into Indiana, and joins the St. Mary's at Fort Wayne, forming Maumee r. It affords considerable water-power.

SAINT JULIAN, p. o., Linn co., *Ia.*: 25 m. N. Iowa City.

SAINT LANDRY parish, *La.* Situate toward the S. W., and contains 2,296 sq. m. Drained by Teche, Rouge, Cannes, and Crocodile bayous, Vermillion river, and Cartableau river, branch of Atchafalaya, which bounds it on the E. Surface diversified, but most generally a plain, and adapted to the growth of cotton; soil fertile. Chief products cotton and Indian corn. It contains one or two lakes. Farms 775; manuf. 18; dwell. 2,421, and pop.—wh. 10,189, fr. col. 1,243, sl. 10,871—total 22,258. *Capital*: Bayou Chicot C. H. *Public Works*: New Orleans, Opelousas, and Texas R. R.

SAINT LAWRENCE county, *N. Y.* Situate N. toward the E., and contains 2,717 sq. m. Drained by Grass, Racket, St. Regis, Oswegatchie, and Indian rivers, affluents of the St. Lawrence river, which for a considerable distance makes its N. W. boundary. These supply navigation and good water-power. Surface much diversified, but in general level; soil fertile, in the S. E. it is adapted to grazing, the land being mountainous. Chief products wheat, Indian corn, and potatoes. Lead and iron ore is found extensively, and marble of excellent quality. It has many lakes, which add a beauty to the scenery of the surrounding country. Farms 6,124; manuf. 456; dwell. 11,704, and pop.—wh. 63,573, fr. col. 86—total 68,614. *Capital*: Canton. *Public Works*: Northern (Ogdensburg) R. R.; and Watertown and Northern Junction R. R.; Utica and French Creek R. R.; Amsterdam and Potsdam E. R.

SAINT LAWRENCE, p. v., Chatham co., *N. Car.*: on N. side of Roek r., 45 m. W. Raleigh.

SAINT LAWRENCE, p. o., Jefferson county, *N. Y.*: 145 m. N. W. Albany.

SAINT LAWRENCE river, *United States and Canada*: this very large and important river is the outlet of Lake Ontario, and of the other great lakes, Erie, Huron, Michigan, and Superior, and is the main artery to the heart of the American continent. Its length from Lake Ontario to the W. end of the island of Anticosti is about 660 miles, and to the Gulf of St. Lawrence about 750 miles. The continued navigation afforded by its connection with the lakes is over 2,000 miles. It forms the boundary between the United States and Canada until it arrives 1 m. N. of the 45th degree of N. lat. Its breadth varies, but has on the whole an increase in its descent, especially below Quebec, until at the W. end of Anticosti island it is about 100 miles wide. It is navigable to Quebec (420 m. from the Gulf of St. Lawrence) for ships of the line, and for ships of 600 tons to Montreal. From Quebec to Montreal it has an average breadth of 2 m. The distance from Montreal to Lake Ontario is about 200 miles. This river is the natural course for direct commerce from the N. portion of North America with Europe. It runs almost upon a line of the great circle of the globe, upon which is placed the largest population of the world, that of Europe and Asia, and the great food-producing region of America; and hence upon this line is the shortest possible distance between the great centres of Asiatic, European, and the future American population. The approximative sailing distances from the principal rivals in the western trade of North America to Liverpool are:

From Quebec, by the Straits of Bellisle and North of Ireland.....	Miles.	3,000
“ “ by St. Paul's.....		3,300
“ New York.....		3,475
“ New Orleans.....		5,300

The population of the St. Lawrence valley in 1850, including Canada, was at least 4,000,000. The natural amount of commerce on this river is now greatly lessened by the restrictions imposed by Great Britain.

SAINT LEGER, p. o., Ozark co., *Mo.*: 123 m. S. Jefferson City.

SAINT LEONARD'S, p. v., Calvert co., *Md.*: between the creek so called and Chesapeake bay, 34 m. S. Annapolis.

SAINT LOUIS county, *Mo.* Situate E., and contains 555 sq. m. Drained by Maramee r. and other tributaries of the Mississippi, which forms its E. boundary, and by branches of Missouri r., which runs on its W. border. Surface undulating; soil fertile, and consists of a fine deep mold, with sand and clay intermixed. Farms 1,294; manuf. 1,409; dwell. 18,430, and pop.—wh. 97,577, fr. col. 1,434, sl. 5,967—total 104,978. *Capital*: St. Louis. *Public Works*: Pacific R. R.; St. Louis and Northern R. R.; Iron Mountain R. R.

SAINT LOUIS, p. city, port of entry, and cap. St. Louis co., *Mo.*: on the W. bank of the Mississippi r., on the first bluff, 20 m. S. of the confluence of the Missouri r., and in lat. 35° 37' 29" N., and long. 90° 15' 16" W. The distances by river course from New Orleans are 1,210 m.; from the falls of St. Anthony, 863 m.; from St. Paul, 822 m.; from Galena, 395 m.; from Alton, 22 m.; from Pittsburg, 1,189 m.; from Cincinnati, 705 m.; from Louisville and Jeffersonville, 564 m.; from mouth of Ohio r., 170 m.; from Council Bluffs, 687 m.; from Fort Leavenworth, 413 m.; from Independence, 371 m.; and from Jefferson City, 157 m. It is the great commercial dépot of the Upper Mississippi, the Ohio, and the Missouri, and their numerous tributaries, furnishing connected waterways of upward of 8,000 m., and passing through countries rich beyond description in mineral, vegetable, forest, and animal products, and requiring for the support of their inhabitants a vast amount of manufactures and productions of foreign countries and the sea-board States. Next to New Orleans, it is the principal port on the Mississippi, and among western cities, is second only to Cincinnati in population and wealth.

St. Louis occupies the geographical centre of the Mississippi Valley. Its advantages, as a commercial dépot, can not be excelled, and the resources of its immediate vicinity in Missouri are immense. In a circuit of less than 90 m. from the city, iron, coal, lead, and probably copper, are sufficiently abundant to supply the Union for indefinite ages, and of this region St. Louis is the only outlet. Capital alone is wanted to develop these wonderful riches. Nor is this all; the country around is a magnificent agricultural district, yielding abundantly of all the staples of the latitude, and at this point the hunter, the miner, and overland emigrant, take in their supplies before setting out on their various adventures.

The locality was first settled in 1764. The site is elevated many feet above the flood-marks of the Mississippi, and is favored in this respect in salubrity. It rises from the river by two plateaux; the first, the alluvial bottom, is 20 feet above the highest flood, and the second, a limestone bank, to the level of the back country, is 40 feet higher than the first, extending away to the horizon. The ascent from the river to the first plain is rather abrupt, but to the upper terrace it is more gradual, and from its highest elevation commands a grand prospect of the lower city, and the country on every side.

As originally planned, the city occupied only the first terrace, and consisted of three narrow streets, parallel with the river, but after its growth commenced, which was subsequent to its coming into the possession of the Americans, it soon expanded its limits, and encroached upon the plateau above. The streets in the newer portion are wide, and laid out at right angles. To the north and south of the city, which itself extends some two miles along the river, extensive suburbs have been laid out on the same plan. The city reaches back nearly three miles. Front Street, on the river bank, is built up of substantial stone warehouses, which have an imposing appearance, and are generally appropriated to heavy businesses. The street immediately behind this is the principal seat of the wholesale dry goods business, although this and the grocery business are not

confined altogether to these localities. The city is generally well built of brick chiefly, and sometimes of stone, the limestone of the neighborhood furnishing abundance of material. Many of the residences, hotels, etc., are magnificent and costly structures, and in the new city the private dwellings are mostly surrounded by garden plots and ornamental shrubbery. The whole area of the city covers about 86 sq. m., about one-tenth of which is thickly built upon.

The principal public buildings are those appropriated to the county business, as the court-house, jail, and offices; the municipal buildings, as the City Hall, courts, markets, etc.; the churches, literary institutions, schools, and charitable foundations. The Court-house is an elegant building, situate on a public square, near the centre of the city. The City Hall, the basement of which is used as a market, is on a square at the foot of Market Street, and is a splendid brick edifice. Among the churches, the Roman Catholic cathedral is the largest and most costly: it is 186 feet long, by 53 feet wide, with a massive Doric portico in front, and its steeple contains a chime of bells, the largest of which weighs 2,600 pounds. Many of the churches of other denominations are remarkable for chaste and beautiful design.

The annexed, an abstract of the late census, are the definite statistics of the churches of the city:

Churches.	No.	Seats.	Value.	Churches.	No.	Seats.	Value.
R. Cathol.	12.	10,862	\$584,800	Unitarian	2.	2,100	\$70,000
Methodist	12.	8,300	171,000	Evangel.	2.	600	4,700
Presb.	8.	5,900	200,000	Baptist	2.	1,600	83,000
Lutheran	5.	3,300	44,500	Batman's	1.	500	15,000
Episcopal	5.	2,750	136,000	Jews	2.	470	7,000

—making a total of 49 churches, containing 35,712 seats, and valued at \$1,213,500. The Roman Catholic population is much more numerous than is indicated by the number of seats in the churches, as a very large portion of that denomination worship in the aisles and vestibules, and an average of three several congregations assemble at each church at the different hours at the several masses on Sunday morning. St. Louis is the see of the Catholic archdiocese of the same name, and also of the Protestant Episcopal diocese of Missouri.

Among the charitable institutions the most conspicuous are the Protestant and Catholic Orphan Asylums—the first under the direction of Protestant ladies, and the latter of the Sisters of Charity. There are also hospitals, dispensaries, and other charities, for the medical care of the destitute.

Literary institutions are numerous. The University of St. Louis is some 3 or 4 miles north from the city, but for the accommodation of the medical department, there are appropriate buildings within its limits. The University was founded in 1832, and has 17 professors; and in 1850, had 160 students, and a library of 12,000 volumes; and at the same period the medical department had 7 professors and 107 students. The Western Academy of Sciences is established here, and has a fine museum; and besides this there is a museum of Indian antiquities, etc. According to the census of 1850, there were within the city 44 common schools, with 2,347 pupils; 15 private schools, with 2,378 pupils; 9 Roman Catholic schools, with 1,356 pupils: a Catholic college, with 250 pupils: two medical schools, with 14 professors, and 262 students. St. Louis is also the site of a United States arsenal, and a few miles below the city are Jefferson Barracks, with accommodations for a garrison of 700 men. The office of the Land District of St. Louis is located here, and also the office of the surveyor-general. The city is supplied with water from the river, which is raised by a steam-engine into a reservoir upon the summit of an ancient mound, and is thence distributed through iron pipes. The streets and public buildings are generally lighted with gas, which is supplied by a company.

The public press of St. Louis consists of 7 daily, 3 tri-weekly, 1 semi-weekly, and 13 weekly newspapers, and 6 monthly periodicals. The "St. Louis Times" is issued in

daily, tri-weekly, and weekly editions; the "St. L. Intelligencer," daily and weekly; the "Organ and Reveille," daily and weekly; the "St. L. Republican," daily, tri-weekly, and weekly; the "St. L. Union," daily, tri-weekly, and weekly; "Die Wochentliche Anseiger des Westens," daily; "Die Wochentliche Deutsches Tribune," daily; the "St. L. Price Current," the "Union Banner," the "American Banner," the "Shepherd of the Valley," the "Unfreie Beit," the "Western Watchman," and the "St. L. Presbyterian," are issued weekly; and the "Valley Farmer," the "St. L. Probe," the "Insurance Reporter," the "Western Journal," the "Bank Note Detector," and the "Signal," are issued monthly. As a general thing, the press of St. Louis is conducted with a high standard of talent, and occupies a first rank in the great department of journalism. Many of its issues have a wide circulation.

The growth of St. Louis, within the past 20 years, has been wonderfully rapid, and each great interest has kept pace with the whole. It is not alone in commerce that St. Louis is a great city, but in manufactures, the arts, and all other departments of industrial economy. Improvement has gone hand in hand with her general prosperity, and the old shanty of the settler has given place to the substantial dwelling of the resident. In every thing the change has been great, and a city of grand proportions, with all the elements of future success, has gained a footing where so lately a scattered village, depending on Indian trade and the trapper for support, alone existed.

The census of 1850 gave St. Louis a population of 77,860, of which 73,542 were white—42,384 males, and 31,468 females; 1,362 were free colored persons—725 males, and 637 females, and 2,656 were slaves. These numbers constituted 13,161 families, and occupied 9,662 separate dwellings. The population, in 1830, was 4,377; in 1840, 16,469—increase 230.9 per cent.; and in 1850, 77,650—increase 172.7 per cent.*

The population of the city includes 23,774 Germans, 11,257 Irish, 2,933 English, and 2,450 natives of other countries, making an aggregate of 40,114 natives of foreign countries, leaving 37,051 for natives of the United States. This presents even a greater disparity between the native and immigrant population that has been supposed to have existed. The immigrants, however, constitute one of the principal sources of the wealth and prosperity of the city. They have added millions to the value of its real estate, immensely increased the aggregate of the annual returns of its productive industry, and created an important market for the productions of the soil and the wares of the mechanic and the merchant.

The whole number of manufacturing establishments in operation on the 1st June, 1850, and producing to the value of \$500 and upward, annually, was 1,308, in which was invested a capital of \$4,377,711; and these employed 7,321 males, and 1,130 females. The annual product of this branch of industry amounted to \$15,400,340. The following table, showing the number of each kind of business, the capital invested, etc., is compiled from the census of the year specified:

Business.	Capital.	Handemployed.		Annual Product.
		Males.	Fem.	
104 Carpenters	\$150,265.	557.	—	\$1,171,580
9 Stone-cutters	28,100.	90.	—	122,700
7 Shirt manufacturers	43,000.	—	268.	43,000
106 Tailors	205,500.	630.	181.	650,550
14 Hatters	26,700.	72.	16.	85,150
8 Carriage-makers	56,600.	188.	—	130,000
9 Iron foundries	339,000.	545.	—	569,000
2 Brass foundries	17,000.	22.	—	25,000
71 Blacksmiths	72,430.	326.	—	308,130
16 Breweries	197,550.	81.	—	235,925
50 Cabinet-makers	72,760.	195.	—	182,600

* A census taken under the State authorities in 1852, gave the population of the city at 94,319, and of the county at 24,031—total, 123,850, of which 118,385 were white persons, 1,311 free persons of color, and 4,069 slaves. The census of white persons in the city gives 51,251 males and 40,791 females.

Business.	Capital.	Hands employed. Males, Fem.	Annual Product.

St. Louis must, at no distant day, become important as a manufacturing city. The heaviest business, as shown above in this department, is that of iron-ware. The State boasts of her mountains of ore, and the coal region is at the immediate doors of the city. Within a few years past, the articles made of iron have multiplied beyond any expectation; railing, fencing for agricultural use, window-sashes, door-fronts, columns, caps, telegraph-wire, and water-pipe, are only a few of the uses to which iron has lately been applied; and already speculation begins to whisper about entire buildings being constructed, and entire streets paved with it. The shops of St. Louis already compete with the best artisans elsewhere, for the manufacture of steam-engines, and of every species of machinery. A connection with Pilot Knob, and Iron Mountain, by railway, will obviate at once the difficulties of transportation, by placing the ore at the furnace, cheaply and expeditiously, and thus bring into general use this great metal. Missouri contains, then, within her own bosom, an element of wealth that has not yet been brought into requisition, and which is destined, at no distant day, to give a strong and vigorous pulsation to her growth in wealth. Besides this, lead and copper ore are abundant, exhaustless, and second in quality to the yield of no other region. The contiguity of these minerals to St. Louis, render the mines of far more value than those of Lake Superior, and will bring a better return for capital than the investments made in the mines of that region.

If St. Louis, during the ten years preceding 1850, increased from a fraction over 16,000 to nearly 80,000 without the impulse of railroads, and notwithstanding many drawbacks, what must be her progress, and what her population during the decade next succeeding, when, independent of other causes of increase, the city will have more railroads concentrating within her limits, than Boston now has. To say that it will have half a million of inhabitants, and be the third city in the Union in size, would be only relying upon what the past and present is proving, and what the future indicates unerringly. It has hitherto duplicated its population every four years, and hence the reader may easily calculate the result at the period alluded to.

The people of St. Louis and of the State have decided for themselves what shall be their destiny. They have entered upon measures of public improvement, the vastness of which is only equaled by the wisdom that has planned them; and such is the solid wealth, credit, and fixed purpose of the people, that they will certainly carry out what they have begun, and push on to completion the great railroads—the Pacific, the Hannibal and St. Joseph, the St. Louis and Northern Missouri, and others in various directions.

Knowing its own resources, St. Louis views with no jealous

eye, the efforts made in Illinois and elsewhere, to carry out railroad enterprises, such as the Central R. R. from Galena and Chicago to Cairo, and the various cross lines that are being extended from the lakes to the Mississippi—the latter, profitable as they may be to the parties interested, will yet mainly benefit St. Louis, by converting the thinly inhabited country through which they pass into populous and flourishing districts, whose people will resort to her to exchange their products for her manufactures, and the various supplies which now reach her from the West Indies, from the south and the east; while the Central Railroad, by developing a still greater region, comparatively unimproved, and sparsely settled, extending through Illinois north and south, will create and open to the trade of St. Louis a populous belt of country in front and to the right and left, the main road through which will be reached in less than two hours' time, by the cross lines to the east.

By virtue of railroad connections, St. Louis will thus be made the immediate centre of commerce and manufacture of 1,500,000 people in Illinois and Missouri, while in ten years its own people, in all probability, will approach half a million, and itself be the acknowledged exchange mart of 4,000,000 people.

The receipts at St. Louis of principal articles of produce for the years 1849, '50, '51, and '52, were as follows:

Articles.	1849.	1850.	1851.	1852.

The commercial importance of the city is more readily made visible by a view of its shipping trade. Below will be found statements showing the arrivals, tonnage, etc., of steamboats and barges in the years 1847, '48, '49, '50, '51, and '52 respectively:

Arrivals from	1847.	1848.	1849.	1850.	1851.	1852.
New Orleans.....	502	426	318	303	300	330

Tonnage.....	—	—	688,592	681,252	—	—
Keel boats.....	—	—	166	115	—	—

The imports from foreign countries, according to the U. S. Treasury Reports in 1850, were valued at \$359,648. Tonnage owned in the district 28,907 tons, all of the class enrolled and licensed, and of which 24,956 tons were navigated by steam. Five steamers (1,854 tons) had been built during the year.

The following is a statement of the principal transactions at the custom-house in the years 1851 and 1852:

The foreign value of goods, wares, and merchandise, imported into St. Louis from foreign countries, and entered for consumption at this port in 1852.....	1851.	1852.
Foreign value of merchandise remaining in public store on 31st Dec., ult.....	\$261,509 00	\$954,956 00
The foreign value of merchandise entered at other ports for transportation hither, but not yet received, estimated.....	\$261,509 00	\$261,509 00
Total.....	\$523,018 00	\$1,039,473 00
Of the above-mentioned goods, wares, and merchandise, entered for consumption in 1852, the imports were from the following countries: From England, the foreign value of which was....	\$406,118 00	\$431,343 00
France.....	88,404 00	75,253 00
Germany and Holland.....	23,239 00	22,695 00

Hospital moneys	3,129 89	2,941 03
Total amount collected in 1852	\$293,298 74	\$243,259 71
Amount expended in 1852 for relief of sick and distressed seamen	\$3,162 01	\$5,441 44
Tonnage on steam vessels remaining on 31st Dec., 1852	36,372 00	

St. Louis is divided into six wards, and is governed by a mayor, aldermen, and common council. Besides the ordinary State courts, it has also a separate court of common pleas, with jurisdiction very similar to the circuit court, a criminal court, a court of probate, and a recorder's court. These are local courts, exercising jurisdiction only in the county, and the recorder's jurisdiction is confined to small offenses within the city limits. The following is the valuation of the old and new limits of each ward in 1851, together with the tax which each ward paid in that year.

Wards,	VALUATION IN 1851.		
	Old Limits.	New Limits.	Total.
First Ward.....	\$501,794....	\$3,267,934....	\$3,769,728
Second Ward....	652,021.....	834,265.....	1,486,286
Third Ward.....	6,263,644....	2,519,561....	8,783,505
Fourth Ward....	6,379,725....	1,952,429....	8,332,154
Fifth Ward.....	2,920,698....	1,287,420....	4,207,518
Sixth Ward.....	361,992.....	4,790,021....	5,152,013
Total.....	\$17,079,274	\$14,651,930	\$31,731,204

Wards,	TAXES IN 1851.		
	Old Limits.	New Limits.	Total.
First Ward.....	\$5,696.....	\$36,696.....	\$42,392
Second Ward....	40,651.....	9,256.....	49,967

Fourth Ward....	70,404.....	27,790.....	98,194
Fifth Ward.....	32,324.....	15,044.....	47,368
Sixth Ward.....	4,026.....	53,988.....	58,014
Total.....	\$222,130	\$164,458	\$386,588

A list embracing the names of those citizens who own property within the city limits exceeding \$100,000 in value has been compiled from the assessment books. No one will misconceive the sense of the list. The figures opposite every name indicate, not the assessed value of all their real estate, nor the total of their wealth, but the value of their property within the city limits only, as affixed by the city assessor:

Allen, Thomas.....	\$374,600	Harney, W. S.....	\$181,900
Ashley, Elizabeth...	121,300	Harney, Mary.....	265,000
Benoist, Louis A.....	200,000	Lindell, Jesse G....	162,700
Berthold, B. est.....	101,600	Lindell, Peter.....	420,000
Biddle, John.....	115,700	Lindell, P. and J. G.	148,400
Bogy, L. V.....	191,000	Lucas, James II....	452,000
Boyce, Octavia.....	310,000	Lucas & Hunt.....	593,000
Brant, J. B.....	312,600	Mullanphy, Bryan..	291,000
Carr, Wm. C.....	128,000	O'Fallon, Col. John.	328,800
Chamber, Charles...	128,000	Page, D. D.....	427,500
Chouteau, P., Jr.....	290,000	Pratte, Bernard....	118,200
Chouteau, Henry....	185,500	Rankin, Robert, est.	158,700
Clemens, James, Jr.	342,000	Shaw, Henry.....	204,100
Denver, Larkin est..	115,300	Stickney & Scollay..	132,000
Ewing, Benoist, et al	118,000	Tyler, Robert.....	337,000
Finney, J. and W....	163,600	Waddingham, Wm.	110,600
Gaty, McCune & Co.	171,000	Walker, Isaac.....	307,500
Gay, J. H.....	118,800	Walsh, J. and E....	166,500
Graham, Richard...	200,000	Wood, James.....	107,000

Besides the above, there are 273 persons whose property is severally valued from 20,000 to 99,000 dollars.

The thirty years since 1820 have effected vast changes in the wealth and general circumstances of St. Louis, and an exhibit of the assessment of that day along with one of the

present time can not prove altogether without interest. Many wealthy citizens of the old times have now, from some cause or other, dwindled into poverty, and many others who a few years since did not own a foot of real estate, have become millionaires to-day. The contrast, if in some cases painful, is at all events curious. Only those taxpayers whose representatives, or who themselves are still living, are noticed in the following list. Of the 429 taxpayers that there were at that time, the names of only the principal 85 are given.

Bassacra, Charles....	\$6,225	McGuire, Thomas....	\$1,910
Berthold, Bartholomew	7,600	McKnight & Brady....	8,800
Bates, Edw'd.....	1,000	O'Fallan, John.....	2,450

For the year 1821 the total taxes levied on property situated within the town limits and precincts, is \$3,823 80. St. Louis at that period contained only some 367 buildings, and there were but sixty stores in the town. The total number of slaves was 316.

The history of St. Louis is one of great interest. On the 15th February, 1764, La Clede and his party landed at the

spot now occupied by the city, and proceeded to draw the town limits, which he named St. Louis, in honor of Louis XV. of France, a town which subsequently became the capital of Upper Louisiana, and which is now the commercial capital of Missouri. For long years after this period, the beasts of the forest afforded nourishment to the settlers, and rude huts on the ground and scaffolding in the trees shelter and protection to the daring people who first exposed the bosom of the soil to the genial influences of social industry. From the time of its establishment up to the year 1768, St. Louis had grown apace, and every thing connected with its position and prospects warranted the anticipation of a peaceful existence under a mild and patriarchal form of government. In the mean time, however, the fact of the cession of Louisiana to Spain became known, and disturbance at once interrupted the tranquillity of the settlers, who rebelled against the change of masters. The inhabitants clung closely to their loved government of France, and it was not until 1768 that St. Louis was occupied by Spanish troops. From this period, the settlements made but little progress. Upon the transfer of the country from Spain to the United States in 1803, the immigration of the Anglo-Americans commenced, and the population slowly but steadily augmented in numbers. On the 26th March, 1804, the country was constituted a District of the United States, under the name of the *District of Louisiana*, and on the 19th October of the same year, W. H. Harrison, then governor of Indiana, instituted the American authority. On the 4th July, 1805, it was erected into the *Territory of Louisiana*, and on the 4th July, 1812, it received the name of the Territory of Missouri. "We have now arrived at a period," says Wilson Primm, in an address on the anniversary of the founding of the city in 1851, when a new era was to dawn, not only on St. Louis, but on all her northern and western dependencies, when a power greater than that of the fabled lamp of Aladdin was to be brought into requisition, and by its magic, to mature as it were in a day, in the western wilds of America, an existence, which on the shores of the eastern continents, the lapse of centuries had not been able to procure. In 1817, the "General Pike," the first steamboat that ever ascended the Mississippi, made its appearance at St. Louis." The "Independence" was the first steamboat that ascended the Missouri (May, 1819). Passing over the fierce discussions which eventuated in the establishment of Missouri as one of the confederacy in 1820, we come to the year 1822, when St. Louis was erected into a city. Since that time what wonderful changes have taken place. Working its way to importance and greatness, St. Louis has still maintained its onward and upward flight. The advantages of education, the lights of science, the blessings of religion, placed within the reach of all; the establishment of a wise and vigorous municipal government, under the auspices of which its limits have been enlarged, and its interior improved and embellished; the erection of manufactures, the extension of the arts, the regulation of commerce—all these results have derived themselves from the natural resources of the city, and the intelligence and enterprise of its inhabitants. St. Louis has now a name and reputation at home and abroad of which all may be proud.

SAINT LOUIS RIVER, *Minn. and Wisc.*: rises by two principal head branches in Dead Fish and Seven Beaver lakes, flows southerly in winding course until it turns, and empties into the W. end of Lake Superior.

SAINT LOUISVILLE, p. o. and sta., Licking co., *Ohio*: on the line of the Sandusky, Mansfield, and Newark R. R., 109 m. S. Sandusky City, and 7 m. N. Newark, 31 m. N. E. Columbus.

SAINT LUCIE COUNTY, *Flor.*: Situate E., toward the S., and contains about 3,200 sq. m. Drained by Kissimmee river, which flows into Lake Okechobee, in the S. W., St. Lucie river, and branches of Indian river, which bounds it on the E. Surface level and low, a large portion being swamp; soil, where fit for cultivation, is fertile, and suited for the

growth of cotton. Chief productions, rice, cotton, wheat, Indian corn, and fruits. Farms 0; manuf. 0; dwell. 22, and pop.—wh. 111, fr. col. 1, sl. 27—total 139. *Capital*:—

SAINT MARIE, p. v., Jasper co., *Ill.*: on the left bank of Embarras r., 105 m. S. E. Springfield.

SAINT MARK'S, p. v., Wakulla co., *Flor.*: on St. Mark's r., near the confluence of the Wakulla, which together form Apalachee, 20 m. S. by E. Tallahassee, with which it is connected by railroad, and of which it is the port. It has considerable other business.

SAINT MARK'S RIVER, *Flor.*: rises in a small pond, in Jefferson co., flows S. W. 20 m., and unites with the Wakulla, to form Apalachee r., flowing S. into the Gulf of Mexico. Boats drawing 4 feet water ascend to its source. There is 8 feet of water to St. Mark's v., 6 m. from the gulf, but the navigation is crooked, and impeded by oyster beds. At the mouth of the r. is a light-house.

SAINT MARK'S, U. S. collection dist., *Flor.*: comprising St. Mark's r. and vicinity; had on June 30th, 1850, a tonnage of 353 tons, consisting of 282 tons enrolled and licensed, permanent, and employed in the coasting trade, and 71 tons licensed under 20 tons; with no foreign commerce or ship-building at that date. Port Leon is the port of entry.

SAINT MARTIN PARISH, *La.*: Situate S. W. of the E. district, and contains 1,117 sq. m. Drained by Teche river in the S. W. and W., and branches of Grant river in the E., and numerous small streams falling into Lake Cetimaches, which occupies the central and S. E. portion of the county. Surface is varied, and there is some prairie land; soil along the streams is fertile and easy of cultivation, and yields considerable quantities of cotton, fruits, &c. Chief products, sugar, cotton, rice, indigo, and Indian corn. Farms 420; manuf. 0; dwell. 940, and pop.—wh. 4,741, fr. col. 531, sl. 5,835—total 11,107. *Capital*: St. Martinsville. *Public Works*: New Orleans, Opelousas, and Texas R. R.

SAINT MARTIN'S, p. v., Worcester co., *Md.*: at the head of St. Martin's r., 77 m. S. E. Annapolis.

SAINT MARTIN'S RIVER, Worcester co., *Md.*: a large inlet, with a number of confluences, rising from the E. edges of the Cypress swamp. The Isle of Wight divides its entrance into Sinepuxent bay, into two channels.

SAINT MARTINSVILLE, p. v., and cap. St. Martin's par., *La.*: on both sides of Bayou Teche, and at the head of steamboat navigation, 43 m. S. W. Baton Rouge. It contains a courthouse, jail, &c., and has considerable trade, principally in cotton.

SAINT MARY'S PARISH, *La.*: Situate S. W. in E. district, and contains 720 sq. m. Drained by Teche river, and Salle and Cypra Mort bayous. Surface level; soil diversified, in some parts being liable to inundation, and too wet for tillage. Where this is not the case it proves fertile, and is well fitted for the growth of cotton, sugar, rice, &c., which are the staple productions. Its S. W. coast is indented with large bays. Farms 193; manuf. 0; dwell. 746, and pop.—wh. 3,423, fr. col. 424, sl. 4,961—total 8,808. *Capital*: Franklin. *Public Works*: New Orleans, Opelousas, and Texas R. R.

SAINT MARY'S COUNTY, *Md.*: Situate W., and contains 815 sq. m. Drained by small streams flowing into the Potomac and Patuxent rivers. Surface level; soil fertile, and produces abundantly tobacco, which is the staple. Farms 813; manuf. 9; dwell. 1,512, and pop.—wh. 6,225, fr. col. 1,661, sl. 5,342—total 13,698. *Capital*: Leonardstown.

SAINT MARY'S, p. v., and port of entry, Camden co., *Ga.*: on N. bank of St. Mary's r., 102 m. S. S. W. Savannah, 183 m. S. E. Milledgeville. It has a safe harbor, and vessels drawing 21 feet of water come to its wharves. It contains a church, academy, several stores, &c. Pop. about 700. The total tonnage of St. Mary's district, on June 30th, 1850, was 1,425 tons, of which the registered tonnage was 492 tons, temporary, and the enrolled and licensed tonnage was 933 tons (692 t. permanent, 241 t. temporary) employed in the coasting trade. During the year preceding there was no

foreign commerce nor ship-building. The tonnage and other importance of St. Mark's has decreased since the accession of Florida to the Union.

SAINT MARY'S, p. o., Wood co., *Verg.*: 240 m. N. W. Richmond.

SAINT MARY'S, p. o., Hancock co., *Ill.*: on the left bank of Crooked cr., 77 m. N. W. Springfield.

SAINT MARY'S, p. o., Linn co., *Ia.*: on a branch of Cedar r., 17 m. N. Iowa City.

SAINT MARY'S, p. o., Vigo county, *Ind.*: 70 m. W. S. W. Indianapolis.

SAINT MARY'S, t. and p. v., Auglaize county, *Ohio*: 82 m. W. N. W. Columbus. Drained by St. Mary's r. and branches. Surface level; soil very fertile. The v., formerly cap. of the co., is on the W. bank of the r. so called, and on the line of the Miami Canal, 133 m. N. Cincinnati. It contains several stores, mills, etc. The "Sentinel and Democrat" (dem.) is issued weekly. Pop. of v. 574; of t. 1,567.

SAINT MARY'S, p. o., Chester co., *Penn.*: 61 m. E. S. E. Harrisburg.

SAINT MARY'S, v., St. Mary's co., *Md.*: on the E. side of St. Mary's r., about 8 m. from its confluence with the Potomac, 53 m. S. Annapolis. The site of St. Mary's City, founded by the first emigrants, the "Pilgrims of St. Mary's," 27th March, 1674, is a little S. of this.

SAINT MARY'S, p. o., Lafayette co., *Wisc.*: 49 m. S. W. Madison.

SAINT MARY'S river, *Ga.* and *Flor.*: rises in Okefinokee Swamp, in the S. E. part of Ware co., Ga., flows S. for some distance, then suddenly turns N., and after flowing in that direction about 33 m., it takes an E. course, until it empties by St. Mary's sound into the Atlantic. It is 105 m. long, at low tide has 134 feet of water on the bar at its mouth, and 194 feet at ordinary high tide, and forms the best harbor on the E. coast of Florida.

SAINT MARY'S river, *Md.*: a large inlet of Potomac r., in S. E. part of St. Mary's co. For statistics of St. Mary's U. S. collection district, see ST. INGOES.

SAINT MARY'S river, *Ohio* and *Ind.*: rises in W. part of Auglaize co., flows N. W. into Indiana to its confluence at Fort Wayne with St. Joseph's r., with which it forms Maumee river.

SAINT MARY'S strait, *Mich.*: is the outlet of Lake Superior, connecting it with Lake Huron. It is about 70 m. long, but is naturally divided into two sections by the falls of St. Mary, 15 m. below Lake Superior. These falls are more properly low rapids, $\frac{1}{4}$ m. long, and have a descent of 22 feet 10 inches. A ship and steamboat canal is about being constructed around them. Below the falls the strait is navigable for small steamboats, and vessels drawing 6 feet of water, though the navigation is most difficult. It contains 4 very large islands, and several smaller ones, which divert its water into principal and cross channels. The usual ship channel is the W. strait, which has an average width of 3 m. The entire fall of the r. between the lakes is 44 feet 3 inches, and its current (exclusive of the rapids) has a medium rate of $\frac{1}{4}$ m. per hour. The strait abounds with fish of various kinds, which are taken in great quantities, and extensively exported.

SAINT MARY'S LANDING, p. v., St. Genevieve co., *Mo.*: on the W. bank of the Mississippi r., at the mouth of Saline r., 76 m. below St. Louis and 126 m. E. S. E. Jefferson City. Salt springs are numerous in the vicinity, and salt has been manufactured here.

SAINT MATHEWS, p. v., Orangeburg dist., *S. Car.*: on Caw-waw Swamp of North Edisto r., 23 m. S. by E. Columbia.

SAINT MICHAEL'S, p. v., Talbot co., *Md.*: on the W. side of St. Michael's r., a large inlet of Eastern bay of Chesapeake bay, 19 m. S. E. Indianapolis. Pop. 563.

SAINT OMER, p. o., Decatur co., *Ind.*: on the N. side of Flat Rock cr., on the Lawrenceburg and Upper Mississippi R. R., 38 m. S. E. Indianapolis. It is a pleasant village with about 450 inhabitants.

SAINT PARIS, p. v., Champaign co., *Ohio*: 51 m. W. by N. Columbus.

SAINT PAUL, p. v., and cap. Ramsey co., *Minn. Ter.*: on the left bank of the Mississippi, 15 m. by water and 8 m. by land below the Falls of St. Anthony, and about half that distance below the mouth of Minnesota r., lat. $44^{\circ} 52' 46''$ N., and long. $93^{\circ} 04' 54''$ W. It is situated on two broad benches of land, the lowest of which is 50 feet above the high water mark of the Mississippi, which river flows past the town in an E. by N. direction. The town site is flanked by beautiful bluffs, from which issue springs of cold clear water, and nature has done every thing to make it a romantic and healthful situation. The first store, or trading house, was built in 1842, and seven years later it was the site of a Catholic mission, surrounded by stunted copse, and looking across the river from his elevated table rock, the pious recluse saw a gloomy and silent forest growing upon the sluggish waters and rising with the river hills, falling back for miles into the prairie, presenting an aspect of interminable woodlands reaching to the distant sunset. The town has risen from this wilderness as if by magic. It has now an imposing State-house, 139 feet by 53 feet, a court-house, with metallic dome, glittering in the sun like a fairy castle, jail, nine churches for Christian worship, 515 dwellings, offices and shops, 70 manufactories and business houses, 4 hotels, 4 school-houses, public and private. In machinery of various kinds, including a flouring-mill, an iron foundry, a plow factory, 4 wagon shops, etc., \$177,000 is invested; and stocks of merchandise of all descriptions are valued at \$790,000—the last sum including the amount invested in the Indian trade. These statistics refer to the spring of 1853, at which period it contained between 2,500 and 3,000 inhabitants. In 1850 its population numbered only 1,135. Lines of steamers, coming and going daily, omnibuses, coaches, etc., and yet St. Paul's is in the wilderness. Look where you will, and the primitive features of the surrounding country remain unchanged, and the wild animal and Indian still haunt the grounds to which ages of occupancy have given them a prescriptive right. This new town, however, will "go ahead," and must eventually become a depôt of a vast interior commerce. It will receive and distribute the merchant ware of the Upper Mississippi and the whole valley of the Minnesota, which is now being opened to settlement. Already the annual arrival of steamers from below averages 200, bringing to the rising State a wealth of labor that will soon level the forests and make the land glad with its burden of agricultural profusion. "The society at St. Paul's," says a recent writer, "is a peculiar conglomeration of attractive and repellant elements, reaching through all shades of color, from the bronzed savage to the smooth polished Circassian; and that confusion of tongues which distracted the builders of Babel is no comparison to the St. Paulian jargon. The Sioux, the French, the Patois, Dutch, German, Norwegian, Irish, English, and American alternately salute you in the street. * * * There are but few drones here; every body is busy, with no idle moneyed aristocrats to tyrannize over the industrious poor. * * * All here are strangers from different parts—all adventurers; all industrious, generally very orderly, and consequently very prosperous and happy."

SAINT PAUL, p. o., Madison county, *Ark.*: 106 m. N. W. Little Rock.

SAINT PAUL, p. v., Greene co., *Mo.*: on a fork of James r., 97 m. S. by W. Jefferson City.

SAINT PAUL, p. o., Clark county, *Ala.*: 100 m. W. S. W. Montgomery.

SAINT PAUL'S, p. o., Robeson co., *N. Car.*: 63 m. S. by W. Raleigh.

SAINT PETER'S, p. o., Chester co., *Penn.*: 63 m. E. by S. Harrisburg.

SAINT PETER'S, p. o., Franklin co., *Ind.*: 59 m. E. S. E. Indianapolis.

SAINT REGIS river, *N. Y.*: rises in St. Regis lake, in

Franklin county, and flows N. by winding course into the St. Lawrence.

SAINT SIMON'S islands and sound, *Ga.*: lie off Glynn county, E. and N. E. Brunswick.

SAINT STEPHEN, p. o., Fauquier county, *Virg.*: 79 miles N. by W. Richmond.

SAINT STEPHEN'S, p. v., Washington co., *Ala.*: on the right bank of the Tombigbee r., 122 m. S. W. Montgomery. It is located at the head of schooner navigation. It contains a number of workshops, stores, etc., and a U. S. land office. The buildings are chiefly of stone, but present a dilapidated appearance.

SAINT TAMMANY parish, *La.* Situate E. in the east district, and contains 1,048 sq. m. Drained by Tangipalica and Chifuncete rivers, Bogue Fallia, and other small streams. Surface generally uneven and in parts hilly, and adapted to grazing; soil barren for the most part, but there are some fertile tracts on the streams, which are well cultivated and prove productive. Staple articles, cotton, sugar, and rice. Pine timber abounds extensively. Farms 90; manuf. 83; dwell. 786, and pop.—wh. 3,642, fr. col. 359, sl. 2,363—total 6,364. *Capital*: Covington.

SAINT TAMMANY'S, p. o., Mecklenburg co., *Virg.*: 75 m. S. W. Richmond.

SAINT THOMAS, t. and p. v., Franklin co., *Penn.*: 53 m. S. W. Harrisburg. Drained by Back cr. Surface uneven; soil various. The village on the line of the proposed railroad from Gettysburg to Greensburg contains some manufactories, etc. In the town there is a furnace (constructed in 1828) of 1,400 tons annual capacity moved by water-power. Population of t. about 2,000.

SALAMONIE river, *Ind.*: rises in S. E. corner of Jay co., near the Ohio boundary, flows N. W., and empties into Wabash r. opposite to Lagro. It is an excellent mill-stream, but not navigable.

SALEM county, *N. Jer.* Situate S. W., and contains 818 sq. m. Drained by Stow, Salem, Alloway's, and Oldman's creeks, which flow into Delaware bay and river. Surface even; soil varied, but in general is fertile—in the N. portion it consists principally of a deep loam with an intermixture of sand and clay, in the S. E. gravelly. Chief productions, wheat and Indian corn. Pork and beef are exported largely. It contains extensive beds of marl. Farms 1,313; manuf. 142; dwell. 3,545, and pop.—wh. 17,415, fr. col. 2,062, sl. 0—total 19,467. *Capital*: Salem.

SALEM, p. v., Russell county, *Ala.*: 69 miles E. by N. Montgomery.

SALEM, p. v., Newton co., *Tex.*: on the Sabine r., at the mouth of Big Cow cr., 261 m. E. Austin City.

SALEM, t. and p. v., New London co., *Conn.*: 29 m. S. E. Hartford, 36 m. E. N. E. New Haven. Is an agricultural township, with fertile soil, well watered by several streams. Gardner's lake lies on its N. E. border. Incorporated in 1819, and contains 4 churches. Pop. of t. 760.

SALEM, p. v., Clark co., *Ga.*: on Green Briar cr., 39 m. N. by W. Milledgeville.

SALEM, p. v., and cap. Marion co., *Ill.*: on the borders of Grand Prairie, at the head of Crooked cr., 90 m. S. S. E. Springfield. It contains the county buildings, etc., and promises to become an important place upon the completion of the Ohio and Mississippi R. R., and the Massac and Sangamon R. R., which will pass through it.

SALEM, l. p. v., sta., and cap. Washington co., *Ind.*: near the head waters of Blue r. and on the New Albany and Salem R. R., 85 m. N. N. W. New Albany and 79 m. S. from Indianapolis. It is located near the centre of the county, on rolling ground, and is one of the pleasantest places in the State. This village suffered much from the cholera in 1832, and for several years it did not improve; but important improvements are now being made, and considerable business is carried on in manufactures, etc. The public buildings are a court-house, jail, fire-proof offices, a market-house, fine and commodious churches of all denom-

inations, a flourishing county seminary, a female academy under the patronage of the Salem Presbytery, and about 800 houses, mostly of brick and well constructed, and 1,500 inhabitants. The manufactories (which are various) are chiefly moved by steam. The public press consists of 3 papers: the "Salem News" (whig), "Washington Democrat" (dem.), and the "Salem Locomotive" (neut.), all weekly issues.

SALEM, p. v., Henry co., *Ia.*: 56 m. S. Iowa City. The village is surrounded by beautiful prairie land. Settled in 1834 by a number of Friends from Salem, N. J., and incorporated in 1839. It contains several stores, places of instruction, mechanic shops, etc.

SALEM, p. v., and cap. Livingston co., *Ky.*: near Clay Lick cr., 193 m. S. W. Frankfort. It contains the court-house, jail, etc. Pop. about 300.

SALEM, t. and p. v., Franklin co., *Me.*: 48 m. N. N. W. Augusta. This is a good farming t., watered by Seven Mile brook. Mount Abraham commences in its N. part. Incorporated in 1823. Pop. of t. 454.

SALEM, p. city, port of entry, and one of the caps. *Essex co., Mass.*: on Salem harbor of Massachusetts bay, 14 m. N. E. by N. Boston. Lat. (E. I. M. Hall) 42° 31' 18" N., long. 70° 53' 53" W. It is chiefly built on a narrow peninsula, formed by two inlets from the harbor, called North and South rivers. The latter forms the main harbor, which affords good anchorage ground, but vessels drawing more than 14 feet of water must be partially unloaded before they can come to its wharves. The site of the city is low, but pleasant and healthy. Its compact portion is about $\frac{1}{4}$ m. long and $\frac{1}{4}$ m. wide. Its streets are quite irregular, but of late many of them have been much improved. It is generally well built, and many of the houses and public buildings are very handsome structures. Washington Square is a fine public park of eight acres, ornamented with trees, etc. The principal public buildings are, the City Hall, built in 1837, a very fine building, with granite front; the Court-house, a new edifice, handsomely situated; the Custom-house, Mechanic Hall, market-house, alms-house, and jail. The Museum of the East India Marine Society is a celebrated collection of about 5,000 curiosities of nature and art, collected from almost every part of the world, kept in a spacious hall built by the society. This society was formed in 1799 of those who, as captains or supercargoes, had doubled the Cape of Good Hope or Cape Horn, and in 1823 the number of its members residing in Salem was 160. There are 20 churches, of which several are very handsome edifices. Much attention is given to education, and the public schools are of superior excellence. The Salem Athenæum, incorporated in 1810, has a spacious hall in Lawrence Place, with a very valuable library of 11,000 volumes. The Essex Institute has 2,500 volumes, with other collections; the Mechanics' Library contains 1,200 volumes; besides which there are two other libraries. In 1850 the periodical press consisted of 6 issues; viz., 1 tri-weekly, "Salem Gazette" (whig); 2 semi-weekly, "S. Register" (whig) and "Essex County Freeman" (F. S.); 3 weekly, "S. Observer" (neut.), "S. Mercury" (neut.), and the "Villager" (fam.).

The manufactures of Salem are considerable. The Naumkeag Cotton Manufacturing Company have a capital of \$1,000,000, run about 28,000 spindles, employ about 600 operatives, and annually manufacture 5,000,000 yards of goods. There are 2 cordage factories, each employing about 60 hands, 3 twine factories, an iron factory, brass foundry, and 4 large machine shops. The manufactures of leather, boots and shoes, chemicals, and gum copal is very extensively carried on. There are 7 banks, with an aggregate capital of \$1,750,000; 6 insurance companies, with total capital of \$900,000; 1 marine insurance company, and an institution for savings. The lines of railroad leading from Salem are—Eastern R. R., passing through it from Boston to Portland; Essex R. R., from Salem to Lawrence, 21 m.; Salem and Lowell R. R., 24 m.; South Reading Branch R. R.

to Boston, *via* South Reading, 19 m.; and the Marblehead Branch R. R., 4 m.

In foreign commerce Salem was for a long period the second town in New England, and was especially distinguished for its East India trade, by which it was very greatly enriched. In 1818 the number of vessels employed in this trade, belonging to Salem, was 53, the tonnage of which was 14,272 tons. This trade is not now carried on so extensively as formerly from this port, but many vessels therein engaged are owned here, and deliver their cargoes in Boston and New York. The total tonnage of Salem district on 30th June, 1850, was 23,916 tons. The registered tonnage was 20,317 tons, of which 19,710 tons were permanent, and 607 tons temporary. The enrolled and licensed tonnage was 8,599 tons, all permanent; of which 8,430 tons were employed in the coasting trade, 97 tons in cod fishery, and 72 tons in the mackerel fishery. In neither class of tonnage was any portion employed in steam navigation. During the year preceding, the number of clearances for foreign countries was 372—35,003 tons. The number of entrances during the same period, as given in the U. S. Treasury reports, are united with those of Beverly district, and their united total is 886—36,796 tons. Of the entire foreign commerce about five-twelfths of the tonnage was American, seven-twelfths foreign. During the year 1 ship was built—299 tons. An U. S. naval officer is stationed at this port.

The city government is vested in the mayor, board of 6 aldermen, and common council, composed of 24 members, 6 from each of the 4 wards. The city school committee is composed of 21 members. The territory of the city, including islands, contains 5,429 acres. An aqueduct supplies the city with excellent spring water. The city almshouse, erected in 1816, is on the Neck, surrounded by a large farm. A bridge over the North r., 1,431 feet long, connects Salem with Beverly, N. of which is also the railroad bridge.

The population at different periods has been as follows:

Year.	Pop.	Year.	Pop.	Year.	Pop.	Year.	Pop.
1637...	900	1800...	9,457	1830...	13,895	1845...	16,762
1765...	4,427	1810...	12,613	1836...	15,002	1850...	20,263
1790...	7,921	1820...	12,731	1840...	15,082		

Salem was settled in 1626, incorporated June 29, 1629, made shire town November 9, 1644, and incorporated as a city March 23, 1836. Its Indian name was Naumkeag. In 1629 it contained 200 inhabitants, and the first church was then formed. In July, 1630, 17 ships arrived, with 1,500 persons, by some of whom Boston was founded. In 1692 the witchcraft delusion prevailed, during which 19 persons were condemned and hanged as witches. In 1774, when Boston was a closed port, Gen. Gage ordered the removal of the general court to this place, which called out great remonstrance from its citizens. During the Revolution it was distinguished for patriotism, and especially for its various naval achievements. In the course of the war it fitted out about 60 vessels, manned by about 4,000 men. At the end of the war it commenced the East India trade. The first vessel thus engaged was at the Cape of Good Hope in 1784, and at Canton in 1786. In 1782 was established the first regular stage communication with Boston, which was tri-weekly; the railroad to Boston was opened August 28, 1838. The usual time at present of passing over it to Boston is 45 minutes. On December 23, 1847, the telegraph wires were completed to this place from Boston.

SALEM, t. and p. o., Washtenaw co., *Mich.*: 53 m. E. S. E. Lansing. Drained by a fork of W. branch of Rouge r. This is one of the best agricultural towns in the co., having a very rich soil, and well improved. Pop. 1,343.

SALEM, p. v., Tippah county, *Miss.*: 182 m. N. N. E. Jackson.

SALEM, t., p. v., and sta., Rockingham co., *N. Hamp.*: on Manchester and Lawrence R. R., 19 m. from Manchester, 7

m. from Lawrence, 34 m. S. S. E. Concord. Surface uneven; watered by Spiggot r. and branches, which afford water-power, improved by mills of various kinds. Pop. in 1840, 1,408; in 1850, 1,555.

SALEM, p. v., and cap. Salem co., *N. Jer.*: on E. side of Salem cr., $\frac{3}{4}$ m. from its mouth, in Delaware bay, 57 m. S. W. by S. Trenton. The soil of t. is a fertile sandy loam. The v. was the first place settled in West Jersey, having been founded in 1675. It contains a handsome brick court-house, with fire-proof county offices adjacent, a stone jail, academy, 8 churches, market-house, and bank, with capital of \$75,000. The "National Standard" (whig) and "Salem Sunbeam" (dem.) are published weekly. Vessels of 50 tons come up to the v.; the bar, at the mouth of the creek, has but 8 feet of water. A steamboat plies daily to Delaware City and New Castle, connecting with one from Philadelphia. Pop. of t. in 1840, 2,007; in 1850, 3,052.

SALEM, t., p. v., sta., and one of the capitals of Washington co., *N. Y.*: 44 m. N. E. Albany. Drained by branches of Batten Kill r. Surface undulating, in parts hilly; soil in general good, and under high state of cultivation. Butter, cheese, pork, etc., are produced in abundance. It was first settled in 1756, by two companies of emigrants, one from Scotland and Ireland, and the other from New England, and organized in 1788. The v. is on White cr., in a pleasant valley, and on the Rutland and Washington R. R., 41 m. N. by E. Troy. It was incorporated in 1803, and contains a part of the county buildings. It is surrounded by a rich and highly cultivated region of country, producing excellent grain, and raising large numbers of sheep; it is celebrated as a mart for the purchase of wool. The Washington Academy, located here, is an old and flourishing institution. The v. has some manufactures, several mills, etc.; and the "Salem Press" (whig) is issued weekly. Pop. of t. 2,904.

SALEM, p. v., Forsyth county, *N. Car.*: 96 m. W. N. W. Raleigh. Settled by Moravians, who here have a celebrated female academy, with large buildings on a handsome square. The v. also contains a church, a cotton factory, paper factory, stores, etc., and a branch of the Bank of Cape Fear at Wilmington, with capital of \$150,000. Pop. about 1,900.

SALEM, p. v. and sta., Columbiana co., *Ohio*: on Ohio and Pennsylvania R. R., 65 m. from Wooster, 69 m. from Pittsburgh; 122 m. N. E. Columbus. This v. is in Perry t. The "Homestead Journal" (land reform) and "Anti-Slavery Bugle" are issued weekly. Pop. about 1,000.

SALEM, t., Columbiana co., *Ohio*: 123 m. N. E. Columbus. Surface rolling; soil fertile. The Ohio and Pennsylvania R. R. passes through the t. at v. of Franklin Square, 69 m. from Wooster, 65 m. from Pittsburgh. Pop. 1,960.

SALEM, t. and p. o., Mercer co., *Penn.*: 195 m. N. W. Harrisburg. Drained by Little Shenango and Crooked creeks. Surface even; soil fertile. It has several mills, mechanic shops, etc.

SALEM, p. v., Sumter dist., *S. Car.*: on the E. side of Black r., 55 m. E. by S. Columbia.

SALEM, p. v., Franklin co., *Tenn.*: on Bean's cr., 77 m. S. S. E. Nashville.

SALEM, p. v., sta., and cap. Roanoke co., *Virg.*: on the N. side of the Roanoke r., and on the Virginia and Tennessee R. R., 60 m. from Lynchburg, 145 W. by S. Richmond. It contains a court-house, jail, and a branch of the Exchange Bank of Virginia, Norfolk, with capital of \$100,000.

SALEM, p. v., and cap. Marion co., and capital of the Territory of Oregon: is situated on the E. bank of the Willamette river, and contains the State buildings, etc.

SALEM, p. v., Racine co., *Wis.*: on Lake Michigan, 87 m. E. by S. Madison.

SALEM CENTRE, p. v., Westchester county, *N. Y.*: 92 m. S. by E. Albany.

SALEM CHURCH, p. v., Randolph county, *N. Car.*: W. of Utlar r., 78 m. W. by S. Raleigh.

SALEM CROSS ROADS, p. o., Chataugue co., *N. Y.*: 304 m. W. by S. Albany.

SALAM CROSS ROADS, p. o., Westmoreland co., Penn.: 133 m. W. Harrisburg.

SALAM FAUCQUIER, p. v., Fauquier co., Virg.: on the Manassas Gap R. R., 91 m. N. by W. Richmond.

SALFORDVILLE, p. o., Montgomery co., Penn.: 73 m. E. Harrisburg.

SALINA, p. v., Jefferson co., Ky.: on the E. side of Mill cr. of the Ohio r., 53 m. W. Frankfort.

SALINA, t. and p. v., Onondaga county, N. Y.: 133 m. W. N. W. Albany. Drained by several small streams flowing into Onondaga lake, which bounds it on the W. Surface rolling; soil of great fertility, and well cultivated. It is celebrated for its salt manufactures—the Onondaga Salt Springs, owned by the State, being located here, mostly on the "Onondaga Salt Spring Reservation," consisting of detached lots of various dimensions, situated promiscuously in the town. They are the largest and best in the United States. The making of salt, both by solar evaporation and by artificial heat, is carried on extensively in the villages of Salina, Syracuse, and Liverpool. The principal spring is at Salina v., which affords an inexhaustible supply of water, yielding to every 40 gallons about one bushel of pure salt. The water is forced up by hydraulic engines into a large reservoir, from which Syracuse and other places are supplied by means of pipes. In 1850, there were manufactured at the Salina works 46,546 bushels of coarse salt, 1,866,435 bushels of fine, and 262,730 bushels of ground or dairy salt—total, 2,175,711 bushels. The amount of duty accruing to the State from these works was \$44,364. The v. is located on the E. bank of the lake, and on the Oswego Canal. 2 m. N. Syracuse. It was incorporated in 1824, and contains—besides a number of stores and groceries, flouring and other mills—an extensive machine shop and a furnace worked by steam, for the purpose of manufacturing steam-engines and fine cast-ings, several other machine shops, etc. Pop. of t. 2,142.

SALINE county, Ark. Situate centrally, and contains 931 sq. m. Drained by Hurricane cr. and branches of Saline r., which runs on its western border. Surface level; soil productive, and good cotton is raised. Farms 405, manuf. 16, dwell. 621, and pop.—wh. 3,392, fr. col. 6, sl. 503—total 3,901. *Capital*: Benton.

SALINE county, Ill. Situate S., and contains 373 sq. m. Drained by south and middle fork of Saline cr., a tributary of the Ohio. Surface generally level; soil of a sandy nature. Chief productions, wheat and Indian corn. It has fine pasturage for cattle, large numbers of which are fattened and exported annually. It is well timbered, and has some salt springs, which were formerly of considerable value. Farms 678, manuf. 11, dwell. 961, and pop.—wh. 5,495, fr. col. 93—total 5,588. *Capital*: Raleigh.

SALINE county, Mo. Situate N. W. centrally, and contains 727 sq. m. Drained by La Mine r. and its branches. It is bounded on the N. E., N., and N. W. by Missouri r. Surface undulating; soil fertile; the land on the rivers being rich and exceedingly productive. It has some fine timber and prairie land. Farms 587, manuf. 8, dwell. 956, and pop.—wh. 6,108, fr. col. 16, sl. 2,719—total 8,843. *Capital*: Marshall.

SALINE, t. and p. v., Washtenaw co., Mich.: 55 m. S. E. Lansing. Drained by Raisin r., affording good mill-power. Surface even; soil rich loam, producing grains of all kinds, and of good quality. The v. on the river, in the N. E. part, contains several mills, etc. Pop. 1,631.

SALINE, p. v., Ralls co., Mo.: 75 m. N. by E. Jefferson City.

SALINE, p. o., Bienville par., La.: near a cr. so called, 165 m. N. W. Baton Rouge. Salt is manufactured in the vicinity.

SALINE creek, Mo.: rises in S. W. part of Perry co., makes a circuitous course in a N. direction, and enters the Mississippi r. near the S. E. corner of St. Genevieve co. There are numerous salt springs on its border, and salt has been manufactured here.

SALINE river, La.: rises in S. part of Claiborne parish,

flows S. 50 m., and passing through Saline lake, empties into Black Lake r., in Natchitoches parish. There are salt works on its border.

SALINE river, Ill.: rises by N., S., and middle forks, in Hamilton, Williamson, and Johnson counties, and forming a junction at Equality, flows S. E., and enters the Ohio r. 9 m. below Shawneetown. The great U. S. Salines are located on this r., about 2 m. S. of Equality. The manufacture of salt at this point is extensive. There are also other salt works on the borders of this stream, and it is navigable for some distance.

SALINE MILLS, p. o., Natchitoches par., La.: on the W. of Saline cr., and in the neighborhood of the salt works, 135 m. N. W. Baton Rouge.

SALINEVILLE, p. v. and sta., Columbiana co., Ohio: on the Cleveland and Pittsburg R. R., 56 m. S. E. Cleveland, 121 m. E. N. E. Columbus. Pop. 237.

SALQUOY, p. o., Cass county, Ga.: 131 m. N. W. Milledgeville.

SALISBURY, t. and p. v., Litchfield county, Conn.: 41 m. N. W. Hartford. Bounded on the N. by Connecticut r., E. by the Housatonic r., and on the W. by New York. Immense hydraulic power is derived from the Housatonic and Salmon rivers, and it is well watered by several lakes and ponds. The surface is formed by lofty elevations and deep valleys, but the soil is well adapted to all kinds of grain and to pasturage. Limestone predominates in the valleys, and the hills are of granite. Iron ore is the chief staple commodity, inexhaustible quantities of which, celebrated for its superior quality, are here found, and the manufactures of it are extensive. Wood, also, is abundant, large quantities of which are turned into charcoal, and with other materials found here, used for smelting the ore. The "Old Ore Hill," located near the New York line, has been worked since the year 1732. The first furnace was erected in 1762, and a large amount of cannon-balls and bomb-shells were manufactured here during the Revolutionary War. There are now in Salisbury several furnaces, forges, puddling establishments, manufactories of guns, anchors, scythes, engine cranks, hoes, trip-hammers, etc. The forges and puddling establishments produce an immense quantity of wrought iron, which is used for anchors, ear axletrees, musket barrels, etc. Some of the oldest guns in our navy were made at the old furnace here, and muskets are still being made from the products of these mines. The ore is the brown hematite, and yields 40 per cent. of pig iron. The v. of Salisbury is located on Salmon r., and is a pleasant place. Pop. of t. 3,103.

SALISBURY, p. v., Sangamon co., Ill.: on Richland cr. of Sangamon r., 11 m. N. Springfield.

SALISBURY, p. v., Somerset co., Md.: on the E. side of Wicomico r., on the E. line of the county, 14 m. N. N. E. Princess Anne, and 95 m. S. E. of Annapolis.

SALISBURY, t. and p. v., Essex co., Mass.: 36 m. N. by E. Boston. Bounded on the N. by the State line, E. by the Atlantic Ocean, S. by the Merrimac r., and W. by Powow r. Drained by several small streams flowing into the river and ocean. Surface generally uneven, but in the E. there is an extensive beach and some salt marsh; soil fertile. There are two important villages in the t., the principal on Powow r., at the head of tide-water, part of which is in Amesbury. On the part located in Salisbury are flannel factories, known as the "Salisbury Manufacturing Company," capital \$400,000, employing about 400 operatives, and manufacturing over 1,000,000 yards of flannels, cloaking, etc., annually. Besides which are other manufactories of woolen and cotton goods, fulling mills, tanneries, etc. The other v., located on the Merrimac, on a point of land formed by the junction of that river with the Powow, is celebrated for its superior ship-building, which is the principal branch of trade here. A number of vessels are owned in this v., and employed in the coasting trade and mackerel fishery. Salisbury is connected with Newburyport by a suspension

bridge, which spans the Merrimac. The v. is on the Eastern R. R., at which point the Salisbury Branch R. R. diverges 86 m. N. by E. Boston. It is neatly laid out, and contains a number of places of business, a bank, etc. Pop. of t. 3,100.

SALISBURY, t. and p. v., Merrimac co., N. Hamp.: 15 m. N. W. Concord. Blackwater r. passes through the W. part, from which is derived good water-power. Surface varied; in the N. W. is a portion of Kearsarge Mountain. The soil in the upland is mostly rich; the hilly land abounds in excellent pasturage, and on Blackwater r. there is very fertile intervale. There are several very valuable farms in the t., and the people are chiefly employed in agriculture. This t. was the birthplace of the Hon. Daniel Webster. The v. is located on the E. side of Blackwater r. Pop. of t. 1,223.

SALISBURY, t. and p. v., Herkimer co., N. Y.: 63 m. N. W. Albany. Drained by East and West Canada creeks, the former forming in part its E. boundary. Surface generally hilly; in parts mountainous; soil fertile, and some grain is raised. The v. is about 7 m. N. by E. Little Falls, and contains several mills, etc. Deposits of magnetic iron ore are found in the vicinity. The t. has some manufactures, mechanic shops, etc. Pop. 2,085.

SALISBURY, sta., Orange co., N. Y.: on the Newburg Branch R. R., 10 m. N. E. Chester, 7 S. W. Newburg, and 85 m. S. by W. Albany.

SALISBURY, p. v., and cap. Rowan co., N. Car.: on a branch of Yadkin r., 108 m. W. Raleigh. It contains a court-house, jail, an academy, etc. An ancient stone wall, from 12 to 14 feet high and 22 inches thick, reaching to within a foot of the surface and 300 feet in length, has been discovered here; and a similar one has been discovered 6 m. distant from the first, 4 or 5 feet high and 7 inches thick. The origin of neither has been ascertained. The "Carolina Watchman" (whig) is a weekly issue.

SALISBURY, t. and p. o., Meigs co., Ohio: on the N. bank of the Ohio r., 76 m. S. E. Columbus. Drained by Leading creek and branches. Surface rugged; soil fertile. This t. abounds with stone-coal of a good quality, and an extensive business is carried on in that article. Coalport village, on the bank of the river, is the principal mining point. Railways are here built for the purpose of running down the coal from the mines to boats in the river. The mining is principally done by natives of Wales. The salt-works in the town produce large quantities of salt annually. There is a number of stores, mills, and mechanic shops, etc. In the S. part, on the bank of the r., a mile above Coalport, is Pomeroy, the capital of the county, and the principal point of business for the coal region; its pop. is 1,637, and of t. 4,546.

SALISBURY, t., p. v., and sta., Addison co., Verm.: 34 m. S. W. Montpelier. In the centre of the t. is Lake Drummond, 4 m. long, and from one half to three-fourths of a m. wide, the outlet of which, called Leicester r., furnishes good water-power. Drained by Middlebury r. and the outlet of the lake. Surface rolling; soil fertile. Chartered in 1761, and first settled in 1775. It is a manufacturing place, containing valuable manufactories of woolen goods, glass, iron, lumber, etc. The v. is located at the outlet of the lake, and the sta. is on the Rutland and Burlington R. R., 39 m. S. by E. Burlington. Pop. of t. 1,027.

SALISBURY CENTRE, p. v., Herkimer co., N. Y.: on Spruce creek, 64 m. N. W. Albany. It contains some manufactories. In the vicinity are extensive deposits of magnetic iron ore.

SALISBURY COVE, p. o., Hancock co., Me.: 72 m. E. by N. Augusta.

SALISBURY MILLS, p. o., Orange co., N. Y.: 90 m. S. by W. Albany. It is a small mill-seat, with but few inhabitants.

SALMAGUNDI, p. o., Wacłita par., La.: 144 m. N. N. W. Baton Rouge.

SALMON MOUNTAIN, Klamath county, Calif.: between Salmon and Klamath rivers, 215 m. N. by W. Vallejo. Covered with snow nine months in the year. Gold abounds in the vicinity, particularly on the rivers.

SALMON RIVER, Calif.: rises in the mountains, in E. part of Klamath co., and running W., empties into Klamath r. Gold is abundant in its whole course.

SALMON RIVER, Conn.: rises in the S. part of Tolland co., and flows S. into Middlesex co., when it receives Moodus r., and empties into the Connecticut r. at East Haddam. There are several falls in its course which afford good water-power, and it is navigable a short distance from its mouth.

SALMON RIVER, N. Y.: rises in Osecola t., Lewis co., and flowing W. through Oswego co., empties into Lake Ontario, about 5 m. S. from Great Sand bay. It has a tolerably good harbor at its mouth, and is boatable at high water as far up as the falls at Orwell, 14 m. At the falls the river has a perpendicular fall of 107 feet. At high water the sheet is 250 feet wide, but at low water is reduced to one-half that width. The rocky strata is composed of slate and granite, or gneiss. The height of the bank above the falls is from 80 to 90 feet, and below, 200 feet perpendicular rock.

SALMON RIVER, Oreg. Ter.: rises in the Rocky Mountains, and flowing N. W., forms the N. branch of Snake river, or Lewis fork of the Columbia river.

SALMON FALLS, p. v., Stratford co., N. Hamp.: on the river so called, 2 m. below the Great Falls, and on the Boston and Maine R. R., 39 m. S. W. Portland, and 86 m. E. Concord.

SALMON FALLS RIVER, Me. and N. Hamp.: rises in East Pond, between Acton and Wakefield, flows S. by E., and joins the Piscataqua r. at Hilton's Point. On this river, between the towns of Rochester and Lebanon, are extensive falls.

SALMON RIVER, p. o., Oswego co., N. Y.: on a stream so called, 133 m. N. W. Albany.

SALMON RIVER MOUNTAINS, Oreg. Ter.: a chain of mountains extending from the Rocky Mountains W. along the S. side of Salmon r. to its junction with Snake or Lewis river.

SALONA, p. v., Clinton county, Penn.: 63 m. N. N. W. Harrisburg. A furnace, located here, has an annual capacity of 1,100 tons.

SALONIA, p. o., Greene co., Ky.: 63 m. S. by W. Frankfort.

SALT CREEK, Ind.: rises in the E. part of Brown co., flows W. into Monroe, then S. W. through Lawrence into the E. fork of White river. It is navigable at high water nearly 30 m. It has several good mill-seats, and near it are salt springs, which have been worked to advantage.

SALT LAKE, Utah Ter. (See GREAT SALT LAKE.)

SALT LAKE, Cameron co., Tex.: this famous salt lake, about 3 m. in circumference, affords immense quantities of salt, supplying the vicinity and many neighboring States of Mexico. Its waters are evaporated in summer, leaving a crust of salt 4 or 5 inches thick.

SALT RIVER, Ky.: rises in Mercer county, flows N. into Anderson, and turning W. enters the Ohio r. at West Point, 20 m. below Louisville. It is 200 yards wide at its mouth, and is boatable 150 miles. Its principal branch is Rolling fork. Some of the most fertile parts of the State are watered by this river and its branches.

SALT RIVER, Mo.: is formed by three large forks in E. part of Monroe co., and flows eastwardly in a winding course, and enters the Mississippi r. about 35 m. below Marion city. It is navigable to some extent.

SALT CREEK, p. v., Davis co., Ia.: on a branch of Soap cr., 65 m. S. S. W. Iowa City.

SALTILLO, p. v., Itawamba county, Miss.: 169 m. N. E. Jackson.

SALTILLO, p. o., Hardin county, Tenn.: 96 m. S. W. Nashville.

SALTILLO, p. v., Jasper county, Ind.: on the Iroquois or Pickamink r., 93 m. N. N. W. Indianapolis.

SALT KETCHER BRIDGE, p. v., Colleton district, S. Car.: on the left bank of Combahee r., in a swampy district, 87 m. S. Columbia.

SALT LAKE CITY, or City of the Great Salt Lake, p. city, and cap. Salt Lake co., Utah Ter.: on Jordan river, a strait

between Utah and Great Salt lakes, 105 m. N. by E. Fillmore City. This settlement of the Mormons is situated at the western base of the Wasatch Mountains, on an elevation of more than 4,000 feet. The Mormon communion was first organized in 1830, under the auspices of Joseph Smith, the prophet and founder, and the settlement commenced at this place under Brigham Young, his successor, in July, 1847; soon after which it was laid out in streets and squares for a large city, and a fort or inclosure erected for defense against attacks by Indians. The streets are well planned, running at right angles 8 rods wide, with sidewalks of 20 feet, the blocks 40 rods square, divided into 8 lots, each containing one acre and a quarter. The houses are built principally of sun-dried brick, and present a neat appearance. In October the colony was strengthened by the arrival of from 3,000 to 4,000 persons, since which time building and agriculture have been prosecuted to such an extent that it is now a place of considerable note. Agriculture and the raising of stock are the chief pursuits of the inhabitants; but establishments are being erected for the manufacture of woolen goods, sugar, etc.; wood, iron ore, and alum is found in the vicinity, and salt is manufactured from the waters of the lake, which contains 20 per cent. of pure salt. By an Act of Congress, a mail line has been established from this city through the principal cities and towns to San Diego (California). A school for the education of teachers has been commenced, school-houses built for the instruction of children, a university is in contemplation (the site of which has been selected on one of the terraces of the mountain, overlooking the city), and altogether it is in a flourishing condition.

SALT-LICK FALLS, p. o., Preston co., *Virg.*: 181 m. N. W. Richmond.

SALTPETRE, p. o., Washington co., *Ohio*: 83 m. E. S. E. Columbus.

SALT POINT, p. o., Duchess co., *N. Y.*: 63 m. S. Albany.

SALT RIVER, p. v., Audrian co., *Mo.*: on Davis fork of Salt r., 39 m. N. Jefferson City.

SALTSBURG, p. v., Indiana co., *Penn.*: on the right bank of Conemaugh r., 133 m. W. N. W. Harrisburg. Salt works are operated in the vicinity. It contains several stores, mills, workshops, etc. Pop. 623.

SALT SPRING, p. o., Campbell co., *Ga.*: 90 m. W. N. W. Milledgeville.

SALT SPRING, p. o., Bienville parish, *La.*: 163 m. N. W. Baton Rouge.

SALT SPRINGVILLE, p. o., Otsego county, *N. Y.*: 52 m. W. by N. Albany.

SALT SULPHUR SPRINGS, p. v., Monroe co., *Virg.*: 163 m. W. Richmond. This is a pleasant watering-place, 24 m. from White Sulphur Springs. The springs are encircled by mountains on every side, are much visited by invalids and others, and enjoy a high reputation. The temperature of their waters varies from 49° to 56° Fahrenheit.

SALTVILLE, p. v., Washington co., *Virg.*: on S. side of N. fork Holston r., 243 m. W. by S. Richmond. There are valuable salt springs in the vicinity; and gypsum is found. Water-power is good, and there are several mill-seats.

SALUBRITY, p. v., Pickens district, *S. Car.*: on Eighteen mile cr., tributary of Seneca r., 109 m. N. W. Columbus.

SALUDA, p. o., Jefferson county, *Ind.*: on a cr. so called, 73 m. S. S. E. Indianapolis.

SALUDA, p. o., Coweta county, *Ga.*: 87 m. W. by N. Milledgeville.

SALUDA, p. v. and sta., Newbury district, *S. Car.*: on the N. side of Saluda r., and on the Greenville and Columbia R. R., 61 m. W. by N. Columbia.

SALUDA, p. o., Middlesex co., *Virg.*: 51 m. E. Richmond.

SALUDA RIVER, *S. Car.*: rises in the eastern division of the Alleghany Mountains, in N. W. part of the State, and flows in a S. E. direction, separating Greenville, Laurens, and Newbury, from Pickens, Anderson, Abbeville, and Edgefield districts, crosses Lexington district and unites with Broad river at Columbia, to form the Congaree.

SALUDA MILLS, p. o., Newbury district, *S. Car.*: a mill-seat, 43 m. W. by N. Columbia.

SALUNGA, p. o., Lancaster county, *Penn.*: 63 m. E. S. E. Harrisburg.

SALURIA, p. v., Calhoun co., *Tex.*: on the N. E. end of Matagorda island, between Espiritu Santo and Matagorda bays, 147 m. S. S. E. Austin City. It is a young city, and one of great promise, having been selected by the directors of the San Antonio and Mexican Gulf R. R. Company as the most suitable point for the terminus of their road. "The greater depth of water, and superior advantages as a sheltered harbor for vessels of every class, in all seasons, give it claims superior to all other points on Matagorda bay, and entitle it to be considered, at no distant day, the emporium of western Texas."

SALURIA, U. S. collection dist., *Tex.*: on June 30th, 1850, had a total tonnage of 559 tons, enrolled and licensed, consisting of 456 tons permanent, 116 tons temporary, and 17 tons licensed under 20 tons, all employed in the coasting trade, and of which 105 tons were propelled by steam. During the preceding year, it had no foreign commerce. One vessel was built, a steamer—106 tons. Its port of entry is La Salle.

SALVISA, p. v., Mercer co., *Ky.*: between Salt and Kentucky rivers, 15 m. S. Frankfort. Pop. 154.

SAMANTHA, p. o., Highland county, *Ohio*: 59 m. S. S. W. Columbus.

SAMMON'S POINT, p. v., Iroquois co., *Ill.*: on the W. bank of the Iroquois r., 125 m. N. E. Springfield. The Chicago Branch R. R., will pass through this village.

SAMMONSVILLE, p. o., Fulton county, *N. Y.*: 47 m. N. W. Albany.

SAMPSON COUNTY, *N. Car.* Situate S. E. centrally, and contains 664 sq. m. Drained by Black r. and its branches, and branches of South r., all being tributaries of Cape Fear r. Surface undulating; soil moderately fertile, a large portion is well adapted to grain and grazing. Chief productions, cotton, rice, Indian corn, and potatoes. Farms 948; manuf. 53; dwell. 1,582, and pop.—wh. 8,424, fr. col. 476, sl. 5,685—total 14,535. *Capital*: Clinton.

SAMPSON, p. o., Darke co., *Ohio*: 83 m. W. Columbus.

SAMPSONDALE, v., Rockland co., *N. Y.*: 98 m. S. Albany. It is a manufacturing village, and contains an extensive iron and wire factory, rolling and slitting mills, chemical works, etc.

SAMPSONVILLE, p. v., Ulster county, *N. Y.*: 43 m. S. W. Albany. It contains an extensive tannery, using oak and hemlock bark, and tanning annually 60,000 sides of sole leather, cap. \$200,000. This establishment is owned by General Pratt, present quartermaster of the State Military, and son of the celebrated Zadock Pratt, of Prattsville. It is a handsome village, containing also 3 saw-mills, 1 grist-mill, 2 taverns, a Dutch Reformed Church, about 60 dwellings, and 450 inhabitants.

SAM'S CREEK, p. v., Carroll co., *Md.*: on the E. side of Sam's cr., 46 m. N. W. Annapolis.

SAN ANDREAS, v., Calaveras county, *Calif.*: between the N. and S. branches of Calaveras r., 139 m. E. Vallejo. It is surrounded by ravines and flats, rich in gold, and well adapted to winter mining.

SAN ANTONIO, p. v., and cap. Bexar co., *Tex.*: near the source of the river so called, 73 m. S. S. W. Austin City, lat. 29° 25' 22" N., and long. 98° 29' 15" W. It is located on both sides of the river, about 20 m. above its junction with the Medina, and is one of the oldest towns in North America, containing many ancient structures. The Alamo in the N. E. part of the town on the left bank of the river, is a large oblong walled inclosure, of about an acre in extent, once used as a fortress, but now in a ruinous condition. This town is celebrated in history as the scene of several battles, and the Alamo was gallantly defended by Col. Travis for two weeks. A United States arsenal is located here, and an Ursuline convent, and several other Catholic institutions.

The Mexican Gulf R. R. will verge from this place, and connect with Saluria (Calhoun co.). The "Western Texian" is a weekly issue. Pop. 3,263.

SAN ANTONIO river, Tex.: is formed by the Medina and Salado rivers, in Bexar co., and flows in a S. E. direction through Goliad and Refugio co's, and empties into Espiritu Santo bay. In its course it receives the Cibolo and Guadalupe rivers, two considerable streams.

SAN ANTONIO MISSION, Monterey county, Calif.: 133 m. S. by E. Vallejo. The lands of this mission are principally owned by private persons, and contain some excellent vineyards.

SAN AUGUSTINE county, Tex. Situate E., and contains 642 sq. m. Drained by Ayish bayou and its affluents, and branches of Attoyac r., which flows on its western border. Surface undulating and somewhat elevated; soil very fertile, and produces abundantly, cotton, corn, and potatoes. There is some rich prairie land in the co., and a small portion is covered with pine. It contains many minerals, and several valuable mineral springs. Iron ore is abundant, and lead is found in small quantities. There are some quarries of excellent limestone. Farms 155; manuf. 14; dwell. 350, and pop.—wh. 2,056, fr. col —, sl. 1,561—total 3,647. *Capital:* San Augustine.

SAN AUGUSTINE, p. v., and cap. San Augustine co., Tex.: on the Ayish bayou, near its source, and on the old military post road, 237 m. N. E. Austin City, and is one of the most flourishing villages in eastern Texas. It was laid off in August, 1833, and it now contains a court-house, jail, and many neat edifices. Being located some distance from navigable waters, it possesses few commercial advantages. The "Red Sand Herald" is a weekly issue. Iron and lead ore is found near here, and there are some valuable mineral springs in the vicinity. The country round San Augustine is very rich, producing cotton, corn, rye, oats, etc., in abundance.

SAN BERNARD river Tex.: rises near the source of Redgatis cr. of Colorado r., flows S. E. forming the N. E. boundary of Colorado and Wharton counties, and passing through Brazoria co., empties into the Gulf of Mexico, about 5 m. below the mouth of Brazos river. It has several tributaries, and is navigable for steamboats about 40 miles.

SAN BERNARDINO, p. v., Los Angeles co., Calif.: 60 m. from Los Angeles City, and 279 m. S. E. Vallejo. The valley in which it is situate has a rich soil, and is well watered and timbered; and is noted for its hot springs. This place was originally the seat of a mission, but has lately been purchased by the Mormons, who have a considerable settlement here.

SAN BERNARDINO mountain, Los Angeles co., Calif.: a lofty peak, 280 m. S. E. Vallejo. At its base is a rich and beautiful valley.

SANBORTON, t. and p. v., Belknap co., N. Hamp.: 18 m. N. Concord. Great bay, and Little bay, and Winnipiseogee r., the outlets of the lake so called, form the E. and S. E. boundary. Drained by the outlet of Salmon Brook Pond, which is in the N. of the t., affording good water-power. Surface uneven; soil fertile and well cultivated. There is a gulf here, extending nearly a mile through very hard, rocky ground, 35 feet in depth, the walls from 80 to 100 feet apart. Also a cavern on the hill, which may be entered in a horizontal direction to a distance of 20 feet. On the lake, at the head of Little bay, are the remains of an ancient fortification, in which have been found numbers of Indian relics, implements, etc. Incorporated in 1770, and contains several manufactures of woolen and cotton goods, leather, lumber, etc. The v. is situated S. of Salmon Brook Pond. Pop. of t. 2,695.

SANBORTON BRIDGE, p. v., Belknap co., N. Hamp.: on the left bank of Winnipiseogee r., and on the Boston, Concord, and Montreal R. R., 18 m. N. Concord.

SAN BUENAVENTURA river, Santa Barbara county, Calif.: rises in a mountainous district near the Rancho of Ojai, has

a N. by W. course of 25 or 30 m. to the sea, which it enters near the mission so called, N. of Monterey. The bottom along the stream is very fertile. The mission was one of the most flourishing in all California.

SAN CARLOS, or CARMEL, mission, Monterey co., Calif.: 175 m. S. by E. Vallejo. The lands are rich and well cultivated, and there are many fine orchards. Gold and silver are found in the vicinity.

SAN CLEMENTE, v., San Diego co., Calif.: on the S. E. end of the island so called (in the Pacific Ocean), 65 m. W. San Diego, and 258 S. S. W. Vallejo; lat. 33° 00' N., and long. 115° 34' 00" W.

SAN COSME, p. o., Rusk co., Tex.: 219 m. N. E. Austin City.

SAND creek, Ind.: rises in the centre of Decatur county, runs S. W. through Jennings, and falls into the E. fork of White r., forming for the last 4 miles the boundary between Bartholomew and Jackson counties. It is about 50 miles in length, and for the greater part is a good mill-stream. Its Indian name is Laque-ka-ou-a-nek, which means, "water running through sand."

SAND BANK, p. v., Oswego co., N. Y.: on the W. side of Salmon river, 133 m. N. W. Albany. The Watertown and Rome R. R. passes near the village.

SANDBURG, p. o., Sullivan county, N. Y.: 79 m. S. W. Albany.

SANDERSTVILLE, p. v., and cap. Washington co., Ga.: on a branch of the Oconee r., 25 m. E. Milledgeville. It contains a court-house, jail, academy, and stores. The "Central Georgian" (lit.) is issued weekly.

SANDERSTVILLE, p. v., Chester district, S. Car.: 53 miles N. by W. Columbia. The King's Mountain R. R. passes 2 m. E. of this place.

SAND FLAT, v., Yuba co., Calif.: on the Yuba r., 123 m. N. E. Vallejo. Fertile country and good mining.

SAND FORT, p. o., Russell county, Ala.: 63 miles E. Montgomery.

SANDGATE, t. and p. o., Bennington co., Verm.: 84 miles S. by W. Montpelier. Surface mountainous and broken. Drained by branches of the Battenkill. First settled in 1771. The t. contains several mills. The Rutland and Washington R. R. passes through its N. W. corner. Pop. 850.

SAND HILL, p. o., Scotland county, Mo.: on N. side of N. Fabius r., 120 m. N. Jefferson City.

SAND HILLS, v. and sta., Hamilton co., N. Jer.: on the Camden and Amboy R. R., 58 m. S. W. from New York, and 20 m. S. E. Trenton.

SAND HILLS, p. o., Rusk co., Tex.: 221 m. N. E. Austin City.

SAN DIEGO county, Calif. Situate S., being the extreme southern co. of the State, and contains about 10,000 sq. m. It is traversed centrally by the Coast Range of mountains, and bounded by the Rio Colorado, and W. by the Pacific, along which the coast extends from 32° N. lat. to the mouth of Santa Anna river, and including several valuable islands. San Diego bay is a splendid sheet of water, and has excellent harbors; and there are several other bays of minor importance. Its industry is eminently agricultural, with some commerce, but no mining. Pop. in 1852, 2,932; of which 537 were whites—397 males and 140 females; negroes 7; domesticated Indians, 2,273—1,249 males and 1,024 females; foreign residents, 98—91 males and 7 females. Of the citizens of the United States 274, of the negroes 7, of the Indians, 2,474; and of foreigners 90 were adults. *Capital:* San Diego.

SAN DIEGO, p. v., and cap. San Diego co., Calif.: near the S. boundary of California, in lat. 32° 41' 55" N., and long. 117° 13' 25" W., 425 m. S. E. San Francisco, and 455 from Vallejo. It is on a wide and spacious bay, the S. shore of which is low and sandy. From the opposite side a narrow strip of shingle beach projects into the sea, forming a natural breakwater, having an entrance of not more than 300 yards wide, and is, with the exception of Acapulco, the

finest harbor on the Pacific. The r., which is small, is on a plain 3 m. from the anchorage, which is at the foot of the hills just inside the bay, and from which it is scarcely visible. It was the first place occupied by the Spaniards in Upper California. There is a fort in the v., which is occupied by a U. S. garrison. Coal is found in the vicinity. Population 700.

SAN DIEGO bay, San Diego co., *Calif.*: makes up from the Pacific Ocean, 455 miles S. E. Vallejo, and is a good harbor.

SANDIGES, p. o., Amherst co., *Virg.*: 95 m. W. Richmond. SANDSFIELD, t. and p. v., Berkshire co., *Mass.*: 108 miles W. by S. Boston. Surface elevated and uneven. Drained by Farmington river, which forms its E. boundary, and its branches, which afford water-power. Incorp. in 1736; first settled in 1730. The town contains 2 churches, several mills, and has woolen factories. Pop. of t. 907.

SAND LAKE, t. and p. v., Rensselaer county, *N. Y.*: 9 m. E. Albany. Drained by Poestenkill and Wynantskill creeks, and there are several small ponds in the town affording excellent water-power. Surface hilly, but has fertile soil in the valleys. The v. contains manufactories of woolen and cotton goods, a furnace, a glass factory, several flouring, grist, and saw mills, mechanic shops, etc. Pop. of t. 2,558.

SAND MOUNTAIN, p. o., De Kalb county, *Ala.*: 149 m. N. Montgomery.

SANDOVER, p. o., Abbeville district, *S. Car.*: 79 m. W. Columbia.

SANDOWN, t. and p. o., Rockingham county, *N. Hamp.*: 27 m. S. E. by S. Concord. Surface uneven; watered by Squamscoot r. The inhabitants are chiefly engaged in agriculture, but there are several mills. Pop. 566.

SAND PRAIRIE, p. v., Richland co., *Wis.*: on the N. of the Wisconsin r., 64 m. W. by N. Madison.

SAND'S MILLS, p. o., Westchester co., *N. Y.*: 111 m. S. Albany.

SAND SPRING, p. o., Wood co., *Tex.*: 173 m. N. E. Austin City.

SANTOWN, p. v., Campbell co., *Ga.*: on the Chattahoochee r., 57 m. N. W. Milledgeville.

SANDUSKY county, *Ohio*. Situate N., and contains 458 sq. m. Sandusky r. passes through it centrally, by which and its branches, and by Portage r., it is drained. Surface level, and in parts very low; soil generally fertile. Agriculture is the leading pursuit. Pork and beef are exported in large quantities. Farms 1,391; manuf. 57; dwell. 2,437, and pop.—wh. 14,257, fr. col. 45—total 14,305. *Capital*: Fremont. *Public Works*: Toledo, Norwalk, and Cleveland R. R.; Mad River and Lake Erie R. R. (direct line).

SANDUSKY, p. v., Cattaraugus county, *N. Y.*: on a fork of Cattaraugus cr., 244 m. W. by S. Albany.

SANDUSKY CITY, p. v., port of entry, and cap. Erie co., *Ohio*: on the S. side of the bay so called, fronting the opening into, and 3 m. from, Lake Erie, N. $\frac{1}{2}$ E. Columbus. The v. is based on an extensive quarry of excellent stone, which has been used to a great extent as a building material in the city, as well as an article of export to other places. The ground on which the v. is built has a gradual rise from the water for about half a mile, thereby affording a fine view of the lake. The wharves are substantial and commodious, and, with the exception of a short time in the winter season, are thronged with steamboats and other lake vessels arriving and departing with travelers and merchandise. There are ship-yards situated here, at which vessels and steamboats are built to a considerable extent. It is connected with Cincinnati by the Mad River and Lake Erie R. R. 218 miles, and to Newark by the Sandusky, Mansfield, and Newark R. R. 116 miles distant, by which means a heavy transportation business is carried on with the interior and the Ohio river. Other roads are projected, and will ere long be built, as the Lake Shore line, etc.

From a detailed statement of the commerce of the port of Sandusky, and other places in the district, published in the

"Commercial Reporter," the following statistics are compiled, which exhibit a large increase in the business of 1852 as compared with that of 1851:

COMMERCE OF SANDUSKY CITY.

	Imports.	Exports.	Total Commerce.
1852.....	\$40,896,085.....	\$18,789,814.....	\$59,685,899
1851.....	13,917,564.....	4,755,729.....	18,673,293
Increase.....	\$26,978,521.....	\$14,034,085.....	\$41,012,606

COMMERCE OF OTHER PORTS OF DISTRICT.

	Imports.	Exports.	Total Commerce.
1852.....	\$4,176,921.....	\$1,237,267.....	\$5,413,588
1851.....	1,411,918.....	1,160,153.....	2,572,071
Increase.....	\$2,764,403.....	\$77,114.....	\$2,841,517

TOTAL OF SANDUSKY DISTRICT

	Imports.	Exports.	Total Commerce.
1852.....	\$45,072,406.....	\$20,027,081.....	\$65,099,457
1851.....	16,329,482.....	5,915,882.....	21,245,364
Increase.....	\$29,742,924.....	\$14,111,199.....	\$43,854,123

To account in part for this great increase, it is proper to state, that the exhibit of the commerce for 1851 did not include money packages by express, which are included in that of 1852.

The number of arrivals and departures for the same year, comparatively, were as follows:

	Arrivals.	Departures.	Total.
1852.....	3,242.....	3,250.....	6,492
1851.....	1,998.....	1,990.....	3,988
Increase.....	1,244.....	1,260.....	2,494

The Sandusky District extends from Black river to Port Clinton, and has a coast line of 50 miles. The shipping places are Vermilion, Huron, and Port Clinton on the lake, the city of Sandusky, and Seneca within Sandusky bay, and Fremont, 36 miles up Sandusky river. The shipping owned in the district in 1850 was 7,328 tons. The port has also some small intercourse with the British provinces.

Sandusky was originally laid out in 1817 by two gentlemen from Connecticut, and the first dwelling erected in the fall of that year. The first church was built in 1830. It now contains the county court-house, jail, and other public buildings, several churches, an academy built of stone, three stories high, a large number of stores, several commission houses, extensive machine shops, at which are manufactured iron for railroad cars; two banks, printing-offices, hotels, and other establishments. A short distance back from the bay is a public square, around which are the principal public buildings and churches. On the whole, Sandusky is a well-planned and flourishing city, and rapidly increasing in importance. There are five papers published here, the "S. Mirror," (dem.) daily and weekly, "Commercial Register" (com.) daily, "S. Clarion," weekly (whig), "Daily Sanduskian" daily (whig), and "The Gleaner" monthly (neut.) Pop. 5,088, which includes Portland.

SANDUSKY river and bay, *Ohio*: the river rises in Richland and Crawford counties, flows E. into Wyandot county, thence N. by meandering course into Sandusky bay. It is 90 m. long, and though a rapid stream, affords good navigation at high water. In Crawford co. it is only 4 miles distant from a lead branch of Scioto r. The bay is about 16 m. long, and its average width $3\frac{1}{2}$ miles. It communicates with Lake Erie by a narrow strait.

SANDWICH, t. and p. v., Barnstable county, *Mass.*: on the isthmus of Cape Cod, between Buzzard's and Cape Cod bays. Lat. (1st Cong. ch.) 41° 45' 31" N., long. 70° 30' 13" W. The v. on Cape Cod bay contains 4 churches, an academy, and a very large glass factory, producing annually \$300,000 worth of very superior glass. Here terminates the Cape Cod Branch R. R. from Middleboro' on the Fall River R. R., 23 m.; distance by railroad from Boston 63 m. The

"Sandwich Observer" (neut.) is issued weekly. In the t. there are three other v., and in it a considerable quantity of salt is annually manufactured. Pop. of t. in 1840, 3,719; in 1850, 4,368.

SANDWICH, t. and p. o., Carroll co., *N. Hamp.*: 46 m. N. Concord. Surface uneven and mountainous, with some fertile soil. Watered by Bearcamp r., flowing into Ossipee lake and other streams. Squam lake lies partly in its S. E. corner, and in its N. part commences Sandwich Mountain. Chartered in 1763. It contains numerous mills of various kinds, and several tanneries. Pop. 2,577.

SANDY, p. o., Columbiana county, *Ohio*: 121 m. E. N. E. Columbus.

SANDY, p. o., Jackson co., *Virg.*: near Big Sandy creek, 247 m. W. N. W. Richmond.

SANDY RIVER, *Me.*: rises in Franklin co., flows S. E. until it reaches Farmington Falls v., when it takes a N. E. course until it empties into Kennebec r., in Stark's t., Somerset co. It is about 45 m. long, has several branches, and affords excellent water-power.

SANDY RIVER, *Virg.* and *Ky.*: rises in Tazewell co., and receives numerous head branches. It flows in general N. W. course, and through its greater portion forms about one-half of the boundary between Virginia and Kentucky. It enters the Ohio r., at Carletsburg, Ky., by a mouth 100 yards wide. It is navigable for bateaux 50 m. from its mouth. Its principal tributary is the West fork, which it receives at Louisa, Ky.

SANDY BOTTOM, p. o., Middlesex county, *Virg.*: 41 m. E. Richmond.

SANDY BRIDGE, p. v., Carroll co., *Tenn.*: on Big Sandy r., 88 m. W. Nashville.

SANDY CREEK, t., p. v., and sta., Oswego co., *N. Y.*: on Lake Ontario, 138 m. N. W. Albany. Drained by Little Sandy cr., and other small streams flowing into the lake. Surface undulating; soil fertile. It contains a furnace, mills, etc. The v. is on the Watertown and Rome R. R., 47 m. N. W. Rome, and has limited manufactures. Pop. of t. 2,456.

SANDY CREEK, p. o., Randolph co., *N. Car.*: on a stream so called, 55 m. W. Raleigh.

SANDY CREEK, t., Mercer co., *Penn.*: 180 m. N. W. Harrisburg. It contains numerous saw and other mills, with several tanneries and distilleries. Pop. 1,100.

SANDY FOUNDATION, p. o., Lenoir co., *N. Car.*: 67 m. S. E. Raleigh.

SANDY GROVE, p. v., Chatham county, *N. Car.*: on one of the head branches of Rokey river, 51 m. W. by N. Raleigh.

SANDY HILL, p. v., Worcester co., *Ms.*: on a creek of Chincoteague bay, 86 m. S. E. Annapolis.

SANDY HILL, p. v., and cap. Washington co., *N. Y.*: on the left bank of the Hudson r., 46 m. N. by E. Albany, and contains court-house and other county offices, etc. It is located on an elevation, was incorporated in 1810, and is well laid out, the streets inclosing a triangular area in the centre. In its upper part is a fall of 12 feet in the r., below which—distant about 100 rods—is Baker's Falls, with an almost perpendicular fall of 50 feet, producing immense hydraulic power, which is much improved by a number of mills and manufactories. Glenn's Falls, feeder of the Champlain Canal, passes through, and the Saratoga and Washington R. R. near the place. The "Sandy Hill Herald" (dem.), and Washington Telegraph" (whig) are weekly issues. This village is noted for its "stated preachings," of which B. F. Butler is the historian.

SANDY HOOK, *N. Jer.*: is a sandy beach, extending N. from Old Shrewsbury inlet, and the S. point of the highlands of Neversink. It is 6 m. long, has an average width of $\frac{1}{2}$ m., and is of note from its proximity to New York bay. A lighthouse is here erected, and a floating light, with beacons, is stationed off the coast.

SANDY HOOK, p. v., Hartford co., *Ms.*: on Deer cr., 45 m.

N. Annapolis. The vicinity has excellent farm lands, and is being improved rapidly; and on the creek there is abundance of fine stone, of which the houses are mostly built. Pop. 160.

SANDY LAKE, t. and p. o., Mercer co., *Penn.*: 189 m. N. W. Harrisburg. Drained by Sandy cr., which flows into the lake so called, in N. W. part of t. Surface even, with a productive soil. It contains a furnace, several mills, etc.

SANDY LEVEL, p. o., Pittsylvania co., *Virg.*: 120 m. S. W. Richmond.

SANDY PLAINS, p. o., Rutherford co., *N. Car.*: on the S. side of White Oak cr., 187 m. W. S. W. Raleigh.

SANDY POINT, Anne Arundel co., *Md.*: a cape of Chesapeake bay, opposite Kent Island. The bay is here at its narrowest dimensions.

SANDY POINT, sta., Prince William county, *Virg.*: on Washington and Wilmington R. R. route, 40 m. from Washington, etc.

SANDY RIDGE, p. v., Lowndes co., *Ala.*: at the source of Big Swamp cr., 27 m. S. by W. Montgomery.

SANDY RIDGE, p. v., Henry co., *Ga.*: 55 m. W. N. W. Milledgeville.

SANDY RIDGE, p. o., Steuben co., *Ind.*: 139 m. N. E. Indianapolis.

SANDY RIVER, p. v., Pittsylvania co., *Virg.*: at the head waters of a stream, so called, 126 m. S. W. Richmond.

SANDY RUN, p. o., Cleveland co., *N. Car.*: on a creek so called, 169 m. W. S. W. Raleigh.

SANDY RUN, p. v., Lexington dist., *S. Car.*: on the S. side of a small stream so called, 15 m. S. by E. Columbia.

SANDY SPRING, p. v., Montgomery co., *Md.*: in the hilly region, W. of Patuxent r., 30 m. N. W. Annapolis.

SANDY SPRING, p. o., Fayette co., *Tenn.*: 103 m. S. W. Nashville.

SANDYVILLE, p. v., Tuscarawas co., *Ohio*: on Sandy cr., and on the line of the Sandy and Beaver Canal, 96 m. N. E. Columbus. Pop. 223.

SAN ELEAZARIO, p. v., El Paso co., *Tex.*: on the Rio Grande, 525 m. W. by N. Austin City.

SAN FELIPE, p. v., Austin co., *Tex.*: the county seat, and formerly the capital of the Brazos jurisdiction, on the W. bank of the Brazos r., and on the border of an extensive prairie, 102 m. E. by S. Austin City.

SANFORD, t. and p. v., York co., *Me.*: 82 m. S. W. by S. Augusta. Watered by Mousum r., which affords water-power, improved by several large factories. The York and Cumberland R. R. will pass through the t. Pop. of t. 2,330.

SANFORD, p. o., Ingham co., *Mich.*

SANFORD, t. and p. o., Broome co., *N. Y.*: 97 m. S. W. Albany. Drained by tributaries of the Delaware r. Surface hilly, in parts mountainous; soil best adapted to grazing. It has several manufactories, mills, etc. The Erie R. R. passes through the t., on which is Summit station, 194 m. from New York. Pop. of t. 2,508.

SANFORD'S CORNERS, p. o., Jefferson co., *N. Y.*: 144 m. N. W. Albany.

SAN FRANCISCO county, *Calif.* Situate W. middle, and contains 400 sq. m. It occupies a peninsula between the Bay of San Francisco and the Pacific Ocean. Drained by several creeks flowing into the bay; and the surface somewhat hilly, with fertile valleys. San Francisco creek divides it from Santa Clara county. Gold in small quantities has been found in this creek, which rises in the Sierra Moreno, or Brown Mountains, running along the coast, and in some places 2,000 feet high, affording protection to the valley from the coast winds. Coal has been discovered in the county, and there is excellent red wood in several localities. Soil rich and productive, and agricultural resources great, but undeveloped. Assessed value of property \$17,794,711. Pop. in 1852, 86,151—whites 35,531, negroes 323, mulattoes 141, Indians 159, and of the whites 19,303 are foreign residents—34,876 in the city. *Capital*: San Francisco.

SAN FRANCISCO, p. city, port of entry, and cap. San Francisco co., Calif.: on a narrow neck of land between the bay of the same name and the Pacific Ocean, fronting eastward on the bay, and having the ocean five miles on the west. Lat. of the Presidio, $37^{\circ} 47' 35''$ N., and long. $122^{\circ} 26' 15''$ W.

The year that gave birth to the great Western Republic on the Atlantic shore also witnessed the first permanent settlement on the coast of California. In 1776, two Catholic missionaries—Francisco Palou and Benito Cambon—landed on the Bay of San Francisco, and proceeded to establish a central point for their operations in civilizing and Christianizing the native tribes. Finding a fertile tract, capable of irrigation, near 2 m. S. of the present city, they chose that for their home, and founded the Mission Dolores, a name commemorative of the sufferings of the Virgin. The missions of San José, Santa Clara, San Raphael, and others, were established subsequently, and were dependent on that of San Francisco. On the present site of the city a few houses were erected about the same time. This settlement was called *Yerba Buena*—"good herb," because a herb of that name, reputed medicinal and sometimes used as a substitute for Chinese tea, was found in abundance on the surrounding hills. The town retained this name until occupied by the Americans. All the buildings were of adobes. The presidio, three miles W. of the town, and near the entrance of the bay, was built about the same time for government purposes. Soon after its organization the mission flourished rapidly; the Indians learned to repose confidence in the padres, and embraced with avidity the new religion and many of the arts of civilization; they lived in small communities, and were occupied in tilling the earth and other employments under the direction of the missionaries. Some idea of the extent of the operations of the padres may be formed from the fact that there belonged to the mission at one period 20,000 head of cattle, 3,000 horses, and 30,000 sheep. In 1810 the number of Christian baptisms had reached 3,896, and in 1831, the period of greatest prosperity, the whole number had amounted to 6,883. From this date the mission declined, and the Indians were driven off by political disturbances. From 1831 to 1849 the number of baptisms was only 468. Of the entire list, it is computed that nine-tenths were Indians, and the remainder Californians or immigrants and their descendants, principally from Mexico. In the mean time the town was slowly increasing, some importance being attached to it in consequence of the hides and tallow which it exported. In 1839 it was laid out as a town by Captain John Vioget, the few houses being previously scattered without regularity. In 1845 it contained 150 inhabitants. About this time it began to attract the attention of some adventurous Americans, and the population increased in two years to nearly 500. It was, in fact, an American settlement long before it fell a conquest to the United States.

The bay on which the city stands extends S. of it some 50 m. parallel with the sea, from which it is only separated by a narrow strip of land, varying from 5 to 25 m. in breadth. The city is on the extreme point of this peninsula. Its site is handsome and commanding, being on an inclined plane half a mile in extent from the water's edge to the hills in the rear. Two points of land—Clark's Point on the N., and Rincon Point on the S., one mile apart—project into the bay, forming a crescent between them, which is the water front of the city, and which has already been filled in and covered with buildings for the extent of half a mile. Those points and the lofty hills, N. and W., upon which the city is rapidly climbing, afford a most extensive and picturesque view of the surrounding country. Standing on Telegraph Hill, to the N. of the city, and looking E., the spectator sees the spacious bay, 8 m. in width, crowded with ships of all nations, and the fertile coast of Contra Costa beyond, with its new city of Oakland, behind which rises hill on hill, to the red wood forests on the summits—towering over the rest, the conical peak of Mount Diablo,

at a distance of 30 m. To the N. is the entrance from the ocean, and Sausalito, 6 m. distant, at the foot of the opposite hills. The northern arm of the bay also stretches away till lost in the distance, studded with smoking steamers on their way to the numerous points on the Sacramento and San Joaquin rivers. To the S. is the busy city, the Mission Dolores, the southern arm of the bay lost in the horizon, and the dim, distant coast-range running parallel on the E. Facing W. is seen the narrow strait through which the restless ocean ebbs and flows, and into which the sea-breeze sweeps daily with its chilling but purifying mists—the Golden Gate, the Presidio, the fort, and the great ocean beyond.

The Bay of San Francisco, says Fremont, has been celebrated, from the time of its first discovery, as one of the finest in the world, and is justly entitled to that character, even under the seaman's view of a mere harbor. But when all the necessary advantages which belong to it—fertile and picturesque dependent country; mildness and salubrity of climate; connection with the great interior Valley of the Sacramento and San Joaquin; its vast resources for ship-timber, grain, and cattle—when these advantages are all taken into account, with its geographical position on the line of communication with Asia, it rises into an importance far above that of a mere harbor, and deserves a particular notice in any account of maritime California. Its latitudinal position is that of Lisbon; its climate is that of Southern Italy; settlements upon it for more than half a century attest its healthiness; bold shores and mountains give it grandeur; the extent and fertility of its dependent country give it great resources for agriculture, commerce, and population. (See article CALIFORNIA.)

The city, as it now exists, is regularly laid out into streets and squares, and contains a vast number of wholesale and retail stores, well built, many of brick, and in its public buildings is not behind the majority of Atlantic cities in point of architecture and ornament. All is being built on a magnificent scale commensurate with the greatness of the golden lands of which it is the commercial depot. Its facilities for shipping are excellent, and its anchorage safe and commodious. It would, however, be useless to describe such a place; its daily progress and general advancement render such an attempt nugatory, as a description of to-day would give but a poor idea of its condition on the morrow. To sum up its past and give its latest statistical returns is all that can be required. The city is governed by a mayor, aldermen, and recorder, and has various municipal courts, in which justice is regularly dispensed. The streets which so lately were mere sand-tracks, are now paved and lighted, and in regard of its police an unparalleled efficiency is maintained. There are many things in San Francisco, however, which would not be tolerated in New England; it has its gaming houses and swindling shops of every degree, and many of its hotels are absolute hells; but these are the incidents of its peculiar situation. The receptacle of the "fast men" of all countries, and the threadbare characters of the Atlantic States, it is only wonderful that it is not worse than it really is said to be. But this position of affairs can only be temporary, and will be gradually removed as a permanent population is attained.

The corporation of San Francisco consists of a mayor, recorder, marshal, controller, treasurer, tax collector, city attorney, street commissioner, three county assessors, county justice, constable, eight aldermen, and eight assistant aldermen. The police force consists of a captain, assistant captain, and thirty-two men. Several of the heavy mercantile houses employ special policemen, maintained at their own expense, but clothed with authority by the mayor and marshal. The health department levies one dollar from each passenger landing by sea, which entitles the sick to admission into the City Hospital free of charge for the subsequent six months.

The general condition of the city in 1852 may be gathered

from the State census of that year, and other returns referring to other late periods.

Total population—84,876; of which 34,320 were whites—29,166 males, and 5,154 females; 812 were negroes—260 males, and 52 females; 182 were mulattoes—99 males, and 83 females; 12 domesticated Indians—6 males, and 6 females. Persons over 21 years of age—Americans, 11,371,

negroes, 275, mulattoes, 108, and foreigners, 15,937. The total number of foreigners was 18,854, of which 16,144 were males, and 2,710 females.

Statement showing the national character, number, and tonnage of vessels which arrived at San Francisco during the year ending 31st December, 1852, and the countries whence they came:

Countries of Departure.	American.		French.		British.		Other Countries.		Total.

The following table, taken from *Hunt's* "Merchants' Magazine" for May, 1853, though differing somewhat from the above, will nevertheless be most valuable on account of its showing the character of the shipping, both entered and cleared, at the port:

ENTRANCES, 1852.

Character.	American.		From foreign ports.		Total.	
	No.	Tons.	No.	Tons.	No.	Tons.
Steamers	57	40,046	69	72,441	1	389
Ships	139	119,055	28	16,275	93	52,382
Barks	58	17,686	38	10,279	141	51,844
Brigs	64	11,221	64	11,238	112	19,732
Schooners	26	2,793	53	6,666	60	6,592
Total	344	196,781	252	116,944	407	181,289

CLEARANCES, 1852.

Character.	American.		For foreign ports.		Total.	
	No.	Tons.	No.	Tons.	No.	Tons.
Steamers	90	57,758	66	68,511	2	773

Total	705	133,507	391	219,044	405	129,953

The following are the statistics of the arrivals from Eastern domestic ports during the year, with the ports from which they sailed, the tonnage, etc.:

Whence.	Vessels.	Tons.	Av. passage.
Boston, Mass.	47	34,241	148½ days
New York, N. Y.	99	83,339	150 "
Philadelphia, Pa.	7	2,339	161 "
Baltimore, Md.	6	1,890	179 "
Frankfort, Me.	1	199	156 "
New London, Ct.	1	135	185 "
Richmond, Va.	3	2,007	159½ "

The arrivals during the different months of the year were as follows:

Months.	Ves.	Tons.	Av. days.	Months.	Ves.	Tons.	Av. days.
Jan.	6	5,941	140	July	18	14,439	146½
Feb.	8	8,238	145½	Aug.	17	12,424	148½
Mar.	7	4,557	132	Sept.	13	10,622	156½
April	13	10,267	137½	Oct.	27	19,441	160½
May	11	7,695	140	Nov.	22	15,877	161
June	3	2,864	129	Dec.	15	12,285	158½

The twelve shortest passages of the year were as follows:

Name.	From.	Date of arr.	Days.
Sword Fish	New York	Feb. 10	92
Flying Fish	Boston	" 15	98
Staffordshire	"	Aug. 13	101
Sov. of the Seas	New York	Nov. 15	103
Comet	"	Jan. 13	104
Wild Pigeon	"	" 28	104
John Bertram	Boston	Mar. 26	105
Shooting Star	"	Aug. 17	105
Celestial	New York	Feb. 17	107
Courier	Boston	Ap. 23	108
Eclipse	New York	" 22	108
Sea Witch	"	Dec. 9	108

The number of passengers arriving and clearing by sea at San Francisco, during the year ending 23th Dec., 1852, was as follows:

Passengers.	Arriving.	Clearing.
Males	57,316	22,554
Females	5,223	890
Children	1,651	2
Total	64,190	22,946

—excess of arrivals 41,244. The arrivals overland and at other ports may be set down at 10,000, which would give to the State an increase of upward of 50,000 in the year, irrespective of natural increase.

Subjoined is a statement of the number of vessels which have sailed from the Atlantic States for California, each month, since the discovery of gold.

Month.	1848.	1849.	1850.	1851	1852.
January	—	83	82	26	14
February	—	64	83	11	20
March	—	53	109	18	24
April	—	21	69	8	16
May	—	23	88	4	28
June	—	34	32	5	28
July	—	42	25	6	15
August	—	50	26	4	27
September	—	40	28	4	31
October	3	74	37	10	34
November	6	105	41	14	26
December	11	89	21	11	—
Total	20	673	536	121	222

The amount of gold dust shipped by steamers from the port of San Francisco, during the year ending 31st December, 1852, was, according to a table carefully prepared by Adams & Co., \$45,587,803; of which \$39,007,367 was destined for New York, \$470,783 for New Orleans, \$6,020,027 for London, \$46,000 for Panama, and \$43,626 for San Juan. The shipments for the several months were, \$2,905,770 for January, \$1,170,122 for February, \$2,173,304 for March, \$3,467,293 for April, \$5,470,923 for May, \$3,570,266 for June, \$4,119,509 for July, \$3,619,929 for August, \$4,105,630 for September, \$5,067,336 for October, \$5,255,499 for November, \$4,056,172 for December.

The amount of gold dust manifested and shipped by sailing vessels during the same time was \$213,513; of which \$97,907 was sent to Valparaiso, \$22,611 to Hong Kong, \$47,000 to Canton, \$7,000 to Shanghai, and \$39,000 to ports in China.

The amount of coin manifested during the same time was \$455,253; of which \$185,061 was shipped to Hong Kong, \$12,000 to Whampoa, \$25,000 to Shanghai, \$75,850 to ports in China, \$32,432 to Valparaiso, \$49,550 to Manila, \$4,000 to Punta Arenas, and \$71,000 to Honolulu.

The total amount of gold dust and coin manifested and shipped on board steamers and sailing vessels during the year 1852 was \$46,256,574. This, of course, does not show all the gold dust exported during the year, as many vessels are in the habit of taking large amounts abroad without noting them on their manifests. To obtain the actual export it would be necessary to add these unknown shipments, and also an estimate for the amount taken away in the hands of passengers. This last may safely be put down for the year at \$10,000,000, showing a total export of gold from California during the year 1852 of about \$56,000,000.

The history of San Francisco since the American occupancy, is full of interest and instruction. Within the brief space of 5 or 6 years, it has risen from a comparatively small village, to a mighty city, commanding the trade of the world, and the destined port of a large moving population. The war with Mexico, which broke out in 1846, gave a first impulse to its commerce, by requiring the shipment of supplies for military purposes. In March, 1847, there were in the harbor the extraordinary number of six vessels—the imports for the last quarter of that year amounted to \$49,600, and the exports to \$53,600. At this period, the number of inhabitants, exclusive of Indians, was 375. Eight months later, when a census was taken by the Board of School Trustees, the number exceeded 800, of which 60 were of scholastic age. This increase of more than 100 per cent. in eight months, took place before the discovery of gold, and when California was sought merely for agricultural and commercial purposes. The first school-house was completed in Dec., 1847, and the town council passed a resolution, that "not exceeding \$400 be appropriated to the payment of the teacher of the public school of this place, \$200 to be paid at the expiration of the first six months, and \$200 to be paid

at the expiration of twelve months, from the commencement of the school. This was the day of small things. Gold was a scarce article, except as a hidden treasure. The first American school in California was duly opened on Monday, 3d April, 1848. It appears that the early settlers were bent on reducing the town to the order and decorum of some Atlantic cities. Ordinances were passed in 1847 imposing a fine of \$5 on any person allowing hogs to run at large, and a fine of \$20 on any person discharging fire-arms within a mile of the public square. Complaints were even made in the newspaper, against the practice of smoking cigars in the magistrates' office and other public places. In January, 1847, an ordinance was published, directing that the name of Yerba Buena, as applied to the town, be changed to San Francisco, in all public documents and records. On the 13th Sept., the first election was held, for six members of council. The number of votes polled was 200. The "steamboat" made its experimental trip on the 15th Nov. of that year. This pioneer in steam navigation was a diminutive vessel, the name of which is not given. In April, 1847, a semi-monthly mail was established to San Diego and other southward points. On the 1st of April next year, the "California Star Express" left by the overland route. This formidable enterprise, the first regular conveyance to the States, was announced to go through, as far as Independence, in 60 days. The postage on a letter was 50 cents. Early in 1848, an excitement appears to have taken hold of the public mind, in regard to the supposed mineral treasures of the country; but it is worthy of remark, that gold was the metal least thought of. The quicksilver mines near San José had long been known and worked. Copper was discovered somewhere, saltpetre and sulphur also, a quarry of limestone was opened, and coal had been found near San Francisco. Silver it was said had also been discovered. To this metal, indeed, more than any other, was expectation directed, and people seemed to have an idea that the land was underlaid with silver ore. The first discovery of gold was made near Sutter's Fort, 30 miles from New Helvetia, in Dec., 1847, and by the ensuing spring, the "yellow fever" as it was facetiously called, had carried off the greater part of the population. Stores were closed, and houses left tenanted, and every thing wore a desolate and sombre look. Lawyers, merchants, grocers, carpenters, and cooks, rushed in one motley assemblage to the mines. The newspapers ceased their issues. This suspension of trade and business, however, was soon succeeded by the most extraordinary activity. Adventurers from all nations, and merchandise of all kinds began to pour into the town, on its way to the mining regions. The forsaken buildings received a new tenantry, and the store-houses were in demand for mercantile purposes. In August, emigrants began to arrive at the rate of 500 a month, and in the middle of September, the harbor is described as crowded with shipping, the wharf lined with goods, and the streets filled with a busy throng. In the first two months of the golden age, the amount of dust brought into San Francisco was estimated at \$250,000; and in the next two months, at \$600,000. In Sept., 1848, an era took place in the history of the city: a square-rigged vessel—the brig Belfast, from New York, had arrived, laden with a valuable cargo. She hauled up at Broadway wharf, the only one accessible to such a vessel, and there discharged. No sooner was she known to be landing her cargo, than real estate rose 50 per cent. A vacant lot on the corner of Washington and Montgomery streets, at that time bordering on the water, which had been offered for \$5,000 and refused, sold readily the very next day for \$10,000. The first brick building was erected at the corner of Montgomery and Clay streets, in Sept., 1848.

About this time projects were started for establishing a temperance society and a lyceum, but most persons thought that a theatre was most the suitable moral exponent; a proposition was also made to establish a hospital for miners etc. In November, at a public meeting, the Rev. T. D

Hunt was elected "chaplain for the city." At the election in October, 1848, 158 votes were polled; in December, 1848, the voters numbered 847, and in the August next year 1,519 votes were polled. In December, 1848, the public school was re-opened. In November, 1848, when the people returned from the mines for the winter, the effects of the gold discovery were most generally felt. Lots that in the spring were sold at from \$100 to \$2,000, now ranged from \$1,000 to \$15,000, and rents had quintupled. In February, 1849, the population was estimated at 2,000. The duties collected at the custom-house in 1848 were—1st quarter, \$11,931; 2d quarter, \$3,835; 3d quarter, \$74,827, and 4th quarter, \$100,480. The exports of merchandise amounted to about \$1,000,000, and the imports of coin to about the same amount, while the exports of gold dust for the last six months were \$2,000,000, or something less than the quantity regularly exported every two weeks four years after. The first fire, for which incidents San Francisco has become famous, occurred in January, 1849, burning the Shades Hotel, and in June, the ship Philadelphia was burnt in the harbor. On the 1st February of the same year the "California," the first steamship in the mail service, arrived. On the 18th of May arrived the ship Grey Eagle, of Philadelphia, having made the passage in 117 days—thus far the quickest passage. It was computed that the number of emigrants in the country in June of this year was 15,000, of whom the greater portion had debarked at this port. Sixty-four vessels were in the harbor. In the month of July there arrived by sea 3,614 souls. Some idea of the rapid march of the country in those times may be formed, from the fact that, on a single day, the 1st July, there arrived 17 vessels with 889 passengers. In August the population was computed at 5,000. The number of arrivals during the month had been 3,895. In Sept., 5,892 arrived, and in October about 4,000. The Baptists built the first Protestant house of worship in California, and dedicated it on the 5th August, 1849. Central wharf was finished in the latter part of this year. In October a little iron steamboat was launched, and was placed on the route to Sacramento. On one of her trips she brought a number of salmon from Sacramento, which sold readily at \$1 per pound, and some of the fish brought as high a price as \$45. The steamboats M-Kim and Senator were shortly after put on the same route. All these vessels were crowded with passengers. An election to adopt the constitution, and to choose State officers, was held on the 13th November, when the number of ballots cast was 3,169, of which only 5 were in the negative. In the winter of 1849-50 the business of San Francisco was almost suspended on account of the impassable condition of the streets from rain, and in numerous instances persons are said to have perished in the mud. At this period the most moidy population in the world was congregated in San Francisco, and the capricious taste of the citizens, in regard of dress, served to add to the apparent diversity. Every man had his own standard of fashion entirely independent of the rest of the world. As the female population increased, however, the costume of the men began to approach a more uniform standard, and now, even the slouch hat, which so long distinguished the Californian, has given place to trim and formal modes from Broadway and Chestnut Street. In those days the humor of the people inclined them not in the slightest degree toward intellectual pursuits. From the multitude of gambling and drinking houses, and the crowds that filled them, one might have inferred that drinking was a universal habit, and that gambling was a regular occupation of one-half of the people, and the nightly diversion of the other half. In the progress of civilization and refinement, during the winter two theatres were kept in operation, and a portion of the citizens began to amuse themselves with concerts, balls, dinner parties, and military suppers. The first rush homeward took place in this winter. Driven from the mines by the weather, many of the most fortunate adventurers looked toward their distant friends. All tickets for

the steamers being taken, extraordinary prices were offered for them—for stowage tickets, the original cost of which was \$150, as much as \$450 was frequently given.

The first of the series of calamitous conflagrations that have marked the history of the city, broke out on the 24th Dec., 1849, and consumed, in houses and merchandise, property valued at \$1,000,000. The fire of Nov., 1852, burned over a portion of the same ground, but with less destruction. Early in 1850 an express wagon made its appearance in the streets; and in January of this year, a curious incident transpired, in the public sale of three females from Sidney, to pay their passage money. They were sold for five months at \$15 each—the captain of the vessels pocketing the money with entire satisfaction. In March was formed the "Stranger's Benevolent Society," for the relief of the indigent sick. From the 12th April, 1849, to the 29th Jan., 1850, a period of little over nine months, there arrived by sea at San Francisco, 89,388 immigrants, of whom 1,421 were females. Of 805 vessels from which they landed, 457 were American and 318 foreign. In the year ending 15th April, 1850, there had arrived 62,000 passengers in 695 American and 418 foreign vessels. The winter of 1849-50 witnessed the first step toward the formation of the present enormous debt of the city. The expenditures for December were \$135,000, and the receipts \$175,000, being a balance in the treasury of \$40,000. In January and February the expenditures were \$201,000, and the receipts only \$137,000, leaving a deficit of \$24,000, which was the nucleus of the present debt. Two-thirds of the receipts were from the sale of city lots. The debt then begotten increased rapidly, and in a little more than a year reached the enormous sum of \$1,000,000. When the treasury was exhausted, scrip was issued, bearing interest at 3 per cent per month. The credit of the city growing worse and worse, the scrip depreciated until it would not command over one-third of its nominal value. Persons having claims against the city drew up bills for two or three times the amount of their claim, so that they might realize from the sale of the scrip the full amount of the debt in cash. Thus a tradesman furnishing a \$1,000 worth of supplies to the hospital would present his bill for \$3,000, and receive that amount in scrip bearing interest as above. When the debt was funded and converted into 10 per cent. bonds, he received bonds equal to the amount of the scrip and interest, that is to say, if the scrip had run six months the city paid him \$3,540 in bonds, with an annual interest of \$354, or more than one-third the original debt. A more extraordinary specimen of financiering can scarcely be conceived. In the course of the year 1850 the principal streets were graded and laid with planks. Commercial Street, from Montgomery to Kearny, was first completed. Anticipating another winter like the past, the preparation of the streets was hastened as the autumn advanced, and when the season of rain arrived, the chief thoroughfares were effectually covered with wood. The winter, however, brought but little rain, and the fires of May and June following, destroyed a large portion of the costly expenditure which had added largely to the debt of the city. After introducing the subject, says Dr. Gibbons, from whose "Brief Sketch of San Francisco" the greater part of this article has been reduced, it would not be right to pass without commendatory notice, the arrangements finally adopted to redeem the credit of the city and to pay off the million and a half of debt. The funding of the debt and the issuing of bonds bearing interest at 10 per cent. per annum, has already been mentioned. The bonds were made payable in twenty years, and provision was made to redeem a portion annually. The citizens co-operated earnestly in the movement, and submitted cheerfully to the imposition of a heavy tax for the purpose. The credit of the city was at once restored, and the bonds rapidly approached to their par value. The transition from utter and hopeless bankruptcy to a basis of secure and permanent credit, and that, too, after the disastrous fires of May and June, 1850, and the still more ruin-

ous conflagrations of May and June, 1851, which laid the city in ashes a second time, was rapid and extraordinary, exhibiting a degree of energy and courage rarely met with in the history of municipal governments. In the spring of 1850 there were three daily papers published in the city, the "Alta Californian," the "Pacific News," and the "Journal of Commerce." To these were added during the year, the "Evening Picayune," the "Herald," and the "Courier." In less than a year after there were eight daily papers existing in San Francisco.

SAN FRANCISCO RIVER, *N. Mex.*: in the W. part of the Territory, is formed by two principal head branches, and flows S. into Salt r., just above the confluence of that stream with the Rio Gila.

SAN FRANCISQUITA CREEK, San Francisco co., Calif.: rises in the Sierra Moreno, or Brown Mountains, runs eastwardly, dividing the co. from Santa Clara, and empties into San Francisco bay. Gold has been found in small quantities in this creek.

SAN GABRIEL, p. o., Williamson county, Tex.: 35 m. N. Austin City.

SANGAMON COUNTY, Ill. Situate centrally, and contains 936 sq. m. Sangamon r. passes through the N. E. portion, by which and its branches it is drained, and excellent water-power supplied. Surface undulating; soil a rich, calcareous loam, with sand intermixed, and very productive. Staples, wheat and Indian corn. It has fine timber land, and may be considered one of the richest counties of the State. Farms 1,578; manuf. 92; dwell. 3,173, and pop.—wh. 18,983, free colored 245—total 19,228. *Capital*: Springfield. *Public Works*: Great Western Central R. R.; Chicago and Mississippi R. R., etc.

SANGAMON RIVER, Ill.: one of the chief branches of Illinois r., rises in a small lake in Vermillion co., flows W. by changing course, and empties into the Illinois r. between Cass and Macon counties. It is about 180 m. long, of which about 120 m. are navigable for small craft. It flows through one of the most fertile and pleasant portions of the State.

SANGERFIELD, t. and p. v., Oneida co., N. Y.: 17 m. S. Oriskany Falls, and 56 m. W. by N. Albany. Drained by Chenango r. and Oriskany cr. Surface uneven; soil rich and highly cultivated. The v. is near Oriskany cr. There is in the t. a furnace and other manufactories, an oil, grist, and saw mills, etc. Pop. of t. 2,371.

SANGERVILLE, t. and p. o., Piscataquis co., Me.: on S. side of Piscataquis r., 63 m. N. N. E. Augusta. It has an uneven surface, with fertile soil, and contains 3 handsome ponds. Pop. 1,267.

SANGSTER'S STATION, p. o. and sta., Fairfax co., Virg.: on the Orange and Alexandria R. R., 83 m. N. Richmond.

SANILAC COUNTY, Mich. Situate E. of the S. Peninsula, and contains 750 sq. m. Drained by the Black and Cass rivers and their affluents. Surface generally even; soil fertile, and, with cultivation, adapted to the raising of wheat, grain, vegetables, etc. Lake Huron bounds it on the E. Farms 61; manuf. 27; dwell. 372, and pop.—wh. 2,112, fr. col. 0—total 2,112. *Capital*: Lexington.

SANILAC MILLS, p. o., Sanilac co., Mich.: 110 m. N. E. Lansing.

SAN JACINTO, p. o., Harris county, Tex.: 152 m. E. by S. Austin City.

SAN JACINTO RIVER, Tex.: rises in Walker county, flows S. S. E., receiving numerous tributaries, of which the principal one is East fork, and empties into San Jacinto bay, an arm of Galveston bay. It is navigable about 45 m., is very deep, and its water is very clear and wholesome.

SAN JOAQUIN COUNTY, Calif. Situate centrally, and contains about 11,600 sq. m. Drained by San Joaquin r. and its tributaries, Moquelumne, Calaveras, and Stanislaus rivers. Moquelumne r. on the N., and Stanislaus r. on the S., form its boundaries in those directions. The banks of these rivers are rapidly being settled. A large portion bordering on the San Joaquin and Moquelumne, consisting of

overflowed or "Tule" is being improved, but there is much land that can not be brought into cultivation without great labor. Game of all descriptions is plentiful on the plains. The rivers abound in fish, and many persons are engaged in taking and curing salmon. Oak is the principal timber. Located in the heart of a valley hundreds of miles in length, this is one of the finest agricultural counties in the State. Garden produce, melons, etc., are raised in abundance. Mining is but little engaged in. On the Stanislaus the placers average about \$4 a day per man. The Indians have mostly removed to the mountains; those remaining, in all 379, are located in four pueblos, are perfectly friendly, and some cultivate the soil or work at the mines. Ferries and bridges have been established over the rivers, and the means of travel are convenient in all parts. Pop. in 1852, 5,029—whites 4,569—males 3,582, and females 987; negroes 81—males 60, and females 21; Indians 379—males 168, and females 211; foreign residents 749—males 450, and females 299. Over 21 years of age—citizens of the United States, 2,451, male negroes 53, male Indians 125, and foreign residents 516. Capital employed in the co., \$2,896,050. *Capital*: Stockton.

SAN JOAQUIN, p. v., San Joaquin co., Calif.: on the r. so called, at the mouth of Stanislaus r., and opposite the city so called, 68 m. S. E. Vallejo.

SAN JOAQUIN RIVER, Calif.: rises in Tulare lake and the Sierra Nevada or Snowy Mountains, winds its way semi-circularly around the head of the Merced into a N. W. direction, through a fine valley, and into the San Joaquin plains, about 15 m. N. of the line dividing the county from Tulare county, thence continues in a S. W. direction about 30 m., when it gradually inclines N., passing nearly through the centre of it, and joining the Sacramento river, flows W. into San Francisco bay. It has numerous tributaries, affording supplies of water to the surrounding country for mining purposes. This stream is navigable as far up as Stockton for vessels drawing over 9 feet of water, and for smaller craft as far up as the Tuolumne r., at which point vessels have arrived with 15 tons freight. It abounds in salmon and other fine fish. Fort Miller is located at its entrance into the plains. Wild oats, clover, and other rich grains, grow in abundance along the course of this stream.

SAN JOSE, p. v., Santa Clara co., Calif.: the former seat of government; is located in one of the most pleasant and healthy valleys in the State, 50 m. from San Francisco, and 100 m. S. Vallejo. It is an agricultural place, and its advantages for garden fruits and grains are of the highest order. There is a wharf here, and it is the depot where the small craft that ply to and fro in the bay deposit and take in their freights. The vessels range from 10 to 20 tons. The principal quicksilver mines in the State are about 20 m. S. of this place. Pop. 1,200.

SAN JUAN, p. v., Monterey county, Calif.: at the base of Santa Cruz Mountain, in the valley of San Juan, 83 m. S. E. Vallejo. There are several mines in the vicinity.

SAN JUAN BAPTISTO, mission, Monterey county, Calif.: about 104 m. S. E. Vallejo. A tract of orchard land, in good state of cultivation, and well watered. Like other missions in California, it is in private hands, either by claim or pre-emption.

SAN LOUIS, p. o., Brazoria county, Tex.: 154 m. E. S. E. Austin City.

SAN LUIS OBISPO COUNTY, Calif. Situate S. on the Pacific, and contains 4,600 sq. m. Surface hilly, being traversed by the Coast Range and other mountains. The streams are the Nacimiento, dividing it from Monterey co.; the Arroyo Grande and the Santa Maria, dividing it from Santa Barbara co. The bottoms on these streams are well timbered with sycamore, oak, and alamaia, a species of cottonwood. Pine of large size and superior quality is abundant. Along the coast are fine harbors; that of San Luis Obispo is 9 m. W. of the t. of the same name; that of San Simeon is 40 m. N. W. of San Luis, and there is a fine harbor known as the

Moro. Rich silver mines are found in the co., and copper and iron are supposed to exist, and a fine bituminous coal is found near San Simeon bay. There are many large and bituminous springs, and a warm sulphur spring—the panacea of the natives—about 10 m. S. of San Luis Obispo. Lime-rock is plentiful. On the plains, in the N. E. part of the co., wild horses range in large numbers. Horticulture is carried on to some extent. The vineyard of San Miguel is extensive, but much neglected. The mission of San Luis Obispo, though in ruins, has still remaining some fine olive, peach, pear, fig, and apple orchards, and a small vineyard. The capital invested in ranches and stock amounted in 1852 to \$664,848, and in village property to \$40,000. Pop. of that year, 984—whites 494—males 331, and females 163; negroes 8—males 4, and females 4; foreign residents, 121—males 85, and females 36. Over 21 years of age—citizens of U. S., 143, negroes 4, and foreigners 77. There are 37 ranches in the co., chiefly held under Mexican grants, containing in all 550,000 acres. *Capital*: San Luis Obispo.

SAN LUIS OBISPO, v., port, and cap. San Luis Obispo co., *Calif.*: half-way from Santa Barbara to Monterey, and 177 miles S. E. Vallejo. The v. is located on a small stream, 9 m. from the harbor. An unsafe port in winter. Although having an extensive seaboard, it is not well watered. Lat. $35^{\circ} 10' 37.5''$ N., and long. $120^{\circ} 43' 31''$ W. Ten miles S. of the v. are the warm sulphur springs—the panacea of the natives.

SAN MARCO, p. o., Travis co., *Tex.*

SAN MARCOS river, *Tex.*: the principal tributary of Guadalupe r. Is a large stream rising in the S. E. corner of Gillespie county, and flows E. and S. E. to its confluence with the Guadalupe, near Gonzales.

SAN MIGUEL county, *N. Mex.* Situate centrally toward N., and immediately E. of Santa Fé. Area 3,500 sq. m. Drained by the upper waters of Pecos and by Canadian rivers, which are here comparatively small streams. Surface elevated, and in the W. mountainous, being traversed by the Jumanéz range. Except on the rivers there is very little agricultural land. Farms 177; manuf. 0; dwell. 1,731, and pop.—wh. 7,070, fr. col. 4—total 7,074. *Capital*: San Miguel.

SAN MIGUEL, v., San Luis Obispo co., *Calif.*: on the W. side of Monterey or Salinas r., 71 m. S. E. Monterey and 156 m. S. S. E. from Vallejo.

SAN MIGUEL river, *Tex.*: rises by two head branches in S. E. corner of Medina county, and flows S. S. E. through Bexar county, and empties into the Rio Frio near its mouth.

SAN NICOLAS, v., Los Angeles co., *Calif.*: on the S. E. end of the island of San Nicolas, in the Pacific Ocean, 52 m. S. W. St. Vincent, in lat. $33^{\circ} 14' 12.9''$ N., and long. $119^{\circ} 25' 00''$ W., 339 m. S. S. E. Vallejo.

SAN PABLO, v., Contra Costa co., *Calif.*: at the entrance of the bay so called, 15 m. S. by W. Vallejo.

SAN PABLO bay, *Calif.*: one of the northern divisions or arm of San Francisco bay, bordering on the counties of Contra Costa, Napa, Sonoma, and Marin. It receives the waters of Napa, Sonoma, and Petaluma creeks.

SAN PASQUEL, v., San Diego co., *Calif.*: on the line of the Santa Fé route, 45 m. N. of S. boundary of the State and 408 m. S. E. Vallejo.

SAN PATRICIO county, *Tex.* Situate S., and contains 2,720 sq. m. Drained by West Aransas and other tributaries of Aransas r., and by branches of Rio Nueces, which runs along its southern border. Surface varied, in the N. being undulating and broken and somewhat elevated, but in the S. fine level tracts of land spreading over a large portion of the county. Along the streams are some strips of woodland. Farms 10; manuf. 0; dwell. 38, and pop.—wh. 197, fr. col. 0, sl. 3—total 200. *Capital*: San Patricio.

SAN PATRICIO, p. v., and cap. San Patricio co., *Tex.*: on the E. bank of Nueces r., 166 m. S. Austin City.

SAN PEDRO, p. o., Houston co., *Tex.*: 171 m. N. E. by E. Austin City.

SAN PEDRO, v. and port, Los Angeles co., *Calif.*: on the bay of San Pedro, 392 m. S. E. Vallejo, lat. $33^{\circ} 43' 19.6''$ N., and long. $118^{\circ} 16' 09''$ W. It is the port of Los Angeles, from which it is 27 m. S., and 80 m. N. W. San Diego. It is a good farming district, celebrated for the fine quality of its grapes, and was the former Spanish capital of California. The anchorage is good, and perfectly safe, except during the prevalence of the S. E. winds in the winter.

SAN PEDRO river, Los Angeles co., *Calif.*: a small stream rising in the mountains in S. part of county, flowing S. empties into the bay so called.

SAN PETE county, *Utah Ter.* Situate between $38^{\circ} 30'$ and $39^{\circ} 57'$ lat. N., and extending from the Rocky Mountains W. to about 112° long. W. It is drained by Green and Grand rivers, the constituents of the Rio Colorado, and in the hills which cross its W. portion, Nicollet r. has its sources. Timber of various kinds is abundant, and bituminous coal, gypsum, salt, etc., are found in abundance. Farms 51; manuf. 1; dwell. 62, and pop.—wh. 365, fr. col. 0—total 365. *Capital*: Manti City.

SAN RAFAEL, p. v., and cap. Marin co., *Calif.*: is laid out at the old mission of the same name, on the W. side of Pablo bay, an arm of San Francisco bay, 23 m. W. of Vallejo. It is a pleasant site, and when the resources of its undulating, wooded, and arable baek country shall be developed, it will become an important point.

SAN RAMON, p. o., Contra Costa county, *Calif.*: 39 m. S. Vallejo.

SAN SIMEON, port, San Luis Obispo co., *Calif.*: on the bay so called, 40 m. N. W. San Luis Obispo and 158 m. S. S. E. Vallejo, lat. $35^{\circ} 35' 24''$ N., and long. $121^{\circ} 10' 22''$ W. It has little or no harbor, being nearly an open roadstead.

SANTA ANNA county, *N. Mex.* Situate centrally toward N., and contains about 400 sq. m. The Rio Grande and Santa Fé county bound it on the E., and on the W. it is bounded by the Sierra Madre, the highest peak of which in this county is Mount Taylor. The Puerco and other tributaries of the Rio Grande, drain the surface, which, with the exception of the immediate valley of the river, is essentially mountainous. Farms 144; manuf. 0; dwell. 973, and pop.—wh. 4,644, fr. col. 1—total 4,645. *Capital*: Jemez.

SANTA ANNA, p. v., De Witt co., *Ill.*: on the head branch of Salt cr., 60 m. N. E. Springfield.

SANTA BARBARA county, *Calif.* Situate S. on the Pacific, and contains about 4,300 sq. m. The principal streams are the Santa Clara, forming the S. E. boundary, the San Buenaventura, Santa Inez, and a small stream forming the N. boundary. These are all small streams, rising in the Coast Range of mountains, which, on the E. border of the county rise to the height of from 3,000 to 4,000 feet, and are volcanic. The waters of the coast abound in corvinae, black fish, mackerel, crawfish, sardines, clams, and many other species of excellent fish and crustaceæ. A bed of oysters, 150 yards long and 25 yards wide, and 3 feet thick, has been discovered within the pueblo limits of Santa Barbara, the oysters being of uncommon size and good flavor. The islands off the coast are the rendezvous of otters, seals, sea elephants, and beaver. There are several fine valleys in the county, much of the soil of which is fertile arable land, and along the streams is susceptible of irrigation. About one-third the surface is adapted for cereal agriculture and horticulture. Fruit of all kinds, vines, melons, etc., grow finely. The grasses are luxuriant and nutritious, and vegetation generally fully developed. Agriculture, however, is in a very rude state, and the material for fencing scarce. For dairy farming the county cannot be excelled. Gold is found in the southern part, and was extensively worked in 1842. There are tar springs near Santa Barbara village, and the sea throws up bitumen for leagues along the coast. Salt is abundant, and is gathered at the salinas in Aug. and Sept. in cart loads. A hot sulphur spring exists in the Montecito, near the village of Santa Barbara, temperature 100° Fahr., and basin large enough to bathe in. In 1852 the

population numbered 2,131: whites 1,516—males 834, and females 682; mulattoes 9—males 4, and females 5; and foreign residents 230—males 120, and females 110. Over 21 years of age: Americans 301, mulattoes 5, and foreigners 106. Land under cultivation 699 acres. *Capital*: Santa Barbara.

SANTA BARBARA, p. v., and cap. Santa Barbara county, *Calif.*: a small sea-coast town, 253 m. S. E. Vallejo. It is pleasantly situated, surrounded by mountains. A point so called projects out from the town. Lat. $34^{\circ} 24' 24.7''$ N., and long. $119^{\circ} 14' 18''$ W.

SANTA CATALINA island, *Calif.*: is a large island in the Pacific Ocean, of irregular triangular form, 20 m. long and the same width, attached to Los Angeles county, 20 m. S. of San Pedro.

SANTA CLARA county, *Calif.* Situate W., and contains about 12,000 sq. m. It lies between the Coast Range and the Santa Cruz Mountains, and is watered by the Pajara, Santa Cruz, Guadalupe, and other rivers. The Guadalupe empties into the bay of San Francisco at its S. extremity, and the others have short courses to the Pacific Ocean. The county occupies one of the most fertile vall ys of the country, producing all the grains, fruits, and vegetables of the latitude. Its minerals are of the most valuable description—quicksilver, gold, silver, etc., and coal has been discovered. A great portion of the produce in the markets of San Francisco is brought from this county. The roads are generally good, and the Atlantic and Pacific R. R. will pass near to San José, the old capital of the State. Forbes' quicksilver mines in the Santa Cruz Mountains, are said to be as rich as those of Mexico. In 1852 the county contained 6,664 inhabitants, of which the whites numbered 6,158—males 4,096, and females 2,062; negroes 53—males 45, and females 8; mulattoes, 3 females; Indians 550—males 388, and females 162; foreign residents 1,335—males 1,059, and females 276. Over 21 years of age—1,717 citizens, 47 negroes, 195 Indians, and 1,081 foreign residents. *Capital*: Santa Clara.

SANTA CLARA, p. v., Santa Clara co., *Calif.*: in the Santa Cruz Mountains, 5 m. S. of San Francisco bay, 26 m. W. of the sea-coast and 53 m. S. by E. from Vallejo. It was formerly a mission, and is surrounded by one of the best farming tracts in the State. About 19 m. S. E. are extensive quicksilver mines. Pop. 800.

SANTA CLEMENTE island, *Calif.*: a large island, 16 m. long 6 m. wide, attached to San Diego county, 65 m. E. San Diego.

SANTA CRUZ county, *Calif.* Situate W. on the Pacific, and contains about 800 sq. m. The Santa Cruz Mountains bound it on the N. E. and the Pacific Ocean on the S. W. side. The interior is hilly, with intervening valleys, and along the coast there are precipitous bluffs. The Pajara r. forms its S. boundary, and there are several small streams emptying into the sea. A good road connects the village with San Francisco. Gold and other minerals are found, and quartz mining is carried on, but to no great extent. The industry of the people is chiefly devoted to agriculture, trade, etc. The land under cultivation in 1852 was 5,472 acres. Pop. at that date 1,219: whites 1,097—males 723, and females 374; negroes 4—males 3, and females 1; mulattoes, 8 females; Indians 110—males 63, and females 47; foreign residents 33 males. Over 21 years of age—279 Americans, 4 negroes, 8 mulattoes, 33 Indians, and 30 foreigners. *Capital*: Santa Cruz.

SANTA CRUZ, p. v., and cap. Santa Cruz co., *Calif.*: on Monterey bay, 75 m. S. Vallejo, lat. $36^{\circ} 57' 26.9''$ N., and long. $122^{\circ} 09' 10''$ W. It is one of the oldest pueblos in the State, and presents many advantages for an agreeable residence.

SANTA CRUZ island, *Calif.*: a large island in the Pacific, attached to Santa Barbara county, 23 m. long, 13 m. broad, 20 m. S. Santa Barbara.

SANTA FÉ county, *N. Mex.* Situate centrally toward N.,

and contains about 800 sq. m. The Rio Grande forms its W. boundary, and supplies water for irrigation, but is not navigable. The cultivated lands are all on the river borders—farther E. is a sandy waste, but seldom ever traversed except by the trader and Indian. Gold, silver, and other metals are found in the county. Farms 713; manuf. 6; dwell. 1,561, and pop.—wh. 7,704, fr. col. 9—total 7,713. *Capital*: Santa Fé.

SANTA FÉ, p. o., Maury co., *Tenn.*: 41 m. S. by W. Nashville.

SANTA FÉ, p. o., Bracken county, *Ky.*: 60 miles N. E. Frankfort.

SANTA FÉ, p. v., Miami co., *Ind.*: on Big Pipe cr. of the Wabash r., 61 m. N. Indianapolis.

SANTA FÉ, p. o., Alexander county, *Ill.*: 175 m. S. by E. Springfield.

SANTA FÉ, p. city, and cap. Santa Fé co., and capital of the Territory of New Mexico: is situated about 20 m. E. from the Rio Grande. Lat. $35^{\circ} 41' 6''$ N., long. $106^{\circ} 02' 08''$ W. Its site is a wide plain, surrounded by lofty mountains. Its elevation above the sea is about 7,047 feet. A small creek, rising in the hills, and flowing past the city to the Rio Grande, supplies it with water. The land around is sandy, poor, and destitute of timber, but the mountains are covered with pine and cedar. The climate is delightful, without extremes; the sky is clear, and the atmosphere dry. The streets are irregular and narrow. The houses are built of adobes, one story high, with flat roofs, and in square form, with an area in the centre. There are two churches (Catholic) with steeples, but of ordinary construction. The inhabitants are chiefly a mixture of Spaniards and Indians, with a few Americans. Their manners and customs are those of the whole country, and similar to those of other settlements of Spanish origin. For many years this place has been the main point of trade in this region, and many of the companies engaged therein have amassed large fortunes. In 1850 two newspapers were published, "The New Mexican," weekly, and "Santa Fé Republican," tri-weekly. Pop. in 1850, 4,846.

Santa Fé was founded about 1581. Its history, with that of the territory, previous to belonging to the United States, is a continuous record of barbarism and tyranny. It was taken by Gen. Kearney, on September 8th, 1846.

SANTA MARIA river, *Calif.*: constitutes about one half of the boundary between Santa Barbara and San Luis Obispo counties, and is about 35 m. long.

SANTA ROSA county, *Flor.* Situate W., and contains 1,500 sq. m. Drained by Blackwater and Yellow rivers and Cold Water, Clear Water, and Sweet Water creeks. Escambia r. runs along its W. border. Surface level; soil very fertile. Chief productions, cotton, rice, sugar, grain, fruits, and vegetables. Santa Rosa island runs along its S. shore, with inlets N. and S. to the sound. Farms 91; manuf. 28; dwell. 526, and pop.—wh. 2,095, fr. col. 4, sl. 784—total 2,883. *Capital*: Milton. *Public Works*: Fort Gaines and Pensacola R. R.; Montgomery and Florida R. R., etc.

SANTA ROSA island, *Calif.*: 13 m. S. W. Santa Cruz island, 36 m. S. by W. Santa Barbara (Santa Barbara co.), and 273 m. S. S. E. Vallejo.

SANTEE, p. o., Covington co., *Miss.*: on a tributary of the Pascagoula r., 62 m. S. S. E. Jackson.

SANTEE river, *S. Car.*: is formed at S. E. corner of Richland co. by the junction of the Congaree and Wateree rivers (the head streams of which rise in North Carolina), flows E. S. E., and empties into the Atlantic by two mouths. It is navigable for sloops about 180 m.

SANTYAM city, Linn co., *Oreg.*: at the confluence of Santyam r. with the Willamette, and about equidistant between Salem and Albany.

SANYBEL island, *Flor.*: lies off N. E. corner of Monroe co., is 9 m. long and 2 m. wide.

SAPELO island, *Gal.*: is E. of McIntosh co., to which it belongs, between Sapelo sound and Doby inlet. It is 10 m. long, 5 wide, and has a lighthouse at its S. end.

SAPLING GROVE, p. o., Washington co., *Virg.*: 204 m. W. S. W. Richmond.

SAPFINGTON, p. o., St. Louis co., *Mo.*: 87 m. E. Jefferson City.

SARAH, p. o., Blair co., *Pen.*: 78 m. W. Harrisburg. A furnace moved by water-power, of 1,400 tons annual capacity, is located here.

SARASVILLE, p. o., Franklin co., *Ill.*: 127 m. S. S. E. Springfield.

SARASVILLE, p. v., and cap. Noble co., *Ohio*: 76 m. E. Columbus. It contains the county buildings, etc.

SARANAC, t. and p. v., Clinton co., *N. Y.*: 16 m. W. Plattsburg, and 138 miles N. Albany. Drained by the river so called, which runs through it in a S. W. direction, affording extensive water-power, and the soil along its banks is rich and well cultivated. The surface is hilly and mountainous, abounding in deposits of iron ore, and heavily timbered. The v. contains a forge and glass factory, several mills, etc. Pop. of t. 2,552.

SARANAC lakes, Upper and Lower, Franklin co., *N. Y.*: lie in the S. E. part of the co., and are connected by Round lake, which together form one body of water. Their outlet from the lower lake is by Saranac r. The length of the upper lake is 10 m., that of the lower 7 m., and the width of each is from 2 to 3 m. Round lake is about 4 m. long, and mostly 3 m. wide. Each abounds with trout and other fish.

SARANAC RIVER, *N. Y.*: rises in lower Saranac lake, flows in N. E. general course, and empties into Cumberland bay of Lake Champlain at Plattsburg, where it descends 40 feet by a succession of falls, affording very great water-power.

SARATOGA COUNTY, *N. Y.* Situate E. toward the N., and contains 785 sq. m. Drained by Sacandaga and Mohawk rivers, tributaries of the Hudson, and Fish and Kayaderosseras creeks. Surface various, in the N. W. being mountainous, and in the S. E. and central parts hilly, with sandy plains interspersed; soil a deep sandy loam, with clay intermixed, and in many parts fertile. Chief products, wheat, Indian corn, and potatoes. It contains many minerals, and has good granite, limestone, and slate quarries. In this co. are the celebrated mineral springs so much resorted to in the watering season. Farms 3,465; manuf. 349; dwell. 7,894, and pop.—wh. 45,066, fr. col. 580—total 45,646. *Capital*: Ballston. *Public Works*: Saratoga and Washington R. R.; Schenectady and Saratoga R. R.; Troy and Benschelers R. R.; Albany Northern R. R.; Saratoga and Sackett's Harbor R. R.

SARATOGA SPRINGS, t., p. v., and sta., Saratoga co., *N. Y.*: 36 m. by railroad N. Albany. Drained by several small streams flowing into Kayaderosseras cr., which bounds it on the S. Surface on the N. hilly, elsewhere level; soil sandy loam. It contains some manufactures, a number of mills, mechanic shops, etc. This is the most celebrated watering-place in the United States. Located closely together are a number of mineral springs with various properties, principally medicinal. The v. on the N. is located on a sandy plain, surrounded in part by pine groves. Its principal street is upon the W. margin of a narrow vale, in which the springs are found. On this broad street the principal hotels, churches, and other public edifices are located. The hotels, etc., are numerous, and some of them large, and fitted up on a grand scale; the United States is the most conspicuous, being located within a short distance of all the principal mineral springs; it is built of brick, four stories high, with ample accommodations for 400 persons. Congress Hall and Union Hall, both popular establishments, are on the S. of the v., near Congress Spring, the most copious and most salubrious of all the springs in Saratoga. It was discovered in 1792 by a member of Congress named Gillman; the Pavilion, on the site of a spring so called, near the Flat Rock, is surrounded by highly cultivated grounds, and as is the case with a number of others, is only kept open during the summer months for the accommoda-

tion of visitors. A number of other hotels and boarding-houses are kept open throughout the year. High Rock and Black Rock springs were first discovered in 1773, being then the resort of invalids; and now there are 10 or 12 important mineral fountains, most of them located near the margin of a brook which runs through the v. on the E., in whose waters the mineral elements of soda, magnesia, lime, and iron, with others of no less volume, are combined, in different proportions, with carbonic acid gas. The prevailing character is that of saline and chalybeate waters. Congress, Washington, Putnam's, Pavilion, Iodine, Hamilton, Empire, Flat Rock, and High Rock springs are the most celebrated for their medicinal qualities. Located east of Saratoga Springs is a cluster of mineral springs known as "Ten Springs," the most celebrated of which is called Union Spring. Large quantities of these waters are annually exported to different parts of the country, bringing in a handsome income, most of them being owned by private individuals. The waters are highly efficacious in many inveterate cases of disease, and has an effect on the healthy system to renovate and invigorate its energies when relaxed from long confinement, etc. Their medicinal properties are of the cathartic and tonic kinds. The following is an analysis of several of the springs, taken from a work by Dr. R. L. Allen, a physician resident at Saratoga: *Congress Springs*.—To one cubic gallon: chloride of sodium, grs. 390.246; hydriodate of soda and bromide of potassium, 6.000; carbonate of soda, 9.213; carbonate of magnesia, 100.981; carbonate of lime, 103.416; carbonate of iron, 1.000; silicic acid, 1.036; solid contents, 611.892; carbonic acid gas, 386.185; atmospheric air, 3.261. Gaseous contents, 89.449. *High Rock Spring*.—To one gallon: chloride of sodium, grs. 190.223; carbonate of magnesia, 62.100; carbonate of lime, 71.533; carbonate of soda, 2.177; silicic acid, 2.500; hydrobromate of potash, a small quantity. Solid contents, 351.197. Carbonic acid gas, 381.666; atmospheric air, 2.000. Gaseous contents, 383.666. *Hamilton Spring*.—To one gallon: chloride of sodium, grs. 290.500; carbonate of soda, 33.500; carbonate of lime, 95.321; carbonate of magnesia, 38.000; carbonate of iron, 4.500; hydriodate of soda, 3.500; bromide of potash, a trace; silicic acid, 1.000. Solid contents, 466.321. Carbonic acid gas, 340.777; atmospheric air, 2.461. Gaseous contents, 343.233. Temperature of the water, 48°. *Putnam's Spring*.—To one gallon: chloride of sodium, grs. 220.000; carbonate of soda, 15.321; carbonate of magnesia, 45.500; carbonate of lime, 70.433; carbonate of iron, 6.333; hydriodate of soda, 2.500; bromide of potash, a trace; silicic acid, 1.500. Solid contents, 370.587. Carbonic acid gas, 317.753; atmospheric air, 3.080. Gaseous contents, 320.833. Temperature 48°. *Iodine Spring*.—To one gallon: chloride of sodium, grs. 147.665; carbonate of magnesia, 73.345; carbonate of lime, 28.955; carbonate of soda, 3.000; carbonate of iron, 9.0; hydriodate of soda, 3.566. Solid contents, 257.434. Carbonic acid gas, 344.000; atmospheric air, 2.500. Gaseous contents, 3.465. "The freedom of this water from iron is such that it can be drank by a certain class of invalids, with whom iron proves a decided injury." *Pavilion Spring*.—To one gallon: chloride of sodium, grs. 183.514; carbonate of soda, 6.000; carbonate of lime, 59.593; carbonate of magnesia, 58.266; carbonate of iron, 4.133; iodine, sodium, and bromide of potash, 2.566; sulphate of soda, 1.000; alumina, a trace; silicic acid, 1.000. Solid contents, 316.373. Carbonic acid, 369.166; atmospheric air, 3.333. Gaseous contents, 372.499. *Empire Spring*.—To one gallon: chloride of sodium, grs. 215.756; bi-carbonate of lime, 24.678; bi-carbonate of magnesia, 113.450; bi-carbonate of soda, 33.584; hydriodate of potash, 9.600; iron, 0.500; silicic acid, 1.300. Solid contents, 399.877. Carbonic acid gas, 260.132; atmospheric air, 3.314. Gaseous contents, 263.466.

The Troy, Whitehall, and Castleton R. R., Saratoga and Schenectady R. R., and the Saratoga and Washington R. R., all connect in this village. Distance from New York city

by R. R. 182 m., from Troy 22 m., from Schenectady 22 m., and from Rutland, Ver., 39 miles. The village was incorporated in 1826, and contains an insurance office, a bank, an academy and female seminary, and other institutions of instruction, iron foundries, machine shops, an extensive carriage manufactory, printing-offices, etc. The "Saratoga Whig" is a daily and weekly (whig) issue, and the "Saratoga Republican" weekly (dem.) Pop. of t. 4,650.

SARCONIE, p. v., Jasper co., *Mo.*: on the S. side of Centre cr., 145 m. S. W. Jefferson City.

SARDINIA, t. and p. v., Erie co., *N. Y.*: 252 m. W. Albany. Drained by Cattaraugus cr., which bounds it on the S., and several small streams flowing into it. Surface uneven, in parts hilly; soil fertile. The v., on a small stream in S. part, contains flouring and saw mills, a woolen factory, and furnace. Pop. of t. 1,761.

SARDINIA, p. o., Decatur county, *Ind.*: 43 m. S. E. Indianapolis.

SARDINIA, p. v., Brown co., *Ohio*: on S. side of White Oak cr., 74 m. S. S. W. Columbus. Pop. 198.

SARDIS, p. o., Mason co., *Ky.*: 72 m. N. E. Frankfort.

SARDIS, p. o., Monroe county, *Ohio*: 99 miles E. $\frac{1}{2}$ S. Columbus.

SARECTA, p. v., Duplin co., *N. Car.*: on the E. side of N. E. cr. of Fear r., 72 m. S. E. Raleigh.

SAREPTA, p. v., Lafayette co., *Miss.*: on a branch of Yal-labusha r., 183 m. N. N. E. Jackson.

SARIETTA, p. o., Marion county, *Virg.*: 189 m. N. W. Richmond.

SARVESVILLE, p. o., Butler co., *Penn.*: 161 m. W. N. W. Harrisburg.

SASSAFRAS RIVER, *Del.*: rises in Delaware, and flows W., between Cecil and Kent counties, into Chesapeake bay, of which its principal portion is properly a broad inlet.

SASSAFRAS HILL, p. v., Washington co., *Ill.*: on the W. side of Little Crooked cr., 93 m. S. by E. Springfield.

SATARTIA, p. v., Yazoo co., *Miss.*: on a small stream flowing into the Yazoo r., 33 m. N. W. Jackson. Pop. about 180.

SAUCCELITO, v., Marin co., *Calif.*: on the bay of San Francisco, near the entrance to the harbor, 27 m. (direct) S. W. Vallejo. This place was laid out by a company of enterprising men, on the ranches of W. Richardson, Esq. It has one of the best anchorages to be found in the whole bay, and was formerly a favorite resort of whale ships, which visited the port for fuel, water, and supplies. The site of the town is small, but it is securely protected from the disagreeable winds which blow from the sea, by high hills behind it. It is surrounded by a fine agricultural country.

SAUCUN VALLEY, p. o., Lehigh co., *Penn.*: 83 m. E. by N. Harrisburg.

SAUGATUCK, p. o., Allegan co., *Mich.*: on the Michigan City and Grand Haven post route, 87 m. W. Lansing.

SAUGERTIES, t. and p. o., Ulster co., *N. Y.*: on the right bank of the Hudson r., 43 m. S. by W. Albany. Drained by Plattsville and Esopus creeks, tributaries of the Hudson r. Surface on the W. mountainous, being covered by the Catskill Mountains, and on the E. moderately uneven; soil of average fertility. It derives immense water-power, principally from the falls on Esopus cr., and is much improved by several manufactories, bloomeries, mills, etc. The p. o. is located in the v. of Ulster, near the falls, at which point a bridge with one arch of 2,600 feet span crosses the river. Steamboats and sloops ply between this place and New York. It contains a bank and other places of business, and is one of the most flourishing manufacturing places in the State. The "Ulster Telegraph" is a weekly (dem.) issue. Pop. of t. 8,048.

SAUGUS, t. and p. v., Essex co., *Mass.*: 7 m. N. Boston. Taken from Lynn, and incorporated under its present name in 1815. Drained by Saugus r., which passes through it, and enters Lynn bay on the S. Surface near the r. and

bay is level, but the uplands are rough and rocky. A great part of the t. toward the sea is covered by salt meadows; in other parts the soil is rich and well cultivated. It contains some manufactories, a lumber-yard, etc. The v. is on the Saugus Branch R. R. Pop. of t. 1,552.

SAUK COUNTY, *Wisc.* Situate toward the S. W., and contains 955 sq. m. Baraboo r. flows through it from W. to E., by which and its branches, and by small streams of Wisconsin r., it is drained. Surface hilly; soil fertile; on the Wisconsin are some fine tracts of land, which are very productive. It is well timbered. Farms 245, manuf. 7, dwell. 844, and pop.—wh. 4,370, fr. col. 1—total 4,371. *Capital*: Adams.

SAUK RAPIDS, p. v., and cap. Benton co., *Minn. Ter.*: at the second rapids, on the left bank of the Mississippi r., 67 m. N. W. St. Paul. It contains a court-house, etc.

SAUK VILLAGE, p. o., La Porte co., *Ind.*: 125 m. N. N. W. Indianapolis.

SAUKVILLE, t. and p. v., Washington co., *Wisc.*: 75 m. E. N. E. Madison. Drained by Milwaukee r. The v. is on the W. side of the r. Pop. of v. 840, and of t. 1,796.

SAULT DE STE MARIE, t., p. v., and cap. Chippewa co., *Mich.*: bordering on St. Mary's r. or strait, 255 m. N. Lansing. The v. has an elevated location on the border of the r., at the Falls of Ste Marie, and is an old Jesuit missionary station. It is a famous fishing-place, immense quantities of white fish being caught and salted there for the markets of the West. The falls are merely rapids, with a fall of only 20 feet in a mile. It contains a court-house, jail, and other public buildings. At Fort Brady is a U. S. military post, and a storehouse of the American Fur Company, and there is also a U. S. land office located here. Vessels come to the foot of the rapids, and the cargoes are transported three-fourths of a mile by land to the head of the rapids, and re-shipped. The inhabitants are composed of Americans, French, and Indians. They employ themselves chiefly in trading for furs, and in the fisheries. In 1850 Sault de Ste Marie had 180 dwellings, 890 inhabitants, 15 of whom were colored; and the value of real estate owned, \$101,930. The imports for same year amounted to \$151,184, and the exports \$340,800. The "Lake Superior Journal" is a weekly (mining) issue. A canal is in course of construction around the Falls, to be 100 feet wide and 12 deep, with locks 250 feet long and 60 feet wide, the whole length to be one mile, so that the navigation of the lower lakes may pass readily these falls into Lake Superior.

SAUNDERSVILLE, p. v., Vanderburgh co., *Ind.*: on the Evansville and Illinois R. R., 133 m. S. S. W. Indianapolis. It is a small but neat village, and has a fine agricultural country surrounding it.

SAUNDERSVILLE, p. o., Worcester co., *Mass.*: 145 m. W. Boston.

SAUQUOIT, p. v., Oneida co., *N. Y.*: on both sides of Sauquoit cr., 81 m. W. N. W. Albany. The water-power is good, and is much improved by manufactories, mills, etc. In the vicinity is an inflammable sulphur spring, the waters possessing valuable medicinal qualities, and the gas which escapes is used for lighting the public house, which is located near by.

SAUTA, p. v., Jackson co., *Ala.*: on a small cr. of the Tennessee r., 157 m. N. Montgomery.

SAVAGE, p. v., Howard county, *Md.*: on the Little Patuxent r., and on the Washington Branch R. R., 20 m. N. W. Annapolis. There are extensive iron works in the vicinity.

SAVAGE RIVER, Alleghany co., *Md.*: a large stream draining the valley between Hoop Pole Mountain and Great Savage Mountain, from both of which it derives its waters, and falling into the N. branch of the Potomac r., about 2 m. W. of Lonaconing cr. Monro Run, Middle fork, and Crabtree cr. are its principal affluents. The Baltimore and Ohio R. R. takes the course of this stream to the junction of Crabtree creek.

SAVAGE GRANT, p. o., Wayne co., *Virg.*: 275 m. W. by N. Richmond.

SAVANNAH, p. v., and cap. Carroll co., *Ill.*: on the bank of the Mississippi r., 27 m. below Galena, 153 m. N. by W. Springfield. It contains a court-house, jail, etc., and it is the terminus of the Savannah and Frankfort E. R.

SAVANNAH, p. v., and cap. Andrew co., *Mo.*: 3 m. N. of the Missouri r., and 163 m. N. W. Jefferson City. It contains a court-house, jail, etc.

SAVANNAH, p. city, port of entry, and cap. Chatham co., *Ga.*: on the S. side of the r. of the same name, 18 m. from the ocean, and in a direct line 157 m., or by railroad 137 m. E. S. E. Milledgeville. Lat. 32° 04' 56" N., and long. 81° 08' 15" W. Its site is on a dry sand bluff, elevated some 40 feet above low-water mark, from E. to W., extending along the river upward of a mile, terminating abruptly at either extremity. Opposite the city, lies Hutchinson's Island.

The ordinary elevation of the tide in the Savannah r. is about 8 feet, and the salt water approaches usually within 4 or 5 m. of the city. In its course to the ocean the river is divided into numerous channels by small marsh islands. The bar at its mouth is the deepest and most accessible of any on the Southern Atlantic coast, and its channel is from a half to three-fourths of a mile wide. The average depth is 19 feet at low water, and hence with a full tide a frigate may pass in safety. Just inside of the bar is Tybee Island, abreast of which, about 4 m. from the bar, is good anchorage in 5 or 6 fathoms of water. From this anchorage to Venus' Point, 9 m. from the city, there is a depth of 18 feet; from the "Point" to "Five Fathom," 2½ m. from the city, there is a depth of 17 feet, and thence to the city, a depth of 15 feet. The Savannah is navigable for steamboats of moderate draft to Augusta, 230 m. above its mouth. The port of Savannah has several light-houses, which are noted in the LIST OF LIGHT-HOUSES.

Savannah, as a city, is one of the healthiest and most beautiful on the Southern coast. It is laid out with regularity, the streets crossing each other at right angles, and having between every second street a public square; these, about 18 or 20 in number, are generally inclosed and ornamented with shade trees, and many of the streets are ornamented in the same manner, which gives them a beautiful and rural appearance. The present dimensions of the city are about a mile by three-quarters of a mile. The number of dwellings in the city is about 2,000, chiefly of wood, but the warehouses and stores, in number about 400, are almost without exception brick buildings. This preponderance of wooden structures had exposed the city to several serious conflagrations: the year 1820 is memorable for the destruction by fire of 463 buildings, which with their contents were valued at \$400,000; but since this event brick has more generally been used as a building material. The warehouses are ranged along the river front, 3 or 4 stories high toward the river, accessible to the lower story from the wharves, and to the upper stories from the city.

Among the public buildings, the most conspicuous are the Court-house, Jail, Custom-house, Exchange, Arsenal, United States Barracks, City Hall, a market-house, several hospitals and asylums, a theatre, etc. The Exchange is a heavy Gothic structure, 5 stories high. The new Custom-house is in length 110 feet, depth 52 feet, and in height, from the pavement to the ridge of the roof, 52 feet. The basement story is devoted to the post-office and the appraiser's department: the first or principal floor for custom-house purposes, and the third or upper floor for United States court-rooms. There are four banking institutions in Savannah—the Bank of the State of Georgia, capital \$750,000; the Planters' Bank, capital \$335,430; the Marine and Insurance Bank, capital \$400,000, with privilege to increase it to \$800,000; the Central Railroad and Banking Company, capital \$2,549,165, of which \$205,000 is devoted to banking purposes. The total banking capital of these institutions, appropriated to the trade and commerce of Savannah, is

\$1,590,400. There is also the Savannah Institution for Savings. Fourteen foreign insurance companies have agencies in Savannah.

The churches of Savannah, numbering in all 14 or 15, are many of them handsome structures. The Independent Presbyterian Church is one of the most splendid buildings of the city; it is built of light-colored granite, and cost \$100,000. The Episcopalians have 2 churches, the Roman Catholics 2, of which that of St. John the Baptist is the metropolitan church of the diocese; and the Methodists, Lutherans, Unitarians, and other principal denominations have several places of worship. There is also a Mariner's Church and a Jews' Synagogue.

Savannah, in all that appertains to the education of youth, is not behind her sister cities. It is true, public education has not received that attention it has in many other places, still she has always had a respectable number of private seminaries, and has sent to institutions in other parts of the State and country hundreds of her youth of both sexes. Much, however, can be done for public education; but Savannah is no location for large institutions of a scholastic nature, which are well supplied by more eligible inland towns.

The newspaper press of Savannah consists of three dailies and one weekly. The dailies are the "Georgian" (dem.), the "Republican" (whig), and the "Daily News" (indep.); and the weekly is the "Friend of the Family" (literary). The circulation of these varies from 800 to 1,200 copies at each issue.

According to a census of the city, taken in 1852, the total population amounted to 13,301 souls, distinguished into castes and sexes in the following proportions:

Castes.	Males.	Females.	Total.
White persons.....	6,551.....	5,658.....	12,204
Colored persons, free.....	248.....	376.....	624
“ “ slave.....	2,205.....	3,268.....	5,473
Total.....	9,004.....	9,297.....	18,301

The number of inhabitants, according to the federal census of 1850, was 16,069, and an enumeration, made in 1848, showed the population to be then only 13,575. Increase from 1848 to 1850, 2,485, or 18.3 per cent.; and increase from 1850 to 1852, 2,241, or 13.9 per cent.; and increase in the four years ending 1852, 4,726, or 34.8 per cent. The decennial progress of the city from 1810, has been as follows:

Years.	Total Population.	Decennial Increase.	
		Absolute.	Relative.
1810.....	5,195.....	—	—
1820.....	7,523.....	2,328.....	44.8
1830.....	7,776.....	23.....	3.4
1840.....	11,214.....	3,438.....	44.2
1850.....	16,060.....	4,846.....	43.2

The city is divided into 26 wards, and is governed by a mayor and 12 aldermen, annually chosen by the people, who, together, are styled the City Council. The police consists, besides the above, of a marshal, 5 constables, and the city watch, consisting of 64 members, with a captain and other officers. A Board of Health, consisting of two persons from each ward and district, is appointed by the mayor, on the 1st of May of each year. All subordinate officers are chosen by the City Council.

The occupations of the citizens comprise almost every calling found in large cities. The enumeration of 1848 classifies the male adult white population thus—263 merchants, factors, and wholesale dealers, 136 shopkeepers and retail grocers, 253 clerks, 15 druggists, 23 pilots, 24 bank officers, 23 captains of steamers and vessels, 1 captain revenue service, 24 butchers, 22 bakers, 22 connected with railroads, 55 seamen, 3 connected with hotels, 4 auctioneers, 5 lumber measurers, 6 clothing stores, 13 connected with steam and cotton presses, 2 lottery offices, 3 sailors' boarding-house

keepers, and 1 of the sailors' home, and 164 laborers, 50 planters, 14 master builders, 1 marble and stone manufacturer, 380 mechanics, 15 ministers of the gospel, 4 judges of courts, 36 physicians, 31 attorneys-at-law, 6 U. S. army and naval officers, 24 U. S. civil officers, 1 civil engineer, 30 engineers, 15 teachers, 5 teachers of music, 8 magistrates, 7 county officers, 27 boot and shoe makers, 14 printers, 3 booksellers, 8 watchmakers and jewellers, 18 painters, 6 manufacturers of tin-ware, 3 editors, 4 dentists, 2 artists, 4 brickmakers, 3 dyers, 7 cigar-makers, 4 public stables, 6 barbers, 1 soap and candle manufacturer, 1 engraver, 9 bar-rooms, 4 watchmen at banks, 5 saddle and harness makers, 6 millers, 6 lumber and wood yards, 9 steamboat yards, 4 U. S. soldiers, 9 constables, 12 city officers, 2 ice-houses, 1 keeper of hospital, a jailor, and a deputy, 70 connected with the city watch.

Of the colored population, 84 free, and 78 slaves, were mechanics, 2 free and 5 slaves butchers, 5 free and 1 slave barbers, 2 free and 4 slaves engineers and pilots, and 3 free preachers.

From the above returns, it will be seen that Savannah is well represented in all the great departments of industry—at least two-thirds of the population are immediately or remotely connected with the commerce and trade, and the greater part of the remaining third with her manufactures and mechanic arts. The learned professions are also amply represented. Only 164 persons among the whites are noted as laborers, while among the colored 129 only are other than laborers and servants.

Savannah is one of the great commercial cities of the South, and as a market for cotton, rice, and lumber, ranks among the first. Its exports of cotton for the years 1851 and '52, ending 1st September of each year, were as follows :

	1851-52.		1850-51.

1852	124,454 ..	228,614 ..	353,068

The export of rice in tierces for the last twelve years, has been as follows :

Years.	Tierces.	Years.	Tierces.
1840-41	23,557	1846-47	31,739
1841-42	22,065	1847-48	30,136
1842-43	26,263	1848-49	37,348
1843-44	23,543	1849-50	42,792
1844-45	29,217	1850-51	35,602
1845-46	32,147	1851-52	39,929

The lumber business has rapidly increased within the few last years, and it will be seen from the annexed table that the exports for the last-named year have exceeded those of any previous one by several millions of feet. There are six large steam saw-mills in the immediate vicinity of the city :

Years.	Feet.	Years.	Feet.
1840-41	14,275,300	1846-47	10,731,888
1841-42	8,390,400	1847-48	16,449,530
1842-43	7,519,550	1848-49	15,380,300
1843-44	5,933,351	1849-50	17,719,100
1844-45	8,270,582	1850-51	17,764,300
1845-46	18,585,644	1851-52	25,508,500

The foreign commerce of the collection district of which Savannah is the port of entry, for the year ending June 30th, 1850, is thus summed up in the U. S. Treasury Report. Value of exports \$7,551,943, and of imports \$636,964. En- trances, 118 vessels, 57,017 tons and 1,940 men in crews; and clearances, 141 vessels, 72,563 tons and 2,255 men in crews. Tonnage of the district 19,931 tons, of which 10,487 tons were employed in foreign trade and 9,296 tons in coasting. The steam tonnage was 6,478 tons. The steam marine in 1852, according to the returns of the U. S. inspector, amounted to 27 vessels, 5,750 tons, of which 12 were high-pressure vessels and 15 low pressure, which report indicates a decrease in the steam marine. The number of vessels built in 1850 were 5 (3 being steamboats), measuring together 684 tons. As the foreign commerce of Georgia all centres at Savannah, the progress of the commerce of Georgia, as exhibited in the description of the State, will also be that of Savannah.

The commerce of the city has thus become of great magnitude, and its growth of late years has been more rapid than previously. The developments that are now making of the resources of the State, together with the increased facilities for transporting the products of the interior to this one seaport must insure a more rapid increase of business for the future than has occurred during any period of the past.

The port has regular communication with Florida on the S. and New York on the N., and other points by steam navigation. To the interior, the Savannah r., on which numerous steamboats are constantly plying, and the great line of railroad reaching into Tennessee and Alabama, give it facile access, and bring down to it for exportation an immense tonnage. Another railroad is being built to Albany, on the Flint r.; and the Savannah and Ogeechee Canal has been thoroughly repaired. These will give it greater facilities than it has ever enjoyed, and open to its commerce the products of wide regions hitherto beyond its reach.

Historical Notices of Savannah.—The first settlement of Savannah was made in the month of February, 1733, by General Oglethorpe and some 30 families. On the 7th of July following, the settlers assembled on the strand (the bay) for the purpose of designating the lots. In a devotional service they united in thanksgiving to God "that the lines had fallen to them in a pleasant place, and that they were about to have a good heritage." The wards and tilthings were then named, each ward consisting of four tilthings, and each tithing of ten houses, and a house and lot was given to each freeholder. After a dinner provided by the governor, the grant of a Court of Record was read, and the officers were appointed. The session of the magistrates was then held, a jury impaneled, and a case tried. This

jury was the first impaneled in Georgia. The town was governed by three bailiffs, and had a recorder, register, and a town court, holden every six weeks, where all matters, civil and criminal, were decided by grand and petit juries, as in England. No lawyers were allowed to plead for hire, nor attorneys to take money, but (as in old times in England) every man could plead his own cause. In October, 1741, the government of the colony was changed from bailiffs to trustees. In 1750, the number of white persons in Georgia was computed at about 1,500. The first royal governor of Georgia, John Reynolds, Esq., arrived in Savannah in Oct., 1754. The first printing-press was established in 1763, and the "Georgia Gazette" printed on the 7th April of that year. In 1766, the city consisted of 400 dwelling houses, a church, an independent meeting-house, a council-house, a court-house, and a flature. In 1770, the city extended on the west to what is now Jefferson Street, on the east to what is now Lincoln Street, and on the south to what is now South Broad Street, and contained six squares and twelve streets, besides the bay. On the 5th June, 1775, the first liberty-pole was erected in Savannah. The first attack by the British on Savannah was made on the 3d March, 1776. It ended in the discomfiture of the regulars, under Majors Maitland and Grant. On the 29th December, 1778, Savannah was taken by the British. In October, 1779, an unsuccessful attempt was made by the French and American armies to recapture Savannah from the British. Count D'Estaing and General Lincoln were the commanders. Six hundred and thirty-seven of the French, and two hundred and forty-one of the continentals and militia were killed and wounded. In this attack Pulaski fell. The spot where he was shot down is about one hundred rods from the present depot of the Central R. R. On the 11th July, 1783, Savannah was formally given up by the British to the Americans. The first session of the Legislature of the State was held in Savannah in January, 1784, in the brick house now standing in South Broad Street. In December, 1789, a law was passed by the legislature making Savannah a city. The first mayor (elected in 1790) was John Houston. In Nov., 1796, the first destructive fire occurred in Savannah. It broke out in a bake-house in Market Square, and destroyed 229 houses, besides out-houses, etc. Estimated loss of property, \$1,000,000. In May, 1814, arrived in the waters of Savannah the United States sloop-of-war Peacock, Lewis Warrington commander, bringing in as a prize H. B. M. brig-of-war Epervier, Captain Wales, of 18 guns. The Epervier had on board \$110,000 in specie, which was condemned and distributed according to law. In April, 1819, arrived the steamship Savannah, from New York. This steamer was projected and owned in Savannah, and was the first steamship built in the United States, and the first that ever crossed the Atlantic. She left Savannah in May for Liverpool, and afterward proceeded to St. Petersburg. In January, 1820, occurred the largest fire which ever ravaged the city. It commenced on the east side of Old Franklin Ward. Four hundred and sixty-three buildings were destroyed, besides out-buildings. Loss upward of \$4,000,000.

SAVANNAH, t. and p. o., Wayne county, N. Y.: 160 m. W. N. W. Albany. Crusoe lake is located central'y, by the outlet of which the t. is drained. Surface level; on the E. swampy, covered by Montezuma Marsh, and on the W. fertile. The Rochester and Syracuse (direct) R. R. passes through this t. Pop. 1,700.

SAVANNAH, p. v., and cap. Ashland co., Ohio: near a branch of the Walbonding r., 70 m. N. N. E. Columbus. It contains the county court-house and other public buildings, mechanic shops, etc.

SAVANNAH, p. v., and cap. Hardin county, Tenn.: on the right bank of the Tennessee r., 103 m. S. W. Nashville, and contains the court-house, jail, and other public buildings. Pop. 502.

SAVANNAH, p. v., Red River county, Tex.: on White

Oak creek of North fork of the Red river, 287 m. N. E. Austin City.

SAVANNAH river, Ga.: has its sources in the north-eastern part of the State of Georgia, and the north-western counties of South Carolina, near the southern boundary of North Carolina, and in about lat. 35°, and in long. 60° to 62° 30' west of Washington City. The river is formed by the junction of the Tugaloo and Keowee rivers, having their sources in a mountainous region of primitive formation, and its general course is southward, inclining from 35° to 38° to the east, but the channel is a very winding one, and at some points the river flows in a direction N. of E., or N. of W. The length of its channel from source to mouth is not less than 450 m., whereas the direct distance is only about 250 m.

The Savannah and its tributaries drain an extent of country equal to about 8,200 sq. m., and all the branches which flow in above Augusta have their rise in the mountains or hilly sections of country, and have considerable velocity of current with rapids and falls at different points; in some degree, such is also the character of the main river to its source. Passing to the S. of Augusta, the features of the bordering country change, becoming comparatively level and flat, and the currents in the river, as a consequence, are less rapid. In this lower portion of the river, the channel is more crooked; the distance from Augusta to Savannah, by water, being about 230 m., whereas the direct distance is about 115 m.

The current in the upper part of the Savannah r. and its tributaries, being more rapid than they are when the river approaches the ocean, considerable quantities of earth are washed from the bottoms and banks as it passes through the hilly country, and carried in suspension to the more sluggish portions, forming bars and shoals. Some of the obstructions, even so far down as the city of Savannah, are probably formed in this way, and these bars are generally composed of a silicious gravel and sand, with a small proportion of alumina and lighter earths.

The products of the country bordering on the river above Augusta, are principally corn, wheat, rice, potatoes, cotton, timber, hogs, sheep, oxen, mules, and horses; the main productions of the middle and S. sections are corn, potatoes, cotton, rice, and timber.

The river above the city of Savannah is subject to the freshets, which often overflow its banks, doing much injury to the bordering plantations of corn, cotton, and rice. The losses, from overflow, however, are confined to localities above the city, the plantations below being but little exposed to injury from like causes.

The Savannah r., near the mouth, becomes a tidal stream, and the flood-tides, in ordinary stages of the river, ascend to a point about 45 m. from the ocean, or 23 m. above the city of Savannah.

SAVERN, p. o., Owen co., Ky.: 47 m. N. Frankfort.

SAVIN HILL, sta., Norfolk co., Mass.: on the Old Colony Railroad, 3 m. S. Boston.

SAVONA, p. o. and sta., Steuben co., N. Y.: on the Buffalo, Corning, and New York R. R., 13 m. N. W. Corning, 315 m. N. W. (by railroad) New York City, and 185 miles (direct) W. by S. Albany.

SAVOY, t. and p. v., Berkshire co., Mass.: 103 m. W. by N. Boston. Drained by branches of Hoosick, Deerfield, and Westfield rivers. Surface mountainous and uneven; soil better adapted to grazing than tillage. Incorporated in 1797. The v. is at the confluence of two streams, which constitute the head waters of Westfield r. Pop. of t. 955.

SAW MILL p. v., Dale co., Ala.: between the E. and W. branches of Choctawhatchee r., 84 m. S. E. Montgomery.

SAW MILL river, Westchester co., N. Y.: rises in Newcastle t., flows S. by W., and enters the Hudson r. at the v. of Yonkers. Several mills and factories are located on its banks.

SAWYER'S MILLS, p. v., Lexington dist., S. Car.: on a head branch of North Edisto r., 39 m. S. W. Columbia.

SAWYERSVILLE, p. o., Randolph co., *N. Car.*: 67 m. W. Raleigh.

SAXENBURG, p. v., Butler co., *Penn.*: 155 m. W. N. W. Harrisburg.

SAZE'S MILLS, p. v., Franklin co., *Verm.*: on the E. of Missisquoi bay, 57 m. N. W. Montpelier.

SAXONVILLE, p. v., Middlesex co., *Mass.*: on the left bank of the Sudbury r., 18 m. W. Boston. It is the terminus of the Saxonville branch of the Boston and Worcester R. R., 5 m. N. of Junction at Natick.

SAXTON'S RIVER, p. v., Windham co., *Verm.*: on left bank of Saxton's branch of Connecticut r., 8 m. S. Montpelier.

SAXTON'S RIVER, *Verm.*: formed by the union of several streams in Grafton, and running in an E. direction about 10 m., through the S. part of Rockingham, falls into Connecticut r. about 1 m. below Bellows Falls.

SAYBROOK, t., p. v., and sta., Middlesex co., *Conn.*: on W. side of Connecticut r., at its mouth, 86 m. S. S. E. Hartford, and by New Haven and New London R. R., 81 m. E. New Haven. Surface uneven and stony; soil moderately fertile. Drained by the Connecticut and several creeks. Its interests in navigation are much affected by the bar at the mouth of the r., from which its harbor sets up. At this place the river is not frozen in winter. A ferry crosses it to Lyme. Considerable ship-building is carried on, and several vessels are employed in the coasting trade. The shad fishery in the spring is diligently prosecuted, and is a source of considerable wealth, while large quantities of other fish are taken throughout the year. The v. at the point was first settled in 1635. It contains 2 churches, and was once the location of Yale College. In the N. part of the t. is the flourishing v. of Essex. Pop. of t. in 1840, 3,417; in 1850, 3,848.

SAYBROOK, t., p. v., and sta., Ashtabula co., *Ohio*: near Lake Erie, 169 m. N. E. Columbus. Drained by two small streams flowing N. into the lake. The village is centrally situated. The Cleveland and Erie R. R. passes through the N. of t., on which is the sta., 50 m. N. E. Cleveland. Pop. of t. 1,374.

SAYLOBURG, p. o., Monroe county, *Penn.*: 95 m. N. E. Harrisburg.

SAYLORVILLE, p. v., Polk co., *Ia.*: on a cr. flowing into the Des Moines r., 108 m. W. Iowa City.

SAYVILLE, p. v., Suffolk co., *N. Y.*: near Great South bay, 51 m. E. New York city, and 145 m. S. E. Albany.

SCARBOROUGH, p. v., Scriven co., *Ga.*: on the Central (Georgia) R. R., E. side of Ogeechee r., 70 m. N. W. Savannah, and 91 m. E. S. E. (direct) from Milledgeville.

SCARBOROUGH, t., p. v., and sta., Cumberland co., *Me.*: between Saco and Portland, and bordering on the Atlantic Ocean, 61 m. S. W. Augusta. Drained by Nonsuck river, flowing through it; soil rich, and it has large quantities of salt marshes. It is principally an agricultural t., but ship-building is carried on to some extent, and several vessels are employed in the coasting trade and fisheries. The distinguished statesman, Rufus King, and his half-brother, William King, the first governor of Maine, were born in this town. The v. is on the Portland, Saco, and Portsmouth Railroad, 45 m. N. E. Portsmouth (N. H.). Population of t. 1,387.

SCARSDALE, t. and p. v., Westchester co., *N. Y.*: 133 m. (by railroad) S. Albany. Drained by Bronx river. Surface rolling; soil fertile. The Harlem R. R. passes through the t., on which the v. is located, 22 m. from New York city. It is a small but neat v., with 342 inhabitants.

SCHAGHTICOKE, t. and p. v., Rensselaer co., *N. Y.*: 9 m. N. Troy, and 16 m. N. by E. Albany. Drained by Tomhatic creek and Hoosic river, flowing into the Hudson, which bounds it on the W. Surface moderately uneven; soil fertile. It has extensive water-power, and a number of manufactories, mills, etc. The v. is located on Hoosic r., E. of the Hudson, and is a thriving manufacturing place; cotton, linen, and hemp goods, powder, and powder kegs are

largely manufactured. The Troy and Boston R. R. passes through, and the Troy and Rutland R. R. diverges from this v., 12 m. from Troy. Pop. of t. 3,290.

SCHATTLESVILLE, Berks co., *Penn.*: here are located four forges, two of which (in 1850) made 250 tons blooms and 80 tons bar iron; moved by water-power.

SCHIELLSBURG, p. v., Bedford co., *Penn.*: 91 m. W. by S. Harrisburg.

SCHENECTADY COUNTY, *N. Y.* Situate toward the E., and contains 186 sq. m. Drained by Mohawk river and Schoharickill and Normanskill. Surface diversified, with low hills and valleys; soil various, but fertile in general, particularly so along the banks of the Mohawk r. Chief products wheat, Indian corn, and potatoes. Agricultural pursuits are much followed by the inhabitants. It contains some minerals, and has good slate quarries. Farms 1,040; manuf. 107; dwell. 3,195, and pop.—wh. 19,667, fr. col. 387—total 20,054. *Capital*: Schenectady. *Public Works*: Central R. R.; Schenectady and Saratoga R. R.; Troy and Schenectady R. R.; Erie Canal.

SCHENECTADY, p. city, and cap. Schenectady co., *N. Y.*: on S. side of Mohawk r., 17 m. N. W. Albany. Lat. 42° 48' N.; long. 73° 55' W. This is one of the oldest cities in the State, having been first settled by the Dutch about 1620, and chartered March 26, 1798. On February 8, 1690, the v., then consisting of 63 houses and a church, was taken at night by the French and Indians, sacked and burned, who murdered 63 inhabitants and took 27 captives. The city contains a city hall, and jail, county offices, market, lyceum, female academy, and 10 churches. Its manufactures are considerable, chiefly of flour, paper, cotton goods, iron, leather, and machinery. One broom factory in the vicinity makes annually about 1,800,000 brooms. There are 2 banks, with aggregate capital of \$315,000, and 1 savings bank. The Erie Canal passes through the city, and 4 lines of railroad here connect, viz., Albany and Schenectady R. R., 17 m.; Troy and Schenectady R. R., 20 m.; Saratoga and Schenectady R. R., 22 m.; Utica and Schenectady R. R., 78 m. The "S. Cabinet" (whig), and "S. Reflector" (dem.) are issued weekly. Union College, located here, was founded in 1795, is pleasantly situated on an eminence overlooking the city, with spacious grounds and several large edifices. In 1850 it had 12 professors, 2,725 alumni, 266 students, and 15,000 volumes in its library. Pop. in 1840, 6,784; in 1850, 8,921.

SCHENEVUS, p. o., Otsego co., *N. Y.*: 72 m. W. Albany.

SCHLESINGERSVILLE, p. o., Washington co., *Wis.*: 67 m. N. E. Madison.

SCHNECKSVILLE, p. o., Lehigh co., *Penn.*: 10 m. N. E. Harrisburg.

SCHODACK, t., Rensselaer county, *N. Y.*: 8 miles S. by E. Albany. Drained by several small streams flowing into the Hudson river, which bounds it on the W. Surface uneven; soil fertile. Its water-power is good, and there are some mills, etc. Schodack Centre, Schodack Depot, and Schodack Landing, are names of post-offices. The Hudson River R. R., and Western R. R. both pass through this town. Pop. 3,510.

SCHODACK CENTRE, p. o., Rensselaer co., *N. Y.*: is a small settlement 7 m. S. E. Albany.

SCHODACK DEPOT, p. v. and sta., Rensselaer co., *N. Y.*: on the Western R. R., 8 m. N. Kinderhook, and 8 m. S. E. Albany.

SCHODACK LANDING, p. v. and sta., Rensselaer co., *N. Y.*: on the left bank of the Hudson r., and on the Hudson River R. R., 64 m. N. Poughkeepsie, 11 m. S. Albany. It contains several stores, warehouses, and a hay press; and a number of sloops are owned here which ply between the v. and New York.

SCHOENECK, p. o., Lancaster county, *Penn.*: 85 m. S. E. Harrisburg.

SCHOHARIE COUNTY, *N. Y.* Situate toward the E., and contains 621 sq. m. Drained by Schoharie cr. and its tribut-

aries. Surface generally mountainous, and well adapted to grazing. The main branch of the Catskill Mountains cross the S. portion of the co.; soil fertile, and on the streams the land is productive. Chief productions, wheat and Indian corn. It has some beds of bog-iron ore, and water limestone. Sulphur springs are found in different parts, which are gaining celebrity, particularly those at Sharon. Farms 2,439; manuf. 243; dwell. 5,878. and pop.—wh. 33,092, fr. col. 450—total 33,542. *Capital*: Schoharie. *Public Works*: Newburg and Syracuse R. R. (projected).

SCHOHARIE, t., p. v., and cap. Schoharie co., *N. Y.*: 23 m. W. Albany. Drained by Schoharie creek, which passes through it from N. to S., and Fox creek, affording excellent water-power. Surface various, in parts hilly, with extensive valleys; soil of great fertility, and well cultivated. The v. is located on the right bank of the creek so called, and contains a court-house, jail, and other public buildings, an incorporated academy, and other places of instruction; printing offices, mechanic shops, etc., and the "S. Republican" (whig), and "S. Patriot" (dem.) are both weekly issues. Pop. of t. 2,558.

SCHOODIC LAKES, *Me.*: these lakes are about twelve in number, lying in the N. part of Washington co., and from thence issues the Schoodic cr. W. branch of St. Croix r. The most E. of these is Big lake, of irregular form, about 9 m. long, connected by a rapid stream 3 miles long, with Grand lake, 15 miles long, very deep, and remarkably clear. It is well stocked with fish. The other are on the S. W., Pocumcus, 4 miles long, and the Wabosis 3 m. long. In a W. direction lies the Sielabosis, 10 miles in extent, and farther N. is the Horse-shoe lake, so called from its form, and also the Junior lake, 6 miles long. Still farther on is Scraggled lake, of an irregular shape; also the Pleasant lake, 5 miles long, with some others of less size. They are all connected by considerable sized streams, and except between the Big and Grand lakes, there is a continuous boat navigation of nearly 100 miles in extent. The surrounding country is very fertile and well wooded.

SCHOOLCRAFT COUNTY, *Mich.* Situate centrally in the N. peninsula, and contains 2,516 sq. m. Drained by the Monistique river and its branches, White Fish and Rapid rivers, and other streams. Surface in the interior level, on the lake shore rocky; soil various. Pine and other timbers abound. Farms 0; manuf. 0; dwell. 5, and pop.—wh. 16, fr. col. 0—total 16. *Capital*:—

SCHOOLCRAFT, t. and p. v., Kalamazoo co., *Mich.*: 66 m. S. W. Lansing. Watered by a number of ponds, the outlets of which form in part the head waters of a branch of St. Joseph's river. It is a rich and fertile farming country, with good mill privileges. The v. near the centre of Prairie Ronde is a thriving place, and contains about 300 inhabitants. Pop. of t. 1,101.

SCHOOLEY'S MOUNTAIN, p. v., Morris co., *N. Jer.*: 43 m. N. Trenton. The spring located near the top of the mountain has a temperature of 56° Fahrenheit, and discharges 30 gallons an hour. The region abounds with magnetic iron ore. In the neighborhood of the springs are well kept hotels, boarding schools, etc., and 7 miles farther on the mountain is Budd's Pond, 2 miles long and 1 broad, of great depth, and abounding with fish.

SCHOOLEY'S MOUNTAIN, Morris co., *N. Jer.*: forms a part of a chain which extends in a N. E. and S. W. direction across the State, from the Delaware to the Hudson river. It crosses the N. W. part of the county with a height of 600 feet from its base, and about 1,100 feet above the level of the ocean. A mineral spring near its top has given it considerable celebrity.

SCHRAALENBURG, p. o., Bergen co., *N. Jer.*: on a creek of Hackensack r., 59 m. N. E. Trenton.

SCHROEPFEL, t., Oswego county, *N. Y.*: 139 m. W. N. W. Albany. Drained by Oneida and Oswego r., the latter bounding it on the S. W. Surface uneven; soil fertile. It has some small manufactures and several mills. Phoenix

is the name of the post-office. Population of town, including Phoenix, 3,258.

SCHROON LAKE, p. o., Essex co., *N. Y.*: 80 m. N. Albany.

SCHROON LAKE, *N. Y.*: lies partly in Essex county, and partly in Warren co.: it is 10 miles long, and from one to two in width, abounding with trout and other kinds of fish. Deer and wild game are found in abundance on its borders, which in the E. are surrounded by a dense forest.

SCHROON RIVER, p. o., Essex co., *N. Y.*: 77 m. N. Albany.

SCHULTZVILLE, p. o., Duchesne county, *N. Y.*: 63 m. S. Albany.

SCHUMLA, p. o., Ritchie county, *Virg.*: 228 m. N. W. Richmond.

SCHUYLER COUNTY, *Ill.* Situate toward the W., and contains 334 sq. m. Drained by Sugar, Crane, and Crooked creeks, all tributaries of Illinois r., which runs on its S. E. border. Surface undulating; soil fertile. Chief productions, wheat and Indian corn. Pork and beef are largely exported. It is well wooded. Farms 624; manuf. 52; dwell. 1,733, and pop.—wh. 10,547, fr. col. 26—total 10,573. *Capital*: Rushville.

SCHUYLER COUNTY, *Mo.* Situate N., and contains 351 sq. m. Drained by North, Middle, and South forks of Fabius r., and branches of Chariton creek. Surface undulating; soil fertile. A large portion of the land is well timbered. Farms 446; manuf. 5; dwell. 539, and pop.—wh. 3,230, fr. col. 2, sl. 55—total 3,237. *Capital*: Lancaster.

SCHUYLER LAKE, Sangamon co., *Ill.*: on the Sangamon and Morgan R. R., 9 m. W. Springfield.

SCHUYLER'S FALLS, t. and p. o., Clinton co., *N. Jer.*: 5 m. W. by S. Plattsburg, and 139 m. N. Albany. The Saranac r. bounds it on the N., and it is drained by Salmon cr., affording extensive water-power. Surface in parts hilly; soil fertile. It has some extensive manufactories, and the surrounding country is rich in agricultural and mineral productions. Pop. 2,110.

SCHUYLER'S LAKE, p. o., Otsego co., *N. Y.*: 74 m. W. by N. Albany.

SCHUYLERSVILLE, p. v., Saratoga co., *N. Y.*: on the W. bank of the Hudson r., at its confluence with French cr., 7 m. E. Saratoga Springs, 36 m. N. Albany. Incorporated in 1831. The Champlain Canal passes through, and, with the cr., furnishes extensive water-power. It is a thriving manufacturing village, containing cotton and woolen factories, iron foundries, machine shops, mills, etc. The British arms, under Burgoyne, sustained a defeat at Bemis' Heights, near this place, on the 17th October, 1777, by the Americans, under General Gates. The Schuylersville academy, an incorporated institution, is located in this v. The "Old Saratoga" (neut.) is a weekly issue.

SCHUYLKILL COUNTY, *Penn.* Situate E. centrally, and contains 684 sq. m. Drained by Schuylkill r. and its affluents, and small tributaries of Susquehanna r. Surface varied; on the streams there is some fine land, but the general feature of the co. is mountainous; soil, with the exception of the river bottoms, is poor and barren, and in many parts rocky. It contains extensive beds of mineral coal, which are much celebrated for their quality. Farms 1,247; manuf. 954; dwell. 10,671, and pop.—wh. 60,307, fr. col. 406—total 60,713. *Capital*: Orwigsburg. *Public Works*: Philadelphia and Reading R. R.; Catawissa R. R.; Little Schuylkill R. R.; and a number of railroads extending to the mines; also Schuylkill Canal.

SCHUYLKILL, t., Schuylkill county, *Penn.*: 55 m. N. E. Harrisburg. This is an extensive coal district, and the capital invested in the coal trade during the fiscal year 1850 was \$133,515, monthly wages paid, \$8,570, annual product of the mines, \$119,000, valued at \$231,800. A railroad connects this place with the Mine Hill R. R., at Schuylkill Haven.

SCHUYLKILL, t. and p. o., Chester co., *Penn.*: on the W. side of Schuylkill r., 70 m. E. Harrisburg. Drained by French and Stony creeks. Surface level; soil fertile. The Philadelphia and Reading R. R. passes through its E. part.

SCHIDENCK'S STORE, p. o., Montgomery co., Penn.: 83 m. E. Harrisburg.

SCHUYLKILL RIVER, Pa.: rises by three branches in Schuylkill co., and flowing S. E., enters the Delaware r., 7 m. below Philadelphia. Its length is 140 m. The most important of its tributaries are Tulpehocken cr. from the W., and Perkiomen cr. from the E. Vessels of from 300 to 400 tons ascend to the W. wharves of Philadelphia, where its average depth at common tides is from 13 to 14 feet. By means of canals and pools, it is navigable 103 m. An immense quantity of coal is transported on it.

SCHUYLKILL BEND, p. o., Berks county, Penn.: 49 m. E. Harrisburg.

SCHUYLKILL HAVEN, p. v., Schuylkill co., Penn.: near the Schuylkill r., and on the Philadelphia and Reading R. R., 59 m. N. W. Philadelphia, and 43 m. N. E. Harrisburg. It is connected with the coal region in the vicinity by the Mine Hill R. R., 12 m. Tremont, and with Philadelphia and Port Carbon by the Schuylkill Navigation Canal. A furnace of 500 tons annual capacity, operated by water-power, is located near the village. The "S. H. Map" is a weekly whig issue. Pop. 2,061.

SCIENCEVILLE, p. o., Stewart co., Ga.: 107 m. S. W. Milledgeville.

SCIO, t. and p. v., Washtenaw co., Mich.: 45 m. S. E. Lansing. Drained by Huron r., Honey and Mill creeks. Surface undulating; soil very prolific, generally black, sandy loam, and clay. There is a great variety of excellent timber in the t. and vicinity. The Michigan Central R. R. passes through the N. part, on which is Delhi station, 41 m. W. Detroit. The v. is 2 m. S. of the R. R. Pop. of t. 1,195.

SCIO, t. p. v., and sta., Allegheny county, N. Y.: 148 m. W. by S. Albany. Drained by Genesee r., and branches of the Allegheny r. Surface much broken, and heavily timbered; soil fertile. It has good water-power, and some mills. The v. and sta. are on the Erie R. R., 361 $\frac{1}{2}$ m. from New York and 98 $\frac{1}{2}$ m. from Dunkirk. Pop. of t. 1,924.

SCIO, p. o., Harrison county, Ohio: 99 m. E. by N. Columbus.

SCIOTA, p. o. and sta., Clinton co., N. Y.: on the Plattsburg and Montreal R. R., 15 m. N. Plattsburg, 157 m. N. Albany.

SCIOTO county, Ohio. Situate S., and contains 504 sq. m. Scioto r. passes through it centrally, by which and its branches, and by Little Scioto r. it is drained. Surface in general uneven; soil fertile, and on the streams very productive; wheat and Indian corn are the principal productions. It is bounded on the S. by the Ohio. Farms 751; manuf. 73; dwell. 3,056, and pop.—wh. 18,174, fr. col. 254—total 18,428. Capital: Portsmouth. Public Works: Scioto and Hoeking Valley R. R.; Iron R. R.: Ohio Canal.

SCIOTO, p. o., Scioto co., Ohio: 73 m. S. by E. Columbus. SCIOTO RIVER, Ohio: rises in Hardin county, flows E. into Marion co., and S. into Franklin, where it receives Whetstone or Olen tangy r. just above Columbus, and thence through Pickaway, Ross, Pike, and Scioto co's, into the Ohio r. at Portsmouth, where it is 150 yards wide. It flows 160 miles through a fertile country, and is navigable 130 m., to the mouth of Little Scioto river.

SCIOTO BRIDGE, p. o., Delaware co., Ohio: on the Scioto r., 24 m. N. N. W. Columbus.

SCIOTOVILLE, p. o., Scioto county, Ohio: 80 m. S. by E. Columbus.

SCIPPO, p. v., Jennings co., Ind.: on Sand cr., and on the Madison and Indianapolis R. R., 55 m. S. S. E. Indianapolis. It is located in an agricultural district, and much produce is exported from this point. Pop. about 200.

SCIPPO, t. and p. v., Cayuga co., N. Y.: 145 m. W. by N. Albany. Drained by Salmon cr., flowing S. into Cayuga lake, and other smaller streams. Owaseo lake forms its E. boundary. Surface undulating, with a fertile and highly cultivated soil. The v. is near the head of Salmon cr., and has some manufactures, mills, etc. Pop. of t. 2,135.

SCIPPO CENTRE, p. o., Hillsdale county, Mich.: 51 m. S. Lansing.

SCIPPOVILLE, p. o., Cayuga co., N. Y.: 150 m. W. by N. Albany.

SCITICO, p. v., Hartford county, Conn.: on the N. side of Scautic r., 18 m. N. by E. Hartford.

SCITUATE, t. and p. v., Plymouth co., Mass.: on Massachusetts bay, of the Atlantic Ocean, 18 m. S. E. Boston. It is located at the mouth of North r., and has a small but convenient harbor, defended by rocky cliffs, and Cedar Point, on which latter are two lighthouses, with fixed lights 40 feet elevation. Latitude 42° 12' 17" N., and longitude 70° 43' 15" W. The river is very deep, but narrow and crooked, and is noted for the fine ships built on its borders. A number of vessels belonging to this town are engaged in the merchant service and coasting trade, and the mackerel fishing is carried on to a great extent. The manufactures consist of leather, boots, shoes, lasts, vessels, etc. The v. is located a short distance back from the harbor. Pop. of t. 2,149.

SCITUATE, t. and v., Providence co., R. I.: 10 m. W. of Providence. Drained by Pawtuxet river and its branches, affording valuable water-power. Surface diversified with hills and valleys; soil adapted to grazing. Large manufactories of cotton and wool are located on the bank of the river, and there is a valuable quarry of freestone in the western part of the town. This town was taken from Providence in 1731. The v. is on Pawtuxet river. Pop. of t. 4,582.

SCONONDOA, p. o., Oneida co., N. Y.: 171 m. W. N. W. Albany.

SCOOBEN, p. o., Kemper county, Miss.: 90 m. E. by N. Jackson.

SCOTCH PLAINS, p. v., Essex county, N. Jer.: on the E. side of Green brook of Raritan r., and on the New Jersey Central R. R., 12 m. W. Elizabethport, and 35 m. N. E. Trenton.

SCOTCH RIDGE, p. o., Wood county, Ohio: 97 m. N. N. W. Columbus.

SCOTCHTOWN, p. o., Orange co., N. Y.: 87 m. S. S. W. Albany.

SCOTIA, p. v., Pope county, Ark.: on the left bank of the Arkansas r., 69 m. N. W. Little Rock. Coal deposits are found in the vicinity.

SCOTIA, p. v., Schenectady co., N. Y.: on the N. bank of Mohawk r., 1 m. W. Schenectady, and 13 m. N. W. Albany. Pop. about 200.

SCOTLAND county, Mo. Situate N. E., and contains 477 sq. m. Drained by North and Middle forks of Fabius r., and S. Wyaconda r. Surface level; soil fertile. It is well timbered, and has excellent pasturage for cattle. Farms 384; manuf. 6; dwell. 588, and pop.—wh. 3,631, fr. col. 0, sl. 151—total 3,782. Capital: Memphis.

SCOTLAND, p. o., Franklin county, Penn.: 50 m. S. W. Harrisburg.

SCOTLAND, p. v., Windham co., Conn.: on the Showtucket r., 31 m. E. Hartford.

SCOTLAND, p. v., Jefferson county, Miss.: 65 m. S. W. Jackson.

SCOTLAND, p. v., Greene county, Ind.: 60 m. S. W. Indianapolis.

SCOTLAND, p. o., York co., Me.: 81 m. S. W. Augusta.

SCOTLAND, p. v., Plymouth co., Mass.: 28 m. S. Boston.

SCOTLAND NECK, p. v., Halifax county, N. Car.: between Fishing cr. and Roanoke r., 77 m. N. E. Raleigh.

SCOTT county, Ark. Situate W., and contains 931 sq. m. Drained by La Fave r., and other tributaries of Arkansas river. Surface level; soil fertile. Farms 365; manuf. 10; dwell. 514, and pop.—wh. 2,920, fr. col. 17, sl. 146—total 3,063. Capital: Booneville.

SCOTT county, Ia. Situate E. toward the S., and contains 445 sq. m. Drained by Walnut, Allen's, and Duck creeks. Surface rolling; soil fertile and very productive. Farms 384;

manuf. 19; dwell. 991, and pop.—wh. 5,972, fr. col. 14—total 5,986. *Capital*: Davenport.

Scott county, *Ill.* Situate toward the W., and contains 261 sq. m. Drained by small tributaries of Illinois r., which forms its western boundary. Surface undulating; soil fertile. Wheat and Indian corn are produced abundantly. Pork and beef are exported. Prime timber abounds. Farms 712; manuf. 54; dwell. 1,300, and pop.—wh. 7,902, fr. col. 12—total 7,914. *Capital*: Winchester. *Public Works*: Great Western Central R. R.

Scott county, *Ind.* Situate S. E., and contains 175 sq. m. Drained by Graham's fork of White r. and branches. Surface varied, it is most generally undulating, but in the W. is hilly and broken; soil fertile, and well adapted to grain and grazing. Chief productions, wheat, and Indian corn, with beef, pork, and vegetables. It has some quantity of good timber, and contains several salt springs. Farms 719; manuf. 14; dwell. 1,040, and pop.—wh. 5,570, fr. col. 15—total 5,585. *Capital*: Lexington. *Public Works*: Jeffersonville R. R.

Scott county, *Ky.* Situate toward the S., and contains 213 sq. m. Drained by North, Elkhorn, and Eagle creeks. Surface level; soil very fertile. Chief productions, wheat and Indian corn. Farms 758; manuf. 59; dwell. 1,566, and pop.—wh. 8,591, fr. col. 219, sl. 5,836—total 14,946. *Capital*: Georgetown.

Scott county, *Miss.* Situate centrally, and contains 559 sq. m. Drained by branches of Pearl and Leaf rivers. Surface level; soil fertile, and adapted to grazing. Chief productions, cotton and Indian corn. Farms 257; manuf. 4; dwell. 422, and pop.—wh. 2,778, fr. col. 1, sl. 1,182—total 3,961. *Capital*: Hillsboro'. *Public Works*: Alabama and Mississippi R. R.

Scott county, *Mo.* Situate S. E., and contains 379 sq. m. Drained by James and White Water rivers. Surface diversified; soil very fertile, and produces in abundance wheat and Indian corn. Tobacco is the staple. It contains many minerals. Farms 403; manuf. 9; dwell. 500, and pop.—wh. 2,778, fr. col. 16, sl. 893—total 3,182. *Capital*: Benton.

Scott county, *Virg.* Situate S. W., and contains 718 sq. m. Drained by Clinch r., and North fork of Holston r., and their branches. Surface broken and hilly, in parts mountainous; soil moderately fertile. Chief productions, wheat and Indian corn. Farms 614; manuf. 32; dwell. 1,523, and pop.—wh. 9,325, fr. col. 31, sl. 473—total 9,829. *Capital*: Estillville.

Scott, t. and p. o., Sheboygan co., *Wis.*: 61 m. N. E. Madison. Drained by branches of Milwaukee r. Surface varied; soil fertile. It has excellent water-power, and some excellent mill-sites.

Scott, p. v., La Grange county, *Ind.*: on the S. side of Pigeon r., 136 m. N. by E. Indianapolis.

Scott, t. and p. v., Cortlandt co., *N. Y.*: 22 m. S. from Syracuse, and 130 m. W. Albany. Drained by branches of Tioughnioga r., and the inlet of Skaneateles lake. Surface various, in parts much broken; soil very fertile, and in good state of cultivation. Its manufactures are limited, the chief pursuits being agricultural. The v. is centrally situate. Pop. of t. 1,290.

Scott, p. o., La Salle county, *Ill.*: 120 m. N. N. E. Springfield.

Scott, t. and p. o., Adams county, *Ohio*: 67 m. S. by W. Columbus. Drained by a branch of Brush cr. Surface uneven: soil of average fertility. Iron ore of superior quality is found. Pop. 1,270.

Scott, p. v., Mahaska county, *Ia.*: 69 m. W. S. W. Iowa City.

Scott, t. and p. o., Wayne co., *Penn.*: 180 m. N. E. Harrisburg. Drained by several small streams flowing E. into the Delaware r., and W. by Starucca cr., branch of the Susquehanna r. Surface uneven, in parts hilly; soil fertile and good timber lands.

Scott's creek, *Calif.*: rises in E. part of Yuba co., and flows W. into the Yuba r. Much gold is found in this stream, and the diggings are very profitable.

SCOTTSBURGH, p. o., Livingston co., *N. Y.*: 209 m. W. Albany.

SCOTTSBURGH, p. v., Halifax co., *Virg.*: on the line of the Richmond and Danville R. R., 87 m. S. W. Richmond. It is a small v., with about 50 or 60 inhabitants.

SCOTT'S CREEK, p. v., Haywood co., *N. Car.*: on a stream so called of Tuckasee r., 258 m. W. by S. Raleigh.

SCOTT'S HILL, p. o., Henderson co., *Tenn.*: 97 m. S. W. Nashville.

SCOTT'S SHOP, sta., Amelia co., *Va.*: on the Richmond and Danville R. R., 33 m. S. W. Richmond.

SCOTTSVILLE, p. v., Bibb co., *Ala.*: on a tributary of Cahawba branch of Alabama r., 69 m. N. W. Montgomery. Good water-power is here afforded, and improved by the Tuscaloosa Manufacturing Company, who employ about 90 operatives. There is also a grist and saw mill, and a church, on the property of the company. Population about 200.

SCOTTSVILLE, p. o., Claiborne par., *La.*: 169 m. N. W. Baton Rouge.

SCOTTSVILLE, p. v., Sullivan co., *Mo.*: on the E. side of Locust cr., 117 m. N. W. Jefferson City.

SCOTTSVILLE, p. v., and cap. Allen co., *Ky.*: on a fork of Big Barren r., 121 m. S. W. Frankfort, and contains a courthouse, jail, and other public buildings. The Lexington and Nashville R. R. passes through the village. Pop. 400.

SCOTTSVILLE, cap. Powhatan county, *Virg.* (*See POWHATAN C. H.*)

SCOTTSVILLE, p. v., Albemarle co., *Virg.*: on the N. bank of James r., and on the James River Canal, 73 m. W. by N. Richmond. "The Independent" is a weekly issue.

SCOTTSVILLE, p. v., Monroe co., *N. Y.*: on the left bank of the Genesee r., and on the Genesee Valley Canal, 12 m. S. by W. Rochester, and 212 m. W. by N. Albany. Extensive hydraulic power is derived from the canal and river, and it has a number of mills, etc.

SCOTTSVILLE, p. o., Wyoming co., *Penn.*: 95 m. N. N. E. Harrisburg.

SCOTTSVILLE, p. v., Maconin co., *Ill.*: on the S. of Apple cr., 33 m. S. W. Springfield.

SCRANTON, p. v., Luzerne co., *Penn.*: at the junction of the Lackawanna and Western R. R. with the Pennsylvania Coal Companies R. R., 50 m. S. Great Bend, and 97 m. N. N. E. Harrisburg. Cobb's Gap R. R. and a railroad to Sunbury will diverge from this place. There is near the v. a furnace of 2,000 tons capacity, operated by water, and two of 3,500 tons each annual capacity, operated by steam, and a forge, which in 1880 produced 7,000 tons rail. Pop. 2,234.

SCREAMERSVILLE, p. o., Maury co., *Tenn.*: 37 m. S. by W. Nashville.

SCRIBA, t. and p. v., Oswego co., *N. Y.*: 152 m. N. W. Albany. Drained by a number of small streams flowing into Lake Ontario. Surface moderately hilly; soil of middling fertility. It contains in part the county buildings. Old Fort Oswego, built in 1727, is located near the mouth of the river. The v. is 2 m. E. of the lake: has good water-power, and contains several mills, workshops, etc. Pop. of t. 3,708.

SCRIVEN county, *Ga.* Situate E., and contains 718 sq. m. It is bounded on the E. by Savannah r., and on the S. and W. by Ogeechee r., by branches of which it is drained, Little Ogeechee r., passing through the centre, and Brier cr. in the northern portion. Surface undulating; soil fertile, and produces large crops of cotton, which is the staple. It has some minerals, and some fine timber land. Farms 498; manuf. 0; dwell. 567, and pop.—wh. 3,173, fr. col. 1, sl. 3,673—total 6,347. *Capital*: Jacksonboro'.

SCROGGIN'S MILLS, p. o., Dale co., *Ala.*: on the W. side of Pea r., 63 m. S. E. Montgomery.

SCROGGFIELD, p. v., Carroll county, *Ohio*: 111 m. N. E. Columbus.

- SCRUB GRASS, p. o., Armstrong county, *Penn.*: 135 m. W. N. W. Harrisburg.
- SCUFFLETOWN, p. v., Laurens district, *S. Car.*: on a small tributary of Enoree r., 65 m. N. W. Columbia.
- SCULL CAMP, p. v., Surry co., *N. Car.*: at the source of Fisher's r., 137 m. W. N. W. Raleigh.
- SCULL SHOALS, p. v., Greene co., *Ga.*: on the Oconee r., 46 m. N. Milledgeville. Pontain's bridge here spans the river, at which point several mills are in operation.
- SCULLTOWN, p. v., Salem co., *N. Jer.*: on the left bank of Oldman's r., 46 m. S. W. Trenton.
- SCULTOCK POINT, Hancock co., *Me.*: a small cape situated in lat. 44° 18' N., and long. 67° 58' W.
- SCUPPERMONG, p. o., Washington co., *N. Car.*: 113 m. E. Raleigh.
- SEABROOK, t. and p. v., Rockingham co., *N. Hamp.*: in the S. E. corner of the State, bordering on the Atlantic Ocean, 45 m. S. E. Concord. Drained by Black, Brown's, and Walton rivers, and several tributaries. Whale-boat building is carried on here to a greater extent than in any other town in New England. The inhabitants are occupied in mechanical pursuits and the fisheries. This t. is better adapted than any other in the State to the Bay and Labrador fisheries, which are extensively carried on. Bog iron ore is found on some of the streams. The Eastern R. R. passes through the t. on which the v. is located, 14 m. S. from Portsmouth. Pop. of t. 1,296.
- SEACOCKS, sta., Hudson co., *N. Jer.*: on the Union R. R., 4 m. N. Jersey City, and 53 m. N. E. Trenton.
- SEAFORD, p. v., Sussex co., *Del.*: on W. side of Nanticoke river, 35 m. S. by W. Dover.
- SEAL, p. o., Wyandott county, *Ohio*: 61 m. N. by W. Columbus.
- SEAL COVE, p. v., Hancock co., *Me.*: at the head of the inlet so called, on Mount Desert island, 72 m. E. Augusta.
- SEARCY county, *Ark.* Situate N., and contains 941 sq. m. Drained by Buffalo fork of White r. and Crooked cr., a tributary of White r. Surface varied; in the N. it is level, or gently undulating, and in the S. hilly, being separated from the adjoining county by a low range of mountains; soil generally fertile, the hilly portions well adapted to grazing. Farms 246; manuf. 0; dwell. 322, and pop.—wh. 1,950, fr. col. 0, sl. 29—total 1,979. *Capital*: Lebanon.
- SEARCY, p. v., and cap. White co., *Ark.*: on the W. of Little Red Branch of White r., 45 m. N. N. E. Little Rock. It contains a court-house, jail, etc.
- SEARIGHT'S, p. o., Fayette county, *Penn.*: 143 m. W. by S. Harrisburg.
- SEARSBURG, p. o., Tompkins county, *N. Y.*: 160 m. W. Albany.
- SEARSBURG, t. and p. v., Bennington co., *Verm.*: 52 m. S. Rutland. Drained by Deerfield r. Surface mountainous, being located on the Green Mountains, and in general unfit for cultivation. Chartered in 1781. The v. is S. of the r. Pop. of t. 201.
- SEARSMONT, t. and p. v., Waldo co., *Me.*: 31 m. E. Augusta. Drained by St. George r., and a considerable pond is in N. part of t., from which flows a branch of the r. Surface varied; soil fertile. The manufactures consist in leather, flour, and lumber. The v. is located on the St. George r. Pop. of t. 1,696.
- SEASPORT, t. and p. v., Waldo co., *Me.*: 45 m. E. by N. Augusta. Bounded on the S. by Belfast bay, and drained by a small stream flowing into it. Incorporated in 1845, from Prospect and a part of Belfast. It has a good harbor. The v. is situated near the entrance of the stream into the bay. Pop. of t. 2,207.
- SEASVILLE, p. o., Orange county, *N. Y.*: 51 m. S. S. W. Albany.
- SEASVILLE, p. v., Stewart co., *Ga.*: on Kacafoonee cr., 105 m. S. W. Milledgeville.
- SEATUCK, p. o., Suffolk co., *N. Y.*: 236 m. S. E. Albany.
- SEAVILLE, p. o., Cape May co., *N. Jer.*: 75 m. S. Trenton.
- SEBAGO, t. and p. v., Cumberland co., *Me.*: bordering on the lake so called, 57 m. S. W. Augusta. There are several ponds in the t., by the outlets of which it is drained. Surface pleasantly diversified, and a fertile soil. Chartered in 1826, and contains several manufactories of flour, lumber, etc. The v. is on the lake. Pop. of t. 850.
- SEBAGO lake, Cumberland co., *Me.*: is 12 m. long, and 7 m. wide. It discharges its waters by Presumpscot r. into Casco bay. Connected on the N. by W. with Long Pond, by Songo strait, and receives Crooked r. from the N. The Cumberland and Oxford Canal, 50½ m. in length, connects it with Portland.
- SEBASTIAN county, *Ark.* Situate W., and contains 779 sq. m. Drained by affluents of Arkansas r., which forms its N. boundary. Surface undulating, toward the W. hilly; soil fertile. It is well wooded, and in the N. are some fine beds of coal. *Capital*: Black Jack.
- SEBASTIACOOK river, *Me.*: rises in a pond in the S. E. part of Penobscot co., passes through a lake in Newport r. and flowing S. W. empties into the Kennebec r. opposite Waterville. It is about 50 m. in length, and affords in its course excellent water-power.
- SEBEC, t. and p. v., Piscataquis co., *Me.*: 74 m. N. N. E. Augusta. A portion of Sebec Pond, 10 m., lies in this t., and the Piscataquis r. crosses the S. part. Drained by Sebec r., outlet of the pond, which flowing S. E. empties into the Piscataquis r. in Milot. Surface moderately uneven; soil fertile, and well adapted to grain. Incorporated in 1812. The manufactures consist in woolen goods, leather, lumber, etc. The v. is on Sebec r., near the lake. Population of t. 1,223.
- SEBEC pond, Piscataquis co., *Me.*: lies in the towns of Sebec, Foxcroft, and Bowerbank; it is surrounded by a well-timbered country, is about 10 m. long, and averages about 1 m. in width. Its outlet is the river so called.
- SEBEWA, t. and p. o., Ionia co., *Mich.*: 22 m. W. Lansing. Drained by Looking-Glass r. Surface undulating; soil fertile. Pop. 277.
- SEBOIS lakes, Penobscot co., *Me.*: are connected sheets of water of irregular form, about 15 m. in length, and from half a mile to one and a half in width, and constitute the head waters of the E. branch of the Penobscot r. Sebois r. is the name of their outlet.
- SECOND CREEK, p. v., Greenbrier co., *Virg.*: on a branch of Greenbrier r., 164 m. W. Richmond.
- SEGDWICK, t. and p. o., Hancock co., *Me.*: 53 m. E. Augusta. It is on a peninsula having Blue Hill bay on the E., and separated from Deer island, on the S. by a strait. The soil is inferior, but sufficient produce is raised for its own people. It has good harbors, and considerable navigation. A number of vessels owned here are employed in the coasting and fishing trade, and ship-building is carried on to a considerable extent. Leather and lumber are the chief articles of manufacture. The v. is on the bay so called, which makes up into the town. Pop. of t. 1,234.
- SEEKONK, t. and p. v., Bristol co., *Mass.*: 33 m. S. S. W. Boston. Separated from Rhode Island by Seekonk r., which bounds it on the W.; and Ten Mile cr. affords water-power. The v. of Pawtucket is partly in Seekonk. Seekonk v. is on Ten Mile cr., near its confluence with Providence r., and contains several factories, etc. Pop. of t. in 1840, 1,996, and in 1850, 2,244. The Boston and Providence R. R. passes through the town.
- SEELY CREEK, p. o., Chemung co., *N. Y.*: 170 m. W. S. W. Albany.
- SEELYSBURG, p. v., Cattaraugus co., *N. Y.*: on a branch of Conewango cr., 275 m. W. by S. Albany.
- SEELY'S STATION, p. o., Erie co., *Penn.*: 203 m. N. W. Harrisburg.
- SEGO, p. o., Perry co., *Ohio*: 41 m. E. by S. Columbus.
- SEGUN, p. v., and cap. Guadalupe co., *Tex.*: on the left bank of the Guadalupe r., 43 m. S. Austin City. It contains the county buildings, etc.

SEIBERLINGVILLE, p. v., Lehigh co., *Penn.*: on a branch of Jordan cr., 65 m. E. N. E. Harrisburg.

SEISOLTVILLE, p. o., Berks county, *Penn.*: 55 m. E. Harrisburg.

SEITZLAND, sta., York co., *Penn.*: on the Baltimore and Susquehanna R. R., 42 m. S. by E. Harrisburg.

SELBY, v., Bureau co., *Ill.*: on the border of an extensive prairie, 4 m. N. of the Illinois river, and 108 m. N. by E. Springfield.

SELBSPORT, p. v., Alleghany co., *Md.*: on the W. side of Youghiogeny r., 8 m. below the Pennsylvania State line, 154 m. W. N. W. Annapolis.

SELBYVILLE, p. o., Sussex co., *Del.*: 33 m. S. Dover.

SELIN'S GROVE, p. v., Union co., *Penn.*: at the junction of Penn's cr. with the Susquehanna r., 38 m. N. Harrisburg.
SENNER'S point, Baltimore co., *Md.*: a narrow neck of land, projecting into Baltimore harbor, on the east side thereof.

SESSLERSBURG, v. and sta., Clarke county, *Ind.*: on the Jeffersonville R. R., 9 m. N. Jeffersonville, and 93 m. S. by E. Indianapolis.

SELMA, p. v., Dallas co., *Ala.*: on the right bank of the Alabama r., 45 m. W. Montgomery. This v. is pleasantly located, and has considerable trade. The "Selma Reporter" (whig) is a weekly issue. A company, known as the "Selma Manufacturing Company," has, under the supervision of J. P. Pesham, Esq., erected an establishment here for the manufacture of all kinds of iron work, from a steam-engine down to a horse-shoe nail. Capital invested amounts to \$22,000; they have eight acres of land, affording plenty of room for enlargement. Selma is the most important v. on the r., and from this point large quantities of cotton are annually shipped. Two railroads, the Alabama and Tennessee River R. R. and the Alabama and Mississippi R. R., diverge from this place. Pop. about 1,200.

SELMA, p. v., Jefferson co., *Mo.*: on the W. side of the Mississippi r., near the mouth of Platin cr., 35 m. below St. Louis, and 99 m. E. by S. Jefferson City. It has a good landing. A shot factory is located here, and there is considerable trade carried on. Lead is extensively exported.

SELMA, p. v., Clark co., *Ohio*: 41 m. W. Columbus. It contains a few dwellings, and 47 inhabitants.

SEMINARY, p. v., Wachita co., *Ark.*: on Sac Obert bayou of Wachita r., 99 m. S. S. W. Little Rock.

SEMPRONIUS, t. and p. o., Cayuga co., *N. Y.*: 136 m. W. Albany. Drained by several small streams flowing N. and W. Skaneateles lake is on the N. E.; its water-power is good, and it contains several manufactures, several mills, etc. Pop. 1,266.

SENATOBIA, v., De Soto co., *Miss.*: on a branch of Coldwater r., 157 m. N. Jackson.

SENECA county, *N. Y.* Situate W. centrally, and contains 308 sq. m. Drained by Seneca r. and several small streams which flow into Seneca lake on the W. side, and Cayuga lake on the E. Surface uneven, and between the lakes is diversified with pleasant hills and fertile plains, the highest elevation being in the middle; soil fertile, and consists of a calcareous loam and mold. Chief products, wheat and Indian corn. It contains good beds of gypsum and quarries of variegated marble. A mineral spring, which emits hydrogen gas, is found here. Farms 1,555; manuf. 240; dwell. 4,541, and pop.—wh. 25,261, fr. col. 180—total 25,441. *Capital*: Waterloo. *Public Works*: Cayuga and Susquehanna R. R., etc.

SENECA county, *Ohio*. Situate N., and contains 536 sq. m. Sandusky river flows through it centrally, by which and its branches it is drained. Surface level; soil consists of a deep black loam, with clay intermixed, and is very productive. It has excellent pasturage, and large numbers of cattle and hogs are fattened and sent to eastern markets. It has some good timber land. Agriculture is the leading pursuit. Farms 2,582; manuf. 199; dwell. 4,643, and pop.

—wh. 26,984, fr. col. 151—total 27,105. *Capital*: Tiffin. *Public Works*: Mad River and Erie R. R.

SENECA, p. o., Anderson dist., *S. Car.*: on the r. so called, 114 m. W. N. W. Columbia.

SENECA, p. o., Tompkins county, *N. Y.*: 152 m. W. by S. Albany.

SENECA, p. o., Whitesides county, *Ill.*: 130 m. N. by W. Springfield.

SENECA, t. and p. o., Lenawee co., *Mich.*: 71 m. S. by E. Lausing. Drained by Bear cr. Soil excellent, and large crops of wheat, rye, etc., are raised. The stream affords good water-power, and moves several mills. Pop. 1,092.

SENECA creek, Montgomery co., *Md.*: rises in the northern highlands of this county in numerous streamlets, which, uniting first into two, and afterward into one creek, flow into the Potomac river. All the western portion of the county is drained by this fine water-course.

SENECA lake, *N. Y.*: lies in the counties of Seneca, Ontario, and Yates, 163 m. W. from Albany. This is the largest of the series of lakes lying in the interior of western New York. It is 40 m. long, and from 2 to 4 in width. Its elongated diameter is from N. to S.; elevation of surface 430 feet above tide-water, and being very deep, it is never entirely frozen over. About 12 m. from the outlet it has been found to be about 560 feet in depth. The outlet is at the N. E. angle, which, flowing E. to Cayuga lake, affords excellent water-power at Waterloo, and also at Seneca Falls. The whole descent in 12 miles is 80 feet. This lake is connected by canal with Crooked lake. Navigation is made easy through its outlet by means of locks at Waterloo, thereby connecting its commerce with that of the Erie Canal; it is connected also S. by R. R. with Elmira, Owego, and Binghamton, and N. with Rochester, Syracuse, and Oswego. The water has a gradual rise and fall through periods of several years, but the causes have never been ascertained. The lands upon the shores are bountifully adorned with the fruits of cultivation, with here and there a remaining tract of the primitive forest. Steamboats ply daily between Seneca and Jefferson, a distance of 40 miles.

SENECA river, *S. Car.*: rises in the Blue Ridge, *N. Car.*, flows S. through Pickens and Anderson districts, *S. Car.*, and enters the Tugaloo. Length 50 m., and it has numerous tributaries.

SENECA river, *N. Y.*: outlet of Seneca lake, from the N. end of which it flows E., about 12 m. to the N. of Cayuga lake, after receiving the waters of which it runs N. and receives a stream formed by the outlet of Canandaigua lake and other small tributaries from the W.; after which, flowing E., again it receives other tributaries from the outlets of Owaseco, Skaneateles, and Onondaga lakes, until it meets that of the Oneida lake, when turning N. W., it becomes the Oswego r., and flows into Lake Ontario at Oswego. It is 60 m. in length from its source to its confluence with the Oswego. It is navigable to the Erie Canal at Waterloo. There are falls at the v. of Seneca Falls and at Waterloo, from which great water-power is obtained.

SENECA CASTLE, p. o., Ontario county, *N. Y.*: 175 m. W. Albany.

SENECA FALLS, t. and p. v., Seneca county, *N. Y.*: 44 m. E. S. E. Rochester, and 162 m. W. by N. Albany. Drained by Seneca r., which passes through it from E. to W. Cayuga lake bounds it on the E. Surface undulating; soil, in general, very fertile, and highly cultivated. The Cayuga and Seneca Canal passes through the t., connecting Seneca outlet with Cayuga lake. The v. is on the Seneca outlet, the canal, and Rochester and Syracuse R. R., 43 m. from Syracuse, and 61 m. from Rochester. It was first settled in 1829, and incorporated in 1831. Abundant hydraulic power is derived from Seneca outlet, the water of which is constant and steady, and is applied extensively to manufacturing purposes by means of several dams, having a total fall of some 47 feet. The manufactures consist chiefly in cotton goods, flour (there being 8 mills with 27 run of stone), lum-

ber, iron, paper, etc. There is also a boat-yard, a lumber-yard, etc. In the vicinity plaster or gypsum is abundant. The "Seneca County Courier" (whig), and "The Lily" (temp.) are both weekly issues. Pop. of v. 8,045, of t. 4,297.

SENECA MILLS, p. o., Montgomery co., Md.: a mill-seat on Seneca cr., 40 m. W. Annapolis, with but few inhabitants.

SENECA RIVER, p. o., Cayuga county, N. Y.: 156 m. W. by N. Albany.

SENECAVILLE, p. v., Guernsey county, Ohio: 81 m. E. Columbus. Pop. 457.

SENEK, p. o., McLean co., Ill.: 63 m. N. E. Springfield.

SENNET, t. and p. v., Cayuga co., N. Y.: 145 m. W. by N. Albany. Drained by several small streams flowing into the Seneca r. Surface uneven; soil fertile, and under good state of culture. The Rochester and Syracuse R. R. passes through the village, 22 m. from Syracuse, and 58 m. from Rochester. It has several mills, etc. Pop. of t. 2,347.

SENTELL'S STORE, p. o., Bossier par., La.: 208 m. N. W. Baton Rouge.

SEPULGA, p. o., Conecuh co., Ala.: on the river so called, 75 m. S. S. W. Montgomery.

SEQUATCHIE, v., Marion co., Tenn.: on the river so called, 97 m. S. E. Nashville.

SERENA, p. v., La Salle co., Ill.: on the right bank of FOX r., 122 m. N. E. Springfield.

SEREPTA, p. v., Warren co., N. Jer.: on Beaver brook, 44 m. N. W. by N. Trenton. This is a small manufacturing place.

SERGEANTSVILLE, p. v., Hunterdon co., N. Jer.: 18 m. N. W. Trenton.

SERRYSE, v., Lake co., Ill.: on the S. boundary of the co., 161 m. N. E. Springfield.

SEVICE, p. o., Beaver county, Penn.: 178 m. W. by N. Harrisburg.

SETAUKET, p. v., Suffolk co., N. Y.: on the N. side of Long Island, at the head of an inlet of Long Island sound, 88 m. E. N. E. New York, and 292 S. S. E. Albany. It has a good harbor, and the v. contains stores, mechanic shops, etc.

SETZLER'S STORE, p. o., Chester co., Penn.: 63 m. S. E. Harrisburg.

SEVEN BEAVER lake, Mo.: this sheet of water contains one or two islands, and is the source of the head branch of St. Louis river.

SEVEN ISLANDS, p. o., Fluvanna county, Virg.: 48 m. W. by N. Richmond.

SEVEN ISLANDS, p. o., Butts co., Ga.: 47 m. W. by N. Milledgeville.

SEVEN MILE, p. o., Butler county, Ohio: 99 m. S. W. Columbus.

SEVEN MILE BROOK, *Me.*

SEVEN MILE CREEK, p. o., Sauk co., Wis.: 37 m. N. W. Madison.

SEVEN MILE FORD, p. o., Smyth county, Virg.: 219 m. W. S. W. Richmond.

SEVEN MILE PRAIRIE, p. o., Darke co., Ohio: 85 m. W. Columbus.

SEVEN MILE PUMP, sta., Charleston co., S. Car.: on the South Carolina R. R., 7 m. N. Charleston, and 112 S. E. Columbia.

SEVENTY SEVEN, p. v., Johnston co., Ia.: on the E. side of the Iowa r., 14 m. S. Iowa City.

SEVENTY SIX, p. v., Clinton co., Ky.: on Indian creek, 97 m. S. Frankfort.

SEVENTY SIX, p. o., Beaver co., Penn.: 181 m. W. by N. Harrisburg.

SEVEN VALLEYS, p. o., York county, Penn.: 13 m. S. Harrisburg.

SEVERN river, Anne Arundel co., Md.: rises in several creeks, a little N. of the centre of the co., and after the union of these, spreads into a long and wide inlet of Chesapeake bay, into which it falls, between Greenbury and Talley's points, opposite Kent Island. Annapolis, the State capital, is located in a projecting headland near its mouth.

SEVIER county, Ark. Situate S. W., and contains 1,106 sq. m. Drained by Cosselose, Saline, and Rolling creeks, branches of North Little river, a tributary of Red river, which forms its western boundary. Surface level; soil in general fertile, and adapted to cotton, which is the chief production. Farms 326; manuf. 4; dwell. 500, and pop.—wh. 2,886, fr. col. 82, sl. 1,873—total 4,240. Capital: Paracelista.

SEVIER county, Tenn. Situate E., and contains 526 sq. m. Drained by tributaries of Tennessee river. Surface uneven and broken; soil generally fertile, and produces wheat, Indian corn, and cotton. Pork is exported largely. On the S. E. is Smoky Mountain. Farms 581; manuf. 12; dwell. 1,071, and pop.—wh. 6,451, fr. col. 66, sl. 403—total 6,920. Capital: Sevier.

SEVIER, p. v. and cap. Sevier co., Tenn.: between the E. and W. forks of Little Pigeon r., 203 m. E. by S. Nashville. It contains a court-house, jail, etc.

SEVILLE, p. o., Madison county, Virg.: 72 miles N. W. Richmond.

SEWARD, t. and p. v., Schoharie co., N. Y.: 6 m. S. from Sharon Springs, and 45 m. W. by N. Albany. Drained by Cobleskill cr., which passes through it in a S. direction. Surface high and undulating; soil in general good. Cobleskill cr. affords excellent hydraulic power, and there are several grist and saw mills; but the manufactures are few, as is the case throughout the county. Pop. 2,203.

SEWARD'S POINT, p. v., Montgomery co., Ill.: on the West fork of Shoal cr., 33 m. S. Springfield.

SEWEE, p. o., Meigs co., Tenn.: 114 m. S. E. Nashville.

SEWELL MOUNTAIN, p. v., Fayette co., Virg.: 185 m. W. by N. Richmond.

SEWELLSVILLE, p. o., Belmont co., Ohio: 103 m. W. $\frac{1}{2}$ S. Columbus.

SEWICKLEY, sta., Alleghany co., Penn.: on the Ohio and Pennsylvania R. R., 12 m. W. by N. Pittsburg and 268 m. by railroad W. from Harrisburg.

SEWICKLY BOTTOM, p. o., Alleghany co., Penn.: 161 m. W. Harrisburg.

SEXTONS, p. v., Boone co., Mo.: on the right bank of Rocheperree r., 33 m. N. by W. Jefferson City.

SEXTON'S CREEK, p. v., Clay county, Ky.: on a stream so called, 61 m. S. E. Frankfort.

SEXTONVILLE, p. o., Richland co., Wisc.: 61 m. W. N. W. Madison.

SEYMOUE, t. p. v., and sta., New Haven co., Conn.: on both sides of Naugatuck r., 35 m. S. W. by S. Hartford, 11 m. N. W. New Haven. The v., formerly Humphreysville, is an important manufacturing place, containing 1 copper-rolling mill (one of the largest in the United States), 1 car manufactory with 6 shops, 1 large tool factory, 1 foundry, 3 paper factories, 3 angler do., 1 axe do., 1 power-loom silk do., 1 forge-hammer shop, with other mechanic shops—the whole employing about 450 hands, and producing annually nearly \$1,500,000. The water-power derived from the Naugatuck is very great, not more than one-half of which is now used. The v. also contains a bank and 4 churches. The Naugatuck R. R. passes through the v., 20 m. from Bridgeport, 42 m. from Winsted, and has greatly advanced its prosperity. Pop. of t. 1,677.

SHADE mountains, Penn.: a ridge of the Alleghany chain, extending from Bedford county, through Huntington into Mifflin county, a distance of 40 miles.

SHADE FURNACE, p. o., Somerset co., Penn.: in the v. of Stoystown, 107 m. W. Harrisburg. A furnace of 1,400 tons annual capacity is located here.

SHADE GAP, p. o., Huntingdon county, Penn.: 57 m. W. Harrisburg.

SHADE MILL, p. o., Alleghany co., Md.: on a branch of Youghiogeny r., 145 m. W. N. W. Annapolis.

SHADEWELL, p. o. and sta., Albemarle co., Virg.: on the Virginia Central R. R., 93 m. W. N. W. Richmond.

SHADY, p. o., Johnson county, Tenn.: 275 m. E. by N. Nashville.

- SHADY DALE, p. o., Jasper county, *Ga.*: 31 m. N. W. Milledgeville.
- SHADY GROVE, p. o., Union co., *Ga.*: 132 m. N. N. W. Milledgeville.
- SHADY GROVE, p. v., Dallas county, *Mo.*: at the head of Greasy cr., 88 m. S. S. W. Jefferson City.
- SHADY GROVE, p. v., Gibson co., *Tenn.*: on Rutherford fork of Obion r., 108 m. W. by S. Nashville.
- SHADY GROVE, p. o., Franklin co., *Virg.*: 126 m. S. W. Richmond.
- SHADY GROVE, p. o., Washington par., *La.*: 67 m. N. E. Baton Rouge.
- SHADY HILL, p. o., Henderson co., *Tenn.*: 108 m. W. S. W. Nashville.
- SHADY SPRING, p. o., Raleigh county, *Virg.*: 210 m. W. Richmond.
- SHAEFFERTOWN, p. v., Lebanon co., *Penn.*: 31 m. E. Harrisburg. It contains several churches, stores, workshops, etc.
- SHAFTSBURY, t. and p. v., Bennington co., *Verm.*: 97 m. S. W. Montpelier. Drained by tributaries of the Battenkill and Walloomsack rivers, which afford power for several small manufactories. Surface elevated; soil fertile. West Mountain lies partly in this town. Valuable beds of iron ore, pine timber, and a fine quality of white marble are found here. The Western Vermont R. R. passes through the village, 49 m. S. by W. Rutland. Pop. of t., 1,896.
- SHAKER VILLAGE, p. v., Merrimac co., *N. Hamp.*: 12 m. N. Concord. See WATERYLIET.
- SHAKER VILLAGE, sta., Berkshire county, *Mass.*: on the Western R. R., 121 m. W. N. W. Boston.
- SHAKELFORD'S, p. o., King and Queen co., *Virg.*: 33 m. N. E. Richmond.
- SHALER'S MILLS, p. o., Knox county, *Ohio*: 42 m. N. E. Columbus.
- SHALERSVILLE, t. and v., Portage co., *Ohio*: 122 m. N. E. Columbus. Drained by Cuyahoga r. Surface uneven; soil fertile. The v. is E. of the Cuyahoga r. Pop. of t., 1,190.
- SHALLOTTE, p. v., Brunswick co., *N. Car.*: at the head of Shallotte inlet of the Atlantic Ocean, 127 miles S. Raleigh. Pop. 903.
- SHALLOW FORD, p. o., Orange co., *N. Car.*: 39 m. N. W. Raleigh.
- SHAMOKIN, t. and p. v., Northumberland county, *Penn.*: 40 m. N. by E. Harrisburg. Drained by Shamokin creek. Surface uneven, in parts hilly; soil fertile. A furnace located here, moved by steam, has an annual capacity of 3,500 tons. Amount of coal sent from the mines to Philadelphia (in 1849) was 19,658 tons. The railroad from Pottsville to Danville and to Sunbury pass through the t. The v. contains several mills, workshops, etc.
- SHAMOKIN creek, *Penn.*: rises in the Mahony Mountains, flows W. in a circuitous course 30 m., and empties into the Susquehanna r. 2 m. below Sunbury.
- SHAMONY, p. v., Burlington co., *N. Jer.*: on both sides of a branch of Atsion r., 30 m. S. Trenton.
- SHAMROCK, p. v., Callaway co., *Mo.*: on a fork of Loutre river, 41 m. N. E. Jefferson City.
- SHAMROCK MILLS, p. o., Washington county, *R. I.*: 27 m. S. W. Providence.
- SHANANDOAH, p. o., Richland co., *Ohio*: 49 m. N. by E. Columbus.
- SHANDAKEN, t. and p. o., Ulster co., *N. Y.*: 48 m. S. W. Albany. Drained on the N. and E. by Esopus cr., on the S. by Neversink r., and on the W. by the E. branch of the Delaware r. Surface mountainous, being covered in the greater part by the Catskill Mountains; soil of inferior quality. It has good hydraulic power, and contains some manufactories, several mills, etc. Pop. 2,309.
- SHANES' CROSSINGS, p. o., Mercer co., *Ohio*: 99 m. N. W. Columbus.
- SHANESVILLE, p. o., Berks county, *Penn.*: 50 m. E. by N. Harrisburg.
- SHANESVILLE, p. v., Tuscarawas co., *Ohio*: on W. side Sugar cr., 77 m. N. E. Columbus. It contains several workshops and 882 inhabitants.
- SHANESVILLE, p. v., Somerset co., *Penn.*: 103 m. W. by S. Harrisburg. Iron ore is found in the vicinity.
- SHANNON county, *Mo.* Situate toward the S., and contains 759 sq. m. Current river passes through the co. from N. W. to S. E., by which and its numerous branches it is drained. Surface undulating; soil fertile. It is a fine mineral co., and there are extensive beds of iron and copper ores of a superior quality. It is partly timbered. Farms 152; manuf. 0; dwell. 204, and pop.—wh. 1,190, fr. col. 0, sl. 9—total 1,199. *Capital*: Eminence.
- SHANNON, p. o., Muskingum county, *Ohio*: 51 miles E. Columbus.
- SHANNON HILL, p. v., Goochland co., *Virg.*: 40 m. N. W. Richmond.
- SHANNON'S, p. o., Montgomery co., *Tex.*: 133 m. E. Austin City.
- SHANNONVILLE, p. v., Montgomery co., *Penn.*: 80 m. E. Harrisburg.
- SHAPLEIGH, t. and p. v., York county, *Me.*: 79 m. S. W. Augusta. It is separated from Acton by two ponds, the source of Mousum r., by which the t. is drained. Surface level; soil fertile, and it is a good farming t. Bog iron ore is found here, and there are iron works and other manufactures. The v. is centrally situated. Pop. of t., 1,343.
- SHARK RIVER, p. v., Ocean county, *N. Jer.*: on Jumping brook of Shark r., 36 m. E. Trenton.
- SHARKTOWN, v., Queen Anne co., *Md.*: a settlement on Kent Island, 12 m. E. Annapolis.
- SHARON, p. v., Chambers co., *Ala.*: on a branch of Tallapoosa r., 57 m. N. E. Montgomery.
- SHARON, t. and p. v., Litchfield county, *Conn.*: on the W. side of Housatonic r., 49 m. W. by N. Hartford. Drained by a number of small streams, tributaries of the Housatonic river. Surface various, in parts mountainous and rocky; soil of average fertility, and agriculture is the chief pursuit of the inhabitants. It is connected with Cornwall by several bridges spanning the Housatonic. The v. is located principally on one street on the E. side of a pleasant valley, and contains many fine buildings. The manufactures consist of cotton, iron, leather, flour, lumber, etc. This t. took an active part in the war of the Revolution. Population of t., 2,517.
- SHARON, p. v., Whitesides co., *Ill.*: on the S. boundary of co., 3 m. S. of Rock r., and 123 m. N. by W. Springfield.
- SHARON, t. and p. v., Norfolk co., *Mass.*: 16 m. S. by W. Boston. Drained by Neponset r., which has its source in Mashapoag Pond in this t. Surface hilly; soil fertile, and is much grain is raised. It has good water-power, and is much improved by several manufactories. The manufactures consist of woolen and cotton goods, axes, bedsteads, straw goods, leather, machinery, joiners' tools, etc. The Boston and Providence R. R. passes through the v., 17 m. S. by W. Boston. Pop. of t., 1,128.
- SHARON, t. and p. o., Washtenaw co., *Mich.*: 41 m. S. E. Lansing. Drained by Raisin r., which crosses its S. part. The soil is very fertile, and the products in wheat, rye, and corn are large. Pop. 869.
- SHARON, p. v., Appanoose co., *Ia.*: on the left bank of Chariton r., 87 m. S. W. Iowa City.
- SHARON, p. v., Madison co., *Miss.*: on a branch of Big Black r., 33 m. N. N. E. Jackson.
- SHARON, t. and p. v., Schoharie co., *N. Y.*: 46 m. W. by N. Albany. Drained by Bowman's creek and branch of Schoharie cr. Surface high and undulating, resting upon limestone, which in some places makes its appearance in the form of caverns, and displaying interesting stratifications. This t. contains the celebrated mineral spring, so called (see SHARON SPRING). The v. is in S. E. of town, and contains several spacious hotels, and has some manufactories, mills, etc. Pop. of t., 2,632.

SHARON, p. o., Mecklenburg co., *N. Car.*: 121 m. S. W. Raleigh.

SHARON, p. v., Noble co., *Ohio*: 75 m. E. by S. Columbus.

SHARON, p. v., Mercer co., *Penn.*: on the left bank of Shenango cr., 193 m. W. N. W. Harrisburg. There are two furnaces near the v., one of 2,000 tons, and the other 1,500 tons annual capacity, both operated by steam. The Beaver and Erie Canal passes near the village. Pop. 541.

SHARON, t. and p. v., Windsor co., *Verm.*: 43 m. S. by E. Montpelier. Drained by White r., which passes through, affording excellent water-power. Surface much broken, but the soil is fertile and well cultivated. The manufacture of wooden goods, paper, etc., is carried on to some extent here. The v. is on White r., and the Vermont Central R. R. passes through it, 50 m. S. by E. Montpelier. Pop. of t. 1,240.

SHARON, p. v., Wythe co., *Virg.*: at the source of North fork, Holston r., 212 m. W. by S. Richmond.

SHARON, t. and p. v., Walworth co., *Wisc.*: 51 m. S. E. Madison. Drained by branches of Turtle cr. The land is excellent, and highly cultivated, and good water-power. The v. is in the E. part. Pop. of t. 1,169.

SHARON CENTRE, p. o., Schoharie county, *N. Y.*: 47 m. W. by N. Albany.

SHARON CENTRE, p. v., Medina co., *Ohio*: on Wolf cr., 99 m. N. E. Columbus. It contains an academy, several shops, etc.

SHARON CENTRE, p. v., Potter co., *Penn.*: 127 m. N. W. Harrisburg.

SHARON SPRINGS, p. v., Schoharie co., *N. Y.*: near the boundary line of Schoharie, Otsego, and Montgomery counties, 49 m. W. by N. Albany. It is located on an eminence, surrounded by numerous caverns of much interest. Near the v. are the celebrated Sharon Springs, greatly resembling the White Sulphur Springs of Virginia, and are highly efficacious in rheumatic, dyspeptic, and other complaints. There are two springs, the sulphur and magnesia, situated at the foot of a hill, about a half mile N. of the turnpike road. These waters have an exhilarating effect on the spirits, invigorating the system, and in many respects possess medicinal and healing qualities unsurpassed by any other in the country. They are much resorted to during the summer months, and there is a commodious hotel here, called the Pavilion, which is usually thronged with visitors. From an analysis, made by Dr. Chilton, of New York, the result from one gallon of this water is: sulphate of magnesia, grs., 42.40; sulphate of lime, 111.62; chloride of sodium, 2.24; chloride of magnesium, 2.40; hydrosulphuret of sodium, hydrosulphuret of calcium, and vegetable extractive matter, 2.24; total grs., 160.94. Sulphuretted hydrogen gas, 16 cubic inches.

SHARONVILLE, p. v., Hamilton co., *Ohio*: on a branch of Mill cr., 87 m. S. W. Columbus.

SHARONVILLE, p. o., King William co., *Virg.*: 21 m. N. E. Richmond.

SHAPEE'S STORES, p. v., Lowndes co., *Ga.*: on the line of the Brunswick and Florida R. R., 151 m. S. Milledgeville.

SHAPEESVILLE, p. v., Montgomery county, *Ala.*: 12 m. S. of Montgomery.

SHAESBURG, p. v., Bath co., *Ky.*: 54 m. E. Frankfort.

SHAESBURG, p. v., Washington co., *Md.*: a little W. of Antietam r., 72 m. N. W. Annapolis.

SHAESBURG, p. v., Marion co., *Mo.*: on the S. boundary of the co., 78 m. N. by E. Jefferson City.

SHAESBURG, p. v., Allegheny co., *Penn.*: on the right bank of the Susquehanna r., 7 m. above Pittsburg, and 155 m. W. by N. Harrisburg. It is a considerable manufacturing place, and much trade is carried on here. Pop. 1,229.

SHARP'S FORK, p. o., Athens co., *Ohio*: 63 m. S. E. Columbus.

SHARP'S MILLS, p. o., Harrison co., *Ind.*: on the left bank of Green Bank r., 101 m. S. Indianapolis.

SHARPSHIN POINT, Chittenden co., *Verm.*: a high, rocky point, on the N. side of Burlington bay, about a mile and a quarter from the S. wharf in Burlington.

SHARPTOWN, p. v., Somerset co., *Md.*: on the left side of Nanticoke r., 52 m. S. E. Annapolis.

SHARPTOWN, p. v., Salem co., *N. Jer.*: is a manufacturing place, on the right bank of Salem r., 49 m. S. W. Trenton.

SHARTLESVILLE, p. v., Berks county, *Penn.*: 43 m. N. E. Harrisburg.

SHASTÉ county, *Calif.* Situate N., and contains about 4,800 sq. m. Bounded on the W. by the Coast Range, and on the E. by the Sierra Nevada. The S. boundary is a line on the parallel of Red Bluff, the head of navigation in the Sacramento river, and its N. boundary the line of the new county of Siskiyou, in lat. 41° 20'. The Sacramento runs directly through it from the north, and it is drained by its tributaries—Pitt river, Lower and Ark creeks, from the E., and Salt, Clear, Dry, Cottonwood, and Sandy creeks, from the W., all rising from the mountains. Surface, except in the immediate valley of the Sacramento, hilly and broken; but there is a vast amount of fine agricultural land in the county, of which, in 1852, only 908 acres were under cultivation. There are many springs strongly impregnated with minerals, of which the Soda Springs, near the Sacramento, and 60 m. N. of Shasté City, are the most celebrated; and there are 12 or 15 salt springs, which would produce salt sufficient for the whole State. Not a river, creek, gulch, or ravine that does not contain gold, and mining is extensively carried on. The capital invested in quartz mining, in 1852, was \$94,700; in placer mining, \$90,950; and in other mining operations, \$92,500. The total industrial capital of the county was \$958,500. The principal mining localities are French gulch, Mad Mule Cañon, Mad Ox Cañon, Whiskey creek, One-Horse Town, One-Mule Town, Clear creek, Grizzly gulch, and Middletown. About 2,000 men were engaged in mining, and the annual product had been \$2,492,000. Pop. 4,050—wh. 3,700: males 3,448, and females 252; negroes 48—males 45, and females 3; mulattoes 12—males 10, and females 2; Indians 73—males 52, and females 21; foreign residents 823—males 814, and females 14. Over 21 years of age—Americans 2,647, negroes 45, mulattoes 9, Indians 59, and foreigners 792. *Capital*: Shasté City.

SHASTÉ CITY, p. v., and cap. Shasté co., *Calif.*: is located in low hills, a little W. of the Sacramento r., 150 m. from San Francisco, and 120 m. N. from Vallejo. It is a place of considerable importance, being the terminus of land carriage, and a starting-place for packers to Oregon. There is a bank here, and considerable money is in circulation. Mines are numerous in the vicinity, every stream (of which there are many) containing more or less gold. Salt springs are also found. Pop. 1,000.

SHAUCK'S, p. o., Morrow co., *Ohio*: 37 m. N. Columbus.

SHAUMBURG, p. v., Cook county, *Ill.*: 172 m. N. E. Springfield.

SHAVEE'S CREEK, p. o., Huntingdon co., *Penn.*: 59 m. W. Harrisburg. There is a forge and rolling mill here, the former made (in 1850) 475 tons blooms, and the latter 150 tons boiler and sheet iron, both moved by water-power.

SHAVERTOWN, p. v., Delaware co., *N. Y.*: on the S. side of the E. branch of the Delaware r., 71 m. S. W. Albany.

SHAWANAW county, *Wisc.* Situate E. of the centre, and contains 825 sq. m. Drained by Wolf r. and its branches. Surface varied; soil in parts fertile. Set off recently from southern portion of Oconto county.

SHAWANGUNK, t. and p. v., Ulster county, *N. Y.*: 74 m. S. by W. Albany. Drained by Shawangunk cr. and Walkkill. The surface in general is mountainous, the Shawangunk Mountains covering the principal portion—on the E. gently undulating; soil pleasantly diversified, and on the E. highly productive and good timber. Grain is raised in large quantities, but more attention is paid to the rearing of cattle and to the dairy. A number of skeletons of the mastodon have been found in this town and the vicinity. The v. is on a branch of the Walkkill, and lumber, flour, cotton, and woolen goods are manufactured. Population of t. 4,036.

SHAWANGUNK mountains, N. Y.: a continuation of the Alleghany chain, extending from the Delaware r., in Orange county, thence through Sullivan county to town of New Paltz, in Ulster county. On the E. they are well cultivated, but on the W. they are precipitous. Lead is found on them. Their greatest altitude is 1,866 feet.

SHAWNEE, p. v., Niagara co., N. Y.: 12 m. E. of Niagara Falls and 237 m. W. by N. Albany.

SHAWNEE, p. o., Monroe county, Penn.: 91 m. N. E. Harrisburg.

SHAWNEE creek, Ind.: rises in the N. E. corner of Montgomery county, runs W. through Fountain county, and flows into the Wabash r., 10 m. above Covington. It is a valuable mill-stream, never failing, and the mills erected on it, and water-power that may still be used, will compare favorably with any part of the State.

SHAWNEE MOUND, p. o., Tippecanoe county, Ind.: 61 m. N. W. Indianapolis.

SHAWNEE PRAIRIE, p. o., Fountain co., Ind.: S. E. of the Wabash r., 61 m. N. W. Indianapolis. It is situated on the border of a large and rich prairie so called, mostly well cultivated, the soil of which is favorable for wheat, corn, and grass.

SHAWNSETTOWN, p. v., Gallatin co., Ill.: on the Ohio r., 11 m. below the mouth of the Wabash and 164 m. S. E. from Springfield. Its situation, though pleasant looking, is low and liable to inundation. As a place of trade this is among the largest in southern Illinois. There is a paved levee here, almost as long as the one at Cincinnati, Ohio. A hog slaughtering and packing establishment, owned by Messrs. O. Poole & Co., is quite an important feature, having facilities for hanging up 1,000 hogs per day. Tobacco is raised in considerable quantities, 300 hogsheds of which was shipped to different parts in 1852. Iron ore and coal is abundant on the river bank. The manufacture of salt is extensively carried on at the United States Saline, on the Saline cr., 12 m. in the interior, and a railroad is in course of construction to connect them with this place. A United States land office is located here. The "Southern Illinois Advocate" is a weekly (dem.) issue. Pop. 1,764.

SHAW'S MILLS, p. v., Guilford county, N. Car.: 71 m. W. by N. Raleigh.

SHAWSVILLE, p. v., Harford co., Md.: 45 m. N. Annapolis.

SHAWSVILLE, p. v., Montgomery county, Virg.: 159 m. W. S. W. Richmond.

SHAWSVILLE, p. o., Broome county, N. Y.: 104 m. S. W. Albany.

SHEARERS CROSS ROADS, p. o., Westmoreland co., Penn.: 133 m. W. Harrisburg.

SHEBOYGAN county, Wisc. Situate E. toward the S., and contains 575 sq. m. Drained by Sheboygan r. and its affluents, and tributaries of Milwaukee r. Surface undulating; soil fertile. It is bounded on the E. by Lake Michigan. Farms 325; manuf. 29; dwell. 1,783, and pop.—wh. 8,371, fr. col. 7—total 8,378. *Capital:* Sheboygan. *Public Works:* Chicago, Milwaukee, and Green Bay R. R.

SHEBOYGAN, p. v., and cap. Sheboygan co., Wisc.: on Lake Michigan, at the mouth of Sheboygan r., 98 m. N. E. Madison. It contains a court-house, jail, etc., and has some trade. The exports during the year 1848 amounted to \$12,191, and the imports for same year \$571,800, making a total of \$588,991. It is surrounded by a well cultivated and flourishing country.

SHEBOYGAN river, Wisc.: rises near Winnebago lake, Fond du Lac co., passes through a small lake in the N. W. part of Sheboygan county, and proceeding eastwardly in a winding course, flows into Lake Michigan at Sheboygan.

SHEBOYGAN FALLS, t. and p. o., Sheboygan co., Wisc.: 91 m. N. E. Madison. Drained by the Sheboygan r. and branches; soil fertile, and well cultivated.

SHED'S CROSSING, sta., Middlesex county, Mass.: on the Lowell and Lawrence R. R., 8 m. E. Lowell and 21 m. N. by W. Boston.

SHEEPSHOT river, Me.: rises by two branches in ponds in Palermo, Waldo county, flows S. through the towns of Whitefield and Alva, meets the tide-water between Wiscasset and New Castle, in Lincoln county, and empties into a bay of the same name. Its length from the source to the bay is 35 m., and it is valuable for its hydraulic power and navigable facilities.

SHEEPSHOT bay, Lincoln co., Me.: sets up from the sea between Booth bay and Georgetown, and receives the waters of the river so called. It is about 3 m. wide at its mouth and extends 10 m. N. The mouth of the bay is about 6 m. N. E. from the light at the mouth of Kennebec river.

SHEEPSHOT BRIDGE, p. v., Lincoln co., Me.: on the left bank of Sheepscot r., 25 m. S. E. Augusta.

SHEETS MILLS, p. v., Hampshire co., Virg.: on the S. branch of Potomac r., 145 m. N. N. W. Richmond. It is a small village, has excellent water-power and several mill-seats.

SHEFFIELD, p. v., Fayette co., Ala.: on North r. branch of Black Warrior, 123 m. N. W. Montgomery.

SHEFFIELD, p. v., Newton co., Ga.: on a branch of the Ocmulgee r., 65 m. N. W. Milledgeville.

SHEFFIELD, t. and p. v., Berkshire co., Mass.: 119 m. S. W. by W. Boston. The Housatonic r. flows through the town, by which and its branches it is drained. Surface generally level, but in parts hilly; soil alluvial and very fertile, and excellent water-power is derived from the streams. This is the oldest town in the county; it was incorporated in 1733. The chief pursuit of the people is agriculture, but there are also manufacturers of leather, hats, farming utensils, spirits, lumber, etc. The village is neatly laid out on one extended street, on a plain surrounded by hills, one of which is 3,000 feet high, and contains some neat mansions. The Housatonic R. R. passes through the village, 31 m. S. Pittsfield and 79 m. N. Bridgeport, Conn. Iron ore and marble of a superior quality are found in the town. Population of t. 2,769.

SHEFFIELD, t. and p. o., Lorain co., Ohio: 107 m. N. N. E. Columbus. Lake Erie washes its N. border. Drained by Black r., which is navigable to near the centre of the town. Surface moderately uneven; soil fertile, adapted to grain. It contains an academy, conducted on the manual labor principle, several other places of instruction, mills, workshops, etc. Pop. 908.

SHEFFIELD, t. and p. o., Warren co., Penn.: 148 m. N. W. Harrisburg. Drained by Teonista cr. and branches, from which is derived excellent mill-power. Surface various; soil in some parts fertile. It has several manufactures. The proposed route of the Sunbury and Erie R. R. passes through this town.

SHEFFIELD, t. and p. v., Caledonia co., Verm.: 36 m. N. E. Montpelier. Drained by branches of the Passumpsic and Barton rivers, having their sources in several ponds here. Surface elevated and much broken; soil of an inferior quality. The village is located on a branch of Passumpsic r. Pop. of t. 797.

SHEFFIELD LAKE, p. o., Lorain co., Ohio: 108 m. N. N. E. Columbus.

SHEBOLA, p. o., Pike co., Penn.: 121 m. N. E. Harrisburg.

SHELVILLE, p. v., Hamilton co., Ind.: 31 m. N. Indianapolis. The Peru and Indianapolis R. R. passes near this village.

SHELBURNE, t. and p. v., Coos co., N. Hamp.: on both sides of the Androscoggin r., 81 m. N. by E. Concord. Drained by the Androscoggin and its tributaries, Rattle r. and other small streams. Surface various, in parts mountainous, having a part of Mount Moriah, an elevated peak of the White Mountains, in the S., and on the S. side of the river, in the centre, is Moses' Rock, 60 feet high and 90 feet long, very smooth, and rising in an angle of nearly 50°. Incorporated in 1820. Soil along the rivers is fertile, but otherwise of an inferior quality. Chief pursuits of the peo-

ple are agricultural. The Atlantic and St. Lawrence R. R. passes through the village, 36 m. S. E. Northumberland. Pop. of t. 430.

SHELburnE, t. p. v., and sta., Chittenden county, *Verm.*: bordered on Lake Champlain, 32 m. W. by N. Montpelier. Drained by La Platte r., affording excellent water-power. A pond covering 600 acres is also in this town. Surface on the lake shore is level, otherwise uneven; soil in general fertile. A fine harbor is formed by Shelburne bay, which sets up into the town, 4 m. from the lake, in a S. W. direction. The village is located on the border of the lake, and the Rutland and Burlington R. R. passes through the town, on which is the sta., 6 miles S. Burlington. Population of town 1,257.

SHELburnE, t. and p. o., Franklin county, *Mass.*: 87 m. N. W. by W. Boston. Bounded on the W. and S. W. by Deerfield r., which in its course has a fall of 50 feet in 40 rods, producing immense hydraulic power. Surface various; soil fertile, and much wool is grown, and dairy produce raised. It has some manufactures of leather, lumber, etc. Pop. of t. 1,239.

SHELburnE FALLS, p. v., Franklin co., *Mass.*: on the left bank of Deerfield r., 89 m. N. W. by W. Boston. It is a neat village, surrounded by a rich agricultural country, and contains besides several fine buildings, a well-endowed academy.

SHELby county, *Ala.* Situate centrally, and contains 993 sq. m. Cahawba r. flows through the W. portion, by which and its branches, and branches of Coosa r., which forms its E. boundary, it is drained. Surface generally level, in parts hilly; soil fertile. It has some good beds of coal, and timber is abundant. Farms 693; manuf. 9; dwell. 1,170, and pop.—wh. 7,153, fr. col. 7, sl. 2,376—total 9,536. *Capital*: Columbiana. *Public Works*: Alabama and Tennessee River R. R.

SHELby county, *Ill.* Situate S. centrally, and contains 762 sq. m. Kaskaskia r. passes centrally through it, by which and its affluents, and by branches of S. fork of Sangamon r., it is drained. Surface level; soil in general fertile and very productive. Staples, wheat and Indian corn. Pork is exported largely. Farms 534; manuf. 7; dwell. 1,411, and pop.—wh. 7,762, fr. col. 45—total 7,807. *Capital*: Shelbyville. *Public Works*: Terre Haute and Alton R. R.; Central R. R.; Chicago Branch of Central R. R.

SHELby county, *Ind.* Situate S. E. centrally, and contains 428 sq. m. Drained by E. branch of White r., Sugar cr., Big and Little Blue rivers, and Flat Rock cr., all which supply extensive water-power. Surface generally even; soil fertile, and consists of a deep loam, with sand intermixed. Chief productions, wheat, Indian corn, sugar, and tobacco. Timber of excellent quality is found on the land. Farms 1,620; manuf. 59; dwell. 2,721, and pop.—wh. 15,484, fr. col. 18—total 15,502. *Capital*: Shelbyville. *Public Works*: Shelbyville Lateral Branch R. R.; Shelbyville and Nashville R. R.; Shelbyville and Knightstown R. R.; Lawrenceburg and Upper Mississippi R. R.; etc.

SHELby county, *Ja.* Situate W. toward the S., and contains 576 sq. m. Drained by Boyer r. and branch of Nishabatonar r. Surface level; soil fertile, and adapted to grain. Set off since 1850.

SHELby county, *Ky.* Situate N., and contains 426 sq. m. Drained by branches of Floyd's fork of Salt r. and its other numerous tributaries. Surface rolling; soil fertile, and in parts very productive. Staples, wheat, Indian corn, and tobacco. Farms 1,202; manuf. 132; dwell. 1,803, and pop.—wh. 10,283, fr. col. 190, sl. 6,617—total 17,095. *Capital*: Shelbyville. *Public Works*: Louisville and Frankfort R. R.; Lexington and Frankfort R. R.

SHELby co., *Mo.* Situate toward the N. E., and contains 495 sq. m. Drained by N. fork of Salt r. and North Two Rivers, by which good water-power is supplied. Surface level; soil a fine deep mold, and very fertile. It has some good timber land, and excellent pasturage for cattle. Farms

397; manuf. 14, dwell. 632, and pop.—wh. 3,744, fr. col. 11, sl. 498—total 4,253. *Capital*: Oakdale.

SHELby county, *Ohio.* Situate W., and contains 468 sq. m. Drained by Miami r. and its affluents. Surface rolling and pleasantly diversified; soil generally fertile. Chief productions, wheat and Indian corn. It exports a large quantity of pork and beef. Pine and other timber is found on the land. Farms 1,363; manuf. 28; dwell. 2,405, and pop.—wh. 13,634, fr. col. 224—total 13,858. *Capital*: Sidney. *Public Works*: Bellefontaine and Indiana R. R.; Dayton and Michigan R. R.; Miami Canal, ande.

SHELby county, *Tenn.* Situate S. W., and contains 916 sq. m. Drained by Wolf, Loosahatchy, and Big rivers, all tributaries of the Mississippi, which flows on its W. border. Surface level; excepting the bluffs on the Mississippi; soil fertile, and adapted to cotton and tobacco, wheat, and Indian corn. It exports large quantities of beef and pork. It is well timbered. Farms 1,115; manuf. 129; dwell. 2,926, and pop. wh. 16,591, fr. col. 206, sl. 14,360—total 31,157. *Capital*: Raleigh. *Public Works*: Memphis and Charleston R. R.; Memphis and Nashville R. R.

SHELby county, *Tex.* Situate E., and contains 912 sq. m. Drained by tributaries of Sabine r., which forms its eastern boundary. Surface undulating and interspersed with prairie and timber land; soil rich and very productive, and consists principally of a fine deep loam, with clay intermixed, the land on the Tenaha r. being remarkably fine and productive, and adapted to cotton. Pine, ash, elm, and beech are the principal timber trees. Farms 380; manuf. 6; dwell. 560, and pop.—wh. 3,275, fr. col. 0, sl. 961—total 4,239. *Capital*: Shelbyville.

SHELby, t. and p. v., Orleans co., *N. Y.*: 244 m. W. by N. Albany. Drained by Oak Orchard cr. Surface even; soil calcareous loam. The Erie Canal, and Rochester, Lockport, and Niagara Falls R. R. cross its N. W. part. The v. has some manufactures, mills, etc. Pop. of t. 3,052.

SHELby, p. v., and cap. Cleveland co., *N. Car.*: E. side First Broad river, 156 m. W. by S. Raleigh. It contains a court-house, jail, and other public buildings, several mechanic shops, etc. A short distance S. of the v. is a fine sulphurous mineral spring.

SHELby, p. v., Richland co., *Ohio*: at the junction of the Cleveland, Columbus, and Cincinnati R. R. with the Mansfield and Sandusky, and Sandusky, Mansfield, and Newark R. R., 67 m. S. W. Cleveland, 45 m. S. Sandusky City, and 69 m. N. by E. Columbus.

SHELby, p. o., Austin co., *Tex.*: 95 m. S. E. Austin City.

SHELby BASIN, p. v., Orleans co., *N. Y.*: on the Erie Canal, 46 m. E. Buffalo, and 318 m. W. by N. Albany, and near the line of the Rochester, Lockport, and Niagara Falls R. R. It is a small village.

SHELby's CREEK, p. o., Tippah co., *Miss.*: 175 m. N. N. E. Jackson.

SHELby SPRINGS, p. v., Shelby co., *Ala.*: on a branch of COOSA r., 57 m. N. by W. Montgomery.

SHELbyVILLE, p. v., and cap. Shelby co., *Ill.*: on the W. side of the Kaskaskia r., 53 m. S. E. Springfield. It is situated on high ground, in the centre of a fertile and well-cultivated country, and contains a neat court-house, built of brick, 2 stories high, surmounted by a cupola, other county buildings, etc. A copious sulphur spring is located here. The Alton and Terre Haute R. R. passes through the v.

SHELbyVILLE, p. v., and cap. Shelby co., *Ind.*: on the S. E. bank of Blue r., 26 m. S. Indianapolis. It contains a court-house and jail, built of brick, stores of various kinds, a number of mechanic shops, 182 dwellings from two to three stories in height, some of which are of brick, and 995 inhabitants. The river is navigable to this place at high water, and affords excellent water-power. The Shelbyville Lateral Branch R. R., the Knightstown and Shelbyville R. R., and the Rushville and Shelbyville R. R. all verge from this point, 16 m. N. E. from Edinburg, 20 m. from Rushville, and 27 S. by W. from Knightstown. Taking into

consideration these railroad connections, this place will now increase rapidly in business and population. The "National Volunteer" is a weekly issue.

SHELBYVILLE, p. v., and cap. Shelby co., *Ky.*: on Brasher's cr. of Salt r., 21 m. W. Frankfort. It contains a court-house, jail, etc., and the Shelby College is located here, which in 1850 contained 4 professors, 4 alumni, 44 students, and a library containing 300 volumes. The "Shelby News" is a weekly (whig) issue. Pop. about 800.

SHELBYVILLE, p. v., and cap. Shelby co., *Mo.*: on the left bank of Joek's cr. of Salt r., 84 m. N. Jefferson City. It is a small place, and contains a court-house, jail, etc. Population 301.

SHELBYVILLE, p. v., and cap. Bedford co., *Tenn.*: on the right bank of Duck r., 43 m. S. by E. Nashville. It contains a court-house, jail, and other public buildings, and a branch of the Bank of Tennessee is located here. The "Expositor" is a weekly (polit.) issue. Pop. about 800.

SHELBYVILLE, p. v., and cap. Shelby co., *Tex.*: on S. side of Huana branch of Sabine river, on an elevated and fertile plain, 246 m. N. E. Austin City. It contains a court-house, jail, etc.

SHELDON, t. and p. v., Franklin county, *Verm.*: 43 m. N. W. by N. Montpelier. The Missisquoi r. divides the t., and with Black cr., its branch, drains it, and affords good hydraulic power. Its lands are good, producing grain, etc., in abundance. The v., on the Missisquoi r., is a thriving place, both in its manufactures and trade. Population of t. 1,814.

SHELDON, t. and p. v., Wyoming co., *N. Y.*: 244 m. W. Albany. Drained by Tonawanda and Seneca creeks. Surface hilly; soil fertile, better adapted to grazing than grain. Its manufactures consist in flour, lumber, leather, etc. The v. contains 2 churches. Pop. of t. 2,527.

SHELDONVILLE, p. o., Norfolk co., *Mass.*

SHELDRAKE, p. o., Seneca co., *N. Y.*: 161 m. W. Albany.

SHELL MOUND, sta., Marion co., *Tenn.*: on the Nashville and Chattanooga R. R., 130 m. S. E. Nashville.

SHELL POINT, p. o., Wakulla county, *Flor.*: 24 miles S. Tallahassee.

SHELLTOWN, p. o., Ocean co., *N. Jer.*: on S. side of Crosswick's cr., 12 m. S. E. by E. Trenton. Here is a Friends' meeting-house.

SHELOCTA, p. v., Indiana co., *Penn.*: on a fork of Crooked creek, 127 m. W. by N. Harrisburg.

SHELTER ISLAND, t. and p. o., Suffolk co., *N. Y.*: 95 m. E. by N. New York city, and 244 m. S. E. Albany, and directly opposite Greenport, the terminus of the Long Island Railroad, occupying the whole of the island so called, lying between Great Peconic and Gardiner's bays. It is 6 miles long and 4 m. wide, and was first settled in 1652. Surface uneven; soil, though in general inferior, has some fertile parts. There is a ship channel around the island, and a ferry connects it with Southold, 120 rods distant. Pop. 356.

SHELTONVILLE, p. o., Forsyth county, *Ga.*: 95 m. N. W. Milledgeville.

SHENANDOAH county, *Virg.* Situate toward the N., and contains 356 sq. m. Drained by N. fork of Shenandoah r. Surface uneven and mountainous; soil various, in some parts very fertile. Chief products, wheat and Indian corn. Farms 554; manuf. 7; dwell. 2,143, and pop.—wh. 12,595, fr. col. 262, sl. 911—total 13,763. *Capital*: Woodstock. *Public Works*: Manassas Gap R. R.

SHENANDOAH, p. v., Duchess co., *N. Y.*: 10 m. E. from Fishkill Landing, 76 m. S. Albany.

SHENANDOAH river, *Virg.*: is a large S. branch of Potomac r., formed from its S. branch, which rises in Augusta co., and the N. branch, which rises in Rockingham co., and flows along the W. side of the Blue ridge, and parallel to the S. branch, until near their confluence in Warren co., whence the united stream flows N. E. to its junction with Potomac r., near its passage through the Blue ridge at Harper's Ferry.

SHENANDOAH IRON WORKS, p. o., Page co., *Virg.*: 88 m. N. W. Richmond.

SHEPAUG river, *Conn.*: a branch of the Housatonic, entering it at Southbury from the N., affording good water-power.

SHEPHERD'S GROVE, p. o., Culpepper co., *Virg.*: 66 m. N. N. W. Richmond.

SHEPHERDSTOWN, p. v., Belmont co., *Ohio*: on E. side of a branch of Wheeling creek, 105 miles E. by N. Columbus. Pop. 90.

SHEPHERDSTOWN, p. v., Cumberland co., *Penn.*: 7 m. S. Harrisburg.

SHEPHERDSTOWN, p. v., Jefferson co., *Virg.*: on the S. W. side of the Potomac river, 10 m. above Harper's Ferry, and 129 m. N. by W. Richmond. The water-power is excellent, and considerable flour is manufactured. The Baltimore and Ohio R. R. passes near the v. Three papers are issued weekly: the "Free Press" (whig), "Spirit of Jefferson" (dem.), and the "Shepherdstown Register" (neut.). Pop. 1,561.

SHEPHERDSTOWN, p. v., and cap. Ballitt co., *Ky.*: on N. side of Salt r., 43 m. W. S. W. Frankfort. It contains the co. buildings, a seminary, and about 350 inhabitants. The Louisville and Nashville R. R. will pass through it. Parquette Springs, 1 m. from the v., is a watering place of considerable resort.

SHERBORN, t. and p. v., Chenango co., *N. Y.*: 92 m. W. Albany. Drained by Chenango river, and the Chenango Canal passes through, parallel with it. Surface hilly; soil fertile. The t. was settled by a party of 20 families from Connecticut, and incorporated in 1830. The v., on the Chenango r. and canal, 41 m. S. W. Utica, is a flourishing place, and contains 4 churches, an academy, several forwarding houses, stores, etc. The name of the t. has been changed by the legislature from Sherburne to the present. Population 2,623.

SHERBURNE, t. and p. v., Middlesex county, *Mass.*: 18 m. S. W. by W. Boston. Charles river forms its E. boundary. Incorporated 1674. Surface elevated; soil fertile. The Milford Branch R. R. passes through its W. part. The v., at the centre, contains 2 churches, and has some manufactures. Pop. of t. 1,023.

SHERBURNE, t. and p. v., Rutland county, *Verm.*: 45 m. S. by W. Montpelier. Surface chiefly broken and mountainous, rising in the S. part into Killington Peak, the summit of which is 3,924 feet above tide-water. Drained by Quechee r. Pop. of t. 578.

SHERBURNE MILLS, p. v., Fleming co., *Ky.*: on E. bank of Licking r., 63 m. E. by N. Frankfort.

SHERBURNEVILLE, p. o., Lake co., *Ind.*: 125 miles N. W. Indianapolis.

SHERIDAN, t. and p. o., Chautauque co., *N. Y.*: 238 m. W. by S. Albany. Lake Erie bounds it on the N. Drained by several small streams flowing into the lake. Surface hilly; soil fertile. This is a highly cultivated farming district, with excellent water-power, several mills, and light manufactures. The New York and Erie, and Lake Shore railroads pass through the town, and connect at Dunkirk, three miles W. Pop. 2,172.

SHERMAN, t. and p. v., Fairfield co., *Conn.*: 47 m. W. S. W. Hartford, 36 miles N. W. New Haven. Surface uneven. Drained by Rock r., a branch of the Housatonic. It contains several mills, a few stores, and tanneries. Population of t. 954.

SHERMAN, p. v., Cook co., *Ill.*: on the right bank of N. branch Chicago river, 19 m. N. by W. Chicago, and 133 m. N. E. from Springfield.

SHERMAN, p. v., and cap. Grayson county, *Tex.*: on Choctaw branch of Red river, 247 miles N. by E. Austin City.

SHERMAN, t. and p. v., Chautauque county, *N. Y.*: 303 m. W. by S. Albany. Drained by head waters of French cr. Surface rolling; soil fertile. It has excellent water-power.

The v. contains a furnace, several mills, and a tannery. Pop. of t. 1,292.

SHERMAN, t. and p. v., Huron co., *Ohio*: 81 m. N. Columbus. Drained by branches of Huron r. Surface rolling; soil fertile. The Mansfield and Sandusky City R. R. passes through the E. part. The v., on E. side of Pipe creek, has several mills, etc. Pop. of t. 1,134.

SHERMAN'S DALE, p. o., Perry co., *Penn.*: 17 m. W. by N. Harrisburg.

SHERMAN'S HOLLOW, p. o., Yates co., *N. Y.*: 177 m. W. Albany.

SHERRODSVILLE, p. o., Carroll co., *Ohio*: 99 m. E. N. E. Columbus.

SHERRELL'S FORD, p. o., Lincoln county, *N. Car.*: 133 m. W. by S. Raleigh.

SHERWOOD, t. and p. o., Branch co., *Mich.*: 61 m. S. W. Lansing. Drained by St. Joseph's r. There is a pond in W. part. Surface rolling; soil excellent, and much grain is raised. It is one of the best farming towns in the county. Pop. 686.

SHERWOOD'S, p. o., Cayuga co., *N. Y.*: 150 m. W. Albany. SHERSHEQUIN, t. and p. o., Bradford co., *Penn.*: on E. side of Susquehanna river, 107 m. N. Harrisburg. Drained by several small streams flowing into the Susquehanna. Surface hilly; soil fertile. It has some manufactories, mills, etc. Pop. about 1,000.

SHERUCKETT RIVER, *Conn.*: rises by several branches in Tolland and Windham counties, flows S., receiving two large tributaries, the Natchaug and Willimantic rivers; thence flows S. S. E., and in E. part of Norwich t. receives the Quinebaug r., forming the main constituent of Thames river. It affords good water-power.

SHIAWASSEE COUNTY, *Mich.* Situate centrally, and contains 576 sq. m. Drained by Shiawassee, Maple, Mishtegaycock, and Looking-glass rivers, which supply good water-power. Surface level; soil productive. In some parts of the county mineral coal is found. The agricultural products are wheat, Indian corn, and potatoes. The industry of the county is mostly applied to farming. Farms 640; manuf. 48; dwell. 972, and pop.—wh. 5,230, fr. col. 0—total 5,230. *Capital*: Corunna.

SHIAWASSEE, t. and p. v., Shiawassee co., *Mich.*: 25 m. N. E. Lansing. Drained by the Shiawassee and Looking-glass rivers. Surface rolling; soil fertile. Mineral coal is found. The v., on the Shiawassee r., is a flourishing place, and has some manufactories. Pop. of t. 810.

SHICKSHINNY, p. v., Luzerne county, *Penn.*: on the right bank of the Susquehanna r., and on the North Branch Division of the Pennsylvania Canal, 77 m. N. E. Harrisburg. A furnace, located near the v., operated by water-power, has an annual capacity of 1,800 tons.

SHIELDSBOROUGH, p. v., port of entry, and cap. Hancock co., *Mass.*: on W. side of the mouth of Louis bay, 144 m. S. S. E. Jackson. It contains the co. buildings, etc., and is the port of entry for Pearl River U. S. collection district, of which the commercial statistics on 30th June, 1850, are as follows: total tonnage, 1,367 tons, all of which was enrolled and licensed, and engaged in the coasting trade; of which 331 tons were licensed under 20 tons, and 215 tons propelled by steam. During the preceding year it had no foreign commerce nor ship-building.

SHILOAH, p. v., Camden county, *N. Car.*: between North and Pasquotank rivers, near their entrance into Albemarle Sound, 152 m. E. N. E. Raleigh.

SHILOH, p. v., Marengo county, *Ala.*: 90 miles W. by S. Montgomery.

SHILOH, p. o., Cumberland co., *N. Jer.*: 63 m. S. by W. Trenton.

SHILOH, p. o., Callaway co., *Ky.*: 216 m. S. W. Frankfort.

SHILOH, p. o., Gibson county, *Tenn.*: 117 m. W. by S. Nashville.

SHILOH, p. o., King George co., *Virg.*: 51 m. N. by E. Richmond.

SHILOH, p. v., Sumter dist., *S. Car.*: on E. side Paulding swamp of Black r., 53 m. E. Columbia.

SHILOH, p. o., Union parish, *La.*: 173 m. N. N. W. Baton Rouge.

SHINGLE CREEK, p. o., St. Lawrence co., *N. Y.*: 145 m. N. N. W. Albany.

SHIN HOLLOW, sta., Orange co., *N. Y.*: on the Erie R. R., 10 m. W. Otisville, 92 m. N. W. New York city, and 94 m. S. W. Albany. At this place there is a deep cut through a soft soil three-fourths of a mile in length and thirty feet deep. This part of the road is of the most oppressive loneliness, for the valley is completely shut out of sight by a steep wall on each side of slate rock, 50 feet in height and 2,500 feet in length, beyond which is a beautiful open country.

SHINNECOCK BAY, *N. Y.*: is a beautiful body of water in S. part of Southampton t., Suffolk co., Long Island, 10 m. long, and from 3 to 4 m. wide—separated from the ocean by a narrow sand-beach, evidently formed by the waves. It has long been noted for producing large quantities of clams and other shell-fish of superior quality, affording employment to many persons.

SHINSTON, p. v., Harrison co., *Virg.*: on the E. side of the W. fork of Monongahela r., 200 m. N. W. Richmond. It contains several mills and lumber yards, and has an extensive trade in lumber.

SHIPPEN, t. and p. o., McKean county, *Penn.*: 111 m. N. W. Harrisburg. Drained by Driftwood branch and other tributaries of Sinemahoning cr. Surface rough and mountainous, with some fertile soil in the valleys. It has salt-works and springs on Driftwood creek. The Sunbury and Erie R. R. will pass through this place.

SHIPPENSBURG, p. b. and sta., Cumberland co., *Penn.*: on a branch of Conodogwinit cr., and on the Cumberland Valley R. R., 45 m. S. W. Harrisburg. It is located in the midst of a fertile country, and has excellent water-power. Four miles distant are two furnaces, with an annual capacity of 1,500 tons each. The "Weekly News" (whig) is published. Pop. 1,578.

SHIPPENSVILLE, p. v., Clarion co., *Penn.*: on Paint cr., 149 m. W. N. W. Harrisburg. Two furnaces, located here, have annual capacities of 1,100 tons and 1,400 tons; also a forge which in 1850 produced 1,500 tons bar iron.

SHIREMANTOWN, p. v., Cumberland co., *Penn.*: 15 m. W. by S. Harrisburg. The Cumberland Valley R. R. passes near the village.

SHIRLAND, p. o., Allegheny co., *Penn.*: 155 m. W. by N. Harrisburg.

SHIRLEY, t. and p. o., Piscataquis county, *Me.*: 72 m. N. Augusta. Incorporated in 1834. Watered by head branches of Piscataquis r., on which are mills. Pop. 250.

SHIRLEY, t. p. v., and sta., Middlesex co., *Mass.*: 35 m. N. W. by W. Boston. Bounded on the S. E. by Nashua r., and on the N. E. by Squanicook branch, each of which affords fine water-power. Surface generally low and level. The Fitchburg R. R. passes through the v. 40 m. from Boston, 10 m. from Fitchburg. In the S. W. part of the t. is a Shaker settlement of about 150 members. Pop. of t. 1,153.

SHIRLEY, p. o., Erie co., *N. Y.*: 264 m. W. Albany.

SHIRLEY, p. o., Tyler co., *Virg.*: 232 m. N. W. Richmond

SHIRLEY MILLS, p. o., Piscataquis co., *Me.*: 72 m. N. Augusta.

SHIRLEYSBURG, p. o., Huntingdon co., *Penn.*: on E. side of Great Augwick cr., 53 m. W. Harrisburg. It occupies the site and bears the name of an old provincial fortress, erected in the French war for the defense of the western frontiers.

SHIRLEY VILLAGE, p. v., Middlesex co., *Mass.*: on Nashua river, 34 m. N. W. by W. Boston, containing a church, several mills, and manufactories.

SHIRLEYVILLE, p. o., Abbeville district, *S. Car.*: 79 m. W. by N. Columbia.

SHOAL CREEK, p. o., Clinton co., *Ill.*: on the E. side of the

stream so called, 80 m. S. Springfield. It is located on the border of a fertile prairie.

SNOAL CREEK, p. o., Newton county, *Mo.*: 162 m. S. W. Jefferson City.

SNOAL FORD, p. v., Limestone co., *Ala.*: on E. side of Limestone creek of Tennessee river, 169 m. N. by W. Montgomery.

SNOALS OF OGECHEE, p. o., Hancock county, *Ga.*: on the Ogechee r., 33 m. E. N. E. Milledgeville.

SNOAL SPRING, p. o., Giles co., *Tenn.*: 73 m. S. Nashville.

SNOHER'S MILLS, p. o., Carroll co., *Ohio*: 97 m. E. N. E. Columbus.

SNOOCO SPRINGS, p. v., Warren co., *N. Car.*: on E. side of Fishing cr., 45 m. N. E. Raleigh.

SNOEMAKER'S, sta., Allegany county, *N. Y.*: on the New York and Erie R. R., 862 m. New York, and 221 m. W. S. W. Albany.

SNOLOLA, sta., Sullivan co., *N. Y.*: on the Delaware r., Erie R. R., and Delaware and Hudson Canal, 107 m. N. W. New York, 101 m. S. W. Albany.

SNOKAN, p. o., Ulster co., *N. Y.*: 56 m. S. W. Albany.

SNOKOKON, p. v., Henderson county, *Ill.*: 3 m. E. of the Mississippi r., and 95 m. N. W. from Springfield.

SNOGALO, p. v., Carroll county, *Miss.*: on the W. of Big Black r., 75 m. N. by E. Jackson.

SNOIGO, p. o., Allegany county, *N. Y.*: 223 m. W. S. W. Albany.

SNOBOTA, p. o., Clark co., *Miss.*: 87 m. E. by S. Jackson.

SNOOLING CREEK, p. o., Cherokee co., *N. Car.*: 320 m. W. S. W. Raleigh.

SNOPIER, p. o., Rock co., *Wisc.*: 35 m. S. E. Madison.

SNOF SPRING, p. o., Wilson county, *Tenn.*: 23 m. E. by N. Nashville.

SNOF SPRING, p. o., Newbury district, *S. Car.*: 41 m. W. N. W. Columbia.

SNOHEAM, t. and p. v., Addison co., *Verm.*: on the E. side of Lake Champlain, 45 m. S. W. Montpelier. Drained by Lemonfair r., affording good water-power. Surface even; soil fertile, and it is one of the best farming towns in the State, with some manufactures. Most of the waters here are impregnated with epsom salts. The v. is pleasantly located a little E. of the lake, and is the seat of Newton Academy. Pop. of t. 1,601.

SNOHT BEND, p. o., Dent co., *Mo.*: 62 m. S. E. Jefferson City.

SNOHT CREEK, t. and p. v., Harrison county, *Ohio*: 105 m. E. by N. Columbus. Drained by an affluent of the Ohio r., which furnishes good mill-sites. Surface uneven; soil fertile and well adapted to grain. The villages of Harrisville and Georgetown are in the town. The v. has some manufactories, etc. Pop. of t. 1,950.

SNOHT CREEK, p. o., Grayson county, *Ky.*: 95 m. S. E. Frankfort.

SNOHT CREEK, p. o., Brooke county, *Virg.*: 254 m. N. W. Richmond.

SNOHT TRACT, p. v., Allegany co., *N. Y.*: on a branch of the Genesee r., 225 m. W. Albany.

SNOHTEK'S, sta., Macon co., *Ala.*: on the Montgomery and West Point R. R., 25 m. E. Montgomery.

SNOHTEVILLE, v. and sta., Ontario county, *N. Y.*: on the Rochester and Syracuse R. R., 41 m. S. E. Rochester, and 184 m. W. by N. from Albany.

SNOHSETTOWN, sta., Allegheny co., *Penn.*: on the N. side of the Ohio r., and on the Ohio and Pennsylvania R. R., 14 m. W. Pittsburg, and 175 m. W. by N. Harrisburg.

SNOEVE, p. o., Wayne co., *Ohio*: 78 m. N. E. Columbus.

SNOEVEPORT, p. v., and cap. Caddo parish, *La.*: on the right bank of Red r., about 1 m. S. of Soda lake, 201 m. N. W. Baton Rouge. It contains a court-house, jail, etc. It is the most important town in N. W. Louisiana, and will be intersected by the Vicksburg, Shreveport, and Texas R. R., now in progress. Pop. 1,133.

SNOREWSBURY, t. and p. v., Worcester co., *Mass.*: 33 m.

W. by N. Boston. A large pond, abounding in fine fish, forms the S. W. boundary, and is the principal feeder of the Blackstone Canal. Drained by several streams and rivulets. Surface uneven and hilly, a range of high land extending through it from N. to S.; soil good. In the S. W. part is a meadow, containing excellent peat. It has some manufactures, consisting of clothing, guns, hats, leather, etc. The v. is centrally situated. Pop. of t. 1,589.

SNOREWSBURY, t. and p. v., Monmouth co., *N. Jer.*: 36 m. E. by N. Trenton. Drained by Neversink, Shrewsbury, and Shark rivers, the two former forming the N. boundary, and the latter its S. W. boundary. Surface level; soil clay loam, or marl. It is much resorted to by people from New York and Philadelphia in summer, as a bathing-place. The v. is located between Shrewsbury and Neversink rivers. The t. contains a furnace, tannery, lumber yard, several mills, etc. Pop. of t. 3,150.

SNOREWSBURY, t. and p. v., York co., *Penn.*: 33 m. S. by E. Harrisburg. Drained by branches of Codorus cr. Surface undulating; soil inferior. The b. is in the S. part of the t., and has some manufactures, etc. There is in the t., independent of the b., manufactures of woolen goods and paper, several mills, etc. The Baltimore and Susquehanna R. R. crosses the W. part of the town.

SNOREWSBURY, t. and p. v., Rutland county, *Verm.*: 54 m. S. by Montpelier. Drained by Mill and Cold rivers, which afford water-power. Surface mountainous, lying on the Green Mountain range. It contains Shrewsbury Peak; height 4,100 feet above tide-water. The land is chiefly adapted to grazing, and there is good timber. It has some manufactures. The v. is on Cold river, and the Rutland and Burlington R. R. crosses the S. W. part of the t. Pop. of t. 1,268.

SNOREWSBURY, p. o., Kanawha co., *Virg.*: 229 m. W. N. W. Richmond.

SNOREWSBURY river, Monmouth co., *N. Jer.*: a continuation of Sandy Hook bay, flowing 5 m. partly through a salt marsh, averaging about 14 m. in width. It receives Shrewsbury river proper, a stream 6 or 7 m. long.

SNORE OAK, p. o., Westchester county, *N. Y.*: 93 m. S. Albany.

SNOLESBURG, t. and p. v., Lafayette county, *Wisc.*: on a branch of Fever r., 57 m. S. W. Madison. Large quantities of lead ore are here raised. Pop. 1,678.

SNOOK, p. o., Sullivan co., *Penn.*: 75 m. N. Harrisburg.

SNOOK, p. o., Henry county, *Ohio*: 105 miles N. W. Columbus.

SNOOPIKE, v. and sta., Cayuga county, *N. Y.*: on the Rochester and Syracuse R. R., 33 m. W. S. W. Syracuse, and 154 m. W. by N. from Albany.

SNOOSHAN, p. v. and sta., Washington co., *N. Y.*: on the Battenkill, and on the Rutland and Washington R. R., 34 m. N. E. Troy, and 45 m. from Albany.

SNOOTSBURY, t. and p. v., Franklin county, *Mass.*: 69 m. W. by N. Boston. Drained by branches of Mill r. and by Swift r. Surface elevated, in parts hilly and rocky; soil of average fertility, most productive along the streams. Lock's Pond in N. W. part of t. covers 700 acres, and is well stocked with fish. There is also a mineral spring of some note near the centre, abounding in muriate of lime. The manufactures of the t. are light. The v. is located centrally. Pop. of t. 912.

SNOY POST, p. v., Andrain co., *Mo.*: on the E. of Loutrie r., 42 m. N. E. Jefferson City.

SNOY, p. o., Leon co., *Tex.*: 123 m. N. E. Austin City.

SNOYCONSET, v., Nantucket co., *Mass.*: on the S. E. part of Nantucket island, 7 m. from Nantucket v., is an attractive summer resort, having a fine hotel and other accommodations.

SNOYLA, p. v., Washington par., *La.*: on a branch of Tangipahoa r., 49 m. N. E. Baton Rouge.

SNOYLEY, p. v., Jackson co., *Mo.*: on the right bank of the Ohio r., 116 m. W. N. W. Jefferson City.

SIBLEY'S MILLS, Wilkinson co., *Miss.*: 101 m. S. W. Jackson. **SICILY**, p. o., Highland co., *Ohio*: 61 miles S. S. W. Columbus. **SIDELING mountains**, *Penn.* and *Md.*: a range of mountains traversing Huntingdon and Bedford counties, Pennsylvania, and Alleghany co., *Md.*

SIDNEY, p. v., Marshall co., *Ind.*: 101 m. N. Indianapolis. **SIDNEY**, t. and p. v., Kennebec county, *Me.*: 7 miles N. Augusta. The Kennebec r. forms its E. boundary, and a portion of Snow's Pond is on the N. part, by which it is watered. Surface varied; soil fertile, and much grain is raised. Incorporated in 1792. Its manufactures consist of leather, lumber, etc. The village is on the right bank of the Kennebec river. Pop. of t. 1,955.

SIDNEY, p. v., Hunterdon co., *N. Jer.*: on the W. of South branch Raritan r., 26 m. N. W. Trenton.

SIDNEY, t. and p. v., Delaware co., *N. Y.*: 82 m. W. S. W. Albany. Drained by Oleont creek and other small streams flowing into the Susquehanna r., which bounds it on the N. Surface hilly, except along the r., where it is even; soil of great fertility, and well cultivated. It has good water-power, and some manufactures, consisting of woolen goods, flour, and lumber. The v. on Oleont creek has some mills, etc. Pop. of t. 1,507.

SIDNEY, p. v., and cap. Shelby co., *Ohio*: on a branch of the Great Miami river and line of the Sidney feeder of the Miami canal, 65 m. W. N. W. Columbus. It contains a fine brick court-house, a jail, several stores, manufactories, etc., and is destined to be a place of commercial importance. The Bellefontaine and Indiana R. R. passes through it, and is here intersected by the Dayton and Michigan R. R.—two lines connecting it with the great towns in every direction. Pop. in 1840, 713, and in 1850, 1,302.

SIDNEY CENTRE, p. v., Delaware co., *N. Y.*: on a small stream, tributary of the Susquehanna river, 83 m. W. S. W. Albany.

SIDNEY PLAINS, p. v., Delaware co., *N. Y.*: on S. side of Susquehanna r., 92 m. W. S. W. Albany.

SIDONSBURG, p. o., York county, *Penn.*: 11 m. S. by W. Harrisburg.

SIEGEL'S STORE, p. o., Lincoln county, *N. Car.*: 139 miles W. S. W. Raleigh.

SIERRA county, Calif. Situate E. on the State line, and occupying the mountain sources of the Yuba river. Area about 800 sq. m. The principal mountains are Saddle Peak, 7,200 feet high; Table mountain 8,000 feet, and the Buttes at the head of the S. fork of the Yuba, 9,000 feet, and surrounded with quartz leads. This is one of the richest gold fields in the State, and has also many facilities for successful agriculture, its great elevation nevertheless. Limestone of excellent quality abounds; but there are no mineral springs. In 1852 the capital invested in quartz mining amounted to \$9,109; in placer mining, \$134,051, and in other industries, \$732,225. The principal mining locations are Downieville, with 810 inhabitants; Pine Grove, with 504; Windsor, 210; Cox's and Snake Bars, 346, and Good-year's Bar, 356. Cultivated land 168 acres. Population at same date 4,855—whites 3,692—3,630 males, and 62 females; negroes 42; mulattoes 7, and foreign residents 1,067—1,033 males, and 34 females. Over 21 years of age—citizens of the United States 3,463, negroes 41, mulattoes 7, and foreigners 976. *Capital*: Downieville.

SIERRA MORINO, or **BROWN MOUNTAINS**, San Francisco co., *Calif.*: the most remarkable commence at a point about 10 miles S. of San Francisco city, and run along the coast until they unite with the range of same name in the county of Santa Clara; they are above 2,000 feet in height, and protect the inhabitants of the valley from the coast winds. The soil in the valleys is rich and productive. Several streams have their sources here, and some gold is found

SIERRA NEVADA mountains, Calif. (See CALIFORNIA.)

SIGOURNEY, p. v., Keokuk county, *Ia.*: on a branch of Skunk r., 50 m. S. W. Iowa City. Pop. 162.

SILL'S CREEK, p. o., New Hanover co., *N. Car.*: 84 m. S. S. E. Raleigh.

SILLOAM, p. v., Madison co., *N. Y.*: 104 m. W. N. W. Albany. **SILOAM**, p. o., Surry county, *N. Car.*: 126 m. W. N. W. Raleigh.

SILVER lake, Wyoming co., *N. Y.*: a beautiful lake, lying in the towns of Perry and Castile, 5 m. long and three-quarters of a mile wide, abounding with excellent fish, originally introduced from Lake Erie.

SILVER BLUFF, *S. Car.*: an eminence extending about 2 m. along the bank of the Savannah river, about 1 m. wide, and elevated nearly 30 feet above the opposite shore.

SILVER CREEK, p. v., Stephenson co., *Ill.*: on the S. side of Pekatonica r., at the mouth of Silver creek, 163 miles N. Springfield. The Illinois Central R. R. passes 1 mile N. of this place.

SILVER CREEK, p. o., Schuylkill co., *Penn.*: 42 m. N. E. Harrisburg.

SILVER CREEK, t. and p. o., Cass co., *Mich.*: 93 m. S. W. Lansing. Drained by Dorrage lake river. Surface gently undulating, with an exceedingly fertile soil, producing grain in abundance. The stream affords good water-power. Pop. 491.

SILVER CREEK, p. v., and sta., Chautauque county, *N. Y.*: near the mouth of the creek so called and its confluence with Lake Erie, and on the Buffalo and State Line R. R., 31 miles S. by W. Buffalo, 256 m. W. from Albany. It is a manufacturing village, and has some trade in lumber, etc. The imports for 1848 amounted to \$212,819, and the exports \$107,081, making a total of \$319,900. Being connected with Dunkirk and Buffalo by R. R. and the lake by water, it bids fair soon to become a place of some note. It has 1 bank, cap. \$92,550. The "Silver Creek Mail" (whig) is a weekly issue. **SILVER CREEK**, p. o., Maury county, *Tenn.*: 35 m. S. S. Nashville.

SILVER GLADE, p. v., Anderson district, *S. Car.*: E. of Twelve Mile creek, 95 m. N. W. by W. Columbia.

SILVER HILL, p. o., Davidson county, *N. Car.*: 89 m. W. Raleigh.

SILVER LAKE, p. o., Washtenaw co., *Mich.*: 45 m. S. E. Lansing.

SILVER LAKE, t. and p. v., Susquehanna co., *Penn.*: 59 m. N. N. E. Harrisburg. Drained by tributaries of Chococout creek, and by Silver creek, outlet of Silver lake, a sheet of water three-quarters of a mile long and half a mile wide, N. E. of which is Quaker lake. Surface hilly; soil fertile. The v. on Silver cr. has several mills, etc.

SILVER RUN, p. o., Meigs co., *Ohio*: 75 m. S. E. Columbus.

SILVER RUN, p. v., Talladega co., *Ala.*: on Chockolocko creek, 86 m. N. by E. Montgomery.

SILVER SPRING, p. o., St. Francis co., *Mo.*: 107 m. E. S. E. Jefferson City. Deposits of iron and lead are found in the vicinity.

SILVER STREET, sta., Newbury dist., *S. Car.*: on the Greenville and Columbia R. R., 54 m. W. N. W. Columbia.

SILVERTON, p. o., Barnwell district, *S. Car.*: 63 m. S. W. Columbia.

SILVER TOP, Obion co., *Tenn.*: 137 m. W. Nashville.

SILVERVILLE, p. v., Lawrence co., *Ind.*: on a branch of White r., 65 m. S. S. W. Indianapolis.

SIMMONS, p. o., Lawrence co., *Ohio*: 99 m. S. by E. Columbus. **SIMMONSVILLE**, p. o., Giles co., *Virg.*: 143 m. W. by S. Richmond.

SIMM'S PORT, p. o., Avoyelles par., *La.*: 73 m. N. W. Baton Rouge.

SIMONSVILLE p. v., Windsor co., *Verm.*: on a branch of William's river, 73 m. S. Montpelier.

SIMPSON county, Ky. Situate S. toward the W., and contains 234 sq. m. Drained by Drake's creek and branches, which enter Big Barren r., in the E. of Warren co., and by branches of Red r., a chief tributary of Cumberland r. Surface level; soil fertile, and adapted to cotton and tobacco, which with wheat and Indian corn, form the staples. The

boundary line of the State lies on its S. border. Farms 686; manuf. 37; dwell. 963, and pop.—wh. 5,755, fr. col. 43, sl. 1,935—total 7,723. *Capital*: Franklin. *Public Works*: Louisville and Nashville R. R.

SIMPSON county, *Miss.* Situate toward the S. W., and contains 584 sq. m. Drained by branches of Pearl river, which bounds it on the W. Surface level; soil generally fertile, and adapted to grazing. Chief productions, rice and cotton. Farms 451; manuf. 8; dwell. 526, and pop.—wh. 3,190, fr. col. 3, sl. 1,541—total 4,734. *Capital*: Westville.

SIMPSONVILLE, p. o., Floyd county, *Virg.*: 137 m. W. by S. Richmond.

SIMPSON'S, sta., Preston co., *Virg.*: on the Baltimore and Ohio R. R., 113 m. S. E. Wheeling, and 173 m. N. W. Richmond.

SIMPSON'S MILL, p. o., Laurens dist., *S. Car.*: on E. side of Raeburn's cr., 66 m. N. W. Columbia.

SIMPSON'S STORE, p. o., Washington co., *Penn.*: 175 m. W. Harrisburg.

SIMPSONVILLE, p. v., Shelby co., *Ky.*: on Floyd's fork of Salt r., 181 m. S. W. Nashville.

SIMPSONVILLE, p. o., Anne Arundel county, *Md.*

SIMSBURY, t., p. v., and sta., Hartford co., *Conn.*: on W. side of Farmington r., 11 m. N. W. Hartford; by New Haven and Northampton or Canal R. R., 42 miles N. from New Haven. Surface of t. is much diversified; soil various. In the N. E. corner is the flourishing manufacturing village of Tariffville. Pop. of t. in 1840, 1,895; in 1850, 2,737.

SINCLAIR'S BOTTOM, p. o., Smyth county, *Virg.*: 231 m. W. S. W. Richmond.

SINEATH, v. and sta., Charleston district, *S. Car.*: on the South Carolina R. R., 13 m. N. W. Charleston.

SINEPUXENT bay, Worcester co., *Md.*: a large sheet of water inclosed from the Atlantic Ocean by the sand beach, called Assateague, or Fenwick's island. It is navigable only for very small craft.

SINEPUXENT neck, Worcester co., *Md.*: a long neck of land projecting into the bay so called, almost separated from the main by Trap and Herring creeks, between the waters of which the construction of a canal has been proposed.

SING SING, p. v. and sta., Westchester co., *N. Y.*: on E. bank of Hudson river; by Hudson River R. R., 82 m. from New York, and 118 m. from Albany. Situated on elevated and uneven ground, and presenting a picturesque appearance. Incorporated in 1813. It has several landings, from which steamboats and other vessels ply daily to New York, with which it has a large trade. It contains an iron foundry, ship-yard, grist-mill, some small manufactories, and 5 churches. Mount Pleasant Academy, an incorporated institution for boys, has a handsome marble edifice, 3 stories high above the basement. The Mount Pleasant Female Seminary is also an incorporated institution, having a beautiful location. The Croton Aqueduct at this place is an object of much attraction; it crosses over the Sing Sing kill by a handsome arch, of which the space between its abutments is 88 feet, and its elevation from the creek 100 feet. Sing Sing is chiefly celebrated for its very extensive quarries of excellent marble, large quantities of which are annually quarried and sent to New York and other places; these are chiefly worked by the convicts of the State Prison, located about half a mile S. of the village, on grounds comprising 130 acres. The main building is 434 feet long, 44 feet wide, 5 stories high, and contains 1,000 cells. Adjoining it are the various workshops, chapel, hospital, store-houses, etc., all built of rough-dressed marble. The female convicts are in a separate building. The annual receipts of labor from the convicts are nearly equalled by the expenditures. The average number of convicts in 1850 was 721, of whom 50 were females. Pop. about 2,500.

SINKING CREEK, p. o., Botetourt co., *Virg.*: 131 m. W. Richmond.

SINKING SPRING, p. v., Highland co., *Ohio*: on E. side of Brush cr., 61 m. S. by W. Columbus.

SINKING SPRING, p. v., Berks county, *Penn.*: 45 m. E. Harrisburg.

SINKING VALLEY MILLS, p. o., Blair co., *Penn.*: 80 m. W. by N. Harrisburg.

SINNAMAHOING, p. o., Clinton co., *Penn.*: 89 m. N. W. Harrisburg.

SINNAMAHOING river, *Penn.*: a large tributary of the W. branch of Susquehanna r., from the N. W., 50 m. long, emptying into the W. branch in N. W. part of Clinton co.

SINSINAWA mound, *Wis.*: a noted elevation in Grant county, near the Illinois line, 12 m. N. W. Galena. Here has been established a Catholic college and Dominican convent.

SIoux county, *Ia.* Situate N. W., and contains 1,050 sq. m. Drained by head branches of Floyd's r., a tributary of Sioux r., which flows on its western border. Surface in general level, but in parts undulating, presenting a pleasing diversity in the nature of the county. Soil fertile, and favorable to the growth of fruit, wheat, Indian corn, etc. It has some excellent timber. Set off since 1850.

SIoux river, *Minn.* and *Ia.*: more commonly named Big Sioux r., rises in one of the numerous lakes near the head of the elevated prairie land in the central portion of Minnesota Territory—flows E. S. E. about 200 miles, and empties into the Missouri r. Below 43° 30' N. lat., it forms the boundary between Iowa and Minnesota.

SIPESVILLE, p. o., Somerset county, *Penn.*: 113 m. W. S. W. Harrisburg.

SIPPICAN, p. v., Plymouth co., *Mass.*: on W. side of Sippican harbor of Buzzard's bay, 51 m. S. by E. Boston. The principal business of this v. is the manufacture of salt.

SIPSEY TURNPIKE, p. o., Tuscaloosa co., *Ala.*: on the right bank of Sipsey r., 106 m. W. N. W. Montgomery.

SIR JOHN'S RUN, p. o., and sta., Morgan co., *Virg.*: on the Baltimore and Ohio R. R., 49 m. N. W. Harper's Ferry, and 128 m. N. by W. Richmond.

SISKIYOU county, *Calif.* Situate N. E. between Shasté county and the N. State line, and extending E. and W. between the E. line of the State and the Coast Range. Area about 8,000 sq. m. The surface is elevated and mountainous, with valleys of great extent intervening. It contains Mount Shasté, a lofty eminence, 14,400 feet above the sea-level, and from the slopes of which the Sacramento has its head constituents. A large number of tributaries, of which Pitt r. is the most considerable, join it in this county, and there are also several mountain lakes, the outlets of which flow into it. Of these Rheit and Deer lakes are the most extensive. Gold mining is the principal industry. In 1852 there were 9 quartz mills in operation. Capital invested in quartz mining, \$35,580; in placer mining, \$39,165; and in other mines, \$11,950. Capital employed in other occupations, \$72,310. Land under cultivation, 309 acres. Population at the same period, 2,240, of which were wh. 1,956—males 1,874, and females 82; negroes 34—males 33, and female 1; mulattoes, 4 males; Indians 26—22 males, and 4 females; and foreign residents 220—males 213, and females 7. Over 21 years of age—citizens of the United States 1,517. negroes 32, mulattoes 4, Indians 12, and foreigners 207.

Capital: —

SISSONVILLE, p. v., Kanawha co., *Virg.*: on a branch of Pocatalico r., 237 m. W. N. W. Richmond.

SISTERSVILLE, p. v., Tyler co., *Virg.*: on the left bank of the Ohio r., 59 m. below Wheeling, and 239 m. N. W. Richmond. This place was originally laid out as the county seat, in 1814, which was subsequently transferred to Middleton, 9 m. east.

SIX CORNERS, p. o., Richland co., *Ohio*: 57 m. N. by E. Columbus.

SIX MILE, p. o., Jennings co., *Ind.*: on a creek so called, 53 m. S. S. E. Indianapolis.

SIX MILE FALLS, p. o., Penobscot co., *Me.*

- SIX MILE RUN, p. o., Somerset co., *N. Jer.*
- SIX MILE RUN, p. o., Bedford co., *Penn.*: 83 m. W. S. W. Harrisburg.
- SIX RUNS, p. v., Sampson co., *N. Car.*: on the E. side of a cr. so called, 66 m. S. by E. Raleigh.
- SKANEATELES, t. and p. v., Onondaga co., *N. Y.*: 140 m. W. by N. Albany. The greater part of the lake so called is in this town, and its outlet, flowing N. into Seneca r., drains it, and affords excellent water-power. The surface, for 5 or 6 miles from the foot of the lake upward, slopes gently to to the water's edge, but toward the head of the lake it becomes more abrupt, and even mountainous, and there are miniature palisades containing geological wonders. The soil is excellent, and the country is noted for its agricultural resources; and is well laid out in farms, with spacious farm-houses and out-buildings, giving every indication of abundance and thrift. The v. (incorporated in 1808) is at the outlet of the lake, and having a commanding site, presents a neat and tasteful appearance. Near it, at the base of a steep range of hills, some 600 feet high, is a commodious hotel and a water-cure establishment. It is a considerable manufacturing place, and contains flouring and saw mills, iron foundries, machine shops, two extensive carriage factories, woolen factories, and tanneries, besides a number of workshops of various kinds. The Skaneateles and Jordan Branch R. R. diverges from the v., and connects with the Rochester and Syracuse R. R. at the junction, 5 m. N. Three papers are issued, 2 weekly, the "S. Columbian" (whig), and the "S. Democrat" (dem.), and 1 monthly, the "Family Companion." Pop. of t. 4,050.
- SKANEATELES lake, *N. Y.*: lies partly between Cayuga and Onondaga counties. It is a beautiful sheet of water, 15 m. long, and about 1 m. wide, and surrounded by romantic scenery. It is noted for its fine trout and other fish, with which it abounds.
- SKEELS' CROSS ROADS, p. o., Mercer co., *Ohio*: 89 m. W. by N. Columbus.
- SKEGG'S CREEK, p. o., Barren co., *Ky.*: on a stream so called, 116 m. S. S. W. Frankfort.
- SKINNER'S, p. o., Benton co., *Oreg. Ter.*: 50 m. S. S. E. Salem.
- SKINNER'S EDDY, p. o., Wyoming co., *Penn.*: on Susquehanna r., 95 m. N. N. E. Harrisburg.
- SKINQUARTER, p. o., Chesterfield co., *Virg.*
- SKIPPACK, t. and p. o., Montgomery co., *Penn.*: 77 m. E. Harrisburg. Drained by the cr. so called. Surface hilly; soil fertile. Skippackville is in this town. Pop. of t. 1,622.
- SKOWHEGAN, t. and p. v., Somerset co., *Me.*: on N. bank of Kennebec r., 32 m. N. Augusta. Soil fertile and well cultivated. The v. possesses the advantages of a great water-power, furnished by Skowhegan falls, which are improved by mills of various kinds, a woolen factory, tannery, &c. It is well built, and has considerable trade. The "People's Press" (whig) and "Democratic Clarion" are published weekly. Pop. of t. 1,756.
- SKUNK RIVER, *Ia.*: rises in the highlands, in the central part of the State, flows by S. E. course nearly parallel to the Des Moines for 150 m., and empties into the Mississippi. It drains a rich and fertile portion of the State, and abounding with timber, and affords many excellent mill sites.
- SLABTOWN, p. o., Anderson dist., *S. Car.*: on the E. side of Twenty-three Mile cr., 103 m. N. W. Columbia.
- SLABTOWN, sta., Rush co., *Ind.*: on the Rushville and Shelbyville R. R., 14 m. S. of Shelbyville, and 32 m. E. S. E. Indianapolis.
- SLACK, p. o., Mason co., *Ky.*: 71 m. N. E. Frankfort.
- SLADE, p. o., Lee county, *Ga.*: 107 miles S. W. Milledgeville.
- SLADESVILLE, p. o., Hyde co., *N. Car.*: 133 m. E. by S. Raleigh.
- SLATE, p. v., Bath co., *Ky.*: at the confluence of Slate cr. with Licking r., 67 m. E. Frankfort.
- SLATEFORD, p. o., Northampton co., *Penn.*: 97 m. N. E. Harrisburg.
- SLATE HILL, p. o., York co., *Penn.*: 25 m. S. Harrisburg.
- SLATE HILL, p. o., Orange county, *N. Y.*: 97 m. S. W. Albany.
- SLATE LICK, p. o., Armstrong co., *Penn.*: 137 m. W. N. W. Harrisburg.
- SLATE MILLS, p. o., Rappahannock county, *Virg.*: on a branch of the Rappahannock river, 75 miles N. N. W. Richmond.
- SLATERVILLE, p. v., Tompkins co., *N. Y.*: on Six Mile cr., 138 m. W. by S. Albany. It is a small manufacturing village containing about 350 inhabitants.
- SLATERVILLE, p. v., Providence co., *R. I.*: on Branch r., 14 m. N. W. by N. Providence. It contains several factories, which are chiefly engaged in making cotton and print goods, &c. It is a pleasant v., and contains also two churches.
- SLEDGEVILLE, p. v., Panola co., *Miss.*: on a branch of Tallahatchee r., 150 m. N. Jackson.
- SLEEPY CREEK, p. o., Wayne co., *N. Car.*: 43 m. S. E. Raleigh.
- SLEEPY CREEK, sta., Berkeley co., *Virg.*: on the Baltimore and Ohio R. R., 35 m. N. W. Harper's Ferry, and 133 m. N. by W. Richmond.
- SLEEPY CREEK, p. v., Edgefield dist., *S. Car.*: on a branch of Little r., 52 m. W. Columbia.
- SLEEPY CREEK BRIDGE, p. o., Morgan co., *Virg.*: 80 m. N. N. W. Richmond.
- SLIGO, p. o., De Kalb county, *Tenn.*: 55 m. E. by S. Nashville.
- SLIGO, p. o., Henry co., *Ky.*: 25 m. N. W. Frankfort.
- SLIGO, p. o., Clinton co., *Ohio*: 55 m. S. W. Columbus.
- SLIPPERY ROCK, t. and p. o., Buller co., *Penn.*: 173 m. W. N. W. Harrisburg. Drained by the cr. so called, and its tributary, Wolf cr. Surface uneven, with a very fertile soil, producing grain, &c. The v. of Centreville is located in the town. There are in the t. two furnaces, with an annual capacity of 1,100 tons each; several tanneries, grist, and saw mills. Pop. of t. 1,700.
- SLOANSVILLE, p. v., Schoharie co., *N. Y.*: on Vly cr., and on Cherry Valley turnpike, 32 m. W. by N. Albany. It derives good water from the stream, improved by various saw-mills, &c. Pop. about 350.
- SLOATSBURG, p. v. and sta., Rockland co., *N. Y.*: on the Ramapo river, and on the New York and Erie R. R., 35 m. N. by W. New York, and 163 m. S. by W. from Albany. This beautiful and thriving manufacturing place presents a singular aspect to the traveler. From the sta. are to be seen two substantial cotton factories, and not a sign of a v. or hamlet in sight, those employed in them dwelling in the humble but neat abodes scattered along this "happy valley." The mills, embowered as they are in noble trees, look as though they were placed in some gentleman's park, did not the adjacent dingy blacksmith shops show that the precincts were those of a regular factory. These establishments were erected in 1820, the brick portion in 1846, and are used exclusively for making cotton twine, of which article 5,000 pounds are sent weekly "by rail" to New York. This improved town is the invention of the principal proprietor of the mills, and owner of the grounds on which they stand, Major Jacob Sloat, from whom the place gets its name. He derives his domain from his grandfather, to whom it was assigned by five Indian chiefs in 1738, and the original deed of conveyance, being drawn up in a choice lingo, compounded of Dutch and Indian, is quite a curiosity.
- SLOYERSVILLE, p. o., Luzerne co., *Penn.*: 77 m. N. N. E. Harrisburg.
- SMARE'S, sta., Monroe co., *Ga.*: on the Macon and Western R. R., 19 m. W. by N. from Macon, and 51 m. W. by S. from Milledgeville.
- SMELSER'S MILLS, p. o., Rush co., *Ind.*: 83 m. E. by S. Indianapolis.

SMELTZER'S GROVE, p. o., Grant co., *Wisc.*: 65 m. S. W. Madison.

SMELTZER'S MOUNT, p. o., Pickens dist., *S. Car.*: 135 m. N. W. by W. Columbia.

SMICKSBURG, p. v., Indiana co., *Penn.*: on Mahoning cr., 127 m. W. N. W. Harrisburg.

SMITH county, *Miss.* Situate S. centrally, and contains 615 sq. m. Drained by head branches of Leaf river and branches of Pearl r. Surface uneven; soil in general good, and adapted to cotton, which is the principal production of the co. It has some fine pasture land. Farms 425; manuf. 8; dwell. 515, and pop.—wh. 3,073, fr. col. 0, sl. 998—total 4,071. *Capital*: Raleigh.

SMITH county, *Tenn.* Situate toward the N., and contains 238 sq. m. Cumberland r. passes through the co., by which and its tributary, Caney fork, and also by their branches, it is drained. Surface hilly; soil fertile, the land in general being very productive and adapted to tobacco, which it produces abundantly. Good cotton is also grown, and fine crops of wheat and Indian corn are raised. It exports large quantities of beef and pork. Farms 1,310; manuf. 32; dwell. 2,422, and pop.—wh. 13,709, fr. col. 186, sl. 4,517—total 18,412. *Capital*: Carthage.

SMITH county, *Tex.* Situate toward the N. E., and contains 1,046 sq. m. Drained by head branches of Angelina river and affluents of Neches r., which runs on its W. border. Surface undulating; soil varied; on the rivers the land is generally rich, and consists of a fine black mold, favorable to the growth of cotton and corn. Grapes grow wild, and might, by cultivation, be rendered valuable. It has many springs and numerous streams of excellent water. Farms 243, manuf. 1; dwell. 603, and pop.—wh. 3,575, fr. col. 0, sl. 717—total 4,292. *Capital*: Tyler.

SMITH DALE, p. o., Amité county, *Miss.*: 88 m. S. S. W. Jackson.

SMITHFIELD, p. v., Delaware co., *Ind.*: on the N. bank of White r., and on the Indianapolis and Bellefontaine R. R., 60 m. N. E. Indianapolis.

SMITHFIELD, t. and p. v., Somerset county, *Ma.*: 23 m. N. Augusta. The town contains East Pond and part of Milk Pond; has a few saw-mills and some manufactures. Pop. of t. 873.

SMITHFIELD, p. v., and cap. Johnson co., *N. Car.*: on the E. side of Neuse river, 20 m. S. E. Raleigh. It contains a court-house, jail, and other county buildings. Pop. 329.

SMITHFIELD, t. and p. v., Jefferson county, *Ohio*: 111 m. E. by N. Columbus. Drained by branches of a stream flowing E. into the Ohio river, affording good mill-power. Surface much broken; soil adapted to grain and grass. The t. contains several stores and flouring-mills, a tannery, etc. Pop. of t. 1,882.

SMITHFIELD, sta., Mahoning co., *Ohio*: on the Ohio and Pennsylvania R. R., 57 m. E. by N. Wooster, and 117 m. N. E. Columbus.

SMITHFIELD, p. v., Polk co., *Tex.*: on E. bank of Trinity river, 174 m. E. by N. Austin City.

SMITHFIELD, t., Providence co., *R. I.*: 9 m. N. Providence. This large and important manufacturing t. comprises several large factory villages, described in order, of which Woonsocket Falls and Slatersville are among the largest. Great water-power is furnished by Blackstone river (which bounds it on the E.) and its branches, particularly at Woonsocket Falls, where it has a descent of about 20 feet in a short distance, over a rocky precipice. Surface undulating, and in some parts rough, but for the most part agreeably diversified; soil gravelly and sandy loam, and generally fertile, with some low and marshy tracts. Limestone abounds, and the manufacture of lime is extensive, employing many persons. There is a quarry of whetstone at Woonsocket Hill, valuable for furnace hearths, and 2 miles from this a quarry of excellent whetstones. In the S. part of the town is Scott's Pond, a considerable body of water, of great depth and steep shores. The factories are chiefly en-

gaged in making print goods, cotton goods, etc., but other mills are numerous. In the t. are 5 banks, with aggregate capital of \$384,775. Population in 1840, 9,584; in 1850, 11,500.

SMITHFIELD, p. o., Fayette co., *Penn.*: in a hilly region, on left bank of the Youghiogony r., 133 m. W. S. W. Harrisburg.

SMITHFIELD, p. o. and sta., Henry co., *Ky.*: on the Louisville and Frankfort R. R., 30 m. N. W. Frankfort.

SMITHFIELD, p. v., and cap. Isle of Wight co., *Virg.*: on an inlet of James' r., 25 m. W. by N. Norfolk and 53 m. S. E. Richmond. It contains a court-house and other county buildings. Pop. 438.

SMITHLAND, p. v., Livingston co., *Ky.*: on the Ohio r., at the lower side of the mouth of Cumberland r., 75 m. below Raleigh, 205 m. W. S. W. Frankfort. It is a place of some importance, enjoying considerable trade with the interior of Tennessee, being a point for the re-shipment of goods destined up the Cumberland r. It contains a bank, several manufactories, a boat-yard, etc.

SMITHLAND, p. o., Cass county, *Tex.*: 255 miles N. E. Austin City.

SMITHLAND, p. v., Randolph co., *Mo.*: 50 m. N. N. W. Jefferson City.

SMITHPORT, p. v., and cap. McFean co., *Penn.*: on the W. side of Potato cr., 133 m. N. W. Harrisburg. It contains the court-house, jail, and other public buildings built of brick, an academy, several mills, &c.

SMITH'S, p. o., Gallia co., *Ohio*: 84 m. E. Columbus.

SMITH'S island, Somerset co., *Md.*: a long, narrow island, extending from Fog's Point, or Craig's Strait, nearly to Tangier Island. Less than one-half the island is within the limits of Maryland.

SMITH'S island, New Hanover co., *N. Car.*: is located at the mouth of Cape Fear r. Cape Fear is on the S. extremity of the island, and a lighthouse stands on the W. side, overlooking the channel. Lat. 35° 45' N., and long. 75° 9' W.

SMITH'S point, *Virg.*: the eastern extremity of Northumberland co., extending into Chesapeake bay.

SMITH'S BASIN, p. v. and sta., Washington co., *N. Y.*: on Wood cr. and on the Saratoga and Washington R. R. and Champlain Canal, 65 m. by railroad and 57 m. by canal, N. by E. Albany.

SMITHSBOROUGH, p. v., Tioga co., *N. Y.*: on the N. side of the Susquehanna r. and on the New York and Erie R. R., 246 m. N. W. New York and 146 m. (direct) from Albany. It is a prettily situated village, 10 m. beyond Owego, at which point a bridge crosses the Susquehanna.

SMITHSBURG, p. v., Washington co., *Md.*: in the midst of a fine agricultural district, 72 m. N. W. Annapolis. In 1850 it contained 366 inhabitants—348 white and 18 free colored.

SMITH'S CROSS ROADS, p. o., Rhea co., *Tenn.*: on W. side of Tennessee r., 103 m. S. E. Nashville.

SMITH'S CROSS ROADS, p. o., Morgan co., *Virg.*: 141 m. N. N. W. Richmond.

SMITH'S FERRY, p. o., Beaver co., *Penn.*: 179 m. W. N. W. Harrisburg.

SMITH'S FERRY, v. and sta., Hampshire co., *Mass.*: on the right bank of the Connecticut r. and on the Connecticut River R. R., 12 m. N. Springfield and 81 m. W. by S. Boston.

SMITH'S FORD, p. v., York dist., *S. Car.*: on the left bank of Broad r., 67 m. N. by W. Columbia.

SMITH'S FORK, p. o., Hardin county, *Tenn.*: 97 m. S. W. Nashville.

SMITH'S GAP, p. o., Hampshire co., *Virg.*: 145 m. N. N. W. Richmond.

SMITH'S GROVE, p. o., Warren county, *Ky.*: 61 m. S. E. Nashville.

SMITH'S GROVE, p. v., Davie co., *N. Car.*: 102 m. W. Raleigh.

SMITH'S MILLS, p. o., Henderson co., *Ky.*: 97 m. S. W. Nashville.

SMITH'S MILLS, p. v. and sta., Chautauque co., N. Y.: on Silver cr. and on the New York and Erie R. R., 12½ m. E. Dunkirk, 447½ m. N. W. by W. New York and 234 m. W. Albany. The v. is surrounded by a highly cultivated farming district.

SMITH'S MILLS, p. v., Carroll co., Miss.: on a branch of Yallahusha r., 95 m. N. Jackson.

SMITH'S MILLS, p. o., Morrow county, Ohio: 42 m. N. Columbus.

SMITH'S MILLS, p. v., Clearfield co., Penn.: on a branch of Clearfield cr., 85 m. W. N. W. Harrisburg. Limestone is found in the vicinity.

SMITH'S STORE, p. v., Spartanburg dist., S. Car.: on a branch of Tiger r., 69 m. N. W. Columbia.

SMITHTOWN, t. and p. v., Suffolk co., N. Y.: bordering on Long Island Sound, 123 m. S. S. E. Albany. Drained by Nesaquake r., affording good water-power. Surface in most part level; soil inferior. The v. is at the head of boat navigation on the Nesaquake r., and contains besides a number of stores and mechanic shops, a factory for the manufacture of woolen goods, etc. A bay so called makes up from the sound into the t., and affords good anchorage for vessels during easterly storms. It abounds with a variety of fish and wild fowl. Pop. of t. 1,972.

SMITHTOWN BRANCH, p. o., Suffolk co., N. Y.: 131 m. S. S. E. Albany.

SMITHVILLE, p. v., and cap. Lawrence co., Ark.: on the left bank of Strawberry r., 105 m. N. N. E. Little Rock. It contains a court-house, jail, etc.

SMITHVILLE, p. v., Monroe co., Miss.: on a small stream flowing W. into Tombigbee r., 161 m. N. E. Jackson.

SMITHVILLE, p. v., Peoria co., Ill.: at the head of Copperas cr., 53 m. N. Springfield.

SMITHVILLE, p. v., Clay co., Mo.: on Smith's fork of Little Platte r., 133 m. W. N. W. Jefferson City.

SMITHVILLE, p. v., Jefferson co., N. Y.: on a branch of the Watertown and Rome R. R., 5 m. S. Sackett's Harbor and 150 m. N. W. Albany. It contains a carriage manufactory, several mills, etc.

SMITHVILLE, p. v., and cap. Brunswick co., N. Car.: on the W. side of Cape Fear r., near its mouth, and opposite Smith's Island. It has a good harbor, and contains a court-house, jail, and hospital. It is the seat of an academy, and is a U. S. military post. Pop. 1,464.

SMITHVILLE, p. v., Wayne co., Ohio: on a branch of Tuscarawas r., 53 m. N. E. Columbus.

SMITHVILLE, p. o., Lancaster county, Penn.: 33 m. S. E. Harrisburg.

SMITHVILLE, p. v., Abbeville dist., S. Car.: on W. side of Long Cane cr., 75 m. W. Columbia. The Abbeville Branch of Greenville and Columbia R. R. passes through this place.

SMITHVILLE, p. v., and cap. De Kalb co., Tenn.: 53 m. E. by S. Nashville, and contains the court-house, jail, etc.

SMITHVILLE, p. o., Powhatan county, Virg.: 21 m. W. Richmond.

SMITHVILLE, p. v., Worcester co., Mass.

SMITHVILLE, t., Chenango co., N. Y.: 106 m. W. by S. Albany. Drained by tributaries of Chenango r. Surface undulating; soil fertile. It has good water-power and several mill-seats. Pop. 1,771.

SMITHVILLE FLATS, p. v., Chenango co., N. Y.: on the E. side of Genegansletta cr., 109 m. W. by S. Albany. It contains manufactories of scythes, axes, rakes, pails, and leather, also several mills, workshops, etc.

SMOKY HOLLOW, p. o., Columbia co., N. Y.: a small manufacturing place, 32 m. S. by E. Albany. It contains a manufactory of woolen goods, machine shops, etc.

SMOKY ORDINARY, p. o., Brunswick co., Virg.: 53 m. S. by W. Richmond.

SMUT EYE, p. o., Coffee county, Ala.: 81 m. S. by E. Montgomery.

SMYRNA, p. v., Kent co., Del.: on the S. side of Duck cr.

It is a pleasant place, and contains stores of various kinds, shops, printing-offices, etc. The "Delaware Herald," and "Smyrna Telegraph," are weekly issues.

SMYRNA, p. o., Ionia county, Mich.: about 30 m. N. W. Lansing.

SMYRNA, t. and p. o., Aroostook co., Me.: 157 m. N. E. Augusta. Drained by the head waters of the Mattamaunkeag r., and branch of the Meduxnekeag r. Pop. 172.

SMYRNA, t. and p. v., Chenango co., N. Y.: 97 m. W. Albany. Drained by small streams, tributaries of Chenango r., from which water-power is derived. Surface broken and hilly; soil fertile. Settled in 1792. The manufactures consist in woolen goods, lumber, leather, flour, oil, etc. The v. is on a small stream, has good water-power, and contains several mills, workshops, etc. Pop. of t. 1,940.

SMYRNA, p. o., Barnwell district, S. Car.: 57 m. S. Columbia.

SMYRNA, sta., Rutherford co., Tenn.: on the Nashville and Chattanooga R. R., 21 m. S. Nashville.

SMYRNA, p. o., Harrison co., Ohio: 90 m. E. by N. Columbus.

SMYSEB'S, sta., York co., Penn.: on Codorus cr. of Susquehanna r., and on the Baltimore and Susquehanna R. R., at its junction with the Hanover Branch R. R., 36 miles S. Harrisburg.

SMYTH county, Virg. Situate S. W., and contains 516 sq. m. Drained by head branches of Holston river and New river. Surface broken and mountainous; soil on the banks of the streams fertile. Chief products wheat and Indian corn. Farms 460; manuf. 22; dwell. 1,146, and pop.—wh. 6,901, fr. col. 197, sl. 1,004—total 8,162. Capital: Marion. *Public Works*: Virginia and Tennessee R. R.

SNAKE island, N. Y.: lies in the Niagara r., 4 m. below Black Rock. It consists of 50 acres of grass land.

SNAKE BARS, v., Sierra co., Calif.: 137 m. N. E. Vallejo.

SNAPPING SHOALS, p. o., Newton co., Ga.: 59 m. N. W. Milledgeville.

SNEED'S FERRY, p. o., Onslow co., N. Car.: 97 m. S. E. Columbia.

SNEEDSVILLE, p. o., Hancock co., Tenn.: 192 m. E. by N. Nashville.

SNIBAR, p. v., Lafayette county, Mo.: 105 m. W. N. W. Jefferson City.

SNICKERSVILLE, p. v., Loudon co., Virg.: near Snicker's Gap, of the Blue Ridge Mountains, 103 m. N. by W. Richmond. It is a small place, with about 135 or 140 inhabitants.

SNIDER'S, p. o., Washington county, Ky.: 33 m. S. by W. Frankfort.

SNOW CAMP, p. o., Orange co., N. Car.: 37 m. N. W. Raleigh.

SNOW CREEK, p. o., Iredell co., N. Car.: on a stream so called, 123 m. W. Raleigh.

SNOW CREEK, p. o., Pickens dist., S. Car.: 121 m. N. W. Columbia.

SNOW CREEK, p. o., Marshall co., Miss.: 175 m. N. by E. Jackson.

SNOW CREEK, p. v., Franklin co., Virg.: on a stream so called, 130 m. W. S. W. Richmond.

SNOW FALLS, p. o., Oxford co., Me.: 45 m. W. Augusta.

SNOW HILL, p. v., Wilcox co., Ala.: on the left side of Cedar cr., 43 m. S. W. Montgomery.

SNOW HILL, p. o., Hamilton co., Tenn.: 103 m. S. E. Nashville.

SNOW HILL, p. v., Walker co., Ga.: on one of the head branches of Tennessee r., 132 m. N. W. Milledgeville.

SNOW HILL, p. v., cap., and port of entry, Worcester co., Md.: on the E. bank of Tomoke r., 25 m. above its confluence with the bay of the same name, 81 m. S. E. Annapolis. It contains a court-house, jail, an academy, and other public buildings. The total enrolled and licensed tonnage of the district in June, 1850, was 9,512 tons, 225 tons of which are vessels under 20 tons burthen; and of the whole tonnage 255 tons are employed in the coasting trade. The

total number of vessels built during the year ending June, 1850, was 26 schooners, 990 tons. The "Worcester Shield" is a weekly (whig) issue. Pop. 714.

SNOW HILL, p. v., Clinton county, *Ohio*: 53 m. S. S. W. Columbus.

SNOW HILL, p. v., and cap. Greene co., *N. Car.*: on S. side of Contentnea cr., branch of Neuse r., 62 m. E. S. E. Raleigh. It contains a court-house, jail, and the usual number of county buildings.

SNOW SHOKE, t. and p. v., Centre co., *Penn.*: 80 m. N. W. Harrisburg. Drained by tributaries of Beach and Bald Eagle creeks, which furnish good water-power. Surface mountainous; the main ridge of the Alleghanies passing through the S. part. The v. is on a branch of Beach creek, and contains several mechanic shops, mills, etc.

SNOW'S STORE, p. v., Windsor co., *Verm.*: on a branch of White r., 39 m. S. Montpelier.

SNOWSVILLE, p. o., Choctaw co., *Miss.*: at the source of Yochamockany cr., 89 m. N. N. E. Jackson.

SNYDESVILLE, p. v., Monroe co., *Penn.*: 93 m. N. E. Harrisburg.

SNYDERTOWN, p. v., Northumberland co., *Penn.*: 55 m. N. Harrisburg.

SOAP CREEK, p. o., Davis county, *Ia.*: 73 m. S. W. Iowa City.

SOCOPATOY, p. v., Coosa county, *Ala.*: on a tributary of Coosa r., 45 m. N. by E. Montgomery.

SOCIAL CIRCLE, p. v., Walton county, *Ga.*: on the Georgia R. R., 120 m. W. by N. Augusta, and 52 N. N. W. Milledgeville.

SOCIALLY, p. o., Cattaraugus co., *N. Y.*: on a tributary of Connewango cr., 276 m. W. by S. Albany.

SOCIETY HILL, p. v., Macon co., *Ala.*: on Ufaupsee cr. of Tallapoosa r., 53 m. E. Montgomery.

SOCIETY HILL, p. v., Darlington dist., *S. Car.*: near Great Pedee r., and on the Cheraw and Darlington R. R., 73 m. N. E. Columbia.

SOCORRO, p. v., Socorro co., *N. Mex.*: on the right bank of the Rio Grande del Norte, 165 miles S. from Santa Fé. There is an old Spanish fort in the village.

SODUS, t. and p. v., Wayne county, *N. Y.*: 27 miles S. W. Oswego, and 176 W. N. W. Albany. Lake Ontario bounds it on the N. Drained by Salmon and other creeks flowing into Sodus bay and Lake Ontario. The surface has a gentle declination toward the lake; soil fertile, and much grain and grass is raised. Sodus bay makes up into the town, and is the best harbor on the lake shore. The v. is on the ridge road 5 miles S. of the lake, and has several mechanic shops, stores, etc. The t. contains a number of manufactories, mills, etc. The manufactures are chiefly flour, lumber, and leather. Pop. of t. 4,595.

SODUS bay, Wayne county, *N. Y.*: this bay makes up from Lake Ontario, about 30 miles W. from Oswego, and 30 E. from Rochester. It is a little more than 5 m. long, and from one and a half to three broad, containing an area exceeding 12 square miles. The entrance to it on the lake is protected by substantial piers, built by the United States government, of more than a mile in length, and is easily accessible at all times to larger vessels than are engaged in the commerce of the lakes. A revolving light and beacon are maintained at the public expense; height of lantern 66 feet; lat. 43° 19' N. The bay is completely land-locked, so as to be protected from every wind, both from the lake and the shore. Its borders are high and salubrious. The average depth of the waters exceed 40 feet, and it is pronounced to be far the best harbor on any of the great lakes, and equal to any on this continent. It is sometimes called Great Sodus Bay.

SODUS CENTRE, p. o., Wayne co., *N. Y.*: 179 m. W. N. W. Albany.

SODUS POINT, p. v., and port of entry, Wayne co., *N. Y.*: at the entrance of Sodus bay into Lake Ontario, 28 miles E. W. Oswego, and 176 W. N. W. Albany (direct), and 225

by canal. Although at present but a comparatively small place, it is destined soon to become one of much importance. The Sodus canal, undergoing rapid completion, will connect it with the great channel of internal communication, the Erie Canal, and with other internal improvements. It is a tributary of the Erie Canal, and will be the means of bringing a large business into that portion of it which lies between the junction at Clyde and Albany. It is also a tributary to the Cayuga and Seneca canals, connecting the Cayuga and Seneca lakes with the Erie Canal. The Sodus Canal is of the same capacity as the enlarged Erie Canal, 70 feet width by 7 feet depth, with corresponding locks. It will easily admit vessels of 200 tons, which will pass from the Welland Canal and the ports of Lake Ontario through to Albany or to Ithaca without breaking bulk. A railroad connects the v. with the Rochester and Syracuse R. R. (direct line), and the Sodus Point and Southern R. R. connects it with the New York and Erie R. R. at Elmira. This will eventually be the great coal depôt on the lake, and the railroad will be the main channel of conveyance from the Pennsylvania mines. The building of wharves, etc., is in contemplation, which will much improve the harbor and facilitate the trade.

SOLANO county, Calif. Situate centrally, with its base resting on Suisson bay and Sacramento r., and contains about 500 sq. m. Putah r. makes its N. E., and Suscol Hills the S. W. boundary. The Putah rises in the mountains, winds through a rich, lovely, and fertile plain, and loses itself in the extensive "tules" which lie between the plains and the Sacramento. The western part of the county is mountainous, with many small valleys, well adapted to stock-raising. At the head of Green Valley is a conspicuous double peak, and another of lesser magnitude, between Green and Suscol valleys. Suscol Valley lies W. of Suscol Hills, running N. from the city of Vallejo, and is 8 m. long and 3 m. in width, Napa bay washing its whole length. This is a desirable farming region, and is noted for its luxuriant growth of wild oats. Sulphur Spring Valley runs up from Suisson bay, 2 m. N. of Benicia, winds through the Suscol Hills 5 or 6 m., and has a width of from 100 to 400 yards; soil rich and well watered. Green Valley lies E. of Suscol Hills, and is about 6 m. long and from 1 to 2 m. wide; a large portion is always green—hence its name. Suisson Valley lies N. of Suisson bay, and is easily accessible by the Suisson r., which runs through its centre; it opens out on the E. into the Sacramento Valley. Soil exceedingly fertile, and much cultivated. Ulattis Valley lies farther to the N. E. and is 5 m. long and 1½ wide, runs N. W. between two hills, and opens out into the Sacramento Valley, which last extends as far as the eye can reach, and is covered with wild oats, and is not liable to inundation. North of Vallejo, four miles, there is a large soda spring running from Suscol Valley to Napa bay; and 3 m. E. of this there is another, which, winding through low hills, and passing through the same valley, empties into the same bay. A sulphur spring, of warm temperature, about 3 m. N. Benicia, gives name to the valley through which it passes. Mining is in this county only a secondary industry; its great and most valuable interest is agriculture, for which its climate and soil is peculiarly adapted. Orchards and vineyards are seen in several parts, and the productions of 5,949 acres under cultivation in 1852 were very large. Capital employed in quartz mining, \$8,000; in other mining operations, \$24,000; and for other purposes, \$110,900. Pop. at the date specified 2,535—whites 2,726—males 2,324, and females 402; negroes 23—males 26, and females 2; mulattoes, 25 males; Indians 46—males 31, and females 15; and foreign residents 591—males 790, and females 101; citizens of United States over 21 years of age, 1,295. *Capital*: Vallejo or Benicia. *Public Works*: Benicia and Marysville R. R.

SOLEMN GROVE, p. v., Moore co., *N. Car.*: S. side James' creek, 53 m. S. S. W. Raleigh.

SOLIDAD mission, Monterey county, *Calif.*: 19 m. S. E.

Monterey, and 111 m. S. S. E. Vallejo. It is located in a rich and fertile valley, and is celebrated for its fine vineyards. The lands are owned by private individuals.

SOLON, p. v., Johnson co., *Ia.*: on a branch of the Iowa river, 11 m. N. Iowa City.

SOLON, t. and p. v., Somerset co., *Me.*: on the E. side of Kennebec r., 45 m. N. Augusta. Drained by small streams, tributaries of the Kennebec. It has a considerable pond in the N. E. part. Soil fertile, and well adapted to general farming. The v. is pleasantly located on the Kennebec r., and has some manufactures. Pop. of t. 1,419.

SOLON, t. and p. v., Cortlandt county, *N. Y.*: 116 m. W. Albany. Drained by Otsele r. and branches of Tioughnioga river. Surface undulating; soil of good quality, adapted to grazing. The v. is on a branch of Tioughnioga r., and has some manufactures. Pop. of t. 1,150.

SOLON, t. and p. v., Cuyahoga county, *Ohio*: 122 m. N. E. Columbus. Drained by Chagrin r. and its branches, and by Tinker cr., on the former of which there are a number of falls which afford extensive water-power. Surface level; soil of the highest fertility, producing grains in abundance and excellent grass. The v. is centrally situate. The t. contains several manufactories. Pop. 1,933.

SOLON MILLS, p. v., M'Henry county, *Ill.*: on S. side of Nipasin cr., 4 m. S. of N. boundary of the State, and 193 m. N. E. Springfield.

SOLSVILLE, p. o., Madison co., *N. Y.*: 96 m. W. by N. Albany.

SOMERFIELD, p. v., Somerset co., *Penn.*: on the E. bank of Youghiogheny r., 133 m. W. S. W. Harrisburg.

SOMERS, t. and p. v., Tolland county, *Conn.*: 20 m. N. E. Hartford. Drained by Seantic r. Surface on the W. level and fertile; on the E. elevated and mountainous, with good pasture for sheep. The v. is located on one of the head branches of Seantic river, and contains a manufactory at which straw hats are extensively manufactured. Population of t. 1,510.

SOMERS, t. and p. v., Westchester co., *N. Y.*: 92 m. S. by E. Albany. Drained by Croton river and tributaries. Surface uneven, with some extensive plains; soil adapted to grain and grass. The village contains a bank and 2 churches. Pop. of t. 1,722.

SOMERSET county, *Me.* Situate toward the N. W. of the State, and contains 3,540 sq. m. Kennebec river having its rise in Moose-head lake, flows through the co. centrally, by which and its tributaries, and by Penobscot and other fine streams it is drained. Surface varied—in some parts elevated, and its hills and valleys present a pleasant prospect. Soil fertile in the southern portions, but the N. is mostly wilderness, with numerous lakes interspersed. Chief productions, wheat, Indian corn, and potatoes. Agriculture is the leading pursuit. Farms 3,813; manuf. 155; dwell. 5,917, and pop.—wh. 35,577, fr. col. 4—total 35,581. *Capital*: Norridgewock.

SOMERSET county, *Me.* Situate toward the S. E., and contains 455 sq. m. Drained by Annesemic, Manokin, and Wicomico rivers, and branches of Nanticoke river, which forms its N. W. boundary. Surface low and level, and a large portion is marshy. Soil, with cultivation, is fertile, and the swamp, when drained, makes good pasturage. It contains some sulphur and mineral springs, and beds of bog-iron ore. Oak, pine, ash, cedar, chestnut, and maple are found on the land, which is in general well timbered. Farms 1,435; manuf. 76; dwell. 3,158, and pop.—wh. 13,385, fr. col. 3,483, sl. 5,588—total 22,456. *Capital*: Princess Anne.

SOMERSET county, *N. Jer.* Situate N. centrally, and contains 232 sq. m. Raritan r. passes through it centrally, by which and its branches it is drained. Surface diversified; soil a fine deep mold on the streams, and very productive. Staples, wheat and Indian corn. It exports pork and sheep very largely. Farms 1,550; manuf. 137; dwell. 3,448, and pop.—wh. 17,965, fr. col. 1,696, sl. 27—total 19,683. *Capital*:

Somerville. *Public Works*: New Jersey Central R. R.; Delaware and Raritan Canal.

SOMERSET county, *Penn.* Situate S. toward the W., and contains 977 sq. m. Drained by affluents of Youghiogheny and Conemaugh rivers. Surface hilly, and in the N. W. is Laurel Hill Mountain. The Alleghany range forms its eastern boundary. Soil fertile, and produces wheat and grain in great abundance. It has excellent pasturage, and large numbers of cattle and hogs are fattened annually and exported. Farms 1,613; manuf. 83; dwell. 13,969, and pop.—wh. 24,317, fr. col. 99—total 24,416. *Capital*: Somerset.

SOMERSET, p. v., and cap. Pulaski county, *Ky.*: 73 m. S. by E. Frankfort. It contains a court-house, jail, county offices, etc.

SOMERSET, t. and p. v., Bristol co., *Mass.*: on the W. side of Taunton r., and opposite Fall River, having Mount Hope bay on the S., 43 m. S. Boston. Its navigable facilities are excellent. It has some shipping, and ship-building is carried on. In 1849 the imports of sperm oil amounted to 140 barrels. The v. is located on Taunton r., and contains manufactories of stone and earthen ware. Pop. of t. 1,166.

SOMERSET, t. and p. o., Hillsdale county, *Mich.*: 43 m. S. Lansing. Drained by head branches of Raisin r. It contains the highest land in the State. Soil fertile, producing wheat, corn, oats, etc. Pop. 913.

SOMERSET, p. v., Monroe co., *Mo.*: on the W. side of Salt river, 63 m. N. Jefferson City.

SOMERSET, p. v., Wabash co., *Ind.*: on the right bank of the Mississinewa river, on the State road, 63 m. N. by E. Indianapolis.

SOMERSET, t. and p. v., Niagara co., *N. Y.*: bordering on Lake Ontario, 31 m. N. E. Niagara City, and 256 W. by N. Albany. Drained by Golden Hill cr. and other streams flowing into the lake. Surface even; soil, sand and clay loam. It has some manufactures. The v. is on a small stream near the lake. Pop. of t. 2,154.

SOMERSET, p. v., and cap. Perry county, *Ohio*: on the Cincinnati, Wilmington, and Zanesville R. R., 37 m. E. by S. Columbus. It contains the court-house, jail, and other county buildings, an academy (the St. Mary's—Catholic), several stores, etc. The "S. Post" (whig), and "Perry Co. Democrat" (dem.) are both weekly issues. Pop. 1,240. The Dominican Convent of St. Joseph's (Catholic) is located near the village.

SOMERSET, t. p. b., and cap. Somerset co., *Penn.*: 115 m. W. by S. Harrisburg. Drained by Laurel Hill, Middle, and Cox's creeks. Surface undulating; soil fertile. It has several small manufactories, mills, etc. The b. on Cox's r., was incorporated in 1504, and contains the court-house and jail, built of stone, county offices, built of brick, an academy, a number of mills, etc. Two papers are issued weekly, the "Herald" (whig), and the "Visitor" (dem.) Pop. 866.

SOMERS POINT, p. v., Atlantic co., *N. Jer.*: on Great Egg Harbor bay, 63 m. S. by E. Trenton. It is the port of entry for Great Egg Harbor district; its tonnage, according to the returns of 1850, was 14,054 tons, enrolled and licensed, and all engaged in the coasting trade. It has no foreign commerce or ship-building.

SOMERSVILLE, p. o., Tolland co., *Conn.*: 21 m. N. E. Hartford.

SOMERSWORTH, t., Stafford co., *N. Hamp.*: 32 m. E. Concord. Drained by small streams flowing into Salmon Falls r., which bounds it on the N. E. The soil is well adapted to all kinds of grain; red and yellow ochre, and iron ore are found. This is a large manufacturing town, but the manufactures are principally carried on at the village of Great Falls, at the head of tide-water. (See GREAT FALLS v.) Otis' Hill is in this town, from the summit of which the White Mountains can be seen. There are two considerable ponds in the town. Pop. 4,945.

SOMERTON, p. v., Belmont co., *Ohio*: on a branch of Captiva cr., 97 m. E. Columbus. It contains several churches, stores, tobacco factories, etc. It is located in an exten-

live tobacco region, and large quantities are cultivated in the immediate vicinity. Pop. 192.

SOMERTON, p. o., Philadelphia co., *Penn.*: 97 m. E. S. E. Harrisburg.

SOMERTON, p. v., Nansemond co., *Virg.*: on the E. side of Somerton cr., 80 m. S. E. Richmond.

SOMERVILLE, p. v., and cap. Morgan co., *Ala.*: 5 m. S. of the Tennessee river, and 150 N. by W. Montgomery. It contains a court-house, jail, and other public buildings.

SOMERVILLE, t. and p. v., Middlesex co., *Mass.*: 3 m. W. of Boston. This t. was set off from Charlestown, and incorporated in 1842. It is bounded in part by Mystic r., Miller's creek, and an arm of Charles river. Drained by a small stream called the Shawshun. Surface elevated and hilly. The celebrated hills, called Winter and Prospect, are comprised in this town. The McLean Asylum for the Insane is located here, and the Milk Row Bleaching Company have their extensive works in this place. The Boston and Maine R. R., and the Fitchburg R. R. pass through the v. 10 m. from Reading, 28 m. from Lowell, and 47 m. from Fitchburg. It is a place of considerable trade. Pop. 3,540.

SOMERVILLE, p. v., and cap. Somerset co., *N. Jer.*: on the N. of Raritan river, 25 m. N. by E. Trenton. The New Jersey Central R. R. passes through, 26 m. from Elizabethport, and 38 from Easton. It is a neat and well-built place, laid out in a fertile and highly cultivated country, and contains a court-house, jail, an academy, several churches, etc. Copper ore is found about one and a half miles N. of the v. The "Somerset Messenger" (dem.) and the "Somerset Wrig" (whig) are issued weekly.

SOMERVILLE, p. o., St. Lawrence county, *N. Y.*: 153 m. N. W. Albany. The Rossie iron-works are in the vicinity.

SOMERVILLE, p. o., Butler co., *Ohio*: on a branch of the Miami r., and on the Cincinnati, Hamilton, and Eaton R. R., 90 m. W. S. W. Columbus. It contains several stores, workshops, etc.

SOMERVILLE, p. v., and cap. Fayette co., *Tenn.*: on the Loosahatchy r., 156 m. S. W. Nashville. It contains a court-house, jail, a male and female academy, and a branch of the bank of Tennessee is located here. Somerville College has been chartered here, and a building is erecting.

SOMERVILLE, p. v., Fauquier co., *Virg.*: on the left side of Cannon r., 65 m. W. by W. Richmond.

SOMONAK, p. v., De Kalb county, *Ill.*: on a cr. so called, 137 m. N. E. Springfield. In the vicinity are large groves of excellent timber, such as walnut, sugar tree, elm, aspen, etc.

SONOMA county, *Calif.* Situate W. between the Coast Range and the Pacific Ocean, and contains 1,200 sq. m. Surface mountainous and intersected by fertile valleys, which run in a direction N. and S. and watered by Sonoma, Petaluma, Russian, and other streams. Except Russian r., which flows to the Pacific above Bodega, these empty into Pablo bay. American r. and Pablo bay, makes the S. boundary of the co. The rich valleys of this co., protected from the winds, are the seats of great agricultural operations, and supply to San Francisco a large share of vegetable products found in its markets. In 1852, there were 9,387 acres of land under cultivation, which produced grain and green crops in abundance. The stock of live animals is comparatively large, and feeds on the native grasses, which are highly nutritious. Value of town lots, \$101,552; of farming implements, \$50,472; of merchandise, \$29,760; and of land, etc., \$47,665. There was in the co., 5 threshing machines, 6 blacksmith's shops, a tan-yard, 21 carriages, and 218 wagons. It is not a mining county. Pop. at the date noted, 2,387: whites 1,872—males 1,859, and females 518; negroes 5—males 4, and females 1; mulattoes 7—males 5, and females 2; Indians 276—males 223, and females 153; and foreign residents 118—males 85, and females 29. Over 21 years of age—citizens of United States 881, negroes 4, mulattoes 7, Indians 132, and foreign residents 79. *Capital*: Sonoma.

SONOMA, p. v., and cap. Sonoma co., *Calif.*: on the W. side of Sonoma cr., 3 miles distant, and in the valley so called, 3 m. N. W. Vallejo. This is an excellent agricultural place, the land being good, the country healthy, and never very cold in winter—snow being seen only in the highest mountains. This part of the country contains the best grazing land, many places being covered with clover and with wild oats. It is the oldest town in the north side of the San Pablo bay, and now has the remains of what was once a flourishing mission. Its importance will depend upon the appropriation of the rich agricultural resources which the valley possesses. There is a fort located here, and it is also a United States military post. The residence of General Vallejo is in the village. Pop. 600.

SONOMA, p. v., and cap. Tuolumne county, *Calif.*: on the head waters of Tuolumne r., 56 m. E. by S. Stockton, and 111 m. Vallejo. It is located in the mountains, and is surrounded by an excellent agricultural country. There are mines in its vicinity.

SOOY'S INN, p. o., Burlington co., *N. Jer.*: a small mill-seat on the left bank of Little Egg Harbor r., 41 m. S. E. Trenton.

SOPCHOPPY, p. v., Wakulla co., *Flor.*: on the left bank of the Ocklocky r., at the mouth of Seckehoocho cr., 31 m. S. S. W. Tallahassee.

SORBY, p. o., Wayne co., *Tenn.*: 79 m. S. W. Nashville.

SORELL HORSE, p. o., Montgomery co., *Penn.*: 79 m. E. Harrisburg.

SOUCHBAHATCHEE, p. o., Tallapoosa county, *Ala.*: on the r. so called, branch of the Tallapoosa, 33 m. E. N. E. Montgomery.

SOUTH ABINGTON, p. v. and sta., Plymouth co., *Mass.*: on the Old Colony R. R., 21 m. S. Boston; and the Bridgewater Br. R. R. verges from here, 7 m. N. E. Abington.

SOUTH ACTON, p. v. and sta., Middlesex co., *Mass.*: on the Fitchburg R. R., 25 m. N. W. by W. Boston.

SOUTH ACWORTH, p. o., Sullivan county, *N. Hamp.*: on Cold r., 36 m. W. Concord.

SOUTH ADAMS, v. and sta., Berkshire co., *Mass.*: on the Pittsfield and North Adams R. R., 14 m. Pittsfield, and 169 m. N. W. by W. Boston.

SOUTH ALABAMA, p. o., Genesee county, *N. Y.*: 249 m. W. by N. Albany.

SOUTH ALBION, p. o., Kennebec co., *Me.*: 23 m. N. E. Augusta.

SOUTH ALBION, p. o., Calhoun co., *Mich.*: 39 m. S. by W. Lansing.

SOUTH ALBION, p. o., Oswego co., *N. Y.*: 134 m. W. N. W. Albany.

SOUTH ALDEN, p. o., Erie county, *N. Y.*: 252 m. W. Albany.

SOUTH ALTEN, p. o., Belknap co., *N. Hamp.*: near the line of the Cocheo R. R., 21 m. N. E. Concord.

SOUTH AMBOY, p. o., Middlesex co., *Mass.*: 20 m. N. W. Boston.

SOUTH AMBOY, t. and sta., Middlesex co., *N. Jer.*: on S. side of Raritan bay, 23 m. N. E. Trenton. The Camden and Amboy R. R. terminates at the mouth of Raritan river, 63 m. from Philadelphia, and is connected by the company's steamboats with New York, 27 m. Here is a good harbor. In the vicinity is a large manufactory of stone-ware from excellent clay, which is here abundant. There are also in the t. several stores and mills.

SOUTH AMENIA, p. o., Dutchess co., *N. Y.*: 64 m. S. by E. Albany.

SOUTH AMHERST, p. o., Hampshire co., *Mass.*: 74 m. W. Boston.

SOUTHAMPTON county, *Virg.* Situate S. E., and contains 614 sq. m. Drained by Nottaway r. and its branches. Surface level; soil fertile, adapted to grain and grazing. Chief products, Indian corn, cotton, and tobacco. Farms 722; manuf. 6; dwell. 1,572, and pop.—wh. 5,971, fr. col. 1,795, sl. 5,755—total 13,521. *Capital*: Jerusalem.

SOUTHAMPTON, t. and p. v., Hampshire co., *Mass.*: 87 m. W. Boston. Watered by Manham r., which passes twice through the t., flowing S. E. and N. E., and affords good water-power. In the N. part is a lead mine, to which a subterranean passage 900 feet long has been cut, mostly through solid rock. The t. contains several mills of various kinds, and a tannery. The v. at the centre contains a church, academy, etc. The extension of the New Haven and Northampton R. R. on the line of the old canal, will pass through the t. Pop. of t. 1,060.

SOUTHAMPTON, p. o., Peoria county, *Ill.*: 73 m. N. Springfield.

SOUTHAMPTON, t. and p. v., Suffolk co., *N. Y.*: on S. side of E. extremity of Long Island, between Great and Little Peconic bays and the Atlantic Ocean, 142 m. S. S. E. Albany. Surface level; soil light sandy loam. The v. on the S. shore, contains a church, academy, 8 wind-mills, with several taverns, stores, etc. Sag Harbor, in N. E. corner of the t., is its principal place, besides which are several small settlements. Pop. of t. 6,501.

SOUTHAMPTON, t. and p. o., Somerset co., *Penn.*: 105 m. W. S. W. Harrisburg. Drained by Wills cr. and tributaries. Surface mountainous; soil adapted to grain and grazing. It contains several small manufactures.

SOUTH ANDOVER, p. o., Oxford co., *Me.*: 51 m. W. N. W. Augusta.

SOUTH ANNA, p. o., Louisa county, *Virg.*: 45 m. N. W. Richmond.

SOUTH ARGYLE, p. o., Washington county, *N. Y.*: 40 m. N. by E. Albany.

SOUTH ASHURNHAM, v. and sta., Worcester co., *Mass.*: at the junction of the Cheshire R. R. with the Vermont and Massachusetts R. R., 13 m. W. Fitchburg and 49 m. W. N. W. Boston.

SOUTH ASSYRIA, p. o., Barry county, *Mich.*: 85 m. S. W. Lansing.

SOUTH ATTLEBOROUGH, p. v., Bristol co., *Mass.*: 84 m. S. S. W. Boston.

SOUTH AUBURN, p. o., Susquehanna co., *Penn.*: 103 m. N. N. E. Harrisburg.

SOUTH AVON, p. o., Livingston county, *N. Y.*: 214 m. W. by N. Albany.

SOUTH BAINBRIDGE, p. v., Chenango co., *N. Y.*: on both sides of Susquehanna r., 95 m. W. S. W. Albany. It contains a few stores and mills, and 2 churches.

SOUTH BARRE, p. v., Orleans co., *N. Y.*: 234 m. W. by N. Albany.

SOUTH BARRE, p. v., Washington co., *Verm.*: 8 m. S. S. E. Montpelier.

SOUTH BELLINGHAM, p. v., Norfolk county, *Mass.*: 29 m. S. W. Boston. The Norfolk County R. R. passes near it.

SOUTH BEND, p. v., Arkansas county, *Ark.*: on the right bank of the Arkansas r., 65 m. S. E. Little Rock.

SOUTH BEND, p. o., Armstrong county, *Penn.*: 137 m. W. by N. Harrisburg.

SOUTH BEND, p. o., Lawrence co., *Mo.*: 132 m. S. W. Jefferson City.

SOUTH BEND, p. v., and cap. St. Joseph co., *Ind.*: on the south bend of the St. Joseph's r., from which it derives its name, 129 m. N. Indianapolis. Its location is on a high bank. The settlement commenced in 1831, previous to which it had been an Indian trading post. L. M. Taylor and A. Coquillard were among the first settlers. The public buildings consist of a court-house, jail, 4 churches, a county seminary, and a branch of the State bank, all built of brick. There are also 2 mills capable of making 150 bbls. of flour each per day, 1 woolen factory, 1 oil mill that manufactures 50 gallons a day, establishments for building threshing machines, several saw-mills, an edge-tool factory, machine shops, an establishment for making pegs, lasts, veneering, lath, etc., all propelled by water-power created by a dam in the St. Joseph r. The village is improving rapidly. It is connected with Chicago by the Michigan Southern,

and Northern Indiana R. R., distant from Chicago 58 m. E. by S., which, with its fine situation, excellent water-power, etc., gives assurance that it will soon rank with the largest town in northern Indiana. The "St. Joseph Valley Register" is a weekly (whig) issue. There are in the village over 300 houses and about 1,600 inhabitants.

SOUTH BERNE, p. o., Albany co., *N. Y.*: 21 m. W. by S. Albany.

SOUTH BERWICK, t. and p. v., York co., *Me.*: on the S. E. side of Salmon Falls, 95 m. S. W. Augusta. Drained by a branch of the Piscataqua r., which bounds it on the W. The falls on the river supplies the town with immense hydraulic power, and it has extensive manufactories of cotton and woolen goods, leather, etc. The "Great Works" Manufacturing Company, located here, was incorporated in 1837. The village is located on the navigable waters of Piscataqua r. It contains a bank, and is a place of considerable trade. The Portland, Saco, and Portsmouth R. R. passes through, and the Boston and Maine R. R. connects at the village, 13 m. from Portsmouth and 83 m. from Portland. Pop. of t. 2,592.

SOUTH BLOOMFIELD, p. v., Pickaway co., *Ohio*: 1 m. E. of the Scioto r. and on the Ohio Canal, 51 m. N. Portsmouth and 18 m. S. Columbus.

SOUTH BLOOMFIELD, p. o., Somerset co., *Me.*: 30 m. N. Augusta.

SOUTHBOROUGH, t. p. v., and sta., Worcester co., *Mass.*: 27 m. W. by S. Boston. Drained by a branch of Sudbury r. Surface undulating; soil rich, and well cultivated. It has some light manufactures, but it is chiefly a farming town. The v. is located N. E. of the Boston and Worcester R. R., on which is the sta., 17 m. E. Worcester. Pop. of t. 1,847.

SOUTH BOSTON, p. o., Ionia co., *Mich.*: 39 m. W. by N. Lansing.

SOUTH BOSTON, p. o., Washington co., *Ind.*: on a fork of Great Blue r., 50 m. S. by E. Indianapolis.

SOUTH BRADFORD, p. v., Merrimac co., *N. Hamp.*: 20 m. W. Concord.

SOUTH BRADFORD, p. o., Orange co., *Verm.*: 27 m. S. E. Montpelier.

SOUTH BRADFORD, p. o., Steuben county, *N. Y.*: 176 m. W. by S. Albany.

SOUTH BRAINTREE, p. v. and sta., Norfolk co., *Mass.*: at the junction of the Old Colony and Fall River railroads, 42 m. N. by E. Fall River and 11 m. S. Boston.

SOUTHBRIDGE, sta., Niagara co., *N. Y.*: on the Rochester, Lockport, and Niagara Falls R. R., 9 m. N. Buffalo and 276 m. W. by N. Albany.

SOUTHBRIDGE, t. and p. v., Worcester co., *Mass.*: 56 m. S. W. Boston. Drained by the Quinnebaug r. and branches, affording good water-power. Surface uneven and hilly; soil adapted to fruit, grain, etc. It has several manufactories of cotton and woolen goods, among which are those of the "Central Manufacturing Company," at which are manufactured 1,500,000 yards of sheetings per annum. The v. is on the right bank of Quinnebaug r., and contains a bank, several churches, etc. Pop. of t. 2,824.

SOUTH BRIDGETON, p. v., Cumberland co., *Me.*: 56 m. S. W. Augusta.

SOUTH BRISTOL, t. and p. v., Ontario co., *N. Y.*: on the W. side of Canandaigua lake, 192 m. W. Albany. Drained by small streams flowing into Canandaigua lake. Surface uneven; soil of moderate fertility. It contains some light manufactures. The v. is on Mud cr. Pop. of t. 1,130.

SOUTH BRISTOL, p. o., Racine co., *Wisc.*: 75 m. E. S. E. Madison.

SOUTH BRITAIN, p. v., New Haven co., *Conn.*: on Pompsaug river, 36 m. S. W. Hartford. It is a flourishing and neat place, and contains several manufactories of carpets, hats, etc.

SOUTH BROOKFIELD, p. o., Madison co., *N. Y.*: 84 m. W. Albany.

SOUTH BRUNSWICK, t. and p. o., Middlesex co., *N. Jer.*:

15 miles N. E. Trenton. Millstone river forms the S. W. boundary. Drained by branches of Millstone river and Lawrence's branch of Raritan r. "Sand Hills" are in the N. W. part, otherwise the surface is level; soil fertile and well cultivated. This is chiefly an agricultural town, and but few manufactures. The Trenton and New Brunswick R. R. passes through the W. part of the town. Population 8,368.

SOUTHBURY, t. and p. v., New Haven co., Conn.: on the N. side of the Housatonic river, 37 m. S. W. Hartford. Water-power is derived from the Pampesaug r., on which are located several mills. Surface uneven; soil in the uplands warm and productive, and along the river there is some good meadow land. The v. is on Pampesaug river, a fine mill-stream. The t. contains some manufactories, and coal has been discovered. Pop. of t. 1,451.

SOUTH BUTLER, p. o., Wayne co., N. Y.: 162 m. N. W. by W. Albany.

SOUTH BUTLER, p. o., Butler county, Ala.: 49 m. S. S. W. Montgomery. There are springs located in the vicinity.

SOUTH BYRON, p. o., Genesee co., N. Y.: 228 m. W. by N. Albany.

SOUTH CAIRO, p. o., Greene county, N. Y.: 29 m S. by W. Albany.

SOUTH CANAAN, p. o., Essex county, Verm.: 70 m. N. E. Montpelier.

SOUTH CANAAN, p. v., Litchfield co., Conn.: on Hollenback r., on a tributary of the Housatonic, 35 m. N. W. by W. Hartford. Establishments for the manufacture of anchors, etc., are located on the Hollenback and Housatonic rivers, and there is also a satinnet manufactory in the v. Limestone is found here, and lime of a superior quality is manufactured and exported.

SOUTH CANTON, p. v. and sta., Tioga co., N. Y.: on the Cayuga and Susquehanna R. R., 5 miles N. Oswego, 65 S. E. Cayuga, and 138 S. W. by W. Albany.

THE STATE OF SOUTH CAROLINA.

SOUTH CAROLINA is situate between the latitudes 32° 04' and 35° 12' north, and between the longitudes 78° 25' and 83° 19' west from Greenwich, or 1° 23' and 6° 17' from Washington. Its shape is irregularly triangular. The distance north and south on the meridian of Savannah is 212 miles, and from the head of Tugaloo River, on the west, to the mouth of Little River, on the east, 268 miles. On the south-east the Atlantic forms its boundary for upward of 200 miles; on the south-west, dividing it from Georgia, the Savannah River for 240 miles, or following the windings of the stream, upward of 500 miles; and the north line, separating it from North Carolina, is an irregular conventional boundary. Included within these limits the land area is estimated at 24,500 square miles.

The coast region for 100 miles from the ocean is covered with forests of pitch pine, intersected with swampy tracts, and permeated by sluggish streams. In this respect, it assimilates the whole southern coast region. Beyond this, and parallel to it, is a belt of territory, called the "Middle Country," consisting of low sand hills, resembling the waves of an agitated sea. This tract occasionally presents an oasis of verdure, or a plantation of maize, but otherwise it is forbidding to the agriculturist. The middle country is bounded westward by another belt of land, called the "Ridge," where the country rises by a steep and sudden elevation, and afterward continues gradually to ascend. Beyond, the surface exhibits a beautiful alternation of hill and dale, interspersed with extensive forests, and watered by pleasant streams. There are a few lofty mountains in the western part, belonging to the Blue Ridge. Table Mountain, in this chain, rises to the height of 4,000 feet above the level of the sea. King's Mountain, in York District, lies partly in North Carolina, and is an isolated eminence of considerable elevation.

The principal rivers of South Carolina have their sources in the Blue Ridge. The great Pee Dee, which bears the name of Yadkin, in North Carolina, reaches Winyaw Bay, after having received the waters of Lynch's Creek and Black River from the right, and the Little Pee Dee and Waccamaw from the left. It is navigable for steamboats to Cheraw, above which there is a fall of 15 feet in 15 miles. The Santee, the greatest river of the State, is formed by the junction of the Catawba, or Wateree, and the Congaree, and it reaches the sea without receiving any considerable tributary by two mouths. Steamboats ascend it to Camden and Columbia, and by the aid of canals, there is navigation for boats to the mountains. The Congaree is itself formed by the junction of two considerable navigable streams, the Saluda and the Broad rivers. The Edisto, Cambahee, and Coosawatchie, are smaller streams, in the southern part of the State, navigable for some distance by small vessels. Ashley River is navigable by schooners 20 miles, and Cooper's River, which joins it at Charleston, 30 miles to the Santee Canal. Although most of these rivers are navigable, as a general thing the lower parts of their courses are shallow, and obstructed by bars. The harbors of the State are almost valueless, but the coast presents numerous entrances, which are accessible to small vessels, and which afford advantages to an extensive and active coasting trade. The harbor of Charleston is obstructed by a dangerous sand bar, and that of Georgetown will only admit small craft. The harbor of Beaufort, or Port Royal, is the best in the State, and is sufficient to receive a navy, but is little frequented. Stone Inlet has nine or ten feet of water, and was used during the blockade of Charleston, in 1775. St. Helena Sound is the most spacious opening for a great distance along the coast, but although about 3 miles wide and 10 miles long, it is too much beset by shoals to be of any great commercial value. The southern part of the coast is skirted by a range of islands, separated from the mainland by narrow channels, which afford an inland steamboat navigation from Charleston to Savannah. These islands, like the neighboring continent, are low and flat, but are covered with forests of live oak, pine, and palmettoes, and they yield the black seed, or Sea Island cotton. Before the cultivation of cotton was commenced, many of them were the haunts of alligators, and their thick woods and rank weeds rendered them impenetrable to man. At present they are under cultivation, and well inhabited, and as the voyager glides by their shores, he is enchanted by the prospect of their lively verdure, interspersed by thick clumps of palmettoes and flowering groves of orange trees. The live oak, which is so called from its being an evergreen, is a noble tree, with a trunk sometimes 12 feet girth—its long branches are spread horizontally, and festoons of moss hang from them, almost sweeping the ground. The laurel is here seen covered with large white blossoms, shaped like a lily, and a foot in circumference. The long sand beaches, which border these islands toward the sea, are covered with thousands of water-fowl.

The mineral resources of South Carolina are by no means insignificant. The primitive region of the western part of the State belongs to the auriferous belt of the Atlantic slope, and for a number of years past the production of gold has been such as to encourage the miner in continuing his pursuits. In several cases large nuggets of native metal have been dug up, but the largest quantities have been obtained from washings. Iron is also abundant in this region, and in quality the ore is not surpassed. Coal is not found within the State; and the rocks which include the coal formation, between the clay slate and the new red sandstone, are entirely wanting. Regarding the minerals used as building material, Prof. Tuomey says, "it is owing to the difference in the facilities for transportation that the granite, marble, and fangstone of

SOUTH CAROLINA.

Massachusetts and Connecticut are better known in Charleston and other cities, than those of the State (South Carolina), notwithstanding the abundance and quality of the latter. In choosing building materials, strength and resistance to external agents are among the principal requisites." * * * * "The granite and sienite around Columbia are of this character. Among the beautiful granites of the State, the porphyritic granite of Camden and Buffalo Creek, and the red granite near Columbia, are conspicuous. Of the sienites, those found in Abbeville, Fairfield, and Lexington are the most beautiful. The former resembles the Quincy granite, and the latter is remarkable for its white feldspar, contrasting so strikingly with the black crystals of hornblende. The white and variegated marble of Spartansburg and Laurens form excellent materials for building and ornamental purposes." * * * * "Gneiss, besides furnishing an excellent building stone, is often sufficiently slaty in its structure to allow of being split into slabs. A fine quarry of this sort is open at Pickens. In the lower part of York gneiss is found, having a similar structure: it passes into mica slate, which presents every appearance of making an excellent flagging stone." * * * * "The mica slate found in Fairfield is equally promising." Soapstone of very fine quality is found at some of the above-named localities; and porcelain earth abounds through the primary region, wherever the feldspathic granite is found in a state of disintegration. Localities are so well known as "chalk hills," that they need not be enumerated. A long-known locality occurs above Pendleton, and along the base of the mountains in Pickens it is seen in several places; in Greenville, near where the Pendleton road crosses the Saluda; and in Abbeville, near the village, a remarkable locality is pointed out. This deposit is the result of the decomposition of eurite. A similar deposit is found near Cherokee Ford, where it is used as a fire clay, and it is seen again on the branches of King's Creek. But the finest exposures of this earth are found in the diluvium. A good material for glazing pottery will be found in the undecomposed feldspar of the granites, where it abounds. Sand of fine quality for the manufacture of glass is also abundant. Red and yellow ochres abound in Chesterfield District, of very fine quality, yet they seem scarcely to be used even for domestic purposes. There are many localities where the micaceous and talc-micaceous rocks occur, which answer well for whetstone. A noted locality occurs in York, and another in Chesterfield, and in the upper part of Lancaster. Many of the precious stones are also found in various parts of the State.

In richness, variety, and abundance, perhaps no part of the habitable globe, of the same territorial extent, exceeds South Carolina in agricultural capabilities. Governor Seabrook says, "Of the four great materials for human clothing, cotton, wool, silk, and flax, her climate and soil are peculiarly adapted to the first three, and in locations to the last. Of the prominent articles of food, she produces rice, wheat, Indian corn, oats, rye, barley, sweet and Irish potatoes, and different varieties of the pea tribe. For the habitation of man, the earth, her quarries, and forests, furnish an inexhaustible supply. Iron, so essential to every class in society, is superior in quality, it has been ascertained, to any found in the country. Gold, not too abundant to divert from other and more profitable pursuits, excites the enterprise, and rewards the labor of a portion of our citizens. In other minerals she is neither deficient in quantity nor value. While the woods abound in game, including the deer and turkey, the ocean, which laves her southern border, and the numerous streams, both salt and fresh, that penetrate every part of her surface, yield almost every variety of the choicest fish. In relation to medicinal and culinary plants, her catalogue is large. Tobacco, indigo, and hemp, which once were staple commodities, fruits and esculent vegetables that everywhere meet the eye, and other productions that minister to the comfort or necessities of her people, it is needless in this place especially to direct your notice. So remarkable, indeed, is her topographical condition, that wheat and the sugar-cane grow profitably side by side, and the olive and orange ripen under the provident care of the same family of cultivators, who extract the saccharine matter of the maple, but essay in vain to secure the maturity of the native corn of America. Wheat is cultivated as low as $32^{\circ} 30'$, and from bleak, cold winds, the northern side of the Glassy Mountains will not produce maize. To comprehend this subject in all its relations a more detailed examination is necessary.

"South Carolina is most favorably situated, not only with regard to the States of the Union, but to the other portions of the globe. Midway between the frozen regions of the north, and the burning heats of the tropics, in her climate, seasons, and productions, it has been fully represented that she enjoys most of the advantages of all. If we except tropical fruits, to which frost is fatal, her capacity successfully to rear all the grains, fruits, and esculent roots, which enrich more southern countries, is nearly certain. Her latitude for cotton enjoys an extraordinary advantage. Much farther south, the forcing nature of a vertical sun develops the plant too rapidly, thereby running it into weed and foliage; it is from the same cause most exposed to the ravages of the caterpillar and other insects. Farther north, the season is too short to mature an abundant crop of bolls, while the staple degenerates, and becomes less valuable. From the Sea Island the best cotton known to commerce is exported. So circumscribed are the lands in which it can be grown, that a half degree ($32^{\circ} 10'$ to $32^{\circ} 40'$ north latitudes) of the sea-coast of North America seems to be the precise point where the length, strength, and firmness of the fibre are most happily blended. In reference to rice, our State enjoys almost a monopoly. South Carolina includes an area of 30,213 square miles, or 19,435,650 acres (according to the last census 24,500 square miles, or 15,650,000 acres). Of this area there is as little land in one body, the highest authorities assure us, unsusceptible of remunerating culture as the United States can furnish. Undistinguished by mountains with their agricultural disadvantages, it is worthy of remark that the spurs that make out from the great range which separates the waters falling into the Atlantic Ocean, and into the Gulf of Mexico, are capable of profitable tillage to their very summits.

"As a difference of 12 degrees of latitudes exists between the western and eastern hemispheres, the countries of the latter, which are subject to the same atmospherical influences with South Carolina, comprise the most delightful and fruit-bearing portions of France, Italy, Turkey in Europe, Russia, Tartary, and China.

"Between the primitive and alluvial formation the State is nearly equally divided. The soils, though of every kind, may be said to comprehend six varieties, each the best suited to a certain crop, yet all of them capable of advantageously producing three-fourths of the vegetable products grown in its limits. While local differences are everywhere observable, the surface and soil of the upper districts present a great similarity; and this is equally true of the lower districts. In the former the lands are broken and hilly, in the latter level—oak is the natural growth of the one, pine of the other. Clay is the soil of much the largest portion of the State, and, except in the immediate vicinity of the ocean, is almost the universal substratum. A close, stiff land predominates generally in the parishes south-east, and an open sand on the sea islands. The highlands of the country above the falls of the rivers are naturally much superior to those of the pine-covered region, but the alluvial bottoms of the former are greatly surpassed in richness by the river swamps of the latter. In its capacity for permanent improvement, the granite half of the State has been more highly favored by nature than the alluvial. This is mainly ascribable to the open texture permeable to water of its clayey subsoil, and the potash in the soil and subsoil, formed by the decomposition of the feldspar and mica of the granite. In a few localities, however, the depth of the substratum and its proximity to the surface offer serious obstacles to its higher productions. These, among other causes,

seem yet to be operating against the cultivation of perhaps the greater part of those peculiar soils known as the 'Flat Woods' of Abbeville; those in the neighborhood of Dutchman's and Wateree creeks, in Fairfield, and the Black Jack lands of Chester. Deriving their fertility from the hornblende disintegrated rocks which lie below the close clay subsoil, it would appear that steady industry, incited and directed by ordinary skill, was alone wanting to preserve and perpetuate the uncommon productiveness which, in spite of long-continued and imprudent tillage, still distinguishes these remarkable tracts of land. In reference to the soils of the primitive country, to one more peculiarly only shall I now advert. When the rocks lie horizontally, it is known that the soils derived from clay slates frequently suffer from the impenetrable nature of the subsoil and the position of the underlying rocks. In the regions to which they are confined in this State, they 'are all highly inclined, presenting their edges to the surface, and allowing the water to percolate through the strata.'

"The swamps, covering 2,000 square miles of land of inexhaustible fertility, are capable of thorough and economical drainage and conversion into active and available capital. The pine lands, embracing 6,000,000 of acres, constitute the most neglected portion of the State, while in some quarters they are erroneously regarded as valuable only for the abundance and quality of their timber, in others the belief is equally unsound, that their productive capacity is limited to plants which flourish only in a thin and feeble soil. That in all its relations it is a district of country of immeasurable value to our community, will hereafter be attempted to be shown.

"South Carolina is most bountifully supplied with water. The base of her triangular form is washed by the ocean, and one of her lateral sides rests on a river accessible to vessels more than one-half its length, and small boats 100 miles beyond. Many bold and navigable streams, with numerous tributaries crossing through her territory in every direction, disembogue into the Atlantic at distances from each other, most suitable for the purpose of intercommunication and traffic. Before reaching the point where all traces of their distinctive character are lost forever, by united contributions they form a bold channel between the mainland and the sea islands the entire width of the State. Apart from the creeks and inlets of the sea, there is now an inland navigation equal to about 2,400 miles. Greenville is the only division of our domain without the benefit of navigation. In all the districts, however, water-courses abound which afford remarkably eligible sites for mills. The rocks cross the streams nearly at right angles, and hence form a series of natural dams across their beds, and make falls that vary from five to eighty feet in comparatively short distances. In perhaps no equal extent of territory are there so many advantages of this sort presented. In connection with this subject, it is proper to add that the metropolis of the State (Charleston) is only seven miles from the ocean; that its harbor is spacious, well protected from storms, and at all times accessible.

"Surprising to many as may be the declaration, South Carolina, in reference to her whole population, is a very healthy country, and by no means a sickly one with regard to her white inhabitants. If the alluvial region and a few of the middle districts are subject to fevers in summer, the whole State in winter is comparatively exempt from the diseases to which more northern climates are peculiarly liable. The assertion, too, is with entire confidence made, that even during the hot months, in perhaps one-half of her limits, foreigners may reside, not only with impunity, but with renovated constitutions. In the neighborhood of every locality in which mephitic exhalations show the fatality of their power, there are sites for settlements where vigorous health, under the ordinary safeguards, is always secured. The entire sand hill country and pine lands generally, as well as our towns and villages, furnish the most signal evidence of the salubrity of their atmospheric influence. It may here be appropriately observed, that while from causes, several of which are among the arcana of nature, the lower division is becoming gradually but steadily healthier, a portion of the middle zone is decidedly more liable to maladies of a fatal character. If a better system of drainage and other improvements in the cultivation of the ground do not satisfactorily account for the one, certain agricultural features are perhaps sufficient to explain the other. For the diseases which occasionally clothe, in the habiliments of mourning, the people of Abbeville, Union, Chester, and York, it is supposed that the planters of those districts are competent to the diminution of the sources whence they spring. It is not unworthy of especial remark, that the atmosphere of the swamps and marshes, so poisonous to the white man, is at all times innocuous to his slave. If it were not for this merciful provision of an All Wise Being, the alluvial region of South Carolina in the immediate vicinity of its water-courses would soon become a dreary waste, and tenanted only by the beasts of the forest. Of the cities of the Union, Charleston, and it may be added Columbia, show a lower mortality among their acclimated inhabitants than any others. With regard to the former, the number of deaths from all fevers (the epidemic of the State), except from yellow fever, for the last 13 years, is 656, and in any one year \$1 in a population of between 30,000 and 40,000. From yellow fever, which has prevailed as an epidemic but twice in 22 years, for the same period, the aggregate number of deaths is 646. The average mortality for the last 6 years, all classes included, is 1 in 51; blacks alone 1 in 44, and whites alone 1 in 58.

"The natural means of resuscitating the soil are abundant and widely diffused. A large portion of the lower country shows exhaustless beds of the richest marl. Limestone, though obtainable only in York, Spartansburg, Laurens, and Pickens, exists in such quantities in the first two districts, that by railroad communication the entire primitive region will, at no distant day, be furnished with this earth, so essential to the nutrition and development of plants. While the sea-shore parishes possess unfailing supplies of salt mud, salt grass, and shell lime, two-thirds of the State are most amply furnished with swamp mud and peat.

"Of minerals and the primitive rocks, the number of the former is 23, and of the latter more. (See account of minerals, *antea*.)

"The botany of the State consists of about 3,000 species of plants—of these 2,000 are flowering, and 1,000 unprovided with flowers, as parts of their organs of fructification. In relation to the former, about 65 are naturalized—that is, foreign plants introduced, and now growing wild. There are about 150 grasses, of which 15 are native; 30 species of esculents (for man), of which three or four are naturalized, and about 70 more used in medicine, agriculture, and the arts, of which five or six are naturalized.

"As a member of the Union, South Carolina in population occupies the *eleventh* rank (according to the census of 1850, the fourteenth), in territorial extent the *twenty-second* (since the admission of California, the twenty-third); in the value of her agricultural exports, the *fifth*; in the value of the goods, wares, and merchandise, of the growth, produce, and manufacture of the United States, the *thirteenth*. The very large contribution of this State to the national wealth, which is determined by the amount of her domestic exports, and not her imports, comes, too, from a limited part of her soil. The estimated number of acres in cultivation in 1820, was 1,221,000; at present it does not exceed 2,000,000 (in 1850, according to the census 4,072,651), or about one-tenth, (one-fourth) of her *arable* lands."

SOUTH CAROLINA.

South Carolina is divided into 29 districts, the general statistics of which, and the capitals of each, in 1850, were as follows:

Counties.	Dwell.	Pop.	Farms in cult.	Manuf. Estab.	Capitals.	Counties.	Dwell.	Pop.	Farms in cult.	Manuf. Estab.	Capitals.
Abbeville....	3,391	32,318	1,814	156	Abbeville	Lancaster....	1,096	10,938	580	20	Lancaster
Anderson....	2,440	21,475	1,986	66	Anderson	Laurens....	2,132	23,407	1,608	141	Laurens

Kershaw....	928	14,473	888	21	Camden						

The whole number of dwellings in the State was, at the above date, 52,642; of families, 52,937; and of inhabitants, 668,507; viz., whites 274,623—males 137,773, and females 136,850; fr. col. 8,900—males 4,110, and females 4,790, and sl. 884,984. Of the whole population there were, *deaf and dumb*—wh. 129, fr. col. 1, sl. 15—total 145; *blind*—wh. 152, fr. col. 14, sl. 56—total 222; *insane*—wh. 192, fr. col. 3, sl. 9—total 204; and *idiotic*—wh. 242, fr. col. 3, sl. 50—total 295. The number of free persons born in the United States was 274,813, the number of foreign birth 8,662, and of birth unknown 48. The *native* population originated as follows: Maine 68, N. Hamp. 39, Verm. 37, Mass. 407, R. I. 97, Conn. 228, N. York 884, N. Jer. 182, Penn. 862, Del. 14, Md. 320, Dist. of Col. 30, Virg. 1,621, N. Car. 6,173, *South Carolina* 262,160, Ga. 1,504, Flor. 55, Ala. 225, Miss. 60, La. 30, Tex. 1, Ark. 9, Tenn. 188, Ky. 73, Ohio 23, Mich. 2, Ind. 11, Ill. 6, Mo. 3, Ia. 0, Wisc. 0, Calif. 1, Territories 0; and the *foreign* population was composed of persons from—England 921, Ireland 4,051, Scotland 651, Wales 10, Germany 2,180, France 274, Spain 30, Portugal 14, Belgium 0, Holland 9, Turkey 0, Italy 59, Austria 11, Switzerland 13, Russia 19, Denmark 24, Norway 7, Sweden 29, Prussia 44, Sardinia 0, Greece 1, China 1, Asia 4, Africa 9, British America 57, Mexico 4, Central America 0, South America 8, West Indies 177, Sandwich Islands 0, and other countries 50.

The following table will show the decennial progress of the population since the first census of the State, taken by the United States authorities:

Census Years.	White Persons.	Colored Persons.		Total Population.	Decennial Increase.	
		Free.	Slave.		Numerical.	Per cent.
1790.....	140,173	1,801	107,094	108,895	249,073	—
1800.....	196,255	3,185	146,151	149,336	345,591	96,518 83.7
1810.....	214,196	4,554	196,365	200,919	415,115	69,524 20.1
1820.....	237,540	6,726	253,475	265,201	502,741	87,626 21.1
1830.....	257,863	7,921	315,401	323,322	581,185	78,444 15.6
1840.....	259,089	8,271	317,038	325,309	594,398	13,213 2.3
1850.....	274,623	8,900	384,934	393,834	668,507	74,109 12.8

The general statistics of the State regarding its productions, manufactures, commerce, and institutions, according to the census of 1850, and other official returns for that year, were as follows:

Occupied Lands, &c.—Improved farm lands, 4,072,651 acres, and unimproved lands, 12,145,040 acres—valued together at \$32,431,684. The whole number of farms under cultivation on the 30th June, 1850, was 29,969. Value of farming implements and machinery, \$413,654.

Live-Stock.—The number of live-stock or domestic animals for the two periods 1840 and 1850, according to the census of those years, was comparatively:

Description.	1840.	1850.	Increase.
Horses.....	129,921 head	97,171 head	4,738 head, or 3.6 per cent.
Mules and Asses.....	37,453 "	37,453 "	
Milch Cows.....	193,244 "	193,244 "	
Working Oxen.....	572,608 "	20,504 "	205,075 " or 35.8 "
Other Cattle.....	563,935 "	563,935 "	
Sheep.....	232,951 "	285,551 "	52,570 " or 22.6 "
Swine.....	678,532 "	1,065,508 "	386,971 " or 21.8 "

—the value of all live-stock in 1850, was \$15,060,015.

Products of Animals.—Wool, 457,233 pounds; butter, 2,931,550 pounds; cheese, 4,970 pounds; and the value of animals slaughtered in the year had been \$1,302,637. The wool crop according to the census of 1840 amounted to 299,170 pounds; and hence the increase exhibited in 1850, was 183,063 pounds, or 62.8 per cent. The product per fleece in 1840, was 20.1 ounces, and in 1850, 27.3 ounces, showing an increase of 7.2 ounces, or 35.8 per cent.

Grain Crops.—Wheat, 1,066,277 bushels; rye, 43,790 bushels; Indian corn, 16,271,454 bushels; oats, 2,322,155 bushels; barley, 4,583 bushels; and buckwheat, 283 bushels. Comparing the above with the products according to the census of 1840, the following results are obtained:

Crops.	1840.	1850.	Movement.	Per cent.
Wheat.....	963,354 bushels	1,066,277 bushels	incr. 97,923 bushels, or	10.1 per cent.
Rye.....	44,738 "	43,790 "	decr. 3,049 "	or 2.1 "
Indian corn.....	14,722,805 "	16,561,454 "	incr. 1,448,649 "	or 9.9 "
Oats.....	1,456,208 "	2,322,155 "	incr. 845,947 "	or 56.9 "
Barley.....	3,967 "	4,583 "	incr. 616 "	or 15.5 "
Buckwheat.....	72 "	283 "	incr. 211 "	or 273.0 "

SOUTH CAROLINA.

Other Food Crops.—Rice, 159,930,613 pounds; peas and beans, 1,026,900 bushels; potatoes—Irish, 136,494 bushels, and sweet, 4,837,469 bushels. The rice crop of 1840 was 60,590,361 pounds, and the increase in 1850 was 99,339,752 pounds, or 163.9 per cent. About three-fourths of the whole rice crop grown in the United States is produced in South Carolina, the proportions being as 1.599 to 2.153. The crop of potatoes in 1840, amounted to 2,698,313 bushels, and hence the increase over this in 1850 was 1,775,650 bushels, or 66.6 per cent.

Miscellaneous crops.—Tobacco, 74,285 pounds; cotton, 830,991 bales of 400 pounds; hay, 20,925 tons; clover-seed, 376 bushels; other grassseed, 80 bushels; hops, 26 pounds; flax, 333 pounds; flax-seed, 55 bushels; silk cocoons, 123 pounds; sugar—maple 200 pounds, and cane, 671 hogheads of 1,000 pounds; molasses, 15,904 gallons; beeswax and honey, 216.251 pounds; wine, 5,880 gallons, etc. Value of orchard products \$35,103, and of market-garden products \$47,256. The principal of these crops in 1840 and 1850 compare as follows:

Crops.	1840.		1850.		Movement.	
	Quantity	Value	Quantity	Value	Quantity	Value
Tobacco	51,519 pounds	74,285 pounds	increase	23,776 pounds, or 46.1 per cent.
Cotton	61,710,274 "	132,396,400 "	"	70,686,126 " or 114.3 "
Hay	24,618 tons	20,925 tons	decrease	3,693 tons or 15.0 "
Sugar	30,000 pounds	671,200 pounds	increase	641,200 pounds, or 2,237.3 "
Wine	643 gallons	5,880 gallons	"	5,137 gallons, or 798.9 "
Silk cocoons	2,980 pounds	123 pounds	decrease	1,957 pounds, or 90.7 "

Home-made Manufactures were produced in the year ending 1st June, 1850, to the value of \$909,525. The same class of goods for the year preceding the census of 1840, were valued at \$930,703.

Manufactures.—Total capital invested, \$0,000,000; value of all raw material, fuel, etc. consumed, \$0,000,000; hands employed 00,000—males 0,000, and females 0,000; monthly cost of labor \$000,000—male \$000,000, and female \$00,000; value of products for the year, \$0,000,000. The number of manufacturing establishments in operation and producing to the annual value of \$500 and upward on the 30th June, 1850, was 1,473, distributed to the counties according to the exhibit of the general table. Of this number 18 were cotton factories, 91 tanneries, and 6 iron works. The total capital invested in manufactures in 1840, amounted to \$3,216,970.

Capital invested in *cotton manufactures*, \$857,200; cotton used, 9,929 bales; value of all raw material, \$295,971; hands employed, 919—males 399, and females 620; monthly cost of labor, \$10,716—male \$5,565, and female \$5,151; annual products—sheeting, etc. 6,563,737 yards, and yarn 1,348,343 pounds; value of entire products, \$749,338. In 1840, there were in the State 15 cotton factories—capital \$617,450; hands, 570; value of manufactures, \$359,000.

Capital invested in *tanneries*, \$134,335; value of hides and skins used, \$131,679; hands employed, 264; monthly cost of labor, \$3,667; products of the year, 13,830 skins, and 110,000 sides of leather, valued together at \$261,332. In 1840, the capital invested in 97 tanneries was \$212,020; hands 281, and products—63,081 sides of upper leather, and 89,586 sides of sole leather.

The *iron manufacture* of South Carolina is confined to the manufacture of castings. In 1850 there were 6 establishments in operation, having an aggregate capital of \$185,700. The material used in these was 169 tons of pig iron, 2,300 tons ore, and 405,560 bushels of charcoal and coke, valued as raw material at \$29,128. Hands employed 155—males 153, and females 2; average wages per month—to males \$1 59, and to females \$4; castings manufactured, 1,256 tons; total value of annual products, \$57,683. In 1840 there were in the State 4 furnaces, producing 1,250 tons, and 9 bloomeries, forges, and rolling-mills, producing 1,165 tons; fuel consumed, 6,334 tons; hands, 248; and capital invested, \$183,300.

In the manufacture of *malt and spirituous liquors*, the capital invested amounted to \$3,475; Indian corn consumed, 18,100 bushels; hands employed, 33; whisky and high wines produced, 43,900 gallons. In 1840, 251 distilleries employed 219 men, and produced 102,288 gallons; and the capital invested amounted to \$14,342.

The manufacturing establishments making up the whole number as ascertained, otherwise than those detailed above, consist chiefly of such as are usual in an agricultural State, as carriages, saddlery, etc., and the mills of various descriptions found in all parts of the country. At least one-half the whole capital is employed in these multifarious interests.

Foreign commerce.—The value of the foreign import and export trade in the year ending 30th June, 1850, was as follows—of exports \$11,448,800, and of imports \$1,933,755. Of the exports, \$11,446,592 was the value of domestic products—carried in American ships \$6,467,201, and in foreign \$4,979,691; and \$908 was the value of foreign goods re-exported; and of the imports \$1,313,658 was the value of goods carried in American, and \$620,127 that of goods carried in foreign ships. The statistics of the shipping employed in this branch of industry in the year aforesaid, exhibit the annexed aggregates.

Nationality of Shipping.	Entered.			Cleared.			Total.		
	Vessels.	Tons.	Crews.	Vessels.	Tons.	Crews.	Vessels.	Tons.	Crews.
American	163	52,711	2,206	205	72,222	2,731	363	124,933	4,937

Coasting Trade, Internal Improvements, etc.—The great bulk of the commercial material of South Carolina and the States westward using its ports, is carried to New York for a market and for exportation, and in like manner these States are supplied with foreign goods from the same mart. This arrangement creates an immense coasting trade, which in South Carolina chiefly centres at Charleston. (See CHARLESTON.) With Georgia, Florida, and the Gulf ports a large trade is kept up, and regular lines of steamers and coasting vessels ply between the ports. Navigation on the rivers is also carried on to a great extent, and the heavy products of the interior are mostly brought down to the sea-board through this means. The Santee and other canals in this State are little used as channels of commerce, but are of local utility. The lines of railroad terminating at Charleston also greatly facilitate internal commerce. These railroads, indeed, are to Charleston what the Erie, Central, and other roads in New York are to the sea-board at that quarter, and have done more than all the natural facilities enjoyed by the country to swell the volume of its industry and wealth. These are noticed at length in the APPENDIX. Except Georgia, no other Southern State has in operation such a successful system of railroads, and it was in South Carolina that the American railroad system was first tested as an agent in commercial movements.

SOUTH CAROLINA.

The total amount of shipping owned in the State was 36,072 tons, of which 17,126 tons was registered shipping, 18,296 tons enrolled and licensed, and 69 tons licensed (under 20 tons). Of the registered tonnage 1,116 tons was navigated by steam, and of the enrolled and licensed shipping 6,339 tons. No shipping had been built during the year. The statistics of the value of the foreign commerce for a series of years exhibit the following movements:

Year.	Exports.	Imports.	Year.	Exports.	Imports.	Year.	Exports.	Imports.
1791	\$2,698,268	\$	1811	\$4,861,279	\$	1881	\$6,575,201	\$1,238,163
1792	2,428,250	—	1812	2,036,195	—	1882	7,752,781	1,213,725

Banks, etc.—On the 1st January, 1850, there were 12 banks and 2 branch banks in the State, the condition of which at that date was as follows: *liabilities*—capital, \$18,139,571; circulation, \$8,741,765; deposits, \$3,322,132; due other banks, \$2,047,777; and other liabilities, \$642,231; and *assets*—loans and discounts, \$20,601,137; stocks, \$1,849,463; real estate, \$377,571; other investments, \$345,530; due by other banks, \$2,850,942; notes of other banks, \$715,093; specie funds, \$239,278; and specie, \$1,711,902.

Government, etc.—The first constitution of South Carolina was framed in 1775. The constitution adopted in 1790 is the basis of the government as at present administered.

Every free white citizen of the State, 21 years of age, resident in the State two years, and owning a freehold of fifty acres, or a town lot, six months before the election, may vote wherever he so resides or holds such property. The general election is held on the second Monday of October annually.

The *Legislature* consists of a House of Representatives and a Senate. Representatives, 124 in number, are chosen for two years on a mixed basis of population and taxation, and must be free white men, 21 years old, citizens and residents of the State for three years, and if resident in their election district, seized of a freehold estate of 500 acres and ten negroes, or of unencumbered real estate worth £150, and if non-residents, of an unencumbered freehold worth £500. Senators, 45 in number, shall be free white men, 30 years old, citizens and residents of the State for five years next before the election; if residents of their districts, shall own a freehold of the clear value of £300; if non-residents, of the clear value of £1,000; and shall be chosen for four years, one-half the number of senators every two years. The legislature assembles at Columbia annually on the fourth Monday in November.

The Governor and Lieutenant-governor shall be 30 years of age, residents and citizens of the State for ten years, and owners of a settled estate within the State of the clear value of £1,500 each; and shall be chosen by joint ballot of both houses of the Legislature for two years, and shall be ineligible during the succeeding four years. If the office of governor be vacant, it shall be filled by the lieutenant-governor, and after him by the president of the senate, until it is filled by the General Assembly.

The *administrative* officers of the State are, the Secretary of State, the Comptroller-general, two treasurers, the surveyor-general, attorney-general, and the President of the Bank of the State of South Carolina.

The *judiciary* consists of a Law Court of Appeals, and an Equity Court of Appeals, Courts for the Correction of Errors, Courts of Common Pleas and General Sessions, etc. The *Law Court of Appeals*, consisting of all the law judges, for hearing appeals from the Courts of Law, and the *Equity Court of Appeals*, consisting of all the chancellors, for hearing appeals from the Courts of Equity, are held in the capital, in May and November, and at Charleston, for the determining of facts from the districts of Georgetown, Horry, Beaufort, Colleton, and Charleston, in the month of January. *Courts for the Correction of Errors*, consisting of all the judges in law and equity, to try constitutional questions, or questions where the law and equity courts are divided, and which are referred thereto by either of the courts, are held at such times, during the sitting of the Court of Appeals, as the chancellors and judges may appoint. Courts of Common Pleas and General Sessions have original jurisdiction in all civil cases where legal rights are involved (except in matters of contract, where the account is \$20 or under), and in all criminal cases affecting free white men; and appellate jurisdiction in all appeals from the magistrates' courts, and in appeals from the Court of Ordinary in all cases except in matters of account. They are held in each and every district of the State twice in each year. *Courts of Equity* take cognizance of all matters in equity, as contra-distinguished from law, and a term is held annually in each district, except in that of Charleston, in which two are held. The *City Court* of Charleston is an inferior court of both civil and criminal jurisdiction, and is presided over by a Recorder. An *Ordinary's Court* is established in each district. The principal duties of the Ordinary is to grant letters of administration, probate of wills, examining executors' and administrators' accounts, etc., and his office is the proper depository of wills and other papers relative to the administration of estates. Appeals from this court in matters of account to the Court of Equity, and in all other cases to the Common Pleas. *Magistrates' Courts* have exclusive jurisdiction in matters of contract and under \$20. *Courts of Magistrates and Freeholders* are established for the trial of slaves and free people of color for criminal offenses. The judges and chancellors are elected by joint ballot of the Legislature, and hold office during good behavior. Sheriffs hold office for four years, and are ineligible for the succeeding four years.

SOUTH CAROLINA.

Amendments to the constitution, if proposed by two-thirds of the members of each house of the Legislature, must be published three months before the next election of representatives, and if agreed to by a vote of two-thirds of the members, at the next session, shall be adopted. No convention of the people shall be called unless by a vote of two-thirds of both houses.

Federal Representation.—South Carolina, in accordance with the law of 23d May, 1850, is entitled to *five* representatives in Congress. This State is the only one of the Union in which Presidential electors are chosen by the Legislature.

The *militia force* of the State, as reported by the Adjutant-general of the United States, in 1850, consisted of 55,209 men of all arms, of which 2,591 were commissioned officers, and 52,618 non-commissioned officers, musicians, artificers, and privates. Of the commissioned officers 19 were general officers, 96 general staff-officers, 452 field-officers, and 2,024 company-officers. The Governor is *ex-officio* Commander-in-chief in and over the State of South Carolina.

Public Finances, Debt, &c.—The whole amount of moneys received into the treasury, during the year ending 30th September, 1850, was—from taxation \$313,381 55, and from other sources \$286,911 22; total \$600,292 57; and the whole amount expended was \$540,564 42; leaving in the treasury \$69,428 45.

The debt of the State, according to the report of the Legislature, in 1850, is as follows: 5 per cents. issued for the capital of the Railroad Bank, \$46,714 34; Randolph Stock, \$1,250; Revolutionary debt, \$78,810 60; 6 per cents. due 1850, \$3,726 84; 6 per cents. due 1852, \$175,426 55; 5 per cents. Fire Loan Foreign Debt due 1855, \$471,111 12; 5 per cents. *do.* due 1868, \$482,222 21; 5 per cents. domestic debt due 1860, \$482,222 23; 5 per cents. *do.* due 1870, \$325,508 92—total debt, \$2,061,292 81.

Since the adjournment of the previous Legislature \$193,437 30 of the domestic, and \$23,250 80 of the foreign debt had been cancelled by the bank, besides \$8,750 of the Randolph Stock paid by the treasury.

The net profits of the State Bank, for the past year, including \$95,000 as arrears derived from business of former years, were \$364,825 59. From this amount there has been transferred to the Sinking Fund \$243,158 91, and been paid \$73,453 11 for interest on the debt in Europe, and the balance that the bank was in advance for interest and expenses; also the interest on the 6 per cents. (fire loans), amounting to \$48,179 99. The aggregate funds of the bank, on the 1st October, were \$6,353,660 06, and the total liabilities \$2,770,934 86, leaving as surplus the sum of \$3,582,725 20.

The property of the State consists of bank capital \$2,933,611 10, sinking fund \$653,022 72, and balance due treasurers of State Bank \$101,071 15; debt of railroad and canal companies, \$523,396 69; shares in South Carolina Railroad Company and South-Western Railroad Bank, \$800,000; and sundries, \$9,415 61—total \$5,020,517 92.

The State is possessed of several highly creditable *charitable institutions*, of which the Lunatic Asylum and the Deaf and Dumb Asylum are the principal. The State Lunatic Asylum is located at Columbia. On the 5th November, 1850, it had 121 inmates; during the ensuing year 55 others were received, and 49 were discharged—22 cured, 18 improved, and 9 died, leaving in the institution at the end of the year 127. Receipts during the year \$26,501 43, and expenditures \$123,702 54. The Asylum for the Education of the Deaf and Dumb is situate at Cold Spring, and was instituted in 1849. In November, 1851, it had 27 pupils.

Education.—The number of public schools in this State, in 1849, was 1,023, the number of teachers 1,019, and the number of scholars 9,122. These schools are under the superintendence of Commissioners appointed by the Legislature. In 1848, the amount expended from the public funds, on account of public education, was \$40,561 53. Throughout the State there are grammar schools, academies, and private establishments, at one class of which, in preference to the public schools of the State, the great majority of young people are educated. The State also supports several military institutes, the curriculum of instruction at which is based on that of the West Point Academy. The principal colleges, theological seminaries, and medical schools in the State, and the statistics of each, are as follows:

Names.	Location.	Founded.	Professors.	Students.	Alumni.	Vols. in libr.
Charleston College	Charleston	1785	6	70	124	2,000
South Carolina College	Columbia	1804	8	195	—	17,000

Med. Coll. of State of S. Carolina	Charleston	1833	8	158	—	—

Public Libraries.—According to the report of the Librarian of the Smithsonian Institute, in 1851, there were in the State the following libraries: 2 social—23,500 volumes; 2 college—19,000 volumes; 4 students—1,900 volumes; 5 academic and professional—10,264 volumes; 1 public school—250 volumes. Total 14 libraries, and 59,914 volumes.

Periodical Press.—The whole number of periodicals and newspapers published in the State on the 1st June, 1850, was 47, of which number 7 were published daily, 4 tri-weekly, 2 semi-weekly, 25 weekly, 5 monthly, and 1 quarterly. Of the whole, 22 were democratic in politics, and 25 whig, or neutral, or devoted to religion, literature, &c. Of the dailies, the aggregate circulation was 20,700 copies at each issue; of the tri-weeklies, —; of the semi-weeklies, 925; of the weeklies, 25,990; of the monthlies, 5,700; and of the quarterly, 1,600 copies. The number and character of periodicals in each district, was as follows: Abbeville, 2 w.; Anderson, 2 w. and 1 m.; Beaufort, 1 w.; Charleston, 4 d., 1 t.-w., 4 w., 3 m., 1 bi-m., and 1 quarterly; Chesterfield, 1 w.; Chester, 1 w.; Edgefield, 2 w.; Fairfield, 1 w. and 1 m.; Greenville, 1 w.; and 1 t.-w.; Georgetown, 1 s.-w. and 1 w.; Kershaw, 1 s.-w.; Laurens, Marion, Newberry, and Pickens, each 1 w.; Richland, 3 d., 2 t.-w., and 3 w.; Spartansburg, 1 w.; Sumter, 2 w.; and York, 1 weekly.

Pauperism.—Whole number of paupers who received relief or support within the year ending 1st June, 1850, 1,642—1,318 natives, and 329 foreigners; and the whole number of paupers at that date, 1,293—1,113 natives, and 180 foreigners annual cost of support, \$48,337.

Religious Denominations.—The statistics of the several religious denominations in the State in 1850, were as follows:

Denominations	No. of Churches.	Church accom.	Value of Property.	Denominations.	No. of Churches.	Church accom.	Value of Property.	Denominations.	No. of Churches.	Church accom.	Value of Property.
Baptist	413	165,595	\$293,563	German Ref.	—	—	—	R. Catholic	14	6,030	\$73,315
Christian	—	—	—	Jewish	3	2,400	83,700	Swedenb'g	—	—	—
Congregat'l	1	2,000	70,000	Lutheran	41	14,750	109,500	Tunker	—	—	—
Dutch Ref.	—	—	—	Mennonite	—	—	—	Union	—	—	—
Episcopal	71	28,540	615,450	Methodist	467	159,920	311,168	Unitarian	1	700	30,000
Free	5	1,550	1,700	Moravian	—	—	—	Universalist	2	650	5,600
Friends	1	500	500	Presbyter'n	125	64,465	471,125	Minor Sects.	19	6,620	69,425

—making a total of 1,163 churches, having accommodation for 453,930 persons, and valued at \$2,140,346. South Carolina is a diocese of the Protestant Episcopal Church, and also forms a part of the Roman Catholic diocese of Charleston.

Historical Sketch.—South Carolina, for many years after its settlement, was united under the same government as North Carolina; but as early as 1671 it had been set off as the "County of Carteret in Carolina," and in 1715 had a separate legislature. In 1727 it became a royal colony.

The general history of the colony, from its first settlement to the division of Carolina into North and South, is given in connection with the description of North Carolina (which see). The germ of the population of South Carolina was planted at Port Royal in 1670, but becoming dissatisfied with the locality, the colony removed the next year to the banks of Ashley River, where they founded old Charleston. A second removal took place in 1680 to Oyster Point, at the confluence of Ashley and Cooper rivers, where the present city of Charleston was commenced.

On the settlement of South Carolina, the proprietors engaged the celebrated John Locke to frame for them a constitution and body of laws. The system of government proposed by the philosopher consisted of 120 articles, and was partly aristocratic and partly feudal in its principles. Three classes of nobility were established, viz., barons, caciques, and landgraves. The first were to possess 12,000, the second 24,000, and the third 48,000 acres of land, which was to remain unalienable in their families. The legislature consisted of only one house, and was composed of the lords proprietors, the nobility, and deputies chosen by the free inhabitants holding heritable property. This plan of government, ill suited to the condition and views of the people, produced discord and anarchy. Its spirit was adverse to a democracy, and encouraged the proprietaries in arbitrary proceedings. Religious disputes, however, at this time, were the great causes of disturbance. The Episcopalians being in a majority, attempted to exclude dissenters from the legislature, and the attempt succeeding, the Church of England was established by law. A train of evil consequences followed; and though the obnoxious law was annulled by the British Parliament, tranquillity was not restored, and soon after (1729) the people preferring a monarchy to an oligarchy, the colony became a royal government, the king purchasing the rights of the proprietaries.

From this period the colony was governed on the same plan as the other royal governments, and its growth became more rapid. Population began to pour in when discord subsided. The Dutch expelled from New York, the French Protestants, on the revocation of the Edict of Nantz, and others fleeing from tyranny and opposition, sought asylum in the young colony. These generally settled themselves on the Santee River, and perhaps more by their respectability and character than by their numbers, contributed to the future welfare of the State. The insurrections of 1715 and 1745 in England also sent numbers to the settlement; many arrived from Germany and Switzerland, and 1,500 French colonists, expatriated from Nova Scotia, found sanctuary in South Carolina. The cultivation of rice was commenced about the end of the seventeenth century, and as is well known, to this event (which was purely accidental) the State has derived a lasting source of wealth.

The wars of the Spaniards, French, and Indians, undertaken by each for the extermination of the settlers, greatly impeded the progress of the country during the period commencing with the eighteenth century, and ending with the general peace of 1763. The coasts were ravaged, the frontier settlements broken up, and numbers left the country in despair, and, to add to the misfortunes of this state of matters, the small-pox raged with violence during the latter portion of this calamitous period.

During the thirteen years intervening to the breaking out of the Revolution of 1776, the province enjoyed uninterrupted peace and prosperity, and in that time nearly doubled its population; and the Southern colonies were at that time little inclined to disturb the peaceful order of things, then existing, by joining in the revolt against the mother country. But though this feeling animated the inhabitants generally, there was also a minority favorable to the revolution; and about this time a revulsion was brought about even among the monarchical party, by orders having been given the governor to use immediately and effectually the military in the subjugation of the dissenters. This circumstance seems to have determined the conduct of the colonists. During the long struggle that followed, this State suffered much both from the British and Indians, and the tory interest among themselves. The war in South Carolina was remarkable both for general actions of great importance to the public cause, and for the display of individual bravery and patriotism. The battles of Cowpens and Eutaw Springs may vie with any in the contest for skill and courage, and the names of Marion, Sumter, and Lee will ever live on the page of history. The city of Charleston was twice besieged—once in 1776, unsuccessfully, and once in 1780, when after a determined resistance its inhabitants and garrison fell into the hands of the enemy. The victory of Eutaw Springs in 1781 relieved the State from the pressure of war, and contributed not a little to the successful issue of the contest. The scenes of the battles and sieges within South Carolina occurred in the following chronological order: *Fort Moultrie*, 25th June, 1776; *Port Royal*, 1779; St. John's, 1779; Monk's Corner, 14th April, 1780; Charleston, 12th May, 1780; Camden, 16th August, 1780; *Broad River*, October, 1780; *Tyger River*, October, 1780; *Cowpens*, 17th January, 1781; *Fort Watson*, 14th April, 1781; *Hobkirk's Hill*, 25 April, 1781; *Ninety-Six*, 18th June, 1781; *Eutaw Springs*, 8th September, 1781, the scenes of American success being noted in *italics*.

The history of the State since this period has been one of interest. It notes many phases in politics which have startled the public mind, and though comparatively a small State, its proceedings have occupied a large share of public attention. Its attitude on several important federal questions has been peculiar and independent, and so tenacious of "State rights" have the people appeared, that on several occasions they have even gone so far as to threaten a separation from the Union. In these manifestations of sovereignty, however, the patriotism of the people has not suffered in the general esteem of the world; and it may be added that the influence of the conduct of South Carolina has not been without its benefits to the Union, in restraining the federal aggressions and upholding the rights of States to the management of their own internal affairs. South Carolina, too, has given to its sister States an example worthy of imitation, in its advocacy of Southern industry and improvement. Among Southern States, this is second to none in its public works, and in many of its industrial employments ranks superior to any other in which slave labor is used as a producing power.

COLUMBIA, on the east side of Congaree River, is the political capital of the State.

SOUTH CARROLL, p. v., Carroll co., *Tenn.*: on a branch of Forked Deer r., 102 m. S. W. by W. Nashville.

SOUTH CARROLLTON, p. o., Muhlenburg co., *Ky.*: 143 m. S. W. Frankfort.

SOUTH CARVER, p. o., Plymouth co., *Mass.*: 39 m. S. by E. Boston.

SOUTH CASS, p. o., Ionia county, *Mich.*: 33 m. W. N. W. Lansing.

SOUTH CHARLESTON, p. v., Clark co., *Ohio*: on a branch of the Little Miami river, and on the Columbus and Xenia R. R., 36 m. W. by S. Columbus.

SOUTH CHARLESTOWN, p. v. and sta., Sullivan county,

N. Hamp.: on the left bank of the Connecticut r., on the Sullivan R. R., 22 m. S. from Windsor, and 43 W. Concord.

SOUTH CHESTERVILLE, p. o., Franklin county, *Me.*: on a branch of Sandy r., 21 m. N. W. Augusta.

SOUTH CHINA, p. o., Kennebec county, *Me.*: 13 m. N. E. Augusta.

SOUTH COLUMBIA, p. o., Herkimer county, *N. Y.*: 68 m. N. W. by W. Albany.

SOUTH CORINTH, p. v., Saratoga county, *N. Y.*: 36 m. N. Albany.

SOUTH CORTLANDT, p. o., Cortlandt co., *N. Y.*: 132 m. W. by N. Albany.

SOUTH COVENTRY, p. v., Tolland co., *Conn.*: on the Willimantic r., and on the New London, Willimantic, and Palmer R. R., 34 m. N. by W. New London, and 22 E. from Hartford. This is a flourishing place, and contains several woolen factories for the manufacture of satinet warp, and the "Eagle Manufacturing Company" have their establishment for printing cloths in this v.—capital \$20,000. There are from 50 to 60 operatives employed in the manufactories.

SOUTH CRAFTSBURG, p. v., Orleans co., *Verm.*: 30 m. N. by E. Montpelier. There is a manufactory of woolen goods in the village.

SOUTH CREEK, t. and p. o., Bradford co., *Penn.*: 113 m. N. Harrisburg. Drained by a stream so called, which affords power to several mills. Surface hilly; soil gravelly loam. The Williamsport and Elmira R. R. will pass through this town.

SOUTH DANBY, p. o., Tompkins co., *N. Y.*: 144 m. S. W. Albany.

SOUTH DANVILLE, p. v., Steuben county, *N. Y.*: on the Canaseraga r., branch of the Genesee r., 208 m. W. Albany.

SOUTH DANVERS, v. and sta., Essex county, *Mass.*: at the junction of the Essex R. R. with the Salem and Lowell and South Reading Branch railroads, 19 m. S. E. Lawrence, 22 S. E. by E. Lowell, and 17 N. E. by N. Boston.

SOUTH DARTMOUTH, p. v., Bristol co., *Mass.*: on Apponegansett bay, 57 m. S. Boston.

SOUTH DEDHAM, v. and sta., Norfolk co., *Mass.*: on the Norfolk County R. R., 14 m. S. W. Boston.

SOUTH DEERFIELD, p. v., Rockingham co., *N. Hamp.*: on a branch of Lamprey r., 18 m. S. E. Concord.

SOUTH DEERFIELD, v. and sta., Franklin co., *Mass.*: on the Connecticut River R. R., 28 m. N. Springfield, and 81 m. W. by N. Boston.

SOUTH DEER ISLE, p. o., Hancock co., *Me.*: on S. part of the island so called, 58 m. E. by S. Augusta.

SOUTH DENNIS, p. v., Barnstable co., *Mass.*: on the left bank of Bass river, 67 m. S. E. Boston. Common salt and epsom salt is manufactured in the vicinity.

SOUTH DICKINSON, p. o., Franklin co., *N. Y.*: 150 m. N. by W. Albany.

SOUTH DORSET, p. o., Bennington co., *Verm.*: 79 m. S. by W. Montpelier.

SOUTH DOVER, p. v., Piscataquis co., *Me.*: 67 m. N. E. Augusta.

SOUTH DOVER, p. v. and sta., Dutchess co., *N. Y.*: on the Harlem R. R., 73 m. N. by E. New York city, and 79 S. by E. Albany.

SOUTH DRESDEN, p. o., Lincoln co., *Me.*: on the E. of the Kennebec r., 21 m. S. by E. Augusta.

SOUTH DURHAM, p. o., Cumberland co., *Me.*: 31 m. S. W. Augusta.

SOUTH DURHAM, p. o., Greene co., *N. Y.*: on a tributary of the Hudson r., 30 m. S. W. Albany.

SOUTH EAST, t. and p. o., Putnam county, *N. Y.*: 88 miles S. by E. Albany. The Harlem R. R. passes through, having a sta. at Brewster's, 55 m. from New York, 99 from East Albany. Surface hilly; soil fertile. Drained by Croton r. It contains several mills of various kinds, a paper factory, and tannery. Pop. 2,079.

SOUTH EASTON, p. o., Washington county, *N. Y.*: 24 m. N. N. E. Albany.

SOUTH EASTON, p. o., Bristol co., *Mass.*: 25 m. S. Boston. SOUTH EDMESTON, p. o., Otsego county, *N. Y.*: 75 m. W. Albany.

SOUTH EDWARDS, p. o., St. Lawrence co., *N. Y.*: 138 m. N. N. W. Albany.

SOUTH EGEMONT, p. v., Berkshire co., *Mass.*: on a small branch of Housatonic r., 122 m. W. by S. Boston.

SOUTH ENGLISH, p. v., Keokuk co., *Ia.*: on a branch of English r., 33 m. W. S. W. Iowa City.

SOUTH ERIN, p. o., Chemung co., *N. Y.*: 156 m. W. S. W. Albany.

SOUTHERLAND, p. o., Jefferson county, *Flor.*: 23 miles E. Tallahassee.

SOUTH FARMS, p. v., Litchfield co., *Conn.*: 28 m. W. by S. Hartford, and 80 m. N. N. W. New Haven. It contains an academy and church.

SOUTHFIELD, t. and p. o., Oakland county, *Mich.*: 69 m. E. by S. Lansing. Drained by affluents of the branch of Rouge r. Surface diversified; soil deep and fertile, well wooded. Pop. in 1840, 1,061; in 1850, 1,658.

SOUTHFIELD, p. o., Berkshire co., *Mass.*

SOUTH FITCHBURG, v. and sta., Worcester county, *Mass.*: on the Fitchburg and Worcester R. R., 21 m. N. Worcester, and 40 W. N. W. Boston.

SOUTH FLORENCE, p. v., Franklin co., *Ala.*: on the left bank of Tennessee river, opposite Florence, 185 m. N. W. Montgomery.

SOUTH FORD, p. o., New Haven co., *Conn.*

SOUTH FORK, p. o., Owsley co., *Ky.*: on a fork of Kentucky r., 77 m. S. E. Frankfort.

SOUTH FORK, p. o., Ashe co., *N. Car.*: 169 m. W. N. W. Raleigh.

SOUTH FORK, p. o., Wayne county, *Ia.*: 111 miles S. W. Iowa City.

SOUTH FOSTER, p. o., Providence co., *R. I.*: 18 m. W. by S. Providence.

SOUTH FRAMINGHAM, p. v. and sta., Middlesex co., *Mass.*: on the Boston and Worcester R. R., 21 m. from Boston, and 24 m. from Worcester.

SOUTH FRANKLIN, p. o., Delaware county, *N. Y.*: 76 m. W. S. W. Albany.

SOUTH FRANKLIN, p. o., Norfolk county, *Mass.*: 27 miles S. W. by S. Boston. The Norfolk County R. R. passes near it.

SOUTH FREEDOM, p. o., Waldo co., *Me.*: 25 m. N. E. by E. Augusta.

SOUTH GALWAY, p. o., Saratoga county, 24 m. W. N. W. Albany.

SOUTH GARDNER, v. and sta., Kennebec co., *Me.*: on W. bank of Kennebec r., and on Kennebec and Portland R. R., 12 m. from Augusta, and 48 m. from Portland.

SOUTH GARDNER, p. o., Worcester county, *Mass.*: 51 m. W. N. W. Boston.

SOUTH GATE, p. o., Franklin county, *Ind.*: 66 m. E. S. E. Indianapolis.

SOUTH GENESSEE, p. o., Waukesha county, *Wis.*: 47 m. E. by S. Madison.

SOUTH GIBSON, p. v., Gibson co., *Tenn.*: 117 m. W. by S. Nashville.

SOUTH GLASTENBURY, p. v., Hartford co., *Conn.*: on E. side of Connecticut r., 9 m. S. Hartford, 30 m. N. N. E. New Haven.

SOUTH GRANBY, p. o., Oswego county, *N. Y.*: 144 miles W. N. W. Albany.

SOUTH GRANVILLE, p. o., Washington co., *N. Y.*: 54 m. N. N. E. Albany.

SOUTH GROTON, p. o., Middlesex county, *Mass.*: 30 m. N. W. by W. Boston.

SOUTH GROVE, p. o., De Kalb co., *Ill.*: 161 m. N. N. E. Springfield.

SOUTH GROVE, p. o., Walworth co., *Wis.*: 57 m. S. E. Madison.

SOUTH HADLEY, t. and p. v., Hampshire co., *Mass.*: on

E. side of Connecticut r., 79 m. W. Boston. Surface beautifully diversified; soil productive. The Connecticut r. has here a fall of 50 feet in about 80 rods, around which the first canal on the river was constructed, having the following dimensions: 2 m. long, with 5 locks, and for a distance of 800 feet cut through rock, 40 feet deep. Mount Holyoke is in the N. part of the town. The v. contains a church, etc., and the Mount Holyoke Female Seminary, a flourishing institution of much celebrity. Pop. of t. 2,491.

SOUTH HADLEY FALLS, p. v., Hampshire co., *Mass.*: on the E. bank of Connecticut r., 3 m. S. from South Hadley v., 50 m. W. Boston. It contains several manufactories, and is a very prosperous village.

SOUTH HALIFAX, p. o., Windham co., *Verm.*: 108 m. S. Montpelier.

SOUTH HAMPTON, t. and p. o., Rockingham co., *N. Hamp.*: 37 m. S. E. Boston. Surface uneven. Watered by Powow r., which affords mill-sites. Pop. 472.

SOUTH HANOVER, p. v., Jefferson co., *Ind.*: on the W. of the Ohio r., 80 m. S. S. E. Indianapolis. The Hanover College is located in this place. The college edifice is 100 feet by 40, and 8 stories high. There are also other small buildings erected for dormitories. The Indiana Theological Seminary is also connected with the college. In 1850 the college had 6 professors, 100 alumni, and about 38 students. The libraries contain about 4,700 volumes.

SOUTH HANSON, p. o., Plymouth co., *Mass.*: 28 m. S. S. E. Boston.

SOUTH HARDWICK, p. o., Caledonia co., *Verm.*: 20 m. N. N. E. Montpelier.

SOUTH HARTPETH, p. v., Davidson co., *Tenn.*: on the S. side of Harpeth r., 15 m. S. by W. Nashville.

SOUTH HARRISBURG, p. o., Lewis co., *N. Y.*: 129 m. N. W. Albany.

SOUTH HARTFORD, p. o., Oxford county, *Me.*: 27 m. W. Augusta.

SOUTH HARTFORD, p. v., Washington co., *N. Y.*: 51 m. N. N. E. Albany. It contains 2 churches, tannery, grist-mill, and stores.

SOUTH HARTWICK, p. o., Otsego co., *N. Y.*: 68 m. W. Albany.

SOUTH HARWICK, p. o., Barnstable co., *Mass.*: on S. side of Cape Cod peninsula, 1 m. from the shore, 70 m. S. E. Boston.

SOUTH HAWLEY, p. v., Franklin county, *Mass.*: 97 m. W. by N. Boston.

SOUTH HERMITAGE, p. o., Lancaster co., *Penn.*: 40 m. S. E. Harrisburg.

SOUTH HERO, t. and p. v., Grand Isle co., *Verm.*: on S. part of Grand Isle in Lake Champlain, 43 m. N. W. Montpelier. The surface rises gently from the lake; soil is various, but very fertile. Limestone is found. A ferry connects the t. with Colchester Point. The t. contains a tannery, store, and 2 churches. Pop. of t. 666.

SOUTH HILL, p. o., Steuben co., *N. Y.*: 201 m. W. by S. Albany.

SOUTH HILL, p. o., Bradford co., *Penn.*: 90 m. N. by E. Harrisburg.

SOUTH HILL, p. v., Mecklenburg co., *Virg.*: on a tributary of the Roanoke r., 63 m. S. W. Richmond.

SOUTH HINGHAM, p. v., Plymouth county, *Mass.*: 14 m. S. E. by S. Boston.

SOUTH HOPE, p. o., Waldo co., *Me.*: 32 m. E. by S. Augusta.

SOUTHINGTON, t. p. v., and sta., Hartford co., *Conn.*: on New Haven and Northampton R. R., 22 m. N. from New Haven, 18 m. S. W. by S. Hartford. Surface uneven; soil fertile; watered by Quinnipiac river, which affords water-power. The town contains several grist and saw-mills, an academy, and 4 churches. Pop. of t. 2,139.

SOUTHINGTON, t. and p. o., Trumbull co., *Ohio*: 188 m. N. E. Columbus. Drained by branches of Grand r. Surface undulating; soil fertile. The inhabitants are chiefly occupied in agricultural pursuits. Pop. 1,013.

SOUTH JACKSON, p. v., Jackson co., *Mich.*: 88 m. S. by E. Lansing.

SOUTH KENT, p. v., Litchfield co., *Conn.*: 40 m. W. by S. Hartford, 38 m. N. W. New Haven.

SOUTH KILLINGLY, p. v., Windham co., *Conn.*: 40 m. E. Hartford, 66 m. N. E. New Haven.

SOUTH KINGSTON, p. o., Rockingham county, *N. Hamp.*: 82 m. S. E. by South Concord.

SOUTH KINGSTON, t., Washington co., *R. I.*: 29 m. S. by W. Providence. Bounded on the E. by Narragansett bay, and on the S. by Atlantic Ocean. This t., formerly part of North Kingston, is the largest t. in the State, comprising 93 sq. m. At its S. E. extremity is the noted Point Judith. Kingston village, in its N. part, is the capital of the county. The t. has an uneven surface; soil of gravelly loam, and contains a large salt pond, and about 20 fresh-water ponds, one of which contains 3,000 or 4,000 acres. The fisheries on its shores are extensive and valuable. Many of its citizens are employed therein, and in navigation. The town also contains several factories, chiefly making woolen goods. The Stonington and Providence R. R. passes through its N. W. part. Pop. 3,802.

SOUTH KIETLAND, p. o., Lake co., *Ohio*: 138 m. N. N. E. Columbus.

SOUTH KORTRIGHT, p. v., Delaware county, *N. Y.*: 72 m. S. W. by W. Albany.

SOUTH LANSING, p. o., Tompkins co., *N. Y.*: 146 m. W. Albany.

SOUTH LEE, p. v. and sta., Berkshire co., *Mass.*: on Berkshire R. R., 15 m. S. Pittsfield, 114 m. W. Boston. Here are several paper mills and an iron foundry.

SOUTH LEEDS, p. o., Kennebec county, *Me.*: on E. side of Androscoggin r., 21 m. W. S. W. Montpelier.

SOUTH LINCOLN, p. v., Penobscot co., *Me.*: on E. bank of Penobscot r., 93 m. N. N. E. Augusta.

SOUTH LIVONIA, p. o., Livingston co., *N. Y.*: between Cenesus and Hemlock lakes, 206 m. W. Albany.

SOUTH LODI, p. o., Seneca co., *N. Y.*: on E. side of Seneca lake, 161 m. W. Albany.

SOUTH LOWELL MILLS, p. o., Orange co., *N. Car.*: 83 m. N. W. Raleigh.

SOUTH LYME, p. v. and sta., New London co., *Conn.*: on the New Haven and New London R. R., 40 m. from New Haven, and 10 m. from New London.

SOUTH LYNDEBOROUGH, p. o., Hillsboro' co., *N. Hamp.*: 26 m. S. S. W. Concord.

SOUTH LYON, p. o., Oakland co., *Mich.*: 54 m. S. E. Lansing.

SOUTH MANCHESTER, p. o., Hartford co., *Conn.*: 9 m. E. Hartford.

SOUTH MARCELLUS, p. o., Onondaga co., *N. Y.*: 132 m. W. by N. Albany.

SOUTH MAXFIELD, p. o., Penobscot co., *Me.*: on Piscataquis r., 87 m. N. E. by N. Augusta.

SOUTH MERRIMAC, p. v. and sta., Hillsboro' co., *N. Hamp.*: on Wilton Branch R. R., 5 m. from Nashville, 45 m. from Boston, 27 m. S. Concord.

SOUTH MIDDLEBOROUGH, p. o. and sta., Plymouth county, *Mass.*: on Cape Cod Branch R. R., 8 m. from Middleboro', and 43 m. from Boston.

SOUTH MILFORD, p. o., Cecil county, *Md.*: 49 m. N. E. Annapolis.

SOUTH MILFORD, p. o., La Grange co., *Ind.*: 130 m. N. N. E. Indianapolis.

SOUTH MILFORD, p. o., Otsego co., *N. Y.*: 68 m. W. by S. Albany.

SOUTH MILFORD, p. o., Worcester co., *Mass.*: 29 m. S. W. Boston.

SOUTH MILLS, p. o., Camden co., *N. Car.*: 145 m. E. N. E. Raleigh.

SOUTH MOLUNCUS, p. o., Aroostook county, *Me.*: 142 m. N. N. E. Augusta.

SOUTH MONTVILLE, p. o., Waldo co., *Me.*: 27 m. E. by N. Augusta.

SOUTH MOUNTAIN, Washington and Frederick counties, *Md.*: a well-defined ridge of the Alleghanies, forming the boundary between the two counties.

SOUTH NASHVILLE, p. o., Davidson co., *Tenn.*

SOUTH NATICK, p. v., Middlesex co., *Mass.*: on W. side of Charles r., 14 m. W. S. W. Boston.

SOUTH NEW BERLIN, p. v., Chenango co., *N. Y.*: on W. bank of Unadilla r. It contains a church and a few stores. Pop. about 180.

SOUTH NEWBURG, p. v., Penobscot co., *Me.*: on a creek of Sowadabscook r., 47 m. N. E. Augusta.

SOUTH NEWBURY, p. o., Orange co., *Verm.*: 27 m. E. S. E. Montpelier.

SOUTH NEWBURY, p. o., Merrimac co., *N. Hamp.*: 25 m. W. by N. Concord.

SOUTH NEW CASTLE, p. o., Gallia co., *Ohio*: in a mineral coal region on the N. bank of the Ohio r., 99 m. S. S. E. Columbus. It contains several stores, a furnace, forge, and rolling-mill, etc.

SOUTH NEW MARKET, t. p. v., and sta., Rockingham co., *N. Hamp.*: 31 m. E. S. E. Concord. Bounded on the E. by Squawscot r. and part of Great bay. The Boston and Maine R. R. passes through the v., 55 m. from Boston, 56 m. from Portland, and connects with the Portsmouth and Concord R. R. 10 m. from Portsmouth, 37 m. from Concord. Pop. 516.

SOUTH NEWPORT, p. v., McIntosh co., *Ga.*: on the right bank of the river so called, about 9 m. from its mouth, 180 m. S. E. Milledgeville.

SOUTH NEWRY, p. o., Oxford co., *Me.*: on a branch of Androscoggin r., 54 m. W. Augusta.

SOUTH NORWALK, p. v., and sta., Fairfield co., *Conn.*: on W. side of Norwalk r., near its mouth, and on New York and New Haven R. R., 44 m. from New York, 32 m. from New Haven. This is the landing-place for steamboats, and the commencement of the Danbury and Norwalk R. R., 24 m. from Danbury. The v. has considerable manufactures, particularly of felt, beaver hats, and cloth. A most melancholy catastrophe and awful loss of life occurred here on Friday, May 6th, 10 A.M., 1853, when a locomotive, etc., with two passenger cars, were precipitated through the open drawbridge into the river below. The number of persons immediately killed and drowned was 47; 39 were very seriously injured, and many others much bruised, etc. The calamity was unprecedented since the introduction of railroads, and cast a gloom over the whole Union.

SOUTHOLD, t. p. v., and sta., Suffolk co., *N. Y.*: at the E. side of Long Island, between Long Island Sound and Great Peconic and Gardiner's bays. Several islands also belong to it. Surface level; soil sandy loam. The v. is a scattered settlement on the Long Island R. R., 91 m. from New York. The inhabitants are much engaged in the fisheries. Pop. in 1840, 3,007; in 1850, 4,722.

SOUTH OLIVE, p. o., Morgan co., *Ohio*: 75 m. E. by S. Columbus.

SOUTH ONONDAGA, p. o., Onondaga co., *N. Y.*: 132 m. W. by N. Albany.

SOUTH ORANGE, p. o. and sta., Essex co., *N. Jer.*: on Morris and Essex R. R., 6 m. from Newark, 15 m. from New York, and 44 m. N. E. by N. Trenton. In the vicinity is a water-cure establishment.

SOUTH ORLEANS, p. o., Barnstable co., *Mass.*: 70 m. S. E. Boston.

SOUTH ORRINGTON, p. o., Penobscot county, *Me.*: on the E. bank of the Penobscot river, 58 m. N. E. by E. Augusta.

SOUTH ORSELIC, p. o., Chenango co., *N. Y.*: 107 m. W. Albany.

SOUTH OWEGO, p. o., Tioga co., *N. Y.*: on S. side of Susquehanna r., 186 m. W. S. W. Albany.

SOUTH OXFORD, p. o., Chenango co., *N. Y.*: on the Chenango r. and canal. 102 m. W. S. W. Albany.

SOUTH OYSTER BAY, p. o., Queen's co., *N. Y.*: 138 m. S.

Albany. This is a scattered settlement, 1 m. from the Great South bay, which it overlooks.

SOUTH PARIS, p. v. and sta., Oxford co., *Me.*: on the Atlantic and St. Lawrence R. R., 48 m. from Portland, 38 m. W. by S. Augusta. In the vicinity is a flourishing woolen factory, making principally cassimeres.

SOUTH PARSONSFIELD, p. v., York county, *Me.*: 74 m. S. W. Augusta.

SOUTH PERRY, p. o., Hocking county, *Ohio*: 33 m. S. E. Columbus.

SOUTH PLYMOUTH, p. o., Wayne co., *Mich.*: 71 m. S. E. Lansing.

SOUTH PLYMOUTH, p. o., Chenango co., *N. Y.*: 99 m. W. Albany.

SOUTH POINT, p. o., Lincoln co., *N. Car.*: 133 m. W. by S. Raleigh.

SOUTH POMFRET, p. o., Windsor county, *Verm.*: 43 miles S. by E. Montpelier.

SOUTHPORT, p. b. and sta., Fairfield co., *Conn.*: on W. side of Mill river, at its entrance into a small bay of Long Island Sound; and on New York and New Haven R. R., 52 m. from New York, 24 m. from New Haven. The harbor is convenient for vessels of 100 tons, is rarely frozen, and is protected by an extensive breakwater constructed by the United States. The b. contains 2 churches, an academy, and bank with capital of \$100,000.

SOUTHPORT, p. o., Marion co., *Ind.*: on the line of the Madison and Indianapolis R. R., 6 m. S. from Indianapolis.

SOUTHPORT, t. and p. o., Chemung co., *N. Y.*: on S. W. and S. side of Chemung r., 163 m. W. S. W. Albany. Surface diversified, with very fertile soil. The Erie R. R. runs through the t. along the W. bank of the Chemung, and has a sta. at Wellsburg, 276 miles from New York, and 193 m. from Dunkirk. Pop. in 1840, 2,101; in 1850, 3,134.

SOUTH PRAIRIE, p. v., Boone county, *Ill.*: 163 m. N. N. E. Springfield.

SOUTH PROSPECT, p. o., Waldo co., *Me.*: on W. side of Penobscot r., near its mouth, 51 m. E. by N. Augusta.

SOUTH PULTNEY, p. o., Steuben co., *N. Y.*: on W. side of Crooked lake, 180 m. W. Albany.

SOUTH QUAY, p. v., Nansemond county, *Virg.*: on the E. bank of Blackwater r., 73 m. S. S. E. Richmond.

SOUTH RAYMOND, p. o., Rockingham county, *N. Hamp.*: 22 m. S. E. Concord.

SOUTH READING, t. p. v., and sta., Middlesex co., *Mass.*: on the Boston and Maine R. R., 10 m. N. from Boston, and by South Reading Branch R. R., 9 m. W. from Salem. Incorporated from Reading in 1812. The v. near Reading Pond is handsomely built, and contains 2 churches, with an academy. Many of its citizens transact their daily business in Boston. Pop. in 1840, 1,517; in 1850, 2,407.

SOUTH READING, p. v., Windsor county, *Verm.*: 57 m. S. Montpelier.

SOUTH RICHLAND, p. o., Oswego county, *N. Y.*: 141 miles W. N. W. Albany.

SOUTH RIDGE, p. o., Ashabula co., *Ohio*: 157 m. N. E. Columbus.

SOUTH RIVER, Anne Arundel county, *Md.*: a large inlet of Chesapeake bay, which it enters at Thomas' Point, on which there is a lighthouse. Lat. 35° 54' 25", long. 76° 27' 34". Fixed light.

SOUTH RIVER, *N. Car.*: rises in Cumberland county, flows S. S. E., and empties into Cape Fear river, 16 miles above Wilmington.

SOUTH RIVER, Middlesex co., *N. Jer.*

SOUTH RIVER, p. o., Anne Arundel co., *Md.*: on the river so called, 8 m. S. Annapolis.

SOUTH ROYALTON, p. o. and sta., Worcester co., *Mass.*: on Miller's river, and the Vermont and Massachusetts R. R., 27 m. from Fitchburg, 29 m. from Greenfield, and by Fitchburg R. R., etc., 77 m. from Boston.

SOUTH ROYALTON, p. o., Niagara county, *N. Y.*: 256 m. W. by N. Albany.

SOUTH ROYALTON, p. o. and sta., Windsor co., *Verm.*: on Vermont Central R. R., 32 m. from Windsor, and 125 miles from Rouse's Point, 31 m. S. by E. Montpelier.

SOUTH RUTLAND, p. o., Jefferson co., *N. Y.*: 183 m. N.W. Albany.

SOUTH RYEGATE, p. o., Caledonia co., *Verm.*: on Wells r., 22 m. E. by S. Montpelier.

SOUTH SAINT GEORGE, p. o., Lincoln county, *Me.*: 40 m. S. E. Augusta.

SOUTH SALEM, p. v., Westchester co., *N. Y.*: on a small branch of Croton r., 95 m. S. Albany.

SOUTH SALEM, p. o., Ross co., *Ohio*: 42 m. S. Columbus.

SOUTH SANDWICH, p. o., Barnstable co., *Mass.*: 54 m. S. E. Boston.

SOUTH FRANKFORD, p. o., York co., *Me.*: 83 m. S. W. Augusta.

SOUTH SANGERVILLE, p. o., Piscataquis co., *Me.*: 63 m. N. E. Augusta.

SOUTH SCHODACK, p. v., Rensselaer co., *N. Y.*: 15 m. S. by E. Albany.

SOUTH SCITUATE, t. and p. o., Plymouth co., *Mass.*: on the N. side of North r., 15 m. S. E. Boston. This town was taken from Scituate. Drained by branch of North river. A flourishing agricultural place. Pop. 1,770.

SOUTH SCITUATE, p. v., Providence co., *R. I.*: on the E. side of Pawtuxet r., 11 m. W. by S. Providence. A manufactory of cotton warp here makes from 15 to 16 tons annually.

SOUTH SEBEC, p. o., Piscataquis co., *Me.*: on N. side of Piscataquis r., 72 m. N. E. Augusta.

SOUTH SEEKONE, p. v., Bristol co., *Mass.*: on a stream flowing into Providence bay, 43 m. S. W. Boston.

SOUTH SHAFTSBURY, p. v., Bennington co., *Verm.*: on Western Vermont R. R., 49 m. from Rutland, and 100 m. S. S. W. Montpelier.

SOUTH SHENANGO, t. and p. o., Crawford co., *Penn.*: 200 m. N. W. Harrisburg. Drained by Shenango cr. Surface undulating. It contains several workshops, mills, etc.

SOUTH SIREWSBURY, p. v., Worcester co., *Mass.*: 34 m. W. by S. Boston.

SOUTH SIDE, p. o., Richmond co., *N. Y.*: 144 m. S. Albany.

SOUTH SODUS, p. v., Wayne co., *N. Y.*: 169 m. W. by N. Albany.

SOUTH SOLON, p. v., Somerset co., *Me.*: 42 m. N. Augusta. It is surrounded by a fine agricultural country.

SOUTH SOLON, p. o., Madison county, *Ohio*: 21 m. W. Columbus.

SOUTH STEPHENTOWN, p. o., Rensselaer co., *N. Y.*: 22 m. S. E. by E. Albany.

SOUTH STERLING, p. o., Wayne co., *Penn.*: 101 m. N. E. Harrisburg.

SOUTH STRODDARD, p. o., Cheshire co., *N. Hamp.*: 31 m. S. W. Concord.

SOUTH STRAFFORD, p. v., Orange co., *Verm.*: on a branch of the Ompomponosuc r., 32 m. S. E. Montpelier. Sulphuret of iron is found in the vicinity.

SOUTH TAMWORTH, Carroll co., *N. Hamp.*: on Bearcamp r., at the mouth of the Conway r., 43 m. N. E. by N. Concord.

SOUTH THOMASTON, t. and p. o., Lincoln co., *Me.*: on the E. side of St. George's r., having Penobscot bay on the E., 41 m. S. E. Augusta. A new town, taken from Thomaston, in 1848. It is largely engaged in the ship-building and coasting trade. The celebrated peninsula of "Owl's Head" is comprised in the t. It has a fine harbor, off which a lighthouse is located, in lat. $44^{\circ} 03' 50''$, and long. $69^{\circ} 00' 00''$. Granite is abundant, and the quarrying and burning of lime, from limestone found here, is carried on to a considerable extent. Pop. 1,420.

SOUTH THOMPSON, p. o., Geauga co., *Ohio*: 131 m. N. E. Columbus.

SOUTH THURSTON, p. o., Steuben co., *N. Y.*: 204 m. W. by S. Albany.

SOUTH TRENTON, p. o., Oneida co., *N. Y.*: on the S. of Trenton Falls, 85 m. N. W. Albany.

SOUTH UNION, p. v., Logan co., *Ky.*: on a tributary of Big Barren r., 133 m. S. W. Frankfort. The inhabitants of this place are chiefly Shakers. They are divided into different families, each one having a separate house, with out-houses, work-shops, etc., attached. Pop. 245.

SOUTH VALLEY, p. v., Otsego co., *N. Y.*: 52 m. W. Albany.

SOUTH VASSALBORO', p. o., Kennebec county, *Me.*: 9 m. N. E. Augusta.

SOUTH VERNON, v. and sta., Windham co., *Verm.*: on the right bank of the Connecticut r., on the Connecticut River R. R., at its connection with the Vermont and Massachusetts, the Ashuelot, and the Brattleboro' Branch of the Vermont Valley Railroads, 50 m. N. Springfield (*Mass.*), 19 m. W. by S. Keene (*N. H.*), and 109 m. S. by E. from Montpelier.

SOUTHVILLE, p. o., Litchfield co., *Conn.*: 82 m. W. by S. Hartford.

SOUTHVILLE, p. o., Shelby co., *Ky.*: 25 m. W. Frankfort.

SOUTHVILLE, p. v., St. Lawrence co., *N. Y.*: on the E. side of St. Regis r., 152 m. N. W. Albany.

SOUTH WALDEN, p. v., Caledonia co., *Verm.*: 21 m. N. E. Montpelier.

SOUTH WALES, p. v., Erie co., *N. Y.*: 20 m. S. E. Buffalo, and 254 m. W. from Albany.

SOUTH WALLINGFORD, p. o. and sta., Rutland co., *Verm.*: on E. side of Otter cr., on the Western Vermont R. R., 13 m. S. Rutland, and 63 m. S. W. by S. Montpelier.

SOUTH WALPOLE, p. v., Norfolk co., *Mass.*: on a branch of Naponset r., 21 m. S. W. Boston.

SOUTH WAREHAM, v. and sta., Plymouth co., *Mass.*: on the E. side of the Wewancitic river, on the Cape Cod Branch R. R., 50 m. S. E. by S. Boston.

SOUTHWARD dist., Philadelphia co., *Penn.*: a suburb of the city of Philadelphia, from which it was separated in 1762—is one and a quarter miles long, and the same in width. The streets, which are very straight, cross each other at right angles, and are well paved. The buildings, built chiefly of brick, are from 2 to 3 stories in height. It is lighted in most part with gas, and supplied with water from Schuylkill Water-works. The Navy Yard, several ship and boat yards, a marine railway, and various manufactories are comprised in this district. There is also a lofty brick shot-tower. For capital invested in manufactures, etc., see PHILADELPHIA. Pop. 33,799.

SOUTH WARREN, p. o., Bradford county, *Penn.*: 110 m. N. by E. Harrisburg.

SOUTH WARSAW, p. o., Wyoming co., *N. Y.*: on the line of the Buffalo and New York City R. R., 47 m. E. by S. Buffalo, and 230 m. W. from Albany.

SOUTH WATERFORD, p. v., Oxford county, *Me.*: 51 m. W. by S. Augusta.

SOUTH WEBER, p. v., Hillsboro' co., *N. Hamp.*: 17 m. S. W. Concord.

SOUTH WELFLEET, p. v., Barnstable co., *Mass.*: on an inlet of Welfleet bay, 63 m. S. E. Boston. Salt is extensively manufactured in the vicinity, and the inhabitants are mostly engaged in the cod and mackerel fisheries.

SOUTH WESTERLOO, p. v., Albany co., *N. Y.*: 19 m. S. W. Albany. It contains several manufactories.

SOUTHWEST HARBOR, p. v., Hancock co., *Me.*: on the E. of an inlet of Bass harbor, 72 m. E. Augusta.

SOUTHWEST OSWEGO, p. o., Oswego co., *N. Y.*: 152 m. N. W. Albany.

SOUTH WESTPOET, p. o., Bristol co., *Mass.*: on the W. of Acoaksett r., 53 m. S. Boston.

SOUTH WEYMOUTH, p. o. and sta., Norfolk co., *Mass.*: on the Old Colony R. R., 22 m. N. W. Plymouth, and 15 m. S. by E. Boston.

SOUTH WHITEHALL, t. and p. o., Lehigh co., *Penn.*: on the W. side of the Lehigh river, 76 m. E. N. E. Harrisburg. Drained by Jordan and Cedar creeks. Surface even; soil fertile, and under good culture. It contains some manu factories, mills, workshops, etc.

SOUTH WHITLEY, p. o., Whitley co., *Ind.*: on the W. side of Eel r., at its confluence with Spring cr., 95 m. N. by E. Indianapolis.

SOUTHWICK, t. and p. v., Hampden co., *Mass.*: 93 m. S. W. by W. Boston. Drained by a branch of Westfield r. Surface varied; in parts elevated, with a good soil. The State line forms the S. boundary. Gunpowder and leather form its chief manufactures. The v. is centrally located. Pop. of t. 1,120.

SOUTH WILBRAHAM, p. v., Hampden county, *Mass.*: on Scantic r., 73 m. S. W. by W. Boston. There is a manufactory here employing 31 operatives, and manufacturing 80,000 yards woolen goods annually.

SOUTH WILLIAMSTOWN, p. v., Berkshire county, *Mass.*: on Green river, W. of Saddle Mountain, 115 m. N. W. by W. Boston.

SOUTH WILLINGTON, v. and sta., Tolland co., *Conn.*: on the E. side of the Willimantic river, on the New London, Willimantic, and Palmer R. R., 42 m. N. by W. New London, and 21 m. E. by N. from Hartford.

SOUTH WILSON, p. o., Niagara co., *N. Y.*: about 25 m. N. Buffalo, and 263 m. N. W. by W. Albany.

SOUTH WINDHAM, p. v., Cumberland county, *Me.*: on N. side of Presumpscot r., 73 m. S. W. Augusta. The Cumberland and Oxford Canal passes along the river, opposite the village.

SOUTH WINDHAM, p. o., Windham co., *Verm.*: 79 m. S. Montpelier.

SOUTH WINDHAM, p. v. and sta., Windham co., *Conn.*: on the Willimantic r., and on the New London, Willimantic, and Palmer R. R., 26 m. N. New London, and 27 m. E. by S. from Hartford.

SOUTH WINDSOR, t. and p. v., Hartford co., *Conn.*: on the E. side of the Connecticut river, 5 m. N. by E. Hartford. Drained by several small streams flowing into the Connecticut r. The v. is located near the banks of the river. Pop. of t. 1,638.

SOUTH WINDSOR, p. o., Kennebec county, *Me.*: 11 m. E. Augusta.

SOUTH WOBURN, v., Middlesex co., *Mass.*: a pleasant village on the Boston and Lowell R. R., 8 m. N. by W. Boston. It is a place much resorted to, for a summer residence, by persons from the city. Various manufactures are carried on; a stream passing the place, affords water-power. The Woburn Branch R. R., 2 m. in length, extends hence to Woburn Centre.

SOUTH WOLFBOROUGH, p. o., Carroll co., *N. Hamp.*: 30 m. N. E. Concord.

SOUTH WOODSTOCK, p. v., Windsor co., *Verm.*: a neat and pleasant v., on a branch of Quechee river, 50 m. S. Montpelier.

SOUTH WORCESTER, p. o., Otsego co., *N. Y.*: on Charlotte r., 52 m. W. Albany.

SOUTH WRENTHAM, p. o., Norfolk county, *Mass.*: 30 m. S. by W. Boston. There is a manufactory here, employing 41 persons, and manufacturing 80,000 yards of woolen carpets per annum.

SOUTH YARMOUTH, p. v., Barnstable co., *Mass.*: on W. side of Bass r., near the Atlantic coast, 67 m. S. E. Boston. It contains three churches, and has extensive salt works.

SOWADABCOOK RIVER, *Me.*: rises by 3 branches in the towns of Stetson, Etna, and Carmel, the branch in Etna having its source in a pond; flows eastwardly in a circuitous course, and empties into the Penobscot r. at Hampden, 5 m. below Bangor. In its course it passes through 2 ponds in the towns of Harman and Hampden. The country through which this r. flows is varied, having some good farming tracts, and a considerable portion is well wooded. It has several falls, and there is a number of valuable mills on its banks.

SOXVILLE, p. v., Monroe co., *Penn.*: at the junction of Tunkhanna cr. with the Lehigh r., 38 m. N. E. Harrisburg.

SPAFFORD, t. and p. v., Onondaga county, *N. Y.*: 134 m.

W. by N. Albany. It has Otisco lake and its inlet on the E. and Skaneateles lake on the W. Surface hilly, and in parts broken; soil various. The t. contains several mills and a tannery. Pop. of t. 1,903.

SPAFFORD HOLLOW, p. o., Onondaga co., *N. Y.*: 135 m. W. by N. Albany.

SPAFFORD'S LAKE, Cheshire co., *N. Hamp.*: a beautiful collection of water in the town of Chesterfield, containing 526 acres, and fed by springs at its bottom. Its waters are clear and pure, its bed being a white sand. There is an island in this lake of 6 acres.

SPANISHBURG, p. o., Mercer county, *Virg.*: 196 m. W. Richmond.

SPANISH PRAIRIE, p. v., Crawford co., *Mo.*: 39 m. S. E. Jefferson City. The Maumee Iron Works are located about 5 m. S. of this place.

SPARROW SWAMP, p. o. and sta., Darlington dist., *S. Car.*: on the Wilmington and Manchester R. R., 65 m. E. by N. Columbia.

SPARTA, p. v., and cap. Conecuh co., *Ala.*: on Murder cr. of Conecuh r., 109 m. S. W. Montgomery. It contains a court-house, jail, and U. S. land office.

SPARTA, p. o., Chickasaw county, *Miss.*: 81 m. N. E. Jackson.

SPARTA, p. v., and cap. Hancock co., *Ga.*: on the dividing ground between the Great Ogechee and Oconee rivers, 19 m. N. N. E. Milledgeville. It contains a court-house, jail, a female academy, etc.

SPARTA, p. v., Randolph co., *N. C.*: on the line of the Illinois town and Massac R. R., 113 m. S. Springfield. It is situated on the N. W. border of Flat Prairie, in an excellent agricultural district. Two newspapers are published weekly—the "Sparta Freeman" (free soil) and the "Sparta Register" (dem.)

SPARTA, p. o., Dearborn county, *Ind.*: 75 miles S. E. Indianapolis.

SPARTA, p. o., Bienville par., *La.*: 163 m. N. W. Baton Rouge.

SPARTA, p. o., Hillsdale co., *Mich.*: 53 m. S. Lansing.

SPARTA, p. v., and cap. Buchanan co., *Mo.*: on the head waters of Bee cr. of Platte r., 157 m. N. W. Jefferson City, and contains a court-house, jail, and other public buildings. The "Gazette" (dem.) and the "Adventurer" (whig) are both weekly issues.

SPARTA, p. v., Sussex co., *N. Jer.*: on the Walkkill r., near its source, 56 m. N. by E. Trenton. It contains several mills and forges. Iron and zinc ores are found in the neighborhood.

SPARTA, t. and p. v., Livingston co., *N. Y.*: 203 m. W. Albany. Drained by a small stream flowing N. into Hemlock lake. Surface uneven; soil fertile. The v. is in the N. part. The t. contains some light manufactures. Pop. of t. 1,372.

SPARTA, p. o., Edgecomb co., *N. Car.*: on W. side of Tar r., 65 m. E. Raleigh.

SPARTA, p. v., Morrow county, *Ohio*: 85 m. N. by E. Columbus.

SPARTA, p. v., Washington co., *Penn.*: on a tributary of the Monongahela r., 179 m. W. Harrisburg.

SPARTA, p. v., and cap. White co., *Tenn.*: on Calf Killer cr., 75 m. E. S. E. Nashville; and contains the court-house, jail, other county buildings, a bank, etc. The "S. Times" is a weekly (whig) issue.

SPARTA, p. o., Caroline county, *Virg.*: 85 m. N. by E. Richmond.

SPARTA CENTRE, p. o., Kent co., *Mich.*: 66 m. W. N. W. Lansing.

SPARTANBURG DISTRICT, *S. Car.*: Situate N. toward the W., and contains 1,036 sq. m. Drained by Forest cr., Ennoree, Tiger, and Pacolet rivers. Surface hilly; soil fertile; along the streams are some tracts of land proving very productive. Staples are cotton and Indian corn. Farms 1,555; manuf. 34; dwell. 3,185, and pop.—wh. 13,312, fr. col. 49, sl. 3,039—

total 26,400. *Capital*: Spartanburg. *Public Works*: Union and Spartanburg R. R.

SPARTANBURG, p. v., Randolph co., *Ind.*: 72 m. E. by N. Indianapolis.

SPARTANBURG, p. v., and cap. Spartanburg dist., *S. Car.*: at the terminus of the Union and Spartanburg R. R., 80 m. N. W. Columbia. It contains a court-house, jail, and other public buildings. The Wofford College, a new institution, is located here. The "Spartan" is a weekly (dem.) issue.

SPARTANSBURG, p. o., Crawford co., *Penn.*: 101 m. N. W. Harrisburg.

SPARTAPORT, p. o., Rockingham co., *Virg.*: 101 m. N. W. Richmond.

SPEARS' STORE, p. o., Union parish, *La.*: 169 m. N. W. Baton Rouge.

SPEARS' TURNOUT, sta., Jefferson co., *Ga.*: on the Central (Georgia) R. R., 112 m. N. W. Savannah, and 49 m. E. by S. Milledgeville.

SPECKLED MOUNTAIN, Oxford co., *Me.*: lies on the N. H. line, partly in the T. of Riley. Elevation 4,000 feet.

SPEESVILLE, p. v., Tompkins co., *N. Y.*: on a tributary of the Susquehanna r., 134 m. S. W. by W. Albany. It contains several manufactories and a brick-yard.

SPEEDWELL, p. v., Barnwell dist., *S. Car.*: on the E. side of Steel cr., N. of Savannah r., 67 m. S. by W. Columbia.

SPEEDWELL, p. o., Claiborne co., *Tenn.*: 159 m. E. by N. Nashville. Deposits of iron ore are found in the vicinity.

SPEEDWELL, p. o., Wythe co., *Virg.*: on Cripple cr., and on the S. W. boundary of the county, 211 m. W. S. W. Richmond.

SPEER'S LANDING, p. o., Shelby co., *Ohio*: 65 m. W. N. W. Columbus.

SPEESVILLE, p. o., Fulton county, *Penn.*: 30 miles S. W. Harrisburg.

SPEIGHT'S BRIDGE, p. v., Greene co., *N. Car.*: on Mock-osin cr., 51 m. E. by S. Raleigh.

SPEIR'S TURNOUT, p. v., Jefferson county, *Ga.*: on the N. side of Williamson's Swamp cr., and on the Central Georgia R. R., 112 m. N. W. Savannah, and 49 m. E. by S. from Milledgeville.

SPENCER county, *Ind.* Situate S. toward the W., and contains 408 sq. m. Drained by Anderson's, Little Pigeon, Big Sandy, and Little Sandy creeks. Surface generally hilly, with exceptions of some level or undulating lands; soil a black loam, and resting on a yellow clay mixed more or less with sand. The bottoms are extensive and thickly timbered. Coal is abundant. Farms 988; manuf. 28; dwell. 1,455, and pop.—wh. 8,615, fr. col. 1—total 8,616. *Capital*: Rockport.

SPENCER county, *Ky.* Situate N. toward the W., and contains 125 sq. m. Drained by E. fork of Salt r. and its branches. Surface level; soil fertile, and in parts very productive. Chief articles for the markets, wheat, Indian corn, and tobacco. Farms 578; manuf. 18; dwell. 810, and pop.—wh. 4,659, fr. col. 32, sl. 2,151—total 6,542. *Capital*: Taylorsville.

SPENCER, p. v., and cap. Owen co., *Ind.*: on the right bank of W. fork White r. It contains a court-house, jail, and other public buildings, warehouses, mechanic shops, an oil mill, ropewalk, copper and tin factory, and about 300 inhabitants. The country around is very fertile, and its situation is favorable to a rapid increase in size and importance.

SPENCER, t. p. v., and sta., Worcester co., *Mass.*: 48 m. W. by S. Boston. Surface uneven, rough, and elevated 950 feet above tide-water in Boston harbor; soil fertile; watered by branches of Chicopee r. The Western R. R. passes through its S. W. part, 62 m. from Boston, 138 m. from Albany. The town contains several grist and saw mills, and 3 churches, of which 2 are in the v., near its centre. Pop. of t. in 1840, 1,604; in 1850, 2,243.

SPENCER, p. o., Davidson co., *N. Car.*: 90 m. W. Raleigh.

SPENCER, t. and p. v., Tioga co., *N. Y.*: 146 m. W. S. W. Albany. Surface hilly; soil gravelly loam. Drained by

Cattotong creek and its branches. The v. contains several mills, a tannery, 2 churches, etc. Pop. of t. 1,782.

SPENCER, t. and p. o., Medina co., *Ohio*: 87 m. N. N. E. Columbus. Drained by the E. branch of Black r. Surface moderately uneven, with fertile soil. Centreville v. is on the S. side of the r. Pop. of t. 1,386.

SPENCER, p. v., and cap. Van Buren co., *Tenn.*: on N. side of Laurel cr., 73 m. S. E. Nashville. It contains the court-house, jail, etc.

SPENCERPORT, p. v. and sta., Monroe co., *N. Y.*: on the Rochester, Lockport, and Niagara Falls R. R., 10 m. W. from Rochester, and on the Erie Canal; 213 m. W. by N. Albany. Pop. about 400.

SPENCERSBURG, p. v., Pike co., *Mo.*: on the E. of a branch of Spencer cr., 63 m. N. N. E. Jefferson City.

SPENCERTOWN, p. v., Columbia co., *N. Y.*: 27 m. S. S. E. Albany. Pop. about 250.

SPENCEVILLE, p. v., De Kalb county, *Ind.*: on the right bank of the St. Joseph's river of the Maumee, 121 m. N. E. Indianapolis.

SPENCEVILLE, p. o., Marengo county, *Ala.*: 100 m. W. Montgomery.

SPEONK, p. o., Suffolk co., *N. Y.*: 140 m. S. S. E. Albany.

SPEERYVILLE, p. v., Rappahannock county, *Virg.*: 87 m. N. N. W. Richmond. The Alleghany range is on the W. of the village.

SPEUTIE ISLAND, Harford co., *Md.*: an island of considerable extent in the Chesapeake bay, about 6 m. S. of the confluence of Susquehanna r., and about a mile distant from the E. coast of the county.

SPEICELAND, p. v., Henry co., *Ind.*: on a creek of Blue r. 37 m. E. by N. Indianapolis.

SPINNERSTOWN, p. v., Bucks county, *Penn.*: 88 m. E. Harrisburg.

SPRUNG, p. v., Monroe county, *Miss.*: on a branch of Buttahatchee cr., 163 m. N. E. Jackson.

SPOTTEVILLE, p. o., Stafford co., *Virg.*: 61 m. N. by W. Richmond.

SPOTTSWOOD, p. v. and sta., Middlesex county, *N. Jer.*: on Camden and Amboy R. R., 52 m. from Philadelphia, 33 m. from New York, 22 m. N. E. Trenton. It contains 2 churches, etc.

SPOTTSYLVANIA county, *Virg.* Situate toward the N. E., and contains 408 sq. m. Drained by head branches of North Anna and Mattaponi rivers. Surface generally uneven; soil fertile, well adapted to grazing. Chief products, wheat, Indian corn, tobacco, etc. The city of Fredericksburg is in this co. Farms 429; manuf. 15; dwell. 1,416, and pop.—wh. 6,908, fr. col. 527, sl. 7,451—total 14,911. *Capital*: Spotsylvania C. H. *Public Works*: Richmond, Frederick, and Potomac R. R.

SPOTTSYLVANIA C. H., p. v., and cap. Spotsylvania county, *Virg.*: on the Po river, tributary of Mattaponi river, 44 m. N. by W. Richmond. It contains the court-house, etc.

SPOUT SPRING, p. o., Appomattox county, *Virg.*: 72 m. W. by S. Richmond.

SPRAGUE'S FALLS, p. o., Washington county, *Me.*: 181 m. E. N. E. Augusta.

SPRAQUEVILLE, p. v., Jackson co., *Ja.*: on the E. bank of Makoqueta r., 60 m. E. N. E. Iowa City.

SPRAKER'S BASIN, p. v. and sta., Montgomery co., *N. Y.*: on the Erie Canal, Mohawk r., and Utica and Schenectady R. R., 43 m. from Utica, 35 m. from Schenectady, and 53 m. by R. R. from Albany.

SPREAD EAGLE, p. v., Delaware co., *Penn.*: 81 m. E. by S. Harrisburg.

SPREAD OAK, p. o., Jefferson county, *Ga.*: 54 m. E. Milledgeville.

SPRING, t. and p. v., Crawford co., *Penn.*: 205 m. N. W. Harrisburg. Drained by the cr. so called. Surface undulating and well wooded; soil of average fertility. It has good water-power, and manufactures flour, leather, lumber,

etc. The v. is on the Beaver and Erie Canal, 100 m. N. Beaver, near the Ohio line. Pop. of t. about 2,000.

SPRING, p. o., Henry county, *Ga.*: 61 m. W. by N. Milledgeville.

SPRING ARBOR, t. and p. v., Jackson county, *Mich.*: 35 m. S. Lansing. Drained by the Kalamazoo, and branch of Grand r. The v. is located on the site of an ancient Indian village, and in the midst of burr oak plains. Pop. of t. in 1840, 775; in 1850, 1,075.

SPRING BAY, p. v., Woodford co., *Ill.*: on the E. bank of Peoria lake of Illinois r., 69 m. N. by E. Springfield. It is located in a swampy and not very fertile district.

SPRINGBOROUGH, p. v., Warren co., *Ohio*: on the N. side of Spring creek of Miami r., 4 m. E. of the Miami Canal, and 70 m. S. W. Columbus. It contains several churches—among which are two Friends'—with manufactories, stores, etc. The v. derives its name from a spring situate here which moves several mills.

SPRINGBOROUGH, p. o., White co., *Ind.*: 85 m. N. N. W. Indianapolis.

SPRING BROOK, p. o., Erie county, *N. Y.*: 263 m. W. Albany.

SPRING BROOK, p. v., Jackson county, *Ia.*: 65 m. N. E. Iowa City.

SPRING COTTAGE, p. o., Marion county, *Miss.*: on E. side of Pearl r., 94 m. S. by E. Jackson.

SPRING CREEK, p. v., McDonough co., *Ill.*: on a stream so called, 77 m. W. N. W. Springfield.

SPRING CREEK, t. and p. o., Warren co., *Penn.*: 175 m. N. W. Harrisburg. Drained by Broken Straw cr. Surface much broken and rocky; soil very inferior. There are deposits of iron in the vicinity.

SPRING CREEK, p. o., Brunswick county, *N. Car.*: 112 m. S. by E. Raleigh.

SPRING CREEK, p. o., Cass county, *Ind.*: 69 m. N. Indianapolis.

SPRING CREEK, p. v., Madison co., *Tenn.*: near a fork of Deer r., 109 m. W. S. W. Nashville.

SPRING CREEK, p. o., Randolph co., *Ark.*: 121 m. N. N. E. Little Rock.

SPRING CREEK, p. v., Greenbrier county, *Virg.*: in a mountainous region, on Thunder Gap, cr., 169 m. W. by N. Richmond.

SPRING CREEK, p. o., Berrien co., *Mich.*: 112 m. W. S. W. Lansing.

SPRING DALE, p. v., Hamilton co., *Ohio*: near the Cincinnati, Hamilton, and Dayton R. R., 91 m. S. W. Columbus.

SPRING DALE, p. v., La Fayette county, *Miss.*: 134 m. N. by E. Jackson.

SPRING DALE, p. o., Scott co., *Ky.*: 15 m. N. E. Frankfort.

SPRING DALE, p. o., Dane co., *Wisc.*

SPRINGFIELD, p. o., Greene co., *Ala.*: 3 m. W. from Black Warrior r., 100 m. W. N. W. Montgomery.

SPRINGFIELD, p. v., and cap. Effingham co., *Ga.*: on a branch of Ebenezer cr., 13 m. W. of the Savannah r., and 126 m. E. S. E. Milledgeville. It contains a court-house, jail, etc.

SPRINGFIELD, p. v., and cap. Sangamon co., *Ill.*, and capital of the State of Illinois: 4 m. S. from Sangamon r., 174 m. S. W. by S. Chicago, 84 m. N. N. E. St. Louis, 156 m. W. Indianapolis. Lat. $39^{\circ} 45' N.$, long. $89^{\circ} 33' W.$ Its site is a level plain, on the borders of a broad and beautiful prairie, which is adorned with fine groves and some of the best farms in the State. It was laid out in Feb., 1822, according to a regular plan, with a public square in the centre, and wide streets crossing at right angles. The older portion of the v. was purchased at the land sales in Nov., 1823, at which time it contained about 30 families, living in small log cabins. For several years its increase in population, etc., was slow. In 1837 the legislature selected it as the State capital after July 4th, 1839, since which period it has been steadily increasing in business, wealth, and importance. The surrounding counties are very fertile, and their pro-

ducts are brought here to market. The railroads now passing through Springfield are—Great Western Central R. R., extending centrally across the State, from the E. to the W. boundary, of which the portion completed, viz., from Springfield to Naples, 55 m., was formerly styled the Sangamon and Morgan R. R.; and Chicago and Mississippi R. R., of which 132 m. (from Alton to Bloomington) will be completed in July, 1853, and the entire road will be completed to Chicago, 257 m., in the spring of 1854. The Massac and Sangamon R. R., from Springfield to Metropolis, on the Ohio r., passing through Vandalia, Salem, Frankfort, etc., is in construction. The capitol occupies the centre of the principal square, which has an area of 3 acres. It is constructed of hewn stone, 3 stories high, with handsome porticoes, and cost about \$180,000. The v. also contains a court-house, U. S. land office, market-house, jail, 3 banks, several academies and other schools, with 8 churches, some of which are handsome edifices. The v. has some manufactories, an iron foundry, etc. The newspapers published in 1850 were—"Illinois Journal" (whig), issued daily, tri-weekly, and weekly; "Illinois State Register" (dem.), daily and weekly; and "Illinois Organ" (temp.), weekly. Pop. in 1840, 2,579; in 1850, 4,333.

SPRINGFIELD, p. v., Franklin co., *Ind.*: near the source of Red Cedar Grove cr., 69 m. E. by S. Indianapolis.

SPRINGFIELD, p. v., Keokuk county, *Ia.*: on a branch of Skunk r., 47 m. S. W. Iowa City.

SPRINGFIELD, p. o., Richmond co., *N. Car.*: 71 m. S. W. Raleigh.

SPRINGFIELD, p. v., and cap. Washington co., *Ky.*: 89 m. S. by W. Frankfort. It contains a court-house, jail, etc. In the vicinity are several Catholic institutions—Dominican Convent of St. Rose, established 1806, with 6 priests and 28 religious; St. Catharine's Female Convent, founded 1822, having 26 members; and a female academy with more than 100 pupils.

SPRINGFIELD, p. v., and cap. Livingston par., *La.*: on Notatbaney cr., a branch of Tickfaw r., 39 m. E. Baton Rouge. It contains a court-house, jail, etc.

SPRINGFIELD, t. and p. o., Penobscot co., *Me.*: 116 m. N. E. by N. Augusta. Drained by branches of Mattawamkeag r., which afford water-power. Pop. 538.

SPRINGFIELD, t., p. city, and cap. Hampden co., *Mass.*: on E. side of Connecticut r., 81 m. W. by S. Boston; by railroad 98 m. from Boston, 102 m. from Albany, 133 m. from New York. Lat. (Court-house) $42^{\circ} 66' 04'' N.$, long. $73^{\circ} 25' 45'' W.$ Its site along the river is a rich alluvial plain, back of which the ground rises gradually to a considerable elevation, called Armory Hill, terminating in a plain which extends E. for several miles. Its general appearance is very beautiful, and it is surrounded by delightful scenery. The houses are generally well built, and many are elegant. The streets are generally paved, and the city is lighted with gas. The business part of the city is chiefly on and adjoining Main Street, which runs parallel with the river at some distance from it, is between 2 and 3 m. long, quite broad, and generally intersected at right angles by cross streets, and contains many handsome buildings, with the principal hotels and railroad station-house. From the position of Springfield, and its great railroad connections, it has become one of the greatest inland thoroughfares of travel in the Union. Four railroads here connect at the central depot from the four cardinal points, viz.: Western R. R., from Worcester 54 m. and from Albany 102 m.; New Haven, Hartford, and Springfield R. R., 26 m. from Hartford and 62 m. from New Haven; Connecticut River R. R., 17 m. from Northampton and 50 m. from South Vernon. The great number of trains arriving and departing daily render the vicinity of this depot strikingly interesting to the passing traveler. The hotels of the city established to accommodate the traveling public are numerous, of which several are of great repute. The city contains a court-house, jail, and 12 churches, some of which are handsome edifices. These are

—4 Congregational, 1 Baptist, 1 Episcopal, 2 Methodist, 1 Unitarian, 1 Catholic, 1 Universalist, 1 African. The principal cemetery is beautifully laid out and adorned. There are 5 banks, with an aggregate capital of \$1,150,000, and 2 institutions for savings. The manufactures of the city are of considerable importance. There is a large manufactory of cars, locomotives, railroad machinery, steam-engines, etc.; also several factories of sheetings, satinet, etc.; also 1 pistol factory. The "Springfield Republican" (whig), and "Hampden Post" (dem.), publish each daily and weekly editions.

The U. S. Armory located here is situated on Armory Hill, about one-half mile E. of Main Street. The buildings are of brick, handsomely arranged around a square, presenting a fine appearance. From 12,000 to 15,000 muskets are manufactured annually. The arsenal, a very large brick building 4 stories high, contains about 175,000 muskets. Some of the machine shops are located on Mill r., in the S. E. part of the t., and comprise 5 shops, with 18 water-wheels, 10 trip hammers, and 30 forges. The whole establishment employs from 250 to 300 workmen, and has contributed very much to the prosperity of the city.

Springfield was settled in 1635, then called by its Indian name Agawam; it received its present name in 1640, and was incorporated in 1646, and received its city charter May 25th, 1852. In 1786, during Shay's rebellion, it was in part the theatre of his movements. Since the construction of the railroads which now so closely connect it with other important cities, it has rapidly increased in population, wealth, and importance. Pop. in 1810, 2,767; in 1820, 3,914; in 1830, 6,784; in 1840, 10,955. When the census of 1840 was taken, it was a much larger township than at present, then comprising also Chicopee Falls, Cabotville, Williamsett, etc., now embraced in Chicopee township, the population of which with that of Springfield in 1850, amounted to 21,602. The separate population of Springfield t., in 1850, and as at present constituted, was 11,766.

SPRINGFIELD, t. and p. o., Oakland co., *Mich.*: 51 m. E. Lansing. Drained by a part of the head waters of Shiawassee r. Surface level, and well wooded. Pop. 956.

SPRINGFIELD, p. v., and cap. Greene co., *Mo.*: on Wilson's cr. of James r., 109 m. S. W. Jefferson City. It contains a court-house, jail, U. S. land office, etc. The country round about is hilly, with good timber lands. There are two weekly issues, the "Springfield Advertiser" and the "South Western Flag" (both democratic). Pop. 415.

SPRINGFIELD, t. and p. o., Sullivan co., *N. Hamp.*: 31 m. N. W. by N. Concord. It occupies the height of land between Connecticut and Merrimac rivers, and is drained by streams flowing into each. It has a rough surface, and contains several considerable ponds. Organized with its present name in 1794. Pop. 1,270.

SPRINGFIELD, t. and p. v., Essex county, *N. Jer.*: 42 m. N. E. by N. Trenton. Bounded E. by Rahway r. and W. by Passaic r. The v. on Rahway r. is noted for its paper factories. Through its N. part, called Millville, the Morris and Essex R. R. passes, 10 m. from Newark, 19 m. from New York. Summit is another sta. in the t., 3 m. W. Millville. Pop. of t. in 1840, 1,651; in 1850, 1,945.

SPRINGFIELD, t. and p. o., Otsego county, *N. Y.*: 59 m. W. by N. Albany. Surface elevated and hilly. The N. end of Otsego lake extends to its centre. It contains numerous saw-mills, 3 tanneries, a furnace, woolen factory, and several fulling and grist mills. Pop. 2,322.

SPRINGFIELD, p. v., and cap. Limestone county, *Tex.*: on N. E. bank of Navasota r., 119 m. N. E. by N. Austin City.

SPRINGFIELD, t., p. city, and cap. Clark co., *Ohio*: on S. side of E. fork of Mad r., 43 m. W. by S. Columbus. It has great water-power, well improved by a variety of mills and manufacturing establishments. It contains a handsome court-house, and other county buildings, 2 banks (one is a branch of the State Bank), several academies, and 7 churches. Newspapers in 1850: "Republic" (whig), tri-weekly

and weekly; and 3 other weeklies, "Gospel Herald," "District Expositor" (dem.), and "Mad River Gazette" (whig). Here are located the Wittenberg College, and Theological Seminary, both founded in 1845. In 1850 the college had 7 instructors, 37 students, and 4,500 volumes in library; while the Theological School had 2 professors and 8 students. Several important lines of railroad pass through the city, viz., Mad River and Lake Erie R. R., 134 m. from Sandusky, and 24 m. from Dayton, 84 m. from Cincinnati; Little Miami R. R., from Cincinnati, 84 m.; Springfield, Mount Vernon, and Pittsburg R. R., in construction to Loudonville, on the Ohio and Pennsylvania R. R., 115 m.; and the Springfield and Columbus R. R., 19½ m. to connection at London with Columbus and Xenia R. R., 43 m. to Columbus—all of which have connections with other principal railroads. Pop. of city in 1840 (then a village), 2,062; in 1850, 5,108. Pop. of t. in 1840, 2,349; in 1850 (including city), 7,314.

SPRINGFIELD, t. and p. o., Bradford co., *Penn.*: 107 m. N. Harrisburg. Drained by Bently, and branch of Sugar cr. Surface mountainous; soil highly productive. The Williamsport and Elmira R. R. passes near the town.

SPRINGFIELD, p. v., and cap. Robertson co., *Tenn.*: on Sulphur fork of Red r., 24 m. N. by W. Nashville. It contains the court-house and other public buildings.

SPRINGFIELD, p. v., Hampshire co., *Virg.*: on the right bank of the South branch Potomac river, 145 m. N. N. W. Richmond.

SPRINGFIELD, sta., Fairfax co., *Virg.*: on the Orange and Alexandria R. R., 7 m. W. Alexandria, and 85 m. N. Richmond.

SPRINGFIELD, t. and p. v., Windsor co., *Verm.*: on W. side of Connecticut r., 70 m. S. by E. Montpelier. Black r. flows through it from the N. W., and has an important fall, 4 m. from its mouth, near the principal v., affording great water-power, and improved by numerous fulling, grist, and saw mills, also woolen and cotton factories. Pop. of t. 2,762.

SPRINGFIELD, v., Sutter co., *Calif.*: on the left bank of Sacramento r., at the mouth of Feather r., opposite Fremont, and 66 m. N. E. Vallejo.

SPRINGFIELD CENTRE, p. o., Otsego county, *N. Y.*: 60 m. W. by N. Albany.

SPRINGFIELD CROSS ROADS, p. o., Erie co., *Penn.*: 213 m. N. W. Harrisburg. The Cleveland and Erie R. R. passes through Springfield t. and sta., 75 m. from Cleveland, 20 m. from Erie.

SPRINGFIELD FURNACE, p. o., Blair county, *Penn.*: 80 m. W. by N. Harrisburg. It contains a furnace with an annual capacity of 1,820 tons.

SPRINGFIELD MILLS, p. o., Noble county, *Ind.*: on the N. side of Elkhart r., 121 m. N. N. E. Indianapolis.

SPRING FORGE, p. o., York county, *Penn.*: 25 m. S. Harrisburg. It contains a forge which, in 1850, produced 223 tons bars.

SPRING FORK, p. o., Pettis co., *Mo.*: on a stream so called, 60 m. W. Jefferson City.

SPRING GARDEN, p. o., Cherokee county, *Ala.*: 183 m. N. N. E. Montgomery.

SPRING GARDEN, p. o., Jefferson co., *Ill.*: 113 m. S. S. E. Springfield.

SPRING GARDEN, p. district, Philadelphia co., *Penn.*: an integral part of the city of Philadelphia, though incorporated under separate charter, and governed by a board of commissioners. See PHILADELPHIA, for statistics of its population, manufactures, water-works, etc.

SPRING GARDEN, p. v., Pittsylvania co., *Virg.*: on N. side of Birch cr., 116 m. S. W. by W. Richmond.

SPRING GROVE, p. o., Warren county, *Ill.*: 105 m. N. W. Springfield.

SPRING GROVE, station, Hamilton county, *Ohio*: on the Cincinnati, Hamilton, and Dayton R. R., 7 m. N. Cincinnati, and 101 m. W. S. W. Columbus.

SPRING GROVE, t. and p. v., Greene co., *Wis.*: 37 m. S

Madison. Drained by a branch of Rock r. Surface level; soil rich, with some prairie and good pasturage. The v. is in S. part. Pop. of t. 708.

SPRING GROVE, p. o., Rowan co., *N. Car.*: 97 m. W. Raleigh.

SPRING GROVE, p. o., Linn co., *Ia.*: 27 m. N. Iowa City.

SPRING GROVE, p. v., Laurens district, *S. Car.*: N. of Saluda r., 55 m. W. by N. Columbia.

SPRING HILL, p. o., Marengo county, *Ala.*: 91 m. W. Montgomery.

SPRING HILL, v., Mobile co., *Ala.*: situated a little S. W. of the city of Mobile, is a favorite summer resort of its citizens. Here is located Spring Hill College (Catholic), founded in 1830, which in 1850 had 12 professors and 70 students, with 4,000 volumes in its library. There is also an ecclesiastical seminary.

SPRING HILL, p. v., Hempstead co., *Ark.*: on a fork of Bois d'Arc, 103 m. S. W. Little Rock.

SPRING HILL, p. v., Decatur county, *Ind.*: on a branch of Clifty cr., 45 m. S. E. Indianapolis.

SPRING HILL, p. v., Whitesides co., *Ill.*: on the S. boundary line of the co., 125 m. N. Springfield.

SPRING HILL, p. o., Livingston co., *Mo.*: 109 m. N. W. Jefferson City.

SPRING HILL, p. o., Tippah co., *Miss.*: 131 m. N. N. E. Jackson.

SPRING HILL, p. v., Maury county, *Tenn.*: 27 miles S. Nashville. The New Orleans and Nashville R. R. will pass through it.

SPRING HILL, p. o., Navarro co., *Tex.*: 152 m. N. E. by N. Austin City.

SPRING HILL FURNACE, p. o., Fayette co., *Penn.*: 158 m. W. S. W. Harrisburg. A steam and water-power furnace in the vicinity has an annual capacity of 1,100 tons.

SPRING HILLS, p. o., Champaigne county, *Ohio*: 42 miles W. by N. Columbus.

SPRING HOUSE, p. o., Montgomery co., *Penn.*: on a tributary of the Schuylkill r., 86 m. E. Harrisburg.

SPRING HOUSE, p. o., Grainger county, *Tenn.*: 179 m. E. Nashville.

SPRING LAKE, p. o., Williams co., *Ohio*: 133 m. N. W. Columbus.

SPRING LAKE, t., Ottawa co., *Mich.*: on Lake Michigan, 86 m. W. by N. Lansing. It contains 5 steam saw mills, producing to the value of \$120,900 annually. Pop. 545.

SPRING MILL, sta., Richland co., *Ohio*: on the Sandusky, Mansfield, and Newark R. R., 51 m. from Sandusky, 65 m. from Newark.

SPRING MILLS, p. o., Lawrence co., *Ind.*: 71 m. S. by W. Indianapolis.

SPRING MILLS, p. o., Allegany co., *N. Y.*: 224 m. W. by S. Albany.

SPRING MILLS, p. v., Centre county, *Penn.*: on a fork of Penn's cr., near Brush mt., 54 m. N. W. Harrisburg.

SPRING MILLS, sta., Montgomery co., *Penn.*: on the left bank of the Schuylkill river, and on the Philadelphia, Germantown, and Norristown R. R., 12 m. N. W. Philadelphia, and 92 E. by S. Harrisburg.

SPRING PLACE, p. v., and cap. Murray co., *Ga.*: about 8 m. E. of Connesauga cr., and 162 m. N. W. Milledgeville. It was at one time a missionary station among the Cherokees, and now contains the county court-house, jail, and other public offices, etc.

SPRING PLACE, p. v., Marshall county, *Tenn.*: 141 miles S. Nashville.

SPRINGPORT, t. and p. o., Jackson county, *Mich.*: 25 m. S. Lansing. Drained by a branch of Grand r. Surface undulating; soil, rich sandy loam, with good timber lands. Pop. in 1840, 294; in 1850, 759.

SPRINGPORT, p. v., Panola county, *Miss.*: 137 miles N. Jackson.

SPRING PRAIRIE, t. and p. o., Walworth co., *Wisc.*: 59 m. S. E. Madison. Drained by Honey creek and branches.

The v. is on the Milwaukee and Elkhorn plank road. Pop. of t. 1,344.

SPRING RIDGE, p. o., Hinds co., *Miss.*: W. Jackson.

SPRING RIVER, p. v., Lawrence co., *Mo.*: on a branch of the stream so called, 134 m. S. W. Jefferson City.

SPRING ROCK, p. v., Clinton county, *Ia.*: on Potain creek, and on the line of the proposed route of the Damanche and Iowa City R. R., 35 m. E. by N. Iowa City.

SPRING ROCK, p. v., York dist., *S. Car.*: on E. side of Fishing cr., 55 m. N. Columbia. The Charlotte and South Carolina R. R. passes near the village.

SPRING RUN, p. o., Franklin county, *Penn.*: 53 m. S. W. Harrisburg.

SPRINGS, p. o., Suffolk co., *N. Y.*: 145 m. S. E. Albany.

SPRINGTOWN, p. v., Hendricks co., *Ind.*: on Mill cr., 25 m. W. by S. Indianapolis. The Terre Haute and Richmond R. R. passes S. of this place.

SPRINGTOWN, v. and sta., Warren co., *N. Jer.*: on the New Jersey Central R. R., 83 m. W. from New York city, and 115 m. N. W. Trenton.

SPRINGTOWN, p. v., Bucks county, *Penn.*: 84 m. E. N. E. Harrisburg.

SPRINGTOWN, p. o., Polk co., *Tenn.*: near Focco r., 41 m. S. E. Nashville.

SPRINGTOWN, p. o., Oxford co., *Me.*: 49 m. W. Augusta.

SPRINGVALE, p. v., York co., *Me.*: on a fork of Mousam r., 82 m. S. W. Augusta.

SPRINGVALE, p. o., Jefferson county, *Tenn.*: 137 m. E. Nashville.

SPRINGVALE, p. o., Sampson co., *N. Car.*: 49 m. S. S. E. Raleigh.

SPRINGVALE, p. o., Fairfax co., *Virg.*: 90 m. N. Richmond.

SPRINGVALE, t. and p. o., Fond du Lac, *Wisc.*: 61 m. N. N. E. Madison. Drained by several small streams. Soil excellent, and timber abundant. Pop. 533.

SPRING VALLEY, p. v. and sta., Greene co., *Ohio*: on the E. side of Little Miami r., and on the Little Miami Branch of Cleveland, Columbus, and Cincinnati R. R., 53 m. N. E. Cincinnati, and 62 m. S. W. Columbus.

SPRING VALLEY, p. o. and sta., Rockland co., *N. Y.*: on the New York and Erie R. R., 11½ m. W. Piermont, and 105 m. S. by W. from Albany.

SPRING VALLEY, p. o., Bergen co., *N. Jer.*: 62 m. N. E. Trenton.

SPRING VALLEY, p. v., Marion co., *Ind.*: on the S. side of the West fork of White r., 9 m. S. Indianapolis.

SPRING VALLEY, t. and p. o., Rock co., *Wisc.*: 31 m. S. Madison. Drained by a branch of Sugar r., furnishing good water-power. It is a good agricultural town, embracing some of the best prairie land in the State. Pop. 766.

SPRINGVILLE, p. v., St. Clair county, *Ala.*: 99 m. N. Montgomery.

SPRINGVILLE, p. v., Coles co., *Ill.*: 5 m. E. Chicago Branch of Illinois Central R. R., and 75 m. E. S. E. Springfield.

SPRINGVILLE, p. v., Crawford co., *Wisc.*: on a branch of Coosa r., 99 m. N. Montgomery.

SPRINGVILLE, p. v., Lawrence co., *Ind.*: 61 m. S. S. W. Indianapolis. There is a small spring in this place, from which it derives its name. This pleasant village was first settled in 1516, and it now contains about 250 inhabitants.

SPRINGVILLE, p. o., Linn co., *Ia.*: 21 m. N. Iowa City.

SPRINGVILLE, p. v., Greenup co., *Ky.*: on the Ohio r., at the mouth of Tygert cr., and opposite to Portsmouth, 111 m. above Newport, 114 m. E. by N. Frankfort. It contains a foundry, several manufactories, etc. Beds of iron ore of superior quality abound in the vicinity.

SPRINGVILLE, p. v., Lenawee co., *Mich.*: 55 m. S. S. E. Lansing.

SPRINGVILLE, p. v., Erie co., *N. Y.*: on Spring cr., 260 m. W. by S. Albany. Water-power is derived from a spring which rises in the neighborhood. There are in the v. an academy, several manufactories, a tannery, and furnace. The "S. Herald" (whig) is published weekly.

tains 289 sq. m. Spoon r. a tributary of Illinois r., passes centrally through it, by which and its branches it is drained. Surface undulating; soil a deep loam and very productive. Staples, wheat and Indian corn. Farms 343; manuf. 23; dwell. 594, and pop.—wh. 3,710, fr. col. 0—total 3,710. *Capital*: Toulon.

STARK county, *Ind.* Situate N. W., and contains 432 sq. miles. Drained by Kankakee r. which traverses it N. E. and S. W., and which, in the centre of the county, extends into English lake. Extensive marshes lie on the borders of the river. It may be considered the most impracticable county in the State. Farms 53; dwell. 100, and pop.—wh. 557, fr. col. 0—total 557. *Capital*: Knox. *Public Works*: New Albany and Salem extension R. R.; Logansport and Chicago R. R.; Fort Wayne and Chicago R. R., etc.

STARK county, *Ohio*. Situate toward the N. E., and contains 557 sq. m. Drained by Tuscarawas r. and its affluents. Surface even; soil fertile, and well adapted to wheat, Indian corn, and potatoes, which it produces in abundance. It contains extensive beds of iron ore and mineral coal, and has some quarries of excellent limestone. Pork and beef are exported in large quantities. Timber is abundant. Farms 3,177; manuf. 294; dwell. 6,773, and pop.—wh. 39,733, fr. col. 145—total 39,878. *Capital*: Canton. *Public Works*: Ohio and Pennsylvania R. R.; Cleveland and Pittsburg R. R.; Ohio Canal, and Canton Branch Canal.

STARK, t., p. o., and sta., Coos co., *N. Hamp.*: on S. side of Upper Ammonoosuc r., and on Atlantic and St. Lawrence R. R., 115 m. from Portland; 98 m. N. Concord. Surface very uneven and broken. Pop. 413.

STARKEY, t., p. o., and sta., Yates co., *N. Y.*: on W. side of Seneca lake, 163 m. W. Albany. Surface elevated and hilly; soil clay loam. Drained by small streams flowing into the lake. The principal v. is Dundee, near which is a brine spring. The Canandaigua and Elmira R. R. passes through, 32 m. from Elmira. Pop. 2,675.

STARKE, t. and p. v., Somerset co., *Me.*: on Sandy r. near its entrance into Kennebec r., 80 m. N. N. W. Augusta. The t. has a fertile soil, and good mill privileges afforded by Sandy r. Pop. of t. 1,446.

STARKEBOROUGH, t. and p. v., Addison co., *Verm.*: 23 m. W. Montpelier. Surface rough and mountainous; soil generally inferior. Drained by Lewis cr. and Huntington r. which afford water-power. Pop. 1,400.

STARKEVILLE, p. v., and cap. Lee co., *Ga.*: on the W. side of Muckalee cr. of Flint r., 107 m. S. W. Milledgeville. It contains a court-house, jail, etc.

STARKEVILLE, p. v., and cap. Oktibbeha co., *Miss.*: near the Oktibbeha r., 116 m. N. E. Jackson. It contains the county buildings, etc.

STARKEVILLE, p. v., Herkimer co., *N. Y.*: 58 m. W. N. W. Albany.

STARLINGTON, p. o., Butler county, *Ala.*: 63 m. S. S. W. Montgomery.

STARRE county, *Tex.* Situate S., and contains 5,200 sq. m. Drained by outlet of Salt Lagoon. The Rio Grande flows on its S. W. border. Surface varied, in the N. being undulating and somewhat elevated, but in the S. level; soil near the streams is fertile. The greater portion of the county is one vast prairie, with occasional groves of oak and other trees interspersed. It has excellent pasturage. *Capital*: Rio Grande City.

STARRE, t. and p. o., Hocking county, *Ohio*: 47 miles S. E. Columbus. Drained by head waters of Raceoon cr. The Hocking river and canal cross its N. E. part, 27 miles S. E. Lancaster. Surface much broken; soil fertile. Pop. 1,045.

STARSBVILLE, p. v., Newton county, *Ga.*: 50 miles N. W. Milledgeville.

STARUCEA, p. v., Wayne county, *Penn.*: 124 miles N. E. Harrisburg. The Starucea creek flows from this vicinity into the Susquehanna, near Lanesborough, gives name to the Starucea Viaduct of the Erie R. R., one of the finest structures of its kind in the world, which here crosses a

deep ravine. It is 1,200 feet long, 110 feet high, and has 13 arches with spans of 50 feet. Its body is 24 feet wide, but its top is 30 feet, affording space for a double track. It was completed within one year, and cost \$320,000.

STATEBURG, p. v., and cap. Sumter dist., *S. Car.*: on a small tributary of Santee r., E. of the Camden Branch R. R., and 30 m. E. Columbia. It contains a court-house, jail, and other public buildings.

STATE BRIDGE, p. o., Oneida co., *N. Y.*: 110 m. W. N. W. Albany.

STATELAND, p. o., Choctaw county, *Miss.*: 99 m. N. N. E. Jackson.

STATE LINE, p. o., Trumbull county, *Ohio*: 143 m. N. E. Columbus.

STATE LINE, p. o., McHenry county, *Ill.*: 204 m. N. N. E. Springfield.

STATE LINE, p. o., Walworth co., *Wis.*: 61 m. S. E. Madison.

STATE LINE, p. o., Franklin co., *Penn.*: 51 m. W. S. W. Harrisburg.

STATEN ISLAND, *N. Y.*: lies centrally, 12 m. S. W. from the City Hall, New York, and forms Richmond co. It is 14 m. long, from 4 to 8 miles wide, and is divided into 4 townships, containing many pleasant villages. Its surface is agreeably diversified, hilly in the N., and more level in the S. From its hills are afforded the most delightful views to be obtained in the vicinity of New York. The highest elevation is that of Richmond Hill, 307 feet above the bay. The numerous villages upon the shores of the island contain elegant summer country seats of New York citizens, also a large permanent population. Several steamboats ply hourly to New York. The construction of a railroad centrally through the island, and other improvements, have been projected. The fisheries on its borders are very valuable; the amount of market produce raised is also considerable. The Seaman's Retreat, and the Sailor's Snug Harbor are two noble institutions, occupying beautiful locations on its shores. The Quarantine Station for the port of New York is on its N. E. point.

STATE ROAD, p. o., Lycoming county, *Penn.*: 75 miles N. Harrisburg.

STATSBOROUGH, p. v., and cap. Bullock co., *Ga.*: at the head or source of Belcher's Mill creek of Ogeechee r., 105 m. E. S. E. Milledgeville. It contains a court-house, jail, etc.

STATEVILLE, p. v., and cap. Iredell co., *N. Car.*: 1½ m. N. Third creek, 115 m. W. Columbia, and contains the court-house and other county buildings.

STATESVILLE, p. v., Wilson county, *Tenn.*: 37 m. E. by S. Nashville.

STATON, p. o., Thomas county, *Ga.*: 169 miles W. by S. Milledgeville.

STAUNTON, p. o., Granville county, *N. Car.*: 53 m. N. Raleigh.

STAUNTON, p. v., Macoupin co., *Ill.*: 1½ m. E. Cahokia cr., and 56 S. Springfield. It is a pleasant v., located on the border of a healthy and fertile prairie.

STAUNTON, p. v., Fayette county, *Ohio*: 33 miles S. W. Columbus. Pop. 87.

STAUNTON, p. v., and cap. Augusta co., *Virg.*: on Lewis creek, and on the Virginia Central R. R., 97 m. W. N. W. Richmond. The land rises from the creek, and the streets, though narrow, are uniformly laid out. The court-house and jail are situated here, the former a neat and commodious edifice. This is one of the oldest villages in Middle Virginia, and the Virginia Central R. R. connects it with the Potomac and James rivers. The village contains a bank, capital \$100,000, 4 churches, an academy, and the Western Lunatic Asylum, a substantial and commodious building. The "Staunton Spectator" (whig), "Republican Vindicator" (dem.), and the "Virginia Messenger" (neut.) are issued weekly. The v. is surrounded by a fertile and well-cultivated country. Pop. about 3,000.

STEADY RUN, p. v., Keokuk co., *Ia.*: on a branch of Big creek, 37 m. S. by W. Iowa City.

STEAMBOAT, sta., Chester co., *Penn.*: on the Philadelphia and Pennsylvania R. R., 26 miles W. Philadelphia, and 80 E. S. E. Harrisburg.

STEAM FACTORY, p. o., Muscogee co., *Ga.*: 105 m. W. S. W. Milledgeville.

STEAM MILL, p. o., Warren county, *Penn.*: 160 m. N. W. Harrisburg.

STEAMPORT, p. o., Henderson co., *Ky.*: 151 m. W. by S. Frankfort.

STEEDMAN'S, p. v., Lexington dist., *S. Car.*: on the E. side of North Edisto river, 27 m. S. W. Columbia.

STEELE CREEK, p. o., Mechenburg co., *N. Car.*: 129 m. S. W. Raleigh.

STEELE'S, p. o., Rush co., *Ind.*: 35 m. E. by S. Indianapolis.

STEELE'S, p. v., Anderson dist., *S. Car.*: between Twenty-three and Twenty-six mile creeks, branches of Seneca r., 103 m. N. W. Columbia.

STEELE'S LANDING, p. o., Ottawa co., *Mich.*: 88 m. W. by N. Lansing.

STEELE'S MILLS, p. o., Randolph co., *Ill.*: on the right side of St. Mary's r., 122 m. S. Springfield.

STEELE'S TAVERN, p. o., Augusta county, *Virg.*: 99 m. N. W. by W. Richmond.

STEELEVILLE, p. o., Chester county, *Penn.*: 41 m. S. E. Harrisburg.

STEELE'S PRAIRIE, Daviess co., Ind.: is a sandy, level, tract of land, in the W. part of the co., 79 m. S. W. Indianapolis. It is named from Nina Steele, the first settler, and contains about 1,000 acres, all in cultivation. Prairie creek passes through it, and flows into the West fork of White r. Steele v. is located on the border of the prairie, and contains about 450 inhabitants.

STEELSVILLE, p. v., and cap. Crawford co., *Mo.*: on the S. side of the Maramec r., 62 m. S. E. Jefferson City. It contains the county court-house, jail, and other public buildings. About 12 m. W. are the Maramec Iron Works, and the county abounds in iron ore.

STEEN'S CREEK, p. o., Rankin county, *Miss.*: 15 m. S. E. Jackson.

STEEP BOTTOM, p. o., Beaufort district, *S. Car.*: 99 m. S. Columbia.

STEEP'S FALLS, p. o., Cumberland co., *Me.*: 56 m. S. W. Augusta.

STEEB CREEK, p. o., Gilmer co., *Virg.*: 213 m. W. N. W. Richmond.

STELACOOM, p. v., and port, Lewis co., *Oreg. Ter.*: on Puget's Sound, 11 m. N. Fort Nesqually, and 156 m. N. Salem. The v. at this place is rapidly expanding, and from its position must eventually become important in a commercial point of view. Its exports are chiefly sawed lumber, plies, square timber, shingles, etc., which are purchased for the San Francisco and other Pacific markets.

STEMBERSVILLE, p. o., Carbon co., *Penn.*: 71 m. N. E. Harrisburg.

STEMMER'S RUN, sta., Baltimore co., *Md.*: on Philadelphia, Wilmington, and Baltimore R. R., 9 m. from Baltimore, 89 m. from Philadelphia.

STEPHENSBURGH, p. v., Hardin co., *Ky.*: on the Nashville and Louisville R. R., 74 m. S. W. Frankfort.

STEPHENSON county, Ill. Situate N., and contains 536 sq. m. Drained by Pekatomica and its affluents, and small tributaries of Plum river. Surface undulating; soil fertile. A large portion of the land is prairie, interspersed with barrens and oak openings. This county is rapidly increasing in importance. Farms 1,179; manuf. 75; dwell. 1,950, and pop.—wh. 11,658, fr. col. 8—total 11,666. *Capital*: Freeport. *Public Works*: Galena and Chicago Union R. R.; Galena Branch of Illinois Central R. R.

STEPHENSON'S DEPÔT, p. o., Frederick co., *Virg.*: 119 m. N. N. W. Richmond.

STEPHENSPORT, p. v., Breckenridge co., *Ky.*: on the Ohio r., opposite Rome, at the mouth of Sinking cr., 101 m. below Louisville, 91 m. W. by S. Frankfort. It is a small but

handsome village, and a considerable business is done here in shipping the productions of the interior.

STEPHENTOWN, t. and p. v., Sencselaer co., *N. Y.*: 19 m. E. S. E. Albany. Surface hilly and mountainous, with a central valley, through which flows Kinderhook r., in S. E. course. Roofing slate is quarried. The t. contains 3 woolen factories, with grist and saw mills. Pop. of t. 2,622.

STEPHENSVILLE, p. v., Wilkinson county, *Ga.*: 13 m. S. Milledgeville.

STEPNEY, p. v., Fairfield county, *Conn.*: 13 m. W. New Haven.

STEPNEY DEPÔT, p. o. and sta., Fairfield co., *Conn.*: on the Housatonic R. R., 10 m. from Bridgeport, 17 m. W. New Haven.

STERLING, t. and p. o., Windham co., *Conn.*: 45 m. E. by S. Hartford. Watered by branches of Moosup r., which afford water-power. Near its centre is a curious cavern, called the Devil's Den, which has a circular area of about 100 feet in diameter. Pop. 1,205.

STERLING, p. v., Whitesides co., *Ill.*: on the right bank of Rock r., 135 m. N. Springfield.

STERLING, p. v., Phillips co., *Ark.*: on the Mississippi r., at the lower side of the mouth of St. Francis r., 43 m. below Memphis (Tenn.), and 96 E. from Little Rock.

STERLING, p. v., Crawford co., *Ind.*: on Little Blue r., 100 m. S. by W. Indianapolis.

STERLING, t. p. v., and sta., Worcester co., *Mass.*: 37 m. W. by N. Boston. Surface uneven; soil moderately fertile. Watered by Still r. The v. at the centre contains 2 churches, and is a station of Fitchburg and Worcester R. R., which connects at Sterling junction, 2 m. below, with Worcester and Nashua R. R. Pop. of t. 1,800.

STERLING, t. and p. v., Cayuga co., *N. Y.*: 161 m. W. N. W. Albany. Bounded N. by Lake Ontario, from which little Sodus bay, about 5 m. long, extends S. into the N. W. part. The v. on Sodus cr. contains a few mills, tannery, and iron foundry. Pop. of t. 2,808.

STERLING, t. and p. o., Wayne co., *Penn.*: 101 m. N. E. Harrisburg. Drained by Waulenpaupack cr. and tributaries, and the Lehigh r., which furnish good water-power. Surface hilly; soil gravelly loam. Pop. about 1,000.

STERLING BOTTOM, p. o., Meigs county, *Ohio*: 77 m. S. E. Columbus.

STERLING GROVE, p. o., Greenville dist., *S. Car.*: 95 m. N. W. Columbia.

STERLING HILL, p. o., Windham co., *Conn.*: 45 m. E. by S. Hartford.

STERLING JUNCTION, v. and sta., Worcester co., *Mass.*: on the Fitchburg and Worcester R. R., at its junction with the Worcester and Nashua R. R., 3 m. N. Worcester, 33 m. S. S. W. Nashua (N. H.), and 33 m. W. Boston.

STERLING VILLAGE, v. and sta., Worcester county, *Mass.*: on the Fitchburg and Worcester R. R., 10 m. N. Worcester, and 33 m. W. Boston.

STERLINGVILLE, p. v., Jefferson co., *N. Y.*: on a tributary of Indian r., 143 m. N. W. Albany. Iron ore abounds in the vicinity, and is extensively manufactured in this place.

STERLINGVILLE, p. o., Wyoming co., *Penn.*: 93 m. N. N. E. Harrisburg.

STETSON, t. and p. v., Penobscot co., *Me.*: 53 m. N. E. Augusta. Drained by branches of Sebasticook and Sowadabscook rivers, having their sources in ponds in this t. Surface undulating, and soil fertile, producing good grain. The v. is on a branch of Sebasticook r. The t. has some light manufactures. Pop. of t. 855.

STEBEN county, Ind. Situate N. E., and contains 324 sq. m. Drained by Pigeon r. and Crooked and Fish creeks, which are the principal streams; there are also several lakelets in the county. Surface level—about one-half well timbered, and the residue barrens and prairies. Farms 586; manuf. 23; dwell. 1,109, and pop.—wh. 6,102, fr. col. 2—total 6,104. *Capital*: Angola.

STEBEN county, N. Y. Situate S. toward the W., and

tains 289 sq. m. Spoon r. a tributary of Illinois r., passes centrally through it, by which and its branches it is drained. Surface undulating; soil a deep loam and very productive. Staples, wheat and Indian corn. Farms 343; manuf. 23; dwell. 594, and pop.—wh. 8,710, fr. col. 0—total 8,710. *Capital*: Toulon.

STARK county, *Ind.* Situate N. W., and contains 432 sq. miles. Drained by Kankakee r. which traverses it N. E. and S. W., and which, in the centre of the county, extends into English lake. Extensive marshes lie on the borders of the river. It may be considered the most impracticable county in the State. Farms 53; dwell. 100, and pop.—wh. 557, fr. col. 0—total 557. *Capital*: Knox. *Public Works*: New Albany and Salem extension R. R.; Logansport and Chicago R. R.; Fort Wayne and Chicago R. R., etc.

STARK county, *Ohio*. Situate toward the N. E., and contains 557 sq. m. Drained by Tuscarawas r. and its affluents. Surface even; soil fertile, and well adapted to wheat, Indian corn, and potatoes, which it produces in abundance. It contains extensive beds of iron ore and mineral coal, and has some quarries of excellent limestone. Pork and beef are exported in large quantities. Timber is abundant. Farms 3,177; manuf. 294; dwell. 6,778, and pop.—wh. 89,733, fr. col. 145—total 89,878. *Capital*: Canton. *Public Works*: Ohio and Pennsylvania R. R.; Cleveland and Pittsburg R. R.; Ohio Canal, and Canton Branch Canal.

STARKE, t. and p. o., and sta., Coos co., *N. Hamp.*: on S. side of Upper Ammonoosuc r., and on Atlantic and St. Lawrence R. R., 115 m. from Portland; 98 m. N. Concord. Surface very uneven and broken. Pop. 413.

STARKEY, t. and p. o., and sta., Yates co., *N. Y.*: on W. side of Seneca lake, 168 m. W. Albany. Surface elevated and hilly; soil clay loam. Drained by small streams flowing into the lake. The principal v. is Dundee, near which is a brine spring. The Canandaigua and Elmira R. R. passes through, 32 m. from Elmira. Pop. 2,675.

STARKE, t. and p. v., Somerset co., *Me.*: on Sandy r. near its entrance into Kennebec r., 80 m. N. N. W. Augusta. The t. has a fertile soil, and good mill privileges afforded by Sandy r. Pop. of t. 1,446.

STARKEBOROUGH, t. and p. v., Addison co., *Verm.*: 23 m. W. Montpelier. Surface rough and mountainous; soil generally inferior. Drained by Lewis cr. and Huntington r. which afford water-power. Pop. 1,400.

STARKEVILLE, p. v., and cap. Lee co., *Ga.*: on the W. side of Muckalee cr. of Flint r., 107 m. S. W. Milledgeville. It contains a court-house, jail, etc.

STARKEVILLE, p. v., and cap. Oktibbeha co., *Miss.*: near the Oktibbeha r., 116 m. N. E. Jackson. It contains the county buildings, etc.

STARKEVILLE, p. v., Herkimer co., *N. Y.*: 58 m. W. N. W. Albany.

STARLINGTON, p. o., Butler county, *Ala.*: 63 m. S. S. W. Montgomery.

STARRE county, *Tex.* Situate S., and contains 5,200 sq. m. Drained by outlet of Salt Lagoon. The Rio Grande flows on its S. W. border. Surface varied, in the N. being undulating and somewhat elevated, but in the S. level; soil near the streams is fertile. The greater portion of the county is one vast prairie, with occasional groves of oak and other trees interspersed. It has excellent pasturage. *Capital*: Rio Grande City.

STARRE, t. and p. o., Hocking county, *Ohio*: 47 miles S. E. Columbus. Drained by head waters of Raccoon cr. The Hocking river and canal cross its N. E. part, 27 miles S. E. Lancaster. Surface much broken; soil fertile. Pop. 1,045.

STARRESVILLE, p. v., Newton county, *Ga.*: 50 miles N. W. Milledgeville.

STARBUCA, p. v., Wayne county, *Penn.*: 124 miles N. E. Harrisburg. The Starucra creek flows from this vicinity into the Susquehanna, near Lanesborough, gives name to the Starucra Viaduct of the Erie R. R., one of the finest structures of its kind in the world, which here crosses a

deep ravine. It is 1,200 feet long, 110 feet high, and has 13 channels with spans of 50 feet. Its body is 24 feet wide, but its top is 30 feet, affording space for a double track. It was completed within one year, and cost \$320,000.

STATEBURG, p. v., and cap. Sumter dist., *S. Car.*: on a small tributary of Santee r., E. of the Camden Branch R. R., and 80 m. E. Columbia. It contains a court-house, jail, and other public buildings.

STATE BRIDGE, p. o., Oneida co., *N. Y.*: 110 m. W. N. W. Albany.

STATELAND, p. o., Choctaw county, *Miss.*: 99 m. N. N. E. Jackson.

STATE LINE, p. o., Trumbull county, *Ohio*: 143 m. N. E. Columbus.

STATE LINE, p. o., McHenry county, *Ill.*: 204 m. N. N. E. Springfield.

STATE LINE, p. o., Walworth co., *Wis.*: 61 m. S. E. Madison.

STATE LINE, p. o., Franklin co., *Penn.*: 51 m. W. S. W. Harrisburg.

STATEN ISLAND, *N. Y.*: lies centrally, 12 m. S. W. from the City Hall, New York, and forms Richmond co. It is 14 m. long, from 4 to 8 miles wide, and is divided into 4 townships, containing many pleasant villages. Its surface is agreeably diversified, hilly in the N., and more level in the S. From its hills are afforded the most delightful views to be obtained in the vicinity of New York. The highest elevation is that of Richmond Hill, 307 feet above the bay. The numerous villages upon the shores of the island contain elegant summer country seats of New York citizens, also a large permanent population. Several steamboats ply hourly to New York. The construction of a railroad centrally through the island, and other improvements, have been projected. The fisheries on its borders are very valuable; the amount of market produce raised is also considerable. The Seaman's Retreat, and the Sailor's Snug Harbor are two noble institutions, occupying beautiful locations on its shores. The Quarantine Station for the port of New York is on its N. E. point.

STATE ROAD, p. o., Lycoming county, *Penn.*: 75 miles N. Harrisburg.

STATSBOROUGH, p. v., and cap. Bullock co., *Ga.*: at the head or source of Belcher's Mill creek of Ogeechee r., 105 m. E. S. E. Milledgeville. It contains a court-house, jail, etc.

STATEVILLE, p. v., and cap. Iredell co., *N. Car.*: 1½ m. N. Third creek, 115 m. W. Columbia, and contains the court-house and other county buildings.

STATESVILLE, p. v., Wilson county, *Tenn.*: 37 m. E. by S. Nashville.

STATION, p. o., Thomas county, *Ga.*: 169 miles W. by S. Milledgeville.

STAUNTON, p. o., Granville county, *N. Car.*: 53 m. N. Raleigh.

STAUNTON, p. v., Macoupin co., *Ill.*: 1½ m. E. Cahokia cr., and 56½ Springfield. It is a pleasant v., located on the border of a healthy and fertile prairie.

STAUNTON, p. v., Fayette county, *Ohio*: 33 miles S. W. Columbus. Pop. 87.

STAUNTON, p. v., and cap. Augusta co., *Virg.*: on Lewis creek, and on the Virginia Central R. R., 97 m. W. N. W. Richmond. The land rises from the creek, and the streets, though narrow, are uniformly laid out. The court-house and jail are situated here, the former a neat and commodious edifice. This is one of the oldest villages in Middle Virginia, and the Virginia Central R. R. connects it with the Potomac and James rivers. The village contains a bank, capital \$100,000, 4 churches, an academy, and the Western Lunatic Asylum, a substantial and commodious building. The "Staunton Spectator" (whig), "Republican Vindicator" (dem.), and the "Virginia Messenger" (neut.) are issued weekly. The v. is surrounded by a fertile and well-cultivated country. Pop. about 8,000.

STEADY RUN, p. v., Keokuk co., *Ia.*: on a branch of Big creek, 37 m. S. by W. Iowa City.

STEAMBOAT, sta., Chester co., *Penn.*: on the Philadelphia and Pennsylvania R. R., 26 miles W. Philadelphia, and 80 E. S. E. Harrisburg.

STEAM FACTORY, p. o., Muscogee co., *Ga.*: 105 m. W. S. W. Milledgeville.

STEAM MILL, p. o., Warren county, *Penn.*: 160 m. N. W. Harrisburg.

STEAMPORT, p. o., Henderson co., *Ky.*: 151 m. W. by S. Frankfort.

STEEDMAN'S, p. v., Lexington dist., *S. Car.*: on the E. side of North Edisto river, 27 m. S. W. Columbia.

STEELE CREEK, p. o., Mechenburg co., *N. Car.*: 129 m. S. W. Raleigh.

STEELE'S, p. o., Rush co., *Ind.*: 85 m. E. by S. Indianapolis.

STEELE'S, p. v., Anderson dist., *S. Car.*: between Twenty-three and Twenty-six mile creeks, branches of Seneca r., 103 m. N. W. Columbia.

STEELE'S LANDING, p. o., Ottawa co., *Mich.*: 88 m. W. by N. Lansing.

STEELE'S MILLS, p. o., Randolph co., *Ill.*: on the right side of St. Mary's r., 122 m. S. Springfield.

STEELE'S TAVERN, p. o., Augusta county, *Virg.*: 99 m. N. W. by W. Richmond.

STEELEVILLE, p. o., Chester county, *Penn.*: 41 m. S. E. Harrisburg.

STEELE'S PRAIRIE, Davies co., Ind.: is a sandy, level, tract of land, in the W. part of the co., 79 m. S. W. Indianapolis. It is named from Nina Steele, the first settler, and contains about 1,000 acres, all in cultivation. Prairie creek passes through it, and flows into the West fork of White r. Steele v. is located on the border of the prairie, and contains about 450 inhabitants.

STEELESVILLE, p. v., and cap. Crawford co., *Mo.*: on the S. side of the Maramec r., 62 m. S. E. Jefferson City. It contains the county court-house, jail, and other public buildings. About 12 m. W. are the Maramec Iron Works, and the county bounds in iron ore.

STEEN'S CREEK, p. o., Rankin county, *Miss.*: 15 m. S. E. Jackson.

STEEP BOTTOM, p. o., Beaufort district, *S. Car.*: 99 m. S. Columbia.

STEEP'S FALLS, p. o., Cumberland co., *Me.*: 56 m. S. W. Augusta.

STEEB CREEK, p. o., Gilmer co., *Virg.*: 213 m. W. N. W. Richmond.

STELACOOM, p. v., and port, Lewis co., *Oreg. Ter.*: on Puget's Sound, 11 m. N. Fort Nesqually, and 156 m. N. Salem. The v. at this place is rapidly expanding, and from its position must eventually become important in a commercial point of view. Its exports are chiefly sawed lumber, piles, square timber, shingles, etc., which are purchased for the San Francisco and other Pacific markets.

STEMBERSVILLE, p. o., Carbon co., *Penn.*: 71 m. N. E. Harrisburg.

STEMMER'S RUN, sta., Baltimore co., *Md.*: on Philadelphia, Wilmington, and Baltimore R. R., 9 m. from Baltimore, 89 m. from Philadelphia.

STEPHENSBURGH, p. v., Hardin co., *Ky.*: on the Nashville and Louisville R. R., 74 m. S. W. Frankfort.

STEPHENSON COUNTY, Ill. Situate N., and contains 536 sq. m. Drained by Pekatomica and its affluents, and small tributaries of Plum river. Surface undulating; soil fertile. A large portion of the land is prairie, interspersed with barrens and oak openings. This county is rapidly increasing in importance. Farms 1,179; manuf. 75; dwell. 1,950, and pop.—wh. 11,658, fr. col. 8—total 11,666. *Capital*: Freeport. *Public Works*: Galena and Chicago Union R. R.; Galena Branch of Illinois Central R. R.

STEPHENSON'S DEPÔT, p. o., Frederick co., *Virg.*: 119 m. N. N. W. Richmond.

STEPHENSPORT, p. v., Breckenridge co., *Ky.*: on the Ohio r., opposite Rome, at the mouth of Sinking cr., 101 m. below Louisville, 91 m. W. by S. Frankfort. It is a small but

handsome village, and a considerable business is done here in shipping the productions of the interior.

STEPHENTOWN, t. and p. v., Rensselaer co., *N. Y.*: 19 m. E. S. E. Albany. Surface hilly and mountainous, with a central valley, through which flows Kinderhook r., in S. E. course. Roofing slate is quarried. The t. contains 3 woolen factories, with grist and saw mills. Pop. of t. 2,622.

STEPHENSVILLE, p. v., Wilkinson county, *Ga.*: 18 m. S. Milledgeville.

STEPNEY, p. v., Fairfield county, *Conn.*: 18 m. W. New Haven.

STEPNEY DEPÔT, p. o. and sta., Fairfield co., *Conn.*: on the Housatonic R. R., 10 m. from Bridgeport, 17 m. W. New Haven.

STERLING, t. and p. o., Windham co., *Conn.*: 45 m. E. by S. Hartford. Watered by branches of Moosup r., which afford water-power. Near its centre is a curious cavern, called the Devil's Den, which has a circular area of about 100 feet in diameter. Pop. 1,205.

STERLING, p. v., Whitesides co., *Ill.*: on the right bank of Rock r., 135 m. N. Springfield.

STERLING, p. v., Phillips co., *Ark.*: on the Mississippi r., at the lower side of the mouth of St. Francis r., 43 m. below Memphis (Tenn.), and 96 E. from Little Rock.

STERLING, p. v., Crawford co., *Ind.*: on Little Blue r., 100 m. S. by W. Indianapolis.

STERLING, t. p. v., and sta., Worcester co., *Mass.*: 37 m. W. by N. Boston. Surface uneven; soil moderately fertile. Watered by Still r. The v. at the centre contains 2 churches, and is a station of Fitchburg and Worcester R. R., which connects at Sterling junction, 2 m. below, with Worcester and Nashua R. R. Pop. of t. 1,800.

STERLING, t. and p. v., Cayuga co., *N. Y.*: 161 m. W. N. W. Albany. Bounded N. by Lake Ontario, from which little Sodus bay, about 5 m. long, extends S. into the N. W. part. The v. on Sodus cr. contains a few mills, tannery, and iron foundry. Pop. of t. 2,503.

STERLING, t. and p. o., Wayne co., *Penn.*: 101 m. N. E. Harrisburg. Drained by Waulenpaupack cr. and tributaries, and the Lehigh r., which furnish good water-power. Surface hilly; soil gravelly loam. Pop. about 1,000.

STERLING BOTTOM, p. o., Meigs county, *Ohio*: 77 m. S. E. Columbus.

STERLING GROVE, p. o., Greenville dist., *S. Car.*: 95 m. N. W. Columbia.

STERLING HILL, p. o., Windham co., *Conn.*: 45 m. E. by S. Hartford.

STERLING JUNCTION, v. and sta., Worcester co., *Mass.*: on the Fitchburg and Worcester R. R., at its junction with the Worcester and Nashua R. R., 8 m. N. Worcester, 33 m. S. S. W. Nashua (N. H.), and 38 m. W. Boston.

STERLING VILLAGE, v. and sta., Worcester county, *Mass.*: on the Fitchburg and Worcester R. R., 10 m. N. Worcester, and 38 m. W. Boston.

STERLINGVILLE, p. v., Jefferson co., *N. Y.*: on a tributary of Indian r., 143 m. N. W. Albany. Iron ore abounds in the vicinity, and is extensively manufactured in this place.

STERLINGVILLE, p. o., Wyoming co., *Penn.*: 93 m. N. N. E. Harrisburg.

STETSON, t. and p. v., Penobscot co., *Me.*: 53 m. N. E. Augusta. Drained by branches of Sebasticook and Sowadabcook rivers, having their sources in ponds in this t. Surface undulating, and soil fertile, producing good grain. The v. is on a branch of Sebasticook r. The t. has some light manufactures. Pop. of t. 855.

STUEBEN county, Ind. Situate N. E., and contains 324 sq. m. Drained by Pigeon r. and Crooked and Fish creeks, which are the principal streams; there are also several lakelets in the county. Surface level—one-half well timbered, and the residue barrens and prairies. Farms 586; manuf. 23; dwell. 1,109, and pop.—wh. 6,102, fr. col. 2—total 6,104. *Capital*: Angola.

STUEBEN county, N. Y. Situate S. toward the W., and

contains 1,400 sq. m. Drained by Tioga and Conchocton rivers (which, uniting, form Chemung), and their affluents. Surface pleasantly diversified with hills and valleys; soil generally fertile, and well fitted for pasture. Chief products, wheat and Indian corn. Considerable quantities of live-stock and lumber are exported. It contains iron ore and some mineral springs. Farms 5,797; manuf. 576; dwell. 11,210, and pop.—wh. 63,469, fr. col. 362—total 63,771. *Capital*: Bath. *Public Works*: New York and Erie E. R.; Buffalo, Corning, and New York R. R.; Buffalo and New York City R. R.; Corning and Blossburg R. R., etc.

STUBEN, t. and p. v., Washington co., *Me.*: bordering on the Atlantic Ocean, having Narragausas bay on the S. E., and Goldsboro' Harbor bay on the S. W., and Dyer's bay and Pigeon Hill bay set up from the ocean on the S., 94 m. E. by N. Augusta. It has several good harbors, and is engaged in the coasting trade and fisheries. Incorporated in 1795. The village is on an inlet of Goldsboro' bay. Population of t. 1,122.

STUBEN, p. o., Crawford county, *Penn.*: 190 m. N. W. Harrisburg.

STUBEN, t. and p. o., Oneida co., *N. Y.*: 92 m. N. W. Albany. Drained by Cincinnati cr. and tributaries of the Mohawk r. Surface hilly, with excellent soil for grass or grain. It is a good farming town, and butter and cheese are exported. The manufactures are leather and lumber. Pop. 1,744.

STUBEN, p. v., Huron county, *Ohio*: on a branch of Huron r., 75 m. N. $\frac{1}{2}$ E. Columbus. The Sandusky, Mansfield, and Newark R. R. passes to the W. of the v., 1 m. distant.

STUBENVILLE, p. v., Steuben co., *Ind.*: 187 m. N. N. E. Indianapolis.

STUBENVILLE, t. p. v., and cap. Jefferson county, *Ohio*: on an elevated plain on right bank of the Ohio river, 30 m. above Wheeling, *Virg.*, 122 m. E. N. E. Columbus. Drained by a tributary of the Ohio r. The v. is neatly and regularly laid out, was incorporated in 1835, and has many fine mansions, several churches, a neat and commodious court-house, and other county buildings, a bank, and considerable manufactures, a rope-walk, boat-yard, and printing offices. The lower story of the court-house is occupied as a market. The manufacture of woolen and cotton goods, steam engines, silver-plating, glass, etc., is carried on; there are also iron and brass foundries. In the vicinity the manufactures of coppers yield 160 tons per annum. Over a thousand persons are employed in the factories, and the town is fast increasing in importance. Much attention is paid in the neighboring country to the raising of Merino and other superior breed of sheep. Inexhaustible beds of stone coal are found throughout a great portion of this region. The v. contains 6,140 inhabitants. It has several academies of reputation, and is amply provided with common schools, etc. The newspapers published here are the "Messenger" and "Herald," semi-weekly and weekly issues, and the "American Union," a weekly. Steubenville is on the E. and W. line of railroads connecting Pennsylvania and Ohio, and it is also connected with Cleveland on the one hand and Wheeling on the other by an extension of the Cleveland and Pittsburg R. R. The t. of Steubenville in 1840 had 5,203 inhabitants, and in 1850, 7,224.

STEVENSBERG, p. v., Culpepper co., *Virg.*: 61 m. N. by W. Richmond.

STEVENSBERG, sta., Jackson co., *Ala.*: on the Nashville and Chattanooga R. R., 36 miles W. by S. Chattanooga (Tennessee), and 179 miles N. by E. Montgomery. The Memphis and Charleston R. R. will form a junction at this point.

STEVEN'S PLAINS, p. v., Cumberland county, *Me.*: 52 m. S. W. Augusta. The York and Cumberland R. R. passes this place 2 m. W. Portland.

STEVEN'S POINT, p. v., Portage co., *Wis.*: on the left bank of Wisconsin r., 105 m. N. Madison.

STEVENSVILLE, p. o., Bradford co., *Penn.*: 109 m. N. Harrisburg.

STEVENSVILLE, p. o., Sullivan co., *N. Y.*: 81 m. S. W. Albany.

STEVENSVILLE, p. o., King and Queen co., *Virg.*: 44 m. E. N. E. Richmond.

STEWART county, *Ga.* Situate W. toward the S., and contains 683 sq. m. Drained by branches of Chattoohocchee river, which bounds it on the W., and by Kitchafoona river and its branches, which enter Flint river. Surface level; soil fertile, and produces cotton in abundance. Indian corn and wheat are raised, and there is some fine pasture land; timber is abundant. It contains several valuable minerals. Farms 990; manuf. 36; dwell. 1,432, and pop.—wh. 3,649, fr. col. 5, sl. 7,373—total 16,027. *Capital*: Lumpkin. *Public Works*: South-western R. R.

STEWART county, *Tenn.* Situate N. toward the W., and contains 674 sq. m. Drained by Cumberland river and its branches, and by branches of Tennessee river, which forms its western boundary. Surface undulating. The soil consists of a deep mold, and is very fertile. Tobacco is the staple, but excellent crops of wheat and grain are raised. Its facilities for commerce are great, easy access being had to the different market towns by means of the rivers. Farms 936; manuf. 33; dwell. 1,225, and pop.—wh. 17,017, fr. col. 5, sl. 2,575—total 9,719. *Capital*: Dover.

STEWART'S DRAFT, p. v., Augusta county, *Virg.*: on W. side of South r., 90 m. W. N. W. Richmond.

STEWART'S FERRY, p. o., Davidson co., *Tenn.*

STEWART'S RUN, p. o., Venango co., *Penn.*: 168 m. N. W. Harrisburg.

STEWART'S SPRINGS, p. o., Polk county, *Ark.*: 109 m. W. by S. Little Rock. There are several sulphur springs in the vicinity.

STEWARTSTOWN, t. and p. o., Coos county, *N. Hamp.*: on the E. side of the Connecticut river, 124 m. N. Concord. Drained on the E. by outlets of Great and Little Diamond ponds, and on the W. by tributaries of the Connecticut r. Surface uneven; soil fertile. The Connecticut r. at this point is about 15 rods wide. Farming is the chief pursuit. The v. is on a branch of Indian stream. Pop. of t. 747.

STEWARTSTOWN, p. o., Monongalia county, *Virg.*: 203 m. N. W. Richmond.

STEWARTSTOWN, p. v., Richmond co., *N. Car.*: on the left bank of Yadkin r., 89 m. S. W. Raleigh.

STEWARTSTOWN, p. o., York co., *Penn.*: 33 m. S. by E. Harrisburg.

STEWARTSTOWN, p. o., Warren county, *N. Jer.*: 36 m. N. by W. Trenton.

STEWARTSVILLE, p. v., Richmond co., *N. Car.*: on Leith's river, 77 m. S. S. W. Raleigh.

STEWARTSVILLE, p. v., Westmoreland co., *Penn.*: 149 m. W. Harrisburg. The Philadelphia and Pennsylvania R. R. passes within 2 m. of the village.

STICK'S SHOAL, p. o., Cleveland county, *N. Car.*: 157 m. W. S. W. Raleigh.

STICKLEYVILLE, p. o., Lee co., *Virg.*: 203 m. W. S. W. Richmond.

STICKOFF, p. o., Cherokee co., *N. Car.*: 812 m. W. by S. Raleigh.

STILESBOBO', p. v., Cass co., *Ga.*: on the S. of Etowah river, 129 m. N. W. Milledgeville.

STILESVILLE, p. v., Hendricks co., *Ind.*: on the National Road, 25 m. W. S. W. Indianapolis.

STILL RIVER, v. and sta., Worcester co., *Mass.*: on the Worcester and Nashua R. R., 23 m. N. by E. Worcester, 32 m. W. N. W. Boston.

STILL VALEY, p. v., Warren co., *N. Jer.*: 35 m. N. W. Trenton.

STILWATER, t. and p. v., Sussex co., *N. Jer.*: 55 m. N. Trenton. Drained by Paulinskil cr. and a tributary of it, flowing from Swartout's Pond, in the E. part of the t. Surface hilly, and on the N. W. mountainous, with a fertile

soil. It contains several tanneries, mills, etc. The v. is on the N. side of Paulinskill, and contains a church, several mills, etc. Pop. of t. 1,742.

STILLWATER, t. and p. v., Saratoga co., *N. Y.*: on the W. side of the Hudson r., 22 m. N. Albany. Drained by Anthony's kill and other small branches of the Hudson river. Surface undulating; soil fertile. In the N. of the town is Bemus Heights, at which were fought the celebrated actions of Sept. 19 and Oct. 8, 1777, which led to the surrender of Burgoyne to the American arms under General Gates. The town has good water-power, and there are several manufacturing. The Champlain Canal passes through the v., 24 m. from Albany. Pop. of t. 2,966.

STILLWATER, p. o., Columbia co., *Penn.*: 59 m. N. by E. Harrisburg.

STILLWATER, p. v., Tuscarawas co., *Ohio*: on the N. side of a stream so called, a branch of the Tuscarawas r., 90 m. E. N. E. Columbus. Extensive salt springs are found on the banks of the r. in the vicinity of the v.

STILLWATER, p. v., and cap. Washington co., *Minn. Ter.*: on the W. side of St. Croix lake, 31 m. N. St. Paul. It receives its name from the circumstance that the current from the St. Croix r. is no longer perceptible at this place. The v. was founded in 1843, and contains the territorial penitentiary, three churches—Presbyterian, Baptist, and Episcopal, two mills, one driven by water and the other by steam, two hotels, several stores, groceries, etc., and about 500 inhabitants, who are principally engaged in the lumber trade. The pop. in 1850 was 621, and has since rapidly increased. A U. S. land office is located here.

STILLWELL, p. o., Wood county, *Virg.*: 227 miles N. W. Richmond.

STILLWELL'S, p. o., Butler county, *Ohio*: 96 m. W. S. W. Columbus.

STIP'S HILL, p. v., Franklin co., *Ind.*: on the right bank of Salt cr. of White r., 55 m. E. S. E. Indianapolis.

STITTVILLE, p. o., Oneida co., *N. Y.*: 95 m. W. by N. Albany.

STOCKBRIDGE, t. and p. v., Berkshire co., *Mass.*: 117 m. W. Boston. Drained by Housatonic r. and branches. Surface uneven, with extensive alluvial meadows; soil generally fertile, especially on the streams. Marble and limestone are found in large quantities. It has extensive hydraulic-power, and there are several manufacturing of woollens, cotton goods, leather, etc. The "Centreville Manufacturing Company" manufacture 624,000 yards cloth per annum, and employ 96 operatives; cap. \$100,000. There is also a furnace and several mills here. The v. is pleasantly located on a plain, on the N. side of Housatonic r., and contains several churches, a bank (cap. \$100,000), and an academy. The Housatonic R. R. passes through the v., 17 m. S. Pittsfield. Pop. of t. 1,940.

STOCKBRIDGE, t. and p. o., Ingham co., *Mich.*: 25 m. S. E. Lansing. Drained by branches of Huron and Grand rivers. Pop. 657.

STOCKBRIDGE, t. and p. v., Windsor co., *Verm.*: 36 m. S. by W. Montpelier. Drained by White r., which passes through it, affording good water-power, and a branch of Tweed r. Surface uneven; soil well adapted to the growth of grass. Steatite or soapstone is found in considerable quantities. It contains several manufacturing of woollens, leather, etc. The v. is on the N. side of White river. Pop. of t. 1,327.

STOCKBRIDGE, p. v., Henry co., *Ga.*: on a head branch of the Ocmulgee r., 71 m. N. W. Milledgeville.

STOCKBRIDGE, t. and p. v., Madison co., *N. Y.*: 100 m. W. by N. Albany. Surface uneven, with a fertile and, in general, well-cultivated soil. Drained by Oneida creek. It has excellent water-power, and contains several manufacturing. The v. is located on Oneida cr., and contains several churches and an academy. Pop. of t. 2,081.

STOCKBRIDGE, p. v., Calumet co., *Wisc.*: on the E. side of Winnebago lake, 94 m. N. E. Madison.

STOCK CREEK, p. v., Scott co., *Virg.*: on a cr. so called,

293 m. W. S. W. Richmond. At this place there is a remarkable natural tunnel, through which the cr. flows.

STOCKERTON, p. o., Northampton county, *Penn.*: 85 m. N. N. E. Harrisburg.

STOCKHOLM, p. o., Sussex co., *N. Jer.*: 54 m. N. Trenton.

STOCKHOLM, t. p. v., and sta., St. Lawrence co., *N. Y.*: 152 m. N. W. Albany. Drained by St. Regis river and branches, and a branch of Rackett river. Surface hilly and somewhat stony; soil fertile and heavily timbered. There are some manufactures, consisting of flour, lumber, filled cloths, potash, and leather. The village is on the Northern (Ogdensburg) R. R., 52 m. W. by S. Rouse's Point. Pop. of t. 3,661.

STOCKPORT, t. p. v., and sta., Columbia co., *N. Y.*: on the E. side of the Hudson river, 24 m. S. Albany. Drained by Kinderhook creek, flowing into the Hudson river. Surface uneven; soil fertile. Columbiaville is a manufacturing v. The t. contains several manufacturing of woollen and cotton goods, leather, paper, flour, etc. The v. is on the Hudson River R. R., 24 m. S. Albany, and 121 m. N. from New York city. Pop. of t. 1,655.

STOCKPORT, p. o., Morgan county, *Ohio*: 65 m. E. by S. Columbus.

STOCKPORT STATION, p. v. and sta., Delaware co., *N. Y.*: on the E. side of the Delaware r., on the New York and Erie R. R., 169 m. N. W. New York city, and 94 m. S. W. (direct) Albany. Its location is in a pleasant bend of the r., 3 miles below the junction of the Mohawk and Popacton branches, and it is important as a lumber depôt, large quantities of which is manufactured in the neighborhood.

STOCKSVILLE, p. v., Buncombe co., *N. Car.*: on S. side of Ivy r., 219 m. W. Raleigh.

STOCKTON, p. v., Baldwin county, *Ala.*: on the E. side of Tensaw river, 25 miles N. E. Mobile, and 137 m. S. W. of Montgomery.

STOCKTON, p. o., Madison co., *Flor.*: 45 m. E. Tallahassee.

STOCKTON, t. and p. o., Chautauque co., *N. Y.*: 12 m. S. Dunkirk, and 296 m. W. by S. Albany. Bear and Cassadaga lakes are in the N. part, by the outlets of which the town is drained. Surface even; soil fertile. It has excellent water-power, and several light manufacturing. Pop. 1,642.

STOCKTON, p. v., and cap. San Joaquin co., *Calif.*: on the Stockton slough or canal (which contains the "back waters" formed by the junction of the Sacramento and San Joaquin rivers) about 3 m. from its junction with the San Joaquin, 100 m. E. by water from San Francisco, and 59 m. direct from Vallejo. This is one of the principal cities of the State, ranking next to San Francisco and Sacramento. First settled in 1844, by C. M. Weber, who obtained a grant from the then governor of California for a large section of country; made a pueblo in 1845, when there were seven residences, and was abandoned in the succeeding year. In 1848 the settlement was successfully established, and in 1849 it was a canvas city of 1,000 inhabitants, with a fleet of merchant vessels lying before it. The Stockton slough is divided into three branches; the city occupies the peninsula between the two northern, and extends also S. to the third branch. The ground on which it is built is high, and not subject to overflow, and is in the centre of the two great tracts of arable land which constitute the valleys of the San Joaquin and Sacramento rivers. The San Joaquin is navigable at all seasons to this place for vessels drawing not over nine feet of water, and such is the peculiar formation of the bank that they can lay directly along it and discharge their cargoes. It is the depôt for the supply of all the southern mines, and every thing indicates that this point is destined to become one of the great inland marts of this wonderful and growing country, and it is believed by some that it will outstrip all its rivals in the race of prosperity. The largest-sized brigs and schooners, and a great number of launches, etc., are engaged in the carrying trade, and steamers ply here regularly. The mines are situated among the hills and mountains forming the western slope of the Sierra Nevada, com-

mencing some 20 m. E. of the city, and extending thence E. to the banks of the river. Two papers are published, and a military post is located here. A State hospital is erecting, which will be an ornament to the city. Pop. 3,000.

STODDARD county, Mo. Situate S. E., and contains 937 sq. m. Drained by White Water r. and numerous outlets of the different lakes which cover a large portion of the co. Surface varied; in the N. it is much broken, but in the S. level and marshy; soil in general is good, and the swampy portions when cultivated are rendered fertile and productive. Farms 418; manuf. 2; dwell. 719, and pop.—wh. 4,221, fr. col. 6, sl. 50—total 4,277. *Capital:* Bloomfield.

STODDARD, t. and p. v., Cheshire co., *N. Hamp.:* 31 m. S. W. Concord. There is a large number of ponds in the town. Drained by tributaries of the Merrimac on the E., and of the Connecticut r. on the W. Surface mountainous and very rocky; soil adapted to grass. Incorporated in 1774. There is some leather and lumber manufactured here. The v. is in the N. part. Pop. of t. 1,100.

STODDARTSVILLE, p. v., Monroe co., *Penn.:* on the bank of the Lehigh r., 55 m. N. E. Harrisburg.

STOKES county, N. Car. Situate N. toward the W., and contains 728 sq. m. Drained by Dan r. and tributaries, and branches of Yadkin r. Surface diversified, the greater part of it being hilly; soil fertile, and making good pasture land. Chief productions, cotton and tobacco, wheat, and Indian corn. Farms 591; manuf. 34; dwell. 1,263, and pop.—wh. 7,264, fr. col. 149, sl. 1,793—total 9,266. *Capital:* Germantown.

STOKES, p. o., Oneida co., *N. Y.:* 104 m. N. W. Albany.

STONE county, Mo. Situate S. toward the W., and contains 477 sq. m. Drained by James r., and Buffalo fork of White r. Surface undulating; soil fertile, and produces wheat and Indian corn in abundance; it is also well adapted to the growth of tobacco. Apple, pear, peach, and other fruit-trees are grown, and yield excellent fruit. Pine and other timber abundantly.

STONE ARABIA, p. v., Montgomery county, *N. Y.:* about 4 m. N. of the Mohawk river and 44 m. W. N. W. Albany. This is one of the oldest settlements in the county, and in October, 1780, was the scene of a bloody conflict between the English and Americans, in which, through treachery and unequal numbers, the latter were defeated. It contains a Dutch Reformed church erected in 1788, and a Lutheran church built in 1791.

STONE CHURCH, p. o., Genesee co., *N. Y.:* 224 m. W. by N. Albany. The Buffalo and Rochester R. R. passes near this place.

STONE CHURCH, p. o., Northampton county, *Penn.:* 85 m. E. N. E. Harrisburg.

STONE CREEK, p. o., Tuscarawas co., *Ohio:* 69 m. N. E. Columbus.

STONEHAM, t., p. v., and sta., Middlesex co., *Mass.:* 7 m. N. Boston. There is a pond in the S. part covering about 283 acres. Surface uneven and rocky; soil fertile and well wooded. The chief manufacture here is shoes, at which nearly two-thirds of the inhabitants are employed. The v. is centrally located, and contains several churches. The station is on the Boston and Maine R. R., 8 m. N. Boston. Pop. of t. 2,055.

STONE LICK, p. o., Randolph county, *N. Car.:* 71 m. W. Randolph.

STONE MILLS, p. o., Jefferson co., *N. Y.:* 153 m. N. W. Albany.

STONE MOUNTAIN, p. o. and sta., De Kalb co., *Ga.:* on Georgia R. R., 12 m. E. N. E. from Atlanta, 81 m. N. W. Milledgeville.

STONER'S PRAIRIE, p. o., Dane co., *Wisc.*

STONER'S STORE, p. o., Roanoke co., *Virg.:* 187 m. W. by S. Richmond.

STONERSTOWN, p. v., Bedford co., *Penn.:* on E. bank of Rayston branch of Juniata r., 71 m. W. Harrisburg. Broad Top Mountain is in its vicinity.

STONERSVILLE, p. o., Berks co., *Penn.:* 51 m. E. by N. Harrisburg.

STONERSVILLE, p. v., Greenville dist., *S. Car.:* on a tributary of Ennoree r., 83 m. N. W. Columbia.

STONE WALL MILL, p. v., Appomattox co., *Virg.:* on James r. and canal, 15 m. below Lynchburg, and 131 m. W. by S. from Richmond by canal, and 71 m. direct.

STONINGTON, t., p. b., and port of entry, New London co., *Conn.:* 51 m. S. E. Hartford, 53 m. E. New Haven. Bounded S. by Long Island Sound, E. by Pawcatuck r., separating it from Rhode Island, and W. by Mystic r., both of which afford water-power. This is a large t., with rocky and uneven surface, but moderately fertile soil, and contains three villages. The borough is on a narrow and rocky point of land, extending about $\frac{1}{2}$ m. S. into the sound. The harbor is protected by a break-water, constructed by the United States government at a cost of \$50,000. It is handsomely laid out, well built, and was incorporated in 1801. Its citizens are noted for commercial enterprise, especially in the whaling and sealing business, in which a large aggregate capital is employed. Many vessels are owned here, which bring their cargoes into New York and other ports. It has a marine railway and lighthouse at the entrance of the harbor, etc. The total tonnage of Stonington district on 30th June, 1850, was 19,913 tons. The registered tonnage amounted to 13,159 tons, and all permanent, of which 8,861 tons were in the whale fishery. The enrolled and licensed tonnage amounted to 6,724 tons, consisting of 6,102 tons permanent, 144 tons temporary, employed as follows—coasting trade, 4,020 tons; cod fishery, 1,655 tons; mackerel fishery, 571 tons; steam navigation, 67 tons; and the tonnage "licensed under 20 tons," viz.: 89 tons in coasting-trade, 359 tons in cod fishery. The number of clearances for foreign countries during the year preceding was 9—2,591 tons; number of entrances do. 10—2,594 tons. The number of vessels built during the year was 9—1,084 tons; viz., 2 ships, 1 schooner, 5 sloops, and 1 steamer. During 1849, the whale fishery imports of Stonington were—1,625 bbls. of sperm oil, 15,334 bbls. whale oil, and 97,500 lbs. whalebone. The town contains several manufactories, of which three are extensively engaged in making plaid and plain linseys, etc. The b. contains 2 banks, with aggregate capital of \$160,000, 1 savings bank, 2 academies, 4 churches, etc. Here commences the Stonington R. R. to Providence, 50 m., connecting with daily steamboats to and from New York. This place is of considerable resort in summer. The Wad-dānwannuck House, the chief fashionable hotel, is kept in first-class style. Pop. of t. in 1840, 3,598; in 1850, 5,434.

STONINGTON, p. v., Christian co., *Ill.:* on the S. fork of Sangamon r., 29 m. S. E. Springfield.

STONY BROOK, sta., Middlesex co., *Mass.:* on Fitchburg R. R., 12 m. from Boston.

STONY BROOK, p. v., Suffolk county, *N. Y.:* on N. side of Long Island, 122 m. S. S. E. Albany. It has a good harbor, accessible at all seasons of the year, and carries on ship-building, with some manufactures. Pop. about 400.

STONY CREEK, p. o., Warren co., *N. Y.:* 54 m. N. Albany.

STONY CREEK, sta., New Haven county, *Conn.:* on New Haven and New London R. R., 11 m. from New Haven, 39 m. from New London.

STONY CREEK, t. and p. o., Somerset co., *Penn.:* 108 m. W. by S. Harrisburg. The Alleghany Mountain is on its E. border. Drained by Stony cr. and branches. Surface mountainous, with fertile valleys. Iron ore is abundant. It contains numerous saw-mills, with a few tanneries, grist-mills, etc.

- STOVEE'S PLACE, p. o.**, Centre co., *Penn.*: 67 m. N. W. Harrisburg.
- STOVERTOWN, p. o.**, Muskingum county, *Ohio*: 51 m. E. Columbus.
- STOW, t. and p. v.**, Oxford county, *Me.*: 63 m. W. by S. Augusta. Bounded W. by New Hampshire. It contains several ponds, the outlets of which flow into Saco r. Pop. of t. 471.
- STOW, t. and p. o.**, Middlesex co., *Mass.*: 24 m. W. by N. Boston. Drained by Assobet river, which affords water-power. The t. contains several grist and saw mills, and has considerable manufactures. The Lancaster and Sterling Branch R. R. (from South Acton, on Fitchburg R. R. to Feltonville) runs upon its E. border. Pop. 1,455.
- STOW, t. and p. v.**, Summit county, *Ohio*: 111 m. N. E. Columbus. Drained by Cuyahoga r. and one of its branches, affording excellent water-power. Surface rolling; soil fertile, and in a good state of cultivation. The Pennsylvania and Ohio Canal crosses the S. part, and the Akron Branch of the Cleveland and Pittsburg R. R. passes through the v. Bituminous coal of a superior quality is found in the S. W. of the town. It has several stores, mills, etc. Population of t. 1,702.
- STOWE, t. and p. v.**, Lamoille co., *Verm.*: 16 m. N. N. W. Montpelier. Surface level; soil fertile. Drained by Waterbury r. and its branches, which flow S. into Onion r., and afford water-power. The t. contains a woolen factory, 2 tanneries, and mills of various kinds. Pop. of t. 1,771.
- STOWELL'S CORNERS, p. o.**, Jefferson county, *N. Y.*: 152 m. N. W. Albany.
- STOW'S FERRY, p. o.**, Tallapoosa co., *Ala.*: 42 m. N. E. Montgomery.
- STOW'S SQUARE, p. o.**, Lewis co., *N. Y.*: 123 m. N. W. Albany.
- STOWSVILLE, p. o.**, Gaston co., *N. Car.*: 133 m. W. S. W. Raleigh.
- STOVETOWN, p. v.**, Somerset co., *Penn.*: on W. side of Stony cr., 107 m. W. by S. Harrisburg. Near the v. are 2 furnaces; annual capacity 700 and 1,400 tons; and a forge producing annually 30 tons bar iron. The village has some other manufactures, mills, etc.
- STREABANE, p. v.**, Lenoir co., *N. Car.*: on the S. side of Neuse r., 63 m. S. E. Columbia.
- STREABANE, t. and p. o.**, Washington co., *Penn.*: 170 m. W. Harrisburg. Drained by Charters and Little Charters creeks, uniting on its N. W. boundary. Surface uneven; soil fertile. It contained in 1850, 8 schools and 200 scholars, male and female. Pop. about 1,250.
- STRAFFORD county, N. Hamp.** Situate toward the S. E., and contains 408 sq. m. Drained by Lamproy, Isinglass, and Cochecho rivers. Surface various, and diversified with small ponds; soil in most parts fertile, and producing good crops of grain, etc. Agriculture is much attended to by a large number of the population. Chief products, wheat, Indian corn, and potatoes. Farms 1,544; manuf. 394; dwell. 4,764, and pop.—wh. 29,327, fr. col. 37—total 29,364. *Capt. Ital.*: Dover. *Public Works*: Cochecho R. R.; Great Falls and Conway R. R.; Boston and Malne R. R.
- STRAFFORD, t. and p. v.**, Strafford co., *N. Hamp.*: 20 m. E. by N. Concord. Blue Hill crosses its N. part. Drained in its N. part by branches of Suncook r., and in S. part by Isinglass r., flowing from Bow Pond, in its S. W. part (2 m. long, 14 m. wide), into Cochecho r. The t. has generally a fertile soil, abounds with fine scenery, and contains four churches. Pop. of t. 1,920.
- STRAFFORD, t. and p. v.**, Orange co., *Verm.*: 31 m. S. E. E. Montpelier. Surface uneven; soil fertile. Drained by a branch of Pompanoosuc r., which affords water-power. In the S. E. corner is a bed of sulphur of iron, half a mile long, 3 rods wide, and of unknown depth, from which large quantities are annually taken. The principal company engaged in the manufacture of coppers therefrom has a capital of \$40,000. Pop. of t. 1,546.

STAFFORD CORNER, p. o., Stafford co., *N. Hamp.*: 22 m. E. by N. Concord.

STRAIGHT FORK, p. o., Campbell county, *Tenn.*: 137 m. E. by N. Nashville.

STRAIT'S LAKE, p. o., Oakland co., *Mich.*: 59 m. E. by S. Lansing.

STRAITSVILLE, p. o., New Haven co., *Conn.*

STRAITSVILLE, p. v., Perry county, *Ohio*: 48 m. S. E. by E. Columbus. In its vicinity (in Salt Lick t.) are found immense deposits of bituminous coal, some of the strata of which have been found to be 90, 112, and 135 feet deep. A vein of carbonate of iron is found 10 m. S. of this coal-bed.

STRASBURG, p. v., Tuscarawas county, *Ohio*: on the W. side of a branch of the Tuscarawas river, 84 m. N. E. Columbus.

STRASBURG, t. and p. v., Lancaster co., *Penn.*: 43 m. S. E. Harrisburg. Drained by Little Beaver cr. Pecquea cr., on its N. and W. boundary, affords valuable water-power; and on its bank are several mill-scats. Surface hilly; soil fertile, and much grain is raised. The v. is 2 m. W. Mine Ridge Mountain, and contains an academy and several stores. Pop. of t. 4,734.

STRASBURG, sta., Blair co., *Penn.*: on the Baltimore and Susquehanna R. R., 43 m. S. Harrisburg, and 89 m. N. Baltimore.

STRASBURG, p. v., Shenandoah co., *Virg.*: on N. branch of Shenandoah r., 109 m. N. N. W. Richmond. The inhabitants are chiefly of German origin. The v. contains 3 churches, several mechanic shops, stores, etc., and is on the line of the Manassas Gap R. R. Pop. 600.

STRATA, p. o., Montgomery county, *Ark.*: 72 m. S. S. E. Milledgeville.

STRATFORD, t. and p. o., Fulton county, *N. Y.*: 56 m. N. W. Albany. Surface hilly; soil best adapted to grazing. Drained by East Canada creek and its branches, upon which are numerous saw-mills. Fish lake on its E. border is a handsome sheet of water. Pop. 801.

STRATFORD, t. p. v., and sta., Fairfield county, *Conn.*: on W. side of Housatonic r., at its entrance into Long Island Sound, 14 m. S. W. New Haven. Lat. $41^{\circ} 11' 07''$ N.; long. $73^{\circ} 08' 45''$ W. Surface generally level; soil fertile, especially on the r. and harbor. The village is chiefly one street 1 m. long, parallel to the r., and pleasantly ornamented with shade trees, and contains 5 churches, an academy, etc. The Episcopal church was founded in 1723, and is the oldest of the denomination in the State. The l. has considerable inland and coasting trade. The New York and New Haven R. R. passes through the v., 62 m. from New York, 14 m. from New Haven, and with it the Naugatuck R. R. connects at Stratford Junction, 1 m. from the v. Pop. of t. in 1840, 1,808; in 1850, 2,040.

STRATFORD, p. o., Delaware county, *Ohio*: 19 m. N. Columbus.

STRATFORD, t. p. o., and sta., Coos co., *N. Hamp.*: on E. side of Connecticut r., 106 m. N. Concord. Surface rough; soil mostly sterile. Drained by small streams. The Atlantic and St. Lawrence R. R. runs along the r., having stations at Stratford Hollow, 127 m.; and North Stratford, 184 m. from Portland. Pop. in 1840, 441; in 1850, 552.

STRATHAM, t. p. v., and sta., Rockingham co., *N. Hamp.*: 34 m. E. S. E. Concord. Bounded W. by Squamscot or Exeter r. flowing into Great Bay. Surface level; soil generally fertile. The inhabitants are chiefly engaged in farming. In its E. part is a large peat swamp. The Portsmouth and Concord R. R. passes through, 8 m. from Portsmouth, 89 m. from Concord. Pop. 843.

STRATTON, t. and p. o., Windham county, *Verm.*: 90 miles S. by W. Montpelier. This is a mountainous town bordering on the Green Mountain Range, with poor soil. Pop. 286.

STRATTON'S FALLS, p. o., Delaware county, *N. Y.*: 73 m. W. S. W. Albany.

STRATTONVILLE, p. v., Clarion co., *Penn.*: 144 m. N. W.

Harrisburg. There is a steam furnace in the vicinity, with an annual capacity of 1,350 tons.

STRAWSTOWN, p. v., Berks county, *Penn.*: 39 m. N. E. Harrisburg.

STRAWBERRY PLAINS, p. v., Jefferson co., *Tenn.*: on S. side Holston r., 171 m. E. Nashville. The E. Tennessee and Virginia R. R. passes through the village.

STRAWBRIDGE, p. o., York county, *Penn.*: 85 m. S. S. E. Harrisburg.

STRAWTOWN, p. v., Hamilton county, *Ind.*: on E. bank of White r., 25 m. N. by E. Indianapolis. It was once an Indian town, and derives its name from a house in it, thatched with straw. It is pleasantly located, and contains about 200 inhabitants.

STREETSBORO', t. and p. v., Portage county, *Ohio*: 117 m. N. E. Columbus. Surface gently uneven. Drained by Cuyahoga r. and one of its branches. The Cleveland and Pittsburg R. R. passes across the S. W. corner of the town. Pop. of t. 1,108.

STREET'S RUN, p. v., Allegheny co., *Penn.*: on Mononga hela r., 4 m. S. E. Pittsburg; 157 m. W. Harrisburg.

STRICKESVILLE, p. v., Chester county, *Penn.*: on a small stream flowing E. into the Delaware river, 67 m. S. E. Harrisburg.

STRICKLAND'S, p. o., Ware county, *Ga.*: 114 m. S. S. E. Milledgeville.

STRICKLAND'S DEPÔT, p. v. and sta., Duplin co., *N. Car.*: on the Wilmington and Weldon R. R., 37 m. S. Goldsboro', and 87 m. S. S. E. Raleigh.

STRICKLAND'S FERRY, sta., Kennebec co., *Me.*: on Androscoggin river and R. R., 12 m. from Leeds sta., 21 m. W. Augusta.

STRINESTOWN, p. v., York county, *Penn.*: 13 m. S. E. Harrisburg.

STRING PRAIRIE, p. o., Lee co., *Ia.*: 69 m. S. Iowa City.

STRING PRAIRIE, p. o., Burleson co., *Tex.*: 66 m. E. by N. Austin City.

STRINGTOWN, p. v., Richland co., *Ill.*: on the border of a fertile prairie, 110 m. S. E. Springfield.

STRINGTOWN, p. o., Ripley county, *Ind.*: 65 miles S. E. Indianapolis.

STROBE, p. o., Culpepper county, *Virg.*: 65 m. N. N. W. Richmond.

STROBE'S MILLS, p. o., Mifflin co., *Penn.*: 49 m. N. W. Harrisburg.

STRONG, t. and p. v., Franklin co., *Me.*: 48 m. N. W. by N. Augusta. Surface uneven in the S.; well watered by Sandy r. along which is a fine tract of fertile intervals. The v. is very pleasant. Pop. of t. 1,008.

STRONGSTOWN, p. v., Indiana co., *Penn.*: on Yellow cr., 108 m. W. by N. Harrisburg.

STRONGSVILLE, t. and p. v., Cuyahoga county, *Ohio*: 14 m. S. S. W. Cleveland, 105 m. N. E. Columbus. Watered by E. branch of Rocky r., upon which the v. is situated. The v. contains several mills, stores, etc., and 3 churches. Pop. of t. 1,199.

STROUDSBURG, p. v., and cap. Monroe co., *Penn.*: on the N. bank of Smithfield cr., 3 m. N. W. from Delaware Gap, 98 m. N. E. Harrisburg. It is built upon one street, and contains a court-house, jail, and other public buildings, a forge moved by water-power, producing 250 tons annually, several mills, etc. Two weekly newspapers are published: "Jeffersonian Republican" (whig), and "Monroe Democrat" (dem.) Pop. 841.

STRYKERSVILLE, p. v., Wyoming co., *N. Y.*: on Buffalo creek, 244 m. W. Albany. It contains 2 churches, a few mills, etc. Pop. about 250.

STUMP BRIDGE, p. o., Madison county, *Miss.*: 25 m. N. Jackson.

STURBRIDGE, t. and p. v., Worcester co., *Mass.*: 55 m. W. S. W. Boston. Surface uneven—finely watered by Quinnebaug r. and its numerous branches, some of which flow through fine fish-ponds. Water-power is afforded by

the Quinnebaug, and improved by factories of cotton goods, grist and saw mills, etc. The v. at the centre contains 2 churches. Pop. of t. 2,119.

STURGEONVILLE, p. o., Brunswick county, *Virg.*: 53 m. S. by W. Richmond.

STURGIS, t. p. v. and sta., St. Joseph's co., *Mich.*: 83 m. S. W. Lansing. The entire t. is part of a rich track of prairie land. It is crossed by the Michigan Southern and Northern Indiana R. R., on which the village is located, 131 m. from Chicago, 116 m. from Monroe. Pop. of t. 539.

STUYVESANT, t. and p. v., Columbia co., *N. Y.*: on E. side of Hudson river, and on Hudson River R. R., 13 m. S. Albany. Surface hilly, with productive soil. The v. on the river was formerly called Kinderhook Landing. It has considerable business with New York in supplying country produce. Pop. of t. 1,766.

STUYVESANT FALLS, p. v., Columbia county, *N. Y.*: on Kinderhook cr., which furnishes fine water-power to various mills, 23 m. S. Albany.

SWALETT'S TAVERN, p. o., Powhatan co., *Virg.*: 21 m. W. Richmond.

SUBIGNA, p. o., Chattooga county, *Ga.*: 153 m. N. W. Milledgeville.

SUCCESS, p. o., Suffolk co., *N. Y.*: 134 m. S. E. by S. Albany.

SUCKASUNNY, p. v., Middlesex co., *Mass.*: 20 m. W. Trenton.

SUDBURY, t. and p. v., Middlesex co., *Mass.*: 20 m. W. Boston. Bounded E. by Sudbury r., a branch of Concord river. The inhabitants are chiefly engaged in agricultural pursuits. The v. at the centre is very pleasant. Population of t. 1,578.

SUDBURY, t. and p. v., Rutland co., *Verm.*: 45 m. S. W. Montpelier. Otter cr. forms part of its E. boundary. Surface elevated and uneven. Pop. of t. 794.

SUDLERSVILLE, p. v., Queen Anne co., *Md.*: on the W. side of the upper course of Tuckahoe cr., 42 m. E. by N. Annapolis.

SUFFERN, p. o. and sta., Rockland co., *N. Y.*: on Erie R. R., at junction of Union R. R., 112 m. S. by W. Albany. The vicinity is interesting, from its romantic scenery and Revolutionary history, and is noted for its abundant iron ore.

SUFFIELD, t. and p. v., Hartford co., *Conn.*: on W. side of Connecticut r., and bounded N. by Massachusetts, 16 m. N. Hartford. Surface diversified; soil fertile loam, but without alluvial meadows, owing to the elevated banks, and affording some of the best farms in the State. The v., on one street, one mile long, is pleasantly built on elevated ground, commanding fine views of the river and vicinity. The Connecticut Literary Institution, here located, was founded by the Baptists in 1835; it has a brick edifice, four stories high, and employs four teachers. The v. and t. have considerable manufactories. Pop. of t. 2,962.

SUFFIELD, t. and p. o., Portage co., *Ohio*: 108 m. N. E. Columbus. Drained by branches of Cuyahoga r. Surface gently uneven. Pop. 1,275.

SUFFOLK county, *Mass.* Situate E., and contains 109 sq. m. Drained principally by the Charles r. It consists of Boston and Chelsea, in connection with several small islands. Surface generally level; soil fertile. Chief products, wheat, Indian corn, and potatoes. This county has many extensive manufactures, and is at the present time the most important in the State, the city of Boston constituting the greater part of its area. Farms 76; manuf. 1,989; dwell. 16,567, and pop.—wh. 142,484, fr. col. 2,023—total 142,507. *Capital*: Boston. *Public Works*: Eastern R. R.; Boston and Maine R. R.; Norfolk County R. R.; Boston and Lowell R. R.; Fitchburg R. R.; Boston and Worcester R. R.; Boston and Providence R. R.; Old Colony R. R.; Grand Junction R. R., etc.

SUFFOLK county, *N. Y.* Comprehends the E. portion of Long Island, with several considerable islands, the principal of which are Fisher's, Shelter, and Gardiner's islands,

and contains 976 sq. m. Surface hilly and broken: soil a sandy loam. It contains extensive salt meadows, and has some minerals. Chief products, wheat and Indian corn. Salt is extensively manufactured. Fishing is much followed by the inhabitants. Farms 323; manuf. 96; dwell. 6,745, and pop.—wh. 34,809, fr. col. 2,113—total 36,922. *Capital*: Suffolk C. H. *Public Works*: Long Island R. R.

SUFFOLK, sta., Suffolk co., *N. Y.*: in Islip t., on Long Island R. R., 43 m. from New York.

SUFFOLK, p. v., sta., and cap. Nansemond county, *Virg.*: on Nansemond r., 72 m. S. E. by S. Richmond. The Seaboard and Roanoke R. R. passes through, 17 m. from Portsmouth, 63 m. from Weldon; as will also the Petersburg and Norfolk R. R., now in construction. The v. contains the county buildings and 4 churches. The "Suffolk Intelligencer" (whig), and "Nansemond Chronicle" are semi-weekly issues. Pop. about 1,700.

SUFFOLK COURT-HOUSE, p. o., Suffolk county, *N. Y.* (See RIVERHEAD.)

SUGAR CREEK, p. o., Telfair co., *Ga.*: 77 m. S. by E. Milledgeville.

SUGAR CREEK, p. v., Hancock co., *Ind.*: on the N. bank of a stream so called, 14 m. E. by S. Indianapolis.

SUGAR CREEK, p. o., Crawford co., *Penn.*: near a lake so called, 183 m. N. W. Harrisburg. A furnace operated by steam, near here, has an annual capacity of 1,100 tons.

SUGAR CREEK, p. o., Walworth co., *Wis.*: 47 m. N. W. Madison.

SUGAR CREEK, t. and p. o., Walworth co., *Wis.*: 47 m. S. E. Madison. Drained by branches of Fox r. There are several small ponds in the town. Surface level, consisting of timber and prairie land; soil of great fertility. Population 1,229.

SUGAR GROVE, p. o., Pendleton co., *Virg.*: 123 m. N. W. Richmond.

SUGAR GROVE, p. o., Kane co., *Ill.*: on Blackberry cr. of Illinois r., 149 m. N. E. Springfield.

SUGAR GROVE, p. o., Tippecanoe co., *Ind.*: 159 m. N. W. Indianapolis.

SUGAR GROVE, p. o., Fairfield county, *Ohio*: 24 m. S. E. Columbus.

SUGAR GROVE, p. v., Poweshick co., *Ia.*: on a branch of South fork, Skunk r., 64 m. W. Iowa City.

SUGAR GROVE, p. o., Butler county, *Ky.*: 113 m. S. W. Frankfort.

SUGAR GROVE, p. o., Ashe co., *N. Car.*: on the W. side of Watauga r., 153 m. W. by N. Raleigh.

SUGAR GROVE, t. and p. v., Warren co., *Penn.*: 173 m. N. W. Harrisburg. Drained by Jackson's Run, Stillwater cr., and other tributaries of Conewango cr., affording excellent mill-power. Surface undulating; soil moderately fertile. The v. on Stillwater cr. is surrounded by groves of sugar maples, and contains several mills, etc.

SUGAR HILL, p. o., Panola co., *Tex.*: 251 m. N. E. by E. Austin.

SUGAR HILL, p. o., Grafton co., *N. Hamp.*: 72 m. N. by W. Concord.

SUGAR HILL, p. o., Steuben co., *N. Y.*: 172 m. W. by S. Albany.

SUGAR HILL, p. o., McDowell county, *N. Car.*: 191 m. W. Raleigh.

SUGAR HILL, p. o., Hall county, *Ga.*: 93 m. N. N. W. Milledgeville.

SUGAR LAKE, p. o., Crawford co., *Penn.*: near a lake so called, 183 m. N. W. Harrisburg.

SUGAR LAND, p. o., Matagorda co., *Tex.*: 142 m. S. E. Austin.

SUGAR LOAF, p. v., Orange co., *N. Y.*: 102 m. S. by W. Albany.

SUGAR LOAF, p. o., Sebastian co., *Ark.*: 107 m. W. by N. Little Rock.

SUGARLOAF mountain, Frederick co., *Md.*: a conspicuous elevation near Monocacy r., in the S. part of the county. It

is the southern termination of the ridge called Catactin Mountain, traversing in a N. and S. direction.

SUGAR RUN, p. o., Bradford co., *Penn.*: 99 m. N. Harrisburg.

SUGARTOWN, p. o., Chester county, *Penn.*: 63 m. E. S. E. Harrisburg.

SUGAR TREE, p. o., Pittsylvania co., *Virg.*: 160 m. S. W. Richmond.

SUGAR TREE RIDGE, p. o., Highland co., *Ohio*: 63 m. S. W. Columbus.

SUGAR VALLEY, p. o., Murray co., *Ga.*: 160 m. N. W. Milledgeville.

SUGAR VALLEY, p. o., Preble co., *Ohio*: 57 m. W. S. W. Columbus.

SUGAR VALLEY, p. o., Clinton co., *Penn.*: 71 m. N. W. Harrisburg.

SUGSVILLE, p. v., Clark co., *Ala.*: 100 m. S. W. by W. Milledgeville. Pop. about 200.

SUISUN, v., Solano co., *Calif.*: is laid out on the W. bank of the Sacramento r., about 80 m. from San Francisco, half way between it and Sacramento City, and 30 miles E. from Vallejo. The country surrounding the town, and the site itself, is the first healthy and high ground after passing the tule marshes which lie at the junction of the Sacramento and San Joaquin. The town was surveyed and laid out by C. S. Lyman, and is a very pretty place. Large squares are reserved for a university and other public edifices, and lots of moderate square on the river is appropriated to the purposes of a market and a steamboat landing. The streets are very broad, and altogether it forms a picturesque appearance. It is not supposed that this will ever become a great commercial position, but the beauty of the climate and scenery, and the agricultural capacities of the surrounding country, will eventually make it the "Hyde Park" of California.

SUISUN bay, Solano co., *Calif.*: an arm or division of San Francisco bay. It is connected with an expansion of the river so called, formed by the junction of the Sacramento and San Joaquin, which enter San Francisco bay in the same latitude nearly as the mouth of the Tagus at Lisbon. A delta 25 m. in length, divided into islands by deep channels, connects the bay with the valleys of the San Joaquin and Sacramento, into the mouths of which the tide flows, and which enter the bay together as one river. The country around Suisun bay presents low ridges and rounded hills clothed with wild oats and clover, and more or less openly wooded on their summits. The anchorage is good for vessels of the largest draught.

SUISUN valley, Solano co., *Calif.*: N. of Suisun bay, and E. of Green Valley, 6 m. square, covered by Spanish grant, opens on the E. into Sacramento valley. The soil is exceedingly fertile and well cultivated. It is especially prolific in the grasses: the hay consists chiefly of wild oats and clover. Navigation is excellent. Large quantities of hay are shipped from here, and six vessels are constantly taking produce from the embarcadero.

SULLIVAN county, *Ind.*: Situate S. W. on the Wabash r., and contains 430 sq. m. The interior is drained by Turnman's, Turtle, and Busseron creeks. Surface generally level, and heavily timbered. The bottoms and prairies are of small extent. Many sections have excellent soil, and coal is found in abundance. Farms 1,215; manuf. 31; dwell. 1,675, and pop.—wh. 10,110, fr. col. 31—total 10,141. *Capital*: Sullivan.

SULLIVAN county, *Mo.*: Situate N., and contains 637 sq. m. Drained by Locust and Yellow creeks and their branches. Surface rolling and pleasantly diversified; soil very fertile, and produces abundantly wheat, Indian corn, and oats. The land is in general good, and in all portions where care has been had to cultivation, is highly productive. Farms 817; manuf. 5; dwell. 457, and pop.—wh. 2,595, fr. col. 0, sl. 38—total 2,938. *Capital*: Milan.

SULLIVAN county, *N. Hamp.*: Situate W. toward the S. part of the State, and contains 616 sq. m. Drained by Sugar

and Cold rivers and their tributaries, which furnish abundant water-power to the county. Surface, though elevated, is not mountainous; soil rich and very productive, particularly along the Connecticut, which forms its W. boundary. It has numerous ponds and lakes, the principal of which is Sunapee lake, toward the S. E. Principal products wheat, Indian corn, and potatoes. Farms 2,129; manuf. 141; dwell. 8,649, and pop.—wh. 19,341, fr. col. 34—total 19,375. *Capital*: Newport. *Public Works*: Sullivan R. R.

SULLIVAN county, *N. Y.*: Situate toward the S. E., and contains 784 sq. m. Drained by Mongou and Neversink rivers, branches of the Delaware, and Bashe's, Beaver, and Little Beaver kills. Surface hilly, and in some parts mountainous, and well suited for grazing; soil various, but in general fertile, and in the valleys adapted to the raising of grain, etc. Chief products wheat and Indian corn. It contains several minerals. Near Wartzboro' lead ore of a good quality is found. Farms 1,859; manuf. 360; dwell. 4,355, and pop.—wh. 24,996, fr. col. 92—total 25,088. *Capital*: Monticello. *Public Works*: New York and Erie R. R.; Delaware and Hudson Canal.

SULLIVAN county, *Penn.*: Situate toward the N. E., and contains 434 sq. m. Drained by Plunket's cr., a tributary of Susquehanna river. Surface uneven; soil fertile, adapted to wheat and Indian corn. Farms 425; manuf. 26; dwell. 680, and non-wh. 2,622, fr. col. 11 total 2,634. *Capital*: Laporte. *Public Works*: Towanda R. R.

SULLIVAN county, *Tenn.*: Situate N. E., and contains 524 sq. m. Holston r. passes through it from E. to W., by which and its affluents it is drained. Surface mountainous; soil consists of deep loam with clay intermixed, and productive, fine crops of wheat and Indian corn being raised, and adapted to the culture of tobacco. Timber is found on the land. Farms 816; manuf. 15; dwell. 1,826, and pop.—wh. 10,605, fr. col. 133, sl. 1,004—total 11,742. *Capital*: Blountville. *Public Works*: East Tennessee and Virginia R. R.

SULLIVAN, p. v., Moultrie co., *Ill.*: on the E. of a branch of Kaskaskia r., 53 m. E. by S. Springfield.

SULLIVAN, t. and p. o., Tioga co., *Penn.*: 103 m. N. Harrisburg. Drained by branches of Tioga r. Surface uneven; soil of inferior quality, well timbered. It contains numerous saw and other mills. Pop. about 1,500.

SULLIVAN, p. v., and cap. Sullivan co., *Ind.*: on the left bank of Busseron creek, 75 m. S. W. Indianapolis. It was laid out in 1842, and contains a court-house, jail, county seminary, and two churches.

SULLIVAN, p. o., Jackson co., *Ia.*: 67 m. N. E. Iowa City. SULLIVAN, t. and p. v., Hancock co., *Me.*: at the head of Frenchman's bay, with Taunton bay on the W., 82 m. E. by N. Augusta. The outlet of a pond in the N. E. part flows into Frenchman's bay, and furnishes mill privileges. Its location for navigation is good, and it has some ship-building. There are some light manufactories of woolen goods, flour, and lumber in the town. The v. is located on Taunton bay, at which point a bridge 1,400 feet long connects the town with Hancock. Pop. of t. 810.

SULLIVAN, t. and p. v., Cheshire co., *N. Hamp.*: 86 m. S. W. Concord. Drained by a branch of Ashuelot r., crossing its S. E. part. Incorporated in 1787. Water privileges are good, and it contains several mills. The village is in the centre of the town. Pop. of t. 463.

SULLIVAN, p. o., Ashland county, *Ohio*: 66 m. N. N. E. Columbus.

SULLIVAN, t. and p. o., Jefferson county, *Wis.*: 41 miles E. by S. Madison. Drained by branches of Rock river. Surface various; soil very fertile; grain and grass thrive equally, and this is a good farming town. Pop. 872.

SULLIVAN'S island, Charleston dist., *S. Car.*: a small island lying at the mouth of Charleston harbor. It is resorted to by the citizens of Charleston for the enjoyment of its scenery and salubrious atmosphere.

SULLIVANVILLE, p. o., Chemung county, *N. Y.*: 160 miles S. W. by W. Albany.

SULPHUR BLUFF, p. o., Hopkins co., *Tex.*: 252 m. N. E. Austin City.

SULPHUR HILL, p. o., Shelby county, *Ind.*: 25 miles S. E. Indianapolis.

SULPHUR LICK, p. o., Lincoln county, *Mo.*: 72 miles N. E. Jefferson City.

SULPHUR LICK, p. o., Monroe co., *Ky.*: 109 m. S. by W. Frankfort.

SULPHUR ROCK, p. o., Independence county, *Ark.*: on a branch of White r., 90 m. N. N. E. Little Rock.

SULPHUR SPRING, p. o., Crawford county, *Ohio*: 57 m. N. Columbus.

SULPHUR SPRING valley, Solano co., *Calif.*: runs up from Suisun bay, 2 miles N. of Benicia and near Vallejo, from 100 to 400 yards wide, and winds through the Suscul Hills for 5 or 6 miles. The soil is rich and well watered. The springs located here are of good temperature for bathing.

SULPHUR SPRINGS, p. v., Williamson county, *Ill.*: on the Sangamon and Massao E. R., 155 m. S. S. E. Springfield.

SULPHUR SPRINGS, p. o., Madison co., *Miss.*: 27 m. N. Jackson.

SULPHUR SPRINGS, p. o., Henry co., *Ind.*: 39 m. N. E. Indianapolis.

SULPHUR SPRINGS, p. v., Jefferson co., *Mo.*: on the W. side of the Mississippi river, 96 m. E. by S. Jefferson City. There are a number of springs in the vicinity, and iron ore and lead also abound.

SULPHUR SPRINGS, p. o., Cherokee co., *Tex.*: 191 m. N. E. Austin City.

SULPHUR SPRINGS, p. o., Benton county, *Ala.*: 103 miles N. E. by N. Montgomery.

SULPHUR SPRINGS, p. v., Rhea co., *Tenn.*: on the W. bank of the Tennessee r., 111 m. E. S. E. Nashville.

SULPHUR WELL, p. o., Shelby co., *Tenn.*: 133 m. W. S. W. Nashville.

SUMMERFIELD, p. v., Dallas co., *Ala.*: on a branch of the Cahawba r., 49 m. W. by N. Montgomery.

SUMMERFIELD, t. and p. v., Monroe county, *Mich.*: 77 m. S. E. Lansing. Drained by Raisin r. Surface rolling, with prairie land and good timber; soil fertile, producing excellent grain; and some sheep and hogs are raised. The v. is on the Raisin r., and contains several mills, etc. The Michigan Southern and Northern Indiana R. R. crosses the N. part, on which is Petersburg station, 23 miles W. Monroe. Pop. of t. 472.

SUMMERFIELD, p. v., Guilford co., *N. Car.*: 71 m. N. W. Raleigh.

SUMMERFIELD, p. v., Noble co., *Ohio*: on the E. boundary, 85 m. E. by S. Columbus.

SUMMERFORD, t. and p. v., Madison co., *Ohio*: 24 m. W. Columbus. Drained by the head waters of Deer cr. tributary of Scioto r., affording good mill-power. The v. is on the cr. Pop. of v. 139, and of the t. 755.

SUMMER GROVE, p. o., Smith county, *Tex.*: 209 m. N. E. Austin City.

SUMMER HILL, t. and p. v., Cayuga co., *N. Y.*: 134 m. W. Albany. Drained by the head branches of Fall creek. Surface hilly; soil of moderate fertility. It contains several mills and a tannery. The v. is on a branch of Fall creek. Pop. of t. 1,251.

SUMMER HILL, t. and p. v., Cambria co., *Penn.*: 101 m. W. by N. Harrisburg. Drained by branches of Kiskiminetas r., affording power to several mills. It contains some light manufactures. The Pennsylvania R. R. passes through the town, and a branch connects it with Ebensburg, about 11 miles N.

SUMMESET, p. v., Polk co., *Ia.*: on the N. side of Middle river branch of the Des Moines, 112 m. W. by S. Iowa City.

SUMMERSVILLE, p. v., Greene co., *Ky.*: on Pitman's cr., 64 m. S. by W. Frankfort.

SUMMERSVILLE, p. v., Jefferson co., *Penn.*: 125 m. N. W. Harrisburg.

SUMMERSVILLE, p. v., and cap. Chattooga county, *Ga.*: on

the W. bank of the Chattooga branch of Coosa river, 153 m. N. W. Milledgeville, and contains a court-house, jail, etc.

SUMMERSVILLE, p. o., Cumberland county, *N. Car.*: 41 m. S. W. Raleigh.

SUMMERSVILLE, p. v., Cass co., *Mich.*: on Dowagiac r., 101 m. S. W. Lansing. The country in the vicinity consists of dry prairie land.

SUMMERSVILLE, p. v., Charleston district, *S. Car.*: on the South Carolina R. R., 22 m. N. W. Charleston, and 104 by railroad S. E. Columbia.

SUMMERSVILLE, p. v., Rock co., *Wis.*: on the S. of Turtle cr., 47 m. S. E. Madison.

SUMMERSVILLE, p. o., Boone co., *Mo.*: 29 m. N. W. Jefferson City.

SUMMIT county, *Ohio*. Situate toward the N. E., and contains 532 sq. m. Cuyahoga river flows through the central portion, by which and its tributaries and by head branches of Tuscarawas river it is drained; good water-power is supplied in their courses. Surface undulating, in parts hilly; soil a rich vegetable mold, and produces in abundance wheat, Indian corn, and potatoes. Large numbers of cattle and hogs are fattened and sent to market, transportation being greatly facilitated by means of the Ohio Canal. Timber is exported. Farms 2,329; manuf. 292; dwell. 4,855, and pop.—wh. 27,422, fr. col. 63—total 27,485. *Capital*: Akron. *Public Works*: Cleveland and Pittsburg R. R.; Cleveland, Zanesville and Cincinnati R. R.; Ohio Canal, etc.,

Summit p. o., Oakland county, Mich.: 57 miles E. by S. Lansing.

SUMMIT, p. o., Summit co., *Ohio*: 105 m. N. E. Columbus. SUMMIT, sta., Licking co., *Ohio*: on the Central Ohio R. R., 22 m. E. Columbus.

SUMMIT, p. v., Blount co., *Ala.*: on the W. boundary line of Marshall co., 123 m. N. from Montgomery.

SUMMIT, p. o., Whitley county, *Ind.*: 99 m. N. by E. Indianapolis.

SUMMIT, p. v. and sta., Essex co., *N. Jer.*: on the E. of the Passaic r., on the Morris and Essex R. R., 13 m. W. from Newark, and 41 N. E. from Trenton.

SUMMIT, t. p. v., and sta., Schoharie co., *N. Y.*: 46 m. W. by S. Albany. Drained by Charlotte r., and tributaries of Schoharie cr. Surface high and hilly; soil adapted to grass. It contains several manufactories. The v. is on a branch of the Schoharie cr. Pop. of t. 1,800.

SUMMIT, sta., Clinton co., *N. Y.*: on the Northern (Ogdensburg) R. R., 37 m. W. Rouse's Point, and 162 m. N. from Albany.

SUMMIT, p. o., Northampton co., *N. Car.*: 85 m. N. E. Raleigh.

SUMMIT, sta., Broome co., *N. Y.*: on the New York and Erie R. R., 194 m. N. W. New York city, and 104 m. S. W. (direct) from Albany. The road at this point has been cut through a solid rock, at an expense of \$200,000.

SUMMIT, sta., Rutland co., *Verm.*: on the Rutland and Burlington R. R., 18 m. S. Rutland, and 72 m. S. W. Montpelier.

SUMMIT, p. v., Cambria co., *Penn.*: on the head branch of Kiskiminetas r., and on the Philadelphia and Pennsylvania R. R., 150 m. W. by N. Harrisburg. A furnace of 1,100 tons annual capacity is near the village.

SUMMIT, sta., Chester co., *Penn.*: on the Columbia and Philadelphia R. R., 44 m. E. by S. Harrisburg.

SUMMIT, t. and p. v., Waukesha co., *Wis.*: 57 m. E. Madison. Drained by branches of Rock and Fox creeks, and it has several ponds, which, with the streams, afford excellent water-power, and there are several mills. Surface level, and well wooded; soil fertile. The v. is centrally situated. Pop. of t. 1,008.

SUMMIT BRIDGE, p. o., Newcastle co., *Del.*: on the Chesapeake and Delaware Canal, 27 m. N. by W. Dover. At this point there is a bridge over a deep rut in the canal.

SUMMIT HILL, p. v. and sta., Carbon co., *Penn.*: on the

Mauch Chunk and Summit Hill R. R., 9 m. W. Mauch Chunk, and 64 m. N. E. Harrisburg. Coal is found in the vicinity, and the inhabitants of the village are mostly employed in the mines. Pop. 2,501.

SUMMIT MILLS, p. o., Somerset co., Penn.: 118 m. W. S. W. Harrisburg.

SUMMIT POINT, p. o., Jefferson co., Virg.: 117 m. N. by W. Richmond.

SUMMITVILLE, p. v., Lee co., Ia.: 77 m. S. Iowa city. The Dubuque and Keokuk R. R. will pass through this village.

SUMMITVILLE, p. v., Madison county, Ind.: 80 m. N. E. Indianapolis.

SUMNER county, Tenn. Situate N., and contains 496 sq. m. Drained by affluents of Cumberland river, which forms its southern boundary. Surface rolling; soil, which consists of a deep, black mold, is fertile, and well adapted to tobacco and cotton, large quantities of which are produced. Fine crops of wheat and Indian corn are raised, and the county is generally rich in agricultural productions. Farms 1,835; manuf. 103; dwell. 2,555, and pop.—wh. 14,511, fr. col. 200, sl. 8,006—total 22,717. *Capital:* Gallatin. *Public Works:* Louisville and Nashville R. R.; Nashville and Cincinnati R. R.

SUMNER, t. and p. v., Oxford co., Me.: 33 m. W. Augusta. There is a pond in the W. part. Drained by a branch of the Androscoggin r. Surface undulating; soil fertile, and much grain is raised. The t. contains several tanneries, *etc.* East Sumner and West Sumner are the names of villages. Pop. 6,134.

SUMNEYTOWN, p. v., Montgomery co., Penn.: on Perkioman creek, and on line of Upper Salford and Marlboro' townships, 75 m. E. Harrisburg. In the v. is a furnace of 900 tons annual capacity, and a forge making 140 tons blooms and 100 tons bar iron, and powder is manufactured in the vicinity.

SUMTER county, Ala. Situate W., and contains 963 sq. m. Drained by affluents of Tombigbee river and its W. fork. Surface hilly, and partly broken; soil in general fertile. On the streams are some fine tracts of land very productive, and adapted to cotton and other agricultural productions. Farms 663; manuf. 12; dwell. 1,342, and pop.—wh. 7,369, fr. col. 50, sl. 14,331—total 22,250. *Capital:* Livingston. *Public Works:* Alabama and Mississippi R. R.

SUMTER county, Ga. Situate toward the S. W., and contains 589 sq. m. Drained by branches of Flint river. Surface varied; soil fertile, and very productive. Wheat, Indian corn, and grain, are raised in considerable quantities, but cotton is the staple, the land being well adapted to its growth. Apple, pear, and other fruit trees, are grown, and there is some good timber on the land. It contains some minerals. Farms 763; manuf. 34; dwell. 1,109, and pop.—wh. 6,469, fr. col. 18, sl. 3,835—total 10,322. *Capital:* Americus. *Public Works:* South-Western R. R.

SUMTER district, S. Car. Situate S. E. centrally, and contains 1,391 sq. m. Drained by Black river and its branches, and branches of Santee river. Surface level; soil moderately fertile, being of a sandy nature. Chief productions rice, cotton, and Indian corn. Farms 1,343; manuf. 82; dwell. 1,908, and pop.—wh. 9,515, fr. col. 340, sl. 23,065—total 33,220. *Capital:* Sumterville. *Public Works:* Wilmington and Manchester R. R.; Camden Branch R. R.; Columbia Branch R. R.

SUMTER, p. o., Trinity co., Tex.: 161 m. N. E. by E. Austin City.

SUMTERVILLE, p. v., Sumter co., Ala.: 119 m. W. by N. Montgomery.

SUMTERVILLE, p. v., Lee co., Ga.: on a branch of Flint r., 96 m. S. S. W. Milledgeville.

SUMTERVILLE, p. v., Sumter dist., S. Car.: on the Wilmington and Manchester R. R., 146 m. W. S. W. Wilmington (N. C.), 48 m. E. by S. Columbia. The "Black River Watchman" and "Sumpter Banner," both democratic, are issued weekly.

SUN, p. o., St. Tammany parish, La.: 61 m. E. Baton Rouge.

SUNAPEE lake, N. H.: in the N. W. part of Merrimac co., and the E. part of Sullivan county, in the towns of Sunapee, New London, and Newbury, 9 m. long, and about 1½ m. in width. Its elevation above the sea level is 1,080 feet, and the descent of its outlet, Stigar river, to the Connecticut, is very rapid.

SUNBURY, p. v., Livingston county, Ill.: 97 m. N. E. Springfield.

SUNBURY, p. v., Delaware county, Ohio: on Walnut cr., 21 m. N. Columbus. It contains several stores, workshops, and is a thriving village.

SUNBURY, p. v., Gates co., N. Car.: on the E. side of Bennett's cr., 121 m. N. E. Raleigh.

SUNBURY, p. b., and cap. Northumberland co., Penn.: on the E. bank of the Susquehanna r., below the confluence of its N. and W. branches, at Northumberland, 44 m. N. Harrisburg. Its location is on a broad plain, in the township of Augusta. The Pennsylvania Canal is carried across the river by a basin created by the Shamokin dam, 2,783 feet long, a short distance below the L., nearly a mile in width. A railroad connects Sunbury with the Shamokin coal mines, 19 miles E., and Sunbury will be an important point on the line of railroads from the Delaware to Lake Erie, now in progress of construction. A bridge across the N. branch of the Susquehanna connects the town with Northumberland. It contains a court-house and county offices of brick, a jail *etc.* of stone, and several churches. Coal, iron, and lime stone are abundant in the vicinity, and there are some manufactures in the v. The "S. American," "S. Gazette," and the "Deutscher Americaner" are issued weekly. Pop. of t. 1,218.

SUNCOOK, p. v., Merrimac co., N. Hamp.: on the W. side of Suncook r., near its junction with the Merrimac, and on the Portsmouth and Concord R. R., 40 m. W. by N. Portsmouth, and 7 m. S. E. from Concord. It contains some light manufactures.

SUNCOOK river, N. Hamp.: rises in several ponds between Gilmanton and Guilford, near the summit of one of the Suncook mountains, elevated 900 feet above its base. It flows in S. W. direction, and empties into the Merrimac in the town of Allerstown.

SUNDAIR CREEK CROSS ROADS, p. o., Perry co., Ohio: near a cr. so called, 54 m. S. E. Columbus.

SUNDERLAND, t. and p. v., Franklin co., Mass.: on the E. side of the Connecticut r., 79 m. W. by N. Boston. Surface along the river is level, back of which it is mountainous; soil fertile. This is chiefly a farming town. The v. is built upon one street running parallel with the r., and contains several churches and some handsome dwellings. A bridge here crosses the river. Mount Toby lies partly in Sunderland, and partly in Leverett. Pop. of t. 792.

SUNDERLAND, t. and p. v., Bennington co., Verm.: 89 m. S. W. by S. Montpelier. Drained by Battenkill r. and Roaring brook. Surface uneven, and in part mountainous; soil fertile. It has excellent water-power, and some light manufactures. Sulphuret of iron is found in considerable quantities, and lead ore has been discovered in granular limestone. The v. is on the Western Vermont R. R., 36 m. S. by W. Rutland. Pop. of t. 479.

SUNFISH, p. o., Monroe county, Ohio: in the village of Clarrington, at the mouth of Sunfish creek, 111 m. E. by S. Columbus.

SUN FLOWER county, Miss. Situate W. toward the N., and contains 824 sq. m. Drained by Sun Flower r. and its branches. Surface moderately level; soil fertile, and adapted to cotton, which is the chief production. Farms 43, dwell. 75, and pop.—wh. 348, fr. col. 0, sl. 754—total 1,102. *Capital:* M'Nutt.

SUNKHAZE, p. v., Penobscot co., Me.: on the E. side of the Penobscot r. at the mouth of Sunkhaze r., 77 m. N. E. Augusta.

SUNNY SIDE, p. v., Lowndes co., Ala.: on a branch of Big Swamp cr., 29 m. S. W. Montgomery.

SUN PRAIRIE, t. and p. o., Dane co., Wisc.: 21 m. N. E. Madison. Drained by affluents of Rock r. Surface rolling; soil fertile. Pop. 500.

SUNSHINE, p. o., Bath county, Virg.: 181 m. W. by N. Richmond.

SUNVILLS, p. o., Venango county, Penn.: 174 m. N. W. Harrisburg.

SUPERIOR, t. and p. o., Washtenaw co., Mich.: 55 m. S. E. Lansing. Drained by Rouge and Huron rivers, from which good water-power is derived. Surface is gently undulating, with a rich soil. Timber is abundant. Pop. 1,127.

SUPERIOR lake, the largest of the 5 great lakes of North America, and said to be the largest body of fresh water in the world. Its length is 350 m., and greatest breadth 150 m. It contains a number of islands of various sizes, the largest of which is Isle Royal, in the N. W., about 100 m. long and 40 broad. The elevation of the lake's surface above the high tide of the ocean has been calculated to be 1,043 feet, and the average depth of its bottom 900 feet. The lake is subject to as violent gales as the Atlantic, and equally as difficult of navigation. The coast is generally elevated, rocky, and in some parts mountainous. The vessels navigating the lake are confined within its own waters, as the Falls of St. Mary present a complete obstruction to communication with the lakes below. This obstruction is in course of removal, by the building of a ship channel around the Falls of St. Mary; and, when completed, the wide expanse of Lake Superior will be added to the present extent of the lake navigation. The length of the road to be cut by this canal is three-fourths of a mile, at an estimated expense of \$230,000. By this means access will be obtained to the whole country tributary to Lake Superior—a tract rich in timber and mineral wealth. It receives more than 30 rivers, and discharges its waters into Lake Huron by the Straits of St. Mary. The temperature of the water of the lake, during the summer, a fathom or two below the surface, is but a few degrees above the freezing point. In the western portion the water is much colder than in the eastern—the surface flow becoming warmer as it approaches the outlet. The mirage which frequently occurs is occasioned by the difference between the temperature of the air and the lake. In the region about the shores of Lake Superior many valuable mines of copper and other ores have been discovered within a few years past, and are now being extensively worked. The products of the copper mines for the year 1851 amounted to about 2,500 tons, or about one-half the annual consumption of the United States. The copper, for certain purposes in the arts, stands unrivaled; and, according to present report, it surpasses all the ores of copper in density and tenacity. The per centage of silver, too inconsiderable in most cases to justify separation, still enhances its value, by protecting it in a considerable degree from the corrosive action of salt water. The boundary line between the U. S. and the British possessions passes from the outlet through the middle of the E. section of this lake; but toward the W. it is carried clear round to the N. of Isle Royal, giving that island and the whole body of the lake below it to the U. S.; then passing round the W. extremity of the island, it inclines S. to the entrance of Pigeon river, leaving the largest portion of this section of the lake on the British side. The Pictured Rocks, so called, toward the E. end of the lake, are a great natural curiosity. They form a perpendicular wall, 300 feet high, extending about 12 m. along the shore of the lake. They have numerous caverns and projections. The fishing stations about the coast are numerous, and several thousand of barrels of fish are put up and exported annually, the waters of this lake yielding an exhaustless supply of this article. The species caught are, the trout, white fish, and sturgeon, the two former of which are highly prized in the markets.

SURGEON'S HALL, p. v., Alleghany co., Penn.: on a small

stream flowing into the Monongahela river, 160 m. W. Harrisburg.

SURROUNDED HILLS, p. o., Monroe co., Ark.: 69 m. E. Little Rock.

SURRY county, N. Car. Situate N., toward the W., and contains 670 sq. m. Drained by Yadkin r. and its branches. Surface varied, generally much broken, and mountainous; soil fertile, and the uplands adapted to pasturage. Chief productions, cotton, tobacco, Indian corn, wheat, and potatoes. Farms 1,503; manuf. 43; dwell. 2,797, and pop.—wh. 16,171, fr. col. 272, sl. 2,000—total 18,443. Capital: Rockford.

SURRY county, Virg. Situate toward the S. E., and contains 263 sq. m. Drained by small branches of James and Blackwater rivers. Surface an extended plain: soil a deep loam, and fertile, in some portions making fine pasture land. Chief productions, cotton and Indian corn, potatoes, etc. Farms 301; manuf. 5; dwell. 650, and pop.—wh. 2,215, fr. col. 953, sl. 2,479—total 5,679. Capital: Surry C. H.

SURRY, t. and p. v., Hancock co., Me.: 65 m. E. by N. Augusta. This is a very fertile farming town, having a number of ponds and excellent water privileges. Union River bay bounds it on the E., affording navigable facilities. Its manufactures consist of leather, lumber, etc. The v. is situated at the head of an inlet of Union River bay. Pop. of t. 1,159.

SURRY, t. and p. v., Cheshire county, N. Hamp.: 43 m. S. W. by W. Concord. Drained by Ashuelot r. Surface varied, in parts uneven. On the summit of a mountain, on the E. side of Ashuelot r., is a pond covering 3 acres, 25 feet deep. Incorporated in 1769. The village contains several shops and stores. Pop. of t. 550.

SURRY C. H., p. v., and cap. Surry co., Virg.: near an inlet of James r., 43 m. S. E. Richmond. It contains a court-house, jail, etc.

SUSCOL valley, Solano co., Calif.: a little W. of Suscol Hills; runs from the city of Vallejo to the northern part of the county; 3 m. in length and 3 in width, Napa bay washing its whole length. It is a desirable and interesting country, well adapted to farming, and has a luxuriant growth of wild oats. Running through this valley are two large soda springs, which, after winding through low hills, empty into Napa bay. One of these springs, 4 m. N. of Vallejo, is called Sulphur Spring Waters, and is of good temperature for bathing.

SUSPENSION BRIDGE, p. o., Niagara county, N. Y.: 276 m. W. by N. Albany.

SUSQUEHANNA county, Penn. Situate N. E., and contains 712 sq. m. Drained by branches of Susquehanna r., which flows through its N. part. Surface hilly, and the land in many places is much broken; soil fertile, and produces excellent crops of wheat and Indian corn. It is covered in different portions with a fine growth of timber, and has good pasturage for cattle. Farms 3,909; manuf. 322; dwell. 5,203, and pop.—wh. 23,529, fr. col. 159—total 23,688. Capital: Montrose. Public Works: New York and Erie R. R.; Lackawanna and Western R. R.

SUSQUEHANNA, p. o., Broome co., N. Y.: on W. bank of Susquehanna r., 124 m. W. S. W. Albany.

SUSQUEHANNA, t. and p. o., Dauphin co., Penn.: on E. side of the Susquehanna r. Drained by Paxton cr. Surface uneven; soil fertile. Blue Mountain crosses the N. part. Its manufactures are flour, lumber, etc. Harrisburg lies partly in this town. Pop. 1,526.

SUSQUEHANNA river, Penn.: this river, the largest in the State, rises in Otsego county, New York, and flows S. W. (receiving Unadilla river in Sidney t.) until it enters Pennsylvania. It then returns into New York by bending W. course, receives Chenago river at Binghamton, and flowing again into Pennsylvania receives Chemung river 3 m. below the State line. Its general course in crossing the State is in form nearly that of an oxbow. It receives the western branch, its largest tributary, at Northumberland, the

Juniata river at Bloomfield, and empties into Chesapeake bay, in the north-east part of Maryland, at Havre de Grace, at which place it is $1\frac{1}{2}$ m. wide. It is about 450 miles long, but its importance for navigation is not commensurate with this great length. It is navigable for sloops 5 miles from its mouth to Port Deposit, at the head of the tide, beyond which it is entirely obstructed for 50 m. by a frequent succession of rapids. In its upper parts the natural obstructions are not great, and might be easily overcome. During freshets a great amount of lumber and produce is sent down in rafts, etc. Canals are extensively constructed along its banks, which greatly facilitate the movements of commerce.

SUSQUEHANNA DEPÔT, p. o. and sta., Susquehanna co., Penn.: on the Erie R. R., 202 m. from New York, 267 m. from Dunkirk, 115 m. N. N. E. Harrisburg. At this station the Erie R. R. Company have large shops for repairing engines, cars, etc., and thus formed a small but flourishing settlement.

SUSSEX county, Del. Situate S., and contains 994 sq. m. Drained by Nanticoke river and its branches, which enter Chesapeake bay, and Jones, Cold Spring, Cedar, Mispillion, and other small creeks which flow into Delaware bay. Surface in general level, and a large portion is marshy; soil varied, much of it being of a sandy nature. Chief productions wheat, Indian corn, and potatoes. There is fine grazing land in the co. Farms 2,746; manuf. 11; dwell. 4,319, and pop.—wh. 20,348, fr. col. 4,039, sl. 1,548—total 25,935. Capital: Georgetown.

SUSSEX county, N. Jer. Situate N. W., and contains 563 sq. m. Drained by Paulinskill, Walkkill, Pequannock, and Pequest creeks. Surface in general is hilly, and portions of it mountainous; soil fertile, consisting of a fine deep mold with sand intermixed. Wheat, Indian corn, and other grains are produced abundantly, and excellent crops of potatoes are raised. Farms 1,653; manuf. 154; dwell. 3,551, and pop.—wh. 22,678, fr. col. 310, sl. 1—total 22,989. Capital: Newton.

SUSSEX county, Virg. Situate S. E., and contains 458 sq. m. Drained by Nottoway r. and its branches. Surface even; soil fertile and easy of cultivation. Chief productions cotton, tobacco, and Indian corn; wheat is also grown extensively. Farms 472; manuf. 23; dwell. 751, and pop.—wh. 3,056, fr. col. 742, sl. 5,992—total 9,820. Capital: Sussex C. H. Public Works: Petersburg and Weldon R. R.; Petersburg and Norfolk R. R.

SUSSEX C. H., p. v., and cap. Sussex co., Virg.: 41 m. S. by E. Richmond, and contains a court-house, jail, etc.

SUSSEX, p. o., Waukesha co., Wisc.: 59 m. E. Madison. SUTHERLAND'S sta., Dinwiddie co., Virg.: on South Side R. R., 10 m. W. Petersburg, 42 m. from Burkville.

SUTHERLAND SPRINGS, p. o., Bexar county, Tex.

SUTTER county, Calif. Situate centrally, and chiefly between the forks of the Sacramento and Feather rivers, and contains 760 sq. m. Surface diversified, and in the N. are several high hills called Buttes. The portion of the county S. E. of Feather river contains the important towns of Vernon, Oro, and Nicholas, which are noted for their mineral wealth, and also for their commercial positions. Springfield, opposite Tremont, and Yuba City, opposite the mouth of Yuba r., are also considerable places. It is a rich mining region, and has been very productive. The quantity of land under cultivation in 1852 was only 1,401 acres, and in general little attention is here paid to any agricultural operations. Pop. at the date specified 1,207; whites 675—males 590, and females 55; negroes 11—males 8, and females 3; Indians 514—males 262, and females 252; and foreign residents 10—males 7, and females 3; above 21 years old—citizens 527, negroes 11, Indians 314, and foreigners 10. Capital: Oro.

SUTTERSVILLE, v., Sacramento county, Calif.: on the left bank of Sacramento r., about 3 m. S. Sacramento City, 48 m. N. E. Vallejo.

SUTTON, t. p. v., and sta., Worcester co., Mass.: 39 m. W. S. W. Boston. Surface hilly; soil productive. Drained

by Blackstone river, which affords water-power, and along which passes the Blackstone Canal in its N. part. The Providence and Worcester R. R. touches on its N. border, 35 m. from Providence, 8 m. from Worcester. Soapstone and granite are found. The t. contains 5 churches, several cotton factories, with some other mills. Pop. of t. 2,595.

SUTTON, t. and p. v., Merrimack county, N. Hamp.: 23 m. N. W. by N. Concord. Surface uneven; soil various. Watered by Warner r. and branches, which afford water-power. The town contains tanneries and saw-mills. Pop. of t. 1,837.

SUTTON, t. and p. v., Caledonia co., Verm.: 39 m. N. E. by N. Montpelier. Surface mostly level, much of it low and wet. Watered by branches of Passumpsic river. A pond in its N. W. corner covers 200 acres. There are several bogs of marl in the town. Pop. of t. 1,001.

SUTTON'S MILLS, p. o. and sta., Essex county, Mass.: on Essex R. R., 1 m. from Lawrence, 20 m. from Salem.

SUWANE, p. v., Gwinnett co., Ga.: on a branch of Shallow fork of Chattahoochee r., 31 m. N. W. Milledgeville.

SUWANNEE river, Flor.: rises in Okfeinokee Swamp in Georgia, flows S., then W., receives the Allapahaw from the N., and the Withlacoochee from the N. W., then flows S. and S. E., receives the Santa F6 from the E., and thence flows in southerly course until it empties into Waksase bay of Gulf of Mexico, which it enters by numerous shallow channels. The bar at its mouth has not more than 5 feet water, but above that it has 15 feet for 55 miles. Its bed is rocky, and in some places its banks are 100 feet high of perpendicular granite rock.

SUWANNEE SHOALS, p. o., Columbia co., Flor.: 99 m. W. Tallahassee.

SWAINSBORO', p. v., and cap. Emanuel county, Ga.: on a branch of the Great Oohopee r., 61 m. E. S. E. Milledgeville. It contains a court-house, jail, etc.

SWAINSVILLE, sta., Wyoming co., N. Y.: on the Buffalo and New York R. R., 69 m. E. S. E. Buffalo, 218 m. W. Albany.

SWALLOW falls, Alleghany county, Md.: these falls of the Youghiogeny r. occur near the mouth of Hendon cr., in the S. W. part of the county. The general elevation of the country in the vicinity is 2,390 feet above tide-water.

SWAMPSCOTT, p. o., Essex co., Mass.

SWAN, p. v., Noble co., Ind.: at the source of Black cr., 114 m. N. N. E. Indianapolis.

SWAN, t. and p. o., Vinton county, Ohio: 49 m. S. E. Columbus. Raccoon cr. flows through the t., affording excellent mill privileges. Surface much broken; soil fertile. Pop. 1,154.

SWAN CREEK, p. v., Warren co., N. C.: near the West fork of Spoon r., 80 m. N. W. Springfield.

SWAN CREEK, p. o., Warren county, Ky.: 119 m. S. W. Frankfort.

SWAN CREEK, p. o., Gallia county, Ohio: 83 m. S. S. E. Columbus.

SWANCEY'S FERRY, p. o., Abbeville dist., S. Car.: 97 m. W. Columbia.

SWANGSTOWN, p. v., Cleveland county, N. Car.: on the right bank of Buffalo cr., 151 m. W. S. W. Raleigh.

SWAN LAKE, p. o., Arkansas county, Ark.: 60 m. S. E. Little Rock.

SWANNANO, p. v., Buncombe co., N. Car.: on a branch of French Broad r., 205 m. W. Raleigh.

SWAN POINT, p. o., Knox county, Ky.: 109 m. S. S. E. Frankfort.

SWAN QUARTER, p. v., and cap. Hyde co., N. Car.: 123 m. E. by S. Raleigh, and contains a court-house and other county buildings.

SWAN RIVER (or Arthur's Ferry), p. o., Benton co., Minn. Ter.: 107 m. N. N. W. St. Paul. The ferry at this point is one well known, and is held by one of the oldest traders and pioneers of Minnesota. The settlement contains some 30 families.

SWANSBORO', p. v., Onslow co., *N. Car.*: on W. side of the estuary of Whittock r., and opposite Bogue inlet, 105 m. S. E. Raleigh.

SWANSEY, t. and p. v., Bristol co., *Mass.*: 45 m. S. by W. Boston. Mount Hope bay sets up into its S. part by two inlets, on one of which stands a small v., which has some navigation and ship-building. The t. was incorporated in 1667, and is noted for having been the t. in which King Philip's Indian War commenced on June 20th, 1675. In the t. are several tanneries, paper and other mills. Pop. of t. 1,554.

SWAN'S ISLAND, t. and p. v., Hancock co., *Me.*: 67 m. E. by S. Augusta. Pop. of t. 423.

SWANSONVILLE, p. o., Pittsylvania co., *Virg.*: 116 m. S. W. Richmond.

SWANTON, t. and p. o., Lucas co., *Ohio*: 113 m. N. N. W. Columbus. The railroad from Sandusky City to Fort Wayne will pass through this town.

SWANTON, v., Allegheny co., *Md.*: on the line of the Baltimore and Ohio R. R., 221 m. from Baltimore by railroad, and 143 m. W. N. W. Annapolis direct. Elevation, 2,272 feet above tide-water.

SWANTON, t. and p. v., Franklin co., *Verm.*: on the E. side of Lake Champlain, 66 m. (by railroad) N. W. Montpelier. Drained by Missisqui r., which is navigable for lake vessels to Swanton Falls, six miles up. These falls have a descent of twenty feet, from which are derived extensive hydraulic power. Bog-iron ore is found here, and there is an excellent quality of variegated marble quarried and extensively exported. The surface and soil of the t. are well adapted to agricultural pursuits, with the exception of a portion bordering on the lake. The v. is located at the falls, and is the site of several manufactories, and of increasing trade. The Vermont Central R. R. passes through the v. 13 m. S. E. Rouse's Point (N. Y.) Pop. of t. 2,824.

SWANTON CENTRE, p. o., Franklin county, *Verm.*: 67 m. N. W. Montpelier.

SWANVILLE, t. and p. v., Waldo co., *Me.*: 43 m. E. by N. Augusta. Drained by the outlet of a pond in the N. part, emptying into Belfast bay. Surface even; soil fertile. The village is located in the N. part. Pop. of t. 944.

SWANVILLE, p. o., Jefferson county, *Ind.*: 75 m. S. E. Indianapolis.

SWANZEE, t. and p. v., Cheshire co., *N. Hamp.*: 45 m. S. W. Concord. Drained by Ashuelot river and branches. The r. is navigable for boats as far up as Keene, except a short curving place around the rapids in Winchester. Surface—as also the soil—is various. There is a mineral spring here, the waters of which are impregnated with iron, and iron ore is found. The manufacture of cottons, woolens, leather, and lumber, is carried on. The v. is on the Connecticut River R. R., 6 m. S. Keene. Pop. of t. 2,106.

SWARTSWOOD, p. o., Sussex county, *N. Jer.*: 55 m. N. Trenton.

SWARTWOUT, p. v., Polk county, *Tex.*: on the E. side of Trinity r., 161 m. E. by S. Austin City.

SWARTZ CREEK, p. o., Genesee co., *Mich.*: on a stream so called, 47 m. N. E. Lansing.

SWEARINGENS, p. o., Austin co., *Tex.*: 95 m. E. by S. Austin City.

SWEDEN, t. and p. v., Oxford county, *Me.*: 67 m. S. W. Augusta. Saco r. crosses the W. part, and on the N. E. are two ponds, by the outlets of which the t. is drained. Soil adapted to grains. The v. is located in the centre. Pop. of t. 696.

SWEDEN, t. and p. o., Potter co., *Penn.*: 115 m. N. N. W. Harrisburg. Drained by one of the head branches of the Allegheny river. The greater portion of the t. remains in a wild, uncultivated state. Iron ore is found in the vicinity.

SWEDEN, t. and p. v., Monroe county, *N. Y.*: 220 m. W. by N. Albany. Drained by Salmon creek, from which water-power is derived. Surface undulating; soil, moist, argillaceous loam, yielding large crops of grass, grain, and

fruits. The Rochester, Lockport, and Niagara Falls R. R., and the Erie Canal pass through the t., on both of which is located the manufacturing village of Brockport. The v. of Sweden is 2 m. S. of Brockport, and contains a church and about 50 dwellings. Pop. of t. in 1840, 1,884; in 1850, 3,628.

SWEEDLIN HILL, p. o., Pendleton co., *Virg.*: 130 m. N. W. Richmond.

SWEEDSBORO', p. v., Gloucester county, *N. Jer.*: on the right bank of Raccoon cr., at the head of sloop navigation, 52 m. S. S. W. Trenton. It contains a church, several mills, etc.

SWEET AIR, p. v., Baltimore co., *Ind.*: 37 m. N. by W. Annapolis.

SWEET SPRINGS, p. v., Monroe co., *Virg.*: in the valley of the Allegheny mountains, W. of Middle Mt., 153 m. W. Richmond. This is one of the oldest watering-places in Virginia. The springs are situated 17 m. from the celebrated White Sulphur Springs, and there is accommodation for 300 persons. The waters are celebrated for their medicinal properties, and are used both externally and internally. The power derived from the springs is sufficient to turn a mill at the distance of 200 yards from the source. Temperature of the water 73° Fahrenheit.

SWEET VALLEY, p. o., Luzerne co., *Penn.*: 79 m. N. E. Harrisburg.

SWEET WATER, p. v., Gwinnett co., *Ga.*: on Yellow r., 73 m. N. W. Milledgeville.

SWEET WATER, p. v., Marengo co., *Ala.*: on a branch of Tombigbee r., 95 m. W. by S. Montgomery.

SWEET WATER, p. o. and sta., Monroe co., *Tenn.*: on the East Tennessee and Georgia E. R., 14 m. S. by W. Loudon, and 147 m. E. S. E. Nashville.

SWEET WATER FACTORY, p. o., Campbell co., *Ga.*: 95 m. W. N. W. Milledgeville.

SWIFT CREEK, p. o., Darlington dist., *S. Car.*: 61 m. N. E. Columbia.

SWIFT CREEK BRIDGE, p. v., Craven co., *N. Car.*: on E. side of Swift cr., 90 m. E. Raleigh.

SWIFT ISLAND, p. o., Montgomery co., *N. Car.*: 72 m. S. W. Raleigh.

SWIFT RIVER, Carroll co., *N. Hamp.*: rises in the mountains on the N. of Waterville, and flowing in an easterly course empties into the Saco river at Conway. Its whole course is drained, and in one place it falls 30 feet in the distance of six rods, through a channel in the solid rock, about 12 feet wide, the sides being from 10 to 30 feet perpendicular height.

SWINEYARDS, p. o., Charles City co., *Virg.*: 29 m. S. E. Richmond.

SWINTON, p. v., Kane co., *Ill.*: 155 m. N. E. Springfield.

SWITZERLAND county, *Ind.*: Situate S. E. on Ohio r., and contains 216 sq. m. Drained by Log, Lick, Indian, Plum, Brian's, and Grant's creeks. Large and fine bottoms line the Ohio, and the hills back of these rise to a height of 400 or 500 feet; farther back a high table-land is reached. Soils are everywhere good. Mills are numerous, and many are worked by steam-power. Farms 1,270; manuf. 79; dwell. 2,254, and pop.—wh. 12,866, fr. col. 66—total 12,932. *Capital*: Vevay.

SYBERTSVILLE, p. o., Luzerne county, *Penn.*: 85 m. N. E. Harrisburg.

SYCAMORE, p. v., and cap. De Kalb co., *Ill.*: on the left side of the river so called, 157 m. N. E. Springfield. It contains the county court-house, etc. It is a pleasant place, located on a prairie near a clear brook, and contains 975 inhabitants.

SYCAMORE, t. and p. v., Wyandott co., *Ohio*: 66 m. N. by W. Columbus. Drained by a branch of the Sandusky r. Surface level, with a productive soil. The v. is situate near the stream, and is a small agricultural settlement. Population of t. 830.

SYCAMORE, p. o., Claiborne co., *Tenn.*: 137 m. E. by N. Nashville.

SYCAMORE ALLEY, p. v., Halifax co., *N. Car.*: N. of Tar r., 57 m. N. E. Raleigh.

SYCAMORE GROVE, p. o., Overton co., *Tenn.*: 81 m. E. by N. Nashville.

SYCAMORE MILLS, p. o., Davidson co., *Tenn.*: 17 m. N. W. Nashville.

SYDNOESVILLE, p. v., Franklin co., *Virg.*: between Chestnut and Snow creeks, 123 m. W. S. W. Richmond.

SYKESVILLE, p. v., Carroll co., *Md.*: on N. side of W. branch of Patapsco r., and on the Baltimore and Ohio R. R., 32 m. W. by N. Baltimore, and 87 m. N. N. W. Annapolis.

SYLACAUGA, p. v., Talladega co., *Ala.*: on the line of the Alabama and Tennessee R. R., 53 m. N. Montgomery.

SYLAMORE, p. o., Izard co., *Ark.*: 85 m. N. Little Rock.

SYLCO, p. o., Polk co., *Tenn.*: 130 m. S. E. Nashville.

SYLVA, p. v., Washington co., *Ark.*: on a cr. of Illinois r., 153 m. N. W. Little Rock.

SYLVAN, t. and p. v., Washtenau co., *Mich.*: 83 m. S. E. Lansing. Drained by the head waters of Huron r. Surface undulating; soil rich and productive. Wheat, corn, and oats of an excellent quality are raised. The Michigan Central R. R. passes through the t., near which is the village. Pop. of t. 984.

SYLVAN, p. o., Franklin county, *Penn.*: 50 m. W. S. W. Harrisburg. In the vicinity is a forge producing annually 100 tons blooms and 50 tons bars.

SYLVAN GROVE, p. v., Jefferson co., *Ga.*: at the source of Lambert cr., 59 m. E. Milledgeville.

SYLVAN GROVE, p. o., Clark county, *Ind.*: 90 m. S. by E. Indianapolis.

SYLVANIA, p. o., Bradford county, *Penn.*: 101 miles N. Harrisburg.

SYLVANIA, p. o., Racine county, *Wis.*: 171 m. E. S. E. Madison.

SYLVANIA, p. v., and cap. Scriven co., *Ga.*: 105 m. E. S. E. Milledgeville. It contains a court-house, jail, etc.

SYLVANIA, p. o., Parke co., *Ind.*: 53 m. W. Indianapolis.

SYLVANIA, p. o., Licking county, *Ohio*: 25 miles N. E. Columbus.

SYLVANIA, sta., Lucas co., *Ohio*: on the Erie and Kalamazoo R. R., 11 m. N. W. Toledo, and 123 m. N. N. W. Columbus.

SYLVANUS, p. o., Hillsdale co., *Mich.*: 59 m. S. Lansing.

SYLVIA, p. o., Hardin co., *Ohio*: 57 m. N. W. Columbus.

SYLVESTER, t. and p. o., Greene county, *Wis.*: 32 m. S. Madison. Drained by a branch of Sugar r. Surface level; soil fertile. Pop. 712.

SYMME'S CORNERS, p. o., Butler co., *Ohio*: 90 m. W. S. W. Columbus.

SYMME'S CREEK, p. o., Muskingum co., *Ohio*: 49 m. E. Columbus.

SYMSONIA, p. o., Graves county, *Ky.*: 229 m. S. W. Frankfort.

SYRACUSE, p. v., Kosciusko co., *Ind.*: on the N. W. border of Turkey lake, at the mouth of Turkey cr., its outlet, 113 m. N. Indianapolis.

SYRACUSE, p. city, and cap. Onondaga county, *N. Y.*: on E. bank of Onondaga cr., near its entrance into Onondaga lake; from Albany, 130 m. W. by N. (direct); by railroad, 148 m. It is regularly laid out with wide streets crossing at right angles, and is for the most part firmly built of brick. Many of the public buildings and churches are handsome edifices. The hotels are noted for their size, elegance, etc., and good fare. Its manufactures, besides the salt-works, are extensive, the principal of which are iron castings, machinery, and flour. According to the Report to the Bank Department of the State, for Oct. 25th, 1852, there were then eight banks in Syracuse, with an aggregate capital of \$1,040,000. The construction of the various canals and railroads which pass through Syracuse have made it the centre of a vast domestic trade with all parts of the State: these are, the Erie Canal, 171 m. from Albany, 193 m. from Buffalo; Oswego Canal, extending hence to

Oswego, 88 m.; Syracuse and Utica R. R., 53 m.; Rochester and Syracuse R. R., 104 m.; Rochester and Syracuse Direct R. R., 68 m.; Oswego and Syracuse R. R., 85 m. The Syracuse and Binghampton R. R. is in construction, and the Syracuse and Newburg R. R. has been projected. These great avenues of intercourse and trade have very rapidly increased the population and general prosperity of the city, and will continue to develop its permanent greatness and importance among the large cities of the State and of the Union. The newspapers published in 1850 comprised 17 issues, viz., 4 dailies: "Onondaga Standard" (dem.), "S. Journal" (whig), "S. Star" (whig), "Transcript" (neutral), each of which published weekly editions (the "Star" also a semi-weekly); 6 other weeklies: "Onondaga Sentinel" (whig), "Religious Recorder," "Free-School Clarion," "Liberty Party Paper" (abol.), "Archimedean," "Central New Yorker," 1 semi-monthly, the "Temp. Protector;" and 2 monthly, "Syracusean" (indep.), and "Literary Union" (lit.) Pop. in 1830, 2,565; in 1840, 6,502; in 1850, 22,271.

Syracuse is celebrated for its great salt works. The salt water is conveyed in pipes from the springs or wells to the works. The coarse salt is produced by solar evaporation; fine salt by boiling, and other modes of applying artificial heat. The springs are pierced through the alluvial, and terminate on gravel. The wells generally used are excavated about 18 or 20 feet deep. In one case a boring of 250 feet deep was made without finding fossil salt, but the strength of the brine increased (as generally) with the depth of the well. From the strongest spring a cubic foot of water will afford 14 pounds of salt. In 1840, a new salt spring of great strength was discovered by boring to a depth of 265 feet, from which large quantities of salt are now manufactured, 30 gallons of the water producing one bushel of fine salt. From recent experiments in salting beef for the purpose of comparing the relative merits of Onondaga and Turks Island salt, it has been satisfactorily ascertained that the Onondaga is fully equal in all respects to the Turks Island salt, and in some points superior. The quantities of salt here manufactured during the year 1850, were as follows: 237,882 bushels of coarse salt, 843,882 bushels of fine salt, 58,600 bushels of ground or dairy salt—total 1,184,928 bushels. This total is about one-half of the total of salt manufacture in Salina during 1850, and about one-fourth of the aggregate amount manufactured in 1850 in this salt district.

T.

TABB'S CREEK, p. o., Granville co., *N. Car.*: 44 m. N. Raleigh.

TABERG, p. v. and sta., Oneida co., *N. Y.*: on W. bank of Fish cr., 110 m. W. N. W. Albany. It contains a blast furnace, 2 grist and several saw mills, etc. The Watertown and Rome R. R. passes a little S. of the village, 11 m. from Rome, 61 m. from Watertown.

TABERNACLE, p. o., Marion dist., *S. Car.*: 85 m. E. by N. Columbia.

TABLE MOUNTAIN, Greenville dist., *S. Car.*: this remarkable mountain, about 26 m. N. W. Greenville, is elevated 3,168 feet above the surrounding country, and about 4,000 feet above sea level; one of its sides is an immense rocky precipice, with bold square front, presenting a very grand appearance.

TABLE MOUNTAIN, Sierra co., *Calif.*: 151 m. N. E. by N. Vallejo, is 8,000 feet high.

TABLE GROVE, p. o., Fulton co., *Ill.*: 65 m. N. W. by N. Springfield, surrounded by an elevated and beautiful tract of timber, from which it derives its name.

TABO, p. o., La Fayette county, *Mo.*: 96 m. W. N. W. Jefferson City.

TABOZ, p. o., Tuscarawas county, *Ohio*: 83 m. E. N. E. Columbus.

TACALUCHE, p. o., Marshall county, *Miss.*: on N. side of branch of Tippah cr., 169 m. N. by E. Jackson.

TACIOBA, p. o., Marquette co., *Wisc.*: 52 m. N. by E. Madison

TACKETT'S MILL, p. o., Stafford county, *Virg.*: 61 m. N. Richmond.

TACOA, p. o., Gilmer county, *Ga.*: on W. side of Tacoa river, 144 m. N. N. W. Milledgeville.

TACONY, sta., Philadelphia co., *Penn.*: on Delaware r., and the Trenton R. R., 8 miles N. E. Philadelphia.

TAFTON, p. v., Pike co., *Penn.*: 123 m. N. E. Harrisburg.

TAFTSVILLE, p. v., Windsor county, *Verm.*: 46 m. S. Montpelier.

TAGHKANIC, t. and p. o., Columbia co., *N. Y.*: 40 m. S. Albany. Surface hilly and mountainous; soil very fertile in the valleys. Drained by Copake cr. The t. contains a few mills of different kinds. Pop. of t. 1,540.

TAGHKANIC mountains, *N. Y.*: a range in the E. part of the State, near the State line, commencing in Rensselaer county, and extending through Columbia and Dutchess counties. They are partly in Massachusetts, and have their highest summits in Sheffield, about 8,000 feet above tide-water. The range is about 50 m. long, and is properly a division of the Green Mountains.

TALKEQUAH, p. v., and cap. Cherokee nation, *Ind. Ter.*: on Illinois r. of the Arkansas, 53 m. N. W. Van Buren, *Ark.* Here are located the council-house, U. S. agency, missions, etc., of the Cherokees, and altogether it is a thriving settlement.

TAILS CREEK, p. o., Gilmer co., *Ga.*: 136 m. N. W. by W. Milledgeville.

TALAHATAH, p. o., Newton co., *Miss.*: 63 m. E. by N. Jackson.

TALASIA, p. o., Newton co., *Miss.*: 67 m. E. Jackson.

TALBOT county, *Ga.* Situate toward the W., and contains 451 sq. m. Drained by branches of Flint r., which forms its E. and N. E. boundary. Surface hilly; soil fertile, and is peculiarly adapted to cotton which is produced largely. Wheat and Indian corn are raised in large quantities, and there is some timber land. Farms 928; manuf. 46; dwell. 1,324, and pop.—wh. 7,793, fr. col. 18, sl. 8,723—total 16,534. *Capital*: Talboton. *Public Works*: Muscogee R. R.

TALBOT county, *Md.* Situate E. toward the N., and contains 836 sq. m. Drained by small streams which flow into Choptank r. and the several bays set up from the Chesapeake. Surface varied; soil fertile, well adapted to wheat and Indian corn, the chief productions of the co. Wye r. runs along its N. W. border. Farms 793; manuf. 35; dwell. 1,751, and pop.—wh. 7,050, fr. col. 2,597, sl. 4,134—total 18,511. *Capital*: Easton.

TALBOTTON, p. v., and cap. Talbot county, *Ga.*: 73 m. W. S. W. Milledgeville. It contains the county buildings, 2 academies, 2 churches, etc. Pop. about 600.

TALIAFERRO county, *Ga.* Situate N. E. centrally, and contains 163 sq. m. Little r. runs through the N. E., by branches of which, and of Ogeechee r. it is drained. Surface level or rolling; soil fertile and produces cotton abundantly, also wheat and Indian corn, and fine crops of apples, pears, and other fruits. Pine timber is found on the land. Farms 294; manuf. 16; dwell. 408, and pop.—wh. 2,051, fr. col. 51, sl. 3,044—total 5,146. *Capital*: Crawfordsville. *Public Works*: Georgia R. R.

TALIBENELA, p. o., Pontotoc co., *Miss.*: 150 m. N. N. E. Jackson.

TALKING ROCK, p. o., Gilmer co., *Ga.*: 132 m. N. W. by N. Milledgeville.

TALLADEGA county, *Ala.* Situate toward the N. E., and contains 1,206 sq. m. Drained by branches of Coosa river, which forms its western boundary, and also by branches of Tallapoosa r., which traverse its southern portion. Surface level; soil very fertile. Cotton is the staple, and is produced in abundance; wheat and Indian corn are raised in good crops, and there is some excellent pasture, on which large numbers of cattle and hogs are fattened. Agriculture is the

leading pursuit with a large portion of the population. Farms 993; manuf. 21; dwell. 1,861, and pop.—wh. 11,618, fr. col. 35, sl. 6,971—total 18,624. *Capital*: Talladega. *Public Works*: Alabama and Tennessee River R. R.

TALLADEGA, p. v., and cap. Talladega county, *Ala.*: on a small branch of Coosa r., 75 m. N. by E. Montgomery. It contains the county buildings, etc. The "Alabama Reporter" (whig), and "Democratic Watchtower" (dem.) are issued weekly. The Alabama and Tennessee River R. R. will pass through this place. Pop. about 700.

TALLAHASSEE, p. city, and cap. Leon county, *Flor.*: and capital of the State of Florida. Latitude 30° 28' N.; longitude 84° 36' W. from Greenwich. It is situated on a commanding eminence, and is regularly laid out with several public squares. Its settlement was commenced in 1824, upon its selection as the State capital. The legislature held its first session here in 1825, and incorporated the city. It contains the State-house, court-house, U. S. land office, market-house, jail, academy, and three churches. Two newspapers are published weekly, "Sentinel," and "Floridian and Journal." The Tallahassee and St. Marks R. R., connecting it with Port Leon on Apalachee bay, will be extended N. to Thomasville, *Ga.*, to connect with the proposed Brunswick and Florida R. R. A good mill-stream flowing from several springs, runs on its E. border, falls 15 or 16 feet into a pool scooped out by its own current, and after running a short distance, sinks into a cleft of the limestone. In the winter, it is a place of considerable resort. Pop. in 1850, 1,391.

TALLAHATCHIE county, *Miss.* Situate toward the N. W., and contains 898 sq. m. Drained by Tallahatchie r. and its branches. Surface level; soil fertile and adapted to cotton, it also is well fitted for grain, and makes good pasture land. Chief productions, cotton and Indian corn. Farms 282; manuf. 0; dwell. 368, and pop.—wh. 2,096, fr. col. —, sl. 2,547—total 4,643. *Capital*: Charleston.

TALLALOOSA, p. o., Marshall county, *Miss.*: on S. side of branch of Oka Copasau r., 172 m. N. by E. Jackson.

TALLAPOOSA county, *Ala.* Situate toward the E., and contains 916 sq. m. Tallapoosa r. enters it in the N. E., and flows through the western portion, by which and its branches it is drained. Surface level; soil fertile and adapted to cotton, wheat, and grain, fine crops of which are annually raised. Farms 1,270; manuf. 18; dwell. 2,037, and pop.—wh. 11,511, fr. col. 0, sl. 4,078—total 15,584. *Capital*: Dadeville. *Public Works*: Montgomery and West Point Railroad.

TALLAPOOSA, p. o., Greene co., *Ala.*: 96 m. W. N. W. Montgomery.

TALLAPOOSA, p. o., Carroll co., *Ga.*: on E. side of Tallapoosa r., 136 m. W. N. W. Milledgeville.

TALLAPOOSA river, *Ga.* and *Ala.*: rises in Carroll county, *Ga.*, flows in southerly winding course to its junction with Coosa r., 12 m. N. Montgomery, which together form the Alabama river.

TALLASSEE, p. v., Tallapoosa county, *Ala.*: on E. side of Tallapoosa r., 29 m. E. N. E. Montgomery.

TALLEYVILLE, p. o., New Castle co., *Del.*: 43 m. N. by E. Dover.

TALLMADGE, t. and p. o., Ottawa county, *Mich.*: on both sides of Grand r., 64 m. W. by N. Lansing. This was, in 1850, the most productive farming t. in the co., but not more than one-fourth of its area was then cultivated. It contains 3 saw-mills using water-power, of which the annual product in 1850, was valued at \$15,520. Population in 1840, 139; in 1850, 534.

TALLMADGE, t. and p. v., Summit county, *Ohio*: 109 m. N. E. Columbus. The Akron Branch R. R., and the Pennsylvania and Ohio canal pass through its N. W. corner. The t. contains a large part of the v. of Cuyahoga Falls, and Middleburg v. Tallmadge v., in the centre of the t., is pleasantly laid out. Near the Cuyahoga Falls is an extensive bed of bituminous coal. Pop. of t. 2,456.

TALLOKAS, p. o., Lowndes county, *Ga.*: 156 miles S. Milledgeville.

TALLULAH, p. v., and cap. Issaquena co., *Miss.*: on E. bank of Mississippi r., 62 m. N. W. by W. Jackson.

TALLULAH river and falls, *Ga.*: rises in Rabun co. in the N. E. corner of the State, flows S. E., separating Rabun and Habersham counties, and unites with the Chatuga to form the Tugaloo, one of the two head streams of the Savannah r. The falls are not broad, but have a great descent, and present a most romantic and delightful appearance.

TALLY-HO, p. o., Granville county, *N. Car.*: 36 m. N. Raleigh.

TALOFA, p. o., Madison county, *Flor.*: 58 m. E. S. E. Tallahassee.

TAMA county, *Ia.* Situate centrally, and contains 720 sq. m. Drained by Iowa r. and its branches, and affluents of Cedar r. Surface undulating and diversified; soil fertile, and adapted to wheat, grain, and other agricultural productions; it is also favorable to the cultivation of fruit. Pine and other timber is found on the land. Farms 0; manuf. 0; dwell. 1, and pop.—wh. 8, fr. col. 0—total 8. *Capital*:—

TAMAQUA, p. b. and sta., Schuylkill co., *Penn.*: on Little Schuylkill river and R. R., 20 m. from Port Clinton, 58 m. N. E. Harrisburg. It was founded in 1829. It is surrounded by a wild, mountainous, and sterile country, but abounding with excellent anthracite coal, the trade in which constitutes almost the entire business of the place. The following are the statistics of this trade for the year ending 30th June, 1850:

Coal Operators.	Capital invested.	Monthly wages.	Annual product.	Value.
J & R. Carter.	\$13,000	\$4,500	\$75,000	\$102,500
Heaton & Carter.	5,500	600	8,400	126,000
E. Ratcliffe & Co.	10,000	1,400	20,000	30,000
Wm. Donaldson.	3,000	1,200	20,000	30,000
Jas. Taggart.	6,000	1,500	14,000	21,000

The "Tamaqua Legion" (neut.) is issued weekly. Pop. about 600.

TAMARAWA, p. v., Monroe co., *Ill.*: on W. bank of Kaskaskia r., 104 m. S. by W. Springfield.

TAMPA, p. v., and cap. Hillsboro' county, *Flor.*: at the head of Tampa bay, 209 m. S. E. by S. Tallahassee. Here is Fort Brooke, garrisoned by U. S. Artillery.

TAMPA bay, *Flor.*: is the largest bay in the Gulf of Mexico. It sets up N. E. from the gulf into the N. part of Hillsboro' co., is about 40 m. long, and in one place 35 m. wide. It is easy of access, has 15 to 20 feet of water on the bar, and affords safe anchorage. It receives five small creeks. Little Tampa bay, in its N. part, is 10 m. wide, but very shallow. Tampa bay abounds with fish and water fowls, and has several islands at its mouth.

TAMPIO, p. o., Oktibbeha co., *Miss.*: on S. side of Oka Tibbyhab r., 119 m. N. E. by N. Jackson.

TAMPIO, p. o., Darke co., *Ohio*: 84 m. W. Columbus.

TAMPIO, p. o., Grainger co., *Tenn.*: 177 m. E. Nashville.

TAMWORTH, L. and p. o., Carroll co., *N. Hamp.*: 45 m. N. by E. Concord. Drained by Bearcamp r. and branches, flowing into Ossipee lake, and affording water-power to several saw-mills. The interests of the t. are chiefly agricultural. Pop. of t. 1,766.

TAMWORTH IRON-WORKS, p. o., Carroll co., *N. Hamp.*: 46 m. N. by E. Concord.

TANEY county, *Mo.* Situate S. toward the W., and contains 1,071 sq. m. Drained by White r. and its tributaries, Bull, Swan, and Big and Little Beaver creeks. Surface level; soil in general fertile, and adapted to the culture of wheat, grain, cotton, and tobacco. It is well-timbered and has excellent pasturage. Farms 509; manuf. 0; dwell. 680, and pop.—wh. 4,274, fr. col. 0, sl. 99—total 4,373. *Capital*: Forsyth.

TANEY, p. o., Washington co., *Ark.*: 125 m. N. W. by W. Little Rock.

TANETOWN, p. v., Carroll co., *Md.*: 83 m. E. by S. An-

napolis. It contains several mills and iron-works. Pop. 279 (363 wh., 16 fr. col.).

TANEYVILLE, p. o., Lycoming co., *Penn.*: 72 m. N. by W. Harrisburg.

TANGAPHA, p. o., St. Helena parish, *La.*: 43 m. E. N. E. Baton Rouge.

TANGIER sound, *Md.*: in Chesapeake bay, off Somerset county, 24 m. long, 6 to 10 m. wide. It contains numerous islands, and receives several rivers.

TANNER'S CROSS ROADS, p. o., Jackson co., *Virg.*: 243 m. W. N. W. Richmond.

TANNER'S STORE, p. o., Mecklenburg co., *Virg.*: 72 m. S. W. Richmond.

TANNERSVILLE, p. v., Greene co., *N. Y.*: 43 m. S. W. by S. Albany.

TANNERSVILLE, p. v., Monroe co., *Penn.*: on E. bank of a creek of Delaware r., 93 m. N. E. by E. Harrisburg.

TAOS county, *N. Mex.* Occupies a large territory in the N. E., extending from 103° to 107° W. long, and between 36° and 38° N. lat. Surface generally mountainous, with large valleys, through which traverse the Rio Grande, etc., and from the E. slope of the mountains flow tributaries of the Arkansas, Canadian, and other large rivers. It is rich in minerals, as gold, silver, and iron, and in the Ratone Mountains bituminous coal exists. Farms 651; manuf. 13; dwell. 2,214, and pop.—wh. 9,507, fr. col. 0—total 9,507. *Capital*: Taos.

TAOS, p. v., Cole county, *Mo.*: 7 m. S. E. by E. Jefferson City.

TAOS, p. v., and cap. Taos co., *N. Mex.*: on a small tributary of the Rio Grande, 65 m. N. by E. Santa Fé. It contains a Catholic church and school.

TAPLEVILLE, p. o., Essex co., *Mass.*: 20 m. N. by E. Boston.

TAPPANNOCK, p. v., port of entry, and cap. Essex co., *Virg.*: on S. W. side of Rappahannock r., about 50 m. from its entrance into Chesapeake bay, 43 m. N. E. by E. Richmond. Its site is low and unhealthy. It contains the co. buildings, a church, and female seminary. It has a good harbor. The total tonnage of Tappahannock district on 30th June, 1850, was 5,824 tons. The registered tonnage amounted to 508 tons (172 tons permanent, and 331 tons temporary). The enrolled and licensed tonnage amounted to 5,321 tons, consisting of 4,975 tons permanent, 346 tons "licensed under 20 tons," all of which was employed in the coasting trade. During the year preceding, the number of clearances for foreign countries was 7—302 tons; number of entrances do., 7—718 tons; and one schooner was built—43 tons.

TAPPAN, Harrison co., *Ohio*: 103 m. E. N. E. Columbus.

TAPPAN bay, *N. Y.*: is an expansion of Hudson river, between Rockland and Westchester counties, 11 m. long, 3½ m. wide, terminating near Piermont, 24 m. above New York.

TAPPANTOWN, p. v., Rockland co., *N. Y.*: 2 m. W. of Hudson r., 108 m. S. Albany. It contains 2 churches, a few stores, etc. Major Andre was here executed, Oct. 2, 1780, and buried in the vicinity. In 1831 his remains were disinterred, removed to England, and interred in Westminster Abbey.

TAR river, *N. Car.*: rises in Person county, and flows in general course E. S. E. into Pamlico Sound. Below Washington it expands into a wide estuary, commonly called Pamlico r. It receives several streams, of which the principal is Fishing c. It is about 180 m. long, and is navigable for small steamboats to Tarboro', and to Washington for vessels drawing 9 feet of water.

TARBORO', p. v., and cap. Edgecomb county, *N. Car.*: on W. side of Tar r., 63 m. E. by N. Raleigh. Small steamboats ascend the river to this place. It contains the court-house, etc., an academy, and a branch of the Bank of State of North Carolina, with capital of \$150,000. Population about 700.

TARDYVILLE, p. o., Pontotoc co., *Miss.*: 162 m. N. N. E. Jackson.

TARENTP, p. v., Alleghany co., *Penn.*: on N. W. side of Alleghany r., 147 m. W. by N. Harrisburg. The Western Division of Pennsylvania Canal passes through, 19 m. N. E. from Pittsburg. Pop. 509.

TARIFF, p. o., Butler co., *Ohio*: on E. side of branch of Miami r., 100 m. S. W. by W. Columbus.

TARIFFVILLE, p. v. and sta., Hartford county, *Conn.*: on Farmington r., 12 m. N. N. W. Hartford, and on the New Haven and Northampton R. R., 45 m. from New Haven. It contains the large carpet factories of the Tariff Manufacturing Co., which employs a capital of \$300,000 in this business.

TARKIO, p. o., Holt co., *Mo.*: on W. bank of Big Tarkio cr., a tributary of the Missouri, 210 m. N. W. by W. Jefferson City.

TARLTON, p. v., Pickaway co., *Ohio*: on E. side of Salt cr., 30 m. S. S. E. Columbus. It contains 3 churches, several stores, etc. Pop. about 450.

TARPAULIN COVE, *Mass.*: on S. E. side of Naushon island, in Vineyard Sound. This is a good harbor, and has a lighthouse on its W. side.

TARRANT COUNTY, *Tex.* Situate toward the N., and contains 1,018 sq. m. Drained by W. fork of Trinity r. and its affluents. Surface undulating; in the N. are Stewart's Mt. and Pilot Hill, considerable eminences. Soil fertile, and yields good crops of wheat and Indian corn. It is thickly covered with timber, and contains minerals. *Capital*: Tarrant Court-house.

TARRANT, p. v., and cap. Hopkins co., *Tex.*: 249 m. N. E. Austin City. It contains the county buildings, and is surrounded by an undulating and very fertile country, abounding with good timber.

TAR RIVER, p. o., Granville co., *N. Car.*: 32 m. N. by E. Raleigh.

TARRYTOWN, p. v. and sta., Westchester co., *N. Y.*: on E. bank of Hudson r., and by Hudson River R. R. 27 m. from New York, 117 m. from Albany. It contains a female seminary, an academy for boys, and 3 churches. It has a large river trade with New York. Major Andre was captured near this v. in September, 1780. In the vicinity is "Sleepy Hollow," described by Washington Irving, who resides 2 m. below the v. Pop. about 1,900.

TARVESVILLE, p. v., Twiggs co., *Ga.*: 42 m. S. S. W. Milledgeville. It contains an academy, a few stores, and several dwellings.

TASSINGON GROVE, p. o., Porter co., *Ind.*: 115 m. N. by W. Indianapolis.

TATESVILLE, p. o., De Soto county, *Miss.*: on N. side of branch of Cold Water r., 161 m. N. Jackson.

TATESVILLE, p. o., McNairy co., *Tenn.*: 120 m. S. W. by W. Nashville.

TATNALL COUNTY, *Ga.* Situate toward the S. W., and contains 1,023 sq. m. Great Ochoopee r., a tributary of Ocmulgee r., by which and also by Little Cannouchee r. and Pendleton's and Beard's creeks it is drained. Surface rolling; soil in general fertile, but a large portion of the land is covered with pine and other timber. It contains some minerals. Farms 827; manuf. 10; dwell. 434, and pop.—wh. 2,378. fr. col. 18, sl. 831—total 3,227. *Capital*: Reidsville. *Public Works*: Savannah and Flint River R. R.

TAUNTON, t. p. v., and one of the capitals of Bristol co., *Mass.*: on Taunton r., 33 m. S. Boston. Lat. (Trin. Cong. Ch.) 41° 54' 11" N., long. 71° 05' 55" W. The t. contains some good land, which is well cultivated, but the inhabitants are chiefly engaged in manufactures. The v. is well built, and contains many handsome buildings and private residences. Taunton Green is a fine public ground, ornamented with trees, etc., fronting which is the court-house, a handsome edifice, with four Doric columns. There are 10 churches, several of which are beautiful structures, a town-house, jail, etc. The Mount Pleasant Cemetery is beauti-

fully laid out, and contains, among other fine monuments, one to the memory of Miss Elizabeth Poole, a chief founder of this place. Some of the hotels are noted for their excellence, and in summer accommodate many persons here spending the season. The Taunton Branch R. R. diverges at Mansfield from the Boston and Providence R. R. (11 m. to Mansfield, 35 m. to Boston, 30 m. to Providence), and here connects with the New Bedford and Taunton R. R. (20 m. to New Bedford), which intersects at Myrick's sta. 6 m., with Fall River R. R. The Taunton r. is navigable to this place for small vessels, and some shipping is here owned, which is employed in the coasting trade and fisheries. The manufactures for which Taunton is noted are various, but the largest are of printing cloths, castings, machinery, hardware, nails, etc. Great water-power is afforded by Taunton r. and its branches, Canoe and Rumford rivers. Iron works were established here as early as 1652. Britannia ware, of superior quality, is extensively manufactured. Among the principal factories of printing cloths are the Whittenton Mills, capital \$100,000, and Hopewell Factory, capital \$75,000, each making over 1,200,000 yards annually. There is a large manufactory of railroad cars, steam-engines, etc. The village also contains 3 banks, with aggregate capital of \$500,000, and 2 institutions for savings. Newspapers: "Taunton Daily Gazette" (dem.), "Taunton Democrat" (dem.), weekly, and "American Whig," weekly. Pop. of t. in 1820, 4,520; in 1830, 6,042; in 1840, 7,645; in 1850, 10,431.

TAUNTON RIVER, *Mass.*: rises in Plymouth co., and flows S. W. into Mount Hope bay. It is navigable for sloops of 50 tons to Taunton v., about 20 m. It affords extensive water-power, and abounds with alewives.

TAWAWA, p. o., Shelby county, *Ohio*: 64 m. W. N. W. Columbus.

TAW TAW, p. o., Allen co., *Ind.*: 104 m. N. E. by N. Indianapolis.

TAYCHEEDA, p. v., Fond du Lac co., *Wisc.*: on Winnebago lake, 75 m. N. E. Madison.

TAYLOR COUNTY, *Ia.* Situate S. toward the W., and contains 522 sq. m. Drained by affluents of Nodaway and La Platte rivers. Surface undulating; soil fertile. Farms 27; manuf. 0; dwell. 38, and pop.—wh. 204, fr. col. 0—total 204. *Capital*: Taylor C. H.

TAYLOR COUNTY, *Ky.* Situate centrally, and contains 208 sq. m. Drained by affluents of Green river. Surface undulating; soil fertile, and adapted to grain and grazing. Chief productions tobacco, wheat, Indian corn, and some cotton and sugar. Farms 648; manuf. 22; dwell. 971, and pop.—wh. 5,463, fr. col. 147, sl. 1,640—total 7,250. *Capital*: Campbellsville.

TAYLOR COUNTY, *Virg.*, was erected in 1844 from Barbour, Harrison, and Preston. Situate N. W., and contains 214 sq. m. Drained by Monongahela river, which passes through. Surface hilly and much broken; soil in some parts very fertile, best adapted to grazing. Chief products wheat, Indian corn, etc. Farms 519; manuf. 19; dwell. 818, and pop.—wh. 5,130, fr. col. 69, sl. 168—total 5,267. *Capital*: Prunty Town. *Public Works*: Baltimore and Ohio R. R.; North Western R. R.

TAYLOR, p. o., Cortlandt co., *N. Y.*: 122 m. W. Albany.

TAYLOR, p. o., St. Charles parish, *La.*: 60 m. S. E. Baton Rouge.

TAYLOR, p. o., Harford county, *Md.*: 39 miles N. by E. Annapolis.

TAYLOR, p. v., Ogle co., *Ill.*: on S. side of Deep cr., 152 m. N. by E. Springfield.

TAYLOR, p. o., Davis co., *Ia.*: 72 m. S. W. Iowa City.

TAYLOR, p. o., Posey county, *Ind.*: 144 miles S. W. by S. Indianapolis.

TAYLOR'S, p. v., Sumter dist., *S. Car.*: on S. side of Lynch's creek, 60 m. E. Columbia.

TAYLOR'S, p. v., Jefferson co., *Ala.*: on the E. boundary of the county, 94 m. N. by W. Montgomery.

TAYLOR'S BRIDGE, p. o., Sampson county, *N. Car.*: 54 m. S. W. by S. Raleigh.

TAYLORSBURG, p. o., Bartholomew county, *Ind.*: 35 miles S. by E. Indianapolis.

TAYLOR'S CORNERS, p. o., De Kalb co., *Ind.*: 128 m. N. E. by N. Indianapolis.

TAYLOR'S CREEK, p. o., Liberty county, *Ga.*: 133 m. S. E. Milledgeville.

TAYLOR'S FALLS, p. v., Washington co., *Minn. Ter.*: on the W. side of the St. Croix river, opposite the lower falls, 32 m. above Stillwater, and 109 m. N. by E. St. Paul's. It was laid out in 1850 by a Mr. Taylor, and it now (1853) contains 1 store, 1 hotel, 1 mill for grinding corn, etc.

TAYLOR'S ISLAND, p. o., Dorchester county, *Md.*: on an island so called, 34 miles S. by E. Annapolis.

TAYLOR'S STAND, p. o., Crawford county, *Penn.*: 190 m. N. W. by W. Harrisburg.

TAYLOR'S STORE, p. o., Franklin county, *Virg.*: 128 miles W. by S. Richmond.

TAYLOR'S STORE, p. o., Knox county, *Mo.*: 102 m. N. by E. Jefferson City.

TAYLORSTOWN, p. v., Washington county, *Penn.*: 179 m. W. Harrisburg.

TAYLORSVILLE, p. o., Christian co., *Ky.*: 165 m. S. W. by W. Frankfort.

TAYLORSVILLE, p. v., and cap. Spencer county, *Ky.*: on N. side of Salt river, at junction of Brashear's creek, 29 miles W. S. W. Frankfort. It contains a court-house, jail, etc.

TAYLORSVILLE, p. o., Montgomery county, *Ohio*: 69 m. W. S. W. Columbus.

TAYLORSVILLE, p. v., Clinton co., *Ind.*: 43 m. N. N. W. Indianapolis.

TAYLORSVILLE, p. v., Bucks co., *Penn.*: on W. side of Delaware r., and on the Delaware Division of the Pennsylvania Canal, 106 m. E. Harrisburg.

TAYLORSVILLE, p. v., and cap. Johnson co., *Tenn.*: on W. side of Roan's creek, 273 m. E. by N. Nashville. It contains a court-house, jail, etc.

TAYLORSVILLE, p. v., Anne Arundel co., *Md.*: on the W. side of the W. branch of Patuxent r., 4 m. N. W. of Upper Marlboro', and 126 m. S. W. Annapolis.

TAYLORSVILLE, p. o., Ontario county, *N. Y.*: 153 miles W. Albany.

TAYLORSVILLE, p. v., Oakland co., *Mich.*: 53 m. E. by S. Lansing.

TAYLORSVILLE, p. v., and cap. Hanover co., *Virg.*: at junction of Newfound and South Anna rivers, 20 m. N. Richmond. The Richmond, Frederickburg, and Potomac R. R. passes through this place, 110 m. S. by W. from Washington (D. C.)

TAYLORSVILLE, Patrick co., *Virg.*: (see PATRICK C. II.)

TAYLORSVILLE, p. v., Smith co., *Miss.*: on E. side of Leaf r., 56 m. S. E. by E. Jackson.

TAYLORSVILLE, p. v. Madison county, *Ga.*: 73 m. N. Milledgeville.

TAYLORTON, p. v., Wayne co., *Miss.*: 4 m. W. of Buckatuna cr., 102 m. E. by S. Jackson.

TAYLORVILLE, p. v., and cap. Alexander co., *N. Car.*: 182 m. W. by N. Raleigh.

TAYLORVILLE, v. and sta., Bartholomew co., *Ind.*: on the Jeffersonville R. R., 73 m. N. by W. Jeffersonville, 34 m. S. by E. Indianapolis.

TAZEVELL county, *Virg.* Situate S. W., and contains 1,056 sq. m. Drained by head waters of Clinch and Holston rivers, Tug fork of Sandy r. and its branches, and tributaries of Great Kanawha r. Surface elevated and somewhat mountainous; soil moderately fertile, adapted to grain and grass. Chief products, wheat, Indian corn, and potatoes. Farms 726; manuf. 12; dwell. 1,449, and pop.—wh. 8,807, fr. col. 75, sl. 1,060—total 9,942. Capital: Tazewell C. H.

TAZEVELL county, *Ill.* Situate N. centrally, and contains

704 sq. m. Illinois r. runs on its N. W. border, by branches of which and Sangamon r., and also by Mackinaw cr., it is drained. Surface undulating and diversified; soil fertile, of a sandy nature, and adapted to grain. Chief products, wheat and Indian corn. There is some fine prairie and timber land. In the S. W. corner are some swamps. Pork and beef are exported. Agriculture is the leading pursuit. Farms 1,110; manuf. 76; dwell. 1,991, and pop.—wh. 12,016, fr. col. 36—total 12,052. Capital: Fremont. *Public Works*: Oquawka and Peoria R. R.

TAZEVELL, p. v., and cap. Marion co., *Ga.*: on E. bank of S. Whitewater cr., a tributary of Flint r., 90 m. S. W. by W. Milledgeville. It contains a court-house, jail, academy, and several churches.

TAZEVELL, p. v., and cap. Claiborne co., *Tenn.*: 183 m. E. by N. Nashville. It contains a court-house, jail, etc.

TAZEVELL C. H., p. v., and cap. Tazewell co., *Virg.*: on S. side of N. fork of Clinch r., 217 m. W. by S. Richmond. The v. is called Jeffersonville, and contains the court-house, jail, etc.

TECHULA, p. o., Holmes co., *Miss.*: on E. bank of Yazoo r., at the mouth of Funnigusha cr., 63 m. N. Jackson.

TEACHY'S, p. o. and sta., Duplin co., *N. Car.*: on the Wilmington and Weldon R. R., 124 m. S. Weldon and 74 m. S. E. by S. Raleigh.

TEAZE'S VALLEY, p. o., Kanawha county, *Virg.*: 248 m. W. by N. Richmond.

TEBO, p. o., Henry county, *Mo.*: 73 miles W. by S. Jefferson City.

TECHÉ, U. S. collection district, *La.*: embracing Teché r. and vicinity; had, on June 30th, 1850, a total tonnage of 1,381 tons, consisting of 955 tons enrolled and licensed, permanent, and 426 tons licensed under 20 tons, of which the whole was employed in the coasting trade; and 538 tons were propelled by steam. During the year preceding, its foreign commerce was, 2 entrances, 904 tons, with no clearances. Vessels built during the year, 4 (2 schooners, 1 sloop, 1 steamer), 90 tons. Franklin is the port of entry.

TECHÉ river, *La.*: rises near Red r., in Rapides parish, flows in a winding S. E. direction, and enters the outlet of Chetiméches lake, in St. Mary's parish. Its length is 150 m., and it is 200 yards wide at the mouth. The channel is deep, and the tide ascends more than 100 m. It is 20 feet deep, has 8 feet water on the bar, and is navigable to New Iberia, 100 miles.

TECUMSEH, t. and p. v., Lenawee county, *Mich.*: 56 m. S. E. by S. Lansing. Drained by Raisin r. and branch. Surface undulating; soil fertile. It contains a number of mills and manufactories. The village of Clinton is in the N. and Tecumseh in the S. The latter has a pleasant location, and does a good business. It contains several flouring and saw mills; and the "Tecumseh Herald" is published weekly. Connected with the Michigan Southern and Northern Indiana R. R. by the Tecumseh Branch R. R., 8 m. distant from junction. It was the former seat of justice for the county, and contains a court-house, jail, etc. Population of t. 2,678.

TEDELOW, p. o., Fulton county, *Ohio*: 121 m. N. N. W. Columbus.

TEHAMA, v., Colusi co., *Calif.*: on the right bank of Sacramento r., 127 m. N. by E. Vallejo.

TEKONSAH, t. and p. v., Calhoun county, *Mich.*: 46 m. S. W. by S. Lansing. Drained by St. Joseph r. Surface various; soil fertile. The v. is pleasantly located on St. Joseph r. Pop. of t. 651.

TELEFAIR county, *Ga.* Situate S. centrally, and contains 1,073 sq. m. Ocmulgee r. runs through it from E. to W., and then forms it N. W. boundary. It is drained by the Ocmulgee and its principal branches, Horse, White, and Turnpike creeks, and tributaries of Santilla r. Surface even; soil fertile, and produces corn, rice, and Indian corn. A portion of the land is covered with pine and other timber. Farms 980; manuf. 0; dwell. 340, and pop.—wh.

2,096, fr. col. 0, sl. 930—total 2,126. *Capital*: Jacksonville. *Public Works*: Savannah and Flint R. R.

TELLERS' point, Westchester co., N. Y.: this peninsula lies on the E. side of Hudson r., in the town of Cortlandt, above the mouth of Croton r. It is 2 m. long and separates Haverstraw and Tappan bays.

TELLICO PLAINS, p. o., Monroe co., Tenn.: on W. side of Tellico r., 144 m. E. S. E. Nashville.

TELOGA SPRINGS, p. o., Chatoga co., Ga.: 165 m. N. W. Milledgeville.

TEMASCAL, v., Los Angeles co., Calif.: on a branch of San Pedro r., 22 m. S. W. Mount Bernardino and 367 m. S. E. Vallejo.

TEMPERANCE, p. o., Telfair co., Ga.: on E. side of Ocmulgee r., 84 m. S. Milledgeville.

TEMPERANCE, p. o., Amherst county, Virg.: 95 m. W. Richmond.

TEMPERANCE HALL, p. o., De Kalb county, Tenn.: 51 m. E. by S. Nashville.

TEMPERANCEVILLE, p. o., Alleghany co., Penn.: 142 m. W. by N. Harrisburg.

TEMPERANCEVILLE, p. v., Belmont county, Ohio: 105 m. E. by N. Columbus.

TEMPLE, t. and p. v., Hillsboro' county, N. Hamp.: 32 m. S. S. W. Concord. Drained by branches of Souhegan r., which rises in this town. Surface uneven, and in parts quite mountainous; soil inferior. The village is located centrally. Pop. of t. 579.

TEMPLE MILLS, p. o., Franklin county, Me.: 36 m. N. W. Augusta.

TEMPLE OF HEALTH, p. o., Abbeville dist., S. Car.: on

W. side of branch of Savannah river, 89 miles W. by N. Columbia.

TEMPLE, t. and v., Franklin county, Me.: 35 m. N. W. Augusta. Drained by a branch of Sandy r. Surface in the S. even, and on the N. it has the Blue Mountains, 2,700 feet high. Pop. 735.

TEMPLETON, t. and p. v., Worcester co., Mass.: 54 m. W. by N. Boston. Drained by branches of Miller's and Chicopee rivers. Surface uneven—the elevated parts adapted to grazing, and in the valleys much grain is raised. Its manufactures consist of woollens, leather, farming implements, carriages, wooden-ware, etc. The Vermont and Massachusetts R. R. crosses the N. E. part of the town. The village is pleasantly located on a branch of Miller's r. Pop. of t. 2,173.

TEMPLETON, p. v., Prince George co., Virg.: 30 m. S. E. Richmond.

TEMPLEVILLE, p. v., Queen Anne co., Md.: near the Delaware State line, 39 m. E. by N. Annapolis.

TENALLOTOWN, p. o., Washington co., D. of Col.: on the Georgetown and Frederick road, 2 m. N. from Georgetown, and 5 m. N. W. from the Capitol.

TEN MILE, p. o., Washington co., Penn.: on cr. of same name, 167 m. W. Harrisburg.

TEN MILE, p. o., Macon co., Mo.: 90 m. N. Jefferson City.

TEN MILE POINT, p. o., Prairie co., Ark.: 27 m. E. by N. Little Rock.

TEN MILE SPRING, p. o., Cattaraugus co., N. Y.: 253 m. W. by S. Albany.

TEN MILE STAND, p. o., Meigs co., Tenn.: on branch of Hiwassee r., 120 m. E. S. E. Nashville.

THE STATE OF TENNESSEE.

TENNESSEE lies in the form of a parallelogram, with Kentucky and Virginia on the north, North Carolina on the east, Georgia, Alabama, and Mississippi on the south, and the Mississippi River on the west, which divides it from Missouri and Arkansas, and extends east and west between $S10^{\circ} 37'$ and $90^{\circ} 23'$ west from Greenwich, or $49^{\circ} 35'$ and $130^{\circ} 26'$ west from Washington, and between the latitudes 35° and $36^{\circ} 35'$ north. From North Carolina it is separated chiefly by the Alleghenies. Its area is computed at 45,600 square miles.

Tennessee is perhaps more diversified in the character of its surface than any other of the central States. In the east, mountain prevails, and in this section the country is traversed in a north and south direction by several ridges of the Appalachian chain, and in its topography presents much picturesque and beautiful scenery. The middle portion of the State is less bold in its outlines, and the surface imperceptibly declines by gradations from a region overspread by hills and swells of ever-changing and varying elevation and character, to a rolling country of exquisite fertility, and watered by innumerable streams, affluents of its great rivers, the Cumberland and Tennessee. Between the Tennessee and the Mississippi in the west, the surface is nearly level, the general evenness being interrupted only by the courses of the low water-shed dividing the tributaries of the two rivers, or by alternations of woodland and prairie. In all the country, however, there are but few portions so hilly and broken as to interfere with its agricultural capacities; the hills are clothed with wood to their summits, and the soil is everywhere sufficiently fertile for profitable cultivation, or yields nourishing grasses for pasturage to the hill-tops. The east abounds in minerals, the rich deposits of which are only now being disclosed, and the spurs of the mountains contain in the various rocks materials useful for building purposes and ornamental architecture.

The Kittatinny range, under the local name of Stone, Bald, Iron, Smoky, and Unika mountains, forms the dividing line between Tennessee and North Carolina, while the prolongation of the Allegheny chain, of Chestnut Ridge and of Laurel Ridge, traverse the State north and south. The latter, which here takes the name of Cumberland Mountains, spreads out in this State to a breadth of about fifty miles, filling that section of the country which lies between the Tennessee and the Cumberland rivers, before they take a western course, with long regular ridges of no great elevation. Perhaps none of their summits exceed 2,000 feet in height, but the chains are continuous, interrupted only at great intervals by gaps or passes. In some places they are rocky and rugged, while in others, and generally, they swell gently from their elevated bases and embosom numerous, delightful, and fertile valleys. The valleys of the small rivers are extremely beautiful, and rich beyond any of the same description west of the Alleghenies. The valleys of the great streams—the Tennessee and Cumberland—differ little from the alluvions of the other great rivers of the central region of the Union. In the small valleys are many fine plantations, so lonely that they seem lost among the mountains.

Noble rivers, open to navigation, and fine pure streams, furnishing ample power for economical purposes, are distinguishing features of Tennessee. The Mississippi washes the western border for 160 miles, and its banks within this State afford some of the most valuable commercial sites to be found in its long course. The Cumberland has its sources and its mouth in Kentucky, but runs for about 250 miles in Tennessee, through which is its most southern bend; it enters this State about longitude $S50^{\circ} 49'$, and leaves it about longitude $S30^{\circ} 12'$, and within 10 miles to the east of Tennessee River. Steamboats have ascended to Burkesville, in Kentucky, but they rarely pass above Carthage, the point where Caney Fork meets the principal stream. To Nashville, the capital of the State, steamboat navigation is easy and convenient. The Tennessee also rises beyond the limits of the State. The Clinch and Holston have their sources in the Allegheny ridge of Virginia, but the Watauga, a tributary of the Holston, the Nolichucky, and Big Pigeon, branches

TENNESSEE.

of the French Broad River, the Little Tennessee, and the Hiwassee—all rise in the Blue Ridge. The Little Tennessee is often considered as the main river, but it is much inferior to the Holston, with which it unites, and the confluence of the Holston and Clinch form the Tennessee River. Most of these rivers are navigable by boats, and they receive numerous valuable mill-streams. The junction is effected at Kingston, whence the course of the Tennessee is south and south-west until it enters Alabama, through which State its course is generally west to the Mississippi State line, on which it takes a north direction, through Tennessee and Kentucky, to the Ohio. After re-entering Tennessee, it flows 200 miles within its limits, and is navigable throughout that distance for steamboats. The Elk and Duck rivers are its only considerable tributaries: rising in the same district, on the western slope of the Cumberland Mountains, they reach their common recipient at a distance of 200 miles from each other, and are both navigable for a considerable distance. The Sequatchee is a smaller stream, flowing through a rich and beautiful valley in the Cumberland Mountains. Caney Fork, and Stone's River, the principal tributaries of the Cumberland, are navigable streams: the former rises within the mountains, and the latter on their western slope. Western Tennessee is almost entirely drained by affluents of the Mississippi.

The mineral resources of Tennessee consist of valuable deposits of iron, copper, lead, &c., of which the ores are exceedingly rich; these are mostly located in the eastern and middle divisions of the State. Copper is of recent discovery, and promises to become a rich acquisition to the known resources of the country. Iron is extensively reduced along the borders of Cumberland River. In December, 1852, there were in this region 19 furnaces, 9 forges, and 2 rolling-mills in operation,* and producing in the aggregate 44,500 tons of metal annually. The lead-mines have been partially worked. The gold region extends into the north-eastern part of Tennessee, but the metal has not been found in any large quantities. Coal of excellent quality has been mined in the Cumberland Mountains, but, except for local purposes, can be of little value, the means of transportation being inferior, and the coal-fields of the Ohio basin being much more accessible and more cheaply wrought. Formerly this coal was mined to a considerable extent, and carried from Crab Orchard Mountain, near Emory's River, down the Tennessee to New Orleans. The supposed coal of Williamson, Davidson, and Maury counties is, according to Professor Troost, aluminous slate. The State contains quarries of excellent marble and other calcareous formations; gypsum is also abundant; nitrous earths are found in the limestone caverns, and there are a variety of other useful minerals throughout the country; east of the Tennessee salt is abundant. In the eastern section there are numerous sulphur and other mineral springs. Many of the caverns are of great extent—some have been explored for a distance of ten miles, and contain spacious apartments, and are traversed by considerable streams.

The climate of Tennessee is mild and genial, being free from the scorching heats of the South and the chilling blasts of the North. Cattle may graze on the plains throughout the winter. Its salubrity is unquestionable; the low valleys where the waters are stagnant, and the alluvions of the great rivers, being exceptions. The soil of East Tennessee, principally calcareous, is eminently fertile. In the west the soils vary, and the strata descend from the mountains in the following order: first, loamy soil, or mixtures of clay and sand; next, yellow clay; next, a mixture of red sand and red clay; and lastly, white sand. In the southern parts are immense beds of oyster shells, on high table-land, at a distance from any stream. Nearly all the forest trees of the central country are found in this State; juniper, red cedar, and savin cover the mountains. The pine-forests of the eastern section are valuable for their tar, turpentine, &c. The sugar-maple is very abundant. Fruit in all its varieties is raised in great perfection in every part of the State. The agricultural productions are similar to those of the Ohio Valley generally, with the addition of cotton, which is grown chiefly in the south and west. The east is chiefly engaged in cattle-raising, and exports largely to the south. Tobacco and hemp are also staples of Tennessee, and in quality are excellent.

Tennessee is divided into 79 counties, the general statistics of which, and the capitals of each, in 1850, were as follows:

EASTERN TENNESSEE—28 counties.

Counties.	Dwell.	Pop.	Farms in cult.	Manuf. Estab.	Capitals.	Counties.	Dwell.	Pop.	Farms in cult.	Manuf. Estab.	Capitals.

The whole number of dwellings in the State was, at the above date, 129,420; of families, 130,005; and of inhabitants, 1,002,625; viz., whites 756,893—males 382,270, and females 374,623; fr. col. 6,271—males 3,072, and females 3,199, and sl. 239,461. Of the whole population there were, *deaf and dumb*—wh. 335, fr. col. 2, sl. 40—total 377; *blind*—wh. 385, fr. col. 10, sl. 73—total 468; *insane*—wh. 453, fr. col. 4, sl. 21—total 478; and *idiotic*—wh. 789, fr. col. 4, sl. 61—total 854. The number of free persons born in the United States was 755,655, the number of foreign birth 5,740, and of birth unknown 1,759. The native population originated as follows: Maine 97, N. Hamp. 64, Verm. 179, Mass. 331, R. I. 38, Conn. 261, N. York 1,019, N. Jer. 248, Penn. 2,146, Del. 95, Md. 1,554, Dist. of Col. 101, Virg. 46,631, N. Car. 72,027, S. Car. 15,197, Ga. 4,868, Flor. 369, Ala. 6,398, Miss. 2,137, La. 261, Tex. 100, Ark. 496, Tennessee 555,084, Ky. 12,069, Ohio 742, Mich. 7, Ind. 769, Ill. 872, Mo. 920, Ia. 30, Wisc. 8, Calif. 0, Territories 2; and the foreign population was composed of persons from—England 706, Ireland 2,640, Scotland 327, Wales 17, Germany 1,168, France 245, Spain 3, Portugal 2, Belgium 4, Holland 57, Italy 59, Austria 10, Switzerland 266, Russia 9, Denmark 8, Norway 0, Sweden 8, Prussia 32, Sardinia 2, Greece 2, China 0, Asia 3, Africa 5, British America 76, Mexico 12, Central America 0, South America 0, West Indies 20, Sandwich Islands 0, and other countries 59.

The following table will show the decennial progress of the population since the first census of the State, taken by the United States authorities:

Census Years.	White Persons.	Colored Persons.			Total Population.	Decennial Increase.	
		Free.	Slave.	Total.		Numerical.	Per cent.
1790.....	32,013	361	3,417	3,778	35,791	—	—
1800.....	91,709	309	13,584	13,893	105,602	69,811	195.0
1810.....	215,875	1,317	44,585	45,902	261,727	156,125	147.8
1820.....	389,927	2,779	80,167	82,946	422,813	161,086	61.5
1830.....	585,646	4,655	141,603	146,258	681,904	259,091	61.2
1840.....	640,627	5,524	183,059	188,583	829,210	147,306	21.6
1850.....	756,893	6,271	239,461	245,732	1,002,725	173,615	20.9

The general statistics of the industry, products, wealth, and institutions of the State, according to the census returns of 1850, and other official documents referring to the same year, are as follows:

Occupied Lands.—Improved farm lands, 5,175,172 acres, and unimproved attached lands, 13,808,849 acres—valued together at \$97,851,212. The whole number of farms under cultivation on the 1st June, 1850, was 72,710, of which 21,232 were in Eastern Tennessee, 32,545 in Middle Tennessee, and 18,933 in Western Tennessee. Total value of farming implements and machinery, \$5,860,220.

Live-Stock.—Horses, 270,636; asses and mules, 75,903; milch cows, 250,456; working oxen, 86,255; other cattle, 414,051; sheep, 811,591; and swine, 3,114,111. These numbers, compared with the stock in 1840, exhibit the following results:

Description.	1840.	1850.	Movement.
Horses.....	270,636 head	270,636 head	} 4,530 head, or 1.3 per cent
Mules and Asses.....	75,903 " "	75,903 " "	
Milch Cows.....	250,456 " "	250,456 " "	} 72,089 " or 9.6 "
Working Oxen.....	86,255 " "	86,255 " "	
Other Cattle.....	414,051 " "	414,051 " "	} 69,998 " or 9.4 "
Sheep.....	741,598 " "	811,591 " "	
Swine.....	2,926,607 " "	3,114,111 " "	} 187,504 " or 6.4 "

—the live-stock in 1850 was valued in the aggregate at \$29,978,016.

Products of Animals.—Wool, 1,364,378 pounds; butter, 8,139,585 pounds; cheese, 177,681 pounds; and the value of ani-

TENNESSEE.

mals slaughtered were \$6,401,765. The wool crop according to the census of 1840 amounted to 1,060,332 pounds; and hence the increase exhibited in 1850, is 304.046 pounds, or 19.2 per cent. The product per fleece in 1840, was 22.8 ounces, and in 1850, 26.8 ounces—increase in production 4 ounces per fleece, or 17.6 per cent.

Grain Crops.—Wheat, 1,619,356 bushels; rye, 89,163 bushels; Indian corn, 52,279,223 bushels; oats, 7,703,086 bushels; barley, 2,737 bushels; and buckwheat, 19,427 bushels. Comparatively, the grain crops returned in 1840 and 1850 were as follows:

Crops.	1840.	1850.	Movement.	
Wheat.....	4,569,692 bushels.....	1 619,356 bushels.....	decr.	2,950,306 bushels, or 64.5 per cent.
Rye.....	804,320 ".....	89,163 ".....	decr.	225,157 " or 73.9 "
Indian corn.....	44,956,158 ".....	52,279,223 ".....	incr.	7,293,065 " or 16.2 "
Oats.....	7,085,678 ".....	7,703,086 ".....	incr.	667,408 " or 9.4 "
Barley.....	4,809 ".....	2,737 ".....	decr.	2,072 " or 43.1 "
Buckwheat.....	17,118 ".....	19,427 ".....	incr.	2,309 " or 13.4 "

Other Food Crops.—Rice, 258,854 (in 1840, 7,977) pounds; peas and beans, 369,321 bushels; potatoes—Irish, 1,060,344 bushels, and sweet, 2,777,716 bushels. The potato crop of 1840 amounted to 1,904,370 bushels, and hence the increase in 1850 was 1,934,190 bushels, or 101.5 per cent. The cultivation of rice may be said to have been commenced within the decade.

Miscellaneous Crops.—Tobacco, 20,148,932 pounds; cotton, 194,532 bales of 400 pounds; hay, 74,092 tons; clover-seed, 6,096 bushels; other grass seed, 9,118 bushels; hops, 1,032 pounds; hemp—dew-rotted 3,913 tons, and water-rotted 1,183 tons; flax, 867,807 pounds; flax-seed, 18,905 bushels; silk cocoons, 1,923 pounds; sugar—maple, 153,557 pounds, and cane, 248 hogsheds of 1,000 pounds; molasses, 7,223 gallons; beeswax and honey, 1,036,572 pounds; wine, 92 gallons, etc. The value of orchard products was \$52,894, and of market-garden products \$97,183. On comparison with the like products of 1840 the following are the results

Crops.	1840.	1850.	Movement.	
Tobacco.....	29,550,432 pounds.....	20,148,932 pounds.....	decr.	9,401,500 pounds, or 81.8 per cent.
Cotton.....	27,701,277 ".....	77,512,500 ".....	incr.	50,111,523 " or 180.9 "
Hay.....	81,233 tons.....	74,092 tons,.....	incr.	43,849 tons or 140.4 "
Hemp—dew-rotted.....	} 3,344 tons.....	8,913 ".....	} incr.	4,291,167 pounds, or 57.2 "
" water-rotted.....		1,183 ".....		
Flax.....	} 258,073 pounds.....	367,807 pounds.....	} incr.	148,484 pounds, or 57.5 "
Sugar—maple.....		158,557 ".....		
" cane.....	258,073 pounds.....	248,000 ".....	decr.	561 gallons, or 85.9 "
Wine.....	653 gallons.....	92 gallons.....		

Home-made Manufactures were produced in the year ending 1st June, 1850, to the value of \$3,137,710. The same class of goods for the census year of 1840, were valued at \$2,886,661. Increase \$251,049, or 8.7 per cent.

Manufactures.—Aggregate capital invested, \$0,000,000; value of all raw material, fuel, etc., used and consumed, \$0,000,000; hands employed 00,000—males 0,000, and females 0,000; monthly cost of labor \$0,000,000—male \$00,000, and female \$00,000; value of the year's products, \$0,000,000. The whole number of manufacturing establishments in operation on the 1st June, 1850, and producing to the value of \$500 and upward annually, was 2,739—in the Eastern District 941, in the Middle District 1,297, and in the Western District 551, and distributed to the counties of each district as exhibited in the general table. Of the aggregate number 38 were cotton factories, 4 woolen factories, 81 iron works—16 making castings, 23 making pig iron, and 42 making wrought iron—and 394 were tanneries. The total capital employed in manufactures, according to the returns of 1840, amounted to \$3,731,589.

Cotton manufactures employ a capital of \$669,600; consume annually 6,411 bales of cotton, and 3,010 tons of coal, valued at \$297,500; hands employed 891—males 810, and females 581; monthly cost of labor, \$7,124—male \$3,392, and female \$3,730; products of the year—sheeting, etc., 363,250 yards, and yarn 2,326,250 pounds; value of entire products, \$510,644. In 1840 there were in the State 33 factories, with an aggregate capital amounting to \$462,240, employing 1,542 hands, and producing to the annual value of \$325,719.

Woolen manufactures have a capital of \$10,900; use 6,200 pounds of wool, valued at \$1,675; hands employed 17—males 15, and females 2; monthly cost of labor \$277—male \$265, and female \$12; hats manufactured 2,220, valued at \$6,310. There are probably other woolen factories producing to a less amount than \$500 annually. In 1840, the number of factories was 26, and fulling-mills 4, with an aggregate capital of \$25,600, employing 45 hands, and producing to the value of \$14,290.

Iron manufactures enumerated in the census of 1850, exhibit the following statistical details:

Specifications.	Pig Iron.	Cast Iron.	Wrought Iron.	Total.
Capital invested.....dollars.....	1,021,400.....	189,500.....	775,050.....	1,935,950.....

—In 1840 there were in Tennessee 34 furnaces, producing 16,123 tons cast iron, and 99 bloomeries, forges, and rolling-

TENNESSEE.

mills, producing 9,673 tons bar iron; fuel consumed, 187,453 tons; hands employed 2,266, and aggregate capital invested in the manufacture, \$1,514,736.

Tanneries employ a capital of \$490,320; value of hides and skins, \$396,159; hands employed 921—males 916, and females 6; monthly cost of labor \$14,370—male \$14,335, and female \$32; sides of leather tanned 333,883, and skins tanned 43,429; value of annual products, \$746,484. The number of tanneries in 1840 was 454, employing a capital of \$484,114, and 909 hands, and producing annually 133,547 sides of sole leather, and 171,324 sides of upper leather.

Malt and spirituous liquors employ in their manufacture \$66,125; quantities and kinds of grain, etc., consumed—barley 3,000 bushels; corn 258,400 bushels, and rye 5,480 bushels; hands employed, 159; and whisky and high wines produced 657,000 gallons. In 1840 there were reported 1,426 distilleries, producing annually 1,109,107 gallons, and 6 breweries, producing 1,885 gallons; hands employed 1,341, and capital invested \$218,082.

Tennessee has also large manufactories of machinery, hardware, and other metallic ware, brick-yards, tobacco factories, saddlery manufactories, potteries, paper-mills, cordage factories, carriage factories, etc. Grist, saw, flour, and other mills common to agricultural States, employ about one-third the whole capital invested in manufactures. The chief manufacturing centres are Nashville, Knoxville, Memphis, etc., but the great bulk of the manufactures are distributed among the villages, and as yet there are no manufacturing towns such as exist in the Eastern States.

Commerce and internal communication.—Tennessee has no direct foreign commerce. The internal trade carried on through its rivers, railroads, and other channels, however, is extensive, and a large amount of produce, goods, and merchandise is carried to the seaboard at New Orleans, Savannah, and Charleston, and much of the produce of the State is brought down the Tennessee and Cumberland rivers to the Ohio, and seeks a northern outlet by way of Pittsburg and the lakes. The shipping owned in the district of Nashville in 1850 amounted to 3,776 tons, all of which was navigated by steam-power. The system of railroads in Tennessee is as yet but partially completed, but great progress has been made, and a magnificent system projected. The centres are Nashville and Knoxville. From Nashville, lines diverge toward every direction—north toward Henderson, Louisville, Cincinnati, and Maysville, east toward Savannah and Charleston, south toward Mobile and New Orleans, and west toward the Mississippi, at Memphis, etc. The great line from Mobile to Cairo also passes through this State. From Knoxville, lines also diverge to Louisville, on the Ohio, to Richmond on the Atlantic, and to the southern Atlantic ports. The Charleston and Memphis Railroad is also in part within this State, but chiefly in Mississippi and Alabama. Tennessee has no canals, but several of the rivers have been improved and rendered navigable. The county roads, turnpikes, etc., are of ordinary construction, and hitherto have been the only available channels of trade to and from the rivers. They are generally good, and, except in wet weather, answer the present demands of the country. The several lines of railroad are detailed in the APPENDIX.

Banks.—On the 1st January, 1851, there were in Tennessee 4 banks and 19 branch banks. The Bank of Tennessee (head quarters at Nashville) has branches at Athens, Clarksville, Columbia, Rogersville, Shelbyville, Somerville, Sparta, and Trenton; the Planters' bank of Tennessee (Nashville) has branches at Athens, Clarksville, Franklin, Memphis, and Pulaski; the Union Bank of Tennessee (Nashville) has branches at Columbus, Chattanooga, Jackson, Knoxville, and Memphis; and the Bank of East Tennessee is located at Knoxville. The condition of the reporting banks at the date specified was as follows: *liabilities*—capital, \$6,381,568; circulation, \$6,514,376; deposits, \$1,917,757; due other banks, \$61,638; and other liabilities, \$10,000; and *assets*—loans and discounts, \$10,992,139; stocks, \$492,902; real estate, \$662,520; due by other banks, \$1,559,418; notes of other banks, \$729,186; and specie, \$1,453,773. A free banking law has come into operation since the above returns were made, and several banks have commenced under its provisions.

Government.—The first constitution of Tennessee was adopted at Knoxville in 1796, and amended at Nashville in 1834. The *right of suffrage* is secured to every free male white citizen, 21 years old, resident in the county where he offers his vote six months next before the election. Every man is to be considered white who is a competent witness in court against a white man. The general election is held every second year on the first Thursday of August.

The *Legislature* consists of a House of Representatives and a Senate. Representatives, in number not exceeding 75, until the population of the State is 500,000, and thereafter not exceeding 99 (now 75), shall have the same qualifications as voters, and have resided in the State three years, and in the county one year next before the election. Senators, in number not exceeding one-third of the representatives, shall have the qualifications of representatives, and shall be 30 years of age. Representatives and Senators are chosen for two years. The sessions commence (every second year) on the first Monday of October. "A census shall be taken and an apportionment made in 1841, and in every tenth year thereafter."

The *Governor* must be 30 years of age, a citizen of the United States, and a citizen of the State for seven years preceding the election, and is chosen by a plurality of votes for two years, but the same person is not eligible for more than six out of every eight years. If the office of Governor become vacant, the Speaker of the Senate, and after him the Speaker of the House of Representatives, shall act as Governor.

The *administrative* officers are, the Secretary of State, the Treasurer, Comptroller of the Treasury, Attorney-general, etc.

The *judiciary* is vested in a Supreme Court, a Court of Chancery, and Circuit Courts. The supreme court is constituted of three judges, one of whom resides in each of the three great divisions of the State. Judges of this court must be at least 35 years of age, and are elected by joint ballot of the two houses of the General Assembly for 12 years. The court of chancery is presided over by a chancellor, one in each of the four chancery districts of the State. There are fourteen circuit courts, also a special criminal court in Davidson county (Nashville), and a commercial and criminal court of Shelby county (Memphis). The judges of all inferior courts must be at least 30 years of age, and are chosen in the same way as supreme court justices, but only for eight years. All judges receive a fixed compensation, and are removable on a vote of two-thirds of both houses. Justices of the peace are elected in districts for six years; sheriffs in counties for two years, and registrars for eight years.

Among the provisions of the constitution are the following: No person who denies the being of a God or a future state of rewards and punishments, can hold any office; any person directly or indirectly engaged in a duel shall be disqualified for office; no fine exceeding \$50 shall be laid on any citizen of the State, unless assessed by a jury; lotteries and the sale of lottery tickets are prohibited; the proportion and the proceeds of the sale of the public lands coming to the State shall be applied to education and internal improvement; the General Assembly can not emancipate slaves without the consent of the owners, etc.

Amendments to the constitution, if agreed to by a majority of the members of the two houses, shall be published six months before the next general election, and if approved by a vote of two-thirds of the members of the next Legislature, shall be submitted to the people, and if ratified by a majority of votes, shall be adopted. But the Legislature shall not propose alterations oftener than ten years.

TENNESSEE.

Federal Representation.—In accordance with the law of 23d May, 1850, Tennessee is entitled to *ten* representatives in the Congress of the United States.

Finances, Debt, &c.—There had been paid into the treasury, during the biennial period ending on the first Monday in October, 1851, the sum of \$1,004,004 94, and there had been paid out within the same period for all purposes, \$993,431 25. Excess of receipts over disbursements for the two years, \$70,573 69, which, added to balances from former years, amounting to \$152,193 11, makes the resources of the treasury in October, 1851, \$222,771 80. The receipts have increased within the last two years from \$790,695 53 to \$1,004,004 94, and the disbursements from \$862,436 66 to the sum of \$993,431 25.

The State debt amounted at the date aforesaid to \$3,651,856 66, and the annual interest on it to \$195,626 37. The amount of productive property held by the State in 1851 was \$4,128,725 74; school fund, \$1,821,655. Ordinary annual expenditure, exclusive of debts and school fund, \$290,000.

The principal *benevolent institutions* of Tennessee are, the Lunatic Asylum and Institution for the Blind at Nashville, and the Deaf and Dumb School at Knoxville. The State appropriates about \$5,000 annually to each of these institutions.

Tennessee has made no general returns of its *militia force* to the United States Government since 1840. At that date the total number enrolled was 71,252, of which 3,607 were commissioned officers, and 67,645 non-commissioned officers, musicians, artificers, and privates. Of the commissioned officers 25 were general officers, 79 general staff-officers, 859 field-officers, &c., and 2,644 company-officers. All white male persons between 18 and 45 years of age are subject to military duty; but all free colored men are exempt in time of peace, and exempt also from poll tax.

Education.—The only returns required of the District School Commissioners are of the scholastic population of their several districts. The amount of school fund apportioned among the several counties in July, 1847, was \$117,284 12; increased by sums remaining undrawn, in treasury, and otherwise, to \$191,241 84. Scholastic population at the same time, 266,078. Amount apportioned in July, 1848, \$114,227 18. Scholastic population in 1848, 272,000 and a fraction. There are academies in all the principal towns and villages which receive a portion of the school fund. The principal colleges and professional schools within the State, and the statistics of each, as exhibited by their returns in 1850, are as follows:

Names.	Location.	Founded.	Professors.	Alumni.	Students.	Vols. in lib.
East Tennessee College.....	Knoxville	1792	5	122	57	4,500
Washington College.....	Washington co.....	1795	3	116	22	1,800

—the Cumberland University has a Law Department, which in 1850 had 3 professors and 53 students, and the University of Nashville has a Medical Department, which at the same time had 7 professors.

Public Libraries.—According to the report of the Librarian of the Smithsonian Institute, in 1851, there were in the State 21 libraries and 47,856 volumes; 1 State library—8,000 volumes; 9 college—20,544 volumes; 8 students—9,712 volumes; 1 professional—3,500 volumes, and 2 public school—5,000 volumes. Total 21 libraries—47,856 volumes.

Periodical Press.—The whole number of periodicals published in the State on the 1st June, 1850, was 61, and of these 24 were whig, 17 democratic, and 20 neutral in politics, the last named including such as are devoted to literature, religion, science, &c., and of which the political principles were not ascertained. Of the aggregate number 8 were published daily, 2 semi-weekly, 46 weekly, and 4 monthly; and the aggregate circulation of each class was as follows: of the dailies, 14,082 copies; of the semi-weeklies, 1718 copies; of the weeklies, 41,477 copies, and of the monthlies, 10,600 copies at each issue. Bedford County has 1 w.; Davidson (Nashville), 5 d., 7 w., and 2 m.; Franklin, Gibson, Greene, and Giles, each 1 w.; Hamilton, 2 w.; Henry and Hawkins, each 1 w.; Knox, 1 s. w. and 5 w.; Lawrence and Lincoln, each 1 w.; Montgomery, 3 w. and 1 m.; Marshall, 1 w.; Maury, 2 w. and 1 m.; M'Minn, 1 w.; Rutherford, 2 w.; Shelby, 4 d., 1 s. w., and 6 w.; Sumner, 1 w.; Wilson, 2 w.; White, 1 w.; Weakley, 2 w.; Williamson and Washington, each 1 w.

Religious Denominations.—The statistics of the several religious denominations in the State in 1850, as is shown by the census of that year, were as follows:

Denomina- tions.	No. of Churches.	Church accom.	Value of Property.	Denomina- tions.	No. of Churches.	Church accom.	Value of Property.	Denomina- tions.	No. of Churches.	Church accom.	Value of Property.

—making a total of 1,939 churches, having accommodation for 606,695 persons, and valued as property at \$1,208,876. Tennessee forms a diocese of the Protestant Episcopal Church, and also the Roman Catholic diocese of Nashville.

Pauperism and Crime.—The whole number of paupers who received support within the year ending 1st June, 1850, was 1,005, of which 99 were native born, and 14 foreigners; and the whole number of paupers at the date specified was 591, of which 577 were natives, and 14 foreigners. Annual cost of support, \$30,981. Of 195 convicts in the Tennessee Penitentiary on the 30th September, 1847, 56 had been convicted for crimes against life and person; 121 for crimes against property, including larceny, forgery, counterfeiting, burglary, &c., 14 for negro stealing, harboring, &c., 2 for incest, 8 for bigamy, 4 for arson, and 1 for perjury.

Historical Sketch.—Tennessee derives its name from its principal river. On the division of Carolina into two provinces this country fell to the lot of North Carolina. Between 1740 and 1750 the eastern parts of the country were explored, and large grants of land awarded for the service. No settlements however were made at this time. At the commencement of the French War in 1754, about fifty families were located on the Cumberland River, but these were driven off by the

Indians. About the same time the Shawnees, who had lived near the river Savannah, emigrated to the banks of the Cumberland and settled near the present site of Nashville, but they also were driven away by the Cherokees. In 1755, a number of persons settled themselves beyond the present limits of North Carolina, and were the permanent colonists of Tennessee. In 1773, population was found to have increased to a very considerable extent. In the succeeding year a war broke out with the northern Indians residing across the Ohio, and terminated by their suing for peace. The year 1776 was rendered memorable by a formidable invasion of the Cherokees, whom the British had incited to attack the infant settlements. The British superintendent had previously made proposals to the Tennesseans to join the British standard, and failing to lure them from the support of the colonies, thus directed against them the savage foe. A strong force from Virginia and the Carolinas, however, soon dispersed the enemy, and peace was again restored. When the constitution of North Carolina was formed in 1776, Tennessee (then the "District of Washington") sent deputies to the convention. In 1790 the mountaineers of the borders of North Carolina and Tennessee distinguished themselves in the southern campaign, at King's Mountain, Guilford, and other battle scenes, and soon after these events they penetrated the Indian country and dispersed the savages. At the peace these brave men again sought their mountain homes, and devoted themselves to the improvement of their settlements. About this time, a small colony of about forty families, under the direction of James Robertson, crossed the mountains, and settled on the Cumberland River, where they founded the town of Nashville. The nearest white neighbors were the settlers of Kentucky, and between them was a wilderness of 200 miles. In 1783 the Legislature of North Carolina laid off a tract of land on the Cumberland River for the discharge of the military bounties and the officers and soldiers of the Continental Line. The district set apart included the colony at Nashville, a small tract having been allotted to the original settlers. After this period population began to increase rapidly. Many to whom military lands had been granted repaired thither with their families, while others sold their warrants to citizens of different States. In 1785, the inhabitants, feeling sensibly the inconveniences of a government so remote as that at the capital of North Carolina, endeavored to form an independent one, to which they gave the title of the "State of Franklin," or Frankland, but the scheme was ultimately abandoned. In 1789, the Legislature of the State of North Carolina passed an act ceding the territory, on certain conditions, to the United States; and in the following year Congress accepted the cession, and by its act of 26th May, 1790, provided for its government under the title of "The Territory of the United States South of the Ohio," which included the present States of Kentucky and Tennessee, the former having been ceded by Virginia. In 1794 Tennessee was constituted a separate territory. Two years afterward Congress passed an act enabling the people to form a State constitution, which, having been adopted, was approved by Congress 1st June, 1796, and Tennessee was admitted as a sovereign State of the Union.

NASHVILLE, on the left bank of the Cumberland River, is the political capital of the State.

TENNESSEE river, chiefly in the State of same name, and the largest tributary of the Ohio r., rises in the Alleghany Mountains, in Tazewell and Wirt counties, Virginia. Its principal head tributaries are the Holston and the Clinch rivers, the former of which receives the French Broad r., and the latter Powell's r. The Holston and Clinch unite at Kingston, in Roan co. (Tenn.), and thence the course of the main stream is about S. W., until it crosses the boundary of Alabama, near the N. E. corner of the State, continues 50 or 60 m. in this direction, and then bends N. W., passes through the Cumberland mountains, flows through the entire N. end of Alabama, crosses the N. E. corner of Mississippi, and again enters Tennessee, when it takes a due N. course, crossing the State, enters Kentucky between Calloway and Stewart counties, and flows N. W. into the Ohio r., at Paducah village, 12 m. below Smithland (Ky.). The valley of the Tennessee divides itself into two sections, the upper and the lower. The upper valley is the part above the passage through the Cumberland mountains, and is included between the two parallel chains of the Appalachian system, which form a connection just below this pass. This section is mountainous, and much elevated, embracing an area of about 24,000 sq. m. The lower valley is composed of several physical sections, in N. Alabama, W. Tennessee, and Kentucky, comprising an area of 17,600 sq. m., making the extent of the whole valley 41,600 sq. m. Its whole length is about 1,100 miles. In its course it receives numerous tributaries, rapid streams, but of no great length. The whole descent of the river, from its source to its mouth, is about 1,700 feet. There are no perpendicular falls, the greatest obstruction being the Muscle Shoals, in Alabama. Florence, at this point, on the N. side, is 259 miles from its mouth, to which steamboats come during high water. A canal has been made along these shoals, 36 miles long, to admit the passage of steamboats, and the navigation of the river above is unobstructed for 250 miles, to the pass of the Cumberland mountains. At the entrance of the pass, a suck or whirl is caused by a large projecting rock, on the N. side, producing a sudden bend in the river.

TENNESSEE IRON WORKS, p. o., Montgomery co., Tenn.: on Cumberland r., 37 m. N.W. by W. Nashville. These works are very extensive, and produce 2,000 tons castings annually.

TENNESSEE LANDING, p. o., Issaquena co., Miss.: 63 m. N. W. Jackson.

TENNESSEE RIVER, p. o., Macon county, N. Car.: on Tennessee r., 274 m. W. by S. Raleigh.

TENNILE, p. o., and sta., Washington co., Ga.: on the Central (Georgia) R. R., 136 m. N. W. Savannah, and 26 m. E. S. E. Milledgeville.

TENSAS parish, La. Situate E., in the western district, and contains 619 sq. m. Drained by Tensas river, and branches of Mississippi river, which bounds it on the E. Surface even and diversified, with small lakes; soil fertile. Along the banks of the Mississippi are some portions of rich land, suited to the raising of cotton, sugar, etc. It is bounded on the E. by Bayou Macon. Staple productions, cotton, sugar, Indian corn, etc. Farms 165; manuf. 6; dwell. 244, and pop.—wh. 900, fr. col. 2, sl. 8,138—total 9,040. Capital: St. Josephs.

TENSAS river, La.: rises in Chicot co., Ark., flows nearly parallel with the Mississippi, through Carroll and Madison parishes, forms the boundary between Concordia and Catahoula parishes, and falls into Wachita river.

TENSAW, p. o., Baldwin county, Ala.: 150 m. S. W. Montgomery.

TENSAW river, Ala.: the eastern outlet of Mobile r., which it leaves 8 m. below the junction of Tombigbee and Alabama rivers. It flows S. past Blakely, and enters Mobile bay by several mouths. It contains a considerable island a little below where it leaves Mobile river.

TENTH SECTION, sta., Cheshire county, N. Hamp.: on the Cheshire R.R., 8 m. W. Keene, and 45 m. S. W. from Concord.

TENTOPOLIS, p. o., Effingham county, Ill.: 78 m. S. E. Springfield.

TEOTSA, p. o., Rock co., Wisc.: on S. side of Rock r., 28 m. S. E. by E. Madison.

TEQUAMENON river and bay, Chippewa co., Mich.: rises in the S. W. part of the co., flows E. by N. in a circuitous course, and empties into the bay so called, near the outlet of Lake Superior. There are some falls in this river. The bay is located between the Straits of St. Mary, on the S. E., and Lake Superior on the N. W., and separates Canada from Michigan.

TERRE AUX BRUF sta., St. Bernard par., La.: on the

Mexican Gulf R. R., 14 m. S. E. New Orleans, and 84 m. S. E. by E. Baton Rouge.

TERRE BONNE parish, *La.* Situate S., in the eastern district, and contains 1,618 sq. m. Drained by Terre Bonne, Grand Callion, Little Callion, Large and Black bayous. Surface level, but in many parts so low, that it is unfit for cultivation; soil various, along the streams being exceedingly productive; but in general too moist to allow of its being successfully tilled. Chief products, sugar, cotton, rice, and Indian corn. It contains fine lakes, and its coast is indented with numerous bays. Farms 224; manuf. 4; dwell. 550, and population—wh. 3,324. fr. col. 72, sl. 4,328—total 7,724. *Capital*: Houma.

TERRE COUPEE, p. v., and sta., St. Joseph co., *Ind.*: 135 m. N. by W. Indianapolis. The Michigan Southern, and Northern Indiana R. R. passes through this place, 73 m. E. by S. Chicago (Ill.)

TERRE COUPEE, sta., Berrien co., *Mich.*: on the Michigan Central R. R., 202 m. W. by S. Detroit, and 117 m. S. W. Lansing.

TERRE HAUTE, p. v., and cap. Vigo co., *Ind.*: on the left bank of Wabash r., 73 m. W. Indianapolis. Its site is a high bank, from 50 to 60 feet above the river, and 15 or 20 feet above the adjacent prairie. This is one of the most important towns in the State, and being located on the Wabash and Erie Canal, and on the most available line of railroad travel east and west, is destined to become a principal centre of internal commerce. Among the public buildings, the most conspicuous are its fine court-house, town hall, State banking house, 13 churches, several good hotels—the Prairie House being one of the best in the State, etc.; and the dwelling houses amount to over 600, of which about one-half are of brick, and many are built with much taste. The business, wholesale and retail, carried on at this point is extensive and valuable. There are 93 retail stores and groceries, 3 book-stores, 4 printing-offices, and several large warehouses and wholesale concerns. The principal manufacturing establishments are 2 foundries, a plow manufacturing, 8 carriage and wagon factories, 2 soap factories, an oil-mill, 3 steam flouring and 1 steam saw mill, 2 breweries, 2 distilleries, 13 coopers' shops, 4 large slaughter-houses, and the same number of packing establishments. The number of hogs packed at Terre Haute in 1849-50 was 59,000, valued at \$300,000. Among the religious establishments almost every denomination is represented. The means of education are ample, viz.: 2 seminaries, 4 select schools, and 5 district schools. Here are also three societies for mutual improvement. The public press consists of 6 newspapers,

viz.: the "Wabash Express" (whig), the "Wabash Courier," the "T. H. Journal" (dem.), the "Prairie City," the "Independent" (relig.), and the "Indiana Universalist" (relig.)—these are issued weekly. The railroads centering here are, the Terre Haute and Richmond R. R. and the Atlantic and Mississippi R. R., forming links in the line from St. Louis to the East; the Terre Haute and Alton R. R. *via* Paris to Alton; the Evansville and Illinois R. R. to Evansville, on the Ohio, and several others projected to different points. In the vicinity are rich beds of coal and iron, which, with the completion of the grand works connecting at Terre Haute, will become a source of great wealth to the country generally, and build up within the town a manufacturing interest equal to the wants of the neighborhood. Terre Haute was founded in 1816; in 1830 it contained 600 inhabitants, in 1840 about 2,000, and in 1850 about 4,900.

TERRE HAUTE, p. o., Champaign county, *Ohio*: 45 m. W. by S. Columbus.

TERRE HILL, p. o., Lancaster co., *Penn.*: 47 m. W. S. W. Harrisburg.

TERRE NOIR, p. o., Clark county, *Ark.*: 72 m. S. W. Little Rock.

TERRY, p. o., Carroll county, *Tenn.*: 90 m. W. by S. Nashville.

TERRYVILLE, p. v., Litchfield co., *Conn.*: 18 m. W. S. W. Hartford.

TERRYVILLE, p. v., Abbeville dist., *S. Car.*: on a creek of Savannah r., 81 m. W. Columbia.

TERRYTOWN, p. v., Bradford co., *Penn.*: 112 m. N. by E. Harrisburg.

TÊTE DE MORTE, p. v., Jackson county, *Ind.*: 57 m. N. E. Iowa City.

TEUBESBURG, p. v., Tipton co., *Ind.*: 43 m. N. by E. Indianapolis.

TEWKESBURY, t. and p. v., Middlesex co., *Mass.*: 21 m. N. N. W. Boston. Drained by Shawsheen r., which flows through the town, and by branches of Merrimac and Concord rivers. Surface even; soil light and sandy. The village is on the Salem and Lowell and the Lowell and Lawrence railroads, 5 m. E. Lowell and 7 m. S. W. from Lawrence. Pop. 1,048.

TEWOCKINY SPRINGS, p. o., Limestone co., *Tex.*: 123 m. N. E. Austin City.

TEXANA, p. v., and cap. Jackson co., *Tex.*: on the right bank of the Navidad r., 119 m. S. E. Austin City. Its location is at the head of steamboat navigation, on the border of an exceedingly rich and productive prairie. It contains the county buildings, etc.

THE STATE OF TEXAS.

TEXAS is bounded north by New Mexico and the Indian Territories, from the latter of which it is divided chiefly by the Red and Arkansas rivers; east by Arkansas and Louisiana, the Sabine River being its boundary toward Louisiana; south by the Gulf of Mexico, and west by Mexico, from which the Rio Grande separates it, and the Territory of New Mexico. It lies between latitudes 26° and 36° 30' N., and longitudes 93° 30' and 110° west of Greenwich, or 162° 25' and 32° 58' from Washington. Its greatest extent north and south is 700 miles, and east and west 800 miles; but its average extent is much less. The superficies is estimated at 237,321 square miles—an area more than equal to the whole of France, and nearly four times the area of New England.

Texas may be divided into three physical districts or regions of country, each of which, in many respects, is entirely different. These are the level, the undulating, and the mountainous or hilly; or the lower, middle, and upper districts, or, as it may be more convenient, the country may be divided into Eastern, Middle, and Western Texas. Eastern Texas extends from the Sabine to the Trinity; Middle Texas from the Trinity to the Colorado, and Western Texas from the Colorado to the Rio Grande del Norte. The level region occupies the entire coast, extending from 30 to 60 miles into the interior. The undulating succeeds this, and embraces the whole of the interior and the north, and reaches westward to the mountainous tract, which is distant 150 to 200 miles from the boundaries of the level lands. The alluvial lands to the several rivers which make into the Gulf are from 3 to 20 miles in breadth, and are heavily timbered with live-oak, red, black, and white, and other species of oak; with ash, cedar, peccan, elm, hickory, mulberry, and all other varieties of forest trees and growths common in the rich alluvions of the Mississippi. The cane-brakes are of immense extent in the low country, and on the Caney Creek may be seen 70 miles long and from 1 to 3 miles wide. Here may be grown cotton, sugar, rice, etc.

In the second division are the high, rolling, verdant prairies, the narrow-wooded bottoms, the beautiful islands of timber, the quick-running streams, the cool, refreshing springs, and the healthful climate of Texas. Here the soil, a little

broken, is not inferior to that of the alluvial country below, is more easily worked, the products are greater and more varied, and though not so convenient to a foreign market, will have a market at home. This is destined to be the most densely populated part of Texas, if not of America. In this region the planter may raise all the cotton, rice, and tobacco, and the corn and grain he requires, and stock to any extent, without labor and almost without care. The table-lands are yet the home of the hunter and the range of the buffalo. Little is known of them, but they are represented by travelers to rival the table-lands of Mexico, to be rich in soil and climate, to be clothed in constant verdure, beautifully variegated in surface, and watered by streams as clear as crystal—to be, in fine, a perfect paradise. Of the northern portion of Texas still less is known than of the table-lands. This region is said to be intersected by many streams furnishing water-power, and to be rich in the precious metals.

No part of the extensive coast of the Gulf of Mexico presents a greater number of commanding harbors, bays, and inlets, than that of Texas. The interior, intersected by numerous magnificent and navigable streams, in close vicinity to the great western tributaries of the Mississippi, and holding easy communication with the mighty "Father of Waters," furnishes a commercial position very desirable and seldom surpassed. Red River may be considered in part as belonging to Texas. The vast region west of the mountains in which it rises and through which it rolls its turbid waters, has been yet scarcely explored, but it is known to be of great fertility and of surpassing beauty. In this region has the Texan emigrant reared his cottage and planted his cotton, and his corn, and his wheat, which are borne along the current of Red River to the great mart of the South-west. The chief rivers, those which are more or less navigable for steamboats, are the Sabine or Neches, Trinity, Brazos, Colorado, Guadalupe, San Antonio, and the Rio Grande. Besides these, there are others of less note and magnitude, though navigable to a considerable extent—the Angelina, San Jacinto, Buffalo Bayou, Oyster and Chocolate bayoux, San Bernard, Caney, Navidad, Lavacca, and Nueces. There are no lakes of any importance to be found in the country. A few small ones near the sources of the Guadalupe, and on some of the tributaries of Red River and the Trinity, are all that are worthy of the name, and they are inconsiderable. To a country so well watered, intersected by rivers so numerous and important, and offering such valuable facilities for canal communication, they would be useless. Indeed, its vast water-courses might be united in one great navigable chain, which would render transportation from any section of this wide-spread territory to a commercial emporium at any point on the coast, a matter of the utmost ease and but very little expense.

Texas abounds with minerals, and is interesting in its geology. The silver mine of San Saba is among the richest in the world, and under the dominion of Spain afforded considerable revenue to the crown. Gold has been found on the Atoyac and other streams, especially toward the western hill country, and silver also on the Bedais. Iron ore pervades the greater portion of the country. Lead, copper, alum, etc., are found in several parts, and bituminous coal on the Trinity and Upper Brazos. Salt is exceedingly abundant, and immense quantities are annually taken from a famous salt lake near the Rio Grande. Salt springs and lagoons abound near the Trinity, and a branch of the Brazos has its waters highly impregnated. Soda and potash are found near the salt lagoons in dry seasons. Lime can be plentifully furnished from limestone existing in the undulating and northern sections. In the level districts oyster-shell lime can be substituted. Asphaltum is sometimes found on the coast. Agate, chalcodony, jasper, and some singular petrifications are found near the mountains. The remains of whole forests are seen on the Trinity and Brazos rivers entirely petrified. Extensive quarries of red and white sandstone, or freestone, abound throughout the country. At Austin there is a quarry of white stone similar to that of the Paris basin, and of which the Louvre is built. It is soft and easily worked with the knife, and may be reduced to any form; but on exposure to the atmosphere it becomes a perfect freestone, and is as hard and compact as granite and marble. The same kind of stone is found on the Trinity and in the vicinity of San Antonio de Bexar.

Mineral springs are numerous. The Salinilla Springs, both white and salt sulphur, in Walker County, are very remarkable. They rise near the salines, in a picturesque valley, and are highly appreciated for their medicinal virtues. Not far from these, and near the Bedais, is a white sulphur spring, supersaturated with magnesia, and possessing all the healing properties of the celebrated Virginia springs. Thirty miles west, in the same county, is a blue sulphur spring. Near Cibolo, and about thirty miles from Bexar, is a mineral spring, the waters of which are in high repute. Besides these, there are others of great value. Near Carolina, in Montgomery County, is a white sulphur spring, the waters of which are efficacious in many distempers.

All who have visited Texas concur in ascribing to it the most delightful of climates. Though varying with location from tropical to temperate, it is remarkably pleasant and salubrious. The average notation of the thermometer in the summer season is about 80° Fahr., and refreshing breezes from the south blow almost without interruption. During the winter ice is seldom seen, except in the northern part of the State. From March to November but little rain falls. The southerly winds are invigorating. In November the strong northerly set in, and in the months of December and January the cold north wind sweeps down the plains with near as much regularity as the south wind of the summer. These periodical winds tend to purify the atmosphere, and contribute much to the salubrity which distinguishes Texas from other Gulf States. The climate, indeed, is modified by so many favorable circumstances, as to possess all the genial influences of Louisiana, while it escapes its attendant evils. In the river bottoms, which are periodically overflowed, however, fever prevails to a greater or less extent; but elsewhere the danger of endemic disease is trifling. The prairies are open and admit of a free circulation of air, and the forests, for the most part, are free from undergrowth. Miasmatic marshes and stagnant pools, which so frequently originate endemics, are seldom found in any portion of the country.

Texas, in general, is a prairie country, having all the streams skirted with timber. The sublime and beautiful are blended in these vast natural meadows—sublime in extent and beautiful in prospect. Leagues may be traveled over a continuous plain, with nothing to interrupt the utmost stretch of vision upon the living green, save the beautiful groves and islands of timber which are here and there interspersed, and flowers of every variety, hue, and fragrance, and herds of cattle and deer—delighting the eye with the view of splendid lawns and magnificent parks tastefully laid out by the hand of Nature, and presenting all the order and taste of civilization. Nothing in Nature can surpass the beauty and loveliness of a Texan landscape. Nothing can surpass its beauty in the spring and summer seasons, neither is it possible to form an estimate, even in imagination, of the number of useful domestic animals that are reared on them without trouble or expense. Even in the winter season the pasturage is sufficiently verdant to dispense with feeding live-stock.

Texas in her forests has an infinite variety of timber suitable for building and ornamental purposes. Her forests of live-oak and cedar are unrivaled. The whole coast nearly, including all the bayoux and river bottoms, from the Sabine to the Nueces, is one entire belt of timber. The eastern section probably embraces more woodland than any other. It is

TEXAS.

heavily timbered with pine, oak, ash, walnut, hickory, pecan, mulberry, cedar, cypress, and other forest trees which extend quite to the Red River, occasionally variegated with beautiful prairies containing from one hundred to several thousand acres. The soil is admirably adapted to grasses and other agricultural staples, and the lumber trade will soon become extensive and lucrative in this section.

Among the productions which may be regarded as naturally adapted to the soil, and which now form a chief and important article of commerce, cotton stands pre-eminent. This is the great crop of Texas, and the source of much of its wealth and power. Its staple is uniformly good, and near the Gulf it equals in length and firmness the Sea Island cotton of Georgia. It is an indigenous plant, and in the western region needs to be planted only once in three or four years to yield an abundant crop. The climate is ever favorable, and the soil, whether upland or lowland, woodland or prairie, is admirably adapted to its culture. The sugar-cane grows luxuriantly throughout the whole level region; but its culture, for various reasons, will not be extensive, nor will the production of sugar, unless forced by unexpected circumstances, probably compete with that of Louisiana for many years to come. Tobacco grows almost spontaneously throughout the country. It is an important production, equal in quality to that of Cuba, and will soon become an article of commerce and export. The indigenous indigo of Texas is greatly superior to the plant which is cultivated in the United States. It is manufactured in families for domestic use, and is preferable to the imported article.

Breadstuffs of every description are produced easily and abundantly in every district. Two crops of Indian corn annually is a common thing—the first planted in February, and the last in June. Wheat, buckwheat, millet, rye, oats, barley, and other small grain yield plentiful crops throughout the undulating region. Flax and hemp are well adapted to the soil. Rice is also produced in considerable quantities, and can be grown to any extent.

Fruits of all descriptions are profusely plentiful. The grape and mulberry are indigenous, and grow luxuriantly, indicating that wine and silk, as well as tobacco and cotton, will one day become valuable staples. The vanilla plant grows wild. It can be successfully cultivated as a commercial commodity. This delicious plant is highly esteemed in medicine, as a perfume to flavor the cigar, and in various culinary arts, etc. The nopal, celebrated for the production of the cochineal insect, grows luxuriantly. Its fruit, with the leaves, furnishes food for vast herds of cattle and horses; for building purposes and fencing its timber is superior, and in Texas it also forms a principal article of fuel. The yaupon, or tea-tree, furnishes an acceptable and cheap beverage in lieu of the China product, and is not at all inferior in flavor to the common black tea of that country. Cayenne pepper, or the *chile* of Mexico, grows exuberantly all over Texas. Many other sources of wealth and enjoyment abound here, and will in all good time be realized by the citizens, who are already industriously exploring the true springs of national greatness and individual prosperity.

The displays of vegetation in Texas are profuse, various, and valuable, presenting on the one hand the stately and magnificent forest, and on the other delighting the eye with the rich and splendid scene of the luxuriant prairie, garnished with an endless variety of fragrant flowers, and forming a landscape of surpassing loveliness. All the varieties of the stellaria, yellow, blue, and purple, display their rich and gaudy tints. The fashionable dahlia, an exotic highly esteemed and carefully raised in foreign hot-houses, is indigenous to the south-west. Geraniums adorn and perfume with their fragrance the wild meadows, and the water lily, trumpet flower, and the cardinal, are common in the fields. The May apple, bearing a delicate flower, is abundant, and violets form a common carpeting for the prairies. The passion flower is frequent in its season, while the perpetual rose, multiflora, and chickasaws, and other varieties, grow without cultivation or care. The chaste and elegant primrose flowers everywhere; while the jonquil and hyacinth, honeysuckle and sweet seringa, form a variegated garland, or are thrown together in most admirable disorder throughout the paradise of flowers. The shrinking mimosa, an object of so much interest to the naturalist and philosopher, is also a native of the wilds, and the traveler, trampling over its drooping and apparently withered leaves, looks back in vain for the path his rude footsteps had marked out, but not a vestige of the invasion remains, but all again is life and verdure.

The fruits of the tropics and of the north alike flourish in Texan soil. The fig is common, the peach unrivaled, the nectarine, quince, and grape luxuriant, and these, side by side, grow in the same sun and soil with the plum, apple, and paw-paw. The orange, lemon, and lime, the pine-apple, and olive ripen together. Berries are in great variety. The mulberry, dewberry, whortleberry, and gooseberry grow wild and in the greatest profusion. The pecan, walnut, and hickory nuts are very abundant. Garden vegetables of every description, and melons, are easily cultivated and yield in the greatest abundance.

Wild animals, formerly numerous and formidable tenants of the forests, are now comparatively strangers to the country. The black bear frequents the cane-brake, and is a favorite object of the hunt. Wolves abound. The peccary, or Mexican hog, and the wild hog, run at large in the woods. These have degenerated from the domestic species, and are very ferocious. Mustangs roam in herds over the north and west. Many of them are of fine figure and spirit, and are highly prized for their fleetness. When domesticated, they are hardy and active, and alike adapted to the saddle or stirrup. Mingled with the herds of mustangs are found jacks, jennies, and mules. The buffalo or bison is found in Texas astonishingly gregarious. Thousands and tens of thousands in a drove are yet seen in the interior roving over the prairies, the luxuriant herbage affording them the means of subsistence. The deer is still more numerous than the buffalo, and the moose, antelope, and mountain goat are also found ranging upon the frontier or far-west. The fox peeps from every bush and brake. Raccoons, opossums, rabbits, and squirrels are in great numbers; and a greater variety of smaller animals serve to stock the forests of Texas with game, and supply the hunter with endless and animated sport.

Wild fowl and game birds are everywhere plentiful, and one accustomed to the use of the fowling-piece may easily keep a table well supplied. Wild turkeys, prairie hens, geese, brant, teal, canvas-backs, partridges, quails, pheasants, grouse, pigeon, plovers, snipes, woodcock, ortolans, cranes, swans, pelicans, king-fishers, crows, blackbirds, starlings, and hundreds of other descriptions of the family "aves" are in endless numbers. The beautiful parouquet, the oriole, whip-poor-will, and cardinal, and the sweet-toned mocking-bird, enliven the woods with the beauty of plumage and melody of voice which belong to them.

The rivers and bays of Texas abound in fish of an excellent quality, in great variety, and some of them of peculiar character. Redfish Bar, in Galveston Bay, takes its name from the number of red fish which are caught there. This fish is very delicious, and often weighs fifty pounds. Yellow, white, and blue codfish are found in the rivers and streams; sheep-head, buffalo, perch, mullit, pike, trout, flounders, suckers, and other fish common in American waters, are found not only in abundance, but of rare size and flavor. The gar is a worthless fish, with a snout of immense length. The alligator gar is very large—several yards in length; its back is covered with scales, and it resembles the alligator, which is very common in the rivers and bayou, and of enormous size. Beds of oysters line the coasts; crabs, clams, mussels, and various marine animals may be had all along the shore, and turtles are common to all the rivers and bays. Ser-

TEXAS.

pents, snakes, lizards, and many other curious, venomous, and vexatious species of crawling things of the earth are found in Texas. But of these few are as dangerous as troublesome. Insects swarm in myriads, some useful, some dangerous, some annoying, but most of them attractive on account of their beautiful forms and magnificent colors. The cantharides and honey-bee are among the first; spiders and the tarantula represent the second; mosquitoes, gad-flies, ticks, and sand-flies the third, and the wonderful variety of beetles, bugs, butterflies, etc., fill up the fourth chapter of insect life. Many of these, if not carefully guarded against, will spoil the beauty of the fairest face in creation beyond the redemption of cosmetics for days to come. Their attachment to suffering humanity is a wonderful instinct of their nature. The traveler, however, has a certain remedy against attacks in liquid ammonia, a small vial of which should at all times be accessible when passing through the brake or river bottom. Its application immediately neutralizes the venom even of the tarantula and renders it harmless.

Texas is divided into 77 counties, the general statistics of which, and the capitals of each, in 1850, were as follows:

Counties.	Dwell.	Pop.	Farms	Manuf.	Capitals.	Counties.	Dwell.	Pop.	Farms	Manuf.	Capitals.

The whole number of dwellings in the State at the above date was 27,988; of families, 28,377; and of inhabitants, 212,592; viz., whites 154,100—males 84,863, and females 69,237; fr. col. 331—males 171, and females 160; sl. 58,161. Of the whole population there were, *deaf and dumb*—wh. 49, fr. col. 0, sl. 9—total 58; *blind*—wh. 59, fr. col. 3, sl. 14—total 76; *insane*—wh. 89, fr. col. 1, sl. 0—total 40. The number of free persons born in the United States was 137,070, the number of foreign birth 16,774, and of birth unknown 604. The native population originated as follows: Maine 226, N. Hamp. 97, Verm. 144, Mass. 414, R. I. 56, Conn. 369, N. Y. 1,539, N. Jer. 265, Penn. 1,005, Del. 61, Md. 521, Dist. of Col. 36, Virg. 3,580, N. Car. 5,155, S. Car. 4,482, Ga. 7,639, Flor. 365, Ala. 12,040, Miss. 6,545, La. 4,472, Texas 49,177, Ark. 4,693, Tenn. 17,692, Ky. 5,478, Oh. 947, Mich. 125, Ind. 1,799, Ill. 2,855, Mo. 5,139, Ia. 109, Wis. 42, Calif. 0, Territories 14; and the foreign population was composed of persons from—England 1,002, Ireland 1,468, Scotland 261, Wales 17, Germany 8,191, France 647, Spain 62, Portugal 5, Belgium 8, Holland 14, Italy 41, Austria 11, Switzerland 134, Russia 10, Denmark 49, Norway 105, Sweden 48, Prussia 75, Greece 0, China 0, Africa 4, British America 137, Mexico 4,459, Central America 3, South America 1, West Indies 22, Sandwich Islands 5, and other countries 60.

The general statistics* of the products, manufactures, wealth, institutions, etc., of the State, in accordance with the census of 1850 and other official returns referring to the same period, are as follows:

Occupied Lands.—Improved farm lands, 689,107 acres, and unimproved lands attached to farms, 14,454,669 acres—valued together at \$16,993,748. The whole number of farms under cultivation in the State is 12,198; and the value of farming implements and machinery, \$2,138,731.

* The statistics of the county of Lavacca are not included in the census returns.

TEXAS.

Live-Stock.—Horses, 75,419; asses and mules, 12,364; milch cows, 214,758; working oxen, 49,932; other cattle, 636,805; sheep, 99,098, and swine, 638,914. Total value of live-stock, \$10,266,880.

Animal Products.—Wool, 131,374 pounds; butter, 2,326,556 pounds; cheese, 91,619 pounds; and the value of animals slaughtered, \$1,106,032.

Grain Crops.—Wheat, 41,659 bushels; rye, 3,103 bushels; Indian corn, 5,926,611 bushels; oats, 178,883 bushels; barley, 4,776 bushels; and buckwheat, 59 bushels.

Other Food Crops.—Rice, 87,916 pounds; peas and beans, 179,332 bushels; potatoes—Irish, 93,548 bushels, and sweet, 1,323,170 bushels.

Miscellaneous Crops.—Tobacco, 66,897 pounds; ginned cotton, 27,596 bales of 400 pounds; hay, 8,279 tons; clover-seed, 10 bushels; hops, 7 pounds; flax, 1,043 pounds; flax-seed, 26 bushels; silk cocoons, 22 pounds; cane sugar, 7,851 hogsheds of 1,000 pounds; molasses, 441,638 gallons; beeswax and honey, 380,532 pounds; wine, 99 gallons, etc. Value of orchard products, \$12,605, and value of market-garden products, \$12,254.

Home-made Manufactures produced in the year ending 1st June, 1850, were valued at \$255,719.

Manufactures.—Total capital invested \$000,000; value of all raw material, fuel, etc., consumed in the year, \$000,000; hands employed, 0,000—males 0,000, and females 00; monthly cost of labor, \$00,000—male \$00,000, and female \$000; value of products in the year, \$000,000. The whole number of manufacturing establishments in operation, on the 1st June, 1850, was 307, of which number 1 was a woolen factory, 2 iron works, and 22 tanneries.

In the *woolen* manufacture the invested capital amounted to \$8,000; wool used, 30,000 pounds; value of all raw material, \$16,000; hands employed, 8—males 4, and females 4; monthly cost of labor, \$160—male \$80, and female \$80; annual products—cloth 14,000 yards, and blankets 4,000; value of entire products \$15,000.

The *iron* manufacture employed a capital amounting to \$16,000; pig iron used, 250 tons; mineral coal consumed, 250 tons; value of all raw material, fuel, etc., \$8,400; hands employed, 35; entire monthly cost of labor, \$1,520; castings made, 200 tons; other products valued at \$15,000; value of entire products, \$55,000.

The *tanneries* had a capital of \$33,550; value of hides and skins used, \$18,624; hands employed, 64—males 63, and females 1; monthly cost of labor, \$1,017—male \$1,007, and female \$10; skins tanned, 1,750, and sides of leather tanned, 13,700; value of products of the year, \$52,050.

The manufactures of Texas, other than those enumerated, consist chiefly of those incident to agricultural countries, as carriages, harness, farming implements, and machinery, etc., and the great bulk of the capital is invested in milling and other like occupations.

Commerce.—The exports direct to foreign countries, for the year ending 30th June, 1850, were valued at \$24,953, all carried in foreign bottoms, and the imports were valued at \$25,650, of which, to the value of \$14,652 were carried in American, and to that of \$10,998 in foreign bottoms. The great bulk of the commercial material of the State is carried coastwise to New Orleans, New York, etc., and is thence shipped to other countries. The shipping employed in the foreign carrying trade was as follows:

Nationality of Shipping.	Entered.			Cleared.			Total.		
	Vessels.	Tons.	Crews.	Vessels.	Tons.	Crews.	Vessels.	Tons.	Crews.
American	3	494	26	8	591	23	6	1,085	54
Foreign	13	3,177	133	72	3,017	139	25	6,194	277
Total	16	3,671	164	15	3,608	167	31	7,279	331
Districts.									
Galveston	10	2,987	118	9	2,924	191	19	5,911	239
Brazos Santiago	6	634	46	6	634	46	12	1,363	92

The total amount of shipping owned within this State, at the date specified, was 3,897 tons, of which 3,309 tons were owned in the district of Galveston, and 588 tons in that of Saluria. The principal ports of the State are Sabine, Galveston, La Salle, and Point Isabel. The serial statistics of the commerce of the State are as follows:

Year.	Exports.	Imports.	Year.	Exports.	Imports.	Year.	Exports.	Imports.
1846	0	17,266	1848	143,610	94,024	1850	24,953	25,650
1847	0	29,826	1849	82,791	16,600	1851	75,422	94,715

Coasting, inland, etc., trade.—In proportion as the direct foreign commerce of Texas is small, the coasting trade is extensive. As before remarked, the great bulk of its commercial material is carried to the other States for export, and hence a coasting trade commensurate with the staple and surplus products of the State is carried on. The interior is chiefly reached by the fine streams which in every direction penetrate it, the principal of which are the Red River, on the northern boundary, and Sabine, Neches, Trinity, Brazos, Colorado, Lavacca, Guadalupe, Nueces, and the Rio Grande emptying into the Gulf of Mexico. Most of these are navigable for light-draft steamers, which ply regularly on their waters without interruption on account of season. The rivers are reached from the neighboring settlements by wagon roads, which are good except in the wet season. The railroad is practically unknown in Texas, but many are now in progress of construction, and a few miles of the Harrisburg railroad were brought into use in April, 1853. Texas will be intersected east and west by a Southern Pacific railroad, and many lines are projected between the principal ports and the interior, with lateral lines diverging to the various centres of commerce. It would, however, be immature to mention definitely any of the lines projected, as few are located, and fewer have made any advance toward construction. The great road will probably pass from Providence, on the Mississippi, through Shreveport, La., and Marshall, Tex., and another from New Orleans, via Opelousas, etc., westward. A road will also be extended from the Red River to the Gulf. With these improvements the markets will be reached with facility, and immigration and settlement be rapidly directed to the fertile interior. Cotton and sugar are as yet the only available exports of the State, the annual product of which articles has been given on a former page. The imports consist of manufactures of all kinds, groceries, etc.

Banking.—With the exception of the Commercial and Agricultural Bank of Galveston, there would not appear to be any other recognized banking institution in the State.

Government, etc.—The constitution of Texas was adopted at Austin City, 27th August, and ratified by the people 18th October, 1845.

The right of suffrage is conceded to every free white male person, 21 years old, a citizen of the United States, or of

TEXAS.

Texas, when resident in the State one year, and six months in the district, county, city, or town, where he offers to vote. The general election is held on the first Monday of August biennially.

The legislative authority is vested in a House of Representatives and a Senate. Representatives in number not less than 45, nor more than 90 (now 66) are chosen for two years, and they must be qualified voters who have lived two years in the State, and one year in the place where they are chosen. Senators in number not less than 19, nor more than 33 (now 21), chosen for four years, one half leaving office biennially, and they must be qualified voters, 30 years of age, who have lived in Texas three years, and the last year thereof in their district. The sessions of the Legislature are biennial, and commence on the 1st Monday in November. The fifth biennial session commences in November, 1853.

The governor and lieutenant-governor are chosen, by a plurality of votes, for two years, and are not eligible for more than four out of any six years. They must have the qualifications of Senators, and the lieutenant-governor is *ex-officio* president of the Senate. The governor's veto to a bill is negated by a subsequent two-thirds vote of both houses.

The administrative officers of the State are a secretary, nominated by the governor, and confirmed by the Senate for two years; and a treasurer and a comptroller of accounts, chosen biennially by joint vote of both houses. Other officers are the attorney-general, auditor, adjutant-general, commissioner of the land office, and superintendent of penitentiary.

The judiciary consists of the Supreme Court, District Courts, County Courts, etc. The Supreme Court consists of a Chief Justice and two associates, who are chosen by the people for six years. Three sessions are held annually: one at Austin, on the second Monday of November; one at Galveston, on the first Monday of January, and one at Tyler, on the first Monday of April. The Court has appellate jurisdiction only; but in criminal cases, and appeals from interlocutory judgments, it is under legislative regulations. The judges of the District Courts are elected for six years, and hold a court twice a year in each county. District Courts have original jurisdiction in all commercial cases, and in all suits both in law and equity, in which more than \$100, exclusive of interest, is at stake. In criminal cases, if the punishment be not specifically determined by law, the jury shall determine it. In equity causes, either party may demand a jury. The judges of both courts may be removed by the governor on the address of two-thirds of each house; or, upon impeachment, to be tried by the Senate. There is also in each county a County Court, sitting once a month, as a Court of Ordinary, and once in three months for the transaction of county business. Justices of the Peace, with jurisdiction to the amount of \$100, are elected in precincts for two years. Among the provisions of the constitution, the following are the most important: Any person concerned in a duel, sending or accepting a challenge, shall be ineligible to any public office; grants of money for private purposes, or for internal improvement, must be made by two-thirds of both houses; a wife's property, both real and personal, acquired before or after marriage, shall be her separate property; a homestead of not more than 200 acres, not included in a town or city, or city and town lots, worth not more than \$2,000, shall not be subject to forced sale for any debt hereafter contracted; no corporation shall be created, renewed, or extended, with banking or discounting privileges; private corporations can only be created by a vote of two-thirds of both houses; the State may not borrow money unless by a like vote, nor contract an aggregate amount of debt of more than \$100,000, except in case of war, invasion, or insurrection; no law shall be passed to emancipate slaves, except by their owners' consent, and after paying a full compensation for them; emigrants to the State shall not be prevented from bringing their slaves with them, but the importation of slaves as merchandise may be forbidden; laws may be passed obliging masters to treat their slaves with humanity, and to abstain from injuries to them, affecting life or limb. In case of disobedience of these laws, the slaves may be taken away, and sold for the benefit of the owners; slaves accused of higher crimes than petit larceny shall have a fair trial by jury; and any one who maliciously dismembers or deprives a slave of life, shall be punished as if he had committed the same crime on a white person, except in case of insurrection of such slave; one-tenth of the annual revenue derived from taxation shall be set aside as a permanent fund for the support of free public schools, and all public lands granted for such schools shall not be alienated in fee, nor leased for more than 20 years. The constitution may be amended on the proposal of two-thirds of both houses, which propositions shall then be published three months before the next general election; and if approved of at that election by a majority of the voters, and then ratified by two-thirds of both houses, in the next Legislature, they shall be valid, and form part of the constitution.

Finances, Debt, etc.—According to the Comptroller's report, dated 12th November, 1851, the debt of the late Republic of Texas, which has been recognized and adopted by the State, including interest, amounted ostensibly to \$12,436,991, or at par to \$6,527,278. Of the debt, \$9,647,253, or \$4,897,774, par, had been filed according to the act of 20th March, 1843, and \$2,739,738, or \$2,019,514, had not been filed, and would require further legislative action before its owners could benefit by the act of 1848. The debt is classified as follows:

	Ostensible,	Par value.
<i>First class.</i> —Audited and ascertained claims.....	\$8,557,132 92	\$3,517,321 64
<i>Second class.</i> —Sufficiently authenticated to be audited.....	962,445 12	892,767 63
<i>Third class.</i> —Not sufficiently authenticated to be audited.....	97,675 10	97,675 10

The first class embraces all consolidated funds, funded debts, treasury bonds, and audited paper, including the claims for naval vessels, loans from United States bank, etc.

The second class embraces claims not audited, but for debts contracted by the government under the sanction of law.

The third class embraces claims not provided for by law, though many of them are highly meritorious. Among them are many claims for losses sustained during the war, from the appropriation or destruction of property by the Texan army or that of the enemy.

The act of Congress of 9th of September, 1850, provided that, as an indemnity for lands ceded by that act, for public property ceded by annexation, and for relinquishment for all claims upon the federal treasury, the United States should pay to Texas \$10,000,000 in 5 per cent. stock, redeemable at the end of fourteen years, with interest, payable half yearly; \$5,000,000 of this stock was not to be issued "until the creditors of the State holding bonds and other certificates of stock of Texas, for which duties on imports were specially pledged, shall first file in proper form, at the Treasury of the United States, releases of all claims against the United States on account of said bonds or certificates." The executive of the United States has decided "that all the public debt of Texas created prior to the act of Congress of that Republic of the 14th January, 1840, and all the debt of said Republic made receivable for all public dues, are debts of Texas, for which the duties on imports are specially pledged, and that releases of all claims against the United States for or on account of such debts, should be filed in the Treasury Department, before the President will be justified in issuing the second \$5,000,000 stock to Texas."

Besides this immense sum, the State owns nearly 200,000,000 acres of lands, and according to the census of the United States, the value of real and personal estate liable to taxation was valued at \$52,740,473.

The average annual expenses of the State government are about \$100,000, which is raised chiefly by a direct tax on assessments, and a capitation tax.

The military force of Texas consists of 19,766 men of all arms, of which 1,248 are commissioned officers, and 15,518 non-commissioned officers, musicians, artificers, and privates. Of the officers, 15 are general officers, 45 general staff-officers, 248 field officers, etc., and 940 company officers. Every white male citizen between the ages of 18 and 45 years, unless exempt by law, is liable to military duty.

Federal Representation.—In accordance with the act of 23d May, 1850, apportioning representation, Texas is entitled to two representatives in the Congress of the United States.

Education.—Primary and common schools are established in the chief towns and counties, and education is becoming universal and easy of attainment. The State has a considerable school fund, which is being constantly augmented by grants and donations. The College of Ruterville has been liberally endowed by the State, and is quite flourishing. Galveston University is also in full operation, and is very popular. There are also theological institutions in various towns, supported by the several denominations. Though in respect of educational means the State may at present occupy a secondary rank, the provisions made for its advancement insure the speedy enlargement of the sphere of their influence.

Religious Denominations.—The statistics of the several religious denominations in the State, in 1850, according to the census of that year, were as follows:

Denominations.	No. of Churches.	Church accom.	Value of Property.	Denominations.	No. of Churches.	Church accom.	Value of Property.	Denominations.	No. of Churches.	Church accom.	Value of Property.
Baptist.....	30 ..	8,075 ..	\$19,790	German Ref.	— ..	— ..	\$ —	R. Catholic....	13 ..	6,760 ..	\$79,700
Christian.....	1 ..	100 ..	150	Jewish.....	— ..	— ..	—	Swedenbo'n ..	— ..	— ..	—

—making a total of 164 churches, having accommodation for 74,495 persons, and valued as property at \$200,530. Texas forms a missionary diocese of the Protestant Episcopal Church; and also the Roman Catholic diocese of Galveston, a suffragan of the ecclesiastical province of New Orleans.

Public Libraries.—According to the report of the librarian of the Smithsonian Institution, in 1851, Texas contained but 4 public libraries, and 1,631 volumes—one State library, 1,001 volumes; one college library, 300 volumes; and two public school libraries, 330 volumes.

Periodical Press.—The whole number of periodicals published in the State, in 1850, according to the census, was 37, of which the political principles of three were "whig," and of 11 "democratic," and 23 were neutral in politics, including those devoted to literature, religion, science, etc. Of the whole number (37), 3 were issued tri-weekly, 2 semi-weekly, and 32 weekly. The aggregate circulation of the tri-weeklies was 2,500 copies at each issue, of the semi-weeklies 1,500 copies, and of the weeklies 14,837 copies. There were published—in Anderson county, 1 weekly; in Bexar (San Antonio), 2 weeklies; in Bowie, 1 weekly; in Cameron (Brownsville), 2 weeklies; in Cherokee, Calhoun, Dallas, Fannin, and Fayette, each 1 weekly; in Galveston (Galveston City), 2 tri-weeklies, 1 semi-weekly, and 1 weekly; in Harris (Houston), 1 tri-weekly and 4 weeklies; in Harrison (Marshall), 2 weeklies; in Jasper, Lamar, and Matagorda, each 1 weekly; in Rusk (Henderson), 3 weeklies; in Red River and San Augustine, each 1 weekly; in Travis (Austin), 2 weeklies; in Victoria, 1 weekly; in Walker (Huntsville), 2 weeklies; in Washington, 1 semi-weekly and 1 weekly.

Pauperism.—The whole number of paupers relieved or supported within the year ending 1st June, 1850, was 7, all natives, and the whole number of paupers at that date was 4. Cost of support, etc., \$493.

Historical Sketch.—The first settlements in Texas were made by the French at Matagorda; but the settlers were soon after expelled by the Spaniards, who, in 1690, extended their borders from New Spain over the whole territory. Previous to this time the Indians held undisputed sway over this fine country. Spanish forces were stationed at Goliad, Bexar, Nacogdoches, etc., and held military possession until the revolution which overthrew the Spanish power in Mexico. On the consummation of Mexican independence, Texas became, in connection with the adjoining State of Coahuila, a province of the Republic. Soon after this period, several colonies of Americans, who had been invited into the territory by the Mexicans, settled in the eastern section, and were for a long time secured from the onerous burdens of Mexico Proper. Previous to 1835, however, serious complaints against the central government, now a consolidated republic, were uttered, and in the following year open rebellion was rife. The Mexican President invaded Texas with a large army, and was successively victorious and defeated in numerous skirmishes. The American settlers declared their independence in March, 1836, and the defeat of the Mexicans and capture of Santa Anna, at San Jacinto, 21st April, 1836, secured to the patriot party the acknowledgment of their assumption by that leader, and the whole of the country east of the Rio Grande was acceded to them. The acts of Santa Anna, however, were never confirmed by the Senate, and of course their authority was, to say the least, equivocal. No serious attempts having been made by the Mexicans to regain Texas for eight or nine years, the political nationality of the country was considered as consolidated, and in 1845, the United States of America admitted the young republic as a State of the Union. The consequences of this act was war with Mexico—a war which the United States virtually assumed by the annexation, at a time when Texas was in a state of war with Mexico. The history of this war is recent and well known. The arms of the United States were everywhere victorious; and when peace returned, not Texas alone, but New Mexico and California Alta were parceled off to the Americans, and forever lost to the Mexican Republic. The joint resolutions of Congress, admitting Texas into the Union, were signed by the President of the United States, on the 1st March, 1845, and ratified by the Congress of Texas, on the 4th July of the same year. The State Government was organized on the 19th Feb., 1846. The boundary between New Mexico and Texas, the latter of which claimed the line of the Rio Grande, was adjusted by compromise in 1850.

AUSTIN CITY is the political capital of the State.

TEXAS county, Mo. Situate toward the S., and contains | Big Piney fork of Gasconade r. Surface varied, in parts
1,247 sq. m. Drained by head branches of Current r. and | being hilly, but in general it is undulating; soil fertile,
850

Chief productions, wheat and Indian corn; it is also favorable to the growth of tobacco. Timber is abundant. It contains some minerals. Farms 232; manuf. 15; dwell. 394, and pop.—wh. 2,270, fr. col. 0, sl. 42—total 2,312. *Capital*: Houston.

TEXAS, p. o., Washington county, *Ind.*: 84 miles S. Indianapolis.

TEXAS, p. o., Randolph co., *Ill.*: 216 m. S. Springfield.

TEXAS, p. v., Oswego co., *N. Y.*: on Salmon r., near its entrance into Lake Ontario, 140 m. W. N. W. Albany.

TEXAS, p. o., Lycoming county, *Penn.*: 75 m. N. by W. Harrisburg.

TEXAS, p. o., Henry county, *Ohio*: 101 m. N. W. by N. Columbus.

TEXAS VALLEY, p. o., Cortlandt co., *N. Y.*: 121 W. by S. Albany.

THAMES river, New London co., *Conn.*: formed by the junction of the Quinnebaug, Shetucket, and Yantic rivers, near Norwich, from which it flows S., and empties into Long Island Sound below New London. It is navigable to Norwich, 14 miles.

THEBES, p. v., and cap. Alexander co., *Ill.*: on E. bank of Mississippi r., 176 m. S. Springfield. It contains the county buildings, etc., and has many facilities for commerce.

THE CORNERS, p. o., Ulster county, *N. Y.*: on Esopus cr., 33 m. S. S. W. Albany.

THE FORKS, p. o., Somerset co., *Me.*: on W. side of Kennebec r., at junction of Dead r., 73 m. N. by W. Augusta.

THE GLEN, p. o., Warren co., *N. Y.*: 63 m. N. by W. Albany.

THE GULPH, p. o., Chatham county, *N. Car.*: 38 m. W. Raleigh.

THE NARROWS, p. o., Crawford county, *Ark.*: 120 m. N. W. by W. Little Rock.

THEOLOGICAL SEMINARY, p. o., Fairfax co., *Virg.*: 95 m. N. Richmond. The Episcopal Theological School of Virginia is located here, and in 1850 had 4 professors and 32 students. The library contains about 5,000 volumes.

THE PLAINS, p. o., Fauquier co., *Virg.*: 91 m. N. by W. Richmond.

THE PURCHASE, p. o., Westchester co., *N. Y.*: 114 m. S. Albany.

THERESA, t. and p. v., Dodge county, *Wis.*: 57 miles N. E. by E. Madison. The village is on the N. side of Rock river.

THERESA, t. and p. v., Jefferson co., *N. Y.*: 152 m. N. W. Albany. Surface uneven and broken. Drained by Indian r., on which is the v., containing about 200 inhabitants. Pop. of t. 2,342.

THE SQUARE, p. o., Cayuga co., *N. Y.*: 150 m. W. by N. Albany.

THETFORD, t. p. v., and sta., Orange co., *Verm.*: on the W. side of Connecticut r., 37 m. S. E. by E. Montpelier. Surface uneven and rough. The t. is well watered by Ompomponoosic r. and branches, which afford water-power, and also contains several ponds, one of which is very deep, without inlet or outlet, and noted for abundance of fish. The t. contains 3 villages. The central v. contains a church, an academy, several stores, etc. The Connecticut and Passumpsic Rivers R. R. runs along the Connecticut r., having stations at Thetford and North Thetford. Pop. of t. 2,010.

THETFORD, t. and p. o., Genesee county, *Mich.*: 53 m. N. E. by E. Lansing. Drained by branches of Upper Saginaw and Flint rivers. Pop. 363.

THE VILLAGE, p. o., Point Coupee par., *La.*: 36 m. N. W. Baton Rouge.

THIBODEAUX, p. v., and cap. La Fourche par., *La.*: at junction of Blue and La Fourche bayoux. It contains the county buildings and 3 churches. The "Minerva" (whig) is published weekly. The New Orleans, Opelousas, and Texas R. R. will pass through this place. Pop. about 1,000.

THICKET FORK, p. o., Spartanburgh dist., *S. Car.*: 80 m. N. W. Columbia.

THYENEER, p. o., Gallia county, *Ohio*: 88 m. S. S. E. Columbus.

THOMAS county, *Ga.* Situate S. toward the W., and contains 1,348 sq. m. Ochlockonee river enters it in the N. W., and passes centrally through it, by which and its branches, and by branches of Withlachoochee, it is drained. Surface level; soil fertile, and produces cotton, rice, and corn, in abundance. Apples, oranges, and lemons, etc., are grown, and pine and other timber-abounds. Farms 534; manuf. 6; dwell. 835, and pop.—wh. 4,943, fr. col. 4, sla. 5,156—total 10,103. *Capital*: Thomasville. *Public Works*: Brunswick and Florida R. R., and Branch to Tallahassee.

THOMAS, sta., Burke co., *Ga.*: on the Augusta and Wayneboro' R. R., 36 m. S. from Augusta.

THOMASTON, p. v., and cap. Upson county, *Ga.*: 69 m. W. by S. Milledgeville. It contains the court-house and jail, an academy, 2 churches, stores, etc. Pop. about 180.

THOMASTON, t. and p. v., Lincoln co., *Me.*: on E. side of St. George's r., 36 m. S. E. Augusta. This t. contains an abundance of limestone, from which 300,000 casks of lime are annually made. The Maine State prison here located has spacious and commodious buildings, with 10 acres of ground attached. The prisoners are extensively employed in cutting granite. Large ships come up to this t., 12 m. from the ocean. The "Lincoln Miscellany" is issued semi-weekly. Pop. of t. 2,723.

THOMASTOWN, p. v., Leake co., *Miss.*: on W. bank of Goehamockany cr., 51 m. N. E. by N. Jackson.

THOMASVILLE, p. v., and cap. Thomas co., *Ga.*: 169 m. S. by W. Milledgeville. The projected Brunswick and Florida R. R. will pass through this place, with which the N. extension of the Tallahassee and St. Mark's R. E. will here connect. It contains the county buildings, etc., and is a village rapidly rising into commercial importance.

THOMASVILLE, p. v., Oregon co., *Mo.*: 125 m. S. S. E. Jefferson City.

THOMASVILLE, p. v., Robertson county, *Tenn.*: 28 m. N. Nashville.

THOMPSON, t., p. v., and sta., Windham co., *Conn.*: 46 m. E. N. E. Hartford. Drained by French, Quinnebaug, and Five-mile rivers, which afford good water-power. On their banks are the manufacturing villages of Thompson, Mousville, Fisherville, Wilsonsville, and New Boston, all of which, except New Boston, are on the Norwich and Worcester R. R. The t. is large, with hilly surface, and fine grazing soil. Pop. in 1840, 3,535; in 1850, 4,638.

THOMPSON, p. v., Columbia co., *Ga.*: on the Georgia R. E., 38 m. W. from Augusta, 56 m. N. E. by E. Milledgeville.

THOMPSON, t. and p. o., Geauga co., *Ohio*: 149 m. N. E. Columbus. Pop. 1,211.

THOMPSON, t., Seneca co., *Ohio*: situate in N. E. corner of the co., 84 m. N. Columbus. The Mad River and Lake Erie R. R. crosses it, 23 m. S. S. W. Sandusky. Pop. 1,663.

THOMPSON, t. and p. o., Susquehanna co., *Penn.*: 121 m. N. by E. Harrisburg. Pop. about 400.

THOMPSON'S, p. o., Fairfield dist., *S. Car.*: 19 m. N. W. by N. Columbia.

THOMPSON'S CROSS ROADS, p. o., Louisa co., *Virg.*: on S. side of South Anna r., 31 m. N. W. Richmond.

THOMPSON'S STATION, p. o., and sta., Suffolk co., *N. Y.*: on Long Island R. R., 41 m. E. from New York.

THOMPSON'S STORE, p. o., Guilford co., *N. Car.*: 72 m. W. N. W. Raleigh.

THOMPSONTOWN, p. v., Juniata co., *Penn.*: on N. side of Juniata r., and on Canal, 29 m. N. W. Harrisburg.

THOMPSONVILLE, p. v. and sta., Hartford co., *Conn.*: on E. bank of Connecticut r., and on New Haven and Springfield R. R., 18 m. N. by E. Hartford. It contains a carpet factory, which employs 400 operatives.

THOMPSONVILLE, p. o., Racine co., *Wis.*: 44 m. E. S. E. Madison.

THOMPSONVILLE, p. v., Sullivan co., *N. Y.*: on small branch of Delaware r., 57 m. S. W. by S. Albany. Pop. about 200.

THOMPSONVILLE, p. o., Washington co., Ky.: 33 m. S. S. W. Frankfort.

THOMPSONVILLE, p. o., Culpepper co., Virg.: on N. side of branch of Rapid Ann r., 75 m. N. N. W. Richmond.

THOM'S creek, Colusa co., Calif.: flows E., and enters the Sacramento r., at Tebama village.

THORNBERG, p. v., Spottsylvania county, Virg.: 46 m. N. N. W. Richmond.

THORNBURY, t. and p. o., Chester county, Penn.: 67 m. E. Harrisburg. Drained by Chester cr. and Brandywine r.

THORNDIKE, p. v., Hampden co., Mass.: on S. bank of Chicopee r., 66½ m. W. by S. Boston. A manufacturing v., with superior water-power.

THORNDIKE t. and p. o., Waldo co., Me.: 84 m. N. E. by E. Augusta. Drained by Sebasticook r. Pop. 1,029.

THORN HILL, p. o., Walker co., Ala.: 132 m. N. N. W. Montgomery.

THORN HILL, p. o., Grainger county, Tenn.: 192 m. E. Nashville.

THORN HILL, p. o., Orange co., Virg.: 50 m. N. W. by N. Richmond.

THORNLEYSVILLE, p. v., Boone co., Ind.: 18 m. N. W. Indianapolis.

THORNTON, t. and p. o., Cook co., Ill.: on N. side of Thorn cr., 153 m. N. E. Springfield. Pop. about 400.

THORNTON, t. and p. v., Grafton co., N. Hamp.: 57 m. N. by W. Concord. Surface uneven; watered by Penigewasset river. On Mill brook there is a cascade, at which the water first falls 7 feet in 2 rods, and then falls over a rock 42 feet perpendicularly. Pop. of t. 1,012.

THORNTON, p. v., Delaware co., Penn.: 76 m. E. by S. Harrisburg.

THORNTON'S FERRY, p. o. and sta., Hillsboro' county, N. Hamp.: on W. bank of Merrimac r., and on Concord R. R., 6 m. from Nashua, 29 m. S. from Concord.

THORNTON'S MILLS, p. o., Rappahannock co., Virg.: 85 m. N. N. W. Richmond.

THORNTOWN, p. v. and sta., Boone co., Ind.: on N. side of Prairie cr., near its junction with Sugar cr., and on Lafayette and Indianapolis R.R.: 37 m. N. W. from Indianapolis. The v. contains about 550 inhabitants.

THORNVILLE, p. v., Perry co., Ohio: 36 m. E. by S. Columbus. On the Scioto and Hocking Valley R. R.

THOROUGHFARE, p. v. and sta., Prince William co., Virg.: 88 m. N. by W. Richmond. The Manassas Gap R. R. passes through it. It has flouring-mills in the vicinity, on Broad run, which affords good water-power.

THOUSAND ISLANDS, N. Y.: situated in the St. Lawrence r., a little below Lake Ontario. The American portion of them belongs to Jefferson co., and the remainder to Canada. The St. Lawrence is here from 2 to 9 m. wide. The number of these islands, many of which are very small indeed, is said to exceed 1,500. within the distance of 27 m. The largest belonging to the United States are Carlton, Grindstone, and Wells islands; and of those belonging to Canada, the largest are Grand and Howe islands. They are generally covered with cedar and hemlock to the water's edge; and many are so close together, that a canoe can hardly pass between.

THREE FORKS, p. o., Barren co., Ky.: 96 m. S. W. Frankfort.

THREE FORKS, p. o. Wilson co., Tenn.: 35 m. E. Nashville.

THREE FORKS, p. o., Taylor county, Virg.: 185 m. N. W. Richmond.

THREE MILE BAY, p. o., Jefferson county, N. Y.: 160 m. N. W. by W. Albany.

THREE RIVERS, p. v., St. Joseph's co., Mich.: on St. Joseph's r., near the junction of Portage r. and Rocky cr.; 74 m. S. W. Lansing. The St. Joseph's r. is navigable to this place for boats of 30 tons.

THREE RIVERS, p. o., Polk co., Ia.: 96 m. W. Iowa City.

THREE RIVERS, p. v. and sta., Hampden co., Mass.: on Chicopee r., near junction of Ware and Swift rivers, 66 m. W. by S. Boston. The Amherst and Belchertown R. R. passes through it, 3 m. from Palmer, 17 m. from Amherst.

THREE ROADS, p. o., Cambria co., Penn.: 95 m. W. by N. Harrisburg.

THREE SPRINGS, p. o., Hart county, Ky.: 83 m. S. W. Frankfort.

THREE SPRINGS, p. o., Huntingdon co., Penn.: 55 m. W. Harrisburg.

THREE SPRINGS, p. o., Washington co., Virg.: 253 m. W. by S. Richmond.

THROG'S point, Westchester co., N. Y.: on S. E. point of Throg's Neck, projecting into East r., 18 m. N. E. City Hall, New York. Here is Fort Schuyler, a very strong fortification, commanding the entrance of East r. from Long Island Sound. Here also is a lighthouse. (See LIGHTHOUSES.)

THROOPSVILLE, p. v., Cayuga co., N. Y.: on Owaseo outlet, 151 m. W. by N. Albany.

THUNDER bay, Mich. This large bay sets up N. W. from Lake Huron into Alpena co., affording an excellent harbor, with 5 or 6 fathoms of water. Its waters are of reddish color. It receives Thunder Bay r., and other smaller streams. Several islands lie near the entrance of the bay.

THURMAN, p. o., Gallia county, Ohio: 55 miles S. by E. Columbus.

THURSTON, t. and p. o., Steuben co., N. Y.: 186 m. W. by S. Albany. Pop. 726.

TIARA, p. o., Montgomery co., Ala.: 13 m. S. Montgomery.

TIBBATT'S CROSS ROADS, p. o., Campbell co., Ky.: 57 m. N. E. by N. Frankfort.

TICONDEROGA, t. and p. v., Essex co., N. Y.: on both sides of outlet of Lake George; 87 m. N. by E. Albany. Surface of t. is level or rolling on the E., hilly and mountainous on the W.; soil clay loam and fertile, particularly near the lakes. The v. is situated at the lower falls, 2 m. W. of Lake Champlain. The outlet has here a descent of 30 feet, affording great water-power; it is navigable to the lower part of the v. for lake craft. The ruins of old Fort Ticonderoga are situated 2 m. below the v., on a point of land at the entrance of the outlet of Lake George into Lake Champlain. Their site is elevated about 70 feet above the lake. About 1 m. S. W. is Mount Defiance, rising 750 feet above the lake. Pop. of t. 2,669.

TIDWENTON, p. o., Warren co., Penn.: on W. side of Alleghany r., 162 m. N. W. Harrisburg.

TIFFIN, p. v., sta., and cap. Seneca co., Ohio: on Sandusky river, 76 m. N. Columbus. The Mad River and Lake Erie R. R. passes through it. It contains a court-house, jail, several churches, etc., and is the centre of considerable trade. Four weekly newspapers are published—"Seneca Whig," "Western Whig Standard," "Seneca Advertiser" (dem.), and "Northwestern Continent" (neut.) Population 2,723.

TIGEE, p. o., Rabun county, Ga.: 130 miles N. by W. of Milledgeville.

TIGER CREEK, p. o., Claiborne par., La.: 195 m. N. W. by N. Baton Rouge.

TIGRESSVILLE, p. o., Terre Bonne par., La.: at the junction of head-waters of Tiger bay, 52 m. S. by E. Baton Rouge.

TILLER'S FERRY, p. o., Kershaw dist., S. Car.: 50 m. N. E. by E. Columbia.

TILTON, p. o. and sta., Murray co., Ga.: 156 m. N. W. Milledgeville. The Western and Atlantic R. R. passes through it, 8 m. S. Dalton, and 92 m. from Atlanta.

TIMBALIER bay, La.: sets up N. W. from the mouth of Bayou La Fourche; is 30 m. long, 3 to 6 m. wide. It is shallow with sandy and muddy bottom. At its mouth are several large islands.

TIMBER, p. o., Peoria county, Ill.: 54 miles N. by W. Springfield.

TIMBER CREEK, p. o., Marshall county, Ia.: on S. side of branch of Iowa r., 72 m. W. Iowa City.

TIMBER CREEK, p. o., Hunt county, Tex.: 7 m. E. by S. Greenville, 228 m. N. N. E. Austin City.

TIMBER GROVE, p. o., Washington co., Virg.: 266 m. W. by S. Richmond.

TIMBER RIDGE, p. o., Union dist., *S. Car.*: 60 m. N. W. Columbia.

TIMBER RIDGE, p. o., Rockbridge co., *Virg.*: 101 m. W. by N. Richmond.

TIMBER RIDGE, p. o., Greene county, *Tenn.*: 216 m. E. Nashville.

TIMBERVILLE, p. v., Rockingham co., *Virg.*: 117 m. N. W. Richmond.

TIMONIUM, v. and sta., Baltimore co., *Md.*: on the Baltimore and Susquehanna R. R., 11 m. N. Baltimore.

TINKER KNOB, p. o., Botetourt co., *Virg.*: 145 m. W. of Richmond.

TINKER RUN, p. o., Westmoreland co., *Penn.*: 143 m. W. Harrisburg.

TINKER'S CREEK, p. o., Barnwell district, *S. Car.*: 60 m. S. S. W. Columbia.

TINMOUTH, t. and p. o., Rutland co., *Verm.*: 63 m. S. S. W. Montpelier. Surface elevated and hilly. Drained by Furnace brook. It contains marble and iron ore. Pop. 717.

TINNEY'S GROVE, p. o., Ray co., *Mo.*: 120 m. W. N. W. Jefferson City.

TINTON FALLS, p. o., Monmouth co., *N. Jer.*: on E. side of branch of Neverslun k r., 3½ m. E. by N. Trenton. This place and vicinity is of great resort in the summer.

TIoga county, N. Y. Situate centrally, and contains 456 sq. m. Drained by branches of Susquehanna r., the principal of which are E. and W. Owego creeks, and which afford good water-power. Surface diversified by hills and valleys; soil various, but fertile, consisting mostly of a gravelly loam, intermixed with clay; the uplands are adapted to grazing, and the valleys to wheat, grain, &c. There is a quantity of white pine and other valuable timber on the land. It has some minerals, and marl is found, which takes the place of lime. It also contains sulphur springs. Chief productions, wheat, Indian corn, and potatoes. Farms 2,036; manuf. 354; dwell. 4,442, and pop.—wh. 24,633, fr. col. 197—total 24,580. *Capital*: Owego. *Public Works*: New York and Erie R. R.; Cayuga and Ithaca R. R.

TIoga county, Penn. Situate N., and contains 1,056 sq. m. Tioga r. passes through the eastern portion, by which and its branches, and affluents of W. branch of Susquehanna r., it is drained. Surface pleasantly diversified, with low hills and fertile valleys. Soil fertile, and adapted to grain. Wheat and Indian corn are raised in large quantities. A part of the county is well wooded. Farms 2,189; manuf. 225; dwell. 4,222, and pop.—wh. 23,889, fr. col. 98—total 23,987. *Capital*: Wellsboro'. *Public Works*: Corning and Blossburg R. R.

TIoga, t. and p. o., Tioga co., Penn.: 110 m. N. by W. Harrisburg. Surface hilly; soil various. Drained by Tioga r. The Corning and Blossburg R. R. passes through the t.

TIoga, t., Tioga co., N. Y.: on Susquehanna r., 140 m. W. S. W. Albany. Surface hilly. Pop. 2,839.

TIoga CENTRE, p. v. and sta., Tioga co., *N. Y.*: on the Erie R. R., 252 m. from New York, 217 m. from Dunkirk.

TIONESTA, t. and p. o., Venango co., *Penn.*: on E. side of Allegheny r., 157 m. N. W. by W. Harrisburg.

TIPPAH county, Miss. Situate N. toward the E., and contains 1,037 sq. m. Drained by head branches of Tallahatchie river. Surface undulating. Farms 1,590; manuf. 26; dwell. 2,655, and population—wh. 15,808, fr. col. 5, sl. 4,928—total 20,741. *Capital*: Ripley.

TIPPECANOE county, Ind. Situate N. W., on Wabash r., and contains 504 sq. m. The interior is drained by Tippecanoe r., Wild Cat and Burnett creeks. Surface gently undulating, or spread out into extensive level tracts; along the Wabash the county is hilly. Farms 1,377; manuf. 204; dwell. 3,227, and pop.—wh. 19,218, fr. col. 159—total 19,377. —*Capital*: La Fayette. *Public Works*: New Albany and Salem Extension R. R.; Lafayette and Indianapolis R. R.; Great Western Central R. R.; Wabash and Erie Canal, &c.

TIPPECANOE, sta., Montgomery co., *Ala.*: on Montgomery and West Point R. R., 11 m. E. from Montgomery.

TIPPECANOE, p. o., Harrison county, *Ohio*: 93 m. E. by N. Columbus.

TIPPECANOE, p. o., Henderson co., *Tenn.*: 96 m. W. S. W. Nashville.

TIPPECANOE, p. o., Fayette co., *Penn.*: 145 m. W. by S. Harrisburg.

TIPPECANOE river, Ind.: rises in a lake in Kosciusko co., flows W. and then S., and empties into Wabash river, 9 m. above Lafayette. It is over 200 m. long, but is narrow and shallow, though with a permanent supply of water.

TIPTON county, Ind. Situate centrally, and contains 264 sq. m. Drained by Cicero and Duck creeks. Surface mostly level and well timbered. Farms 839; manuf. 1; dwell. 627, and pop.—wh. 3,525, fr. col. 7—total 3,532. *Capital*: Tipton. *Public Works*: Indianapolis and Peru R. R.; Newcastle and Logansport R. R.

TIPTON county, Tenn. Situate W., and contains 692 sq. m. Drained by branches of Big Hatchee and Loosahatchee rivers, both tributaries of Mississippi r., which flows on its W. border. Surface level, excepting the bluffs on the Mississippi. Soil fertile, and adapted to cotton and tobacco, which are produced in large quantities. Farms 631; manuf. 16; dwell. 813, and pop.—wh. 4,673, fr. col. 22, sl. 4,192—total 8,557. *Capital*: Covington.

TIPTON, p. v., and cap. Cedar co., *Ia.*: about 1½ m. W. of Sugar cr., a tributary of Iowa r., 20 m. E. by S. Iowa City. It is situated on a handsome prairie, and is rapidly increasing in population. The "Tipton Times" (miscel.) is published monthly.

TIPTON, p. o., Lenawee county, *Mich.*: 62 m. S. S. E. Lansing.

TIPTON, p. v., sta., and cap. Tipton county, *Ind.*: on Peru and Indianapolis R. R., 40 m. N. Indianapolis.

TIRO, p. o., Marshall co., *Miss.*: 157 m. N. by E. Jackson.

TUSCUMING county, Miss. Situate N. E., and contains 1,149 sq. m. Drained by Tuscumia and Yellow creeks, and tributaries of E. fork of Tombigbee r. Surface uneven, and on the Tennessee, which bounds it N. E., presents high bluffs. Chief productions, cotton and Indian corn. Farms 1,247; manuf. 16; dwell. 2,201, and pop.—wh. 13,523, fr. col. 1, sl. 1,961—total 15,430. *Capital*: Jacinto. *Public Works*: Mobile and Ohio R. R.

TUSKILWA, p. o., Bureau co., *Ill.*: 101 m. N. Springfield.

TRICEUR, sta., Plymouth co., *Mass.*: on S. side of Taunton river, and at Fall River R. R., 31 m. from Boston.

TITSWORTH, p. o., Madison county, *Ark.*: on N. side of Richland cr., 125 m. N. W. Little Rock.

TRUEBOY, p. o., Greenville district, *S. Car.*: 90 m. N. W. Columbia.

TRUSS county, Tex. Situate N. E., and contains 1,143 sq. m. Drained by White Oak bayou, and affluents of Big Cypress river, which flows on its S. border. Farms 269; manuf. 4; dwell. 548, and pop.—wh. 3,163, fr. col. 1, sl. 468—total 3,636. *Capital*: Mount Pleasant.

TRUSSVILLE, p. v. and sta., Mercer county, *N. Jer.*: on Berdine Delaware R. R., 9½ m. N. W. Trenton.

TRUSSVILLE, p. o., Crawford co., *Penn.*: 171 m. N. W. by W. Harrisburg.

TIVERTON, t. and p. o., Coshocton co., *Ohio*: 52 m. N. E. Columbus. Drained by Walhonding r. Pop. 842.

TIVERTON, t. and p. v., Newport co., *R. I.*: 13 m. N. E. by E. Newport, and 13 m. S. E. by S. Providence. Bounded W. by the E. passage of Narragansett bay and Mount Hope bay, which afford great facilities for navigation. Surface gently uneven; soil gravelly loam, and fertile. It contains several ponds, abounding with fish, the outlets of which afford water-power. It is connected with Rhode Island by a stone bridge 1,000 feet long. The v. and t. contain numerous factories, chiefly of calicoes, cotton batting, thread, coarse yarn, cassimeres, and tweeds. The v. contains 1 bank, capital \$200,000, has considerable coasting trade, and is somewhat engaged in the fisheries. Pop. of t. in 1840, 8,189; in 1850, 4,699.

TIVERTON FOUR CORNERS, p. v., Newport co., *R. I.*: 9 m. N. E. Newport, 21 m. S. E. by S. Providence.

TIVOLI, p. v. and sta., Duchess co., *N. Y.*: on E. side of Hudson r., 44 m. from Albany.

TIVOLI, p. o., Dubuque county, *Ia.*: 64 m. N. N. E. Iowa City.

TOBACCO PORT, p. v., Stewart co., *Tenn.*: on N. E. side of Cumberland r., 69 m. W. N. W. Nashville.

TOBACCO ROW, p. o., Amherst county, *Virg.*: 94 m. W. Richmond.

TOBACCO STICK, p. o., Dorchester co., *Ms.*: 88 m. S. S. E. Annapolis.

TOBEY'S, station, Bristol county, *Mass.*: on Boston and Providence R. R., 17 miles from Providence, 26 miles from Boston.

TOCOA FALLS, p. o., Habersham co., *Ga.*: 106 m. N. Milledgeville.

TOCCOPOLA, p. o., Pontotoc county, *Miss.*: 147 m. N. N. E. Jackson.

TODD county, *Ny.* Situate S. toward the W., and contains 362 sq. m. Drained by Elk fork of Red r., which flows into Cumberland r. and tributaries of Green r. Surface even. Farms 930; manuf. 28; dwell. 1,316, and pop.—wh. 7,361, fr. col. 97, sl. 4,819—total 12,268. *Capital*: Elkton.

TODD, t. and p. o., Huntingdon co., *Penn.*: 56 m. W. Harrisburg. It contains a furnace, forge, and numerous mills. Pop. about 900.

TODD'S, p. o., Spotsylvania county, *Virg.*: 43 m. N. N. W. Richmond.

TODD'S CREEK, p. o., Platte co., *Mo.*: 148 m. W. N. W. Jefferson City.

TODDSVILLE, p. o., Otsego county, *N. Y.*: 70 m. W. Albany.

TOGUS SPRINGS, p. o., Kennebec county, *Me.*: 5 m. S. E. Augusta.

TOMOPEKATTOG lake, Orange co., *Flor.*: near S. boundary line of the co., 12 m. long, 5 m. wide, and connected with Lake Kissimee.

TOLAND PRAIRIE, p. o., Washington county, *Wisc.*: 52 m. E. by N. Madison.

TOLEDO, p. o., Union county, *Ill.*: 152 miles S. by E. Springfield.

TOLEDO, p. city, and port of entry, Lucas co., *Ohio*: on W. bank of Maumee r. 5 m. from its entrance into Maumee bay, 117 m. N. by W. Columbus. The built portion of the city extends for more than a mile along the bank of the river, but it is most compact at its upper and lower extremities or landings, which were originally two distinct settlements, called Port Lawrence and Vistula. The rapidly increasing population is fast filling up with houses, whatever of ground remains unoccupied between these points. The city contains many fine blocks of warehouses, stores, and dwellings, with some handsome public buildings, and numerous churches. Its settlement was commenced about 1831; and it was incorporated as a city in 1836. It has had a very rapid growth, chiefly developed from its connection with the Wabash and Erie canal, which extends from Manhattan, 4 miles below Toledo, to Evansville, Indiana, on the Ohio river, 467 m. The railroads here centering are, Toledo, Norwalk, and Cleveland R. R., 111 miles; Erie and Kalamazoo R. R. to Adrian, 82 m.; Dayton and Michigan R. R.; and the Junction R. R., to Cleveland *via* Sandusky.

The total tonnage of Miami district, of which Toledo is the port of entry, on June 30th, 1850, was 2,629 tons, all permanent and employed in the coasting trade; of which 539 tons were propelled by steam. The total tonnage of same on June 30, 1851, was 3,286 tons; of which 1,153 tons were propelled by steam. During the year ending June 30th, 1850, it had no foreign commerce or ship-building. The following exhibits the value of the total amounts of imports and exports during the years mentioned.

Year.	Imports.	Exports.	Total Commerce.
1847.....	\$4,083,985.....	\$3,848,248.....	\$7,882,233
1848.....	7,852,021.....	5,263,464.....	13,115,485
1851.....	22,987,772.....	7,847,808.....	30,835,580
1852.....	37,565,029.....	19,738,923.....	57,303,952

The value of the principal articles in the above, during the year 1852, were as follows:

IMPORTS COASTWISE.			
Salt.....	\$235,523	Nails.....	\$70,171
Lumber, pine.....	200,592	Iron.....	64,291
R. R. Iron.....	1,793,275	Stoves, etc.....	93,192
Car wheels, etc.....	136,185	Hardware.....	465,000
Locomotives.....	196,000	Marble.....	174,760
R. R. cars.....	42,650	Leather.....	441,600
R. R. materials.....	120,120	Sugar.....	171,612
Machinery.....	52,750	Molasses.....	228,505

EXPORTS COASTWISE.			
Wheat.....	\$2,250,092	Beef.....	\$187,990
Flour.....	504,083	Tallow.....	186,665
Corn.....	2,177,154	Spirits.....	456,484
Pork.....	702,162	Tobacco.....	120,925
Hams.....	575,610	Butter.....	44,786
Bacon.....	194,750	Staves.....	96,900
Lard.....	482,958	Pearl and potashes.....	137,425
Lard oil.....	107,112	Oil cake.....	98,816
Live Hogs.....	336,798	Wool.....	190,893
Cattle.....	111,640	Furs.....	210,000

The amount of duties collected at this port during 1852, on goods entered here, and on articles entered at New York and brought here in bond, was \$30,001 88. The arrivals and departures during 1852, were as follows:

Vessels.	Arrivals.		Departures.	
	Number.	Tonnage.	Number.	Tonnage.
Steam.....	926.....	494,111.....	928.....	495,021
Sail.....	1,127.....	179,182.....	1,129.....	179,597

Total..... 2,053..... 673,293..... 2,057..... 674,618
The British tonnage in the above, consisted of 1 steam vessel, 156 tons, and 10 sail vessels, 1,001 tons.

The increase of the total number of vessels and their tonnage, which entered and cleared from Toledo, during 1852, over 1851, was as follows:

Year.	Vessels.	Tonnage.		Total
		Steam.	Sail.	
1851.....	3,212.....	579,076.....	259,758.....	838,834
1852.....	4,110.....	989,182.....	358,779.....	1,347,911

Increase... 898..... 410,056..... 99,021..... 509,077
The total tonnage arriving at, and departing from, Toledo by the Wabash and Erie canal, during 1850, was 184,400 tons, and during 1851, 250,000 tons. Of this, by far the largest quantities brought to Toledo were those of wheat, flour, and corn; and of those sent from Toledo, the largest was railroad iron, of which the amount cleared in 1851, was 13,589,921 pounds; and in 1852, 41,933,592 pounds. The increase of grain, flour, and pork brought by the canal from the interior during 1852, was 50 per cent. over the amounts brought during 1851. The receipts of grain and other produce brought by railroad during 1852, were more than twice the amounts in 1851, or any year preceding; and this was also the case with the receipts by wagon. Toledo promises to long retain its present pre-eminence over the other lake ports, as the leading market and exporting town of the great staples of N. W. Ohio.

The city is divided into 4 wards of nearly equal population. Its newspaper press in 1850 consisted of the "Toledo Blade" (whig), and "Toledo Republican" (free-soil dem.), each issuing daily, tri-weekly, and weekly editions. Pop. in 1840, 1,222; in 1850, 3,519; in 1853, 6,512.

TOLEES, p. o., Amité co., *Miss.*: 94 m. S. S. W. Jackson.
TOLERVILLE, p. v. and sta., Louisa county, *Virg.*: 40 m. N. W. by N. Richmond. By Virginia Central R. R., which passes through it, 56 m. from Richmond.

TOLESBORO', p. o., Lewis county, *Ky.*: 90 m. E. by N. Frankfort.

TOLLAND county, *Conn.* Situate N., inclining to the E., and contains 837 sq. m. Drained by Willimantic, Hop, Hockanum, Salmon, and Seantice rivers, and their affluents, which afford good water privileges. Farms 1,943; manuf. 241; dwell. 3,741, and pop.—wh. 19,946, fr. col. 145—total 20,091. *Capital*: Tolland. *Public Works*: New London, Willimantic, and Palmer R. R.; Hartford, Providence, and Fishkill R. R.

TOLLAND, t. p. v., and cap. Tolland county, *Conn.*: 18 m. N. E. by E. Hartford. Surface rough and hilly; soil rather sterile, but fertile in the valleys. Drained by Willimantic r., which bounds it on the E., and by head branches of Hop r. Snipsic Pond, on its N. W. border, is 2-m. long and $\frac{1}{2}$ m. wide. The v., situated on an elevated plain, contains a court-house, jail, 1 bank, cap. \$51,000, 1 savings bank, with permanent deposits of over \$125,000, 1 insurance company, cap. \$253,000, and 3 churches. The New London, Willimantic, and Palmer R. R., runs on the N. E. border of the t., having a station 45 m. from New London 21 m. from Palmer. Pop. of t. 1,410.

TOLLAND, t. and p. v., Hampden co., *Mass.*: on E. side of Farmington r., 103 m. W. by S. Boston. Surface elevated; soil best adapted to grazing. The inhabitants are chiefly engaged in farming. The v. at the centre is neatly built, and contains a Congregational church. Pop. of t. 594.

TOLL GATE, p. o., Marion co., *Ala.*: on W. side of Butta-hatchee r., 156 m. N. W. Montgomery.

TOMAHAWK, sta., Powhattan co., *Virg.*: on Richmond and Danville R. R., 17 m. W. by S. Richmond.

TOMAHAWK SPRING, p. o., Berkeley county, *Virg.*: 133 m. N. by W. Richmond.

TOMBIGBEE river, *Miss.* and *Ala.*: rises by several sources in Tishemingo county, Miss., flows S., receiving numerous creeks, and bending to the E., enters Pickens county, Ala. In the N. part of Marengo co., it receives from the N. E. the Black Warrior r., nearly as large as itself, and thence flows S. in a meandering course, until it unites with Alabama r. to form Mobile r., 45 m. above Mobile. During nine months in the year, it is navigable for large vessels to St. Stephens, and for steamboats to Columbus, Miss.

TOM COEWIN, p. o., Allemaque co., *Pa.*: about 2 m. W. of the Mississippi, 96 m. N. by E. Iowa City.

TOMHANNOCK, p. o., Rensselaer county, *N. Y.*: 22 m. N. E. by N. Albany.

TOMOLTA, p. o., Cherokee co., *N. Car.*: 297 m. W. by S. Raleigh.

TOMPKINS county, *N. Y.* Situate W. centrally, and contains 550 sq. m. Drained by Fall, and Six Mile creeks, and Cayuga inlet, all of which enter Cayuga lake in their course, having considerable falls, and supplying good water privileges. Surface uneven; soil fertile, well adapted in the hilly portions to grazing, and in the valleys to grain, fruits, etc. The growth of wool is much attended to by the farmers. Its commerce is good, and it exports considerably. Chief products, wheat, Indian corn, and potatoes. It has some minerals, and marl and gypsum in abundance, also 2 or 3 sulphur springs. Farms 3,193; manuf. 454; dwell. 7,163, and pop.—wh. 38,440, fr. col. 298—total 38,738. *Capital*: Ithaca. *Public Works*: Cayuga and Ithaca R. R.

TOMPKINS, t. and p. o., Jackson county, *Mich.*: 24 m. S. Lansing. Drained by Grand r. and Sandstone cr., a branch of same. The inhabitants are mainly engaged in farming. It has 1 steam saw-mill. Pop. in 1840, 219; in 1850, 623.

TOMPKINSVILLE, p. o., Choctaw co., *Ala.*: on W. side of Tombigbee r., 165 m. W. by S. Montgomery.

TOMPKINSVILLE, p. v., and cap. Monroe county, *Ky.*: on small branch of Big Barren r., 111 m. S. S. W. Frankfort. It contains the county buildings, etc. Pop. about 240.

TOMPKINSVILLE, p. v., Richmond county, *N. Y.*: on N. E. part of Staten Island, 64 miles S. W. by S. City Hall, New York, 140 m. S. by W. Albany. It occupies a very beauti-

ful site, overlooking New York bay, the Narrows, etc., and contains many fine residences, with 3 churches, etc. Steam ferry boats ply hourly to New York. It is chiefly noted for containing the Quarantine Station of New York. The ground appropriated for the purposes of a lazaretto has a frontage on the bay of about 1,400 feet, and extends back 1,200 feet. It is inclosed by a high brick wall, and includes suitable hospitals for the sick, and offices for physicians and others employed at the quarantine. The largest hospital, that for fever patients, is nearest the water; it is constructed of brick, 3 stories high, 136 feet long by 28 feet wide. The hospital for convalescents, on rising ground above, is of brick, 3 stories high, 50 feet long, 45 feet high, with 2 wings 66 by 26 feet each. The small-pox hospital is 2 stories high, 80 feet long, 28 feet wide, and generally has the largest number of patients. There are other hospital buildings for various diseases, all of which are built of brick, with open galleries.

TOM'S BROOK, p. v., Shenandoah county, *Virg.*: 118 m. N. N. W. Richmond.

TOM'S CREEK, p. o., Surry co., *N. Car.*: on creek of same name, 118 m. W. N. W. Raleigh.

TOM'S RIVER, p. v., and cap. Ocean co., *N. Jer.*: on Tom's r., at head of Tom's r. bay, 35 m. S. E. by E. Trenton.

TOMSVILLE, p. v., Chester dist., *S. Car.*: on N. side of branch of Broad r., 58 m. N. by W. Columbia.

TONAWANDA, t. p. v., and sta., Erie co., *N. Y.*: 269 m. W. by N. Albany. Surface of t. level; soil fertile. Drained by Tonawanda creek. Grand island belongs to this town. The village is situated on E. side of Niagara r., at mouth of Tonawanda creek. Through it pass the Erie Canal; Buffalo and Niagara Falls R. R., 11 m. from Buffalo, and 11 miles from Niagara Falls; and the Buffalo and Lockport R. R. From the dam here in the creek there are outlet locks to Niagara river. It has a good harbor for steamboats and other vessels. Considerable manufacturing is carried on. The "T. Commercial" (neut.) is published weekly. Pop. of t. in 1840, 1,261; in 1850, 2,072.

TOXTINE, p. o., Steuben county, *N. Y.*: 188 m. W. by S. Albany.

TOOELE county, *Utah Ter.* Extends from the W. boundary of Salt Lake and Utah counties to the Californian line, and contains about 15,000 sq. m. It is crossed by Humboldt and other mountains, and in the W. are Mud and Humboldt lakes, which receive many streams, but have no outlets. It is a fine farming region. Farms 27; manuf. 0; dwell. 33, and pop.—wh. 152, fr. col. 0, sl. 0—total 152. *Capital*: Tooele City.

TOOELE, p. v., and cap. Tooele co., *Utah Ter.*: 30 m. W. Salt Lake City.

TOOLEY'S, p. o., Concordia parish, *La.*: 76 miles N. N. W. Baton Rouge.

TOOLSBORO', p. o., Louisa co., *Pa.*: 42 m. S. E. by S. Iowa City.

TOOL'S POINT, p. o., Jasper co., *Pa.*: 72 m. W. Iowa City. TOOMSBORO', p. o., Wilkinson county, *Ga.*: 20 miles S. Milledgeville.

TOPSAIL SOUND, p. o., New Hanover co., *N. Car.*: 106 m. S. S. E. Raleigh.

TOPSFIELD, t. and p. v., Washington county, *Me.*: 131 m. N. E. Augusta. Pop. of t. 263.

TOPSFIELD, t. and p. v., Essex co., *Mass.*: 20 m. N. by E. Boston. Surface diversified. Drained by Ipswich r. First settled in 1639; incorporated in 1650. The village contains a church, academy, and some handsome dwellings. Boots and shoes are among the principal manufactures. Population of t. 1,171.

TOSHAM, t. p. v., and one of the caps. Lincoln co., *Me.*: 28 m. S. S. W. Augusta. Bounded E. by Kennebec river and S. and W. by the Androscoggin, which affords great water-power, and extensive facilities for navigation and ship-building. Saw-mills are numerous, and lumber is largely exported. The v. contains a court-house, 1 bank,

cap. \$50,000, churches, etc. Through it passes the Kennebec and Portland R. R., 28 miles from Portland, 32 m. from Augusta. It is connected by a substantial bridge with Brunswick, situated on the opposite side of the Androscoggin. Pop. of t. in 1840, 1,888; in 1850, 2,010.

TOPSHAM, t. and p. v., Orange county, *Verm.*: 20 miles S. E. by E. Montpelier. Surface elevated, uneven, and stony. Watered by head branches of Wait's r., which furnish water-power to numerous mills. The t. also contains several tanneries, and other manufactories. Granite is found abundantly. First settled in 1781. Pop. 1,668.

TORBIT'S STORE, Chester district, *S. Car.*: 42 miles N. Columbia.

TORCH, p. o., Athens co., *Ohio*: 69 m. S. E. Columbus.

TORO, p. o., Sabine parish, *La.*: 162 m. W. N. W. Baton Rouge.

TORONTO, p. o., Vermillion county, *Ind.*: 65 miles W. Indianapolis.

TORRINGFOED, p. v., Litchfield co., *Conn.*: 22 m. W. by N. Hartford.

TORRINGTON, t. and p. v., Litchfield county, *Conn.*: 26 m. W. by N. Hartford. Surface uneven. Drained by Naugatuck river and its branches. The Naugatuck R. R. passes through its E. part, having stations at the flourishing manufacturing v. of Wolcottville (which see), and at Burrville. Burrville contains a large tannery, and furnishes large quantities of agricultural and dairy productions, considerable timber and brick. Pop. of t. in 1840, 1,707; in 1850, 1,916.

TOSNOT, sta., Edgecombe co., *N. Car.*: on Wilmington and Weldon R. R., 105 miles from Wilmington, 54 m. from Weldon.

TOTTON'S WELLS, p. o., Obion county, *Tenn.*: 126 miles W. by N. Nashville.

TOTTENVILLE, p. v., Richmond co., *N. Y.*: 143 m. S. by W. Albany.

TOTTY'S BEND, p. o., Hickman county, *Tenn.*: 43 miles S. W. by W. Nashville.

TOULMINVILLE, v. and sta., Mobile co., *Ala.*: on Mobile and Ohio R. R., 8 m. N. by W. Mobile. It is of much resort in summer from Mobile, etc.

TOULON, p. v., and cap. Stark co., *Ill.*: 85 m. N. by W. Springfield. Situated on the border of a prairie, near the head of a small stream; it is a pleasant, healthy place, containing the county buildings, etc.

TOWALLIGA, p. o., Butts county, *Ga.*: 45 m. W. N. W. Milledgeville.

TOWANDA, t. p. b., and cap. Bradford co., *Penn.*: on W. side of Susquehanna r. and N. side of Towanda cr., 100 m. N. by E. Harrisburg. Surface of t. hilly; soil gravelly loam. Drained by the above streams and Sugar cr. It contains bituminous coal. The b., on the Susquehanna r., was incorporated in 1825, and contains the court-house, jail, a furnace, tannery, and other manufacturing establishments. Three newspapers are issued weekly—"B. Reporter" (free soil), "B. Argus" (whig), and "North Pennsylvanian" (dem.) Pop. 1,171.

TOWEE FALLS, p. o., Monroe co., *Tenn.*: on N. side of Tennessee r., 157 m. E. by S. Nashville.

TOWER HILL, p. o., Washington county, *R. I.*: 8 m. W. Newport.

TOWLESVILLE, p. v., Steuben co., *N. Y.*: 192 m. W. by S. Albany.

TOWN BLUFF, p. o., Tyler county, *Tex.*: on W. bank of Neches r., 216 m. E. by N. Austin City.

TOWN CREEK, U. S. collection district, *Md.*: had, on the 30th June, 1850, a total tonnage of 2,227 tons, all of which was enrolled and licensed, permanent, and employed in the coasting trade. During the year preceding, it had no foreign commerce or ship-building.

TOWNER'S, p. o., Putnam co., *N. Y.*: 82 m. S. Albany.

TOWN HILL, p. o., Luzerne county, *Penn.*: 80 m. N. E. Harrisburg.

TOWN HOUSE, p. o., Smyth co., *Virg.*: 220 m. W. by S. Richmond.

TOWN LINE, p. o. and sta., Erie co., *N. Y.*: on Buffalo and New York City R. R., 15 m. E. from Buffalo; 254 m. W. Albany.

TOWNSBURY, p. v., Warren co., *N. Jer.*: on both sides of Pequest cr., 44 m. N. N. W. Trenton. It has several mills, moved by water-power afforded by the creek.

TOWNSEND, t. and p. v., Middlesex county, *Mass.*: 39 m. N. W. by W. Boston. Surface undulating or level; drained by Squaticook r. and branches flowing into Nashua r. The t. contains three flourishing villages, through which passes the Peterboro' and Shirley R. R. The v. at the centre contains 2 churches, a good academy, and is neatly built. Pop. of t. 1,947.

TOWNSEND, p. o., Chemung co., *N. Y.*: 166 m. W. by S. Albany.

TOWNSEND, t. and p. o., Sandusky co., *Ohio*: on S. side of Sandusky bay, 96 m. N. Columbus. The inhabitants are mainly engaged in agricultural pursuits. Pop. in 1840, 692; in 1850, 969.

TOWNSEND HARBOR, p. v. and sta., Middlesex co., *Mass.*: 37 m. N. W. by W. Boston. The Peterboro' and Shirley R. R. passes through, 8 m. from Groton, there connecting with Fitchburg R. R., by which it is 43 m. from Boston. This is a pleasant and flourishing v., containing several mills, stores, etc.

TOWNSEND'S INLET, p. o., Cape May co., *N. Jer.*: 73½ m. S. by E. Trenton.

TOWNSENDVILLE, p. o., Seneca county, *N. Y.*: 160 m. W. Albany.

TOWNSHEND, t. and p. v., Windham co., *Verm.*: 88 m. S. Montpelier. Surface uneven, with elevated and steep hills; watered by West r. flowing S. E. through it centrally, upon the E. bank of which the v. is situated, containing 2 churches and an excellent academy. The t. contains several tanneries, grist and saw mills. Pop. of t. 1,354.

TOWNVILLE, p. o., Anderson dist., *S. Car.*: on N. side of Savannah r., 117 m. W. N. W. Columbia.

TOWNSXTOWN, p. o., Baltimore co., *Md.*: 28 m. N. by W. Annapolis.

TRACY, p. o., Huntingdon co., *Ind.*: on N. side of Wabash r., 81 m. N. E. by N. Indianapolis.

TRACY'S LANDING, p. v., Anne Arundel co., *Md.*: 13 m. S. by W. Annapolis.

TRADESVILLE, p. v., Madison co., *Ohio*: 25 m. W. by S. Columbus.

TRADE'S HILL, p. o., Chatham co., *N. Car.*: on New Hope r., 15 m. W. Raleigh.

TRANQUILITY, p. o., Granville county, *N. Car.*: 26 m. N. Raleigh.

TRANQUILITY, p. o., Sussex co., *N. Jer.*: 66 m. N. Trenton.

TRANQUILITY, p. o., Adams co., *Ohio*: 76 m. S. by W. Columbus.

TRANQUILLIA, p. o., Jones co., *Ga.*: a little N. of branch of Oconee r., 20 m. W. by N. Milledgeville.

TRANSIT, p. o., Genesee co., *N. Y.*: 237 m. W. by N. Albany.

TRANSIT BRIDGE, p. o., Alleghany county, *N. Y.*: 228 m. W. by S. Albany.

TRANSPARENT LAKE, *N. Y.*: lies partly in Hamilton and partly in Herkimer counties, 82 m. N. W. Albany. It is 5 m. long and 2 m. wide. Its waters, noted for their clearness, abound with salmon, trout, etc. of very large size and delicious flavor. It is surrounded by a wild region, abounding with game.

TRAP HILL, p. o., Wilkes co., *N. Car.*: 149 m. W. by N. Raleigh.

TRAPPE, p. v., Talbot co., *Md.*: 32 m. S. E. Annapolis.

TRAPPE, p. v., Montgomery county, *Penn.*: 78 m. E. Harrisburg.

TRASCINTO, p. o., Neshoba county, *Miss.*: 70 m. E. N. E. Jackson.

TRASK, p. o., Grant co., *Ind.*: 61 m. N. N. E. Indianapolis.
 TRAVELLER'S REPOSE, p. o., Pocahontas co., *Virg.*: 145 m. W. N. W. Richmond.

TRAVELLER'S REPOSE, p. o., Franklin co., *Mo.*: on E. side of Bourbeuse cr., 65 m. E. by S. Jefferson City.

TRAVELLER'S REST, p. v., Dooly co., *Ga.*: about 2½ m. E. Flint r., 75 m. S. W. Milledgeville.

TRAVELLER'S REST, p. o., Coosa county, *Ala.*: 27 m. N. Montgomery.

TRAVELLER'S REST, p. o., Greenville dist., *S. Car.*: 99 m. N. W. Columbia.

TRAVERSE DE SIOUX, p. v., Dakota county, *Minn. Ter.*: situated on Minnesota r., by which it is 82 m. from St. Paul; in direct course about 56 m. W. S. W. St. Paul. It was laid out in 1852. In the spring of 1853 it contained 3 trading houses, several stores, etc., with good prospects of increasing trade.

TRAVIS county, *Tex.* Situate centrally, and contains about 1,000 sq. m. The Rio Colorado passes centrally through it, by which and its affluents it is drained. To the N. W. is an extensive territory, which is attached to the co. Surface varied; in the northern portions, hills and valleys being interspersed, while in the southern it extends into broad, level plains, resembling the rich prairie lands of the adjoining territory. Soil fertile, and consists chiefly of a deep black mold, which is generally very productive. Farms 146; manuf. 1; dwell. 423, and pop.—wh. 2,336, fr. col. 11, sl. 791—total 3,138. *Capital*: Austin.

TRAVIS, p. o., Austin co., *Tex.*: in the N. part of the co., 86 m. E. by S. Austin City.

TRAYLORSVILLE, p. o., Henry county, *Virg.*: on branch of Dan r., 143 m. W. S. W. Richmond.

TREADWAY, p. o., Barnwell dist., *S. Car.*: 58 m. S. S. W. Columbia.

TREIBLEVILLE, p. v., Monroe county, *Penn.*: 94 m. N. E. Harrisburg.

TREICHLERSVILLE, p. v., Lehigh co., *Penn.*: 72 m. E. N. E. Harrisburg.

TREMAINVILLE, p. v., Lucas co., *Ohio*: 99 m. N. by W. Columbus.

TREMONT, p. v., and cap. Tazewell co., *Ill.*: 50 m. N. by E. Springfield. It is pleasantly situated on a beautiful elevated prairie, and is a place of considerable trade. It was laid out in 1835. It contains the court-house and jail, stores, etc.

TREMONT, t., p. v., and sta., Schuylkill co., *Penn.*: 82 m. N. E. Harrisburg. This t. and vicinity abound with coal. The Mine Hill R. R. extends to this place, 12 m. from Schuylkill Haven. The following statistics of dealers in coal at this place are for the year ending June 30, 1850:

Coal Operators.	Capital Invested.	Monthly Wages.	Annual Product.	Value.
Levi S. Spangler...	\$10,000	\$667	\$21,000	\$42,000
Henry Eckel.....	17,000	1,667	30,000	60,000

TREMONT, p. v. and sta., Clark co., *Ohio*: on Mad River and Lake Erie R. R., 127 m. from Sandusky, 7 m. from Springfield, 46 m. W. Columbus.

TREMONT, t. and p. o., Hancock county, *Mo.*: 72 m. E. Augusta. It comprises the S. W. part of Mount Desert island. Pop. 1,425.

TRENTON, p. v., Jackson co., *Ala.*: on W. side of Point Rock r., a tributary of Tennessee r., 164 m. N. Montgomery.

TRENTON, p. v., and cap. Dade co., *Ga.*: on W. side of branch of Tennessee r., 192 m. N. W. Milledgeville. It contains a court-house, jail, etc., and several dwellings.

TRENTON, p. v., Henry county, *Ja.*: 40 m. S. by W. Iowa City.

TRENTON, p. o., Wachita parish, *La.*: 150 m. N. N. W. Baton Rouge.

TRENTON, p. o., Randolph county, *Ind.*: 60 m. E. N. E. Indianapolis.

TRENTON, p. v., Todd county, *Ky.*: 167 m. S. W. by W. Frankfort.

TRENTON, p. v., Wayne co., *Mich.*: on W. channel of

Detroit strait, 79 m. S. E. by E. Lansing. It has considerable lake trade. Exports in 1848, \$25,554; imports, do., \$7,325. Total value of exports and imports in 1848, \$32,879.

TRENTON, p. v., and cap. Grundy co., *Mo.*: on E. side of Crooked fork of Grand r., 131 m. N. W. by W. Jefferson City. It contains the county buildings and several dwellings.

TRENTON, p. city, and cap. Mercer co., *N. Jer.*, and cap. of the State of New Jersey: is situated on the E. side of Delaware r., at the mouth of Assunpink cr., opposite the lower falls, and at the head of steamboat and sloop navigation. Lat. 40° 14' N., long. 74° 46' 30" W. from Greenwich, and 2° 15' E. from Washington. Its distance by the most direct railroad from Boston is 293 m., from New York 58 m., from Philadelphia 29 m., from Baltimore 127 m., from Washington 165 m.

The city is pleasantly located on ground somewhat uneven, and is laid out with general regularity. Many of the public buildings are handsome edifices. The State House, beautifully situated near the Delaware, commanding a fine view of it and of the vicinity, is built of stone, 100 feet long and 60 feet wide, and succeeded to resemble granite, with a handsome portico of 6 columns, and beautiful dome. The public offices are fire-proof buildings. The Governor's House is a plain but commodious building. The Court-house is a handsome edifice of brick, stuccoed, in Grecian architecture, with a portico of Ionic columns at each end, and surmounted with a balcony. The State Lunatic Asylum is a very fine building, with ample grounds, etc. It was opened for patients May 15, 1848. In January 1, 1851, it contained 162 patients (86 males and 76 females). During 1851 it received 102 and discharged 93 patients, leaving on January 1, 1852, 171. The expenses of the asylum during 1851 were \$27,170, receipts \$22,076. The State Prison, in South Trenton, is well situated in an area of 4 acres, inclosed by walls 3 feet thick and 20 feet high. The number of prisoners on December 31, 1850, was 210, on December 31, 1851, 207. Earnings of the prison in 1851, \$18,693, expenses of do. \$11,855, balance paid the State \$6,840. The city also contains a public library, established in 1750, a lyceum, and 10 churches. Newspapers in 1850—"True American" (dem.), "Trentonian," and "New Jersey State Gazette," each published daily and weekly; also the "New Jersey Weekly Visitor."

The railroad and steamboat connections of Trenton have made it a great thoroughfare and the centre of extensive trade. The New Jersey R. R. here connects with the Philadelphia and Trenton R. R., constituting the principal route between New York and Philadelphia. The Trenton Branch R. R. extends hence to Bordertown, 6 m., connecting with Camden and Amboy R. R. The Belvidere Delaware R. R. extends hence to Belvidere, 63 m. The Delaware and Raritan Canal affords sloop navigation from Brunswick to this place. It is 42 m. long, 75 feet wide, 7 feet deep, and was finished in 1834 at a cost of \$2,000,500. It is here entered by a feeder taken from the Delaware, 23 m. above the city, and crosses the Assunpink cr. in a fine stone aqueduct. The Delaware r. is navigable above the falls at Trenton, for large boats, as far as Easton, which adds much to the commercial advantages of the city.

Trenton possesses a fine site for manufacturing purposes, with abundance of permanent water-power, obtained from the falls on the Delaware, and greatly increased by artificial means; also some water-power furnished by Assunpink cr. Among the principal manufactures are paper, leather, and lumber; there are also several flouring, grist, and saw mills, with various other establishments. The city contains two banks, with an aggregate capital of \$310,000. The Delaware r. is here crossed by an excellent covered bridge, 1,100 feet long, resting on 5 arches supported by stone piers, which was built in 1806 at a cost of \$180,000. The adjoining villages of Mill Hill, Bloomsbury, and Lambertton are suburbs of the city. Trenton was first settled about the year 1720, and was incorporated as a city in 1792. It is memor-

able for the "Battle of Trenton," on the night of December 25th, 1776, when Gen. Washington crossed the Delaware, and suddenly captured 1,000 Hessians of the British army, which signal event, in that gloomy period of the Revolution, greatly encouraged the American forces. Pop. in 1840, 4,035; in 1850, 6,766.

TRENTON, p. v., and cap. Jones co., *N. Car.*: on S. side of Trent r., 82 m. S. E. Raleigh. It contains a court-house, jail, stores, etc. Pop. about 125.

TRENTON, p. v. and sta., Butler co., *Ohio.*: on W. side of Miami r., 82 m. W. S. W. Columbus. The Cincinnati, Hamilton, and Dayton R. R. passes through, 33 m. from Cincinnati, 27 m. from Dayton.

TRENTON, t. and p. v., Oneida county, *N. Y.*: 86 m. N. W. by W. Albany. Surface hilly; soil clay loam, and fertile. Drained by Nine Mile and West Canada creeks. The town contains several villages, of which the principal are Trenton and Trenton Falls—the former, near the centre of the town, 13 m. N. from Utica, was incorporated in 1819, and contains about 450 inhabitants, 2 churches, with taverns, stores, etc. Pop. of t. 3,540.

TRENTON, p. v., and cap. Gibson co., *Tenn.*: on S. branch of Forked Deer r., 120 m. W. Nashville. It contains a court-house, jail, 2 churches, stores, etc., and a branch of the Bank of Tennessee, with a capital of \$254,203. The "Star Spangled Banner" (whig) is published weekly. Pop. about 750.

TRENTON, t. and p. o., Dodge co., *Wisc.*: 45 m. N. E. by N. Madison. Pop. 997.

TRENTON CORNERS, p. o., Dodge county, *Wisc.*: 46 m. N. E. by N. Madison.

TRENTON FALLS, p. v., Oneida county, *N. Y.*: at Trenton Falls, on West Canada cr., 84 m. N. W. by W. Albany. These falls are six in number and separate. All these are formed by solid reefs of rocks which cross the bed of the stream. The first, called the Upper, descends 20 feet perpendicular; the second, the Cascades, 18 feet; the third, the Mill Dam, 14 feet; the fourth, the High Falls, which have three separate cascades of 48, 11, and 37 feet; the fifth, Sherman's, 35 feet; the sixth, Conrad's, 15 feet, terminates the ravine, where is a mill dam. Besides these falls there are several raceways, from 10 to 20 rods long, through which the water flows very rapidly. The entire descent of the stream, from the top of the Upper Fall to the foot of Conrad's Fall, is 312 feet, and the distance is about 2 m. The ravine through which the creek passes is often 100 feet deep, with banks of stone almost perpendicular. The scenery thus presented is wild, picturesque, and beautiful, and when the water is high, is of much grandeur. The country adjoining is mostly covered with forest trees, thus retaining for the ravine its primeval appearance, which, in fact, constitutes the greatest charm of these falls. The number of visitors is very large. These are accommodated in first-class style by an excellent hotel.

TREVILLIAN'S DEPT. p. o. and sta., Louisa co., *Virg.*: 42 m. N. W. Richmond. The Virginia Central R. R. passes through it, 67 m. from Richmond.

TREVORTON, p. o., Northumberland co., *Penn.*: 38 m. N. by E. Harrisburg.

TREXLETTOWN, p. v., Lehigh co., *Penn.*: 69 m. E. N. E. Harrisburg.

TRIADELPHIA, p. v., Montgomery co., *Md.*: on Patuxent r., 35 m. W. N. W. Annapolis. It contains a cotton factory, and is surrounded by a beautiful country.

TRIADELPHIA, p. v., Ohio county, *Virg.*: 248 m. N. W. Richmond. Pop. 242.

TRIADELPHIA, p. v., Morgan co., *Ohio.*: 66 m. W. S. W. Columbus.

TRIANA, p. v., Madison co., *Ala.*: on N. side of Tennessee r., at the mouth of Indian cr., 156 m. N. by W. Montgomery.

TRIANGLE, t. and p. v., Broome county, *N. Y.*: 116 m. W. by S. Albany. Drained by Otseic and Tioughnioga rivers, which here unite. Surface hilly. It contains several

mills, stores, etc. The v. is located on a branch of the Tioughnioga r. Pop. of t. 1,723.

TRIBE'S HILL, p. v., Montgomery co., *N. Y.*: on N. bank of the Mohawk r., 34 m. N. W. by W. Albany. The Utica and Schenectady R. R. passes through the v., 56 m. E. Utica.

TRICE'S STORE, p. o., Orange co., *N. Car.*: 30 m. N. W. Raleigh.

TRIER, p. o., Bexar co., *Tex.*: 184 m. S. W. Austin City.

TRIGG county, *Ky.* Situated S. toward the W., and contains 356 sq. m. Drained by Little r. and its branches, which enter the Cumberland r. Surface undulating; soil fertile. Chief productions, tobacco, cotton, wheat, and Indian corn. It is bounded on the W. by Tennessee r. Farms 843; manuf. 37; dwell. 1,231, and pop.—wh. 7,252, fr. col. 80, sl. 2,797—total 10,129. Capital: Cadiz.

TRIMBLE county, *Ky.* Situate N., and contains 127 sq. m. Drained by Little Kentucky and small tributaries of the Ohio. Surface undulating, and presenting high bluffs on the shore of the Ohio; soil generally fertile. Chief productions, tobacco and Indian corn. Farms 469; manuf. 19; dwell. 865, and pop.—wh. 4,997, fr. col. 25, sl. 941—total 5,963. Capital: Bedford.

TRIMBLE, t. and p. o., Athens co., *Ohio.*: 55 m. S. E. Columbus. Drained by Sunday cr., branch of Hoockhocking r. Pop. 924.

TRINITY county, *Calif.* Situate between the Cascade Range and the Pacific, and between 40° and 41° N. lat. Drained by Trinity r., a branch of Klamath r., and Eel r., which empties into the ocean. Humboldt bay is in the N. W. corner of the co. Surface considerably broken—in the E. hilly, and many of the summits of the range are very lofty. Mt. Linn is the highest peak. Pop. in 1852, 1,764: whites 1,764—males 1,741, and females 23; negroes 6; mulattoes 8; Indians (domesticated) 4; foreign residents 155, of which only 5 were females. Over 21 years of age: 1,491 citizens, 5 negroes, 6 mulattoes, 3 Indians, and 183 foreign residents. Land under cultivation, 275 acres. Capital employed: in placer mining, \$34,440; in other mining, \$28,820; and for other purposes, \$201,117. Capital: Humboldt City.

TRINITY county, *Tex.* Situate toward the E., and contains 983 sq. m. Drained by Big Pine cr. and affluents of Trinity r., which forms its S. W. boundary. Surface undulating, and presents a surface of gently-swelling lands, thickly covered with pine forest. Soil fertile, and adapted to cotton, corn, and potatoes. As yet, the land has been but little cultivated, and but few of its agricultural resources developed. Capital: Trinity C. H.

TRINITY, p. o., Chatahoula par., *La.*: on W. side of Wachita r., 88 m. N. N. W. Baton Rouge.

TRINITY, p. o., Morgan county, *Ala.*: 144 m. N. by W. Montgomery.

TRINITY river, *Tex.*: is formed by a number of streams uniting in Dallas county, in a forest called the Cross Timbers; flows S. E., and empties into Galveston bay. It has numerous branches, and in its course affords excellent water-power.

TRINITY river, Klamath co., *Calif.*: rises in the Coast Range Mountains, in E. part of the co., flows S. W. into Trinity, where it receives Panther creek, when it takes a N. W. course and empties in the Klamath river. Gold is found in all parts of its val ey.

TRINITY SPRINGS, p. o., Martin co., *Ind.*: on E. side of White r., 73 m. S. S. W. Indianapolis.

TRINITY valley, Klamath co., *Calif.*: 195 m. N. by W. Vallejo. A portion of this valley is set apart as an Indian reservation.

TRION, p. o., Jefferson co., *Tenn.*: 188 m. E. Nashville.

TRION, p. o., Tuscaloosa co., *Ala.*: on a small branch of Black Warrior r., 79 m. N. W. Montgomery.

TRION FACTORY, p. o., Chatooga co., *Ga.*: 163 m. N. W. Milledgeville.

TRIPLETT, p. o., Fleming co., *Ky.*: on cr. of same name 75 m. E. by N. Frankfort.

TRIPOLI, p. v., Tishemingo co., *Miss.*: 200 m. N. E. by N. Jackson.

TRIUNE, p. v., Williamson county, *Tenn.*: 18 m. S. by W. Nashville.

TRIVOLI, p. v., Peoria county, *Ill.*: 62 m. N. by W. Springfield.

TROUBLESOME, p. o., Rockingham county, *N. Car.*: on Troublesome cr., 87 m. N. W. Raleigh. It contains iron works.

TROUP county, *Ga.*: situate W., and contains 417 sq. m. Drained by Chattahoochee r. and branches, of which Yellow Jacket cr. is the principal. Surface undulating; soil fertile, and in general very productive. It is well adapted to cotton, of which a large quantity is annually produced, and is the staple. Wheat and Indian corn are also raised. There is some good pine and other timber on the land. Farms 789; manuf. 8; dwell. 1,295, and pop.—wh. 7,789, fr. col. 42, sl. 9,048—total 16,879. *Capital*: La Grange. *Public Works*: La Grange R. R.

TROUP FACTORY, p. o., Troup county, *Ga.*: 106 m. W. Milledgeville.

TROUSBURG, t. and p. v., Steuben co., *N. Y.*: 199 m. S. W. by S. Albany. Drained by Cowenuesque cr. Surface undulating. It has good water-power, and some mill sites. The v. is on Cowenuesque cr. Pop. of L. 1,754.

TROUPVILLE, p. v., and cap. Lowndes co., *Ga.*: on E. side of Withlacoochee r., 178 m. S. Milledgeville. It contains the county buildings, etc.

TROUSDALE, p. o., Warren co., *Tenn.*: 56 m. E. S. E. Nashville.

TROUT island, *Mich.*: in the N. part of Lake Michigan, N. from Little Beaver Island.

TROUT CREEK, p. o., Delaware co., *N. Y.*: 72 m. W. S. W. Albany.

TROUT CREEK, p. o., Saint Clair co., *Ala.*: 98 m. N. Montgomery.

TROUT river, *Verm.*: rises by the junction of several branches in Montgomery, flows in a N. W. direction, and empties into the Missisqui, on the border of Enosburg and Berkshire. It is a good mill stream.

TROUT RUN, p. o. and sta., Lycoming co., *Penn.*: on the Williamsport and Elmira R. R., 10 m. N. from Williamsport, and 82 m. N. Harrisburg. In the vicinity is a forge and a rolling mill, the former producing annually 140 tons bar iron, and the latter 800 tons bars and nails, both operated by water-power.

TROY, p. v., and cap. Pike co., *Ala.*: on small branch of Conecuh r., 46 m. S. S. E. Montgomery. It contains the county buildings, etc.

TROY, p. o., Cherokee co., *Ga.*: on S. side of Etowah r., 104 m. N. W. Milledgeville.

TROY, p. o., Madison co., *Ill.*: 75 m. S. by W. Springfield.

TROY, p. v., Perry co., *Ind.*: on the Ohio r., 6 m. below Cannelton, 103 m. S. S. W. Indianapolis.

TROY, t. and p. v., Waldo co., *Me.*: 86 m. N. E. Augusta. Drained by branches of Sebasticook r. Surface undulating, and well supplied with timber. It is a good farming t., and produces an abundance of wheat, and there are some light manufactures. The v. is located centrally. Pop. of L. 1,454.

TROY, t. and p. o., Oakland co., *Mich.*: 72 m. E. by S. Lansing. Drained by head branches of Red r., a tributary of Clinton r. It contains some manufactures.

TROY, p. o., Yallabusha co., *Miss.*: 2 m. N. of Yallabusha river, 106 m. N. by E. Jackson.

TROY, p. v., Lincoln co., *Mo.*: on Cuivre r., 71 m. E. N. E. Jefferson City. It contains the county buildings, etc.

TROY, t. and p. v., Cheshire co., *N. Hamp.*: 44 m. S. W. Concord. Drained by affluents of Ashuelot r. It has some manufactures, but it is chiefly an agricultural town. The v. is on the Cheshire R. R., 10 m. S. E. Keene. Pop. of L. 759.

TROY, p. city, and cap. Rensselaer co., *N. Y.*: on E. side of Hudson r., 6 m. N. by E. Albany. Lat. 42° 44' N.; long 73° 40' W. It is built chiefly upon an alluvial flat, extend-

ing along the r. for about 3 m., and 1½ m. broad, and partly upon the hills in the E. part of the city limits. It is very regularly laid out, with streets crossing at right angles, which are generally 60 feet wide, ornamented with fine shade trees, well paved, with good side walks, and kept remarkably clean. The main business street, called River Street, conforming to the Hudson river, is, however, somewhat curved. The city plat is somewhat elevated above the river, affording good drainage. The high hills (of which the principal summits are called Mount Ida and Mount Olympus) afford most extensive and delightful prospects, embracing the city of Albany, the villages of West Troy, Lansingburg, Waterford, and Cohoes, the Cohoes Falls, the Hudson r. and its beautiful valley for miles, a long extent of the Erie Canal, with the various railroads here centering, combining a variety of the most interesting scenery, rarely presented in the vicinity of any large city. From these hills descend two considerable streams, Poestenkill and Wynantskill, which have picturesque cataracts and cascades, and afford very great water-power to numerous mills, factories, etc. The blocks of stores and houses are generally built of brick, with considerable regularity and much taste. The more retired streets contain many elegant dwellings, surrounded by flower gardens, etc. The city is lighted with gas, and supplied with water from Piscawin creek, of which the reservoir, situated in the N. part, and about ¼ m. E. of the Hudson, is 90 feet above tide water, and thus naturally forcing the water above the highest houses, renders it most serviceable for every purpose. Of the public buildings the court-house is the most splendid; it is built of Sing Sing marble, in Grecian architecture, with fine front of the Doric order. Several of the church edifices are costly structures. The principal market buildings are well-built and very commodious. Hotels of large size are numerous, and several of those of the first class are noted for excellent accommodations. The Troy City Hospital, under the direction of ten Sisters of Charity, has four attending physicians, and received during the year 1851-52, 689 patients.

Much attention is given to general education in the public schools and other academies. The Troy Female Seminary is one of the most popular institutions of the kind in the Union. It was established in 1821 (having been commenced in Middlebury, Vermont, in 1814, and removed to Waterford in 1821), at which time it received from the city corporation \$4,000 for the erection of suitable buildings. It is beautifully situated in the central part of the city, with finely ornamented grounds, commodious buildings, etc. The Rensselaer Institute is a polytechnic school of high repute. The Young Men's Association has a large library and reading room, with cabinet of curiosities, etc., and annual courses of lectures. The Lyceum of Natural History have valuable cabinets, a good library, etc. Newspapers in 1850, "Northern Budget" (dem.) daily, and 4 weeklies, "Troy Whig," "Troy Post," "Family Journal" (temp.), and "New York State Republican" (whig).

Troy is pre-eminently distinguished for the business enterprise of its capitalists and citizens generally. Its situation for trade and commerce has some natural advantages, but these have been wonderfully improved and increased by the various important railroads and canals which, centering here, have made this a great thoroughfare of travel and trade, and developed the manufacturing interests of the city. It directly connects by the Hudson with the Erie Canal at West Troy directly opposite, and with the Champlain Canal at Waterford, 4 m. above. The lines of railroad entering the city are—Hudson River R. R. from New York, 150 m.; from Worcester, 156 m.; from Boston, 200 m.; Troy and Boston R. R., which is completed to North Hoosick, 27 m., and connects at Eagle Bridge with Ruland and Washington R. R., and at North Hoosick with Troy and Bennington R. R., and is in construction to Greenfield, Mass.; Rensselaer and Saratoga R. R., 82 m.; and Schenectady and Troy R. R., 20 m.; all of which directly connect with other

extended and important railroads. The railroad bridge across the Hudson is a fine structure, 1,650 feet long. Troy is at the head of tide-water on the Hudson, and of its natural navigation. Steamboats, sloops, etc., come to its wharves. The trade of the city with New York is very great, employing an aggregate of several hundred vessels, and daily steamboats of the first class ply between the two cities. Besides the immense amounts of merchandise received from the railroads and canals, it also receives from the very fertile rural districts surrounding (with which it is well connected by good plank and macadamized roads), very large amounts of agricultural and dairy produce, etc., for shipment to New York and other markets. By means of the State dam sloop navigation is secured to Lausingsburg, etc.

The manufactures of the city comprise nearly all the leading branches of such industry, but the largest interests are those connected with iron, machinery, hardware, and cutlery, etc. Cotton factories, tanneries, and flouring mills are numerous. There are also several breweries and paper factories; and a large amount of capital is invested in numerous lumber-yards. The railroad-car manufactory of Eaton, Gilbert, & Co. employs a very large number of operatives, and is of wide celebrity for the number and superior excellence of the cars made. The iron rolling mills and nail factories in the city and suburbs are extensive establishments, as also those furnaces engaged in making stoves, castings for agricultural implements, etc. Immense water-power is here easily obtained from the two large streams from the hills on the E. and from a dam near the N. boundary of the city, built by the State across the Hudson, which makes a fall of 11½ feet, affording unlimited hydraulic power, besides securing navigation to the river above. There are 6 banks in the city, with an aggregate capital of \$1,768,000; also several insurance companies and institutions for savings.

The first settlement of Troy was commenced about 1720, in which year Derick Vanderheyden leased 490 acres of the proprietor of Bensuslaerwyck. This grant now constitutes the most densely populated portion of the city. This settlement bore the name of Vanderheyden's Ferry until 1789, when it received its present name, and was then laid out. It was made the county seat in 1791, incorporated as a village in 1796, and as a city in 1816. In June, 1820, a great conflagration consumed the wealthiest and most important part of the city. It recovered from this severe calamity in a few years, has since rapidly advanced in general prosperity, and now promises to long retain its present distinction as one of the most enterprising cities in the Union. Pop. in 1810, 8,895; in 1820, 5,264; in 1830, 11,405; in 1840, 19,334; in 1850, 28,785. The large and thriving village of West Troy, pop. 7,514, on the opposite side of the Hudson, though in Albany co., is in all business interests a part of Troy.

TROY, p. o., Montgomery co., *N. Car.*: 75 m. W. S. W. Raleigh.

TROY, p. v., and cap. Miami co., *Ohio*: on the W. bank of the Great Miami r., 63 m. W. Columbus. It contains a court-house of brick, jail, and other county buildings, and publishes 2 weeklies, the "Troy Times" (whig), and "The Touchstone" (F. S. D.) The Dayton and Michigan R. R., the Columbus, Pequa, and Indiana R. R., and the Miami Canal pass through this place. Pop. 1,956.

TROY, t. and p. o., Bradford county, *Penn.*: 102 m. N. Harrisburg. Drained by Sugar cr. Surface hilly. It contains several manufactories, etc.

TROY, p. v., and cap. Obion co., *Tenn.*: on a branch of Obion r., 135 m. W. by N. Nashville. It contains the co. buildings, etc.

TROY, p. o., Davis co., *Ia.*: 68 m. S. W. by S. Iowa City.

TROY, t. and p. o., Walworth co., *Wisc.*: 50 m. E. S. E. Madison. Drained by Honey cr. It is an excellent farming town. Pop. 1,072.

TROY, p. v., Freestone county, *Tex.*: 119 m. N. E. Austin City.

TROY, t. and p. v., Orleans co., *Verm.*: 46 m. N. by E.

Montpelier. Drained by Missisquoi r. Surface level. Water-power is derived from the falls on the Missisquoi river, which pass down a ledge of rocks some 70 feet. Iron ore is found in the vicinity. It contains furnaces, forges, tanneries, mills, etc. The v. is on the W. side of Missisquoi r. Pop. of t. 1,005.

TROY CENTRE, p. o., Walworth co., *Wisc.*: 52 m. E. S. E. Madison.

TROY GROVE, p. o., La Salle county, *Ill.*: on W. bank of Little Vermillion r., 116 m. N. by E. Springfield.

TROY LAKE, p. o., Walworth co., *Wisc.*: 55 m. E. S. E. Madison.

TROY MILLS, p. o., Fulton co., *Ill.*: on S. side of W. fork of Spoon r., a tributary of Illinois r., 70 m. N. W. by N. Springfield.

TROY'S STORE, p. o., Randolph co., *N. Car.*: 62 m. W. Raleigh.

TRUCKSVILLE, p. o., Luzerne co., *Penn.*: 84 m. N. E. by N. Harrisburg.

TRUITSVILLE, p. o., Greenup co., *Ky.*: 115 m. E. by N. Frankfort.

TRUMANSBURG, p. v., Tompkins co., *N. Y.*: 162 m. W. Albany. It contains several manufactories, consisting of carriages, lumber, iron, etc.

TRUMBAUVILLE, p. v., Bucks co., *Penn.*: 89 m. E. Harrisburg.

TRUMBULL county, *Ohio*. Situate N. E., and contains 892 sq. m. Drained by Mahoning r., and Shenango, Mill, and Musquito creeks, and head branches of Grand river. Surface undulating, and pleasantly diversified. Soil fertile, consisting of a deep mold, intermixed with sand and clay, and adapted to grain, which with wheat, oats, and potatoes form the staples. It exports beef, pork, butter, and cheese, access being had to the Eastern markets by means of the Mahoning Canal, a branch of the Pennsylvania and Ohio Canal, which passes through the county. Agriculture is the leading pursuit. Farms 2,753; manuf. 133; dwell. 5,459, and pop.—wh. 30,455, fr. col. 85—total 30,490. *Capital*: Warren. *Public Works*: Cleveland and Mahoning R. R.; Pennsylvania and Ohio Canal.

TRUMBULL, t. and p. v., Fairfield county, *Conn.*: 46 m. S. W. by S. Hartford. Drained by Pequannock r. Surface varied by hills and valleys. Grain and hay is raised. Its manufactures consist of woolen goods, lumber, etc. The v. is on the E. side of Pequannock river, near the Housatonic R. R., which passes through the town. Pop. of t. 1,313.

TRUMBULL, t. and p. o., Ashtabula co., *Ohio*: 153 m. N. E. Columbus. Drained by a branch of Grand r. Organized in 1825. Pop. 805.

TRUMBULL CORNERS, p. o., Tompkins co., *N. Y.*: 144 m. W. by S. Albany.

TRUMBULL LONG HILL, p. v., Fairfield county, *Conn.*: 49 m. S. W. by S. Hartford. It is the first land seen from the ocean in this direction.

TRUNDLE'S CROSS ROADS, p. o., Sevier co., *Tenn.*: 168 m. E. by S. Nashville.

TRURO, t. and p. v., Barnstable co., *Mass.*: 56 m. E. S. E. Boston. It occupies the N. part of Cape Cod, having the Atlantic Ocean on the E. and Cape Cod bay on the W. Pamet r. sets in from the bay 3 m. long and about ¼ of a m. wide. The soil is light and sandy, with a very scanty growth of vegetation. The cod and mackerel fisheries are extensively carried on, from which the inhabitants derive their chief subsistence. Salt is extensively manufactured. There is a lighthouse on the Highlands, on the N. E. coast, near North Truro village, lat. 42° 02' 23" N., and long. 70° 03' 55" W.: height of lantern from the sea, 180 feet. The village is on the N. side of Pamet r. Pop. of t. 2,051.

TRURO, p. o., Knox county, *Ill.*: 76 m. N. N. W. Springfield.

TRUSS, p. o., Jefferson co., *Ala.*: on S. side of head branch of Cahawba r., 83 m. N. by W. Montgomery.

TRUXTON, t. and p. v., Cortlandt co., *N. Y.*: 118 m. W.

Albany. Drained by the Tioughnioga r. Surface undulating. The manufactures consist of woollens, leather, iron, lumber, etc. The v. is on the Tioughnioga r., and contains several mills, sash factories, a furnace, tannery, etc. Pop. of t. 3,623.

TREXTON, p. o., Bureau co., Ill.: 113 m. N. Springfield.

TRON, p. o., Rutherford co., N. Car.: on S. side of N. Paolet r., 193 m. W. S. W. Raleigh.

TUCKAHOE, p. v., Cape May county, N. Jer.: 60 m. S. Trenton.

TUCKAHOE, p. o., Jefferson county, Tenn.: 193 m. E. Nashville.

TUCKAHOE, p. v. and sta., Westchester county, N. Y.: on the Harlem R. R., 20 m. from the City Hall, New York city, and 153 m. S. Albany.

TUCKALEECHIE COVE, p. o., Blount co., Tenn.: on S. side of Little r., 172 m. E. by S. Nashville.

TUCKASAGA, p. o., Mecklenburg co., N. Car.: 120 m. W. S. W. Raleigh.

TUCKER'S CABIN, p. o., Henry co., Ga.: 66 m. W. N. W. Milledgeville.

TUCKERTON, p. v., and port of entry for Little Egg Harbor district, Burlington co., N. Jer.: on the Atlantic Ocean, at the head of Tuckerton Mill cr., which empties into the bay of Little Egg Harbor, 45 m. S. E. by S. Trenton. It is well laid out, the streets crossing at right angles, and lined with shade trees. Salt is manufactured, and wood and lumber are exported. Flat boats ascend the river from Little Egg Harbor, 6 m. The enrolled and licensed tonnage for the year ending June 30, 1850, was 6,183 tons, all of which were engaged in the coasting trade. It is a place of summer resort for sea bathing.

TURTONBORO', t. and p. v., Carroll co., N. Hamp.: 34 m. N. N. E. Concord. Winnipisogee lake bounds it on the S. W., and presents a delightful prospect. It has several ponds. The inhabitants are generally engaged in farming, etc. First settled in 1730; incorporated in 1795. Pop. of t. 1,305.

TUG RIVER, p. o., Tazewell county, Virg.: 245 m. W. Richmond.

TULARE county, Calif. Taken from the S. part of Mariposa county, and contains Tulare lake and all its tributaries. In 1852 it had 8,575 inhabitants, viz., wh. 174—males 142, and females 32; negro 1; Indians 8,408—males 5,500, and females 2,907. The Indians are contained in fourteen tribes.

TULARE lake, Tulare co., Calif.: is 52 m. long, and from 6 to 10 m. wide.

TULIP, p. o., Dallas co., Ark.: 49 m. S. S. W. Little Rock.

TULLAHOMA, p. v. and sta., Franklin co., Tenn.: 70 m. S. E. by S. Nashville. The Nashville and Chattanooga R. R. passes through, and here connects with the Mackinville and Manchester R. R. (in construction).

TULLY, p. v., Lewis co., Mo.: on E. side of Mississippi r., 112 m. N. by E. Jefferson City.

TULLY, p. o., Van Wert co., Ohio: 112 m. N. W. Columbus.

TULLY, t. and p. v., Onondaga co., N. Y.: 123 m. W. by N. Albany. Surface generally level; soil clay loam. Drained by Onondaga cr., and Tioughnioga r. The v. contains 1 church, a few stores, and about 300 inhabitants. The Syracuse and Binghamton R. R. passes through this t. Pop. of t. 1,559.

TULLYTOWN, p. v., Bucks county, Penn.: 94 m. E. Harrisburg.

TULLY VALLEY, p. o., Onondaga co., N. Y.: 127 m. W. by N. Albany.

TULLYVILLE, p. o., Monroe co., Ark.: on E. side of Big cr., 72 m. E. Little Rock.

TULPEHOCCAN, t. and p. o., Berks co., Penn.: 42 m. E. by N. Harrisburg. Surface diversified; soil very fertile. Drained by tributaries of Tulpechocken cr. The Union Canal passes along its S. border. It contains tanneries, distilleries, and

saw mills, with some other manufacturing establishments. Pop. about 1,500.

TUMBLE, sta., Hunterdon co., N. Jer.: on Belvidere Delaware R. R., 8½ m. from Milford, 25½ m. from Trenton.

TUMBLING SHOALS, p. o., Laurens dist. S. Car.: on W. side of branch of Saluda river, 74 miles N. W. by W. Raleigh.

TUMLINSONVILLE, p. o., Scott co., Ark.: on W. bank of King's cr., 104 m. W. by N. Little Rock.

TUNBRIDGE, t. and p. v., Orange county, Verm.: 28 m. S. by E. Montpelier. Drained by the first branch of White r. Surface varied, in parts elevated. It is principally a farming town, a considerable quantity of the products of which are sent to market. The v. on the first branch of White r. contains several churches, mills, and trip-hammer works. There is a sulphur spring of some note in the W. part of the town. Pop. of L. 1,786.

TUNICA county, Miss. Situate N. W., and contains 574 sq. m. Drained by branches of Coldwater river, which flows through its N. E. portion, and by numerous streams entering the Mississippi river. Surface pleasantly diversified with lakes; the land hills toward the W., and terminating in high bluffs on the Mississippi river, which bounds it on the W. Chief productions Indian corn and potatoes. The soil is best adapted to grazing. Farms 41; manuf. 0; dwell. 73, and pop.—wh. 296, fr. col. 1, sl. 917—total 1,314. Capital: Austin.

TUNICA, p. o., West Feliciana par., La.: 42 m. N. W. by N. Baton Rouge.

TUNKHANNOCK, t. and p. v., and cap. Wyoming co., Penn.: on N. E. bank of Susquehanna r., 99 m. N. N. E. Harrisburg. Drained by Tunkhanock and Meshoppen creeks. Surface uneven, and well wooded. Tunkhanock Mountain crosses it diagonally, and near the S. boundary has an elevation of 640 feet. The t. furnishes a large amount of lumber, and contains several manufactories. The v. is at the mouth of Tunkhanock cr., on the North Branch Division of the Pennsylvania Canal, and on the Lackawanna and Western R. R., 27 m. S. W. Great Bend. It contains the county buildings, etc., and 561 inhabitants. Pop. of t. about 2,400.

TUNNEL, p. o. and sta., Indiana co., Penn.: on the line of the Allegheny Portage R. R., 165 m. W. N. W. Harrisburg.

TUNNEL, sta., York co., Penn.: on the Baltimore and Susquehanna R. R., 32 m. S. by E. Harrisburg.

TUNNEL, p. o., Franklin county, Tenn.: 71 m. S. S. E. Nashville.

TUNNEL, p. o., Augusta county, Virg.: 100 m. W. N. W. Richmond.

TUNNEL HILL, p. v. and sta., Murray co., Ga.: on the Western and Atlantic R. R., 108 m. N. W. from Atlanta, and 165 m. N. W. Milledgeville.

TUNNELL'S STORE, p. o., Sussex co., Del.: 43 m. S. Dover.

TUNINGWANT, sta., Cattaraugus co., N. Y.: on the New York and Erie R. R., 53 m. S. E. Dunkirk, 416 m. N. W. New York city.

TUOLUMNE county, Calif. Situate generally between the Stanislaus and Merced rivers, and extending from the Coast Range to the Sierra Nevada. The San Joaquin flows through its W. portion. This is a fine agricultural as well as mining country. In 1852, it had 17,657 inhabitants, viz., wh. 16,925—males 15,967, and females 958; negroes, 100; mulattoes, 42; domesticated Indians, 590; foreign residents, 8,668. Over 21 years of age—citizens of the United States, 6,304; negroes, 95; mulattoes, 40; and foreign residents, 8,600. Land in cultivation, 1,570 acres. Capital—in quartz mining, \$49,900; in placer mining, \$76,085; and in other mining, \$1,900. Total capital employed, \$1,288,885. Capital. Sonora.

TUOLUMNE CITY, v., Tuolumne co., Calif.: laid out at the head of navigation on the N. side of Tuolumne r., 80 m. above its junction with the San Joaquin, and 73 m. S. E. from Vallejo. It has quite a number of inhabitants, and its

proximity to the mines will render it important as a pleasant winter residence for miners.

TUOLUMNE river, Tuolumne co., *Calif.*: rises by two branches in the Sierra Nevada Mountains, flows westwardly, and empties into the San Joaquin, about 80 m. above San Joaquin City.

TUPPER'S PLAINS, p. o., Meigs co., *Ohio*: 74 m. S. E. Columbus.

TURBOTVILLE, p. o., Northumberland co., *Penn.*: 55 m. N. Harrisburg.

TURIN, t. and p. v., Lewis co., *N. Y.*: 112 m. N. W. Albany. Black r. bounds it on the E., and its branches drain the t. Surface rolling. The v. is on a branch of Black r., and contains several stores, and some manufactures. The manufactures of the t. consist of leather, flour, lumber, and oil. Pop. of t. 1,826.

TURKEY, p. o., Monmouth co., *N. Jer.*: 1 m. N. Manasquin e., 27 m. E. Trenton.

TURKEY river, *Ja.*: in N. E. part of the State, flows S. E., and empties into the Mississippi, at Millville, in Clayton co.

TURKEY COVE, p. o., McDowell co., *N. Car.*: 157 m. W. Raleigh.

TURKEY COVE, p. o., Lee co., *Virg.*: 304 m. W. by S. Richmond.

TURKEY CREEK, p. o., Buncombe co., *N. Car.*: 303 m. W. Raleigh.

TURKEY CREEK, p. o., Hunt county, *Tex.*: 219 m. N. E. Austin City.

TURKEY CREEK, p. o., Benton co., *Mo.*: 67 m. S. W. by W. Jefferson City.

TURKEY FOOT, t. and p. v., Somerset co., *Penn.*: 125 m. W. by S. Harrisburg. Drained by Castleman's r. and Laurel Hill cr. Surface hilly. Laurel Hill Mountain is on the W. and Negro Mountain on the E. boundary.

TURKEY FOOT, p. o., Scott county, *Ky.*: 18 m. E. by N. Frankfort.

TURKEY GROVE, p. o., Dane co., *Wis.*

TURKEY TOWN, p. v., Cherokee co., *Ala.*: on the Alabama and Tennessee R. R., 123 m. N. by E. Montgomery.

TURMAN'S CREEK, p. v., Sullivan co., *Ind.*: on E. side of creek of same name, 80 m. S. W. by W. Indianapolis.

TURMAN'S FERRY, p. o., Lawrence co., *Ky.*: on W. bank of Big Sandy r., 181 m. E. Frankfort.

TURNACK, p. o., Dade co., *Mo.*: on E. side of branch of Sac r., 124 m. S. W. Jefferson City.

TURNBULL, p. v., Monroe co., *Ala.*: on S. side of branch of Flat cr., 69 m. S. W. Montgomery.

TURNER, t. and p. o., Oxford co., *Me.*: on the W. side of Androscoggin r., 25 m. W. S. W. Augusta. Drained by branch of Androscoggin r. Surface pleasantly diversified; soil fertile. Incorporated in 1786. It contains several lumber yards, grist and saw mills, tanneries, etc. There are a number of thriving villages in the town. Pop. of t. 2,537.

TURNER CREEK, p. o., Potter co., *Penn.*: 110 m. N. W. by N. Harrisburg.

TURNEIS, p. v. and sta., Orange co., *N. Y.*: on the New York and Erie R. R., 47 m. N. W. New York city.

TURNEE'S STORE, p. o., Caroline county, *Virg.*: 83 m. N. Richmond.

TURNEYSVILLE, p. v., Robertson county, *Tenn.*: 31 m. N. W. by N. Nashville.

TURNEYSVILLE, sta., Mobile co., *Ala.*: on the Mobile and Ohio R. R., 5 m. N. Mobile and 157 m. S. W. Montgomery.

TURNS, p. o., Monroe county, *Penn.*: 95 m. N. E. by E. Harrisburg.

TURTLE CREEK, p. v., Allegheny co., *Penn.*: 150 m. W. Harrisburg.

TURTLE TOWN, p. o., Cherokee county, *N. Car.*: 295 m. W. by S. Raleigh.

TURTEVILLE, p. o., Union co., *Penn.*: 40 m. N. N. W. Harrisburg.

TUSCAHOA, p. o., Tallahatchee co., *Miss.*: on the S. side of Yallahusha r., 110 m. N. Jackson.

TUSCALOOSA county, *Ala.* Situate N. W. centrally, and contains 1,507 sq. m. Black Warrior r. flows through it from N. E. to S. W., by which and its affluents and by Sipsey r., a tributary of Tombigbee r., it is drained. Surface undulating; soil consists of a rich mold, and is very fertile—it is well adapted to cotton, which is the staple production of the county. Farms 1,115; manuf. 32; dwell. 1,914, and pop.—wh. 10,553, fr. col. 26, sl. 7,477—total 18,056. *Capital*: Tuscaloosa.

TUSCALOOSA, p. city, and cap. Tuscaloosa co., *Ala.*: on S. E. bank of Black Warrior r., 94 m. N. W. by W. Montgomery. Lat 32° 12' N., long. 87° 42' W. It is situated on an elevated plain at the lower falls, and head of steamboat navigation on the river, and is regularly laid out with broad streets crossing each other at right angles. This city was until 1847 the capital of the State. It contains the former State-house, a court-house, jail, a Masonic hall, an academy, lyceum for boys, seminary for young ladies, the Alabama Institute, 5 churches, stores, etc. The University of Alabama, here located, has 5 buildings, with several houses for professors, which present a fine appearance. This institution was founded in 1831, in 1850 it had 9 in structors, 197 alumni, and 91 students, with 7,123 volumes in its libraries. In 1850, 8 weekly newspapers were here published, "Independent Monitor" (whig), "Tuscaloosa Observer" (dem.), and "Crystal Fount" (temp.) Pop. in 1840, 1,949; in 1850, 2,961.

TUSCARAWAS county, *Ohio*. Situate toward the E., and contains 704 sq. m. Drained by Tuscarawas r., Sandy, Conotton, and Sugar creeks, and other small streams. Surface uneven, and in parts hilly and broken; soil fertile, and raises fine crops of wheat, Indian corn, and potatoes, and is generally rich in agricultural productions. Farms 2,250; manuf. 159; dwell. 5,441, and pop.—wh. 31,672, fr. col. 89—total 31,761. *Capital*: New Philadelphia. *Public Works*: Springfield, Mount Vernon, and Pittsburg R. R.; Ohio Canal.

TUSCARAWAS, p. v., Tuscarawas co., *Ohio*: on Ohio Canal, W. side of Tuscarawas r., 84 m. E. N. E. Columbus.

TUSCARORA, p. o., Lee co., *Ja.*: 67 m. S. Iowa City.

TUSCARORA, p. v., Livingston county, *N. Y.*: 204 m. W. Albany.

TUSCOLA county, *Mich.* Situate E. centrally in the S. portion of the State, and contains 811 sq. m. Drained by Cass r. and its branches. Surface even; soil fertile, and produces good crops of wheat, oats, etc. It has good water-power, which might be put to advantage in the establishment of factories. Farms 18; dwell 65, and pop.—wh. 291, fr. col. 0—total 291. *Capital*: Tuscola.

TUSCOLA, t. and p. o., Livingston co., *Mich.*: 80 m. E. Lansing. Drained by small branches of Shiawassee r. A farming town containing 544 inhabitants.

TUSCUMBA, p. v., Franklin co., *Ala.*: about 2 m. S. Tennessee r., 182 m. N. N. W. Montgomery. The Memphis and Charleston R. R. passes through this place. It contains an iron foundry, several stores, etc. A spring here flows from a fissure in a limestone rock, which discharges 20,000 cubic feet of water per minute, and it flows a considerable stream 2½ m. to Tennessee r. The depth of the spring where it issues from the rock is 8 feet. The "North Alabamian" (whig) and "Franklin Democrat" (dem.), are both published weekly. Pop. about 2,800.

TUSCUMBA, p. v., and cap. Miller co., *Mo.*: on right bank of Osage r., 28 m. S. W. by S. Jefferson City. It contains the county buildings, etc.

TUSKAGEE, p. v., and cap. Macon co., *Ala.*: on a small branch of Tallapoosa r., 87 m. E. Montgomery. It contains the co. buildings, etc. The "Macon Republican" (whig), and "Herald" (whig) are issued weekly, and the "Universalist" semi-monthly. Pop. about 600.

TUSQUEE, p. o., Cherokee co., *N. Car.*: 283 m. W. by S. Raleigh.

TUTHILL, p. v., Ulster co., *N. Y.*: 76 m. S. S. W. Albany

TUTTLE'S CORNERS, p. o., Sussex co., *N. Jer.*: 60 m. N. N. Trenton.

TWALTY PLAINS, p. o., Washington co., *Oreg. Ter.*: 80 m. N. by E. Salem.

TWELVE MILE, p. o., Pickens district, *S. Car.*: 117 m. N. W. by W. Columbia.

TWELVE MILE, p. o., Cass co., *Ind.*: 68 m. N. by W. Indianapolis.

TWELVE MILE CREEK, p. o., Steuben co., *N. Y.*: 122 m. W. by S. Albany.

TWELVE MILE PRAIRIE, p. o., St. Clair co., *Ill.*: 95 m. S. by W. Springfield.

TWENTY MILE STAND, p. o., Warren co., *Ohio*: 78 m. S. W. by W. Columbus.

TWIGGS county, *Ga.* Situate centrally, and contains 898 sq. m. Ocmulgee r. forms its W. boundary, by branches of which it is drained. Surface hilly; soil very fertile, consisting of a fine deep mold, productive, and well adapted to cotton, the principal production of the county. A portion of the land is covered with pine timber; it contains some minerals. Farms 367; manuf. —; dwell. 696, and pop.—wh. 3,517, fr. col. 42, sl. 4,620—total 8,179. *Capital*: Marion. *Public Works*: Central Georgia R. R.

TWINSBURG, t. and p. v., Summit co., *Ohio*: 120 m. N. E. Columbus. Soil fertile. Drained by Tinker's cr., flowing centrally through the t. in a N. W. course, and affording water-power. The Cleveland and Pittsburg R. R. crosses the S. W. corner of the t. The village contains 2 churches, stores, mills, shops, etc. The v. and t. received their names from twin brothers who first settled here in 1827. Pop. of t. 1,281.

TWO MILE BRANCH, p. o., Smyth co., *Virg.*: 220 m. W. by S. Richmond.

TWO MILE PRAIRIE, p. o., Pulaski co., *Ind.*: about 8 m. E. Tippecanoe r., 85 m. N. by W. Indianapolis.

TWO RIVERS, p. o., Pike co., *Penn.*: on Delaware and Hudson Canal, W. side of Delaware, 124 m. N. E. by N. Harrisburg.

TWO RIVERS, t. and p. o., Manitowoc co., *Wisc.*: 123 m. N. E. Madison. Drained by E. and W. Twin rivers, flowing S. E. into Lake Michigan, which bounds it on the E. Population 924.

TWO TAVERNS, p. o., Adams county, *Penn.*: 36 m. S. W. Harrisburg.

TYE RIVER WAREHOUSE, p. o., Nelson co., *Virg.*: on W. side of James river, at junction with Tye river, 69 m. W. Richmond.

TYGERT'S CREEK, p. o., Greenup co., *Ky.*: on cr. of same name, 110 m. E. by N. Frankfort.

TYLER county, *Tex.* Situate E., and contains 1,157 sq. m. Drained by affluents of Neches r., which forms its eastern boundary, and by branches of Big Sandy or Alabama cr., which runs along its S. border. Surface undulating; soil fertile, consisting of a fine deep mold on a sandy bottom, and is well adapted to cotton and corn. On the Trinity the land is in general rich and very productive, but subject to submersion. It is thickly wooded with oak, pine, and other trees. Farms 187; manuf. 6; dwell. 267, and pop.—wh. 1,476, fr. col. 0, sl. 418—total 1,894. *Capital*: Woodville.

TYLER county, *Virg.* Situate N. W., and contains 373 sq. m. Drained by Fishing and Middle Island creeks, which enter the Ohio river. Surface generally uneven and rough; soil a strong loam, and fertile. Chief products, wheat, Indian corn, and potatoes. Farms 417; manuf. 15; dwell. 949, and pop.—wh. 5,456, fr. col. 4, sl. 38—total 5,493. *Capital*: Middlebourne.

TYLER, p. o., Winnebago county, *Ill.*: 176 m. N. by W. Springfield.

TYLER, p. o., Smith county, *Tex.*: 209 m. N. E. Austin City.

TYLERSBURG, p. o., Clarion co., *Penn.*: 147 m. W. N. W. Harrisburg.

TYLER'S PORT, p. o., Montgomery co., *Penn.*: 70 m. E. Harrisburg.

TYLERSVILLE, p. o., Laurens district, *S. Car.*: 70 m. N. W. by W. Columbia.

TYMAN'S STORE, p. o., Spottsylvania county, *Virg.*: 55 m. N. Richmond.

TYMOCHTEE, t. and p. v., Wyandott co., *Ohio*: 68 m. N. by W. Columbus. Drained by Sandusky and Tymochtee rivers. The Mad River and Lake Erie E. R. touches the N. W. corner of the t. Pop. of t. 1,817.

TYNGSBORO', t., p. v., and sta., Middlesex county, *Mass.*: on both sides of Merrimac r., 29 m. N. W. by N. Boston. The Nashua and Lowell R. E. passes through the v. on the W. bank of the Merrimac r., 32 m. from Boston. The v. occupies a pleasant site, and contains a church and academy, with several neat dwellings. Pop. of t. 799.

TYRE, t. and p. o., Seneca co., *N. Y.*: 150 m. W. by N. Albany. Surface level; soil sandy and calcareous loam. Drained by Clyde r., flowing into Seneca r. The Erie Canal passes through its N. part. The inhabitants are generally engaged in farming. Pop. 1,356.

TYREE SPRINGS, p. o., Sumner co., *Tenn.*: 21 m. N. by E. Nashville.

TYRELL, p. o., Venango co., *Penn.*: 168 m. N. W. by W. Harrisburg.

TYRINGHAM (Shaker settlement), t. and p. v., Berkshire county, *Mass.*: 112 m. W. Boston. Watered by branches of Housatonic r., one of which flows from a pond in its S. E. part. The t. is twice crossed by two heavy ranges of hills. The v. at the centre is neatly built. In its S. W. part is Shaker village. The t. also contains 3 churches, and several grist and saw mills. Pop. 821.

TYRO, p. v., Crawford county, *Ohio*: 66 m. N. by E. Columbus.

TYRONE, t. and p. o., Livingston county, *Mich.*: 40 m. E. Lansing. Drained by Ore cr., a branch of Shiawassee r. The inhabitants are generally engaged in farming, etc. Pop. in 1840, 394; in 1850, 567.

TYRONE, p. v., Blair county, *Penn.*: 76 m. W. N. W. Harrisburg. Situated on N. E. part of the county, and on Pennsylvania R. R., 118 m. W. Harrisburg.

TYRONE, p. o., Coshocton county, *Ohio*: 62 m. E. N. E. Columbus.

TYRONE, t. and p. v., Steuben co., *N. Y.*: 172 m. W. by S. Albany. Surface hilly; soil clay and calcareous loam. Drained by Mud cr., which flows through two large ponds on its W. border. The v. contains 2 churches, stores, etc. The t. also contains several tanneries, grist and saw mills, etc. Pop. of v. about 250; of the t. 1,894.

TYRONE MILLS, p. o., Fayette county, *Penn.*: 140 m. W. Harrisburg.

TYRRELL county, *N. Car.* Situate E., and contains 727 sq. m. Drained by Alligator r. and its branches; which waters are discharged into Albemarle sound. Surface low and generally even, in many parts it is liable to submersion, and is too wet for cultivation; soil where fit for tillage is fertile, and produces rice, cotton, grain, etc., which form the staple articles of commerce. On the E. in the Atlantic, are islands belonging to the county, of which the principal is Roanoke. Farms 210; manuf. 41; dwell. 635, and pop.—wh. 3,301, fr. col. 180, sl. 1,702—total 5,133. *Capital*: Columbia.

TYSON FURNACE, p. o., Windsor co., *Verm.*: 55 m. S. by E. Montpelier.

U

UCHEE, p. v., Russell co., *Ala.*: 59 m. E. Montgomery.

UCHEE ANNA, p. v., and cap. Walton co., *Flor.*: on W. side of a branch of Choctawhatchie river, 115 m. W. by N. Tallahassee. It contains a court-house, about 60 dwellings, and is surrounded by a very productive region.

UDINA, p. v., Kane co., *Ill.*: 153 m. N. N. E. Springfield.

UFFINGTON, p. v., Monongalia co., *Virg.*: 207 m. N. W. Richmond.

UHLERSVILLE, p. v., Northampton county, *Penn.*: 85 m. E. N. E. Harrisburg.

UHRICKSVILLE, p. v., Tuscarawas co., *Ohio*: 95 m. E. N. E. Columbus. The Steubenville and Indiana R. R. passes through this place. Pop. 577.

UINTAH river, *Utah Ter.*: a tributary of the Rio Colorado, which it joins a little above 40° N. lat., in Utah county. The valley of this r. is one of the few fertile places in this part of the territory.

UINTAH FORT, Great Salt Lake co., *Utah Ter.*: a trading post on a branch of Uintah r., 167 m. N. E. Fillmore City.

ULAO, p. o., Washington county, *Wis.*: 67 m. E. N. E. Madison.

ULATT'S valley, Solano co., *Calif.*: lies N. E. of the Suisun Valley, is 5 m. long, and 1½ m. wide. It runs N. W. between two ranges of hills, and opens out into the Sacramento Valley. It is a great thoroughfare, and the admiration of all travelers.

ULSTER county, *N. Y.* Situate toward the S. E., and contains 1,076 sq. m. Drained by Walkill, Esopus, Rondout, and Shawangunk creeks, which in their courses supply good water-power. Surface in general mountainous, the Shawangunk traversing it for a distance of 30 miles in a N. E. direction, and the Blue mountains spreading over its W. section, between these is a broad fertile valley; soil various, on the hills being adapted to grazing, and in the valleys very fertile. Chief products, wheat and Indian corn. This co. contains many minerals, and some sulphur springs, also large quarries of marble and limestone. It has some important manufactures, and exports large quantities of coal, brought here by the canal, and lumber. Farms 8,539; manuf. 441; dwell. 9,735, and pop.—wh. 57,803, fr. col. 1,551—total 59,354. *Capital*: Kingston. *Public Works*: Delaware and Hudson Canal; Albany and Hoboken R. R.

ULSTER, t. and p. o., Bradford county, *Penn.*: 107 m. N. Harrisburg. Drains into the Susquehanna r., which makes its E. border. Surface diversified; soil in the valley exceedingly rich. There are several saw and flour mills in the t., and several stores.

ULSTERVILLE, p. v., Ulster county, *N. Y.*: 76 m. S. S. W. Albany.

ULTIMA THULE, p. o., Sevier co., *Ark.*: on Rock cr., a branch of Little r., 131 m. W. S. W. Little Rock.

ULYSSES, t., Tompkins co., *N. Y.*: on the W. side of Cayuga lake, 8 m. N. W. Ithaca, and 152 m. W. from Albany. Drained by small streams running into Cayuga lake, toward which its surface declines. It contains several manufactures. Pop. 8,122.

ULYSSES, t. and p. o., Potter co., *Penn.*: 121 m. N. by W. Harrisburg. Drained by head waters of Pine cr. of Susquehanna r., and of the Genesee r. flowing in different directions. Surface elevated; soil fertile. Pop. 542.

UMBAGOG lake, *N. Hamp. and Me.*: a large body of water located mostly in Maine, extending about 800 yards in width along the E. of the townships of Errol and Cambridge in N. H. It is about 15 m. long, and in some parts 10 m. wide, and is little inferior to the Winnepiscogee in extent and beauty. Its form is long and irregular, increasing in width from S. to N. Its outlet is on the N. W. side of Errol, and flows into the Androscoggin river.

UMCOLTUS, p. o., Aroostook county, *Me.*: 172 m. N. E. Augusta.

UMPUQA City, p. v., and port, Umpqua co., *Oreg. Ter.*: at the mouth of Umpqua r., 92 m. S. S. W. Salem. It lies on a neck between the river and Pacific Ocean; has a good harbor, and promises to become a flourishing place.

UMPUQA river, *Oreg. Ter.*: a considerable stream falling into the Pacific Ocean, about 40 m. to the N. of Cape Arago. It rises by several branches from the coast range of mountains, and some of the heads are separated from tributaries of Rogue r. by a well-defined watershed. Gold has been

found in the greater part of its length, and already several settlements are found on its banks. Umpqua City at its mouth, Providence and Gardiner on opposite sides of the r. 6 m. up, Middleton on its S. bank 13 m. up, Scottsburg Myrtle City, and Gagniersville on the N. bank 22 to 25 m. up, and Elkton at the confluence of Elk r. are the principal, and there are others on Elk r., and on the N. and S. Umpqua rivers, which latter are the chief constituents of the Umpqua.

UNADILLA, t. and p. v., Livingston county, *Mich.*: 81 m. S. E. Lansing. Drained by Portage r., a branch of Huron river. Soil very fertile, and one of the best towns in the county. The inhabitants are chiefly engaged in farming. Pop. in 1840, 643; in 1850, 1,027.

UNADILLA, t. and p. v., Otsego county, *N. Y.*: 30 m. S. W. of the village of Cooperstown, 84 m. W. by S. Albany. Drained by Unadilla and Susquehanna rivers. Surface hilly and somewhat broken, but has rich alluvial flats. It contains some manufactures of woollens, leather, tobacco, etc., and has considerable trade in lumber. The v. on N. side of Susquehanna r. contains several mills, some manufacturing establishments, a bank, cap. \$100,000, and about 600 inhabitants. Two covered bridges, each 250 feet long, resting on 3 arches, here span the river. Pop. of t. 2,463.

UNADILLA river, *N. Y.*: rises in Bridgewater, Oneida co., flows in a southerly direction, dividing the counties of Madison, Otsego, and Chenango, and falls into the Susquehanna, in the N. E. corner of Brainbridge. It is about 5 m. in length, and affords immense hydraulic power. On its banks are situated several manufacturing villages.

UNADILLA CENTRE, p. v., Otsego county, *N. Y.*: on a branch of Unadilla r., 84 m. W. by S. Albany.

UNADILLA FORKS, p. v., Otsego county, *N. Y.*: at the junction of the E. and W. branches of the Unadilla r., 89 m. W. by S. Albany. It contains several manufactories, and about 800 inhabitants.

UNCASVILLE (Mohegan), p. v., New London co., *Conn.*: on the Reservation of the Mohegan Indians, 36 m. S. E. Hartford. It contains a chapel, school-house, etc., erected at the expense of the general government. The New London, Willimantic, and Palmer R. R. passes it, 9 m. from New London. In the vicinity is a large factory, making drillings, running 80 looms, 2,400 spindles, and employing about 100 operatives.

UNDERHILL, t. and p. v., Chittenden co., *Verm.*: 23 m. N. W. Montpelier. Drained by head branches of Brown r., a tributary of Lamoille r., which affords water-power to several saw-mills. Surface uneven, with an inferior soil. The v. is on a branch of Brown r. Pop. of t. 1,599.

UNDERHILL CENTRE, p. v., Chittenden co., *Verm.*: 25 m. N. W. Montpelier.

UNDERWOOD, p. o., Hopkins co., *Ky.*: 161 m. E. by S. Frankfort.

UNDERWOOD'S, p. o., Marion co., *Ohio*: 47 m. N. by W. Columbus.

UNIKA mountains, a name given to that portion of the Alleghany range that separates Tennessee from North Carolina, and which lies S. W. of Tennessee river.

UNION county, *Ark.* Situate S., and contains 1,230 sq. m. Drained by Wachita river and its affluents. Surface level; soil fertile. Cotton is the chief production. Farms 679 manuf. 0; dwell. 964, and pop.—wh. 5,526, fr. col. 5, sla. 4,767—total 10,298. *Capital*: El Dorado.

UNION county, *Ga.* Situate N., and contains 706 sq. m. Drained by head branches of Hiwassee river, and other small streams. Surface uneven; soil fertile. In the S. and E. it is bounded by a mountainous range. Farms 911; manuf. 3; dwell. 1,141, and pop.—wh. 6,955, fr. col. 1, sla. 278—total 7,234. *Capital*: Blairsville.

UNION county, *Ill.* Situate S. W., and contains 390 sq. m. Drained by Clear creek, a tributary of Mississippi river, which forms its western border, and by Cash river, a tributary of Ohio river. Surface hilly; soil fertile, and produces abundantly wheat, Indian corn, and other grains.

Pork and beef are exported. Farms 510; manuf. 21; dwell. 1,289, and pop.—wh. 7,570, fr. col. 45, total 7,615. *Capital*: Jonesboro'. *Public Works*: Illinois Central R. R.

UNION county, *Ind.* Situate E., and contains 168 sq. m. Drained by E. fork of White river, and Hannah, Rockland, and Silver creeks. Surface E. level, W. undulating or hilly. Seven-eighths of the country originally timbered upland. The soil is uniformly good. Farms 606; manuf. 35; dwell. 1,220, and pop.—wh. 7,106, fr. col. 88—total 7,144. *Capital*: Liberty. *Public Works*: Indiana Junction R. R.

UNION county, *Ia.* Situate toward the S. W., and contains 432 sq. m. Drained by Crooked fork of Grand river and its branches. Surface level, extending into broad, open plains; soil fertile, and well adapted to wheat and grain. Set off since 1850.

UNION county, *Ky.* Situate N. W., and contains 855 sq. m. Drained by Highland creek and branches, and branches of Tradeswater creek. Surface undulating, the land rising gradually to the Ohio, on the W. border, and on the shore terminating in high bluffs; soil moderately fertile. Chief productions tobacco and Indian corn. Some cotton is also produced. Farms 681; manuf. 7; dwell. 1,140, and pop.—wh. 6,704, fr. col. 16, sla. 2,292—total 9,012. *Capital*: Morganfield.

UNION parish, *La.* Situate N., and contains 1,027 sq. m. Drained by D'Arbonne river, and its branches, which traverse it from E. to W., and branches of Wachita river. Surface level; soil varied, that on the streams being generally rich and fertile, adapted to the culture of cotton, rice, and Indian corn, which, with wheat, form the staple productions. Farms 717; manuf. 1; dwell. 942, and pop.—wh. 4,778, fr. col. 0; sl. 3,425—total 8,203. *Capital*: Farmersville.

UNION county, *N. Car.* Situate S., and contains 475 sq. m. Drained by branches of Yadkin river. Surface uneven; soil fertile, and well adapted to grain and grazing. Some portions of it are very productive, and yield a large quantity of cotton, etc. Staple articles of commerce, tobacco, cotton, rice, and wheat. Farms 877; manuf. 9; dwell. 1,422, and pop.—wh. 8,018, fr. col. 51, sl. 1,982—total 10,051. *Capital*: Monroe.

UNION county, *Ohio.* Situate W. centrally, and contains 854 sq. m. Drained by Big Darby and Boques creeks, and other affluents of the Scioto river. Surface an extended plain, with occasional swells, and pleasantly diversified; soil fertile, and produces abundantly wheat, grain, and potatoes. Pork and beef are exported. Farms 1,255; manuf. 16; dwell. 2,059, and pop.—wh. 12,076, fr. col. 128—total 12,204. *Capital*: Marysville. *Public Works*: Springfield, Mount Vernon, and Pittsburg R. R.; Columbus and Bellefontaine R. R., etc.

UNION county, *Penn.* Situate E. centrally, and contains 576 sq. m. Drained by Penn's, Middle, Buffalo, and West Mahantanga creeks, tributaries of Susquehanna river, and its W. branch, which bound it on the E. Surface hilly, and in parts mountainous; soil fertile, and very productive. Staples, wheat and Indian corn. Farms 1,597; manuf. 160; dwell. 4,455, and pop.—wh. 25,982; fr. col. 101—total 26,083. *Capital*: New Berlin.

UNION dist., *S. Car.* Situate N., and contains 749 sq. m. Drained by Paeolet and Tyger rivers, and their branches. Surface undulating; soil generally fertile, and adapted to grain. Chief productions, cotton and Indian corn. Farms 869; manuf. 72; dwell. 1,734, and pop.—wh. 9,322, fr. col. 133, sl. 10,392—total 19,852. *Capital*: Unionville. *Public Works*: Union and Spartanburg R. R.

UNION, p. o., Jasper co., *Tex.*: 223 m. E. by N. Austin City.

UNION, p. v., Greene co., *Ala.*: 98 m. W. by N. Montgomery. Pop. 290.

UNION, t. and p. o., Tolland co., *Conn.*: 81 m. N. E. by E. Hartford. Drained by head branches of Willimantic river, and other small streams. Surface hilly, with an inferior soil. Mashapaug and Breakneck ponds, sources of the

Quinnebang, and a branch of the Natchaug rivers, are in this town. Pop. 729.

UNION, p. o., York co., *Penn.*: 81 m. S. S. E. Harrisburg. UNION, p. v., and sta., M'Henry co., *Ill.*: on the Galena and Chicago Union R. R., 62 m. N. W. Chicago, and 175 m. N. E. Springfield.

UNION, p. o., Pike county, *Ind.*: 110 m. S. W. by W. Indianapolis.

UNION, v. and sta., Randolph co., *Ind.*: on the State line, 84 m. E. N. E. Indianapolis. This is the point of union of the Indianapolis and Bellefontaine R. E., and the Ohio lines to Cleveland, Pittsburg and Cincinnati, viz., the Bellefontaine and Indiana R. R., the Columbus, Piqua and Indiana R. R., and the Greenville and Miami R. R. respectively, which, with their eastern connections, extend to the above-named places, and thence connect with roads to the Atlantic, etc. It is one of the most important points of junction in the west, and must soon become a thriving commercial centre.

UNION, p. v., Boone co., *Ky.*: 51 m. N. by E. Frankfort.

UNION, t. and p. v., Lincoln co., *Me.*: 27 m. E. S. E. Augusta. Drained by St. George and Muscungus rivers. Surface gently uneven. Incorporated in 1786. The t. contains a considerable number of saw, grist, and fulling mills. The v. is on St. George r. Pop. of t. 1,974.

UNION, p. o., Cass co., *Mich.*: on the W. of a tributary of St. Joseph's r., 88 m. S. W. Lansing.

UNION, p. v., Newton county, *Miss.*: 69 m. E. by N. Jackson.

UNION, t., Branch co., *Mich.*: 52 m. S. W. by S. Lansing. St. Joseph's r. crosses its N. W. corner, and receives at Union City the stream draining the t. The inhabitants are generally engaged in farming. Pop. in 1840, 507; in 1860 1,271.

UNION, p. v., Franklin co., *Mo.*: a little N. of Bourbeuse cr., 64 m. E. Jefferson City.

UNION, p. o., Carroll county, *N. Hamp.*: 40 m. N. by E. Concord.

UNION, p. v., Van Buren co., *Ia.*: 72 m. S. S. W. Iowa City.

UNION, t. and p. v., Essex county, *N. Jer.*: 42 m. N. E. Trenton. Drained by Elizabeth and Rahway rivers. Surface uneven, with a fertile and well-cultivated soil. Pop. of t. 1,662.

UNION, t., p. v., and sta., Broome co., *N. Y.*: on the N. side of the Susquehanna r., 128 m. W. S. W. Albany. Drained by Nanticoke r., a tributary of the Susquehanna. Surface undulating, and in parts hilly; soil fertile. The v. is located 1½ m. N. of the Susquehanna r., at the base of a round hill, which has excellent pasture to the top, facing the v., while on the opposite side it is covered with pine and hemlock. From its summit there are excellent views of the river and valley. It is a thriving place, and contains about 1,000 inhabitants. The sta. is ¼ m. distant from the v., on the New York and Erie R. R., which passes along the Susquehanna 293 m. from New York city, and 237 m. from Dunkirk. The t. contains about 30 saw mills, with tanneries and grist mills. Pop. of t. 2,143.

UNION, t. and sta., Licking county, *Ohio*: on the Central Ohio R. R. 26 m. E. by N. from Columbus. The Ohio Canal passes on its S. E. border. It contains the p. v. of Hebron (pop. 649), and Lura, pop. 83. Pop. of t. 2,363.

UNION, p. v., Montgomery co., *Ohio*: on the W. side of Greenville creek, 73 m. W. by S. Columbus. Pop. about 800.

UNION, p. v., and cap. Monroe co., *Virg.*: 171 m. W. Richmond. It contains a court-house, jail, and an academy, several stores and tanneries. The "Union Republican" is issued weekly. Pop. 253.

UNION, t. and p. o., Rock co., *Wis.*: 20 m. S. Madison. Drained by branch of Sugar r., and is a good farming town. Pop. 1,050.

UNION, v., Trinity co., *Calif.*: at the head of Humboldt Harbor, 212 m. N. W. Vallejo.

- UNION, p. v., Santa Clara county, *Calif.*: 78 m. S. S. E. Vallejo.
- UNION river and bay, Hancock co., *Me.*: has its source a few miles S. of Passadumkeag r., flows S., and empties into Union river bay, between Trenton and Surry. Its length is over 40 m. It receives several tributaries and affords valuable water-power.
- UNION BRIDGE, p. v., Carroll co., *Md.*: on Little Pipe creek, 10 m. N. from Westminster, and 53 m. N. W. Annapolis.
- UNION BRIDGE, v. and sta., Belknap co., *N. Hamp.*: on the W. border of Little Bay, and on the Boston, Concord, and Montreal R. R., 22 m. from Concord.
- UNION BRIDGE, p. o., Titus co., *Tex.*: 266 m. N. E. Austin City.
- UNION CENTRE, p. v., Broome co., *N. Y.*: 125 m. W. S. W. Albany.
- UNION CHURCH, p. o., Jefferson co., *Miss.*: near a branch of Homochio r., 53 m. S. W. by S. Jackson.
- UNION CITY, p. v., Branch co., *Mich.*: on S. side of St. Joseph's r., at the junction of Coldwater r., 54 m. S. W. by S. Lansing. Its location is at the head of navigation, and it possesses a considerable amount of water-power.
- UNION CORNER, sta., Queens co., *N. Y.*: on the Long Island R. R., 8 m. E. New York. Here is one of the most noted race courses in the Union.
- UNION CORNERS, p. o., Livingston co., *N. Y.*: 214 m. W. Albany.
- UNION CORNERS, p. v., Van Buren co., *Ja.*: on South branch of Fox r., 75 m. S. S. W. Iowa City.
- UNION DISTRICT, p. o., Washtenaw co., *Mich.*: 46 m. S. E. Lansing.
- UNION FALLS, p. v., Clinton co., *N. Y.*: W. side of Saranac r., which affords great water-power, 133 m. N. Albany.
- UNION FURNACE, p. o., Huntingdon co., *Penn.*: 54 m. W. Harrisburg.
- UNION GROVE, p. v., Whitesides co., *Ill.*: on the W. side of Little Rock r., 143 m. N. by W. Springfield.
- UNION GROVE, p. o., Racine co., *Wis.*: 70 m. E. S. E. Madison.
- UNION GROVE, p. v., Prince George co., *Virg.*: near the head waters of Blackwater r., 33 m. S. by E. Richmond.
- UNION HALL, p. o., Franklin co., *Virg.*: 135 m. W. S. W. Richmond. In the vicinity, on Pig r., are several mills.
- UNION LEVEL, p. o., Mecklenburg county, *Virg.*: 83 m. S. W. Richmond.
- UNION MEETING HOUSE, p. o., Baltimore co., *Md.*: on Great Gunpowder Falls, 81 m. N. of Baltimore city, and 51 m. N. by W. Annapolis.
- UNION MILLS, p. o., La Porte co., *Ind.*: on W. side of branch of Kankakee r., 159 m. N. by W. Indianapolis.
- UNION MILLS, p. o., Carroll county, *Md.*: on side of Big Pipe cr., 52 m. N. N. W. Annapolis.
- UNION MILLS, p. o., Fulton co., *N. Y.*: 38 m. N. W. by N. Albany. It contains several mills.
- UNION MILLS, p. o., Mahaska co., *Ja.*: on N. side of N. Skunk r., 53 m. W. by S. Iowa City.
- UNION MILLS, p. v., Erie co., *Penn.*: on a branch of French cr., 191 m. N. W. Harrisburg.
- UNION MILLS, p. v., Fluvanna co., *Virg.*: on Rivanna r., 55 m. N. W. Richmond. It contains several mills and a large cotton factory.
- UNION PLAIN, p. o., Brown co., *Ohio*: 89 m. S. E. by S. Columbus.
- UNION POINT, p. o. and sta., Greene co., *Ga.*: on the Georgia R. R., at the junction of the Athens Branch R. R., 40 m. from Athens, 76 m. from Augusta, and 42 m. N. by E. Milledgeville.
- UNION POINT, p. o., Concordia par., *La.*: 78 m. N. by W. Baton Rouge.
- UNION POINT, p. o., Union co., *Ill.*: on E. side of Mississippi r., 3 m. below the mouth of Big Muddy r., 162 m. S. Springfield.
- UNION SETTLEMENT, p. o., Oswego county, *N. Y.*: 142 m. W. N. W. Albany.
- UNION SOCIETY, p. o., Greene co., *N. Y.*: 38 m. S. W. Albany.
- UNION SPRINGS, p. o., Macon county, *Ala.*: on a fork of Cupia Hatchie cr., 41 m. E. by S. Montgomery. Population about 160.
- UNION SPRINGS, p. o., Harrison co., *Tex.*: 19 m. S. W. Austin City.
- UNION SPRINGS, p. v. and sta., Cayuga co., *N. Y.*: on E. side of Cayuga lake, 156 m. W. Albany. The Cayuga and Susquehanna R. R. passes through this place, 64 m. N. W. from Owego, and connects at Cayuga, 4 m., with the Rochester and Syracuse R. R. It has several mills, 1 iron foundry, and 1 woolen factory. There are two springs here which discharge sufficient water to supply the mills with power, there is also a mineral spring here of some celebrity. It has a steamboat landing, and a steam ferry connects the v. with Canoga, in Seneca county. The "Cayuga Telegraph" (neut.) is here published. Pop. about 600.
- UNION SQUARE, p. o., Oswego co., *N. Y.*: 144 m. W. N. W. Albany.
- UNION SQUARE, p. v., Montgomery co., *Penn.*: 83 m. E. Harrisburg.
- UNIONTOWN, p. v., Perry co., *Ala.*: at the head-waters of Chilaloohee creek, 77 miles W. Montgomery. Population about 503.
- UNIONTOWN, p. v., Knox county, *Ill.*: 71 m. N. by W. Springfield.
- UNIONTOWN, p. v., Union county, *Ky.*: 167 m. W. by S. Frankfort.
- UNIONTOWN, p. v., Wells co., *Ind.*: on S. side of branch of Little r., 117 m. N. E. by N. Indianapolis.
- UNIONTOWN, p. v., Carroll co., *Md.*: 51 m. N. W. by N. Annapolis. Pop. 339.
- UNIONTOWN, sta., Middlesex co., *N. Jer.*: on New York and Philadelphia R. R., 84 m. N. E. Trenton.
- UNIONTOWN, p. o., *Indian Territory*.
- UNIONTOWN, p. v., Belmont co., *Ohio*: 111 m. E. by N. Columbus. Pop. 194.
- UNIONTOWN, p. b., and cap. Fayette co., *Penn.*: on Redstone cr., 153 m. W. by S. Harrisburg. In this neighborhood are three cold blast furnaces, with a capacity of 1,100 tons each, and a rolling-mill, with an annual product of 700 tons. It contains several stores, workshops, and printing-offices, and three newspapers, the "Pennsylvania Democrat," the "Fayette Whig," and the "Genius of Liberty" (whig), are issued weekly. Pop. 2,333.
- UNION VALE, t., Duchess co., *N. Y.*: 69 m. S. Albany. Drained by Fishkill r. Surface rolling and hilly, having on the E. Matteawan ridge; soil fertile. It has some manufactures. Pop. 1,552.
- UNION VALLEY, p. v., Cortlandt co., *N. Y.*: 124 m. W. Albany.
- UNION VILLAGE, p. v., Broome co., *N. Y.*: 120 m. W. by S. Albany.
- UNION VILLAGE, p. v., Orange co., *Verm.*: on S. side of branch of Connecticut r., 40 m. S. E. by S. Montpelier.
- UNION VILLAGE, p. v., Northumberland co., *Virg.*: 65 m. E. N. E. Richmond.
- UNION VILLAGE, v., Warren county, *Ohio*: 84 m. S. W. Columbus. The inhabitants are chiefly Shakers, and are divided into families, each one with its separate house, having out-houses and work-shops adjoining. This is the oldest and largest society in the West.
- UNIONVILLE, p. v., Monroe co., *Ga.*: on S. side of branch of Ocmulgee r., 52 m. W. by N. Milledgeville.
- UNIONVILLE, p. v., Hartford county, *Conn.*: on E. side of Farmington r., on the Collinsville branch of the New Haven and Northampton, or Canal E. R., 23 m. from New Haven, and 11 m. W. from Hartford.
- UNIONVILLE, p. v., Monroe co., *Ind.*: 51 m. S. S. W. of Indianapolis.

UNIONVILLE, p. v., Appanoose county, *Ia.*: on S. side of branch of Des Moines r., 81 m. S. W. Iowa City.

UNIONVILLE, p. v., Frederick co., *Md.*: on a tributary of Linganore cr., 14 m. E. N. E. of Frederick City, and 47 m. N. W. Annapolis.

UNIONVILLE, p. v., Orange co., *N. Y.*: 98 m. S. S. E. of Albany. It contains a church, several stores, etc. Population about 180.

UNIONVILLE, p. v. and sta., Lake co., *Ohio*: on Cleveland and Erie R. R., 42 m. from Cleveland, 53 m. from Erie, 165 m. N. E. Columbus. It contains two churches, several stores, etc. In the vicinity are extensive iron-works.

UNIONVILLE, p. v., Chester co., *Penn.*: 66 m. E. S. E. of Harrisburg.

UNIONVILLE, p. v., sta., and cap. Union dist., *S. Car.*: on a small branch of Tiger r., 57 m. N. W. by N. Columbia. It contains the county buildings etc. The Union and Spartanburg R. R., diverging from Alston on Greenville and Columbia R. R., extends through this place to Spartanburg, 60 m.

UNIONVILLE, p. v., Cass co., *Tex.*: 228 m. N. E. Austin City.

UNIONVILLE, p. v., Bedford co., *Tenn.*: 45 m. S. S. E. of Nashville.

UNIONVILLE CENTRE, p. o., Union co., *Ohio*: 23 m. N. W. by N. Columbus.

UNIONVILLE, p. v., Auglaize county, *Ohio*: 77 miles N. W. Columbus.

UNISON, p. v., Loudon co., *Virg.*: 99 m. N. Richmond.

UNISON, p. v., Delaware co., *Ohio*: 19 m. N. by W. Columbus.

UNTARIA, p. o., Broome co., *N. Y.*: 125 m. W. S. W. Albany.

UNTITIA, p. v., Blount county, *Tenn.*: 144 m. E. by S. Nashville.

UNITY, p. v., Alexander county, *Ill.*: 1 m. W. of Cash river, 5 m. N. of the Mississippi r., and 189 m. S. by E. Springfield.

UNITY, t. and p. v., Waldo co., *Me.*: 81 m. N. E. Augusta. Drained by branch of Sebasticook r. There is a pond on its N. border, S. of which the v. is located. The t. contains fulling, grist, and saw mills, and tanneries. Pop. of t. 1,557.

UNITY, p. v., Montgomery co., *Md.*: to the W. of Patuxent r., 86 m. W. N. W. Annapolis.

UNITY, t. and p. v., Sullivan co., *N. Hamp.*: 86 m. W. Concord. Drained by Sugar r., and other small branches of Connecticut r. Perry's Mountain, in the S. W. part, is partly in this town. The inhabitants are generally engaged in farming. Pop. of t. 961.

UNITY, t. and p. v., Columbiana county, *Ohio*: 149 m. N. E. by E. Columbus. Drained by tributaries of Little Beaver river. The v. of Unity is situate about a mile N. of the Ohio and Pennsylvania R. R., which passes through the t. in an E. and W. direction. Pop. of t. 2,095.

UNITY, p. v., Muhlenburg co., *Ky.*: 144 m. S. W. by W. Frankfort.

UNITY, p. o., Crawford co., *Penn.*: 193 m. W. N. W. Harrisburg.

UNITY, t., Westmoreland co., *Penn.*: 180 m. W. Harrisburg. Drained by Crabtree and Big Sewickly creeks, and Nine Mile run, affording extensive hydraulic power, improved by various tanneries, distilleries, flouring and saw mills. Pop. about 3,100.

UNIVERSITY OF VIRGINIA, p. o., Albemarle co., *Virg.*: at the University, 1 m. W. Charlottesville, and 93 m. from Richmond by the Virginia Central R. R. Lat. 38° 02' 03" N., and long. 78° 31' 29" W. The University was founded in 1819, and in 1850 had 10 professors, and 883 students, 3,500 alumni, and a library of 10,000 volumes. In the law department there were 70 students, and in the medical department 95 students. This is one of the most flourishing institutions of the kind in the United States.

UPATOLE, p. v., Muscogee co., *Ga.*: on W. side of branch

of Upotoy cr., 93 m. W. S. W. Milledgeville. The Muscogee R. R. passes through this place.

UPDEGRAFFS, p. o., Jefferson co., *Ohio*: 111 m. E. by N. Columbus.

UPHAUPEE, p. v., Macon co., *Ala.*: on Uphaupee cr., 81 m. E. by N. Montgomery.

UPPER ALTON, p. v., Madison co., *Ill.*: on elevated ground, 2½ m. E. of Mississippi r., and E. of Alton, 69 m. S. by W. of Springfield. It contains several mills and stores, and about 2,000 inhabitants. In 1816 the v. was laid out, and for the past 20 years it has gradually increased in growth. It contains Shurtleff College, founded in 1835, having (in 1850) a president, 6 professors, and 45 students, with a library containing 1,600 volumes.

UPPER AQUEBOGUE, p. v., Suffolk co., *N. Y.*: 132 m. S. E. by S. Albany.

UPPER BLACK EDDY, p. o., Bucks co., *Penn.*: 105 m. E. Harrisburg.

UPPERCO, p. v., Baltimore co., *Md.*: situated E. of the N. branch of Patapsco r., 21 m. N. N. W. Baltimore, 43 N. N. W. Annapolis.

UPPER CROSS ROADS, p. o., Harford co., *Md.*: 45 m. N. by E. Annapolis.

UPPER DARBY, t. and p. o., Delaware co., *Penn.*: 89 m. E. by S. Harrisburg. Drained by Cobb's and Darby creeks. Surface hilly; soil fertile. It has good water-power, and some manufactories.

UPPER DUBLIN, t. and p. o., Montgomery co., *Penn.*: 99 m. E. Harrisburg. Drained by Darby and Cobb's creeks, by which good water-power is supplied. Surface hilly; soil fertile, consisting of black mold. It has several stores, and a number of mills and factories. Pop. 1,550.

UPPER EMBARRAS, p. o., Coles co., *Ill.*: about 2 m. W. of head branch of Embarras r., 79 m. E. Springfield.

UPPER FALLS, p. v., Windsor co., *Verm.*: 53 m. S. by E. Montpelier.

UPPER FREEHOLD, t., Monmouth county, *N. Jer.*: 12 m. E. by S. Trenton. It has Assunpink cr. on the N. E., and Crosswick's cr. on the S. border. Drained by tributaries of Assunpink and Crosswick's creeks. Surface even, with forests of pine in the S. E. part. It has good water-power, and several manufactories and mills. Pop. 2,556.

UPPER GILMANTON, p. v., Belknap co., *N. Hamp.*: on the N. of Winnipisseege r., 17 m. N. by E. Concord.

UPPER GLOUCESTER, p. v., Cumberland county, *Me.*: on Royals r., 35 m. S. W. Augusta.

UPPER HASOVER, t., Montgomery county, *Penn.*: 81 m. E. by N. Harrisburg. Drained by Perkiomen cr. and its branches. Surface hilly, and in parts rough and broken. Soil red shale. It contains several stores and a number of mills, and has about 1,570 inhabitants. The village, called New Goshenhoppen, is situate in the forks of Perkiomen creek.

UPPER HUNTING creek, p. o., Caroline co., *Md.*: on a cr. so called, above its confluence with Choptank r., 88 m. S. E. Annapolis.

UPPER IOWA river, *Ia.*: rises in S. part of Minnesota Ter., flows S. E. into Winnisheik co., and then N. E., emptying into the Mississippi r. near the N. boundary of the State.

UPPER JAY, p. o., Essex co., *N. Y.*: 120 m. N. Albany.

UPPER LISLE, p. o., Broome co., *N. Y.*: 122 m. W. by S. Albany.

UPPER MACUNGY, t., Lehigh co., *Penn.*: 74 m. E. N. E. Harrisburg. Drained chiefly by Lehigh cr. It contains several stores, and has a number of grist and saw mills. Pop. about 1,900.

UPPER MAHANTANGO, t. and p. o., Schuylkill co., *Penn.*: 87 m. N. E. by N. Harrisburg. Drained by two branches of Mahantango cr. Surface diversified, with collection of low hills; soil red shale and white gravel, in general barren. It contains several stores, and has a number of grist and saw mills.

UPPER MARIETTA, p. v., Lancaster co., *Penn.*: on the E.

bank of Susquehanna r. and on the line of the Columbia Branch R. E., 5 m. above Columbia.

UPPER MARLBORO, p. v., and cap. Prince George co., *Md.*: on the S. side of the W. branch of Patapsco r., 4 m. above its mouth, 17 m. S. W. Annapolis and 13 m. E. by S. Washington, D. C. It contains the county buildings, etc., and is a well-built village. The "Mariboro' Gazette" (neut.) is published weekly. Pop. about 800.

UPPER MIDDLETOWN, p. v., Middlesex co., *Conn.*: on W. side of Connecticut r., 15 m. S. Hartford. The name of this place has lately been changed to CROMWELL. It contains 2 churches, academy, a few stores, etc.

UPPER MIDDLETOWN, p. v., Fayette co., *Penn.*: on bend of Redstone cr., 5 m. N. Union, 155 m. W. by S. Harrisburg.

UPPER MOUNT BETHEL, t., Northampton co., *Penn.*: on the W. side of Delaware r., 99 m. N. E. Harrisburg. Surface mountainous. It contains several manufactories.

UPPER PEACH TREE, p. v., Wilcox co., *Ala.*: on the W. side of the Alabama r., 75 m. S. W. by W. Montgomery.

UPPER RED HOOK, p. v., Dutchess co., *N. Y.*: 3 m. E. from Hudson r., 42½ m. S. Albany.

UPPER ST. CLAIR, t. and p. o., Alleghany county, *Penn.*: 173 m. W. Harrisburg. Drained by Chartier's cr. Surface hilly; soil black loam, and very fertile. It contains a number of stores and several mills and factories, and has a pop. of about 2,700.

UPPER SANDUSKY, p. v., and cap. Wyandott co., *Ohio*: on W. side of Sandusky r., 60 m. N. by W. Columbus. It contains the usual county buildings and is well built. Population 783.

UPPER STILLWATER, p. v. and sta., Penobscot co., *Me.*: on the W. side of the Penobscot r., opposite Marsh's Island, 69 m. N. E. Augusta. The Bangor and Piscataquis R. R. passes through this place, 9 m. from Bangor. Great water-power is here afforded by the falls in the Penobscot river.

UPPER STRASBURG, p. v., Franklin co., *Penn.*: on a fork of Heyren's branch of Conedogwinit cr., 10 m. N. W. Chambersburg, 47 m. W. S. W. Harrisburg.

UPPER TRACT, p. v., Pendleton co., *Virg.*: on the W. side of S. branch of the Potomac r., 119 m. N. W. by W. Richmond.

UPPER TRAPPE, p. v., Somerset co., *Md.*: on the N. side of Wicomico cr., 65 m. S. E. Annapolis.

UPPER TYGART, p. o., Carter co., *Ky.*: on Buffalo fork of Tygart cr., 102 m. E. by N. Frankfort.

UPPERVILLE, p. v., Fauquier co., *Virg.*: 103 m. N. by W. Richmond. It contains an academy, church, and several stores, and about 350 inhabitants.

UPPER YARMOUTH, p. v., Cumberland co., *Me.*: 41 m. S. W. by S. Augusta.

UPSHUR county, Tex. Situate toward the N. E., and contains 1,053 sq. m. Drained by Little Cypress r. and its branches, and affluents of Sabine and Big Cypress rivers. Surface undulating; soil fertile, and favorable to the growth of cotton and corn. Grapes grow wild, and might with a little care be rendered a valuable article in the manufacturing of wines. It is thickly wooded, and is interspersed with numerous streams of pure running water. Farms 240; manuf. 0; dwell. 484, and pop.—wh. 2,712, fr. col. 0, sl. 652—total 3,394. *Capital*: Gilmer.

UPSHUR, p. o., Preble co., *Ohio*: 95 m. W. by S. Columbus. It was formerly called New Hope.

Urson county, Ga. Situate W. centrally, and contains 208 sq. m. Drained by branches of Flint r., which forms the S. W. and W. boundary. Surface uneven; soil fertile, and is adapted to cotton, which is produced in abundance, and also to wheat and Indian corn, good crops of which are raised. A portion of the land is covered with pine. Some minerals are found. Farms 436; manuf. 19; dwell. 795, and pop.—wh. 4,720, fr. col. 0, sl. 4,704—total 9,424. *Capital*: Thomaston.

UPSONVILLE, p. v., Susquehanna county, *Penn.*: 127 m. N. N. E. Harrisburg.

UPTON, t. and p. v., Worcester co., *Mass.*: 31 m. W. S. W. Boston. A tributary of Blackstone r. has its source in this town, and furnishes water-power. Surface rough and hilly. It has several manufactories, among which are wool and leather. The v. is on West r. Pop. of t. in 1840, 1,466; in 1850, 2,023.

UPTON, p. v., Dodge co., *Wis.*: on W. of the W. branch of Rock r., 51 m. E. N. E. Madison.

UPTON, p. v., Franklin co., *Penn.*: on a branch of the Potomac r., 59 m. S. W. Harrisburg.

URBANA, p. v., and cap. Champaign co., *Ill.*: on S. side of Salt fork of Vermillion r., 76 m. E. N. E. Springfield. It contains a court-house and jail, and about 400 inhabitants. The Chicago Branch of the Illinois Central R. R. intersects this place.

URBANA, p. v., Frederick co., *Md.*: on the E. side of Monocacy r., on the high ground between Back and Bennett's creeks, 84½ m. W. N. W. Annapolis.

URBANA, p. v., Hickory co., *Mo.*: on the E. boundary of the county, 72 m. S. W. Jefferson City.

URBANA, t. and p. v., Steuben county, *N. Y.*: 138 m. W. Albany. A portion of Crooked lake is in the t. Drained by several small streams flowing into the lake. Surface hilly; soil various. The v. is located at the S. end of the lake, at which point there is a landing. The t. contains numerous mills. Pop. of t. 2,079.

URBANA, t., p. v., sta., and cap. Champaign co., *Ohio*: 39 m. W. Columbus. The v. contains the county buildings, an academy, and several churches. The Columbus, Piqua, and Indiana R. R. and the Mad River and Lake Erie R. R. pass through the v., affording great facilities for trade. Two newspapers are issued weekly, "U. Expositor" (dem.), and "U. Citizen and Gazette" (whig). Pop. of v. in 1840, 1,070; in 1850, 2,020. Pop. of t. (including v.) in 1840, 1,386; in 1850, 3,414.

URBANE, p. v., Jackson co., *Ill.*: 155 m. S. by E. Springfield. The Illinois Central R. R. passes 2½ m. E. of this place.

URBANNA, p. v., and cap. Middlesex co., *Virg.*: on S. W. side of Rappahannock r., near the mouth of Urbanna cr., 46 m. E. by N. Richmond. It contains a court-house, jail, several stores, and about 200 inhabitants. Considerable pine timber is exported. Steamboats plying between Baltimore and Fredericksburg make this one of the stopping places.

URVILLE, p. v., Kent co., *Md.*: on the E. side of Morgan's cr. of Chester r., 27 m. N. E. Annapolis.

URSA, p. o., Adams co., *Ill.*: 3 m. E. of the Mississippi r., 91 m. W. by N. Springfield.

URSINE, p. o., Grant co., *Wis.*: 69 m. W. by S. Madison. **USQUEPAUGH**, p. v., Washington county, *R. I.*: 13 m. W. Newport.

THE TERRITORY OF UTAH.

UTAH, originally a portion of California Alta, lies between latitudes 37° and 42°, and longitudes 106° and 120° west from Greenwich, or about 29° and 43° west from Washington. It is bounded north by Oregon, east by Nebraska and New Mexico, south by New Mexico, and south-west and west by California. In extreme length east and west 740 miles, and in breadth 340 miles, it contains an area estimated at 137,923 square miles.

This territory occupies the great basin lying between the Rocky Mountains on one hand, and the Sierra Nevada on the other; and with the exception of its eastern portion, drained by the Colorado and its tributaries, forms a distinct geographical region, having mountains, rivers, and lakes all its own, and which originate and terminate within its natural limits. It is one of the most peculiar countries of the world; and in many respects assimilates the topography of

Palestine, and like that country has its Dead Sea, its mountain borders, its peculiar people as Palestine of old, and on its west the maritime Philistines of California. The characteristics, historical, geographical, and theoretical, of the two might be compared indefinitely; nor is the resemblance less striking in form of government, in manners, and in customs. The physical elements of the countries are the same, and the moral and religious, modified, however, by external associations, only distinct in the perceptions of the sectarian.

The Great Basin, in which the larger portion of Utah lies, says Dr. Bernhisel, is about 500 miles long east and west, by 265 miles breadth. It has never been fully explored; but so far as it has been, a portion of it is found to consist of arid and sterile plains, another of undulating table-lands, and a third of elevated mountains, a few of whose summits are capped with perpetual snow. Some portions of the basin abound in rich and nutritious grasses. There are within its limits many streams and lakes, and of the latter, the most remarkable is the Great Salt Lake, which is about 70 miles in length, and 30 to 35 miles in breadth. Its waters are a saturated solution of muriate of soda or common salt. Indeed, they contain more salt than they are capable of holding in solution; and when low, considerable quantities of it are precipitated to the bottom of the lake, or rather are there crystallized. No living creature can exist in this lake. A striking feature in the topography of this region is, that none of the streams or lakes have any visible outlet either to the Atlantic or Pacific Ocean. The sources of the Colorado are in the Rocky Mountains, lying in Oregon and New Mexico, and the country in their vicinity is unfit for cultivation.

No portion of that vast extent of country between the Great Basin and the Rocky Mountains is habitable excepting the valley of the Uintah, and perhaps that of Green River. The valleys known in the Great Basin are the Great Salt Lake Valley, Bear River Valley, Utah Valley, Yuab Valley, South Valley, Sevier Valley, and Sand Pitch Valley. The Great Salt Lake Valley, which is much the largest, is about 115 to 120 miles long, and from 20 to 40 broad, but the Salt Lake occupies the greater part of the northern portion of it. The surface of the centre of the valley is level, but ascends gently on either side toward the mountains. There is in the immediate vicinity of the city bearing the name of this lake, a warm saline mineral spring issuing from the base of a mountain, the temperature of which is 108°, and two miles north of this is a similar spring, whose temperature is 125° Fahr. The character of the best soil in the valleys that are inhabitable, is as follows: one portion of it is a vegetable loam, another a marly loam, and the third a gravelly shale containing some silica. The latitude of Great Salt Lake City is 40° 45' 44" north. The altitude is 4,300 feet. The climate is milder and drier in general than it is in the same parallel on the Atlantic coast. The temperature in the Salt Lake Valley in the winter season is more uniform than that of the Atlantic States in the same season, the thermometer rarely descending to zero. There is but little rain except on the mountains between the 1st May and the 1st October, and hence the necessity for irrigation in most places which are susceptible of it. The other valleys bear a general resemblance to the Salt Lake Valley, except that they are much smaller; South Valley being 30 miles long, by 20 broad; Utah Valley about 60 long, by 20 broad, and Sand Pitch Valley some 40 or 50 long, and perhaps 20 wide. The only timber to be found in this region is in the cañons, on the banks of a few of the streams, and along the bases of some of the mountains. Wheat, rye, barley, buckwheat, oats, and Indian corn are its chief agricultural products; and all the garden vegetables peculiar to the Middle and Western States are produced in great perfection. Cotton, sugar, and rice, are not susceptible of cultivation in the region described; tobacco and sweet potatoes can be produced in limited quantities. Only a few portions of the valleys are well supplied with water, and upon the rest but limited crops can be raised, as artificial irrigation in agriculture is indispensable to success. There are tracts of land of considerable extent in each of these valleys which are not susceptible of cultivation, because they can not be irrigated.

But limited portions, therefore, adds Erastus Snow, even of the most fertile and warmest valleys in this region, can ever be made available for agricultural purposes, and only such as are adjacent to streams, and are well located for irrigation. Small valleys, surrounded by high mountains, are the most abundantly supplied with water, the streams being fed by the melting snow and summer showers. Broad extended plains, whether level or broken, are generally arid and unproductive. Such is the whole eastern portion of Utah, including the valley of Green River, and those of its tributaries, which extend from the Sierra Madre on the east, to the Bear River divide on the west, and from the Wind River Chain, and Cascade mountains on the north, to a point at the south where Green River passes through the mountains, descending over rapids and cataracts, to the plains of the lower Colorado. Green River Valley is about 150 miles square; and though larger than several States of the Union, yet its elevation is such, and it is so badly watered, that it is doubted whether a single spot in it is adapted to agriculture. There is, however, a small valley on the Uintah River, about 60 miles south of Fort Bridger, which is, perhaps, the warmest and most inviting in this portion of Utah, and in which a settlement will probably be made.

The Great Basin, although warmer than the eastern section, is, to a great extent, as arid and unproductive. A portion of a large desert, extending through the centre of the basin from north to south, and from the western shore of the Great Salt Lake toward the Sierra Nevada, was evidently once the bed of the lake, for various portions of it are covered with incrustations of salt, and abound in salt springs, but are destitute of fresh water. All the streams that have their sources in the eastern declivity of the Sierra Nevada for a distance of 500 miles, soon disappear beneath the surface, and none of them are known to disembogue themselves either into the lakes of the basin or into the Pacific Ocean. There are several small valleys and oases along the eastern base of the Sierra Nevada, but these are included within the limits of the State of California. By far the most desirable portions of the Great Basin are the valleys on its eastern border, skirted by the Wasatch Range, which extend from near the mouth of Bear River to the Rio Virgin.

An analysis of the facts presented by Dr. Bernhisel and Mr. Snow, exhibits difficulties of significant importance. The whole country is isolated from the States on either side, by mountains impassable except in a few gaps, and even through those during a great portion of the year. Its seclusion in the middle of the continent, indeed, is more complete than if surrounded by waters in the middle of the ocean; and its distance from the settlements in Iowa, Missouri, and Arkansas, is too great to allow of any commercial connection. As to the latter point, witness the following statement: from Independence (on Missouri River) to Fort Kearny, is 400 miles; from the latter to Fort Laramie, 306 miles; thence to the north fork of the Platte River, 127 miles; thence to Rock Independence, 50 miles; thence to South Pass, 100 miles; thence to Fort Bridger, 118 miles; and thence to Salt Lake City, 113 miles; making a total distance of 1,214 miles. To this should be added, 400 miles between Independence and St. Louis, or in all 1,614 miles from the Great Salt Lake to the first considerable market. *In no part of this east tract can the rains of heaven be relied upon to any great extent for the cultivation of the soil. The earth is destitute of trees, and in great part also of any vegetation whatever.* Should the Great Pacific Railroad, however, be carried through this territory, the natural obstacles to intercourse would in a great measure be overcome, but at best, Utah must ever remain a country within itself naturally and politically, and as a

UTAH.

member of the American Union, will ever be independent of that Union in all but in theory. Nor can the theological system held by the inhabitants of Utah, have the sympathies of the more dogmatic sectaries of the old States. The success of the State, then, depends on no external influences; but on the intelligence and forces of the people within.

Utah in 1850 was divided into seven counties,* the general statistics of which and the capitals of each were as follows:

Counties.	Dwell.	Pop.	Farms in cult.	Manuf. Estab.	Capitals.	Counties.	Dwell.	Pop.	Farms in cult.	Manuf. Estab.	Capitals.
Davis	215	.. 1,134	.. 112	.. 1	Miller's Creek	Tooele	83	.. 152	.. 27	.. 0	Tooele City
Great Salt Lake	1,288	.. 6,157	.. 505	.. 6	Salt Lake City	Utah	411	.. 2,000	.. 144	.. 4	Provo City
Iron	86	.. 360	.. 54	.. 2	Cedar City	Weber	227	.. 1,186	.. 88	.. 2	Garden City
San Pete	62	.. 365	.. 51	.. 1	Mognt City						

The whole number of dwellings in the Territory was at the above date 2,322; of families, 2,322; and of inhabitants, 11,890; viz., whites 11,390—males 6,022, and females 5,368; fr. col. 24—males 13, and females 12; sl. 26. Of the whole population there were *deaf and dumb*, 0; *blind*, 2; *insane*, 3; and *idiotic*, 2. The number of free persons born in the United States was 9,355; the number of foreign birth 1,990, and of birth unknown 9. The *native* population originated as follows: Maine 151. N. Hamp. 123, Verm. 232, Mass. 350, E. I. 21, Conn. 193, N. Y. 1,430, N. Jer. 96, Penn. 553, Del. 17, Md. 27, Dist. of Col. 1, Virg. 99, N. Car. 92, S. Car. 53, Ga. 12, Flor. 4, Ala. 62, Miss. 119, La. 8, Tex. 7, Ark. 7, Tenn. 294, Ky. 256, Oh. 694, Mich. 121, Ind. 303, Ill. 1,235, Mo. 519, Ia. 726, Wis. 30, Calif. 14, Territories 76, and the *foreign* population was composed of persons from—England 1,056, Ireland 106, Scotland 232, Wales 125, Germany 50, France 13, Spain 1, Portugal 0, Belgium 0, Holland 0, Turkey 0, Italy 1, Austria 3, Switzerland 1, Russia 1, Denmark 2, Norway 32, Sweden 1, Prussia 6, Greece 0, China 1, Asia 0, British America 338, Mexico 7, Central America 0, South America 0, West Indies 2, and other countries 12.

The general statistics of the industry and wealth of the Territory, as derived from the census of 1850 and other official returns, are as follows:

Occupied Land, &c.—Improved farm land, 16,333 acres, and unimproved, 90,516; valued in cash at \$311,799. The number of farms under cultivation on the 1st June, 1850, was 926. Value of farming implements and machinery, \$34,288.

Live Stock.—Horses, 5,429; asses and mules, 325; milch cows, 4,861; working oxen, 5,266; other cattle, 2,489; sheep, 3,262, and swine, 914. Value of live-stock, \$546,968.

Products of Animals.—Wool, 9,222 pounds; butter, 83,309 pounds; cheese, 20,993 pounds, and the value of animals slaughtered during the year had been \$67,955.

Grain Crops.—Wheat, 107,702 bushels; rye, 210 bushels; Indian corn, 9,899 bushels; oats, 10,900 bushels; barley, 1,799 bushels, and buckwheat, 832 bushels.

Other Food Crops.—Peas and beans, 259 bushels; potatoes—Irish, 43,963 bushels, and sweet 60 bushels.

Miscellaneous Crops.—Tobacco, 70 pounds; hay, 4,805 tons; clover-seed, 2 bushels; hops, 50 pounds; flax, 550 pounds; flax-seed, 5 bushels; molasses, 58 gallons; bees-wax and honey, 10 pounds, etc. Value of the produce of market-gardens, \$23,868.

Home-made Manufactures were produced to the value of \$1,302.

Manufactures.—In 1850 there were sixteen manufacturing establishments producing to the annual value of \$500 and upward.

The ascertained value of all property, real and personal, assessed for taxation in 1850 amounted to \$986,083.

Government.—The basis of the government of Utah is identical with that of New Mexico, except that in it there is no provision that "no citizen of the United States shall be deprived of his life, liberty, or property, except by the judgment of his peers or the laws of the land." (See *NEW MEXICO*, p. 552.)

Historical Sketch.—The territory, now called Utah, formerly constituted a portion of the Mexican province of California Alta, and as such passed into the possession of the United States by the treaty of Guadalupe Hidalgo, 2d February, 1848. Previous to the Mexican War, few white men, except those engaged in scientific explorations, had entered the country. About the period that the war had broken out, the Mormons were driven from their city of Nauvoo, in Illinois, by mob violence, and shortly afterward emigrated to the borders of the Great Salt Lake. Their settlements became prosperous and populous, and within two years after the first pioneers had entered the country their numbers had increased to about five thousand. After the ratification of peace, they found themselves without a government, and without protection for person or property. To remedy this anomalous condition of the body politic, a temporary government was organized under the style of "The State of Deseret," and under its sanction the usual government officials were elected. But the ultimate destiny of the country belonged to Congress, and that body, during the session of 1849-50, remanded the State back to a territorial condition under its present title. The increase of its population, however, continues to be so rapid, that it must at no distant period be admitted as a State, and whenever such an event is consummated Utah will, no doubt, form as bright an independency as the brightest star of our national galaxy.

FILLMORE CITY, in Millard County, is the political capital of the Territory.

UTAH county, *Utah Ter.* Extends from the mountains W. of the Utah lake to the Rocky mountains, and is about half a degree in width. Green r. passes through it, and by its branches drains the whole country. It is everywhere a hilly country, but has extensive and fertile valleys, in which agriculture is pursued with success. Farms 144; manuf. 4; dwell. 411, and pop.—wh. 1,991, fr. col. 9, sl. 26—total 2,026. *Capital:* Provo City.

UTAH, p. o., Warren county, *Ill.*: 90 miles N. W. by N. Springfield.

UTAH, p. v., La Grange county, *Ind.*: at head waters of Pigeon r., 192 m. N. by E. Indianapolis.

UTAH, p. o., Lucas co., *Ohio*: 117 m. N. N. W. Columbus. UTAH lake, *Utah Ter.*: S. by E. of Great Salt lake, to which it is connected by the river Jordan. It receives Tinpanogoo r. and Spanish Fork, with other smaller streams from the E., and Utah r. from the S.

UTAH river, *Utah Ter.*: rises in W. part of San Pete co., flows W. into Juab county, where it takes a N. course, and empties into the S. end of the lake so called.

UTAH LAKE, p. o., Utah county, *Utah Ter.*: 82 miles N. Fillmore City.

UTAH, p. v., Clark co., *Ind.*: on W. side of Ohio r., 5 m. below Charleston Landing, 180 m. S. by E. Indianapolis.

* To these have since been added the counties of "Desert," extending from the Salt Lake to the Californian boundary—"Green River," in the N. E. part of the territory—"Millard," in the S. W.—"Washington," in width half a degree, and running along the whole length of the S. border, and "Yuba," lying immediately N. of Millard County—in all twelve counties.

UTICA, p. v., Macomb co., *Mich.*: on E. side of Clinton r., 76 miles E. by S. Lansing. It contains an iron foundry, several mills, stores, etc., an academy, and 2 churches.

UTICA, p. v., Hinds co., *Miss.*: 29 m. W. S. W. Jackson.

UTICA, p. v., Livingston co., *Mo.*: on S. side of Grand r. at the head of steamboat navigation, 113 m. N. W. Jefferson City.

UTICA, p. o., Dane co., *Wis.*

UTICA, p. city, Oneida co., *N. Y.*: on S. side of Mohawk r., 84 m. W. N. W. Albany, direct, by railroad 95 m. Lat. (Dutch church) 43° 06' 49" N., long. 75° 13' W. The city is built upon ground rising from the river toward the S., and commands a beautiful prospect of the Mohawk valley. It is laid out with general regularity, with spacious streets, many of which are 100 feet wide, and is well built, having many fine blocks of stores and elegant dwellings. It contains a court-house, 20 churches, 2 orphan asylums, a good public market, 5 banks, with aggregate capital of \$1,610,200, 1 savings bank, and 2 insurance companies. The State Lunatic Asylum is located about 1 m. W. of the centre of the city, on elevated ground, with splendid buildings, surrounded by a farm of 160 acres. In 1850 it contained 449 inmates, 226 males, and 223 females. The total cost of these buildings at completion, according to the plan proposed, will be about \$500,000. Much attention is given to education in the public schools, private academies, etc. There are two flourishing incorporated seminaries, one for males, and the other for females, of which the latter especially has a high reputation; also three literary associations.

Utica is surrounded by one of the best agricultural and manufacturing districts in the Union. Its connections by the Erie and Chenango canals, and the great line of railroads from Albany to Buffalo, which pass through the city, give it great advantages for trade. By railroad, it is 78 m. from Schenectady, 53 m. from Syracuse, 225 m. from Buffalo. The Erie Canal has here been enlarged to 70 feet wide and 7 feet deep, presenting a fine appearance from several beautiful bridges by which it is spanned. A culvert between the canal and the river cost about \$100,000. The principal manufactures carried on in the city are those of iron and machinery, leather, carriages, and flour; but the smaller establishments are very numerous and various. The newspaper press in 1850 comprised 18 issues: viz., 4 dailies, "Evening Observer" (dem.), "Oneida Whig," "Oneida Herald" (whig), and "Utica Gazette" (whig), each of which issued weekly editions; 5 other weeklies, "Utica Democrat" (free soil), "Gospel Messenger" (free soil), "American Baptist," "New York Baptist Register," and "American Messenger" (relig.); 3 temperance papers, "Utica Teetotaler," "Cadet's Banner," and "Central City Cadet," the last two semi-monthly; and 1 monthly, "The Mirror" (relig.).

Utica stands upon the site of old Fort Schuyler, erected in 1758, during the French War. In 1794 it contained four inferior houses; in 1798 it was incorporated as a village, and received its present name; in 1817 it was incorporated as a town, and in 1832 received its city charter. It is divided into six wards, and governed by a mayor and 12 aldermen, elected annually. Pop. in 1830, 8,323; in 1840, 12,782; in 1850, 17,565.

UTICA, p. v., Van Buren co., *Ia.*: 63 m. S. S. W. Iowa City.

UTICA, p. v., Licking co., *Ohio*: on E. side of N. fork of Licking river, 47 m. by the Central Ohio, and the Sandusky, Mansfield, and Newark R. R. from Columbus. Pop. 420.

UTICA, p. v., Venango county, *Penn.*: on the W. side of Venango r., 173 m. W. N. W. Harrisburg.

UTICA MILLS, p. v., Frederick co., *Md.*: on Fishing cr. branch of Monocacy r., 58 m. N. W. Annapolis.

UTOY, p. v., DeKalb county, *Ga.*: 91 miles N. W. by N. Milledgeville. The Macon and Western E. R. passes about 4 m. W. of the village.

UTTER'S CORNERS, p. o., Walworth co., *Wis.*: 58 m. S. E. Madison.

VALDE county, *Tex.* Situate centrally, and contains about 1,300 sq. m. Drained by the Rio Frio and its branches, and branches of Nueces r., which runs on its W. border. Surface varied, the N. portion being hilly and rather mountainous, but in the S. it is undulating, and the land more capable of cultivation; soil in general a dark calcareous loam, and in parts very fertile, and producing abundantly corn, wheat, cotton, tobacco, indigo, and various culinary vegetables. The nopal, or prickly pear, abounds, forming thick hedges, and covering a large portion of land in the co.; the fruit of this tree attains a large size, and has an excellent flavor. It contains good prairie, and timber land.

UWCHLAND, t. and p. o., Chester county, *Penn.*: 85 miles E. S. E. Harrisburg. Drained by Brandywine creek, which affords good water-power. Surface plane, with a slight declination; soil fertile, principally a sandy loam with clay. It contains several stores and a number of mills and factories, and has a population of about 1,600.

UXBRIDGE, t., p. v., and sta., Worcester co., *Mass.*: 36 m. S. W. Boston. The Blackstone r. crosses the E. part of t. Drained by tributaries of Blackstone r., and has good water-power. It contains several manufactories. The Uxbridge Woolen Company, and Messrs. Wheelock's establishment manufacture over 300,000 yards of woolen goods annually. The v. is on the Providence and Worcester R. R., 18 miles S. E. Worcester, and contains a bank, capital \$100,000, 2 churches. There are deposits of iron ore here, and a fine species of granite is quarried. Pop. of t. 2,457.

V.

VAIL'S CROSS ROADS, p. o., Morrow county, *Ohio*: 44 m. N. by E. Columbus.

VAIL'S GATE, sta., Orange county, *N. Y.*: on Newburg Branch R. R., 5 m. S. W. from Newburg, 88 miles S. by W. Albany.

VAIL'S MILLS, p. o., Fulton co., *N. Y.*: 52 m. W. N. W. Albany.

VALATIE, p. v., Columbia county, *N. Y.*: at confluence of Valatie and Kinderhook creeks, 2 miles N. E. Kinderhook, 19 m. S. by E. Albany. It contains 4 large cotton factories, some other mills, 2 iron foundries, 3 churches, etc. Pop. about 1,650.

VALCOUR island, *N. Y.*: on Lake Champlain 5 miles S. by E. Plattsburg, 8 m. long, and 1 m. wide.

VALEENE, p. v., Orange county, *Ind.*: 85 miles S. by W. Indianapolis.

VALE MILLS, p. o., Giles co., *Tenn.*: 66 m. S. by W. Nashville.

VALENCIA county, *N. Mex.* Situate S. E., and covers a large territory extending between 32° and 35° N. lat., and between Texas on the E. and the Rio Grande on the W. The Sierra Blanco follows the course of the Rio Grande at a distance of about 40 m., and is the watershed of the country, dividing the Peosos from the great river on the W. It abounds in gold and silver, etc., and at many places mining was once extensively engaged in. The Guadalupe mts. also extend N. into this county, and beyond them are several detached elevations. The settlements are all on the Rio Grande, the E. portion being a wilderness. Farms 1,379; manuf. 1; dwell. 2,577, and pop.—wh. 14,147, fr. col. 0—total 14,147. Capital: Valencia.

VALENTIA, p. o., Shelby county, *Ohio*: 48 m. W. N. W. Columbus.

VALLE CRUCIS, p. o., Ashe co., *N. Car.*: 164 m. W. by N. Raleigh. Here is an Episcopal missionary school.

VALLEJO, p. v., Solano county, *Calif.*: and capital of the State of California, is situated on the Napa Straits, 25 miles N. N. E. San Francisco. The permanent location of the seat of government at this place is not certain, the legislature of 1852-3 having adjourned to Benicia on Suisun bay, 8 miles E. by S. Vallejo. The present general interests of Vallejo are entirely agricultural and grazing. The eminence

designated for the capitol buildings commands an extensive prospect of beautiful scenery.

VALLEY, p. o., Tazewell county, *Virg.*: 230 m. W. by S. Richmond.

VALLEY FALLS, p. o., Providence co., *R. I.*: on E. side of Blackstone r., 80 miles N. Newport. Here are large factories of print goods, running about 15,000 spindles, and making over 8,000,000 yards per annum.

VALLEY FORGE, p. v. and sta., Chester co., *Penn.*: on the S. side of the Schuylkill r., near the mouth of Valley creek, 70 m. E. Harrisburg. It contains several factories and mills, which are also numerous upon the banks of the stream above. The Philadelphia and Reading R. R. passes through, 23 m. from Philadelphia, 70 m. from Pottsville. This locality is of historical interest, from having been the winter quarters of the American army in 1777-8.

VALLEY GROVE, p. o., Monroe co., *Ark.*: 67½ m. E. by S. Little Rock.

VALLEY GROVE, p. o., De Soto county, *Miss.*: 168 m. N. Jackson.

VALLEY HEAD, p. o., De Kalb co., *Ala.*: 159 m. N. by E. Montgomery.

VALLEY PRAIRIE, p. o., Barry co., *Mo.*: 154 m. S. W. by S. Jefferson City.

VALLEY TOWN, p. o., Cherokee county, *N. Car.*: 304 m. W. by S. Raleigh.

VALLONIA SPRINGS, p. o., Broome co., *N. Y.*: 108 m. W. S. W. Albany.

VALONIA, p. v., Jackson co., *Ind.*: 62½ m. S. Indianapolis.

VALPARAISO, p. v., and cap. Porter co., *Ind.*: on E. side of Salt cr., 123 m. N. N. W. Indianapolis. It contains the county buildings, 3 hotels, churches, etc. First settled in 1836. The "Practical Observer" (dem.) is here published.

VAN BUREN county, *Ark.* Situate N. centrally, and contains 1,456 sq. m. Drained by Little Red r. and its branches. Surface varied; soil fertile, and adapted to corn and grazing. Good crops of wheat are raised, and there is some fine timber on the land. Farms 350; manuf. 0; dwell. 443, and pop.—wh. 2,761, fr. col. 0, sl. 108—total 2,864. *Capital*: Clinton.

VAN BUREN county, *Ia.* Situate S. E., and contains 450 sq. m. Des Moines r., a tributary of the Mississippi, flows through it from N. W. to S. E., by which and its branches it is drained. Surface undulating, in parts hilly; soil fertile. It is a fine mineral country, and iron, copper, and tin ores are found abundantly. Marble of excellent quality is quarried here. Farms 998; manuf. 23; dwell. 2,069, and pop.—wh. 12,266, fr. col. 4—total 12,270. *Capital*: Keosauque. *Public Works*: Des Moines River Improvements.

VAN BUREN county, *Mich.* Situate S. W. of the Southern Peninsula, and contains 620 sq. m. Drained by Pawpaw r. and its branches; in the central part, by S. branch of Black r., and Brush and Dowagiac creeks, which supply good water-power. Surface level; soil fertile, the chief productions of which are, wheat, Indian corn, and potatoes. The Pawpaw r. is navigable for boats 70 m. from its mouth. Farms 459; manuf. 18; dwell. 1,053, and pop.—wh. 5,800, fr. col. 0—total 5,800. *Capital*: Pawpaw. *Public Works*: Michigan Central R. R.

VAN BUREN county, *Tenn.* Situate N. centrally, and contains 312 sq. m. Drained by Laurel cr. and other branches of Caney fork of Cumberland r., which flows on its N. border. Surface undulating; soil fertile, and adapted to wheat and grain. Farms 192; manuf. 5; dwell. 404, and pop.—wh. 2,451, fr. col. 13, sl. 175—total 2,674. *Capital*: Spencer.

VAN BUREN, p. v., De Kalb co., *Ala.*: on E. side of Will's cr., 132 m. N. by E. Montgomery.

VAN BUREN, p. o., De Kalb co., *Ill.*: 147 m. N. N. E. Springfield.

VAN BUREN, p. o., Anderson co., *Ky.*: 18 m. S. by W. Frankfort.

VAN BUREN, p. v., and cap. Crawford co., *Ark.*: on N.

side of Arkansas r., 124 m. W. N. W. Little Rock. It contains the county buildings, several stores, etc., and has considerable river trade. The "Van Buren Intelligencer" (dem.) is issued weekly. Pop. 547.

VAN BUREN, p. o., Clay co., *Ind.*: 55 m. W. S. W. Indianapolis. The Terre Haute and Richmond R. R. passes near it, 10 m. from Terre Haute.

VAN BUREN, p. o., Itawamba co., *Miss.*: on W. side of Tombigbee r., 165 m. N. E. by N. Jackson. Pop. about 100.

VAN BUREN, p. v., and cap. Ripley co., *Mo.*: on E. bank of Current r., 123 m. S. E. by S. Jefferson City. It contains the county buildings and several dwellings.

VAN BUREN, t. and p. o., Onondaga co., *N. Y.*: on S. side of Seneca r., 144 m. W. by N. Albany. Surface undulating. Drained by Camp brook and other streams flowing S. into Seneca r. The Oswego and Syracuse R. R. passes through its N. E. part, and the Erie Canal touches its S. border at Canal p. o. It contains mills of various kinds, and has considerable manufactures. Pop. of t. 8,373.

VAN BUREN, p. o., Hancock co., *Ohio*: 95 m. N. W. by N. Columbus.

VAN BUREN, p. o., Washington co., *Penn.*: 180 m. W. Harrisburg.

VAN BUREN, p. v., Hardeman county, *Tenn.*: 144 m. S. W. by W. Nashville.

VAN BUREN CENTRE, p. o., Onondaga co., *N. Y.*: 9 m. W. N. W. Syracuse, 142 m. W. by N. Albany.

VAN BUREN FURNACE, p. o., Shenandoah co., *Virg.*: 116 m. N. W. by N. Richmond.

VAN BUREN HARBOR, p. v., Chautauque co., *N. Y.*: on E. side of Lake Erie, 295 m. W. Albany. The Buffalo and State Line R. R. passes near it, 4 m. from Dunkirk. It is regularly laid out, and has a convenient landing.

VANCEBORO', p. v., Winnebago county, *Ill.*: 177 m. N. Springfield.

VANCEBORO', p. v., Lewis co., *Ky.*: on S. bank of Ohio r., 93 m. E. N. E. Frankfort. It contains a few stores, shops, etc. A good bed of copperas, a fine limestone quarry, and clay suitable for stone-ware and fire-brick are found in the vicinity.

VANCEBANK FERRY, p. o., Orangeburg district, *S. Car.*: on S. W. bank of Santee r., 50 m. S. E. by S. Columbia.

VANCEVILLE, p. o., Washington co., *Penn.*: 163 m. W. Harrisburg.

VAN CLEVESVILLE, p. o., Berkeley co., *Virg.*: 128 m. N. by W. Richmond.

VANCOUVER (FORT), v., Clark co., *Oreg. Ter.*: on N. bank of Columbia r., 12 m. above the mouth of Willamette r., 60 m. N. N. E. Salem. Columbia Barracks, at this place, is a U. S. military post garrisoned by artillery.

VANDALIA, p. v., and cap. Fayette co., *Ill.*: on W. bank of Kaskaskia r., 66 m. S. E. by S. Springfield. Lat 38° 50' N., long. 89° 02' W. Its site is high, undulating, and was originally a timbered tract. It was selected by commissioners, with 4 sections of land, granted by Congress in 1818, for the seat of government for 20 years. The capital was removed to Springfield July 4th, 1839. It was regularly laid out, with streets 80 feet wide, and crossing at right angles. In the centre is a public square, on elevated ground, containing the public buildings formerly used by the State. It also contains a U. S. land-office and several churches. The "Fayette Yeoman" is published weekly. From the important railroad connections which Vandalia will soon have with all parts of the State, it promises to become one of the greatest thoroughfares of trade and travel in Illinois. The railroads already in construction to pass through it are, Illinois Central R. R.; Massac and Sangamon E. R.; and Mississippi and Atlantic E. R. The National Road has previously been of much benefit. The surrounding country near the river is heavily timbered, and a few miles back are extensive prairies. Pop. about 1,100.

VANDALIA, p. o., Owen county, *Ind.*: 51 miles S. W. Indianapolis.

VANDALIA, p. o., Cass co., *Mich.*: 96 m. S. W. Lansing.
VANDALIA, p. o., Montgomery co., *Ohio*: 2 m. W. of Miami r. and canal, 62 m. W. by S. Columbus.

VANDEBURG county, *Ind.* Situate S. W. on Ohio r., and contains 240 sq. m. Drained by Big Pigeon, Blue Grass, Little, and Locust creeks. The succession of bottoms, hills, and table-land, characteristic of the river countries, is here maintained. The uplands are undulating or rolling; soils everywhere productive. Farms 743; manuf. 76; dwell. 2,659, and pop.—wh. 11,187, fr. col. 227—total 11,414. *Capital*: Evansville. *Public Works*: Wabash and Erie Canal, and Evansville and Illinois R. R.

VAN DEUSENVILLE, p. v. and sta., Berkshire co., *Mass.*: on W. side of Housatonic r., 117 m. W. by S. Boston. The Berkshire R. R. passes through the v., 23 m. from Pittsfield, and the Stockbridge R. R. extends hence to the State line.

VAN DYKE'S MILL, p. o., Spencer county, *Ky.*: 26 m. S. W. Frankfort.

VAN ETONVILLE, p. o., Chemung co., *N. Y.*: 156 m. W. by S. Albany.

VAN GUNDY'S, sta., Morgan co., *Ill.*: on Sangamon and Morgan R. R., 50 m. from Springfield, 5 m. E. from Naples.
VAN HILL, p. o., Hawkins co., *Tenn.*: 215 m. E. by N. Nashville.

VAN HISEVILLE, p. o., Mercer county, *N. Jer.*

VAN HOOK'S STORE, p. o., Person county, *N. Car.*: 47 m. N. N. W. Raleigh.

VAN HORNSVILLE, p. o., Herkimer co., *N. Y.*: 60 m. W. N. W. Albany.

VAN LUE, p. o., Hancock county, *Ohio*: 74 m. N. by W. Columbus.

VANNOY'S MILL, p. o., Pike county, *Mo.*: 67 m. N. E. Jefferson City.

VANN'S VALLEY, p. o., Floyd co., *Ga.*: 146 m. N. W. by W. Milledgeville.

VANN'S VALLEY, p. o., Delaware co., *Ohio*: 20 m. N. N. E. Columbus.

VAN SYCKLES, p. o., Hunterdon co., *N. Jer.*: at foot of Muscononge Mountain, 31 m. N. N. W. Trenton.

VAN WERT county, *Ohio*. Situate W. toward the N., and contains 396 sq. m. Drained by St. Mary's and Little Auglaize rivers, and other small streams. Surface level; soil varied; in some portions consisting of a fine black mold, while in many parts it is sandy and of a light formation; it is however in general fertile, and very productive. A dense forest of pine and other timber covers a large portion of the county. Farms 817; manuf. 13; dwell. 786, and pop.—wh. 4,766, fr. col. 47—total 4,813. *Capital*: Van Wert. *Public Works*: Ohio and Indiana R. R.; Miami Canal, etc.

VAN WERT, p. v., and cap. Paulding co., *Ga.*: 130 m. W. N. W. Milledgeville. It contains the county buildings, an academy, and church. Pop. about 150.

VAN WERT, p. v., and cap. Van Wert co., *Ohio*: 105 m. N. W. by W. Columbus. It contains a court-house, jail, etc. The Ohio and Indiana R. R. will pass near this place. Two Democratic papers are published: "Van Wert Democrat," and "Section Ten Budget." Pop. 270.

VANZANT county, *Tex.* Situate toward the N. E., and contains 919 sq. m. Drained by affluents of Sabine and Neches rivers, and numerous small streams. Surface undulating and diversified; soil fertile, and is generally productive and favorable to the growth of cotton and corn. It has some beds of iron ore, and is thickly covered with forest trees. Farms 138; manuf. 4; dwell. 246, and pop.—whites 1,308, free col. 0, sl. 40—total 1,348. *Capital*: Jordan's Saline.

VARENNES, p. v., Anderson dist., *S. Car.*: on W. side of Rocky r., 94 m. W. by N. Columbia.

VARICK, t. and p. o., Seneca county, *N. Y.*: 160 m. W. Albany. It is bounded E. by Cayuga lake, and W. by Seneca lake. Surface somewhat elevated in the middle; soil fertile. The inhabitants are generally engaged in farming. Pop. 1,872.

VARIETY MILLS, p. o., Nelson co., *Virg.*: 85 m. W. by N. Richmond. It contains several dwellings and a few mills.

VARNA, p. v., Tompkins county, *N. Y.*: 140 m. W. by S. Albany, on Fall cr., which affords water-power to several mills. Pop. about 200.

VARYSBURG, p. v., Wyoming co., *N. Y.*: on E. side of head branch of Tonawanda creek, 236 m. W. Albany. It contains several mills and stores, and 2 churches. Pop. about 250.

VASSALBORO', t. and p. o., Kennebec co., *Me.*: on E. side of Kennebec r., 10 m. N. by E. Augusta. Vessels come from the ocean to this t. by means of the dam and lock at Augusta. It contains several large ponds, the outlets from two of which furnish water-power. There is a large number of tanneries, grist and saw mills, etc., in the t. Population 3,099.

VAUGHANVILLE, p. o., Putnam co., *Ohio*: 120 m. N. W. Columbus.

VAUGHAN VALLEY, p. o., Rutherford co., *Tenn.*: 30 m. S. E. Nashville.

VELASCO, p. v., Brazoria county, *Tex.*: at the mouth of the Brazos r., 170 m. S. E. by E. Austin City. This place early received a business impulse from the settlement of capitalists in the village and vicinity. The Brazos is here about 300 yards wide, with a good harbor. The village has some coasting trade, and promises to become one of the most important places on the coast of Texas.

VENANGO county, *Penn.* Situate toward the N. W., and contains 692 sq. m. Allegheny r. passes through its central portion, by which and its branches it is drained. Surface undulating; soil fertile, and produces excellent crops of wheat, Indian corn, and potatoes. It has good grazing land, on which large numbers of cattle and hogs are fattened—enough to supply the neighboring markets. Farms 1,730; manuf. 72; dwell. 3,065, and pop.—wh. 18,270, fr. col. 40—total 18,310. *Capital*: Franklin. *Public Works*: Allegheny Valley R. R.; Pittsburg and Erie R. R.; Franklin Canal and R. R.

VENANGO, p. o., Crawford co., *Penn.*: 193 m. N. W. by W. Harrisburg.

VENICE, t. and p. o., Cayuga county, *N. Y.*: 144 m. W. Albany. Surface rolling; soil gravelly and clay loam. Drained S. by Salmon cr. The inhabitants are generally engaged in farming. Pop. 2,023.

VENICE, p. v., Erie co., *Ohio*: on S. side of Sandusky bay, at entrance of Cold cr., 99 m. N. by E. Columbus. It contains a large flouring-mill and some others, a few warehouses and stores. The Junction R. R. from Toledo to Sandusky, will pass through this place. Pop. about 450.

VENICE, p. o., Washington county, *Penn.*: 160 m. W. Harrisburg.

VENICE, p. o., Shiawassee co., *Mich.*: 25 m. E. N. E. Lansing.

VENICE, p. o., Madison co., *Ill.*: on E. side of Mississippi river, 82 m. S. S. W. Springfield.

VERA CRUZ, p. o., Wells co., *Ind.*: 80 m. N. E. by N. Indianapolis.

VERBANK, p. o., Duchesne co., *N. Y.*: 62 m. S. Albany.

VERDEWILLE, p. o., Orange co., *Virg.*: 58 m. N. W. Richmond.

VERDON, p. o., Hanover co., *Virg.*: 22 m. N. Richmond.
VERGENNES, p. o., Jackson county, *Ill.*: 134 m. S. by E. Springfield.

VERGENNES, p. o., Kent co., *Mich.*: 44 m. N. W. Lansing.
VERGENNES, p. city, Addison co., *Verm.*: is beautifully situated on Otter cr., at the head of navigation, 7 m. from its mouth, 83 m. W. by S. Montpelier. Otter cr. is here about 500 feet wide, and is divided by two islands, forming three channels, and separate falls of 87 feet each, furnishing immense water-power. The city is neatly built, and presents a very picturesque appearance. The factories, mills, and tanneries, improving the water-power of the cr., are numerous. The manufacture of iron, obtained from Monkton, is

VERMONT

carried on extensively. The city contains 1 bank, cap. \$100,000, an academy, an United States arsenal and ordnance depot, and 3 churches. The Rutland and Burlington R. R. passes through, 93 m. from Bellows Falls, 22 m. from Burlington. Otter cr. is somewhat crooked between the city and the lake, but vessels of 300 tons can come to the wharves. Vergennes was first settled in 1766, and incorporated in 1783. Here was fitted out the squadron of M'Donough, which achieved the celebrated victory of Plattsburg, Sept. 11th, 1814. The "Vergennes Vermonter" (which is published weekly. Pop. in 1840, 1,017; in 1850, 1,373.

VERMILLION county, *Ill.* Situate E., and contains 1,208 sq. m. Drained by Big and Little Vermillion rivers and their affluents, which traverse the co. N. and S. Surface undulating; a large portion is prairie. Soil fertile, and produces wheat and grain in abundance. Farms 1,269; manuf. 15; dwell. 1,985, and pop.—wh. 11,482, fr. col. 10—total 11,492. *Capital:* Danville. *Public Works:* Great Western Central R. R.

VERMILLION county, *Ind.* Situate W., between Wabash r. and the Illinois State line, and contains 230 sq. m. Numerous streams, of which Big and Little Vermillion rivers are the principal, and tributaries of the Wabash, drain the land. Surface high and level, with some bluffs, and two-thirds of the whole is covered with forest. Soils excellent. Coal is abundant, and extensive beds of iron ore are found on Brouillet's creek. Farms 739; manuf. 46; dwell. 1,509, and pop.—wh. 8,643, fr. col. 18—total 8,661. *Capital:* Newport.

VERMILLION parish, *La.* Situate S. W., and contains 1,545 sq. m. Drained by small streams of Vermillion river. Surface generally level, and much of it covered with pine forest and other timbers; soil fertile, and, with cultivation, producing rice, cotton, sugar, etc., which form its

staple. It contains part of Mermentau lake in its western portion, and small bays of the lake which indent its coast. On the eastern side is Vermillion bay, a large expanse of water, and washing part of the shore of St. Mary's co. in the N. W. In the extreme S. E. is Grand Island, separated from it by Grand Bass. Farms 198; manuf. 0; dwell. 406 and pop.—wh. 2,823, fr. col. 14, sl. 1,067—total 3,409. *Capital:* La Fayette.

VERMILLION, p. o., Oswego co., *N. Y.:* 130 m. W. N. W. Albany.

VERMILLION, t., p. v., and port, Erie co., *Ohio:* 98 m. N. N. E. Columbus. Bounded N. by Lake Erie. The t. contains large deposits of iron ore, which is much wrought. The v. at the mouth of Vermillion r. has a convenient harbor, improved by U. S. Government. Its imports, in 1848, amounted to \$150,000; exports, \$207,200—total lake trade, \$307,200. The Junction R. R. from Toledo to Cleveland will pass through this place. Pop. of t. 1,515.

VERMILLION river, *Ill.:* rises in Livingston co., flows N. W., and empties into Illinois r., at the foot of the rapids in La Salle co. It furnishes good water-power by falls and rapids in its lower part. On its banks are valuable quarries of limestone, coal, and sandstone.

VERMILLION river and bay, *La.:* the r. rises in St. Landre par., and flows S. into W. part of Vermillion bay. It is navigable to Vermillionville. The bay is about 20 m. long, with the same width, and has 10 or 12 feet water, but not more than 5 feet on the bar at its entrance. Côté Blanche bay connects it with the Gulf of Mexico.

VERMILLIONVILLE, p. v., and cap. La Fayette par., *La.:* 50 m. W. by S. Baton Rouge. It is situated on a beautiful plain, 1½ m. from W. bank of Vermillion r., at the head of navigation, and contains the county buildings, etc. Pop. about 250.

THE STATE OF VERMONT.

VERMONT, so called from the verdant aspect of its mountains, lies between 42° 44' and 45° latitudes north, and between 71° 38' and 73° 26' longitudes west from Greenwich, or between 39° 36' and 59° 24' east from Washington. It is bounded on the north by Lower Canada, on the east by New Hampshire, on the south by Massachusetts, and on the west by New York. Its eastern boundary is formed by the Connecticut River, and on the west it is separated from New York chiefly by Lake Champlain. The length of the State from north to south is 157 miles, and its breadth from east to west from 40 to 92 miles, its widest part being on the northern State line. The superficial area of the country is estimated to contain 10,212 square miles.

The surface of Vermont, with some slight exceptions, is mountainous. The most striking feature in its topography is the range called the Green Mountains, which traverses the State in a direction north and south. Southward it is continued into Massachusetts, where it is known under the name of the Hoosic Mountains. In the centre of the State this ridge bifurcates: one branch, the Western, and principal, continuing in a northerly direction, sinks down gradually, and terminates near the northern boundary; and the other, or Eastern branch, called also the "Height of Land," strikes a course to the north-east, and, passing into Canada, is lost on the shores of the St. Lawrence. The latter divides the streams of lakes Champlain and Memphremagog from the tributaries of the Connecticut, while the former, though loftier, presents a more broken outline, and is cut through by several rivers. It is a curious fact that this immense barrier has a passage through it, even without any high hills, and the southern branch of the Onion River, which passes through it and flows into Lake Champlain, has its source very near to, if not in, the same swamp with the head waters of White River, which flows into the Connecticut. The Vermont Central Railroad also passes along these streams without any considerable elevations or depressions, although near the base of Camel's Rump, one of the highest peaks of the range. The part of the mountains which traverses the southern portion of the State forms the watershed between the Hudson and Connecticut rivers. The base of these mountains varies from ten to fifteen miles in width. Beautiful and fertile valleys intersect them everywhere, and the slopes are covered with growths of small evergreen trees and shrubs, and the summits with green mosses and winter grasses. There are many fine farms among the hills, and much of the land upon them is excellent for grazing. Before the mountain bifurcates, the highest summit is Killington Peak, 3,675 feet above the level of the sea; but there are two higher culminations after it divides, and which are in the western range: these are Camel's Rump, on the south side of Onion River, which is 4,188 feet high; and Mansfield Mountain, the highest of all, which is 4,279 feet high. Ascutney is an isolated mountain in the town of Windsor, near the Connecticut, the apex of which is 3,920 feet above tide-water. In the neighborhoods of Lake Champlain and the Connecticut River the country is only moderately uneven, and in many places extensive level tracts are found, which form a striking contrast to the general features of the country.

The Connecticut River washes the eastern borders of the State, the watershed, or dividing ridge already mentioned being nowhere more than thirty-five miles from the river, and throughout most of its course not more than half that distance; its tributaries in this State, viz., the Deerfield, White, Black, and Passumpsic rivers are scarcely more than mountain torrents. On the western side of the ridge the streams have chiefly a north-westerly course, and are considerably longer; but as they force their way through the westerly branch of the mountain ranges, their courses are also rapid

VERMONT.

and much broken by falls. The Missisqui, Lamolle, Onion, and other creeks flowing into Lake Champlain, are the principal, and these afford navigation for lake craft to their lower cascades, from five to six miles up. The Battenkil and Hoosic rivers have their rise in the S. part of the range, but soon pass into New York. The whole State is abundantly watered by pure running brooks, many of which, as also the larger streams, are turned to use in operating numerous mills.

Lake Champlain extends along the western border a distance of 140 miles, and varies in width from one to sixteen miles, covering an area of 600 square miles. It is sufficiently deep for the largest class of shipping; it is, however, usually navigated by vessels of 80 or 100 tons, to which the rivers and canals are accessible, and several fine steamboats ply to and from different points on its shores. It receives the surplus waters of Lake George, and discharges itself by the Sorrelle or Richelleu, which, by means of some canals round its rapids, affords a navigable communication with the St. Lawrence. At its southern base it is connected by canal with the Hudson River and the New York and Erie Canal. There are several large islands in the northern part of the lake, which, together with Alburg Peninsula, divide it in its broadest part into two unequal proportions. There are also some fifty or sixty smaller islands. The aspect of its shores is varied and pleasant; the peaks of the Green Mountains are visible in the distance, and well-cultivated farms line its shores. The harbors on the Vermont side of the lake are generally good, and the principal of these are Burlington, St. Albans, and Vergennes. Lake Memphremagog is partly in this State, but mostly in Canada; it is thirty miles long, and discharges its waters into the St. Lawrence through the channel of the St. Francis River. Between the mountains and New York State line there are several smaller lakes, which are known under the names of Bombazine Lake, Austin Lake, Great Trout Pond, etc., which are remarkable for the purity and clearness of their waters and the bland scenery that surrounds them.

The minerals produced in this State are iron, copper, zinc, and a great variety of rocks. Iron occurs in great abundance. Sulphuret of iron, or pyrites, is found at Strafford and Shrewsbury, from which an immense quantity of coppers is annually manufactured. Copper has been discovered near Brandon, and a few miles south-east of that place a bed of silver and copper. The ore of the latter is incorporated with milk quartz and argillaceous slate; an average specimen, analyzed by W. H. Shepherd, mineralogist, yielded 31.13 per cent. of pure silver and 17.09 of copper. Lead, zinc, and manganese are also found. At Monkton, near Burlington, there is also an extensive bed of kaolin, or porcelain earth. Granite, however, is the great staple, and marbles of fine quality are extensively quarried at Middlebury, Swanton, Bennington, etc. The novaculite, or oil-stone, sold under the name of magog oil-stone, is found on one of the islands in Lake Memphremagog, and quarries of slate are wrought near Brattleboro'. Vermont has also several mineral springs, containing iron and sulphur, which are resorted to for relief in many cutaneous and chronic complaints.

The climate assimilates that of New Hampshire, and is variable and cold, but extremely salubrious. Snow lies on the ground from the middle of November to the end of April, and on the hill-sides it is often six or eight feet deep. The mean annual range of the thermometer is about 120°, the temperature in winter sinking sometimes to 25° or 30° below zero, and in summer rising to 90° or 100°. Trees commence to bud early in April, and flowers unfold themselves in May. The first frosts appear about the middle of September, but are light until November. The summer season is fair and serene, and although the heat of the day is sometimes excessive, the nights are always cool. Through September and October the finest weather prevails, with gentle winds and a blue sky.

The natural growths of Vermont are hemlock, spruce, and fir, which flourish on the mountain sides; the lower tracts abound with elm, oak, hickory, butternut, pine, beech, sugar-maple, and birch, and the cedar grows luxuriantly in the swamps. The indigenous animals are wolves, foxes, and others, similar in a great measure to those which are spread over Canada and the North-eastern States generally. The lakes and rivers abound with excellent fish.

The soils of Vermont are generally rich and loamy. On the borders of the rivers are fine tracts of valley land, which consist of a deep black alluvial deposit—these are sometimes a mile in width, and very productive in grain, grass, and garden vegetables. The uplands are in many places scarcely inferior to the intervals, and are in general sufficiently free from stone to admit of easy cultivation. The hills and mountains, that are not arable on account of their steepness or the rocks, yield the best of pasturage. There is hardly any part of the country better adapted to the rearing of horses, horned cattle, and sheep, than the mountain regions of this State. Wheat is raised more abundantly on the western than on the eastern side of the mountains. The soils and climate of all parts are favorable to the growth of the apple and most other kinds of garden trees; but the peach seldom comes to perfection anywhere. The greater part of the State is better suited to grazing than to tillage. Springs and brooks are very numerous, and there is no extensive tract but is well supplied with running water.

Vermont is divided into 14 counties, the general statistics of which, and the capitals of each, in 1850, were as follows:

Counties.	Dwell.	Pop.	Farms in cult.	Manuf. Estab.	Capitals.	Counties.	Dwell.	Pop.	Farms in cult.	Manuf. Estab.	Capitals.
Addison	4,679	26,549	2,292	157	Middleburg	Lamoille	2,022	10,572	1,082	42	Hyde Park
Bennington	3,404	18,589	1,397	147	Manchester	Orange	5,192	27,296	2,677	86	Chelsea
Caledonia	4,231	23,086	2,754	245	Danville	Orleans	2,730	15,707	2,055	68	Irasburg
Chittenden	4,505	29,086	1,908	201	Burlington	Rutland	6,661	33,059	2,668	275	Rutland
Essex	846	4,650	602	32	Guildhall	Washington	4,442	24,654	2,104	77	MONTPELIER
Franklin	4,927	23,586	2,172	108	St. Albans	Windham	5,374	29,062	3,363	197	FAYETTEVILLE
Grand Isle	691	4,145	339	8	North Hero	Windsor	7,373	38,320	4,274	192	Woodstock

The whole number of dwellings in the State at the above date was 56,327; of families, 58,475; and of inhabitants, 813,611; viz., whites 312,902—males 159,374, and females 153,528; fr. col. 709—males 366, and females 343. Of the whole population there were, *deaf and dumb*—wh. 143, fr. col. 1,—total 144; *blind*—wh. 138, fr. col. 0—total 138; *insane*—wh. 552, fr. col. 0—total 552, and *idiotic*—wh. 250, fr. col. 1—total 251. The number of free persons born in the United States was 280,966, the number of foreign birth 32,331, and of birth unknown 323. The *native* population originated as follows: Maine 835, N. Hamp. 19,609, Vermont 232,086, Mass. 15,059, R. I. 801, Conn. 4,551, N. Y. 7,218, N. Jer. 171, Penn. 138, Del. 1, Md. 23, Dist. of Col. 5, Virg. 21, N. Car. 7, S. Car. 5, Ga. 18, Flor. 9, Ala. 6, Miss. 5, La. 12, Tex. 1, Ark. 2, Tenn. 6, Ky. 7, Oh. 166, Mich. 86, Ind. 15, Ill. 84, Mo. 10, Ia. 5, Wisc. 92, Calif. 0, Territories 1; and the *foreign* population was composed of persons from—England 1,546, Ireland 15,377, Scotland 1,045, Wales 57, Germany 218, France 40, Spain 3, Portugal 5, Belgium 0, Holland 2, Italy 7, Austria 0, Switzerland 2, Russia 1, Denmark 1, Norway 8, Sweden 0, Prussia 6, Greece 0, Asia 7, Africa 0, British America 14,470, Mexico 0, Central America 0, South America 3, West Indies 6, Sandwich Islands 4, and other countries 23.

VERMONT.

The following table will show the decennial progress of the population since the first census of the State taken by the United States authorities:

Census Years.	White Persons.	Colored Persons.			Decennial Increase	
		Free.	Slave.	Total.	Numer.	Per cent
1790	85,144	255	17	272	85,416	—
1800	153,908	557	—	557	154,465	69,049 80.8
1810	216,963	750	—	750	217,713	63,243 40.3
1820	294,846	918	—	918	295,764	18,051 8.2
1830	279,771	881	—	881	280,652	44,888 19.0
1840	291,218	730	—	730	291,948	11,296 4.0
1850	812,902	709	—	709	813,611	21,563 7.4

The general statistics of the wealth, industry, productions, manufactures, and institutions of Vermont, as ascertained by the census of 1850, and other official reports made in the same year, afford the following results:

Occupied Lands, etc.—Improved farm lands 2,591,379 acres, and unimproved lands 1,525,363 acres—together valued in cash at \$59,727,731. The whole number of farms under cultivation on the 1st June, 1850, was 29,687. Value of farming implements and machinery \$2,790,237.

Live-Stock.—Horses, 61,057; asses and mules, 218; milch cows, 146,146; working oxen, 45,497; other cattle, 154,025; sheep, 919,992, and swine, 66,278. Compared with the live-stock existing in the State in 1840, the following movement is shown:

Live Stock.	1840.	1850	Decrease.
Horses	62,402 head	61,057 head	1,127 head, or 1.8 per cent.
Asses and mules	—	218 “	
Milch cows	—	146,146 “	85,673 “ or 9.3 “
Working oxen	884,341 “	48,497 “	
Other cattle	—	154,025 “	761,827 “ or 45.3 “
Sheep	1,681,819 “	919,992 “	
Swine	208,800 “	66,278 “	187,522 “ or 67.4 “

—In 1850 the aggregate value of live-stock in cash was \$12,640,248.

Products of Animals.—Wool 3,410,993 pounds, butter 11,571,451 pounds, cheese 8,729,834 pounds; and the value of animals slaughtered during the year had been \$1,871,468. The quantity of wool returned in the census of 1840 was 3,699,235 pounds, or 288,242 pounds more than in 1850, and hence the decrease shown in the latter year amounts 7.8 per cent. The production in relation to the number of sheep, however, has been much larger at the latter than at the former period; in 1840 it was 35.2 ounces per fleece, and in 1850, 59.3 ounces. In the production of butter only five States surpass Vermont, and of cheese only two—New York and Ohio, and of the latter article it produces one-twelfth the quantity made in the Union.

Grain Crops.—Wheat 525,925 bushels, rye 176,207 bushels, Indian corn 2,032,016 bushels, oats 2,307,714 bushels, barley 42,147 bushels, and buckwheat 208,699. The crops of 1840 and their comparative quantities, with those of 1850, are as follows:

Crops.	1840.	1850.	Movement.
Wheat	495,800 bushels	525,925 bushels	incr. 30,125 bushels, or 6.1 per cent.
Eye	290,993 “	176,207 “	decr. 54,786 “ or 23.7 “
Indian corn	1,119,678 “	2,032,016 “	incr. 912,338 “ or 81.5 “
Oats	2,222,584 “	2,307,714 “	incr. 85,130 “ or 37.8 “
Barley	54,781 “	42,147 “	decr. 12,634 “ or 23.1 “
Buckwheat	228,416 “	208,699 “	decr. 19,717 “ or 8.6 “

Other Food Crops.—Beans and peas 104 bushels; potatoes, Irish, 4,947,851 bushels. The potato crop reported in the census of 1840 amounted to 8,869,751 bushels, and hence the decrease between the returns of 1840 and 1850 has been 3,922,400 bushels, or 44.2 per centum.

Miscellaneous Crops.—Hay, 866,989 tons; clover-seed, 760 bushels; other grass-seed, 14,996 bushels; hops, 258,513 pounds; flax, 20,752 pounds; flax-seed, 989 bushels; silk cocoons, 268 pounds; Maple sugar, 5,980,955 pounds; molasses, 5,997 gallons; beeswax and honey, 249,482 pounds; wine 659 gallons, etc. Value of orchard products, \$315,045, and of market-garden products, \$18,533. A comparison of the principal productions of 1850 with those returned in 1840, gives the following result:

Productions.	1840.	1850.	Movement.
Hay	836,739 tons	866,989 tons	incr. 30,250 tons, or 3.6 per cent.
Hops	43,187 pounds	258,513 pounds	incr. 210,376 pounds, or 434.9 “
Flax	66,080 “	20,752 “	decr. 45,328 “ or 68.6 “
Maple sugar	4,647,934 “	5,980,955 “	incr. 1,333,021 “ or 28.6 “
Wine	94 gallons	659 gallons	incr. 565 gallons, or 601.1 “

Home-made manufactures were produced in the year ending 1st June, 1850, to the value of \$278,331. The same class of goods produced in the year represented in the census of 1840, were valued at \$674,548.

Manufactures.—Aggregate capital invested, \$0,000,000; value of all raw material, fuel, etc., consumed in the year, \$0,000,000; average number of hands employed, 00,000—males 00,000, and females 00,000; monthly cost of labor, \$000,000—male \$000,000, and female \$000,000; total value of manufactures for the year \$0,000,000. The whole number of manufacturing establishments in operation on the 1st June, 1850, and producing to the annual value of \$500 and upwards, was 1,833, and these were distributed among the counties in proportion, as shown in the general table before given. Of these 9 were cotton factories, 72 woolen factories, 37 iron factories—3 making pig iron, 26 making castings, and 8 making wrought iron; and 152 were tanneries. The manufacturing establishments others than those named were various, but chiefly such as are incident to an agricultural region, or such as the immediate wants of the people demand. The total capital invested in manufactures, in 1840, amounted to \$4,326,440.

VERMONT.

In the *cotton* manufacture, the capital employed is \$202,500; cotton used, 2,243 bales; value of all raw material, etc., consumed, \$114,415; hands employed, 231—males 94, and females 147; entire wages per month, \$3,321—to males \$1,460, and to females \$1,861; products of the year—sheeting, etc., 1,651,000 yards, and yarn 53,050 pounds, valued at \$196,100. In 1840, there were in the State 7 factories—capital \$118,100; hands 262, and value of products \$113,000.

In the manufacture of *woolen goods*, the capital employed is \$886,300; annual consumption of wool, 2,328,100 pounds; value of all raw material, etc., consumed, \$830,684; average hands employed, 1,393—males 658, and females 710; entire monthly wages, \$25,100—to males \$16,712, and to females \$8,388; products for the year, 2,830,400 yards of cloth, valued at \$1,679,161. The number of factories in 1840 was 95, which, with 239 fulling mills, employed a capital of \$1,406,950; hands 1,460; annual value of products, \$1,831,953.

The statistics of the *iron* manufactures, in 1850, were in accordance with the annexed table:

Specifications.		Pig Iron.	Cast Iron.	Wrought Iron.	Total.
Capital invested.....	dollars.....	62,500	290,720	62,700	415,920
Ore used.....	tons.....	7,676	—	2,625	10,301
Pig iron used.....	".....	—	5,279	750	6,029
Blooms used.....	".....	—	—	525	525
Old metal used.....	".....	—	274	—	274
Mineral coal consumed.....	".....	150	1,066	—	1,216
Coke and charcoal.....	bushels.....	326,437	193,400	387,000	961,837
Value of raw material.....	dollars.....	40,175	160,608	66,194	266,973
Hands employed.....	number.....	100	381	57	538
Monthly cost of labor.....	dollars.....	2,208	10,771	1,719	14,748
Iron produced.....	tons.....	3,200	5,000	2,045	10,245
Value of other products.....	dollars.....	—	87,770	—	87,770
Entire value of products.....	".....	68,000	460,831	168,986	697,817

—in 1840, there were in the State 26 furnaces, producing annually 6,743 tons cast iron, and 14 bloomeries, forges, and rolling mills, producing 655 tons bar iron; fuel, etc., consumed, 885,407 tons; hands, 783; capital invested, \$664,150.

The *tanneries* employ a capital of \$346,250; value of hides and skins, \$357,946; hands employed 397; monthly wages \$3,807; skins tanned, 44,330, and sides of leather tanned, \$250,104; value of products \$587,466. In 1840, there were 261 tanneries in the State, employing a capital of \$408,093, and 509 hands, and producing annually 102,763 sides of sole leather, and 102,987 sides of upper leather.

The capital invested in the manufacture of *malt and spirituous liquors* is \$7,000; quantities and kinds of grain, etc., consumed—barley 2,500 bushels, and hops 1 ton; hands employed, 2; ale manufactured, 800 barrels. No spirits are returned, and probably none is now manufactured as an article of commerce. In 1840, there were two distilleries, producing annually 3,500 gallons, and one brewery producing 12,800 gallons—the whole employing 5 men, and a capital of \$8,860.

Internal Improvements, etc.—The lines of railroad from Boston and the coast of New England, generally toward Canada and the north-west, pass through Vermont, and the lines from New York also form connection with those of the western districts of the State. Locally these roads have tended greatly to the development of the resources of the towns through which they pass, and have opened sea-board markets to the great body of the State. The bulk of the merchandise and travel on the Vermont roads, however, is from and to places beyond the limits of the State, which has no large manufacturing towns or aggregated populations, beyond a few thousands in number. The several lines are noted in the "APPENDIX." On the 1st January, 1853, the railroads in operation had a total length of 427 miles, and there were some 50 miles additional in course of construction. There are no canals in Vermont, with the exception of three short cuts to overcome river falls, viz.: that around White River Falls, that at Bellows Valley, and that at Waterqueechy Falls. The macadamized and ordinary roads of the State are generally well kept, and in sufficient number for all purposes.

Foreign Commerce.—The commerce of Vermont is carried on chiefly at Burlington on Lake Champlain, and finds an outlet by the Chambly river to Canada, and transmarine countries. The exports in this direction, in the year ending 30th June, 1850, were valued at \$430,906, of which \$404,749 was the value of domestic products exported, and \$26,157 that of foreign re-exports, and the value of imports amounted to \$463,002. The shipping employed in carrying the merchandise above represented, was as follows:

Nationality of Shipping.	Entered.			Cleared.			Total.		
	Vessels.	Tons.	Crews.	Vessels.	Tons.	Crews.	Vessels.	Tons.	Crews.
American.....	330	86,823	3,535	322	51,073	3,201	652	167,901	6,736
Foreign.....	174	12,607	716	20	1,783	97	194	14,390	818
Total.....	504	99,435	4,251	342	52,856	3,298	846	182,291	7,549

—the shipping owned in the State at the above period amounted to 4,530 tons, all of the class enrolled and licensed, and of this, 3,097 tons was navigated by steam. The commercial movement for a series of years had been as follows:

Year.	Exports.		Imports.		Year.	Exports.		Imports.	
	Exports.	Imports.	Year.	Imports.		Year.	Exports.	Imports.	
1799.....	\$20,480	\$—	1811.....	\$571,104	\$—	1823.....	\$236,140	\$62,242

Banks.—The returns of August, 1850, report 27 banks, and their condition as follows—*Liabilities*: capital, \$2,197,249; circulation, \$9,856,027; deposits, \$546,708; and debts to banks, \$32,984; and *assets*, loans and discounts, \$4,423,719; stocks, \$40,500; real estate, \$94,497; due by other banks, \$1,001,789; notes of other banks, \$127,637; specie fund, \$2,876; and specie, \$127,825.

Government.—The first Constitution of this State was formed in 1777; the one now in operation was adopted on the 4th July, 1793, but has since been modified at various periods. It secures to every man on attaining his 21st year, the right of suffrage, provided he has been a resident of the State for the next preceding year, and is of a quiet and peaceable behavior. The annual elections are held on the first Tuesday of September.

The *Legislature* consists of a Senate (established in 1836), and a House of Representatives. The Senate consists of 30 members, chosen by a plurality of votes, apportioned in ratio of the population, but each county is entitled to at least one. The House of Representatives, at present, consists of 230 members, one from each town. Representatives shall be persons noted for wisdom and virtue, resident in the State for the last two years, and for one year in the town. Two-thirds of the members elected are required to form a quorum, when a State tax is voted. The Legislature is renewed annually. The Lieutenant-governor is *ex-officio* President of the Senate, otherwise the officers of both houses are chosen by the members thereof respectively.

The *Chief executive* is vested in a Governor, chosen annually by a majority of votes. In case of no choice being made, the three candidates having the highest poll numbers are presented to the Legislature, which in joint ballot elects one of their number to be governor. The Lieutenant-governor and Treasurer are elected in like manner. No one is qualified for these offices unless he has resided in the State for the preceding four years. Twelve Councilors, assistants to the executive, are chosen annually by general ticket, and by a plurality of votes. The Governor and Council appoint to offices and fill vacancies, and may grant pardons for all crimes excepting treason and murder, in which they may grant reprieves until the end of the next session of the General Assembly, and excepting also impeachments, which can be reversed only by act of the Assembly. The Governor presides in the Council and has a casting vote only. He may veto a bill, but two-thirds of both houses may pass it again, and it thus may become law notwithstanding. He is allowed a Secretary of civil and military affairs, chosen by himself and paid by the State.

Judiciary powers are vested in a Supreme Court, consisting of a chief and two assistant justices; in County Courts, or Courts of Common Pleas comprising four circuits, each County Court being composed of one Judge of Circuit, elected by the Legislature, who is *ex-officio* chief Justice of the County Courts of his Circuit, and two assistant judges for each county, elected by the people; and in Justices of the Peace. The Supreme Court sits in each county once, and the County Courts twice in each year; an additional term of the Supreme Court is also held once a year in each district, at such time and place as the court may order. Each Judge of the Supreme Court is Chancellor of a Circuit. The Court of Chancery has two stated sessions annually in each county, and is always in session for all purposes, except the final hearing of a cause. An appeal from a decree of the Chancellor lies to the Supreme Court. Judges of the Supreme Court, county and probate Courts, sheriffs, and justices of the peace, are elected by the General Assembly in joint ballot.

The Constitution prohibits slavery, and permits imprisonment for debt only in cases of fraud. It abolishes perpetuities. Every alien of good character coming to settle in the State, and swearing allegiance thereto, is permitted to hold land. By a law of 1850, a homestead of the value of \$500 is secured from attachment or execution.

Once in seven years, 13 censors are chosen on one ticket by the people, whose duty it is to inquire whether the Constitution has been observed in every particular, etc., and also to call a convention for amending the Constitution within two years, six months' public notice being given of the amendments proposed.

The *financial condition* of this State is in an enviable condition—the expenses of government are small, and its liabilities insignificant. For the year ending 31st August, 1850, the receipts into the treasury, including a balance from 1849 of \$8,330, amounted to \$125,375, of which \$94,309 was raised from taxes. The disbursements for the same year amounted to \$122,258, leaving a balance of \$3,122. The principal sums paid out, were the expenses of the Legislature, \$36,043; executive expenses, \$2,618, and pay of judiciary and for prosecuting crime, \$49,738. The minor items of expense were those on account of elections, pauper relief, common schools, agricultural societies, militia, etc. The expenses of 1850 exceed those of 1849 by \$7,767, but they embrace about \$15,000 of extraordinary expenditure.

Vermont has no public debt. It has, however, some temporary liabilities, which at the above-named date amounted to \$58,086.

Among the *benevolent institutions* of the State, the Vermont Asylum for the Insane, at Brattleboro', is the most conspicuous. Since the opening of the asylum there have been admitted to August 1st, 1850, 1,609 patients, and 1,281 have been discharged, and 323 remained in the institution. Of the discharged, 745, or 46.3 per cent. had been recovered. Of those placed in the asylum within six months from the attack, nearly nine-tenths have recovered. During the year ending as above, the whole number of patients was 468; admitted 150, and discharged 140. Of those discharged, 79 were cured, 26 died, 16 were improved, and 19 not improved. Income \$34,240 12, and expenditures \$33,868 92. There is connected with the asylum a library of over 1,200 volumes, and a large number of periodicals and newspapers are taken. The deaf and dumb and the blind are supported at institutions in other States, for which purpose the Legislature appropriates a large sum of money annually.

Federal representation.—In accordance with the provisions of the law of 23d May, 1850, Vermont sends four representatives to the federal Congress.

Education.—In 1850 there were 2,594 school districts in the State, and the whole number of scholars was 90,110; average length of schools 24 weeks; average of scholars in each district, 39; expense of each scholar, \$2 20; average wages to teachers—male \$1,355, and female \$554 per month; whole wages—to males \$65,759 16, and females \$61,812 65; total \$127,071 81; cost of board, \$70,492 87; cost of fuel, \$19,837 64; cost of wages, board, fuel, etc., \$217,402 83. Public money divided for support of schools, \$90,893 91. Vermont has no school fund.

VERMONT.

The collegiate institutions of the State are—the University of Vermont at Burlington, founded 1791; Middlebury College, founded in 1800; and Norwich University, founded in 1834. The University of Vermont in 1850 had 7 professors, 95 students, and 416 alumni, and a library of 10,000 volumes; Middlebury College, 6 professors, 63 students, 877 alumni, and 5,000 volumes; and Norwich University had 4 professors, 60 students, and 133 alumni, and 1,400 volumes. Medical schools are established at Castleton and Woodstock. The Castleton Medical College was founded in 1818, and in 1850 had 7 professors, 104 students, and 555 graduates, and the Vermont Medical College at Woodstock was founded in 1835, and in 1850 had 7 professors, 90 students, and 332 graduates.

Academies are established in all the larger towns and villages, and throughout the State there are private schools of high reputation.

Public Libraries.—According to a report of the librarian of the Smithsonian Institution in 1851, there were in Vermont 1 State library—8,500 volumes; 8 college libraries—13,032 volumes; 6 students' libraries—8,667 volumes; and 18 public school libraries—9,100 volumes; total 23 libraries, and 34,299 volumes.

Periodical Press.—The whole number of periodicals published in Vermont in 1850 was 36—14 whig, 7 democratic, and 15 neutral in politics. In the latter class are included religions, literary, and other general issues. Of the whole number 2 were published daily, 1 semi-weekly, 31 weekly, and 2 monthly. The dailies had an aggregate circulation of 550 copies, the tri-weeklies of 2,200 copies, the weeklies of 41,206 copies, and the monthlies of 2,000 copies. The counties in which issued are as follows: Addison, Bennington, and Caledonia, each 2 weeklies; Chittenden (Burlington), 2 dailies and 3 weeklies; Franklin, 1 weekly and 1 monthly; Orange, 2 weekly and 1 monthly; Orleans, 1 weekly; Rutland, 4 weeklies; Washington, 6 weeklies; Windham, 5 weeklies; Windsor, 4 weeklies.

Pauperism and Crime.—The whole number of paupers relieved and supported within the year ending 1st June, 1850, was 3,654, of which 2,043 were native, and 1,611 foreign born; and the whole number of paupers at the date specified was 1,879, of which 1,565 were natives, and 314 foreigners. Cost of support, etc., \$120,462. The total number of convicts sent to the State Prison in the year ending 1st September, 1850, was 83, and at that date 76 were undergoing sentence. The convicts are chiefly employed in snath-making and shoe-making. Income \$6,107 09, and expenses \$6,251 61—balance against the prison, \$144 52.

Religious Denominations.—The statistics of the several religious denominations in the State in 1850, will be found by reference to the table annexed:

Denominations.	No. of Churches.	Church accom.	Value of Property.	Denominations.	No. of Churches.	Church accom.	Value of Property.	Denominations.	No. of Churches.	Church accom.	Value of Property.
Baptist.....	88	31,937	\$153,842	German Ref.	—	—	—	R. Catholic.....	8	4,305	\$42,900
Christian.....	7	2,220	12,000	Jewish.....	—	—	—	Swedenbo'n.....	—	—	—
Congregat'l.....	168	76,122	451,084	Lutheran.....	—	—	—	Tunker.....	—	—	—
Dutch Ref.....	—	—	—	Mennonite.....	—	—	—	Union.....	88	34,550	122,500
Episcopal..	25	10,525	81,500	Methodist.....	123	45,010	221,550	Unitarian.....	2	1,000	82,000

Friends.....	7	2,550	5,500	Presbyterian.	10	4,100	17,500	Minor Sects..	8	700	800

—making a total of 564 churches, with accommodation for 226,444 persons, and valued at \$1,213,120. Vermont forms a diocese of the Protestant Episcopal Church, and is included in the Roman Catholic diocese of Boston.

Historical Sketch.—The distance of Vermont from the coast prevented any settlement being made within its borders, either by the French or English, until the colonies of the latter extended themselves into its vicinity. The governments of New York and Massachusetts made large grants in the direction of this State, but it was not until 1724 that any actual possession was taken of lands within its present bounds. In that year Fort Durnace, or Dummer, was built on the Connecticut River. On the other end of the State, in 1731, the French built a fort at Crown Point, and began a settlement on the eastern shore of Lake Champlain. Vermont, however, attracted little attention until the reduction of Quebec. After that event, New Hampshire, supposing the territory to fall within its limits, made large grants to settlers; but New York also claiming it, the matter became involved in serious controversy. Having been referred to the crown, a decision was made confirmatory of the title of the latter to all the country west of the Connecticut, and in this determination New Hampshire seems to have acquiesced, with the understanding, that the titles of the lands purchased from her by the settlers should not be disturbed.

Had New York contented itself with the possession of the unsold lands and jurisdiction over those which had been fairly purchased from New Hampshire, Vermont would probably have been to this day an integral portion of that great State: a violent and impolitic course, however, was pursued. The New Hampshire grants were declared invalid, and the settlers were required to take out new patents. The refusal to do this was nearly general, and in consequence decrees of ejectment were issued by the courts at Albany. At the head of the Vermonters was Ethan Allen, a bold and determined man, without mental cultivation, but of great natural powers. Under his guidance and counsel they resolved to maintain what they conceived to be their rights, at the risk of being treated as outlaws. The militia of New York was called out, but effected nothing. Appeal was now made by the inhabitants to the crown, and the government of New York was forbidden to make any grant of the lands in question. The order was evaded, however, and the same state of affairs continued as before. The battle of Lexington was fought, and more important objects then occupied the attention of the government of New York.

The attempts of the British ministry upon the liberties of the colonies excited as much indignation in Vermont as in those provinces which were more immediately obnoxious to the royal power. On the news that hostilities had commenced, Ethan Allen collected a body of about three hundred settlers, and, joined by some officers from Connecticut and New Hampshire, surprised the British post at Ticonderoga. The fort at Crown Point was surrendered soon afterward. These enterprises, executed with address, redounded greatly to the success of the revolutionary cause, and operated strongly on the public mind in favor of the Vermontese. In a bold attempt on Montreal, Allen was shortly afterward taken prisoner, and carried to England in irons. In the following year the British succeeded in defeating the colonial navy on Lake Champlain, and on the advance of Burgoyne's army in 1777, Ticonderoga fell again into their possession. War now pressed heavily upon Vermont; the northern settlements were broken up, and the whole frontier subjected to savage incursion. Submission to the British, however, was never thought of. A force was raised and united with that of General Starke. The battle of Bennington, where upward of one thousand regular troops were assailed in their intrenchments and compelled to surrender, will be long remembered as a proof of what an undisciplined militia are

capable, when warmed by patriotism and animated by hatred to the oppressor. The surrender of Burgoyne's army restored the country to comparative tranquillity.

While thus fighting in favor of the general cause, the people of Vermont were placed, as regards their civil government, in an anomalous situation. At the commencement of hostilities they found themselves even without a form of government. The jurisdiction of New York was disclaimed, and the authority of the crown was thrown off. In this state of matters every thing was effected by voluntary agreement. Application was made to Congress for its interference, but that body recommended submission to New York. Resolute in their determination not to submit, the people saw no alternative than to establish an independent State. In January, 1777, a general convention met, and proclaimed that the district of territory, previously known by the name of the New Hampshire grants, was of right a free and independent jurisdiction, to be thenceforth called by the name of "New Connecticut, *alias* Vermont." The convention now addressed Congress, and claimed admission into the confederation.

The petition for admission was met by a counter-memorial from New York, and Congress refused to recognize its separate existence. Embarrassment increased, and other circumstances soon after involved the Vermontese in a contest with the government of New Hampshire. The charter of the latter State circumscribed it by a line drawn at a distance of sixty miles from the sea. All the lands west of this line to the Connecticut were derived from royal grants; and the inhabitants of the towns within this strip, conceiving that the royal authority expired with the Declaration of Independence, imagined they had a right to determine to what State they would be attached. Under this impression they applied to the Vermontese requesting a union with them. The assembly of Vermont acceded to the application, but the vote of union was subsequently rescinded on a representation that Congress would, on the connection with the revolted towns of New Hampshire being dissolved, admit Vermont as a separate State. This action was followed by great discontent within the State. The inhabitants of that part which lies near the Connecticut River determined to unite with the New Hampshire towns, and to form a State government. Encouraged by these dissensions, New Hampshire now advanced a claim before Congress for the whole of Vermont. New York did the same, and Massachusetts endeavored to obtain a part by reviving an antiquated title.

Menaced from so many quarters, the Vermontese gave up their local dissensions, and united in their own defense. Ethan Allen, who had returned from captivity, was placed at the head of a body of militia, and made prisoners of the officers who were acting under the authority of New York. Complaint was made to Congress, but the discussion of the subject was postponed from time to time, as the Vermontese refused to become parties to it, and no decision was pronounced. The British were naturally attentive to the progress of the contest, and flattered themselves that the people of Vermont, exasperated and neglected by Congress, would place themselves under their protection. Negotiations were actually opened for this purpose in 1780, and were continued without any open result until 1783. Whatever the intentions of the leading men of Vermont were, there is no doubt but that the body of the people were still warmly attached to the revolutionary cause. The consequences of the negotiation in one respect, however, were favorable to Vermont, as she remained unmolested by the British during the remainder of the war.

The peace of 1783 found Vermont a sovereign and independent State *de facto*, and the Vermontese felt little desire to join in a confederation, the rulers of which had pursued such an evasive policy toward her during the war. New York still claimed a jurisdiction over the State, but was unable to enforce it, and the State government was administered as regularly as in any other part of the United States. Affairs remained in this singular condition until after the formation of the constitution in 1787, the advantages of which, under the administration of Washington, inclined the people of Vermont again to attempt an admission into the Union. The only obstacle arose from the opposition of New York, which was finally withdrawn in 1789. In that year commissioners from the two States met, and effected an amicable arrangement. The sum of \$30,000 was agreed to be paid to New York as a compensation for lands belonging to its citizens, which had been re-granted by Vermont, and New York consented that her claims to jurisdiction should cease. A convention was immediately called, by which it was resolved to join the Union. The consent of Congress was given, and on the 4th of March, 1791, Vermont became one of the United States.

During the war of 1812-15 with England, the vicinity of this State was the seat of a warm contest. On the invasion of New York, volunteers poured from the mountains and valleys of Vermont, and by their patriotism and valor proved that they had not degenerated from, or forgotten the prowess of, their fathers. The repulse of the British from Plattsburg, and the capture of their squadron on Lake Champlain, delivered the soil of this district from the presence of an enemy. Aside from this interruption the prosperity of the State has been onward, but its history furnishes no event of sufficient importance to require detail.

MONTPELIER is the political capital of the State.

VERMONT, p. v., Fulton county, *Ill.*: 51 miles N. W. Springfield.

VERMONT, p. o., Howard co., *Ind.*: on N. side of Wild Cat cr., 50 m. N. by E. Indianapolis.

VERMONT, p. v., Cooper co., *Mo.*: 35 m. W. N. W. Jefferson City.

VERMONT, p. o., Chautauque co., *N. Y.*: 257 m. W. by S. Albany.

VERMONT SETTLEMENT, p. o., Will co., *Ill.*: 147 m. N. E. Springfield.

VERMONTVILLE, t. and p. v., Eaton co., *Mich.*: 24 m. W. by S. Lansing. The t. derives its name from having been settled by a colony of forty families from Vermont. Pop. of t. in 1840, 182; in 1850, 324.

VERNAL, p. o., Greene county, *Miss.*: on S. E. side of Chickasawha r., 125 m. S. E. Jackson.

VERNAL, p. o., Wyoming co., *N. Y.*: 232 m. W. by N. Albany.

VERNON county, *Mo.* Situate W., and contains 612 sq. m. Drained by Marais des Cygnes r a tributary of Osage r.,

and by its numerous branches. Surface undulating and diversified; soil fertile, and adapted to the growth of grain. It is well wooded, and has good pasturage for cattle.

VERNON, p. v., Autauga co., *Ala.*: on N. side of Alabama river, near the junction of Swift cr., 19 m. W. Montgomery.

VERNON, p. v. and sta., Tolland co., *Conn.*: 10 m. E. N. E. Hartford. Drained by Hoekanan r., which affords water-power to numerous manufactories. Surface diversified; soil of moderate fertility. The Hartford, Providence, and Fishkill R. R. touches the S. part of the t., 12 m. from Hartford. The v. contains 2 churches, etc. Pop. of t. 2,900.

VERNON, p. v., Kent co., *Del.*: on W. side of Marshy Hope creek, 18 m. S. S. W. Dover.

VERNON, p. v., Troup co., *Ga.*: on W. side of Chattahoochee river, 115 m. W. Milledgeville. It contains an academy, church, and dwellings.

VERNON, p. v., and cap. Jennings co., *Ind.*: on E. side of Vernon fork of Muscatuck r., 60 m. S. E. by S. Indianapolis. The Madison and Indianapolis R. R. passes through, 22 m. from Madison, 64 m. from Indianapolis. The v. has

a very pleasant site. It was laid out in 1815. The county buildings are neat structures. Pop. about 600.

VERNON, p. o., Jackson parish, *La.*: 150 m. N. W. by N. Baton Rouge.

VERNON, t. and p. o., Shiawassee co., *Mich.*: 32 m. E. N. E. Lansing. This is one of the best agricultural townships in the county. Pop. 674.

VERNON, p. v., Sutter co., *Calif.*: on E. bank of Feather river, at its confluence with the Sacramento, directly opposite Fremont. It is pleasantly situated at the head of navigation during high water, and is not liable to overflow. It is a market for the supply of the northern mines.

VERNON, p. v., Madison co., *Miss.*: 3 m. S. E. Big Black river, 2 m. N. by W. Jackson. During a part of the year steamboats can ascend to this place. Pop. about 230.

VERNON, t. and p. v., Sussex co., *N. Jer.*: 68 m. N. by E. Trenton. Surface very hilly and mountainous. Drained by several streams. The v. is situate centrally. Population of t. 2,619.

VERNON, t. and p. v., Oneida co., *N. Y.*: 93 m. W. by N. Albany. Surface rolling. Drained N. W. by Oneida and Skenandoa creeks. The v., incorporated in 1827, contains an academy, 3 churches, stores, mills, etc., and 1 bank, capital \$100,000. Near the v., on Skenandoa creek, is an extensive glass factory. Pop. of v. about 750; of t. 3,093.

VERNON, t. and p. o., Trumbull co., *Ohio*: 150 m. N. E. Columbus. Bounded E. by Pennsylvania. Drained S. by Pymatuning creek flowing centrally through the t. Population 823.

VERNON, sta., Crawford co., *Ohio*: on Cincinnati, Cleveland, and Columbus R. R., 75 m. from Cleveland, 130 m. from Cincinnati.

VERNON, p. v., and cap. Hickman co., *Tenn.*: on E. side of Pine cr., 45 m. W. S. W. Nashville. It contains the co. offices, a church, dwellings, etc.

VERNON, p. v. and sta., Windham co., *Verm.*: on W. side of Connecticut r., 105 m. S. by E. Montpelier. Surface of t. rough and mountainous. Slate is quarried in the W. part. Oak and chestnut timber is abundant. The Brattleboro' Branch R. R. runs along the Connecticut r., having stations at Vernon v. and South Vernon. Pop. of t. 821.

VERNON, t. and p. o., Waukesha co., *Wis.*: 60 m. E. by S. Madison. Pop. 889.

VERNON, p. o., Washington co., *Flor.*: on E. side of Holmes cr., 79 m. W. by N. Tallahassee.

VERNON CENTRE, p. v., Oneida co., *N. Y.*: 96 m. W. by N. Albany.

VERONA, t. and p. o., Dane co., *Wis.*: on head branch of Sugar r., 8 m. S. W. Madison. Pop. 438.

VERONA, p. v., Boone co., *Ky.*: 49 m. N. Frankfort.

VERONA, t. and p. v., Oneida county, *N. Y.*: 106 m. W. N. W. Albany. Surface generally level, with some swampy tracts; soil rich mold, with some sand. Drained by Oneida and Wood creeks, which bound it on the W. and N., flowing into Oneida lake on its N. W. border. The Erie Canal and Utica and Syracuse R. R. pass through the t. The t. contains numerous saw-mills, with several tanneries, and has considerable manufactures. Pop. of t. in 1840, 4,504; in 1850, 5,568.

VERONA DEPÔT, p. v. and sta., Oneida county, *N. Y.*: on Syracuse and Utica R. R., 23 m. from Utica, and by railroad 118 m. from Albany.

VERONA MILLS, p. o., Oneida co., *N. Y.*: 104 m. W. N. W. Albany.

VERPLANK, p. v. and sta., Westchester county, *N. Y.*: on Hudson River R. R., 42 m. from New York, 102 m. from Albany. It has a good steamboat landing, with stores and dwellings, etc.

VERSAILLES, p. v., Brown co., *Ill.*: N. E. of Mc Kee's cr., 54 m. W. Springfield.

VERSAILLES, p. v., and cap. Ripley co., *Ind.*: on W. side of Laughery's cr., 65 m. S. E. Indianapolis. The village is built upon a high bluff, and contains the county buildings,

with stores, etc. First settled in 1818. The Cincinnati and St. Louis R. R. passes through this place. The "Western Intelligencer" (whig) is issued weekly. The population (now about 800) is rapidly increasing, with the general importance of the place.

VERSAILLES, p. v., and cap. Woodford co., *Ky.*: 13 m. S. E. Frankfort. It contains the county buildings.

VERSAILLES, p. v., and cap. Morgan county, *Mo.*: 37 m. W. S. W. Jefferson City. It contains a court-house, jail, etc. Pop. about 600.

VERSAILLES, p. o., Cattaraugus co., *N. Y.*: 274 m. W. Albany.

VERSAILLES, p. v., Rutherford co., *Tenn.*: 30 m. S. S. E. Nashville.

VERSHIRE, t. and p. v., Orange county, *Verm.*: 24 m. S. E. by S. Montpelier. Drained by Ompompanoosic r. Surface uneven and stony. The t. contains several saw and some other mills. Pop. 1,071.

VESPER, p. o., Onondaga co., *N. Y.*: 125 m. W. by N. Albany.

VESTAL, t. and p. v., Broome co., *N. Y.*: on S. side of Susquehanna r., 126 m. W. S. W. Albany. Surface uneven and broken. Drained by Choconut cr. and other streams flowing into the Susquehanna. This t. is very heavily timbered, and contains numerous saw-mills. Pop. of t. in 1840, 1,253; in 1850, 2,054.

VEVUUVI FURNACE, p. o., Lincoln co., *N. Car.*: 152 m. W. by S. Raleigh.

VETERAN, t. and p. o., Chemung county, *N. Y.*: 160 m. W. by S. Albany. Surface hilly; soil productive loam. Catharine's creek flows on its W. border, N. into Seneca lake, affording water-power. The t. contains several tanneries: farming is the chief pursuit. Pop. 2,693.

VETO, p. o., Washington co., *Ohio*: 84 m. S. E. by E. Columbus. Probably John Tylersville.

VEVAY, p. v., and cap. Switzerland co., *Ind.*: on the Ohio river, 83 m. S. E. by S. Indianapolis. Lat. 38° 46' N., long. 84° 59' W. This v. occupies part of the tract of land granted on credit by the United States in 1802 to a colony of families from Switzerland for the cultivation of the vine. The colony soon received a large addition from Switzerland. The v. was laid out in 1813. It has one of the most pleasant sites on the Ohio r. It contains a court-house, jail, academy, several stores, etc. Many of the dwellings are neatly built of brick. The cultivation of the grape and manufacture of wine resembling claret is very extensively carried on. The "Palladium" (dem.) is here published. Pop. about 1,500.

VIADUCT, sta., Cambria county, *Penn.*: on Alleghany Portage R. R., 5 m. from Con-maugh, 23 m. from Hollidaysburg.

VICKERY'S CREEK, p. o., Forsyth county, *Ga.*: 103 m. N. W. Milledgeville.

VICKSBURG, p. city, port of entry, and cap. Warren co., *Miss.*: on E. bank of Mississippi r., 41 m. W. by N. Jackson. It is principally built on a high bluff, 200 feet above high-water mark, but the more business part of the city is on the bottom, along the river. About 2½ m. above the city are the Walnut Hills, which rise to an elevation of 500 feet above the river, presenting very fine scenery. The city contains a court-house and jail, 1 large public school, several private academies, and 5 churches. An orphan asylum is about to be established. The business interests of the city are chiefly commercial. Immense quantities of cotton are annually sent from this place to New Orleans and other points on the Mississippi. There is an excellent harbor for steamboats, with very convenient landings. The surrounding country is remarkably fertile, having a black loamy soil, well adapted to the cultivation of cotton, tobacco, and grain. The Vicksburg, Jackson, and Brandon R. R. extends hence through Jackson, 46 m. to Brandon, 60 m., and will ultimately form a link in the Alabama and Mississippi R. R. from Montgomery and Selma westward; and Vicksburg will also be a starting point for one of the lines of railroad

toward the Pacific, *via* Shreveport and Texas. The tonnage of Vicksburg district on 30th June, 1850, was 460 tons, all of which was enrolled and licensed, permanent, employed in the coasting trade, and propelled by steam. During the year preceding it had no foreign commerce or ship-building. The newspaper press in 1850 consisted of the "V. Sentinel" (dem.) and the "V. Whig," each issuing tri-weekly and weekly editions. Vicksburg was incorporated as a town in 1825, and as a city in 1836. Pop. in 1850, 8,678.

VICKSVILLE, p. o., Southampton county, *Virg.*: 58 m. S. by E. Richmond.

VICTOR, t. p. v., and sta., Ontario county, *N. Y.*: 192 m. W. by N. Albany. Surface of l. rolling. Drained in E. and S. E. parts by Mud cr. and branches. The t. contains numerous saw, grist, and flouring mills, with several manufacturing establishments. The Rochester and Syracuse R. R. passes through the v., 20 m. from Rochester, 84 m. from Syracuse. The v. is a thriving place, with about 350 inhabitants. Pop. of t. 2,230.

VICTOR, t. and p. o., Clinton county, *Mich.*: 13 m. N. E. Lansing. A farming township. Pop. 277.

VICTORIA county, *Tex.* Situate S. E., and contains 804 sq. m. Drained by Guadalupe r., which passes through its western portion, and by Garcitas, Zarilla, and Casa Blanca creeks. Surface undulating and diversified. A large portion is prairie, with timber interspersed; soil very fertile and productive. Limestone is found. Farms 84; manuf. 9; dwell. 327, and pop.—wh. 1,448, fr. col. 0, sl. 571—total 2,019. *Capital*: Victoria C. H.

VICTORIA, p. o., Knox county, *Ill.*: 87 miles N. by W. Springfield.

VICTORIA, p. o., Daviess county, *Mo.*: 138 miles N. W. Jefferson City.

VICTORIA, p. v., Bolivar co., *Miss.*: on E. bank of Mississippi r., 100 m. N. N. W. Jackson.

VICTORIA, p. v., and cap. Victoria co., *Tex.*: on E. bank of Guadalupe r., 113 m. S. S. E. Austin City. Lat. 25° 56' 47" N., and long. 97° 7' 30". The v. is pleasantly situated, and is rapidly increasing in population. It contains the county buildings, etc. The Guadalupe when improved is easily navigable for steamboats 70 m. from its mouth. It is here crossed by a bridge. The "Texas Advocate" (Indep.) is published weekly.

VICTORY, t. and p. v., Cayuga co., *N. Y.*: 153 m. W. by N. Albany. Surface rolling. Drained by Little Sodus cr. The t. contains several tanneries, grist, and saw mills. The v. contains a church, stores, etc., and about 220 inhabitants. Pop. of t. 2,299.

VICTORY, p. o., Wayne co., *Tenn.*: 77 m. S. W. Nashville.

VIDALIA, v., and cap. Concordia par., *La.*: on W. bank of Mississippi r., directly opposite Natchez, Miss., 77 m. N. by W. Baton Rouge. It is built on one street parallel with the r., and contains the county offices. The "Concordia Intelligencer" (neut.) is issued weekly.

VIENNA, p. v., Pickens county, *Ala.*: on the Tombigbee r., near the junction of Sipsy r., 120 m. W. N. W. Montgomery. Pop. about 140.

VIENNA, p. v., and cap. Dooly co., *Ga.*: on N. side of branch of Flint r., 73 m. S. S. W. Milledgeville. It contains the court-house, jail, and several dwellings.

VIENNA, p. v., and cap. Johnson co., *Ill.*: 167 m. S. by E. Springfield. This is a pleasant little v. on Cash cr., containing the county buildings, etc. The projected Massac and St. Louis R. R. will pass through this place. Pop. 142.

VIENNA, p. v., and sta., Scott co., *Ind.*: 63 m. S. by E. Indianapolis. The Jeffersonville R. R. passes a little W. of the v., 27 m. from Jeffersonville, 50 m. from Edinburg.

VIENNA, t. and p. v., Kennebec co., *Me.*: 15 m. N. W. Augusta. It contains a large pond in S. part, and is watered on the W. by McCurdy stream of Sandy r. Population of t. 551.

VIENNA, p. v. and port of entry, Dorchester co., *Ms.*: on

W. side of Nanticoke r., 49 m. S. E. Annapolis. It has considerable trade, the river being navigable for sea-going vessels to this place, 24 m. above Chesapeake bay. It contains several stores, 2 churches, etc. The total tonnage of this district on June 30th, 1850, was 15,478 tons enrolled and licensed, and 537 tons "licensed under 20 tons," all of which was employed in the coasting trade. During the year preceding 27 schooners were built—1,533 tons.

VIENNA, p. o., Jackson par., *La.*: 150 m. N. W. by N. Baton Rouge.

VIENNA, p. v., Macomb county, *Mich.*: 82 miles E. Lansing.

VIENNA, t. and p. v., Oneida co., *N. Y.*: 112 m. W. N. W. Albany. Bounded S. W. by Oneida lake. Surface rolling. Drained by Fish cr. and other streams. The t. contains numerous saw-mills, etc. Pop. 3,393.

VIENNA, t., Dane co., *Wisc.*: 14 m. N. Madison.

VIENNA, p. o., Walworth co., *Wisc.*: 43 m. S. E. Madison.

VIENNA, t. and p. v., Trumbull county, *Ohio*: 144 miles N. E. by E. Columbus. Soil good. Drained by several small streams. Pop. of t. 1,007.

VIENNA CROSS ROADS, p. o., Clark county, *Ohio*: 33 m. W. by S. Columbus.

VIGO county, *Ind.* Situate W. on Wabash r., and contains 408 sq. m. It is drained by numerous streams falling into the Wabash, Surface level, or gently undulating, finely timbered, with prairies of small extent; soil rich and productive. Coal, freestone, and limestone abound. Farms 1,113; manuf. 130; dwell. 2,645, and pop.—wh. 14,556, fr. col. 733—total 15,259. *Capital*: Terre Haute. *Public Works*: Wabash and Erie Canal; Terre Haute and Richmond R. R.; Evansville and Illinois Extension R. R.; the National Road, etc.

VILLAGE GREEN, p. v., Delaware county, *Penn.*: 77 m. E. S. E. Harrisburg.

VILLAGE SPRINGS, p. o., Blount co., *Ala.*: 100 m. N. by W. Montgomery.

VILLANOVA, t. and p. o., Chautauque co., *N. Y.*: 280 m. W. Albany. Surface broken and uneven; soil best adapted to grazing. Drained by Conewango cr. The t. contains mills of various kinds. Pop. 1,536.

VILLANOVA, p. o., Walker county, *Ga.*: 156 m. N. W. Milledgeville.

VILLA RICA, p. o., Carroll co., *Ga.*: 114 m. W. N. W. Milledgeville.

VILLE PLATTE, p. o., St. Landry par., *La.*: 69 m. W. by N. Baton Rouge.

VILULA, p. o., Russell county, *Ala.*: 71 miles W. by S. Montgomery.

VINCENNES, p. v., and cap. of Knox co., *Ind.*: on E. bank of Wabash r., 100 m. S. W. Indianapolis. Lat. 39° 43' N.; long. 87° 25' W. The v. has a fine site along the river bank, and is regularly laid out, with wide streets crossing each other at right angles. It contains the county buildings, a fine town hall, good market-house, a U. S. land office, and several churches. The Catholic cathedral is a spacious and well-finished edifice. Considerable attention is given to education. Of the principal institutions several are Roman Catholic, viz., an ecclesiastical seminary, female academy, with 150 pupils, and 2 orphan asylums, which, in 1852, contained 73 girls and 60 boys. The v. contains a branch of the State Bank of Indiana, cap. \$147,200, and has some manufactures. The Wabash r. is here $\frac{1}{4}$ m. wide, and is navigable to this place for steamboats. The railroads passing through Vincennes are—Evansville and Illinois E. R. R.; and Ohio and Mississippi R. R.; to which may be added a projected road, extending hence to Indianapolis. The "Vincennes Gazette" is here published. This place is the oldest settlement in the State, and is invested with much historical interest. The French established a trading post about 1702. A Catholic church had been established here as early as 1749, in which year it received its name. In 1788, all the families in the place were of French origin, except

VIRGINIA.

twelve. A considerable proportion of the present population is their descendants. In 1805, the first territorial legislature assembled here, and, among other acts, incorporated Vincennes as a borough. In 1813, the seat of government was removed to Corydon. The country around is very fertile prairie land. Pop. 2,070.

VINCENT, t. and p. o., Chester co., *Penn.*: on S. W. side of Schuylkill r., 67 m. E. Harrisburg. Pop. about 2,500.

VINCENTON, p. v., Burlington co., *N. Jer.*: on S. branch of Rancoeus r., at junction of Stop-the-jade cr., 19 miles S. Trenton. It contains several stores and mills, and 2 churches.

VINEYARD, p. o., Grand Isle co., *Verm.*: 53 m. N. N. W. Montpelier.

VINEYARD MILLS, p. o., Huntingdon co., *Penn.*: 65 m. W. Harrisburg. Here is a hot-blast charcoal furnace, with an annual capacity of 1,600 tons.

VINEY GROVE, p. o., Lincoln co., *Tenn.*: 72 m. S. by E. Nashville.

VINLAND, t. and p. o., Winnebago county, *Wisc.*: 84 miles N. N. E. Madison. Pop. 756.

VINTE county, *Ohio*. Situate toward the S. E., and contains 416 sq. m. Drained by Raccoon cr. and its affluents, and by branches of Scioto r. Surface hilly, and in parts

broken; soil in general fertile, and favorable to the culture of wheat and grain. Coal is found. Farms 806; manuf. 24; dwell. 1,569, and pop.—wh. 9,246, fr. col. 107—total 9,353. *Capital*: M'Arthurstown. *Public Works*: Scioto and Hocking Valley R. R.; Cincinnati and Marietta R. R.

VINTON, p. v., and cap. Benton co., *Ia.*: on a branch of Cedar r., 40 m. N. W. Iowa City. It contains the county buildings, etc.

VINTON, p. v., Gallia co., *Ohio*: on W. side of Raccoon r. 75 m. S. E. by S. Columbus. It contains an academy, a few stores and mills. Iron ore and mineral coal are found in the vicinity.

VIOLA, p. o., Delaware co., *Ia.*: 54 m. N. Iowa City.

VIOLY, p. o., Blount co., *Ala.*: on N. side of Little Warrior r., 104 m. N. by W. Montgomery.

VIRGEN river, *Utah*: rises in the Wahsatch mountains, flows in southerly course, to its confluence with the Rio Colorado.

VIRGIL, t. and p. v., Cortland co., *N. Y.*: 128 m. W. by S. Albany. Surface uneven; soil fertile loam. Drained S. by Troughnioga r. The v. contains 3 churches, stores, etc. Pop. of t. 2,410.

VIRGIL, p. o., Fulton county, *Ill.*: 64 m. N. W. by N. Springfield.

THE STATE OF VIRGINIA.

VIRGINIA, perhaps, in natural resources, as well as in geographical position, one of the most important States of the Union. lies generally between the latitudes $36^{\circ} 30'$ and $39^{\circ} 43'$ north, and extends east and west between longitudes $75^{\circ} 40'$ and $83^{\circ} 38'$ west, and is bounded on the north by Pennsylvania and Maryland, on the east by the Atlantic Ocean and Chesapeake Bay, on the south by North Carolina and Tennessee, and on the west by Kentucky and Ohio. With the exception of the long tongue of land between Pennsylvania and the Ohio River, and the peninsular projection between the Chesapeake Bay and the ocean, the State has an average length of 355 miles, and a breadth of 213 miles, and comprises an area computed at 61,352 square miles.

Virginia is naturally divided into east and west by the Blue Ridge, a division which obtains also in the distribution of the federal judiciary; but according to the State constitution, it is divided into four districts or sections—the *Tide Water*, below the lower falls of the rivers; the *Piedmont*, between those falls and the Blue Ridge; the *Valley*, between the Blue Ridge and the Alleghany; and the *Trans-Alleghany*—the latter comprising all the country west of the mountain ranges. The first mountains are found in the Piedmont section, which is traversed by a low ridge, under the local names of White Oak, Southern, etc., and running nearly parallel with the Blue Ridge, at a distance of 25 or 30 miles. The Blue Ridge, although pierced by the Potomac, James, and Staunton rivers, constitutes a well-marked and continuous chain of more than 250 miles in length. In general, it forms rounded, swelling masses, but in several places, and especially the Peaks of Otter, shoot up in projecting summits to the height of 4,260 feet. The Kittatiny, or Blue Mountain, enters the State farther west, under the name of Great North Mountain, and forming the centre of the great plateau or table-land of Virginia, is continued, under various local names, until it takes the name of Iron Mountain, and enters North Carolina. It is pierced by the Potomac and James rivers running eastwardly, and by the New River running westwardly. West of this great ridge lie several detached masses, bearing the local names of Sideling Hill, etc. Still farther west is the great Alleghany chain, which is broken through by New River and other streams to the north. Powell's Mountain appears to be an outlier of this chain, and reaches to the height of 4,500 feet. Westward of the Alleghany there is a general slope toward the Ohio; but several other considerable chains traverse this section, the principal of which is Laurel Mountain, of which Greenbrier, Great Flat Top, and the Cumberland Mountains appear to form a part. With the exception of Pennsylvania, Virginia is the only other State of the Union that has territory on both sides of the Alleghany Mountains.

Virginia has noble rivers and streams, useful as channels of commerce or for industrial purposes. With few exceptions, the Ohio River west, and Chesapeake Bay east of the mountains, are the recipients of the waters of the whole State: those of Eastern Virginia flow, with an almost uniform south-easterly course, into the bay, carrying with them also the waters of the great valley, excepting only those of New River and the Holston, on the extreme southern part.

The Potomac rises in the Great Back Bone, but a few miles from the Youghiogny, and pursuing a devious course, forces its way through the several intermediate mountain chains to the Piedmont section, where it is broken by falls nine miles above Georgetown, at which place it meets the tide-water, and about 100 miles below, after a course of 350 miles, it reaches the Chesapeake. At Alexandria, 290 miles from the ocean, it is $1\frac{1}{2}$ miles wide, and below the city gradually expands, till at its mouth it forms a broad estuary, 10 miles in breadth. Ships-of-the-line ascend to the navy-yard at Washington; above this it is obstructed by numerous falls and rapids. The principal tributaries of the Potomac are its South Branch, which rises near the head-streams of James River, the Great Cacapon, and the Shenandoah, the latter of which flows about 120 miles along the western base of the Blue Ridge, and joins the main river at Harper's Ferry. "The passage of the Potomac through the Blue Ridge," says Mr. Jefferson, "is perhaps one of the most stupendous scenes in nature."

The *Rappahannock* rises in the Blue Ridge, and receives the Rapid Ann from the same ridge, and falling over the primary ledge of Fredericksburg, 100 miles from its mouth, there reaches tide-water. Vessels of 140 tons ascend it to this point. York River, formed by the union of the Pamunkey and Mattaponi, partakes rather of the character of a long narrow bay than of a river; to the junction, 40 miles from the bay, it is from two to four miles wide, and large vessels pass to Yorktown—smaller ones ascend some distance above the bifurcation.

James River, the principal river of Virginia, rises in the Alleghany Mountains in several head streams, of which Jack-

VIRGINIA.

son's River must be considered the main constituent; after having received the Cow Pasture and the Calf Pasture rivers from the north, it forces its way through the Blue Ridge, and falling over numerous pitches, meets the tide 100 miles from its mouth at Richmond, which is accessible to vessels of 140 tons. The only considerable tributary of this river below the Blue Ridge is the Appomattox, which carries seven feet of water to Petersburg, 12 miles. The James River and Kanawha Canal, now complete to Balcony Falls, at the passage of the Blue Ridge, is constructed along the valley of the river, and is one of the most stupendous and important works in the United States.

The *Meherrin* and *Nottoway* are small rivers, which unite in North Carolina, and form the Chowan. The Roanoke is formed in Virginia by the junction of Dan River and Staunton River, two rapid mountain streams which rise, the former in the Blue Ridge, and the latter in the North Mountain. The larger part of the Roanoke is through North Carolina, which State it enters about 40 miles below the union of its constituent rivers.

The great rivers of Western Virginia, flowing to the Ohio River are—the Monongahela, one of the constituents of that river; the Kanawha; the Guyandotte; the Big Sandy, etc. The Monongahela is formed in Virginia by the junction of the West Branch and Tygart's Valley River, and beyond the Pennsylvania line it receives Cheat River, which descends from Greenbrier Mountain, and which is navigable for boats for a considerable distance. Little Kanawha River rises in the same district with the west branch of Monongahela River, and enters the Ohio at Parkersburg. The Kanawha, the principal river of Western Virginia, rises in the Blue Ridge, in North Carolina, and bears the name of New River until it unites with Gauley River, a small affluent from Greenbrier Mountain. The Greenbrier, above the latter, and the Elk and Coal rivers below it, are its principal tributaries. It is navigated by steamboats to Charleston, 60 miles from its mouth. The Covington and Ohio R. R., and the James River and Kanawha Canal traverse the valley of this river. The Guyandotte and Big Sandy enter the Ohio below the Kanawha—the latter forming part of the boundary between Kentucky and Virginia. The Ho'ston and Clinch, which drain the south-western section of the Great Valley of Virginia, pass into Tennessee, and uniting at Kingston in that State, form the Tennessee River.

Virginia is an almost boundless field of mineral wealth, and within its limits, not only the useful, but also the precious metals are found in one part or the other. Gold, copper, lead, iron, coal, salt, lime, marl, gypsum, magnesian and alum earths, marbles, granites, soap-stones, and sand-stones are among the treasures, as yet for the most part lying unheeded in the bowels of the earth. Mining industry, however, has been commenced, and within the past few years has been wonderfully developed.

The first coal-field is found at the junction of the Tide-Water and Piedmont sections, and this extends from the Pamunkey by Richmond to the Appomattox, a distance of about thirty-five miles, with a breadth of from one or two to eight miles. The coal is bituminous, in seams of enormous thickness, being 30; 40, and even 60 feet thick, and of excellent quality. Coal has also been found on both sides of the Upper Appomattox. The coal of the Richmond basin is now extensively mined, and a railway to the principal mines has been built to facilitate its transportation to tide-water. Anthracite of great purity is found in the valley from the Potomac to the James River, south of which it contains a considerable portion of bitumen. Beyond the Alleghanies there are some of the most extensive and valuable deposits of bituminous coal in the United States, which derive additional value from their being associated with not less important beds of iron and salt. At Wheeling, on the Ohio, and for fourteen miles down the river, the bank presents an uninterrupted bed of highly bituminous coal, upward of 16 feet thick. The Wheeling basin, indeed, extends for 30 miles up and down the river in Ohio and Virginia. Another vast field stretches above Clarksburg, on the Monongahela to Pittsburg, and far beyond to the north-east in Pennsylvania. There is also a valuable coal-field on the head-waters of the north branch of the Potomac. Thus we have five tiers of coal seams, with an average thickness of from 30 to 35 feet. There are also coal seams associated with salt springs on the Little Kanawha, and springs of petroleum, or rock oil, occur in the same tract. On the Great Kanawha is also a very rich and extensive coal-field; and on Coal, Gauley, and other rivers in this portion of Western Virginia, the beds of this mineral are frequently brought to view, and in fact no better general description can be presented of its extent than that it is almost continuous with the vast beds of sandstone which spread in nearly horizontal planes over nearly the whole of this broad region.

The salines of Virginia are almost wholly in the west. Salt-springs occur on the Holston, on the New River, and on the Greenbrier; but the most important works are on the Great and Little Kanawha rivers. The brine is raised by steam-power, and evaporated in large cast-iron pans over furnaces. The brine of the Kanawha wells contains very little gypsum or sulphuret of lime, and the process of crystallization is therefore attended with fewer difficulties than usual. The average yield of salt is about one bushel from every 65 or 70 gallons of brine.

The mineral springs of Virginia have long been noted for their efficiency in numerous chronic complaints, and as the resort of the fashionable world in the summer season. The State abounds with these, but the best known are the White and Blue Sulphur Springs of Greenbrier county, the Salt and Red Sulphur, and the Sweet in Monroe county, Hot and Warm in Bath, Berkeley in Morgan, Fauquier White Sulphur in Fauquier, Shannondale in Frederick, Alum in Rockbridge, Jordan's White Sulphur in Frederick, Red in Alleghany, Grayson in Carroll, Botetourt in Roanoke, Holston in Scott, Augusta Springs and Daggus Springs in Botetourt.

Of the metallic products of Virginia, gold is at present perhaps the most important. It is found on both the North and Rapid Ann rivers, of the North and South Anna near their sources, of the Rivanna, in the lower part of its course, and of James River, above and below the mouth of the Rivanna. Within the past few years, several rich mines have been opened and worked successfully in these and other sections of the State. We believe that Commodore Stockton was one of the first who introduced into Virginia effective machinery for reducing on a large scale the quartz-rock, and demonstrating that a profitable business could be done in this branch of mining. The Stockton mines are located in Fluvanna county. Among other at present productive mines are those of William M. Mosely & Co., and of the Garnett Mining Company, in Buckingham county. There are also mines more or less productive in Spottsylvania, in Stafford, in Fauquier, in Culpepper, in Orange, in Louisa, and in Goochland counties.

"It is a matter of not less mortification," says a Report of the Manufacturers' Convention, 1851, "than astonishment, that Virginia, with an area of coal measures covering not less than 21,000 square miles, very much of which lies on or near navigable waters, and capable of yielding all the varieties of British coal, and of equal quality, should be reduced to the actual production of less than 200,000 tons, of the value of \$650,000, while Great Britain with little more than half the extent of coal measures, produces annually 37,000,000 tons, of about the value of \$37,000,000 at the mines, and \$130,000,000 at the market of sale. And in regard to the iron-trade, while Virginia has an unlimited supply of the finest ores, easily accessible for use and transportation, with the greatest abundance of coal, wood, and limestone for their man-

VIRGINIA.

ufacture, yet under the operation of the present revenue laws of the country, her production, in spite of all the efforts of the State to encourage it, has shrunk to an almost inconsiderable amount, and is in danger of utter ruin."

The soils of Virginia are naturally of a most fertile nature, but in the old settlements they have been exhausted by a vicious system of tillage. In many parts, however, a renovation has been effected by the application of proper fertilizers, and the adoption of a more scientific mode of culture. The Eastern and Piedmont sections are chiefly engaged in the production of Indian corn and tobacco, the latter of which is one of the great staples of the State. Cotton is also produced in these sections. In the valley, the crops are much the same, excepting that wheat takes the place of cotton, and the system of agriculture is superior to that followed in the lower country. Beyond the mountains, and westward to the Ohio river, is a fine country, adapted in soil and climate to the successful culture of all the grains, roots, and products of the Middle States, and equally propitious to the breeding and rearing of cattle and other domestic animals. It is not only a great agricultural district, but it is alike rich in minerals and metals of the greatest importance and value, and will eventually become the workshop of the State, as it is now the granary.

Bold scenery is one of the distinguishing features of Virginia; and no other State presents so many or so magnificent results of Nature convulsed. At Harper's Ferry, where the Potomac breaks through the Blue Ridge, the disruption has left behind it indelible marks of its force. The "Natural Bridge" below Lexington, according to Jefferson, is "the most sublime of Nature's works. It is an arch reaching across a narrow ravine, which extends for some distance above and below, at the height of 215 feet above the stream which flows under it, 80 feet wide and 93 feet long;" and again he says, "so beautiful and arch, so elevated, so light, and springing as it were up to heaven! the rapture of the spectator is really indescribable." These are but a moiety of the magnificent scenes of the country; everywhere in the Great Valley, and among its mountain borders, are found spectacles of grandeur and sublimity. Virginia has also numerous caves and caverns, of which Madison's Cave and Weir's Cave, both in the vicinity of Staunton, are those best known. Madison's Cave extends about 300 feet into the earth, branching into subordinate caverns, and terminating in two basins of water, of about 30 or 40 feet in depth. Weir's cave is much more extensive, and its numerous halls and chambers are pillared with an astonishing profusion of stalactites, which in some places resemble stiffened water-falls, in others hanging in rich festoons and folds like tapestry, or seem to rise from the floor like columns, thrones, towers, or statues; it extends 1,260 feet into the ground, and contains upward of 20 large rooms, besides numerous passages and galleries. One of these halls is 260 feet in length, 33 feet high, and from 10 to 20 feet wide; and another is 153 by 15 feet, with a height of 60 feet.

Virginia is divided into 137 counties, the general statistics of which, and the capitals of each, in 1850, were as follow:

EASTERN VIRGINIA—69 counties.

The whole number of dwellings in the State, at the above date was, 165,815; of families, 167,590; and of inhabitants, 1,421,661; viz., whites 995,304—males 451,552, and females 443,752; fr. col. 53,829—males 25,843, and females 27,986, and sl. 472,528. Of the whole population there were, *deaf and dumb*—wh. 581, fr. col. 13, sl. 112—total 711; *blind*—wh. 536, fr. col. 121, sl. 339—total 996; *insane*—wh. 922, fr. col. 46, sl. 58—total 1,026; and *idiotic*—wh. 945, fr. col. 120, sl. 220—total 1,285. The number of free persons born in the United States was 925,795, the number of foreign birth 22,394, and of birth unknown 585. The *native* population originated as follows: Maine 271, N. Hamp. 239, Verm. 231, Mass. 1,193, R. I. 100, Conn. 556, N. York 2,934, N. Jer. 11,447, Penn. 6,823, Del. 542, Md. 10,323, Dist. of Col. 1,184, *Virginia* 872,823, N. Car. 7,343, S. Car. 281, Ga. 93, Flor. 26, Ala. 92, Miss. 75, La. 93, Tex. 7, Ark. 150, Tenn. 1,501, Ky. 2,029, Ohio 5,206, Mich. 33, Ind. 283, Ill. 126, Mo. 223, Ia. 37, Wise. 11, Calif. 4, Territories 3; and the *foreign* population was composed of persons from—England 2,998, Ireland 11,643, Scotland 947, Wales 173, Germany 5,511, France 321, Spain 29, Portugal 51, Belgium 7, Holland 65, Italy 65, Austria 15, Switzerland 83, Russia 8, Denmark 15, Norway 3, Sweden 16, Prussia 36, China 3, Asia 4, Africa 3, British America 235, Mexico 4, Central America 1, South America 7, West Indies 72, Sandwich Islands 1, and other countries 76.

The following table will show the decennial progress of the population since the first census of the State, taken by the United States authorities:

Census Years.	White Persons.	Colored Persons.			Total Population.	Decennial Increase.	
		Free.	Slave.	Total.		Numerical.	Per cent.
1790.....	442,115..	12,766..	293,427..	806,193..	743,808..
1800.....	514,280..	20,124..	345,796..	965,920..	880,200..	181,892..	17.6
1810.....	551,534..	30,570..	392,513..	423,088..	974,622..	94,422..	10.7
1820.....	6,3087..	37,139..	425,153..	462,292..	1,065,379..	90,757..	9.3
1830.....	694,300..	47,348..	469,757..	517,105..	1,211,405..	146,026..	13.7
1840.....	740,953..	49,552..	448,957..	498,889..	1,239,797..	28,892..	2.3
1850.....	895,304..	53,529..	472,528..	526,357..	1,421,661..	181,864..	14.6

The aggregate statistics of the resources, wealth, productions, manufactures, and institutions of the State, according to the census of 1851, and other official returns referring to the same period of time, are as exhibited in the following summary:

Occupied Lands, &c.—Improved farm lands, 10,361,155 acres, and unimproved lands, 15,792,176 acres—valued in cash at \$216,401,441. The whole number of farms under cultivation on the 1st June, 1850, was 77,013—in the Eastern District 37,741, and in the Western District 39,272. Value of farming implements and machinery, \$7,021,772.

Live-Stock.—Horses, 272,408; asses and mules, 21,480; milch cows, 317,619; working-oxen, 89,513; other cattle, 669,137; sheep, 1,810,004; and swine, 1,830,743. The live-stock of 1840, and the comparison of that with the live-stock of 1850, exhibit the following results:

Description.	1840.	1850.	Movement.
Horses.....	272,408 head.....	272,408 head.....	} <i>decr.</i> 32,555 head, or 9.9 per cent.
Asses and Mules.....	21,480 ".....	21,490 ".....	
Milch Cows.....	317,619 ".....	317,619 ".....	} <i>incr.</i> 52,121 " or 5.1 "
Working Oxen.....	89,513 ".....	89,513 ".....	
Other Cattle.....	669,137 ".....	669,137 ".....	} <i>incr.</i> 16,232 " or 1.3 "
Sheep.....	1,810,004 ".....	1,810,004 ".....	
Swine.....	1,830,743 ".....	1,830,743 "..... <i>decr.</i> 161,412 " or 8.1 "

—in 1850, the total value of live-stock was estimated at \$33,656,659.

VIRGINIA.

Products of Animals.—Wool, 2,860,765 pounds; butter, 11,039,359 pounds; cheese, 436,298 pounds; and the value of animals slaughtered during the year was \$7,503,006. The wool crop accounted for in the census of 1840 amounted to 2,533,374 pounds; and hence the increase in the crop of 1850 was 322,391 pounds, or in the ratio of 12.7 per centum. In 1840, the average clip per fleece was 31.4 ounces, and in 1850, 34.9 ounces—making an increase in 1850 of 3.9 ounces per fleece, or 12.4 per centum.

Grain Crops.—Wheat, 11,232,616 bushels; rye, 453,930 bushels; Indian corn, 85,254,319 bushels; oats, 10,179,045 bushels; barley, 25,437 bushels; and buckwheat, 214,593 bushels. The several yields compared with those returned in the census of 1840 give the following results:

Crops,	1840,	1850,	Movement,
Wheat.....	10,109,716 bushels.....	11,232,616 bushels.....	incr. 1,122,900 bushels, or 11.1 per cent.
Rye.....	1,482,799 “.....	453,930 “.....	decr. 1,028,869 “ or 69.7 “
Indian corn.....	34,577,591 “.....	35,254,319 “.....	incr. 676,728 “ or 1.9 “
Oats.....	13,451,062 “.....	10,179,045 “.....	decr. 3,272,017 “ or 24.3 “
Barley.....	87,430 “.....	25,437 “.....	decr. 61,993 “ or 70.9 “
Buckwheat.....	243,322 “.....	214,593 “.....	decr. 28,729 “ or 11.8 “

Other Food Crops.—Rice, 17,154 (in 1840, 2,596) pounds; peas and beans, 521,531 bushels; potatoes—Irish, 1,316,933 bushels, and sweet, 1,313,671 bushels. The potato crop of the census of 1840 amounted to 2,944,660 bushels, and hence the increase in 1850 is 185,944 bushels, or at the rate of 6.3 per centum.

Miscellaneous Crops.—Tobacco, 56,303,218 pounds; cotton, 3,947 bales of 400 pounds; hay, 369,098 tons; clover-seed, 29,727 bushels; other grass seed, 23,428 bushels; hops, 11,506 pounds; hemp—dew-rotted 90 tons, and water-rotted 51 tons; flax, 999,450 pounds; flax-seed, 52,318 bushels; silk cocoons, 517 pounds; maple-sugar, 1,227,665 pounds; molasses, 40,322 gallons; beeswax and honey, 850,767 pounds; wine, 5,408 gallons, etc. The value of orchard products \$177,137 and of market-garden products \$183,047. The principal crops exhibited in the censuses of 1840 and 1850 are comparatively as follows:

Crops,	1840,	1850,	Movement,
Tobacco.....	75,347,106 pounds.....	56,303,218 pounds.....	decr. 18,533,888 pounds, or 24.6 per cent.
Cotton.....	3,494,438 “.....	1,573,300 “.....	decr. 1,915,638 “ or 54.3 “
Hay.....	364,708½ tons.....	369,098 tons.....	incr. 4,390½ tons or 1.2 “
Hops.....	10,597 pounds.....	11,506 pounds.....	incr. 909 pounds, or 8.6 “
Hemp—dew-rotted.....	} 25,594½ tons.....	90 tons.....	} decr. 56,015,720 “ or 97.7 “
“ water-rotted.....		57 “.....	
Flax.....	} 999,450 pounds.....	999,450 pounds.....	} decr. 56,015,720 “ or 97.7 “
Silk cocoons.....		517 “.....	
Maple-sugar.....	1,541,833 “.....	1,227,665 “.....	decr. 314,168 “ or 20.3 “
Wine.....	13,911 gallons.....	5,408 gallons.....	decr. 8,503 gallons or 61.1 “

“The correctness of the returns as to hemp, in the seventh census, has not yet been perfectly verified. There has been some doubt, whether, in a number of instances, the marshals have not written *tons* where they meant *pounds*. (Has not the reporter in this instance written *tons* where we meant *pounds*, and *vice versa*?—*Ed. of Gaz.*) If, however, the returns are allowed to stand without reduction, it would appear that the cultivation of hemp or flax has materially changed since 1840. In the returns of that year as stated above, both of these articles were included under the same head. In 1840, those of Virginia gave 25,594 tons of hemp and flax together. In 1850, only 141 tons of hemp, and 500 tons of flax were returned. Such a falling off would amount to almost an abandonment of the culture of hemp in that State, which there is no reason to suppose has taken place.”—*Report of Superintendent of the Census, Dec. 1st, 1852.*

Home-made Manufactures were produced in the year ending 1st June, 1850, to the value of \$2,156,312. The same description of manufactures returned in the census of 1840 were valued at \$2,441,672.

Manufactures.—Total capital invested, \$300,000,000; value of all raw material, fuel, etc., consumed in the year, \$300,000,000; average number of hands employed 00,000—males 00,000, and females 0,000; monthly cost of labor \$300,000—male \$300,000, and female \$300,000; value of manufactures produced in the year, \$300,000,000. The whole number of manufacturing establishments in operation on the 1st June, 1850, and producing to the value of \$500 and upward annually, was 4,433—in the Eastern District 2,293, and in the Western District 2,140, and these were distributed to the several counties as exhibited in the general table. Of the whole number 27 were cotton factories; 121 woolen factories; 122 iron manufactories—29 making pig iron, 54 making castings, and 39 making wrought iron; 341 tanneries, etc. The total capital invested in manufactures, in the year represented in the census of 1840, amounted to \$11,360,861.

In the manufacture of *cotton goods*, the capital employed is \$1,908,900; cotton consumed 17,735 bales, and coal 4,805 tons; value of all raw material, fuel, etc., \$282,375; hands employed 2,963—males 1,275, and females 1,688; monthly cost of labor, \$24,774—male \$12,958, and female \$11,791; products of the year—sheeting, 15,640,107 yards, and yarn 1,755,915 pounds, valued at \$1,436,354. In 1840 there were in the State 22 cotton mills, and 1 dyeing and printing establishment, together employing 1,316 hands, and a capital of \$1,299,020, and producing in the year, goods to the value of \$446,063.

In the manufacture of *woolen goods*, capital to the amount of \$392,640 is invested; wool consumed in the year, 1,554,110 pounds, and coal 337 tons, valued together at \$438,899; hands employed 653—males 473, and females 190; monthly cost of labor \$10,571—to males \$3,638, and to females \$1,583; products of the year—cloth 2,037,025 yards, and yarn 393,705 pounds, valued at \$341,013. The capital invested in the woolen manufacture in 1840, was \$112,350, hands employed 222; value of yearly manufactures \$147,792; which statements include also the statistics of fulling-mills.

The condition of the iron manufacture is exhibited in the following statistical aggregates:

Specifications.	Pig Iron.	Cast Iron.	Wrought Iron.	Total.

Value of year's products. dollars . . .	521,924	674,416	1,254,995	2,451,335

—in 1840, Virginia had in operation 42 furnaces, that in the preceding year had produced 18,514 tons of cast iron, and 52 bloomeries, forges, and rolling-mills, which had produced 5,836 tons of bar iron.

The tanneries employ a capital of \$676,983; hands employed 906—males 900, and females 6; monthly cost of labor \$18,705—male \$18,643, and female \$62; sides of leather tanned 373,400, and skins tanned 74,573, together valued at \$894,876. In 1840 there were in the State, 660 tanneries employing 1,422 hands, and a capital amounting to \$898,141; and which had produced during the preceding year, 135,732 sides of sole leather, and 206,216 sides of upper leather.

The capital invested in the manufacture of *malt and spirituous liquors* amounts to \$100,915. Quantities and kinds of grain, etc., consumed—barley 20,000 bushels, corn 250,700 bushels, rye 62,680 bushels, oats 450 bushels, and hops 14 tons; hands employed 123; quantities of liquor produced—ale, etc., 5,500 barrels, and whisky, etc., 879,440 gallons. In the census year 1840, Virginia had 1,454 distilleries, producing in the year 565,725 gallons, and 5 breweries, producing 32,960 gallons; hands employed 1,631, and capital invested \$187,212.

The manufacturers, others than the above specified, consist of a great variety of important productions, as machinery of all kinds, carriages, harness, etc., and Virginia has also a large number of merchant and other mills. As a flour-producing State it stands first in its brands, and is only behind one or two other States in the extent of production. It has also large and valuable tobacco manufactories.

Foreign Commerce.—Virginia, in respect of foreign commerce, holds a seventh or eighth rank among the States of the Union. According to the official returns for the year ending 30th June, 1850, the value of its exports to foreign countries amounted to \$3,415,646, and of its imports to \$426,599. This would indicate that the great bulk of its commercial material is carried to the ports of other States for exportation, and the foreign merchandise consumed within the State is brought through the same channels. That such is the case is well known, and hence we find that the coasting trade is unusually extensive, chiefly carried on by the shipping of northern ports. This was not always so, for at one time Virginia stood at the head of the commercial States, and its shipping held the same rank in foreign ports as that now occupied by the mercantile marine of New York. Of the total exports in 1850, \$3,413,158 was the value of domestic products, and of these to the value of \$2,365,241 was shipped in American and \$1,047,917 in foreign vessels—the remainder of the aggregate value (\$2,458) was foreign produce re-shipped in American vessels. Of the imports \$172,573 was the value of merchandise landed from American and \$253,721 from foreign vessels. The shipping employed in the carrying trade consisted as follows:

Nationality of shipping.	Entered.			Cleared.			Total.		
	Vessels.	Tons.	Crews.	Vessels.	Tons.	Crews.	Vessels.	Tons.	Crews.
American	69	12,190	564	187	42,091	1,710	256	54,251	2,274
Foreign	88	18,775	828	98	23,367	956	186	42,142	1,784
Total.	157	30,965	1,392	285	65,458	2,664	442	96,423	4,058
Alexandria	59	10,638	442	64	11,534	474	123	22,172	916
Norfolk	74	14,251	634	140	26,765	1,163	214	41,046	1,847
Petersburg	9	3,517	131	5	1,946	63	14	5,463	194
Richmond	8	1,811	76	69	24,321	908	77	26,132	984
Tappahannock	7	718	42	7	892	44	14	1,610	86

The shipping owned in the several districts of the State in 1850, amounted to 74,071 tons; of this 18,043 tons was “registered” shipping—7,092 permanent, and 10,591 temporary; 52,535 tons was “enrolled and licensed”—51,511 tons permanent, and 1,021 temporary; and 3,493 tons was “licensed under 20 tons.” The tonnage of the districts was as follows—Alexandria, 8,738 tons; Norfolk, 24,135 tons; Petersburg, 2,708 tons; Richmond, 8,458 tons; Yorktown, 4,807 tons; Tappahannock, 5,824 tons; Accomac, 4,083 tons; East River, 4,869 tons; Yeocomico, 3,234 tons; Cherrystone 1,232 tons, and Wheeling, 5,934 tons. Of the enrolled and licensed tonnage, all of which is employed in the coasting and river trade, 8,726 tons are navigated by steam-power—in the Atlantic districts, 2,792 tons, and in Wheeling district, on Ohio River, 5,934 tons. Within the year specified there were built in the State—1 ship, 1 brig, 27 schooners, and 5 steamers—total, 34 vessels, of an aggregate burden of 3,554 tons. The serial statistics of the foreign commerce from 1791 to 1850, are comprised in the following table:

Year.	Exports.	Imports.	Year.	Exports.	Imports.	Year.	Exports.	Imports.
1791	\$3,130,865	\$—	1806	\$5,055,396	\$—	1821	\$3,079,209	\$1,078,490

Internal Communication, etc.—The railroads and canals of Virginia, which are among the most magnificent works of the kind in the Union, extend generally from the Atlantic ports to the West, and are continued through Ohio, Kentucky, and Tennessee, to all the chief places in the north-west, west, and south-west. Alexandria, Richmond, and Norfolk are the initial points on the Atlantic; from Alexandria diverge the Orange and Alexandria Railroad and the Manassas Gap R. R.—the one directed toward Gordonsville, where it joins the Central road, and the other crossing the first mountains, and passing down the valley to Harrisburg and Staunton, there unites with the same line; the Central Railroad, starting at Richmond, passes through Gordonsville, Staunton, etc., to Covington, and there unites with the Covington and Ohio Railroad, extending westward to Point Pleasant, on the Ohio, there uniting with the Ohio system, and to the mouth of Big Sandy River, where it joins the Kentucky lines to Maysville, Lexington, and Louisville, and through them connects with the lines stretching to the north and toward Nashville and New Orleans, and from Norfolk and Petersburg a line extends through the southern counties to the Tennessee line, whence it is continued to Knoxville, connecting at that point with numerous lines directed to every important central station in the south-west, etc. These railroads furnish to the State ample means of transportation, and will carry to and from the seaboard an immense commercial material. They will also be the means of reviving the general commerce of the State, and of furnishing an outlet at Virginian ports for much of the produce of Ohio, Kentucky, and Tennessee, which now finds its way to more northern markets. In the north-west several lines are being built to connect the systems of Pennsylvania and Maryland with those of Ohio and the West, and of these the North-western Railroad is, perhaps, the most important, as it will furnish the shortest route from Cincinnati to Baltimore. In the south-east the Seaboard and Roanoke Railroad furnishes an important route from the seaboard into North Carolina. The great southern line of railroads also passes through Virginia, having Fredericksburg, Richmond, and Petersburg in its route, and being continued south and south-west to Wilmington, Columbia, etc. This is the route of the great southern mail. There are, besides these, numerous short lines, branches, etc., diverging from the main lines to several important points. The whole extent of completed railroad in the State on the 1st January, 1853, was 624 miles, and about 500 miles more were in course of construction.

The canals of Virginia are—the James River and Kanawha Canal, the Dismal Swamp Canal, and the Alexandria Canal. The Baltimore and Ohio Canal, though in Maryland, is to all intents and purposes as much a canal of Virginia as of that State, being only separated from it by the channel of the Potomac River. The Alexandria Canal, which is a continuation of the Baltimore and Ohio Canal, from Georgetown to Alexandria, is $\frac{7}{8}$ miles long, and is carried over the Potomac on a splendid aqueduct. The James River and Kanawha Canal, second only in extent and importance to the Erie Canal of New York, is carried through the valley of James River, and is now complete to Balceny Falls, from which point it will be continued along the valley of Kanawha River to the Ohio. This great work has been of vast advantage to the interior of Virginia, and on an average transports about \$12,000,000 valuation of merchandise “Without the Erie Canal,” says Governor Floyd, “the city of New York would have been second still to Philadelphia. Great as the advantages of this work unquestionably are, those of the James River and Kanawha Canal are undoubtedly superior. It possesses the striking advantage of lying five degrees south of the great northern work, and is therefore free from the ice which obstructs the navigation there for so large a portion of the year. It touches the Ohio River far south of any water communication from the Atlantic whatever, and at a point south of which there can be across the country no other water connection. It will command all the trade of a great part of Ohio, Kentucky, Indiana, Illinois, and Missouri, and most probably those regions lying still higher up toward the sources of the Missouri after that period it is unsafe to send produce north. We will see,” says the governor, “canal boats laden at the Falls of St. Anthony or Council Bluff discharging their cargoes at Lynchburg, Richmond, and Norfolk,” etc. This work is now rapidly progressing to completion. The Dismal Swamp Canal connects Chesapeake Bay with Albemarle Sound, extending from Deep Creek to Joyce’s Creek, 23 miles. At present it is chiefly valuable as an avenue for the transportation of the lumber, naval stores, etc., of the region through which it passes. With such works as the above, who can not but foresee that Virginia will, at no distant day, be one of the most successful commercial States of the Union, and its ports, so long forsaken, the marts of a trade not surpassed by that of the present great emporia of the country.

Banks.—In October, 1850, Virginia had 6 banks and 31 branch banks. The condition of these establishments, at that date, was as follows: *liabilities*—capital, \$9,514,545; circulation, \$10,256,967; deposits, \$4,717,732; due other banks, \$838,841; and *assets*—loans and discounts, \$19,646,777; stocks, \$269,914; real estate, \$764,282; other investments, \$210,493; due by other banks, \$1,925,652; notes of other banks, \$552,153; and specie, \$2,928,174. Since the date of these returns several banks have been established in accordance with the new banking law, depositing security for the redemption of their notes. The returns above given are those of the old chartered banks, which enjoy a high credit at home and abroad. These are—the Bank of the Valley, at Winchester, with branches at Charlestown, Leesburg, Romney, Staunton, and Christianburg; the Bank of Virginia, at Richmond, with branches at Buchanan, Charlestown, Danville, Fredericksburg, Lynchburg, Norfolk, Petersburg, and Portsmouth; the Exchange Bank of Virginia, at Norfolk, with branches at Abington, Alexandria, Clarksville, Petersburg, Richmond, Salem, and Weston; the Farmers’ Bank of Virginia, at Richmond, with branches at Alexandria, Charlottesville, Danville, Farmville, Fredericksburg, Lynchburg, Norfolk, Petersburg, Winchester, and Wythesville; the Merchants’ and Mechanics’ Bank, at Wheeling, with branch at Morgantown; and the North-western Bank of Virginia, at Wheeling, with branches at Jeffersonville, Parkersburg, and Wellsburg.

Government, etc.—The present constitution of Virginia was adopted in convention on the 1st of August and ratified by the people on the 25th of October, 1851. It superseded the constitution of 1776 and the amendments of 1831.

The *right to vote* is given to every white male citizen 21 years old, resident of the State two years, and of the county, city, or town one year next preceding an election. The exceptions are those common to other States. Votes are given *etââ voce*, and not by ballot; but dumb persons may so vote. The general election is held on the fourth Thursday of October biennially.

The *Legislature* is styled the General Assembly, and consists of a House of Delegates and a Senate. The house con-

VIRGINIA.

sists of 152 members, chosen biennially, apportioned on the basis of the white population. The Senate is based on population and taxation combined, and consists of 50 members, elected in districts by the voters therein for the term of four years, one-half the number being chosen biennially. Delegates must have attained the age of 21 and senators that of 25 years, and none but qualified voters are eligible for election. Persons holding lucrative offices, ministers of the Gospel, salaried officers of banks, and attorneys of the Commonwealth are ineligible. Any elective officer removing from his district vacates his office. In 1865, and decennially thereafter, there shall be a re-apportionment. The sessions of the Legislature commence on the second Monday of January biennially, and continue not more than 90 days, unless a prolongation be concurred in by three-fifths of all the members, nor in any case shall a session be extended beyond the ordinary term for more than 30 days. Bills may originate or be amended in either house.

The executive power is vested in a Governor, elected by the people for four years, commencing from the 1st January succeeding election. The governor is ineligible for any other office during his term, and can be elected for two successive terms. He must be 30 years of age, a native citizen of the United States, and for 5 years a citizen of the State. He must reside at the seat of government. A Lieutenant-governor, with like qualifications, etc., is elected for a like term, and is the constitutional successor of the governor in case of death or disability; he is also *ex-officio* president of the Senate.

The principal administrative officers are—a Secretary of the Commonwealth, a Treasurer, and an Auditor of Public Accounts. These are elected by joint vote of the General Assembly for two years. For the purpose of electing the Board of Public Works, the State is divided into three districts, each of which shall elect one commissioner. Their term is six years, and they are so classified that one of their number shall retire every two years. The General Assembly by a three-fifths vote may abolish the board.

The judiciary is vested in a Supreme Court of Appeals, District Courts, and Circuit Courts. In each circuit (21 in number), a judge is elected by the voters for the term of eight years, and who holds two circuit courts in the counties of his circuit annually. In each district (10 in number), a district court is held by the judges of the circuits constituting the District, and the Judge of the Supreme Court for the Section, any three of whom may hold a court. Judges of the Supreme Court of Appeals are also elected by the voters for 12 years, each section (5 in number), electing 1 Judge. The 5 judges so elected constitute the Supreme Court, any three of whom may hold a circuit. It has jurisdiction only where the matter in controversy is not less in value than \$500, except in certain specified cases. Special Courts of Appeal may be organized. Circuit Judges must not be less than 30, nor Supreme Court Judges less than 35 years of age, and no election for judges shall be held within 30 days of the time of holding the election for President, for Congressmen, or for members of the State Legislature. Officers of the Supreme and District Courts are appointed by the Judges thereof; but Clerks of Circuits are elected by the voters for six years. When a Governor is elected, an Attorney-general is also elected for the term of four years.

County Courts are held monthly by not less than three, nor more than five Justices. Each county is divided into districts, and each district elects 4 Justices for the term of 4 years. The Justices so elected choose one of their own body to attend each term of the Court, and classify the rest for the performance of their duties. The voters of each county elect also a Clerk of the County Court, and a Surveyor, for 6 years, an Attorney of the Commonwealth for 4 years, and a Sheriff, and Commissioner of the Revenue, for 2 years. Constables and overseers of the poor are elected by the voters.

Among the *miscellaneous provisions* of the constitution are the following: the writ of *habeas corpus* shall not be suspended, nor shall any bill of attainder be passed, nor any *ex-post-facto* law, nor any law impairing the obligation of contracts, or taking private property without just compensation, or abridging the freedom of speech, or of the press, or establishing any religion, or prescribing any religious test, or conferring any privileges or advantages on any one sect or denomination; no law shall embrace more than one object, and when amended, shall be re-enacted at length; provision may be made, rendering ineligible for office those who fight or are engaged in a duel; the Senate shall try impeachments made by the House, and may sit for this purpose during recess; slaves hereafter emancipated shall forfeit their freedom by remaining in the Commonwealth more than 12 months; restrictions may be imposed upon emancipation, but the General Assembly shall not emancipate; it may relieve the State from the free negroes by removal or otherwise; yeas and nays shall be taken on all tax and appropriation bills; no incorporated company shall be released from its liability to the State, nor shall the faith of the State be pledged for the debts of any company; seven per cent. of the State debt existing, 1st January, 1852, shall be annually set apart as a sinking fund to redeem said debt; no loans shall be contracted for a longer period than 34 years; whenever a debt is contracted, there shall be set apart annually for 34 years, a sum exceeding by one per cent. the aggregate amount of the annual interest agreed to be paid thereon at the time of its contraction, which sum shall be a part of the sinking fund; stocks held by the Commonwealth may be sold, but the proceeds must be applied to the payment of the public debt; no charter shall be granted to any church, but title to church property may be granted to a limited extent; no lottery shall be authorized, and the buying and selling of tickets shall be prohibited; no new county shall be formed with an area less than 600 square miles; powers shall be conferred on the Courts exclusively to grant divorces, to change the names of persons, and direct the sale of infants' estates; there shall be a periodical registration of voters, and of births, marriages, and deaths, annually; a census shall be taken every five years after the national census.

Federal Representation.—In accordance with the act of 23d May, 1853, Virginia elects thirteen representatives to the Congress of the United States.

The militia force of the State, in 1851, consisted of 125,128 men of all arms, of which number 6,494 were commissioned officers, and 118,634 non-commissioned officers, musicians, artificers, and privates. Of the commissioned officers 32 were general officers, 66 general staff-officers, 1,423 field-officers, etc., and 4,973 company officers. All white persons between the ages of 18 and 45 are subject to military duty.

The principal benevolent institutions of the State are the Lunatic Asylum, at Staunton, and the Institution for the Deaf and Dumb and the Blind, at the same place. These institutions are liberally supported by annual legislative appropriations.

Public Finances, etc.—The aggregate debt of Virginia, on the 1st April, 1851, was as follows: Revolutionary War debt (6 p. c.), \$24,039 17; war debt of 1812 (7 p. c.), \$319,000; internal improvement debt (6 p. c.), \$9,364,916 04; internal improvement debt (5 p. c.), \$1,065,600; internal improvement debt (5½ p. c.), \$25,300; debt for subscription to banks, \$450,107—total debt, \$11,248,962 21; but of this there was held by State agents, under the control of the Legislature—by Literary Fund \$1,125,606 50, and by Board of Public Works \$375,912 41, or in all \$1,501,518 91, leaving an actual outstanding debt of \$9,747,443 30. The State is also liable conditionally for guaranteed bonds for internal improvements \$3,947,594. The State holds assets, consisting of stocks and debts due—productive of \$7,060,565 48, and—not now pro-

VIRGINIA.

ductive, \$6,052,266 53; total \$13,112,832 11. The valuation of property, real and personal, assessed for taxation, in 1850, amounted to \$851,876,660. The valuation of the same, according to the U. S. census of that year, was \$430,701,082. The valuation for taxes in May, 1852, amounted to \$415,542,189 70, being an increase of over \$34,000,000 in two years, and it was estimated that there was other property not taxed to the value of \$50,000,000.

The chief sources of *income* for the year were as follows: ordinary revenue and taxation, \$676,256 09; dividends on bank stock, \$236,542 94; bonus on bank dividends, \$46,093 36; internal improvements, \$64,029; interest on loans to internal improvement companies, \$90,771 61; militia fines \$13,509 76; annuity from Old James River Company, \$21,000; loans obtained to pay subscriptions to joint-stock companies, etc., \$1,238,395 19; temporary loans, \$100,000; Washington Monument Fund, \$22,115 69; and sales of articles made at the Penitentiary \$11,000. The *expenditures* were as follow: expenses of General Assembly, \$103,867 25; officers of government, \$93,647 45; criminal charges, \$39,554 82; contingent expenses of Courts, \$32,931 65; militia, \$19,344 55; Virginia Military Institute, \$20,710; public guard at Richmond, \$21,340 18; comm. of revenue, \$32,106 90; lunatics and lunatic asylums, \$100,390 71; deaf and dumb, and blind asylums, \$18,901 29; interest on public debt, \$559,634 47; contingent fund, \$16,672 40; public roads, \$5,601 50; general appropriations, \$27,162 02; revision of laws, \$23,801; penitentiary, \$27,502 84; redemption of public debt, \$239,500; advance to Board of Public Works, \$197,000; Washington monument, \$29,860 25; dividends to stockholders of Old James River Company, \$20,895; surveys, \$3,500; subscriptions to internal improvement companies out of loans received, \$1,185,527 25; primary schools, \$45,674 08; and annuity to University of Virginia, \$150,000.

Educational Statistics.—The number of schools reported in 126 counties and towns, for the year 1850-51, was 3,904, and the number of poor children 72,876, of which 31,655 had attended schools during the year. Amount expended for tuition, including books, compensation of officers, and all other expenses \$65,135 93. Average actual attendance of each child at common schools, 52½ days. Average cost per annum of each scholar, \$2 15. The permanent capital of the Literary Fund amounted, on the 1st October, 1850, to \$1,533,710 82; and the revenue derived therefrom, for the year, amounted to \$97,883 66. Academies, seminaries, and private schools, are numerous in all the cities and towns, and many of these are institutions of favorable reputation. The statistics of the collegiate establishments and professional schools, in 1851, are as follow:

Collegiate Institutions.	Location.	Founded.	Professors.	Alumni.	Students.	Vols. in libr.
William and Mary Coll. (Episc.)	Williamsburg	1692	7	—	36	5,000

William and Mary College is, with the exception of Harvard University, the oldest literary institution in the country, and is distinguished for its large proportion of graduates who have risen to eminence, some of whom have held the highest stations in the nation. Thomas Jefferson was a graduate of this college. It was founded on a donation of land, 20,000 acres, granted in the reign of William and Mary. The buildings are of brick, and sufficient to accommodate 100 students. It was formerly allowed a representative in the General Assembly. Hampden-Sidney College was established in 1774, and named after those martyrs, who perished in the good old cause—John Hampden, and Algernon Sidney. It was chartered in 1783. More instructors have emanated from this college than from any other Southern institution. Connected with the college is a Literary and Philosophic Society, and an Institute of Education. There are also several societies among the students. The university owes its origin and peculiar organization to Mr. Jefferson. It possesses philosophical and chemical apparatus, together with a fine cabinet of minerals and fossils, and an anatomical and miscellaneous museum. The observatory, a short distance from the university, is furnished with the requisite astronomical instruments. The organization of the university differs materially from that of any other institution in the Union. The students are not divided into four classes, with a course of studies embracing four years, but the different branches are styled "schools," and the student is at liberty to attend which he pleases, and graduate in each when prepared. In order to attain the degree of M. A., the student must graduate in the several schools of mathematics, ancient languages, moral philosophy, natural philosophy, chemistry, and in some two of the modern languages. This institution is in every respect organized, and justly regarded as a university of the first class. The Virginia Military Institute is conducted on the plan of instruction observed at West Point, and is a highly valued institution, and has been liberally encouraged by State appropriations.

Public Libraries.—The Report of the Librarian of the Smithsonian Institution made in 1851, states the public libraries of Virginia as follows: one State library—14,000 volumes; 4 social—3,313 volumes; 9 college—45,790 volumes; 8 students—10,466 volumes; 5 academic and professional—12,951 volumes; 1 scientific and historical—1,200 volumes; 2 public—1,460 volumes. Total—30 libraries, and 89,180 volumes.

Periodical Press.—Virginia, on the 1st June, 1850, had 100 periodical issues—in politics 81 were whig, 22 democrat, and 47 neutral, the latter including those devoted to literature, science, religion, and all the character of which had not been ascertained. Of the whole number 20 were published daily, 6 tri-weekly, 7 semi-weekly, 60 weekly, 4 monthly, and 1 quarterly; and the circulation of the dailies was 32,750 copies at each issue; of the tri-weeklies, 700 copies; of the semi-

VIRGINIA.

weeklies, 6,500 copies; of the weeklies, 41,936 copies; of the monthlies, 13,150 copies; and of the quarterly, 1,000 copies. There were published in Augusta County (Staunton), 3 weekly; Albemarle (3 in Charlottesville, 3 w. and 1 m.; in Alexandria, 1 d., 1 l.-w., and 1 w.; in Botetourt, Berkeley, and Brooke, each 2 w.; in Campbell (Lynchburg), 3 s.-w.; in Dinwiddie (Petersburg), 2 d. and 1 l.-w.; in Fauquier, 2 w.; in Fairfax, 1 w.; in Frederick (Winchester), 2 w.; in Greenbrier, 1 w.; in Harrison, 2 w.; in Hardy, 1 w.; in Hampshire, 2 w.; in Henrico (Richmond), 6 d., 1 s.-w., 2 w., 5 m., and 1 quarterly; in Jefferson, 3 w.; in Kanawha, 1 w.; in Loudon, 2 w.; in Lewis, Marshall, and Monroe, each 1 w.; in Monongalia, 3 w.; in Marion and Nansemond, each 1 w.; in Norfolk (Portsmouth, 6, and Norfolk 7), 7 d., 4 l.-w., and 2 w.; in Ohio (Wheeling), 3 d. and 2 w.; in Preston, Prince Edward, and Pittsylvania, each 1 w.; in Rockbridge, Rockingham, and Shenandoah, each 2 w.; in Spotsylvania (Fredericksburg), 1 d., 2 s.-w., and 3 w.; in Tazewell, 1 w.; in Washington, 2 w.; and in Wood and Wythe, each 1 weekly.

Religious Denominations.—The statistics of the several religious denominations in the State in 1850 were as follows:

Denomina- tions.	No. of Churches.	Church accom.	Value of Property	Denomina- tions.	No. of Churches.	Church accom.	Value of Property.	Denomina- tions.	No. of Churches.	Church accom.	Value of Property.

—making a total of 2,336 churches, with accommodation for 834,691 persons, and valued at \$2,549,176.

Virginia forms a diocese of the Protestant Episcopal Church, and comprises the Roman Catholic Dioceses of Richmond and Wheeling, and also a portion of the Archdiocese of Baltimore, the last being that portion of the District of Columbia retroceded in 1846.

Pauperism.—The whole number of paupers relieved and supported within the year ending 1st June, 1850, was 5,118, of whom 4,933 were native born and 185 foreigners; and the whole number of paupers at the date specified was 4,438, of whom 4,356 were natives and 102 foreigners. Cost of support, etc., during the year \$151,722.

Historical Sketch.—The name of Virginia, though now belonging only to the present State of that name, was originally given to the whole extent of country afterward divided into the thirteen colonies. It was bestowed upon the country, which he attempted to colonize, by Sir Walter Raleigh, in honor of Elizabeth, England's *virgin* queen. The settlement within the limits of the present State were not, however, effected until April, 1607, and this was the first permanent settlement by the English in America. Previous to this many ineffectual efforts had been made to plant colonies on the Atlantic coast. At length the matter was undertaken by a company, to which a patent was granted by James I., and which was called the London Company, to distinguish it from the Plymouth Company, which subsequently settled New England. Three ships, with 115 persons, sailed from London in December, 1606, and after a tedious and circuitous passage entered the Bay of Chesapeake in April, 1607. On a peninsula a little distance up James River, a settlement called Jamestown was begun. The colonists soon experienced the difficulties of their new position, and to the great exertions of Captain John Smith, distinguished among the adventurers of the age, the colony was indebted to its preservation. An incident which occurred at this period has lent to his history the attractions of romance. While on a foraging expedition he was taken prisoner by the Indians, who determined to put him to death; his head was placed on a stone, and the savages were about to dispatch him with clubs, when Pocahontas, the daughter of the principal chief, Powhatan, after in vain imploring mercy for him, rushed forward, and resting her head upon that of the captive, appeared determined to share his fate. Powhatan relented, and soon afterward permitted Smith to return home. Two years after, when the Indians had plotted the destruction of the colony, Pocahontas, faithful to the attachment she had formed, disclosed the plot to the English, and the Indians finding them on their guard, abandoned the project. Such was the distress of the colonists in 1610, that the survivors had actually embarked to return to England, when Lord Delaware, who had been appointed governor, arrived with supplies and 150 men, and persuaded the colonists to remain. Under this governor and his successor the settlement prospered; useful industry succeeded to their previous habits, and, aided by a fertile soil, they were enabled to raise large stocks of provisions. In 1619 the first legislature was convened, and about this period 1,200 additional emigrants arrived, among whom were 150 young women, who were sold to the planters for wives. Negro slaves were first brought into the country at this time. In 1622 the Indians surprised the settlements and massacred some 347 of the colonists; and the whole colony would have shared the same fate, but that timely information had been given the inhabitants of Jamestown of the conspiracy. To this famine succeeded, which was, however, alleviated by the arrival of provisions from England. A reinforcement arriving at the same time, war was levied against the Indians, and in a short time most of the neighboring tribes were subdued or slain. Two years afterward the company was dissolved and the charter resumed by the king. All power was vested in commissioners, and under their rule the colony suffered grievously. Sir John Harvey, the royal governor appointed in 1629, was seized by the people and sent home a prisoner. He was succeeded by Sir William Berkeley, who called an assembly of burgesses, and governed the province with mildness and prudence.

On the revolution in England, the Virginians adhered to the cause of the monarch, and even after the death of Charles I. refused to acknowledge the commonwealth. Submission was forced by sending against them an armament; but the sentiments of the colonists were again declared, for even before the restoration in England the authority of Charles II. had been acknowledged in Virginia. In 1661, an assembly was called by the governor, and in the succeeding year the Church of England was established by law. Notwithstanding this remarkable loyalty of the Virginians, they were made to suffer grievously from the arbitrary and monopolizing system of the home government. The navigation act, and other measures of a similar nature adopted to this time, weighed heavily on the people, and in addition to these grievances, the king, regardless of the rights of the landed proprietors, granted to his courtiers large tracts of land, to which the settlers were legally entitled. From these causes arose an insurrection, memorable in the history of Virginia, and known as Bacon's Rebellion. Colonel Bacon, an eloquent and ambitious man, put himself at the head of the people, who had assembled with the ostensible object of a foray against the Indians. The governor, by advice of the legislature, issued a proclamation of rebellion against them, and so exasperated the leaders of the expedition as to direct its object from hostilities against the Indians to war against the government. They marched to Jamestown, and after dispersing

the assembly, Bacon called a convention, and assumed the reins of government. Civil war with all its horrors now ensued. Jamestown was burnt, and the colony given up to pillage. After several months' bloodshed and confusion, Bacon died suddenly, and for want of a leader his party dispersed. It was long, however, before prosperity revived in the colony. Soon after these events, Berkeley returned to England, and was succeeded by Lord Culpepper, who brought with him several bills drawn up by the ministry of England, to which he required the assent of the legislature, on pain of being treated as rebels. The object of these acts was the increase of his emoluments. During the reigns of Charles I. and James the colony suffered much, and rejoiced greatly in the change of government that drove the Stuarts from the throne. The Revolution, indeed, brought to Virginia internal tranquillity, and a long succession of prosperous years. Nothing occurred to interrupt its growth in wealth and power. In 1732, she gave birth to the most illustrious of her sons, the great statesman and warrior, who was destined afterward to achieve and consolidate the independence of all the colonies. During the war between France and England, prior to 1754, her local situation exempted her from hostilities. From 1754 to 1758, when the French began to put in operation their scheme to unite Canada and Louisiana, the frontiers of Virginia were harassed by incursions of French and Indian parties; to repel which a regiment was raised, in which Washington first distinguished himself. On the conclusion of peace, when the British attempted to raise a revenue within the colonies, the statesmen of Virginia were among the first to raise the voice of opposition. The eloquence and talents of her orators contributed greatly to excite public feeling on this occasion. The services and sufferings of Virginia in the war of the Revolution were at least as great as those of any other State, and in Virginia the last important measure of the war took place, in the surrender of Cornwallis. Since the peace of 1783, Virginia has retained an elevated rank in the family of States. Fruitful of illustrious men, that State has given seven presidents to the Union. During the war of 1812, her citizens displayed great patriotism in opposing the common enemy, and her maritime frontier suffered severely from predatory incursions. Within the last few years the progress of the State in population and material greatness has been wonderfully rapid; and her territory beyond the mountains—a wilderness to the last generation, has become equal to the old settlements in all that constitutes national wealth. In 1850 the constitution of the State was adjusted to its present condition and circumstances.

RICHMOND, on the bank of James River, 130 miles above its entrance into Chesapeake Bay, is the political capital of the State.

VIRGINIA, p. v., Cass co., *Ill.*: 32 m. W. by N. Springfield. This v. was formerly the capital of the county, now removed to Beardstown, but continues to be a thriving place. Pop. about 800.

VIRGINIA GROVE, p. o., Louisa co., *Ia.*: 33 m. S. S. E. Iowa City.

VIRGINIA MILLS, p. o., Buckingham co., *Virg.*: about 2 m. S. James r., 51 m. W. by N. Richmond.

VIRGINIA MINES, p. o., Franklin co., *Mo.*: on W. side of Maramec r., 70 m. E. by S. Jefferson City.

VIRGINSVILLE, p. v., Berks county, *Penn.*: 59 m. E. Harrisburg.

VISCHER'S FERRY, p. o., Saratoga co., *N. Y.*: 15 m. N. by W. Albany.

VISTA, p. o., Westchester co., *N. Y.*: 90 m. S. by E. Albany.

VLAIE marsh, Fulton co., *N. Y.*: in the E. part of the county, is annually overflowed by the surplus waters of the Sacandaga r. and other streams. This is a place of much resort by sportsmen, on account of the abundance of game, for which it is famous.

VOGANSVILLE, p. o., Lancaster co., *Penn.*: 40 m. E. S. E. Harrisburg.

VOLCANO, p. o., Calaveras co., *Calif.*: at head-waters of Jackson cr., in extreme E. part of the co., 78 m. W. Vallejo. The gold-mines of the vicinity are among the richest in the State, and quartz-mining here, more than elsewhere, has been successfully engaged in.

VOLINIA, t. and p. o., Cass co., *Mich.*: 85 m. S. W. Lansing. The inhabitants are generally engaged in farming. Pop. in 1840, 411; in 1850, 607.

VOLNEY, p. o., Logan co., *Ky.*: 144 m. S. W. Frankfort.

VOLNEY, t. and p. o., Oswego co., *N. Y.*: on E. side of Oswego r., 144 m. W. N. W. Albany. Surface undulating; soil sandy loam. Drained by Big Black cr. The t. contains several saw-mills, and has some manufactures. Pop. of t. with Fulton, 5,310.

VOLENTOWN, t. and p. v., Windham county, *Conn.*: 46 m. E. S. E. Hartford. Surface uneven. Drained W. by Pachaug r. The t. contains 2 cotton factories, a few stores, and 2 churches. Pop. 1,064.

VOLUSIA, p. o., Chautauque co., *N. Y.*: 307 m. W. by S. Albany.

VOLUSIA, p. v., Orange co., *Flor.*: on E. side of St. John's river, between lakes George and Dexter, 190 m. E. S. E. Tallahassee. It was formerly occupied as a military post.

VERDE L'EAU, p. o., Bristol co., *Mass.*

W.

WABASH county, *Ill.* Situate E. toward the S., and contains 193 sq. m. Drained by Jordan, Coffee, and Crawfish creeks. Surface undulating; a large portion is prairie. Soil fertile, and produces fine crops of wheat and grain. It fattens large numbers of cattle and hogs, which are annually exported. Pine timber abundant. The Wabash r. bounds the co. on the S. and E. Farms 533; manuf. 9; dwell. 803, and pop.—wh. 4,640, fr. col. 50—total 4,690. *Capital*: Mount Carmel.

WABASH county, *Ind.* Situate N. middle, and contains 420 sq. m. Wabash and Eel rivers, with their tributaries, drain this county. Nowhere hilly, the greatest portion is rolling or undulating, but there are also extensive level tracts and bottoms. Timber abundant, and the soil is everywhere rich and productive. Corn and hogs are the great staples. Farms 1,065; manuf. 57; dwell. 2,079, and pop.—wh. 12,124, fr. col. 14—total 12,138. *Capital*: Wabash. *Public Works*: the Wabash and Erie Canal; and the R. R. between Fort Wayne and Lafayette.

WABASH, p. v., and cap. Wabash county, *Ind.*: 72 m. N. by E. Indianapolis. It is very pleasantly situated on the N. bank of Wabash r., and is built partly on the first, and partly on the second bottom, elevated about 40 feet above the first. It contains the court-house, jail, etc., and several churches. The "Wabash Gazette" (whig) is here published. The Wabash and Erie Canal passes through, 155 m. from Toledo, 312 m. from Evansville, and creates a large business. First settled in 1835. Pop. about 1,100.

WABASH river, *Ind.*: is formed by two creeks rising in Mercer and Darke counties, Ohio, and flows in a N. W. course into Indiana. In Huntington co. it receives Little river, and flows W. until it passes Logansport; thence in a S. W. course until it reaches Covington; thence nearly S. until it reaches Terre Haute; after which it forms the boundary line between Indiana and Illinois, to its entrance into the Ohio r. It is navigable to Lafayette for steamboats, and connects the Ohio r. with Lake Erie by means of the Wabash and Erie Canal. Its entire length is about 600 m., of which more than 450 m. have been navigated by steamboats in high water.

WABASHAW county, *Minn. Ter.* Occupies all that vast territory extending from the Mississippi to the Missouri, and between the N. boundary of Iowa and the parallel of 44° 40' N. lat. Drained in the E. by Minnesota and its tributa-

ries, and in the W. by Tchan-sausan, or Elviere à Jaques, Sioux r., and other large affluents of the Missouri. The surface is elevated, chiefly level, interspersed with numerous lakes, and very fertile. Farms 8; manuf. 0; dwell. 55, and pop.—wh. 242, fr. col. 1—total 243. *Capital*: —

WABSHINECON river, *Ind.* (See WABSPINICON.)

WACAHOOIE, p. o., Marion co., *Ind.*

WACAMAW river, *N. Car.* and *S. Car.*: rises in Wacama lake (*N. Car.*), flows W. S. W., and nearly parallel with the coast, to its entrance into Winyaw bay. It is about 100 m. long, and navigable for steamboats to Conwayboro', about 40 m. from its mouth.

WACHITA river, *Ark.* and *La.*: the principal N. tributary of Red r., rises in Polk co. (*Ark.*), and flows E., S. E., and S., receiving numerous branches. It has a large volume of water, and, upon the removal of small obstructions, will be easily navigable for small steamboats.

WACHUSETT mountain, Worcester co., *Mass.*: is an isolated peak in the N. part of Princeton t., 42 m. W. by N. Boston. Its summit is elevated 2,021 feet above Massachusetts bay, and affords a most extensive and delightful prospect.

WACUSTA, p. v., Clinton co., *Mich.*: on N. bank of Looking-glass r., 9 m. N. W. Lansing.

WACO VILLAGE, p. o., Milan county, *Tex.*: on W. side of the Rio Brazos, 99 m. N. N. E. Austin City.

WADDAM'S GROVE, t. and p. o., Stephenson county, *Ill.*: 174 m. N. Springfield. Pop. about 450.

WADDINGTON, p. v., St. Lawrence co., *N. Y.*: on S. E. side of St. Lawrence r., 168 m. N. N. W. Albany. Incorporated in 1839. It contains various mills and manufacturing establishments, and is connected by a bridge with Ogdens' island, lying opposite. Pop. about 650.

WADEBORO', p. o., Livingston par., *La.*

WADE'S, p. o., Bedford county, *Virg.*: 105 m. W. by S. Richmond.

WADESBORO', p. v., and cap. Callaway co., *Ky.*: about 2 m. W. Clark's r., 236 m. S. W. by W. Frankfort. It contains the county buildings. Pop. about 200.

WADESBORO', p. v., and cap. Anson co., *N. Car.*: 86 m. S. W. by W. Raleigh. It contains a court-house, jail, stores, etc., and 1 bank, capital \$200,000. The "North Carolina Argus" (whig) is issued weekly, and the "Cadet of Temperance" semi-monthly. Pop. about 650.

WADESTOWN, p. o., Monongalia co., *Virg.*: 203 m. N. W. Richmond.

WADESVILLE, p. v. and sta., Clark co., *Virg.*: on Winchester and Potomac R. R., 23 m. from Harper's Ferry, 9 m. from Winchester, 109 m. N. by W. Richmond.

WADHAM'S MILLS, p. o., Essex co., *N. Y.*: 102 m. N. Albany.

WADING RIVER, p. v., Suffolk co., *N. Y.*: on small inlet of same name, 131 m. S. S. E. Albany.

WADSWORTH, t. and p. v., Medina co., *Ohio*: 94 m. N. E. Columbus. Drained by N. branch of Chippewa r. Interests of t. are chiefly agricultural, but has some manufactures, with several mills. Pop. of t. 1,622.

WADSWORTH'S, sta., Norfolk county, *Mass.*: on Norfolk County R. R., 30 m. from Boston.

WAGGONER'S RIPPLE, p. o., Adams county, *Ohio*: 75 m. S. by W. Columbus.

WAGSTOWN, p. v., Chester co., *Penn.*: 60 m. E. S. E. Harrisburg. Here is located a charcoal forge, which in 1849 made 300 tons of blooms, and a rolling mill, with annual capacity of 400 tons.

WAGRAM, p. o., Accomac county, *Virg.*: 97 m. E. by N. Richmond.

WAIKOU county, *Ind.* Situate W., and contains 770 sq. m. Drained by Little Sioux r. and branches. Surface in general undulating; soil fertile, and adapted to wheat and grain. Set off since 1850.

WAHNAITA county, *Minn. Ter.* Extends from the Mississippi to the Missouri, and between 45° 25' and 46° 20' N.

lat., and is drained centrally by the Minnesota and à Jaques rivers, and E. and W. by rivers flowing to the border rivers. Surface elevated, and generally level, interspersed with thousands of lakes, and covered in many parts with valuable timber. The Minnesota and Red rivers of the north have their rise in two adjoining lakes, separated only by a short portage. Farms —; manuf. —; dwell. 26, and pop. —wh. 160, fr. 0—total 160. *Capital*: —

WAHOLOCK, p. o., Kemper co., *Miss.*: 110 m. E. N. E. Jackson.

WAHSATCH mountains, *Utah Ter.*: extends across the territory in S. S. W. direction from the Green river range of the Rocky Mountains, to the Sierra Nevada range of California.

WAITE, p. o., Washington county, *Me.*: 126 m. E. N. E. Augusta. Pop. of Waite Plantation, 81.

WAITEFIELD, t. and p. v., Washington co., *Verm.*: 11 m. S. W. Montpelier. Drained by Mud r. and branches, which furnish water-power to grist and saw mills, etc. The inhabitants are chiefly engaged in farming. Pop. of t. 1,021.

WAIR'S river, *Verm.*: flows through N. E. part of Orange co. into the Connecticut, and with its branches, affords great water-power.

WAIT'S CORNERS, sta., Washington co., *N. Y.*: on Rutland and Washington R. R., 25 m. from Troy, 59 m. from Rutland.

WAKASASSA, p. o., Levy co., *Flor.*: on Wakasassa river, 114 m. S. E. by E. Tallahassee.

WAKASASSA bay, *Flor.*: bounds Levy co. on the S. W.; it receives several rivers, and contains a number of islands.

WAKATOMICA, p. o., Coshocton co., *Ohio*: 49 m. E. N. E. Columbus.

WAKE county, *N. Car.* Situate centrally, and contains 1,018 sq. m. Drained by Nense r. and its branches. Surface even; soil various, but in general very fertile. Chief productions, cotton, tobacco, wheat, and grain. Farms 1,410; manuf. 56; dwell. 2,844, and pop.—wh. 14,177, fr. col. 1,301, sl. 9,409—total 24,857. *Capital*: Raleigh. *Public Works*: North Carolina Central R. R.; Gaston and Raleigh R. R.

WAKEFIELD, p. v., Carroll county, *Md.*: 60 m. N. N. W. Annapolis.

WAKEFIELD, t. and p. v., Carroll co., *N. Hamp.*: 32 m. N. E. Concord. This is a pleasant t., with good soil, and possessing water-power. It contains 3 large ponds, of which Lovewell's Pond, in the S. part, is celebrated as the scene of a battle with the Indians in 1725. Pop. of t. 1,405.

WAKEFIELD, p. v., Wake co., *N. Car.*: 18 m. E. N. E. Raleigh.

WAKEFIELD, p. v., Washington co., *R. I.*: 11 m. W. S. W. Newport. It contains a church, a factory of satinet and jeans, and one bank, capital \$100,000.

WAKE FOREST, v., Wake co., *N. Car.*: on Gaston and Raleigh R. R., 17 m. N. Raleigh. Here is located Wake Forest College, a Baptist institution, founded in 1838, which in 1850 had 3 professors and 24 students, with 4,700 vols. in library.

WAKEMAN, t., p. o., and sta., Huron co., *Ohio*: 89 m. N. N. E. Columbus. The Toledo, Norwalk, and Cleveland R. R. passes through, 69 m. from Toledo, 43 m. from Cleveland. The t. has fertile soil, and is drained N. by Vermilion r., flowing through it centrally. It contains flouring, saw, and grist mills; also woolen factories. Pop. 704.

WAKULLA county, *Flor.* Situate N., and contains 492 sq. m. Drained by branches of Ockatoekany r. Surface level; soil fertile, and productive in a high degree. Chief products, cotton, sugar, rice, wheat, Indian corn, and fruits of all kinds. Farms 100; manuf. 5; dwell. 227, and pop.—wh. 1,164, fr. col. 1, sl. 790—total 1,955. *Capital*: Newport.

WALCOTT, p. o., Greene co., *Ark.*: 126 m. N. E. Little Rock.

WALDEN, p. v., Orange co., *N. Y.*: on E. side of Walkill

r., 80 m. S. by W. Albany. It contains several woolen factories and mills. Pop. about 440.

WALDEN, t. and p. v., Caledonia co., *Verm.*: 21 m. N. E. Montpelier. Surface elevated and rough. Drained by head branches of Lamoille river. Pop. of t. 910.

WALDEN'S CREEK, p. o., Sevier co., *Tenn.*: 180 m. E. by S. Nashville.

WALDENSVILLE, p. o., Schoharie county, *N. Y.*: 25 m. W. Albany.

WALDO county, *Me.* Situate S., and contains 931 sq. m. Drained by Marsh and St. George rivers, and tributaries of Sebasticook river. Surface undulating and diversified, with numerous lakes and streams of running water, the latter supplying fine water-power; soil fertile, and favorable to the growth of wheat and grain, and other agricultural productions. On the E., the Penobscot stretches out into a broad expanse of water, forming a noble bay, and affords, by means of the many excellent harbors on the line of coast, facilities for navigation and the fisheries, that can not at all times be commanded. It is well wooded, and has large beds of excellent limestone, great quantities of which are exported. Farms 4,415; manuf. 347; dwell. 7,631, and pop.—wh. 47,191, fr. col. 39—total 47,230. *Capital*: Belfast.

WALDO, t. and p. v., Waldo co., *Me.*: 37 m. E. by N. Augusta. Drained by small streams flowing into Belfast bay, furnishing good water-power. Pop. of t. 812.

WALDO, p. o., Delaware county, *Ohio*: on W. branch of Whetstone r., 33 m. N. by W. Columbus.

WALDO, p. o., Wright co., *Mo.*: 97 m. S. by W. Jefferson City.

WALDOBORO', t., p. v., and port of entry, Lincoln co., *Me.*: on Muscongus r. The v. has considerable ship-building and navigation. The total tonnage of Waldoboro' district on June 30th, 1850, was 96,330 tons. The registered tonnage amounted to 38,453 tons, consisting of 30,612 tons permanent, and 7,871 tons temporary. The enrolled and licensed tonnage amounted to 57,847 tons, consisting of 56,094 tons enrolled, and licensed, and permanent, of which 51,532 tons were in the coasting trade, 3,718 tons in the cod fishery, and 544 tons in the mackerel fishery, and 1,753 tons "licensed under 20 tons," of which 233 tons were in the coasting trade, and 1,470 tons in the cod fishery. The foreign commerce during the year preceding consisted of 18 clearances—2,548 tons, and 6 entrances—492 tons. Vessels built during the year 71—32 ships, 17 brigs, 22 schooners—23,632 tons. Pop. of t. in 1840, 8,661; in 1850, 4,199.

WALDRON, p. o., Scott co., *Ark.*: 96 m. W. by N. Little Rock.

WALDWIN t. and p. o., Iowa co., *Wisc.*: 80 m. S. W. by W. Madison. Pop. 423.

WALES, t. and p. v., Kennebec co., *Me.*: 18 m. S. W. Augusta. Pop. of t. 612.

WALES, p. l., Hampden co., *Mass.*: 63 m. W. S. W. Boston. Drained by a head stream of Quinnebaug r. and other small creeks. The v. contains 2 churches and 2 factories, making principally satinetts, and employing 50 operatives. Pop. of t. 711.

WALES, p. o., Ogle co., *Ill.*: 156 m. N. by E. Springfield.

WALES, t. and p. v., Erie co., *N. Y.*: 248 m. W. Albany. Surface undulating; soil fertile loam. Drained N. W. by Seneca cr. The inhabitants are generally engaged in farming, etc. Pop. of t. 2,124.

WALES, t. and p. o., St. Clair co., *Mich.*: 98 m. E. by N. Lansing. Pop. 189.

WALES CENTRE, p. o., Erie county, *N. Y.*: 250 miles W. Albany.

WALESKA, p. o., Floyd county, *Ga.*: 150 m. N. W. by W. Milledgeville.

WALLESVILLE, p. v., Oneida co., *N. Y.*: 90 m. W. N. W. Albany. It contains several paper and other mills.

WALHONDING, p. v., Coshocton co., *Ohio*: on the Walhonding Canal and river, 50 m. N. E. by E. Columbus.

WALHONDING river, *Ohio*: is formed in the N. W. part

of Holmes county, by the confluence of Muddy and Black forks, thence flows S. and E., and at Coshocton unites with the Tuscarawas r., forming Muskingum r.

WALKER county, *Ala.* Situate toward the N., and contains 1,637 sq. m. Drained by Mulberry fork of Black Warrior r. and its branches, Sipsey r. and Blackwater and Lost creeks. Surface uneven and broken, in parts hilly; soil fertile, and on the streams are some level bottom-lands adapted to cotton, the staple production. Coal is abundant. It is well timbered, and interspersed with numerous streams of clear running water. Farms 909; manuf. 11; dwell. 799, and pop.—wh. 4,857, fr. col. 1, sl. 266—total 5,124. *Capital*: Jasper.

WALKER county, *Ga.* Situate N. W., and contains 645 sq. m. Chatooga r. drains it in the S., and Chickamanga in the N., flowing into Tennessee r. Surface varied, in general it is hilly, with broad fertile valleys interspersed; soil fertile, and produces fine crops of wheat and grain. Good timber is on the land. About 12 miles N. of the C. H. is Crawfish Spring, which at its source affords sufficient water to float a small vessel, and at about 50 yards distant a large steamboat. Farms 600; manuf. 1; dwell. 1,367, and pop.—wh. 11,403, fr. col. 37, sl. 1,664—total 13,109. *Capital*: Lafayette *Public Works*: Western and Atlantic R. R.

WALKER county, *Tex.* Situate toward the S., and contains 1,042 sq. m. Drained by head branches of San Jacinto r., and affluents of Trinity r., which flows on its N. E. border. Surface hilly and broken; in the S. are some bottom lands, the soil of which is generally a black mold, and very fertile. A large portion is prairie, the soil adapted to grazing. It is well wooded, and is interspersed with streams of clear and wholesome water. Iron ore and limestone have been found, and in the E. is a valuable salt-water spring. Farms 234; manuf. 0; dwell. 473, and pop.—wh. 2,663, fr. col. 0, sl. 1,801—total 3,964. *Capital*: Huntsville.

WALKER, t. and p. v., Centre co., *Penn.*: 60 m. N. W. Harrisburg.

WALKER lake, Millard co., *Utah Terr.*: 853 m. W. Fillmore City. It lies at the base of the Sierra Nevada range, is 80 m. long, 7 m. wide, and receives Walker river.

WALKER'S, p. o., McDonough co., *Ill.*: on S. side Turkey cr., 64 m. N. W. by W. Springfield.

WALKER'S, p. o., Crittenden co., *Ky.*: 194 m. W. S. W. Frankfort.

WALKER'S STA., Strafford co., *N. Hamp.*: on Cochecho R. E., 14 m. from Dover.

WALKER'S, p. o., Colleton dist., *S. Car.*: 80 m. S. by E. Columbia.

WALKER'S CHURCH, p. o., Appomattox co., *Virg.*: 53 m. W. S. W. Richmond.

WALKER'S GROVE, p. o., Fulton co., *Ill.*: 28 m. N. N. W. Springfield.

WALKER'S MILLS, p. o., Alleghany co., *Penn.*: 168 m. W. Harrisburg.

WALKER'S NECK, p. o., Brown co., *Ill.*: 65 m. W. by N. Springfield.

WALKERSVILLE, p. v., Frederick co., *Md.*: 70 m. N. W. Annapolis.

WALKERSVILLE, p. v., Union county, *N. Car.*: 114 m. W. S. W. Raleigh.

WALKERTON, p. v., King and Queen co., *Virg.*: 80 m. N. E. Richmond.

WALKERTOWN, p. o., Forsyth co., *N. Car.*: 95 m. W. by N. Raleigh.

WALKERVILLE, p. o., Lycoming county, *Penn.*: 62 m. N. Harrisburg.

WALLABOUT bay, *N. Y.*: lies between the cities of Brooklyn and Williamsburg. It is about one m. long, and three-fifths m. wide. On its S. W. side is the U. S. Navy Yard, covering some 40 acres, with the greatest dry dock in the Union. In the vicinity is the tomb, containing the remains of 11,000 Americans, who died on board the British prison ships moored in this bay during the Revolution.

- WALLACE, p. o., Jones county, *Ga.*: 16 miles S. W. Milledgeville.
- WALLACE, p. o., Fountain co., *Ind.*: 62 m. N. W. by W. Indianapolis.
- WALLACE, p. o., Iowa county, *Wis.*: 49 miles W. by N. Madison.
- WALLACE, p. o., Chester co., *Penn.*
- WALLACE CREEK, p. o., Independence co., *Ark.*: on W. side of White r., 73 m. N. N. E. Little Rock.
- WALLACE'S, sta., Steuben co., *N. Y.*: on Buffalo, Corning, and New York R. R., 31 m. from Corning.
- WALLACE'S CROSS ROADS, p. o., Anderson county, *Tenn.*: 144 m. E. Nashville.
- WALLACEVILLE, p. o., Venango county, *Penn.*: 163 miles W. N. W. Harrisburg.
- WALLAWALLA river, *Oreg. Ter.*: rises in the Blue mountains, flows N., then W., and empties into Columbia r. near Fort Wallawalla.
- WALLDEN'S RIDGE, p. o., Marion co., *Tenn.*: 90 m. S. E. Nashville.
- WALLED LAKE, p. o., Oakland co., *Mich.*: 54 m. E. by S. Lansing.
- WALLER, p. o., Ross co., *Ohio*: 45 m. S. Columbus.
- WALLINGFORD, t., p. v., and sta., New Haven co., *Conn.*: 23 miles S. S. W. Hartford. Surface pleasantly diversified, with good soil. Drained by Quinnipiac r., which furnishes water-power. The v. at the centre is pleasantly situated and neatly built, and contains 3 churches. A little W. of the v. is the sta. on the New Haven, Hartford, and Springfield R. R., 12 m. from New Haven, 24 m. from Hartford. Pop. of t. 2,639.
- WALLINGFORD, p. o., Will county, *Ill.*: 133 miles N. E. Springfield.
- WALLINGFORD, t., p. v., and sta., Rutland county, *Verm.*: 59 m. S. S. W. Montpelier. Surface uneven and mountainous. Drained on the W. by Otter creek, and by its branch, Mill river, on the E., which rises in Hiram's Pond in the S. part, covering 350 acres. There are other ponds in the t., which are very handsome, and abound with fish. Limestone and excellent marble is abundant. The v. in the N. part, near Otter creek, is very pleasant, and surrounded by beautiful scenery. The Western Vermont R. R. passes through it, 9 m. from Rutland, 42 m. from N. Bennington, 74 m. from Troy. Pop. of t. 1,658.
- WALLING'S FERRY, p. o., Rusk county, *Tex.*: 226 m. N. E. Austin City.
- WALLKILL river, *N. Jer.* and *N. Y.*: rises in S. E. part of Sussex county, New Jersey, flows N. N. E. through Orange and Ulster counties, New York, and empties into Rondout-kill, 7 m. from the entrance of that stream into the Hudson. It furnishes great water-power.
- WALLONIA, p. v., Trigg county, *Ky.*: on small branch of Cumberland r., 180 m. S. W. by W. Frankfort.

WALPOLE, t., p. v., and sta., Norfolk co., *Mass.*: 18 m. S. W. by S. Boston. Surface uneven. Drained by Neponset r. and branches, which furnish water-power to several factories of woolen and cotton goods. The town contains several pleasant villages. The Norfolk Co. R. R. passes through Walpole v., 18 m. from Boston. Pop. of t. 1,929.

WALPOLE, t., p. v., and sta., Cheshire county, *N. Hamp.*: 41 m. W. S. W. Concord. Connecticut r. bounds it on the W. Surface beautifully diversified. The v. is very pleasantly situated in S. E. part of the t., on an elevated plain at the foot of Fall Mountain, which is 750 feet above the Connecticut r. The t. contains several woolen factories, tanneries, grist and saw mills. The Cheshire R. R. runs along the bank of the Connecticut, having stations at Walpole v. and Cold river; the former is 59 m. from Fitchburg. Pop. of t. 2,084.

WALPOLE EAST, p. o., Norfolk co., *Mass.*: 19 m. W. S. W. Boston.

WALSER'S MILL, p. o., Davidson co., *N. Car.*: 97 m. W. Raleigh.

WALTERBORO', p. v., and cap. Colleton dist., *S. Car.*: 94 m. S. by E. Columbia. It contains the county buildings, etc. Pop. about 300.

WALTHAM, t., p. v., and sta., Middlesex co., *Mass.*: 8 m. W. N. W. Boston. Surface generally level; drained by Charles river, which affords water-power to several factories. The principal v. is pleasantly situated, and is very neatly built with many elegant dwellings, surrounded by fine gardens. Many of the inhabitants transact their daily business in Boston, with which it is connected by Fitchburg R. R. It contains several handsome churches, a lyceum, and 1 bank, capital \$100,000. Prospect Hill, N. W. of the v., elevated 482 feet above the level of the sea, affords delightful prospects of the vicinity, and Boston city and harbor, etc. Pop. in 1840, 2,504; in 1850, 4,464.

WALTHOURVILLE, p. o., Liberty county, *Ga.*: 184 m. S. E. Milledgeville.

WALTON county, *Flor.* Situate W., and contains 1,157 sq. m. Drained by Yellow and Shoal rivers, with White and Alequa creeks. Surface generally level; soil varied in the N., being fertile and more productive than in the other parts of the co. Chief products cotton, sugar, and Indian corn. Choctawhaachie bay bounds it on the S. Farms 161; manuf. 0; dwell. 185, and pop.—wh. 1,037, fr. col. 6, sl. 336—total 1,379. *Capital*: Uchee Anna.

WALTON county, *Ga.* Situate N. centrally, and contains 354 sq. m. Drained by head branches of Oconee and Ocmulgee rivers. Surface undulating; soil fertile, and is a deep mold, with clay intermixed; it is well adapted to cotton, which is one of the principal productions of the county. Farms 564; manuf. 56; dwell. 1,191, and pop.—wh. 6,896, fr. col. 16, sl. 8,909—total 10,821. *Capital*: Monroe. *Public Works*: Georgia R. R.

WALTON, p. o., Boone co., *Ky.*: 53 m. N. by E. Frankfort.

WALTON, t. and p. v., Delaware co., *N. Y.*: 73 m. S. W. by W. Albany. Drained by W. branch of Delaware r. and its affluents. Surface hilly; soil best adapted to grazing. The v. on Delaware river contains several mills, 2 churches, and about 400 inhabitants. Pop. of t. 2,271.

WALTON, p. o., Kanawha co., *Virg.*: 218 m. W. N. W. Richmond.

WALTON, p. o., Newberry district, *S. Car.*: 40 m. N. W. Columbia.

WALTONHAM, p. v., St. Louis co., *Mo.*: 102 m. E. by N. Jefferson City.

WALTON'S FORD, p. o., Habersham co., *Ga.*: 105 m. N. Milledgeville.

WALWORTH county, *Wisc.* Situate S. E., and contains 576 sq. m. Drained in the W. portion by Turtle cr. and its affluents, and in the E. by Fox r. and its branches. Surface level and diversified, with numerous lakes, the principal being Geneva and Duck lakes; soil fertile, and adapted to wheat and grain. It is well timbered, and has some fine

prairie land. Farms 1,834; manuf. 81; dwell. 3,112, and pop.—wh. 17,858, fr. col. 3—total 17,861. *Capital*: Elkhorn. *Public Works*: Chicago and Wisconsin R. R.; Milwaukee and Mississippi R. R.; Racine and Janesville Plank-road, etc.

WALWORTH, t. and p. v., Wayne co., *N. Y.*: 163 m. W. by N. Albany. Surface undulating; soil fertile, gravelly loam. Drained by streams flowing into Lake Ontario. The v. contains several stores, 2 churches, and about 150 inhabitants. Pop. of t. 1,931.

WALWORTH, t. and p. o., Walworth co., *Wisc.*: 46 m. S. E. Madison. Surface diversified, with excellent land, chiefly prairie, but considerable timber, and highly cultivated. Part of Geneva lake lies on its E. border. Pop. of town in 1840, 226; in 1850, 987.

WAMPASSIC, sta., Suffolk county, *N. Y.*: on Long Island R. R., 64 m. from New York.

WAMPVILLE, p. v. and sta., Madison co., *N. Y.*: 90 m. W. by N. Albany. The Syracuse and Utica R. R. passes through, 30 m. from Utica, 23 m. from Syracuse. Pop. about 420.

WANAKI river, *Minn. Ter.*: a N. tributary of Missouri river, which it enters a little below Niobrarah r. It is about 180 m. long, and flows in direct S. E. course.

WANCONDA, p. o., Lake county, *Ill.*: 180 m. N. E. by N. Springfield.

WAPAUKONETTA, p. v., and cap. Auglaize co., *Ohio*: on S. side of Big Auglaize river, 74 m. N. W. by W. Columbus. This v. was formerly near the centre of the reservation of the Shawnee tribe of Indians, but they have all been removed West. It contains the county buildings, etc. Population 504.

WAPELLO county, *Ia.* Situate toward the S. E., and contains 432 sq. m. Drained by Des Moines river, which flows through it from N. W. to S. E., and by W. branch of Skunk river. Surface level; soil fertile, and adapted to wheat and grain; it is also favorable to the cultivation of fruits and vegetables. Farms 828; manuf. 7; dwell. 1,416, and pop.—wh. 8,466, fr. col. 5—total 8,471. *Capital*: Ottumwa. *Public Works*: Des Moines R. R. Improvements.

WAPELLO, p. v., and cap. Louisa county, *Ia.*: 1½ m. W. Iowa r., 36 miles S. E. by S. Iowa City. It occupies a very level but pleasant site on the border of the Wapello prairie. It is regularly laid out, and contains the court-house, etc. The "Louisa County Times" (indep.) is issued weekly. Pop. 937.

WAPPINGER'S FALLS, p. o., Dutchess co., *N. Y.*: 3 m. W. Hudson r., 76 m. S. Albany.

WAPSINICON river, *Ia.*: flows through N. E. part of the State, in nearly direct S. E. course for 180 m., and enters the Mississippi 5 m. N. Princeton.

WAQUOIT, p. o., Barnstable co., *Mass.*: 36 m. S. S. E. Boston.

WARBORO', p. o., Warren co., *N. Y.*: 64 m. N. Albany.

WARDENSVILLE, p. o., Hardy co., *Virg.*: 145 m. N. W. Richmond.

WARDSBORO', t. and p. v., Windham co., *Verm.*: 90 m. S. by W. Montpelier. Surface hilly. Drained by branches of West r. Pop. of t. 1,125.

WARD'S GROVE, p. o., Jo Daviess county, *Ill.*: 160 m. N. by W. Springfield.

WARE county, *Ga.* Situate S. E., and contains 1,652 sq. m. Drained by Santilla r. and its affluents, and other small streams. Surface level, and much of it is low and subject to submersion; soil fertile, and where fit for cultivation, is well adapted to cotton and grain. Okefnoke Swamp occupies the whole of the southern portion, and extends some distance into Florida; it resembles in wet seasons an inland sea or large lake, with numerous islands. St. Mary's river has its source in this swamp. Farms 339; manuf. 0; dwell. 561, and pop.—wh. 3,507, fr. col. 8, sl. 283—total 3,883. *Capital*: Waresboro'. *Public Works*: Brunswick and Florida R. R.

WARE, t. and p. v., Hampshire co., *Mass.*: 61 m. W. by S. Boston. Drained by Ware r. and branches, which by the falls at Ware v. affords good water-power. The v. has several large factories of cotton and woolen goods. The Otis Company, manufacturing sheetings, etc., has a capital of \$450,000. It also contains a bank, capital \$200,000. The "Village Gazette" (neut.) is published weekly. Pop. of t. in 1840, 1,890; in 1850, 3,785.

WAR EAGLE, t. and p. o., Madison co., *Ark.*: 129 m. N. W. Little Rock. It contains several grist-mills and tanneries. Pop. about 850.

WAREHAM, t. p. v., and sta., Plymouth co., *Mass.*: 45 m. S. S. E. Boston. Drained by Awagon r. and small streams, which afford great water-power, and flow into Buzzard's bay, bounding the t. on the S. The t. contains several pleasant villages. Wareham v., at the head of the bay, has a good harbor, admitting vessels of 200 tons to its wharves. It contains a bank, capital \$100,000, an institution for savings, and is largely engaged in the manufacture of iron, n. a. s. etc. The Tremont Iron Company, making railroad rails, have a capital of \$200,000, and 3 very extensive nail factories employ several hundred operatives. The Cape Cod Branch R. R. passes through W. and S. Wareham, and Wareham v.; the latter 15 m. from Middleboro', 50 m. from Boston. Population of town in 1840, 2,002; in 1850, 3,156.

WAREHOUSE POINT, p. v. and sta., Hartford co., *Conn.*: on E. side of Connecticut r., and on New Haven, Hartford, and Springfield R. R., 12 m. N. from Hartford. It contains 2 churches, and some large woolen factories.

WARESBORO', p. v., and cap. Ware co., *Ga.*: about 3 m. S. E. Santilla r., 67 m. N. W. by W. St. Mary's, 107 m. S. S. E. Milledgeville. It contains the county buildings, etc.

WARFIELDBURG, p. v., Carroll co., *Md.*: 42 m. N. W. by N. Annapolis.

WARFORDSBURG, p. v., Fulton co., *Penn.*: 75 m. S. W. by W. Harrisburg.

WAR GAP, p. o., Hawkins co., *Tenn.*: 204 m. E. by N. Nashville.

WAR HILL, p. o., Hall county, *Ga.*: 92 m. N. N. W. Milledgeville.

WARMINSTER, p. v., Nelson co., *Virg.*: on James River Canal, and N. side of James r., 70 m. W. Richmond.

WARM SPRINGS, p. o., Meriwether co., *Ga.*: 90 m. W. by S. Milledgeville.

WARM SPRINGS, p. v., Buncombe co., *N. Car.*: on S. side of French Broad r., 237 m. W. Raleigh. These springs have valuable medicinal properties, and are of much resort during the summer.

WARM SPRINGS, p. v., Bath co., *Virg.* (See BATH.)

WARNER, t. p. v., and sta., Merrimac co., *N. Hamp.*: 14 m. W. by N. Concord. Surface uneven. Drained E. by Warner r. The v. contains some manufactories and one bank, capital \$50,000. The Merrimac and Connecticut Rivers R. R. passes through it. Pop. of t., 2,083.

WARNER'S LANDING, p. o., Bad Ax co., *Wisc.*: on E. bank of Mississippi r., 98 m. W. N. W. Madison.

WARNEVILLE, p. o., Schoharie co., *N. Y.*: 25 m. W. Albany.

WARNEVILLE, p. o., Livingston co., *Mich.*: 33 m. E. S. E. Lansing.

WARREN county, *Ga.* Situate E. toward the N., and contains 436 sq. m. Drained by branches of Ogeechee and Little rivers, and of Brier cr., which runs on its S. E. border. Surface undulating; soil fertile, and adapted to cotton and other agricultural productions, wheat and grain being produced in abundance. It has good pasturage, and fattens large numbers of cattle and hogs. Farms 605; manuf. 42; dwell. 1,135, and pop.—wh. 6,168, fr. col. 149, sl. 6,108—total 12,425. *Capital*: Warrenton. *Public Works*: Georgia R. R.; and Warrenton Branch R. R.

WARREN county, *Ill.* Situate W. toward the N., and contains 540 sq. m. Drained by Henderson's r. and its afflu-

ents, and by Ellison's cr. and branches of Spoon r. Surface level; soil fertile; on the streams are some rich tracts of land which are very productive, and yield fine crops of wheat and grain, the staple productions of the co. Pork and beef are exported. Farms 956; manuf. 42; dwell. 1,401, and pop.—wh. 8,162, fr. col. 14—total 8,176. *Capital*: Monmouth. *Public Works*: Central Military Track R. R.; Peoria and Oquawka R. R.

WARREN county, *Ind.* Situate N. W. middle, on the Illinois State line, and contains 360 sq. m. Peru, Rock, and Red Wood creeks drain the interior; and, except on the Wabash, on which bluffs bound an extensive bottom-land, the surface is gently undulating, rising toward the W. Woodland and prairie about equally divided. The soil is good—in some parts very fertile. Live-stock and grain are exported. Farms 782; manuf. 18; dwell. 1,273, and pop.—wh. 7,351, fr. col. 6—total 7,357. *Capital*: Williamsport.

WARREN county, *Ia.* Situate S. centrally, and contains 432 sq. m. Drained by tributaries of Des Moines r. Surface undulating; soil consists of a fine deep mold, and is very fertile. It is well timbered, and contains good pasturage for cattle. Farms 47; manuf. 0; dwell. 152, and pop.—wh. 960, fr. col. 1—total 961. *Capital*: Indianola.

WARREN county, *Ky.* Situate S. toward the W., and contains 546 sq. m. Drained by Big Barren r. and its branches, which enter Green r. in the N. Surface level; soil fertile, and makes excellent pasture land. Chief productions, tobacco, wheat, and Indian corn; fruits and vegetables are also produced. Farms 1,145; manuf. 38; dwell. 1,793, and pop.—wh. 10,597, fr. col. 209, sl. 4,317—total 15,123. *Capital*: Bowling Green. *Public Works*: Louisville and Nashville R. R.

WARREN county, *Miss.* Situate W., and contains 570 sq. m. Drained by Yazoo r. and branches of Big Black r. Surface varied; in the eastern portion the land is much broken and hilly; in the west level, and in parts lying so low that it is liable to inundation. Soil very fertile, and in some portions exceedingly rich. There is much fine grazing land in the county. Chief productions, cotton and Indian corn. Of the former is raised upward of 16,000,000 of lbs. Farms 435; manuf. 25; dwell. 1,230, and pop.—wh. 5,998, fr. col. 27, sl. 12,096—total 18,121. *Capital*: Vicksburg. *Public Works*: Vicksburg, Jackson, and Brandon R. R.

WARREN county, *Mo.* Situate toward the E., and contains 342 sq. m. Drained by affluents of Missouri r., which forms its southern boundary, and in the northern portion by branches of Cuivre r. Surface diversified; soil fertile; the bottom-lands consist chiefly of a fine black mold, and are very productive. Tobacco is the staple, but wheat and grain are raised in large crops. It is well timbered. Farms 744; manuf. 11; dwell. 899, and pop.—wh. 4,921, fr. col. 4, sl. 935—total 5,960. *Capital*: Warrenton.

WARREN county, *N. Jer.* Situate N. W., and contains 414 sq. m. Drained by Paulinskill, Request, and Pohatcong rivers, tributaries of Delaware r., which forms its western boundary. Surface broken and hilly; soil fertile, and adapted to grain. Staples, wheat, Indian corn, and potatoes. Pine timber abounds. Schooley's Mountain forms its S. E. boundary. Farms 1,537; manuf. 341; dwell. 3,554, and pop.—wh. 21,990, fr. col. 866, sl. 2—total 22,353. *Capital*: Belvidere. *Public Works*: Belvidere Delaware R. R.; Morris Canal, etc.

WARREN county, *N. Y.* Situate E. toward the N., and contains 912 sq. m. Drained by Hudson r., Schroon branch of the Hudson, and Jessup's cr. Surface generally hilly and broken, but in the S. is some level land; soil in most parts barren and unfit for cultivation; there is, however, some good land in the level portions, and in the valleys, where agricultural pursuits are followed, and much corn, oats, etc., are produced—these, with wheat and Indian corn, make the staple articles of commerce. This co. is rich in minerals, and contains some quarries of granite and limestone. The Palmetown range traverses the E. section, Clinton

range the W., and the Kayadroseras the central. Lumber is exported in a large quantity. Farms 1,505; manuf. 128; dwell. 2,976, and pop.—wh. 17,153, fr. col. 46—total 17,199. *Capital:* Caldwell.

WARREN county, *N. Car.* Situate N. toward the E., and contains 499 sq. m. Drained in the N. by Roanoke r. and its branches, and in the S. by Fishing cr. and its branches. Surface somewhat elevated and diversified; soil in general fertile. Chief productions, tobacco, cotton, wheat, and Indian corn. Farms 543; manuf. 20; dwell. 905, and pop.—wh. 4,604, fr. col. 441, sl. 8,867—total 13,912. *Capital:* Warrenton. *Public Works:* Gaston and Raleigh R. R.; Roanoke Valley R. R.

WARREN county, *Penn.* Situate N. W., and contains 782 sq. m. Alleghany river enters it in the N. E., and passes through its central portion, by which and its branches, Broken Straw and Conewango creeks, it is drained. Surface uneven, and in parts hilly and broken; soil varied—on the streams being very fertile. Staples, wheat, grain, and potatoes. It has some good timber land and excellent pasturage for cattle. Farms 1,207; manuf. 216; dwell. 2,459, and pop.—wh. 18,593, fr. col. 78—total 18,671. *Capital:* Warren. *Public Works:* Sunbury and Erie R. R.; Alleghany Valley R. R.

WARREN county, *Tenn.* Situate S. E. centrally, and contains 872 sq. m. Caney fork of Cumberland r. flows on its N. E. border, by branches of which it is drained. Surface hilly; soil fertile, and adapted to grain. Farms 645; manuf. 6; dwell. 1,367, and pop.—wh. 8,386, fr. col. 53, sl. 1,710—total 10,179. *Capital:* M'Minnsville. *Public Works:* Lexington and M'Minnsville R. R.

WARREN county, *Virg.* Situate N., and contains 226 sq. m. Drained by Shenandoah r., which passes through its centre. Surface mountainous and broken; soil fertile. Chief productions, wheat and Indian corn. Farms 397; manuf. 84; dwell. 828, and pop.—wh. 4,492, fr. col. 367, sl. 1,748—total 6,607. *Capital:* Front Royal. *Public Works:* Manassas Gap R. R.

WARREN, t. and p. v., Litchfield co., *Conn.*: 33 m. W. Hartford. Drained by Shepaug r., a tributary of Housatonic r. Raumaug Pond lies in its S. part. Pop. of t. 681.

WARREN, p. o., Huntingdon co., *Ind.*: on E. side of Salamonie r., 70 m. N. E. by N. Indianapolis.

WARREN, t., p. v., and one of the capitals, Lincoln co., *Me.*: 31 m. S. E. by E. Augusta. Drained by St. George river, which is navigable for sloops. The manufacture of lime is carried on extensively, with some ship-building and large lumber business. The v. is well located, and contains the county buildings, an academy, etc. Pop. of t. 2,423.

WARREN, t. and p. o., Macomb co., *Mich.*: 71 m. E. by S. Lansing. Interests entirely agricultural. Pop. in 1840, 337; in 1850, 700.

WARREN, p. v., Fannin co., *Tex.*: on S. bank of Red r., 247 m. N. E. Austin.

WARREN, p. v., Baltimore co., *Md.*: on E. bank Gunpowder r., 32 m. N. Annapolis.

WARREN, t., p. v., and sta., Worcester co., *Mass.*: 53 m. W. by S. Boston. Drained W. by Chicopee r., on which the v. is situated. The Western R. R. passes through it, 29 miles from Worcester (73 m. from Boston). It contains several manufacturing establishments, with 2 churches, stores, etc. Pop. of t. in 1840, 1,290; in 1850, 1,776.

WARREN, t. and p. o., Marion co., *Mo.*: 84 m. N. by E. Jefferson City. Pop. of t. 2,900.

WARREN, t., p. v., and sta., Grafton co., *N. Hamp.*: 52 m. N. N. W. Concord (direct), and by the Boston, Concord, and Montreal R. R., which passes through, 71 m. from Concord. Surface diversified; in S. part mountainous, having Carr's Mountain on its S. E. border. Pop. of t. 872.

WARREN, p. v., Jo Daviess county, *Ill.*: 182 miles N. Springfield. The Illinois Central R. R. will pass through this place

WARREN, p. o., Lee co., *Ia.*: 72 m. S. Iowa City.

WARREN, sta., Du Page co., *Ill.*: on Galena and Chicago Union R. R., 25 m. from Chicago.

WARREN, t. and p. o., Herkimer county, *N. Y.*: 62 m. W. by N. Albany. Surface hilly; soil excellent loam. The inhabitants are generally engaged in agricultural pursuits, but the t. also contains mills of various kinds. Pop. 1,766.

WARREN, p. v., and cap. Trumbull co., *Ohio*: on Mahoning r., 140 m. N. E. by E. Columbus. The v. is regularly laid out with streets crossing at right angles. It contains the county buildings, a bank, several churches, etc. In 1850 three newspapers were published—"T. Whig," "T. Democrat," and "Western Reserve Chronicle" (neut.) Pop. of t. 734.

WARREN, p. b., and cap. Warren co., *Penn.*: on N. side of Alleghany r., at the confluence of Conewango cr., 158 m. N. W. Harrisburg. It occupies an elevated site, 35 feet above the river, of which it commands a fine view in either direction. It is regularly laid out with streets crossing at right angles, and has a fine public square in the centre containing the county buildings. It contains 3 churches, an academy, stores, etc., and has some manufactures. The "W. Ledger" (dem.) and "W. Mail" (whig) are here published. Two lines of railroad are projected to pass through this place, Sunbury and Erie R. R. and the Alleghany Valley R. R. Pop. in 1840, 737; in 1850, 1,013.

WARREN, t. and p. v., Bristol co., *R. I.*: 16 m. N. by E. Newport. Surface of t. rolling, with very fertile soil. The v. in the S. E. part of the t. is handsomely situated on elevated ground. Its harbor readily admits vessels of 300 tons. Ship-building, coasting trade, the fisheries, and some manufacturing of cotton goods are carried on. It contains an excellent female seminary and some other schools, 2 churches, and 2 banks, cap. \$260,000. The "Northern Star" (miscel.) issued weekly. Pop. in 1840, 2,437; in 1850, 3,103.

WARREN, t. and p. v., Washington co., *Verm.*: 14 m. S. W. by S. Montpelier. Drained W. by Mud r., which affords water-power. Pop. of t. 962.

WARREN, p. v., Albemarle co., *Virg.*: on James River Canal, N. side of James r., 62 m. W. by N. Richmond.

WARREN, p. o., Rock co., *Wis.*: 26 m. S. S. E. Madison.

WARREN COURT-HOUSE, p. v., and cap. Bradley co., *Ark.*: 3 m. W. Saline r., 75 m. S. by E. Little Rock. It contains the co. buildings, etc. Pop. 679.

WARRENSHAM, p. o., Bradford co., *Penn.*: 115 m. N. by E. Harrisburg.

WARRENSBURG, p. v., and cap. Johnson county, *Mo.*: on Post Oak cr., near its confluence with Black r., 87 m. W. by N. Jefferson City. It contains the county buildings, etc. Pop. 195.

WARRENSBURG, t. and p. v., Warren co., *N. Y.*: 53 m. N. Albany. Drained by Hudson and Schroon rivers, which here unite. Surface hilly, with very fertile soil on the streams. The v. on Schroon r. contains several stores, mills, 2 churches, and about 450 inhabitants. Population of t. 1,874.

WARRENSBURG, p. v., Greene co., *Tenn.*: on N. side of Nolichucky r., 205 m. E. Nashville. Pop. about 100.

WARRENSVILLE, p. v., Mahaska co., *Ia.*: on S. W. side Skunk r., 66 m. W. by S. Iowa City.

WARRENSVILLE, p. v., Du Page co., *Ill.*: on E. side of Mill brook, 158 m. N. E. by N. Springfield.

WARRENSVILLE, t. and p. v., Cuyahoga co., *Ohio*: 8 m. E. S. E. Cleveland, 123 m. N. E. by N. Columbus. Population of t. 1,409.

WARRENSVILLE, p. v., Lycoming county, *Penn.*: 72 m. N. by W. Harrisburg.

WARREN TAYLOR, p. o., Chester co., *Penn.*: 70 m. E. by S. Harrisburg.

WARRENTON, p. v., and cap. Marshall co., *Ala.*: a little S. Tennessee r., 137 m. N. Montgomery. It contains a court-house, jail, etc. The "Southern Guard" (dem.) is issued weekly.

WARRENTON, p. v., and cap. Warren co., *Ga.*: 45 m. N. E.

by E. Milledgeville. It contains the county buildings, a church, stores, etc. The Warrenton Branch R. R. extends hence to Caniak, 4 m., connecting with the Georgia R. R., by which it is 51 m. from Augusta and 120 m. from Atlanta.

WARRENTON, p. v., Gibson co., *Ind.*: 126 m. S. W. by S. Indianapolis.

WARRENTON, p. v., Warren county, *Ky.*: 120 m. S. W. Frankfort.

WARRENTON, p. v., Warren co., *Miss.*: on E. bank of Mississippi r., 44 m. W. by S. Jackson.

WARRENTON, p. v., and cap. Warren county, *Mo.*: 60 m. E. by N. Jefferson City. It contains the county buildings, several stores, etc. Pop. about 150.

WARRENTON, p. v., sta., and cap. Warren co., *N. Car.*: 48 m. N. N. E. Raleigh. It contains the court-house and jail, several stores, a church, etc. The "Warrenton News" is published weekly. The Gaston and Raleigh R. R. passes near it, 24 m. from Gaston, 63 m. from Raleigh. Pop. about 750.

WARRENTON, p. v., Jefferson co., *Ohio*: on W. bank of Ohio r., 119 m. E. by N. Columbus. Pop. about 300.

WARRENTON, p. v., Abbeville dist., *S. Car.*: on E. side of Little r., 80 m. W. Columbia.

WARRENTON, p. v. and cap., Fauquier co., *Virg.*: 80 m. N. by W. Richmond. It contains a court-house, town-hall, jail, and 3 churches. The "Piedmont Whig" and "Flag of '95" are issued weekly. The Warrenton Branch R. R. extends hence to junction with the Orange and Alexandria R. R. Pop. about 1,300.

WARRENTON SPRINGS, p. v., Fauquier co., *Virg.*: 85 m. N. by W. Richmond.

WARRENVILLE, p. v., Somerset county, *N. Jer.*: 30 m. N. E. by N. Trenton.

WARRECK COUNTY, *Ind.* Situate S. W., on Ohio river, and contains 360 sq. m. Little Pigeon river, and several slow-moving streams drain the interior. Except the Ohio bottom, and the abutting bluffs, the surface is rolling, but at the head of Pigeon river there are some wet prairies. Corn and tobacco are staples, and coal is abundant. Farms 994; manuf. 22; dwell. 1,513, and pop.—wh. 8,752, fr. col. 29—total 8,511. *Capital*: Booneville. *Public Works*: Wabash and Erie Canal.

WARRINGTON, t. and p. v., Bucks co., *Penn.*: 90 m. E. Harrisburg.

WARRINGTON, p. v., Hancock co., *Ind.*: 29 m. E. N. E. Indianapolis.

WARRINGTON, p. v., Escambia co., *Flor.*: 182 m. W. by N. Tallahassee.

WARRIOR CREEK, p. o., Wilkes county, *N. Car.*: 140 m. W. by N. Raleigh.

WARRIOR'S MARK, t. and p. v., Huntingdon co., *Penn.*: 65 m. W. N. W. Harrisburg. Surface of t. mountainous. The v. in N. part contains several stores, dwellings, etc. In the vicinity are two charcoal furnaces, one a hot-blast, of 1,650 tons annual capacity, and another, cold-blast, with annual capacity of 1,890 tons. The t. also contains several grist and saw mills, tanneries, and distilleries. Pop. of t. about 2,000.

WARRIOR STAND, p. o., Macon county, *Ala.*: 36 m. E. Montgomery.

WARSAW, p. v., Sumter co., *Ala.*: on W. side of Okatibby-hah r., 121 m. W. N. W. Montgomery.

WARSAW, p. v., Forsyth co., *Ga.*: on E. side of Chatahoochee r., 90 m. N. W. Milledgeville.

WARSAW, p. v., Hancock co., *Ill.*: on E. bank of Mississippi r., 100 m. W. N. W. Springfield. It has a fine site, with good landing, does considerable business in exporting corn and pork, and is surrounded by a good farming country. The "Warsaw Signal" (whig) is issued weekly.

WARSAW, p. v., and cap. Kosciusko co., *Ind.*: 100 m. N. by E. Indianapolis. It is beautifully situated near Tippecanoe r. and two of the lakes. It contains good county buildings, and two churches. The "Kosciusko Republican"

(whig), and "Warsaw Democrat," are here published. Lines of railroad are projected from Peru and Fort Wayne to pass through this place. Pop. 304.

WARSAW, p. v. and cap., Gallatin co., *Ky.*: on S. bank of Ohio r., 36 m. N. Frankfort. It contains a court-house and other county buildings, and two churches. It has considerable trade, and exports a large quantity of produce and tobacco. The surrounding country is hilly, but very productive of wheat, corn, and tobacco; and also abounds with fine timber. Pop. about 700.

WARSAW, p. v., and cap. Benton co., *Mo.*: on N. side of Osage r., 68 m. W. S. W. Jefferson City. It contains the court-house and jail, several stores, etc. The "Warsaw Weekly Whig" is here published. Pop. about 500.

WARSAW, p. o., Portage county, *Wisc.*: 105 m. N. by W. Madison.

WARSAW, p. v., and sta., Duplin county, *N. Car.*: 50 m. S. E. by S. Raleigh. The Wilmington and Weldon R. R. passes through, 55 m. from Wilmington, 107 m. from Weldon.

WARSAW, t., p. v., sta., and cap. Wyoming co., *N. Y.*: 230 m. W. Albany. Surface diversified; soil extremely fertile. Drained by Allen's cr., flowing N. through the t. centrally. The v. on Allen's cr. contains the county buildings, 5 churches, an academy, various manufacturing establishments, 1 bank, capital \$100,000, and about 900 inhabitants. The Buffalo and New York City R. R. passes through it, 43 m. from Buffalo, and 43 m. from Hornellsville. The "Western New Yorker" (whig) is issued weekly. Pop. of t. 2,624.

WARSAW, p. v., Coshocton co., *Ohio*: on the Ohio Canal, and N. side of Walhonding r., 53 m. E. N. E. Columbus.

WARSAW, t. and p. o., Jefferson co., *Penn.*: on N. side of Sandy Lick cr., 126 m. N. W. by W. Harrisburg.

WARSAW, p. v., and cap. Richmond co., *Virg.*: 47 m. N. E. by E. Richmond. It occupies a pleasant site, 3 m. from Rappahannock r., and contains the county buildings, a female academy, church, several stores, etc. Pop. about 150.

WARSAW PRAIRIE, p. o., Henderson co., *Tex.*: 173 m. N. E. by N. Austin.

WARREN'S STORE, p. o., Washington county, *Ga.*: 31 m. E. by N. Montgomery.

WARTRACE DEPOT, p. o., and sta., Bedford co., *Tenn.*: on Nashville and Chattanooga R. R., 55 m. from Nashville, 96 m. from Chattanooga. A branch R. R. extends hence, 8 m. to Shelbyville.

WARWICK COUNTY, *Virg.* Situate toward the S. E., and contains 55 sq. m. Drained by small streams of James river. It occupies the S. W. portion of the peninsula, between York and James rivers. Surface level; soil moderately fertile. Chief products wheat and Indian corn. Farms 91; manuf. 0; dwell. 132, and pop.—wh. 598, fr. col. 43, sl. 905—total 1,546. *Capital*: Warwick C. H.

WARWICK, p. v., Cecil county, *Md.*: 49 m. N. E. by E. Annapolis.

WARWICK, p. v., Dooly county, *Ga.*: 85 m. S. S. W. Milledgeville.

WARWICK, t. and p. v., Franklin co., *Mass.*: 63 m. W. N. W. Boston. Surface elevated and uneven; soil best adapted to grazing. The central v. is neatly built, and very pleasant. Pop. of t. 1,021.

WARWICK, t. and p. v., Orange co., *N. Y.*: 96 m. S. S. W. Albany. Surface hilly; soil fertile. Drained by branches of Walkill and Passaic rivers. In its W. part is a portion of the "drowned lands," and in S. E. part, a portion of Greenwood lake. The v. contains 2 churches, and about 450 inhabitants. The t. is very large, and contains other settlements. Pop. of t. 4,902.

WARWICK, t., p. v., and sta., Kent co., *R. I.*: on Stonington and Providence R. R., 8 m. S. from Providence. Bounded E. by Narragansett bay. Surface of t. varied; soil gravelly loam. Drained in N. part by Pawtuxet r., which affords great water-power, improved by numerous factories. Pawtuxet v., at its mouth, lies partly in this t., and partly in

Cranston. Other villages in the t. are also noted for their manufactures. Warwick v. contains, besides factories, 2 banks, an academy, church, etc. The "Kent Co. Atlas" (miscel.) is issued weekly. Pop. of t. in 1840, 6,726; in 1850, 7,740.

WARWICK, p. o., Waukesha co., *Wis.*: on W. side White r., 69 m. N. by E. Madison.

WARWICK, p. v., and cap. Warwick co., *Virg.*: 53 m.

S. E. by E. Richmond. It contains a court-house, jail, etc., and is a pleasant village.

WASHIA lake, *La.*: 17 m. S. S. W. New Orleans. It is 15 m. long, with average breadth of 5 m., and connects by wide bayous with Cotonche and Little lakes.

WASHBOURN PRAIRIE, p. o., Barry county, *Mo.*: 163 m. S. W. by S. Jefferson City.

THE TERRITORY OF WASHINGTON.

THIS Territory, until 1853 a portion of Oregon Territory, occupies all the country lying generally between the parallels of 46° and 49° of north latitude, and extending from the Rocky Mountains on the east to the Pacific Ocean on the west. The Columbia River forms the southern boundary below the line of 46° to the sea. It comprises somewhat more than one-third the original territory, or about 180,000 square miles.

Of the physical characteristics of this Territory much has yet to be learned. It includes the waters of Puget's Sound, equal in the magnificence of their scenery and in their secure and spacious harbors to the waters of San Francisco Bay. Vancouver's Island and the Gulf of Georgia indent its north-western extremity. The Columbia River is its great interior water-course, and there are numerous other important streams which empty either into the sound above named, or into the Pacific, through bays which may hereafter become valuable to commerce. The Columbia River has been thoroughly surveyed by Belcher, R. N., and Wilkes, U. S. N., and the Coast Survey has twice examined its mouth. Shoal-Water Bay, Grey's Harbor, and Chiklaes River have also been surveyed by the United States officers, and the English Admiralty charts cover the Straits of Fuca, and many harbors on the mainland and Vancouver's Island. The surveys of Captain Wilkes give full information of all the group of islands in the Gulf of Georgia, and the channels leading to and making up Puget's Sound. The shores of this wonderful network of channels are so favorable in soil and location, that they must soon possess great value. Through a surprising extent of line they are directly accessible for ocean vessels, and form, as it were, an immense network of harbor. They present the foundation for a kind of agricultural Venice far into the heart of the west half of Washington, the resources of which they will greatly aid in developing. Fort Nesqually and Olympia, at the southern extremity of Puget's Sound, must rapidly advance with the growth of the Territory, and in fact are already important places. The interior is but imperfectly known. The land-office surveys north of the Columbia have as yet made but little progress. On penetrating further toward the Rocky Mountains, the country is essentially unknown. The narrative of Lewis and Clarke, the book on Oregon Missions by Father De Smet, and Irving's Astoria, are the chief publications of value on this ground. These serve merely to show that the country bordering the Rocky Mountains, between 46° and 49° on both sides, is still a fine field for exploration. Much may be expected from Dr. Evans, who is engaged in a geological reconnaissance of the old Oregon Territory, which has taken him much among the Rocky Mountains, and over their basaltic plains.

There are several important geographical problems connected with the establishment of this new Territory. The boundary, initial points, and parallels will have to be determined, and it must soon be decided where the crest of the Rocky Mountains really is. This latter problem may not be easy of solution, for Lewis and Clarke, De Smet, the Irving Astoria map, and the Indian Bureau and Topographical Bureau maps all represent these mountains differently. Lewis and Clarke exhibit four distinct ranges, with which the best recent explorations essentially agree, and indicate at least three parallel ranges running nearly north-west, instead of the more prevalent indication of a single north and south range. Exploration may show the necessity of a more definite eastern boundary. On the north the mouth of Frazer's River is so near to latitude 49°, that a portion of it may be found to fall in the United States, though this is improbable. Thus, with a field every way so requiring examination, it is fortunate that the newly-appointed governor of Washington possesses so many peculiar qualifications for his station, and especially a thorough training in geographical science. Col. Isaac I. Stevens has been assistant in charge of the Coast Survey office for over three years. A head graduate of West Point, a highly efficient constructing officer of engineers, distinguished in General Scott's staff in Mexico, he has discharged the laborious and difficult administrative duties of his recent positions in so excellent a manner, as to afford every guarantee that he will make himself most usefully felt in the sphere on which he is entering. It is expected, and that expectation will not be without its fruits, that he will not permit his term to expire without presenting to the public a complete map of the Territory, and such reports as will give a clear conception of the surface, soil, resources, products, and peculiarities of a region so soon to become a State, with a voice in our national councils. Those who best know the governor are confident he will be able to accomplish this and much more, in addition to those important and laborious duties which will devolve upon him in organizing and putting into thorough operation the machinery of a new territorial government.

Since the appointment of Col. Stevens as governor of this Territory, the President has further honored him by placing him at the head of a party to explore what is termed the Northern Pacific Railroad line, under a recent act of Congress, making an appropriation to explore the different proposed routes to the Pacific. The first thing to be ascertained in the survey of this route is the practicability of the undertaking, and the labors of the governor and his associates will relate only to the route upon which they are to be engaged, and their reports will be of those things alone that are sought for by the department under which they are to act. The officers of the army appointed to assist Gov. Stevens are Capt. John W. T. Gardiner, 1st Dragoons; Bvt. Capt. George B. McClellan; 2d Lieut. J. K. Duncan, 3d Artillery; 2d Lieut. Rufus Saxton, Jr., 4th Artillery; 2d Lieut. Curvier Grover, 4th Artillery; 2d Lieut. A. J. Donelson, Corps of Engineers; Bvt. 2d Lieut. John Mullan, Jr., 1st Artillery; and Drs. Luckley and Cooper, Surgeons and Naturalists. The scientific corps will consist of some 12 or 14 persons, among whom are named John Evans, geologist; J. M. Stanley, artist; G. W. Stevens and A. Remenyi, astronomers; A. W. Tenkham and F. W. Lander, civil engineers; and John Lambert draughtsman. The escort consists of 10 non-commissioned officers, artificers, and privates of the engineer company, under command of Lieut. Donelson, and one sergeant, two corporals, one musician, and 16 privates of Co. D, 1st Dragoons, under command of Capt. Gardiner. Capt. McClellan will depart from Puget's Sound for the purpose of exploring the Cascade range, with two officers furnished him by the brigadier-general in command on the Pacific, and thirty men, and proceed eastward. A portion of the main party, under Lieut. Donelson, will leave St. Louis and ascend the Missouri River to Fort

Union, at the mouth of the Yellowstone, the place of rendezvous on the east, where they will be joined by the remainder of the party, under the immediate command of Gov. Stevens.

A topographical survey, says the *Washington* (D. C.) *Republic* of 7th May, 1858, will be made of the Rocky and Cascade mountains, between the 46th and 49th parallels, and of the intervening country, to determine the general course of the railroad, and to guide the civil engineers in establishing its precise route. This reconnaissance will embrace the prominent features of the country, the mountain ranges and passes, the windings of rivers and streams, and their dividing ridges, the prairies, and every thing necessary for the construction of a map of the country. This will comprehend the important points of the Missouri and Columbia rivers, the *débouchés* of the Cascade and Rocky mountain ranges, the fixing of the latitude and longitude of all important points, and all the facts bearing upon the construction of the road including the natural facilities for the transportation of iron, supplies, etc., required for the road. In crossing rivers the height of the banks will be noted, the depth of the water, the apparent highest water, the nature of the bottom on which abutments and piers must rest, the width between the banks, and all information leading to correct estimates of the means and cost of carrying a road over the stream.

It is not doubted that the controlling points will prove to be the passes of the Cascade and Rocky mountains, and the opinion is entertained that the location of a road between the two ranges, and for a long distance east of the Rocky Mountains, may be suspended until these passes shall be thoroughly examined, and a practical avenue discovered.

It is proposed to construct a general map from the head waters of the Mississippi River to the Pacific Ocean, a map of Washington Territory, and thence eastward to the head waters of the Mississippi; maps of the Cascade range, Rocky Mountains, and other critical points of the route and of the mountain passes.

As it will be necessary to determine the capacity of the adjacent country to supply materials for the construction of the road, and of the Columbia and Missouri rivers and their tributaries to transport them, attention will be given to the geography and meteorology of the whole intermediate region; to the seasons and the characters of the freshets; to the quantities and continuance of its rains and snows, especially in the mountain ranges; to its geology in arid ranges, keeping in view the bringing of water to the surface by means of artesian wells; to the botany, natural history, and agricultural and mineral resources; to the location, numbers, history, traditions, and customs of the Indian tribes; and such other facts as may tend to the solution of the railroad problem.

We learn, further, that after the completion of the survey of the mountain passes, probably in October or November next, such portions of the escort and scientific corps as will not be needed in the operations toward the Pacific, will be dispatched homeward by new routes, in order to obtain still further knowledge of the geography of the country; and it is hoped that a satisfactory report may be made to Congress in February next.

The preparation and equipment of this expedition have been well considered, and every man, from the principal to the humblest subaltern, has been selected with reference to his peculiar fitness for the duty assigned him. The most effective means have already been employed to conciliate and secure the good will of the various Indian tribes inhabiting the region to be traversed; but for any demonstration of an opposite feeling, the party will be well prepared.

The Hudson's Bay Company has manifested a laudable disposition to render every aid in its power to facilitate the operations of the expedition, and the hospitality of its posts, and the friendly offices of its agents, may be depended upon.

Though some of the Indian tribes of this territory are reputed to be ferocious and malignant in character, they are generally superior to those of their race with whom we are better acquainted. In industry, thrift, and intelligence, they far excel the eastern tribes. To act justly toward them, and to merit their respect and confidence, will be the policy of Governor Stevens and his companions, in commendation of whom we might say much, did we not know that they possess the entire confidence of the administration and of the country. Their duty is one of some peril, and will be attended with great privations and hardships. Often, we doubt not, apparent impossibilities will arise before them in such form as would deter irresolute men from the consummation of the task assigned them. But the reality of such appearances will undoubtedly in each instance be fully tested by this chosen band, in whose safety and welfare, and in the triumph and success of whose enterprise, their whole country will feel the deepest interest.

WASHINGTON county, *Ala.* Situate S. W., and contains 1,049 sq. m. Drained by numerous branches of Tombigbee r., which forms its E. boundary, and by Escatawpa creek. Surface varied—in the N. undulating, and in the S. generally level. Soil fertile, and adapted to cotton and corn. Pine and other timber abounds. Farms 141; manuf. 0; dwell. 258, and pop.—wh. 1,195, fr. col. 22, sl. 1,496—total 2,713. *Capital*: Washington. *Public Works*: Mobile and Ohio R. R.

WASHINGTON county, *Ark.* Situate N. W., and contains 929 sq. m. Drained by Illinois r., a tributary of Arkansas r., and by a head branch of White r. Surface mountainous; soil fertile, and adapted to cotton. Farms 850; manuf. 27; dwell. 1,430, and pop.—wh. 8,636, fr. col. 14, sl. 1,199—total 9,849. *Capital*: Fayetteville.

WASHINGTON county, *D. of Col.*: co-extensive with the DISTRICT OF COLUMBIA.

WASHINGTON county, *Flor.* Situate toward the W., and contains 1,226 sq. m. Drained by several branches of Choctawhatchee r., which bounds it on the west. Surface level; soil generally poor, but there are some fertile tracts, adapted to cotton; rice is also grown. In the S. is St. Andrew's bay, the banks of which contain a quantity of live oak. Farms 155; manuf. 4; dwell. 278, and pop.—wh. 1,434, fr. col. 12, sl. 504—total 1,950. *Capital*: Roche's Bluff.

WASHINGTON county, *Ga.* Situate E. centrally, and con-

tains 962 sq. m. Drained by branches of Oconee r., which flows on its western border, and of Ogeechee and Great Oohopee rivers. Surface varied; soil fertile in some portions, but in general is of a light sandy nature, and very indifferent. Wheat and grain are produced, but cotton is the staple. Pine and other timber is found on the land. Farms 632; manuf. 6; dwell. 1,077, and pop.—wh. 5,993, fr. col. 35, sl. 5,733—total 11,766. *Capital*: Sandersville. *Public Works*: Georgia Central R. R.

WASHINGTON county, *Ill.* Situate toward the S. W., and contains 539 sq. m. Drained by Elkhorn and Muddy creeks, and small branches of the Kaskaskia r., which forms its N. W. boundary. Surface level, and a large portion is low and wet. Soil poor, and unfit for cultivation. It has good pasturage, on which large numbers of cattle and hogs are fattened, and the exportation of which is considerable. In the S. are some fine prairies. Farms 829; manuf. 9; dwell. 1,988, and pop.—wh. 6,929, fr. col. 24—total 6,958. *Capital*: Nashville. *Public Works*: Illinois Central R. R., Sangamon and Massac R. R.

WASHINGTON county, *Ind.* Situate S., and contains 540 sq. m. Drained by Muscatatuck r. and E. fork of White r., Lost r., and head streams of Blue r. Surface diversified—hills, levels, and undulations succeed each other rapidly, and forests, prairies, and barrens intermingle strangely. Sink holes and caverns abound, the substratum being limestone. Soils unusually fertile. Farms 1,718; manuf. 83; dwell.

2,897, and pop.—wh. 16,788, fr. col. 252—total 17,040. *Capital*: Salem. *Public Works*: New Albany and Salem R. R.

WASHINGTON county, *Ia.* Situate toward the S. E., and contains 569 sq. m. Iowa r. flows through its N. E. corner, by which and its branches, and by Skunk r. and Long and Crooked creeks, it is drained. Surface level or rolling; soil consists of black mold, with sand intermixed, and fertile, and well adapted to grain. Timber abounds. Farms 423; manuf. 1; dwell. 856, and pop.—wh. 4,957, fr. col. 0—total 4,957. *Capital*: Washington.

WASHINGTON county, *Ky.* Situate N. centrally, and contains 807 sq. m. Drained by Chaplin's fork of Salt r., and its branches. Surface level; soil generally fertile, and adapted to grain and grazing. Chief productions, tobacco and Indian corn. Farms 867; manuf. 21; dwell. 1,517, and pop.—wh. 9,056, fr. col. 63, sl. 3,045—total 12,194. *Capital*: Springfield.

WASHINGTON parish, *La.* Situate N. E. in the eastern district, and contains 858 sq. m. Drained chiefly by Bogue Chitto, and Chifuncie rivers. Surface hilly and broken, and much of it covered with pine forests; soil in general is barren, but there are some portions of fertile land, and cotton and rice are grown, which form the staple articles of commerce. Farms 260; manuf. 0; dwell. 406, and pop.—wh. 2,367, fr. col. 4, sla. 1,037—total 8,408. *Capital*: Franklinton.

WASHINGTON county, *Me.* Situate S. E., and contains 2,470 sq. m. Machias, Pleasant, and Naraquagas rivers, with other large streams, drain the co. Surface uneven and broken, and is diversified with numerous lakes, the principal of which is the Schoodic in the N. Soil fertile, adapted to wheat and grain. A large number of cattle and hogs are fattened in this co. The eastern boundary is formed by the St. Croix r., which separates it from New Brunswick. The numerous bays which indent the Atlantic shore afford excellent harbors, and also advantages for navigation and the fisheries. It is well timbered. Farms 1,875; manuf. 310; dwell. 5,835, and pop.—wh. 83,684, fr. col. 126—total 38,810. *Capital*: Machias. *Public Works*: Franklin R. R.; European and N. American R. R.; Calais and Baring R. R.

WASHINGTON county, *Md.* Situate W., and contains 518 sq. m. Drained by branches of Patuxent r., which forms its E. and N. E. boundary, and by Piscataway, Broad, Conecocheague, and other creeks, affluents of the Potomac, which flows on its S. W. border. Surface varied, in some parts being hilly and much broken; soil a deep mold, and in the valleys and the river bottoms is very rich and productive. Staples wheat and grain. Live-stock and grain are exported. Farms 1,292; manuf. 170; dwell. 5,052, and pop.—wh. 26,929, fr. col. 1,829, sl. 20,903—total 30,843. *Capital*: Hagerstown. *Public Works*: Baltimore and Ohio R. R.; Franklin R. R.; Chesapeake and Ohio Canal.

WASHINGTON county, *Minn. Ter.* On the Wisconsin boundary, from which State it is separated by St. Croix r., and extending back to the 16th meridian W. of Washington City. The Mississippi makes its S. boundary, and its N. is the 47th parallel of latitude. Surface generally level, and well drained by creeks of the St. Croix. It has numerous lakes and in all parts; as a farming co. it is one of the best and most accessible in the Territory, and has been the longest settled. Farms 48; manuf. 4; dwell. 161, and pop.—wh. 1,052, fr. col. 4—total 1,056. *Capital*: Stillwater.

WASHINGTON county, *Miss.* Situate W., and contains 1,219 sq. m. Drained by Williams' bayou, and Sun Flower rivers and their branches and small streams, all of which are tributaries of Yazoo river. Surface diversified with lakes, and in the W. the land rises toward the Mississippi, and forms high natural embankments to that river; soil very fertile, and well adapted to cotton, which is the chief production. Farms 109; manuf. 0; dwell. 126, and pop.—wh. 553, fr. col. —, sla. 7,336—total 8,839. *Capital*: Greenville.

WASHINGTON county, *Mo.* Situate toward the S. E., and contains 937 sq. m. Big river and its branches, and head branches of St. Francois and Big Blackwater rivers, drain this co. Surface varied, for the most part it is hilly and much broken, but there is some level land; soil fertile, and adapted to grain. It contains part of the celebrated "Iron Mountain," which is one vast mass of micaceous oxide of iron; it rises in height about 300 feet above the plain; the ore is so pure that it yields 70 or 80 per cent. good iron. It contains lead and copper, and is rich in minerals of all kinds. Farms 718; manuf. 41; dwell. 1,291, and pop.—wh. 7,718, fr. col. 23, sl. 1,075—total 8,511. *Capital*: Potosi. *Public Works*: Iron Mountain R. R.

WASHINGTON county, *N. Y.* Situate E. toward the N., and contains 807 sq. m. Drained principally by Hoosick and Battenkill rivers, which flow into the Hudson, and Pawlet and Poutney rivers, Wood cr., and Moseskill. Surface various, generally hilly and interspersed with pleasant valleys; soil fertile, and in the valleys and on the plain producing good crops of wheat; the uplands are well adapted to grazing, and much live-stock is raised. Chief productions, wheat and Indian corn. It contains many minerals, and in the N. granite forms the principal portion of the under-stratum of rock. Limestone and slate are found in the S. This co. is marked by three distinct ranges of mountains, viz.: the Taghkanic in the E. portion, the Peterboro' extending from N. to S., and the Palmerstown occupying the country between Lake George and Lake Champlain. Farms 3,037; manuf. 270; dwell. 8,043, and pop.—wh. 44,402, fr. col. 348—total 44,750. *Capitals*: Salem and Sandy Hill. *Public Works*: Rutland and Washington R. R.; Saratoga and Washington R. R.; Champlain Canal.

WASHINGTON county, *N. Car.* Situate E., and contains 378 sq. m. Drained by several small streams falling into Lake Phelps in the E., and Albemarle Sound in the N. Surface level, much of it being low and swampy; soil moderately fertile. Chief productions, cotton and Indian corn. Farms 444; manuf. 24; dwell. 670, and pop.—wh. 3,216, fr. col. 235, sl. 2,215—total 5,666. *Capital*: Plymouth.

WASHINGTON county, *Ohio.* Situate toward the S. E., and contains 612 sq. m. Muskingum r. passes centrally through it, by which and its branches, and by Little Muskingum r., and Duck, Wolf, Bear, and Cat creeks, it is drained. Surface in general is hilly and broken, there are, however, some tracts of level land along the Ohio and Muskingum rivers; soil fertile and adapted to grain. Staples wheat and Indian corn. Apple, pear, peach, and other fruit-trees produce well. It contains some salt-beds, and iron ore of a good quality is found. On Big and Little Muskingum rivers bituminous coal abounds. Farms 1,776; manuf. 108; dwell. 4,906, and pop.—wh. 29,149, fr. col. 391—total 29,540. *Capital*: Marietta. *Public Works*: Cincinnati and Marietta R. R.; Cincinnati and Belpré R. R., etc.

WASHINGTON county, *Oregon Ter.* Extends from the E. boundary of Clatsop co. to the Columbia and Willamette rivers, which make its N. E. and E. borders, and into these its rivers and creeks empty. Area about 5,000 sq. m. It is one of the most important counties of the Territory, both in regard to situation and resources; and being possessed of ample navigation and water-power, is destined to a high rank in wealth and prosperity. St. Helen's, on the Columbia, and Portland, and Linn City on the Willamette, are already flourishing towns. Farms 116; manuf. 5; dwell. 418, and pop.—wh. 2,643, fr. col. 8—total 2,651. *Capital*: Hillsboro'.

WASHINGTON county, *Penn.* Situate S. W., and contains 795 sq. m. Drained by branches of Monongahela r., which forms its eastern boundary, and by Buffalo, Raccoon, and Cross creeks. Surface somewhat elevated, and in parts much broken; soil generally fertile, and produces abundantly wheat, grain, and potatoes. A large quantity of live-stock is raised and exported. Coal of bituminous nature is found abundantly, and extensively mined. Farms 3,572;

manuf. 247; dwell. 8,045, and pop.—wh. 43,380, fr. col. 1,559—total 44,939. *Capital*: Washington. *Public Works*: Pittsburg and Steubenville R. R.; Hempfield R. R.

WASHINGTON county, *R. I.* Situate S., and contains 367 sq. m. Drained by Pawcatuck r., and Charles and Wood rivers, its chief branches, both of which supply good water privileges. Surface uneven; soil a strong gravelly loam, with clay intermixed, and is well suited for pasture. It has many fine harbors, and has great commercial advantages. Chief products, wheat, Indian corn, and potatoes. Farms 1,308; manuf. 95; dwell. 2,891, and pop.—wh. 15,911, fr. col. 519—total 16,430. *Capital*: Kingston. *Public Works*: Providence and Stonington R. R.

WASHINGTON county, *Tenn.* Situate E., and contains 512 sq. m. Drained by Nolichucky r. and its affluents, and branches of Watauga r., a tributary of Holston river. Surface hilly, and in parts somewhat mountainous and broken. Soil fertile, and produces good crops of wheat and grain. Pork is exported in large quantities. It has some important manufactures. A portion of the county is well timbered. Farms 922; manuf. 120; dwell. 2,155, and pop.—wh. 12,672, fr. col. 259, sl. 930—total 13,521. *Capital*: Jonesboro'.

WASHINGTON county, *Tex.* Situate E. centrally, and contains 937 sq. m. Drained by Yegua, Jackson, New Year's, and Caney creeks, by which good water-power is supplied. Surface undulating, and is mostly prairie land with occasional groves of timber; soil fertile, particularly on the streams, where it consists of a deep black loam. Staples, cotton, corn, and potatoes. The soil of the prairies is generally rich, and makes excellent pasturage. Farms 306; manuf. 0; dwell. 600, and pop.—wh. 3,166, fr. col. 0, sl. 2,817—total 5,988. *Capital*: Brenham.

WASHINGTON county, *Verm.* Situate in the centre, toward the N. part of the State, and contains 550 sq. m. Drained by Onion r. and its chief branches, which afford good water-power to the co. Surface hilly; soil in general fertile, and there is some fine land along the streams. There are some fine quarries of granite and slate found here. Chief productions, wheat, Indian corn, and potatoes. It has some important manufactures. Farms 2,104; manuf. 77; dwell. 4,442, and pop.—wh. 24,641, fr. col. 13—total 24,654. *Capital*: Montpelier. *Public Works*: Vermont Central R. R.

WASHINGTON county, *Virg.* Situate S. W., and contains 547 sq. m. Drained by New r., and branches of Great Kanawha and Clinch rivers. Surface diversified, mostly valleys between mountain ridges; soil various, in the valleys being fertile, and on the uplands adapted to grazing. The Blue Ridge forms its N. W. boundary. Chief productions, wheat and Indian corn, with pork, potatoes, etc. Farms 1,148; manuf. 112; dwell. 2,137, and pop.—wh. 12,372, fr. col. 109, sl. 2,131—total 14,612. *Capital*: Abingdon. *Public Works*: Virginia and Tennessee R. R.

WASHINGTON county, *Utah Ter.* Extends along the S. line of the Territory, from the Rocky mountains to the California line, and is 35 miles wide. Drained by Colorado river and its tributaries. Formerly a part of Iron county.

WASHINGTON county, *Wisc.* Situate E. toward the S., and contains 663 sq. m. Drained by Milwaukee and Menomonee rivers. Surface undulating; soil fertile. It is well timbered. Farms 1,353; manuf. 22; dwell. 3,770, and pop.—wh. 19,454, fr. col. 0—total 19,454. *Capital*: Port Washington.

WASHINGTON, p. city, *District of Columbia*: and cap. of the United States, beautifully and conveniently situate on the N. bank of Potomac r., between Convent creek and the Anacostis or Eastern Branch. Lat. 38° 55' 43" north, and long. 77° 1' 30" west from Greenwich. It is the first meridian of American geographers.

The site has a gently undulating surface. The city extends N. W. and S. E. about 44 m., and E. to S. about 24 m. The public buildings occupy the most elevated situations. The streets run N. and S. and E. and W., crossing each other at right angles, with the exception of 15, which point to the

States, of which they severally bear the names. The Capitol commands the streets called Maryland, Delaware, and Pennsylvania avenues; the President's House, Pennsylvania, Vermont, New York, and Connecticut avenues, and all these different intersections form 1,170 squares. Pennsylvania avenue, which stretches in a direct line from Georgetown to the Eastern Branch, passing the President's House to the Capitol, is 4 m. in length, and 160 feet wide between those edifices, and beyond them 130 feet. The streets, which are from 70 to 100 feet wide, will give a fine appearance to the city; but as yet few are built upon. The whole area of the city is about 8,016 acres, and its periphery about 14 miles.

Washington is nearly surrounded by a fine amphitheatre of hills of moderate elevation, covered with trees and shrubbery, and commanding from many points picturesque scenery, and extensive views of the "River of Swans," which descending from the Alleghany mountains and winding its way for nearly 400 m. through a fertile and most attractive country, expands into Chesapeake bay. The environs of the city abound in the most eligible sites for villas and country seats, and such will doubtless be multiplied, as the great advantages of the metropolis become more extensively known.

The first record in regard to the laying out of the city, is from the pen of Washington, dated 11th March, 1771, and in a letter dated 30th April of the same year, he calls it the "Federal City." Its present name was adopted by the commissioners appointed to lay it out. The original proprietors, in consideration of the benefits they expected to derive from the location of the seat of government, conveyed in trust to the commissioners, for the purpose of establishing the city, the whole of their respective lands which were included within the city limits, upon condition that after retaining for the public the ground of the streets, and any number of squares that the president might think proper for public improvements or other public uses, the lots should be equally divided between the public and the respective proprietors. By this means the public obtained possession of more than 10,000 lots, from which, in addition to a donation of \$192,000 from Maryland and Virginia, funds were to be raised to defray the expenses of the public buildings, etc. The city was founded, and the corner-stone of the Capitol laid with Masonic honors, on the 18th Sept., 1793, and the city was first occupied as the seat of government in 1800.

The public buildings of Washington are the Capitol, the Executive Mansion, the State Offices, Treasury Buildings, War Offices, Navy Offices, Offices of the Secretary of the Interior, Post-offices, Office of the Attorney-general, National Observatory, the Arsenal, Navy Yard, Smithsonian Institute, National Medical College, Columbian College, Coast Survey Office, City Hall, National Institute, numerous churches, the hotels, and many others devoted to a variety of useful, literary, and benevolent purposes.

The Capitol is situate on an area of 30 acres, inclosed by an iron railing. The building stands on the western portion of this plat, and is so elevated as to command a view of the entire city, including Georgetown Heights, the windings of the Potomac, and the city of Alexandria. It was commenced in 1793. During the embargo the works were suspended, and as the British subsequently demolished much of what had been accomplished, the government in 1815 found it necessary to reconstruct the whole edifice. The exterior exhibits a rusticated base of the height of the first story, the two other stories are comprised in a Corinthian elevation of pilasters and columns; these columns, which are 30 feet in height, form an advancing portico on the east, 160 feet in extent, the centre of which is crowned with a pediment of 80 feet span; while a receding loggia, 100 feet in extent, distinguishes the centre of the west front. The building is surrounded by a balustrade of stone, and covered with a lofty dome in the centre, and a flat dome on

each wing. The dimensions of the building are: length of front 352 feet 4 inches, depth of wings 121 feet 6 inches, and the height to the top of centre dome 145 feet. The cost up to 1828, when it may be said to have been completed, was nearly \$1,800,000. During the session of Congress 1850-51, appropriations were made for the further enlargement of the Capitol by the addition of two new wings of 283 by 140 feet each wing; and when these are completed, the whole Capitol, including the space between the wings and the main building, will cover an area of four and one-third acres. The corner stone of the extension was laid by President Fillmore, on the 4th of July, 1851, with Masonic ceremonies, on which occasion the Hon. Daniel Webster delivered a brilliant oration.

The Senate Chamber is in the second story of the north wing, of a semicircular form, 75 feet long and 45 high; a screen of Ionic columns, with capitals, support a gallery to the east, forming a loggia below; and a gallery of iron pillars and railings of a light structure projects from the circular walls, and the dome ceilings are enriched with square caissons of stucco. The walls are partially covered with drapery, and columns of *breccia*, or Potomac marble, support the eastern gallery. The only painting which adorns the Senate Chamber is a portrait of Washington.

The Hall of Representatives is also of a semicircular form, and of course much larger than the Senate Chamber. It is in the second story of the south wing, 96 feet long and 60 feet high. It is surrounded with 24 columns of the variegated Potomac marble, with capitals of white Italian marble of the Corinthian order, and surmounting a base of freestone, and the dome of the hall is painted in imitation of that of the Pantheon of Rome. From the centre of the dome hangs a massive gilt chandelier, and high over the speaker's chair, which is elevated and canopied, is placed the model of a colossal figure of *Liberty*, supported by an eagle just ready to fly, the work of Italian artists named Causici and Valaperti. In front of the chair, and immediately over the main entrance, stands a statue in marble representing History recording the events of the nation. She is placed on a winged car, rolling around a globe, on which are delineated the signs of the Zodiac, and the wheel of the car is the face of the clock of the hall; and this is also the work of a foreign artist named Franzoni. Two full-length portraits—one of Washington and one of Lafayette—adorn the walls on either side of the chair, and in every direction are displayed ample folds of crimson drapery. The galleries of this hall are so extensive as nearly to encircle it, and the general arrangement of the room is such as to render the members and the audience as comfortable as possible.

The Rotundo occupies the centre, and is 96 feet in diameter and the same number of feet high. The dome is hemispherical and filled with large plain caissons; the room in its circuit is divided into eight panels, intended for paintings, seven of which are already filled; and stationed between these panels are four bas-relievs of historical subjects, one representing the *Preservation of Capt. Smith by Pocahontas*, one the *Landing of the Pilgrims on Plymouth Rock*, one the *Conflicts between Daniel Boone and the Indians*, and the other *Penn's Treaty with the Indians*. In addition to these, specimens of sculpture are also displayed, encircled with floral wreaths, the heads of *Columbus*, *Raleigh*, *La Salle*, and *Cutbot*—all these productions of the chisel being from the hands of *Causici* and *Cupellano*. In niches on the outside of the east door are also two statues of colossal size representing *Peace* and *War*, from the chisel of Persico. Of the paintings, four are by *Col. John Trumbull*, one by *Weir*, one by *Vanderlyn*, and one by *Chapman*—the order for the remaining vacancy not having yet been filled. The subjects of Trumbull's pictures are, the *Declaration of Independence*, the *Surrender of General Burgoyne*, the *Surrender of the British Army, commanded by Lord Cornwallis, at Yorktown, in Virginia*, and the *Resignation of General Washington at Annapolis*. The

subjects of the remaining pictures are the *Embarkation of the Pilgrims from Leyden, by Weir*; the *Landing of Columbus*, by *Vanderlyn*; and the *Baptism of Pocahontas*, by *Chapman*. As these illustrate scenes connected with the very earliest history of our country, none but the leading figures are to be considered in the aspect of authentic portraits.

The Congressional Library is unquestionably one of the chief attractions of the Capitol. The principal room, of which there are three, faces the W., and is a large and handsome affair, 92 feet long, 34 wide, and 86 high; divided into twelve alcoves, ornamented with fluted pilasters, and in every direction are displayed portraits and busts, cases of medals, and other works of art. The number of volumes which it contains is about 50,000. The original library, which was collected under the direction of Mr. Gallatin and Mr. Mitchell, in 1800, was destroyed by fire during the last war, and that which now enriches the Capitol, was founded upon one which was purchased by Congress, in 1814, of Thomas Jefferson, for \$23,000. The yearly average increase is about 1,800 volumes. The sum of \$5,000 is annually appropriated by Congress for miscellaneous books, and \$1,000 for law books. In 1851 the library lost many valuable works from an accidental fire.

The apartment for the accommodation of the Supreme Court is an ill-arranged, inconvenient, and badly lighted room, in the basement under the Senate Chamber. It is semicircular in shape, with manifold arches; and on the wall is an emblem of Justice, holding her scales, in bold relief, and also a figure of Fame crowned with the rising sun, and pointing to the Constitution of the United States. The members of the bar are accommodated with seats and desks in the body of the room; and the justices occupy a row of elevated seats, and appear in their official capacity clothed in black silk gowns or robes.

In addition to the apartments of the Capitol already specified, it should be mentioned, that there is also a large number of ordinary, but well-furnished rooms, which are occupied by the Vice-President, the Speaker of the House, and other officers, by the Postmasters of Congress, the Public Documents, and the committees of the two houses.

The Capitol grounds are not only extensive, but are kept in the very neatest order, constituting one of the pleasantest and most popular resorts for promenading to be found in the metropolis. They command most charming prospects of the surrounding country, are adorned with a great variety of American trees, fountains and basins of pure water enliven them in various parts, and an air of superior refinement is given to them by a number of pieces of statuary, the most attractive specimens being a statue of Washington, by Greenough, and a pair, of Columbus and an Indian Woman, by Persico, the former occupying the centre of a square east of the Capitol, and the two others appropriate places on the eastern portico.

Near the western entrance of the Capitol stands a monument erected by the officers of the navy to the memory of their brother officers who fell in the war with Tripoli. It is of marble, rises out of a pool or basin of water, and is 40 feet high. On one side of the base is a view of Tripoli and the American fleet, on another the words, "To the memory of Somers, Caldwell, Decatur, Wordsworth, Dorey, Israel," and on another side, a brief but comprehensive history. At the base of the column are four marble emblematic figures—Mercury, Fame, History, and America; the column has also appropriate embellishments, and is surmounted by an eagle.

The Executive Mansion is situated at the west end of the city, at the intersection of Pennsylvania, New York, Connecticut, and Vermont avenues. It occupies the centre of a plot of 20 acres, and has an elevation of 44 feet above the waters of the Potomac. The grounds are partially laid out in gardens, etc., but are still in an unfinished state. The mansion is 170 feet front and 86 feet deep, built of white

freestone, with Ionic pilasters, comprehending two lofty stories of rooms, crowned with a stone balustrade. The north front is ornamented with a lofty portico of four Ionic columns in front, and projecting with three columns. The outer inter-columniation is for carriages to drive under, and place company under shelter; the middle space is for those visitors who come on foot—the steps from both leading to a broad platform in front of the door of entrance. The garden front is varied by having a rusticated basement story under the Ionic ordonnance, and by a semi-circular projecting colonnade of six columns, with two flights of steps leading from the ground to the level of the principal story. The interior arrangements of the Executive Mansion are, of course, elegant and convenient, well adapted to the various purposes to which the building was designed.

In the centre of the small square immediately in front of the President's House, stands a bronze statue of Thomas Jefferson, executed by whom we know not, but presented to the government by Capt. Levy of the United States Navy, the present proprietor of Monticello, the former abode of Mr. Jefferson. It is a handsome piece of statuary, and in its present position has quite a commanding appearance. Directly across Pennsylvania Avenue from the above-mentioned square, is Lafayette Square, which has recently been laid out in fashionable style, and planted with new shrubbery. Mills' equestrian statue of General Jackson, which occupies its centre, is a work of superior merit. It is in bronze, and cast from certain cannon captured by General Jackson in some of his military engagements.

The State Department, which stands north-east of the President's House and within the same inclosure, is a plain brick building, two stories high, 160 feet long and 55 wide, with a broad passage on both floors, and containing in all 32 rooms. It contains a handsome library of books, maps, and charts, numbering perhaps some 15,000 distinct works, which are indispensable in the performance of the extensive and varied duties of the department. In addition to this collection, the Copyright Bureau contains some 10 or 12,000 volumes published in this country, which are kept with care as part and parcel of the archives of the government. It is the department through which alone the diplomatic corps and all foreigners can hold any intercourse with the government of the United States, and is of course the head-quarters of all the American ministers and consuls.

The Treasury Department stands at the eastern extremity of the President's Square, so called, and is a stone edifice, painted white, 340 feet long, and 170 wide, but when the northern and southern wings are added, it will be 457 feet in length. In front is an imposing colonnade, stretching the entire length of the building. It has three floors upon which business is transacted, on each of which are nearly fifty apartments. This is the department where all the financial and commercial affairs of the country are attended to. A good legal library is attached to this department.

The War Department building occupies the north-west corner of the President's Square, and is precisely similar in design to the State Department. It is the head-quarters of all the officers of the army, and the mainspring of all the military movements. This department comprises the War Office proper, the Quartermaster's Department, the Engineer's Department, Bureau of Topographical Engineers, Ordnance Office, Subsistence Department, Pay Department, Medical Department, Office of Adjutant-general, and the head-quarters of the Major-general or military Commander-in-chief of the Army. The War Department is furnished with a valuable library of some 10,000 volumes.

The Navy Department building lies directly west of the President's House, and in the rear of the War Department. It has five bureaus, exclusive of the Secretary's office, viz.: Bureau of the Navy Yards and Docks, Bureau of Construction, Equipment, and Repair; Bureau of Provisions and Clothing, Bureau of Ordnance and Hygrography, and Bureau of Medicine and Surgery.

The Department of the Interior, or Home Department, is the most extensive connected with the government. The building which it is destined to occupy is yet unfinished, but when completed, it will be the most extensive and most interesting in the metropolis. A portion of it is already occupied by one of the bureaus of the department (the Patent Office), and also by the museum of the National Institute. The titles of the bureaus connected with the Interior Department are as follows: Land Office, Patent Office, Indian Office, and Pension Office. As its name indicates, this department has to do exclusively with all those matters bearing upon the internal economy of the United States, and is, of course, increasing in importance with every successive year. A library of some 5,000 volumes is attached to this department. In the second story of the building now occupied by the Patent Office, are the invaluable relics of Washington, including his camp chest, the Original Declaration of Independence, the gifts presented from time to time to the government by foreign powers, Franklin's printing press, a collection of Indian portraits by King, the treasures of the National Institute, interesting memorials of the late James Smithson, and the extensive and rare treasures secured by the U. S. Exploring Expedition, under Captain Wilkes, in almost every department of national history and human ingenuity. Every thing here is open to the inspection of the public. In the first story of the same building are collected all the models of the machines which have been patented since the foundation of the government.

The Post-office Department is of white marble, and after the Corinthian order. It is 3 stories high, and 204 feet long, and 102 deep; it contains 27 rooms on each floor, making 81 in all. It occupies a central position in the city, near the Department of the Interior, both of which are about half a mile from the President's Square and the other departments.

With regard to the Office of the Attorney-general, which we have classed with the Executive branches of the government, we have only to say that it derives its chief attraction from the person who may occupy it, who must be, of necessity, a man of distinguished ability. Rooms are assigned to him in the Treasury building, and it is to him that all knotty questions, in all the departments, are submitted for final settlement.

The National Observatory is situated on the banks of the Potomac, in an oblique direction from the President's House, toward Georgetown. The site is a beautiful one, having a commanding view of Washington and Georgetown, of the Potomac river, and surrounding country as far down as Fort Washington, opposite to Mount Vernon. It is a naval institution, under the control and management of Lieutenant M. F. Maury, U. S. N. The force employed at it consists principally of naval officers. Besides the astronomical duties of the establishment, here are kept all the nautical books, charts, and instruments belonging to the navy. The apartment in which the chronometers are kept is a very interesting one. Before one of these instruments is purchased by government, it is required to be put on trial by the Superintendent of the Observatory for one year; during which period it is compared daily with the great astronomical clock of the Observatory, which regulates the time for the whole city. The temperature of the room in which it is kept is also carefully observed, and recorded every day. The test is a severe one, and in case the instrument fails to come up to it, it is returned to the maker at the end of the year. The observations on the temperature in connection with the performance of the chronometer, enable the maker to improve the instrument, and on a second trial of another year it rarely fails to pass. There are from 60 to 100 chronometers always in this room, all of which are daily wound, and compared and treated in the manner described. Thus a complete and minute history is kept of each one. Here also are conducted the celebrated researches connected with the "wind and current charts,"

the habits of the whale, and a variety of phenomena connected with the great deep. The National Observatory of Washington occupies a high rank among the observatories of the world, there being but two—those of Russia and Greenwich—superior to it. The largest telescope, called the equatorial, is a 14 feet refractor, with an object-glass of 9 inches. It is mounted in the revolving dome on the top of the main building; and is so arranged with clock-work and machinery, that being directed to a star in the morning, it may be left alone, when on returning to it in the evening, it will have followed the path of the star so exactly, that it will be found still pointing to the star, and the star will be visible through it. With its powers the stars are visible at mid-day. In one room below are the meridian and mural circles; in another, the transit instrument; in another, the prime vertical instrument; and in another yet, the great refraction circle, invented by the superintendent: it is made by Ertel & Son, Munich, and taken altogether is, perhaps, one of the finest instruments anywhere to be found. But perhaps the most wonderful object at this interesting establishment is the electro-chronograph, invented by Dr. Locke, of Cincinnati. It is in the room with the transit instrument, and is so arranged, by its connection with an electrical battery in the building, that its ticks may be heard in any part of the country to which the magnetic wires lead, provided they be put in connection with it. Thus it may be made of itself to record the time, and in such a manner, that the astronomer in Boston, New Orleans, or elsewhere, will know it, and tell the time of day by his clock, as well as one who stands before it and reads the hands on its face. The Observatory regulates the time for Washington and Georgetown by the falling of a ball. At ten minutes before mean noon every day, a large black ball is hoisted to a flag staff, standing on the top of the dome. This is to give warning for those who wish to get the *exact* time of the day to look out. Precisely at twelve the ball drops. The whole city is informed of the exact time.

The Arsenal occupies a fine position on the extreme southern point of the city (called Greenleaf's Point), at the junction of the eastern branch with the Potomac, commanding a beautiful and extensive view, over a broad expanse of water, toward the cities of Washington and Georgetown on the N., and Alexandria on the S. The channels of both rivers running near the Arsenal shore, afford all requisite facilities for receiving and shipping ordnance and other military stores. Although this site was originally reserved for the purpose of an arsenal, it was not occupied by any building of importance until after the peace of 1814, when the building of the present establishment was commenced under the direction of the late Col. George Bomford. From the small square embraced in the first plan, the buildings have been gradually extended until they occupy nearly the whole reservation, and form one of the principal arsenals of construction in the United States. The workshops contain much useful and ingenious machinery, propelled by steam, for manufacturing gun-carriages and equipments for artillery, and for preparing ammunition of all kinds. Among these may be noticed particularly the machines for planing and boring iron and wood, those for tenoning and morticing the spokes and hubs of wheels; Blanchard's ingenious lathe for turning irregular forms in wood, such as spokes, axe-handles, etc.; the machinery for making leaden bullets by pressing them out of the bar-lead instead of casting them; and, above all, the beautiful machine for making and charging percussion caps for small arms, invented by Mr. George Wright, a workman at the Arsenal. By this last-mentioned machine, a sheet of copper being inserted on one side, and some percussion powder put in a hopper on the other, the finished caps are produced without any further agency of the workman. In the spacious storehouses of the Arsenal are to be seen arms and equipments for the troops; also a large number of gun-carriages, and other apparatus for the service of the artillery in

the forts and in the field, from the ponderous Columbiad for the defense of the coast, to the little mountain howitzer, which may be transported, with its miniature smith's forge, on the back of a mule. The model office contains a collection of models or patterns of the various arms and military equipments used in our service, and also of such of those used in the armies of other nations as have been obtained by the ordnance department. Here may also be seen some specimens of old and new inventions, repeating arms, revolvers, etc., which have been suggested at home or abroad by the organ of destructiveness. In the *gun lot* are arranged many pieces of ordnance and piles of balls, mostly of heavy calibre for the armament of the forts. In front of the old Arsenal Square a small collection of foreign brass cannon will attract the notice of the visitor, who will perceive by the inscriptions that some of them are trophies of the success of our arms at Saratoga, Yorktown, Niagara, and Vera Cruz. The guns and cannons of Duncan's field-battery, which performed distinguished services on nearly every field of battle in the Mexican War, are likewise preserved at the Arsenal as a saluting battery. On the W. side of the Arsenal grounds, near the river, are 2 pyramidal structures, which often attract the curiosity of visitors, and of persons passing by the Arsenal. These buildings contain an apparatus called a Ballistic Pendulum, which is used for testing the force of gunpowder when fired in heavy ordnance, and also for trying many other interesting experiments in gunnery.

The Navy Yard is situated on the "Anacostia," a branch of the Potomac r., at the southern termination of Eighth Street, east. It was established in the year 1800. The area covers about 20 acres, and is inclosed by a substantial brick wall, having a principal entrance at the foot of Eighth Street, through a handsome arched gateway. Several comfortable residences have been erected for the accommodation of the commodore, the executive officers, the first lieutenant, surgeon, sailing-master, boatswain, and gunner, whose official duties require their constant attendance in the yard. The mechanical operations of this establishment are various and extensive, and the skill of the workmen and the excellence of the materials employed have been satisfactorily tested in every sea. Anchors of all sizes, for the naval service, are manufactured by the use of two heavy steam hammers (termed the "Nasmyth Hammer"), one of which weighs 3,000 pounds, the other 2,240 pounds. The forges for this work are kept in blast by a fan-blower attached to the steam-engine in the machinist's department. There is also in operation, in the anchor department, a direct action steam-hammer (called the "Kirk Hammer"), in connection with a blast-furnace for working up into looms and bars all the scrap iron of the navy. The massive chain-cables are made in another shop, which is provided with a powerful hydrostatic press for testing their strength. These cables are highly esteemed for their superior finish, great strength, and durability. Another department is engaged in the manufacture of galleys, cabooses, and copper powder-tanks, and of the various kinds of brass work appertaining to ships of war. The different machines employed in making these articles are driven by a steam-engine of about 15 horse-power. A brass foundry is connected with this range of buildings on the eastern side of the yard. A large and extensive iron foundry has recently been erected of sufficient capacity and with the necessary facilities for molding and casting the heaviest work. Connected with this foundry are the machines for boring, turning, and planing the steam cylinders and other massive machinery required for the naval service. Adjoining the iron foundry are the ordnance and boiler-making departments, which are provided with a steam-engine of about 12 horse-power. The ordnance department is engaged in the fabrication of light brass ordnance, howitzers for boat and land service, of shot and shells, percussion-caps, musket and pistol balls, etc. Some of this machinery is very ingenious and highly inter-

esting. The boiler shop contains all the machinery necessary for the construction of boilers. Close by this range of buildings is a very extensive machine-shop, in which are placed all the tools required in the manufacture of steam-engines and machinery of every description. When completed it will afford room for the employment of from 150 to 200 workmen. Attached to this shop is an engine of 60 horse-power, which also gives motion to the block-making machinery, and to the fan-blowers of the anchor-making department. On the western side of the yard is the pyrotechnical laboratory, in which are prepared all the articles for the navy appropriate to this department. There are two large ship-houses for building ships, under one of which is about to be constructed a marine railway for hauling up steamers for repair. The grounds are beautifully laid out, the avenues shaded with fine trees, the plats neatly inclosed, and the whole preserved in handsome order.

The Smithsonian Institution was founded upon a bequest of more than half a million of dollars made to the United States by an Englishman named James Smithson. The object of the bequest, according to his will, was "to found at Washington, under the name of the Smithsonian Institution, an establishment for the increase and diffusion of knowledge among men." On the 1st of July, 1836, Congress solemnly accepted this important trust, and the money was paid into the Treasury of the United States in 1838. The Act of Congress establishing the Institution as it now exists, was passed in 1846. The Institution is situated on the Mall, below the Capitol; and though the edifice is yet in an unfinished state, it presents a noble appearance, and is unquestionably one of the great attractions of the metropolis. The style of the architecture is the Romanesque, the material a reddish freestone of fine grain; its extreme length is 450 feet, its width 140 feet, and it has nine towers, varying in height from 75 to 150 feet. The grounds which surround it are very extensive, and are now in progress of being beautified. The library room is capable of holding 100,000 volumes. The building is supplied with a lecture-room, which will seat 1,200 persons; and its museum is 200 feet long; its rooms for chemical experiments are more spacious and convenient than any to be found in the country; and in the western wing, which is 120 feet long, will hereafter be located a gallery of art.

The Washington Monument stands on the Mall, between the President's House and the Potomac, and embraces the idea of a grand circular colonnaded building, 250 feet in diameter, 100 feet high, from which springs an obelisk shaft, 70 feet in diameter at the base, and 500 feet high, making a total elevation of 600 feet. The vast rotundo, forming the grand base of the monument, is surrounded by 30 columns of massive proportions, 12 feet in diameter, and 45 feet high, elevated upon a base of 20 feet in height and 300 feet square, surmounted by an entablature 20 feet high, and crowned by a massive balustrade 15 feet in height. The terrace outside the colonnade is 25 feet wide, and the walk within the colonnade 25 feet. The front portico is adorned with a triumphal car and statue of the illustrious chief; and over each column around the entire building are sculptured escutcheons, coats of arms of each State of the Union, surrounded by bronze civic wreaths, banded together by festoons of oak-leaves, while the centre of the portico is emblazoned with the coat of arms of the United States. Around the rotundo are stationed statues of the Signers of the Declaration of Independence: in niches prepared for the purpose, statues of the Fathers of the Revolution, cotemporary with Washington; and directly opposite to the entrance is placed a statue of Washington himself. The interior of the shaft is embellished with a great variety of inscriptions; at one point it is ornamented with four of the leading events of Washington's career, sculptured in *basso relievo*, above which is placed a single star, emblematic of the glory which the name of Washington has attained: and in the centre of

the monument will be placed the tomb of the Father of his Country.

The National Medical College, instituted in 1823, is now in successful operation. It was, until a few years past, known as the Medical Department of the Columbian College, from which institution it derives its authority to confer degrees, under an act of incorporation from the Congress of the United States. The requisites for graduating are, that the candidate shall have attended the lectures of each professor two full courses, or one full course in this school, and one full course in some other respectable institution. He must have a fair moral character, and he shall have dissected during at least one session. He shall have entered his name with the dean of the faculty as a candidate for graduation, and delivered to him an inaugural dissertation upon some medical subject, thirty days before the close of the session, and pass a satisfactory examination.

The Columbian College, which was incorporated in 1821, is beautifully situated on an eminence, adjoining the City Corporation, on the north, and on Fourteenth Street, west. It is a fine brick edifice, four stories high, and overlooks the city, the Capitol, and other public buildings; and commands a fine view of the Potomac, with the surrounding country, for many miles in extent. In beauty and healthfulness of position, it is unsurpassed; and its local advantages are such as no other situation in the country can afford. The College has a good library, a valuable philosophical apparatus, and other means and facilities for pursuing a thorough and liberal course of studies. The last catalogue (1850) embraces a president, and twelve professors and teachers—including those of the National Medical College, which is under the same corporation—100 students, and between 200 and 300 alumni.

The Coast Survey Office Buildings, occupied for the use of the United States Coast Survey, are situated on the west side of New Jersey Avenue, about a sixth of a mile from the Capitol. They consist of four old houses, in a block, presenting a decidedly rusty exterior, and in no way looking like public buildings.

The National or Congressional Burial Ground, situated about one mile east of the Capitol, embraces about ten acres, commands an extensive view of the country, and is well inclosed with a brick wall, laid out with taste, and beautified with trees and shrubbery. It was located in 1807, and has since been in the keeping of an incorporated company. The monuments are manifold, and many of them beautiful; and in addition to several private vaults is one spacious and well constructed, inclosed by a neat railing, built by the order and the expense of Congress, as a place of deposit for the dead whose remains it may be the purpose of friends subsequently to remove.

The City Hall, the official home of the City Fathers, was commenced in 1820, and finished in 1850, it having remained a kind of ruin during most of the intervening time. It is a large and handsome edifice, and occupies a commanding position on Judiciary Square, is 200 feet in length, and after the stucco style of architecture. The Circuit and Criminal Courts hold their sessions in this hall; also the members of the City Councils. The mayor has his office here, and so also have a large number of the city attorneys.

The Public Schools of Washington are quite numerous: of free public schools there are four, with quite a large retinue of primary schools, which are carried on at an annual expense of about \$12,000. Select schools and seminaries for the education of both sexes also exist in different parts of the city, several of them of a high and established character. Public attention has been strongly directed to these institutions, and perhaps in no other city are there to be found superior advantages of education, which are annually on the increase. There are also several excellent boarding-schools in Washington, and two or three in Georgetown.

The National Institute was founded in 1840, and has for its object the promotion of science in all departments. It holds its meetings and has its head-quarters at the Patent Office. It has a miscellaneous library of nearly 4,000 vols., pamphlets, maps and charts, with a few interesting manuscripts, and in the cabinet are many medals and coins. The library is always open to the inspection of the public.

The Metropolis is well supplied with churches, and considering its extent is quite as well supplied with eloquent preachers as any city in the Union. Of Baptist churches there are four—one on Tenth Street, one on E., and two on Virginia Avenue; their congregations are all large, and their pastors popular. Of Catholic churches there are four—St. Matthew's, on H. street; St. Peter's, on Second; St. Patrick's, on F.; and St. Mary's, on Fifth. Of Episcopal churches there are five, viz.: Christ church, on G Street; St. John's, on H; Trinity, on Third; Epiphany, on G; and Ascension, on H. The Trinity church edifice is the handsomest, devoted to religion, in the city. In this church, as indeed in all other churches of the city, a certain number of pews are assigned to strangers. St. John's church stands directly in front of the President's House. There is also one Quaker meeting held in the city on I Street; and two Lutheran churches, the English on H Street, and the German on G Street. Of Methodist churches there are seven in the city—one on 4th, one on 14th, one on 5th, one on Massachusetts Avenue, one on Maryland Avenue, one on 9th Street, and one on Virginia Avenue. Of Presbyterian churches there are six—one on F Street, one on 5th Street, one on 4th Street, one on H, and two on 9th Street. There is also one Unitarian church in the city, on D Street; and of colored churches, there are some half dozen scattered about the city.

Hotels are quite numerous, but not sufficiently so, even now, to accommodate the public. With one or two unimportant exceptions, they are all situated on Pennsylvania Avenue. The names of the principal ones are the National Hotel, Brown's Hotel, Willard's Hotel, Gadsby's Hotel, the Irving Hotel, the United States Hotel, the Potomac Hotel, and Tyler's Hotel. The finest hotel edifice in Washington is that recently erected by Mr. Brown, which is very large, and has a beautiful marble front. All these hotels are supplied with the best of a first-rate market, and with numerous and generally accommodating servants. From the doors of each, the stranger may at almost any moment step into a convenient and elegant omnibus, and go to almost any part of the city he may desire. Pop. in 1800, 3,210; in 1810, 8,208; in 1820, 18,247; in 1830, 18,827; in 1840, 23,364; and in 1850, 40,001.

The general statistics of Washington will be found under the caption of DISTRICT OF COLUMBIA.

WASHINGTON, p. v., and cap. Hempstead county, *Ark.*: 101 m. S. W. Little Rock. It contains the county buildings, an United States land office, stores, etc. The "Washington Telegraph" (whig) is published weekly. Pop. 469.

WASHINGTON, v., Yolo co., *Calif.*: on W. bank of Sacramento river, 49 m. E. N. E. Vallejo. In 1852, it contained 4 hotels, 2 stores, and 3 foundries.

WASHINGTON, t. and p. v., Litchfield county, *Conn.*: 32 m. W. by S. Hartford. Surface elevated. Drained by Shepaug river, on which the v. is situate. It contains 3 churches and a factory of satinets. The t. also contains several mills, and quarries of limestone and marble. Pop. of t. 1,502.

WASHINGTON, p. v., and cap. Wilkes county, *Ga.*: 52 m. N. E. by N. Milledgeville. It contains a brick court-house and jail, 1 bank, an academy, 3 churches, Masonic hall, etc. The "Washington Gazette" is issued weekly. The construction of a branch R. R. from the Georgia R. R. to this place is contemplated. Pop. about 550.

WASHINGTON, p. o., Tazewell co., *Ill.*: on E. side of Holland's Grove, 62 m. N. N. by E. Springfield.

WASHINGTON, p. v., and cap. Daviess co., *Ind.*: 4 m. E. of W. fork of White r., 90 m. S. W. by S. Indianapolis. It contains good county buildings and 5 churches. It was

laid out in 1817. The "Literary Journal" is here published. Pop. 2,578.

WASHINGTON, p. v., and cap. Washington county, *Ia.*: E. side of Adams creek, 25 m. S. by W. Iowa City. It is well situated on a fine prairie, contains the county buildings, etc., and is a thriving v. The Dubuque and Keokuk R. R. will pass through the place. Pop. 742.

WASHINGTON, p. v., and cap. Mason county, *Ky.*: 60 m. E. N. E. Frankfort. It contains the county buildings, 4 churches, an academy, etc. The Lexington and Maysville R. R. passes through it. Pop. about 650.

WASHINGTON, p. v., St. Landry par., *La.*: on E. bank of Vermillion r., 52½ m. W. by N. Baton Rouge. It is at the head of steamboat navigation, contains several stores, a Catholic church, etc. Pop. about 250.

WASHINGTON, t. and p. v., Lincoln county, *Me.*: 22 miles E. S. E. Augusta. Drained by branches of Muscongus r., one of which rises in a large pond in the centre of the t. N. of the v. Pop. of t. 1,756.

WASHINGTON, t. and p. v., Warren co., *N. Jer.*: 87 m. N. by W. Trenton. Drained by the Musconetong r., which bounds it on the S. E., and Pohatcong creek. Population of t. 1,567.

WASHINGTON, t., p. v., and sta., Berkshire county, *Mass.*: 104 miles W. Boston. Surface very diversified; soil best adapted to grazing. The Western R. R. passes through the v., 13 m. from Pittsfield, 40 m. from Springfield, 133 m. from Boston. Pop. of t. 953.

WASHINGTON, t. and p. o., Macomb co., *Mich.*: 76 m. E. Lansing. This is one of the most fertile and best cultivated agricultural townships in the co. Drained by branches of Clinton r. in its N. E. corner is the thriving v. of Romeo. Pop. of t. 1,541.

WASHINGTON, p. o., Adams co., *Miss.*: 6 m. E. Natchez, 82 m. S. W. by W. Jackson. Lat. 31° 36' N.; long. 91° 20' W. It contains 2 academies, 2 churches, stores, etc. Pop. about 400.

WASHINGTON, p. v., Franklin county, *Mo.*: on S. bank of Missouri r., 63 m. E. Jefferson City.

WASHINGTON, t. and p. v., Sullivan co., *N. Hamp.*: 27 m. W. by S. Concord. Drained by Ashuelot and Contoocook rivers, which rise from large ponds, of which the town contains sixteen, abounding with fish, and surrounded by beautiful scenery. Surface hilly; soil moist and deep. Pop. of t. 1,054.

WASHINGTON, t. and p. o., Duchess co., *N. Y.*: 60 m. S. Albany. Surface rolling and hilly. Drained by small creeks. Contains several cotton factories, tanneries, with flouring, grist, and saw mills. Pop. 2,805.

WASHINGTON, p. v., port of entry, and cap. Beaufort co., *N. Car.*: on N. side of Tar r., at its entrance into Pamlico r., 91 m. E. by S. Raleigh. It contains the court-house, jail, 3 churches, and 2 banks, cap. \$300,000. The "North State Whig" is issued weekly. Vessels drawing 9 feet water can come to its wharves. The total tonnage of Washington district on June 30th, 1850, was 5,703 tons, chiefly employed in the coasting trade. Pop. of v. about 1,300.

WASHINGTON, p. v., and cap. Fayette co., *Ohio*: 31 m. S. S. W. Columbus. It contains the county buildings, etc., and a branch of the State bank of Ohio, and is on the line of the Cincinnati, Wilmington, and Zanesville R. R. The "Fayette New Era" (whig) is here published. Pop. 569.

WASHINGTON, t. and p. v., Guernsey county, *Ohio*: 79 m. E. by N. Columbus. Pop. of v. 737; pop. of t. including village 1,729.

WASHINGTON, p. b., and cap. Washington county, *Penn.*: 170 miles W. Harrisburg. It contains the court-house and jail, a female academy, and 5 churches. Washington College, here located, was chartered in 1806; in 1850 it had 8 instructors, 137 students, 441 alumni, and 3,300 volumes in its libraries. The b. also contains a woolen factory, with various manufacturing establishments, and 1 bank, capital \$120,000. Three newspapers are published, "The Com-

monwealth" (whig), "W. Reporter" (whig), and "W. Examiner" (dem.) The Hempfield R. R. passes through this place. Pop. in 1840, 2,062; in 1850, 2,662.

WASHINGTON, p. v., and cap. Rhea co., *Tenn.*: on W. side Tennessee r., 108 m. E. S. E. Nashville. It contains the co. buildings, several stores, etc. Pop. about 150.

WASHINGTON, p. v., and one of the caps. Washington co., *Tex.*: on W. bank of Brazos river, opposite the mouth of Navasoto r., 94 m. E. Austin City. The "Lone Star," semi-weekly, and "Texas Ranger," weekly, are published at this place. It is beautifully situated on high post-oak land; and the surrounding country, being diversified by numerous hills, presents delightful scenery. It contains a court-house and jail, stores, etc.

WASHINGTON, t. and p. v., Orange county, *Verm.*: 19 m. S. E. by S. Montpelier. Soil fertile; drained by several small creeks. The inhabitants are chiefly engaged in farming, etc. The v. is neatly built. Pop. of t. 1,348.

WASHINGTON, p. v., and cap. Rappahannock co., *Virg.*: 87 m. N. N. W. Richmond. It contains the co. buildings, several stores, an academy, and church. Pop. about 400.

WASHINGTON lake, Yolo county, *Calif.*: 52 m. N. N. E. Vallejo, 3 m. long, and $\frac{1}{4}$ m. wide.

WASHINGTON COLLEGE, p. o., Washington county, *Tenn.*: 231 miles E. Nashville. Washington College, here located, was founded in 1795; in 1850 it had 3 professors, 116 alumni, 22 students, and 1,800 volumes in its libraries.

WASHINGTON HOLLOW, p. o., Dutchess co., *N. Y.*: 62 m. S. Albany.

WASHINGTON MILLS, p. o., Oneida county, *N. Y.*: 80 m. W. N. W. Albany.

WASHINGTONVILLE, p. v. and sta., Baltimore co., *Md.*: on Baltimore and Susquehanna R. R., 6 m. N. Baltimore.

WASHINGTONVILLE, v. and sta., Orange co., *N. Y.*: on Newburg Branch R. R., 12 m. Newburg, 7 m. Chester.

WASHINGTONVILLE, p. v., Columbiana co., *Ohio*: 128 m. N. E. by E. Columbus.

WASHINGTONVILLE, p. v., Montour co., *Penn.*: 54 m. N. by E. Harrisburg.

WASHITA county, *Ark.* Situate S., and contains 815 sq. m. Drained by Washita r. and its branches. Surface generally even; soil fertile, and adapted to cotton. Timber is found in some quantity. Farms 697; manuf. 1; dwell. 1,122. and pop.—wh. 6,283, fr. col. 0, sl. 3,304—total 9,591. *Capital*: Camden.

WASHITA parish, *La.* Situate N., and contains 752 sq. m. Drained by Washita r. and its branches. Surface diversified; much of the land is covered with pine timber, and a portion of it is rendered unfit for cultivation on account of its low situation; soil, where fit for tillage, is productive. Staples, cotton and Indian corn. Farms 242; manuf. 4, dwell. 442, and pop.—wh. 2,293, fr. col. 7, sl. 2,708—total 5,008. *Capital*: Monroe.

WASHITA, p. o., Grayson county, *Tex.*: 237 m. N. by E. Austin City.

WASHTENAW county, *Mich.* Situate S. E. of the Southern Peninsula, and contains 720 sq. m. Drained by the Huron, Saline, Macon, and Raisin rivers, and Mill, Honey, Mullet's and Paint creeks. Surface slightly undulating, and diversified with numerous lakes; soil very productive, being a rich black loam with clay intermixed. There is some prairie land and some good timber in the co. Fine water-power is supplied by the branches of Huron and Raisin rivers. The principal productions are wheat, Indian corn, and potatoes. Agriculture is the leading pursuit. Farms 2,543; manuf. 154; dwell. 5,142, and pop.—wh. 28,343, fr. col. 224—total 28,567. *Capital*: Ann Arbor. *Public Works*: Michigan Central R. R.

WASSAIC, p. o. and sta., Dutchess co., *N. Y.*: on the Harlem R. R., 85 m. from New York, 69 m. from Albany.

WASSAWA lake, *Wis.*: in S. W. part of La Pointe co., 7 m. long, and 4 m. wide, connecting by short outlet with St. Croix river.

WASSONVILLE, p. o., Washington co., *Virg.*

WATAB, p. v., Benton co., *Minn. Ter.*: on E. bank of Mississippi r., opposite the mouth of Watab r., 72 m. N. W. St. Paul; by the river 82 miles. It was laid out in 1850 by Messrs. Gilman, Vincent, and Co. This was the highest point attained by the volunteers in the Winnebago campaign of 1850.

WATEREE river, *S. Car.*: rises in N. Car., but in that State is called the Catawba. In S. Car. it flows through the N. central portion of the State, in general course S. by E., and near the centre of the State it unites with Congaree r., forming Santee river.

WATAUGA county, *N. Car.* Situate N. W., and contains 543 sq. m. Drained by Stony fork of Yadkin r., and affluents of New river. Surface mountainous, having the Blue Ridge passing through it; soil in the valleys and most of the level portions is fertile, and adapted to grain. It is well wooded. Farms 442; manuf. 1; dwell. 569, and pop.—wh. 3,242, fr. col. 29, sl. 129—total 3,400. *Capital*: Boone.

WATAUGA BEND, p. o., Washington co., *Tenn.*: 242 m. E. by N. Nashville.

WATENSAW, p. o., Monroe co., *Ark.*: 60 m. E. Little Rock. WATERBORO', t. and p. v., York co., *Me.*: 72 m. S. W. Augusta. Surface diversified; drained by head branches of Mousum r., and by Little Ossipee r. The inhabitants are mainly engaged in farming, etc. The York and Cumberland R. R. will pass through S. E. part of the town. Pop. of t. 1,989.

WATERBORO' CENTRE, p. o., York co., *Me.*: 71 m. S. W. Augusta.

WATERBURG, p. o., Tompkins co., *N. Y.*: 148 m. W. by S. Albany.

WATERBURY, t., p. b., and sta., New Haven co., *Conn.*: on both sides of Naugatuck r., 19 m. N. N. W. New Haven, 25 m. S. W. Hartford. The Naugatuck R. R. passes through the v. 82 m. from Bridgeport, 30 m. from Winsted. The t. has generally a rough surface. The Naugatuck r. and its branches afford great water-power, well improved by numerous factories. Of these, the principal are—that of the "American Pin Company," which (with another at Poughkeepsie, are the only ones of the kind in the Union) has a capital of \$100,000, employing 150 operatives; three factories of gilt and plated buttons, silver ware, etc.; Indian-rubber webbing factories; rolling mills of brass and copper, making articles of all sorts, and the woolen factories. The manufacturing interests of this place have for several years been steadily and rapidly increasing. During 1851 and '52, 21 manufacturing establishments were organized with an aggregate capital of over \$1,000,000. The capitalists thus interested, and the citizens generally, are among the most enterprising in the State. The b. is generally well built, with many elegant dwellings. It contains a bank, with a capital of \$510,000, two first-class hotels, a good high-school, with fine building, and 6 churches, of which the Episcopal Society has a superior church edifice. The "Waterbury Freeman" (fam.) is issued weekly. Pop. of t. in 1840, 3,668; in 1850, 5,137.

WATERBURY, p. v. and sta., Washington co., *Verm.*: 12 m. N. W. Montpelier. Drained by Waterbury river and other branches of Onion r., which bounds it on the S. W. The v. near Onion r. is neatly built, and contains 2 churches. The Vermont Central R. R. passes through it 88 m. from Windsor, 69 m. from Rouse's Point. The "Industrial Excelsior" (advertising) is issued weekly. Pop. of t. 2,352.

WATERFORD, t., p. v., and sta., New London co., *Conn.*: 39 m. S. E. Hartford. Bounded S. by Long Island Sound, and E. by Thames r. Surface uneven; soil gravelly loam. Drained by Jordan and Niantic rivers, the latter flowing into Niantic bay, which sets up from the sound 4 miles—is navigable for sloops, and is quite a resort for fishermen. The village, situate centrally 5 m. W. New London, is neatly built. The sta. is on the New Haven and New London R. R., 4 m. S. W. New London. Pop. of t. 2,262.

WATERFORD, t. and p. v., Oxford co., *Me.*: 49 m. W. by S.

Augusta. The t. contains numerous large ponds, with level surface and fertile soil. Crooked river flows through its N. and N. E. part. Pop. of t. 1,448.

WATERFORD, p. o., Racine co., Wis. : on E. side Fox r., 65 m. E. S. E. Madison.

WATERFORD, t. and p. o., Oakland county, Mich. : 60 m. E. by S. Lansing. It contains a large number of ponds, which with their tributaries and outlets water it abundantly; also 2 large flouring-mills. Pop. 1,085.

WATERFORD, p. v., Marshall co., Miss. : on small branch of Tallahatchie r., 165 m. N. by E. Jackson.

WATERFORD, p. o., Fulton county, Ill. : on E. side Spoon river, 44 m. N. W. by N. Springfield.

WATERFORD, p. o., Spencer county, Ky. : 29 m. S. W. Frankfort.

WATERFORD, t. p. v., and sta., Saratoga co., N. Y. : 10 m. N. Albany. Bounded E. by Hudson r., and W. by Mohawk river, which unite at S. end of the t. Surface rolling; soil alluvial and sandy. The v. is on W. bank of Hudson r., at the head of sloop navigation. The Champlain Canal passes through it, and communicates with the Hudson by locks. The Rensselaer and Saratoga R. R. also passes through, 4 miles from Troy, 28 m. from Saratoga. The trade carried on by these annually is very extensive. The manufactures of the v. are also of large amount and importance. Here are 5 churches, 2 academies, and 1 bank, capital \$50,000. The v. is connected with Lansingburg by a bridge across the Hudson. The "Sentinel" is here published. Pop. of v. about 1,800. Pop. of t. in 1840, 1,824; in 1850, 2,688.

WATERFORD, t. and p. v., Washington co., Ohio : on both sides of Muskingum r., 74 m. E. S. E. Columbus. Surface rolling and broken; soil fertile on the r. The village, on S. bank of the river, contains several mills, etc. Pop. of t. in 1840, 1,166; in 1850, 1,693.

WATERFORD, t. and p. b., Erie county, Penn. : 195 m. N. W. by W. Harrisburg. The b. contains several stores, and 498 inhabitants. The Sunbury and Erie R. R. will pass through it. Pop. of t. about 1,300.

WATERFORD, sta., Providence co., R. I. : on Blackstone river, and Providence and Worcester R. R., 18 m. from Providence, 25 m. from Worcester.

WATERFORD, p. v., Gibson co., Tenn. : on branch Obion river, 110 m. W. by S. Nashville.

WATERFORD, t. and p. v., Caledonia co., Verm. : 81 m. E. by N. Montpelier. Bounded S. by Connecticut r. The Connecticut and Passumpsic Rivers R. R. passes through the W. corner of the t., having a station at Passumpsic, 4 m. from St. Johnsbury, 57 m. from White River Junction. Pop. of t. 1,412.

WATERFORD, p. v., Loudon co., Virg. : on S. side of Kittoctan cr., 116 m. N. Richmond. It contains 2 churches, several mills and stores. In the vicinity are cotton factories. Pop. about 500.

WATERFORD CENTRE, p. o., Oakland co., Mich. : 61 m. E. by S. Lansing.

WATERFORD WORKS, p. o., Camden county, N. Jer. : 84 m. S. by W. Trenton.

WATERLOO, p. v., Lauderdale co., Ala. : on N. bank of Tennessee r., 200 m. N. E. by N. Montgomery.

WATERLOO, p. v., and cap. Monroe co., Ill. : 114 m. S. by W. Springfield. Situated on elevated ground, containing the county buildings, churches, etc. The "Waterloo Patriot" (whig) is issued weekly.

WATERLOO, t. and p. v., Fayette co., Ind. : on E. side of Whitewater river, 52 m. E. by S. Indianapolis. Pop. of t. about 1,000.

WATERLOO, p. o., Pulaski county, Ky. : 68 m. S. S. E. Frankfort.

WATERLOO, sta., Merrimac co., N. Hamp. : on Merrimac and Connecticut Rivers R. R., 17 m. from Concord, 8 m. from Bradford.

WATERLOO, p. o., Sussex co., N. Jer. : on N. side Musconetcong r., 46 m. N. Trenton.

WATERLOO, p. v., Point Coupee par., La. : near the outlet of Fausse r., on W. side of Mississippi r., 20 m. N. W. by N. Baton Rouge. It is a very beautiful settlement, surrounded by fine plantations. Pop. about 150.

WATERLOO, t. and p. o., Jackson county, Mich. : 29 m. S. E. by S. Lansing. Drained by Portage cr. of Grand r., flowing through several large ponds. It contains two large flouring-mills. Pop. 1,090.

WATERLOO, p. v., and cap. Clark co., Mo. : on N. side Fox r., 131 m. N. by E. Jefferson City.

WATERLOO, t. p. v., sta., and one of the capitals of Seneca co., N. Y. : on N. side of Seneca outlet, 166 m. W. by N. Albany. The v. is an important manufacturing place, with considerable trade. It contains the county buildings, an academy, one bank, capital \$200,000, and 4 churches. The "Observer and Union" (dem.) is issued weekly. The Rochester and Syracuse R. R. passes through, 58 m. from Rochester, 46 m. from Syracuse; also the Cayuga and Seneca Canal. Pop. of v. about 2,900. Pop. of t. in 1840, 3,086; in 1850, 3,795.

WATERLOO, p. v., Granville county, N. Car. : 45 m. N. Raleigh.

WATERLOO, t. and p. o., Jefferson co., Wis. : 22 m. E. by N. Madison. Drained by Rock cr. Pop. 831.

WATERLOO, p. o., Lawrence co., Ohio : 96 m. S. S. E. Columbus.

WATERLOO, p. v., Juniata co., Penn. : on Tuscarora cr., 42 m. W. Harrisburg.

WATERLOO, p. o., Fauquier co., Virg. : 85 m. N. by W. Richmond.

WATERLOO, p. v., Laurens dist., S. Car. : 60 m. W. N. W. Columbia.

WATERPORT, p. o., Orleans co., N. Y. : 242 m. W. by N. Albany.

WATER PROOF, p. o., Tensas par., La. : 102 m. N. Baton Rouge.

WATER STREET, p. v., Huntingdon co., Penn. : on Juniata r., 70 m. W. N. W. Harrisburg. It contains a charcoal forge, which in 1849 made 1,150 tons of blooms.

WATERTOWN, t. and p. v., Litchfield co., Conn. : 25 m. W. S. W. Hartford. Bounded E. by Naugatuck r. and drained by its branches. The Naugatuck R. R. runs along the river side. The v. contains 2 churches and some manufactures. Pop. of t. 1,533.

WATERTOWN, t. and p. v., Middlesex co., Mass. : 5½ m. W. by N. Boston. Drained by Charles r., which bounds it on the S., and is navigable to the v. for vessels requiring 6 feet of water. Surface of t. beautifully diversified. In its E. part is Mount Auburn Cemetery and part of Fresh Pond. The v. contains 3 churches and a U. S. arsenal. The Watertown Branch R. R. extends to the v. from West Cambridge on Fitchburg R. R., which is much used by the citizens, many of whom transact their daily business in Boston. Pop. in 1840, 1,810; in 1850, 2,837.

WATERTOWN, t. p. v., and cap. Jefferson co., N. Y. : on S. side of Black r., at the falls, 145 m. N. W. by W. Albany. Surface of t. gently uneven; soil sandy loam and clay, very fertile, and well cultivated, lying upon limestone foundation. Drained by Black r. on the N. and by Sandy and Stoney creeks flowing S. W., and Lake Ontario. Black r., in passing the v., descends 88 feet in 1 m. by 5 natural cascades and 7 artificial dams, creating an immense water-power, unrivaled in the Union for its natural availability, and of which only a small portion is yet used. The factories already erected are chiefly engaged in making woolen and cotton goods and paper; but there are also extensive flouring, grist, and saw mills, besides tanneries, iron furnaces, and a large variety of smaller manufacturing establishments. The v. was first settled in 1800, and incorporated in 1831. It contains a court-house and jail, of stone, 2 flouring academies, a State arsenal, of brick, and 9 churches. There are 5 banks, with aggregate capital of \$600,000. The Watertown and Rome R. R. extends through this place,

71 m. from Rome, to Cape Vincent 25 m. The construction of a line of railroad hence to Stockholm, on the Northern R. R., is contemplated, also a railroad to Utica through the valley of the Black r. Five newspapers were here published in 1850—"Northern New York Journal" (whig), "Democratic Union," "Jeffersonian" (dem.), Jefferson County Democrat," and "New York Reformer" (temp.) Pop. of t. in 1840, 5,027; in 1850, 7,201.

WATERTOWN, t. and p. v., Washington co., Ohio: 74 m. E. S. E. Columbus. Soil well cultivated, and drained N. by Wolf cr., which affords water-power. Pop. of t. 1,374.

WATERTOWN, t. and p. v., Jefferson co., Wis.: 35 m. E. by N. Madison. Surface diversified; soil generally very fertile, well watered by Rock r., which here makes a great bend, flowing on both its W. and E. borders. The v. is handsomely situated in the N. part of the t., on both sides of Rock r., at the great bend, and at the foot of Johnson's rapids, where a dam across the river creates very great water-power. It has had a rapid growth, and is in a very flourishing condition. Two newspapers are here published—"W. Chronicle" (whig) and "State Register" (dem.) Two lines of railroad are projected to pass through Watertown, viz., Fond du Lac and Rock River R. R.; and Milwaukee, Portage, and La Crosse R. R.; and a plank-road from Lake Michigan to Madison passes through this place. Pop. of t. in 1840, 218; pop. of v. in 1850, 1,561; pop. of t., including v., in 1850, 2,588.

WATERVALE, p. v., Onondaga co., N. Y.: on W. side of Limestone cr., 120 m. W. by N. Albany. Pop. about 200.

WATER VALLEY, p. o., Erie county, N. Y.: 268 m. W. Albany.

WATER VALLEY, p. o., Yalabusha co., Miss.: on N. side of branch of Tallahachie r., 129 m. N. by E. Jackson.

WATER VILLAGE, p. v., Carroll co., N. Hamp.: 37 m. N. N. E. Concord.

WATERVILLE, p. v. and sta., New Haven co., Conn.: on the Naugatuck r., 22 m. N. N. W. New Haven, 24 m. S. W. Hartford. The Naugatuck R. R. passes through, 35 m. from Bridgeport, 27 m. from Winsted. The v. is chiefly noted as containing a very extensive pocket cutlery establishment, which has been as successful as any other in the Union.

WATERVILLE, t. p. v., and sta., Kennebec co., Me.: on W. bank of Kennebec r., 17 m. N. N. E. Augusta. Surface diversified; soil alluvial and well cultivated. The Kennebec r. is navigable to the v., handsomely situated at the Ticonic Falls, which extend across the river, are 18 feet high, and afford immense water-power. The other water-power in the vicinity is very great, and could be improved by a very large number of factories. The v. contains various mills and manufactures, 2 banks, capital \$125,000, an academy, and 4 churches. Waterville College, located here, is a Baptist institution, founded in 1820, which in 1850 had 5 professors, 267 alumni (of whom 82 had entered the ministry), 88 students, and a library of 15,500 volumes. The Androscoggin and Kennebec R. R. extends to this place from Portland 82 m.; the Kennebec and Penobscot R. R. is in construction to Bangor, and the Kennebec and Portland R. R. will also extend hence to Augusta. Pop. of t. in 1840, 2,971; in 1850, 3,965.

WATERVILLE, p. v., Oneida co., N. Y.: 86 m. W. by N. Albany. This v. is noted for its manufactures of woollen goods, carriage springs, flour, starch, lumber, and iron. It contains also an organ manufactory, 1 bank, capital \$120,000, 2 academies, and 2 churches. Pop. about 1,000.

WATERVILLE, t. and p. v., Lucas co., Ohio: on N. W. side of Maumee r., 110 m. N. N. W. Columbus. The Wabash and Erie Canal passes through the v. Pop. of t. in 1840, 565; in 1850, 958.

WATERVILLE, p. v., Waukesha county, Wis.: 50 m. E. Madison.

WATERVILLE, t. and p. v., Lamoille co., Verm.: 31 m. N. by W. Montpelier. Surface mountainous. Drained by

N. branch of Lamoille r., which affords good mill-sites. The t. contains several saw-mills, and 1 large woollen factory having 2,000 spindles. Pop. of t. 753.

WATERVILLE, p. o., Lycoming co., Penn.: 73 m. N. by E. Harrisburg.

WATERVLIET, t. and p. o., Albany co., N. Y.: 5 m. N. Albany. It occupies the N. E. corner of the county, being bounded N. by Mohawk r., and E. by the Hudson. At the confluence of these rivers are numerous islands breaking the mouth of the Mohawk into several channels. Surface level or undulating; soil generally sandy or swampy, except on the Hudson, where are extensive and fertile flats. The Erie and Champlain canals separate in this t., and in the former are many locks to overcome the Falls of Cohoes. The Troy and Schenectady R. R. runs along the S. bank of the Mohawk. West Troy, the site of the U. S. Arsenal, is in Watervliet, and occupies about 130 acres, inclosed by walls and iron paling. There is also in this town the celebrated Shaker settlement "Niskayuna," of which a detailed description is appended. The manufactures of this t. employ upward of a million dollars capital, and embrace many valuable branches of industry in the fabrication of iron, cotton and woollen goods; and there are also numerous flour, grist, and saw mills. Pop. of t. in 1840, 10,141; and in 1850, 16,675—increase in the decade, 64.4 per centum.

The following is a description of the Shaker settlement in this town, as communicated (24th May, 1853) by S. Buck Ingham, a member of the society:

"The United Society."—The founder of this Society, or peculiar sect of people, commonly called "Shakers," was Ann Lee, daughter of John Lee, a native of Manchester in England, was born on the 29th of February, in the year 1736. She, with her little company of followers, embarked for America in 1774, where they arrived the 6th of August. Those that came over with her as companions and fellow-laborers in the work of her calling, were eight in number.

In the year 1776, as many of her followers as had kept their rectitude and remained with her, took up their residence at Watervliet, 8 miles N. W. from the centre of Albany, in a wilderness country, which required great toil and labor to render useful either to man or beast, or productive of the necessities of life; but by their industry, zeal, and frugality, together with the additions, culture, and improvements of their successors, up to the present time, a permanent settlement has been established, much admired by those who visit the place; and though once a dreary and solitary spot of earth, is now a situation becoming an industrious and enlightened people, productive of nearly all the ordinary comforts of life.

This branch of the "United Society" possess and occupy about 2,540 acres of land, much of which is tillable, and produces corn, grass, wheat, rye, oats, barley, potatoes, pease and beans, to tolerable advantage; and by manuring, may be rendered highly productive. They have also fine orchards, yielding an abundance of fruit in favorable seasons, such as apples and peaches, with some plums and pears; and much of the smaller kinds, as currants, gooseberries, and strawberries, which are raised in their gardens.

A small stream of water, called the Schulune kill, runs through the south and easterly part of the village, and flows northward into the Mohawk r. On this creek they have several artificial ponds, which afford their main privileges in water-power. The land bordering upon this stream is a deep, mucky soil, but the upland is of a sandy and gravelly quality.

About 800 acres of the most valuable part of their land lie upon the banks of the Mohawk r., in the town of Niskayuna, near the mouth of the Schulune kill, a little above Fast's Ferry, and in the town of Rotterdam, a short distance above the city of Schenectady, where is raised the principal part of their broom-corn, which they manufacture into brooms of the first quality, and vend them in the public markets throughout the country. By the overflowing of

the river upon its banks, the low land along here is rendered highly productive without manuring, and is thereby made profitable to those who possess it.

The population of the Society numbers some 300 or more, being divided into four distinct families, located from a half to three-fourths of a mile distant from each other, a little back from the main road leading from Troy to Schenectady, so that the village is somewhat central between the above-mentioned places and the city of Albany, and may be approached within two and a half or three miles by railroads, connecting the aforesaid cities.

As you pass along the village from east to west, you ascend a moderate rise of land from which an agreeable scenery springs to view, extending from the Helderberg Mountains on the west to the Kayaderosseras Mountains on the north, and the Green Mountains on the east, overlooking the valleys of the Hudson and Mohawk rivers.

The whole number of buildings in the village may be estimated at some 150 or 160, many of which are built of the best materials, and are quite valuable. Among the number there is a commodious building for divine worship, erected in the year 1848; besides which there are three offices for the transaction of all public business, two school-houses, eight dwelling houses, suitable to accommodate from fifty to one hundred persons each, and many workshops and storehouses, built in the most commodious style. They have also two grist-mills, three saw-mills, and three machine-shops, in which various branches of mechanical business are carried on, such as carding wool, turning broom-handles, turning iron, and sawing firewood.

Their principal domestic employments being agriculture, horticulture, the manufacture of brooms, and various kinds of medicines, they have buildings and machinery appropriated to each branch of business sufficient to render each profitable; and the many articles they manufacture for sale are noted for their neatness, durability, and good quality.

No pains is spared in the raising and preparing of their garden seeds, of which they raise a general assortment; and the botanical herbs, roots, barks, and extracts which they procure for market are prepared in the most punctual and faithful manner. Their brooms, also, have an extensive sale, which need but be used to receive commendation. Thus, all the articles manufactured by them and offered for sale are of the most durable quality, and may be relied on as genuine and pure.

They generally perform the most part of their own black-smithing, joiner, and carpenter work, tailoring, and shoe-making; and the females are not less industrious in their various branches of business, including dressmaking, spinning, weaving, braiding whip-lashes, manufacturing bonnets, small fancy baskets, fans, brushes, with a variety of other small saleable articles.

The society generally keep from forty to fifty good horses, eighty cows, sixteen yoke of oxen, five hundred sheep, and young cattle and other stock in proportion.

The manner of life by them adopted seems not at all deleterious to longevity, for from their statistical reports of the ages of those who have deceased in their society since its first establishment in this country, show an average of fifty-four years. It is a fact, that these singular people strictly adhere to a life of chastity and virgin purity, and *do neither marry, nor are given in marriage*, but believe that true Christianity consists in purity of heart, and a life devoted to God in all things—being ingrafted into the true vine, and living the life and imitating the example of Him who overcame the world, with all its affections and lusts. Consequently, they have nothing to do with war and bloodshed, and the political strifes of the world, but choose to live in peace with all men. They are temperate and sober in their habits, discarding entirely the use of ardent spirits and its attendant evils, excepting occasionally in medicinal preparations.

In this society, as in other branches of their community,

equal rights and privileges are enjoyed, as no one claims aught as his own; but each and all receive according to their needs and circumstances, possessing all things in common, whether of a spiritual or temporal nature.

The first established and largest Society of Shakers is at New Lebanon, Columbia county, New York, 2½ m. S. of Lebanon Springs. There is also another small Society in this State, at Grovland, Livingston county.

The following is a brief statement of the several societies located in the other States.

Massachusetts.—Hancock, Berkshire county, 5 m. W. of Pittsfield.—TYEINGHAM, in the same county, 16 m. S. of Hancock.—HARVARD, Worcester county, 30 miles N. W. from Boston.—SHIRLEY, Middlesex county, 7 miles W. from Harvard.

New Hampshire.—CANTERBURY, Merrimac county, 12 m. N. by E. from Concord.—ENFIELD, Grafton county, 12 m. S. from Dartmouth College.

Connecticut.—ENFIELD, Hartford county, 5 m. E. of the Connecticut r., and 18 m. N. E. from Hartford.

Maine.—ALFRED, York county, 30 m. S. W. from Portland.—NEW GLOUCESTER, Cumberland county, 25 m. N. W. from Portland.

Ohio.—UNION VILLAGE, Warren county, 4 m. W. from Lebanon, and 27 m. N. by E. from Cincinnati; this is the oldest and largest Society in the Western country.—Also, WATERVLIET, Montgomery county, 6 m. S. E. from Dayton.—WHITEWATER, Hamilton county, 22 m. N. W. of Cincinnati.—NORTH UNION, Cuyahoga county, 7 m. S. E. from Cleveland.

Kentucky.—PLEASANT HILL, or SHAKERTOWN, Mercer county, 8 m. E. from Harrodsburg; pop. 342.—SOUTH UNION, Logan county, nearly central between Russellville and Bowling Green, 14 m. from the latter, and 50 m. N. of Nashville (*Tenn.*); pop. in 1850, 245.

WATERVLIET, t. and p. o., Berrien county, *Mich.*: 96 m. W. S. W. Lansing.

WATERVLIET CENTRE, p. o., Albany co., *N. Y.*: 9 m. N. Albany.

WATKINS, p. o., Union co., *Ohio*: 82 m. N. W. Columbus.

WATKINSVILLE, p. v., and cap. Clark co., *Ga.*: 56 m. N. by W. Milledgeville. It contains a court-house, jail, an academy, several stores, etc. Pop. 935.

WATSON, t. and p. o., Lewis co., *N. Y.*: 110 m. N. W. Albany. Surface hilly and mountainous. Pop. 1,133.

WATSON'S BRIDGE, p. o., Moore co., *N. Car.*: 50 m. S. W. Raleigh.

WATSONTOWN, p. o., Northumberland co., *Penn.*: on E. side of Susquehanna r., 54 m. N. Harrisburg.

WATTSBORO', p. v., Lunenburg co., *Virg.*: on N. bank of Meherrin r., 53 m. S. W. Richmond.

WATTSBURG, p. b., Erie co., *Penn.*: on French cr., 190 m. N. W. by W. Harrisburg. Pop. about 180.

WATT'S MILLS, p. o., Appanoose co., *Ia.*: 87 m. S. W. Iowa City.

WATT'S MILLS, p. o., Westmoreland co., *Penn.*: 130 m. W. Harrisburg.

WAUHATCHEE, p. o., Dade co., *Ga.*: on E. side of Look-out cr., 192 m. N. W. Milledgeville.

WAUHOOP, p. o., Vigo county, *Ind.*: 63 miles W. by S. Indianapolis.

WAUKAU, p. o., Winnebago co., *Wis.*: 83 m. N. N. E. Madison.

WAUCKENAH, p. o., Jefferson co., *Flor.*: 19 m. E. S. E. Tallahassee.

WAUCKEGAN, p. v., port, and cap. Lake co., *Ill.*: 196 m. N. E. by N. Springfield. Its site is a very attractive location, rising from the lake to a considerable eminence, with a hill in the centre, on which stands the court-house. It has had a very rapid growth, which will probably continue for years. It is already well built, containing many handsome and substantial buildings. The surrounding country

is of great fertility, being the best prairie land, and with considerable timber. It has a good harbor, piers, etc., and carries on an extensive lake trade. During 1848, its exports amounted to \$283,107, and its imports to \$69,081. The "Waukegan Chronicle" (dem.) and the "Gazette" (whig) are issued weekly. The Chicago and Milwaukee R. R. will pass through this place. Pop. about 4,000.

WAUKESHA county, *Wisc.* Situate S. E., and contains 576 sq. m. Drained by Fox r. and its affluents, and other streams. Surface undulating, and diversified with numerous lakes, which are the sources of many of the streams which traverse the co. in all directions. Soil fertile, and produces good crops of wheat and grain. Pine and other forest trees cover a considerable portion of the land. The water-power supplied by the streams affords good advantages for manufacturing establishments. Farms 1,703; manuf. 73; dwell. 3,403, and pop.—wh. 19,136, fr. col. 28—total 19,174. *Capital:* Waukesha. *Public Works:* Milwaukee and Mississippi R. R.; Milwaukee and Portage R. R.

WAUKESHA, t., p. v., sta., and cap. Waukesha co., *Wisc.*: 60 m. E. by S. Madison. Surface diversified; soil fine prairie and timber land. Drained by Pishtaka river and branches. The v. is on the Pishtaka r. and the border of a rich prairie. It contains the county buildings and many neat dwellings. The Milwaukee and Mississippi R. R. passes through it, 20 m. from Milwaukee, 50 m. from Janesville. The "Waukesha Democrat" is issued weekly. Pop. of t. 2,314.

WAUKSAIK, p. o., Cook county, *Ill.*: 175 m. N. E. by N. Springfield.

WAUPAKA, p. o., Marquette co., *Wisc.*: on S. side Waupaka r., 95 m. N. by E. Madison.

WAUPUN, t. and p. v., Fond du Lac co., *Wisc.*: 57 m. N. E. Madison. Drained by head streams of Rock r., which, immediately S. of the t., enters a large marsh, from which it escapes about 12 m. below. Surface handsomely varied; soil of great depth, and productive. The v. is a thriving and healthy place, and contains about 300 inhabitants; and within a short distance is the railroad from Fond du Lac to Chicago. The State prison is located here. Pop. of t. 882.

WAUSAU, t., p. v., and cap. Marathon co., *Wisc.*: on E. bank Wisconsin r., 135 m. N. by E. Madison. This is the principal settlement in the co. The inhabitants in and around it for several miles are chiefly engaged in lumbering and sugar-making. Pop. of t. 466.

WAUSHARA, t. and p. v., Dodge county, *Wisc.*: 43 m. N. E. by N. Madison. Fox lake occupies about one-fourth of the surface of the t. The v. is situate on its S. side. Pop. of t. 856.

WAUTOMA, p. o., Waukesha co., *Wisc.*: on W. bank of White r., 52 m. N. by E. Madison.

WAUWATOSA, t., p. v., and sta., Milwaukee co., *Wisc.*: 72 m. E. Madison. The Milwaukee and Mississippi R. R. passes through the v., 5 m. from Milwaukee, 65 m. from Janesville. Pop. of t. 2,056.

WAYLAND, p. o., Montgomery co., *Ind.*: 45 m. W. N. W. Indianapolis.

WAYLER, p. o., Lowndes co., *Miss.*: on W. side Tombigbee r., 130 m. N. E. Jackson.

WAYLER, p. v. and sta., Tioga county, *N. Y.*: 136 m. W. S. W. Albany. The Erie R. R. passes near it, 266 m. from New York, 203 m. from Dunkirk.

WAYLER, p. v., Morgan county, *Ill.*: 22 miles S. W. Springfield.

WAYLER, p. o., Henry co., *Mo.*: 97 m. W. by S. Jefferson City.

WAYLER, p. v., Pike co., *Ohio*: on W. bank of Scioto r., 57 m. S. Columbus. The Ohio Canal passes through it. Pop. 678.

WAYLER, p. v., and cap. Humphreys co., *Tenn.*: 57 m. W. by S. Nashville. Contains the county buildings, etc.

WAYLER, p. o., Luzerne co., *Penn.*: 80 m. N. E. by E. Harrisburg.

WAYLERLY HALL, p. o., Harris co., *Ga.*: on S. side of Mulberry cr., 100 m. W. by S. Milledgeville.

WAYAESING, t. and p. o., Ulster co., *N. Y.*: 70 m. S. S. W. Albany. Surface hilly and mountainous, having on the S. E. the Shawangunk range of mountains; soil fertile, gravelly loam and clay. Drained by Rondout kill and branches, which afford abundant water-power. The t. is large, containing several settlements and post-offices; also, about 50 saw-mills, numerous tanneries, and woolen factories, with other manufactories. It contains ores of iron, plumbago, and lead. The Delaware and Hudson canal passes through its S. E. part. Population in 1840, 4,044; in 1850, 6,459.

WAYFECONG, p. o., Miami county, *Ind.*: 52 miles N. Indianapolis.

WAXAHACHIE, p. v., and cap. Ellis county, *Tex.*: on N. side of Waxahachie r., 157 m. N. N. E. Austin City. It contains the court-house, jail, etc.

WAY, p. o., Ripley county, *Ind.*: 65 m. S. E. by E. Indianapolis.

WAYLAND, t. and p. v., Middlesex co., *Mass.*: 14 m. W. Boston. Surface of t. pleasantly diversified. Drained by Sudbury river, which forms the principal part of its W. boundary. It contains Pelham and Dudley ponds, and part of Long Pond. Pop. of t. 1,115.

WAYLAND, t. and p. o., Allegan co., *Mich.*: 53 m. W. by S. Lansing. Surface somewhat uneven, and diversified by several handsome ponds. Pop. 406.

WAYLAND DEPOT, p. o. and sta., Steuben co., *N. Y.*: on Buffalo, Corning, and New York R. R., 46 m. from Corning; 201 m. W. Albany.

WAYLANDSBURG, p. v., Culpepper county, *Virg.*: 72 m. N. N. W. Richmond.

WAYLAND'S SPRINGS, p. o., Lawrence county, *Tenn.*: 70 m. S. S. W. Nashville.

WAYMART, p. v., Wayne county, *Penn.*: 115 m. N. E. Harrisburg. Pop. about 100.

WAYNE county, *Ga.* Situate S. E., and contains 716 sq. m. Drained by Little Sanilla and Turtle rivers, and by Finholoway cr. and other small streams of Alamaha r., which forms its N. boundary. Surface low and level; soil in general fertile, but there are some portions of marshy ground unfit for cultivation—these, when drained, make good grazing land. Farms 172; manuf. 0; dwell. 182, and pop.—wh. 1,088, fr. col. 5, sl. 406—total 1,499. *Capital:* Waynesville.

WAYNE county, *Ill.* Situate toward the S. E., and contains 719 sq. m. Little Wabash r. passes through its eastern section, by which and its branches, Skillet fork and Elm cr., it is drained. Surface level, or gently undulating; soil fertile, and produces wheat and grain, and tobacco in a small quantity. Pork and beef are exported, ready access being had to other markets by means of the Little Wabash. A large portion of the county is prairie and woodland. Farms 492; manuf. 6; dwell. 1,209, and pop.—wh. 6,822, fr. col. 3—total 6,825. *Capital:* Fairfield.

WAYNE county, *Ind.* Situate E. on Ohio State line, and contains 420 sq. m. The streams are E. and W. forks of White river. Surface level or pleasantly rolling—in S. E. somewhat hilly. Dense forests originally covered the co. Soil a rich loam, bedded on clay. Manufactures have a good footing. Farms 1,934; manuf. 213; dwell. 4,515, and pop.—wh. 24,823, fr. col. 9,917—total 25,320. *Capital:* Centreville. *Public Works:* Whitewater Canal; Indiana Central R. R.; Richmond and Newcastle R. R., and the Nat. Road.

WAYNE county, *Ja.* Situate S., and contains 508 sq. m. Drained by branches of Chariton and Weldon rivers, and Muddy cr., all tributaries of Crooked Fork of Grand r. Surface level or rolling; soil fertile, and consists of black mold, with sand and clay intermixed, and favorable to the cultivation of wheat and grain. It has good pasturage, and is well wooded. Farms —; manuf. —; dwell. 57, and pop.—wh. 839, fr. col. 1—total 340. *Capital:* Cambria.

WAYNE county, *Ky.* Situate S. toward the E., and contains 637 sq. m. Drained by S. fork of Cumberland r. and its branches, and Beaver creek. Surface even; soil moderately fertile; a large portion is well adapted to grazing. Chief productions, wheat and Indian corn; tobacco and cotton are also grown. It is bounded on the N. by Cumberland r. Farms 929; manuf. 17; dwell. 1,859, and pop. wh. 7,856, fr. col. 6, sl. 830—total 8,692. *Capital:* Monticello.

WAYNE county, *Mich.* Situate S. E. in the Southern Peninsula, and contains about 600 sq. m. Drained by Huron and Rouge rivers and their branches, which flow into Detroit r. on the S. E. Surface level; soil various—a sandy loam, with clay intermixed, prevailing. In most parts it is fertile, and produces abundantly. Good water-power is supplied by the Rouge r. and its tributaries. Iron ore of good quality, and limestone are found in this county; also sulphur springs, the waters of which are used medicinally. The chief products are wheat, Indian corn, oats, and potatoes. Farms 1,635; manuf. 244; dwell. 7,063, and pop.—wh. 42,035, fr. col. 721—total 42,756. *Capital:* Detroit. *Public Works:* Michigan Central R. R.; Detroit and Pontiac R. R.; Toledo and Detroit R. R.

WAYNE county, *Miss.* Situate E. toward the S., and contains 764 sq. m. Drained in the E. by Chickasawhwa r. and its branches, which extend through the N. portion of the county, and in the W. and S. by branches of Leaf creek. Surface uneven; soil barren; along the streams there is some good land which proves productive. Staples, cotton and Indian corn. Farms 162; manuf. 0; dwell. 281, and pop.—wh. 1,899, fr. col. —, sl. 1,899—total 2,792. *Capital:* Winchester. *Public Works:* Mobile and Ohio R. R.

WAYNE county, *Mo.* Situate S. E., and contains 946 sq. m. St. Francois r. flows through it centrally, by which and its branches, and by Big Blackwater r. and Castor cr. it is drained. Surface uneven, and in parts broken. Soil in parts very fertile; on the rivers are some bottom-lands which are very productive, and raise fine crops of wheat and grain. It contains many minerals, and has excellent timber land. Lake Micola lies on its S. E. border. Farms 478; manuf. 2; dwell. 699, and pop.—wh. 4,152, fr. col. 6—total 5,233. *Capital:* Grenville.

WAYNE county, *N. Y.* Situate N. W., and contains 572 sq. m. Drained by Clyde r., which is formed by the junction of Mud cr. and Canandaigua r. Surface uneven, and diversified in S. portion by hills and valleys. Soil fertile, and productive in a great degree in the S., but principally adapted to grazing and the culture of grain. It contains many minerals, and has some salt and sulphur springs, the former of which yielded a short time back a considerable revenue. Some good beds of iron ore are found. The mountain ridge which runs from E. to W. divides the waters of the N. from those which run S. Sodus bay, Port bay, and East bay are on the lake coast. Chief products, wheat and Indian corn. Farms 3,957; manuf. 250; dwell. 8,074, and pop.—wh. 44,701, fr. col. 252—total 44,953. *Capital:* Lyons. *Public Works:* Syracuse and Rochester R. R.; Sodus and Southern R. R.; Erie Canal; Sodus Canal, etc.

WAYNE county, *N. Car.* Situate S. E. centrally, and contains 828 sq. m. Drained by Neuse r. and its branches. Surface undulating; soil fertile, and adapted to grazing. Chief productions, cotton, wheat, and Indian corn. Farms 668; manuf. 69; dwell. 1,576, and pop.—wh. 7,802, fr. col. 664, sl. 5,020—total 13,486. *Capital:* Waynesboro'. *Public Works:* Wilmington and Weldon R. R.; North Carolina Central R. R., etc.

WAYNE county, *Ohio.* Situate toward N. E. of the centre, and contains 569 sq. m. Chippewa r. and Sugar cr. drain the E. portion, and Killbuck cr. and its branches the central and eastern. Surface varied, parts being level, and much of it rolling and pleasantly diversified. Soil consists of deep mold, and on the streams is very fertile. Staples, wheat, Indian corn, and potatoes. Live-stock and grain are ex-

ported largely. Farms 2,904; manuf. 880; dwell. 5,712, and pop.—wh. 82,953, fr. col. 28—total 82,931. *Capital:* Wooster. *Public Works:* Ohio and Pennsylvania R. R.; Cleveland, Zanesville, and Cincinnati R. R., etc.

WAYNE county, *Penn.* Situate N. E., and contains 762 sq. m. Drained by Lackawaxen cr. and its affluents and tributaries of Delaware r., which forms its N. E. boundary. Surface hilly and broken; on the streams are some fine tracts of level land; soil fertile. Farms 1,336; manuf. 200; dwell. 3,719, and pop.—wh. 21,341, fr. col. 49—total 21,890. *Capital:* Bethany. *Public Works:* Delaware and Hudson Canal; Pennsylvania Coal Company's R. R.

WAYNE county, *Tenn.* Situate S. toward the W., and contains 694 sq. m. Buffalo river and Shoal cr. and their branches, with other affluents of the Tennessee, drain the co. Surface varied, the larger portion being hilly, and in parts broken; soil, which is a deep mold on the streams, is fertile; it is adapted to wheat and grain, and cotton and tobacco are produced in considerable quantities. Live-stock and grain are exported. Farms 659; manuf. 10; dwell. 1,216, and pop.—wh. 7,232, fr. col. 8, sl. 980—total 8,170. *Capital:* Waynesboro'. *Public Works:* Nashville and Memphis R. R.

WAYNE county, *Virg.* Erected from Cabell in 1842. Situate W., and contains 412 sq. m. Drained by Twenty-pole cr. and branches of Sandy r. Surface broken, and in parts mountainous; soil in general is indifferent, but there are some tracts of land which are fertile, and adapted to the culture of grain. Chief products, wheat and Indian corn. Some tobacco is raised. Farms 478; manuf. 9; dwell. 749, and pop.—wh. 4,564, fr. col. 7, sl. 159—total 4,760. *Capital:* Wayne C. H. *Public Works:* Covington and Ohio R. R.

WAYNE sta., Du Page co., *Ill.* on Galena and Chicago Union R. R., 33 m. from Chicago.

WAYNE, I., Allen co., *Ind.:* 103 m. N. N. E. Indianapolis. Pop. in 1840, 2,080; in 1850, 5,238.

WAYNE, t. and p. v., Kennebec county, *Me.:* 17 m. W. Augusta. Androscoggin Pond occupies a large part of this t., which has generally a fertile soil, and pleasantly diversified surface. Pop. of t. 1,367.

WAYNE, p. v. and sta., Wayne co., *Mich.:* on S. branch of Rouge r., and Michigan Central R. R., 19 m. from Detroit, 65 m. E. S. E. Lansing.

WAYNE, t. and p. v., Steuben co., *N. Y.:* 176 m. W. by S. Albany. Bounded in part on the E. by Little and Mud lakes, and on the W. by Crooked lake. Surface hilly in N. part; soil, loam and clay. The v. contains 2 churches, and about 150 inhabitants. Pop. of t. 1,347.

WAYNE, t. and p. o., Erie co., *Penn.:* 152 m. N. W. by W. Harrisburg. Pop. of t. about 1,000.

WAYNE CENTRE, p. o., Du Page county, *Ill.:* 162 m. N. E. by N. Springfield.

WAYNE COURT-HOUSE, p. v., and cap. Wayne co., *Virg.:* 279 m. W. by N. Richmond. It contains the county buildings, etc.

WAYNESBORO', p. v., sta., and cap. Burke co., *Ga.:* on the Augusta and Waynesboro' R. R., 30 m. from Augusta, 66 m. E. Milledgeville. It contains a court-house, jail, 2 churches, an academy, stores, etc. Pop. about 200.

WAYNESBORO', p. v., and cap. Wayne co., *N. Car.:* on N. side of Neuse river, near the mouth of Little river, 43 m. S. E. by E. Raleigh. It contains the county buildings, etc. The North Carolina Central R. R., connecting with the Wilmington and Weldon R. R. at Goldsboro', extends W. through this place to Greensboro'. Pop. about 400.

WAYNESBORO', p. b., Franklin co., *Penn.:* 43 m. S. W. Harrisburg. It contains 3 churches, an academy, and 1 bank, capital \$100,000. The "Village Record" (neutral) is issued weekly. Pop. about 850.

WAYNESBORO', p. v., and cap. Wayne co., *Tenn.:* 75 m. S. W. Nashville. It contains a court-house, jail, stores, etc., and about 100 inhabitants.

WAYNESBORO', p. v., Augusta co., *Virg.*: on the line of the Virginia Central R. R., 86 m. W. N. W. Richmond.

WAYNESBURG, p. v., Lincoln co., *Ky.*: 81 m. S. by E. Frankfort.

WAYNESBURG, p. v., Stark co., *Ohio*: on Sandy cr. and Sandy and Beaver Canal, 95 m. N. E. by E. Columbus. It contains several stores, manufacturing establishments, etc. A line of railroad from Bayard to New Philadelphia, passing through this place, is contemplated. Pop. about 550.

WAYNESBURG, p. b., and cap. Greene co., *Penn.*: 170 m. W. by S. Harrisburg. It contains the county buildings, an academy, and 3 churches, several tanneries, stores, etc. The "Waynesburg Messenger" (dem.), and "Greene Co. Whig" are issued weekly. Pop. 582.

WAYNESVILLE, p. v., and cap. Wayne co., *Ga.*: 153 m. S. E. by S. Milledgeville. It contains the county buildings, an academy, stores, etc. Pop. about 200.

WAYNESVILLE, p. v., De Witt co., *Ill.*: on S. side Kickapoo cr., 42 m. N. E. Springfield.

WAYNESVILLE, p. v., and cap. Pulaski co., *Mo.*: on E. side Robidoux fork of Gasconade r., 50 m. S. Jefferson City. It contains the county buildings, etc. Pop. about 200.

WAYNESVILLE, p. v., and cap. Haywood co., *N. Car.*: on branch of Big Pigeon r., 248 m. W. by S. Raleigh. It contains a court-house, jail, etc. Pop. about 120.

WAYNESVILLE, p. v., Warren co., *Ohio*: on W. side of Little Miami river, 62 m. S. W. by S. Columbus. Settled chiefly by Friends. The "Miami Visitor" (literary) is here published. Pop. about 600.

WAYNETOWN, t. and p. v., Montgomery co., *Ind.*: 70 m. W. N. W. Indianapolis.

WAYMANSVILLE, p. o., Upson co., *Ga.*: 62 m. W. by S. Milledgeville.

WEAKLEY county, *Tenn.* Situate N. W., and contains 972 sq. m. Drained by numerous tributaries of Obion r., an affluent of the Mississippi. Surface level or rolling; soil consists of rich black mold, and is in general productive. Wheat, grain, tobacco, and cotton are raised, and pork is exported considerably. Farms 1,467; manuf. 13; dwell. 1,948, and pop.—wh. 11,523, fr. col. 15, sl. 8,070—total 14,508. *Capital*: Dresden. *Public Works*: Nashville and Mississippi R. R.

WEARE, t. and p. v., Hillsboro' co., *N. Hamp.*: 14 m. S. W. Concord. Surface uneven. Drained by Piscataquis r., which affords water-power. The t. contains numerous grist and saw mills, with several tanneries, cotton and woolen factories, etc. The v. near the centre is pleasantly situated. The Merrimac and Connecticut Rivers R. R. passes through the v. of East Weare and North Weare, the former 16 m. the latter 19 m. from Manchester. Pop. of t. 2,436.

WEAR'S COVE, p. o., Sevier co., *Tenn.*: 177 m. E. by S. Nashville.

WEATHERLY, p. o., Carbon county, *Penn.*: 70 m. N. E. Harrisburg.

WEATHERSFIELD, t. and p. v., Windsor co., *Verm.*: on W. side of Connecticut r., 63 m. S. by E. Montpelier. Surface uneven; watered in S. W. part by Black r., which affords water-power. Mount Ascutney lies on its N. border. The t. contains several pleasant settlements. It has several woolen factories, tanneries, and a variety of mills. Pop. of t. 1,551.

WEATQUE, sta., Hartford co., *Conn.*: on New Haven and Northampton R. R., 40 m. from New Haven, 9 m. N. W. Hartford.

WEAVERSVILLE, p. o., Northampton co., *Penn.*: 90 m. E. N. E. Harrisburg.

WEAVERSVILLE, p. o., Fauquier co., *Virg.*: 87 m. N. by W. Richmond.

WEAVERSVILLE, p. v., Trinity county, *Calif.*: 188 m. N. Vallejo.

WEBB county, *Tex.* Situate S. W., and contains about 3,500 sq. m. Drained by small streams of the Rio Grande and Nueces rivers. Surface level or rolling, and is mostly

prairie, the undulations and swells giving it the appellation of the rolling prairie; soil is generally a dark sandy loam, very productive, and yielding very large crops of wheat, grain, cotton, tobacco, sugar, and indigo. Potatoes and other vegetables are also grown. The nopal, or prickly pear, abounds. It is extensively wooded. *Capital*: Laredo.

WEBBER'S, sta., Cumberland co., *Me.*: on Atlantic and St. Lawrence R. R., 18 m. from Portland, 89 m. S. W. by S. Augusta.

WEBBER'S PRAIRIE, p. o., Travis co., *Tex.*: 16 m. E. by S. Austin City.

WEBB'S FORD, p. o., Rutherford co., *N. Car.*: 190 m. W. by S. Raleigh.

WEBB'S MILLS, p. o., Ritchie co., *Virg.*: 225 m. N. W. by W. Richmond.

WEBB'S MILLS, p. o., Chemung co., *N. Y.*: 164 m. W. by S. Albany.

WEBER county, *Utah Ter.* Extends from the Bear River mountains to the California boundary, and is about 40 m. wide. The E. portion is drained by Bear and Weber rivers, which empty into the Great Salt lake, one-half of which lies in this county. Farms 33; manuf. 2; dwell. 227, and pop.—wh. 1,156, fr. col. 0—total 1,156. *Capital*: Browns-ville.

WEBSTER, t. and p. v., Lincoln county, *Me.*: 21 m. S. W. Augusta. Surface of t. is pleasantly diversified by several small ponds. Interests chiefly agricultural. Population of t. 1,110.

WEBSTER, t. p. v., and sta., Worcester co., *Mass.*: 45 m. S. W. by W. Boston. French r. flows on its W. border, and receives the outlet of a large pond, each of which affords great water-power. The v. contains 2 churches and several very large factories of cotton goods. The Norwich and Worcester R. R. passes through it, 43 m. from Norwich and 16 m. from Worcester. Pop. of t. in 1840, 1,403; in 1850, 2,371.

WEBSTER, t. and p. o., Washtenaw co., *Mich.*: 44 m. S. E. Lansing. Soil fertile. Watered by Huron r., several ponds, and Portage lake in its N. W. corner. A part of Dexter v. is in this town. Pop. 924.

WEBSTER, t. and p. o., Monroe co., *N. Y.*: 194 m. W. by N. Albany. Drained by small streams flowing into Lake Ontario. Soil very fertile. Interests entirely agricultural. Pop. 2,446.

WEBSTER, p. o., Wayne county, *Ind.*: 60 m. E. by N. Indianapolis.

WEBSTER, p. o., Hancock co., *Ill.*: on branch of Crooked cr., 84 m. N. W. by W. Springfield.

WEBSTER, p. o., Winston county, *Miss.*: 97 m. N. E. Jackson.

WEBSTER'S MILLS, p. o., Fulton co., *Penn.*: 63 m. W. by S. Harrisburg.

WEEDOWEE, p. v., Randolph county, *Ala.*: on S. side of Tallapoosa r., 80 m. N. E. by E. Montgomery.

WEED'S PORT, p. v. and sta., Cayuga co., *N. Y.*: on the Erie Canal and Rochester and Syracuse Direct R. R., 149 m. W. by N. Albany. It contains 2 churches, stores, etc., and about 550 inhabitants.

WEHADKEE, p. o., Randolph co., *Ala.*: 83 m. N. E. by E. Montgomery.

WEEK'S MILLS, p. o., Kennebec co., *Me.*

WEELANEE, p. o., Winnebago co., *Wisc.*: 75 m. N. N. E. Madison.

WEWOKAVILLE, p. o., Talladega co., *Ala.*: 62 m. N. Montgomery.

WEGATCHEE, p. o., St. Lawrence county, *N. Y.*: 150 m. N. W. by N. Albany.

WEHOGA, p. o., Benton co., *Ala.*: on branch of Tallapoosa r., 100 m. N. E. by N. Montgomery.

WEIR'S BRIDGE, p. o. and sta., Belknap co., *N. Hamp.*: on W. shore of Winnipiseogee lake, and from the Boston, Concord, and Montreal R. R., 33 m. from Concord. It is of much summer resort by visitors to the lake, upon which

a steamboat, starting from this point, plies daily on excursion trips.

WEIR'S CAVE, Virg.: this cavern is generally considered one of the most beautiful in the world, is 16 m. N. E. Staunton, 81 m. N. W. by W. Richmond. It is about 1,260 feet long, and divided into numerous apartments, each abounding with white limestone pillars, stalactites, and stalagmites of great brilliancy, as seen by torches, and with considerable variety of form and color.

WEISENBURG, t. and p. o., Lehigh county, *Penn.*: 66 m. E. N. E. Harrisburg. The t. contains numerous distilleries, tanneries, grist and saw mills. Pop. about 1,600.

WEISEBURG, p. v., Baltimore co., *Md.*: 44 m. N. Annapolis.

WEISPORT, p. o., Carbon co., *Penn.*: 72 m. N. E. by E. Harrisburg.

WELAKA, p. v., Orange co., *Flor.:* on the E. bank of St. John's r., 27 m. above Pilatka, and 238 m. E. S. E. Tallahassee. This is a new settlement, but is expected to become a place of considerable commerce, since, by running steamers up to this point, the present pole-boat navigation to Pilatka, which is frequently dangerous, would be avoided. Very near the v., and near the bank of the r., are the Welaka Sulphur Springs, and about 2 m. distant are the Magnolia Springs—one sulphur and the other magnesia. Game and fish are abundant.

WELCH'S MILLS, p. o., Cabarrus county, *N. Car.*: 96 m. W. by S. Raleigh.

WELCHVILLE, p. o., Oxford co., *Me.*: 45 m. W. Augusta.

WELD, t. and p. o., Franklin co., *Me.*: 40 m. N. W. by N. Augusta. Drained by streams flowing into Weld Pond, in the S. central part. Surface diversified, with fertile soil. Pop. 995.

WELDON, p. v., and sta., Halifax co., *N. Car.:* on S. W. bank of Roanoke r., 70 m. N. E. Raleigh. The Roanoke here has a great fall, but is navigable for vessels of 75 tons. A canal around the falls, 12 m. long, with lockage of 100 feet, extends navigation to Staunton r., about 200 m. The Wilmington and Weldon R. R. (from Wilmington 162 m.), here connects with Petersburg R. R., 64 m. long, Sea-board and Roanoke E. R. to Portsmouth, 80 m., and Gaston and Weldon R. R. The v. has a good site, and possesses considerable trade. The "Weldon Herald" (whig) is issued weekly. Pop. about 600.

WELD'S LANDING, p. o., Dubuque co., *Ia.*: on S. W. bank of Mississippi r., 72 m. N. E. by N. Iowa City.

WELBORN, p. v., and cap. Coffee co., *Ala.*: 81 m. S. S. E. Montgomery. It contains the county buildings.

WELLBOEN'S MILLS, p. o., Houston co., *Ga.*: on S. side of branch of Ocmulgee r., 42 m. S. W. by S. Milledgeville.

WELLSBURG, p. v., Somerset co., *Penn.*: 105 m. W. S. W. Harrisburg.

WELLERVILLE, p. o., Crawford county, *Ohio*: 60 m. N. Columbus.

WELFLEET, t. and p. v., Barnstable co., *Mass.*: 58 m. S. E. by E. Boston. The t. extends across Cape Cod, and has a sandy soil. Welfleet bay, upon which the v. is situated, affords good harborage. The v. employs considerable shipping in the fisheries and coasting trade, and is largely engaged in the manufacture of salt. Pop. of t. 2,411.

WELLINGTON, t. and p. o., Piscataquis co., *Me.*: 53 m. N. by E. Augusta. Pop. 600.

WELLINGTON, p. v., Lafayette co., *Mo.*: on S. bank of Missouri r., 106 m. W. N. W. Jefferson City.

WELLINGTON, p. o., Morgan co., *Ga.*: 42 m. N. by W. Milledgeville.

WELLINGTON, t. p. v., and sta., Lorain co., *Ohio*: 89 m. N. N. E. Columbus. Drained by W. branch of Black r. The Cincinnati, Cleveland, and Columbus R. R. passes through, 96 m. from Cleveland, 99 m. from Columbus, and 219 m. from Cincinnati. Pop. of t. in 1840, 781; in 1850, 1,556.

WELLINGTON, p. o., Lake co., *Ill.*: 190 m. N. E. by N. Springfield.

WELLS county, Ind. Situate N. E. middle, and contains 372 sq. m. Drained by Upper Wabash and Salamontie rivers. Surface level, or gently undulating, well timbered, and the soil universally good. There are some wet prairies and marshes. Farms 640; manuf. 14; dwell. 1,021, and pop.—wh. 6,141, fr. col. 11—total 6,152. *Capital:* Bluffton. *Public Works:* Fort Wayne and Southern R. R.

WELLS, t., p. v., and sta., York co., *Me.*: 81 m. S. S. W. Augusta. Soil inferior and marshy. Drained by small streams flowing into the Atlantic Ocean. The harbor of the v. admits small vessels, of which a considerable number are employed in the coasting trade. The t. contains numerous mills, with several tanneries. The Portland, Saco, and Portsmouth R. R. passes through the t., 28 miles from Portland, and 23 m. from Portsmouth. Pop. of t. 2,945.

WELLS, t. and p. o., Hamilton co., *N. Y.*: 69 m. N. N. W. Albany. Surface diversified. Drained by Sacandaga r. Pop. about 400.

WELLS, t. and p. v., Rutland co., *Verm.*: 67 m. S. S. W. Montpelier. Surface of t. diversified, containing Lake Austin, extending nearly through the t. from Poultney centrally S., the outlet of which flowing into Paoelet r., affords water-power. The v. is situated on this outlet. Pop. of t. 804.

WELLS' island, Jefferson co., N. Y.: is one of the largest of the Thousand Islands, in the St. Lawrence river. It is attached to the t. of Clayton, and is of note, from the burning of the steamer Sir Robert Peel in the vicinity, during the Canadian Rebellion.

WELLS river, Verm.: is an important mill-stream, flowing from Long Pond, in Groton, S. E. to its entrance into the Connecticut at Wells River village.

WELLSBORO', p. b., and cap., Tioga co., *Penn.*: 102 m. N. by W. Harrisburg. It contains a court-house, jail, stores, etc., and an academy. A plank road extends hence to Tioga. The "Wellsboro' Advertiser" (whig) is here published. Pop. 620.

WELLSBURG, p. o., St. Charles co., *Mo.*: 78 m. E. by N. Jefferson City.

WELLSBURG, p. o. and sta., Chemung co., *N. Y.:* on Erie R. R., 276 m. from New York, 193 m. from Dunkirk, and 162 m. W. S. W. Albany.

WELLSBURG, p. v. and cap. Brooke co., *Virg.:* on the E. side of Ohio r., at the mouth of Buffalo cr., 250 m. N. W. Richmond. It has an elevated and beautiful situation, and was laid out in 1789. It contains the county buildings, 5 churches, 2 seminaries, and 1 bank, capital \$118,000. It has very extensive trade with the river towns and New Orleans. Its principal manufactures are earthen and stone ware, glass and flour. The "Millennial Harbinger," and "Wellsburg Herald" (indep.), are issued weekly. In the vicinity are great beds of bituminous coal. Pop. about 2,200.

WELLS' CORNER, p. o., Orange co., *N. Y.:* 96 m. S. S. W. Albany.

WELLS' CORNERS, p. o., Erie co., *Penn.*: 195 m. N. W. by W. Harrisburg.

WELLSGOT, p. o., Union county, *Ga.*: 187 m. N. by W. Milledgeville.

WELL'S DEPOT, p. o. and sta., York co., *Me.*: on Portland, Saco, and Portsmouth R. R., 28 m. from Portland, 23 m. from Portsmouth, 83 m. S. S. W. Augusta.

WELL'S MILLS, p. o., Appanoose co., *Ia.*: on E. side of Chariton r., 90 m. S. W. Iowa City.

WELL'S RIVER, p. v. and sta., Orange co., *Verm.:* on W. side of Connecticut r., at the mouth of Wells r., 26 m. E. S. E. Montpelier. It is surrounded by very high hills, preventing any great growth; but it is a place of much business. The Connecticut and Passumpsic Rivers R. R. passes through, 40 m. from White river junction, 81 m. from South Johnsbury. The Boston, Concord, and Montreal R. R. will here cross the Connecticut. The village contains one bank, cap. \$75,000, and has some manufactures.

WELLSVILLE, p. v., Alleghany co., *N. Y.:* 227 m. W. by S. Albany.

WELLSVILLE, p. v. and sta., Columbiana co., *Ohio*: on W. bank of Ohio river, 126 m. E. N. E. Columbus. It was laid out in 1824 by William Wells. It has very extensive trade with river towns and with the interior. The Cleveland and Pittsburg R. R. here connects by steamboat to Pittsburg with the other or railroad portion of the route, to Cleveland, 100 m. An extension of the railroad to Wheeling is now in progress. Pop. in 1840, 759; in 1850, 1,549.

WELLSVILLE, p. o., Newberry district, *S. Car.*: 47 miles W. N. W. Columbia.

WELSHFIELD, p. o., Geauga county, *Ohio*: 130 m. N. E. Columbus.

WELSH RUN, p. o., Franklin co., *Penn.*: 35 m. W. S. W. Harrisburg.

WENE station, Erie co., *N. Y.*: on Buffalo and Rochester R. R., 15 m. from Buffalo, 50 m. from Rochester.

WENDELL, t., p. v., and sta., Franklin co., *Mass.*: 68 m. W. by N. Boston. Bounded N. by Miller's r., which affords water-power. The v., situate centrally, is neatly built. The Vermont and Massachusetts R. R. passes through its N. part. Pop. of t. 920.

WENDELL DEPÔT, p. o. and sta., Franklin co., *Mass.*: on Vermont and Massachusetts R. R., 40 m. from Fitchburg, 29 m. from Brattleboro', 69 m. W. by N. Boston.

WENHAM, t., p. v., and sta., Essex co., *Mass.*: on Eastern R. R., 20 m. N. N. E. Boston. Surface pleasantly diversified. Wenham Pond, about 1 m. sq., is a beautiful sheet of water, noted for its transparency; it abounds with fish, and in winter great quantities of ice are here cut for market. Pop. of t. 977.

WENTWORTH, t., p. v., and sta., Grafton co., *N. Hamp.*: 45 m. N. N. W. Concord. The t. is drained by Baker river, which affords water-power to several mills and factories. The Boston, Concord, and Montreal R. R. passes through the v., 67 m. from Concord. Pop. of t. 1,197.

WENTWORTH, p. o., Lake co., *Ill.*: 192 m. N. E. by N. Springfield.

WENTWORTH, p. v., and cap. Rockingham co., *N. Car.*: on E. side of small branch of Dan r., 76 m. N. W. by W. Raleigh. It contains the county buildings. Population about 120.

WENTWORTH'S LOCATION, p. o., Coos county, *N. Hamp.*: 117 m. N. Concord.

WESCOSVILLE, p. o., Lehigh co., *Penn.*: 70 m. E. N. E. Harrisburg.

WESLEY, p. o., Fulton co., *Ind.*: 85 m. N. Indianapolis.

WESLEY, p. o., Monroe co., *Miss.*: on E. side of Tombigbee r., 142 m. N. E. Jackson.

WESLEY, p. o., Hickman county, *Ky.*: 125 m. W. S. W. Frankfort.

WESLEY, t. and p. o., Washington co., *Me.*: 114 m. E. N. E. Augusta. Pop. of t. 329.

WESLEY, p. o., Venango co., *Penn.*: 168 m. W. N. W. of Harrisburg.

WESLEY, t. and p. v., Washington co., *Ohio*: 47 m. E. S. E. Columbus. Surface of t. rolling. Drained by small streams flowing into Ohio r. Pop. of t. 1,561.

WESLEY, p. v., Haywood county, *Tenn.*: 3 m. S. of Big Hatchee r., 150 m. W. S. W. Nashville.

WESLEY CITY, p. o., Tazewell county, *Ill.*: on E. side of Illinois r., 56 m. N. Springfield.

WESLEY CHAPEL, p. o., Tippecanoe county, *Ind.*: 54 m. N. W. Indianapolis.

WESLEYVILLE, p. v., Erie co., *Penn.*: 200 m. N. W. by W. Harrisburg.

WESORUGA, p. o., Randolph co., *Ala.*: 88 m. N. E. by N. Montgomery.

WEST river, Windham county, *Verm.*: an excellent mill-stream rises in Weston, flows in general course S. S. E., and empties into the Connecticut river in N. E. part of Brattleboro'.

WEST river, Anne Arundel co., *Md.*: a large estuary of Chesapeake bay, in S. part of the county.

WEST ACTON, p. v. and sta., Middlesex co., *Mass.*: on Fitchburg R. R., 27 m. from Boston.

WEST BARNSTABLE, p. v., Barnstable co., *Mass.*: 64 m. S. E. by S. Boston.

WEST BARRE, p. o., Huntingdon county, *Penn.*: 58 m. W. N. W. Harrisburg.

WEST BARRE, p. o., Fulton co., *Ohio*: 123 m. N. N. W. Columbus.

WEST BATH, t. and p. o., Lincoln county, *Me.*: 27 m. S. Augusta. Pop. 560.

WEST BEAVER, p. o., Columbiana county, *Ohio*: 123 m. E. N. E. Columbus.

WEST BECKET, p. o., Berkshire co., *Mass.*: 104 m. W. Boston.

WEST BEDFORD, p. o., Coshocton county, *Ohio*: 67 m. N. E. by E. Columbus.

WEST BEND, t., p. v., and capital of Washington county, *Vt.*: 63 m. E. N. E. Madison. Drained by Millwankie r. and branches. The v. contains a court-house, jail, etc. Pop. of t. 672.

WEST BERGEN, p. o. and sta., Genesee co., *N. Y.*: on Buffalo and Rochester R. R., 22 m. from Rochester, 46 m. from Buffalo, 224 m. W. by N. Albany.

WEST BERKSHIRE, p. o., Franklin county, *Verm.*: 50 m. N. N. W. Montpelier.

WEST BERLUN, p. o., St. Clair co., *Mich.*: 82 m. E. by N. Lansing.

WEST BERLIN, p. o., Rensselaer co., *N. Y.*: 13 m. E. Albany.

WEST BETHANY, p. o., Genesee co., *N. Y.*: 232 m. W. Albany.

WEST BETHEL, p. v. and sta., Oxford co., *Me.*: on E. side of Androscoggin r., 54 m. W. Augusta. The Atlantic and St. Lawrence R. R. passes through. 74 m. from Portland.

WEST BLOOMFIELD, t. and p. v., Oakland co., *Mich.*: 60 m. E. by S. Lansing. Pop. of t. 1,985.

WEST BLOOMFIELD, p. v., Essex county, *N. Jer.*: 48 m. N. E. by N. Trenton. It contains several stores, etc. Shoemaking is carried on extensively.

WEST BLOOMFIELD, t. and p. v., Ontario co., *N. Y.*: 198 miles W. Albany. Surface of t. somewhat hilly; drained by Honeoye cr., which affords water-power. The v. has an elevated site, and contains 3 churches, with stores, etc. The Canandaigua and Niagara Falls R. R. passes through it. Pop. of t. 1,698.

WEST BOLTON, p. o., Chittenden county, *Verm.*: 18 m. N. W. by W. Montpelier.

WESTBORO', l., p. v., and sta., Worcester co., *Mass.*: 28 m. W. by S. Boston. Surface pleasantly diversified, and containing several ponds; soil fertile. Drained by branches of Sudbury and Concord rivers, which afford water-power. The Boston and Worcester R. R. passes through S. part of t., 32 m. from Boston, 13 m. from Worcester. In this t. is located the State Reform School for boys, which generally contains about 300 inmates. Pop. of t. 2,376.

WESTBORO', p. o., Clinton county, *Ohio*: 54 m. S. W. Columbus.

WEST BOSCAWEN, p. o., Merrimac co., *N. Hamp.*: 12 m. N. W. Concord.

WEST BOXFORD, p. o., Essex co., *Mass.*: 24 m. N. Boston.

WEST BOYLSTON, t., p. v., and sta., Worcester co., *Mass.*: 36 m. W. Boston. Drained by branches of Nashua r., which afford water-power to various factories. The Worcester and Nashua R. R. passes through the v., 9 m. from Worcester, 36 m. from Nashua. Pop. of t. 1,749.

WEST BRAintree, p. o., Orange county, *Verm.*: 22 m. W. by S. Montpelier.

WEST BRANCH, p. o., Oneida co., *N. Y.*: on branch of Mohawk r., 102 m. W. N. W. Albany.

WEST BRATTLEBORO', p. v. Windham co., *Verm.*: 102 m. S. Montpelier.

WEST BREWSTER, p. o., Barnstable co., *Mass.*: 63 m. S. E. Boston.

WEST BRIDGEWATER, t. and p. v., Plymouth co., *Mass.*: 24 m. S. Boston. Surface level; drained by a large branch of Taunton r., which affords water-power. The Fall River R. R. touches its E. border. Pop. of t. 1,447.

WEST BROOK, t., p. v., and sta., Middlesex co., *Conn.*: 36 m. S. by E. Hartford. Bounded S. by Long Island Sound. The New Haven and New London R. R. passes through, 26 m. from New Haven, 24 m. from New London. Population of t. 1,203.

WEST BROOK, p. o., Bladen co., *N. Car.*: on W. side of Cape Fear r., 88 m. S. by E. Raleigh.

WEST BROOKFIELD, t., p. v., and sta., Worcester co., *Mass.*: 57 m. W. by S. Boston. Surface pleasantly diversified, and contains a handsome pond. The Western R. R. passes through the S. part of t., 25 m. from Worcester, 69 m. from Boston. Pop. of t. 1,344.

WEST BROOKFIELD, p. o., Stark county, *Ohio*: 100 miles N. E. by E. Columbus.

WEST BROOKVILLE, p. v., Hancock co., *Me.*: 52 m. E. Augusta.

WEST BROOKVILLE, p. v., Sullivan co., *N. Y.*: 84 m. S. S. W. Albany.

WEST BROWNSVILLE, p. v., Washington co., *Penn.*: 175 m. W. Harrisburg. Pop. 477.

WEST BUCKFIELD, p. o., Oxford co., *Me.*: 32 m. W. by S. Augusta.

WEST BUFFALO, p. o., Scott co., *Ia.*: on W. side Mississippi r., 41 m. E. S. E. Iowa City.

WEST BURLINGTON, p. o., Otsego co., *N. Y.*: 74 m. W. Albany.

WEST BURLINGTON, p. o., Bradford co., *Penn.*: 102 m. N. Harrisburg.

WESTBURY, p. o., Wayne co., *N. Y.*: 160 m. W. by N. Albany.

WEST BUTLER, p. o., Wayne co., *N. Y.*: 163 m. W. by N. Albany.

WEST BUXTON, p. o., York county, *Me.*: 63 m. S. W. Augusta.

WEST CAMBRIDGE, l., p. v., and sta., Middlesex co., *Mass.*: 6 m. N. W. Boston. Surface in S. E. part level, low, and somewhat marshy; in the middle more elevated and dry; in N. W. part broken and rocky. It contains Spy and Little ponds, with part of Fresh Pond, which are very beautiful sheets of water, abounding with fish, and furnishing great quantities of ice for Boston market and exportation. Soil fertile and highly cultivated. Great quantities of garden vegetables and fruit are raised for the Boston markets. Manufacturing establishments are not numerous. Many persons here residing transact their daily business in Boston, to which trains run hourly, over the Fitchburg R. R. The Lexington and West Cambridge Branch R. R. extends hence to Lexington v., 5 m. This t. and vicinity are of much historical interest. The valuation of property in this t., in 1840, was \$472,423; in 1850, \$1,671,644. Pop. of t. in 1840, 1,363; in 1850, 2,202.

WEST CAMDEN, p. o., Waldo county, *Me.*: 39 m. E. S. E. Augusta.

WEST CAMDEN, p. o. and sta., Oneida co., *N. Y.*: on Watertown and Rome R. R., 23 m. from Rome, 120 m. W. N. W. Albany.

WEST CAMERON, p. o., Steuben co., *N. Y.*: 196 m. W. by S. Albany.

WEST CAMP, p. v., Ulster co., *N. Y.*: on W. side of Hudson r., 38 m. S. by W. Albany.

WEST CAMPTON, p. o., Grafton county, *N. Hamp.*: 42 m. N. by W. Concord.

WEST CANADA creek, *N. Y.*: rises in Hamilton co., flows S. W., S. E., and S., and empties into Mohawk r., 1 m. below Herkimer v. It has a very rapid current, affording great water-power. Its principal descent is at Trenton Falls, 20 m. above its mouth, where it has a descent of more than 300 feet in 4 miles.

WEST CANAAN, p. o. and sta., Grafton co., *N. Hamp.*: on Northern R. R., 56 m. from Concord, 13 m. from W. Lebanon.

WEST CANDOR, p. o., Tioga co., *N. Y.*: 140 m. W. by S. Albany.

WEST CARLISLE, p. v., Coshocton co., *Ohio*: 35 m. E. N. E. Columbus.

WEST CARLTON, p. o., Orleans county, *N. Y.*: 240 m. W. by N. Albany.

WEST CAYUTA, p. o., Chemung co., *N. Y.*: 153 m. W. by S. Albany.

WEST CHARLESTON, p. o., Penobscot county, *Me.*: 64 m. N. E. Augusta.

WEST CHARLESTON, p. v., Miami co., *Ohio*: 53 m. W. Columbus.

WEST CHARLESTON, p. v., Orleans co., *Verm.*: on N. side of Clyde r., 50 m. N. N. E. Montpelier.

WEST CHARLTON, p. v., Saratoga county, *N. Y.*: 24 m. N. W. by N. Albany.

WEST CHAZY, p. v., and sta., Clinton co., *N. Y.*: on Plattsburg and Montreal R. R., 10 m. from Plattsburg, 53 m. from Montreal, 152 m. N. Albany. It contains a church, stores, etc., and several mills on Little Chazy r.

WEST CHELMSFORD, p. v., Middlesex co., *Mass.*: 23 m. N. W. Boston.

WESTCHESTER county, *N. Y.* Situate S. E., and contains 470 sq. m. Drained by Croton, Sawmill, and Bronx rivers, which supply good water. Surface generally hilly, being broken by numerous ridges, running chiefly from S. W. to N. E.; soil naturally indifferent, but where cultivated is productive. Good crops of corn are raised, and fruits and vegetables in considerable quantity. These, with wheat and Indian corn, form the staple productions. This county is rich in minerals. At Sing-Sing marble is found in abundance, and in the vicinity is a copper mine formerly wrought,

but for some time abandoned. It contains Croton lake, which, by means of an aqueduct, supplies New York with a constancy of fresh water. Farms 2,587; manuf. 396; dwell. 8,754, and pop.—wh. 56,217, fr. col. 2,046—total 58,263. *Capitals*: Bedford and White Plains. *Public Works*: Hudson River R. R.; Harlem R. R.; New York and New Haven R. R.; Croton Aqueduct.

WESTCHESTER, p. v., New London county, *Conn.*: 20 m. S. E. by S. Hartford. It contains a church, academy, several stores, etc.

WESTCHESTER, t. and p. v., Westchester co., *N. Y.*: 123 m. S. Albany. Bounded E. and S. by East r., and W. by Bronx r. Surface pleasantly diversified; soil clay loam, and highly cultivated, producing immense quantities of garden vegetables, etc. for the New York markets. The v., on Westchester cr., 12 m. from the City Hall, New York, contains 3 churches, stores, etc., and about 500 inhabitants. Sloops ply hence to New York. Pop. of t. 2,492.

WESTCHESTER, p. v., Butler co., *Ohio*: 84 m. S. W. by W. Columbus.

WESTCHESTER, p. b., and cap. Chester co., *Penn.*: 70 m. E. by S. Harrisburg. It is regularly laid out with streets, crossing each other at right angles. Incorporated as a borough in 1799. It contains the county buildings, 2 market-houses, 1 bank, capital \$225,000, and 6 churches. It has considerable trade and manufactures, and is connected by a branch of the Columbia R. R., with Philadelphia. A direct railroad to Philadelphia is also being constructed. Its citizens are noted for enterprise and intelligence, and have several literary associations. Five weekly newspapers were published in 1850—"Village Record" (whig), "Register and Examiner" (whig), "Republican" (dem.), "Jeffersonian" (dem.), and "Phoenix Ledger" (dem.) Pop. about 2,500.

WEST CHESTERFIELD, p. o., Hampshire co., *Mass.*: 92 m. W. Boston.

WEST CLAREMONT, p. v., Sullivan co., *N. Hamp.*: 41 m. W. by N. Concord.

WEST CLARKSVILLE, p. v., Alleghany co., *N. Y.*: 242 m. W. by S. Albany.

WEST CLIMAX, p. o., Kalamazoo co., *Mich.*: 55 m. S. W. Lansing.

WEST COLESVILLE, p. v., Broome county, *N. Y.*: 92 m. W. S. W. Albany.

WEST COLUMBIA, p. v., Mason co., *Virg.*: 263 m. W. N. W. Richmond.

WEST CONCORD, p. v., Erie county, *N. Y.*: 262 miles W. Albany.

WEST CONCORD, p. v. and sta., Merrimac co., *N. Hamp.*: on Northern R. R., 3 m. W. N. W. Concord. It contains a cotton factory, carriage manufactory, etc. The Merrimac and Connecticut Rivers R. R. passes through the place.

WEST CONCORD, p. v., Essex co., *Verm.*: 36 m. E. by N. Montpelier.

WEST CONESUS, p. v., Livingston co., *N. Y.*: 208 m. W. Albany.

WEST CONSTABLE, p. o., Franklin county, *N. Y.*: 162 m. W. by N. Albany.

WEST CORNWALL, p. v. and sta., Litchfield co., *Conn.*: on E. side of Housatonic r., 36 m. W. by N. Hartford. The Housatonic R. R. passes through, 61 m. from Bridgeport, 49 m. from Pittsfield. It contains a church and several manufacturing establishments.

WEST CORNWALL, p. o., Addison county, *Verm.*: 36 m. S. W. by W. Montpelier.

WEST DRYDEN, p. v., Tompkins co., *N. Y.*: 140 m. W. Albany.

WEST DUBLIN, p. v., Fulton co., *Penn.*: 55 m. W. by S. Harrisburg.

WEST DUMMERSTON, p. v., Windham co., *Verm.*: 80 m. S. Montpelier.

WEST DURHAM, p. o., Cumberland co., *Me.*: 32 m. S. W. by S. Augusta.

WEST DUXBURY, p. v., Plymouth co., *Mass.*: 36 m. S. E. Boston.

WEST EDMESTON, p. v., Otsego co., *N. Y.*: on E. side of Unadilla r., 80 m. W. Albany.

WEST ELIZABETH, p. v., Alleghany county, *Penn.*: on W. side Monongahela r., 155 m. W. Harrisburg.

WEST ELKTON, p. o., Preble co., *Ohio*: 86 m. W. by S. Columbus.

WEST ELLERY, p. o., Chautauque co., *N. Y.*: 297 m. W. by S. Albany.

WEST ELY, p. o., Marion county, *Mo.*: 85 m. N. N. E. of Jefferson City.

WEST EMDEN, p. v., Somerset co., *Me.*: 44 m. N. by W. Augusta.

WEST END, p. o., Bedford co., *Penn.*: 84 m. W. by S. of Harrisburg.

WEST ENFIELD, p. o., Grafton county, *N. Hamp.*: 39 m. N. W. Concord.

WEST ENFIELD, p. o., Penobscot co., *Me.*: 72 m. N. E. of Augusta.

WEST ENOSBURG, p. v., Franklin co., *Verm.*: 54 m. W. by N. Montpelier.

WESTERLOO, t. and p. v., Albany co., *N. Y.*: 17 m. S. W. Albany. Drained by Provost cr. and other branches of Catskill r. The t. contains several grist and saw mills, but the inhabitants are generally engaged in farming, etc. Pop. 2,860.

WESTERLOO Island, Albany co., *N. Y.*: lies in the Hudson r., in Albany co., opposite Bethlehem, to which t. it is attached. It is 2 m. long, ¼ m. wide, and of extraordinary fertility.

WESTERLY, t. p. v., and sta., Washington co., *R. I.*: 26 m. W. by S. Newport. Bounded S. by the Atlantic and W. by Connecticut. Pawtucket r. flows on its N. and W. border, affording water-power to numerous mills and factories. The t. has an uneven surface, and contains several stores, 3 churches, and 3 banks, capital \$325,000. It has considerable coasting trade and ship-building. The Stonington and Providence R. R. passes through it, 5 m. from Stonington, 45 m. from Providence. Pop. of t. in 1840, 1,912; in 1850, 2,766.

WESTERMAN'S MILLS, p. o., Baltimore co., *Md.*: on Baltimore and Susquehanna R. R., 18 m. from Baltimore.

- WESTERN FORD, p. o., Randolph co., *Virg.*: on W. side of Cheat r., 163 m. N. W. Richmond.
- WESTERNPORT, p. v., Allegheny co., *Pa.*: on N. side Potomac r., 135 m. W. by N. Annapolis. It is connected by railroad with the coal mines, and will become an important place of deposit.
- WESTERN PRONG, p. o., Bladen co., *N. Car.*: about 2 m. W. White Marsh cr., 84 m. S. Raleigh.
- WESTERN SARATOGA, p. o., Union co., *Ill.*: 162 m. S. by E. Springfield.
- WESTERN STAR, p. o., Summit county, *Ohio*: 96 m. N. E. Columbus.
- WESTERNVILLE, p. v., Oneida co., *N. Y.*: on Mohawk r. and Black River Canal, 80 m. W. N. W. Albany. It contains 2 churches, several stores, and mills. Pop. about 300.
- WESTERNVILLE, p. v., Franklin co., *Ohio*: 12 m. Columbus.
- WEST EXETER, p. o., Otsego co., *N. Y.*: 70 m. W. by N. Albany.
- WEST FAIRFIELD, p. v., Westmoreland co., *Penn.*: on a small branch of Conemaugh r., 115 m. W. Harrisburg. In the vicinity is a charcoal hot-blast furnace, with annual capacity of 1,800 tons, employing 50 men; also a charcoal coal-blast furnace, with annual capacity of 1,100 tons, employing 40 men.
- WEST FAIRLEE, t. and p. v., Orange co., *Verm.*: 28 m. S. E. Montpelier. Surface mountainous. Drained by branches of Ompompanoosic r. Pop. 696.
- WEST FALLS, p. o., Erie co., *N. Y.*: 264 m. W. Albany.
- WEST FALMOUTH, p. v., Cumberland county, *Me.*: 48 m. S. W. by S. Augusta.
- WEST FALMOUTH, p. v., Barnstable county, *Mass.*: 58 m. S. S. E. Boston.
- WEST FARMINGTON, p. o., Ontario county, *N. Y.*: 169 m. W. by N. Albany.
- WEST FARMS, t. and p. v., Westchester co., *N. Y.*: 126 m. S. Albany. The t. is bounded E. by Bronx r. and W. by Harlem r., and contains several pleasant villages on the Harlem R. R. The v. on Bronx r. contains 4 churches and several factories. Several sloops ply to New York, conveying country produce to the city markets. Pop. of t. 4,436.
- WEST FAYETTE, p. o., Seneca co., *N. Y.*: 165 m. W. by N. Albany.
- WESTFIELD, p. o., Clark co., *Ill.*: 90 m. E. by S. Springfield.
- WESTFIELD, p. o., Hamilton county, *Ind.*: 18 miles N. Indianapolis.
- WESTFIELD, t., p. v., and sta., Hampden co., *Mass.*: 74 m. W. by S. Boston. Surface diversified. Drained by Westfield r. and its branch, Little r., which afford water-power to numerous manufactories. The v. is handsomely situated on a plain, and is neatly built. In the centre is a public ground, fronting which are the principal churches and hotels. The v. contains a town-house, State normal school, an academy, several churches, and 2 banks, capital \$200,000. The Western R. R. passes through it, 9 m. from Springfield, 64 m. from Worcester, 108 m. from Boston, and 92 m. from Albany. The "News-Letter" (whig) and "Standard" (dem.) are issued weekly. Pop. of t. in 1840, 3,523; in 1850, 4,186.
- WESTFIELD, t., p. v., and sta., Essex co., *N. Jer.*: 36 m. N. E. by N. Trenton. Surface in S. part level, in N. part hilly. The t. contains several flouring and grist mills. The New Jersey Central R. R. passes through, 23 m. from New York, 55 m. from Easton. Pop. 1,575.
- WESTFIELD, t., p. v., and sta., Chautauque co., *N. Y.*: 306 m. W. by S. Albany. Surface hilly, declining toward Lake Erie, which bounds it on the N. Drained by Chautauque cr. and other streams. The v. on Chautauque cr., 1½ m. from the lake, contains several manufacturing establishments and mills, a bank, 4 churches, an academy, etc., and about 1,000 inhabitants. The Buffalo and State Line R. R. passes through it, 57 m. from Buffalo. The "Westfield Messenger" (whig) is here published. Pop. of t. 3,100.
- WESTFIELD, t. and p. v., Morrow co., *Ohio*: 81 m. N. Columbus. Drained by E. branch of Whetstone r. The
- Cleveland, Columbus, and Cincinnati R. R. passes through its E. part. Pop. of t. 1,414.
- WESTFIELD, t. and p. o., Tioga co., *Penn.*: on S. side of Cowanessie cr., 117 m. W. by N. Harrisburg. Population of t. 1,000.
- WESTFIELD, t. and p. o., Orleans county, *Verm.*: 41 m. N. by E. Montpelier. Surface diversified. Drained by branches of Missisque r. Pop. 502.
- WESTFIELD, p. o., Marquette co., *Wis.*: 60 m. N. by E. Madison.
- WEST FINLEY, t. and p. v., Washington co., *Penn.*: surface very hilly. Drained by branches of Wheeling cr. The Hempfield R. R. will pass through its N. part. Population about 1,200.
- WEST FITCHBURG, p. v. and sta., Worcester co., *Mass.*: on Vermont and Massachusetts R. R., 2 m. W. by S. Fitchburg, 43 m. W. N. W. Boston.
- WEST FLORENCE, p. v., Preble co., *Ohio*: 93 m. W. by S. Columbus.
- WESTFORD, p. v., Windham co., *Conn.*: 29 m. E. N. E. Hartford. It contains 2 churches, stores, etc.
- WESTFORD, t., p. v., and sta., Middlesex co., *Mass.*: 23 m. N. W. by W. Boston. Surface elevated. Drained by Stony r., which affords water-power. The v. near the centre contains 2 churches, an academy, stores, etc. The station on Stony Brook R. R., is 10 m. from Groton, 7 m. from Lowell. The t. contains several mills and manufacturing establishments. Pop. of t. 1,473.
- WESTFORD, t. and p. o., Otsego county, *N. Y.*: 53 m. W. Albany. The inhabitants are generally engaged in agricultural pursuits. Pop. 1,423.
- WESTFORD, t. and p. v., Chittenden co., *Verm.*: 31 m. N. W. Montpelier. Drained by Brown's r., tributary to La-moille r., flowing through the t. centrally. Surface rough; soil best adapted to grazing. Pop. of t. 1,458.

WEST MILTON, p. o., Miami county, *Ohio*: 72 m. W. Columbus.

WEST MILTON, p. v., Chittenden co., *Verm.*: on S. side of Lamotte r., 36 m. N. W. Montpelier.

WEST MINOT, p. o., Cumberland county, *Me.*: 31 m. S. W. by W. Augusta.

WESTMINSTER, p. v., Windham co., *Conn.*: 84 m. E. by S. Hartford.

WESTMINSTER, p. v., and cap. Carroll county, *Md.*: 47 m. N. W. by N. Annapolis. It contains the county buildings, several churches, and 1 bank, cap. \$110,000. The "Carrolltonian" (whig), and "Carroll Co. Democrat," are issued weekly. The Westminster Branch R. R., diverging from the Baltimore and Susquehanna R. R. at the Relay House, 7 m. N. to Baltimore, is in construction to this place. Pop. in 1850 784 wh., and 51 fr. col.—total 835.

WESTMINSTER, t., p. v., and sta., Worcester county, *Mass.*: 45 m. W. by N. Boston. Drained by affluents of Nashua r. The v. contains 8 churches. The sta., on Vermont and Massachusetts R. R., 5 m. from Fitchburg, is in its N. E. part. Pop. of t. 1,916.

WESTMINSTER, p. v., Guilford co., *N. Car.*: 70 m. W. N. W. Raleigh.

WESTMINSTER, p. v., Allen county, *Ohio*: 72 m. N. W. Columbus.

WESTMINSTER, p. v., Shelby co., *Ohio*: 69 m. W. N. W. Columbus.

WESTMINSTER, t., p. v., and sta., Windham co., *Verm.*: on W. side of Connecticut r., 84 m. S. by E. Montpelier. The v. is beautifully situated, and neatly built. The Vermont Valley R. R. passes through it, 4 m. from Bellows Falls, 20 m. from Brattleboro'. Pop. of t. 1,721.

WESTMINSTER WEST, p. v., Windham co., *Verm.*: 86 m. S. by E. Montpelier.

WEST MONROE, t. and p. o., Oswego co., *N. Y.*: 130 m. W. by N. Albany. Bounded S. by Oneida lake. Surface level. Drained by Bog cr. Pop. 1,197.

WESTMORELAND county, *Penn.* Situate toward the S. W., and contains 989 sq. m. Drained by Loyalhanna and Youghiogeny rivers, and by Sewickly cr. and Beaver Dam run. Surface uneven and in parts mountainous; soil very productive. Staples, wheat, Indian corn, and potatoes. Tobacco is also cultivated. The N. W. is bounded by the Allegheny river. Farms 4,013; manuf. 586; dwell. 8,350, and pop.—wh. 51,280, fr. col. 446—total 51,726. *Capital*: Greensburg. *Public Works*: Pennsylvania R. R.; Hempfield R. R.; Allegheny Valley R. R.; Pennsylvania Canal.

WESTMORELAND county, *Virg.* Situate N. E., and contains 162 sq. m. Drained by small streams flowing into the Potomac and Rappahannock rivers. Surface level; soil fertile and adapted to grain and grazing. Chief products, wheat and Indian corn, with cotton. Farms 443; manuf. 5; dwell. 869, and pop.—wh. 3,410, fr. col. 1,113, sl. 3,557—total 3,080. *Capital*: Westmoreland C. H.

WESTMORELAND, p. o., Dallas county, *Ala.*: 50 m. W. Montgomery.

WESTMORELAND, t. and p. o., Cheshire co., *N. Hamp.*: on E. side of Connecticut r., 45 m. W. S. W. Concord. Surface uneven; soil moderately fertile. The Cheshire R. R. passes through its N. E. part. Pop. 1,677.

WESTMORELAND, t. and p. o., Oneida county, *N. Y.*: 93 m. W. N. W. Albany. Surface of t. level; soil rich loam. Interests chiefly agricultural, but contains several saw-mills and tanneries. Pop. 3,291.

WESTMORELAND C. H., p. v., and cap. Westmoreland co., *Virg.*: 50 m. N. E. Richmond. It contains the county buildings, several stores, etc. Pop. about 180.

WESTMORELAND DEPÔT, p. v. and sta., Cheshire county, *N. Hamp.*: on Cheshire R. R., 54 m. from Fitchburg, and 10 m. from Bellows Falls.

WESTMORELANDVILLE, p. v., Lauderdale co., *Ala.*: 193 m. N. N. W. Montgomery.

WEST NEEDHAM, p. v. and sta., Norfolk co., *Mass.*: on Boston and Worcester R. R., 15 m. from Boston.

WEST NEWARK, p. v., Tioga co., *N. Y.*: 130 m. W. by S. Albany.

WEST NEWBURY, t. and p. v., Essex co., *Mass.*: on S. side of Merrimac r., 81 m. N. Boston. Interests of t. are chiefly agricultural. Pop. 1,746.

WEST NEWFIELD, p. o., York co., *Me.*: on N. side of Little Ossipee r., 78 m. S. W. Augusta.

WEST NEWPORT, p. o., Orleans co., *Verm.*: 46 m. N. by E. Montpelier.

WEST NEWSTEAD, p. o., Erie co., *N. Y.*: 252 m. W. by N. Albany.

WEST NEWTON, p. v. and sta., Middlesex co., *Mass.*: on Boston and Worcester R. R., 9 m. from Boston. It is handsomely built, and contains a State Normal school for female teachers.

WEST NEWTON, p. o., Allen co., *Ohio*: 82 m. W. N. W. Columbus.

WEST NEWTON, p. v., Westmoreland co., *Penn.*: on E. bank of Youghiogeny r., 146 m. W. Harrisburg. The Hempfield R. R. will pass through this place. Pop. 771.

WEST MILLS, p. o., Cayuga co., *N. Y.*: 142 m. W. Albany.

WEST NORFOLK, p. v., Litchfield county, *Conn.*: 82 m. N. W. by W. Hartford.

WEST NORTHFIELD, p. o., Franklin county, *Mass.*: 74 m. W. N. W. Boston.

WEST NORTHWOOD, p. o., Rockingham co., *N. Hamp.*: 16 m. E. Concord.

WEST OGDEN, p. o., Lenawee co., *Mich.*: 75 m. S. S. E. Lansing.

WESTON, t. and p. v., Fairfield co., *Conn.*: 58 m. S. W. Hartford. Surface uneven. Drained by Saugatuck r. and branch, which afford water-power. The v. contains an academy and church. The chief interests of the t. are agricultural. Pop. of t. 1,063.

WESTON, p. v., Jo Daviess co., *Ill.*: 175 m. N. by W. Springfield.

WESTON, t. and p. o., Aroostook co., *Me.*: 135 m. N. W. Augusta. Pop. 293.

WESTON, t. p. v., and sta., Middlesex co., *Mass.*: 11 m. W. Boston. Surface of t. pleasantly diversified. The central v., built chiefly on one street, contains 2 churches. The station is in N. part of t., on Fitchburg R. R., 13 m. from Boston. The Boston and Worcester R. R. crosses S. E. corner of t. Pop. of t. 1,205.

WESTON, p. v., Platte co., *Mo.*: on N. E. side of Missouri r., 161 m. W. N. W. Jefferson City. It has a good situation, and carries on extensive business and trade. The "Weston Reporter" (whig), and "Platte Argus" (dem.), are published weekly.

WESTON, p. v., Somerset co., *N. Jer.*: on the Delaware and Raritan Canal, and E. side of Millstone r., 22 m. N. N. E. Trenton.

WESTON, t. and p. v., Wood co., *Ohio*: on S. side of Maumee r., 107 m. N. N. W. Columbus. Drained by Beaver cr. Pop. 546.

WESTON, p. o., Steuben county, *N. Y.*: 188 m. W. by S. Albany.

WESTON, t. and p. v., Windsor co., *Verm.*: 66 m. S. Montpelier. Drained by West r., which furnishes mill sites. The v. near the centre contains several manufacturing establishments, and two churches. Pop. of t. 950.

WESTON, p. v., and cap. Lewis co., *Virg.*: on W. fork of Monongahela r., 188 m. N. W. by W. Richmond. It contains the county buildings, several stores, etc. The "Weston Sentinel" (dem.) is issued weekly. Pop. about 250.

WEST ONEONTA, p. o., Otsego co., *N. Y.*: 72 m. W. by S. Albany.

WEST ONONDAGA, p. v., Onondaga co., *N. Y.*: 133 m. W. by N. Albany.

WEST OSSIPPEE, p. v., Carroll co., *N. Hamp.*: on S. side of Bear Camp r., 40 m. N. by E. Concord.

WEST OTIS, p. v., Berkshire co., *Mass.*: 106 m. W. by S. Boston.

WEST PARSONSFIELD, p. v., York co., *Me.*: 76 m. S. W. by W. Augusta.

WEST PENN, t. and p. v., Schuylkill co., *Penn.*: 60 m. N. E. Harrisburg. The t. has a hilly surface, gravelly and sterile soil, and abounds in anthracite coal. Pop. about 1,500.

WEST PERRYSBURG, p. o., Cattaraugus co., *N. Y.*: 275 m. W. Albany.

WEST PERTH, p. o., Fulton co., *N. Y.*: 36 m. N. W. Albany.

WEST PERU, p. o., Oxford county, *Me.*: 36 m. W. by N. Augusta.

WESTPHALIA, p. v., Osage co., *Mo.*: on W. bank Mauvais cr., a tributary of Osage r., 13 m. S. E. Jefferson City.

WEST PHILADELPHIA, p. district, Philadelphia co., *Penn.*: on W. side of Schuylkill r., directly opposite the city proper, with which it is partly associated in municipal government, but has also a separate local government of commissioners. In its W. part are the extensive buildings of the Pennsylvania Hospital for the Insane. Pop. in 1840, 2,896; in 1850, 5,670.

WEST PIERPONT, p. v., Ashtabula co., *Ohio*: 168 m. N. E. Columbus.

WEST PIKE, p. o., Potter co., *Penn.*: 110 m. N. N. W. Harrisburg.

WEST PITTSFIELD, p. v., Berkshire co., *Mass.*: 117 m. W. Boston.

WEST PLAINS, p. v., Oregon co., *Mo.*: 127 m. S. by E. Jefferson City.

WEST PLATTSBURG, p. v., Clinton county, *N. Y.*: 142 m. N. by E. Albany.

WEST PLYMOUTH, p. v., Grafton co., *N. Hamp.*: 37 m. N. by W. Concord.

WEST POINT, p. v. and sta., Troup co., *Ga.*: on E. side of Chattahoochee r., 119 m. W. by S. Milledgeville. The Lagrange R. R. extends to this place from Atlanta, 87 m., and connects with Montgomery and West Point R. R., thence to Montgomery, 88 m. These important thoroughfares have made this a place of considerable trade. Pop. about 450.

WEST POINT, p. o., Cass co., *Mo.*: 120 m. W. Jefferson City.

WEST POINT, p. v., Tippecanoe co., *Ind.*: 60 m. N. W. Indianapolis. Pop. about 350.

WEST POINT, p. o., Lee co., *Ia.*: 62 m. S. Iowa City.

WEST POINT, p. v., Hardin co., *Ky.*: on S. side of Ohio r., at mouth of Salt r., 58 m. W. by S. Frankfort. Population about 200.

WEST POINT, p. v., Lowndes co., *Miss.*: 2 m. N. Okatibbehah r., 125 m. N. E. Jackson.

WEST POINT, p. v., Orange co., *N. Y.*: on W. bank of Hudson r., 91 m. S. by W. Albany. Lat. 41° 28' 31.2" N., long. 73° 57' 03" W. The U. S. Military Academy, here located, was established in 1802. Its site, with 250 acres attached, was ceded by New York to the United States in 1826. It occupies an elevated plain, commanding most delightful views of the river and vicinity, and is surrounded by high hills. The buildings are numerous, and handsomely built of stone. The number of cadets is 250, of instructors 35. The course of instruction, chiefly military and scientific, is of the highest order, and occupies four years. Upon graduation, the cadets are immediately appointed as officers in the U. S. army. The average annual appropriation of Congress for this academy is \$160,000. This place is of great historical interest, from its connection with the Revolution. In 1777 it was fortified and occupied by the American army, and during the war was garrisoned by a strong division of troops. A very massive chain was here stretched across the Hudson, thus preventing, with the aid of the forts, the British from ascending the Hudson and communicating with the Canadian provinces. The ruins of Fort Putnam are still seen. In 1794 a military school was here commenced, but the building was destroyed by fire two years afterward, and the school suspended until 1802, when the present academy was organized.

WEST POINT, p. v., Orange co., *N. Car.*: 25 m. N. W. Raleigh.

WEST POINT, p. v., Columbiana co., *Ohio*: on N. side of branch of Little Beaver r., 126 m. E. N. E. Columbus.

WEST POINT, p. o., Lawrence co., *Tenn.*: 72 m. S. S. W. Nashville.

WEST POLAND, p. o., Cumberland county, *Me.*: 86 m. S. W. by W. Augusta.

WESTPORT, t. p. v., and sta., Fairfield co., *Conn.*: 55 m. S. W. Hartford. Drained by Saugatuck r., which affords water-power. The v., on both sides of the Saugatuck r., contains 2 churches, the Saugatuck iron-works, a very extensive establishment, with several cotton and other factories. The New York and New Haven R. R. passes through it, 47 m. from New York, 29 m. from New Haven. Pop. of t. in 1840, 1,803; in 1850, 2,649.

WESTPORT, p. v., Decatur co., *Ind.*: on W. side of Sandy cr., 70 m. S. E. by S. Indianapolis.

WESTPORT, p. v., and cap. Oldham co., *Ky.*: on S. E. bank of Ohio r., 36 m. W. N. W. Frankfort. It contains the county buildings, 2 churches, and several stores. Population about 300.

WESTPORT, p. o., Clinton co., *Penn.*: 80 m. N. W. by N. Harrisburg.

WESTPORT, t. and p. o., Lincoln co., *Me.*: 29 m. S. by E.

Augusta. Bounded E. by Sheepscot r. and S. and W. by Sheepscot bay. Pop. 761.

WESTPORT, t. and p. v., Bristol co., *Mass.*: on W. side of Acocaksett r., 51 m. S. Boston. The t. contains several manufactories. Many of the inhabitants are engaged in the fisheries. Pop. of t. 2,795.

WESTPORT, p. v., Jackson co., *Mo.*: on W. line of the State, 4 m. S. Missouri r., 136 m. W. by N. Jefferson City. Pop. about 300.

WESTPORT, p. v. and sta., Cheshire co., *N. Hamp.*: on Ashuelot R. R., 8 m. from Keene, 49 m. S. W. by S. Concord.

WESTPORT, t. and p. v., Essex co., *N. Y.*: on W. side of Lake Champlain, 106 miles N. by E. Albany. Drained by small streams flowing into the lake. The v. at the head of Northwest bay contains 3 churches, several stores, and about 650 inhabitants. The "Westport Courier" (dem.) and "Old Settler" (lit.) are here published. A ferry plies hence across the lake to Basin Harbor, Verm. Pop. of t. 2,352.

WESTPORT POINT, p. o., Bristol county, *Mass.*: 59 m. S. Boston.

WEST POTSDAM, p. v., St. Lawrence co., *N. Y.*: 156 m. W. by N. Albany.

WEST POULTNEY, p. v., Rutland co., *Verm.*: 61 m. S. W. by S. Montpelier. Here is located the Troy Conference Academy, a flourishing Methodist institution.

WEST PRAIRIE, Stoddard co., *Mo.*: 180 m. S. E. Jefferson City.

WEST RANDOLPH, p. v. and sta., Orange co., *Verm.*: 25 m. S. Montpelier. It contains several mills on a branch of White river, a church, stores, etc. The Vermont Central R. R. passes through, 46 m. from Windsor, 31 m. from Montpelier, 111 m. from Rouse's Point.

WEST RIPLEY, p. o., Somerset co., *Me.*: 49 m. N. N. E. Augusta.

WEST SWANZEY, p. o., Cheshire co., *N. Hamp.*: 45 m. S. W. by W. Concord.

WEST TAGHKANIC, p. o., Columbia county, *N. Y.*: 86 m. S. by E. Albany.

WEST THERESEA, p. o., Jefferson co., *N. Y.*: 150 m. N. W. Albany.

WEST THORNTON, p. v., Grafton co., *N. Hamp.*: on W. side of Pemigasset river, 51 m. N. by W. Concord.

WEST TISBURY, p. v., Dukes co., *Mass.*: 72 m. S. S. E. Boston. It contains 2 churches, stores, etc.

WEST TOPSHAM, p. v., Orange co., *Verm.*: on N. side of Wait's river, 18 m. S. E. by E. Montpelier.

WEST TOWN, p. v., Orange co., *N. Y.*: 96 m. S. S. W. Albany. It contains several stores, an academy, and church. Pop. about 230.

WEST TOWNSEND, p. v., Middlesex co., *Mass.*: on branch of Nashua r., 41 m. N. W. by W. Boston. The Peterboro' and Shirley R. R. passes through it, 12 miles from Groton junction. It contains a female seminary of high repute.

WEST TOWNSHEND, p. v., Windham co., *Verm.*: 87 m. S. Montpelier.

WEST TRENTON, p. v., Hancock co., *Me.*: 70 m. E. by N. Augusta.

WEST TROUPSBURG, p. v., Steuben co., *N. Y.*: 202 m. W. by S. Albany.

WEST TROY, p. v., Albany county, *N. Y.*: on W. bank of Hudson r., 6 m. N. by E. Albany. This flourishing village was incorporated in 1836, and has had a rapid growth. The Erie Canal here connects with the Hudson r. by lateral canals and locks, and transfers to it a large proportion of the canal-boats with their freight of produce, merchandise, etc., unbroken, which are thence towed by steamboats to New York. A large number of steam-barges, sloops, and schooners are here owned and employed in transportation. The surplus waters of the canal afford very great water-power, improved by numerous factories and mills. Other manufacturing establishments using steam-power, are also numerous. The Meneely bell foundry is the most extensive of the kind in the Union. The general interests of this place are directly connected with Troy, of which it is properly a suburb. It also contains 10 churches, and the Water-vlet arsenal, established here in 1813 by the United States. This is the largest arsenal of construction in the Union, comprising about 40 buildings upon its grounds of 100 acres, employs about 200 men, and at all times has on hand immense quantities of munitions of war. The "W. Troy Advocate" (neut.) is issued weekly. Pop. 7,564.

WEST UNION, p. v., Knox co., *Ind.*: 4 m. E. Wabash r., 90 m. S. W. Indianapolis.

WEST UNION, p. v., and cap. Adams co., *Ohio*: 79 m. S. by W. Columbus. It contains the county buildings, two churches, stores, etc. The "Adams County Democrat" is here published. Pop. 462.

WEST UNION, p. o., Fayette county, *Ja.*: 84 m. N. by W. Iowa City.

WEST UNION, p. v., Pickens dist., *S. Car.*: 128 m. W. N. W. Columbia.

WEST UNION, p. o., Steuben co., *N. Y.*: 208 m. W. by S. Albany.

WEST UNION, p. v., and cap. Doddridge county, *Virg.*: 212 m. N. W. by W. Richmond. It contains a court-house, jail, and several stores. Pop. 161.

WEST UNITY, p. o., Williams co., *Ohio*: 133 m. N. W. by N. Columbus. The "Equal Rights" (dem.) is here published.

WEST VERMILLION, p. o., Erie co., *Ohio*: 98 m. N. by E. Columbus.

WEST VIENNA, p. o., Oneida co., *N. Y.*: 116 m. W. N. W. Albany.

WEST VIEW, p. o., Augusta co., *Virg.*: 98 m. W. N. W. Richmond.

WEST VIEW, p. o., Hamilton co., *Tenn.*: 108 m. S. E. of Nashville.

WESTVILLE, p. v., New Haven co., *Conn.*: 3 m. N. W. of New Haven. It contains several manufactories.

WESTVILLE, p. v., and cap. Simpson county, *Miss.*: 83 m.

S. S. E. Jackson. It contains the county buildings. Pop. about 130.

WESTVILLE, p. v., Otsego co., *N. Y.*: on E. side of Susquehanna r., 58 m. W. Albany.

WESTVILLE, p. v., Champaign co., *Ohio*: 4½ m. W. Urbana, 43 m. W. by N. Columbus.

WEST VINCENT, p. o., Chester co., *Penn.*: 67 m. E. by S. Harrisburg.

WEST WALWORTH, p. o., Wayne county, *N. Y.*: 192 m. W. by N. Albany.

WEST WARDSBORO', p. v., Windham co., *Verm.*: 90 m. S. by W. Montpelier.

WEST WARHAM, p. v. and sta., Plymouth co., *Mass.*: on the Cape Cod Branch R. R., 11½ m. from Middleboro', and, by railroad, 46 m. S. S. E. from Boston. It contains several manufactories.

WEST WATERVILLE, p. v. and sta., Kennebec co., *Me.*: at N. end of Snow's Pond, 17 m. N. Augusta. Emerson's stream here affords great water-power. The Androscoggin and Kennebec R. R. passes through, 75½ m. from Portland, 6½ m. from Waterville.

WEST WEBSTER, p. o., Monroe co., *N. Y.*: 197 m. W. by N. Albany.

WEST WILLIAMSFIELD, p. o., Ashtabula co., *Ohio*: 160 m. N. E. Columbus.

WEST WHITELAND, t. and p. o., Chester co., *Penn.*: 72 m. E. by S. Harrisburg.

WEST WILLINGTON, p. o., Tolland county, *Conn.*: 22 m. E. N. E. Hartford. The New London, Willimantic, and Palmer R. R. passes near it, 45 m. from New London, 21 m. from Palmer.

WEST WINCHESTER, p. v. and sta., Cheshire co., *N. Hamp.*: on Ashuelot R. R., 15 m. from Keene, 8 m. from South Vernon, 55 m. S. W. Concord. It contains several manufactories.

WEST WINDHAM, p. o., Rockingham co., *N. Hamp.*: 83 m. S. by E. Concord.

WEST WINDHAM, p. v., Bradford county, *Penn.*: 120 m. N. by E. Harrisburg.

WEST WINDSOR, p. v., Broome co., *N. Y.*: 112 m. W. S. W. Albany.

WEST WINDSOR, p. v., Richland co., *Ohio*: 63 m. N. N. E. Columbus.

WEST WINDSOR, p. o., Eaton county, *Mich.*: 10 m. S. W. Lansing.

WEST WINFIELD, p. o., Herkimer county, *N. Y.*: 76 m. W. by N. Albany.

WEST WINSTED, p. v. and sta., Litchfield co., *Conn.*: on Mad r., a branch of Farmington r., 23 m. N. W. by W. Hartford, 45 m. N. by W. New Haven. Here terminates the Naugatuck R. R., 62 m. from Bridgeport. This v. is noted chiefly for its manufactories. Water-power is furnished by the outlet of Long Lake, an interesting pond 8½ m. long, ½ m. wide, which lies in an elevated plain, nearly ½ m. above the plain below. This outlet is but a small stream, in a narrow channel, but affords great and permanent power to the factories on its banks. Among these are an extensive cutlery establishment; one coach axle do.; a large machine shop; a tannery 140 feet long, and 4 stories high; various establishments making hoes, shovels, edge tools, sashes, and blinds; also large scythe factories; 2 woolen do., making satinetts and cassimeres; an iron foundry, etc. The flourishing condition and prospects of Winsted have most favorably affected its growth, and many new buildings are erecting to accommodate the increase of population; among which is a fine hotel, containing over 100 rooms. The Winsted Bank has a cap. of \$100,000.

WEST WOOD, p. v., Woodford co., *Ill.*: on N. side Mackinaw cr., 66 m. N. N. E. Springfield. The Illinois Central R. R. will pass a little E. of this place.

WEST WOODSTOCK, p. v., Windham co., *Conn.*: on E. side of branch of Natchaug r., 34 m. E. N. E. Hartford. It contains a church and several dwellings.

WEST WOODVILLE, p. v., Clermont co., Ohio: on W. side of Stonelick cr., 71 m. S. W. Columbus. The Cincinnati, Hillsboro' and Parkersburg R. R. passes a little N. of this place.

WEST WORTHINGTON, p. v., Hampshire co., Mass.: 97 m. W. Boston.

WEST WRENTHAM, p. v., Norfolk county, Mass.: 28 m. S. W. by S. Boston.

WEST YARMOUTH, p. v., Barnstable co., Mass.: 63 m. S. E. Boston. It contains 2 churches, etc.

WEST YORKSHIRE, p. o., Cataaugus co., N. Y.: 252 m. W. by N. Albany.

WETHEREDVILLE, p. v., Baltimore co., Md.: on Gwinn's Falls, 4½ m. W. N. W. Baltimore. It is 800 feet above tide-water, with a fall within its limits of 99 feet, which affords immense water-power. The cassimere factories of Wethered Brothers are here located, with several mills making coarse cotton cloth, besides numerous flouring and other mills in the vicinity. Pop. of neighborhood about 750.

WETHERSFIELD, t. and p. v., Hartford co., Conn.: on W. side of Connecticut r., 8¼ m. S. Hartford. Surface of t. generally level; soil sandy loam, and very fertile, producing large crops of vegetables, especially onions. The v. in N. E. part of t. is very pleasant, having wide streets, beautifully shaded with elms; and contains 2 academies and 3 churches. The Connecticut State Prison, here located, is a massive building of Portland (Conn.) sandstone; and contained, on March 31st, 1850, 175 inmates—163 males, 12 females. Pop. of t. 2,523.

WETHERSFIELD, p. v., Henry co., Ill.: 93 m. N. by W. Springfield.

WETHERSFIELD, t. and p. o., Wyoming co., N. Y.: 235 m. W. Albany. Pop. 1,459.

WETHERSFIELD SPRINGS, p. v., Wyoming county, N. Y.: 237 m. W. Albany. It contains 3 churches, several stores, etc. Pop. about 160.

WETUMPKA, p. o., Coosa co., Ala.: on E. side of Coosa r., 13 m. N. N. E. Montgomery. It has a fine site, at the head of steamboat navigation, and is a place of considerable trade. It contains 5 churches, with numerous stores, etc. The "State Guard" (dem.) is published tri-weekly and weekly. The State Penitentiary, here located, on Oct. 1st, 1851, contained 156 convicts. Pop. 3,016. The Harrowgate Springs, S. of the city, possess valuable properties, and are of great resort during the summer.

WETZEL county, Virg. Organized from Tyler in 1846. Situate N. W., and contains 553 sq. m. Drained by branches of Ohio r. Surface hilly and broken; soil moderately fertile, adapted to grain and grazing. Chief products wheat, Indian corn, and tobacco. It contains a large quantity of bituminous coal. Farms 423, manuf. 8, dwell. 716, and pop.—wh. 4,261, fr. col. 6, sl. 17—total 4,284. *Capital:* Wetzel C. H. *Public Works:* Baltimore and Ohio R. R.

WEVVERTON, p. v. and sta., Frederick co., Md.: on W. side of Potomac r., at confluence of Israel cr., 66 m. W. N. W. Annapolis. The Chesapeake and Ohio Canal passes through it; also the Baltimore and Ohio R. R., 80 m. from Baltimore, and 300 m. from Wheeling.

WEXFORD county, Mich. Situate N. W. of the Southern Peninsula, and contains 576 sq. m. Drained by the Manistee r. and its branches. Surface even, diversified with small lakes; soil fertile, and with cultivation adapted to the raising of wheat, corn, etc. Organized since 1850.

WEXFORD, p. v., Alleghany co., Penn.: 166 m. W. by N. Harrisburg.

WEYAUWEGA, p. o., Winnebago co., Wisc.: 86 m. N. N. E. Madison.

WEYBRIDGE LOWER FALLS, p. o., Addison co., Verm.: 83 m. S. W. by W. Montpelier.

WEYMOUTH, t. p. v., and sta., Norfolk co., Mass.: 11 m. S. S. E. Boston. Surface of t. pleasantly diversified, well watered by large ponds, and several streams flowing into two large inlets of Boston harbor called Fore and Back

rivers. The t. contains several pleasant villages, of which Weymouth v., or Weymouth Landing is the largest. This is well situated, at the head of Fore r., contains several stores, etc., and 1 bank, cap. \$100,000, and has considerable business and coasting trade. The manufacture of boots and shoes is carried on extensively. The South Shore R. R. passes through it, 12 m. from Boston. Pop. of t. in 1840, 3,738; in 1850, 5,369.

WEYMOUTH, p. o., Atlantic co., N. Jer.: on Great Egg Harbor r., 47 m. S. Trenton.

WEYMOUTH, p. v., Medina co., Ohio: on branch of Rocky r., 102 m. N. E. by N. Columbus.

WHALEYSVILLE, p. v., Worcester co., Md.: on E. bank of Pocomoke r., 81 m. S. E. Annapolis.

WHALLOUSBURG, p. o., Essex co., N. Y.: on E. side of Boquet r., 110 m. N. by E. Albany.

WHARTON county, Tex. Situate S. E., and contains 1,256 sq. m. Drained by Colorado river, which passes through the county, and by branches of San Bernardo r., and other small streams. Surface in general level, but in parts it is undulating; soil fertile, and is a rich black mold, very productive, and well adapted to cotton, corn, and tobacco. The soil of the prairies is good, and supports a dense crop of grass. Farms 55; manuf. 0; dwell. 112; and pop.—wh. 510, fr. col. 0—total 1,242. *Capital:* Wharton.

WHARTON, t. and p. o., Potter co., Penn.: 105 m. N. W. Harrisburg. Drained by E. branch of Sinnemahoning cr. Interests agricultural.

WHARTON, p. v. and cap., Wharton co., Tex.: on N. E. bank of Colorado r., 117 m. S. E. by E. Austin City. It contains the county buildings.

WHARTON'S, p. o., Noble county, Ohio: 71 m. E. by S. Columbus.

WHATELEY, t. p. v., and sta., Franklin co., Mass.: 80 m. W. Boston. Bounded E. by Connecticut r. Drained by Mill r., which affords water-power to various mills. The v. is on Connecticut River R. R., 26 m. from Springfield. Pop. of t. 1,101.

WHEAL PIONEER MINE (formerly "Fentress Mine"), Guilford co., N. Car. : 10 m. S. Greensboro', and 73 m. W. N. W. Raleigh. This mine, which is owned by the North Carolina Copper Mining Company, is located on the geological range, between the slates and granites, which is the great metalliferous line E. of the Alleghanies. The mine was formerly worked for gold, the vein having been explored to the depth of 60 feet, but the gold giving out, it is now worked solely for its copper. The vein is entirely on the Company's property, but in its comparatively short extent, it has proved to be the best in the country, and compared with the veins of Europe, probably the richest and largest ever discovered. While at the surface the thickness of the vein is inconsiderable, at the depth of 60 feet it measures 5 feet, and at 70 feet has increased to over 8 feet, the regular dip beginning at this point in such a manner that while the inclination of the hanging wall is 35°, that of the lower wall is 45°, thus occasioning for every few feet advanced, an increase of a foot in the thickness of the vein. The vein is a regular one, and consists of alternate layers of quartz and copper pyrites, and spathic iron, containing 33 per cent. of metal. It is supposed that when machinery is applied to the working of the mine, that 50 men will take out monthly 400 tons of ore. Several other mines have been discovered in the vicinity, which, if equally rich with the Wheal Pioneer, will add greatly to the resources of the State, and stimulate the people to enterprise and energy.

WHEATLAND, p. o., Ionia co., Mich.: 32 m. W. N. W. Lansing.

WHEATLAND, t. and p. o., Monroe county, N. Y.: 214 m. W. by N. Albany. Drained by Allen's cr., tributary of Genesee river. The t. contains several mills and tanneries, but the inhabitants are chiefly engaged in agriculture, etc. Pop. 2,917.

WHEATLAND, t. and p. o., Kenosha county, Wisc.: 71 m.

S. E. by E. Madison. Fox r. flows through its N. E. part, and receives branches from the interior. Pop. 1,193.

WHEELER, t. and p. o., Steuben co., *N. Y.*: 187 m. W. Albany. Drained by branch of Conhocton r. Pop. 1,471.

WHEELERSBURG, p. v., Scioto co., *Ohio*: on Ohio r., 56 m. S. by E. Columbus. Pop. about 800.

WHEELING, p. o., Cook co., *Ill.*: on E. side Des Plaines r., 182 m. N. E. by N. Springfield.

WHEELING, p. v., Delaware co., *Ind.*: on S. W. side of Mississippi r., 53 m. N. E. Indianapolis.

WHEELING, p. o., Holmes co., *Miss.*: on W. side of Big Black r., 65 m. N. N. E. Jackson.

WHEELING, p. city, port of entry, and cap. Ohio county, *Virg.*: on E. bank of the Ohio r., 247 m. N. W. Richmond—lat. 40° 07' N.; long. 80° 42' W. It occupies a fine site on a high bank of the river, along which it extends about 2 m., but its extension W. is restrained by high hills. It is divided by Wheeling cr., here emptying into the Ohio, over which here is a beautiful stone bridge. The Ohio river is crossed by a wire suspension bridge, which is one of the finest structures of the kind in the world, and has the following measurements: length of span, from centre to centre of the stone supporting towers, 1,010 feet; height above low-water mark, 97 feet; height of towers on Wheeling side, 153½ feet above low-water mark, and 160 feet above the abutment on which they stand. It is supported by 12 wire cables, laid in pairs, 3 pairs on each side of the flooring, each of which is 4 inches in diameter, composed of 550 strands, and 1,380 feet long. It has a carriage way 17 feet wide, and 2 footwalks, each 3½ feet wide. The wire used in its construction was manufactured by D. Richards & Co., of Wheeling. It is capable of supporting a pressure of 618 pounds to the square foot, and cost \$210,000. In front of the city lies Zane's island, which contains 350 acres, and to which a bridge is constructed.

Wheeling is distinguished for enterprise in manufactures and trade. In the city and vicinity flouring-mills are very numerous, and form the leading interest of manufactures. The next most important manufactures are those of glass, nails, stoves, and all kinds of iron castings, steam-engines, woolen and cotton goods, white and sheet lead, paper, etc. The Virginia Iron Works, here located, make about 1,100 kegs of nails per week. The silk factory of J. W. Gill is the largest in the Union; but is in operation only 3 months during the year, because of scarcity of stock. The city early experienced the advantages of its position for navigation on the Ohio, and its connections E. and W. by the National Road. The Baltimore and Ohio R. R. here terminates, 880 m. from Baltimore. The Central Ohio R. R., now completed below Columbus and Zanesville, will here connect with the Hempfield R. R., now in construction to junction with the Pennsylvania R. R. at Greensburg. The Cleveland and Pittsburg R. R. is also being extended to Wheeling. The tonnage of Wheeling district on June 30th, 1850, was 5,934 tons, all of which was of the class "enrolled and licensed," permanent, employed in the coasting trade, and propelled by steam. Vessels built during the year preceding, 4 steamers, 335 tons. In 1852, 38 steamboats, all high pressure, were here owned, with aggregate tonnage of 6,343 tons.

The city contains, besides the county buildings, 13 churches, several academies, and 2 banks, with aggregate capital of \$969,100. Its newspaper press in 1850 consisted of the "Wheeling Gazette" (whig), and "Wheeling Even-

ing Argus" (dem.), each issuing daily and weekly editions; and the "Virginische Staats Zeitung" (dem.) in German language, issued weekly. Pop. in 1810, 914; in 1820, 1,567; in 1830, 5,221; in 1840, 7,885; in 1850, 11,391.

WHITCOMB, p. v., Franklin county, *Ind.*: 60 m. E. S. E. Indianapolis.

WHITE county, *Ark.* Situate N. E. centrally, and contains 1,043 sq. m. Drained by Little Red r., tributary of White river, which forms its E. boundary, and by other streams. Surface even; soil fertile, and adapted to grazing. Farms 307; manuf. 2; dwell. 455, and pop.—wh. 2,309, fr. col. 2, sl. 803—total 2,619. *Capital*: Searcy.

WHITE county, *Ill.* Situate S. E., and contains 447 sq. m. Little Wabas h river and Skillet fork of same drain the co. Surface partly level, and partly undulating; soil fertile; staples, wheat and Indian corn. Tobacco is cultivated. It has some excellent prairie land in the E. portion. The country bordering the streams is well wooded. Farms 1,101; manuf. 22; dwell. 1,537, and pop.—wh. 8,816, fr. col. 109—total 8,925. *Capital*: Carmi.

WHITE county, *Ind.* Situate N. W. middle, and contains 504 sq. m. Drained by Tippecanoe r. and its several tributaries. Two-thirds of the surface is prairie, and at least one-half dry and gently undulating; soil rich, and the forest growths extensive. Farms 458; manuf. 10; dwell. 821, and pop.—wh. 4,752, fr. col. 9—total 4,761. *Capital*: Monticello. *Public Works*: New Albany and Salem Extension R. R.

WHITE county, *Tenn.* Situate E. centrally, and contains 346 sq. m. Drained by Caney fork of Cumberland river and its affluents. Surface uneven, in parts hilly; soil fertile; staples wheat, grain, and tobacco. Pork and grain are exported. Farms 1,341; manuf. 22; dwell. 1,706, and pop.—wh. 10,098, fr. col. 132, sl. 1,214—total 11,444. *Capital*: Sparta. *Public Works*: Lexington and M'Ninnville R. R.

WHITE mountains, *N. Hamp.*: these mountains, in the N. part of the State, are the highest in New England, and among the highest in the United States. The range is in form nearly square, extending N. and S. about 26 m., and E. and W. about 22 m.; but the more elevated summits are comprised within a range of 8 miles. The highest summits are covered with snow during the greater part of the year, and in clear weather are visible at sea more than 50 miles from shore. The elevations of the highest peaks are as follows:

Mount Washington...6,226 feet	Mount Madison...5,620 feet
Mount Adams.....5,960 "	Mount Monroe...5,510 "
Mount Jefferson...5,860 "	Mount Franklin...5,050 "

besides which several others are little inferior in elevation. The ascent of these mountains is fatiguing, but not dangerous; and is frequently accomplished by summer visitors. The scenery from their summits is of surpassing interest, and of varied character. The construction of the Boston, Concord, and Montreal R. R., Atlantic and St. Lawrence R. R., and other lines of railroad toward this interesting vicinity, has greatly increased the number of summer-visitants, for whose accommodation there are numerous hotels kept in first-class style.

WHITE river, *Ark.*: is formed in Washington co., by the

confluence of 3 branches, flows N. N. E., crosses into Missouri, then turns to the S. E., and holds this general course for 150 m. until it receives Black r., its principal N. branch, after which it flows by winding course in general direction S. by E., until it empties into the Mississippi r. in Desha co. About 8 miles from its mouth it connects by a broad bayou, usually boatable, with Arkansas river; after which its course is through a great marsh or swamp. Its length is over 600 miles; and although it is at present choked up in many places by accumulations of drift-wood, steamboats ascend to Bat-sville, 260 m., and on the removal of these obstructions will ascend 200 miles farther. It receives numerous tributaries, of which several are large streams, and flows through a very fertile region.

WHITE river, *Ind.*: is formed by the confluence of the E. and W. forks of White r., 20 m. S. E. Vincennes, and flows W. S. W. in winding course about 35 m. to its entrance into Wabash r. Its stream is but little inferior to the Wabash, is about 600 f-et wide, and navigable in high water for steamboats. The W. fork rises in Randolph co.; in high water it is navigable for steamboats to Indianapolis, and flat-boats have descended it from near Winchester. The E. fork is about 225 miles long, and boatable 150 m. The numerous branches of these forks drain the entire central portion of the State.

WHITE river, *Mich.*: rises in Newago county, flows S. W. through Oceana co., and enters Lake Michigan by a broad estuary.

WHITE river, *Utah Ter.*: a principal head branch of Colorado r., flowing through E. part of Utah co., about 150 m. in W. course.

WHITE river, *Verm.*: rises in Granville, flows S. S. E., N. E., and S. E., and empties into the Connecticut river in Hartford t. It is about 55 miles long, and receives several tributaries, each of which affords valuable water-power.

WHITE ASH, p. o., Alleghany county, *Penn.*: 163 m. W. Harrisburg.

WHITE CHIMNEYS, p. o., Caroline county, *Virg.*: 23 m. N. Richmond.

WHITE COTTAGE, p. o., Muskingum co., *Ohio*: 55 m. E. Columbus.

WHITE COTTAGE, p. o., Shelby co., *Tex.*: 244 m. E. N. E. Austin City.

WHITE CREEK, t. and p. v., Washington co., *N. Y.*: 30 m. N. E. Albany. Drained by Owl and Little White cr. flowing S. into Housic r. The v. contains 2 churches, and several stores. Pop. of t. 2,994.

WHITE CROSS, p. o., Orange co., *N. Car.*: 85 m. N. W. Raleigh.

WHITE DAY, p. o., Monongalia co., *Virg.*: 258 m. N. W. Richmond.

WHITE DEER, p. o., Lycoming county, *Penn.*: 63 m. N. Harrisburg.

WHITE DEER MILLS, p. o., Union co., *Penn.*: 55 m. N. Harrisburg.

WHITE EYE'S PLAINS, p. o., Coshocton co., *Ohio*: on S. side of Tuscarawas r., 69 m. E. N. E. Columbus.

WHITEFACE mountain, *N. Y.*: on E. side of Wilmington r., in N. W. part of Essex co., is 4,855 feet above the Atlantic ocean.

WHITEFIELD, p. o., Oktibbeha co., *Miss.*: on branch of Okanobee r., 95 m. N. E. Jackson.

WHITEFIELD, p. o., Marshall county, *Ill.*: 80 m. N. by E. Springfield.

WHITEFIELD, t. and p. o., Lincoln co., *Me.*: 14 m. S. E. Augusta. Watered by Sheepscot river, which affords water-power. Interests of the town chiefly agricultural. Pop. 2,160.

WHITEFIELD, t. and p. o., Coos co., *N. Hamp.*: 79 m. N. Concord. Drained by John's r., on which are saw-mills. Pop. 857.

WHITE-FISH point, Chippewa co., *Mich.*: separates Tequamenon bay from Lake Superior.

WHITEFORD, p. o., Lucas co., *Ohio*: 120 m. N. N. W. Columbus.

WHITE HALL, p. v., Greene co., *Ill.*: 48 m. W. S. W. Springfield. It contains 3 churches, several stores, etc. Pop. about 400.

WHITE HALL, p. o., Hunterdon county, *N. Jer.*: 33 m. N. by W. Trenton.

WHITE HALL, p. o., Madison county, *Ky.*: 44 m. S. E. Frankfort.

WHITE HALL, l. p. v., and sta., Washington co., *N. Y.*: 58 m. N. N. E. Albany. Surface hilly. Drained by Pawlet river, Wood creek, and Poutlnry river, which flow into the head of Lake Champlain. The v. at the head of the lake is well situated for trade. The Champlain Canal extends hence 73 m. to Albany. The Saratoga and Washington R. R. passes through, 13 m. from Castleton, and it is proposed to build a railroad hence to Plattsburg. It contains four churches, several mills and manufactories, and two banks, with aggregate capital of \$205,200. The "Democrat," and "Chronicle" (whig) are here published. Pop. of v. about 3,000; of t. 4,726.

WHITE HALL, p. o., Owen co., *Ind.*: 43 m. S. W. by S. Indianapolis.

WHITE HALL, p. v., Mecklenburg co., *N. Car.*: 120 m. W. S. W. Raleigh. Pop. about 100.

WHITE HALL, sta., Delaware co., *Penn.*: on Philadelphia and Columbia R. R., 10 m. W. Philadelphia.

WHITE HALL, p. o., Montour co., *Penn.*: 54 m. N. by E. Harrisburg.

WHITE HALL, p. v., Fayette co., *Tenn.*: 160 m. W. S. W. Nashville.

WHITE HALL, p. o. and sta., Baltimore county, *Md.*: on Baltimore and Susquehanna R. R., 26 m. N. from Baltimore, 56 m. from Harrisburg, 45 m. N. by W. Annapolis.

WHITE HALL, p. v., Frederick co., *Virg.*: 123 m. N. by W. Richmond. Pop. about 100.

WHITE HALL, p. o., Clark county, *Mo.*: 123 m. N. by E. Jefferson City.

WHITEHALLVILLE, p. o., Bucks co., *Penn.*: 96 m. E. by N. Harrisburg.

WHITE HARE, p. o., Cedar co., *Mo.*: 116 m. S. W. by W. Jefferson City.

WHITE HAVEN, p. v., Somerset co., *Md.*: on W. side of Wicomico river, 60 m. S. E. by S. Annapolis. It has some coasting trade by vessels of considerable burden.

WHITE HAVEN, p. v., Luzerne co., *Penn.*: on W. bank of Lehigh r., and on the line of the Lehigh and Susquehanna R. R., 73 m. N. E. Harrisburg.

WHITEHEAD island, Lincoln county, *Me.*: S. W. of W. entrance of Penobscot bay, 45 m. S. E. Augusta. It contains a light-house. (See LIGHT-HOUSES.)

WHITE HILL, p. o., Giles county, *Tenn.*: 70 miles S. Nashville.

WHITE HOUSE, p. o., Henry co., *Ga.*: 64 m. N. W. by W. Milledgeville.

WHITE HOUSE, p. o., Randolph co., *N. Car.*: 72 m. W. Raleigh.

WHITE HOUSE, p. o., Mecklenburg co., *Virg.*: on S. side of Roanoke river, 84 m. S. W. Richmond. The Roanoke Valley R. R. will pass through this place.

WHITE HOUSE, p. o., Williamson co., *Tenn.*

WHITE HOUSE, p. v. and sta., Hunterdon county, *N. Jer.*: on S. E. side of Rockaway cr., 26 m. N. Trenton. The New Jersey Central R. R. passes through, 50 m. from New York, 28 m. from Easton.

WHITE HOUSE, p. o., Cumberland county, *Penn.*: 18 m. W. S. W. Harrisburg.

WHITE LAKE, p. o., Sullivan county, *N. Y.*: 83 m. S. W. Albany. White lake, in the vicinity, is a small but very beautiful sheet of water, abounding with fish, etc. A good hotel accommodates summer visitors.

WHITELEY, t. and p. o., Greene co., *Penn.*: 163 m. W. by S. Harrisburg. Drained by Whiteley cr., flowing into Monon-

gahela r. It contains several tanneries, grist and saw mills. Pop. about 2,500.

WHITELEYSBURG, p. v., Kent co., *Del.*: 17 m. S. W. by S. Dover.

WHITE MARSH, p. o., Columbus county, *N. Car.*: 99 m. S. Raleigh.

WHITE MARSH, t. and p. o., Montgomery county, *Penn.*: 85 m. E. Harrisburg. Drained by Wissahickon cr., which affords water-power to various mills. Pop. of t. about 2,400.

WHITE MILLS, p. o., Wayne county, *Penn.*: 124 m. N. E. Harrisburg.

WHITE MOUNTAIN, p. o., Coos co., *N. Hamp.*: 74 m. N. Concord.

WHITE OAK, p. o., Columbia co., *Ga.*: 64 m. N. E. by E. Milledgeville.

WHITE OAK, p. o., Ritchie co., *Virg.*: 223 m. N. W. by W. Richmond.

WHITE OAK, t. and p. o., Ingham county, *Mich.*: 522 m. S. E. by E. Lansing. Pop. in 1840, 270; in 1850, 508.

WHITE OAK, p. o., Hopkins co., *Tex.*: 247 m. N. N. E. Austin City.

WHITE OAK, p. o., Humphreys co., *Tenn.*: 48 m. W. by N. Nashville.

WHITE OAK GROVE, p. o., Dubois county, *Ind.*: 102 m. S. S. W. Indianapolis.

WHITE OAK GROVE, p. o., Greene county, *Mo.*: 117 m. S. W. by S. Jefferson City.

WHITE OAK HILL, p. o., Fleming co., *Ky.*: 72 m. E. by N. Frankfort.

WHITE OAK SPRING, p. v., La Fayette co., *Wis.*: near Illinois State line, 66 m. S. W. Madison.

WHITE OAK SPRINGS, p. o., Brown county, *Ill.*: 60 m. W. Springfield.

WHITE PATH, p. o., Gilmer co., *Ga.*: 152 m. N. W. by N. Milledgeville.

WHITE PIGEON, t. p. v., and sta., St. Joseph's co., *Mich.*: 80 m. S. W. by S. Lansing. Drained by Pigeon and Fawn rivers, branches of St. Joseph r. The v. contains 2 churches and several stores. The Michigan Southern R. R. passes through, 119 m. from Chicago, 123 m. from Monroe. Pop. of t. 794.

WHITE PLAINS, p. v., Benton county, *Ala.*: on W. side of Chocolocco cr., 105 m. N. N. E. Montgomery.

WHITE PLAINS, p. v., Greene co., *Ga.*: 80 m. N. N. E. Milledgeville. It contains an academy, 2 churches, and several stores, etc.

WHITE PLAINS, t. p. v., sta., and cap. Westchester county, *N. Y.*: 116 m. S. Albany. Bounded W. by Bronx r., and E. by Mamaroneck cr. The v. contains the county buildings, 2 academies, 6 churches, and about 750 inhabitants. The Harlem R. R. passes W. of the v., 26 m. from the City Hall, New York; 123 m. from Albany. Pop. of t. 1,414.

WHITE PLAINS, p. v., Cleveland county, *N. Car.*: 153 m. W. by S. Raleigh.

WHITE PLAINS, p. v., Jackson co., *Tenn.*: 75 m. E. N. E. Nashville.

WHITE PLAINS, p. v., Brunswick county, *Virg.*: 65 m. S. S. W. Richmond.

WHITE POND, p. o., Barnwell district, *S. Car.*: 60 m. S. by W. Columbia.

WHITE POST, p. o., Pulaski county, *Ind.*: 32 m. N. N. W. Indianapolis.

WHITE POST, p. v., Clark co., *Virg.*: 115 m. N. by W. Richmond.

WHITE RIVER, p. o., Desha co., *Ark.*: on White r., at its entrance into the Mississippi, 83 m. S. E. by E. Little Rock.

WHITE RIVER, p. o., Morgan county, *Ind.*: 32 m. S. W. Indianapolis.

WHITE RIVER JUNCTION, p. v. and sta., Windsor co., *Verm.*: on W. side of Connecticut r., at confluence of White r., by E. R. 62 m. S. E. by S. Montpelier. The v. is pleasantly built, and contains an extensive iron-foundry and machine-shop; but derives its business and importance from the

railroads here connecting: viz., Vermont Central R. R., Connecticut and Passumpsic Rivers R. R., and Northern (N. Hamp.) R. R.

WHITE RIVER VILLAGE, v. and sta., Windsor co., *Verm.*: on White r., and Vermont Central R. R., 1 m. from White River Junction, and by railroad, 61 m. from Montpelier. It is built upon an elevated plain, principally upon the N. side of the r., and is encircled on the N. by a hill. A dam is here thrown across the stream, affording water-power on both sides.

WHITE ROAD, p. o., Forsyth co., *N. Car.*: 99 m. W. N. W. Raleigh.

WHITE ROCK, t. and p. v., Ogle co., *Ill.*: 153 m. N. by E. Springfield. The t. contains considerable prairie land, and is drained by Stillman's river.

WHITE ROCK, p. o., Yancey county, *N. Car.*: 192 m. W. Raleigh.

WHITE ROCK, p. o., Navarro co., *Tex.*: 146 m. N. N. E. Austin City.

WHITESBORO', v. and sta., Oneida county, *N. Y.*: on S. W. bank of Mohawk r., 87 m. W. N. W. Albany. Settled in 1784; incorporated in 1813. It is very pleasantly built, and its streets are finely ornamented with shade trees. It contains the county buildings, 5 churches, 2 excellent academies, several large manufactories, and 1 bank, cap. \$120,000. The New York Central R. R. passes through it, 4 m. from Utica, 99 m. from Albany, 49 m. from Syracuse. Pop. about 2,000.

WHITESBURG, p. v., Madison county, *Ala.*: on N. side of Tennessee r., 158 m. N. Montgomery.

WHITESBURG, p. v., and cap. Letcher county, *Ky.*: 123 m. E. S. E. Frankfort. It contains the county buildings.

WHITE'S CORNERS, p. o., Erie county, *N. Y.*: 256 m. W. Albany.

WHITE'S CORNERS, p. o., Potter county, *Penn.*: 110 m. N. N. W. Harrisburg.

WHITE'S CREEK, p. o., Bladen co., *N. Car.*: 80 m. S. by E. Raleigh.

WHITESIDES county, *Ill.* Situate N. W., and contains 729 sq. m. Rock r. flows through the co. from E. to S. W., by which and its branches it is drained. Surface varied, part being level and part undulating; soil productive. Wheat and Indian corn are exported. Farms 1,404; manuf. 24; dwell. 923, and pop.—wh. 5,359, fr. col. 2—total 5,361. *Capital*: Sterling C. H. *Public Works*: Chicago, Albany, and Camanche R. R.

WHITESIDE'S CORNERS, p. o., Saratoga-co., *N. Y.*: 40 m. N. Albany.

WHITE SPRINGS, p. v., Hamilton county, *Flor.*: 86 m. E. Tallahassee.

WHITE STONE, p. o., Lancaster co., *Virg.*: 55 m. E. by N. Richmond.

WHITE'S STORE, p. o., Chenango co., *N. Y.*: on W. side of Unadilla r., 87 m. W. by S. Albany.

WHITE'S STORE, p. o., Anson co., *N. Car.*: 96 m. S. W. Raleigh.

WHITESTOWN, t. p. v., and one of the caps. Oneida co., *N. Y.*: 88 miles W. N. W. Albany. Bounded N. E. by Mohawk r., and drained by Sadaquada and Oriskany creeks, which afford water-power. It contains several flourishing villages, of which Whitesboro' contains the Whitestown p. o. and the county buildings. The Erie Canal, and Central R. R. pass through its N. part. Pop. of t. in 1840 5,156; in 1850, 6,810.

WHITESTOWN, v., Adams co., *Penn.*: 22 m. S. W. Harrisburg. It contains a cold-blast charcoal furnace, with annual capacity of 1,100 tons, employing 56 men.

WHITESTOWN, p. o., Butler co., *Penn.*: 168 m. W. N. W. Harrisburg.

WHITE SULPHUR, p. o., Scott county, *Ky.*: 20 m. N. E. Frankfort.

WHITE SULPHUR SPRINGS, p. v., Limestone county, *Ala.*: 175 m. N. by W. Montgomery.

WHITE SULPHUR SPRINGS, p. v., Merriwether county, *Ga.*:

on small branch of Chattahoochie river, 96 m. W. by S. Milledgeville.

WHITE SULPHUR SPRINGS, p. o., Catahoula parish, *La.*: 103 m. N. W. by N. Baton Rouge.

WHITE SULPHUR SPRINGS, p. v., Greenbrier co., *Virg.*: on a branch of Greenbrier r., 156 m. W. by N. Richmond. These valuable medicinal springs have for many years been the principal summer resort in Virginia. Their location is in an elevated and beautifully picturesque valley surrounded by mountains. The average number of visitors per annum is usually 5 to 6,000; and upon the completion of the Covington and Ohio R. R., which will pass through this place, will be greatly increased.

WHITESVILLE, p. v., Harris co., *Ga.*: on branch of Chattahoochie r., 111 m. W. by S. Milledgeville.

WHITESVILLE, p. v., Wilkinson co., *Miss.*: near Louisiana State line, 109 m. S. S. W. Jackson.

WHITESVILLE, p. o., Halifax co., *Virg.*: 94 m. S. W. Richmond.

WHITESVILLE, p. v., Allegheny co., *N. Y.*: on branch of Genesee r., 213 m. W. S. W. Albany. It contains several mills, stores, etc., and 2 churches.

WHITESVILLE, p. v., sta., and cap. Columbus co., *N. Car.*: on W. side Whitmarsh cr., 93 m. S. Raleigh. It contains the county buildings, stores, etc. The Wilmington and Manchester R. R. passes through it, 43 m. from Wilmington. Pop. about 350.

WHITESVILLE, p. o., Andrew co., *Mo.*: 170 m. N. W. Jefferson City.

WHITE TOP, p. o., Sullivan co., *Tenn.*: 240 m. E. by N. Nashville.

WHITESVILLE, p. v., Hardeman co., *Tenn.*: 145 m. W. S. W. Nashville. Pop. about 100.

WHITE WATER, p. o., Pike co., *Ala.*: on E. side of branch of Pea r., 54 m. S. E. by S. Montgomery.

WHITE WATER, t., Hamilton co., *Ohio*: 102 m. S. W. by W. Columbus. Drained by Whitewater r. It contains several pleasant villages, among which is a Shaker settlement. See WATERLIET, etc. Pop. 1,567.

WHITE WATER, p. o., Fayette co., *Ga.*: 80 m. W. N. W. Milledgeville.

WHITE WATER, p. o., Wayne co., *Ind.*: near Ohio State line, 64 m. E. by N. Indianapolis.

WHITE WATER, t., p. v., and sta., Walworth co., *Wisc.*: 39 m. S. E. by E. Madison. Watered by tributaries of Rock r. The Milwaukee and Mississippi R. R. passes through the v., in N. W. part of t., 50 m. from Milwaukee, 20 m. from Janesville. Pop. of t. 1,252.

WHITE WATER river, *Ind.*: is formed at Brookville, Franklin co., by the confluence of the E. and W. forks; thence it flows S. E. and S., to its entrance into Miami r., 6 m. above its mouth. It affords water-power, has an average width of 300 feet, and is navigable in high water.

WHITE WATER river, *Mo.* and *Ark.*: is formed in Cape Girardeau co., *Mo.*, by several head branches; thence flows in general course S. by W., and nearly parallel to the Mississippi, until it enters St. Francis bay, in Mississippi county, Arkansas.

WHITING, t. and p. o., Washington county, *Me.*: 109 m. E. by N. Augusta. Surface diversified by numerous ponds. Machias bay lies on its S. W. border. Pop. 470.

WHITING, t., p. o., and sta., Addison co., *Verm.*: 41 m. S. W. Montpelier. An agricultural township. The Rutland and Burlington R. R. passes through its E. part, along the banks of Otter creek, 75 m. from Bellows Falls, 45 m. from Burlington. Pop. of t. 629.

WHITINGHAM, t. and p. o., Windham co., *Verm.*: 106 m. S. by W. Montpelier. Drained by Deerfield r. and branches. It contains abundance of limestone, and an excellent mineral spring. Pop. 1,380.

WHITINS, sta., Worcester co., *Mass.*: on Providence and Worcester R. R., 17 m. from Worcester, 26 m. from Providence, 34 m. S. W. by W. Boston.

WHITINSVILLE, p. v., Worcester co., *Mass.*: on branch of Blackstone r., 36 m. S. W. by W. Boston.

WHITLEY county, *Ind.* Situate N. E., and contains 824 sq. m. Drained principally by Eel r. and its tributaries. In the N. and middle portions the surface is undulating—sometimes hilly; but in the S. level. Forest land, interspersed with wet prairies, preponderate; but there are also considerable bottoms and barrens. Farms 522; manuf. 8; dwell. 913, and pop.—wh. 5,095, fr. col. 95—total 5,190. *Capital*: Columbia.

WHITLEY county, *Ky.* Situate S. E., and contains 704 sq. m. Drained by Cumberland r. and its branches. Surface hilly; soil fertile, and in general very productive, the uplands being well adapted to grazing, and much grain is raised. Chief productions, Indian corn and tobacco. Farms 980; manuf. 0; dwell. 1,214, and pop.—wh. 7,227, fr. col. 19, sl. 201—total 7,447. *Capital*: Williamsburg. *Public Works*: Knoxville and Lexington R. E.

WHITLEY C. H., p. v., and cap. Whitley co., *Ind.*: in Columbia v., on N. W. side of Eel river, 101 m. N. N. E. Indianapolis.

WHITLEY C. H., p. v., and cap. Whitley co., *Ky.*: in Williamsburg v., on S. side of Cumberland r., 83 m. S. S. E. Frankfort.

WHITLEY'S POINT, p. o., Shelby co., *Ill.*: 65 m. E. S. E. Springfield.

WHITLEYVILLE, p. o., Jackson co., *Tenn.*: 55 m. E. N. E. Nashville.

WHITNEY'S CORNERS, p. o., Jefferson co., *N. Y.*: 152 m. N. W. by W. Albany.

WHITNEY'S POINT, p. o., Broome county, *N. Y.*: 116 m. W. by W. Albany.

WHITNEY'S VALLEY, p. v. and sta., Allegheny co., *N. Y.*: on Buffalo and New York City R. R., 73 m. from Buffalo, 13 m. from Hornellsville, 214 m. W. Albany. It contains 2 churches, several stores, etc.

WHITNEYVILLE, p. v. and sta., Washington co., *Me.*: on S. W. side Machias r., and on the Franklin R. R., 9 m. from Machiasport, 114 m. E. by N. Augusta.

WHITNEYVILLE, p. o., Kent co., *Mich.*: 53 m. W. N. W. Lansing.

WHITTLESEY, p. o., Medina co., *Ohio*: 96 m. N. E. by N. Columbus.

WHITTLE'S MILLS, p. o., Mecklenburg co., *Virg.*: 87 m. S. W. by S. Richmond.

WICK, p. o., Tyler county, *Virg.*: 230 m. N. W. by W. Richmond.

WICKFORD, p. v., Washington co., *R. I.*: on W. side of branch of Narragansett bay, 9 m. N. W. Newport. It has a good harbor, and employs considerable tonnage in the fisheries and coasting-trade. It contains three churches, an academy, and one bank. Pop. about 500. The Stonington and Providence R. R. passes through Wickford Depot, 3 m. W. of the village, 30 miles from Stonington, 20 miles from Providence.

WICKLIFFE, p. v., Chambers county, *Ala.*: 66 m. E. N. E. Montgomery.

WICKLIFFE, p. v., Crawford co., *Ind.*: 98 m. S. by W. of Indianapolis.

WICKLIFFE, p. v., Jackson co., *Ia.*: 54 m. N. E. of Iowa City.

WICKLIFFE, p. v., Lake co., *Ohio*: 140 m. N. E. by N. of Columbus.

WICOMICO CHURCH, p. o., Northumberland co., *Virg.*: 58 m. E. N. E. Richmond.

WICONISCA, t. and p. o., Dauphin co., *Penn.*: 22 m. N. of Harrisburg. Pop. of t. about 500.

WIDEMAN'S, p. o., Abbeville district, *S. Car.*: 75 m. W. Columbia.

WILBRAHAM, t. and p. v., Hampden co., *Mass.*: 72 m. W. by S. Boston. Drained by head branches of Scantic river, and other streams flowing into the Connecticut r. The v. contains two churches and the Wesleyan Academy, a flour-

ishing Methodist institution. The Western R. E. passes through the N. part of the t. Pop. of t. 2,127.

WILCOX county, *Ala.* Situate toward the S. W., and contains 906 sq. m. Alabama r flows through it, by which and its branches it is drained. Surface uneven; soil in some parts very fertile; on the streams the land is in general very productive. Staples, Indian corn and other grain, cotton, rice, and potatoes. It has some good timber land. Farms 666; manuf. 6; dwell. 983, and pop.—wh. 5,516, fr. col. 1, sl. 11 835—total 17,352. *Capital:* Camden C. H.

WILCOX'S STORE, p. o., Casey county, *Ky.*: 60 miles S. of Frankfort.

WILD CAT, p. o., Carroll county, *Ind.*: 53 miles N. N. W. Indianapolis.

WILDERNESS, p. o., Spotsylvania county, *Virg.*: 44 miles N. by W. Richmond.

WILDERNESS, p. o., Clark co., *Ala.*: on small branch of Tombigbee r., 109 m. W. S. W. Montgomery.

WILD HAUS, p. o., Izard co., *Ark.*: 91 m. N. by E. Little Rock.

WILEY'S COVE, p. o., Searey co., *Ark.*: on E. side of Cove cr., 74 m. N. by W. Little Rock.

WILEYVILLE, p. o., Desha co., *Ark.*: 74 m. S. W. by S. Little Rock.

WILKES county, *Ga.* Situate toward the N. E., and contains 486 sq. m. Fishing cr. and its branches, and affluents of Broad and Little rivers drain the county. Surface level; soil fertile, and adapted to cotton, which is the chief production, and also to wheat and grain, fine crops of which are raised. Pork and beef are exported. Farms 463; manuf. 9; dwell. 709, and pop.—wh. 3,505, fr. col. 21, sl. 8,251—total 12,107. *Capital:* Washington.

WILKES county, *N. Car.* Situate N. W., and contains 579 sq. m. Drained by Yadkin r. and its branches. Surface elevated, and diversified with mountains and valleys; soil fertile, and well fitted for pasture. Chief productions, tobacco, cotton, and Indian corn. This county is bounded on the N. W. by the Blue Ridge. Farms 1,097; manuf. 9; dwell. 2,650, and pop.—wh. 10,746, fr. col. 211, sl. 1,142—total 12,099. *Capital:* Wilkesboro'.

WILKESBARRE, p. b., and cap. Luzerne co., *Penn.*: on S. E. bank of Susquehanna r., 82 m. N. E. by N. Harrisburg. The t. has a diversified surface, and is in the midst of the anthracite coal region. The b. occupies a very beautiful and elevated situation, and is surrounded by delightful scenery. It is laid out according to a beautiful plan of general regularity, and is neatly built. The county buildings are handsomely located on a public square at its centre. It also contains 3 churches, 2 academi. s. 1 bank, cap. \$55,830, 1 anthracite blast furnace, with annual capacity of 1,500 tons, employing 50 men, one of the largest rolling-mills in the Union, employing 250 m.en, and producing annually about 3,500 tons, besides other manufacturing establishments. The North Branch Division of the Pennsylvania Canal passes through the borough. The "Luzerne Democrat" and "Dem. War-hnt" are issued weekly. This place, with the vicinity surrounding it, are of much historical interest. It was first settled under the Susquehanna Land Company of Connecticut, and was laid out in 1773. Its founders were of the best citizens of New England, intelligent, enterprising, and patriotic. Their conflicts in the Revolution with the allied British and Indians, especially that of the disastrous "Massacre of Wyoming," are recorded in the annals of the nation, and commemorated on the field of their battle by a beautiful monument. Pop. in 1840, 1,718; in 1850, 2,723.

WILKESBORO', p. v., McLean county, *Ill.*: 55 m. N. N. E. Springfield.

WILKESBORO', p. v., and cap. Wilkes co., *N. Car.*: on S. side of Yadkin r., 133 m. W. by N. Raleigh. It contains the court-house, jail, stores, etc. Pop. about 180.

WILKESBORO', p. v., Covington co., *Miss.*: on branch of Pearl r., 65 m. S. S. E. Jackson.

WILKESVILLE, t. and p. v., Vinton co., *Ohio*: 63 m. S. E. by S. Columbus. Drained by Raccoon cr., which affords water-power to several grist and saw-mills. The Cincinnati, Hillsboro', and Parkersburg R. E. will pass through this t. Pop. of t. 1,037.

WILKINS, p. o., Union co., *Ohio*: 41 m. N. W. Columbus.

WILKINS, t. and p. o., Alleghany co., *Penn.*: 10 m. E. by S. Pittsburg, 143 miles W. by N. Harrisburg. Population about 2,500.

WILKINSBURG, p. v. and sta., Alleghany co., *Penn.*: on Pennsylvania R. R., 7 m. from Pittsburg, 151 m. W. by N. Harrisburg.

WILKINSON county, *Ga.* Situate centrally, and contains 888 sq. m. Drained by Big Sandy and Commissioner creeks, branches of Oconee r., which forms its eastern boundary. Surface level or undulating; soil fertile, and in part very productive. Cotton is the staple, but excellent crops of wheat and grain are raised, and fruit is much cultivated, oranges, lemons, citrons, peaches, plums, pears, and pomegranates being produced of excellent flavor and quality. Farms 645; manuf. 0; dwell. 983, and pop.—wh. 5,467, fr. col. 0; sl. 2,745—total 8,212. *Capital:* Irwinton. *Public Works:* Georgia Central R. R.; Milledgeville and Gordon R. R.

WILKINSON county, *Miss.* Situate S. W., and contains 654 sq. m. Drained principally by Buffalo cr., which passes through it centrally. Surface in general is hilly, and in parts much broken. On the Mississippi, which bounds it on the W., the land is high, from which it inclines to the interior; soil fertile, and is well adapted to cotton, which is the chief production. Farms 404; manuf. 18; dwell. 736, and pop.—wh. 3,624, fr. col. 30, sla. 13,260—total 16,914. *Capital:* Woodville.

WILKINSONVILLE, p. v., Worcester co., *Mass.*: on S. side of Blackstone r., 85 m. W. S. W. Boston.

WILKINSONVILLE, p. v., Union dist., *S. Car.*: on W. side of Broad r., 70 m. N. N. W. Columbia.

WILL county, *Ill.* Situate N. W., and contains 1,152 sq. m. Drained by Iroquois and Kankakee rivers, tributaries of Illinois river. Surface generally even; in parts it is hilly and broken. Soil in many portions very productive. Staples, wheat, grain, and potatoes. Farms 1,200; manuf. 94; dwell. 2,796, and pop.—wh. 16,670, fr. col. 33—total 16,703. *Capital:* Joliet. *Public Works:* Chicago Branch of Central R. R.; Chicago and Mississippi R. R.; Illinois and Michigan Canal.

WILLETTE river, *Oreg. Ter.*: rises in Lane co., flows N. E. and N., and empties into Columbia r., nearly opposite Fort Vancouver.

WILLETTE FORKS, p. o., Linn co., *Oreg. Ter.*: 60 m. S. Salem.

WILLET, t. and p. o., Cortlandt co., *N. Y.*: 114 m. W. by S. Albany. Drained by Otselic r. Pop. 923.

WILLET, p. o., Greene co., *Wis.*: 85 m. S. S. W. Madison.

WILLETVILLE, p. o., Highland county, *Ohio*: 59 m. S. S. W. Columbus.

WILLIAMS county, *Ohio*. Situate N. W., and contains 432 sq. m. Drained by St. Joseph's branch of the Maumee r. and its affluents, and Tiffin r. and its branches, which supply good water-power. Surface undulating; soil fertile. It contains a mineral spring, which is much frequented on account of its medicinal qualities, and the odor of which is perceived at the distance of a quarter of a mile. It is well wooded. Farms 651; manuf. 29; dwell. 1,390, and pop.—wh. 8,018, fr. col. 90—total 8,103. *Capital:* Bryan.

WILLIAMS, p. o., Christian co., *Ky.*: 159 m. W. S. W. Frankfort.

WILLIAMSBORO', p. v., Granville county, *N. Car.*: 42 m. N. by E. Raleigh. Pop. about 100.

WILLIAM'S BRIDGE, sta., Westchester county, *N. Y.*: on Bronx r. and Harlem R. R., 14 m. from City Hall, New York.

WILLIAMSBURG district, *S. Car.* Situate toward the E., and contains 1,087 sq. m. Drained by Black r. and its tributaries, and Cedar cr. Surface even; soil varied—in gen-

eral fertile and productive. Staples, rice and cotton. Farms 454; manuf. 0; dwell. 717, and pop.—wh. 3,902, fr. col. 37, sl. 8,508—total 12,477. *Capital*: Kingstree. *Public Works*: North-eastern R. R.

WILLIAMSBERG, p. v., Wayne co., *Ind.*: on Green's fork, 53 m. E. by N. Indianapolis. Pop. about 400.

WILLIAMSBERG, t. and p. o., Piscataquis co., *Me.*: 80 m. N. N. E. Augusta. Drained by Pleasant r. and its branches. Pop. 124.

WILLIAMSBERG, t. and p. v., Hampshire co., *Mass.*: 85 m. W. Boston. Drained by Mill river, which affords water-power to several mills and manufactories. The v. contains 3 churches. Pop. of t. 1,537.

WILLIAMSBERG, p. v., and cap. Covington county, *Miss.*: 57 m. S. E. by S. Jackson. It contains the co. buildings. Pop. about 100.

WILLIAMSBERG, p. v., Callaway county, *Mo.*: 28 m. N. E. Jefferson City. Pop. about 120.

WILLIAMSBERG, p. city, Kings co., *N. Y.*: on E. bank of East river, 2 m. E. by N. City Hall, New York, 145 m. S. Albany. This flourishing city occupies a handsome and elevated site, is planned and laid out with regularity, and is increasing in population and general prosperity corresponding to the growth of New York, of which it is properly a suburb, being connected by the most intimate ties of business. It is well built and paved, and lighted with gas. It was incorporated as a village in 1827, and chartered as a city April 7, 1851. Its situation for business is most favorable, and its manufactures are varied and very extensive. The ship-yards in its N. W. part are among the largest and most important in the vicinity of New York, employing several hundred men. A very large proportion of its citizens are engaged in daily business in New York, to which four steam ferries have boats constantly plying. The general municipal government is vested in a mayor and twelve aldermen (four from each of three wards), who hold office for two years. The police, fire, and other departments are constituted upon plans similar to those of New York, but varied by the particular wants of this city. The City Water-Works, commenced in 1853, are in progress toward completion. The churches are about thirty in number, many of which are very commodious and handsome edifices. Among the public buildings, the Odeon is the principal hall for public entertainment, etc. Its public schools, arranged according to the general State system, are well conducted, and considerable interest is manifested in education by the citizens generally. The newspaper press, in 1850, consisted of four dailies, viz., "W. Gazette" (whig), "W. Times" (neut.), "Independent Press" (dem.), and "Democratic Advocate." In 1853, the construction of avenue railroads and other improvements, are operating with most beneficial influence upon the growth of the city. Pop. in 1835, about 3,000; in 1840, 5,094; in 1845, 11,338; in 1850, 30,756. The population at the present time (July, 1853) is perhaps little less than 50,000.

WILLIAMSBERG, p. v., De Kalb co., *Ill.*: on Sycamore r., 155 m. N. N. E. Springfield.

WILLIAMSBERG, p. v., Iredell co., *N. Car.*: on E. side of Rock cr., 116 m. W. by N. Raleigh.

WILLIAMSBERG, t. and p. v., Clermont co., *Ohio*: 82 m. S. W. by S. Columbus. Drained by E. fork of Little Miami river. Pop. of v. about 500; of t. 1,855.

WILLIAMSBERG, p. b., Blair county, *Penn.*: on S. side Juniata r., 72 m. W. by N. Harrisburg. Incorporated in 1828. It contains 5 churches, several mills, and other manufacturing establishments, 1 hot-blast charcoal furnace, with annual capacity of 1,400 tons, and 2 charcoal forges, each annually producing 600 tons blooms, and employing 30 men. Pop. about 850.

WILLIAMSBERG, p. v., and cap. James City co., *Virg.*: 46 m. E. S. E. Richmond. Pleasantly situated on elevated land between James and York rivers. It was first settled in 1632, and was the seat of the colonial government. It is

handsomely laid out with streets crossing at right angles. The county buildings stand upon a public square. It also contains 3 churches, and the College of William and Mary, which was founded in 1692, and in 1850 had 7 professors, 36 students, and 5,000 volumes in its library, and a flourishing law department of 32 students. Pop. 577.

WILLIAM'S CENTRE, p. v., William's co., *Ohio*: 134 m. N. W. Columbus.

WILLIAM'S CROSS ROADS, p. o., Choctaw co., *Ala.*: 115 m. W. by S. Montgomery.

WILLIAMSFIELD, t. and p. o., Ashtabula co., *Ohio*: 158 m. N. E. Columbus. Drained by branches of Shenango and Pymatuning creeks. Pop. 982.

WILLIAMSON county, *Ill.* Situate S., and contains 482 sq. m. Drained by Muddy and Saline creeks, the former being a tributary of the Mississippi, and the latter of the Ohio. Surface varied; in some parts hilly and broken, but in general it is level. Soil fertile, and raises good crops of wheat and grain, and is favorable to the cultivation of tobacco and cotton. Pine timber is to be found on the land. Farms 752; manuf. 10; dwell. 1,195, and pop.—wh. 7,149, fr. col. 67—total 7,216. *Capital*: Marion. *Public Works*: Sangamon and Massac R. R.

WILLIAMSON county, *Tenn.* Situate W. centrally, and contains 536 sq. m. Harpeth r., a branch of Tennessee r., passes through the co., by which and its branches it is drained. Surface level or gently undulating; soil fertile. Staples, wheat, grain, tobacco, and cotton. It has a good growth of timber. Farms 1,355; manuf. 54; dwell. 2,534, and pop.—wh. 14,267, fr. col. 70, sl. 12,864—total 27,201. *Capital*: Franklin. *Public Works*: Nashville and New Orleans R. R.

WILLIAMSON county, *Tex.* Situate E. centrally, and contains 1,187 sq. m. Drained by San Gabriel r. and its N. and S. forks, and by Brushy cr. and its branches. Surface varied, part of it being mountainous, and part level or rolling—the latter portions being mostly prairie, with groves of timber interspersed. Soil fertile and very productive, yielding large crops of grain, cotton, and potatoes. Indigo grows wild, and might, by cultivation, be rendered very valuable. Wheat, also, succeeds well, and the land is in general favorable to all agricultural productions. Farms 107; manuf. 1; dwell. 280, and pop.—wh. 1,410, fr. col. 3, sl. 155—total 1,568. *Capital*: Georgetown.

WILLIAMSON, t. and p. v., Wayne county, *N. Y.*: 132 m. W. by N. Albany. Drained by small streams flowing into Lake Ontario, which bounds it on the N. Pop. of v. about 160; of t. 2,350.

WILLIAMSON, p. v., Jefferson county, *Ky.*: 40 m. W. Frankfort.

WILLIAMSON, p. v., Owen co., *Ind.*: 47 m. S. W. by S. Indianapolis.

WILLIAMSON'S MILLS, p. o., Lexington district, *S. Car.*: on small branch of N. Edisto r., 42 m. S. S. W. Columbia.

WILLIAMSONVILLE, p. v., Macon co., *Mo.*: 90 m. N. by W. Jefferson City.

WILLIAMSPORT, p. v., and cap. Warren co., *Ind.*: on W. bank of Wabash r., 69 m. N. W. by W. Indianapolis. It has a good landing for steamboats, carries on an important trade, and is surrounded by a very fertile region. First settled in 1829. It contains the county buildings, etc. The "Wabash Commercial" (whig) is here published. Pop. about 450.

WILLIAMSPORT, p. o., Point Coupee parish, *La.*: 37 m. N. W. Baton Rouge.

WILLIAMSPORT, p. v., Washington county, *Md.*: on N. E. bank of Potomac r., 79 m. N. W. by W. Annapolis. This is the depot of an extensive fertile region, and has excellent shipping facilities. The Chesapeake and Ohio Canal passes through it, and the Franklin R. R. from Chambersburg will be extended to this place. It contains a bank, capital \$125,000. Pop. about 450.

WILLIAMSPORT, p. b., and cap. Lycoming co., *Penn.*: on

N. bank of W. branch of Susquehanna r., 66 m. N. by W. Harrisburg. It contains the county buildings, 1 bank, capital \$100,000, 2 academies, and 4 churches. The "L. Gazette" (dem.) and "L. Democrat" are issued weekly. The West Branch Division of Pennsylvania Canal passes through it. The Williamsport and Elmira R. R. (constructed to Ralston, 25 m.), and the Sunbury and Erie R. R., with other projected lines, will greatly increase the business interests of this place. Pop. in 1840, 1,353; in 1850, 1,615.

WILLIAMSPORT, p. v., Pickaway co., *Ohio*: on E. side of Darby cr., 26 m. S. Columbus.

WILLIAMSPORT, p. v., Maury co., *Tenn.*: on S. side of Duck cr., 33 m. S. W. by S. Nashville.

WILLIAMSPORT, p. v., Hardy co., *Virg.*: on branch of Potomac r., 143 m. N. N. W. Richmond.

WILLIAM'S STORE, p. o., Berks co., *Penn.*: 54 m. E. N. E. Harrisburg.

WILLIAM'S STORE, p. o., Hardeman co., *Tenn.*: 125 m. W. S. W. Nashville.

WILLIAMSTON, p. v., and cap. Martin co., *N. Car.*: 83 m. E. Raleigh. It contains the county buildings, etc. Pop. about 300.

WILLIAMSTON, p. v. and sta., Anderson dist., *S. Car.*: on Greenville and Columbia R. R., 93 m. W. N. W. Columbia.

WILLIAMSTOWN, p. v., Decatur co., *Ind.*: 43 m. S. E. by E. Indianapolis.

WILLIAMSTOWN, p. v., and cap. Grant co., *Ky.*: 36 m. N. N. E. Frankfort. It contains the court-house and several dwellings.

WILLIAMSTOWN, t. and p. v., Berkshire co., *Mass.*: 19 m. N. Pittsfield, 111 m. W. by N. Boston. Drained by Hoosic r. and branches, which afford water-power to several mills and factories. The v. is on uneven ground, but very pleasant. Lat. of Cong. ch. 42° 42' 49" N., long. 73° 13' 10" W. Williams College, here located, was founded in 1793, and in 1850 had 8 professors, 1,317 alumni, 179 students, and 13,751 volumes in its libraries. Pop. of t. 2,626.

WILLIAMSTOWN, p. o., Ingham co., *Mich.*

WILLIAMSTOWN, t. p. v., and sta., Oswego co., *N. Y.*: 124 m. W. N. W. Albany. The Watertown and Rome R. R. passes through, 23 m. from Rome, 54 m. from Watertown. Pop. in 1840, 842; in 1850, 1,121.

WILLIAMSTOWN, p. o., Camden county, *N. Jer.*: 37 m. S. by W. Trenton.

WILLIAMSTOWN, t. and p. o., Orange co., *Verm.*: 10 m. S. by E. Montpelier. The t. has an elevated and uneven surface, and contains 5 churches, several mills, etc. Population 1,452.

WILLIAMSVILLE, p. v., Erie co., *N. Y.*: on N. E. side of Ellicott's cr., 262 m. W. Albany. It contains 3 churches, several mills, and other manufacturing establishments, and a large water-lime mill.

WILLIAMSVILLE, p. v., Kent co., *Del.*: 15 m. S. S. W. Dover.

WILLIAMSVILLE, p. v., Person co., *N. Car.*: on branch of Dan r., 56 m. N. W. by N. Raleigh.

WILLIAMSVILLE, p. v., Elk co., *Penn.*: on N. county line, 127 m. N. W. Harrisburg.

WILLIAMSVILLE, p. o., Dickson co., *Tenn.*: 37 m. W. Nashville.

WILLIAMSVILLE, p. v., Windham co., *Verm.*: on branch of West r., 95 m. S. Montpelier.

WILLIAMSVILLE, p. v., Delaware co., *Ohio*: 13 m. N. by W. Columbus.

WILLIAMSVILLE, p. o., Bath co., *Virg.*: 123 m. W. N. W. Richmond.

WILLIAMSETT, p. v. and sta., Hampden co., *Mass.*: on E. bank of Connecticut r., 77 m. W. by S. Boston. The Connecticut River R. R. passes through, 6 m. from Springfield.

WILLIMANTIC, p. b. and sta., Windham co., *Conn.*: on N. side of Willimantic r., 23 m. E. by S. Hartford. It contains several very large cotton factories, other mills, and 4

churches. The "Public Medium" (neut.) is issued weekly. The railroads passing through this place are, Hartford, Providence, and Fishkill R. R., 32 m. from Hartford; New London, Willimantic, and Palmer R. R., 30 m. from New London, 36 m. from Palmer; and the projected New York and Boston Direct R. R.

WILLING, p. o., Alleghany co., *N. Y.*: 224 m. W. by S. Albany.

WILLINGTON, t. and p. v., Tolland county, *Conn.*: 21 m. E. by N. Hartford. Drained by branches of Willimantic r., which supply good water-power. The New London, Willimantic, and Palmer R. R. passes on its W. border. In the v. are 2 churches. Pop. of t. 1,399.

WILLINGTON, p. v., Abbeville dist., *S. Car.*: 80 m. W. Columbia.

WILLISBURG, p. o., Washington co., *Ky.*: 35 m. S. S. W. Frankfort.

WILLISTON, p. v. and sta., Barnwell dist., *S. Car.*: on South Carolina R. R., 99 m. from Charleston, 33 m. from Augusta, 45 m. S. S. W. Columbia.

WILLISTON, p. o., Potter co., *Penn.*: 110 m. N. W. by N. Harrisburg.

WILLISTON, t. p. v., and sta., Chittenden co., *Verm.*: on S. side of Onion r., 26 m. W. N. W. Montpelier. Surface uneven. Drained by small streams. The Vermont Central R. R. passes through its N. E. part, 106 m. from Windsor. The v. is handsomely built. Pop. of t. 1,699.

WILLOUGHBY, t. p. v., and sta., Lake co., *Ohio*: 133 m. N. E. by N. Columbus. Chagrin r. flows on its E. border into Lake Ontario, which bounds it N. The v. contains 2 churches, several stores, etc. The Cleveland and Erie R. R. passes through it, 13 m. from Cleveland, 77 m. from Erie. Pop. of t. 2,081.

WILLOUGHBY lake and river, Orleans co., *Verm.*: the lake in Westmoreland town is a large and handsome sheet of water, and the river, its outlet, is the principal tributary of Barton river.

WILLOW CREEK, p. o., Marquette county, *Wisc.*: 76 m. N. by E. Madison.

WILLOW CREEK, p. o., Lee co., *Ill.*: 130 m. N. by E. Springfield.

WILLOW CREEK, p. o., Marion dist., *S. Car.*: 90 m. E. Columbia.

WILLOW DALE, p. o., Trumbull co., *Ohio*: 145 m. N. E. Columbus.

WILLOW GROVE, p. o., Coweta co., *Ga.*: 104 m. W. by N. Milledgeville.

WILLOW GROVE, p. v., Montgomery co., *Penn.*: 90 m. E. Harrisburg.

WILLOW GROVE, p. o., Sumter dist., *S. Car.*: on W. side Lynch's cr., 50 m. E. Columbia.

WILLOW ISLAND, p. o., Wood co., *Virg.*: 226 m. W. N. W. Richmond.

WILLOW SPRING, p. o., Claiborne county, *Miss.*: 43 m. W. S. W. Jackson.

WILLOW SPRINGS, t. and p. v., Lafayette co., *Wisc.*: 45 m. S. W. by W. Madison. Watered by Pekatonia r. Pop. of t. 606.

WILLOW STREET, p. o., Lancaster co., *Penn.*: 36 m. S. E. by E. Harrisburg.

WILLISBORO', t. and p. v., Essex co., *N. Y.*: on W. side of Lake Champlain, 118 m. N. by E. Albany. The v. on Boquet r. contains several mills, etc. Pop. of v. about 500; of t. 1,932.

WILLS' CREEK, p. o., Coshocton co., *Ohio*: on creek of same name, 65 m. E. by N. Columbus.

WILLSEYVILLE, p. v. and sta., Tioga co., *N. Y.*: on Cayuga and Susquehanna R. R., 14 m. from Oswego, 19 miles from Ithaca, 138 m. W. by S. Albany.

WILLSHIRE, t. and p. v., Van Wert county, *Ohio*: 93 miles W. N. W. Columbus. Drained by St. Mary's r., on the S. bank of which is the v., containing in 1850 147 inhabitants. Pop. of t. in 1840, 434; in 1850, 1,033.

WILLS' POINT, p. o., Benton county, *Tenn.*: 72 miles W. Nashville.

WILMINGTON, p. v., Union co., *Ark.*: on S. side of Wachita r., 93 m. S. Little Rock.

WILMINGTON, p. city, port of entry, and one of the caps. Newcastle co., *Del.*: is pleasantly situated between Brandywine and Christiana creeks, 1 m. above their confluence, 2 m. W. Delaware r., 37 miles N. Dover. Lat. 39° 41' N.; long. 75° 28' W. Distance by railroad from Washington 108 m.; Baltimore, 70 m.; Philadelphia, 23 m.; New York, 115 m. Its site is pleasant and healthy, on ground rising gradually to the height of 112 feet above tide-water. It is regularly laid out, with wide streets crossing at right angles, and is well built, chiefly of brick. It is supplied with water from the Brandywine, by extensive water-works, constructed like those of Philadelphia. It contains a city hall, several county buildings, an arsenal, 2 market-houses, several excellent academies, and 19 churches. The hospital, located upon a fine eminence, is 126 feet long and 3 stories high. There are 4 banks, with aggregate capital of \$700,000. The manufactures of Wilmington are various and most extensive. Great water-power is afforded by the falls of the Brandywine, and improved by mills and factories of all kinds. The flouring-mills are, however, the most numerous and extensive, and among the largest in the Union. The making of gunpowder has for many years been extensively carried on in the vicinity. The navigation interests of Wilmington are also large. Vessels drawing 14 feet water come to its wharves in Christiana cr., and Brandywine creek admits those drawing 8 feet water. The total tonnage of this district on June 30th, 1850, was 9,460 tons. The register tonnage amounted to 1,651 tons, viz., 681 tons permanent, and 970 tons temporary. The enrolled and licensed tonnage amounted to 7,809 tons, mostly permanent, and all employed in the coasting trade, of which 1,429 tons were propelled by steam. During the year preceding it had no foreign commerce. Vessels built during the year, 16 (12 schooners, 3 sloops, 1 steamer)—1,849 tons. In 1852 it had among its vessels 11 steamboats—2,651 tons. The general business and prosperity of this city are steadily increasing. It is surrounded by a very fertile agricultural district, has great natural advantages for manufacturing, industry, and trade, and its connections by railroad insure constant communication with the great cities of the nation. Its newspaper press in 1850 consisted of "Delaware Republican," "Del. State Journal," each publishing tri-weekly and weekly editions; "Del. Gazette," semi-weekly and weekly; and 2 weeklies, "Blue Hen's Chicken" (whig), and "Independent Delawarian" (dem.). Pop. in 1810, 4,416; in 1820, 5,268; in 1830, 6,025; in 1840, 8,367; in 1850, 13,979. An enumeration taken in 1853 gives the following: 6,587 white males, 7,389 white females, 920 colored males, 1,257 colored females—total 16,153.

WILMINGTON, p. v., Will co., *Ill.*: on E. side of Kankakee r., 127 m. N. E. Springfield.

WILMINGTON, p. v., Dearborn county, *Ind.*: on S. side of Tanner's cr., 77 m. S. E. by E. Indianapolis.

WILMINGTON, t., p. v., and sta., Middlesex co., *Mass.*: 15 m. N. W. by N. Boston. The t. has a level surface, light sandy soil, and produces large quantities of hops. It is crossed by the Boston and Lowell R. R.; Boston and Maine R. R.; Salem and Lowell R. R.; and a junction branch R. R. The v. is small but neatly built. Pop. of t. 876.

WILMINGTON, p. city, port of entry, and cap. New Hanover county, *N. Car.*: on Cape Fear r., near the confluence of the N. E. and N. W. branches, about 35 m. from the Atlantic Ocean; 123 m. S. S. E. Raleigh. Latitude 34° 11' N.; longitude 78° 10' W. Its site is rather low, and considered somewhat unhealthy. Its favorable position for trade has, however, secured a large population, and permanent business interests. In 1819, it suffered most severely by a conflagration which destroyed 200 buildings, at a loss of over \$1,900,000. It contains a court-house, jail, several churches,

and 3 banks, with aggregate cap. of \$1,050,000. It is lighted by gas distilled from wood. In 1850, its newspaper press comprised 6 issues, viz., "Commercial" (whig), tri-weekly and weekly; 2 semi-weeklies, "Aurora" (neutral), and "Journal" (dem.); 2 weeklies, "Chronicle" (whig), and "Religious Intelligencer" (Bapt.).

The railroads entering Wilmington are, Wilmington and Weldon R. R. (from Weldon 162 m.); and Wilmington and Manchester R. R. (from Manchester 156 m.); both of which are very important avenues of travel and trade. The harbor has a shoal at its entrance, but admits vessels of 300 tons. The r. is divided into 3 channels by 2 islands, which are the finest rice fields in the State. The total tonnage of this district on June 30th, 1850, was 15,198 tons. The registered tonnage amounted to 9,123 tons, consisting of 1,406 tons permanent, and 7,717 tons temporary. The enrolled and licensed tonnage amounted to 6,075 tons, all permanent, and employed in the coasting trade, of which 2,949 tons were propelled by steam. Its foreign commerce during the year preceding, consisted of 175 clearances—31,998 tons, and 118 entrances, 20,670 tons. Vessels built during the year, 4 (1 brig, 1 schooner, 2 steamers)—453 tons. The principal exports of Wilmington during 1852, were as follows:

	Coastwise.	Foreign.	Total.
Lumber feet ..	17,135,859 ..	15,201,000 ..	32,336,859
Timber " ..	1,025,202 ..	2,388,814 ..	3,409,016
Turpentine .. bbls. ..	63,071 ..	38,596 ..	96,668
Rosin " ..	320,219 ..	18,981 ..	339,200
Tar " ..	17,522 ..	2,187 ..	19,659
Pitch " ..	6,600 ..	1,146 ..	7,806
Peanuts bush. ..	— ..	— ..	93,255
Cotton bales. .	— ..	— ..	4,136
Value.....	\$3,991,561.53	\$548,107.74	\$4,540,669

In 1852, the number of steamboats of this port was 15 (10 high pressure, 5 low pressure), with aggregate tonnage of 3,014 tons. An U. S. naval officer is stationed at this port. Pop. in 1830, 2,700; in 1840, 4,744; in 1850, 7,264.

WILMINGTON, t. and p. v., Essex co., *N. Y.*: 124 m. N. Albany. Drained by Wilmington r., on which the village is situate. Excellent iron ore is abundant and extensively wrought. Pop. of t. 1,176.

WILMINGTON, p. v., and cap. Clinton co., *Ohio*: 54 m. S. W. Columbus. It contains the county buildings and 5 churches. Laid out in 1810. The Cincinnati, Wilmington, and Zanesville R. R. is in construction through this place. The "Clinton Republican" (whig), and "Weekly Emyprean" (fr. soil) are here published. Pop. 1,238.

WILMINGTON, t. and p. v., Windham co., *Verm.*: 102 m. S. by W. Montpelier. Drained by Deerfield river and branches. The v. near the centre is pleasant and neatly built. The "Green Mountain Eagle" is here published. Pop. of t. 1,372.

WILMINGTON, p. v., Fluvanna co., *Virg.*: on E. side of Rivanna r., 44 m. W. N. W. Richmond.

WILMORE, p. o., Cambria co., *Penn.*: 101 m. W. by N. Harrisburg.

WILMOT, t. and p. o., Merrimac co., *N. Hamp.*: 25 m. N. W. Concord. Drained by small streams which afford water-power. Pop. 1,272.

WILMOT, p. o., Boone co., *Ill.*: near Wisconsin State line, 166 m. N. by E. Springfield.

WILMOT, p. o., Kenosha co., *Wis.*: 81 m. E. S. E. Madison.

WILMOT, p. o., Noble county, *Ind.*: 114 miles N. N. E. Indianapolis.

WILMOT FLAT, p. o., Merrimac county, *N. Hamp.*: 22 m. N. W. by W. Concord.

WILMUR, t. and p. o., Herkimer co., *N. Y.*: 86 m. N. W. Albany. Pop. in 1840, 60; in 1850, 112.

WILNA, p. v., Houston co., *Ga.*: on branch of Ocmulgee r., 50 m. S. W. by S. Milledgeville.

WILNA, t. and p. o., Jefferson co., *N. Y.*: 184 m. N. W.

Albany. Drained by Black and Indian river and their branches. Pop. 2,998.

WILSON county, *Tenn.* Situate N. centrally, and contains 463 sq. m. Drained by affluents of Cumberland r., which forms its N. boundary. Surface hilly, and in parts much broken; soil fertile, and produces large crops of tobacco and cotton, which are the staples. Large crops of wheat and grain are also raised, and pork and beef are exported. Timber is abundant. Farms 1,988; manuf. 36; dwell. 8,411, and pop.—wh. 19,915, fr. col. 402, sl. 7,127—total 27,444. *Capital*: Lebanon.

WILSON, L. and p. o., Piscataquis co., *Me.*: 94 m. N. by E. Augusta. Drained by Wilson's creek.

WILSON, P. O., Edgecomb co., *N. Car.*: 56 m. E. by N. Raleigh.

WILSON, P. O., Marion county, *Ohio*: 42 miles N. N. W. Columbus.

WILSON, L. and p. o., Niagara co., *N. Y.*: 266 m. W. by N. Albany. Interests exclusively agricultural. Surface generally level. Drained by small streams. Pop. in 1840, 1,753; in 1850, 2,955.

WILSON'S P. O., Anderson county, *Tenn.*: 150 m. E. Nashville.

WILSON'S CREEK, P. O., Graves co., *Ky.*: on cr. of same name, 225 m. W. S. W. Frankfort.

WILSON'S CREEK, P. O., Abbeville dist., *S. Car.*: 83 m. W. Columbia.

WILSON'S DEPÔT, P. O. and sta., Dinwiddie co., *Virg.*: on South Side R. R., 28 m. from Petersburg; 36 m. S. W. Richmond.

WILSON'S MILLS, P. O., Venango county, *Penn.*: 160 m. W. N. W. Harrisburg.

WILSON'S STATION, P. O., Clinton co., *Ohio*: 53 m. S. W. Columbus.

WILSONVILLE, P. V., Shelby co., *Ala.*: on W. side of Coosa r., 59 m. N. by W. Montgomery.

WILSONVILLE, P. O., Spencer co., *Ky.*: 28 m. W. S. W. Frankfort.

WILSONVILLE, P. O., Cocke co., *Tenn.*: 210 m. E. by S. Nashville.

WILSONVILLE, P. O., Highland co., *Virg.*: 180 m. W. N. W. Richmond.

WILTON, L. P. V., and sta., Fairfield co., *Conn.*: 54 m. S. W. Hartford. Drained by Norwalk r. and branches, which affords water-power. The v. contains 2 churches, etc. The Danbury and Norwalk R. R. passes through it, 7 m. from S. Norwalk, 17 m. from Danbury. Population of t. 2,066.

WILTON, L. and p. v., Franklin co., *Me.*: 27 m. N. W. by W. Augusta. Drained by branches of Sandy r., which flow from two handsome ponds, and afford water-power to various mills. Pop. of t. 1,909.

WILTON, L. P. V., and sta., Hillsboro' co., *N. Hamp.*: 29 m. S. S. W. Concord. Drained by Souhegan r. and branches which afford water-power. The t. contains several stone quarries. The v. is neatly built, and is the terminus of Wilton R. R. from Nashville, 15 m. The Peterboro' and Shirley R. R. touches the S. border of the t., where is a sta., 20 m. from Groton Junction. Pop. of t. 1,161.

WILTON, P. O., Pike county, *Ark.*: 96 m. S. W. by W. Little Rock.

WILTON, L. and p. o., Saratoga county, *N. Y.*: 82 m. N. Albany. Drained by a tributary of Hudson r. Surface diversified. Interests chiefly agricultural. The Saratoga and Washington R. R. crosses the t. Pop. 1,458.

WINCHENDON, L. P. V., and sta., Worcester co., *Mass.*: 54 m. W. N. Boston. Drained by Miller's r., which affords excellent water-power. One cotton factory contains 5,700 spindles. The t. contains several stone quarries. The v. near the centre is neatly built. The Cheshire R. R. passes a little N. of it, 13 m. from Fitchburg, 46 m. from Bellows Falls. Pop. of t. in 1840, 1,754; in 1850, 2,445.

WINCHESTER, T. and p. v., Litchfield co., *Conn.*: 23 m.

W. N. W. Hartford. Drained by Mad r., which affords great water-power. The principal v. in this t. is West Winchester, which see. Pop. of t. in 1840, 1,667; in 1850, 2,179.

WINCHESTER, T. and sta., Middlesex co., *Mass.*: on Boston and Lowell R. R., 8 m. N. N. W. Boston. Pop. 1,353.

WINCHESTER, P. V., and cap. Scott co., *Ill.*: on N. W. bank of Sandy cr., 44 m. W. by S. Springfield. It contains the county buildings, several mills, and manufacturing establishments. It has a fine location, and is a thriving place. Pop. about 800.

WINCHESTER, P. V., and cap. Randolph co., *Ind.*: on S. side of W. fork of White r. 64 m. E. N. E. Indianapolis. First settled in 1819. It contains the county buildings, etc. The Indianapolis and Bellefontaine R. R., in construction, passes through this place. The "W. Patriot" (whig) is here published. Pop. about 800.

WINCHESTER, P. V., Van Buren co., *Ia.*: 65 m. S. S. W. Iowa City.

WINCHESTER, P. V., and cap. Clark county, *Ky.*: 40 m. E. by S. Frankfort. It contains the county buildings, 2 churches, etc. A north and south railroad, passing through this place, is projected. Pop. about 1,100.

WINCHESTER, P. V., and cap. Wayne co., *Miss.*: on E. bank of Chickasawha r., 104 m. E. S. E. Jackson. It contains the court-house and jail. Pop. about 100.

WINCHESTER, P. V., Clark co., *Mo.*: on a branch of Fox r., 120 m. N. by E. Jefferson City.

WINCHESTER, L. P. V., and sta., Cheshire co., *N. Hamp.*: 53 m. S. W. by W. Concord. Drained by Ashuelot r., which affords extensive water-power. The v. near the centre is very handsome, and contains 3 churches, 1 bank, capital \$100,000, and several manufactories. Three principal woolen factories run about 1,500 spindles. The Ashuelot R. R. passes through it, 13 m. from Keene. The "Northern Advocate" (free soil) is published weekly. Pop. of t. in 1840, 2,065; in 1850, 3,296.

WINCHESTER, P. V., Guernsey co., *Ohio*: 82 m. E. by N. Columbus.

WINCHESTER, P. O., Union co., *N. Car.*: 110 m. S. W. by W. Raleigh.

WINCHESTER, P. V., and cap. Franklin co., *Tenn.*: on small branch of Elk r., 73 m. S. S. E. Nashville. It contains the county buildings, several stores, etc. The "W. Independent" (dem.) is issued weekly. The Winchester and Alabama R. R. is projected. Pop. about 800.

WINCHESTER, P. V., and cap. Frederick co., *Virg.*: 116 m. N. N. W. Richmond. It is regularly laid out, with streets crossing at right angles, which are generally well paved. It contains the county buildings, lyceum, academy, Masonic hall, and 14 churches. Its manufactures and trade are extensive and increasing. The Winchester and Potomac R. R. extends hence, 32 m., to Harper's Ferry and junction with the Baltimore and Ohio R. R. The v. also contains the Winchester Medical School, having 5 professors; 2 banks, with aggregate capital of \$680,000, and 1 savings' institution. The "W. Republican" (whig) and the "Virginian" (dem.) are issued weekly. This place was founded in 1752, and is of considerable historical interest. Pop. in 1840, 3,454; in 1850, about 4,300.

WINCHESTER CENTER, P. V., Litchfield co., *Conn.*: 25 m. N. W. by W. Hartford.

WIND CREEK, P. O., Tallapoosa co., *Ala.*: 35 m. N. E. by E. Montgomery.

WIND GAP, P. O., Northampton co., *Penn.*: 90 m. E. N. E. Harrisburg. The Wind Gap is an opening in the Blue Mountain, extending nearly from the bottom to the top. Its sides are very abrupt, and it is surrounded by romantic scenery. The road from Easton to Wilkesbarre passes through it.

WINDHAM county, *Conn.* Situate N. E., and contains 620 sq. m. Drained by Quinnebaug and Shetucket rivers and their branches. Surface uneven, and in some parts rough and stony; soil fertile, the larger portion adapted

grazing, while on the streams is some fine meadow land. This co. has excellent water privileges, and some extensive manufactures. Chief products, wheat, Indian corn, and potatoes. Farms 2,445; manuf. 380; dwell. 5,494, and pop.—wh. 30,512, fr. col. 567—total 31,079. *Capital*: Brooklyn. *Public Works*: Norwich and Worcester R. R.; New York and Boston (air-line) R. R.; Hartford, Providence, and Fishkill R. R.; Plainfield R. R.

WINDHAM county, *Verm.* Situate S. E., and contains 765 sq. m. Drained by Williams, West, and Saxton rivers and their tributaries, which supply abundant water-power. Surface hilly, and in the western portion mountainous; soil fertile in some parts, generally suited for pasture and the growth of grain. It has excellent granite and limestone quarries. Chief products, wheat, Indian corn, etc. Farms 3,363; manuf. 197; dwell. 5,374, and pop.—wh. 29,025, fr. col. 37—total 29,062. *Capital*: Fayetteville. *Public Works*: Vermont Valley R. R., etc.

WINDHAM, t. and p. v., Windham co., *Conn.*: 28 m. E. by S. Hartford. Drained by Shetucket r. and branches, which afford good water-power. The t. contains several flourishing villages, of which Willimantic is the principal. The v. near the centre contains 2 churches, an academy, several stores, and 1 bank, cap. \$60,000. Pop. of t. in 1840, 3,352; in 1850, 4,636.

WINDHAM, t. and p. v., Cumberland county, *Me.*: 47 m. S. W. Augusta. Drained by branches of Presumpscot r., which furnish mill privileges. Interests entirely agricultural. Pop. of t. 2,350.

WINDHAM, t. p. v., and sta., Buckingham co., *N. Hamp.*: 35 m. S. E. Concord. Watered by several ponds and branches of Merrimac r. The Manchester and Lawrence R. R. crosses N. E. corner of the t., 15 m. from Manchester, 12 m. from Lawrence. Pop. of t. 518.

WINDHAM, t. and p. o., Greene co., *N. Y.*: 32 m. S. W. Albany. Drained by Patavickill or Red Kill cr. Surface hilly and mountainous, with intervening valleys; soil on the flats rich and productive—the hills good grazing lands. Hemlock is abundant, and is extensively used in the tanneries. About 2 m. apart, on Patavickill, are the Windham and Big Hollow tanneries, employing each about 30 hands; and Windham Centre in this t. is also a flourishing v. Pop. of t. 2,048.

WINDHAM, t. and p. v., Portage co., *Ohio*: 130 m. N. E. Columbus. Drained by branch of Mahoning r. Interests, agricultural. Pop. 813.

WINDHAM, t. and p. o., Bradford county, *Penn.*: 115 m. N. by E. Harrisburg. Drained by Wepassening cr., on which are grist and saw mills. Pop. of t. about 1,000.

WINDHAM, t. and p. v., Windham co., *Verm.*: 76 m. S. Montpelier. Drained by small streams. Interests, chiefly agricultural. Pop. of t. 763.

WINDHAM CENTRE, p. v., Greene co., *N. Y.*: on Redkill cr., 33 m. S. W. Albany. It contains the largest carpet-bag manufactory in the Union, employing a capital of \$50,000, and an extensive manufactory of wooden combs, with a capital of \$20,000. It is a pretty village, the Squirekill Bridge turnpike passing through it, and has between 600 and 700 inhabitants.

WIND HILL, p. o., Montgomery county, *N. Car.*: 72 m. W. S. W. Raleigh.

WINDRIDGE, p. o., Greene co., *Penn.*: 173 m. W. by S. Harrisburg.

WIND RIVER mountains, *Oreg. Terr.*, are a range of the Rocky mountains, forming in part the boundary of Oregon on the S. E., and comprising some of the highest peaks of that great chain.

WINDSOR county, *Verm.* Situate E. toward the S., and contains 912 sq. m. Drained by Black, Queechee, Williams', and White rivers; these supply immense water-power. Surface uneven; soil fertile, particularly along the banks of the Connecticut, where fine crops of grain, vegetables, and fruit are raised. Chief products, wheat, Indian corn, oats,

and potatoes. In different parts of the co., steatite, or soapstone, is found. Gold is also found near Queechee r., not in washings, but in veins. The rock in which the gold lies is quartz, containing also the sulphures of iron, lead, and zinc, particles of gold being in these as well as in the quartz. This discovery is of recent date, and is communicated by Professor Hubbard, of Dartmouth College. Farms 4,274; manuf. 192; dwell. 7,373, and pop.—wh. 33,208, fr. col. 112—total 33,320. *Capital*: Woodstock. *Public Works*: Vermont Central R. R.; Rutland and Burlington R. R., etc.

WINDSOR, t. p. v., and sta., Hartford co., *Conn.*: on W. side of Connecticut r., 7 m. N. Hartford. Drained by Farmington r., which passes through the t. centrally, and affords good water-power. The t. contains several pleasant and flourishing villages. Windsor v. extends along the bank of the Connecticut over a mile, and is beautifully shaded with trees. The New Haven, Hartford, and Springfield R. R. passes through it, 42 m. from New Haven, 20 m. from Springfield. Pop. of t. in 1840, 2,283; in 1850, 3,254.

WINDSOR, t. and p. o., York county, *Penn.*: 32 m. S. E. Harrisburg. An agricultural township.

WINDSOR, p. v., Walton co., *Ga.*: on branch of Ocmulgee r., 69 m. N. W. by N. Milledgeville.

WINDSOR, p. v., Mercer co., *N. Jer.*

WINDSOR, p. v., Randolph co., *Ind.*: on W. fork of White r., 53 m. E. N. E. Indianapolis.

WINDSOR, t. and p. v., Kennebec county, *Me.*: 10 m. E. Augusta. Drained by Sheepscot r. It contains several mills, but its interests are chiefly agricultural. Population of t. 1,793.

WINDSOR, t. and p. o., Eaton county, *Mich.*: 8 m. S. W. Lansing. Drained by S. branch of Grand r. Pop. 253.

WINDSOR, t. and p. o., Dane co., *Wis.*: 12 m. N. by W. Madison. Drained by small streams flowing into Fourth lake. A proposed railroad from Madison to Portage will pass through it. Pop. 860.

WINDSOR, t. and p. v., Berkshire co., *Mass.*: 83 m. W. by N. Boston. Drained by branches of Westfield r. The v. contains 2 churches. Pop. of t. 899.

WINDSOR, t. and p. v., Broome county, *N. Y.*: 106 m. W. S. W. Albany. Drained by Susquehanna r., on the W. bank of which the v. is situate, containing 2 churches, several stores, etc. Pop. of v. about 440, of t. 2,645.

WINDSOR, p. v., and cap. Bertie co., *N. Car.*: on Cashie r., 93 m. E. by N. Raleigh. It contains the county buildings, several stores, etc. The r. is navigable for small vessels to this place, but its banks are low and swampy, preventing, by their unhealthiness, any great settlement.

WINDSOR, t. and p. v., Ashtabula co., *Ohio*: 146 m. N. E. Columbus. Drained by Grand r. and branches. The town contains several mills, tanneries, etc., and a quarry of gravestones. Pop. of t. 1,033.

WINDSOR, t. p. v., and sta., Windsor co., *Verm.*: on W. side of Connecticut r., 54 m. S. by E. Montpelier. Drained by Mill br., which has a fall of 60 feet in $\frac{1}{2}$ m., affording excellent water-power. Surface uneven, rising in S. part into Ascutney Mountain, 3,320 feet above tide-water. The town contains 3 pleasant villages. Windsor v., on W. bank of Connecticut r., is noted for the beauty of its site and surrounding scenery. It is irregularly laid out, but well built, and contains 3 churches, a seminary, bank, capital \$50,000, stores, etc. The "Chronicle" (whig) and "Journal" (whig) are issued weekly. The State prison, here located, contained on Sept. 1, 1850, 76 convicts. The Sullivan R. R. extends to this place from Bellows Falls, 25 m., and connects with Vermont Central R. R., hence to Rouse's Point, 15 m. These railroads, with the manufactures of the v., have made this place one of a very active business and trade. Pop. of t. 1,923.

WINDSOR LOCKS, p. v. and sta., Hartford co., *Conn.*: on W. bank of Connecticut r., 12 m. N. Hartford. The locks here constructed by the Connecticut River Company allow

the passage of small steamboats and freight boats of 85 tons burden, and furnish an immense water-power, which, as yet, is but partially improved. The New Haven, Hartford, and Springfield R. R. passes along the banks of this great water privilege, having a sta. in the v., 14 m. from Springfield, 48 from New Haven.

WINDSORVILLE, p. v., Hartford co., *Conn.*

WINEBURG, p. v., Holmes co., *Ohio*: 80 m. N. E. by E. Columbus.

WINFIELD, p. v., Putnam co., *Virg.*: 243 m. W. by N. Richmond.

WINFIELD, t. and p. v., Herkimer county, *N. Y.*: 74 m. W. by N. Albany. Drained by head branches of Unadilla r. The v. and t. contain several mills and manufactures. Pop. of t. 1,451.

WINFIELD, p. o., Carroll co., *Md.*: 38 m. E. Annapolis.

WINFIELD, p. v., Union county, *Penn.*: 40 m. N. by W. Harrisburg.

WINFIELD, p. o., Lake county, *Ind.*: 165 m. N. W. by N. Indianapolis.

WINFIELD, p. o., Columbia co., *Ga.*: 68 m. N. E. by E. Milledgeville.

WINFIELD, p. v., Tuscarawas co., *Ohio*: 84 m. E. N. E. Columbus.

WINHALL, t. and p. v., Bennington county, *Verm.*: 80 m. S. by W. Montpelier. Drained by Winhall r. Pop. 762.

WINNAMAC, p. v., and cap. Pulaski co., *Ind.*: on W. side of Tippecanoe r., 90 m. N. by W. Indianapolis. First settled in 1839. It contains the county buildings, and an U. S. land office. The Indiana Central R. R. passes near it. Pop. about 240.

WINNEBAGO county, *Ill.* Situate N., and contains 534 sq. m. Rock river flows through the co., by which and its branches Kishwaukie and Pekatonica rivers it is drained. Surface undulating and diversified; soil deep mold, and very productive. Staples, wheat, grain, and tobacco. Farms 919; manuf. 62; dwell. 1,979, and pop.—wh. 11,761, fr. col. 12—total 11,773. *Capital*: Rockford. *Public Works*: Galena and Chicago Union R. R., and Beloit Branch R. R.

WINNEBAGO county, *Ia.* Situate N., and contains 432 sq. m. Drained by affluents of Mankato river. Surface undulating, and is mostly prairie and timber land. Set off since 1850.

WINNEBAGO county, *Wisc.* Situate S. E. of the centre, and contains 471 sq. m. Drained by Neenah or Fox, and Panwaggon rivers and their affluents. Surface level and diversified, with large lakes; soil deep mold, very productive. Farms 333; manuf. 32; dwell. 1,889, and pop.—wh. 10,107, fr. col. 18—total 10,125. *Capital*: Oshkosh.

WINNEBAGO, p. o., Bureau county, *Ill.*: 116 m. N. Springfield.

WINNEBAGO lake, *Wisc.*: lies in E. part of the State, 30 m. W. Lake Michigan, between Winnebago and Calumet counties, and in N. part of Fond du Lac county. It is 32 miles long, with average width of 8 m. It has sufficient depth for navigation by steamboats, several of which ply from Fond du Lac to various points on the lake and Neenah river. The water is hard and clear, though rendered turbid by winds. Its E. shore for 15 m. is composed of a high rocky wall, which is also found on portions of the W. shore. The N. shore is low, having for 8 m. a narrow sandy beach. It receives several streams, of which Neenah r. is the principal, and is its outlet into Green bay.

WINNEGANCE, p. o., Lincoln co., *Me.*

WINNESHEK county, *Ia.* Situate N. E., and contains 732 sq. m. Drained by Upper Iowa and Turkey r. and their branches. Surface undulating, and a large portion prairie and timber land; soil fertile, and favorable to the growth of wheat, grain, and potatoes. It has good pasturage for cattle, and is well wooded. Farms —; manuf. —; dwell. 100, and pop.—wh. 516. *Capital*: Winneshek.

WINNIPISCOGEE lake and river, *N. Hamp.*: the lake

lying between Belknap and Carroll counties is of very irregular form, having an extreme length of about 23 miles, and its main portion an average width of 6 m. Its branches are also large sheets of water, and combine with the main lake to form one of the most beautiful lakes in the Union. Its shores are winding, and generally rocky, affording most delightful scenery. Several pleasant villages upon its banks occupy picturesque sites. The water is remarkably clear and cold, derived extensively from springs at its bottom. It contains about 300 islands, some of which are large and very fertile, containing farms of from 200 to 500 acres, and abounds with excellent fish. This lake and vicinity have always been very popular resorts in summer, and by the recent construction of railroads to its shores, the annual number of visitors has since been very greatly increased. Its elevation above the sea is 472 feet, and thus affords to its outlets, Winnipisogee and Merrimac rivers, abundance of water-power, used by the great factories at Manchester, Lowell, etc.

WINNIBGOSHISH lakes, *Minn. Ter.*: 180 m. N. by W. St. Paul. The larger is 14 m. long and 9 m. wide.

WINNICONNET, t. and p. o., Winnebago co., *Wisc.*: 84 m. N. N. E. Madison. Pop. 1,948.

WINNIPANK, p. v. and sta., Fairfield co., *Conn.*: on Danbury and Norwalk R. R., 3 m. from S. Norwalk, 59 m. S. W. Hartford.

WINNSBORO', p. v., Franklin par., *La.*: 118 m. N. by W. Baton Rouge.

WINNSBORO', p. v., sta., and cap. Fairfield dist., *S. Car.*: on the Charlotte and S. Carolina R. E., 24 m. N. by W. Columbia. It has an elevated and healthy site, and is generally well built. The county buildings are handsome structures. It also contains 5 churches, 4 academies, and the Furman Theological Seminary (Baptist), founded in 1826, which in 1850 had 2 professors, 30 students, 30 alumni, and 1,000 volumes in library, and occupies 4 handsome buildings of granite on a pleasant location. The "Fairfield Herald" (dem.) is issued weekly, and the "Christian Magazine" (relig.) monthly. Pop. about 1,050.

WISONA, p. o., Trimble co., *Ky.*: 83 m. N. W. Frankfort.

WINOOSKI FALLS, p. v. and sta., Chittenden co., *Verm.*: on N. bank of Onion river, 33 m. N. W. by W. Montpelier. Here is excellent water-power, improved by first-class factories, etc. A branch R. R. from Burlington to Essex Junction passes through it, 3 m. from Burlington.

WINOOSKI river, *Verm.*: (see ONION river.)

WINSLOW, p. v., Pike co., *Ind.*: on Patoka cr., 107 m. S. W. by S. Indianapolis.

WINSLOW, t. and p. v., Stephenson co., *Ill.*: on branch of Pekatonica r., 182 m. N. Springfield.

WINSLOW, t. and p. v., Kennebec co., *Me.*: on E. bank of Kennebec r., 17 m. N. N. E. Augusta. Excellent water-power is afforded by Sebasticook r., which empties into the Kennebec at the v. opposite Waterville. The Kennebec and Penobscot R. R. will pass through this place. Pop. of t. 1,796.

WINSLOW, t. and p. v., Camden co., *N. Jer.*: 83 m. S. Trenton. Drained by Great Egg Harbor r. and a branch of Little Egg Harbor r. The t. contains several settlements. Pop. of t. 1,540.

WINSTED, Litchfield co., *Conn.*: (see WEST WINSTED.)

WINSTON county, *Miss.* Situate N. E. centrally, and contains 713 sq. m. Drained by head branches of Pearl r. and affluents of Noxubee r. Surface level, and somewhat elevated, presenting the appearance of table-land; soil a deep rich mold, and very fertile; it produces in abundance cotton and Indian corn, and is favorable to the cultivation of fruit, peaches, melons, and grapes. It is traversed by numerous streams of pure running water. Farms 556; manuf. 18; dwell. 886, and pop.—wh. 5,173, fr. col. 10, sl. 2,763—total 7,956. *Capital*: Louisville.

WINSTON, p. v., and cap. Forsyth co., *N. Car.*: 101 m. W. N. W. Raleigh. It contains the county buildings.

WINSTON, p. v., Alleghany co., *Md.*: 142 m. W. by N. Annapolis.

WINSTON, p. o., Randolph co., *Ala.*: 85 m. N. E. by N. Montgomery.

WINSTON, p. o., Weakley county, *Tenn.*: 107 miles W. Nashville.

WINTER HARBOR, p. o., Hancock county, *Me.*: 86 m. E. Augusta.

WINTERPOCK, p. o., Chesterfield co., *Virg.*

WINTER SEAT, p. o., Abbeville dist., *S. Car.*: 75 m. W. Columbia.

WINTERSET, p. v., and cap. Madison co., *Ia.*: 122 m. W. by S. Iowa City. It contains the county buildings.

WINTERSVILLE, p. v., Jefferson co., *Ohio*: 120 m. E. by N. Columbus.

WINTERSVILLE, p. o., Decatur county, *Ind.*: 45 m. S. E. Indianapolis.

WINTHROP, p. o., Middlesex co., *Conn.*

WINTHROP, p. o., Kane county, *Ill.*: 150 m. N. N. E. Springfield.

WINTHROP, t. and p. v., Kennebec county, *Me.*: 10 m. W. by S. Augusta. Drained by Cobbesconter r., flowing through the large ponds in E. part of t. The v. is situated at the S. end of the North Lake, the outlet of which affords water-power. The Androsoggin and Kennebec R. passes through it, 53 m. from Portland, 29 m. from Waterville. Pop. of t. 2,154.

WINTON, p. v., and cap. Hertford co., *N. Car.*: on S. W. bank of Chowan r., 102 m. N. E. by E. Raleigh. It contains the county buildings and several stores. Pop. about 140.

WINTON, p. o., Butler county, *Ohio*: 92 m. W. S. W. Columbus.

WINYAW bay, Georgetown dist., *S. Car.*: sets up N. W. from the Atlantic, is 14 m. long, 2 m. wide, and navigable for large vessels. It receives Black, Great Pedee, and Wacamaw rivers.

WIOTA, t. and p. v., Lafayette co., *Wisc.*: 40 m. S. W. by S. Madison. Wasscommon r. flows through its E. part. Pop. of t. 711.

WIOTA, p. o., Laclede co., *Mo.*: 60 m. S. S. W. Jefferson City.

WIRETOWN, p. v., Ocean co., *N. Jer.*: on Barnegat bay, 42 m. S. E. Trenton.

WIRT COUNTY, *Virg.* Created from Wood and Jackson in 1843. Situate N. W. and contains 296 sq. m. Drained by Little Kanawha r. and its tributaries. Surface much broken; soil in general fertile. Chief products, wheat and Indian corn. Farms 309; manuf. 7; dwell. 528, and pop.—wh. 3,319, fr. col. 2. sl. 32—total 3,353. *Capital*: Wirt C. H. *Public Works*: North-western R. R.

WIRT, t. and p. o., Alleghany co., *N. Y.*: 230 m. W. by S. Albany. Drained by small creeks. Interests chiefly agricultural. Pop. 1,544.

WIRT C. H., p. v., and cap. Wirt co., *Virg.*: on S. W. bank of Little Kanawha r., 232 m. W. N. W. Richmond. It contains the county buildings, etc.

WIRT COLLEGE, p. v., Sumner co., *Tenn.*: 30 m. N. E. Nashville.

WISCASSETT, t., p. v., port of entry, and cap. Lincoln co., *Me.*: on W. bank of Sheepscot r., 22 m. S. S. E. Augusta. The v. has an elevated and very beautiful site, and contains the county buildings, several churches, 1 bank, capital \$50,000, and many handsome dwellings. It is one of the most important seaports in the State, being largely engaged in the coasting trade, fisheries, ship-building, etc. Its foreign commerce is not so extensive as formerly. The total tonnage of this district on June 30th, 1850, was 18,241 tons. The registered tonnage amounted to 6,024 tons, of which 4,748 tons were permanent, and 1,276 tons temporary. The enrolled and licensed tonnage amounted to 12,217 tons, consisting of 5,540 tons in the coasting trade, 6,092 tons in the cod fishery, 26 tons "licensed under 20 tons" in coasting trade, and 359 tons "licensed under 20 tons" in the cod fishery. At that date it had no steam tonnage. Its foreign commerce during the year preceding, consisted of 23 clearances—4,509 tons, and 4 entrances—1,025 tons. Vessels built during the year 18 (4 ships, 4 brigs, 10 schooners)—2,535 tons. Pop. of t. 2,343.

THE STATE OF WISCONSIN.

WISCONSIN embraces all of that portion of the northwest territory lying north of the parallel of 42° 30' north latitude, and west of Lake Michigan, excepting the Upper Peninsula of Michigan, and that part of Minnesota lying east of the Mississippi River. It is bounded north by Minnesota and Michigan; northeast and east by Lake Michigan; south by Illinois, and west by Iowa and Minnesota; or, according to the constitution, as follows, to wit: "Beginning at the northeast corner of the State of Illinois, that is to say, at a point in the centre of Lake Michigan, where the line of 42° 30' of north latitude crosses the same; thence running with the boundary line of the State of Michigan, through Lake Michigan and Green Bay, to the mouth of the Menomonee River; thence up the channel of the said river to the Brule River; thence up said last-mentioned river to Lake Brule; thence along the southern shore of Lake Brule, in a direct line to the centre of the channel between Middle and South islands, in the Lake of the Desert; thence in a direct line to the head waters of the Montreal River, as marked upon the survey made by Captain Cram; thence down the main channel of the Montreal River to the middle of Lake Superior; thence through the centre of Lake Superior to the mouth of the St. Louis River; thence up the main channel of said river to the first rapids in the same, above the Indian village, according to Nicolle's map; thence due south to the main branch of the river St. Croix; thence down the main channel of said river to the Mississippi; thence down the centre of the main channel of that river to the northwest corner of the State of Illinois; thence due east with the northern boundary of the State of Illinois, to the place of beginning." Its greatest extent north and south is 235 miles, and east and west 255 miles. Its land area is 53,924 square miles.

The natural feature peculiar to Wisconsin, says J. W. Hunt, Esq., in his Gazetteer of the State, published 1853, is the uniformity of its elevation, and shape of its surface, which is neither mountainous, hilly, nor flat, but gently undulating. The country west of Sugar River and south of the Wisconsin is somewhat broken, principally by the dividing ridge upon which the road from Madison to Prairie du Chien passes. In this section, known as the Mines, are several peculiar elevations called Mounds. West of the Wisconsin River is a range of high hills, being the only elevations in the State either deserving or assuming the dignity of mountains. The south-eastern portion of the State is marked by ravines at the streams, but little depressed below the surrounding level. Its prominent features are the prairie, destitute of tree or shrub, covered only by a luxuriant growth of grass, interspersed with flowers of every hue; the oak opening, the lake, the woodland on the border of streams, and the natural meadow. Proceeding north, to the Fox and Wisconsin rivers, and Green Bay, the timber increases, and the soil gradually changes from the vegetable mold of the prairie to a sandy loam. The surface also becomes somewhat depressed and uneven, diversified with timber, rolling prairie, large marshes and extensive swamps, having an abundant growth of cranberries and wild rice. Still, north and west the surface becomes more uneven, and the streams rapid, affording an abundance of water-power for the manufacture of lumber from the immense forests of evergreen, scarcely surpassed on the Western Continent.

The soil of the prairie consists of a dark brown vegetable mold, from one to two feet in depth, very mellow, and entirely destitute of stone or gravel, and, for fertility and agricultural properties, can not be surpassed. The subsoil is a clayey loam, similar to the soil of the timbered lands, and is also suitable for cultivation. The soil of the timbered land is less rich than the prairie, not so deep, and contains less carbonate of lime, which enters into the composition of the latter in the proportion of from 20 to 40 per cent. The mining region, unlike that of any other mineral district, promises a liberal reward, as well to the farmer as to the miner. The soil of the evergreen district is mostly sandy, and not so rich as in other portions of the State. It is nevertheless well adapted to agriculture and grazing. The prairies of Wisconsin are not so extensive as those of other States, and are skirted and belted by timber, that they are well adapted to immediate and profitable occupation. The openings, which comprise a large portion of the finest land of the State, owe their present condition to the action of the annual fires which have kept under all other forest growth, except those varieties of oak which can withstand the sweep of that element. This annual burning of an exuberant growth of grasses and of under-brush, has been adding, perhaps for ages, to the productive power of the soil, and preparing it for the plowshare. It is the great fact, nature has thus "cleared up" Wisconsin to the hand of the settler, and enriched it by yearly burnings, and has at the same time left sufficient timber on the ground for fence and fire wood, that explains, in a great measure, the capacity it has exhibited, and is now exhibiting, for rapid settlement and early maturity. There is another fact important to be noted in this connection. The low level prairie, or natural meadow, of moderate extent, is so generally distributed over the face of the country, that the settler on a fine section of arable land finds on his own farm, or in his immediate neighborhood, abundant pasturage for his stock in summer, on the open range; and hay for the winter for the cutting—the bounty of Nature supplying his need in this behalf till the cultivated grasses may be introduced and become sufficient for his use.

The limestone underlying the coal fields of Illinois forms the immediate basis of the alluvion of Southern Wisconsin. This geological district, in addition to that portion of the State which lies southerly of the valley of the Wisconsin River, comprises the whole of the slope toward Lake Michigan. In many portions of this district the lime rock disappears, and the out-cropping sandstone furnishes a fine material for building. The lead-bearing rock of the mineral region is a porous limestone, prevailing throughout Grant, Lafayette, and Iowa counties, comprising four-fifths of the "lead district" of the Upper Mississippi, the remaining one-fifth being in the States of Illinois and Iowa. Deposits of iron ore, water limestone, and beds of gypsum, together with other varieties of minerals, are found in localities more or less numerous throughout the limestone region. All of that section of the State which lies between Lake Superior on the north and the Falls of St. Anthony on the Mississippi, and the falls of the other rivers flowing southerly, is primitive in its prevailing geological character; and it is within this primitive region that the copper mines of Lake Superior are found—probably the richest in the world, and apparently inexhaustible. In all that portion of the State lying between the primitive region just described and the limestone formation of the south and east, the transition sandstone prevails, interspersed with limestone and more sparsely with rock of a primitive character. This formation comprises that section of the country drained by the Wisconsin and other rivers tributary to the Upper Mississippi and below the falls of those streams. Within this geological district are found quarries of white marble, which promise to be abundant and valuable.

Wisconsin, says J. A. Lapham, Esq., does not fall behind the other portions of the Western country in the monuments it affords of the existence of an ancient people who once inhabited North America, but of whom nothing is known except what can be gathered from some of the results of their labors. The works at Aztalan, in Jefferson County, are most known and visited, but there are many other localities which are said to equal them in interest and importance. The substance called brick at this place is evidently burned clay, showing marks of having been mixed with straw, but they were not molded into regular forms. There is a class of ancient earth-works in Wisconsin, not before found in any other country, being made to represent quadrupeds, birds, reptiles, and even the human form. These representations are rather rude, and it is often difficult to decide for what species of animal they are intended; but the effects of time may have modified their appearance very much since they were originally formed. Some have a resemblance to the buffalo, the eagle or crane, or to the turtle or lizard. One representing the human form, near the Blue Mounds, is, according to R. C. Taylor, Esq., 120 feet in length; it lies in an east and west direction, the head toward the west, with the arms and legs extended. The body or trunk is 30 feet in breadth, the head 25, and its elevation above the general surface of the prairie is about 6 feet. Its conformation is so distinct that there can be no possibility of mistake in assigning it to the human figure.* A mound at Prairieville, representing a turtle, is about 5 feet high, the body is 56 feet in length, it represents the animal with its legs extended and its feet turned backward. It is to be regretted that this interesting mound is now nearly destroyed. The ancient works are found in all parts of the territory, but are most abundant at Aztalan, on Rock River, near the Blue Mounds, along the Wisconsin, the Neenah, and the Pishtaka rivers, and near Lake Winnebago. The mounds are generally scattered about without any apparent order or arrangement, but are occasionally arranged in irregular rows, the animals appearing as if drawn up in a line of march. An instance of this kind is seen near the road, seven miles east from the Blue Mounds, in Iowa County. At one place near the Four Lakes it is said that one hundred tumuli, of various shapes and dimensions, may be counted—those representing animals being among others that are round or oblong. Fragments of ancient pottery of a very rude kind are often found in various localities. They were formed by hand, or molded, as their appearance shows evidently that these vessels were not turned on a "potter's wheel." Parts of the rim of vessels, usually ornamented with small notches or figures, are most abundant. A mound is said to have been discovered near Cassville, on the Mississippi, which is supposed to represent an animal having a trunk like the elephant, or the now extinct mastodon. Should this prove true, it will show that the people who made these animal earth-works, were cotemporaries with that huge monster whose bones are still occasionally found; or that they had then but recently emigrated from Asia, and had not lost their knowledge of the elephant.

The salubrity of the climate (Mr. Lapham is again quoted), the purity of the atmosphere and of the water, which is usually obtained from copious living springs, the coolness and short duration of summer, and the dryness of the air during winter, all conspire to render Wisconsin one of the most healthy portions of the United States. The wet meadows, marshes, and swamps are constantly supplied with pure water from springs; and as they are not exposed during summer to a burning heat, they do not send forth those noxious and deleterious qualities so much dreaded in more southern and less favored latitudes. Many of our most flourishing towns and settlements are in the immediate vicinity of large swamps,

* The reader is referred to the "Notice of Indian Mounds, etc., in Wisconsin," in *Silliman's Journal*, vol. xxxiv., p. 88, by R. C. Taylor, and to the "Description of Ancient Remains in Wisconsin," by S. Taylor, vol. xlii., p. 21, of the same work, for more detailed descriptions and drawings of these interesting animal mounds.

WISCONSIN.

and partially overflow meadows, yet no injurious effects upon the general health are produced by them. It has usually been found, in making new settlements in the Western wilderness, that as the forests are cleared away, and the surface thereby exposed to the direct influence of the sun and winds, a deleterious effect is produced on the general health—the decaying vegetable matter being thus suddenly made to send forth its malarious qualities. But in Wisconsin no such result is apprehended, or can be produced, for a large proportion of the country consists of oak-opening and prairie, and may therefore be considered as already cleared. The removal of the few remaining "burr oaks" can not have the same effect upon the soil as the cutting down of the dense forests of the other States. And besides this, the fires that have annually raged over the surface, often kindled purposely by the Indians, on their hunting excursions, have prevented that rapid accumulation of vegetable matter which is always found in deep shady woods, where the fires do not so often penetrate. It is believed that the facts here stated will be sufficient to satisfy the reader of the truth of the opinion expressed by our most intelligent physicians, that Wisconsin is, and will continue to be, one of the most healthy places in the world.

The amount of lead shipped from Galena during the last year was 40,000,000 pounds, nine-tenths of which was raised in Wisconsin. Considerable more than the remaining one-tenth of the amount above stated has been shipped from ports in this State, from which it will be seen that this estimate is small. To the practical miner, as capitalist or operative, the lead region of the Upper Mississippi offers the most substantial inducements to settlement. The exceeding abundance and richness of the mineral, the comparative ease with which it may be mined, and the high price it commands the moment it is brought to the surface, open to the industrious and prudent operator a highway to wealth. New leads of the richest promise have been recently discovered in the mineral district, and an increasing emigration to that section of the State promises to replace the California draft, and to meet the growing demand for the mineral.

The copper mines of Lake Superior are of established celebrity throughout the world, and open an inviting field for enterprise. The mining interest in that region is fast losing its character of adventure, and is attracting the attention of the prudent capitalist and the practical miner, as a remunerative branch of business.

The iron mines of Wisconsin have not yet been opened to any extent, but are worthy the attention of the immigrant. There are rich localities of ore near the head-waters of the Rock, and on the Upper Mississippi and its branches.

The following statement exhibits the shipment of lead from Galena from the year 1841 to 1852 inclusive, and the value of the same at four dollars per hundred weight:

Years.	No. of Pounds.	Value.	Years.	No. of Pounds.	Value.	Years.	No. of Pounds.	Value.
1841	29,749,909	\$1,189,996	1845	51,144,822	\$2,045,792	1849	45,985,839	\$1,839,493
1842	29,424,329	1,176,973	1846	48,007,938	1,920,317	1850	41,456,900	1,659,436
1843	36,578,797	1,475,151	1847	50,999,303	2,039,972	1851	34,500,334	1,380,015
1844	41,036,293	1,641,451	1848	49,783,737	1,991,349	1852	40,000,000	1,600,000

There are also large quantities of lead shipped at different points along the Wisconsin and Mississippi rivers, the precise amount of which no data has been furnished upon which an intelligent estimate can be made. In reviewing the foregoing statement, it should be recollected that Wisconsin is rapidly increasing, not only in population and wealth, but in the amount and quality of its resources, manufactures, and products.

The richness of the soil of Wisconsin, and its ability to produce in abundance all kinds of grain, as well as the facility by which the lands are brought under subjection, create a permanent demand for all kinds of agricultural implements and mechanical labor. Architectural elegance in public and private buildings, and elaborate perfection in complicated machinery is not to be expected in new settlements; but many of them in Wisconsin compare favorably with those of the older States. The rapid growth of towns, and the great influx of farmers with their families, create a necessity for temporary buildings, soon to be superseded by comfortable dwellings and out-houses, and give constant employ for the mason, the carpenter, and all other mechanics. The immense flouring-mills of the State already in operation, as well as those in progress of erection, provide labor for the millwright and machinist, and furnish not only their respective vicinities with all kinds of mill stuff, but more than 100,000 barrels of flour annually for exportation.

To the lumberman, the pineries of Wisconsin present inducements for investment and settlement, which can be hardly overrated. That of the Upper Wisconsin and its tributaries is the most extensive; and distinguished still more for the fine quality than the inexhaustible quantities of its timber. The other localities of the white pine and other evergreens are mainly on the Wolf, the great northern affluent of the Fox, the tributaries of Green Bay, and on the La Crosse, the Black, Chippewa, and the St. Croix, branches of the Upper Mississippi. The rapids of these streams furnish abundant water-power for the manufacture of lumber, and on the annual spring rise, and occasional freshets at other seasons of the year, the yield of the mills is floated from the Wolf into Lake Winnebago and the Lower Fox, and from most of the other streams into the Mississippi. Scarcely ten years have elapsed since the Alleghany pine of Western New York and Pennsylvania had undisputed possession of the market, not only of the Ohio Valley, but of the Mississippi and its tributaries above New Orleans, at which point it competed with the lumber of Maine and New Brunswick. The course of the lumber trade may now be considered as permanently changed. The pineries of Wisconsin now control, and will hold exclusive possession of the market of the valleys of the Mississippi and its great western affluents. The amount of pine lumber estimated to be sawed in Wisconsin annually, is as follows: Black River, 15,000,000; Chippewa, 28,500,000; Green Bay, 21,000,000; Manitowoc, 24,500,000; St. Croix, 20,000,000; Wisconsin, 58,500,000; Wolf, 25,500,000—total number of feet, 193,000,000.

Aside from the manufacture of pine lumber, reaching as it does nearly 200,000,000 feet per year, saw-mills, driven by both steam and hydraulic power, are now in operation in every section of the State where timber is found, and large quantities of oak scantling and plank, and basswood siding and lath, are yearly manufactured.

Wisconsin is divided into 31 counties, the general statistics of which, and the capitals of each, in 1850, were as follows:

Counties.	Dwell.	Pop.	Farms in cult.	Manuf. Estab.	Capitals.	Counties.	Dwell.	Pop.	Farms in cult.	Manuf. Estab.	Capitals.

The whole number of dwellings in the State was, at the above date, 56,316; of families, 57,603; and of inhabitants' 305,191; viz., whites 304,565—males 164,221, and females 140,344; fr. col. 626—males 365, and females 261. Of the whole population there were, *deaf and dumb*—wh. 65, fr. col. 0—total 65; *blind*—wh. 50, fr. col. 0—total 50; *insane*—wh. 43, fr. col. 0—total 43; and *idiotic*—wh. 76, fr. col. 1—total 77. The number of free persons born in the United States was 197,912, the number of foreign birth 106,695, and of birth unknown 784. The *native* population originated as follows. Maine 3,252, N. Hamp. 2,520, Verm. 10,157, Mass. 6,255, R. I. 690, Conn. 4,125, N. York 65,595, N. Jer. 1,566, Penn. 9,571, Del. 141, Md. 462, Dist. of Col. 83, Virg. 1,611, N. Car. 322, S. Car. 107, Ga. 495, Flor. 4, Ala. 49, Miss. 85, La. 73, Tex. 4 Ark. 67, Tenn. 449, Ky. 1,429, Ohio 1,402, Mich. 1,900, Ind. 2,773, Ill. 5,292, Mo. 1,012, Ia. 445, *Wisconsin* 63,015, Calif. 0, Territories 26; and the *foreign* population was composed of persons from—England 13,952, Ireland 21,043, Scotland 3,527, Wales 4,819, Germany 34,519, France 775, Spain 4, Portugal 4, Belgium 45, Holland 1,157, Italy 9, Austria 61, Switzerland 1,244, Russia 71, Denmark 146, Norway 3,651, Sweden 83, Prussia 3,545, Sardinia 1, Greece 1, Asia 17, Africa 1, British America 3,277, Mexico 9, Central America 11, South America 6, West Indies 20, and other countries 191.

The following table will show the decennial progress of the population since the first general census of the State:

Census Years.	White Persons.	Colored Persons.			Total Population.	Decennial Increase.	
		Free.	Slave.	Total.		Numerical.	Per cent.
1840.....	80,749.....	185.....	11.....	196.....	80,945.....	—.....	—.....
1850.....	304,565.....	626.....	—.....	626.....	305,191.....	274,246.....	336.2.....

The general statistics of the resources, productions, manufactures, wealth, and institutions of Wisconsin, in accordance with the census of 1850, and other authentic reports referring to the same period of time, are as follows:

Occupied Lands, &c.—Improved farm lands, 1,045,499 acres, and unimproved lands, 1,931,159 acres—together valued at \$25,528,563. The total number of farms in operation on the 1st June, 1850, was 20,177. Value of farming implements and machinery \$1,641,568

Live-Stock.—Horses, 30,179; asses and mules, 156; milch cows, 64,339; working-oxen, 42,801; other cattle, 76,293; sheep, 124,592; and swine, 159,276. The live-stock of 1840 and of 1850 compared, give the following results:

Live Stock.	1840.		1850.		Increase.
Horses.....	5,735 head.....	80,179 head.....	156 “.....	64,339 “.....	24,600 head, or 428.9 per cent
Asses and Mules.....	30,269 “.....	42,801 “.....	76,293 “.....	153,164 “.....	or 506.0 “
Milch Cows.....	34,624 “.....	124,592 “.....	124,592 “.....	121,430 “.....	or 3,507.5 “
Working Oxen.....	51,838 “.....	159,276 “.....	107,893 “.....	107,893 “.....	or 209.8 “
Other Cattle.....					
Sheep.....					
Swine.....					

—in 1850, the value of live-stock amounted to \$4,379,385.

Products of Animals.—Wool, 253,963 pounds; butter, 3,633,750 pounds; cheese, 400,233 pounds; and the value of animals slaughtered in the year had been \$90,173. The wool crop of the census year of 1840 amounted to 6,777 pounds; and hence that of 1850 exhibits an increase of 247,156 pounds, or of 3,499.3 per centum. The clip per fleece, in 1840, was 31.3 ounces, and in 1850, 32.5 ounces—being an average increase of 1.2 ounces per fleece.

Grain Crops.—Wheat, 4,286,131 bushels; rye, 81,253 bushels; Indian corn, 1,988,779 bushels; oats, 3,414,672 bushels; barley, 209,692 bushels; and buckwheat, 79,573 bushels. These crops, compared with the crops of 1840, result as follows:

Crops.	1840.		1850.		Increase.
Wheat.....	212,116 bushels.....	4,286,131 bushels.....	81,253 “.....	1,988,779 “.....	4,074,015 bushels, or 1,920.6 per cent.
Eye.....	1,965 “.....	81,253 “.....	79,288 “.....	1,609,620 “.....	or 4,035.1 “
Indian corn.....	379,359 “.....	1,988,779 “.....	1,609,620 “.....	3,008,153 “.....	or 426.9 “
Oats.....	406,514 “.....	3,414,672 “.....	79,288 “.....	193,630 “.....	or 739.8 “
Barley.....	11,062 “.....	209,692 “.....	193,630 “.....	69,224 “.....	or 1,795.6 “
Buckwheat.....	10,654 “.....	79,573 “.....	69,224 “.....	69,224 “.....	or 649.8 “

Other Food Crops.—Peas and beans, 20,657 bushels; potatoes, Irish, 1,402,077 bushels, and sweet 879 bushels. The potato crop of 1840 amounted to 419,608 bushels; and hence the crop of 1850 exhibits an increase of 983,343 bushels, or 234.3 per centum.

Miscellaneous Crops.—Tobacco, 1,263 pounds; hay, 275,662 tons; clover-seed, 433, and other grass-seed, 342 bushels; hops, 15,930 pounds; hemp—dew-rotted, 300 tons, and water-rotted, 2 tons; flax, 68,393 pounds; flax-seed, 1,191 bushels; maple sugar, 610,976 pounds; molasses, 9,374 gallons; beeswax and honey, 131,005 pounds; wine, 113 gallons, etc., etc. Value of orchard products, \$4,523, and of market-garden products, \$32,142. The principal crops, compared with similar crops of 1840, exhibit the results appended:

Crops.	1840.		1850.		Increase.
Hay.....	30,938 tons.....	275,662 tons.....	15,930 pounds.....	15,930 pounds.....	244,724 tons or 802.6 per cent
Hops.....	183 pounds.....	15,930 pounds.....	800 tons.....	2 “.....	15,797 pounds, or 11,125.5 “
Hemp—dew-rotted.....	2 tons.....	2 “.....	68,393 pounds.....	68,393 pounds.....	744,392 “ or 16,526.6 “
“ water-rotted.....					
Flax.....					
Maple-sugar.....	135,288 pounds.....	610,976 “.....	610,976 “.....	475,688 “.....	or 851.6 “
Wine.....	0 gallons.....	113 gallons.....	113 gallons.....	113 gallons.....	or 11,300.0 “

WISCONSIN.

Home-made manufactures were produced, in the year ending 1st June, 1850, to the value of \$42,621. The same class of goods made in the census year of 1840, was valued at \$12,567.

Manufactures.—Aggregate capital invested, \$0,000,000; value of all raw material, fuel, etc., consumed, \$000,000; average number of hands employed, 00,000—males 00,000, and females 0,000; monthly cost of labor, \$00,000—to males \$00,000, and to females \$0,000; value of products of the year, \$0,000,000. The whole number of manufacturing establishments in operation on the 1st June, 1850, and manufacturing to the value of \$500 and upward annually, was 1,273, the great portion of them being mills of various descriptions, and other agricultural manufactories, and of the strictly national manufactures the following: 9 woolen factories, 16 iron works—one making pig iron, and 15 making castings; and 8 tanneries. The total capital invested in manufactures, in 1840, amounted to \$635,926.

In the *woolen* manufacture there is a capital of \$81,225 invested; wool consumed, 134,200 pounds; value of all raw material, etc., \$32,630; hands employed, 25; monthly wages paid, \$562; products of the year—cloth 36,000 yards, and yarn 94,350 pounds; value of products \$87,992. This interest has risen to its present condition since 1840.

The capital invested in the manufacture of pig iron is \$15,000; ore used, 3,000 tons; coke and charcoal consumed, 150,000 bushels; hands employed, 60; monthly wages \$1,800; pig iron produced in the year 1,000 tons; value of entire products, \$27,000.

In the manufacture of *iron castings*, a capital of \$116,350 is invested; pig iron used, 1,371 tons: old metal, 15 tons; coal 595 tons; and coke and charcoal, 2,700 bushels; value of all raw material, etc., used in the year, \$86,930; hands employed, 225; average monthly wages, \$26 73; products of the year—castings 1,342 tons, and, including \$64,025, the value of other products, these were valued at \$216,195. In 1840, there was but one furnace in the State, which produced only 3 tons cast iron, and employed 3 hands, and a capital of \$800.

In *tanneries*, the capital invested amounts to \$73,950; value of hides and skins used, \$93,380; hands employed, 75; monthly cost of labor, \$1,710; tanned during the year, 14,900 skins, and 59,600 sides of leather, valued at \$175,710. In 1840, but one tannery was reported, employing 3 hands and \$2,000, and producing annually 150 sides of sole leather, and 150 sides of upper leather.

The capital invested in the manufacture of *malt and spirituous liquors* amounts to \$98,700; quantities and kinds of grain, etc., consumed—barley, 91,020 bushels; corn, 29,900 bushels; rye, 3,200 bushels; hops, 25 tons; hands employed, 93; quantities of liquors produced—ale, etc., 31,320 barrels; whisky, 127,000 gallons. In 1840, there were 3 breweries, producing 14,200 gallons ale, etc., and 3 distilleries, producing 8,300 gallons spirits, etc., together employing 11 hands, and a capital of \$14,400.

Commerce and Internal Improvements.—The commerce of Wisconsin, chiefly carried on at its lake ports, is very valuable and extensive. The statistics of its foreign trade with Canada are embraced in those of the districts of Michilimackinac and Chicago, and hence can not be stated separately. The trade in that direction, however, is not large. The coasting trade is relatively of immense importance, both on the lake and on the Mississippi. The exports and imports at the lake ports are shown under the head of Lake Michigan. The chief ports of the Mississippi are Prairie du Chien, Cassville, etc., and the exports from those are chiefly mineral. The internal commerce of the State is carried on with great activity, radiating from the principal commercial towns to every portion, and large supplies are needed in the northern pineries, which supply so valuable a material to general commerce. The internal improvements of Wisconsin are more prospective than existing, but great progress has been made in building railroads, one of which will extend along the lake shore from Chicago to Fond du Lac, and other roads diverge from Chicago, Milwaukee, etc., toward the Mississippi, centering at Madison. A line will also extend from the latter point to Portage City on the north, and to Beloit and Janesville on the south, and these will be carried to a junction with the Galena and Chicago Union R. R. The only line yet complete is that from Milwaukee to Madison, which, under the name of Milwaukee and Mississippi R. R., will stretch across the State. The improvement of Fox and Wisconsin rivers is in progress, with the intention ultimately of connecting the rivers by a canal, and thus giving uninterrupted navigation from the lake to the Mississippi.

Banks.—The only banking institutions of the State, of which the names are known in the markets are, the Milwaukee Bank, Richmond's Exchange Bank, and the Wisconsin Marine and Fire Insurance Company, all at Milwaukee. The State constitution does not recognize banks of any description.

Government.—The constitution now in force was adopted in convention on the 1st February, 1848, and approved by the people at the election held in April following.

All males 21 years old, residents of the State for one year next before the election, who are white citizens of the United States, or white foreigners who have declared their intention to become such citizens, or persons of Indian blood once declared by the laws of the United States to be citizens, subsequent laws to the contrary notwithstanding, or "civilized persons of Indian descent" not members of a tribe, are entitled to vote at all elections; and the right of suffrage may be extended by a law approved by a majority of votes at a general election. The exceptions refer to incompetent persons and those convicted of treason or crime. The general elections are held on the Tuesday after the first Monday in November annually.

The *Legislature* consists of an Assembly and Senate. Members of the Assembly (in number between 54 and 100) are chosen annually, and Senators (not more than one-third nor less than one-fourth the number of Assemblymen) are chosen for two years, one-half each year. Both must be qualified voters in their districts. An apportionment is made after each federal census and after each decennial State census, the first of which will be taken in 1855. The Legislature meets at Madison on the first Monday of January annually.

The *Governor* shall be a qualified voter and citizen of the United States, and is chosen for two years by a plurality of votes, and if there be no choice the Legislature shall, by joint ballot, choose one of the persons having the highest equal number of votes. In default of the governor, his duties are discharged by the Lieutenant-governor, who is chosen with the same qualification and for the same term as the governor. He is *ex-officio* President of the Senate. If the Lieutenant-governor defaults, then the Secretary of State fills the office. The governor's *veto* may be defeated by a vote of two-thirds of the members present in each house.

The *Judiciary* is comprised in a Supreme Court, Circuit Courts, County Courts, and Justices of the Peace. Justices of the Peace are elected in the several towns, hold office two years, and have jurisdiction throughout their counties in civil matters when the debt or damages claimed do not exceed \$100. A county court is established in each county, and the judge is elected by the voters of the county for the term of four years; his court has jurisdiction concurrent with the circuit courts in all civil actions arising within the county, and in civil actions originating out of the county, when the damages claimed are not more than \$500, and exclusive appellate jurisdiction in all cases of appeal or *certiorari* from

WISCONSIN.

justices of the peace, also probate powers and jurisdiction. The State is divided into six judicial circuits, the voters of each of which elect a judge for six years. The circuit courts have general original jurisdiction in actions civil and criminal at law and equity within their circuits. The supreme court is composed of the judges of the circuits, one of whom is elected by the other judges Chief Justice. Except the power to issue writs of *mandamus, quo warranto*, and the like, this court has appellate jurisdiction only, and is the court of last resort. There can be no trial by jury in this court. Tribunals of conciliation may be established, and in every organized county the Legislature may appoint one or more persons with powers not exceeding those of a circuit judge at chambers. Sheriffs, coroners, registrars of deeds, and district attorneys are chosen by the people for two years.

Among the miscellaneous provisions of the constitution are the following: no lottery or divorce can be granted by the Legislature; laws shall be passed providing a way for suing the State; the credit of the State shall never be lent, nor shall any debt be contracted nor money paid for internal improvements, unless the State hold trust property dedicated to such uses; except in cases of war, invasion, or insurrection, no debt exceeding \$100,000 shall be contracted; a university without "sectarian instruction" shall be established; the Legislature shall prevent towns and cities from contracting debts; no general or special law to create a bank or banks shall be passed till a majority of the votes at a general election shall have been in favor of a bank, and until such a majority have afterward approved the act as passed; any person implicated in a duel loses the right of suffrage and of holding office; no public defaulter shall hold office; in criminal prosecutions for libel the jury are judges of law and fact; all lands are allodial, and leases of agricultural lands, with rent or service reserved for more than fifteen years, are void; resident aliens have all the property rights of citizens; imprisonment for debt on contract is prohibited; no religious opinions shall disqualify a witness, etc.

Amendments to the constitution, agreed to by a majority of members of both houses, shall be published for three months before the next election, and referred to the Legislature then chosen; and if again approved by such majority, shall be submitted to the people. A convention may be called in like manner.

Federal Representation.—Wisconsin, in accordance with the apportionment act of the 23rd May, 1850, has three representatives in the United States Congress.

The militia force of the State as reported to the Adjutant-General of the United States army consists of 32,203 men of all arms, of which 1,504 are commissioned officers, and 30,399 non-commissioned officers, musicians, artificers, and privates. Of the commissioned officers, 9 are general officers, 31 general staff officers, 212 field officers, etc., and 1,552 company officers.

The principal benevolent institution of the State is the Asylum for the Education of the Blind at Janesville, a tax of one-fiftieth of a mill on every dollar of taxable property in the State is levied for its aid. It was opened 1st August, 1850, and on the 15th December, 1851, had 8 pupils—6 boys and 2 girls. Annual cost of support, \$1,830.

Finances, Debt, etc.—The total receipts for the year ending 31st December, 1850, amounted to \$93,859 58, and the expenditures to \$92,746 20. The total receipts since the organization of the State government had been to date, \$160,218 53, and the total expenditures, \$152,969 61—excess of receipts, \$7,248 92. The chief sources of revenue are taxes and the sales of lands. The principal expenditures are those—for salaries of executive and judicial officers, 13,592 33; legislative expenses, \$14,309 58; printing, \$8,793 44; State convicts (there being no prison), \$3,093 52; miscellaneous (including revision of statutes in 1849), \$16,356 59. There is a territorial debt of \$12,592 75, which would be due in June, 1851.

Statistics of Education.—The superintendent of public instruction reported the capital of the school fund as amounting on the 1st June, 1851, to \$538,094 41, which at 7 per cent. interest yielded an annual revenue of \$37,666 61. This had been derived from sales of school-lands in 1849 and 1850, from the 5 per cents., and from fines. It is expected that \$5,301,943 44 will be eventually realized from the sales of the school-lands. The sum of \$47,416 77 was, Jan. 1st, 1851, in the treasury, to be apportioned among the several towns, which would give about 50 cents for each child attending school. For the year ending August 1st, 1850, out of 2,105 districts, 1,700, and out of 764 part districts, 650 had reported schools. In the districts reported, each school had been taught on an average 4.96 months, and all received \$65 604 26 of public money. Out of 92,047 children between the ages of 4 and 20, 61,597 attended schools, and 1,020 under 4, and 685 over 20, also attended. Average wages to teachers—male \$17 14, and female \$9 02. There were at the date indicated 83 school-houses of brick, 51 of stone, 568 of logs, and 540 framed, and all valued at \$173,246 67. The highest valuation of any school-house was \$5,000, and the lowest, 5 cents. There were also in the State 57 private or select schools, with an average of 75 pupils. The State University is located at Madison; it was founded in 1848, and is well endowed. The Beloit College was founded in 1846, and in 1850 had 6 professors, and 25 students; and its library contained about 2,000 volumes. These institutions promise to be of essential utility when their organization is perfected.

Public Libraries.—One State library—4,000 volumes; 1 social—1,000 volumes; 33 public school—2,163; total, 85 libraries and 7,163 volumes.—*Report of Libr. of Smithsonian Institution, 1851.*

Periodical Press.—The whole number of periodicals published in Wisconsin in 1850 was 49, of which 11 were conducted on whig principles, 29 on democratic principles, and 9 were neutral in politics, including literary, religious, and all issues, the character of which had not been ascertained. Of the whole number, 6 were daily newspapers, 5 tri-weeklies, 36 weeklies, and 1 monthly. The circulation of the dailies amounted to 3,365 copies at each issue, the tri-weeklies to 1,525 copies, the weeklies to 25,624 copies, and the monthly to 1,500 copies. There was published in Brown county, in Columbus and in Crawford county, each 1 w.; in Dane, 3 w.; in Fond du Lac, 2 w.; in Greene and Grant, each 1 w.; in Jefferson, 2 w.; in Kenosha, 2 w.; in Milwaukee, 6 d., 5 t.-w., 6 w.; in Racine, 4 w. and 1 m.; in Rock, 3 w.; in Sauk, 1 w.; in Sheboygan, 3 w.; in St. Croix and Washington, each 1 w.; in Winnebago, 2 w.; and in Walworth and Waukesha, each 1 weekly.

Religious Denominations.—The statistics of the several religious denominations in the State in 1850 were as follows:

Denominations.	No. of Churches.	Church accom.	Value of Property.	Denominations.	No. of Churches.	Church accom.	Value of Property.	Denominations.	No. of Churches.	Church accom.	Value of Property.
Baptist.....	28	9,505	\$52,500	German Ref.	—	—	—	R. Catholic....	57	23,717	\$66,055
Christian....	2	700	1,200	Jewish.....	—	—	—	Swedenbo'n....	—	—	—
Congregat'l... 33	10,585	61,260	—	Lutheran....	18	5,000	13,650	Tunker.....	—	—	—

—making a total of 244 churches, having accommodation for 78,450 persons, and valued at \$350,600. Wisconsin forms a missionary diocese of the Protestant Episcopal Church, and comprises the Roman Catholic diocese of Milwaukee.

Pauperism and Crime.—The whole number of paupers who received support within the year ending 1st June, 1850, was 666, of which number 169 were native, and 497 foreign born; and the whole number of paupers at the date specified was 833, of which 72 were natives, and 166 foreigners. Cost of support within the year, \$14,743. A State prison has just been erected at Waupun, in Fond du Lac County.

Historical Sketch.—Wisconsin was first visited by French missionaries in 1660, in October of which year Mesnard reached Che-go-me-gon, on Lake Superior. In 1672, Aloues and Dablon visited Green Bay, and the country between the Fox River and the south end of Lake Michigan. In the year following, on the 13th of May, Marquette, a Jesuit missionary, and Joliet, an agent of the government of France, with five other Frenchmen, embarked from their mission, near Mackinac, and arrived at Green Bay, where they found an Indian village and procured guides to accompany them up Fox River to the Portage with the Wisconsin. They descended this river to its mouth, where they arrived on the 17th of June, 1673, and made the first discovery of the Upper Mississippi River. The Territory remained under the government of the French, who claimed it, until 1763, when, at the treaty of Paris, it was ceded to Great Britain, who retained it until the Independence of the United States was acknowledged by that country in 1783, when it was claimed by Virginia, as a part of the Illinois country conquered by Col. George Rogers Clark. It, however, remained in the possession of Great Britain until 1796, when it was surrendered in accordance with Jay's treaty, ratified the previous year. On the first day of March, 1784, it was ceded by Virginia to the United States. By the celebrated ordinance passed the 13th of July, 1787, a government was provided for the Territory north-west of the Ohio River, which territory was divided into two separate governments, the western called Indiana, by an act passed May 7th, 1800. An act dividing the Indiana Territory and organizing Illinois, was passed and approved February 3d, 1809. By the act of Congress to enable the people of Illinois to form a State government, approved April 18th, 1818, all that portion of said territory north of the parallel of latitude 42° 30' west of the middle of Lake Michigan, was attached to the Territory of Michigan, which had been set off from Indiana in 1805.

In 1835, Michigan having assumed a State government, John S. Horner, Secretary and Acting Governor, convened a session of the Legislature, at Green Bay, from the remainder of said Territory. No business was transacted, except the passage of several memorials to Congress, among which was one asking for the organization of the Territory of Wisconsin, with the seat of government at Cassville, on the Mississippi.

An act establishing the Territorial government of Wisconsin, was passed and approved April 20th, 1836, and the Territory fully organized July 4th, 1836.

On the 12th of June, 1838, an act was passed dividing the Territory of Wisconsin, and establishing that portion on the west side of the Mississippi (which had been attached to Michigan in 1834) into a separate government, under the name of Iowa.

In 1836, Governor Dodge, by proclamation dated Sept. 9th, convened the Legislature at Belmont, now in Lafayette County, on the 25th day of October in that year. The second session was held at Burlington, now in the State of Iowa, November 6th, 1837, at which session the seat of government was located at Madison, where the first session of the 2d Legislative Assembly of Wisconsin was held November 26th, 1838.

A Convention was held at Madison, October 5th, 1846, for the purpose of drafting a State constitution, which was adopted in convention, December 16th, 1846, but rejected by the people at the election held on the first Tuesday in April, 1847. A second convention was held December 16th, 1847, and a constitution agreed to February 1st, 1848, which was approved by the electors at the election held April, 1848, and Wisconsin was admitted into the Union, on an equal footing with the other States, on the 29th day of May, 1848.

MADISON, on the isthmus between Third and Fourth Lakes, is the political capital.

WISCONSIN RIVER, Wis.: rises in Vieux Desert lake, on the N. E. boundary of the State, and flows S. in general course for 250 m. until it reaches Portage, where it turns, and flows S. W. and W. S. W. 114 m. to its confluence with Mississippi r., near Prairie du Chien. Above Portage it has numerous rapids, which afford great water-power, used at many places by saw-mills. At Portage it is 1,200 feet wide, and gradually increases in width to its mouth, where it is 1,800 feet wide. Its current is usually quite rapid, but is shallow, and there are numerous islands and shifting sand-bars, rendering navigation somewhat difficult. Steamboats of light draft can usually ascend to Portage. In Richmond county, where it is 1,300 feet wide, it is bordered by high sandstone bluffs, from 150 to 200 feet high, presenting grand and beautiful scenery. Proposed improvements of this river will render it a very important channel of trade and travel between the lakes and Western rivers.

WISCOX, p. o., Alleghany co., N. Y.: 220 m. W. by S. Albany.

WISEMAN'S, p. o., Boone county, Mo.: 15 m. N. N. W. Jefferson City.

WITAKANTA RIVER, Minn. Ter.: a large tributary of Minnesota r., flowing S. by E. from Washley lake.

WITCHIE'S CROSS ROADS, p. o., Smith co., Tenn.: 46 m. E. Nashville.

WITAMSVILLE, p. o., Clermont co., Ohio: 3 m. N. W. Ohio r., 87 m. S. W. Columbus. Pop. about 320.

WITTENBERG'S, p. o., Alexander co., N. Car.: 156 m. W. Raleigh.

WITTEN'S, p. o., Monroe co., Ohio: on W. bank of Ohio r., 105 m. E. by S. Columbus.

WITTSBURG, p. v., St. Francis co., Ark.: on W. side of St. Francis r., 91 m. E. N. E. Little Rock.

WOBURN, t. p. v., and sta., Middlesex co., Mass.: 10 m. N. N. W. Boston. Surface of t. pleasantly diversified, containing several ponds; drained by Mystic r. The v. near the centre contains 3 churches and an excellent academy. The Woburn Branch R. R. extends hence 2 m. to junction at Winchester with the Boston and Lowell R. R. Pop. of t. 3,954.

WOLCOTT, t. and p. v., New Haven co., Conn.: 19 m. S. W. Hartford. Drained by Mad r. Pop. 603.

WOLCOTT, t. and p. v., Wayne co., N. Y.: 163 m. W. by N. Albany. Drained by small streams flowing into Lake Ontario, which bounds it on the W. The v. contains 3 churches, several stores, etc. The "W. Banner" (neut.) is here published. Pop. of v. about 650; of t. 2,751.

WOLCOTT, t. and p. v., Lamoille co., Verm.: 20 m. N. by E. Montpelier. Drained by Lamoille r. and its branches, which afford water-power to several mills. Pop. of t. 909.

WOLCOTT'S MILLS, p. o., La Grange county, Ind.: 125 m. N. by E. Indianapolis.

* This sketch of the history of Wisconsin is taken from "Hunt's Gazetteer" of that State, advance sheets of which were kindly furnished to the Editor of the S. G. of U. S. It is a work of great value, and reflects high credit on the industry and ability of the learned author.

ated at the confluence of the head branches of Naugatuck r., 23 m. W. Hartford, 37 m. N. N. W. New Haven. The Naugatuck R. R. passes through, 52 m. from Bridgeport, 10 m. from Winsted. Good water-power is here furnished, and improved by various manufactories. In the vicinity is a good bed of copper ore.

WOLF, p. o., Knox co., Ohio: 41 m. N. E. Columbus.

WOLF BAYOU, p. o., Independence co., Ark.: on small stream of same name, 67 m. N. N. E. Little Rock.

WOLFBORO', t. and p. v., Carroll county, N. Hamp.: 29 m. N. E. by N. Concord. This t. is noted for its fine scenery, and the beautiful views here presented of Lake Winnipisogee, which bounds it on the W. It contains numerous saw-mills, several tanneries, and other manufacturing establishments. Pop. of t. 2,038.

WOLF CREEK, p. o., Lenawee co., Mich.: on cr. of same name, 54 m. S. S. E. Lansing.

WOLF CREEK, t. and p. o., Mercer co., Penn.: 184 m. W. N. W. Harrisburg. Drained by Wolf cr., and contains mills of various kinds. Pop. about 2,000.

WOLF CREEK, p. o., Pickens dist., S. Car.: 112 m. N. W. by W. Columbia.

WOLF LAKE, p. o., Noble county, Ind.: 110 m. N. by E. Indianapolis.

WOLF RIVER, p. o., Fayette co., Tenn.: 158 m. W. S. W. Nashville.

WOLF RUN, p. o., Lycoming co., Penn.: 72 m. N. by W. Harrisburg.

WOLFVILLE, p. v., Frederick county, Md.: 61 m. N. W. Annapolis.

WOLFSVILLE, p. v., Union co., N. Car.: 99 m. W. S. W. Raleigh.

WOMELSDORF, p. b., Berks county, Penn.: on S. side of Tulpehocken cr., 36 m. E. by N. Harrisburg. Its inhabitants are chiefly of German origin. It contains several mills, stores, etc., and is surrounded by a fertile and well-cultivated district. Pop. about 950.

WONASQUATUCKET river, Providence co., R. I.: an important mill-stream, rising in Smithfield, and flowing S. E. into Providence Cove.

Wood county, Ohio. Situate N. toward the W., and contains 612 sq. m. Drained by Portage r. and its branches, and branches of Maumee r. Surface varied, and descends gradually toward Lake Erie in the N., with which connection is had by means of Maumee r. and bay; soil a deep loam, with sand intermixed, and very fertile. Staples, wheat and Indian corn. Live-stock and grain are exported. A large portion of the "Black Swamp" is within the limits of the co., which, if drained, might be rendered productive. Farms 704; manuf. 21; dwell. 1542, and pop.—wh. 9,139, fr. col. 18—total 9,157. Capital: Perrysburg. Public Works: Toledo and Fort Wayne R. R.; Wabash and Erie Canal.

Wood county, Tex. Situate toward the N. E., and contains 1,046 sq. m. Drained by Sabine r. and its branches, Lake Fork, Big Sandy cr., and other small streams. Surface undulating and diversified; soil fertile, and is adapted to cotton, corn, and other agricultural productions. There is a considerable quantity of pine timber on the land, and some prairie. It contains some springs of excellent water, and has some few minerals. Capital: Quitman.

Wood county, Virg. Situate N. W., and contains 476 sq. m. Drained by Little Kanawha river and its branches. Surface hilly and broken; soil fertile, adapted to grain and grazing. Chief products, wheat and Indian corn, with tobacco, etc. Farms 640; manuf. 24; dwell. 1,554, and pop.—wh. 9,008, fr. col. 69, sl. 378—total 9,450. Capital: Parkersburg. Public Works: North Western R. R.

WOODBERRY, p. v., Butler co., Ky.: 110 m. S. W. by W. Frankfort.

WOODBERRY, p. v., Merriwether co., Ga.: on W. side of Flint r., 81 m. W. Milledgeville.

WOODBINE, p. v. and sta., Carroll co., Md.: on Baltimore

and Ohio R. R., 83 miles from Baltimore, 50 miles N. W. Annapolis.

WOODBINE, p. o., Whitely county, Ky.: 107 m. S. S. E. Frankfort.

WOODBOURNE, p. v., Sullivan co., N. Y.: on E. bank of Neversink r., 74 m. S. W. by S. Albany.

WOODBURNE, p. v., Knox county, Tenn.: 168 m. E. Nashville.

WOODBURGE, p. v., Cedar co., Ia.

WOODBURGE, t. and p. v., Middlesex co., N. Jer.: 33 m. N. E. Trenton. The t. contains several flourishing villages, with part of Rahway v. The New Jersey R. R. passes through it. Woodbridge v., 3 m. S. Rahway, contains a church, several stores, etc. Pop. of t. in 1840, 4,321; in 1850, 5,141.

WOODBURN, p. v., Burke county, Ga.: on Mill cr., 68 m. E. by N. Milledgeville.

WOODBURN, p. v., Macoupin county, Ill.: 54 m. S. S. W. Springfield.

WOODBURN, p. o., Warren county, Ky.: 120 m. S. W. Frankfort.

WOODBURY, t. and p. v., Litchfield county, Conn.: 81 m. W. S. W. Hartford. Drained by Pomperaug r. and branches, which unite near the v., and afford water-power to woollen factories, and other mills. The v. is neatly built, and contains 3 churches, several stores, etc. Pop. of t. 2,150.

WOODBURY, p. v., Cumberland county, Ill.: a branch of Embarrass r., 82 m. E. S. E. Springfield. The National road passes through it.

WOODBURY, p. v., Hamilton county, Ind.: 20 m. N. E. Indianapolis.

WOODBURY, sta., Baltimore co., Md.: on Baltimore and Susquehanna R. R., 3 m. N. Baltimore.

WOODBURY, p. v., Wright county, Mo.: on Osage fork of Gasconade r., 84 m. S. S. W. Jefferson City.

WOODBURY, p. v., and cap. Gloucester co., N. Jer.: 23 m. S. W. by S. Trenton. It contains a fine brick court-house, fire-proof county offices, stone jail, an academy, several stores, and 3 churches. The "Constitution" is issued weekly. Woodbury cr. flows on N. side of the v., and is boatable to this place. Pop. about 900.

WOODBURY, p. v., Wood county, Ohio: 94 m. N. N. W. Columbus.

WOODBURY, t. and p. v., Bedford co., Penn.: 75 m. W. Harrisburg. Drained by Yellow cr. and branches, which afford water-power to numerous flouring and saw mills. Iron ore is here found, and smelted by several furnaces. Pop. of t. about 4,000.

WOODBURY, p. v., and cap. Cannon county, Tenn.: 42 m. S. E. by E. Nashville. It has a good site, and is drained by a branch of Stone's cr. of Cumberland r. It contains the county buildings, several stores, etc. Pop. about 200.

WOODBURY, t. and p. v., Washington co., Verm.: 17 m. N. E. by N. Montpelier. Watered by numerous ponds, and branches of Lamolle and Union rivers. Pop. of t. 1,070.

WOODCOCK, t. and p. v., Crawford co., Penn.: 187 m. N. W. by W. Harrisburg. Drained by Woodcock creek. The t. contains a large number of mills and other manufacturing establishments. Pop. about 2,000.

WOODFORD county, Ill. Situate N. centrally, and contains 532 m. Mackinaw r., a tributary of Illinois r., drains the eastern portion, and other branches of same river the N. and W. Surface undulating; soil fertile. Staples, wheat and grain. The W. is bounded by the Illinois, which in this part opens into a broad basin. Farms 506; manuf. 14; dwell. 747, and pop.—wh. 4,416, fr. col. 0—total 4,416. Capital: Metamora. Public Works: Central Illinois R. R.

WOODFORD county, Ky. Situate N. E. centrally, and contains 141 sq. m. Drained by branches of Kentucky r., which bounds it on the W. Surface level; soil a fine deep vegetable loam and very productive. Staples, tobacco, wheat, and Indian corn. Farms 650; manuf. 98; dwell. 1,053,

and pop.—wh. 5,882, fr. col. 165, sl. 6,376—total 12,423. *Capital*: Versailles. *Public Works*: Lexington and Frankfort R. R.

WOODFORD, t. and p. v., Bennington co., *Verm.*: 103 m. E. S. W. Montpelier. Surface elevated and broken; soil sterile. Drained by ponds and small streams. Pop. 423.

WOODFORD'S STA., Cumberland county, *Me.*: on York and Cumberland R. R., 2 m. W. Portland.

WOOD GROVE, p. o., Morgan co., *Ohio*: 66 m. E. by S. Columbus.

WOODHULL, t. and p. v., Steuben county, *N. Y.*: 194 m. W. by S. Albany. Drained by Tuscarora cr. Surface uneven, and covered with heavy timber. Pop. in 1840, 827; in 1850, 1,769.

WOODHULL, t. and p. o., Shiawassee co., *Mich.*: 10 m. E. N. E. Lansing. Drained by branches of Looking Glass river. Pop. in 1840, 147; in 1850, 259.

WOODINGTON, p. o., Darke county, *Ohio*: 84 m. W. Columbus.

WOODLAND, t. and p. o., Barry county, *Mich.*: 28 m. W. Lansing. Drained by creeks of Grand r. Pop. 377.

WOODLAND, p. o., Barren county, *Ky.*: 93 m. S. W. by S. Frankfort.

WOODLAND, p. o., Clearfield co., *Penn.*: 95 m. W. N. W. Harrisburg.

WOODLAND, p. o., East Feliciana par., *La.*: 29 m. N. by E. Baton Rouge.

WOODLANDS, p. o., Marshall county, *Virg.*: on E. side of Ohio r., 232 m. N. W. Richmond.

WOODLAWN, p. v., Dallas county, *Ala.*: 40 m. W. N. W. Montgomery.

WOODLAWN, p. o., Murray county, *Ga.*: 153 m. N. W. Milledgeville.

WOODLAWN, p. o., Itawamba county, *Miss.*: 165 m. N. E. by N. Jackson.

WOODLAWN, p. o., Washita co., *Ark.*: 92 m. S. S. W. Little Rock.

WOODLAWN, p. v., Cecil co., *Md.*: 51 m. N. E. by N. Annapolis. The vicinity is highly cultivated, and furnishes cattle and wheat for market. Granite of the finest texture is extensively quarried. The Chesapeake fisheries are also prosecuted. Pop. 130.

WOODLAWN, p. o., Monroe co., *Mo.*: on S. fork of Salt r., 66 m. N. Jefferson City.

WOODLAWN, p. v., Appomattox co., *Virg.*: 81 m. W. by S. Richmond.

WOODLAWN, p. v., Lincoln co., *N. Car.*: on W. side of Catawba r., 126 m. W. S. W. Raleigh.

WOODLAWN, p. v., Edgefield dist., *S. Car.*: 62 m. W. S. W. Columbia.

WOODRIDGE'S STORE, p. o., Christian county, *Ky.*: 170 m. S. W. by W. Frankfort.

WOODRUFF'S, p. o., Spartanburg dist., *S. Car.*: 72 m. N. W. by W. Columbia.

WOOD'S, p. o., Perry county, *Tenn.*: 75 m. S. W. by W. Nashville.

WOODSBORO', p. v., Shelby co., *Ala.*: 62 m. N. N. W. Montgomery.

WOODSBORO', p. v., Montgomery co., *Ill.*: 45 m. S. by E. Springfield.

WOODSBORO', p. o., Frederick county, *Md.*: 52 m. N. W. Annapolis. Pop. about 100.

WOOD'S CORNEES, p. o., Hillsdale county, *Mich.*: 59 m. S. Lansing.

WOOD'S CROSS ROADS, p. o., Gloucester co., *Virg.*: 44 m. E. Richmond.

WOODSDALE, p. v., Person co., *N. Car.*: 50 m. N. N. W. Raleigh.

WOODSFIELD, p. v., and cap. Monroe county, *Ohio*: on S. side of Sunfish creek, 96 m. E. Columbus. It has an elevated and pleasant site, and contains good county buildings, with several stores. The "Spirit of Democracy" (dem.) is here published. Pop. 385.

WOOD'S HILL, p. v., Roane co., *Tenn.*: on N. side Tennessee r., 162 m. E. by S. Nashville.

WOOD'S HOLE, p. v., Barnstable co., *Mass.*: 62 m. S. S. E. Boston. It has a good harbor, admitting vessels of the largest class, and protected by islands on the S. and W. The v. is of considerable summer resort for sea air and bathing. Naushon House is a fine hotel.

WOOD SHOP, p. o., Dale county, *Ala.*: 40 m. S. E. by S. Montgomery.

WOOD'S MILLS, sta., Vigo co., *Ind.*: on Terre Haute and Richmond R. R., 8 m. E. from Terre Haute, 65 m. from Indianapolis.

WOODSONVILLE, p. v., Hart county, *Ky.*: on S. side of Green r., 80 m. S. W. Frankfort.

WOOD'S STATION, p. o., Walker co., *Ga.*: 172 m. N. W. Milledgeville.

WOODSTOCK, t. and p. v., Windham co., *Conn.*: 36 m. E. N. E. Hartford. The t. has a hilly surface. Drained by several streams, of which Muddy brook affords water-power. It contains 3 villages, each pleasant and flourishing, and having some manufactures. Woodstock v., in S. E. part of t., has an elevated site, and is neatly built. Pop. of t. in 1840, 3,053; in 1850, 4,636.

WOODSTOCK, p. v., Cherokee county, *Ga.*: on branch of Etowah r., 108 m. N. W. Milledgeville.

WOODSTOCK, p. v. and cap. M'Henry co., *Ill.*: 187 m. N. N. E. Springfield. It is situated in a pleasant grove, near a small brook, and contains the county buildings.

WOODSTOCK, t. and p. v., Oxford county, *Me.*: 87 m. W. Augusta. Drained by branch of Little Androscoggin r., and by several large ponds. Surface partly mountainous. The Atlantic and St. Lawrence R. R. passes through its S. W. part, having a station at Bryant's Pond, 62 m. from Portland. Pop. of t. 1,012.

WOODSTOCK, p. v. and sta., Howard county, *Md.*: on Baltimore and Ohio R. R., 25 m. from Baltimore, 29 m. N. W. by N. Annapolis.

WOODSTOCK, t. and p. v., Lenawee county, *Mich.*: 43 m. S. by E. Lansing. Watered by head branches of Raisin river, several ponds, and a large lake on its S. border. Interests mainly agricultural. It contains flouring mills, the annual product of which, as valued in 1850, is \$90,365. Pop. in 1840, 674; in 1850, 949.

WOODSTOCK, t. and p. o., Grafton co., *N. Hamp.*: 54 m. N. by W. Concord. Surface mountainous; drained by Pemigewasset r. Pop. 418.

WOODSTOCK, t. and p. v., Ulster county, *N. Y.*: 45 miles S. S. W. Albany. Surface mountainous; drained by Sagkill cr. The v. contains 2 churches. Pop. of t. 1,650.

WOODSTOCK, p. v., Champaign co., *Ohio*: 30 m. N. N. W. Columbus. Pop. 205.

WOODSTOCK, sta., Windsor county, *Verm.*: on Vermont Central R. R., 17 m. from Windsor, 60 m. from Montpelier.

WOODSTOCK, t. p. v., and cap. Windsor county, *Verm.*: 45 m. S. by E. Montpelier. Drained by Otta Queechee r. and its branches, which afford water-power. The v. in N. part of the t. is very pleasant, and contains a beautiful public green. The court-house is one of the best edifices of the kind in New England. It also contains 5 churches, 1 bank, cap. \$60,000, and the Vermont Medical College, founded in 1835, which in 1850 had 7 professors, 90 students, and 332 graduates. The "Mercury" (whig), and "The Age" (dem.) are issued weekly. Pop. of t. 3,041.

WOODSTOCK, p. v., and cap. Shenandoah county, *Virg.*: 106 miles N. W. by N. Richmond. It contains the county buildings, 4 churches, an academy. The "Tenth Legion" (dem.) is issued weekly. Pop. about 1,000.

WOODSTOCK MILLS, p. o., Nassau co., *Flor.*: on S. side of St. Mary's r., 142 m. E. by N. Tallahassee.

WOODSTOWN, p. v., Salem co., *N. Jer.*: on N. side of Salem cr., 43 m. S. W. by S. Trenton. It contains several stores, and 3 churches. Valuable beds of marl are in the vicinity. Pop. about 750.

WOODSVILLE, p. o., Mercer co., *N. Jer.*: 11 m. N. N. W. Trenton.

WOODVALE, p. o., Fayette co., *Penn.*: 146 m. W. by S. Harrisburg.

WOODVIEW, p. o., Morrow co., *Ohio*: 36 m. N. Columbus.

WOODVILLE, p. v., and one of the caps. Jackson county, *Ala.*: 58 m. N. Montgomery. The Memphis and Charleston R. E. will pass near it.

WOODVILLE, p. v., Litchfield county, *Conn.*: 32 m. W. Hartford.

WOODVILLE, p. v., Adams county, *Ill.*: 85 m. W. by N. Springfield.

WOODVILLE, p. v., Jackson co., *Ind.*: on branch of E. fork of White r., 62 m. S. Indianapolis.

WOODVILLE, p. o., Haywood co., *Tenn.*: 146 m. W. by S. Nashville.

WOODVILLE, p. v., Middlesex co., *Mass.*

WOODVILLE, p. v., and cap. Wilkinson co., *Miss.*: 105 m. S. W. by S. Jackson. It contains the county buildings, 3 churches, 2 academies, etc. The West Feliciana R. E. extends hence to Bayou Sara, on the Mississippi river, 26 m. The "W. Republican" (dem.), and "Wilkinson Whig" are issued weekly. Pop. about 900.

WOODVILLE, p. v., Macon co., *Mo.*: on S. fork of Salt r., 73 m. N. Jefferson City.

WOODVILLE, p. v., Jefferson county, *N. Y.*: on S. side of Sandy cr., 147 m. N. W. by W. Albany. It contains several mills and stores, with a church. Pop. about 200.

WOODVILLE, sta., Queens county, *N. Y.*: on Long Island R. E., 9 m. from New York.

WOODVILLE, p. v., and cap. Tyler co., *Tex.*: on W. side of Turkey cr., 200 m. E. by N. Austin City. It contains the county buildings.

WOODVILLE, p. v., Perquimans co., *N. Car.*: on W. side of Little r., 126 m. E. N. E. Raleigh.

WOODVILLE, t. and p. v., Sandusky co., *Ohio*: 104 m. N. by W. Columbus. Drained by Portage r., on which the v. is situated. Pop. of t. in 1840, 486; in 1850, 1,069.

WOODVILLE, p. v. and sta., Greene co., *Ga.*: on Athens Branch R. E., 43 m. N. by E. Milledgeville.

WOODVILLE, sta., Albemarle county, *Virg.*: on Virginia Central R. E., 7 m. from Charlottesville, 104 miles from Richmond.

WOODVILLE, p. v., Rappahannock county, *Virg.*: 84 m. N. N. W. Richmond.

WOODWARD, p. o., Centre county, *Penn.*: 66 m. N. W. Harrisburg.

WOODWARDSVILLE, p. v., Essex county, *N. Y.*: 85 m. N. Albany.

WOODWORTH'S, p. o., Granville co., *N. Car.*: 45 m. N. Raleigh.

WOODYARDS, p. o., Athens co., *Ohio*: 67 m. S. E. by E. Columbus.

WOOLWICH, t. and p. v., Lincoln county, *Me.*: 26 m. S. Augusta. Drained by small streams flowing into Kennebec river which bounds it on the W. It is somewhat engaged in the fisheries. Pop. of t. 1,420.

WOONSOCKET FALLS, p. v. and sta., Providence co., *R. I.*: on Blackstone r., 15 m. N. N. W. Providence. The r. here descends in a short distance 21 feet, falling over a precipice of rocks, and affording very great water-power. The factories are in number about 20, and chiefly engaged in making cotton goods. The v. also contains 6 churches, and 1 bank, cap. \$100,000. The Providence and Worcester R. E. passes through, 16 m. from Providence, 27 m. from Worcester. The New York and Boston Direct R. E. will also pass through this place. The "W. Patriot" (indep.) is issued weekly. Pop. about 3,000.

WOOSTER, t. p. v., sta., and cap. Wayne co., *Ohio*: 73 m. N. E. Columbus. Surface of t. very fertile. Drained by Killbuck cr. and branches. The v. is pleasantly situated, and contains the county buildings, and 6 churches. The Ohio and Pennsylvania R. E. passes through it, 134 m. from

Pittsburg. The "Wayne Co. Democrat" (dem.), and "Wooster Democrat" (whig), are here published. Pop. of v. in 1840, 1,913; in 1850, 2,797. Pop. of t. including v. in 1840, 3,120; in 1850, 4,030.

WOOSTER county, *Ma.* Situate S. E., and contains 616 sq. m. Pocomoke r. flows through the co. from N. to S., by which and its branches it is drained. Surface level or rolling; soil is in general of a sandy nature, in parts it is fertile. Staples, wheat and grain. Large numbers of cattle and hogs are fattened in the co. Timber is abundant. Sinepuxent bay bounds it on the E., and is inclosed by a number of islands with inlets to the inner waters. Farms 1,318; manuf. 29; dwell. 2,884, and pop.—wh. 12,401, fr. col. 3,014, sl. 3,444—total 18,859. *Capital*: Snowhill.

WOOSTER county, *Mass.* Situate in the central part of the State, and contains 1,450 sq. m. Drained by Blackstone, Quinnebaug, Ware, Miller's, Nashua, and Mill rivers. Surface undulating; soil fertile, being a rich black loam, and very productive. This co. has many important manufactures, and good water privileges. Chief products wheat, Indian corn, oats, potatoes, and tobacco. Farms 7,239; manuf. 1,161; dwell. 21,709, and pop.—wh. 130,152, fr. col. 637—total 130,739. *Capital*: Worcester. *Public Works*: Boston and Worcester R. E.; Providence and Worcester R. E.; Worcester and Fitchburg R. E.; Western R. E.; Nashua and Worcester R. E.; Fitchburg R. E.; Vermont and Massachusetts R. E.; Norwich and Worcester R. E.; Cheshire R. E., etc.

WOOSTER, p. city, and cap. Worcester co., *Mass.*: 45 m. by railroad, W. by S. Boston. Lat. (Ant. Hall) 42° 16' 17" N.; long. 71° 45' 13" W. It is pleasantly situated in a valley, surrounded by hills of gentle acclivity, its soil is generally fertile, and is drained by branches of Blackstone r. Its surface is somewhat diversified, affording a picturesque variety in its general appearance. Many of its streets are very handsome, of which the most important is Main Street, which is about 2 m. long, straight, broad, ornamented with beautiful shade trees, and contains the principal hotels, stores, banks, churches, public buildings, with several splendid private residences. In the S. part of the city is a spacious public green. Many of the principal buildings are fine structures. The hall of the American Antiquarian Society is a large and handsome edifice, erected in 1820, at cost of \$10,000, and contains 7,000 volumes. The State Lunatic Asylum is finely situated on an eminence E. of the city, and surrounded by extensive and beautiful grounds. It consists of a large central edifice, 4 stories high, with wings 3 stories high, and 134 feet long. This noble institution was founded in 1838, and usually contains from 450 to 500 inmates. The College of the Holy Cross (Roman Catholic) has a fine location on a rounded hill, 14 m. S. W. of the city, but its buildings were lately destroyed by fire. In 1850, it had 4 professors, 120 students, and 4,220 volumes in its library. Great attention is generally given to education in the public schools and private academies, which are of the best order. The newspaper press, in 1850, consisted of the "Massachusetts Spy" (f. soil), daily and weekly; "Daily Tribune" (nent.); 4 weeklies, "National Ægis" (whig), "Palladium" (dem.), "Mass. Cataract" (temp.), "Christian Citizen" (reform.); and 1 monthly, "N. E. Temperance Journal."

Worcester is one of the most important thoroughfares in New England. The railroads here centering are five in number: viz. Boston and Worcester R. E., 45 m. long; Western R. E., 57 m. to Springfield, 156 m. to Albany; Providence and Worcester R. E., 43 m.; Norwich and Worcester R. E., 66 m.; Worcester and Nashua R. E., 45 m.; and Fitchburg and Worcester R. E., 26 m., which uses between Worcester and Sterling Junction, 8 miles, the road of the Worcester and Nashua R. E. These very important avenues of intercommunication have effectually secured to Worcester the greatest facilities for inland trade, and have greatly developed and increased its manufactures

and general prosperity. Its manufactures embrace nearly all branches, and form an aggregate annual product of about \$2,500,000. There are five banks, with aggregate cap. of \$1,000,000, and 2 institutions for savings.

The aggregate wealth of Worcester is very great, showing an unusually large average amount per head. The general increase of the city in wealth during the last 20 years has also been very rapid, hardly surpassed in New England. The following table exhibits the valuation of property in various years, from 1800 to 1852, inclusive:

Years.	Val. of prop.	Years.	Val. of prop.	Years.	Val. of prop.
1800.....	\$296,542	1840....	\$4,283,950	1848....	\$8,721,100
1810.....	1,476,383	1845....	6,004,050	1849....	10,750,282
1820.....	2,015,750	1846....	7,116,700	1851....	11,925,055
1830.....	2,747,800	1847....	7,690,850	1852....	12,575,566

In 1849, the number of persons whose property amounted to \$20,000 and upward, was 91; and 99 persons were assessed for \$10,000 and upward, but below \$20,000.

The settlement of Worcester was commenced in 1675, but owing to the Indian border warfare, was not made permanent until 1718. In 1718, it contained "58 humble dwelling houses." In 1765, its citizens instructed their representatives to join in no measure countenancing the "Stamp Act," and soon again manifested their patriotic spirit by prompt action upon many matters of national concern. During the revolutionary struggle it sustained a most honorable part. Its career of prosperity during the last thirty years is the natural result of the intelligent enterprise of its citizens. They have ever been among the foremost in the State, in contributing to the construction of works of internal improvement, in building up home manufactures, and in the promotion of agriculture; and they are now receiving their just reward. The city was incorporated in 1848. Its government is vested in a mayor, 8 aldermen, and common council of 24 members (being composed of 3 members from each of the 8 wards). The appropriation of city expenses in 1851, was \$75,500; in 1852, \$85,700. The population at different periods has been as follows:

Year.	Pop.	Year.	Pop.	Year.	Pop.	Year.	Pop.
1765.....	1,478	1800....	2,411	1830....	4,173	1847....	15,643
1776.....	1,925	1810....	2,577	1840....	7,497	1850....	17,049
1790.....	2,095	1820....	2,962	1845....	11,556	1853....	20,271

WORCESTER, t. and p. v., Otsego county, *N. Y.*: 50 m. W. Albany. Surface of t. hilly. Drained by Charlotte r. and branches. The v. contains 2 churches, several stores and mills. Pop. of v. about 200; of t. 2,047.

WORCESTER, t. and p. o., Montgomery co., *Penn.*: 80 m. E. Harrisburg. Interests agricultural. Pop. about 1,400.

WORCESTER, t. and p. v., Washington co., *Verm.*: 7 m. N. Montpelier. Surface in part mountainous. Drained by N. branch of Onion r., which affords water-power, and on which the v. in its S. part is situate. Pop. of t. 702.

WORTH county, *Ia.* Situate N., and contains 492 sq. m. Drained by English r. and Lime creek. Surface level or slightly undulating; soil fertile and adapted to the culture of wheat and grain. The N. is diversified with large lakes. Set off since 1850.

WORTH, p. o., Mercer county, *Penn.*: 187 m. W. N. W. Harrisburg.

WORTH, p. o., De Kalb county, *Ala.*: 140 m. N. by E. Montgomery.

WORTH, p. o., Perry co., *Ohio*: 45 m. E. S. E. Columbus.

WORTH, t. and p. o., Tuscola county, *Mich.*: 77 m. N. E. Lansing. Pop. of t. 600.

WORTH, p. o., Cook co., *Ill.*: 163 m. N. E. Springfield.

WORTH, p. o., Marion co., *Ark.*: on S. side of White r., 93 m. N. by W. Little Rock.

WORTH, p. o., Dubois co., *Ind.*: on S. side of Patoka cr., 100 m. S. S. W. Indianapolis.

WORTHINGTON, p. v., Mecklenburg county, *Ky.*: 132 m. W. S. W. Frankfort.

WORTHINGTON, t. and p. v., Hampshire co., *Mass.*: 95 m.

W. Boston. Surface elevated and pleasantly diversified. Drained by Westfield r. and its branches. Interests, chiefly agricultural. Pop. of t. 1,184.

WORTHINGTON, p. v. and sta., Franklin co., *Ohio*: on E. side of Olontangy r., 9 m. N. by W. Columbus. It is regularly laid out, with streets crossing at right angles, and is very neatly built. It contains 3 churches and 2 flourishing seminaries. The Cleveland, Columbus, and Cincinnati R. R. passes through it, 126 m. from Cleveland, 129 m. from Cincinnati. Settled in 1801 by the Scioto Company from Granby, Connecticut. Pop. 501.

WORTHINGTON, p. o., Greene co., *Ind.*: on W. fork of White r., 60 m. S. W. Indianapolis.

WORTHINGTON, p. v., Armstrong county, *Penn.*: 145 m. W. N. W. Harrisburg. In the vicinity is a charcoal hot-blast furnace, with annual capacity of 1800 tons, employing 80 men; also 1 charcoal cold-blast furnace, with annual capacity of 1,100 tons, employing 40 men.

WORTHINGTON, p. o., Marion co., *Virg.*: 200 m. N. W. by W. Richmond.

WORTHVILLE, p. v., Carroll co., *Ky.*: 31 m. N. by W. Frankfort.

WORTHVILLE, p. v., Butts county, *Ga.*: 50 m. W. N. W. Milledgeville.

WORTHVILLE, p. v., Jefferson co., *N. Y.*: 132 m. N. W. by W. Albany.

WORTHVILLE, p. v., Johnson co., *Ind.*: 12 m. S. by E. Indianapolis.

WRENTHAM, t. and p. v., Norfolk county, *Mass.*: 23 m. S. W. by S. Boston. Surface pleasantly diversified. Drained by branches of Taunton, Charles, and Neponset rivers, which afford considerable water-power. The t. contains several pleasant villages. The Norfolk County R. R. crosses its N. W. part. Wrentham v., near the centre, is neatly built. Pop. of t. 3,037.

WRIGHT county, *Ia.* Situate toward the N., and contains 576 sq. m. Drained by Boone r. and head branch of Iowa r. Surface undulating; soil fertile, and adapted to grain. Set off since 1850.

WRIGHT county, *Mo.* Situate toward the S. W., and contains 913 sq. m. Gasconade r., and Osage fork of same, with their branches, drain the county. Surface uneven and varied; soil in general fertile, and adapted to the cultivation of wheat and grain, and is also favorable to the growth of tobacco. Timber is abundant. Farms 371; manuf. 0; dwell. 541, and pop.—wh. 3,305, fr. col. 0, sl. 82—total 3,337. *Capital*: Hartsville.

WRIGHT, p. o., Ottawa county, *Mich.*: 65 m. W. N. W. Lansing.

WRIGHT, p. o., La Salle co., *Ill.*: on Vermillion r., 104 m. N. N. E. Springfield.

WRIGHT, p. o., Greene county, *Ind.*: 66 m. S. W. by S. Indianapolis.

WRIGHT'S BLUFF, p. o., Sumter district, *S. Car.*: 50 m. E. by S. Columbia.

WRIGHTSBORO, p. v., Columbia co., *Ga.*: on a branch of Little r., 54 m. N. E. Milledgeville. It contains an academy and church. Pop. about 150.

WRIGHT'S CORNERS, p. o., Niagara co., *N. Y.*: 262 m. W. by N. Albany.

WRIGHTSTOWN, p. v., Burlington county, *N. Jer.*: on N. branch of Crosswick's cr., 15 m. S. S. E. Trenton.

WRIGHTSVILLE, p. b., York co., *Penn.*: on W. bank of Susquehanna r., 24 m. S. E. Harrisburg. It is connected with Columbia, on the opposite side of the river, by a bridge 5,690 feet long. The York and Wrightsville R. R. extends hence to York. Pop. about 750.

WRIGHTSVILLE, p. v., Roane co., *Tenn.*: on S. side of Tennessee r., 132 m. E. by S. Nashville.

WRIGHTSVILLE, p. v., Pontotoc county, *Miss.*: 146 m. N. E. by N. Jackson.

WRIGHTSVILLE, p. v., Clinton county, *N. Y.*: 140 m. N. Albany.

WUERTEMBERG, p. v., Lawrence county, *Penn.*: 174 m. W. by N. Harrisburg.

WURTSBORO, p. v., Sullivan co., *N. Y.*: 86 m. S. S. W. Albany. It contains 2 churches and several stores. In the vicinity is a valuable lead mine. The Delaware and Hudson Canal passes near this place.

WYAONDA, p. o., Scotland co., *Mo.*: 127 m. N. Jefferson City.

WYAKOMING lake and river, La Pointe co., *Wisc.*: the lake in S. central portion of the county is 8 m. long, of varying width. The river is its outlet, flows W., and is the principal head branch of St. Croix river.

WYALUSING, t. and p. o., Bradford co., *Penn.*: 103 m. N. N. E. Harrisburg. Drained by Wyalusing creek and branches.

WYALUSING, p. v., Grant county, *Wisc.*: 76 m. W. by S. Madison.

WYANDOTT county, *Mich.* Situate N. middle in the S. part of the State, and contains 576 sq. m. Drained by the Sheboygan and Skooawargumish rivers, which are received by large lakes in the N., and other considerable streams, the waters of all being discharged into the Mackinaw straits. Surface generally even; soil fertile. Set off since 1850.

WYANDOTT county, *Ohio*. Situate toward the N. W., and contains 351 sq. m. Sandusky r. passes centrally through it, by which and by Tyehochie r. and other branches it is drained. Surface somewhat elevated; soil a fine deep mold, and is in general fertile. Wheat, grain, and potatoes are the staples. Live-stock and grain are exported. Farms 925; manuf. 37; dwell. 1,964, and pop.—wh. 11,243, fr. col. 49—total 11,292. *Capital*: Upper Sandusky. *Public Works*: Mad River and Lake Erie R. R.; Finlay Branch R. R.; Ohio and Indiana R. R., etc.

WYANDOTT, p. v., Wyandott co., *Ohio*: 51 m. N. by W. Columbus.

WYANDOTTE, p. o., Tippecanoe co., *Ind.*: 55 m. N. W. Indianapolis.

WYANOKE, sta., Amelia co., *Virg.*: on Richmond and Danville R. R., 43 m. from Richmond.

WYATT, p. v., La Fayette co., *Miss.*: on N. side of Tallahatchie r., 156 m. N. by E. Jackson. Pop. about 250.

WYE river, *Md.*: flows between Talbot and Queen Ann counties, and enters Eastern bay of the Chesapeake by a broad estuary.

WYE MILLS, p. o., Talbot co., *Md.*: on S. bank of Wye r., 25 m. E. by S. Annapolis.

WYKERTOWN, p. v., Sussex co., *N. Jer.*: 65 m. N. Trenton.

WYLLIESBURG, p. o., Charlotte co., *Virg.*: 75 m. W. S. W. Richmond.

WYNANT, p. o., Shelby county, *Ohio*: 69 m. W. N. W. of Columbus.

WYNANTSKILL, p. v., Rensselaer co., *N. Y.*: on creek of same name, 7 m. E. N. E. Albany.

WYNCOOP'S CREEK, p. o., Chemung co., *N. Y.*: 160 m. W. by S. Albany.

WYNN, p. o., Franklin county, *Ind.*: 60 miles E. S. E. Indianapolis.

WYOCENA, t. and p. o., Columbia co., *Wisc.*: 30 m. N. by E. Madison. Soil fertile prairie land, with some growth of timber. Drained by Duck cr. and small streams. Population 506.

WYOMING county, *N. Y.* Situate W., and contains 550 sq. m. Drained by Allen, Cayuga, Tonawanda, Seneca, and other creeks. Surface undulating, and forming for the most part a series of elevated plains or terraces; soil fertile, and particularly so along the valley of the Genesee, which is a gravelly loam, moist, and adapted to grain, etc.; the S. portion is best suited for grazing. Chief productions, wheat, oats, and potatoes. It contains some minerals, and some fossil shells and vegetable substances. Agriculture is the leading pursuit. Good water-power is supplied by the falls of the Genesee. Farms 3,360; manuf. 299; dwell. 5,913, and pop.—wh. 81,935, fr. col. 46—total 81,981. *Cap-*

ital: Warsaw. *Public Works*: Buffalo and New York City R. R.; Genesee Valley R. R.; Genesee Valley Canal.

WYOMING county, *Penn.* Situate N. E., and contains 435 sq. m. Susquehanna river passes centrally through it, by which and its branches it is drained. Surface varied, being pleasantly diversified with low hills and fertile valleys; soil in parts very fertile. Staples, wheat, corn, and potatoes. It has good pasturage, on which numbers of cattle and hogs are fed. Anthracite coal is found. Farms 895; manuf. 59; dwell. 1,834, and pop.—wh. 10,650, fr. col. 5—total 10,655. *Capital*: Tunkhannock. *Public Works*: Lackawanna and Western R. R.; North Branch Canal, etc.

WYOMING county, *Virg.* Erected from Logan co. in 1850. Situate W., and contains 1,342 sq. m. Drained by head branches of Guyandotte r., branches of Tug fork of Sandy r. and Camp cr. Surface much broken and hilly, in parts mountainous; soil various, generally adapted to grazing. Chief products, wheat and Indian corn. Farms 183; manuf. 0; dwell. 218, and pop.—wh. 1,583, fr. col. 1, sl. 61—total 1,645. *Capital*: Wyoming.

WYOMING, p. v., Stark co., *Ill.*: on E. side Spoon r., 85 m. N. by W. Springfield.

WYOMING, sta., Middlesex county, *Mass.*: on Boston and Maine R. R., 6 m. from Boston.

WYOMING, p. v., Wyoming co., *N. Y.*: on W. bank of Allen's cr., 229 m. W. Albany. It contains three churches, an academy, several stores, etc. Pop. about 700.

WYOMING, p. v., Luzerne co., *Penn.*: on W. side of Susquehanna r., 85 m. N. E. by N. Harrisburg.

WYOMING, p. v., Dinwiddie county, *Virg.*: on N. side of Nottoway r., 43 m. S. S. W. Richmond.

WYOMING, t. and p. o., Iowa co., *Wisc.*: 32 m. W. Madison. Drained by Pipe cr. and other small streams which flow into Wisconsin r. Pop. 206.

WYSOX, t. and p. o., Bradford co., *Penn.*: 105 m. N. by E. Harrisburg. Surface hilly. Drained by Wysox and Rumpf creek. The t. contains several grist and saw mills. Pop. about 2,000.

WYTHE county, *Virg.* Situate toward the S. W., and contains 578 sq. m. Drained by New r. and its branches, and branches of Holston r. Surface level, somewhat elevated, forming a table land; soil fertile, making good pasture. Chief products, wheat, oats, and Indian corn. Farms 663; manuf. 22; dwell. 1,631, and pop.—wh. 9,618, fr. col. 221, sl. 2,155—total 12,024. *Capital*: Wytheville. *Public Works*: Virginia and Tennessee R. R.

WYTHE, p. o., Hancock county, *Ill.*: 90 m. W. N. W. of Springfield.

WYTHEVILLE, p. v., and cap. Wythe co., *Virg.*: 195 m. W. by S. Richmond. It contains the county buildings, one bank, several stores, etc. The "Republican and Constitutional" (dem.) is issued weekly. The Virginia and Tennessee R. R. passes through this place. Pop. about 600.

X.

XENIA, t., p. v., sta., and cap. Greene co., *Ohio*: 47 m. W. S. W. Columbus. The township is large, and contains some of the most fertile land in the State. Drained by Little Miami r. and branches, one of which, Shawnee creek, flows through the v., situate near the centre of the t. The v. is regularly laid out, with streets crossing each other at right angles, and is generally well built. It contains handsome county buildings of brick and stone, a bank, and 5 churches. The "Xenia Torch Light" (whig) is here published. The railroads here centering are Little Miami R. R., from Cincinnati 65 m.; Columbus and Xenia R. R., 55 m.; Dayton and Xenia R. R., 15 m.: each of which is but a portion of extended and very important routes. Pop. of v. in 1840, about 1,200; in 1850, about 2,200; pop. of t. including v., in 1840, 4,913; in 1850, 7,056.

XENIA, p. o., Clay county, *Ill.*: 93 miles S. E. by S. Springfield.

X. PRAIRIE, p. o., Noxubee co., *Miss.*: 122 m. N. E. by E. Jackson.

Y.

YADKIN river, *N. Car.*: rises in the Blue Ridge, flows E. and S. E. through the State, into South Carolina, when it takes the name of Great Pedee r., until it empties into Winyard bay, near Georgetown. In Montgomery county it passes through the "Narrows," where it is contracted in width from 600 to 100 feet. It is navigable for boats and small vessels throughout the greater part of its course.

YAKIMA river, *Oreg. Ter.*: rises in the Cascade Range, flows S. S. E. and E., and empties into Columbia river, near the confluence of Lewis river.

YALE, p. o., Jasper co., *Ill.*: 85 m. S. E. Springfield.

YALLABUSHA county, *Miss.* Situate toward the N., and contains 597 sq. m. Yallabusha r. passes through the S. portion from E. to W., by which and its branches it is drained. Surface undulating and somewhat elevated; soil a deep rich mold, very fertile, and produces fine crops of grain and potatoes, it is also favorable to the growth of cotton, which is produced abundantly, and is one of the staples. Farms 572; manuf. 32; dwell. 1,491, and pop.—wh. 8,652, fr. col. 9, sl. 8,597—total 17,258. *Capital*: Coffeetown. *Public Works*: Mississippi Central R. R.

YAM HILL county, *Oreg. Ter.* Divided from Clatsop and Washington counties by a line on the parallel of Cape Lookout to the Willamette river, and from Polk and Marion counties by a line on the parallel of the mouth of Yaquina river, a small stream of the Pacific Ocean which lies on the W. The E. line is the Willamette and Drift cr., one of its affluents from the S. Drained chiefly by Yam Hill and Chehalis rivers, tributaries of the Willamette from the W. The county has immense water-power and fine agricultural resources. Farms 142; manuf. 4; dwell. 243, and pop.—wh. 1,511, fr. col. 1—total 1,512. *Capital*: Lafayette.

YAMPA river, *Utah Ter.*: rises on W. side of the Rocky mts., and flows W. to its confluences with Green river.

YANABY, p. o., Oktibbeha county, *Miss.*: 112 m. N. E. Jackson.

YANCEY county, *N. Car.* Situate W., and contains 657 sq. m. Drained by Nolichucky r. and its branches. Surface elevated and mountainous; soil in parts fertile, and adapted to the cultivation of grain and other agricultural productions. It contains a copperas mine. Black mt., elevated 6,476 feet above the ocean level, is within the limits of this county. Farms 970; manuf. 10; dwell. 1,322, and pop.—wh. 7,809, fr. col. 50, sl. 346—total 8,205. *Capital*: Burnsville.

YANCEY'S MILLS, p. o., Albemarle county, *Virg.*: 75 m. W. N. W. Richmond.

YANCEYVILLE, p. v., and cap. Caswell co., *N. Car.*: 60 m. N. W. Raleigh. It contains the county buildings. Pop. about 300.

YANHANNA, p. o., Georgetown district, *S. Car.*: 100 m. E. S. E. Columbia.

YANKEE HILL, p. o., Menard co., *Ill.*: 16 m. N. W. Springfield.

YANKEE SETTLEMENT, p. o., Delaware co., *Ia.*: 60 m. N. Iowa City.

YANKEE SPRINGS, t. and p. o., Barry co., *Mich.*: 44 m. W. by S. Lansing. Drained by branches of Thornapple r. Pop. in 1840, 130; in 1850, 292.

YANKEETOWN, p. o., Darke co., *Ohio*: 84 m. W. Columbus.

YANTIC, p. v. and sta., New London co., *Conn.*: on Yantic river, and New London, Williamantic, and Palmer R. R., 16 m. from New London, 50 m. from Palmer, 31 m. E. S. E. Hartford. It has several factories.

YANTIC river, New London co., *Conn.*: is formed in Lebanon t. by 3 branches, flows E. and S. E., and below Norwich empties into Thames r. One mile above its mouth it has a beautiful fall of 11 feet over a rocky precipice, affording great water power, improved by numerous manufactories.

YAPHANK, p. o. and sta., Suffolk co., *N. Y.*: on Long Island R. R., 60 m. from New York, 158 m. S. S. E. Albany

YARDLEYVILLE, p. v., Bucks co., *Penn.*: on W. bank of Delaware river, 102 m. E. Harrisburg. It contains several stores and mills. A ferry here crosses the Delaware. Pop. about 150.

YARDVILLE, p. o., Mercer co., *N. Jer.*: 6 m. E. Trenton.

YARMOUTH, t., p. v., and sta., Cumberland co., *Me.*: 41 m. S. S. W. Augusta. Drained by a small stream which affords water-power. The Kennebec and Portland R. R., and Atlantic and St. Lawrence R. R., pass through the t., and connect 1 m. from the v., 12 m. from Portland, 47 m. from Augusta. Pop. of t. 2,144.

YARMOUTH, t. and p. v., Barnstable county, *Mass.*: 63 m. S. E. Boston. The t. extends across Cape Cod, and has a sandy and sterile soil. It contains 4 thriving villages, each engaged in the fisheries and coasting trade. The manufacture of salt is carried on extensively. Pop. of t. 2,595.

YARMOUTH PORT, p. v., Barnstable co., *Mass.*: on inlet of Cape Cod bay, 61 miles S. E. Boston. It contains 2 churches, several stores, and 1 bank, cap. \$300,000. The "Yarmouth Register" (whig) is issued weekly.

YATES county, *N. Y.* Situate W. centrally, and contains 320 sq. m. Drained by Flint creek, West r., Crooked lake outlet, and Big and Rock streams, the two latter flowing into Seneca lake; much good water-power is supplied in their courses. Surface diversified by hills and valleys, much of it being greatly elevated; soil very fertile; in S. portions a warm, clayey mold prevailing, and productive in grain and fruits. It contains some good meadow land. Chief productions, wheat, Indian corn, and potatoes. Here are some minerals, and a valuable sulphur spring. A brine spring, lately found near Dundee, has proved productive, and yields a considerable revenue. Farms 1,673; manuf. 165; dwell. 3,784, and pop.—wh. 20,442, fr. col. 148—total 20,590. *Capital*: Penn Yan. *Public Works*: Canandaigua and Elmira R. R.

YATES, t. and p. v., Orleans co., *N. Y.*: 182 m. W. by N. Albany. Drained by Johnson's creek, flowing into Lake Ontario, which bounds it on the N. The v. on Johnson's cr. contains several mills and stores. Pop. of t. 2,242.

YATESVILLE, p. o., Yates co., *N. Y.*: 232 m. W. Albany.

YATESVILLE, p. o., Lunenburg co., *Virg.*: 61 m. S. W. Richmond.

YATTON, p. v., Washington co., *Ia.*: 14 m. S. Iowa City.

YAZOO county, *Miss.* Situate W. centrally, and contains 731 sq. m. Drained by tributaries of Big Black and Yazoo rivers. Surface undulating; soil fertile, and well adapted to grain. Chief productions, cotton and Indian corn. Farms 464; manuf. 17; dwell. 935, and pop.—wh. 4,069, fr. col.—sl. 10,349—total 14,418. *Capital*: Benton. *Public Works*: Mississippi Central R. R.

YAZOO river, *Miss.*: is formed at W. boundary of Carroll co., by the confluence of Talahatchee and Yallabusha rivers, and flows S. S. W. in very meandering course, about 160 m. to its entrance into the Mississippi river, near Vicksburg. This is an excellent stream, affording easy navigation for steamboats, of which a considerable number are constantly employed in the transportation of cotton.

YAZOO CITY, p. city, and cap. Yazoo co., *Miss.*: on E. side of Yazoo r., 40 m. N. by W. Jackson. It is situated on a low bluff, which, back of the city, rises to a very considerable elevation. The main street follows the river in bending course, but the rest of the city is laid out with general regularity. The county seat was removed to this place from Benton in 1852. The court-house is an elegant structure of brick. There are 5 churches, of which the Episcopal Society has a handsome edifice. The houses are chiefly built of wood, and are not characterized for their elegance. The trade of the city is almost exclusively in cotton, of which from 75,000 to 100,000 bales are shipped annually to New Orleans. There are 3 steam saw-mills, with no other manufacturing establishments. A plank-road extends hence

to Benton, 10 miles. Two newspapers, the "Yazoo Democrat" and "Yazoo City Whig," are issued weekly. Pop. about 2,000.

YELL county, Ark. Situate W. centrally, and contains 1,027 sq. m. Drained by Petite Jean, and other tributaries of Arkansas, which forms its N. E. boundary. Surface varied, in the S. E. being hilly, but in general it is level; soil fertile, and adapted to grain. Cotton and tobacco are produced in small quantities. Timber is found of a good quality, and there are some excellent coal beds. Farms 830; manuf. 20; dwell. 473, and pop.—wh. 2,902, fr. col. 15, sl. 424—total 3,841. *Capital*: Danville.

YELL county, Ia. Situate centrally, and contains 615 sq. m. Drained by Des Moines river and its branches. Surface diversified by gentle swelling lands; soil fertile, and favorable to the cultivation of grain. It has good timber and prairie land. Set off since 1850.

YELLOW lake, Jefferson county, N. Y.: 160 miles N. W. Albany. It is 4 m. long, $\frac{1}{2}$ m. wide, and abounds with excellent fish.

YELLOW river, Ind.: rises in N. W. part of Kosciusko co., flows W. S. W. and W., and empties into English lake. It is about 60 m. long, and in high water is navigable 80 or 40 miles. Its average width below Plymouth is 100 feet. Its course is not generally rapid, but it affords considerable water-power.

YELLOW BRANCH, p. o., Campbell co., Virg.: on branch of Taunton r., 91 m. W. by S. Richmond.

YELLOW BUD, p. o., Ross co., Ohio: 42 m. S. Columbus.

YELLOW BUSH, p. o., Chickasaw county, Miss.: 123 m. N. N. E. Jackson.

YELLOW CREEK, p. o., Knox co., Ky.: on stream of same name, 126 m. S. E. by S. Frankfort.

YELLOW CREEK, t. and p. v., Chariton co., Mo.: 89 m. N. W. by N. Jefferson City. Drained by Yellow creek.

YELLOW CREEK, p. o., Lumpkin co., Ga.: 120 m. N. N. W. Milledgeville.

YELLOW CREEK, p. v., Tishomingo co., Miss.: 206 m. N. E. by N. Jackson.

YELLOW CREEK, p. o., Stephenson co., Ill.: 169 m. N. Springfield.

YELLOW CREEK FURNACE, p. o., Montgomery co., Tenn.: 85 m. W. N. W. Nashville.

YELLOW HEAD GROVE, p. o., Will county, Ill.: 144 miles N. E. by E. Springfield.

YELLOW MOUNTAIN, p. o., Yancey co., N. Car.: 208 m. W. Raleigh.

YELLOW RIVER, p. v., Gwinnett co., Ga.: on Yellow r., 78 m. N. W. Milledgeville.

YELLOW RIVER, p. o., Marshall county, Ind.: 102 m. N. Indianapolis.

YELLOW SPRING, p. o., Johnson county, Ind.: 12 m. S. Indianapolis.

YELLOW SPRING, p. v., Des Moines co., Ia.: 43 m. S. S. E. Iowa City.

YELLOW SPRING, p. v., Hampshire county, Virg.: 145 m. N. W. by N. Richmond.

YELLOW SPRING, p. v., Blair co., Penn.: 72 m. W. by N. Harrisburg. In the vicinity is a hot-blast charcoal furnace, with annual capacity of 1,400 tons, employing 100 men; also 1 charcoal forge, which in 1849 made 400 tons of blooms, employing 80 men.

YELLOW SPRINGS, p. v. and sta., Greene co., Ohio: on the Little Miami R. R., 72 miles from Cincinnati, 47 miles W. by S. Columbus. It is pleasantly situated, and contains a sulphur spring, which is much resorted to in the summer.

YELLOW SPRINGS, p. o., Claiborne county, Tenn.: 190 m. E. by N. Nashville.

YELLOW STONE, p. o., Paulding co., Ga.: 132 m. N. W. by W. Milledgeville.

YELLOW STORE, p. o., Hawkins co., Tenn.: 212 m. E. of Nashville.

YELLOW WATER river, Ala. and Flor.: rises in Covington

co., Ala., flows S. S. W. and S. W., and empties into Yellow Water bay of Pensacola bay.

YELVILLE, p. v., and cap. Marion co., Ark.: on N. side of Crooked cr., a tributary of White r., 102 m. N. by W. Little Rock. It contains a court-house and jail. Pop. about 100.

YELVINGTON, p. v., Daviess co., Ky.: 132 m. W. by S. of Frankfort.

YEOCOMICO river, Virg.: a branch of Potomac r., separating Northumberland and Westmoreland counties.

YEOCOMICO, U. S. collection dist., Virg.: total tonnage on June 30, 1850, amounted to 3,254 tons, all of which was employed in the coasting-trade. During the year one vessel, a schooner of 57 tons, was built.

YNGUSKI, p. o., Kalamazoo co., Mich.: 64 m. S. W. by W. Lansing.

YOCONT, p. o., Itawamba co., Miss.: 136 m. N. E. by N. Jackson.

YOCUM STATION, p. o., Lee co., Virg.: 319 m. W. by S. Richmond.

YOCUMTOWN, p. v., York co., Penn.: 17 m. S. Harrisburg.

YOHOGANY, p. o., Westmoreland co., Penn.: 136 m. W. Harrisburg.

YOLO county, Calif. Occupies the tract between the Sacramento r. and Putah cr., and the Coast Range. The N. boundary is a line on the parallel of 39° 20' N. latitude, meeting the Sacramento about 3 m. below Colusa. Drained by Caché and other creeks of Clear lake, and several streams falling into the Sacramento and Putah. There are several lakes in the co.—Washington, 3 m. by $\frac{1}{2}$ m.; Clear, 6 m. by 2 m.; and Tule, $\frac{1}{2}$ m. by $\frac{1}{2}$ m. The principal settlements are Washington, Fremont, Caché Creek, Cottonwood, Merrit, and Putah. Pop. in 1852, 1,807; whites 1,274—males 1,055, and females 189—negroes 11, mulattoes 3, Indians 152—males 109, and females 43; foreign residents 56—males 33, and females 3. Over 21 years of age—citizens 1,916, negroes 10, mulattoes 3, Indians 90, and foreigners 51. It is one of the best agricultural counties in the State, and produces large quantities of truck for the city markets. Acres in cultivation, 3,846. Mining is but a subordinate occupation. *Capital*: Frémont.

YONCALA, p. v., Benton co., Oreg. Ter.: on S. bank of Elk r., 92 m. S. by W. Salem.

YONGESVILLE, p. v. and sta., Fairfield dist., S. Car.: on Charlotte and South Carolina Railroad, 32 miles N. by W. Columbia. Pop. about 100.

YONKERS, t. and p. v., Westchester co., N. Y.: 132 m. S. Albany. Drained by Bronx r. on the E., and by Saw-Mill or Nepperhan r., an affluent of the Hudson, which latter forms its W. border. Surface somewhat uneven and broken; soil clay and sandy loam, generally well cultivated. It is one of the pleasantest and most healthy towns on the Hudson, and of late years has been selected by great numbers of the merchants of New York city as a suitable residence for their families. The v., on Nepperhan r., has been rapidly built up with substantial and splendid dwellings, and has also several extensive manufacturing establishments and mechanic shops. A steam bedstead factory, one of the largest in the Union, and two very extensive hat factories, are found here; while on the river are two grist-mills and many shops which are operated by water-power. Yonkers has six churches—1 Roman Catholic, 1 Episcopal, 2 Baptist, and 2 Presbyterian. There are also in the v. two academies for females, and one for boys, and two public schools. The business of the place is extensive, it being a point of supply and deposit for a rich back country. It has an ample river front and several landings, which afford every facility to steamboats and river craft; and the Hudson River R. E., which passes through the t. on the immediate bank of the river, secures frequent communication with New York city, 14 or 15 passenger cars passing up and down during the day. Three steamboats ply daily on the Hudson between the two places. For the accommodation of visitors, there is a splendid hotel at the corner of Broadway and Mechanic

Street, fronting on both, and containing between 500 and 300 rooms. Attached to the hotel is a fine hall, used for exhibitions, theatricals, lectures, etc. There are other hotels and taverns in various parts. Broadway is the principal seat of retail trade, and not a few of the stores rival in assortment and elegance those of New York city. On the same avenue stands the market-house, which is well provided with substantials and luxuries in their seasons. The Croton Aqueduct passes through the v., and some of the streets are arched over for that purpose. Yonkers, indeed, has all the charms of a fine and varied country, and at the same time all the accommodations of a city; and society at this place has many ornaments, and is endowed with all the advantages of wealth, learning, and refinement. Pop. of t. in 1840, 2,968, and in 1850, 4,160. The village at the present time (1853) is supposed to have a population equal to that of the whole town in 1850.

YORK county, *Me.* Situate S. W., and contains 822 sq. m. Drained by Saco and Monsam rivers and their branches, and affluents of Piscataqua r., which runs on its S. W. border. Surface uneven and diversified, with numerous lakes, which add beauty to the scenery of the surrounding country; soil in the interior is fertile and productive, but bordering on the shore is rough and rocky, and unfit for cultivation. Staples, wheat, Indian corn, and potatoes. On the S. E., along the Atlantic shore, are excellent harbors, which afford good advantages for navigation and the fisheries; there are also several light-houses. Farms 5,004; manuf. 352; dwell. 10,564, and pop.—wh. 60,065, fr. col. 36—total 60,101. *Capital:* Alfred. *Public Works:* Portland, Saco, and Portsmouth R. R.; York and Cumberland R. R., etc.

YORK county, *Penn.* Situate S. toward the W., and contains 831 sq. m. Drained by Conewago, Codorus, and Yellow Breeches creeks, tributaries of Susquehanna r., which flows on its N. E. border. Surface uneven; soil in most parts is very fertile, and produces in abundance wheat, grain, and potatoes; fine crops of tobacco are also raised. It has good timber and excellent pasturage for cattle. Live-stock and grain are exported annually. Farms 3,734; manuf. 533; dwell. 9,927, and pop.—wh. 56,324, fr. col. 1,126—total 57,450. *Capital:* York. *Public Works:* York and Cumberland R. R.; Baltimore and Susquehanna R. R.; Hanover Branch R. R.; York and Gettysburg R. R.; Susquehanna and Tide-Water Canal.

YORK district, *S. Car.* Situate N., and contains 731 sq. m. Drained by King's, Bullock's, Turkey, and Buffalo creeks, principal branches of Broad and Catawba rivers. Surface an extended plain, inclining on both sides a little to the Catawba and Broad rivers; soil fertile. Chief productions, cotton and Indian corn. Farms 1,252; manuf. 30; dwell. 2,190, and pop.—wh. 11,300, fr. col. 126, sl. 8,007—total 19,433. *Capital:* Yorkville. *Public Works:* Charlotte and South Carolina R. R.; King's Mountain R. R., etc.

YORK county, *Virg.* Situate toward the S. E., occupying the middle portion of the peninsula between James and York rivers. It contains 132 sq. m. Drained by small streams which flow into York r. and James r. Surface even and diversified; soil fertile. Chief productions, wheat and Indian corn. Farms 161; manuf. 0; dwell. 442, and pop.—wh. 1,825, fr. col. 454, sl. 2,181—total 4,460. *Capital:* Yorktown.

YORK, p. v., Fayette county, *Ga.*: 80 miles W. N. W. of Milledgeville.

YORK, t. and p. o., Union co., *Ohio*: 42 m. N. W. by N. Columbus. Drained by Rush and Boques creeks of Sciota river. Pop. of t. in 1840, 439; in 1850, 831.

YORK, p. v., Walker co., *Ala.*: on E. side of Lost creek, 110 m. N. W. by N. Montgomery.

YORK, t. and p. v., Dane co., *Wis.*: 20 m. N. E. Madison. A projected railroad from Madison to Fond du Lac will pass through the v. Pop. of t. 615.

YORK, t. p. v., and port of entry, York co., *Me.*: 94 m. S. S. W. Augusta. The t. has a diversified surface and soil.

The v. on N. bank of York r. is regularly laid out, with streets crossing at right angles. Lat. 43° 10' N., long. 70° 40' W. It was formerly the capital of the county. Its harbor admits vessels of 250 tons. The tonnage of this district on June 30th, 1850, was 1,361 tons, all of the class "enrolled and licensed," which was employed chiefly in the coasting-trade, but partly in the cod and mackerel fisheries. During the year previous, 2 vessels, 1 brig and 1 schooner, were built—253 tons. Pop. of t. 2,930.

YORK, p. v., Gibson co., *Ind.*: 120 m. S. W. by S. Indianapolis. The Evansville and Illinois R. R. passes a little W. of this place.

YORK, p. v., Crawford co., *Ill.*: on W. side of Wabash river, 115 m. E. S. E. Springfield. It contains several stores and mills. Pop. about 500.

YORK, t. and p. o., Washtenaw co., *Mich.*: 61 m. S. E. Lansing. Drained by small creeks of Raisin river. Population 1,360.

YORK, t. and p. v., Livingston co., *N. Y.*: 220 m. W. Albany. Drained by branches of Genesee river, which forms its E. boundary, and along which the Genesee Valley Canal passes. Pop. of t. 2,755.

YORK, p. b., and cap. York co., *Penn.*: 21 m. S. S. E. Harrisburg. Lat. 39° 58' N., long. 76° 40' W. It is regularly laid out, with streets crossing each other at right angles. It contains several handsome county buildings, built of brick and stone, and 13 churches. There are two banks, with aggregate capital of \$320,000. It carries on extensive manufactures, and has considerable trade. The York and Cumberland R. R., from Harrisburg 25 m., here connects with the Baltimore and Susquehanna R. R. hence to Baltimore, 57 m.; and the York and Wrightsville R. R. extends to Wrightsville, on Susquehanna r., connecting with Philadelphia and Columbia R. R. Its newspaper press in 1850 consisted of "Penn. Republican" (whig), "People's Advocate" "Democratic Press," and the "York Gazette" (whig), printed both in the English and German languages; all issued weekly. Pop. about 6,000.

YORK river, York co., *Me.*: in S. part of York t., flowing E. into the Atlantic, which it enters by a broad mouth, affording for eight miles good harborage for vessels of 200 tons.

YORK river, *Virg.*: is formed at S. E. extremity of King William co., by the confluence of Pamunkey and Mattaponi rivers. It is about 30 m. long, and is navigable for large vessels. At Georgetown it is 1 m. wide, affording the best harbor in Virginia. Below Georgetown its width increases gradually until it enters Chesapeake bay, where it is 3 m. wide.

YORK CENTRE, p. o., Du Page co., *Ill.*: 160 m. N. E. by N. Springfield.

YORK HAVEN, p. v., York co., *Penn.*: on S. W. bank of Susquehanna r., 12 m. S. E. Harrisburg. Conewago cr. here enters the Susquehanna, and by its falls above affords good water-power. The York and Cumberland Railroad passes through the place.

YORK NORTH RIDGE, p. o., Sandusky co., *Ohio*: 94 m. N. Columbus.

YORKSHIRE, t. and p. v., Cattaraugus co., *N. Y.*: 250 m. W. Albany. Drained by Cattaraugus creek and branches. Surface of t. level; soil fertile. The v., situate on S. side of Cattaraugus cr., contains a church and several stores. Pop. of t. 2,010.

YORK SOUTH RIDGE, p. o., Sandusky co., *Ohio*: 92 m. N. Columbus.

YORK SULPHUR SPRINGS, p. v., Adams co., *Penn.*: 20 m. S. S. W. Harrisburg. These springs possess valuable medicinal properties, and are of much resort in summer from Philadelphia and Baltimore.

YORKTOWN, p. v. and sta., Delaware co., *Ind.*: on the Indianapolis and Bellefontaine R. R., 48 m. N. E. from Indianapolis. The West fork of White r. flows near the v. and receives Buck cr., each of which afford water-power, improved by large mills. Pop. about 300.

YORKTOWN, t. and p. o., West Chester co., *N. Y.*: 94 m.

S. Albany. Drained by Croton r. and branches, from which, by means of a dam, 250 feet long, and 40 feet high, is formed Croton Pond, which supplies New York city with water. Pop. of t. 2,278.

YORKTOWN, p. o., Bureau co., Ill.: 120 m. N. Springfield.
YORKTOWN, p. v., De Witt county, Tex.: 84 m. S. by E. Austin City.

YORKTOWN, p. v., port of entry, and cap. York co., Virg.: on S. side of York river, 55 miles E. S. E. Richmond. Lat. 37° 18' N.; long. 76° 34' W. It contains the county buildings and several stores. The tonnage of Yorktown district on June 30th, 1850, was 4,507 tons, all of which was employed in the coasting trade. Vessels built during the year preceding, 2, schooners—61 tons. Yorktown was incorporated in 1705. Among its buildings are some of the oldest in Virginia. It is ever memorable in American history, as the place where Lord Cornwallis surrendered to the American forces, October 19th, 1781, which glorious event was the means of terminating the Revolutionary War.

YORKVILLE, p. v., Pickens co., Ala.: 134 m. N. W. by W. Montgomery.

YORKVILLE, p. v., Dearborn county, Ind.: 70 m. S. E. Indianapolis.

YORKVILLE, p. v., Kalamazoo county, Mich.: 50 m. S. W. by W. Lansing.

YORKVILLE, p. v., and cap. York dist., S. Car.: on branch of Broad r., 63 m. N. by W. Columbia. It contains the county buildings, an academy, and 3 churches. The King's Mountain R. R. extends hence to Chester, 22 miles. The "Y. Miscellany" (democrat) is issued weekly. Population about 550.

YORKVILLE, p. v., Gibson county, Tenn.: on a branch of Obion r., 123 m. W. Nashville.

YORKVILLE, t. and p. v., Racine co., Wisc.: 75 m. E. S. E. Madison. Drained by Des Plaines r. Surface undulating; soil fertile. The v. is pleasantly situated and neatly built. Pop. of t. 993.

YORKVILLE, p. v., New York co., N. Y.: on the Harlem R. R., 5 m. N. N. E. City Hall, New York. This flourishing suburb, properly a part of the city, is on the 3d and 4th avenues, between 80th and 100th streets. In common with all other parts of New York island, the increase of the population, and the erection of new buildings are rapidly advancing. It contains several churches, and numerous manufactures. It is in the 12th ward of the city.

YOUGH GLADES, p. o., Allegheny co., Md.: on N. side of Deep cr., near its junction with Youghiogheny r., 151 m. W. by N. Annapolis.

YOUGHIOGHENY river, Md. and Penn.: is formed in the W. part of Allegheny co., Md., by the confluence of several creeks, flows N. and N. W., and empties into Monongahela river, 18 m. S. E. Pittsburg. It is navigable to the Ohio-pyle Falls, 30 m. from its mouth, where it has a perpendicular descent of 20 feet, which in high water presents a very interesting appearance.

YOUNG, p. o., McDonough county, Ill.: 86 miles N. W. Springfield.

YOUNG CANE, p. o., Union county, Ga.: 142 m. N. N. W. Milledgeville.

YOUNGER'S, p. o., Boone county, Mo.: 33 m. N. Jefferson City.

YOUNG HICKORY, p. o., Will county, Ill.: 143 m. N. E. Springfield.

YOUNG HICKORY, p. o., Muskingum co., Ohio: 54 m. E. Columbus.

YOUNG HICKORY, p. o., Washington county, Wisc.: 63 m. E. N. E. Madison.

YOUNG'S CROSS ROADS, p. o., Granville co., N. Car.: 53 m. N. Raleigh.

YOUNG'S POINT, p. o., Madison parish, La.: 125 m. N. Baton Rouge.

YOUNG'S SETTLEMENT, p. o., Bastrop county, Tex.: 29 m. E. S. E. Austin City.

YOUNG'S STORE, p. o., Laurens district, S. Car.: 72 m. N. W. by W. Columbia.

YOUNGSTOWN, p. v. and port of delivery, Niagara county, N. Y.: on E. side of Niagara r., near its entrance into Lake Ontario, 276 m. W. by N. Albany. It is a landing-place for passengers to and from the lakes, and communication is had with Newark v., Canada, by means of a ferry for some time established here. It is a place of much historical interest as connected with the late war with the British. In the vicinity is Fort Niagara, celebrated in the French war; and opposite, in Canada, is Fort George. Population about 550.

YOUNGSTOWN, t. and p. v., Mahoning co., Ohio: 183 m. N. E. by E. Columbus. Drained by Mahoning river and branches. Surface of t. nearly level; soil fertile. The v. is situate on the N. side of the r., on the Pennsylvania and Ohio Canal, and has considerable trade. Pop. of t. 3,002.

YOUNGSTOWN, p. b., Westmoreland co., Penn.: between head branches of Loyalhanna r., 127 m. W. Harrisburg. It is pleasantly situated, and contains several stores, mills, etc. Pop. about 600.

YOUNGVILLE, p. v., Tallapoosa co., Ala.: 43 m. N. N. E. Montgomery.

YOUNGVILLE, p. o., Sullivan co., N. Y.: 84 m. S. W. Albany.

YOUNGVILLE, p. v., Warren county, Penn.: on Broken Straw cr., about 3 m. from its mouth, 167 m. N. W. by W. Harrisburg. It lies in the midst of a fertile and highly cultivated country, and is on the line of the projected Sunbury and Erie R. R. The "Youngville Express" (independent) is issued weekly. Pop. about 400.

YOUNGVILLE, p. o., Adams county, Ohio: 85 m. S. by W. Columbus.

YOUNG WOMANSTOWN, p. v., Clinton co., Penn.: on N. side of W. branch of Susquehanna r., 85 m. N. W. by N. Harrisburg.

YOUNTSVILLE, p. v., Montgomery county, Ind.: 45 m. W. N. W. Indianapolis.

YPSILANTI, t., p. v., and sta., Washtenaw co., Mich.: 60 m. S. E. Lansing. The v. is pleasantly situated on both sides of Huron r., which here affords excellent water-power, improved by numerous mills and manufactories. In 1850, it contained 4 flouring-mills, the value of the annual product of which was \$165,000; and 2 saw-mills, with annual product of \$11,378. The v. also contains a State normal school, a branch of the State university, and 5 churches. The Michigan Central R. R. passes through, 30 m. from Detroit, 248 m. from Chicago. The "Y. Chronicle" (whig) and "Y. Sentinel" are issued weekly. Pop. of v. about 2,000; of t. 3,052.

YUAB or Juab county, Utah. Lies between Tooele and Millard counties, and extends from San Pete co. to the California line. It is chiefly a barren wilderness, crossed by mountain ranges, with some fertile spots near the water courses. There are several small lakes in the co. which receive the streams, but have no outlets. Nicollet r. and lake are the largest. Yuab was formerly a part of San Pete co. *Capital:* Nephi City.

YUBA, p. o., Hancock county, Ill.: 90 m. W. N. W. Springfield.

YUBA river, Calif.: is formed in Yuba co. by the confluence of three head forks, and flows W. S. W. to its entrance into Feather r. The gold diggings on Yuba r. and its branches have been among the most profitable in the State.

YUBA CITY, p. v., Sutter county, Calif.: on W. bank of Feather r., opposite mouth of Yuba r., 96 m. N. N. E. Vallejo.

YUBA county, Calif. In the country on Yuba river. Drained by Bear river, Dry creek, Yuba river, on which are the principal mining operations, Indiana creek, Clark's run, Deer creek, Middle Yuba, Cañon creek, Slate creek, etc., on all of which gold is found in abundance. Many of these

streams have been turned by canalling. The highest peak of the mountains—Oregon Hill, rises 2,800 feet high. Farm lands under cultivation in 1852, 7,008 acres. The county contains 18 saw-mills, producing annually 9,050,000 feet timber, and one flour-mill. Capital employed in quartz mining \$121,400, in placer mining \$710,900, in river mining \$1,657,150, and in merchandise and trade \$1,939,600. Whole capital, exclusive of real estate, \$4,570,500. Pop. in 1852, 22,005: viz., whites 17,299—males 16,666, and females 635; negroes 194—males 152, and females 12; mulattoes, 45 males; domesticated Indians 120; foreign residents 3,055—males 2,809, and females 246; Chinamen 2,100. Over 21 years of age—citizens 15,245, negroes 170, mulattoes 45, Indians 102, foreign residents 2,846. The principal towns and settlements are—Marysville, pop. 4,500; Ousley's Bar, pop. 390; Kennebec, pop. 120; Long's Bar, pop. 450; Park's Bar, etc. Nevada county has been taken from Yuba. *Capital*: Marysville. *Public Works*: Benecia and Marysville R. R. (projected).

Z.

ZABRISKI, p. v., De Witt co., *Ill.*: 47 m. N. E. Springfield. The Illinois Central R. R. will pass through it.

ZACHARY, p. o., Marshall county, *Ala.*: on N. W. side of Tennessee r., 146 m. N. Montgomery.

ZACKVILLE, p. v., Wirt co., *Virg.*: 232 m. W. N. W. of Richmond.

ZANESFIELD, p. v., Logan co., *Ohio*: 43 m. N. W. by W. Columbus. Laid out on October 11th, 1819. Population about 250.

ZANESVILLE, p. v., Montgomery county, *Ill.*: 32 m. S. of Springfield.

ZANESVILLE, p. v., and cap. Muskingum co., *Ohio*: on E. bank of Muskingum r., opposite the mouth of Licking r., 51 m. E. Columbus. This flourishing v. has experienced a rapid growth, and is one of the most thriving places in the State. The Muskingum r. in passing the t. has a natural descent of 9 feet in $1\frac{1}{2}$ miles, which, by means of a dam, is increased to 16 feet, thus affording efficient water-power. The manufactories improving this great privilege are of all kinds, and many of them are extensive. The number of factories using steam-power is also large, arising mainly from the abundance of bituminous coal supplied from the surrounding hills. The Muskingum has been made navigable for steamboats to Dresden, 15 miles above, where a navigable side-cut, $2\frac{1}{2}$ m. long, connects with the Ohio Canal, thus affording to Zanesville the advantages of direct connection with the great canals of the State. Steamboats ply regularly from this place to Pittsburg and Cincinnati. The lines of railroad passing through Zanesville are, Central Ohio R. R., now completed from Columbus to this village, 59 m., and in construction to Wheeling; Cincinnati, Wilmington, and Zanesville R. R., 125 m., in construction; and the Cleveland, Zanesville, and Cincinnati R. R., formerly Akron Branch R. R., which will be completed in 1854. The village contains very handsome county buildings, 3 banks, and 14 churches. The general interests of education are well provided for in excellent public schools and numerous private academies. Among the former are 2 high schools, one for males and one for females, which are of high repute,

and among the latter is an academy liberally established and endowed by the late John McIntire, the founder of Zanesville. The citizens have an enviable reputation for general intelligence, as well as for business enterprise. A popular Athenæum, having a library of 10,000 volumes, with reading-room, etc., and annual lectures, is well sustained. The newspapers here published in 1850 were, "Zanesville Courier" (whig), issuing daily, tri-weekly, and weekly editions, "Z. Gazette" (neut.), and "Z. Aurora" (dem.), each issued weekly; "Clarion of Freedom" (free soil), "Western Recorder" (Meth.), "Family Quarto" (Presby.); besides which, the "Annual Register" is a regular publication. The v. is abundantly supplied with water, which is raised from the Muskingum by a powerful forcing-pump, into a reservoir on a hill 160 feet high, and containing 750,000 gallons, and is thence distributed through the village in iron pipes. Bridges connect the v. with Putnam, South Zanesville, and West Zanesville, which are intimately connected with the business interests of Zanesville. Pop. of v. in 1840, 4,766; in 1850, 7,791.

ZAYALLA, p. v., Jasper co., *Tex.*: on E. side of Angelina river, 220 m. E. by N. Austin City.

ZEBULON, p. v., and cap. Pike co., *Ark.*: 90 m. W. S. W. Little Rock. It contains the county buildings and several stores. Pop. about 150.

ZEBULON, p. v., and cap. Pike co., *Ga.*: 68 m. W. Milledgeville. It contains the county buildings, 3 churches, an academy, several stores, etc. Pop. about 300.

ZELIENOPLE, p. v., Butler co., *Penn.*: on S. side of Conquenessing cr., 164 m. W. by N. Harrisburg. It is a pleasant v., containing several mills and stores. Pop. about 300.

ZENAS, p. v., Jennings county, *Ind.*: on Vernon fork of Drusilla r., 55 m. S. S. E. Indianapolis.

ZENO, p. o., York dist., *S. Car.*: 66 m. N. Columbia.

ZIMMERMAN, p. o., Greene co., *Ohio*: 52 m. S. W. by W. Columbus.

ZION, p. v., Centre co., *Penn.*: 65 m. N. W. Harrisburg. In the vicinity is a hot-blast charcoal furnace, with annual capacity of 1,400 tons; also a rolling-mill making plate and sheet iron, employing 16 men.

ZION, p. o., Iredell county, *N. Car.*: 120 miles W. by N. Raleigh.

ZION, p. o., Cecil co., *Md.*: 52 m. N. E. Annapolis.

ZION, p. o., Grant co., *Ind.*: 55 m. N. N. E. Indianapolis.

ZION HILL, p. o., Hamilton county, *Tenn.*: 108 m. S. E. Nashville.

ZION SEMINARY, p. o., Covington co., *Miss.*: on E. side of Bowie cr., 65 m. S. E. Jackson.

ZIONSVILLE, p. o., Lehigh co., *Penn.*: 70 m. E. N. E. of Harrisburg.

ZOAR, p. o., Erie co., *N. Y.*: 267 m. W. Albany.

ZOAR, p. v., Tuscarawas co., *Ohio*: on E. bank of Tuscarawas r., 90 m. E. N. E. Columbus. Settled by a German communist colony, called Separatists, under the government of a patriarch. Their farms and gardens are well cultivated, and the general appearance of the village betokens industry and virtue. Pop. 249.

ZOAR BRIDGE, p. v., New Haven co., *Conn.*: 46 m. S. S. W. Hartford.

ZOLLETSVILLE, p. o., Washington co., *Penn.*: 166 m. W. Harrisburg.
